**ABBREVIATIONS**

A through H

ADRIFT - Buoy Adrift  
AICW - Atlantic Intracoastal Waterway  
AI - Alternating  
B - Buoy  
BKW - Breakwater  
bl - Blast  
BNM - Broadcast Notice to Mariner  
bu - Blue  
C - Canadian  
CHAN - Channel  
CGD - Coast Guard District  
C/O - Cut Off  
CONT - Contour  
CRK - Creek  
CONST - Construction  
DAYMK/Daymk - Daymark  
DBN/Dbn - Daybeacon  
DBD/DAYBD - Dayboard  
DEFAC - Defaced  
DEST - Destroyed  
DISCON - Discontinued  
DMGD/DAMGD - Damaged  
ec - eclipse  
EST - Established Aid  
ev - every

I through O

I - Interrupted  
ICW - Intracoastal Waterway  
IMCH - Improper Characteristic  
INL - Inlet  
INOP - Not Operating  
INT - Intensity  
ISL - Islet  
Iso - Isophase  
kHz - Kilohertz  
LAT - Latitude  
LB - Lighted Buoy  
LBB - Lighted Bell Buoy  
LHB - Lighted Horn Buoy  
LGB - Lighted Gong Buoy  
LONG - Longitude  
LNM - Local Notice to Mariners  
LT - Light  
LT CONT - Light Continuous  
LTR - Letter  
LWB - Lighted Whistle Buoy  
LWP - Left Watching Properly  
MHz - Megahertz  
MISS/MSNG - Missing  
Mo - Morse Code  
MRASS - Marine Radio Activated Sound Signal

P through Z

PRIV - Private Aid  
Q - Quick  
R - Red  
RACON - Radar Transponder Beacon  
Ra ref - Radar reflector  
RBN - Radio Beacon  
REBUILT - Aid Rebuilt  
RECOVERED - Aid Recovered  
RED - Red Buoy  
REFL - Reflective  
RRL - Range Rear Light  
RELIGHTED - Aid Relit  
RELOC - Relocated  
RESET ON STATION - Aid Reset on Station  
RFL - Range Front Light  
RIV - River  
RRASS - Remote Radio Activated Sound Signal  
s - seconds  
SEC - Section  
SHL - Shoaling  
si - silent  
SIG - Signal  
SND - Sound  
SPM - Single Point Mooring Buoy  
SS - Sound Signal

EVAL - Evaluation  
EXT - Extinguished  
F - Fixed  
fl - flash  
FI - Flashing  
G - Green  
GIWW - Gulf Intracoastal Waterway  
HAZ - Hazard to Navigation  
HBR - Harbor  
HOR - Horizontal Clearance  
HT - Height

MSLD - Misleading  
N/C - Not Charted  
NGA - National Geospatial-Intelligence Agency  
NO/NUM - Number  
NOS - National Ocean Service  
NW - Notice Writer  
OBSCU - Obscured  
OBST - Obstruction  
OBSTR - Obstruction  
Oc - Occulting  
ODAS - Anchored Oceanographic Data Buoy

STA - Station  
STRUCT - Structure  
St M - Statute Mile  
TEMP - Temporary Aid Change  
TMK - Topmark  
TRLB - Temporarily Replaced by Lighted Buoy  
TRLT - Temporarily Replaced by Light  
TRUB - Temporarily Replaced by Unlighted Buoy  
USACE - Army Corps of Engineers  
W - White  
Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

AHOP Above Head of Passes  
BHOP Below Head of Passes  
HSC Houston Ship Channel  
MRGO Mississippi River - Gulf Outlet  
HWY Highway  
IHNC Inner Harbor Navigation Canal  
F/V Fishing Vessel  
AP Assigned Position

**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

---

**DEPARTMENT OF HOMELAND SECURITY SUSPICIOUS ACTIVITY**

The Department of Homeland Security (DHS) encourages the maritime public to report information concerning suspicious activity to the local Federal Bureau of Investigation Joint Terrorism Task Force (JTTF) Office, [http://www.fbi.gov/about-us/investigate/terrorism/terrorism\\_jttfs](http://www.fbi.gov/about-us/investigate/terrorism/terrorism_jttfs), or to other appropriate authorities. The U.S. Coast Guard reminds the maritime industry that they may also report information concerning suspicious activity to the [www.AmericasWaterwayWatch.org](http://www.AmericasWaterwayWatch.org), the National Response Center (NRC) 1-800-424-8802 or 1-877-24WATCH.

