Coast Guard**

LOCAL NOTICE TO MARINERS

District: 17

Week: 28/16

-Navigation Information Service (NIS)-
Watchstander, 24 hours a day at (703) 313-5900
-Navcen Internet Address-
www.navcen.uscg.gov
-Local Notice to Mariners-
<http://www.navcen.uscg.gov/?pageName=lnmMain>

Issued by: Commander (DPW) Telephone: (907) 463-2269 (0800-1600)
Seventeenth Coast Guard District After Hours: (907) 463-2000 (1600-0800)
PO Box 25517, Juneau, AK 99802-5517
<http://www.uscg.mil/d17/D17%20Divisions/dpw/dpw.asp>

Questions, comments, or additional information on this Local Notice to Mariners should be sent to the address above or by E-mail to: D17-PF-D17-LNM@uscg.mil. You can get the U.S. Coast Guard 17th District Local Notice to Mariners via the Internet directly from the U.S. Coast Guard Navigation Center web site at <http://www.navcen.uscg.gov/?pageName=lnmDistrict®ion=17>.

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
AI - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
Fl - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - KiloHertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition: None

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

465 ALASKA – SOUTHWESTERN – BRISTOL BAY – UGASHIK

Two vessels have been reported aground or sunk in the Ugashik river in the vicinity of the town of Ugashik. An aluminum landing craft approximately 60 feet in length has been reported aground upriver from Ugashik in approximate position 57°33.345'N, 157°24.508'W. A fiberglass set net skiff was reported sunk at a mooring ball approximately 800 feet from the river bank near the town of Ugashik in approximate position 57°30.906'N, 157°24.359'W. Questions/concerns should be directed to the Coast Guard Sector Anchorage Command Center at (907) 428-4100.

LNM: 28/16

466 ALASKA – SOUTHEAST – DIXON ENTRANCE AND SOUTHERN CLARENCE STRAIT

The Coast Guard will be conducting maintenance on the Duke island VHF/FM high site from July 16th through July 18th, 2016. The Coast Guard will have no VHF/FM coverage for Dixon Entrance, Southern Clarence Strait, and Revilagidedo Channel during this period. All stations are requested to relay any distress calls or requests for assistance to the nearest Coast Guard unit or to the Coast Guard Sector Juneau Command Center at (907) 463-2980.

LNM: 28/16

467 ALASKA – SOUTHEAST – WATERS IN THE VICINITY OF NORTHERN ADMIRALTY ISLAND

The Coast Guard will be conducting maintenance on the Robert Baron VHF/FM high site from July 15th through July 17th, 2016. The Coast Guard will have no VHF/FM coverage for Icy Strait and the waters surrounding Northern Admiralty Island during this period. All stations are requested to relay any distress calls or requests for assistance to the nearest Coast Guard unit or to the Coast Guard Sector Juneau Command

Center at (907) 463-2980.

LNM: 28/16

468 **ALASKA – WESTERN – BERING STRAIT**

The following subsurface data moorings have been serviced and/or relocated:

TYPE/NAME:	POSITION:	WATER DEPTH:	TOP FLOAT DEPTH:
A2-15	65°46.870'N, 168°34.060'W	184 feet	49 feet
A3-15	66°19.570'N, 168°57.040'W	190 feet	49 feet
A4-15	65°44.760'N, 168°15.770'W	161 feet	49 feet

Questions/concerns should be directed to Rebecca Woodgate at (206) 221-3268 or by email to woodgate@apl.washington.edu.

LNM: 28/16

469 **ALASKA – SOUTHWEST – BERING SEA**

NOAA's Pacific Marine Environmental Laboratory (PMEL) will be deploying and operating 2 Wavegliders in the Bering Sea from approximately July 7th, 2016 through September 25th, 2016. The wavegliders are remotely operated vehicles, yellow, approx 2 meters in length, and travel at about 1 knot. Wavegliders will be operating approximately along 60N between 168W and 175W. Questions/comments should be directed to Daniel Langis at 206-851-7098 or by email to daniel.p.langis@noaa.gov.

LNM: 28/16

471 **ALASKA**

The US Coast Guard (USCG), the US Army Corps of Engineers (USACE), and the Department of Transportation (DOT) have released a Federal Register Notice announcing a reduction of the Nationwide Differential Global Positioning System (NDGPS). NDGPS service augments GPS by providing increased accuracy and integrity using land-based reference stations to transmit correction messages over radiobeacon frequencies. The service was implemented through agreements between multiple Federal agencies including the USCG, DOT, and USACE, as well as several states and scientific organizations, all cooperating to provide the combined national DGPS utility. However, a number of factors have contributed to declining use of NDGPS. Based on an assessment by the Department of Homeland Security (DHS), DOT, and USACE, the agencies will shut down and decommission 37 DGPS sites, which will leave 46 operational sites available to users in coastal areas. Termination of the NDGPS broadcast at the 37 sites is planned to occur on August 5, 2016. The only DGPS site being closed in Alaska is located in Cold Bay. The full notice can be found via this link: <https://federalregister.gov/a/2016-15886>.

