LOCAL NOTICE TO MARINERS

District: 1

Week: 12/20

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:

- (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
(2) The Local Notice to Mariners is a weekly edition.
(3) Inquiries, published articles or Information: mail to: D1LNM@uscg.mil
(4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
(5) The Coast Pilot, along with its corrections, are available online at https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html.

The Local Notice to Mariners is available online at https://www.navcen.uscg.gov/-pageName=lnmDistrict®ion=1
The updated 2017 Light List is available online at: https://www.navcen.uscg.gov/-pageName=lightListWeeklyUpdates
Information on Private Aids to Navigation is available at: http://www.usharbormaster.com/
Reports of Channel conditions can be found at the Army Corps of Engineers website at:
http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx.
NOAA Tides and Currents can be found at: http://tidesandcurrents.noaa.gov/.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: http://cgls.uscg.mil/mailman/listinfo/nanu . In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: tis-sg-nisws@uscg.mil, or on the internet at: https://www.navcen.uscg.gov.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

NOAA- DISCONTINUANCE OF PAPER CHARTS

On November 15, 2019, NOAA formerly announced in the Federal Register (Docket #2019-24807) that they would begin a 5-year process of discontinuing their traditional paper, or raster, charts by 2025. NOAA intends to gradually 'sunset' raster chart products and is introducing an option to create custom ENC data based charts that can be printed as a paper copy locally or commercially, via one of their certified third party printers. More detailed information regarding this transition is available from <https://nauticalcharts.noaa.gov/publications/docs/raster-sunset.pdf>. Comments/questions on the Federal Register Notice and the NOAA Custom Chart application should be submitted at <https://www.nauticalcharts.noaa.gov/customer-service/assist/>. Other concerns may be directed to your local NOAA Navigation Manager, <https://nauticalcharts.noaa.gov/customer-service/regional-managers/index.html>. In order to identify and overcome the regulatory challenges associated with this transition including but not limited to updating commercial vessel carriage requirements and maritime safety information processes, NOAA will continue to work directly with its Agency charting partners, including the U.S. Coast Guard. A prototype version of the NOAA Custom Chart Tool is available at <https://devgis.charttools.noaa.gov/pod/>.

MARINER ALERT-SHIP/WHALE COLLISIONS

NOAA just designated the North Atlantic right whale as a Species in the Spotlight because it is on the brink of extinction. Collisions between vessels and whales are a threat to a number of endangered large whale species – most notably, the right whale. The United States has established measures to reduce this threat. A vessel speed restriction requires that vessels 65 feet or greater in length travel 10 knots or less in certain areas and on a rolling basis at certain times where endangered right whales may be present: : <http://www.greateratlantic.fisheries.noaa.gov/protected/shipstrike/training/NOAA-RightWhalesCD.iso> . This rule applies within 20 nautical miles around all major ports and in other locations along the U.S. eastern seaboard. Temporary voluntary speed limits also may be imposed in other areas when an aggregation of three or more right whales is confirmed. In addition, ships 300 GT and greater are required to report their location and speed to a USCG shore station in certain prescribed areas: https://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf. A computer-based interactive guide and training resource for mariners is available at: <http://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/mtr.html>. The guide provides information on endangered whales, recommended navigational actions when operating in whale habitat, a guide to reporting sightings of dead or injured right whales, and related information. Additional steps mariners can take to help reduce the chances of hitting a right whale can be found at: http://www.nero.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf.

NOVEL CORONAVIRUS

"The outbreak of respiratory illness caused by the COVID-19 virus may affect mariners and maritime commerce transiting to or near New England, New York and New Jersey waters. Additional interim guidance for ships on managing suspected coronavirus disease concerns is available at <https://www.cdc.gov/quarantine/maritime/recommendations-for-ships.html>. An enclosure to this LNM includes additional information as well as a number of links to websites where additional information regarding this illness can be obtained. Mariners with questions/concerns while transiting to or near New England, New York and New Jersey should contact the nearest Coast Guard Sector Command Center at:

