ABBREVIATIONS

A through H

ACOE - Army Corps of Engineers
ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
Al - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished

I through O

INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile

F - Fixed
 fl - flash
 Fl - Flashing
 G - Green
 HAZ - Hazard to Navigation
 HBR - Harbor
 HOR - Horizontal Clearance
 HT - Height

OBSTR - Obstruction
 Oc - Occulting
 ODAS - Anchored Oceanographic Data Buoy

TEMP - Temporary Aid Change
 TMK - Topmark
 TRLB - Temporarily Replaced by Lighted Buoy
 TRLT - Temporarily Replaced by Light
 TRUB - Temporarily Replaced by Unlighted Buoy
 W - White
 Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

AHOP Above Head of Passes
 BHOP Below Head of Passes
 HSC Houston Ship Channel
 MRGO Mississippi River - Gulf Outlet
 HWY Highway
 IHNC Inner Harbor Navigation Canal
 F/V Fishing Vessel

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

GPS NAVIGATION SYSTEM - WHITE SANDS MISSILE RANGE

The GPS Navigation Signal may be unreliable through March 31, 2009. Due to interference testing on GPS frequencies used in shipboard navigation and handheld systems. GPS systems that rely on GPS, such as E-911, AIS and DSC, may be affected within a 152.69NM radius of position 33-01-07N 106-17-26W. During this period GPS users are encouraged to report any GPS service outages that they may experience during this testing via the Navigation Information Service (NIS), by calling (403) 313-5900 or by using the NAVCEN's web site, GPS report a problem worksheet at www.navcen.uscg.gov.

AUTOMATIC IDENTIFICATION SYSTEM (AIS) PROPOSED RULE

The Coast Guard seeks comment on its proposed rulemaking (73 FR 78295), that clarifies existing Automatic Identification System (AIS) requirements (33 CFR 164.46) and expands AIS carriage beyond Vessel Traffic Service (VTS) areas, to all U.S. navigable waters; and, adds additional vessels to the requirement: commercial vessels carrying 50 or more passengers, fishing vessels 65 feet or greater, hi-speed passenger vessels, dredges and floating plants operating in or near channels or fairways, and vessels carrying or moving certain dangerous cargo. We invite you to visit www.regulations.gov [Docket: USCG-2005-21869] to comment on our proposal and its significant changes to the current AIS requirements. For additional information on AIS and this rulemaking visit www.navcen.uscg.gov.

NAVCEN ANNOUNCES LONG RANGE HELP DESK

The USCG Navigation Center (NAVCEN) announces the operation of the Long Range Identification and Tracking (LRIT) business help desk. The LRIT business help desk will monitor LRIT systems and process inquiries from the public and USCG partners. For more detailed information regarding U.S. LRIT Rulemaking, please refer to the LRIT Final Rule, published in the Federal Register, Department of Homeland Security, 33 CFR Part 169, on Tuesday, April 29, 2008, or visit the LRIT business help desk section of the Navigation Center Website at [HTTP://WWW.NAVCEN.USCG.GOV/LRIT](http://WWW.NAVCEN.USCG.GOV/LRIT), the LRIT business help desk phone number is (703) 313-5788 or (866) 944-LRIT (5748).

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

TEMPORARY CHANGES

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

| Chart Number | Chart Edition | Edition Date | Last Local Notice to Mariners | Horizontal Datum Reference | Source of Correction | Current Local Notice to Mariners |
|--------------|---------------|--------------|-------------------------------|----------------------------|----------------------|----------------------------------|

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

| <u>Approved Project(s)</u> | <u>Project Date</u> | <u>Ref. LNM</u> |

| <u>Advance Notice(s)</u> | | |
| None | | |

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

FL - GULF OF MEXICO - Seismic Survey

Continuing until approximately August 31, 2009, the Seismic Survey Ship ATLANTIC EXPLORER, CALL SIGN C6TU2, will be conducting seismic surveys bounded by the following approximate positions:

28-02-24N 085-34-12W,

27-10-48N 086-28-48W,

28-18-36N 088-13-48W and

29-10-12N 087-11-12W.

