Sector Mobile, Submerged Land Act (SLA) - Gulfport Ship Channel/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Gulfport Ship Channel - Draft Restrictions --- From: 2026-01-30 To: Until Further Notice --- The U.S. Coast Guard has imposed a vessel draft restriction of 34 ft along the Gulfport Ship Channel due to shoaling, as indicated by recent channel surveys. The draft restriction will remain in effect until ongoing dredging operations are complete, with an estimated completion around mid-March 2026. For additional information regarding the current Gulfport Ship Channel pilotage requirements, mariners can contact Bob Wren, Harbor Pilot, at (228) 365-5418. Concerned parties may report any hazardous conditions to the U.S. Coast Guard Sector Mobile Command Center at (251) 266-5888 or Waterways Management Division at (251) 382-8653.

Galveston Bay Entrance Channel - Houston Ship Channel/General/Bridges/Construction	Bridges	Houston Ship Channel - Bridge Construction --- From: 2025-07-24 To: 2026-11-01 --- The Harris County Toll Road Authority (HCTRA) and a contractor will commence over-the-water construction of the new Beltway 8 (Sam Houston Tollway Ship Channel Bridge) over the Houston Ship Channel. Construction on areas outside the navigable channel will continue through May 2026. The U.S. Coast Guard Captain of the Port Houston-Galveston has established Safety Zones for the waters outside the federal channel surrounding the existing pillars. Vessels transiting this area are directed to utilize the marked federal channel and should remain clear of transiting beneath the overhead work. Channel closures to support work over the federal channel are expected to commence July 2026. Overnight closures, likely in the 8 to 10 hour range, every other night for a week will be needed. Following a round of overnight closures, the U.S. Coast Guard VTS will schedule 2-3 hour blocks of no traffic in daylight hours to allow for deck placement. A pattern of these closures are expected to continue for 3-4 months. Additional planning meetings focused on minimizing disruptions will be held with Port Partners as the closure dates approach. Mariners are urged to transit this area with extreme caution and check updated notices regarding closures prior to transiting the area.	Lat: 29° 44' 10" Lon: -095° 08' 45"
Galveston Bay Entrance Channel - Houston Ship Channel/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Houston Ship Channel - Shoaling --- Reported: 2024-12-11 To: Until Further Notice --- Shoaling has been reported in the Upper Houston Ship Channel, reducing water depths from the red side of the channel to the center line, between the Texas Beltway 8 Toll Bridge and a quarter mile above Houston Ship Channel Light 146 (LLNR-25790). Deep draft vessels are advised to proceed with caution. Vessels with a draft of 35 feet or greater should avoid the red side of the channel in this area. USACE surveys can be found at the following: https://www.swg.usace.army.mil/Missions/Navigation/Hydrographic-Surveys/	
Galveston Bay Entrance Channel - Houston Ship Channel/General/LAA/RNA/Safety Zone	LAA/RNA	Houston Ship Channel - VTS Restriction --- On: 2026-04-22 --- U.S. Coast Guard Vessel Traffic Service Houston-Galveston directs no meeting or overtaking of any vessels apart of the Houston Fleet Week Parade of Ships as they transit outbound from the City Dock Houston Turning Basin to sea. This restriction will be in place from approximately 7:00 a.m. to 3:00 p.m., and is for all vessels, including light boats, work boats, pleasure craft, etc. The Captain of the Port has established a moving Exclusion Zone of 500 yards around all vessels participating in the parade during their outbound transit. No vessels may enter this zone without expressed authority from the U.S. Coast Guard Vessel Traffic Service. For additional information, mariners can contact the U.S. Coast Guard VTS Houston-Galveston at (281) 464-4837 or HoustonTraffic@uscg.mil.	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Houston Ship Channel - Pipeline Operation --- From: 2026-02-09 To: 2026-06-30 --- The T/V MISS BEVERLY is conducting pipeline demolition operations underneath the docks at Enterprise Products Channelview at Docks 1, 4, 5, 6 and 7. Operations will be conducted daily, from 7:00 a.m. to 5:30 p.m. Mariners are urged to transit the area with caution. VHF-FM Channels: 13 and 21A, POC: (713) 248-7937	Lat: 29° 44' 09" Lon: -095° 07' 39"
