LOCAL NOTICE TO MARINERS

District: 1

Week: 02/21

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:

- (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
- (2) The Local Notice to Mariners is a weekly edition.
- (3) Inquiries, published articles or Information: mail to: D1LNM@uscg.mil
- (4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
- (5) The Coast Pilot, along with its corrections, are available online at <https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html>.

The Local Notice to Mariners is available online at <https://www.navcen.uscg.gov/-pageName=lnmDistrict®ion=1>
The updated 2017 Light List is available online at: <https://www.navcen.uscg.gov/-pageName=lightListWeeklyUpdates>
Information on Private Aids to Navigation is available at: <http://www.usharbormaster.com/>
Reports of Channel conditions can be found at the Army Corps of Engineers website at:
<http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx>.
NOAA Tides and Currents can be found at: <http://tidesandcurrents.noaa.gov/>.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: <http://cgls.uscg.mil/mailman/listinfo/nanu>. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: tis-sg-nisws@uscg.mil, or on the internet at: <https://www.navcen.uscg.gov>.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)
408 Atlantic Avenue, Boston, Massachusetts 02110-3350
Telephone: (617) 223-8356
24 Hour FAX: (617) 223-8094
<http://www.uscg.mil/d1/prevention/Marineinfoeregulations.asp>

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
Al - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light

DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
FI - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MRASS - Marine Radio Activated SoundSignal
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-IntelligenceAgency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

RIV - River
RRASS - Remote Radio Activated SoundSignal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

SNNE- U.S. Coast Guard Sector Northern New England
SBOS- U.S. Coast Guard Sector Boston
SSENE- U.S. Coast Guard Sector Southeastern New England
SLIS- U.S. Coast Guard Sector Long Island Sound
SNEW- U.S. Coast Guard Sector New York

AIS - Automatic Identification System
AtoN - Aids to Navigation
LLNR - Light List Number
NM - Nautical Mile

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

U.S. COASTAL AND INTERNAL WATERS – U.S. FEDERAL AIDS TO NAVIGATION – DATUM SHIFT TO WGS 84

The positions of Aids to Navigation contained in the U.S. Light List Volumes will be converted to WGS 84 to align with Datum used on Official U.S. Electronic Navigational Charts (ENC) issued by the U.S. Hydrographic Offices (NGA, NOAA, USACE). The positions were previously expressed in NAD 83 Datum to align with U.S. Hydrographic Office(s) paper charts. The 2021 Light List Volumes will contain the adjusted positions. No chart or Light List corrections will be published in the Local Notice to Mariners.

LNM: 49/20

NOAA IS DISCONTINUING THE PRINTED TIDE TABLES AND TIDAL CURRENT TABLES

NOAA is ending the production of the printed Tide Tables and Tidal Current Tables publications.

The 2020 Tide Tables and Tidal Current Tables were the final printed editions.

There will not be NOAA printed Tide Tables and Tidal Current Tables publications for 2021.

NOAA is discontinuing the production of these annual publications due to: (a) recent changes by the U.S. Coast Guard in the interpretation of the requirements for predictions, no longer requiring these publications in paper format and (b) the availability of online and electronic services providing tide and tidal current predictions which meet the U.S. Coast Guard requirements for navigation, and support other activities along the U.S. coast.

Tide and Tidal Current predictions are available through NOAA's Center for Operational Oceanographic Products and Services (CO-OPS) online services:

- NOAA Tide Predictions: https://tidesandcurrents.noaa.gov/tide_predictions.html
- NOAA Current Predictions: <https://tidesandcurrents.noaa.gov/noaacurrents/Regions>

These online services provide predictions which equal or exceed the accuracy and availability of the predictions for domestic locations provided through printed publications, and provide additional capabilities allowing the predictions to better meet a variety of user needs. These online services provide predictions for the U.S. coasts. International predictions will not be available from the online services. Predictions for countries outside the U.S. may be obtained through the Oceanographic / Hydrographic agency in that country.

Contact NOAA's Center for Operational Oceanographic Products and Services (CO-OPS) with questions or for further information.

E-mail: Tide.Predictions@noaa.gov

Phone: 301-713-2815

LNM: 45/20

US- Atlantic Seacoast

Critically endangered right whales may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury

or death due to collisions with vessels. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. East Coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. Approaching or remaining within 500 yards of right whales is prohibited and is a violation of U.S. law. A minimum distance of 500 yards must be maintained from a sighted whale unless hazardous to the vessel or its occupants. The National Oceanic and Atmospheric Administration (NOAA) recommends that operators assume that any whale sighted is a right whale unless confirmed otherwise. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. In the northeast, please report all right whale sightings, collisions, or entanglements to 866-755-NOAA, or to the Coast Guard via channel 16. WHALESNORTH Mandatory Ship Reporting Area is active year-round. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to [rightwhale.msr\(at\)noaa.gov](mailto:rightwhale.msr(at)noaa.gov).

LNM: 42/20

ME, NH, MA, RI, CT, NY, NJ-ATLANTIC OCEAN-OFFSHORE STRUCTURE PATON MARKING GUIDANCE-Revised

For Private Aids to Navigation (AtoN) applicants requesting Coast Guard permits to provide navigational markings on offshore wind energy area structures in First District-area waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all labels, light(s), sound signals and AIS signals). Private AtoN Permit applications should be submitted no sooner than 30 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

Tower Identification:

- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible to maximize charting effectiveness
- Letters and numbers labelled to as near to 3 meters high as possible
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water's surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials
- If feasible, also labelled below the servicing platform

Lighting:

- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water's surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY, 0.3s on/0.7s off, 60 flashes per minute) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s, 1.0s on 1.5s off, 12 flashes per minute) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6,1.0s on 5.0s off, 10 flashes per minute/FL Y 10, 1.0s on 9s off, 6 flashes per minute) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. These do not require permits, only Coast Guard notification for appropriate marine notices and broadcasts until the final structure marking is established.

Sound Signals:

- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a range of 2NM
- Should not exceed 3NM spacing between perimeter structures
- Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds
- Timed to energize for 45 minutes from last VHF activation

Automated Information System (AIS) Transponder Signals:

- Must be transmitted superimposed at all corner structures/SPSs
- Should be capable of transmitting signals to mark all locations of all structures throughout an established field
- Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the First Coast Guard District's recommendation

PATON Application Website: WWW.USHARBORMASTER.COM.

