## LOCAL NOTICE TO MARINERS

**District: 11**

**Week: 24/16**

CORRESPONDENCE TO:  
COMMANDER  
DISTRICT ELEVEN (DPW)  
COAST GUARD ISLAND BUILDING 50-2  
ALAMEDA, CA 94501-5100

REFERENCES: COMDTPUB P16502.6, Light List Volume VI, 2016 Edition, U.S. Chart No.1 12th Edition, and Coast Pilot Volume 7 46th Edition. These publications, along with corrections, are available at: <http://www.nauticalcharts.noaa.gov/nsd/cpdownload.htm>.

BROADCAST NOTICE TO MARINERS - Information concerning aids to navigation and waterway management promulgated through BNM HB-0013-16, SF-0116-16, LA-0094-16, and SD-0073-16 have been incorporated in this notice, or will continue if still significant.

---

### SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

---

#### **SUBMITTING INFORMATION FOR PUBLICATION IN THE LOCAL NOTICE TO MARINERS**

A complete set of guidelines with examples and contact information can be found at <http://www.uscg.mil/D11/DP/LnmRequest.asp> or call BM1 Alfred Albert at 510-437-2980 or e-mail [D11LNM@uscg.mil](mailto:D11LNM@uscg.mil). Please provide all Local Notice to Mariners submissions 14 days prior to the start of operations.

#### **BRIDGE INFORMATION- PROJECTS, DISCREPANCIES, CORRECTIONS & REGULATORY**

For all bridge related issues, including lighting, operation, obstructions, construction, demolition, etc. contact the Eleventh Coast Guard District Bridge Administrator 24 hour cell phone at 510-219-4366. Flotsam may accumulate on and near bridge piers and abutments. Mariners should approach all bridges with caution. A vessel delay at a drawbridge may be reported to the District Bridge Administrator by telephone, or by using the DelayRept0207.pdf included in the Enclosures section of this Local Notice to Mariners.

#### **MARINE SAFETY INFORMATION BULLETIN**

Some vessel operators are choosing to depart the Traffic Separation Scheme (TSS) established in the Santa Barbara Channel and transit through an area to the south of San Miguel, Santa Rosa, and Santa Cruz Islands (referenced herein as "south of the Channel Islands"). As such, the Los Angeles / Long Beach Harbor Safety Committee has published voluntary western traffic lanes for vessels approaching and departing the Ports of Los Angeles and Long Beach. Mariners transiting through the western and northern approaches to and from the Ports of Los Angeles and Long Beach (LA/LB) are advised that the established TSS through the Santa Barbara Channel as shown on NOAA and Admiralty charts is the only International Maritime Organization (IMO) approved routing measure in this area. An IMO approved TSS reduces the risk of collision by providing for the separation of arriving and departing traffic and minimizing potentially hazardous crossing situations. Mariners, who have traditionally used this approved TSS, are encouraged to continue to do so. For additional information please see MSIB Voluntary Traffic Lane 11-09.pdf in the Enclosures Section.

LNM: 43/09

#### **MARINE SAFETY INFORMATION BULLETIN**

The Harbor Safety Committee of the San Francisco Bay Region adopted a proposal to establish anchorage berthing schemes in general anchorages 7, 8, and 8A. These berthing schemes will provide more efficient use and greater predictability of the available space in these anchorages. All existing regulations governing the use of these anchorages remain in effect. Vessels using these anchorages should strive to let go their anchor in the center of the drop bucket. For more details or comments contact Sean Kelley, Sector San Francisco VTS Director at 415-399-7402. For additional information see MSIB 15-07.pdf in the enclosure section.

LNM: 47/15

#### **SAN FRANCISCO BAY-ENTRANCE TSS-SPEED REDUCTION**

NOAA Sanctuaries request a voluntary Vessel Speed Reduction until 15 Nov 16 within the SF TSS. Vessels 300 gross registered tons or larger transiting the San Francisco Traffic Separation Scheme (33 CFR 167.400) are encouraged to transit at speeds not in excess of 10kts.

These areas contain concentrations of endangered Blue, Humpback, and Fin Whales that are protected under the Federal Endangered Species Act (16 U.S.C. 1538 et seq.), the Marine Mammal Protection Act (16 U.S.C. 1361 et seq.), and the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.). Please report any collisions with whales or any observed injured or dead whales to NOAA at 877-SOS-WHAL 877-767-9425 or to the U.S. Coast Guard on VHF Channel 16. NOAA is asking for the public's help in tracking whales. If you see whales, please record the date, location, the number of whales, the species (if known) and a description of the animals. Please report sightings to whales@noaa.gov. You can also report whales through WhaleAlert, a free application available at <http://westcoast.whalealert.org>.

