LOCAL NOTICE TO MARINERS

District: 1

Week: 35/20

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:

- (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
- (2) The Local Notice to Mariners is a weekly edition.
- (3) Inquiries, published articles or Information: mail to: D1LNM@uscg.mil
- (4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
- (5) The Coast Pilot, along with its corrections, are available online at <https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html>.

The Local Notice to Mariners is available online at <https://www.navcen.uscg.gov/-pageName=InmDistrict®ion=1>
The updated 2017 Light List is available online at: <https://www.navcen.uscg.gov/-pageName=lightListWeeklyUpdates>
Information on Private Aids to Navigation is available at: <http://www.usharbormaster.com/>
Reports of Channel conditions can be found at the Army Corps of Engineers website at:
<http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx>.
NOAA Tides and Currents can be found at: <http://tidesandcurrents.noaa.gov/>.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: <http://cgls.uscg.mil/mailman/listinfo/nanu>. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: tis-sg-nisws@uscg.mil, or on the internet at: <https://www.navcen.uscg.gov>.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)
408 Atlantic Avenue, Boston, Massachusetts 02110-3350
Telephone: (617) 223-8356
24 Hour FAX: (617) 223-8094
<http://www.uscg.mil/d1/prevention/Marineinfoeregulations.asp>

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
Al - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light

DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
Fl - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

SNNE- U.S. Coast Guard Sector Northern New England
SBOS- U.S. Coast Guard Sector Boston
SSENE- U.S. Coast Guard Sector Southeastern New England
SLIS- U.S. Coast Guard Sector Long Island Sound
SNEW- U.S. Coast Guard Sector New York

AIS - Automatic Identification System
AtoN - Aids to Navigation
LLNR - Light List Number
NM - Nautical Mile

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

ME, NH, MA, RI, CT, NY, NJ-ATLANTIC OCEAN-OFFSHORE STRUCTURE PATON MARKING GUIDANCE

For Private Aids to Navigation (AtoN) applicants requesting Coast Guard permits to provide navigational markings on offshore wind energy area structures in First District-area waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all labels, light(s), sound signals and AIS signals). Private AtoN Permit applications should be submitted no sooner than 30 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

Tower Identification:

- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible to maximize charting effectiveness
- Letters and numbers labelled to as near to 3 meters high as possible
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water's surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials
- If feasible, also labelled below the servicing platform

Lighting:

- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water's surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6/FL Y 10) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. These do not require permits, only Coast Guard notification for appropriate marine notices and broadcasts until the final structure marking is established.

Sound Signals:

- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a range of 2NM
- Should not exceed 3NM spacing between perimeter structures
- Must be Marine Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds

- Timed to energize for 45 minutes from last VHF activation

Automated Information System (AIS) Transponder Signals:

- Must be transmitted superimposed at all corner structures/SPSs
- Should be capable of transmitting signals to mark all locations of all structures throughout an established field
- Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the First Coast Guard District's recommendation

PATON Application Website: WWW.USHARBORMASTER.COM.

Please forward questions or feedback in an e-mail to:

COAST GUARD SEEKS COMMENTS ON HOW TO IMPROVE OUR NATION'S SHALLOW DRAFT WATERWAYS ATON SYSTEM

The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) Study on the Shallow Draft system (waters less than 12 feet). The purpose of this study is to determine the navigational needs and requirements of vessels operating in shallow draft navigable waterways throughout the country. The study will focus on the existing shallow water Aids to Navigation (ATON) system, future development projects, waterborne commerce transiting these waters, and marine casualty information. Waterway users, interested parties, and stakeholders are invited to provide comments or feedback via the tool posted at <https://www.surveymonkey.com/r/ShallowWaterWAMS>. This link will remain available until November 1, 2020. Further questions or comments may be emailed to CGNAV@uscg.mil using the subject line: "Shallow Draft WAMS".