LNM: 33/20

NOAA RIGHT WHALE SLOW ZONES CAMPAIGN

NOAA Fisheries announces a new "Right Whale Slow Zones" campaign asking all vessel operators to reduce the risk of vessel strike to critically endangered North Atlantic right whales by slowing down or avoiding areas where right whales have been detected. Complementary to other NOAA vessel strike reduction efforts, the "Right Whale Slow Zones" campaign brings together sighting information, from NOAA's Dynamic Management Area program, with new acoustic detection information to help vessels of all sizes slow down in areas where right whales have been detected. We would like to thank our North Atlantic right whale Northeast U.S. Implementation Team (NEIT), our partners and advisers on right whale recovery activities from Maine through Virginia, who identified this opportunity to enhance vessel strike reduction efforts using acoustic information. If we've learned anything this year - it's that working together we can make a difference - and that's true for reducing vessel strike to right whales as well. Read more about our new campaign in our web story ([link follows](#)).

Media Questions: Contact Allison Ferreira, Regional Office, 978-281-9103

Inquiries about the right whale SLOW Zone program: Peter Kelliher, Protected Resources Division 978-282-8474

Further Slow Zone details: <https://www.fisheries.noaa.gov/feature-story/help-endangered-whales-slow-down-slow-zones>

Reducing Ship Strike: <https://www.fisheries.noaa.gov/national/endangered-species-conservation/reducing-ship-strikes-north-atlantic-right-whales>

LNM: 32/20

MARINER ALERT-SHIP/WHALE COLLISIONS

NOAA just designated the North Atlantic right whale as a Species in the Spotlight because it is on the brink of extinction. Collisions between vessels and whales are a threat to a number of endangered large whale species – most notably, the right whale. The United States has established measures to reduce this threat. A vessel speed restriction requires that vessels 65 feet or greater in length travel 10 knots or less in certain areas and on a rolling basis at certain times where endangered right whales may be present: : <http://www.greateratlantic.fisheries.noaa.gov/protected/shipstrike/training/NOAA-RightWhalesCD.iso> . This rule applies within 20 nautical miles around all major ports and in other locations along the U.S. eastern seaboard. Temporary voluntary speed limits also may be imposed in other areas when an aggregation of three or more right whales is confirmed. In addition, ships 300 GT and greater are required to report their location and speed to a USCG shore station in certain prescribed areas: https://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf. A computer-based interactive guide and training resource for mariners is available at: <http://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/mtr.html>. The guide provides information on endangered whales, recommended navigational actions when operating in whale habitat, a guide to reporting sightings of dead or injured right whales, and related information. Additional steps mariners can take to help reduce the chances of hitting a right whale can be found at: http://www.nero.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf.

LNM: 44/19

NOVEL CORONAVIRUS

"The outbreak of respiratory illness caused by the COVID-19 virus may affect mariners and maritime commerce transiting to or near New England, New York and New Jersey waters. Additional interim guidance for ships on managing suspected coronavirus disease concerns is available at <https://www.cdc.gov/quarantine/maritime/recommendations-for-ships.html>. An enclosure to this LNM includes additional information as well as a number of links to websites where additional information regarding this illness can be obtained. Mariners with questions/concerns while transiting to or near New England, New York and New Jersey should contact the nearest Coast Guard Sector Command Center at:
Sector New York: (718) 354-4353
Sector Long Island Sound: (203) 468-4404
Sector Southeastern New England: (508) 457-3211
Sector Boston: (617) 223-5757
Sector Northern New England: (207) 7670303

SEE ENCLOSURE

LNM: 10/20

NOTICE TO ALL PRIVATE BOATS AT SEA

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

LNM: 13/18

NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the "Rules of the Road", address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the "Rules of the Road", should consider a U.S. Coast Guard Auxiliary

boating safety course. Course information is available online at <http://www.cgaux.org> in the "Take a Boating This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and U.S. Coast Guard Sector New York. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse" section, or by calling 1-800-336-BOAT. Further information can be found at <http://thesafeharbor.us/index.html>

LNM: 13/18

US NOTICE TO MARINERS (NTM)

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61. NTM 01 – Special Paragraphs includes information on: America’s Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

LNM: 13/18

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR						
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3				CGD01	at 40-41-09.001N 074-02-48.001W
Corrective Action	Green can	Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

ME-PORTLAND HARBOR (Chart 13292)-PORTLAND HARBOR-Revised

The U.S. Coast Guard is considering making the following changes to the listed Aid to Navigation

Portland Head Light (LLNR 7565) CHANGE the nominal range from 24NM to 19NM

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 19 February 2021 to complete the process. In order to most effectively consider your feedback and improve or data collection when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-20-058. E-mail can be sent to: D01-SMB-DPWPUBLICCOMMENTS@USCG.MIL

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

SUMMARY OF GENERAL PROJECTS STILL IN EFFECT

Enclosure

LNM: 04/19

NY-BROOKLYN-EAST RIVER

Construction will be done to rebuild the timber pile corner cluster at PANY&NJ Pier 8 northside, from January 25 - March 31, 2021. The hours of operation will Monday - Friday, from 6:00 am - 4:00 pm. On scene will be the Barge CB ROCKLAND. No Radio - POC phone number 201.850.9591 - alt. phone number 917.560.6100. Mariners are requested to proceed with caution after (24 hours passing arrangement have been made.

LNM: 02/21

MA-SOUTH OF MARTHA'S VINEYARD (REVISED)

Hydrographic & Geophysical Surveys, have been extended until January 31, 2021, in the following location: 40-55'-00N, 70-37'-30W. The hours of operation are 7 days a week, 24 hours a day. On scene are Multibeam echo sounder & ultra-high resolution geophysical spread including towed equipment up to 200m astern of the vessels that are monitoring VHF-FM channels 13 and 16. Time to move vessels to not impede navigation: All Mariners transiting or fishing in the survey area are requested to give a wide berth to survey vessels as they may be limited in their ability to maneuver.

LNM: 51/20

NY-OFFSHORE SOUTH OF AMBROSE TO NANTUCKET OUTBOUND TRAFFIC LANE (REVISED)

Surveys are being done until January 31, 2021 in the following locations:

NEW Additional work

CAMERA and GRAB SAMPLE Environmental Stations operation OUTSIDE of below list Work Area
Station EW1-16 is in position 40°29'14.29"N - 73°52'45.48"W at an approximate depth of 15m.

40.2588326,-73.5193221

Both routes will be run as straight lines to fill the required corridor, there will be 500m long cross lines crossing the route corridor

NY-OFFSHORE SOUTH OF AMBROSE TO NANTUCKET OUTBOUND TRAFFIC LANE (REVISED)

On scene will be the Ocean Endeavor that will be monitoring VHF-FM channel 16. It is requested that other vessels give at least 1000 Meter separation from the subject vessel, when sighted as various data and hydrographic information is being collected by instrumentation deployed by the Ocean Endeavour, as well as in consideration of their restricted maneuverability.

Charts: 12200 12300 12323 12326 12350 12352

LNM: 49/20

NY-SLOOP CHANNEL

A temporary Hazard Buoy has been deployed marking a sunken barge in (PA) Lat: 40N, 36', 49.680"; Long: 73W, 30', 2.400. The buoy is orange and white with a white light. Mariners are requested to proceed with caution when transitting the area.