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dredge Demobilization --- From: 2026-01-26 To: Until Further Notice --- Mechanical maintenance dredging in the Houston Ship Channel, from the Barbours Cut Terminal to Boggy Basin, is complete. Demobilization is underway. Operations will be conducted 24-hours a day, 7-days a week. The Dredge DB CATALINA is currently staged near Jacintoport Dock 1. Additional on-scene vessels may include the T/Vs CORRINE C., MABEL C., COLUMBIA and HELEN, three scows, the Crew Boat MISS LEIGHTYN and MONICA C., a survey vessel, and an offloading barge. Jacintoport Dock 1 and 2 vessel traffic should coordinate with the dredge 30-minutes in advance. Mariners are urged to transit at their slowest safest speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channel: 81, POC: (619) 992-5392	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Barbours Terminal Channel - Marine Construction and Dredging --- From: 2025-04-07 To: 2027-07-01 --- Dredging and marine construction will be taking place along the Houston Ship Channel and the Barbours Terminal Channel, 24-hours a day, 7-days a week. Dredging and demolition will take place along Morgans Point and transition into concrete bulkhead construction. An additional bulkhead wall will be built along Spilmans Island. Dive operations may take place intermittently throughout the project. On-scene vessels will include the T/Vs MOONEY and EVERLINE, the Work Boat SCULLY, the Crane Barge CB01 and the Barge GD-2013. Mariners are urged to transit the area at their slowest safe speed, observe all day shapes and dive flags, and proceed with caution. VHF-FM Channels: 13 and 16	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dock Construction --- From: 2025-09-04 To: June 2026 --- Dock construction is being conducted along the Houston Ship Channel at City Docks 20 and 21. Work will consist of demolishing and rebuilding of the fendering system and bulkhead construction. Operations will be conducted Monday through Friday. Workers will operate at the waterline and under the dock on skiffs. Divers may be present intermittently throughout the project. Mariners should transit the area with caution and at their slowest safe speed to minimize wake. POC: (832) 926-2215	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dock Construction --- From: 2026-01-05 To: Until Further Notice --- Dock construction is being conducted along the Houston Ship Channel at City Docks 13 and 14. Operations will be conducted from 7:00 a.m. to 5:00 p.m., Monday through Friday. Mariners should transit the area with caution and at their slowest safe speed to minimize wake. VHF-FM Channels: 12, 21 and 66A, POC: (713) 249-7118	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Bayport Ship Channel - Dredge Operation --- From: 2026-05-01 To: 2026-10-01 --- The Dredge MAGDALEN will be working in the Houston Ship Channel and Bayport Flare, between Houston Ship Channel Light 50 (LLNR-24125) and Houston Ship Channel Light 92 (LLNR-24600). Operations will be conducted 24-hours a day, 7-days a week. Dredged material will be deposited in the ocean dredged material disposal site (ODMDS) charted west of the Galveston Entrance Channel. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. VHF-FM Channels: 13 and 16, POC: (985) 237-9667 or (985) 705-1477	

Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Houston Ship Channel - Dredge Operation --- From: 2026-04-25 To: 2026-05-30 --- The Dredge MBI-08 is conducting dredging operations along the Houston Ship Channel in the vicinity of the Enterprise Channelview Docks. Dredged material will be loaded into regulation hopper barges and transported to an unloader barge located at a placement site along the Houston Ship Channel. On-scene support vessels will include the T/Vs ADMIRAL, ASHLEY ANN, CHUCK BOONE and LILY C. The dredge requests 1-hour notice from Enterprise Products Channelview Ship Docks 5/6 vessel traffic. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution. VHF-FM Channels: 76 or 78, POC: (228) 213-0600 or (409) 277-5775	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Barbours Cut - Barbours Terminal Channel - Dredge Operation --- From: 2026-05-05 To: 2026-06-30 --- The Dredge GENERAL BRADLEY will be dredging in the south and north flares of Barbours Cut. Operations will be conducted 24-hours a day, 7-days a week. A subline will be used during the project location between Houston Ship Channel Light 91 (LLNR-24595) and Houston Ship Channel Light 92 (LLNR-24600). Dredged material will be pumped through a combination of floating and submerged pipelines to the disposal area at Atkinson Island. On-scene vessels will include the Anchor Barge CM2006 and T/Vs DOUGLAS B. and CAPT BRENNAN. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channels: 11, 13, 16 and 71	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	San Jacinto River - Houston Ship Channel - Subline Installation/Channel Closure --- On: 2026-05-07 --- The Dredge CONSTELLATION will install subline across the San Jacinto River from the Lynchburg Ferry to Lost Lake. Subline operations are scheduled for May 7, 2026, from approximately 10:00 a.m. to 2:00 p.m. Staged floating pipeline is located outside of the channel in vicinity of Houston Ship Channel Light 126 (LLNR-25515). The U.S. Coast Guard Vessel Traffic Service Houston Galveston DIRECTS no vessel movements on the Houston Ship Channel between the Lynchburg Ferries and Old River during subline operations. Vessels will not be allowed to stop or push in along the Houston Ship Channel during the closure. Additional on-scene vessels will include the T/Vs DAVID LUNDIN, CHARLIE B, and COMMODORE. Mariners are urged to plan accordingly and transit the area with caution. VHF-FM Channels: 13 and 16	
Galveston Bay Entrance Channel - Houston Ship Channel/General/Miscellaneous	Miscellaneous	San Jacinto Bay Barge Channel - USI Canal - Aid to Navigation Discontinuation --- Reported: 2025-08-19 --- The private aids to navigation marking the San Jacinto Bay Barge Channel (USI Canal), from San Jacinto Bay Barge Channel Daybeacon 5 (LLNR-25120) to San Jacinto Bay Barge Channel Daybeacon 28 (LLNR-25200) have been discontinued. Vessels should avoid meeting or overtaking throughout the channel and should exercise extreme caution when transiting at night or during reduced visibility. Mariners accustomed to utilizing these private aids when navigating the San Jacinto Bay Barge Channel (USI Canal) should transit the area with caution.	
Galveston Bay Entrance Channel - Houston Ship Channel/General/MSIB	MSIB	Houston Ship Channel - Morgans Point - VTS USI Canal/San Jacinto Bay Channel Directive --- The USI Canal/San Jacinto Bay Channel has become increasingly trafficked over the last 2 years. For various reasons, many tows attempt to reconfigure between Morgans Point and Exxon to go into or come out of the USI Canal. This practice has resulted in several near miss situations between Morgans Point and the Exxon Terminal in the Houston Ship Channel. In order to fulfill the VTS mission of reducing risk of collision, allision, damage, pollution, and injury, the following Directive is in effect and will be written as policy in documentation updates to the U.S. Coast Guard VTS Houston-Galveston User Guide: • Vessel Traffic Service Houston-Galveston Directs no barge work in the Houston Ship Channel between Morgans Point and Exxon for purposes of going into/out of the USI Canal. •	

Inner Harbor Navigation Canal

Head Of Passes To New Orleans - Inner Harbor Navigation Canal/General/LAA/RNA/Safety Zone	LAA/RNA	Inner Harbor Navigation Canal - GIWW - Safety Zone --- From: 2026-04-20 To: Until Further Notice --- The U.S. Coast Guard will enforce a Safety Zone for all navigable waters from Mile 6.5, EHL, to Mile 10.0, EHL, in the GIWW and Inner Harbor Navigation Canal for an unsecured sewage release. The following vessel traffic restrictions are in place: 1. All vessels shall transit at their slowest safe speed. 2. All vessels shall avoid meeting or overtaking in this area. 3. While transiting the affected area, crews are strongly advised to remain inside the vessel and avoid contact with the environment. 4. Mariners should follow recommendations from the Louisiana Department of Health for basic hygiene practices, PPE, and vaccinations that can help protect workers who may encounter water contaminated with untreated sewage. These recommendations can be found in hard copy MSIB Volume XXVI Issue: 008, found here: https://linktr.ee/WWMNOLA . Daily daylight dive assessments of the damaged sewage line will take place from 8:00 a.m. to 7:00 p.m., and will continue for the next several days. Mariners are directed to contact the on-scene dive operations supervisor, Josh Lambert, with Specialty Diving via VHF-FM Channel 67, or at (985) 273-1756 for questions or status updates. Divers will access the work location from shore and will need an approximate 70 ft work area. The work area is located in approximate position 29-58-49.18N 090- 01-21.60W. For additional information, mariners can contact U.S. Coast Guard Sector New Orleans at (504) 365-2545. Vessel operators and crews transiting through the affected area are encouraged to review CDC Guidance on basic hygiene practices by following: https://www.cdc.gov/global-water-sanitation-hygiene/about/workers_handlingwaste.html .	