LNM: DPW

**NOTICE OF PLATFORMS, DRILL RIGS AND ATTENDANT VESSELS**

The drill rigs and vessels that have been temporarily established will display lights and sound signals, according to size or class, during periods of darkness and reduced visibility. Numerous large anchor buoys which may be lighted displaying a white 4-second characteristic light and unlighted buoy may be established up to 2,000 or more yards from the vessel or rig site. Mariners should avoid passing close aboard the rigs or vessels. Offshore structures that have been established will display lights and a fog signal sounding 1 blast (2-sec. blast) every 20-seconds. Mooring buoys (white with blue band) may be located within 500 yards of the structure for mooring attendant vessels and/or barges. Mariners should avoid passing close aboard structures.

LNM: DPW/PRIV AIDS

**DGPS SITE OFF-AIR TIME**

Off-air time has been approved for the English Turn, Louisiana, DGPS Site from 1330Z until 1730Z, March 16, 2016.

LNM: 09-16

**GPS TESTING**

Commencing March 14-17, 2016, March 21-24, 2016, and again on March 28-31, 2016, from 1300Z until 1900Z, each day, GPS testing will be conducted centered in approximate position 30-34-45.1N 086-40-45.3W, Eglin Air Force Base, Florida. The impact radius is approximately 214 nautical miles. This testing should NOT affect civilian GPS users. During these periods, GPS users are encouraged to report any GPS service outages that they may experience during the testing, via the Navigation Information Service (NIS) by calling (703) 313-5900 or by using the NAVCEN Website's GPS report a problem worksheet at [www.navcen.uscg.gov](http://www.navcen.uscg.gov).

LNM: 08-16

**GULF OF MEXICO - Operation Phoenix - Marine Event**

Attached as an enclosure to this LNM is information and scheduling concerning a paddle board event starting at Corpus Christi TX, on March 5, 2016 and ending at New York City Harbor, NY., on July 23, 2016. The event will consist of 2 paddleboards approximately 14 feet in length, 1 Sea Doo and 1 safety boat approximately 24 feet in length. The safety boat will monitor VHF-FM Channel 16. For additional information, mariners can contact Tonia Collins at (910) 633-9578.

LNM: 09-16

## SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

### SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

TEMPORARY CHANGES

**SECTION IV - CHART CORRECTIONS**

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01	
(Temp)	ADD	NATIONAL DOCK CHANNEL BUOY 3			at 40-41-09.001N	074-02-48.001W
		Green can				
Corrective Action		Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockw ise from 000 true. Bearings of light sectors are tow ard the light from seaw ard. The nominal range of lights is expressed in nautical miles (NM) unless otherw ise noted.

## SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

## SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

---

### **FL - GULF OF MEXICO - PANAMA CITY - U.S. Navy Testing**

Commencing on approximately March 20, 2016 and continuing until approximately March 28, 2016, the U.S. Navy will conduct inert underwater mine test operations. A survey will be conducted of a 1 mile square area, inert mine shapes will be deployed, surveyed and recovered. The center point of test field is in approximate position 29-44-57N 085-38-25W. Mariners are requested to remain clear a minimum 2 nautical mile radius of test area while operations are being conducted. U.S. Navy test support vessels will monitor VHF-FM Channel 16. Mariners may contact the U.S. Coast Guard Sector Mobile at (251) 441-5976, for additional information.

Charts: 1115A 11360

LNM: 08-16

### **FL - GULF OF MEXICO - PANAMA CITY - ST. ANDREW BAY - U.S. Navy Testing**

The U.S. Navy will be conducting manned dry submersible test operations in St. Andrew's Bay and the Gulf of Mexico through December 31, 2016. The manned dry submersible will operate on the surface, submerged, under tow on the surface and include dive operations. All U.S. Navy support vessels will monitor VHF-FM Channel 16. Mariners are requested to maintain 1 nautical mile distance from all U.S. Navy test operations. For further information mariners may contact the U.S. Coast Guard at (251) 441-5976.

Charts: 11360 11389 11392

LNM: 01-16

### **FL - GULF OF MEXICO - Scientific Instrument Deployment**

Continuing until approximately April 15, 2016, the University of Florida will deploy scientific instruments on the sea floor of the Gulf of Mexico, between Destin Inlet and Cape San Blas, Florida. The instruments are approximately 2.5 feet in height from the sea floor and will be placed in water depths greater than 15 feet. For additional information, mariners may contact the U.S. Coast Guard via VHF-FM Channel 16 or the COTP Mobile at (251) 441-5976.