LNM: 47/20

CT-NORWALK-NORWALK RIVER (REVISED)

Cianbro Company will be conducting dredging activities and submarine cable installations in Norwalk River, in position 41-06-01.400N 073-24-55.130W, from 1 December 2020 – 31 January 2021..The hours of operation are 7 days a week, 24 hours a day. Equipment on scene will be a 40'x60' Dredging Barge; 40'x40' Flexi-Float Scow Barge; Crane Barge; 10'x30' Work Platform; 160HP Push Boat; 22' Work Boat and a 16' Safety Boat. The safety vessel will be monitoring VHF-FM channel 13. One Side of channel will remain open and navigable designated with signs, and coordinating with the harbormaster. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made with the safety vessel.

Charts: 12364 12368

LNM: 02/21

RI-BLOCK ISLAND-RHODE ISLAND SOUND

JT Cleary Co, Inc. will be conducting horizontal directional drilling on the east Side of Block Island, in Rhode Island Sound, in front of Crescent Beach and Block Island State Beach approximately between 1,500 and 4,500 feet from the coastline from 13 November 2020 to 01 March 2021, 24 hours a day, 7 Days a week. The contractor will be traveling back and forth between Old Harbor and the project. A wave rider buoy will be located within the work zone at (41-11-11.039" N; 71° 33' 28.800" W) is not meant to signify the border of the work zone. Equipment on scene will be Aries RAM XV, the Aries RAM VII, a 60ft x 150ft crane barge, 2 supply barges, an ocean going puser tug and a 30ft survey vessel. The work zone coordinates are;

- Point 1 - (41-11-13.560N; 71-33-34.848W)
- Point 2 - (41-11-11.400N; 71-33-33.515W)
- Point 3 - (41-11-16.404N; 71-33-19.367W)
- Point 4 - (41-11-08.051N; 71-33-14.940W)
- Point 5 - (41-10-59.915N; 71-33-41.976W)
- Point 6 - (41-11-09.419N; 71-33-47.051W)

Due to the nature of work the normal ferry trajectory to and from Old Harbor will be obstructed and will need to deviate from the normal course. Same will apply to local fishing and pleasure boats. Once vessels used in the project are jacked up at the beginning of the indicated period, they will be immobile. Mariners are urged to transit at their slowest safe speed and proceed with caution in the area.

CT-IN THE VICINITY OF CRESENT BEACH AND BLOCK ISLAND STATE BEACH

Cable repairs are being made to the Block Island Wind Farm until February 29, 2020. Temporary goal post structures, marked with lights, will be deployed during the work in the following positions:

- Goalpost 1: (N41° 11' 9.45", W71° 33' 22.56")
- Goalpost 2: (N41° 11' 9.65", W71° 33' 21.75")
- Goalpost 3: (N41° 11' 9.85", W71° 33' 20.93")
- Goalpost 4: (N41° 11' 10.05", W71° 33' 20.12")

CT-IN THE VICINITY OF CRESENT BEACH AND BLOCK ISLAND STATE BEACH

The hours of operation are 7 days a week 24 hours a day. On scene is barges, tugs jack-up and cable laying vessels which will be monitoring VHF-FM channel 13 and 16. Mariners are requested to take extra precautions when navigating in the vicinity of these cable repair operations.

LNM: 43/20

MA – NANTUCKET SOUND – SEA TURTLE MIGRATION

Mariners are advised that sea turtles are present in Southern Massachusetts coastal waters, especially surrounding Martha’s Vineyard, Nantucket, and the Elizabeth Islands. Mariners are advised to reduce speed in these areas and keep a lookout for sea turtles. Often, only the turtle’s dark head is visible at the surface. Sightings of jellyfish also indicate sea turtles are likely nearby. Vessel strikes are a significant risk to sea turtles. Sightings of dead, injured, or entangled turtles should be reported to the NOAA Fisheries Greater Atlantic Regional Fisheries Office by phone at (866) 755-6622.

MA-SOUTH OF MARTHA'S VINEYARD

The survey Vessel STRIL EXPLORER will be conducting Hydrographic and Geophysical surveys from August 9 2020 for approximately 240 days (weather dependent), the offshore areas and coastal sea areas south of Martha's Vineyard and east in to Long Island Sound. During this survey the STRIL EXPLORER will be deploying ROV subsea survey equipment along with towed Seismic equipment and will be restricted in their ability to manoeuvre. Approaching vessels are requested to pass at a safe speed and distance. The survey covers the planned Beacon Wind lease area and planned export cable route. The hours of operation will be 24 hours a day of operation are 7 days per week, when on scene. On scene vessels will be monitoring VHF-FM channels 13 and 16.

ME-NJ-SHREWSBURY

NOAA Fisheries announces that an extension of a voluntary vessel speed restriction zone under the Right Whale Slow Zone Program (acoustically triggered) is currently in effect SE of New York, NY to protect an aggregation of right whales. This Slow Zone is in effect through January 4, 2021. In addition, voluntary speed restriction zones are in effect SE of Atlantic City, NJ until January 4, 2021 and South of Nantucket Isl. MA until Dec 29, 2020. Mariners are requested to route around these zones or transit through it at ten knots or less. Information about voluntary vessel speed restrictions can also be found at www.nmfs.noaa.gov/pr/shipstrike.

2. The New York Bight Slow Zone is bounded by: 40 degrees 41 minutes North latitude, 40 degrees 01 minutes North latitude, 073 degrees 03 minutes West longitude, 073 degrees 55 minutes West longitude.

3. The SE Atlantic City, NJ Slow Zone is bounded by: 39 degrees 25 minutes North latitude, 38 degrees 44 minutes North latitude, 073 degrees 44 minutes West longitude, 074 degrees 36 minutes West longitude.

4. The South of Nantucket DMA/ Slow Zone is bounded by: 41 degrees 26 minutes North latitude, 40 degrees 44 minutes North latitude, 069 degrees 31 minutes West longitude, 070 degrees 25 minutes West longitude.

MAINE - BOOTHBAY HARBOR TO BATH - BACK RIVER - Bridge Construction - Work on the new Barter's Island swing bridge is ongoing. The construction of the new swing bridge is nearing completion, however the temporary fixed bridge will reduce the vertical clearance of the channel to 6.8 feet at mean high water (MHW) until **May 3, 2021** or later. A 36-foot horizontal channel will be maintained with temporary channel restrictions in effect from time to time. Questions may be directed to Glenn Philbrook, Resident Engineer, at 207-592-7819 or Glenn.philbrook@maine.gov. Mariners should plan accordingly and use caution while transiting the area.