LNM: 27/16

472 **ALASKA – ARCTIC – BEAUFORT SEA – OLIK TOK**

Global Marine Systems LTD has been contracted to install submarine fiber optic telecommunications cable for the Quintillion Cable system in the vicinity of Oliktok, Alaska. This work will be accomplished from July 30th through September 7th, 2016. The CB NETWORKER is a non-propelled cable installation barge that will conduct pre-trenching and simultaneous subsea cable lay/burial operations. The CB NETWORKER will be towed by the VOS THALIA. These vessels will be limited in their ability to maneuver when conducting underwater operations. Mariners are requested to maintain a 1NM CPA from the barge and 500 yard CPA from cable buoys and reduce speed to minimize wake when passing. The Alpha flag will be displayed during diving operations. Questions/concerns should be directed to John Wrottesley at +44 7836 231 998 or by email to john.wrottesley@globalmarinesystems.com.

LNM: 26/16

473 **ALASKA – ARCTIC – CHUKCHI SEA – WAINWRIGHT**

Global Marine Systems LTD has been contracted to install submarine fiber optic telecommunications cable for the Quintillion Cable system in the vicinity of Wainwright, Alaska. This work will be accomplished from July 22nd through July 27th, 2016. The CB NETWORKER is a non-propelled cable installation barge that will conduct pre-trenching and simultaneous subsea cable lay/burial operations. The CB NETWORKER will be towed by the VOS THALIA. These vessels will be limited in their ability to maneuver when conducting underwater operations. Mariners are requested to maintain a 1NM CPA from the barge and 500 yard CPA from cable buoys and reduce speed to minimize wake when passing. The Alpha flag will be displayed during diving operations. Questions/concerns should be directed to John Wrottesley at +44 7836 231 998 or by email to john.wrottesley@globalmarinesystems.com.

LNM: 26/16

474 **ALASKA – WESTERN – NORTON SOUND – NOME**

Global Marine Systems LTD has been contracted to install submarine fiber optic telecommunications cable for the Quintillion Cable system in the vicinity of Nome, Alaska. This work will be accomplished from July 11th through July 22nd, 2016. The CB NETWORKER is a non-propelled cable installation barge that will conduct pre-trenching and simultaneous subsea cable lay/burial operations. The CB NETWORKER will be towed by the VOS THALIA. These vessels will be limited in their ability to maneuver when conducting underwater operations. Mariners are requested to maintain a 1NM CPA from the barge and 500 yard CPA from cable buoys and reduce speed to minimize wake when passing. The Alpha flag will be displayed during diving operations. Questions/concerns should be directed to John Wrottesley at +44 7836 231 998 or by email to john.wrottesley@globalmarinesystems.com.

LNM: 26/16

481 **ALASKA – SOUTHWESTERN – BERING SEA – ALEUTIAN ISLANDS**

Resolve Marine Group will be scuttling the M/V POINT GRENVILLE approximately 16 NM NNW of Bishop Point, Unalaska Island, in position 54° 10'N, 167°08'W in over 900 fathoms of water. The tug MAKUSHIN BAY will tow the M/V POINT GRENVILLE to the scuttling location sometime during early July, 2016 when weather conditions are favorable for the tow and scuttling. The tug MAKUSHIN BAY will make Security broadcasts before commencing their tow and every two hours during the tow and until the scuttling has been completed. Questions/concerns should be directed to David Maruszak at (954) 764-8700 or by email to dmaruszak@resolvemarine.com.

LNM: 26/16

483 **ALASKA - NUNIVAK ISLAND/ETOLIN STRAIT**

Terrasond Limited will be conducting a hydrographic survey of Etolin Strait near Nunivak Island from approximately June 25th through August 12th, 2016 for the purpose of nautical chart updating. The survey area extends from Mekoryuk in the west to Toksook Bay in the east, and the northern approach to Etolin Strait as well as Etolin Strait itself. The survey will be conducted by the R/V QUALIFIER 105 (Q105), a 105' survey vessel, white in color and marked "RESEARCH". The vessel will be monitoring VHF Channel 16. An 18' unmanned vessel, yellow in color, will be also be deployed and will be remotely controlled and monitored from the Q105. Both vessels will work in close proximity to each other and will have limited maneuverability due to towed sonar. Mariners are requested to transit the area with caution and to remain clear of the vessels while surveying is in progress, and to contact the Q105 with any immediate navigation concerns. Please direct questions to the TerraSond Charting Program Manager, Andrew Orthmann at (907) 745-7215, or by email at aorthmann@terrasond.com.

LNM: 25/16

489 **ALASKA – SOUTHWEST – BRISTOL BAY – CAPE GREIG**

The U.S. Fish and Wildlife Service (USFWS) would like to notify mariners that there is currently a large group of walrus hauled out on the beach at Cape Greig. Large concentrations of walrus can be expected to be encountered in the near shore waters. To prevent disturbance at this haulout the U.S. Fish and Wildlife Service suggests that all marine vessels 50 feet in length or less should remain at least a 0.5 nautical mile away from hauled out walrus. Marine vessels 50 - 100 feet in length should remain at least 1 nautical mile away from hauled out walrus, and marine vessels greater than 100 feet in length should remain at least 3 nautical miles away from hauled out walrus. All vessels should refrain from anchoring or conducting tendering operations within 3 miles of hauled out walrus. It is anticipated that walrus will continue to use the Cape Greig haulout through the summer months.