For more details or comments please contact Michael Carver at Michael.carver@noaa.gov

Chart 18645

LNM: 17/16

**USCG NATION-WIDE AUTOMATIC IDENTIFICATION SYSTEM (NAIS) NETWORK TESTING**

On August 10, 2015, the U.S. Coast Guard began AIS Application Specific Message (AIS-ASM) testing. The test transmissions may occur at any time, 7 days/week. The test messages can be identified by their Maritime Mobile Service (MMSI) number: 300669139 or 00366613 and by the words "USCG TEST" within the contents of the message. Mariners are requested to contact the USCG Navigation Center at 1-703-313-5900 or TIS-PF-NISWS@uscg.mil with any questions, comments, or to report any safety and/or operational impacts caused by this testing.

Application Specific Messages to be tested include: messages 6, 8, 25, and 26, DAC=367, FI's=22, 29, 33, 35; AIS Safety Related Text (SRM) messages: 8 (DAC=001, FI=0) and 14. The messages will be of various lengths, using repetitions of the text "USCG TEST". For further information on AIS messages, DACs, and FI's visit <http://www.navcen.uscg.gov/?pageName=AIMessages>

LNM: 31/15

**SECTION II - DISCREPANCIES**

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

**DISCREPANCIES (FEDERAL AIDS)**

**SECTION IV - CHART CORRECTIONS**

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01	
(Temp)	ADD	NATIONAL DOCK CHANNEL BUOY 3			at 40-41-09.001N	074-02-48.001W
		Green can				
Corrective Action		Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

**Advance Notice(s)**

**LA/LB-LED CONVERSION**

The U.S. Coast Guard is planning to permanently change Point Vicente Light (LLNR 170) to an LED with a 14nm range. Advanced notice of implementation will be provided once scheduled. Direct any questions to LTJG Leslie Stenkamp at 510-437-3801 or Leslie.A.Stenkamp@uscg.mil.  
Charts: 18020 18022 18740 18746 LNM: 34/15

**SACRAMENTO RIVER-ATON DISCONTINUANCE**

The U.S. Coast Guard is planning to discontinue Sacramento River Deep Water Ship Channel Light 67 (LLNR 7510). Advanced notice of implementation will be provided once scheduled. Direct any questions to LTJG Leslie Stenkamp at 510-437-3801 or Leslie.A.Stenkamp@uscg.mil.  
Chart 18662 LNM: 33/14

**SAN FRANCISCO BAY-CARQUINEZ STRAIGHT-ATON DISCONTINUANCE**

The U.S. Coast Guard is planning to discontinue Carquinez Light 22 (LLNR 6235). Advanced notice of implementation will be provided once scheduled. Direct any questions to LTJG Leslie Stenkamp at 510-437-3801 or Leslie.A.Stenkamp@uscg.mil.  
Charts: 18652 18656 18657 LNM: 09/15

**SAN JOAQUIN RIVER-AID ESTABLISHMENT**

The U.S. Coast Guard is planning to permanently establish a lighted buoy on the east side of San Joaquin River across from San Joaquin River Light 56 (LLNR 6890). This aid will be established at approximate position: 38-04-07.54N 121-33-31.76W. Direct any questions to LTJG Leslie Stenkamp at 510-437-3801 or Leslie.A.Stenkamp@uscg.mil.  
Charts: 18660 18661 LNM: 16/15

**SECTION VI - PROPOSED CHANGES**

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

**PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT**

<b><u>Proposed Project(s)</u></b>	<b><u>Closing</u></b>	<b><u>Docket No.</u></b>	<b><u>Ref. LNM</u></b>
None			

**Proposed Change Notice(s)**

None

## SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

---

### CALIFORNIA COAST-WHALES

NOAA is asking for the public's help in tracking whales. If you see whales, record the date and location, number of whales, species (if known) and a description of the animals. Please email the information to [whales@noaa.gov](mailto:whales@noaa.gov).

Please report collisions with whales, any observed injured whales, or dead whales to NOAA at 877-SOS-WHAL (877-767-9425) or to the U.S. Coast Guard on VHF-FM Chan. 16.

Whales are federally protected under the Endangered Species Act (16 U.S.C. 1538 et seq.), the Marine Mammal Protection Act (16 U.S.C. 1361 et seq.), and the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.).

Charts: 18007 18022

LNM: 49/14

### CALIFORNIA-SANTA BARBARA AND SAN PEDRO CHANNELS-WHALES

NOAA recommends vessels transiting the Traffic Separation Schemes in the Santa Barbara Channel and San Pedro Channel, from May through November, should exercise caution and reduce speed. These areas contain populations of endangered blue, humpback and fin whales which are federally protected under the Endangered Species Act (16 U.S.C. 1538 et seq.), the Marine Mammal Protection Act (16 U.S.C. 1361 et seq.), and the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.).