Chart 13296 LNM 02/21 (CGD1)

MAINE - NEW HAMPSHIRE - PORTSMOUTH HARBOR – Bridge Repairs – Bridge repairs to the sewer main suspended from the Peirce Island Road Bridge over the Piscataqua River between Portsmouth, New Hampshire and Peirce Island, New Hampshire will continue through **January 15, 2021**. Scaffolding suspended from the bridge will reduce the vertical clearance by approximately 5 feet. There is no reduction in horizontal clearance. Working hours are 7 a.m. to 3:30 p.m. daily. Work crews will monitor VHF channels 13/16. Questions may directed to Mr. Andy LePage of SUR Construction at 603-817-8585 or Terry Desmarais of the City of Portsmouth at 603-828-1915. Mariners should exercise caution while transiting the area.

Chart 13283 LNM 02/21 (CGD1)

MAINE - NEW HAMPSHIRE – PORTSMOUTH TO DOVER AND EXETER – PISCATAQUA RIVER – Bridge Repairs – Bridge repairs to the I-95 Bridge between Portsmouth, New Hampshire and Kittery, Maine will continue through **May 2022**. Working hours are scheduled daily Monday through Friday 6 a.m. to 2:30 p.m. and 9 p.m. to 3:30 a.m. Suspended platforms will be installed under the bridge but will not reduce vertical clearances or impede vessel navigation. Hydraulic suspension trucks and welding will be utilized during the duration of the project, which will temporarily reduce the vertical clearance. Welding and reduction in clearance will cease upon approach of a vessel. Questions concerning the bridge repair project should be directed to Mr. Joel Dietrich, project manager with SPS at 978-423-2438 or Mr. Craig Hurd, ME DOT Resident Engineer at 207-446-1746. The project superintendent will monitor channel 13 and 16 and a safety boat will be on scene during work over the waterway. Mariners should exercise caution while transiting the area.

Chart 13285 LNM 02/21 (CGD1)

VERMONT – LAKE CHAMPLAIN – REVIERE RICHELIEU TO SOUTH HERO ISLAND – Bridge Construction – Construction of the new US Route 2 drawbridge (mile 91.8) from North Hero to Grand Island is ongoing. The horizontal clearance of the channel is 40 feet. The vertical clearance in the closed position is 17.5 feet at mean water level. Vessels that can pass under the bridge between openings are allowed to do so. Mariners should pass with extreme caution and No Wake. Questions may be directed to Mr. Jeff Ramsey of the Vermont Agency of Transportation at 802-917-4467, or Jacqueline Dagesse, Public Outreach Manager, at 802-324-5522. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

Chart 14781 LNM 02/21 (CGD1)

MASSACHUSETTS – WEST BAY – BARNSTABLE - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the Oyster Harbors Bridge (mile 1.2) over the West Bay in Osterville Village, Barnstable, Massachusetts. The Oyster Harbors Bridge will remain in the closed to navigation position from January 18 to April 30, 2021 to allow the replacement of steel stringers in the draw span. The 13 foot vertical clearance of the bridge will not be affected by the work. The horizontal clearance will be reduced from 31 feet to 25 feet due to the use of access floats. If the full horizontal clearance is needed for safe passage, the contractor will remove the floats with two hours notice. The floats will be removed from the navigation channel after work hours which are 7 a.m. to 3 p.m. Monday - Friday, with work possibly occurring on weekends. The contractor, MAS Building and Bridge, Inc., will monitor VHF channels 16/13 during working hours. Vessels able to pass under the bridge in the closed position may continue to do so. The bridge will not be able to open for emergencies. Questions may be directed to the Harbormaster, Brian Taylor at 508-790-6273 or the contractor's Project Manager, Mathew Hagopian at 847-732-2586. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

Chart 13229, Side A, LNM 02/21 (CGD1)

MASSACHUSETTS - BOSTON INNER HARBOR - CHARLES RIVER - Bridge Repairs – Rehabilitation of the Lechmere Viaduct (mile 1.0) which carries the MBTA Green Line over the Charles River from Science Park Station in Boston to Lechmere in Cambridge will be ongoing until **August 31, 2021**. The navigation span will remain open but subject to reductions in vertical and horizontal clearance. Temporary work platforms will be installed on the bascule span and arch spans to allow cleaning, painting, and structural repairs. The work platform will reduce the vertical clearance of the bascule span by 5 feet to 28 feet Average Water Level. Work barges and work boats will be at various locations and at times will reduce the horizontal clearance. Temporary closures of the navigable channel will occur. Working hours are from 0700 a.m. to 10 p.m. daily. Mariners may contact the on-scene work boat on VHF channels 13/16 for safe passage. Questions may be directed to the Contractor, SPS New England, Inc., 24 hour POC Patrick Blais at 978-994-2741.

Chart 13272 LNM 02/21 (CGD1)

MASSACHUSETTS – BOSTON INNER HARBOR - CHARLES RIVER – Bridge Construction - Demolition and construction are ongoing at the North Washington Street Bridge. Work hours are 6 a.m. to 9 p.m. Vessels may transit through the work site in the open channel. Multiple barges, cranes and other equipment are on-scene. Work boats and push boats can be contacted on VHF Channel 13 to arrange passage if needed. If access to the commercial lock is required and work barges are in the channel, 24 hour notice to J.F. White is required to clear access to the commercial lock. The on-scene foreman for the J.F. White Contracting Company is Patrick Wilson at 617-680-7537. Mariners are advised to proceed at slow speed and exercise caution.

Chart 13272 LNM 02/21 (CGD1)

MASSACHUSETTS – SAUGUS RIVER - Bridge Construction - Demolition of the old Belden G. Bly (Route 107) Bridge between Lynn and Saugus will commence on January 2, 2021, in preparation for the construction of a new permanent drawbridge. Work barges and work boats will be located in the side channels to remove the bridge deck. The side channels will be closed. From January 2 through **January 15**, the navigation channel will be open for passage. The barge and/or work boats may be contacted via marine radio VHF-FM CH. 13/16. Questions may be directed to the contractor, SPS New England at 978-270-2628 or to Peter Tramontozzi at MassDOT, 617-279-9022. Mariners should exercise caution when transiting the area.

From January 16, 2021, through February 15, 2021, one hour notice to MassDOT by telephone at (800-227-0608) should be provided for passage through the old bridge and the temporary bridge. MassDOT will notify the SPS work crew as needed. Work hours will be from 7 a.m. to 3 a.m. Monday through Saturday with no work on Sundays or holidays. The navigation channel through the old bridge will be open all day on Sundays and Holidays.

Chart 13275 LNM 02/21 (CGD1)

MASSACHUSETTS – ANNISQUAM RIVER – Bridge Construction -The draw span of the Massachusetts Bay Transportation Authority (MBTA) Bridge across the Annisquam River, mile 0.7, has been removed to allow for construction of a replacement bridge. The channel through the bridge is currently open for passage, however work boats may be in the vicinity of the bridge. Vessel operators can reach the Harbormaster on VHF CH 16/14 if there are conflicts. Questions may be directed to the MBTA Project Manager, Peter Gagnon at 857-274-3184. Vessel operators should exercise caution.