Charts: 11360 11388 11389 11401

LNM: 47-15

### **FL - GIWW - APALACHICOLA BAY - ST. GEORGE ISLAND CHANNEL - Dredge Operation**

Continuing until approximately March 15, 2016, the Dredge KELLY L will be conducting dredging operations in the vicinity of St. George Island Channel, in Apalachicola Bay, FL. The Dredge KELLY L will be monitoring VHF-FM Channels 13 or 16. Mariners are urged to exercise caution when transiting the area.

Charts: 11401 11404

### **FL - APALACHICOLA-CHATTAHOOCHEE-FLINT - Lock Closure**

Continuing until further notice, Walter F. George Lock, approximate Mile 181.5, is closed for repairs. Mariners can contact ACF Project Management Office at (334) 232-4542, for questions or concerns. For up-to-date information, mariners can contact the U.S. Coast Guard Sector Mobile at (251) 441-5976.

LNM: 09-16

### **FL - FIVE MILE (CINCO) BAYOU - Bridge Rehabilitation - UPDATE**

The SR 85 Bridge across Five Mile Bayou (Cinco) Bayou, mile 0.7, near Fort Walton in Okaloosa County, Florida, bridge rehabilitation work continues, Monday through Saturday, from 7:00 a.m. until 5:00 p.m. The work consists of replacing steel bridge bearings and spall repairs to concrete beams, with a small amount of cathodic protection work on a couple of concrete piles. The navigation channel is located between Bent 9 and Bent 11 as indicated by the navigation lights for the safe passage of motor vessels. The work has started on the south side moving in a northerly direction, with the bridge having a total of 17 bents. Three barges will be placed on each side of the bents (totaling six) with a seventh barge on the end on the east side of the bent. Each bent will take approximately 10 days. The work continues on Bents 6, 7, 11 and 12. The barges will be properly lit according to "Inland Navigational Rule of 1980." Mariners should avoid the area, travel through the navigation spans and urged to proceed at slowest safe speed with extreme caution. Anyone needing assistance should call these contact numbers (850) 377-2219 or (850) 408-1242. Superior Construction will be monitoring VHF-FM Channel 16. The project's estimated completion date of March 2016.

LNM: 09-16

### **FL - CHOCTAWHATCHEE BAY - New Northbound Bridge Construction - Public Notification**

This is an update on the construction of the new fixed span northbound bridge crossing the Choctawhatchee Bay (GIWW, Mile 250.3, EHL), U.S. 331, State Road 83, near City of Freeport, Walton County, Florida. For reference purposes, Pier 17 is immediately north of the main channel span and Pier 16 is immediately south of the main channel span. All construction is east of the existing Clyde B. Wells Bridge and the Choctawhatchee Bay Relief Bridge immediately adjacent to the existing bridge. The permanent navigational lighting still needs to be installed on both sides of the new extended fendering systems. Mariners are requested to use slowest safe speed while transiting the construction site of the bridge. The girders have all been placed and the barges may obstruct the channel to erect formwork and support the deck construction activities. While intermittent blockage occurs in the channel, the contractor can move from the channel with a 2-hour notice by calling the listed numbers. The M/V CAPTAIN BILL and M/V ALBERT PIKE will be monitoring VHF-FM Channel 16. An emergency contact number is (757) 284-0778. This bridge construction continues until approximately August 2016.

Charts: 11385 11388

LNM: 08-16

**FL - SANTA ROSA SOUND - Fireworks Display**

The Portofino Island Resort will be conducting their 2016 Season of Fireworks display on multiple dates starting March 19, 2016 through December 31, 2016. Specific dates will be announced by Broadcast Notice to Mariners. Displays begin at 9:00 p.m. until 9:30 p.m. The fireworks will be launched from a floating platform anchored 500 feet off the end of the resort's pier. Mariners are urged to remain a minimum of 200 yards from the floating platform due to hazards associated with fireworks. For up-to-date information, mariners may contact U.S. Coast Guard Sector Mobile Waterways Management Branch at (251) 441-5976.

Chart 11385

LNM: 09-16

**FL - GARNIERS BAYOU - Bridge Rehabilitation**

The SR 85 Bridge across Garniers Bayou, mile 1.0, near Fort Walton in Okaloosa County, Florida is presently rehabilitating the bridge, working Monday through Saturday, from 7:00 a.m. until 5:00 p.m. The work consists of replacing steel bridge bearings and spall repairs to concrete beams, with a small amount of cathodic protection work on a couple of concrete piles. The navigation channel is located between Bent 13 and 14, as indicated by the navigation lights for the safe passage of motor vessels. Work continues on Bent 12 and should be completed by February 27, 2016. Mariners should avoid the area, travel through the navigation spans and are urged to proceed at slowest safe speed with extreme caution. Anyone needing assistance should call these contact numbers (850) 377-2219 or (850) 408-1242. Superior Construction will be monitoring VHF-FM Channel 16. The project has an estimated completion date of March 2016.