Chart 18741

LNM: 24/16

### CAMBRIA-FIREWORKS

The Cambria American Legion will sponsor a fireworks display from the beach at Shamel Park at 2100 on 04 Jul 16. There will be a 280ft fallout zone around the launch site. A safety zone pursuant to 33 CFR 165.1125 will be enforced for the fallout zone. Mariners are requested to transit the area with caution. For more details or comments contact Sector LA/LB Waterways Management at 310-521-3860.

Chart 18700

LNM: 23/16

### CAYUCOS-FIREWORKS

The Cayucos Chamber of Commerce will sponsor a fireworks display at 2100 on 04 Jul 16 conducted from the Cayucos Pier. There will be a 420ft fallout zone around the launch site. A safety zone pursuant to 33 CFR 165.1125 will be enforced for the fallout zone. Mariners are requested to transit the area with caution. For more details or comments Sector LA/LB Waterways Management at 310-521-3860.

Chart 18700

LNM: 23/16

### DANA POINT-FIREWORKS

The City of Dana Point will sponsor a fireworks display at 2100 on 04 Jul 16 conducted from a barge located near the Dana Point Harbor breakwater at 33-27-22N 117-41-21W. There will be a 1000ft fallout zone around the launch site. A safety zone pursuant to 33 CFR 165.1125 will be enforced for the fallout zone. Mariners are requested to transit the area with caution. For more details or comments Sector LA/LB Waterways Management at 310-521-3860.

Chart 18746

LNM: 23/16

### DELTA & RIVERS-DISCOVERY BAY-WERNER DREDGER CUT-BRIDGE

ORWOOD RD BRIDGE REPLACEMENT- Construction of the replacement bridge has resumed. A temporary trestle has been installed just south of the existing bridge. A temporary orange boom has been placed on the south side of the existing bridge to the north side of the EBMUD pipeline bridge. The piers of the pipeline bridge and the piers of the existing Orwood Rd Bridge will be lighted at night with fixed red lights (see [Orwood\\_Lighting\\_Diagram2.pdf](#) in enclosure section). A 17ft wide navigation channel has been established on the eastern portion of the project site for the transit of vessels. For more details or comments contact the Coast Guard Project Manager at 510-437-3515.

Chart 18661

LNM: 25/15

### DELTA & RIVERS-MIDDLE RIVER-BRIDGE

BACON ISLAND ROAD DRAWBRIDGE-The drawspan is secured in the closed-to-navigation position, due to structural damage. Estimated time of repairs is unknown. The bridge provides 8ft vertical clearance above Mean High Water when closed. Vessels that can transit the bridge while in the closed position may continue to do so at any time. For more details or comments contact the Coast Guard Bridge Office at 510-437-3461.

Chart 18661

LNM: 23/16

### HUMBOLDT BAY-DREDGING

The Corps of Engineers will be conducting dredging operations in Humboldt Harbor until 30 Jun 16. Dredge ESSAYONS will be performing annual maintenance dredging on the Humboldt Bar and entrance channel. Disposal will be at the designated offshore Humboldt Open Ocean Disposal Site (HOODS). Mariners are requested to transit the area with caution. Dredge ESSAYONS will be monitoring VHF-FM Chan. 16. For more details or comments contact ESSAYONS Master at 503-709-8459 or 503-804-5546.

Chart 18622

LNM: 23/16

### HUMBOLDT BAY-DREDGING

The Corps of Engineers will be conducting dredging operations at Humboldt Bay and Harbor through 01 Jul 16. Disposal will be at the designated offshore Humboldt Open Ocean Disposal Site (HOODS). Dredge BAYPORT will be dredging until 14 Jun 16. Mariners are requested to transit the area with caution. Hopper dredge BAYPORT and dredge ESSAYON will be monitoring VHF-FM Chan. 16. For more details or comments contact the ESSAYON Master at 503-804-5546 or via cell at 503-709-8459.

**HUMBOLDT BAY-DREDGING**

Chart 18622

LNM: 17/16

**HUMBOLDT BAY-HOOKTON CHANNEL-SUNKEN VESSEL**

A sunken 96.6ft sailing vessel has sunk in the vicinity of Hookton channel at 40-43-54N 124-13-09W. The vessel's mast is out of the water at low tide and is marked by a quick flashing green light. Mariners are requested to transit the area with caution.

Chart 18622

LNM: 09/16

**HUMBOLDT BAY-SHOALING**

Due to shoaling at the south jetty tip of Humboldt Bay Bar, swells in excess of 8ft may have an adverse affect in the main shipping channel. Mariners are requested to transit the area with caution and contact U. S. Coast Guard Sector Humboldt Bay on VHF-FM Chan. 16 for assistance. For more details or comments contact U.S. Coast Guard Sector Humboldt Bay at 707-839-6113.