Chart 13281 LNM: 02/21 (CGD1)

MASSACHUSETTS – ANNISQUAM RIVER – Full Channel Closure. The Massachusetts Bay Transportation Authority (MBTA) Bridge across the Annisquam River, mile 0.7, has been removed to allow for construction of a replacement bridge. The channel through the bridge will be closed to all vessel traffic 24 hours a day commencing 7:00 a.m. **February 3, 2021**, to 7:00 p.m. **March 26, 2021**. The full channel closure is required to accommodate the drilling and installation of two bridge pier supports and

associated bridge fendering system. The barge and equipment will not be moved from the channel outside of working hours. Vessel operators can reach the Harbormaster on VHF CH 16/13. Questions may be directed to the MBTA Resident Engineer, Mr. Matt Moorehouse at (617) 839-8075 or Mr. Tim Chase Sector Boston Waterways Management at (617) 447-1620. Mariners are advised to plan accordingly.

Chart 13281 LNM 02/21 (CGD1)

MASSACHUSETTS - MERRIMACK RIVER – Bridge Construction - Work on the Massachusetts Bay Transportation Authority (MBTA) Bridge in Haverhill, MA at mile 19.9 of the Merrimack River will continue through **October 2021**. Construction barges will be operating and stored in the navigation channels. Hours of work are Monday through Saturday between 6:30 a.m. and 6:00 p.m., with occasional night and Sunday shifts. The navigation channel will be reduced in width, but available at all times for navigation. Questions should be directed to the contractor, Cianbro Corporation, Mr. Brayden Sheive at 207-553-6676. Mariners should exercise caution while transiting the area. Chart 13282 LNM 02/21 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY - Newport Bridge Repairs – Repairs to the East and West highway approaches to the Newport Claiborne Pell Bridge, mile 4.0, Narragansett Bay will be conducted through **January 31, 2021**. Work barges and support vessels will be operating in various locations outside of the navigation Channel and will monitor channels 13 and 16. Work hours are from 6 a.m. to 6 p.m.; however, barges will remain on scene continuously. Mariners can contact the Aetna Bridge Company at 401-663-6257 or Steve Aguiar, Superintendent, at 401-663-6125 for more information. Mariners are advised to use caution when transiting the area.

Chart 13223 LNM 02/21 (CGD1)

CONNECTICUT – CONNECTICUT RIVER – Bridge Repairs – A bridge repair project is underway on the Arrigoni Highway Bridge (Route 66) across the Connecticut River in Middletown through the **fall of 2022**. A working platform/debris shield will reduce the vertical clearance by 10.5 feet throughout the duration of the project. No in water work is planned at this time. Mariners are advised to exercise caution when transiting the area. The CONNDOT point of contact is Barak Brako Frempong, 860-594-3167.

Chart 12378 LNM 02/21 (CGD1)

CONNECTICUT – CONNECTICUT RIVER – Bridge Repairs – A bridge repair project including blasting, painting, and steel repair operations is underway on the Route 190 Bridge across the Connecticut River at mile 69.1 between Enfield and Suffield. This project will be completed by **November 27, 2022**. All work will be conducted on top of the bridge deck. No in water work is planned at this time. Mariners are advised to exercise caution when transiting the area. The CONNDOT point of contact is Lukasz Obrebski (860) 212-5120.

Chart 12378 LNM 02/21 (CGD1)

CONNECTICUT – CONNECTICUT RIVER LONG ISLAND SOUND TO DEEP RIVER – CONNECTICUT RIVER - Inspection – From January 11, 2021 to **January 30, 2021** between 8:00 a.m. and 4:00 p.m., a 24 foot boat will be performing general bridge inspections at the I-95 Bridge across Connecticut River at mile 4, in Old Lyme, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Jack Casey (860) 930-9897. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12375 LNM 02/21

CONNECTICUT – NEW HAVEN HARBOR – QUINNIPIAC RIVER – Bridge Construction – Starting March 9, 2020 until **December 31, 2021**, the City of New Haven will be performing construction activities for the rehabilitation of the Grand Ave Bridge over Quinnipiac River at mile 1.3. The Swing Bridge will remain in the open position the entire duration of the project. Barges and floating dock will occupy one navigational channel leaving the remaining navigational channel open for mariners to transit. All docks and barges will be light with constant red lights for visibility. Mariners with any questions or concerns may contact Project Manager Daniel Butler (860) 250-7128. Mariners are advised to exercise caution when transiting the area.

Charts 12371 LNM 02/21 (CGD1)

CONNECTICUT – NEW HAVEN HARBOR- QUINNIPIAC RIVER- Diving Inspections – From January 13, 2021 to **February 1, 2021** between 8:00 a.m. to 4:00 p.m., a 21-foot boat and diving equipment at the Tomlinson (Rte 1) Bridge across Quinnipiac River at mile 0. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Clay Carlson (203) 216-1766. Mariners are advised to exercise caution and reduce wake when transiting the area.

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND SHERWOOD POINT TO STRATFORD HARBOR- SAUGATUCK RIVER- Diving Inspections – On **January 21, 2021** between 8 a.m. and 4 p.m., a contractor will be performing underwater inspections at the I-95 Bridge across Saugatuck River at mile 1.2. The contractor will be utilizing a 21-foot boat and diving equipment. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Clay Carlson (203) 216-1766. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12368 LNM 02/21 (CGD1)

CONNECTICUT – NIAN TIC BAY – NIAN TIC RIVER - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the S156 Bridge over the Niantic River between East Lyme and Waterford at mile 0.1. Under this temporary deviation, the S156 Bridge will remain in the closed to navigation position from **November 1, 2020 to March 30, 2021**. The deviation supports needed repairs to the bridge. The vertical clearance of the bridge will be reduced from 32 feet to 21.1 feet at mean high water and horizontal clearance will be reduced to 75 feet when the work barge is in the channel. The barge will monitor channels 13/16 during working hours. Vessels able to pass under the bridge in the closed position may continue to do so. The bridge will not be able to open for emergencies. Questions may be directed to Ms. Rosmery Rodriguez, Connecticut Department of Transportation at 860-594-2127, Brent Church Project Engineer at 860-213-2625, or the Harbormaster, Ron Johnson at 860-649-0228. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.
Chart 12372, LNM 02/21 (CGD1)

CONNECTICUT – GREENWICH POINT TO NEW ROCHELLE- HOUSATONIC RIVER – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Devon Bridge across the Housatonic River at mile 3.9. The deviation is needed to perform track work on the Devon Bridge. Under this temporary deviation, the Devon Bridge may stay in the closed position November 30, 2020 until **January 25, 2021**, 0600 to 1900 Monday through Friday. The bridge must open to emergency vessels given advance notice. Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to Mr. Rodney Armstrong (203) 627-8818. Mariners are advised to exercise caution when transiting the area.
Chart 12367 LNM 02/21 (CGD1)