Sector New York: (718) 354-4353

Sector Long Island Sound: (203) 468-4404

Sector Southeastern New England: (508) 457-3211

Sector Boston: (617) 223-5757

Sector Northern New England: (207) 7670303

NOTICE TO ALL PRIVATE BOATS AT SEA

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the "Rules of the Road", address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the "Rules of the Road", should consider a U.S. Coast Guard Auxiliary boating safety course. Course information is available online at <http://www.cgaux.org> in the "Take a Boating This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and U.S. Coast Guard Sector New York. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse" section, or by calling 1-800-336-BOAT. US NOTICE TO MARINERS (NTM)

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pagelabel=msi_portal_page_61. NTM 01 – Special Paragraphs includes information on: America's Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections. This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)**ME-NEW BRUNSWICK-GRAND MANAN CHANNEL NORTHERN PART (Chart 13394)-LUBEC CHANNEL**

The U.S. Coast Guard is considering making the following change to Aids to Navigation:

Lubec Channel Light (LLNR 860)

MARINER RADIO ACTIVATED SOUND SIGNAL (MRASS)

Lubec Channel Light is currently controlled by radio (RRASS) from West Quoddy Head Light, already an MRASS controlled light. Converting Lubec Channel Light to will put control to the Lubec Channel Lights sound signal locally, to be used when conditions warrant in the vicinity of Lubec Channel Light and not West Quoddy Head Light.

Mariners requiring the use of sound signals during periods of reduced visibility will be able to activate them on demand. In order to turn them on, mariners will be required to momentarily turn their VHF-FM radio to channel 83A/157.175Mhz and key their microphone 5 times consecutively. This will activate the fog signal for 60 minutes.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 1 May 2020 to complete the process. In order to most effectively consider your feedback and improve or data collection when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-20-017. E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil.

CT-FISHERS ISLAND SOUND (CHART 13214)-MYSTIC HARBOR

The U.S. Coast Guard is considering making the following change to Aids to Navigation:

Noank Light 5 (LLNR 20510) CHANGE the nominal range from 8NM to 4NM and remove the "Higher intensity beam toward North Dumpling."

This proposal would incorporate Light Emitting Diode (LED) technology as a light source supporting aid modernization and improving reliability.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 24 April 2020 to complete the process. In order to most effectively consider your feedback and improve or data collection when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. NOAA IS DISCONTINUING THE PRINTED TIDE TABLES AND TIDAL CURRENT TABLES AFTER 2020

NOAA is ending the production of the printed Tide Tables and Tidal Current Tables publications. The 2020 Tide Tables and Tidal Current Tables, released for distribution and available as PDF files from https://tidesandcurrents.noaa.gov/historic_tide_tables.html, are the final printed editions.

NOAA is discontinuing the production of these annual publications due to: (a) recent changes by the U.S. Coast Guard in the interpretation of the requirements for predictions, no longer requiring these publications in paper format and (b) the availability of online and electronic services providing tide and tidal current predictions which meet the U.S. Coast Guard requirements for navigation, and support other activities along the U.S. coast.

Tide and Tidal Current predictions are available through NOAA's Center for Operational Oceanographic Products and Services (CO-OPS) online services:

- NOAA Tide Predictions: https://tidesandcurrents.noaa.gov/tide_predictions.html
- NOAA Current Predictions: <https://tidesandcurrents.noaa.gov/noaacurrents/Regions>

These online services provide predictions which equal or exceed the accuracy and availability of the predictions at domestic locations provided through printed publications, and provide additional capabilities allowing the predictions to better meet a variety of user needs. These online services provide predictions for the U.S. coasts. International predictions will not be available from the online services. Predictions for countries outside the U.S. may be obtained through the Oceanographic / Hydrographic agency in that country.

Contact NOAA's Center for Operational Oceanographic Products and Services (CO-OPS) with questions or for further information.

NY – HUDSON RIVER

The Coast Guard is establishing two temporary regulated navigation areas and a safety zone for the navigable waters of the Hudson River, NY, surrounding the Tappan Zee Bridge from January 1, 2020 through July 1, 2020. This rule will prohibit all persons and vessel traffic from the safety zone and enforce speed and wake restrictions for the Eastern and Western regulated navigation areas unless exceptions are authorized by the First District Commander or a designated representative. These regulated navigation areas and safety zone continue to be necessary to protect personnel, vessels, and the marine environment from potential hazards during the removal of the existing Tappan Zee Bridge and construction of a new bridge.