General/Miscellaneous	Miscellaneous	Inner Harbor Navigation Canal Lock - USACE Navigation Bulletin Reissue --- * MARINERS ARE ADVISED THAT THIS POLICY NOTICE FOR THE INNER HARBOR NAVIGATION CANAL (IHNC) LOCK REMAINS IN EFFECT INDEFINITELY. * Due to the limited mooring space between the Florida Avenue Bridge and the Inner Harbor Navigation Canal Lock, it is required that all tows contact the Lock on VHF-FM Channel 14 for locking information prior to navigating through the Florida Avenue Bridge. Towboat Captains are reminded that if a tow has to be broken for locking operations, this shall be done prior to coming through the Florida Avenue Bridge and the barges shall not be left unattended in the canal for any reason. Towboat Captains must use the mooring buoys and tend the wheelhouse at all times. To prevent bank erosion, Tow Captains are also reminded not to push the head of their tow into the banks on the river or canal end of the lock for any reason while waiting for their locking. The Lockmaster, Richard McKinzie, can be reached at 504-945-2157. The points of contact with the New Orleans District are Robert Swayze at 504-862-2060, Jesse Adams at 504-862-1061 and Brandon Keck at 504-862-2630.	Lat: 29° 57' 53" Lon: -090° 01' 38"
Head Of Passes To New Orleans - Inner Harbor Navigation Canal/General/MSIB	MSIB	MSIB Vol XXVI Issue 008 - Louisiana Department of Health Update - Gulf Intracoastal Waterway – Florida Avenue Bridge --- The U.S. Coast Guard Sector New Orleans is providing the following health and safety guidance from the Louisiana Department of Health (LDH) regarding the raw sewage discharge in the Gulf Intracoastal Waterway (GIWW) between Miles 6.5 and 10.0, EHL: • Medical Care: Mariners experiencing symptoms or illness after coming into contact with the waterway should immediately seek care from a medical provider for evaluation, diagnosis, and treatment. • Reporting Procedures: To help LDH identify any health impacts, mariners or their healthcare providers should report illnesses to Regional Epidemiologist Danielle Raphael at: Danielle.Raphael@la.gov, (504) 616-0238, or Disease Intervention Specialist Taylor Reisz, MPH, at: Taylor.Reisz@la.gov, (504) 616-4320. • Vaccine Updates: LDH has amended their vaccine recommendations to include typhoid fever as a precaution. Vaccine recommendations for workers exposed to sewage or human waste are as follows: Tetanus and polio vaccinations should be up to date, with consideration also given to the need for Hepatitis A, Hepatitis B, and typhoid fever vaccinations. • For additional safety information please see MSIB XXVI Issue 008 Waterway Status – Emergency Safety Zone- Gulf Intracoastal Waterway – Florida Avenue Bridge – Update 1. • For further information please contact: Sector New Orleans Command Center (24 hour): (504) 365-2545	Lat: 29° 58' 55" Lon: -090° 01' 18"

Work will take place 24-hours a day, 7-days a week. Floating and submerged line will be in the project area connecting and leading to multiple disposal sites. Numerous work and support vessels associated with this dredging operation will be in the project area. All vessels requiring the majority of the channel to navigate safely should contact the dredge 1-hour in advance. VHF-FM Channels: 13 and 16, POC: (337) 485-5121 or (337) 909-9041	
General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	GIWW - Devils Elbow - Staging Area --- From: 2025-11-24 To: 2027-02-15 --- A staging area for dredge pipe and equipment will be located along the GIWW, Mile 240.7, WHL. All pipe will be marked with buoys and lights. Mariners are urged to use caution in the area and transit at their slowest safe speed to minimize wake after passing arrangements have been made.	