Chart 18622

**PORTS OF LOS ANGELES/LONG BEACH-CERRITOS CHANNEL-BRIDGE**

REPLACEMENT SCHUYLER HEIM BRIDGE CONSTRUCTION - Caltrans has installed turbidity curtains around the in-water piers in during pier removal over the next several months. The curtains lining the navigational channel through the trestles will be on the outside of the channel, behind the trestle wall, away from passing vessels. Vessel prop wash should be controlled to avoid damaging the turbidity curtains. Divers will be used to check the curtains as well as other work associated with bridge removal. Divers will be supported by dive vessels and support crews. The dive vessel will be on scene, out of the channel, during daylight hours, Mon-Sat, and moored off site when not in use. The dive vessel will monitor VHF-FM channel 13, 16, and 80A. The dive company, American Marine Corporation, will notify the Coast Guard Sector Los Angeles - Long Beach Command Center prior to deploying divers, if divers relocate, and upon conclusion of daily dive operations. The Coast Guard will issue a Broadcast Notice to Mariners during dive operations. Vessels needing to transit in the vicinity of dive operations are requested to contact AMERICAN MARINE DIVE VESSEL via marine radio at least 30 minutes prior to transiting the area to ensure diver safety. Mariners may contact USCG Sector LA/LB Command Center at 310-521-3805 for diving operation status. The main span of the being-demolished bridge has been removed and falsework removed from the channel. Two temporary eastern trestles remain in place at the replacement bridge site. The main navigation span of the bridge, between the temporary trestles, provides 48.5ft of vertical clearance from the edge of the trestles to the lowest hittable part of the bridge and 75ft of horizontal clearance. The temporary trestles are lighted at night with fixed red lights (See Trestle\_Lighting\_Heim.pdf at the end of this notice). Portions of the eastern fenders on the existing bridge have been removed. The western portions of the fenders remain in place. Construction activities are taking place from 0700 to 1530, Mon-Fri until May 2017. For conditions at the bridge mariners can contact Caltrans at 213-792-5518, MCM Construction at 714-305-2725, or MCM Construction at 714-330-5370. Mariners are requested to transit the area with caution.

**SAN CLEMENTE ISLAND-SAFETY ZONES**

Mariners operating in the vicinity of San Clemente Island are reminded of the restricted waterway access surrounding San Clemente Island (33 CFR 165.1131; 33CFR 165.1141). Since the inception of the regulations, numerous safety zone violations have been processed by Coast Guard Sector San Diego. Safety Zone Incursions put the public at risk and cause costly and unnecessary training delays, as well as range cancellations. Violators of the San Clemente Island Safety and Security Zones are subject to monetary penalties. Criminal penalties may also be issued for repeated Safety and/or Security Zone violations. Failure to comply with the federal regulations could result in civil penalties of up to \$40,000.00. Furthermore, if a mariner holds a Merchant Mariner Credential, suspension or revocation action may be pursued against the mariner's credential. For more details see MSSB 04-15 SCI Safety Zone.pdf in the enclosure section.

**SAN DIEGO-DANA POINT HARBOR-DREDGING**

CJW Construction, Inc. will conduct dredging operations in Dana Point Harbor, main channel and in the vicinity of the sailing events center dock breakwater in position 33-27-22N 117-41-39W until 20 Jun 16. Dredge operations will monitor VHF-FM 78 during operations. Mariners are requested to transit the area with caution, minimize wake, and make arrangements with dredge vessels prior to passing. For more details or comments contact Project Manager - Mike Munyon at 714-719-2944.

Chart 18746

LNM: 04/16

**SAN FRANCISCO BAY-BRIDGE**

SAN MATEO-HAYWARD BRIDGE - Caltrans' contractor, Liberty Maintenance, will be conducting maintenance during daylight hours, Monday through Saturday. A work platform will be installed below low steel of the bridge deck from piers 2 to 18 and from piers 21 to 38, reducing vertical clearance in those spans by approximately 5 ft. The upstream and downstream low steel of the platform will be lighted at night with red lights placed every 75 ft. A 160ft X 50ft equipment barge and a 110ft X 30ft service barge will be moored, via spuds, at various locations on the north side of the bridge, each corner lighted at night with red lights. RACON M at the center of the main ship channel is inoperative. (See San Mateo Lighting Plan in the enclosure section). The main navigation span of the bridge, between piers 19 and 20 will remain clear at this time. For details at the work site, mariners can contact Caltrans at 408-592-3785, or Liberty Maintenance at 330-272-4667, 516-369-8535, 330-509-4535, or 917-709-0742. For more details or comments contact the Coast Guard Project Manager at 510-437-3515.