Marine vessels traveling in a predictable manner appear to be less disturbing to walrus. If you observe walrus in the water, near your vessel, avoid excessive speed or sudden changes in speed or direction. Vessel operators should take every precaution to avoid harassment of walrus when a vessel is operating near these animals. Vessels should reduce speed and maintain a minimum 805-m (0.5-mi) separation distance from the vessel to groups of walrus encountered in the water. Vessels should not be operated in such a way as to separate members of a group of walrus from other members of the group.

Pacific walrus are protected under the Marine Mammal Protection Act (MMPA) and harassment or disturbance is illegal. Questions/concerns should be directed to the USFWS, Marine Mammals Management toll free at 1-800-362-5148. To report instances of disturbance or harassment contact: USFWS, Office of Law Enforcement toll free at 1-877-535-1795 or 1-800-858-7621.

LNM: 24/16

495 **ALASKA – BEAUFORT SEA – OLIK TOK POINT**

R.T. Casey, LLC will be conducting horizontal directional drilling to support the Quintillion Fiber Optic Project from July 9 to July 23, 2016, which will include diving and support activities approximately 0.3 NM offshore in approximate position 70°30'39.2804"N, 149°52'53.2983"W. A shallow water vessel will provide offshore dive support. The vessel will be monitoring VHM/FM channels 7 and 13, and UHF channel 1. Mariners are requested to maintain a 1,000 yard CPA. Questions/concerns should be directed to R.T. Casey, LLC at (907) 855-1521 or (504) 491-2288.

LNM: 23/16

496 **ALASKA – SOUTHCENTRAL – COOK INLET NAVIGATION CHANNEL**

The Cook Inlet Navigation Channel was dredged during the summer of 2014 to a project depth of -38 feet (FT) mean lower low water (MLLW). A project condition survey was conducted on April 15th, 2016 in which the following controlling depths were recorded:

Left Outside Quarter 61°12'19.44"N, 150°04'38.99"W and 61°12'29.31"N, 150°03'58.18"W both at -40.1 FT MLLW

Left Inside Quarter 61°12'0.69"N, 150°05'33.03"W at -41.1 FT MLLW

Right Inside Quarter 61°11'57.74"N, 150°05'33.02"W at -39.8 FT MLLW

Right Outside Quarter 61°12'04.17"N, 150°04'55.28"W at -39.6 FT MLLW

A chartlet of the controlling depths as well as survey data are available on the U.S. Army Corps of Engineers (USACE), Alaska District website at: <http://www.poa.usace.army.mil/About/Offices/ConstructionOperations/RiversandHarbors.aspx> No maintenance dredging is scheduled for this channel during 2016. A condition survey of the channel is tentatively scheduled for May 2017. Questions/concerns should be directed to Donna West with the USACE Anchorage office at (907) 753-2761 or by email to Donna.L.West@usace.army.mil.

LNM: 23/16

498

ALASKA – SOUTHWESTERN – BERING SEA

NOAA and the Pacific Marine Environmental Laboratory will be deploying two unmanned science vehicles (saildrones) in the Eastern Bering Sea for oceanographic research from June through mid-September, 2016. These saildrones will depart and return to Dutch harbor and travel as far North as 59°30'N. Vessels are requested to maintain a CPA of at least 500 meters. Additional information including a chartlet of the area of operation and a photo depicting one of the saildrones is included as an enclosure to this LNM. Questions/concerns should be directed to Noah Lawrence at (206) 526-6209 or by email to noah.lawrence-slavas@noaa.gov.

LNM: 22/16

501

ALASKA – SOUTHEAST – GASTINEAU CHANNEL

Manson Construction Co. has moored the North Berth Concrete Pontoon for the Port of Juneau Cruise Ship Berths project in Gastineau Channel outside of the breakwater just West of Aurora Harbor. The mooring consists of two temporary unlighted mooring buoys. Mooring Buoy "1" will be located in position 58°18'12.85"N, 134°26'9.29"W. Mooring Buoy "2" will be located in position 58°18'16.26"N, 134°26'16.38"W. These buoys were established in May of 2016 and will be removed in October of 2016. The pontoon moored between the buoys has a fixed white light with a 2 NM nominal range at each corner. Questions/concerns should be directed to Erik Dolmseth at (206) 384-3025 or by email to edolmseth@mansonconstruction.com.

LNM: 22/16

519

ALASKA – SOUTHCENTRAL – COOK INLET

The Furie Energy JULIUS R. gas production platform is located near Middle Ground Shoal in Cook Inlet in position 60°56'10.1620"N, 151°09'31.0270"W. It is a monopod production platform and is manned 24 hours a day and 7 days a week and monitors VHF/FM channel 12. It is currently not charted but chart corrections will be issued as soon as the documentation has been processed. Questions/concerns should be directed to Tom Rueter with Alaska Maritime Agencies at (907) 562-8808 or by email to ncops@alaskamaritime.com.