Surveying will be performed 24-hours a day, 7-days a week. The support and guard vessels, M/V THOR PROVIDER and M/V TORSVIK, will be monitoring VHF-FM Channels 13 or 77. The ATLANTIC EXPLORER will be towing 6 seismic cables with a length of 7500 meters at a speed of 4.5 knots. The end of the cables will be marked with tailbuoys with strobe lights and radar reflectors. Mariners are urged to pass the vessel at minimum of 5 nautical miles ahead, 5 nautical miles abeam or 10 nautical miles astern.

DPW

FL - GULF OF MEXICO - PANAMA CITY PASS - Inert Shapes

Continuing until approximately the end of January 2009, the Naval Surface Warfare Center, Panama City Division and the U.S. Navy will be installing inert target shapes and conducting multiple operations in an area approximately 50 nautical miles SSW from the mouth of the Panama City Pass. The operations will include the placement of multiple underwater target shapes in the water column up to a depth of approximately 300 feet. In addition, multiple U.S. Navy Ships and support vessels will be operating within 8 nautical miles of the approximate center point position 29-24-49.86N 086-12-36.48W. It is requested that all surface vessels remain clear of any U.S. Navy or support vessels in the area. In addition, it is requested that all trawler vessels stay clear of the area for the entire duration of the event, as the deployed assets are of sufficient size and weight to significantly damage any towed gear, nets, and lines.

DPW

FL - EAST PASS - CHOCTAWHATCHEE BAY - Bridge Fender Replacement Construction - Navigation Channel Temporary Closures - UPDATE

Until about the end of February 2009, work will continue on the project to replace the fender system of the U.S. 98 (County Road 30) fixed span bridge across East Pass, also known as Destin Pass, Mile 0.5, at Destin, Florida.

A 120-foot by 45-foot crane barge and a 120-foot by 40-foot material barge are currently working in the navigation channel Monday through Friday, from 6:00 a.m. until 6:00 p.m., effectively blocking the navigation channel. The adjacent alternate spans through the bridge are available for passage. Mariners should contact the attendant tug, CHARLIE T on VHF-FM Channel 16, for passing instructions prior to transiting through the bridge. Mariners are requested to exercise caution and to pass at their slowest safe speed when operating in vicinity of the construction site to minimize wake.

Chart 11385

LNM: OB

FL - GIWW - SANTA ROSA SOUND - Bridge Fender - Repairs - Channel Restriction

Fender repairs have begun on the County Road 399 Bridge, also known as the Bob Sikes Bridge, across the GIWW, Mile 189.1, EHL, between Gulf Breeze and Pensacola Beach, Florida. A 10-foot by 27-foot construction barge will work in the channel during daylight hours, on weekdays until approximately March, 2009. While working in the channel the barge will reduce the available horizontal clearance by as much as 27 feet. Mariners requiring full channel width for safe passage may contact the attendant vessel, registration number FL 1813 FV, on VHF-FM Channel 16, at least 15-minutes prior to arrival at the bridge in order for the barge to be moved out of the channel. Mariners are requested to exercise caution in

FL - GIWW - SANTA ROSA SOUND - Bridge Fender - Repairs - Channel Restriction

vicinity of the construction work and to pass as their slowest safe speed to minimize wake.

Charts: 11378 11383

LNM: OB

FL - PENSACOLA BAY - Fishing Pier

Continuing until approximately December 2009, construction of a 2,576 foot fishing pier is being conducted, in Escambia County from the Pensacola side of Pensacola Bay, just east of the existing US 98 Bridge from Pensacola to Gulf Breeze. The work will be conducted by 2 crane spud barges, 2 material barges, 2 portable tugs and a crew boat working daylight hours only. The tugs will be monitoring VHF-FM Channel 16. Mariners are urged to transit the area with caution.

Chart 11378

LNM: E-MAIL

AL - DAUPHIN ISLAND - Barge (Adrift) - UPDATE

A 120-foot by 40-foot unlit deck barge was previously reported adrift near Dauphin Island in approximate position 30-14-21.0N 088-20-21.0W, on December 16, 2008. The barge has reportedly been recovered.