**SAN FRANCISCO BAY-FIREWORKS**

The San Francisco Giants will sponsor a pyrotechnics event involving one barge conducting a fireworks display near Pier 48 in San Francisco Bay from approximately 2200-2230 on 24 JUN 16. Mariners are requested to transit the area with caution. For more details or comments contact LTJG Christina Ramirez at 415-399-3585.

Chart 18649

LNM: 23/16

**SAN FRANCISCO BAY-OAKLAND HARBOR-DREDGING**

Camenzind Dredging Inc. will be conducting dredging operations in Oakland Middle Harbor Enhancement Area at 37-48-10N 122-20-00W until 15 Jul 16. A submerged pipeline operated by dredge PAUL VINCENT will be marked with yellow floats and anchors with white buoys. The Operations will remain continuous for the duration of the project. Dredge PAUL VINCENT, work boat FESTER and barge Fred will monitor VHF-FM Chan. 16 and 67. Mariners are requested. For more details or comments contact Project Manager Kurt Camenzind at 650-424-0367.

**SAN FRANCISCO BAY-SUISUN BAY-MARINE CONSTRUCTION**

Cherne Contracting Corporation will be conducting marine construction operations on the Tesoro Avon Wharf in Suisun Bay at 38-02-56N 122-05-27W until July 2016. The work will include the construction of a new Berth 1A and replacement of the existing trestle between the wharf and land. Two temporary mooring buoys have been established at 38-03-5.76N 122-06-29.5W and 38-03-51.4N 122-06-32.6W. Derrick barges VANCOUVER and GENERAL; along with multiple flat barges will be on site monitoring VHF-FM Chan. 13 and 16. Mariners are requested to transit the area with caution and minimize wake in the vicinity of the construction site. For more details or comments contact Glenn Olson at 253-377-4078.

Chart 18656

LNM: 28/15

**SAN FRANCISCO-OAKLAND BAY BRIDGE (EAST OF YBI)**

SAN FRANCISCO/OAKLAND BAY BRIDGE-EAST OF YBI -A Safety Zone has been established from 1000 feet west of pier "I" and extends east to the Oakland shoreline. (see 2015-2017\_East\_SFOBB\_Safety Zone.pdf in enclosure section) This safety zone has been established to protect mariners from the dangers associated with removal operations of the SFOBB. All vessels passing through the bridge east of YBI should use the "T1-E2" span of the Replacement SFOBB Eastern Span until demolition of the replaced bridge is complete. Unauthorized persons or vessels will be prohibited from entering into, transiting through, or remaining in the safety zone without permission of the Captain of the Port or their designated representative.

Work is in progress in removing the spans between piers I-N, Typical in-water equipment to be utilized are two 250' X 72' X 15' barges, two 99' X 99' crane barges, and a 133' X 46' material barge, spudded and anchored beneath the structure. Typical anchor lines will extend from each corner of the barges out 1500 feet. Each corner of the anchored barges shall be lighted at night with an all-round red lights. Red lights will mark the upstream and downstream portion of the pier bases until their removal. (see Barge-504Removal.pdf in enclosure section)

For details at the work site, mariners may contact Caltrans at 650-222-7242 or the Contractor at 510-774-1204. For more details or comments contact the Coast Guard Project Manager at 510-437-3515.

Chart 18650

**SOUTHERN CALIFORNIA-HERMOSA BEACH AND MILLENIUM BEACH-SEABED SURVEY**

M/V Ocean Observer will conduct a sea floor survey from Hermosa and Millennium beaches to 200 miles seaward until 5 Jul 16. M/V Ocean Observer will monitor VHF-FM Chan. 14 and 16. Mariners are requested to transit the area with caution. For more details contact Tom W. Rueter at 907-562-8808

Chart 18700

LNM: 22/16

**SOUTHERN CALIFORNIA-LONG BEACH-HAZARDOUS OPERATIONS**

The U.S. Navy will conduct continuous hazardous operations 03 - 17 Jul 16, in an area bound by the following coordinates:

- 33-14-48N 117-32-24W
- 33-10-48N 117-37-36W
- 33-15-12N 117-42-24W
- 33-19-18N 117-37-12W

Due to high speed maneuvers and operations both USNS JOHN GLENN and USNS STOCKHAM will be restricted in their ability to maneuver. Mariners are requested to transit the area with caution. Both ships can be contacted via VHF-FM 13 and 16. For more details or comments contact 832-917-4567 or 24 hours a day 832-917-7320.

Chart 18774

LNM: 24/16

**SOUTHERN CALIFORNIA-GULF OF SANTA CATALINA - USV OPERATIONS**

The US Navy will be conducting unmanned surface vehicle (USV) operations 11 - 23 Jun 16 in the Gulf of Santa Catalina in a box bounded to the north by parallel 33-22.0N, to the south by parallel 32-43.0N, to the east by 117-26.0W and to the west by 118- 34.0W. Operations will be conducted from M/V MERLIN. The six USVs are 10-ft long and 3-ft wide with only a few inches of freeboard. All have 3-ft masts with orange flag and white fixed steady all around light. During these operations MERLIN and the USVs will be restricted in their ability to maneuver. MERLIN will monitor VHF FM Chan 16. Mariners are requested to transit the area with caution and maintain a safe distance of 1000-yds from MERLIN and the USVs. Questions regarding these operations should be directed to Anna Nguyen at (619) 553-5943 or Mark Gillcrist at (619) 203-1348.