LNM: 32/20

MARINER ALERT-SHIP/WHALE COLLISIONS

NOAA just designated the North Atlantic right whale as a Species in the Spotlight because it is on the brink of extinction. Collisions between vessels and whales are a threat to a number of endangered large whale species – most notably, the right whale. The United States has established measures to reduce this threat. A vessel speed restriction requires that vessels 65 feet or greater in length travel 10 knots or less in certain areas and on a rolling basis at certain times where endangered right whales may be present :

<http://www.greateratlantic.fisheries.noaa.gov/protected/shipstrike/training/NOAA-RightWhalesCD.iso> . This rule applies within 20 nautical miles around all major ports and in other locations along the U.S. eastern seaboard. Temporary voluntary speed limits also may be imposed in other areas when an aggregation of three or more right whales is confirmed. In addition, ships 300 GT and greater are required to report their location and speed to a USCG shore station in certain prescribed areas:

https://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf. A computer-based interactive guide and training resource for mariners is available at: <http://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/mtr.html>. The guide provides information on endangered whales, recommended navigational actions when operating in whale habitat, a guide to reporting sightings of dead or injured right whales, and related information. Additional steps mariners can take to help reduce the chances of hitting a right whale can be found at: http://www.nero.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf.

LNM: 44/19

NOVEL CORONAVIRUS

"The outbreak of respiratory illness caused by the COVID-19 virus may affect mariners and maritime commerce transiting to or near New England, New York and New Jersey waters. Additional interim guidance for ships on managing suspected coronavirus disease concerns is available at <https://www.cdc.gov/quarantine/maritime/recommendations-for-ships.html>. An enclosure to this LNM includes additional information as well as a number of links to websites where additional information regarding this illness can be obtained. Mariners with questions/concerns while transiting to or near New England, New York and New Jersey should contact the nearest Coast Guard Sector Command Center at:

Sector New York: (718) 354-4353

Sector Long Island Sound: (203) 468-4404

Sector Southeastern New England: (508) 457-3211

Sector Boston: (617) 223-5757

Sector Northern New England: (207) 7670303

SEE ENCLOSURE

LNM: 10/20

NOTICE TO ALL PRIVATE BOATS AT SEA

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil

penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

LNM: 13/18

NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the "Rules of the Road", address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the "Rules of the Road", should consider a U.S. Coast Guard Auxiliary boating safety course. Course information is available online at <http://www.cgaux.org> in the "Take a Boating This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and U.S. Coast Guard Sector New York. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse" section, or by calling 1-800-336-BOAT. Further information can be found at <http://thesafeharbor.us/index.html>

LNM: 13/18

US NOTICE TO MARINERS (NTM)

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61. NTM 01 – Special Paragraphs includes information on: America’s Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

LNM: 13/18

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR						
(Temp)	ADD	NATIONAL DOCK CHANNEL BUOY 3			CGD01 at 40-41-09.001N	074-02-48.001W
	Corrective Action	Green can	Object of Corrective Action		Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

RI-NARRAGANSETT BAY (CHART 13221)-MOUNT HOPE BAY

The U.S. Coast Guard is considering making the following changes to Aids to Navigation to this waterway:

CHANGE Mount Hope Bay Channel Buoy 15 (LLNR 18935) to Mount Hope Bay Channel Lighted Buoy 15 (LLNR 18935), Green Flashing Green 2.5s and change the seasonal status from permanent (PERM) to Relieve with an unlighted buoy during the winter months (SEAR) from (PERM) ULB to (SEAR) from December 1 to April 1.

DISCONTINUE Mount Hope Bay Channel Buoy 17 (LLNR 18940).

CHANGE the change the seasonal status on Mount Hope Bay Channel Lighted Buoy 19 (LLNR 18950) from When endangered by ice replace (ENDR) to When endangered by ice remove (ENDN).

CHANGE Mount Hope Bay Channel Buoy 21 (LLNR 18955) to Mount Hope Bay Channel Lighted Buoy 21 (LLNR 18955), Green, Flashing Green 4s and change the seasonal status from permanent (PERM) to Relieve with an unlighted buoy during the winter months (SEAR) from December 1 to April 1.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 2 October 2020 to complete the process. In order to most effectively consider your feedback and improve the data collection, when responding to this proposal, PLEASE INCLUDE size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal in your e-mail. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-20-072. E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil .

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

SUMMARY OF GENERAL PROJECTS STILL IN EFFECT

Enclosure

LNM: 35/20

NEW YORK - LONG ISLAND - TEMPORARY SHELLFISHING BAN IN THREE AREAS WEST HARBOR (Oyster Bay), THE SAND HOLE (Lloyd Neck) AND PORT JEFFERSON HARBOR

The New York State Department of Environmental Conservation will temporarily designate a section of West Harbor (within Oyster Bay Harbor); all of the Sand Hole within Caumsett State Park, on Lloyd Neck; and a section of Port Jefferson Harbor including the area known as the Narrows, as UNCERTIFIED for the harvest of shellfish from sunrise on Friday, September 4 through Wednesday, September 9, 2020, both dates inclusive. The harvest of shellfish is prohibited during the period these areas are designated as uncertified. This designation is necessary to protect public health and is required due to the potential for sewage discharges from marine sanitation devices on the large number of transient vessels which will anchor and remain overnight in these areas over the holiday period. A recorded message describing any temporary shellfish closures that may be in effect in New York is accessible 24 hours a day by calling (631) 444-0480. NYSDEC's website provides detailed information, including map images, of the closed areas:
<http://www.dec.ny.gov/outdoor/7765.html>

Following are descriptions of the three areas that are affected by the temporary closures: (1) All the waters of West Harbor, within Oyster Bay Harbor, lying west of Centre Island and east of a line extending northerly from the northwesternmost point of land approximately 600 yards north of Brickyard Point (on Centre Island) to the westernmost point of the beach pavilion at Centre Island Beach. (2) The Sand Hole, within Caumsett State Park, located near Lloyd Point. (3) All the normally certified area of the Port Jefferson Harbor Complex, including Pirate's Cove and the Narrows, which links Port Jefferson Harbor to Conscience Bay.

Town owned pump-out facilities will be available in or near the restricted areas at no cost to boaters; town pump out boats can be hailed on marine radio VHF channel 9 in the Towns of Oyster Bay and Huntington and on marine radio VHF channel 73 in Port Jefferson Harbor.

COAST GUARD SEEKS COMMENTS ON HOW TO IMPROVE OUR NATION'S SHALLOW DRAFT WATERWAYS ATON SYSTEM

The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) Study on the Shallow Draft system (waters less than 12 feet). The purpose of this study is to determine the navigational needs and requirements of vessels operating in shallow draft navigable waterways throughout the country. The study will focus on the existing shallow water Aids to Navigation (ATON) system, future development

COAST GUARD SEEKS COMMENTS ON HOW TO IMPROVE OUR NATION'S SHALLOW DRAFT WATERWAYS ATON SYSTEM
 projects, waterborne commerce transiting these waters, and marine casualty information. Waterway users, interested parties, and stakeholders are invited to provide comments or feedback via the tool posted at <https://www.surveymonkey.com/r/ShallowWaterWAMS>. This link will remain available until November 1, 2020. Further questions or comments may be emailed to CGNAV@uscg.mil using the subject line: "Shallow Draft WAMS".

MA-SOUTH OF MARTHA'S VINEYARD

The survey vessel STRIL EXPLORER will be conducting Hydrographic and Geophysical surveys from August 9 2020 for approximately 240 days (weather dependent), the offshore areas and coastal sea areas south of Martha's Vineyard and east in to Long Island Sound. During this survey the STRIL EXPLORER will be deploying ROV subsea survey equipment along with towed Seismic equipment and will be restricted in their ability to manoeuvre. Approaching vessels are requested to pass at a safe speed and distance. The survey covers the planned Beacon Wind lease area and planned export cable route. The hours of operation will be 24 hours a day of operation are 7 days per week, when on scene. On scene vessels will be monitoring VHF-FM channels 13 and 16.