AL - THEODORE SHIP CHANNEL - Dredging Operation

Continuing until approximately February 25, 2009, the Dredge G. D. MORGAN will be dredging the Theodore Ship Channel. Dredged material will be deposited into Gaillard Island. Floating and submerged pipelines will be used, in addition to a number of support vessels. All of the dredge equipment will be lighted in accordance with safety regulations. The Dredge G. D. MORGAN will be monitoring VHF-FM Channel 13 or 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 11376

LNM: BNM MO

MS - BILOXI HARBOR - Dredging

Continuing until approximately April 1, 2009, the Dredge E. STROUD will be dredging in the East Access Channel of Biloxi Harbor. The dredged material will be placed in approved open water sites adjacent to the channel. The dredge will utilize floating and submerged pipeline, in addition to a number of support vessels, all lighted in accordance to U.S. Coast Guard Safety Regulations. Dredging will be performed 24-hours a day, 7-days a week. The Dredge E. STROUD will be monitoring VHF-FM Channels 13 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

LA - MISSISSIPPI RIVER GULF OUTLET - Channel Condition

Due to the Congressional de-authorization of the Mississippi River Gulf Outlet Project, the Army Corps of Engineers will construct a barrier across the entire width of the channel in the vicinity of Bayou La Loutre at approximate Mile 36.4. Once the barrier construction begins, all Coast Guard maintained aids to navigation south of the barrier to the entrance in the Gulf of Mexico, with the exception of those at the entrance jetties will be discontinued. More detailed scheduling information will be published as it comes available. Questions may be directed to the New Orleans District, Corps of Engineers at (504) 862-1062 or the Eight Coast Guard District Waterways Management Branch at (504) 671-2107.

LA - BAYOU BIENVENUE - Temporary Safety Zone

The U.S. Coast Guard Captain of the Port New Orleans, under the authority of the Ports and Waterways Safety Act, has established a temporary safety zone in the Bayou Bienvenue, one quarter mile east of the Mississippi River Gulf Outlet (MRGO), construction barges, equipment and support vessels will begin to place test piles and stationary test structures adjacent to the waterway. Temporary barge moorings, dolphins and fixed steel structures should be expected in this construction zone. All construction barge, equipment, support vessels and stationary test structures will be properly marked with day and night indicators. Information and regulatory aids equipped with both day and night indicators will be installed to notify mariners. The waterway will be reduced to 80 feet wide for safe passage around water equipment for approximately 135 days. All mariners should be aware of construction equipment, vessels and stationary structures. Mariners are urged to exercise caution when transiting through the construction zone and to transit at slowest safe speed to minimize wake. Shaw environmental and infrastructure group, IHNC hurricane risk reduction project is performing dredge operations in the area between the Gulf Intracoastal Waterway (GIWW), Rigolets-New Orleans Cut at approximate Mile 14.0 and Mile 18.0 and the MRGO, from the intersection of the MRGO and the GIWW and extending approximately 3-miles seaward along the MRGO. Bayou Bienvenue, approximately one quarter mile east of the MRGO, on November 20, 2008, will be completely closed to traffic until further notice due to dredging operations. A new access channel for construction work is being dredged across the marsh area. The dredging operations will be 24-hours a day, 7-days a week. This dredging activity is expected to last approximately 60 to 90-days. The dredge vessels are the Captain FRANK and the VENTURE and can be reached on VHF-FM Channels 13 or 16. This construction work is being performed by Massman Construction. The construction activities will be working during daylight hours, 6-days a week, approximately 7:00 a.m. until 6:00 p.m., Monday through Saturday, and is expected to last 135 days. The construction vessel M/V DUTCHMAND or M/V ROY can be reached on VHF-FM Channels 13, 16 or 67. Mariners should be aware of construction equipment, vessels and stationary structures. Mariners are urged to exercise caution when transiting the construction zone and to transit at their slowest safe speed to minimize wake.

LA - LOWER MISSISSIPPI RIVER - NEW ORLEANS TO BATON ROUGE - HUEY P. LONG BRIDGE - Construction - UPDATE

Construction continues on the widening project of the Huey P. Long, U.S. 90 Bridge across the Lower Mississippi River, Mile 106.1, AHOP.

Continuous work platforms have been installed below the bridge under all spans except the Span 2, the main navigation span, (See attachments to this notice for pier and span identification). Where work platforms have been installed, the vertical clearance has been reduced by 8 feet, 2 inches.

