PUBLIC NOTICE (D8 DWB-871)

All interested parties are notified that an application dated September 28, 2016, has been received from the Tennessee Department of Transportation by the Commander, Eighth Coast Guard District, for approval of the location and plans for the construction of the State Route 13 (SR-13) Bridge replacement over a navigable waterway of the United States. The existing bridge will be removed.

WATERWAY AND LOCATION: Cumberland River, Mile 129.91, Clarksville, Montgomery County, Tennessee.

CHARACTER OF WORK: Construct a fixed bridge to replace the existing SR-13 Bridge which will be removed.

MINIMUM NAVIGATIONAL CLEARANCES:

<u>Existing</u>	<u>Proposed</u>
Horizontal: 375.0 feet measured normal to axis of the channel	340.0 feet measured normal to axis of the channel
Vertical: 72.0 feet above summer pool elevation 359.0 feet, m.s.l., for mid 310 feet of channel.	74.3 feet above summer pool elevation 359 feet, m.s.l.

ENVIRONMENTAL CONSIDERATIONS:

The Federal Highway Administration (FHWA), as the lead federal agency, approved a Categorical Exclusion (CE) for the project on January 28, 2011; due to the length of time passed since the original CE approval FHWA is currently performing a validity review and anticipates issuing an updated CE. The Coast Guard also anticipates approving a CE. The project will be located in the base floodplain. The low steel elevation of the bridge is 433.6 feet, m.s.l. Approximately 5,717 cubic yards of fill will be placed below the 100-year flood elevation of 392.8 feet, m.s.l., no excavation of material below the 100-year flood elevation is anticipated. The applicant applied to the Tennessee Division of Water Quality and Pollution Control for a water quality certification pursuant to Section 401 of the Clean Water Act. The project is not expected to impact wetlands, threatened or endangered species, or to have adverse environmental justice impacts upon minority or low-income populations.

The environmental document is available for review at the office of the Commander (dwb), Eighth Coast Guard District, Bridge Branch, 1222 Spruce Street, St. Louis, Missouri 63103-2832, Monday through Friday, 8:00 a.m. to 4:00 p.m., except Federal holidays.

SOLICITATION OF COMMENTS:

Interested parties are requested to express their views, in writing, on the proposed bridge. Give sufficient details to establish a clear understanding of the reasons for support or opposition to the proposal. Comments are solicited on the possible need for a fendering system for the bridge. Comments will be received for the record at the Office of the Commander (dwb), Eighth Coast Guard District Bridge Branch, Room 2.107f, 1222 Spruce Street, St. Louis, Missouri 63103-2832 through December 12, 2016. Any comments received will be made part of the project case record.

Location map and plans are attached.