MA-BROAD SOUND

General Dynamics Mission Systems is conducting Unmanned undersea vehicle testing from August 28 to October 30, 2020, 0630-2000 local. As a part of this testing a sensor tower will be deployed with a height of 2.5m off the seafloor. Test objects will be deployed on the seafloor within the operational region. Test objects and tower will remain in position 24 hours through operation dates. During vehicle operations R/V Resolution will serve as command vessel. Equipment on scene will be the R/V RESOLUTION, M/V JAMES K GOODWIN, or M/V RACHAEL K GOODWIN. During underwater vehicle operations, the support vessel can be contacted on VHF-FM to coordinate passing on VHF-FM channels 13 and 16.

Novel Coronavirus – Update (Change 1)

An outbreak of respiratory illness caused by a novel coronavirus (COVID-19) may affect mariners and maritime commerce. The CDC has updated their Interim Guidance for Ships on Managing Suspected Coronavirus Disease 2019 (see <https://go.usa.gov/xdfyG>) and Cruise Ship Travel to Asia (see <https://go.usa.gov/xdFVP>).

Illness of a person onboard a vessel that may adversely affect the safety of a vessel or port facility is a hazardous condition per 33 CFR 160.216 and must be reported to the U.S. Coast Guard Captain of the Port (COTP). Cases of persons who exhibit symptoms consistent with COVID-19 must be reported to the COTP.

Per 42 CFR 71.21, vessels destined for a U.S. port are required to report to the CDC any sick or deceased crew/passengers during 15 days prior to arrival at the U.S. port. Guidance to vessels to report deaths and illnesses to the CDC can be found at: <https://go.usa.gov/xdjmi>. U.S. flagged commercial vessels are also advised to report ill crewmembers in accordance with the requirements of each foreign port called upon.

Vessel owners/operators and local stakeholders should be aware of the following:

- Passenger vessels or any vessel carrying passengers that have been to Iran or China (excluding Hong Kong and Macau) or embarked passengers who have been in Iran or China (excluding Hong Kong and Macau) within the last 14 days will be denied entry into the United States. If all passengers exceed 14 days since being in Iran or China (excluding Hong Kong and Macau) and are symptom free, the vessel will be permitted to enter the United States to conduct normal operations. These temporary measures are in place to safeguard the American public.
- Non-passenger commercial vessels that have been to Iran or China (excluding Hong Kong and Macau) or embarked crewmembers who have been in Iran or China (excluding Hong Kong and Macau) within the last 14 days, with no sick crewmembers, will be permitted to enter the U.S. and conduct normal operations, with restrictions. Crewmembers on these vessels will be required under COTP authority to remain aboard the vessel except to conduct specific activities directly related to vessel cargo or provisioning operations.
- The Coast Guard considers it a hazardous condition under 33 CFR 160.216 if a crewmember who was in Iran or China (excluding Hong Kong and Macau) within the past 14-days is brought onboard the vessel during transit. This requires immediate notification to the nearest Coast Guard COTP.
- The Coast Guard will continue to review all “Notice of Arrivals” in accordance with current policies and will communicate any concerns stemming from sick or deceased crew or passengers to their Coast Guard chain of command and the cognizant CDC quarantine station, who will coordinate with local health authorities.
- Vessel masters shall inform Coast Guard boarding teams of any ill crewmembers on their vessel prior to embarking the team.

- Local industry stakeholders, in partnership with their Coast Guard COTP, should review and be familiar with section 5310 Procedures for Vessel Quarantine and Isolation, and Section 5320 - Procedures for Security Segregation of Vessels in their Area Maritime Security Plan.
- Local industry stakeholders, in partnership with their Coast Guard COTP, should review and be familiar with their Marine Transportation System Recovery Plan.
- Maritime facility operators are reminded that they are not permitted to impede the embarkation/disembark of crew members as permitted under Seafarer's access regulations. This authority resides with CBP, Coast Guard, or the CDC for medical matters. Facility operators should contact their local CBP, Coast Guard, or CDC/health department offices regarding specific questions or concerns about their individual operations.
- The Coast Guard recommends that people review the CDC travel guidance (see <https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html>) and the U.S. Department of State (DoS) Travel Advisories related to COVID-19 at <https://travel.state.gov/content/travel/en/traveladvisories/traveladvisories.html/>.