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND SHERWOOD POINT TO STRATFORD HARBOR- HOUSATONIC RIVER- Inspections – From December 16, 2020 to **December 31, 2020** between 8 a.m. and 5 p.m., a contractor will be performing inspections at the Devon Bridge across Housatonic River at mile 3.9. The contractor will be utilizing a safety boat for this inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Yaroslav Skoplyak (203) 910-6343. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12368 LNM 02/21 (CGD1)

NEW YORK – LONG ISLAND SOUND – HEMPSTEAD HARBOR TO TALLMAN ISLAND – WESTCHESTER CREEK – Bridge Replacement – There are two temporary lift bridges located North and South of the existing Unionport Bridge across Westchester Creek at mile 1.7. Beginning December 29, 2020, the contractor will have a 30' x 60' barge in the channel to remove the submarine cables. This arge will reduce the vertical clearance to 10'. The barge will be in the channel until **February 1, 2021**.

Beginning August 5, 2019, the temporary bridges will be operational and will provide minimum vertical clearance of 17'-2" in closed position and 35' in open position. These temporary bridges will temporarily alter the existing vertical clearance from 53 feet to 35 feet from the above MHW EL+1.78 until **September 2021**.

The contractor will be erecting the new bridge spans beginning March 2021 until September 2021. During this time frame the vertical clearance will be reduced to 14 feet. The south span will be erected from March 1, 2021 to **June 14, 2021**. The north span will be erected beginning July 1, 2021 until **September 14, 2021**.

Mariners can contact Abdi Hedayati at (347) 885-8613 regarding the temporary bridges and John Albano at (732) 272-7837 if requiring full horizontal clearance. Mariners are advised to exercise caution and reduce wake when transiting the area and find alternate routes if the vessel exceeds vertical clearance.

Chart 12366 LNM 02/21 (CGD1)

NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET- REYNOLDS CHANNEL – Temporary Deviation -

Beginning December 14, 2020 through **March 1, 2021** from 7:00 a.m. to 3:30 p.m., Nassau County will be performing emergency repairs at the Long Beach Bridge across Reynolds Channel at mile 4.7. Nassau County will be utilizing tugboats and equipment barges to perform this work. The horizontal clearance will be reduced to 50 feet. During work hours the bridge will only open one leaf every 3 hours; 10:00 a.m. and 1:00 p.m.. All marine equipment operators will be monitoring vhf-fm channel 63 and channel 16 and 13.

Mariners with questions can contact Saji Varughese at (347) 952-5108.

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Fender Replacement – Construction to the Bronx Whitestone Bridge across East River at mile 13.8 will commence on July 20, 2020. Two 60ft by 120ft crane and material barges will be operating IVO Queens and Bronx Towers. There is no horizontal

or vertical clearance reduction in the navigation channel. Any questions regarding construction can contact Robert Peterson at 732-522-1916. This project is to be completed by **December 24, 2021**. Mariners are advised to exercise caution when transiting the area. Chart 12366 LNM 02/21 (CGD1)

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Replacement of Upper Roadways – Construction to the Queensboro Bridge over East River at mile 5.5 is in progress. All work are on top of the bridge. Hot work operations will be performed through **October 28, 2022**. A safety boat will be operating IVO the bridge. Any questions regarding the construction please contact Anthony Grosso at 718-685-3990 or 347-242-6442. This project is to be completed by **October 28, 2022**. Mariners are advised to exercise caution when transiting the area. Chart 12339 LNM 02/21 (CGD1)

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Bridge Maintenance – On **January 14, 2021 and January 21, 2021**, between 9:30 a.m. and 2 p.m., a bridge traveler will be operated under the Queensboro Bridge over East River at mile 5.5 to perform bridge maintenance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 917-295-1856 or 646-879-4107. The traveler platform will be moved out of the navigable channel after work hours or when not in use. Mariners are advised to exercise caution when transiting the area. Chart 12339 LNM 02/21 (CGD1)

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Structural Repairs – Repairs to the Queensboro Bridge over east channel of the East River at mile 5.5 is in progress. A temporary scaffold system will be installed above the low steel of the bridge. Hot work operations will be performed at this location. Bridge traveler will be operated under the bridge over west channel of East River from January 1, 2021 to January 15, 2021. Operation hours are from 7 a.m. to 3:30 p.m. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 917-295-1856 or 646-879-4107 or 914-719-5624. The traveler platform will be moved out of the navigable channel after work hours or when not in use. A safety boat will be operating IVO the bridge. Any questions regarding the construction please contact Anthony Grosso at 718-685-3990 or 347-242-6442. This project is to be completed by **January 15, 2021**. Mariners are advised to exercise caution when transiting the area. Chart 12339 LNM 02/21 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Construction – Construction to the East Midtown Waterfront Esplanade Bridge, mile 5.1 – 5.7 across East River is in progress. There will be crane, deck and material barges placed between 53rd Street and 61st Street along East River bulkhead. All equipment are operated outside the navigation channel. Mariners with questions regarding the equipment in the waterway may contact Ms. Prybylski at 212-312-3577. This project is to be completed by **January 30, 2022**. Mariners are advised to exercise caution when transiting the area. Chart 12335 LNM 02/21 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Seawall and Pier Sheeting Repairs – A 52ft by 112ft crane barge and a 30ft by 90ft material barge will be operating along Brooklyn shoreline of the Williamsburg Bridge over East River at mile 2.3 commencing on November 11, 2020 to perform repairs. All work are outside the navigation channel. Hours of operation are from 6 a.m. to 2:30 p.m.. Questions may directed to Mr. John Kruk at 917-502-4546 or Mr. Mark Larsen at 845-587-0670. This project is to be completed by **January 31, 2021**. Mariners are advised to exercise caution when transiting the area. Chart 12335 LNM 02/21 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Maintenance – On **January 13, 2021 and January 20, 2021**, between 9:30 a.m. and 2 p.m., a bridge traveler will be operated under the Williamsburg Bridge over East River at mile 2.3 to perform bridge maintenance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 917-295-1856 or 646-879-4107. The traveler platform will be moved out of the navigable channel after work hours or when not in use. Mariners are advised to exercise caution when transiting the area. Chart 12335 LNM 02/21 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Rehabilitation – Three localized underdeck platforms are installed under the Manhattan Bridge across East River at mile 1.1 and will not reduce vertical clearance in the navigation channel more than three feet. Hot work will be performed during this construction period. A 50ft by 110ft barge will be operating IVO Manhattan Tower from January 22, 2020 to April 24, 2020 during daylight hours. Mariners can contact Chad Umphred at 908-307-3890 or Daniel Chasse at 646-522-1248 for barge equipment. This project is to be completed by **April 16, 2021**. Mariners are advised to exercise caution when transiting the area.