New Orleans Port Arthur/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	GIWW - Calcasieu Channel - Dredge Operation --- From: 2026-03-10 To: 2026-09-26 --- The Dredge OHIO will be dredging along the Calcasieu Channel, near Mile 22.5, for the Louisiana Woodside LNG project. Approximately 8.5 miles of pipeline and booster pumps have been installed and staged from the dredging area along the Calcasieu Channel, routed through Choupique Bayou, and into the GIWW, along the northern edge and outside of the navigable limits. Floating and submerged pipelines along with a series of Boosters are located between GIWW Miles 241.0 and 252.0, WHL. A subline crossing is located between GIWW Miles 249.0 to 250.0, WHL, near the Booster ERIN C. On-scene vessels include the Boosters TEXAS JR, JESSIE, BUSTER, REGGIE, CAPTAIN BARNEY, and ERIN C, Anchor Barges 112 and 120, Derrick Barges 66 and 72, T/Vs SMITH BUCCANEER, KJ LEBOEUF, CAPTAIN EDDIE, and EMILY A HERBERT, and the Crew Vessels TARPON 1, TARPON 3, JOHN NEWMAN, and COLUMBIA RIVER. All dredge pipeline will be marked with buoys and lighted accordingly. Barges and vessels are requested to avoid staging on the north side of the GIWW, between the project limits. Mariners are urged to use caution in the area and transit at their slowest safe speed to minimize wake after passing arrangements have been made. VHF-FM Channels: 13 and 16, POC: (630) 247-6207

Sabine Pass - Port Arthur Canal/General/LAA/RNA/Security Zone	LAA/RNA	Port Arthur Canal - Security Zone Reminder --- With the resumption of marine operations at Golden Pass LNG in Sabine Pass, Texas, mariners are reminded that a federal permanent Security Zone is established in accordance with 33 CFR § 165.819. As stated in 33 CFR § 165.819, when a LNG carrier is moored at the Golden Pass LNG mooring basin, a security zone is activated for all waters south of a line connecting the following coordinates: 29-45-58.0N 093-55-40.0W, east to 29-45-52.8N 093-55-20.8W, and bearing 120° T to the shoreline at 29-45-50.0N 093-55-17.0W. Entry into or remaining within the security zone is prohibited for all vessels except: 1. Commercial vessels operating at waterfront facilities within the zone. 2. Commercial vessels transiting directly to or from waterfront facilities within the zone. 3. Vessels providing direct operational or logistical support to commercial vessels within the zone. 4. Vessels operated by the appropriate port authority or by facilities located within the zone. 5. Vessels operated by Federal, State, county, or municipal law enforcement agencies. All other persons or vessels must request permission to enter the security zone from the Captain of the Port or their designated representative. To request permission, vessels can contact U.S. Coast Guard Vessel Traffic Service Port Arthur on VHF-FM Channel 01A or 65A, or by telephone at (409) 719-5070. For more information, mariners should refer to 33 CFR § 165.819 for the full regulatory text and additional details.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. VHF-FM Channels: 13 and 16	
Sector Houston-Galveston, Submerged Land Act (SLA) - Sabine Pass/General/MSIB	MSIB	Marine Safety Information Bulletin 08-26: Notice of Proposed Rulemaking (NPRM) - Sabine Pass Safety Fairway Anchorages - On February 17, 2026, the Coast Guard published a NPRM (Docket Number USCG-2024-0893) with proposed regulations to establish two new fairway anchorages adjacent to the existing safety fairway approaches to Sabine Bank and Sabine Pass, Texas. These two additional fairway anchorages would be in deeper water than the existing anchorages along the Sabine Pass fairway to accommodate vessels, primarily petroleum tankers, with deeper drafts. The Coast Guard is requesting comments from the public regarding the proposed rule. Comments on these proposed changes will be taken until May 18, 2026. Please use the following link to review the NPRM and submit comments: Regulations.gov - https://www.regulations.gov/document/USCG-2024-0893-0001	Lat: 29° 40' 24" Lon: -093° 49' 58"