LNM: 19/16

538

ALASKA – ARCTIC

The U.S. Navy has abandoned an ice camp established to conduct Navy testing, training, and research activities due to unsafe ice conditions. The last known position of the ice camp was 73°18'8"N, 151°55'31"W on April 1, 2016. All personnel and most of the material was safely evacuated, but some material from the camp remained on the ice. The remaining material included items such as tents, cardboard boxes of food, camping style foam mats, sleeping bags, pillows, foldable chairs, tables, some wiring/lighting, and cooking materials. No oil/fuel products, explosives, or hazardous materials were left behind. Questions/concerns should be directed to CDR Deborah Loomis at (757) 836-5956 or by email to Deborah.loomis@navy.mil.

LNM: 15/16

550

ALASKA – SOUTHWESTERN – ALEUTIAN ISLANDS – DUTCH HARBOR

Arch Rock LT 3A has been destroyed and is temporarily discontinued. The temporary lighted green buoy 3A displaying a flashing green 2.5 second light has been relocated to position 53°52'35.048"N, 166°34'02.508"W, 40 yards SW of the previous position of LT 3A. Questions/concerns should be directed to Todd Buck with the Coast Guard District 17 Waterways Management Office at (907) 463-2269 or by email to todd.r.buck@uscg.mil.

LNM: 11/16

551

ALASKA – WESTERN – BERING SEA – ST PAUL HARBOR (VILLAGE COVE)

Kiewit Infrastructure West Co. will be conducting maintenance dredging and harbor improvements for the U.S. Army Corps of Engineers in the St. Paul harbor (Village Cove) from May 1st to August 30th, 2016. This work will typically be performed on a 24 hour basis by the Derrick-Barge DB SEATTLE as well as associated material barges and tug traffic. The dredged material will be offloaded at the St. Paul harbor docks and dumped at an uplands location. The dredge will be monitoring VHF/FM channels 13 and 16. Mariners are requested to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. St. Paul Harbor Jetty Light 3 (LLNR 27831) will be temporarily discontinued and removed during most of the project. Questions/concerns should be directed to Clint Lane, the project manager, at (907) 444-1560.

LNM: 11/16

561

ALASKA – SOUTHEAST – SOUTHERN CHATHAM STRAIT

Twenty-four reference moorings will be deployed from approximately March 16th through December 15th, 2016 in the vicinity of Port Walter in Southern Chatham Strait. All moorings will be a minimum of 200 meters apart and at least 50 meters from shore. Additional information including a list of the mooring positions and a chartlet depicting those positions is included as an enclosure to this LNM. Please direct questions/concerns to John Eiler at (907) 789-6033 or by email to john.eiler@noaa.gov.

LNM: 06/16

568

ALASKA – SOUTHEAST – SECURITY BAY

An uncharted reef with a depth of 4 feet has been reported in Security Bay in approximate position 56°50.483'N, 134°20.325'W and extending shoreward to the Northeast. Soundings within Security Bay were also reported to be up to two fathoms shallower than the charted depth.

Mariners are requested to transit the area with caution and report any charting discrepancies to Todd Buck with the Coast Guard Waterways Management Office at (907) 463-2269 or by email to todd.r.buck@uscg.mil.

LNM: 05/16

572 **ALASKA – SOUTHCENTRAL – RESURRECTION BAY – SEWARD**

Hamilton Construction will be conducting dredging and breakwater construction at the Seward Marine Industrial Center Basin on the East shoreline of Resurrection Bay to create a new entry channel into the basin from the North as well as installing associated new navigational aids and marker piles. Work on this project will occur from January 18th, 2016 through April 30th, 2017. The tugs SKOOKUM, COSMIC WIND, and LITTLE TOOT and the barges POINT NO POINT, KVICHAK TRADER and WAYNEHOE will be involved in this project. Work may be conducted seven days a week from 0600 to 2200 local time. Vessels will be monitoring VHF/FM channel 16. Questions/concerns should be directed to Hamilton Construction at (907) 334-3910 or on VHF/FM channel 16.

LNM: 01/16

623 **ALASKA – KODIAK – ALITAK BAY**

A deck barge 72 X 25 feet has sunk in 84 feet of water in approximate position 56°53.79'N, 154°22.74'W. Mariners are requested to transit the area with caution. Questions/concerns should be directed to the Coast Guard Sector Anchorage Command Center at (907) 428-4100 or on VHF/FM channel 16.

LNM: 37/15

637 **ALASKA – WESTERN – NOME**

The Army Corps of Engineers (USACE) has discovered a potential obstruction in the outer entrance channel to the Nome Harbor. The obstruction was identified during the 2015 maintenance dredging operations and confirmed by multi-beam sonar equipment during a project condition survey. The approximate center location of the obstruction is 64°29'41.344"N 165°26'11.968"W. The least depth in the vicinity of the obstruction is 20.1 feet below mean lower low water. Mariners should exercise caution while navigating this area and report any strikes to Lucas Stotts, Harbormaster (907) 304-1906. The approximate obstruction location is based on preliminary survey data submitted by eTrac Inc. on 24 August, 2015 to the U.S. Army Corps of Engineers, Alaska District. The approximate dimensions of the obstruction are 7 feet long by 5 feet wide by 2.5 feet tall. USACE will update this notice as soon as additional information becomes available. Questions/concerns should be directed to Michael Teneza, Operations Project Manager (907) 753-2648 or Tom Sloan, Chief Geomatics Section (907) 753-2658.