# U. S. Coast Guard Sector Los Angeles – Long Beach

## MARINE SAFETY INFORMATION BULLETIN 11-09

### **Los Angeles / Long Beach Harbor Safety Committee Voluntary Western Traffic Lanes**

There has been a recent trend in traffic patterns where some vessel operators are choosing to depart the Traffic Separation Scheme (TSS) established in the Santa Barbara Channel and transit through an area to the south of San Miguel, Santa Rosa and Santa Cruz Islands (referenced herein as “south of the Channel Islands”). As such, the Los Angeles / Long Beach Harbor Safety Committee has published voluntary western traffic lanes for vessels approaching and departing the Ports of Los Angeles and Long Beach.

Mariners transiting through the western and northern approaches to and from the Ports of Los Angeles and Long Beach (LA/LB) are advised the established TSS through the Santa Barbara Channel as shown on NOAA and Admiralty charts is the only International Maritime Organization (IMO) approved routing measure in this area. An IMO approved TSS reduces the risk of collision by providing for the separation of arriving and departing traffic and minimizing potentially hazardous crossing situations. Mariners, who have traditionally used this approved TSS, are encouraged to continue to do so.

### **Voluntary Western Traffic Lanes**

To address the safety concerns created by increased traffic south of the Channel Islands, on October 6, 2009, the Los Angeles/Long Beach Harbor Safety Committee (LA/LB HSC) endorsed voluntary traffic lanes in the area south of the Channel Islands (referenced herein as “voluntary western traffic lanes.”). The new voluntary western traffic lanes are not approved by the IMO, nor are they approved by any U.S. federal authority, including the U.S. Coast Guard. The LA/LB HSC developed these lanes as a voluntary measure to promote vessel safety. The Coast Guard is taking separate action to study the increased traffic in this area.

The geographical coordinates for the voluntary western traffic lanes are published by the LA/LB HSC secretary at <http://www.mxsocial.org/Blogs/24/Voluntary-Routing-Zones.aspx>.

**Pacific Missile Test Range, Point Magu**

Departing the IMO approved TSS and transiting south of the Channel Islands may result in delays and diversions, as this transit will take vessels through the Pacific Missile Test Range, Point Mugu, California. **The U.S. Navy advises that hazardous operations may take place within the test range.** The test range extends for 180 miles in a South West direction from Point Mugu and is up to 210 miles wide. The specific hazardous areas within the range are broadcast by the Navy daily Monday through Friday at 0900 and 1200 on 2638 kHz and 2738 kHz. When notified by the Navy, the Coast Guard also broadcasts this information on VHF-FM channel 16.

When transiting south of the Channel Islands (inbound or outbound to the Ports of Los Angeles and Long Beach), all mariners should communicate with Navy PLEAD CONTROL in a timely manner so that early decisions can be made regarding safe routing. Every effort should be made to comply fully with any instructions received from the Navy. For information regarding the status of current hazardous operations contact “PLEAD CONTROL” on VHF Marine channel 11 or 16, or at (805) 989-8841/8843 from 0600-1800, and at (805) 816-0792 after 1800. If you are unable to contact “PLEAD CONTROL”, contact “SAN PEDRO TRAFFIC” on VHF-FM channel 14 or (310) 832 6411 for the most recent information regarding hazardous military operations.

The Navy requests all vessels transiting the range to submit a notification to PLEAD CONTROL indicating the vessel name, destination, and estimated time of entry into, and departure from, the test range. Notifications can be faxed to (805) 989-0102.

### **Whales**

Mariners are further reminded that large whales, including Blue, Grey, Humpback, and Fin whales, as well as other marine mammals, have been sighted in and around the Santa Barbara Channel, both within the TSS as well as to the south of the Channel Islands. These whales are all protected under federal law and some are listed as endangered species. Please report any collisions with whales or any observed live, injured, or dead whales, including time and position, to the National Oceanographic and Atmospheric Administration (NOAA) at 877-SOS-WHALE (877-767-9425) or the Coast Guard.

### **Recreational and Fishing Vessels**

The area to the south of the Channel Islands is also used by both commercial fishing vessels and recreational vessels, whose operators may not be aware of the new voluntary western traffic lanes or that ship traffic has recently increased in this area. Since the new voluntary western traffic lanes are not an IMO approved traffic separation scheme, the International Regulations for Avoiding Collisions at Sea (COLREGS) Rule 10 does not apply.