Sector Mobile, Exclusive Economic Zone (EEZ)/General/MSIB	MSIB	Marine Safety Alert 02-24 - Inspections and Compliance Directorate --- DANGEROUS BYCATCH FROM DISCARDED MUNITIONS REMAINS A PRESENT DAY HAZARD --- This Safety Alert is being issued to raise awareness of lurking hazards caused by discarded munitions, which often contain active explosives or chemical agents. Although the practice of dumping munitions into the sea ceased in 1970, a significant amount remains hidden in coastal waters, posing a safety hazard to commercial fisherman, dredge operators, and others who trawl and work the ocean floor. Recently, a deckhand on a clamming vessel was severely burned when a canister was dredged up and brought onboard with dams and other debris. The canister likely contained mustard gas or another blistering agent, but did not display any obvious visual, audible, or odor indicators of discharging content. A member of the crew discovered the canister and threw it back overboard. Several hours later he developed a severe rash that required professional medical treatment. Mustard gas is a chemical weapon developed during World War I. Millions of pounds of this product, other chemical weapons, bombs, torpedoes, artillery shells, and munitions were routinely disposed of and remain in U.S. coastal waters. Although many munition dump areas are well marked on navigation charts, numerous areas where munitions were discarded remain unmarked. There is also evidence suggesting that munitions were frequently "short dumped," meaning dumped outside of the designated areas by contractors hired to take them to the intended locations. The Coast Guard previously issued Safety Alert 11-16 and Safety Alert 6-10 on this same topic and continues to strongly recommend that persons involved in the fishing and dredging industries: Review their navigational charts to ensure the areas in which they are trawling or dredging are not near labeled "Explosives Dumping Areas." Such areas must be given wide berth and seafarers should recognize that surface bottoms change and that objects can move significant distances from their original disposal areas. Review and follow recommendations from the Maritime Industry 3Rs Explosive Safety Guide. Carefully record the position of any munitions encountered and returned to the sea. Immediately report discovery to the National Response Center, at (800) 424-8802 to ensure a proper response and potential recovery. Alternatively, the local U.S. Coast Guard unit may be notified via VHF-FM Channel 16. This Safety Alert is provided for informational purposes only and does not relieve any domestic or international safety, operational, or material requirement. Developed by the Office of Commercial Vessel Compliance (CG-CVC) and distributed by the Office of Investigations and Casualty Analysis (CG-INV). Questions may be submitted to HQS-SMB-CGINV@uscg.mil.	
Sector Mobile, Exclusive Economic Zone (EEZ)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	Gulf of America - U.S. Navy Testing --- From: 2026-05-25 To: 2026-06-18 --- The U.S. Navy will be conducting naval system testing in the Gulf of America. Operations will be conducted 24-hours a day, 7-days a week. The operating area will be bound by the following approximate positions: 29-50-08.14N 086-09-36.11W, 29-53-03.11N 086-17-30.29W and 29-47-20.63N 086-22-59.45W. On-scene vessels will include the M/V VIKING or PATRIOT and the PSC-1. Mariners should maintain a 1 nm closest point of approach from all U.S. naval craft. VHF-FM Channel: 16, POC: (850) 235-5486

The buoy is 3.9 ft tall and features a flashing yellow light at night (FI(5)Y 20s). Mariners are urged to transit the area with caution.	Lat: 30° 10' 09" Lon: -088° 01' 19"

Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Horn Island Pass - Research Buoy --- Established: 2025-09-24 --- A lighted yellow Ocean Data Acquisition System (ODAS) research buoy will be established in position 30-11-42.5N 088-32-38.8W. The buoy is 3.9 ft tall and features a flashing yellow light at night (Fl(5)Y 20s). Mariners are urged to transit the area with caution.	Lat: 30° 11' 42" Lon: -088° 32' 39"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Alabama River - In accordance with Section 7-11 of the ACT Master Water Control Manual dated April 2022, full navigation channel availability on the Alabama River is dependent upon channel maintenance, seasonal flow conditions, and basin status. Flows for navigation are most needed in the unregulated portion of the lower Alabama River below Claiborne Lock and Dam. Alabama Power Company (APC) operates its reservoirs on the Coosa and Tallapoosa Rivers to provide a minimum navigation flow target in the Alabama River at Montgomery, Alabama. Basin status criteria are correlated to APC Drought Operations (ADROP) updates which monitors drought triggers related to basin inflow, state line flow on the Coosa River between Georgia and Alabama, as well as composite storage availability within the APC projects. These updates are provided monthly on the first and third Tuesday. Below is the most recent ADROP update provided by Alabama Power Company: *ADROP UPDATE* - Low Basin Inflow: TRUE - - Low State Line Flow: TRUE - - Low Composite Storage: FALSE - - Montgomery Flow Target: 3700 cfs daily average - - Current Operations: Drought Intensity Level 2 - Currently, based on profile survey conducted on 04JUN2024, a 10 ft tailwater elevation near Claiborne Lock is required to provide a 9 ft navigation channel on the lower Alabama River. A modified depth of 7.5 ft navigable draft can be provided with a tailwater elevation of 8.5 ft at the Claiborne Lock and Dam. Commercial mariners should check water levels daily and schedule lockage appointments by calling the Claiborne Lock Supervisor at (251) 282-4575. Tailwater elevations below Claiborne Lock and Dam can be viewed at: https://waterdata.usgs.gov/monitoring-location/USGS-02428401	Lat: 31° 36' 54" Lon: -087° 33' 06"
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Aquaculture Platform Installation --- From: 2025-11-24 To: 2029-08-30 --- An aquaculture platform with a mooring system will be deployed as a temporary demonstration project in approximate position 30-12-06.73N 087-57-53.89W. The platform will feature yellow lights at night with yellow mooring buoys deployed nearby marking the subsea moorings. The M/V SPINNER will be on site intermittently for feeding and aquaculture operations. Mariners are urged to transit the area with caution. POC: (256) 415-3534	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Unmanned Aerial System Tests --- From: 2026-05-08 To: 2026-05-13 --- An Unmanned Aerial System (UAS) will be tested from Santa Rosa Island to nearshore portions of the Gulf of America. Tests will take place from sunrise to sunset and will include the evaluating of takeoff and landing of the UAS in the maritime environment. The UAS will operate for 15-minutes at a time and travel up to 55 miles per hour. Operations will be conducted Monday thru Saturday, from sunrise to sunset. On-scene vessels will include the M/Vs KELLY RAE and BIG KAHUNA. Support craft will display a dive flag and will monitor VHF-FM Channel 16. Mariners are urged to avoid the testing area.	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Gulf of America - Unmanned Aerial System Tests --- From: 2026-05-26 To: 2026-05-29 --- An Unmanned Aerial System (UAS) will be tested from Santa Rosa Island to nearshore portions of the Gulf of America. Tests will take place from sunrise to sunset and will include the evaluating of takeoff and landing of the UAS in the maritime environment. The UAS will operate for 15-minutes at a time and travel up to 55 miles per hour. Operations will be conducted Monday thru Saturday, from sunrise to sunset. On-scene vessels will include the M/Vs KELLY RAE and BIG KAHUNA. Support craft will display a dive flag and will monitor VHF-FM Channel 16. Mariners are urged to avoid the testing area.	