LNM: 34/15

705 **ALASKA – SOUTHEAST**

The U.S. Coast Guard has VHF Digital Selective Calling (DSC) capability with limited coverage in Southeast Alaska. The initial coverage areas are Ketchikan, Juneau and Yakutat. Mariners are reminded to ensure that they have properly connected their GPS units to their DSC equipped marine VHF radios and registered for their Maritime Mobile Service Identity (MMSI) to utilize the DSC distress function. Additional information is available through the Alaska Outdoors Forum at [http://forums.outdoorsdirectory.com/showthread.php/142083-Digital-Selective-Calling-\(DSC\)](http://forums.outdoorsdirectory.com/showthread.php/142083-Digital-Selective-Calling-(DSC)) or by contacting Mike Folkerts with the Coast Guard District 17 Boating Safety Office at (907) 463-2297 or by email to Michael.r.folkerts@uscg.mil.

LNM: 15/15

707 **ALASKA – SOUTHCENTRAL**

The U.S. Coast Guard has VHF Digital Selective Calling (DSC) capability with limited coverage in Southcentral Alaska. The initial coverage areas are Upper Cook Inlet, Kodiak and Valdez Arm. Mariners are reminded to ensure that they have properly connected their GPS units to their DSC equipped marine VHF radios and registered for their Maritime Mobile Service Identity (MMSI) to utilize the DSC distress function. Additional information is available through the Alaska Outdoors Forum at [http://forums.outdoorsdirectory.com/showthread.php/142083-Digital-Selective-Calling-\(DSC\)](http://forums.outdoorsdirectory.com/showthread.php/142083-Digital-Selective-Calling-(DSC)) or by contacting Mike Folkerts with the Coast Guard District 17 Boating Safety Office at (907) 463-2297 or by email to Michael.r.folkerts@uscg.mil.

LNM: 15/15

726 **ALASKA – SOUTHEAST – WESTERN BEHM CANAL**

The U.S. Navy has established a temporary data collection buoy in Western Behm canal approximately 5,000 yards North of Betton Island within 400 yards of position 55°35.684'N, 131°46.503'W. The buoy is described as a 3 foot diameter yellow sphere, with the marking "Wave Buoy", with an attached telemetry whip antenna and a night time warning light that flashes 5 times at 1 second intervals with a period of 20 seconds between each series, FI(5) Y 25s. Questions/concerns should be directed to Mr. Bill Harney at (907) 247-6289.

LNM: 05/15

815 **ALASKA – SOUTHEAST – ICY STRAIT – NORTH INIAN PASSAGE**

The currents in North Inian Passage and Glacier Bay have been observed at up to 3 knots above the NOAA published current predictions. Mariners should exercise caution when transiting the area. Questions/concerns should be directed to LT Tim Smith at (907) 271-3327 or by email

to timothy.m.smith@noaa.gov.

LNM: 25/14

816 **ALASKA – SOUTHEAST – DIXON ENTRANCE – FILLMORE INLET**

The chart of Fillmore Inlet on Chart 17437, 10th Edition has been reported to have significant offset and shoreline irregularities. The offset was reported to be as much as 500 yards. Mariners navigating in Fillmore Inlet using chart 17437, 10th Edition or electronic charts derived from chart 17437, 10th Edition should use extreme caution. Questions or concerns should be directed to Todd Buck at (907) 463-2269 or by email to todd.r.buck@uscg.mil.

LNM: 25/14

872 **ALASKA**

The Alaska Marine Safety Education Association (AMSEA) will be offering AMSEA Marine Safety Instructor Training and AMSEA Drill Conductor Courses in various locations within Alaska. The specific locations, dates, and course information can be found in an enclosure to this LNM. For more information contact AMSEA at (907) 747-3287 or view their website at www.amsea.org.

LNM: 12/14

889 **ALASKA**

U.S. Coast Guard to Test Automatic Identification System (AIS) Aids to Navigation (ATON). In the near future, the U.S. Coast Guard and other authorized agencies and organizations (i.e., U.S. Army Corps of Engineers, Marine Exchange of Alaska) will begin transmitting AIS ATON messages and marine safety information via AIS for testing and evaluation. The exact content, location, and times of these broadcasts will be announced in future Local Notices to Mariners. Additional information is included as an enclosure to this LNM. Questions/concerns should be directed to Todd Buck at the Coast Guard District 17 Waterways Management Office at (907) 463-2269 or by email to todd.r.buck@uscg.mil.

LNM: 05/14

992 **ALASKA – ALEUTIAN ISLANDS – ADAK – SWEEPER COVE**

The East side of the Pier 5 Dock located in Sweeper Cove is closed to moorage without prior approval from the Adak Harbormaster due to loose and missing pilings. Questions/concerns should be directed to Jim Fleming at (907) 277-7527 or the Port of Adak office at (907) 592-0185. The Adak harbormaster can also be contacted on VHF/FM channel 16.