### **Questions**

Questions relating to the voluntary western traffic lanes should be directed to the LA/LB HSC Secretary at (310) 832-6411.

## SAN CLEMENTE ISLAND LIMITED ACCESS ADVISORY

<https://www.scisland.org/>

Mariners operating in the vicinity of San Clemente Island are reminded of the **restricted** waterway access surrounding San Clemente Island (33 CFR 165.1131; 33 CFR 165.1141).

Since the inception of the regulations, numerous safety zone violations have been processed by Coast Guard Sector San Diego. Safety Zone incursions put the public at risk and cause costly and unnecessary training delays, as well as range cancellations. Violators of the San Clemente Island Safety and Security Zones are subject to monetary penalties. Criminal penalties may also be issued for repeated Safety and/or Security Zone violations. Failure to comply with the federal regulations could result in civil penalties of up to \$40,000.00. Furthermore, if a mariner holds a Merchant Mariner Credential, suspension or revocation action may be pursued against the mariner's credential.

San Clemente Island is a top strategic Department of Defense military training facility. Dangerous naval activities occur weekly to ensure deployable military forces are trained for worldwide missions (e.g. small arms training, ground and air explosive ordnance training). Mariners conducting operations around San Clemente Island must abide by Federal regulations that apply to the three NM radius around the island. Eight zones comprise the Safety and Security Zones. Restriction times are based on U.S. Navy live fire exercises. Wilson Cove Security Zone and Safety Zone G are permanently closed. Mariners wishing to transit through Zone G must get preapproval from the U.S. Navy. The U.S. Navy makes every effort to maintain a schedule in advance and minimize public access restrictions. Periods of enforcement can be found at <https://www.scisland.org>. Restricted access areas and times are highlighted in red and listed in the associated website chart. If a Safety Zone section is green, mariners may access the waters. Mariners are advised to contact San Clemente Island via call sign "KRAKEN" on VHF CH 82A, or call Coast Guard Sector San Diego Joint Harbor Operations Center on VHF CH16 or at (619) 278-7033 to verify real-time status of the restricted waters.

If you would like more information about the Security and Safety zones surrounding San Clemente Island, please contact the Coast Guard Sector San Diego Waterways Management Division at 619-278-7656 or by email at [D11-DG-M-SectorSD-Prevention-WaterwaysManagement2@uscg.mil](mailto:D11-DG-M-SectorSD-Prevention-WaterwaysManagement2@uscg.mil).

# Replacement Schuyler Heim Bridge Project

## Temporary Lighting Diagram during Construction

The temporary trestles provide 75 feet of horizontal clearance and 48.5 feet of vertical clearance from Mean High Water to the lowest hittable portion of the bridge between the trestles. The upstream and downstream trestles are lighted at night with steady burning all-round red lights. The center of the navigation span, between piers 14 and 15, is marked at night with all-round steady burning green lights.

TO REDUCE COLLISIONS BETWEEN SHIPS AND WHALES**

May 1 - Nov 15

NOAA Sanctuaries request a voluntary Vessel Speed Reduction from May 1 - November 15 within the SF TSS. Vessels 300 gross registered tons or larger are encouraged to transit at speeds not in excess of 10 kts. These areas contain concentrations of endangered Blue, Humpback, and Fin Whales that are protected under the Federal Endangered Species Act ( 16 U.S.C. 1361 et seq.), the Marine Protection Act ( 16 U.S.C. 1361 et seq.), and the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.).

**Voluntary Vessel Speed  
Reduction Zone: Reduce Speed  
to 10 kts**

# Safety Zone; San Francisco, CA SFOBB Demolition Safety Zone

**South Border: 1000 feet south of the old SFOBB extending to Oakland shore line,**

**West Border: 500 feet west of Pier H,**

**North Border west of Pier H: 250 feet north of new SFOBB extending Pier H,**

**North Border east of Pier H: 100 feet north of new SFOBB extending to Oakland shore line**

**21 August 2015 – 31 December 2017**

## Typical Barge Configuration - Eastern Span SFOBB, mile 8.9, San Francisco Bay

Two 250' X 72' barges, two 99' X 99' crane barges and a 133' X 46' ,material barge will be anchored and spudded underneath spans "I"- "J" (E4-E5), "J"- "K" (E5-E-6), "K"- "L" (E6-E7), "L"- "M" (E7-E8) , and "M"- "N" (E8-E9) at various times to facilitate removal of the spans. The barges will be lighted at night with steady burning red lights. A Coast Guard Captain of the Port Safety Zone is in effect in this work area. Mariners must receive permission from the COTP to enter the Safety Zone. Once the spans and its corresponding towers are removed, each corner of the exposed in-water remaining piers will be lighted at night with steady burning red lights.