LNM: 07-16

**FL - SAULTSMAN BAYOU AND BASS HOLE COVE- Bridge RIP RAP Rehabilitation**

Rehabilitation work has begun since February 23, 2016, on the US HWY 90 (SR 10) Bridge crossing the Saultsman Bayou and Bass Hole Cove, by placing Rip Rap at the base of the bridges. There will be equipment in the waterway and should not affect the navigation channels. Barges should be properly lighted according to the "Inland Navigation Rules of 1980". Radio equipment will be monitored and a contact number at the job site is (850) 375-9434. The project is to continue for 90 days with a completion date of May 22, 2016.

LNM: 09-16

**FL - GRANDE BAYOU - Bridge Demolition and New Bridge Construction - UPDATE**

Demolition plan of Phase I has begun on the existing CR 292A (Sunset Ave.) for the replacement bridge crossing Grande Bayou, mile 0.9, in Warrington (near Pensacola), Escambia County, Florida. Spans 1 girder erection will occur the week of March 7, 2016. Continues to remove the old Bridge and are at Bent 5. The template for Bent # 4 continues. A barge 80 feet by 80 feet has been placed to assist in the demolition of the old bridge moving in a westerly direction and at 50% complete. There will be two lattice boom crawler crane barges used for the project, measuring (1) 60 feet by 60 feet and (2) 80 feet by 70 feet. Onsite Tug Boat "MISS AMORY" and Tug Boat #9027 will be secured using hydraulically operated spuds with the proper lighting prescribed by the "Inland Navigational Rules of 1980". The tugs will be monitoring VHF-FM Channel 16, during working hours. The project manager can be reached at (334)-319-7006. Mariners should use the marked navigation channel under Span #12, for transit at their slowest safe speed. This channel has a horizontal measurement of 34.5 feet and a vertical clearance of 7.4 feet. Phase I will continue until March 2016.

Chart 11383

LNM: 09-16

**FL - GULF OF MEXICO - CHOCTAWHATCHEE BAY - Military Exercise**

On March 14-16, 2016, a Military Exercise will be taking place in Choctawhatchee Bay and the Gulf of Mexico south of Destin East Pass. The exercise will be between 7:30 a.m. and 5:00 p.m. each day. The exercise will consist of 35 vessels, some air traffic, and possible use of flares. The U.S. Air Force has established a surface danger area that mariners are prohibited from entering during the exercise. The surface danger area is an octagon shape within the following points: 30-18-24N, 086-40-06W; 30-12-30N, 086-47-42W, 29-56-60N, 086-47-42W; 29-52-24N, 086-40-06W; 29-52-24N, 086-26-06W; 29-57-00N, 086-18-30W; 30-12-30N, 086-18-30W; 30-18-24N, 086-26-06W. Mariners can contact the Air Force vessels on VHF-FM Channel 16 for further instruction. For further information mariners may contact the U.S. Coast Guard at VHF-FM Channel 16 or the COTP Mobile at (251) 441-5976.

LNM: 06-16

**AL - DAUPHIN ISLAND - Dredge Operation**

Continuing until approximately March 8, 2016, the Cutterhead Dredge C.R. McCASKILL will conduct dredging operations approximately 4.5 miles offshore of Dauphine Island at a borrow area bound by the following approximate positions:

- 30-10-51.81N 088-03-54.91W,
- 30-10-55.21N 088-03-34.59W,
- 30-10-34.70N 088-03-48.70W and
- 30-10-35.40N 088-03-38.31W.

Dredged material will be transported via floating and submerged pipeline to interim disposal areas thence transported to the beach fill area between approximate positions 30-10-50.00N 088-03-45.00W and 30-14-46.50N 088-04-57.00W. Work will be conducted 24-hours a day, 7-days a week. The dredge and the supporting plant will monitor VHF-FM Channels 16 or 67. Mariners are urged to transit the area at their slowest safe speed to minimize their wake and proceed with caution after passing arrangements have been made.

Charts: 11377 11378

LNM: 03-16

**AL - GIWW - ORANGE BEACH - Wharf Boat & Yacht Show**

The Wharf Marina in Orange Beach, Alabama, will be conducting a boat & yacht show from March 17, 2016 through March 20, 2016. Mariners are

**AL - GIWW - ORANGE BEACH - Wharf Boat & Yacht Show**

urged to transit the area with caution. For up-to-date information, mariners can contact the U.S. Coast Guard Sector Mobile at (251) 441-5976.

