MERCHANT SHIP POSITION-REPORTING SYSTEM

The Government of the Commonwealth of Australia has informed the Secretary-General that the system operated by that Government has now been extended to an area 125 nautical miles on either side of a direct line from Perth to West Java Head, Sunda Strait.

"Perth Radio" coast station should be included among those receiving relevant messages.

Governments are invited to bring this information to the attention of all concerned.

In this connexion, reference is made to Section II of the IMCO publication "Merchant Ship Position-Reporting Systems".

22 Berners Street,
London, W.1.