LNM: 20/13

993 **ALASKA – U.S. COAST GUARD MEDIUM FREQUENCY (MF) DISTRESS WATCHKEEPING**

Mariners are advised that calls to the U.S. Coast Guard on the international radiotelephone distress frequency 2182 kHz or the Digital Selective Calling (DSC) frequency 2187.5 kHz may not be heard or may be severely degraded. Instead of using 2182 kHz for distress calls, mariners should use high frequency (HF) radiotelephone or DSC in the 4, 6, 8, and 12 MHz distress or calling bands. Additional information concerning U.S. Coast Guard HF watchkeeping is posted on the U.S. Coast Guard's Navigation Center website (<http://www.navcen.uscg.gov/?pageName=cgcommsCall>).

LNM: 11/13

995 **ALASKA**

MARINE DEBRIS: With the increase in ocean debris sightings along the coastlines of the Pacific Ocean, mariners are reminded to submit debris sighting reports to the National Oceanic and Atmospheric Administration (NOAA) Marine Debris Program at DisasterDebris@noaa.gov. Questions or concerns may be directed to the Coast Guard District 17 Waterways Management Branch at (907) 463-2269 or by email to todd.r.buck@uscg.mil.

LNM: 24/12

998 **ALASKA – SUBSURFACE AND SURFACE BUOYS**

Locations of all subsurface and surface oceanographic moorings that have been reported to the U.S. Coast Guard District 17 Waterways Branch are included in an enclosure to the Local Notice to Mariners. The name, type, location, depth, water depth, and a Point of Contact for all data buoys, surface and subsurface, shall be reported as quickly as is practical if they are placed within the navigable waters (within 200 nm) of the United States. Data buoys placed in the Arctic region but outside of 200 nm of the United States may be reported and will be included in this compilation (for informational purposes only). This notification process is for inclusion in the Local Notice to Mariners to provide navigational information to mariners and does not supersede any permission or permitting requirements. Any notifications, corrections, additions, deletions, or comments for the Alaska region (Coast Guard District 17) or the Arctic region should be submitted via e-mail to D17-PF-D17-LNM@uscg.mil or to Todd Buck, USCG D17(dpw), at (907) 463-2269 or by email to todd.r.buck@uscg.mil. This compilation is as current as the Local Notice to Mariners (LNM) as included in an enclosure. The referenced LNM may have additional information and indicates the last time an entry was updated.

LNM: 38/11

999 **ALASKA**

RANGE STRUCTURES: The U. S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic

Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position. If you have questions or concerns please contact Todd Buck at (907) 463-2269 or by email at todd.r.buck@uscg.mil.

LNM: 03/11

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

ALASKA – SOUTHEAST – ICY STRAIT – PORT FREDERICK

The Coast Guard is considering decommissioning the Port Frederick Light 3 (LLNR 24160) due to the recent construction of the Icy Strait Point cruise ship dock completely blocking the aid and removing any navigational benefit. Questions/concerns should be directed to Todd Buck with the Coast Guard Waterways Management Office at (907) 463-2269 or by email to todd.r.buck@uscg.mil.

LNM: 25/16

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

515 **ALASKA – SOUTHWESTERN – UNALASKA BAY**

Orion Marine Contractors will be conducting dredge work in Unalaska Bay near the City of Unalaska Waste Water Treatment Plant. In-Water work will commence May 23, 2016 and conclude July 15, 2016. There will be a 4 day period from September 15-19, 2016 that will require dive inspection of the dredge area sea floor. The vessels conducting the work will be present and working 24 hours per day during this period. Dredged material will be disposed on a daily basis. The disposal area is located in Unalaska Bay approximately 6 miles north of the dredge area. The vessels operating in the work area will be the barge ROBERT L. WEST (42' X 150' X 15'), barge SPRUCE (58' X 226' X 15') and the tug WENDY O (100' X 32' X 12'). The tug WENDY O and barge SPRUCE will perform the dredged material disposal traversing the 6 mile route from the dredge area to the disposal area while the barge ROBERT L. WEST will remain at the dredge area at all times. Communications with the vessels will be conducted on marine radio VHF/FM Channel 16. Questions/concerns should be directed to Matt Cottingham (907) 561-9811.

LNM: 19/16

524 **ALASKA – BERING SEA – NORTON SOUND – NOME HARBOR and ENTRANCE CHANNEL**

Alaska Marine Excavation, LLC. will be conducting dredging operations in the Nome Inner Harbor commencing at the ice-out, operating 24 hours a day, 7 days a week and concluding by June 25th, 2016. Dredging will continue in the Nome Entrance Channel concluding by July 31st, 2016. The dredge ALASKAN HAWK is a 75' cutter head suction dredge, white and blue in color, with a partially submerged pipeline. The pipeline will be marked where it exits the harbor on the beach and the pipeline's anchors will be marked by buoys. The dredge ALASKAN HAWK and tug OOSIK will be working on VHF/FM channel 79 and monitoring VHF/FM channels 13 and 16. Questions/concerns can also be directed to Brok Shafer with Alaska Marine Excavation, LLC at (907) 399-4549/(907) 435-7920 or by email to brokshafer@gmail.com.