Chart 11376

LNM: 09-16

**AL - MOBILE BAY - Dredge Operation**

Continuing until approximately June 2, 2016, the Dredge COLUMBIA will be conducting dredging operations in the Mobile Bay Channel. Dredge material will be disposed of offshore. The Dredge COLUMBIA will be monitoring VHF-FM Channels 13 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Chart 11376

LNM: 05-16

**AL - MOBILE BAY - Pipe "Awash"**

An awash pipe has been reported in Mobile Bay in approximate position 30-19-01.5N 087-57-56.6W. The obstruction is reportedly not marked. Mariners are urged to use caution this area.

**AL - MOBILE SHIP CHANNEL - Dredge Operation**

Continuing until approximately March 15, 2016, the Dredge HENRY A., will be dredging around the McDuffie Terminal in the Mobile Ship Channel. At times there will be an anchor barge located near the edge of the channel. The Dredge HENRY A., will be monitoring VHF-FM Channels 6 or 13. Mariners are requested to contact the Dredge HENRY A., at least 30-minutes in advance to have them move any equipment. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact the U.S. Coast Guard Sector Mobile at (251) 441-5976.

Chart 11376

LNM: 08-16

**AL - THEODORE SHIP CHANNEL - Staging of Dredge Equipment - UPDATE**

Continuing until approximately March 20, 2016, Weeks Marine will stage tugs, barges and dredge pipeline in a turning basin off of the Theodore Ship Channel in approximate position 30-31-47.73N 088-07-12.75W. Dredge pipeline will be assembled and transported to the Dauphin Island project jobsite and then submerged from the borrow area to the beach-fill between the following approximate positions 30-10-50.00N 088-03-45.00W and 30-14-46.50N 088-04-57.00W, using the Theodore Ship Channel and the Mobile Bay Channel. Weeks Marine will monitor VHF-FM Channels 13, 16 or 67. Mariners are urged to exercise caution and transit the area at their slowest safe speed to minimize their wake.

Chart 11376

LNM: 09-16

**AL - MOBILE RIVER - Dredge Operation**

Continuing until approximately April 22, 2016, the Cutterhead Dredge MISSOURI H will be dredging in the vicinity of the Mobile River Channel. Dredged materials will be disposed of using submerged and floating pipeline. The Cutterhead Dredge MISSOURI H will monitor VHF-FM Channels 13 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact the U.S. Coast Guard Sector Mobile at (251) 441-5976.

Chart 11376

LNM: 08-16

**AL - ALABAMA RIVER - Dredge Operation**

Commencing approximately March 10, 2016 and continuing until approximately March 17, 2016, the Dredge HENRY A., will be conducting maintenance dredging operations adjacent to the Mobile River on the east side of the channel at the Alabama Bulk Terminal. At times there will be an anchor barge located near the edge of the channel. The Dredge HENRY A., will be monitoring VHF-FM Channels 6 or 13. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact Randy Stewart at (251) 895-1298 or Justin Tassin at (504) 782-0995.

Chart 11376

LNM: 09-16

**AL - DAUPHIN ISLAND - Naval Testing**

Commencing approximately March 28, 2016 and continuing until approximately April 16, 2016, the Naval Research Laboratory will deploy a total of 4 moorings, trawl-resistant bottom mounted Acoustic Doppler Current Profiler, (ADCP's) and short sub-surface taut line moorings at 3 locations and relocate 2 BOPPER (Bio-Optical Physical Pop-Up Environmental Reconnaissance System) moorings. The planned locations of the moorings are in approximate positions:

- Mooring (1), 30-10-28.16N 088-01-07.57W
- Mooring (2), 30-10-57.00N 088-04-40.51W
- Mooring (3), 30-12-03.49N 088-07-22.15W
- Mooring (4), 30-07-46.13N 088-07-23.09W
- Mooring (5), 30-03-06.80N 088-07-18.91W
- Mooring (6), 29-58-40.01N 088-07-16.00W

Mooring (1) will be a trawl resistant bottom mount ADCP mooring only (1.5-foot extension off bottom). Mooring (2) and (3) will be BOPPERS (Bio-Optical Physical Pop-Up Environmental Reconnaissance System). Mooring (4) will consist of a trawl resistant bottom mount ADCP (as above), plus a line mooring (top of the mooring 30-foot below surface). Mooring (5) will consist of a trawl resistant bottom mount ADCP (as above), plus a line mooring (top of the mooring 50-foot below surface). Mooring (6) will consist of a trawl resistant bottom mount ADCP (as above), plus a line mooring (top of the mooring 50-foot below surface). Nine inch in diameter white buoys with a flashing yellow 2.2 sec., light characteristic will be deployed to mark these subsurface moorings. Mariners are urged to use caution when transiting the area.

