LOCAL NOTICE TO MARINERS

District: 1

Week: 29/20

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:

- (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
(2) The Local Notice to Mariners is a weekly edition.
(3) Inquiries, published articles or Information: mail to: D1LNM@uscg.mil
(4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
(5) The Coast Pilot, along with its corrections, are available online at https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html.

The Local Notice to Mariners is available online at https://www.navcen.uscg.gov/-pageName=lnmDistrict&region=1
The updated 2017 Light List is available online at: https://www.navcen.uscg.gov/-pageName=lightListWeeklyUpdates
Information on Private Aids to Navigation is available at: http://www.usharbormaster.com/
Reports of Channel conditions can be found at the Army Corps of Engineers website at:
http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx.
NOAA Tides and Currents can be found at: http://tidesandcurrents.noaa.gov/.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: http://cgls.uscg.mil/mailman/listinfo/nanu . In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: tis-sg-nisws@uscg.mil, or on the internet at: https://www.navcen.uscg.gov.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

---

**MARINER ALERT-SHIP/WHALE COLLISIONS**

NOAA just designated the North Atlantic right whale as a Species in the Spotlight because it is on the brink of extinction. Collisions between vessels and whales are a threat to a number of endangered large whale species – most notably, the right whale. The United States has established measures to reduce this threat. A vessel speed restriction requires that vessels 65 feet or greater in length travel 10 knots or less in certain areas and on a rolling basis at certain times where endangered right whales may be present: :  
<http://www.greateratlantic.fisheries.noaa.gov/protected/shipstrike/training/NOAA-RightWhalesCD.iso> . This rule applies within 20 nautical miles around all major ports and in other locations along the U.S. eastern seaboard. Temporary voluntary speed limits also may be imposed in other areas when an aggregation of three or more right whales is confirmed. In addition, ships 300 GT and greater are required to report their location and speed to a USCG shore station in certain prescribed areas:  
[https://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/guidelines%20placard\\_high.pdf](https://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf). A computer-based interactive guide and training resource for mariners is available at: <http://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/mtr.html>. The guide provides information on endangered whales, recommended navigational actions when operating in whale habitat, a guide to reporting sightings of dead or injured right whales, and related information. Additional steps mariners can take to help reduce the chances of hitting a right whale can be found at: [http://www.nero.noaa.gov/shipstrike/doc/guidelines%20placard\\_high.pdf](http://www.nero.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf).

**NOVEL CORONAVIRUS**

"The outbreak of respiratory illness caused by the COVID-19 virus may affect mariners and maritime commerce transiting to or near New England, New York and New Jersey waters. Additional interim guidance for ships on managing suspected coronavirus disease concerns is available at <https://www.cdc.gov/quarantine/maritime/recommendations-for-ships.html>. An enclosure to this LNM includes additional information as well as a number of links to websites where additional information regarding this illness can be obtained. Mariners with questions/concerns while transiting to or near New England, New York and New Jersey should contact the nearest Coast Guard Sector Command Center at:  
Sector New York: (718) 354-4353  
Sector Long Island Sound: (203) 468-4404  
Sector Southeastern New England: (508) 457-3211  
Sector Boston: (617) 223-5757  
Sector Northern New England: (207) 7670303

**SHIPPING SAFETY FAIRWAYS ALONG THE ATLANTIC COAST-ADVANCE NOTICE OF PROPOSED RULEMAKING (ANPRM)**

The Coast Guard seeks comments regarding the possible establishment of shipping safety fairways ("fairways") along the Atlantic Coast of the United States identified in the Atlantic Coast Port Access Route Study. This potential system of fairways is intended to ensure that traditional navigation routes are kept free from obstructions that could impact navigation safety.

DATES: Comments and related material must be received by the Coast Guard on or before August 18, 2020.

ADDRESSES: You may submit comments identified by docket number USCG-2019-0279 using the Federal eRulemaking Portal at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: For information about this document call or email George Detweiler, Coast Guard; telephone 202-372-1566, email [George.H.Detweiler@uscg.mil](mailto:George.H.Detweiler@uscg.mil).

The ANPRM is also available at <https://www.federalregister.gov/documents/2020/06/19/2020-12910/shipping-safety-fairways-along-the-atlantic-coast>.

**NOTICE TO ALL PRIVATE BOATS AT SEA**

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

LNM: 13/18

**NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ**

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the "Rules of the Road", address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the "Rules of the Road", should consider a U.S. Coast Guard Auxiliary boating safety course. Course information is available online at <http://www.cgaux.org> in the "Take a Boating This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and U.S. Coast Guard Sector New York. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse" section, or by calling 1-800-336-BOAT. **US NOTICE TO MARINERS (NTM)**

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at [http://msi.nga.mil/NGAPortal/MSI.portal?\\_nfpb=true&\\_pageLabel=msi\\_portal\\_page\\_61](http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61). NTM 01 – Special Paragraphs includes information on: America's Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

## SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners

Corrective Action	Object of Corrective Action				Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

### SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

##### **NY/NJ-PORT ACCESS ROUTE STUDY: NORTHERN NEW YORK BIGHT**

This bulletin addresses the notice of study for the Northern New York Bight Port Access Route Study.