## Typical Barge Configuration - Eastern Span SFOBB, mile 8.9, San Francisco Bay

Two 250' X 72' barges and two 99' X 99' crane barges will be anchored and spudded underneath spans "I"- "J" (E4-E5), "J"- "K" (E5-E-6), "K"- "L" (E6-E7), "L"- "M" (E7-E8) , and "M"- "N" (E8-E9) at various times to facilitate removal of the spans. The barges will be lighted at night with steady burning red lights. A Coast Guard Captain of the Port Safety Zone is in effect in this work area. Mariners must receive permission from the COTP to enter the Safety Zone. Once the spans and its corresponding towers are removed, each corner of the exposed in-water remaining piers will be lighted at night with steady burning red lights

## Typical Barge Configuration - Eastern Span SFOBB, mile 8.9, San Francisco Bay

Two 250' X 72' barges and two 99' X 99' crane barges will be anchored and spudded underneath spans "I"-"J" (E4-E5), "J"-"K" (E5-E6), "K"-"L" (E6-E7), "L"-"M" (E7-E8), and "M"-"N" (E8-E9) at various times to facilitate removal of the spans. The barges will be lighted at night with steady burning red lights. A Coast Guard Captain of the Port Safety Zone is in effect in this work area. Mariners must receive permission from the COTP to enter the Safety Zone. Once the spans and its corresponding towers are removed, each corner of the exposed in-water remaining piers will be lighted at night with steady burning red lights

33° 57.726 -118° 28.059  
33° 48.356 -118° 28.059  
33° 57.726 -118° 23.359  
33° 48.356 -118° 23.359

# San Mateo-Hayward Bridge, mile 22.7, San Francisco Bay Maintenance - Work Platform and Barge Lighting Diagram

**Below Deck Work Platform Lighting**  
The below deck platform will be lit at night with steady burning red lights placed upstream and downstream on the lowest hittable portion of the platform spaced every 75 feet.

Typical Barge Locations

**Barge Lighting Diagram**  
Each corner of each moored barge shall be lighted at night with steady burning all round red lights.

# Safety Zone

## Grand Canal, Newport Beach

The Captain of the Port has established a temporary safety zone (area highlighted in red below) in support of navigation safety during the Park Ave Bridge Replacement at Newport Beach Grand Canal on Balboa Island from 04 Apr 2016 through 31 Jan 2017.

Persons and vessels are prohibited from entering into, departing from, transiting through, or anchoring within the designated area unless authorized by the Captain of the Port Los Angeles-Long Beach or her designated representatives.

**MARINE SAFETY AND SECURITY  
INFORMATION BULLETIN  
(MSIB) 15-07**

**September 28, 2015**

U.S. Department of Homeland Security, Coast Guard Sector San Francisco

**Establishment of Anchorage Berths in General Anchorages 7, 8 and 8A\***

On September 10, 2015 the Harbor Safety Committee of the San Francisco Bay Region adopted a proposal to establish anchorage berthing schemes in general anchorages 7, 8 and 8A\*. These berthing schemes will provide more efficient use and greater predictability of the available space in these anchorages. Specific berth information is contained in the tables below.

ANCHORAGE 7 BERTH COORDINATES		
COORDINATES INDICATE CENTER OF .05NM (100YD) DIAMETER DROP BUCKET		
Berth	Latitude	Longitude
7N	37° 49.617'N	122° 23.403'W
7S	37° 49.178'N	122° 22.967'W

ANCHORAGE 8 BERTH COORDINATES		
COORDINATES INDICATE CENTER OF .05NM (100YD) DIAMETER DROP BUCKET		
Berth	Latitude	Longitude
8N	37° 47.575'N	122° 21.485'W
8C	37° 47.395'N	122° 20.890'W
8S	37° 46.910'N	122° 21.050'W
8E1	37° 47.835'N	122° 21.000'W
8E2	37° 46.905'N	122° 20.480'W

ANCHORAGE 8A* BERTH COORDINATES		
COORDINATES INDICATE CENTER OF .05NM (100YD) DIAMETER DROP BUCKET		
Berth	Latitude	Longitude
8A	37° 47.050'N	122° 21.725'W

\*Anchorage 8A exists only when activated by VTS.

All existing regulations governing the use of these anchorages remain in effect. Vessels using these anchorages should strive to let go their anchor in the center of the drop bucket. For additional information please contact Sean Kelley, Sector San Francisco VTS Director (415) 399-7402.

  
 G. G. Stump  
 Captain, U.S. Coast Guard  
 Captain of the Port

## General Anchorage 7 berths

Drop circles or "buckets" are .05NM (100 yds) in diameter

## General Anchorages 8 & 8-A berths

Drop circles or "buckets" are .05NM (100 yds) in diameter