DATES: This rule will be effective from January 1, 2020 through July 1, 2020. Comments and related material must be received by the Coast Guard during the effective period on or before April 1, 2020.

MAINE - BOOTHBAY HARBOR TO BATH - BACK RIVER - Bridge Construction - Work to remove the swing span and construct a new swing span on the Barthers Island Bridge is ongoing. From March 1, 2020 to **May 31, 2020**, the temporary fixed bridge will reduce the vertical clearance of the channel to 6.8 feet mean high water (MHW) in the closed position. A 36-foot horizontal channel will be maintained. Temporary channel restrictions may be in effect during construction. Questions may be directed to Glenn Philbrook, Resident Engineer, at 207-592-7819 or Glen.Phillbrook@maine.gov. Mariners should use caution while transiting the area.

MAINE AND NEW HAMPSHIRE – PORTSMOUTH TO DOVER AND EXETER – PISCATAQUA RIVER – Bridge Repairs – Bridge repairs to the I-95 Bridge will commence over the navigable waterway on **1 August 2019** between Portsmouth, New Hampshire and Kittery, Maine and will continue through **May 2022**. Working hours are scheduled daily Monday through Friday 6 a.m. to 2:30 p.m. and 9 p.m. to 3:30 a.m. Suspended platforms will be installed under the bridge but will not reduce vertical clearances or impede vessel navigation. Hydraulic suspension trucks and welding will be utilized during the duration of the project, which will temporarily reduce the vertical clearance. Welding and reduction in clearance will cease upon approach of a vessel. Questions concerning the bridge repair project should be directed to Mr. Joel Dietrich, project manager with SPS at 978-423-2438 or Mr. Craig Hurd, ME DOT Resident Engineer at 207-446-1746. The project superintendent will monitor channel 13 and 16 and a safety boat will be on scene during work over the waterway. Mariners should exercise caution while transiting the area.

NEW YORK - NEW YORK TO WAPPINGER CREEK - HUDSON RIVER - New Bridge Construction/Demolition –

Construction and demolition work continues at the Tappan Zee Bridge across the Hudson River, mile 27.7 and will continue through **July 1, 2020**. The work will involve over one hundred pieces of floating equipment and support vessels that will be moored/anchored or transiting between the Westchester and Rockland county shorelines, including the side Channels and portions of the main navigation Channel. Mariners traveling northbound and southbound are advised that the side Channels to the east and west of the main Channel are closed to vessel traffic. Additionally, mariners are strongly advised to stay clear of all construction equipment and support vessels by 1,000 feet or more when transiting the area.

Estimated full and half Channel closure dates:

The contractor does not expect any additional work to impact the 600 foot wide main Federal navigation channel through 11:59 p.m. on July 1, 2020. Mariners exercise caution in this area.

For the current channel impact status call the project's 24-hour automated message system at (914) 789-3224.

Mooring buoys and Safety Zone: There are 16 equipment moorings located west of the navigation Channel, eight to the south and eight to the north of the bridge. The buoy positions are displayed on corrected editions of NOAA Chart 12343. Each are lit with a 360-degree steady burning white light. The Coast Guard has established a safety zone surrounding these equipment moorings. Entry into, anchoring, loitering, or movement within the Safety Zone is prohibited unless the vessel is working on the bridge construction operations or authorized by the Captain of the Port New York (COTP) or a designated representative.

Nine buoys have been installed marking the equipment mooring area safety zone. Each buoy has a 39" diameter and a height of 82.5" (64" above the waterline). The buoys are white with an orange warning decal and lit with a white flashing light visible for three nm. All buoys are displayed on corrected editions of NOAA Chart 12343.