1. The U. S. Coast Guard (USCG) is conducting a Port Access Route Study (PARS) to evaluate the adequacy of existing vessel routing measures and determine whether additional vessel routing measures are necessary for port approaches to New York and New Jersey and international and domestic transit areas in the First District area of responsibility. The Northern New York Bight PARS (NNYBPARS) will consider whether existing or additional routing measures are necessary to improve navigation safety due to factors such as planned or potential offshore development, current port capabilities and planned improvements, increased vessel traffic, existing and potential anchorage areas, changing vessel traffic

patterns, effects of weather, or navigational difficulty. Vessel routing measures are implemented to reduce the risk of marine casualties. Examples of potential measures include traffic separation schemes, two-way routes, recommended tracks, deep-water routes, precautionary areas, and areas to be avoided. The recommendations of the study may subsequently be implemented through rulemakings or in accordance with international agreements.

2. The Notice of Study is available at Federal Register docket number USCG-2020-0278, the federal portal at <https://www.regulations.gov/docket?D=USCG-2020-0278>.

3. To submit your comment online, go to <https://www.regulations.gov>, and insert "USCG-2020-0278" in the "search box." Click "Search" and then click "Comment Now." We will consider all comments and material received on or before August 28, 2020.

4. For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapiejko, Waterways Management at First Coast Guard District, telephone (617) 223-8351, e-mail [craig.d.lapiejko@uscg.mil](mailto:craig.d.lapiejko@uscg.mil).

#### **CT-LONG ISLAND SOUND-SHERWOOD POINT TO STAMFORD HARBOR (Chart 12368)-SAUGATUCK RIVER**

The U.S. Coast Guard is considering making the following change to Aids to Navigation:

CHANGE to a seasonal status of Removed when endangered by ice.

Saugatuck River Buoy 20 (LLNR 24875)

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 24 July 2020 to complete the process. In order to most effectively consider your feedback and improve the data collection, when responding to this proposal, PLEASE INCLUDE size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal in your e-mail. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-20-035. E-mail can be sent to: [D01-SMB-DPWPublicComments@uscg.mil](mailto:D01-SMB-DPWPublicComments@uscg.mil).

**MA-BOSTON HARBOR**

The Charles River north and south channels will be closed on or around July 29, 2020 for 21 days due to dismantling the old N. Washington Street Bridge. A temporary safety zone will be established during the closure and was discussed in the notice of proposed rulemaking (NPRM) published to the Federal Register September 4, 2019. The temporary final rule (TFR) was published January 29, 2020. You may access the TFR found on the Federal Register website using this link: <https://www.federalregister.gov/documents/2020/01/29/2020-01276/safety-zone-north-washington-street-bridge-replacement-project-charles-river-boston-ma> The docket number is: USCG-2019-0606.

The temporary safety zone will encompass all waters 100 yards within the North Washington Street Bridge, Charles River, Boston. A safety zone was deemed necessary in order to protect the safety of the boating community and will be enforced during the removal of the old bridge spans, demolition of the swing span pier foundation, construction of the abutment, and replacement of the span or when other hazards to navigation arise. No vessel or person will be permitted to enter the temporary safety zone without obtaining permission from the COTP or a designated representative. It is highly recommended that mariners plan accordingly. A safety marine information broadcast (SMIB) will be released via VHF channel 16, seven days in advance of the commencement of the temporary safety zone. (FOR MORE INFORMATION SEE THE BRIDGE SECTION).

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction** – Replacement of the Wittpenn Bridge across the Hackensack River at mile 3.1 is in progress.

The following TENTATIVE Channel closure schedule will be utilized during the construction of the new bridge towers and lift span:  
Dates for Daily Full Channel Closure from 6:00 am – 6:00 pm – June 16, 2020.  
Full Channel Closure to install the liftspan, 5 days – Early-Mid September 2020.  
Dates for approx. 21, daily (24-hour) Channel closures – Early-Mid September to October 2020.  
Dates for 74-days of 70 foot vertical clearance restriction – September to November 2020.

**12-Hour Advance Notice Protocol:** While CCA (contractor) is working in the navigable Channel, other than during the daily/full Channel closures, CCA would like to implement the following 12 Hour Advance Notice Protocol.