In the main navigation span, between Piers 1 and II, rail beams for movable platforms have been installed on the bottom of the steel truss. The rail beams will remain in place, reducing the vertical clearance by two feet. Two 64-foot wide, movable platforms have been suspended in the main navigation span between Piers I and II. These platforms will remain next to the bridge piers and out of the channel except for days when navigation restrictions are in effect to allow the platforms to be moved out over the main span navigation channel. The platforms will reduce the vertical clearance below them by 10 feet 8 inches. Triangular red daymarks have been established on the preferred passing side of the movable work platforms.

The Coast Guard Captain of the Port, New Orleans, has established a Safety Zone between Mile 105.6 and Mile 106.6, AHOP, that will remain in effect until February 15, 2009. See the attached Marine Safety Bulletin for details. Mariners should continually refer to the Marine Safety Bulletins, issued by the Coast Guard Coast Guard Sector New Orleans, Waterways Management Division, for updates on the configuration of the platforms below the bridge and available vertical and horizontal clearances and the locations of barges and other floating equipment. Marine Safety Bulletins and other information will also be enclosed with this weekly Local Notice to Mariners. Additionally, mariners should continually monitor the schedules for blockages and/or waterway closures that are issued weekly by the Coast Guard Sector New Orleans, Waterways Management Division. A Marine Safety Bulletin and current schedule can be obtained by sending a request to Coast Guard Sector New Orleans at the following email address: D08-PF-SECNEWORLEANS-WATERWAYS@uscg.mil, telephone 504-565-5103.

For up-to-date information, mariners may contact the Coast Guard Sector New Orleans Waterways Management Division at (504) 565-5103 or the Eighth Coast Guard District Bridge Administration Branch in New Orleans at (504) 671-2128. Additionally, mariners may contact the Coast Guard Vessel Traffic Center 24-hours a day, at (504) 589-2780 or VHF-FM Channels 16 or 67 and on VHF-FM Channel 12, in the construction area on closure days. Mariners may also contact the M/V BILL O'DONLEY or the M/V DUTCHMAN on VHF-FM Channels 16 or 67, for additional information.

Mariners are requested to pass at their slowest safe speed to minimize wake and to exercise due caution at all times in this area.

LA - BAYOU LAFOURCHE - Channel Blockage - UPDATE

Continuing until approximately June 2009, a full channel blockage will occur on Bayou Lafourche, Mile 22.5, at the Golden Meadow Flood Gate, approximate position 29-20-33N 090-14-30W, every weekday between the hours of 7:00 a.m. and 7:00 p.m., for the conversion of the floodgate to a lock system. If construction operations permit, mariners will be able to pass during construction after making passing arrangements with the M/V CAPTAIN HUNTER on VHF-FM Channels 13 or 16. The Golden Meadow floodgate tender will coordinate traffic between 7:00 p.m. and 7:00 p.m. Additionally, the contractor will at times be required to close the entire channel for up to 48-hours, which will be permitted only with 72-hours advance notice. A broadcast notice to mariners will be issued by the Coast Guard advising mariners of such closings.

TX - GIWW - CEDAR LAKES TO ESPIRITU SANTO BAY - Bridge Construction - UPDATE

Construction continues on the new fixed span bridge to replace the existing pontoon span bridge on FM 2031 across the GIWW, Mile 440.7, WHL, at Matagorda, Texas. The Tug MIDWEST I with a 110-foot by 50-foot crane barge and a 30-foot by 120-foot deck barge are working at various locations across the waterway. A form traveler is being used to construct the bridge in segments of 15 feet across the waterway from the south bank out to the center of the waterway. Work on the north side of the waterway has been completed, and the bridge structure now extends out to the channel center overhead. The bottom of the channel most part of the new bridge structure is reported to be lighted with quick-flashing amber light. As the traveler approaches the channel limit, the available vertical clearance will be reduced to approximately 65 feet above mean high water for the 15-foot length of the traveler. The traveler will be lighted with 4 quick-flashing red lights, one on each of the bottom corners.

Mariners are urged to be aware of the reduced vertical clearances and exercise caution when transiting the construction site.