Permanent Travelers: Ongoing bridge construction at the New Tappan Zee Bridge will require permanent travelers suspended from and travel east and west along the bottom of both the north and south spans of the new bridge's structures. Each traveler is approximately 18ft wide, and will reduce the vertical clearance by approx. 13ft below low steel. These travelers are mobile and capable of transiting from side to side under the span, and at any time may be located anywhere under the span. Available vertical clearance under traveler platforms is approximately 134ft at MHW near the channel edge and 136ft at MHW at center channel. From March 14, 2019 to **May 31, 2020**, between 7 a.m. and 5 p.m., mariners requiring full vertical clearance in the 600 ft. navigation channel can contact Davin Hazirjian at 914-907-1970 with a minimum of **30 minutes advance notice**. The construction access traveler platforms will move out of the navigation channel after work hours. Mariners can contact CG Sector NY VTS at 718-354-4088 for platform locations. For more information, please see the project website at <https://www.newnybridge.com/>.

Hot work: Burning activities on the existing Tappan Zee Bridge superstructure are ongoing. Operations will take place from 07:00 through 16:30 daily along the remaining in-place western cantilever truss. All petroleum, chemical and hazardous cargo carrying vessels, including barges, cargo ships, tankers and other vessels passing underneath the Tappan Zee Bridge are advised to contact TZC tugs on Ch. 13/16 or alternative TZC rep (**914-907-1970**) at least 30 minutes before they approach, so burning operations can be halted until said vessels are safely through the channel and clear of the bridges.

Mariners are advised to reduce wake and use extreme caution while transiting in the vicinity of the Tappan Zee Bridge especially during inclement weather and darkness, and pay particular attention to vessel movements.

(1) "Western RNA": all waters bound by the following approximate positions: 41°04'39.16"N, 073°55'00.68"W on the western shoreline; thence to 41°04'28.34"N, 073°54'47.18"W; thence to 41°04'11.28"N, 073°54'48.00"W; thence to 41°03'57.26"N, 073°54'40.73"W; thence to 41°03'57.36"N, 073°54'47.38"W; thence to 41°03'58.66"N, 073°54'56.14"W; thence to 41°04'03.00"N, 073°55'07.60"W; thence to a point on the western shoreline at 41°04'06.69"N, 073°55'14.10"W; thence northerly along the shoreline to the point of origin (NAD 83).

(2) "Eastern RNA": all waters bound by the following approximate positions: 41°04'21.96"N, 073°52'03.25"W on the eastern shoreline; thence to 41°04'26.27"N, 073°52'19.82"W; thence to 41°04'26.53"N, 073°53'20.07"W; thence to 41°03'56.92"N, 073°53'18.84"W; thence to 41°03'56.69"N, 073°52'24.75"W; thence to a point on the eastern shoreline at 41°03'46.91"N, 073°52'05.89"W; thence northerly along the shoreline to the point of origin (NAD 83).

(b) Safety Zone Boundaries: The following is a Safety Zone: all waters bound by the following approximate positions: 41°04'59.70"N, 073°54'45.54"W; thence to 41°05'00.18"N, 073°53'21.48"W; thence to 41°03'09.24"N, 073°53'16.86"W; thence to

41°03'07.08"N, 073°54'14.70"W; thence to 41°04'11.28"N, 073°54'48.00"W; 41-04-59.700"N, 073-54-00.420"W; 41-03-32.220"N, 073-53-18.180"W; 41-03-08.100"N, 073-53-40.800"W; thence to the point of origin (NAD 83).

(c) Regulations.

(1) The general regulations contained in 33 CFR 165.10, 165.11, and 165.13, 165.20 and 165.23 apply.

(2) Any vessel transiting through the Western RNA must make a direct and expeditious passage. No vessel may stop, moor, anchor or loiter within the RNA at any time unless they are working on the bridge construction operations.

(3) Any vessel transiting through the Eastern RNA must make a direct and expeditious passage. No vessel may stop, moor, anchor or loiter within the RNA at any time unless they are working on the bridge construction operations or they are transiting to, or from, the special anchorage area codified in 33 CFR 110.60(c)(8) located on the eastern shoreline at Tarrytown, NY and within the boundaries of the RNA.

(4) Entry and movement within the Eastern RNA or Western RNA is subject to a "Slow-No Wake" speed limit. All vessels may not produce a wake and may not attain speeds greater than five knots unless a higher minimum speed is necessary to maintain steerageway. All vessels must proceed through the Eastern RNA and Western RNA with caution and operate in such a manner as to produce no wake.