Ms. Dana S. Tulis, SES, U.S. Coast Guard, Director, Emergency Management (CG-5RI) sends.

MAINE - BOOTHBAY HARBOR TO BATH - BACK RIVER - Bridge Construction - Work on the new Barter's Island swing bridge is ongoing. The temporary fixed bridge will reduce the vertical clearance of the channel to 6.8 feet at mean high water (MHW) **until September 25, 2020** or later. A 36-foot horizontal channel will be maintained, however temporary channel restrictions may be in effect from time to time. The new bridge is currently expected to be in operation on **September 18, 2020**. Questions may be directed to Glenn Philbrook, Resident Engineer, at 207-592-7819 or Glenn.philbrook@maine.gov Mariners should plan accordingly and use caution while transiting the area.

Chart 13296 LNM 35/20 (CGD1)

MAINE - MOOSABEC REACH - Bridge Construction - Work is ongoing on the new Beals Island Bridge across Moosabec Reach between Jonesport and Beals Island, ME (mile 2.4). The width of the navigation channel through the center span is 75 feet with a vertical clearance of 37 feet (MHW). Temporary channel restrictions may be in effect during construction. Blasting/demolition of the old bridge will be conducted early to mid September. Broadcast Notice to Mariners will be broadcasted 1-2 days prior to each of the six blasting events which will not be consecutive days, but will take place over the course of several weeks. During each blasting event a 500 yard radius safety zone around the bridge will be enforced, Federal Register docket # USCG-2020-0447. Questions may be directed to Phil Roberts, Maine DOT Resident Engineer at 207-557-5169 or Phil.Roberts@maine.gov. Mariners should use caution while transiting the area.

Chart No. 13326, LNM 35/20 (CGD1)

MAINE AND NEW HAMPSHIRE – PORTSMOUTH TO DOVER AND EXETER – PISCATAQUA RIVER – Bridge Repairs – Bridge repairs to the I-95 Bridge will commence over the navigable waterway on **1 August 2019** between Portsmouth, New Hampshire and Kittery, Maine and will continue through **May 2022**. Working hours are scheduled daily Monday through Friday 6 a.m. to 2:30 p.m. and 9 p.m. to 3:30 a.m. Suspended platforms will be installed under the bridge but will not reduce vertical clearances or impede vessel navigation. Hydraulic suspension trucks and welding will be utilized during the duration of the project, which will temporarily reduce the vertical clearance. Welding and reduction in clearance will cease upon approach of a vessel. Questions concerning the bridge repair project should be directed to Mr. Joel Dietrich, project manager with SPS at 978-423-2438 or Mr. Craig Hurd, ME DOT Resident Engineer at 207-446-1746. The project superintendent will monitor channel 13 and 16 and a safety boat will be on scene during work over the waterway. Mariners should exercise caution while transiting the area.

Chart 13285 LNM 35/20 (CGD1)

VERMONT – LAKE CHAMPLAIN – REVIERE RICHELIEU TO SOUTH HERO ISLAND – Bridge Construction – Construction of the new US Route 2 drawbridge (mile 91.8) from North Hero to Grand Island is ongoing. The temporary bridge will open at the top of the hour from 8 a.m. to 8 p.m. daily. The horizontal clearance of the channel is 40 feet. The vertical clearance in the closed position is 17.5 feet at mean water level. Vessels that can pass under the bridge between openings are allowed to do so. Mariners should pass with extreme caution and No Wake. Questions may be directed to Mr. Jeff Ramsey of the Vermont Agency of Transportation at 802-917-4467, or Jacqueline Dagesse, Public Outreach Manager, at 802-324-5522. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

Chart 14781 LNM 35/20 (CGD1)