**LA - GULF OF MEXICO - Drilling Operations - UPDATE**

Continuing until further notice, the M/V STENA FORTH will be conducting drilling operations at Tubular Bell, in the Mississippi Canyon Area, Block 725, in approximate position 28-14-42.4N 088-55-38.3W. Work will be conducted 24-hours a day, 7-days a week. The M/V STENA FORTH will be monitoring VHF-FM Channels 6 or 16. Mariners are urged to keep a wide berth and maintain a minimum CPA of 2 nautical miles.

Charts: 1115A 11360

LNM: 09-16

**LA - GULF OF MEXICO - Naval Testing**

Commencing approximately March 17, 2016 and continuing until March 27, 2016, the Naval Research Laboratory plans to deploy a total of 3 moorings (2 bottom mounted sub-surface moorings and 1 sub-surface line mooring) on the Mississippi shelf. The current planned locations of the moorings are in approximate positions:

29-16-58.87N 088-37-44.40W (in approximate water depth: 64 meters)

29-16-54.73N 088-30-25.20W (in approximate water depth: 69 meters)

29-02-44.16N 088-33-55.80W (in approximate water depth: 365 meters)

Moorings positions will be updated once the moorings are established. Moorings (1) and (2) will be BOPPERS (Bio-Optical Physical Pop-Up Environmental Reconnaissance System). These moorings will measure current velocities as well as bio-optical properties of the water column. The weighted trawl-resistant dome housing for these moorings rests at the seafloor; it is 2.2 meters in diameter and only 0.7 meters tall when not profiling. Naval Research Laboratory will be planning on profiling once every 3 hours (or 8 profiles per day) for the duration of the deployment. When not profiling, there is no surface or water-column expression; all instrumentation is winched back and stowed in the low-profile, trawl-resistant base. The profiler will be sent to the surface once per profile for satellite communications and the only surface expression is during the short (less than 5 minute) data transmission period. Mooring (3), which is offshore of (1) and (2) will be a line mooring that will consist of a sub-surface float 10 meters from the surface and will be weighed down by 2-3 railroad wheels at the sea-floor. Naval Research Laboratory are planning on deploying instruments along the length of this mooring with 3 ECO Pucks at 12, 28 and 50 meters below the surface, and these sensors will measure bio-optical properties. In addition, the Naval Research Laboratory will be attaching 10 SeaBird microcats at 10 meter intervals on the line mooring between 12 and 150 meters depth. These sensors will measure temperature, salinity and water pressure. This is not a profiling mooring and so the line will be continuously present in the water column, extending from the bottom to 10 meters below the surface. There will be no surface expression of this mooring at any time. Mariners transiting the area are urged to use caution.

**LA - GULF OF MEXICO - Dredge Operation**

Continuing until approximately December 15, 2016, Great Lakes Dredge & Dock Company will be conducting dredging operations and the placement of marsh fill and beach fill on the barrier island of Chenier Ronquille in the Gulf of Mexico for the Chenier Ronquille Barrier Island Restoration Project (BA-76). Sand and marsh fill will be dredged from a distance of one to four nautical miles offshore in designated borrow areas

**LA - GULF OF MEXICO - Dredge Operation**

and will be hydraulically placed with a hydraulic dredge via pipeline. The Project is comprised of offshore borrow areas and the existing barrier island of Chenier Ronquille, in approximate positions:

- 29-20-00.30N 089-48-14.87W
- 29-19-55.93N 089-46-43.13W
- 29-16-49.46N 089-47-02.89W
- 29-17-03.85N 089-52-09.44W and
- 29-18-52.82N 089-50-44.58W

Small craft and survey vessels will be performing sporadic work in the Project Location beginning the second week of February 2016 and continuing through project completion. Mobilization of land-based equipment for primary dike construction will take place in April 2016 and will involve tug boats, followed by primary dike construction within the bounds of the Chenier Ronquille barrier island. Mobilization of dredge equipment and pipelines will begin in May of 2016 and will continue up to the start of dredging and will include tug boats, derrick barges, survey vessels, and various dredge support equipment. Dredge fill activities will begin in the Summer of 2016 and will take approximately four to five months to complete; equipment will include tug boats, derrick barges, survey vessels, and various dredge support equipment. Dredge equipment demobilization will occur after dredging has finished and is expected to take two months; equipment will include tug boats, derrick barges, survey vessels, and various dredge support equipment. For up-to-date information, mariners can contact Mr. Michael Greenwood, at (630) 928-4315 or MGreenwood@gldd.com.