LNM: 18/16

525 **ALASKA – COOK INLET – HOMER HARBOR and COAST GUARD BERTH**

Alaska Marine Excavation, LLC. will be conducting dredging operations in the Homer Harbor Entrance on September 1st, 2016, operating 24 hours

525 **ALASKA – COOK INLET – HOMER HARBOR and COAST GUARD BERTH**

a day, 7 days a week and concluding by October 11th, 2016. The dredge COMMANDER is a 50' cutter head suction dredge, red and yellow in color, with a partially submerged pipeline. The pipeline will be marked where it exits the harbor on the beach and the pipeline's anchors will be marked by buoys. The dredge COMMANDER and tug GROWLER will be working on VHF/FM channel 79 and monitoring VHF/FM channels 13 and 16. Questions/concerns can also be directed to Brok Shafer with Alaska Marine Excavation, LLC at (907) 399-4549 or by email to brokshafer@gmail.com.

LNM: 18/16

547 **ALASKA – SOUTHCENTRAL – PORT OF ANCHORAGE/COOK INLET NAVIGATION CHANNEL**

Manson Construction Company has been contracted by the U.S. Army Corp of Engineers to conduct Hopper and Suction dredging operations in the Port of Anchorage and the Cook Inlet Navigation Channel from March 21st to approximately November 10th, 2016. The dredge WESTPORT and the tug GLADYS M will be monitoring VHF/FM channels 08, 13, 16, and 66 when operating. The dredging location is approximately 61°14.5'N, 149°53.3'W. The disposal location is approximately 61°14.3'N, 149°56.500'W. A temporary mooring buoy has been established in position 61°13.216'N, 149°56.175'W. Questions/concerns should be directed to Bob Richardson at (206) 953-0211.

OPERATIONAL EXCELLENCE THROUGH LEADERSHIP, TEAMWORK, AND INNOVATION.

U.S. Coast Guard to Test Automatic Identification System (AIS) Aids to Navigation (ATON)

In the near future, the U.S. Coast Guard and other authorized agencies and organizations (i.e., U.S. Army Corps of Engineers, Marine Exchange of Alaska) will begin transmitting AIS ATON messages and marine safety information via AIS for testing and evaluation. The exact content, location, and times of these broadcasts will be announced in future Local Notices to Mariners.

AIS is an internationally adopted radio communication protocol that enables the autonomous and continuous exchange of navigation safety related messages amongst vessels, lifeboats, aircraft, shore stations, and aids to navigation (AIS ATON). AIS ATON stations broadcast their presence, identity (9-digit Marine Mobile Service Identity (MMSI) number), position, and status at least every three minutes or as needed. These broadcasts can originate from an AIS station located on an existing physical aid to navigation (Real AIS ATON) or from another location (i.e., AIS Base Station). An AIS Base Station signal broadcasted to coincide with an existing physical aid to navigation is known as a Synthetic AIS ATON. An electronically charted, but non-existent as a physical aid to navigation, is identified as a Virtual AIS ATON. The latter two can be used to depict an existing aid to navigation that is off station or not watching properly or to convey an aid to navigation that has yet to be charted. All three variants can be received by any existing AIS mobile device, but they would require an external system for their portrayal (i.e., AIS message 21 capable ECDIS, ECS, radar, PC). How they are portrayed currently varies by manufacturer, but the future intention is for the portrayal to be in accordance with forthcoming International Standards (i.e., IEC 62288 (Ed. 2), IHO S-4 (Ed. 4.4.0)).

Mariners capable of receiving and displaying these test AIS messages are encouraged to provide feedback and report any anomalies to the USCG NAVCEN Website: <http://www.navcen.uscg.gov> | Contact Us Tab | Subject: AIS | Category: AIS Testing.

Autonomous Underwater Vehicle and Juvenile Salmon Tracking Project Summary

Reference Mooring Deployment

National Marine Fisheries Service, Auke Bay Laboratories

The National Marine Fisheries Service (NMFS), in partnership with the U.S. Geological Survey and Rutgers University, will be deploying temporary ocean moorings in Southern Chatham Strait near the Little Port Walter Research Station (LPW). The moorings are part of a research effort to assess the use of autonomous underwater vehicles (AUV) for conducting fisheries research and studying the outmigration of juvenile Chinook salmon.

Twenty-four reference moorings will be deployed; three will be placed approximately 3 kilometers north of LPW, three will be placed approximately 3 kilometers south of LPW, and eighteen will be near the mouth and within the Port Walter area. The moorings will have yellow or orange buoys and will be clearly labeled "NOAA RESEARCH". All moorings will be a minimum of 200 meters apart and at least 50 meters from the shore.

The moorings will be deployed between March 16 and March 26, 2016. All equipment associated with the study will be removed completely no later than December 15, 2016.

*Please contact **John Eiler** by e-mail at john.eiler@noaa.gov, or by telephone at (907)789-6033, if you need additional information regarding this project.*

This is the current compilation of all subsurface and surface oceanographic moorings that have been reported to the U.S. Coast Guard District 17 Waterways Branch. The name, type, location, depth, water depth, and a Point of Contact for all data buoys, surface and subsurface, shall be reported as quickly as is practical if they are placed within the navigable waters (within 200 nm) of the United States. Data buoys placed in the Arctic region but outside of 200 nm of the United States may be reported and will be included in this compilation (for informational purposes only). This notification process is for inclusion in the Local Notice to Mariners to provide navigational information to mariners and does not supersede any permission or permitting requirements. Any notifications, corrections, additions, deletions, or comments for the Alaska region (Coast Guard District 17) or the Arctic region should be submitted via e-mail to D17-PF-D17-LNM@uscg.mil or to Todd Buck, USCG D17(dpw), at (907) 463-2269 or by email to todd.r.buck@uscg.mil. This compilation is as current as the Local Notice to Mariners (LNM) included in as an enclosure. The referenced LNM may have additional information and indicates the last time an entry was updated.