NEW HAMPSHIRE – PORTSMOUTH HARBOR - LITTLE HARBOR – Bridge Rehabilitation – Repairs to the Shapleigh Island Bridge and Goat Island Bridge across Little Harbor will commence on March 2019 through **September 2020**. A mobile hydra platform will be utilized for the duration of the project. The platform will be deployed during working hours 7 am through 4:30 pm and removed at the end of each day. Location of the platform will be variable and time dependent reducing the vertical clearance by 6 feet and horizontal clearance by 4 feet. Small scaffolding may be utilized near bents with minimal reduction to clearances. The platform may be removed for emergency situations. Mr. Michael Ferrari may be contacted for additional information at 603-455-1791. Mariners are advised to transit the area with caution.
Chart 13283 LNM 35/20 (CGD1)

MASSACHUSETTS - BOSTON INNER HARBOR - CHARLES RIVER - Bridge Repairs – Rehabilitation of the Lechmere Viaduct (mile 1.0) which carries the MBTA Green Line over the Charles River from Science Park Station in Boston to Lechmere in Cambridge will be ongoing until **August 31, 2021**. The navigation span will remain open but subject to reductions in vertical and horizontal clearance. Temporary work platforms will be installed on the bascule span and arch spans to allow cleaning, painting, and structural repairs. The work platform will reduce the vertical clearance of the bascule span by 5 feet to 28 feet Average Water Level. Work barges and work boats will be at various locations and at times will reduce the horizontal clearance. Temporary closures of the navigable channel will occur. Working hours are from 0700 a.m. to 10 p.m. daily. Mariners may contact the on-scene work boat on VHF channels 13/16 for safe passage. Questions may be directed to the Contractor, SPS New England, Inc., 24 hour POC Patrick Blais at 978-994-2741.
Chart 13272 LNM 35/20 (CGD1)

MASSACHUSETTS – BOSTON INNER HARBOR - CHARLES RIVER – Bridge Construction - Demolition and construction are ongoing at the North Washington Street Bridge and will continue to **December, 2020**. Work hours are 6 a.m. to 9 p.m. Vessels may transit through the work site in the open channel. Multiple barges, cranes and other equipment are on-scene. Work boats and push boats can be contacted on VHF Channel 13 to arrange passage if needed. If access to the commercial lock is required and work barges are in the channel, 24 hour notice to J.F. White is required to clear access to the commercial lock. The on-scene foreman for the J.F. White Contracting Company is Patrick Wilson at 617-680-7537. Mariners are advised to proceed at slow speed and exercise caution.
Chart 13272 LNM 35/20 (CGD1)

MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER – Bridge Repairs – Bridge repairs continue at the Tobin Bridge, mile 0.1, across the Mystic River between Boston and Chelsea through **October 2020**. Working hours are 6 a.m. to 4 p.m., Monday through Saturday. The main channel horizontal clearance will be temporarily reduced to 328 feet by the two temporary scaffolding platforms on the north and south side; this will reduce the vertical clearance by 4 feet for the remaining horizontal clearance of the channel. Signage and red lights will mark the work platforms and a snooper truck will be utilized to install the platforms. Questions concerning this bridgework may be directed to the contractor, J.F. White Contracting Company, 24 hour POC Mr. Eric Ruth at 617-799-2018. Mariners should use caution while transiting the area.
Chart 13272 LNM 35/20 (CGD1)

MASSACHUSETTS - BOSTON HARBOR - NEPONSET RIVER - Bridge Repairs - Bridge repairs at the Granite Ave Bridge, mile 2.5, across the Neponset River between Boston and Milton will be conducted through **September 14, 2020**. Working hours are 8 p.m. to 6 a.m., Monday through Friday with some daytime work 7 a.m. to 5 p.m. The main channel horizontal clearance may be temporarily reduced by a working 20'x 50' barge; however, the bridge operating regulation will not be affected. Outside the navigation channel the vertical clearance will be reduced by 5 feet due to scaffolding. Questions concerning this bridge work may be directed to the contractor, SPS Contracting Company, 24 hour POC Mr. William Schurman at 978-265-7263 or to the work barge and draw tender on VHF Channel 13/16. Mariners should use caution while transiting the area.
Chart 13272 LNM 35/20 (CGD1)

MASSACHUSETTS - BOSTON HARBOR - NEPONSET RIVER - Bridge Painting - Work at the Granite Ave Bridge, mile 2.5, across the Neponset River between Boston and Milton will be conducted from September 13 through **December 9, 2020**. From September 13, 2020, to December 9, 2020, suspended scaffolding will be installed at the spans on either side of the main channel. The scaffolding will reduce the vertical clearance under these spans to 1 foot at Mean High Water (MHW). The range of tide is 6 to 9 feet.