**LA - SOUTHWEST PASS - MISSISSIPPI RIVER - Dredge Operation**

Continuing until approximately March 15, 2016, the Weeks Marine, Inc. Hopper Dredge B.E. LINDHOLM and attendant plant will be operating from Head of Passes to the Lower Jetty Bar Channel and the Mississippi River from Head of Passes Mile 0.0 to Mile 11.0 AHOP. Dredged material will be transported and dumped in Government designated placement sites as directed by the USACE. Dredging will be performed 24-hours a day, 7-days a week. The dredge and attendant plant will have all U.S. Coast Guard required lighting for night operations. The Hopper Dredge B.E. LINDHOLM and attendant plant will monitor marine VHF-FM Channels 16 or 67. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact Mr. Gary Johnson at (985) 237-5026 or macruz@weeksmarine.com.

**LA - EMPIRE WATERWAY - DOULLET CANAL - Lock Closure**

Continuing until April 8, 2016, the Empire Lock located on the Doullut Canal, which opens into the Mississippi River near Mile 29.5, AHOP will be closed to navigation during construction to replace the lock's guide walls. No river traffic will be impeded. The lock will be impassable for the duration of demolition operations. The contractor will be working during daylight hours, 6:00 a.m. until 6:00 p.m., 7-days a week. Once demolition is complete, the lock may be passable at times. There will be one push boat, one safety boat, one spud barge and one material barge on site. Mariners can contact the contractor via VHF-FM Channels 13 or 67 or by phone at (850) 554-8662, before approaching to obtain current information about lock status and plan accordingly. All mariners are requested to use caution and transit the area at their slowest safe speed to minimize wake.

Continuing until further notice, the Bayou Dupre Lock will be closed to navigation.

Chart 11364

LNM: 51-15

**LA - NEW ORLEANS - INNER HARBOR NAVIGATION CANAL - Temporary Deviation - Bridge Closure**

The Commander, Eighth Coast Guard District has issued a temporary deviation from the regulation in 33 CFR 117.458(c), governing the operation of the Senator Ted Hickey bascule span bridge on Leon C. Simon Boulevard across the Inner Harbor Navigation Canal, Mile 4.6, at New Orleans, Orleans Parish, Louisiana. This deviation allows the Louisiana Department of Transportation and Development to close the bridge to navigation from 7:00 a.m. until 2:00 p.m. continuously on Sunday, April 3, 2016. The deviation will allow the draw of the bridge to remain in the closed-to-navigation position, 7:00 a.m. through 2:00 p.m., for the Endurance Festival event.

The vertical clearance of the bridge in the closed-to-navigation position is 46 feet above MHW. Vessels requiring less than 46 feet of clearance may transit beneath the bridge during operations but are urged to exercise caution when doing so. The draw will not be able to open for emergencies during this event. There is an alternate route available via the Rigolets Pass to vessel traffic. Mariners may wish to consider using alternate routes during this closure.

Charts: 11367 11368 11369

LNM: 07-16

**LA - CHEF MENTEUR PASS - Drawbridge Operating Regulation - Temporary Deviation - Bridge Closure**

The Commander, Eighth Coast Guard District has issued a temporary deviation from the regulation in 33 CFR 117.458(c) and 33 CFR 117.436, governing the operation of the Seabrook Highway/ Sen. Ted Hickey Bridge across Inner Harbor Navigation Canal, mile 4.6, in New Orleans, Orleans Parish, Louisiana, and the bridge at Chef Pass over Lake Catherine at Mile 2.8 respectively. These deviations allow the Louisiana Department of Transportation and Development to close the bridges to navigation on April 17, 2016, from 7:00 a.m. through 1:00 p.m. for the Chef Menteur Bridge and from 8:00 a.m. through 5:00 p.m. for the Ted Hickey Bridge. These closures are to facilitate the Ochsner Ironman 70.3 New Orleans Race event.

The vertical clearance of the bridge in the closed-to-navigation position is 46 feet above MHW. Vessels requiring less than 46 feet of clearance may transit beneath the bridge during operations but are urged to exercise caution when doing so. The vertical clearance of the US 90 swing-span bridge at Chef Menteur Pass over Lake Catherine is 11 feet above mean high water. The draw will not be able to open for emergencies. There is an alternate route available via the Rigolets Pass to vessel traffic. Mariners may wish to consider using alternate routes during this closure.