AMSEA Workshops of Interest to Mariners in District 17

The Alaska Marine Safety Education Association is offering a number of classes in U.S. Coast Guard District 17 that may be of interest to mariners. Many of these workshops are offered at no cost to commercial fishermen, thanks to support from the U.S. Coast Guard, the National Institute for Occupational Safety and Health, and the Alaska Department of Commerce, Community and Economic Development. For more information or to register for a workshop, call AMSEA at 907-747-3287 or visit our website at www.amsea.org.

Fishing Vessel Drill Conductor Workshops

These workshops give participants hands-on training with emergency equipment that should be onboard any commercial fishing vessel, such as PFDs, life rafts, immersion suits, EPIRBs, fire extinguishers. Participants practice emergency procedures like man overboard, abandon ship, firefighting and flooding control.

The workshops are US Coast Guard-accepted and meet the training requirements for drill conductors on documented commercial fishing vessels operating three or more miles offshore. The workshops are open to all mariners and are recommended for captains and crew serving on any commercial vessel.

Marine Safety Instructor Training

The MSIT is an intensive train-the-trainer course that prepares individuals to effectively teach cold-water survival procedures, use of marine safety equipment, and vessel safety drills. Upon completion of the course, participants will be prepared to teach AMSEA's U.S. Coast Guard accepted Fishing Vessel Drill Conductor training, pending authorization from the Coast Guard.

AMSEA is a 501(c)(3) non-profit educational institute. Support Organizations: Alaska Native Tribal Health Consortium / National Institute for Occupational Safety & Health / Southeast Alaska Regional Health Consortium / State of Alaska Chronic Disease Prevention & Health Promotion / State of Alaska Office of Boating Safety / University of Alaska Sea Grant, Marine Advisory Program / U.S. Coast Guard 17th District

Topic covered during the course include:

- Preparation for emergencies
- Cold-water near drowning
- Hypothermia
- Cold-water survival
- Survival equipment, procedures & onboard drills
- Risk Assessment
- Ergonomics
- Methods of instructions

NOTICE FOR SEAFARERS of OCEANOGRAPHIC RESEARCH EQUIPMENT IN WATER

EASTERN BERING SEA Dutch Harbor, AK – St. Matthew Island June - September 2016

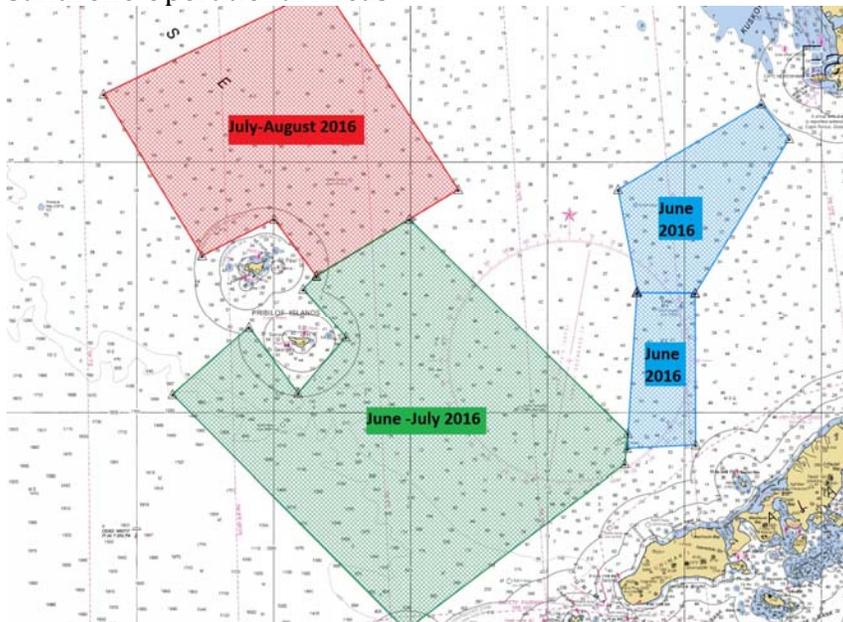

NOAA/PMEL & UW/JISAO will have two Unmanned Science Vehicles deployed in the Eastern Bering Sea for oceanographic research from June – mid September 2016. These will depart and return to Dutch Harbor, and travel as far north as 59.5N.

VESSELS ARE REQUESTED TO TRANSIT THE AREA WITH CAUTION, AND REMAIN GREATER THAN 500 METERS AWAY FROM THE RESEARCH EQUIPMENT.

The **Saildrones** are wind powered unmanned vehicles controlled from shore through satellite communications and carry important oceanographic research instrumentation.

- Color: Orange
- Light: single red, green and white at top of sail
- Radar Reflector: none
- Distinguishing Marks/Notation: “Saildrone”
- Length: 19 ft
- Width: 7 ft
- Height: 20 ft above water line
- Draft: 6 ft
- **Average speed: 2-4 knots**
- Maximum speed: 8 knots