(5) Entry into, anchoring, loitering, or movement within the Safety Zone is prohibited unless the vessel is working on the bridge construction operations or authorized by the Captain of the Port New York (COTP) or his designated representative.

(6) All persons and vessels must comply with all orders and directions from the COTP or the COTP has designated representative. The "designated representative" of the COTP is any Coast Guard commissioned, warrant or petty officer who has been designated by the COTP to act on the COTP's behalf. The designated representative may be on a Coast Guard vessel or New York State Police, Westchester County Police, Rockland County Police, or other designated craft; or may be on shore and will communicate with vessels via VHF-FM radio or loudhailer. Members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation.

(7) Upon being hailed by a Coast Guard vessel by siren, radio, flashing light or other means, the operator of the vessel must proceed as directed.

(8) For the purpose of this regulation, the Federal navigation Channel, located in the Eastern RNA is marked by the red and green navigation lights on the existing Tappan Zee Bridge, and the New NY Bridge. As the project progresses, the Federal navigation Channel will be intermittently closed, or partially restricted, to all vessel transits. While the Federal navigation Channel is closed, vessels that can safely navigate outside the Federal navigation Channel would still be able to transit through the Eastern RNA. The COTP will cause a notice of the Channel closure or restrictions by appropriate means to the affected segments of the public. Such means of notification may include, but are not limited to, Broadcast Notice to Mariners and Local Notice to Mariners.

(9) Notwithstanding anything contained in this section, the Rules of the Road (33 CFR part 84—Subchapter E, inland navigational rules) are still in effect and must be strictly adhered to at all times.

(d) Enforcement Periods. This regulation will be enforced 24 hours a day from 11:59 p.m. on **December 31, 2019 to 11:59 p.m. on July 1, 2020.**

(1) Notice of suspension of enforcement: If enforcement is suspended, the COTP will cause a notice of the suspension of enforcement by appropriate means to the affected segments of the public. Such means of notification may include, but are not limited to, Broadcast Notice to Mariners and Local Notice to Mariners. Such notification will include the date and time that enforcement will be suspended as well as the date and time, that enforcement will resume.

(2) Violations of this regulation may be reported to the COTP at 718-354-4353 or on VHF-Channel 16.

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction – Replacement of the Wittpenn Bridge across the Hackensack River at mile 3.1 is in progress.

The following TENTATIVE Channel closure schedule will be utilized during the construction of the new bridge towers and lift span: Dates for Daily Full Channel Closure from 6:00 am – 6:00 pm – TBD (March 26 and 27, 2020 channel closures are cancelled until further notice).
Full Channel Closure to install the liftspan, 5 days – Early-Mid July 2020.
Dates for approx. 21, daily (24-hour) Channel closures – Early-Mid July to August 2020.
Dates for 74-days of 70 foot vertical clearance restriction – August to October 2020.

12-Hour Advance Notice Protocol: While CCA (contractor) is working in the navigable Channel, other than during the daily/full Channel closures, CCA would like to implement the following 12 Hour Advance Notice Protocol.

1. Mariners will call one of the following three personnel and provide a 12-hour advance notice of their travel time through the Channel, including possible return trips:
 - a. Kevin Brown – Superintendent – 201-708-3776
 - b. Mark White – Mechanical Manager – 973-997-4792
 - c. Pableo Lemus – Project Engineer – 732-433-3827
2. CCA will prepare barges to be moved from the Channel prior to the vessel(s) arrival onsite.
3. Tugboats will move CCA barges from the work hour location in the Channel to the off-hour work location.
4. Mariners will safely transit through the navigable Channel.
5. CCA will remobilize barge(s) back into prior work position(s) once the vessel(s) are safely past the Channel and clear of the jobsite.

Under this protocol, Mariners will provide a 12 Hour Advance Notice, stating when they will be transiting the Channel. Once CCA receives notice from a mariner, the barge(s) will be moved from the navigable waterway and allow the vessel(s) to pass. Please email “raab_evan@ChinaConstruction.us” if you would like to receive email updates during this portion of the contract. This project will be completed by **January 31, 2021**. Mariners are advised to exercise extreme caution when transiting the area.