Dredging will be performed 24-hours a day, 7-days a week. Dredge material will be directly pumped by the dredge through submerged and floating pipeline, routed directly from the dredging areas to the designated reclamation area. The Dredge FLORIDA will be monitoring VHF-FM Channels 13 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed after passing arrangements have been made. For up-to-date information, mariners can contact Brian Puckett, at (630) 300-4029.

Chart 11370

LNLM: 05-16

**LA - MISSISSIPPI RIVER - Mile 95.7, AHOP - NEW ORLEANS HARBOR - Sandblasting/Painting**

Until further notice, the new US 90 (Crescent City Connection/GNO) eastbound Bridge across the Mississippi River, Mile 95.7, AHOP, in Orleans and Jefferson Parishes, Louisiana will undergo sandblasting and painting to the underside of the bridge. Presently, work has begun and the containment system for the portions of the bridge outside of the navigation span on the right descending bank has been placed below the bridge. On or about February 22, 2016, the contractor will begin sandblasting within the main channel span, beginning from the right descending bank pier and moving towards the left descending bank pier. The contractor has divided the work into five (5) 300-foot sections within the navigable span and for the purposes of the project will be described as sections A, B, C, D, and E. During the project, the containment system throughout the project will reduce the vertical clearance by one foot at all times and by up to three feet in the lettered section that the contractor will be working within. The contractor will begin in Section A and will work for approximately two weeks before moving into Section B. While working within a section, the containment system may further reduce the published vertical clearance by a total of three feet. If a mariner needs the containment system raised to only the one foot reduction, they may do so with four hours notice by contacting the Vessel Traffic Service at (504) 365-2514.

The work schedule provided indicates that each section should take approximately two weeks to complete and the entire section within the main channel span should be completed by early May, weather permitting. The schedule will be updated as necessary. The published vertical clearance of the bridge is 150 feet above mean high water, elevation 20 feet (or 170 feet minus the Carrollton Gauge). The most accurate and up to date vertical clearance information for the bridge can be found on the NOAA website at: <https://tidesandcurrents.noaa.gov/ports/ports.html?id=8761847&mode=airgap>.

YOU ARE REMINDED that this number has NOT BEEN adjusted to reflect the vertical clearance reduction caused by the containment system.

The information provided will be updated as new information becomes available. Mariners are advised to use extreme caution when traversing the project area. Mariners with questions should contact the Eighth Coast Guard Bridge Administration Branch at (504) 671-2128. Additional information may be provided as necessary by the contractor, Mr. Yianni Koullios, (330) 272-1806 with INTEC (contractor POC), or the New Orleans VTS (Algiers Point traffic control) (504) 365-2514.

**LA - BERWICK BAY - ATCHAFALAYA RIVER - Temporary Deviation from Drawbridge Operating Regulations - Temporary Bridge Closure**

The Commander, Eighth Coast Guard District has issued a temporary deviation from the regulation in 33 CFR 117.5 governing the operation of the BNSF Railroad vertical lift span bridge across Atchafalaya River, Mile 17.5 (also known as Berwick Bay), [GIWW (Morgan City-Port Allen Alternate Road), Mile 0.3] in Morgan City, St. Mary Parish, Louisiana. On March 2, 2016, the closure begins at 11:00 a.m. until 9:00 p.m. with an opening from 2:00 p.m. until 4:00 p.m. and closed-to-navigation from 4:00 p.m. until 9:00 p.m. The bridge will be put in the open position from 9:00 p.m. until 6:00 a.m. On March 3, 2016, the bridge will not be required to open from 6:00 a.m. until 2:00 p.m. each day, thereafter through March 6, 2016. There will be an opening from 2:00 p.m. until 4:00 p.m. to pass any vessels delayed by the bridge closure, work will continue from 4:00 p.m. until 9:00 p.m. with no required openings. The purpose of the closure is to install new Conley joints on the four bases on the east and west ends of the bridges and transition rails on the east and west side of the bridge's north and south sides. Mariners are urged to schedule operations accordingly or the use the Morgan City-Port Allen Landside route through Amelia, Louisiana.

Avg – 35m/day

Consider one day each planned event/rally + 12 days

How many historical weather days to expect? If 20% = 18 days.

Total overage days = 30 days.

Equals 102 Travel Days and 30 Overage Days (Rally or Weather)
