

Chapter 5 – Appendix L

Book 2: Team Expertise Cross-Assessment

Book 2: Team Expertise Cross-Assessment

Compare each team’s knowledge (level of expertise) about the factors that affect the probability and consequences of marine accidents with that of the other participant teams in this workshop. Please enter in each block the number which best describes each team, where:

- 1 = The team is probably in the **UPPER THIRD** of all the teams.
- 2 = The team is probably in the **MIDDLE THIRD** of all the teams.
- 3 = The team is probably in the **LOWER THIRD** of all the teams.