Chart 12335 LNM 02/21 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Rehabilitation – Construction to the Brooklyn Bridge over East River at mile 0.8 is in progress. Approximate four barges will be operating at the Manhattan Tower from May 28, 2020 to May 28, 2021. Hours of operations are from 6 a.m. to 3:30 p.m. No construction equipment will be operating in the navigation channel during rehabilitation. Mariners can contact Bill Ferdinandsen Resident Engineer at 347-242-6203 for construction status. This project is to be completed by **February 28, 2023**. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12335 LNM 02/21 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – GOWANUS CANAL – Notice of Temporary Deviation – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Hamilton Ave Bridge across Gowanus Canal at mile 1.2. From November 15, 2020 to **May 8, 2021**, Monday through Friday, between 7 a.m. and 6 p.m., the Hamilton Ave Bridge will open on signal provided at least a two-hour advance notice by calling bridge operator/section office. All other times, the bridge will open on signal. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly.

Chart 12352 LNM 02/21 (CGD1)

NEW YORK – HARLEM RIVER – Misc. Structure Rehabilitation and Repairs of Overcoat Painting – Rehabilitation of the Henry Hudson Bridge over Harlem River at mile 7.2 is in progress. A tug and 300ft by 90ft barge will be operating in the navigation channel (during installing and removing of temporary work platform). Temporary work platforms will be installed under the entire arc span and will reduce the vertical clearance by approximately 67in below the low steel. Hot work may be operating within the platform area. Mariners requiring full horizontal clearance can contact Rafael De Soto via marine radio VHF-FM CH 13/16 or call 347-843-8440. This project is to be completed by **March 23, 2023**. Mariners are advised to reduce wake and exercise caution when transiting the area.

Chart 12342 LNM 02/21 (CGD1)

NEW YORK – HARLEM RIVER – Emergency Bridge Closure – Broadway Bridge, mile 6.8, over across Harlem River was not able to open for marine traffic due to damaged electrical control system. New York City DOT is working diligently to repair the bridge. The bridge will be unable to open to marine traffic until repairs are completed. The vertical clearance in the closed position is approx. 24 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.

Chart 12342 LNM 02/21 (CGD1)

NEW YORK – HARLEM RIVER- Bridge Rehabilitation – Construction to the Broadway Bridge across Harlem River at mile 6.8 is in progress. A temporary shielding will be installed on or about November 16, 2020 under the Broadway Bridge across Harlem River at mile 6.8. Temporary shielding will reduce vertical clearance in the navigation channel by approximately 3ft 9in. A one half of navigation channel will be free of obstruction at all time. Mariners have questions regarding temporary shielding information can contact Joe Pollack via marine radio VHF-FM CH 13/16 or 917-656-6820. This project is to be completed by **April 30, 2023**. Mariners are advised to reduce wake and exercise caution when transiting the area.

Chart 12342 LNM 02/21 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Painting – Painting to the 207th Street/University Heights Bridge across Harlem River at mile 6.0 is in progress. Rigging cables and installation of work platform will begin from Manhattan approach span (west abutment) and work toward to the Bronx approach span (east abutment). The work platform under the east and west approach spans will reduce the vertical clearance by approximately 4 ft. While working in the navigation channel, one draw of a swing bridge vertical clearane will be reduced by the work platform approximately 3 feet; the other draw will be free and clear of any equipment for the passage of vessels. Mariners has questions can contact the contractor via marine radio VHF-FM CH 13/16 or call 917-440-9478. This project will be completed by **May 1, 2022**. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12342 LNM 02/21 (CGD1)

NEW YORK - HARLEM RIVER – Electrical/Mechanical Rehabilitation – Construction to the Madison Ave Bridge across Harlem River at mile 2.3 is in progress. A protective shield will be installed around the center pier. This shield will not affect operation of the bridge. Any questions to this project can contact Kambiz Riazi at 646-246-6666 or Steve Koch at 908-723-4355. This project is to be completed by **April 13, 2022**. Mariners are advised to exercise caution when transiting the area.

Chart 12342 LNM 02/21 (CGD1)

NEW YORK – HARLEM RIVER – Notice of Temporary Deviation – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Madison Ave Bridge, across Harlem River at mile 2.3. Under this temporary deviation, from November 9, 2020 to **February 28, 2021**, between 12:01 a.m. and 5 a.m. the Bridge shall open on signal after at least a four-hour advance notice is given to the bridge operator/section office. All other times the bridge need not open for the passage of vessel traffic. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.
Chart 12342 LNM 02/21 (CGD1)

NEW YORK - HARLEM RIVER - Fender Replacement – Construction to the Metro North (Park Ave) Bridge across Harlem River at mile 2.1 will commence on October 16, 2020. There will be crane barges operating in the area. Work will begin west fender through May 31, 2021 and shift to east fender on May 31, 2021 through **July 15, 2022**. A 120ft of horizontal clearance in the navigation channel will be maintained at all times. Any questions regarding barge placement can contact Tony Rivera at 917-715-9429. This project is to be completed by **October 1, 2022**. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 02/21 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Construction – Metro-North is replacing the miter rails at Park Ave RR Bridge, mile 2.1, across Harlem River. The bridge will be unable to open to marine traffic until miter rails are replaced. This work is expected to be completed by **January 16, 2021**. The vertical clearance in the closed position is approx. 25 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area. Any questions or concerns may be directed to Ms. Anamaria Bonilla at (646) 208-8509.
Chart 12342 LNM 02/21 (CGD1)

NEW YORK – NEW YORK HARBOR – Structural Steel Repairs and Painting – Repairs to the Verrazano Narrows Bridge over New York Harbor are in progress. Temporary safe-span platforms will be installed under the entire length of the bridge and will reduce the vertical clearance by approximately 2 ft. below the traveler rail with maximum two feet sag. The temporary platform for 250ft on both sides of the centerline of the bridge for a total of 500ft must maintain less than one foot of vertical clearance reduction below the traveler rail at all times unless approved by Coast Guard Vessel Traffic Service New York (CG VTS-NY). Four corners of temporary platforms marking the 500ft center of the span where less than one foot of vertical clearance reduction is maintained will be lighted with constant burning red lights. Any questions regarding the platforms please contact Chris Daskalakis at 718-639-5880 or CG VTS-NY at 718-354-4088. This project is to be completed by **November 30, 2021**. Mariners are advised to exercise caution when transiting the area.