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/MSIB	MSIB	MSIB 32-26 - Potential Unexploded Ordnance (UXO) Hazard Gulf of America - Fort Pickens, FL --- The U.S. Army Corps of Engineers (USACE) is conducting feasibility studies under the CERCLA process to assess hazards associated with historical munitions to include potential unexploded ordnance (UXO) in the vicinity of Fort Pickens, Pensacola, FL. Due to historical usage of this area, the U.S. Coast Guard advises mariners of potential UXOs located within the Gulf of America and Pensacola Bay, near Santa Rosa Island, Fort Pickens, FL. UXOs should be considered extremely dangerous. If touched, moved, or disturbed, these items may detonate, causing severe injury, death, or property damage. Mariners are strongly urged not to anchor or conduct any bottom-disturbing activities within High Use Areas (HUA) and should exercise caution when conducting activities in the Low Use Areas (LUA). Reference diagrams, provided in the hard copy version of MSIB 32-26, identify Low Use Areas (LUA) in green and High Use Areas (HUA) in orange. If a mariner encounters a UXO, please contact 911 to report the location that it was found. Concerned parties may report any hazardous conditions to the U.S. Coast Guard Sector Mobile Command Center at (251) 266-5888. Additional information is available at: https://www.saj.usace.army.mil/FortPickens/	
Sector Mobile, Territorial Sea - Sector Mobile, Submerged Land Act (SLA)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	Gulf of America - U.S. Navy Operation --- From: 2025-09-03 To: 2026-05-31 --- The U.S. Navy will operate an unmanned surface vehicle (USV) towing underwater equipment in the Gulf of America, in the offshore waters of Panama City Beach, FL. The operating area will be bound by approximate positions: 30-07-58.59N 085-55-19.54W, 30-07-58.63N 085-50-42.76W, 30-03-56.30N 085-50-42.75W and 30-03-56.27N 085-55-19.44W. Two U.S. Naval support vessels will be on-scene during the USV operation. Mariners should maintain a wide berth from all U.S. Naval craft and are requested to avoid the area. VHF-FM Channel: 16

Sector New Orleans, Territorial Sea - Sector New Orleans, Submerged Land Act (SLA)/General/Bridges/Construction	Bridges	Bayou Lafourche - Bridge Construction --- From: 2026-05-08 To: 2026-07-08 --- Bridge construction continues on the new Airport Corridor Road Bridge in Galliano, LA, located at 29-25-28.55N 090-17-31.38W. Sealevel Construction will be completing and periodically testing the lift span installation. Lift span operations will be conducted Monday through Saturday, between 7:00 a.m. and 5:00 p.m. During these working hours, construction vessels, barges, and equipment may be stationed in the main channel. Upon request, equipment will be moved to allow boats to pass through the work site. At the end of each work day, equipment will be moved from the channel. Mariners should contact (985) 414-4618 at least 1-hour in advance to make passing arrangements.	Lat: 29° 25' 28" Lon: -090° 17' 31"
Sector New Orleans, Territorial Sea - Sector New Orleans, Submerged Land Act (SLA)/General/Hazards To Navigation/Hazards	Hazards To Navigation	Gulf of America - East Bay --- Reported: 2025-04-01 --- Multiple aid to navigation discrepancies (lights and fog horns) have been reported on platforms located in the South Pass Area, Blocks 27 and 28. Mariners are urged to transit this area with extreme caution.	
Sector New Orleans, Territorial Sea - Sector New Orleans, Submerged Land Act (SLA)/General/Hazards To Navigation/Obstructions	Hazards To Navigation	Gulf of America - Aground Yellow Lighted Buoy --- Reported: 2026-05-01 --- A yellow lighted buoy has been reported washed ashore on Elmers Island, west of Grand Isle, on May 1, 2026. Mariners are urged to avoid this area and report any sightings or findings to the nearest U.S. Coast Guard unit.	
Sector New Orleans, Territorial Sea - Sector New Orleans, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Grand Lake - Dredging and Marsh Creation --- From: 2025-09-15 To: 2026-07-31 --- Amphibious and barge mounted excavators will be building marsh creation areas on the southern shoreline of Grand Lake. Dredges will pump material from the middle of Grand Lake into five marsh creation sites. Work will take place 24-hours a day, 7-days a week. On-scene vessels include the Dredges GRAND TERRE and GRAND GOSIER, tugs and barges. Three dredge pipeline segments will be floating in the area, with 1,000 ft sections submerged and marked. Access dredging may take place in Grand Lake and in the surrounding bodies of water, including Bayou Gentilly, Petit Lake and Alligator Pass. Mariners are urged to transit the area with caution and at their slowest safe speed to minimize wake. VHF-FM Channels: 16 and 71