1. Mariners will call one of the following three personnel and provide a 12-hour advance notice of their travel time through the Channel, including possible return trips:
  - a. Kevin Brown – Superintendent – 201-708-3776
  - b. Mark White – Mechanical Manager – 973-997-4792
  - c. Pableo Lemus – Project Engineer – 732-433-3827
2. CCA will prepare barges to be moved from the Channel prior to the vessel(s) arrival onsite.
3. Tugboats will move CCA barges from the work hour location in the Channel to the off-hour work location.
4. Mariners will safely transit through the navigable Channel.
5. CCA will remobilize barge(s) back into prior work position(s) once the vessel(s) are safely past the Channel and clear of the jobsite.

Under this protocol, Mariners will provide a 12 Hour Advance Notice, stating when they will be transiting the Channel. Once CCA receives notice from a mariner, the barge(s) will be moved from the navigable waterway and allow the vessel(s) to pass. Please email "raab\_egan@ChinaConstruction.us" if you would like to receive email updates during this portion of the contract. This project will be completed by **January 31, 2021**. Mariners are advised to exercise extreme caution when transiting the area.

## Novel Coronavirus – Update (Change 1)

An outbreak of respiratory illness caused by a novel coronavirus (COVID-19) may affect mariners and maritime commerce. The CDC has updated their Interim Guidance for Ships on Managing Suspected Coronavirus Disease 2019 (see <https://go.usa.gov/xdfyG>) and Cruise Ship Travel to Asia (see <https://go.usa.gov/xdfVP>).

Illness of a person onboard a vessel that may adversely affect the safety of a vessel or port facility is a hazardous condition per 33 CFR 160.216 and must be reported to the U.S. Coast Guard Captain of the Port (COTP). Cases of persons who exhibit symptoms consistent with COVID-19 must be reported to the COTP.

Per 42 CFR 71.21, vessels destined for a U.S. port are required to report to the CDC any sick or deceased crew/passengers during 15 days prior to arrival at the U.S. port. Guidance to vessels to report deaths and illnesses to the CDC can be found at: <https://go.usa.gov/xdjmi>. U.S. flagged commercial vessels are also advised to report ill crewmembers in accordance with the requirements of each foreign port called upon.

Vessel owners/operators and local stakeholders should be aware of the following:

- Passenger vessels or any vessel carrying passengers that have been to Iran or China (excluding Hong Kong and Macau) or embarked passengers who have been in Iran or China (excluding Hong Kong and Macau) within the last 14 days will be denied entry into the United States. If all passengers exceed 14 days since being in Iran or China (excluding Hong Kong and Macau) and are symptom free, the vessel will be permitted to enter the United States to conduct normal operations. These temporary measures are in place to safeguard the American public.
- Non-passenger commercial vessels that have been to Iran or China (excluding Hong Kong and Macau) or embarked crewmembers who have been in Iran or China (excluding Hong Kong and Macau) within the last 14 days, with no sick crewmembers, will be permitted to enter the U.S. and conduct normal operations, with restrictions. Crewmembers on these vessels will be required under COTP authority to remain aboard the vessel except to conduct specific activities directly related to vessel cargo or provisioning operations.
- The Coast Guard considers it a hazardous condition under 33 CFR 160.216 if a crewmember who was in Iran or China (excluding Hong Kong and Macau) within the past 14-days is brought onboard the vessel during transit. This requires immediate notification to the nearest Coast Guard COTP.
- The Coast Guard will continue to review all “Notice of Arrivals” in accordance with current policies and will communicate any concerns stemming from sick or deceased crew or passengers to their Coast Guard chain of command and the cognizant CDC quarantine station, who will coordinate with local health authorities.
- Vessel masters shall inform Coast Guard boarding teams of any ill crewmembers on their vessel prior to embarking the team.

- Local industry stakeholders, in partnership with their Coast Guard COTP, should review and be familiar with section 5310 Procedures for Vessel Quarantine and Isolation, and Section 5320 - Procedures for Security Segregation of Vessels in their Area Maritime Security Plan.
- Local industry stakeholders, in partnership with their Coast Guard COTP, should review and be familiar with their Marine Transportation System Recovery Plan.
- Maritime facility operators are reminded that they are not permitted to impede the embarkation/disembark of crew members as permitted under Seafarer's access regulations. This authority resides with CBP, Coast Guard, or the CDC for medical matters. Facility operators should contact their local CBP, Coast Guard, or CDC/health department offices regarding specific questions or concerns about their individual operations.
- The Coast Guard recommends that people review the CDC travel guidance (see <https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html>) and the U.S. Department of State (DoS) Travel Advisories related to COVID-19 at <https://travel.state.gov/content/travel/en/traveladvisories/traveladvisories.html/>.

Ms. Dana S. Tulis, SES, U.S. Coast Guard, Director, Emergency Management (CG-5RI) sends.