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Structural Steel Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 is in progress. Safe span platforms will be installed under the east and west approach spans and will reduce vertical clearance by 2 feet. POC for this project is William Ritter and can be reached at 973-390-7221. This project is to be completed by **March 30, 2023**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 02/21 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Fender and Pile Jacketing Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 is in progress. There will be barges operating in the navigation channel. Work will begin west fender then shift to east fender through February 28, 2021. A minimum of 520ft of horizontal clearance in the navigation channel will be maintained at all time. Cranes barges will be operating at the east side piers E6, E7 and E8 from August 1, 2020 to **December 31, 2021**. POC for this project is Todd Davis and can be reached at 609-405-0417. This project is to be completed by **December 31, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 02/21 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Bridge Inspection – Inspection to the Goethals Bridge across the Arthur Kill, mile 11.5 is in progress. Hours of operations are from 7 a.m. to 4 p.m. At times, an underdeck traveler will be operating at various locations over the navigation channel. Mariners requiring full vertical clearance can contact Carlo Thompson via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. This inspection is to be completed by **January 31, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 02/21 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Routes 1 & 9 Bridge, across Hackensack River at mile 1.8 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 100 feet of unobstructed Channel at all times. Mariners requiring more than 100 feet of horizontal clearance can contact Daniel Nomie at 215-589-0053 or Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **June 30, 2021**. Mariners are advised to exercise caution when transiting the area. Chart 12337 LNM 02/21 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - Notice of Temporary Deviation – The Coast Guard has issued an emergency temporary deviation from the regulation governing the operation of the PATH Bridge across Hackensack River at mile 3.0 due to failure of control system. Under this emergency temporary deviation from December 3, 2020 to **March 31, 2021**, the PATH Bridge shall open on signal weekends only (Saturday and Sunday) provided a minimum of forty-eight (48) hours advance notice is given by calling the number posted at the bridge to coordinate a transit time that is mutually agreeable and least disruptive to PATH operations. The draw need not open for the passage of vessel traffic Monday through Friday. The vertical clearance in the closed position is approx. 40 feet at MHW. Vessels that can pass under the closed span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly and exercise extreme caution when transiting the area. Chart 12337 LNM 02/21 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction – Replacement of the new Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 is in progress.

The following channel restriction schedule will be utilized during the construction of the new bridge towers and lift span:

Vertical Height Restriction: September 28, 2020 - February 26, 2021 (70' VERTICAL CLEARANCE at mean high water)

12 Hour Notice Protocol: September 28, 2020 – December 26, 2020 (SEE BELOW FOR INSTRUCTIONS)

12-hour Advance Notice Protocol:

While CCA Civil is working in the navigable channel, other than during the daily/full channel closures, CCA Civil will implement the following 12 Hour Advance Notice Protocol.

1. Mariners will call one of the three (3) Provided Telephone Numbers advising of travel through the channel. (including possible return trips)

Christopher Saulys Site Superintendent 201-600-6070

Derek Guenther Assistant Site Superintendent 908-797-5032

Evan Raab Senior Project Engineer 201-359-0906

2. CCA Civil will prepare barges to be moved from the Channel prior to the vessel(s) arrival onsite.

3. Tug boats will move CCA Civil barges from the work hour location in the channel to the off-hour work location outside the channel.

4. Mariners will safely travel through the navigable channel.

5. Once safely past the channel and clear of the jobsite, CCA will remobilize barge(s) back into prior work positions.

Under this protocol, Mariners will provide a 12 Hour Advance Notice, stating when they will be traversing the Channel. Once CCA Civil receives notice from a Mariner, the barge(s) will be moved from the Navigable Waterway and allow the vessel(s) to pass. This 12 Hour Advance Notice will only be in effect for 3 months from the start of work in the waterway. Please email "raab_evan@ccacivil.us" if you would like to receive email updates during this portion of the contract. This project will be completed by **April 1, 2021**. Mariners are advised to exercise extreme caution when transiting the area.

Chart 12337 LNM 02/21 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - Notice of Proposed Rulemaking – The Coast Guard proposes to modify the drawbridge operation regulations governing the new Route 7 Bridge, mile 3.1, across Hackensack River, at Jersey City, New Jersey. This proposed rule would allow the new Route 7 bridge to open on signal if at least four hours advance notice is given by calling the number posted at the bridge. Written comments or related material must reach the Coast Guard by **January 19, 2021**. Submit comments through the Federal eRulemaking Portal at <http://www.regulations.gov> noting docket number USCG-2020-0603. In addition, **Public Notice 1-181** dated November 19, 2020 has been published on the USCG Navigation Center website at: <https://www.navcen.uscg.gov/D1BN>. If you cannot use the online portal, you may mail your comments directly to Commander, First Coast Guard District Bridge Branch, Battery Park Building, One South Street, New York, NY 10004-1466.

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Concrete Corings, Geotechnical Borings and Harzardous Materials Borings – Corings and Borings to the New Jersey Turnpike Bridge, mile 11.8 across Hackensack River will commence on January 13, 2021. Hours of operation are between 7 a.m. and 5 p.m. a skiff type coring boat approx. 15ft by 25ft or spud type boring rig approx. 20ft by 40ft will be operating IVO the bridge. Mariners requiring full horizontal clearance can contact Bruno Pelletier at 418-558-4557 or Howard Blythe at 860-798-2640 via marine radio VHF-FM CH. 13/16. This project will be completed by **February 26, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12337 LNM 02/21 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Route 46 Bridge, across Hackensack River at mile 14 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. From October 15, 2020 to **January 31, 2021**, Mondays to Fridays, between 7 a.m. and 4 p.m., drill/crane/material barges will be temporary blocking the entire navigation channel. Mariners requiring barges moved out of the navigation channel can contact Daniel Nomie at 215-589-0053 or Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **June 30, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12337 LNM 02/21 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – PASSAIC RIVER – Fender Replacement – Construction to the Routes 1 & 9 Bridge, across Passaic River at mile 1.8 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 149 feet of unobstructed Channel at all times. Mariners requiring more than 149 feet of horizontal clearance can contact Daniel Nomie at 215-589-0053 or Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **June 30, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12337 LNM 02/21 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – PASSAIC RIVER – Emergency Repairs – The Clay Street Bridge, mile 6.0, Bridge Street Bridge, mile 5.6 and Jackson Street Bridge, mile 4.6, all across Passaic River between Essex and Hudson Counties, New Jersey are under emergency repairs. During the repairs, the bridges are operating under an Emergency Standard Operating Procedures (ESOP) as follow: On signal if at least 24 hours advance notice Monday through Friday and 48 hours advance notice Saturday through Sunday is given by calling Luis Rodriguez at 973-332-7281. Vertical clearance at mean high water for the Clay Street Bridge is approx. 8ft; Bridge Street Bridge is approx. 7ft; and Clay Street Bridge is approx. 15ft. Vessels that can

transit under the closed span may do so at any time. Mariners are advised to refrain from entering the navigable channel until such time as the span has come to a complete halt. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.