From October 15 to October 29, the bascule span will not open for vessels from 8:00 p.m. to 6 a.m., Sunday through Friday. Vessels able to pass under the bascule span which has a clearance of 6 feet at MHW will be allowed to do so with the following exception: from October 23, 2020 at 7 p.m. to Friday October 30, 2020 at 11:59 p.m. the entire waterway (all spans) will be closed to vessels to conduct steel repairs to the bascule span.

From November 1, 2020, through December 9, 2020, the bascule span will not open for vessels to allow work from suspended scaffolding. The scaffolding will result in clearance of 1 foot at MHW. Vessels that can pass under the bridge with the tidal range will be allowed to do so. The bridge will not be able to open for emergency vessels as the scaffolding would take multiple days to dismantle. The MassDOT point of contact for the work is Kathryn Barr, 857-368-6211.
Chart 13270 LNM 35/20 (CGD1)

MASSACHUSETTS - BOSTON INNER HARBOR - Bridge Replacement - The Coast Guard has received an application from the City of Boston proposing to replace the Northern Avenue Bridge across Fort Point Channel between the financial district and the Seaport District. Comments on this proposal should be forwarded to the office of the Commander (dpb), First Coast Guard District, 408 Atlantic Avenue, Boston, MA 02110. The public notice, which describes the proposal in detail, is on the USCG Navigation Center website: <https://www.navcen.uscg.gov/D1BN>. A hard copy of the public notice can be obtained by writing to the above address or by calling 617-223-8364 or e-mail to Jeffrey.D.Stieb@uscg.mil. Comments are due by **September 28, 2020**.
Chart 13272 LNM 35/20 (CGD1)

MASSACHUSETTS - CAPE COD CANAL AND APPROACHES - Bridge Inspection and Maintenance - National Grid will conduct inspections and maintenance under the Sagamore Highway Bridge over the Cape Cod Canal from April 9, 2020 to **October 1, 2020**. Scaffolding will reduce the vertical clearance from 135 feet to 131.5 feet. Questions concerning the project should be directed to Joe Mazzola, Deputy Canal Manager, US Army Corps of Engineers, Cape Cod Canal Field Office at 978-318-8545 or the Army Corp Cape Cod Canal Control office on VHF Channel 13. Mariners should exercise caution while transiting the area.
Chart 13236 LNM 35/20 (CGD1)

MASSACHUSETTS - ANNISQUAM RIVER - BLYNMAN CANAL - Temporary Deviation and Full Channel Closure - The Massachusetts Bay Transportation Authority (MBTA) has requested a temporary deviation from the regulation governing the operation of the Gloucester MBTA Drawbridge across the Annisquam River, mile 0.7. Under this temporary deviation, the drawbridge will remain in the closed position from September 8, 2020 to **September 14, 2020** to allow the operating machinery and existing counterweight to be demolished. The vertical clearance in the closed position will be 16 feet, 4 inches. Vessels capable of passing under the bridge in the closed position will be allowed to do so. Mariners are advised to plan accordingly and to exercise caution when transiting the area.

The MBTA has also requested a full channel closure, including closure for emergency vessels, from September 15 to **September 17, 2020**, for additional demolition work. Mariners are advised to plan accordingly. Questions may be directed to the MBTA Resident Engineer, Matt Moorehouse at 617-839-8075.
Chart 13281 LNM 35/20 (CGD1)

MASSACHUSETTS - MERRIMACK RIVER - Bridge Rehabilitation - Bridge Repairs - Work on the Massachusetts Bay Transportation Authority (MBTA) Bridge in Haverhill, MA at mile 19.9 of the Merrimack River will continue through **December 2020**. Construction barges will be operating and stored in the navigation channels. Hours of work are Monday through Friday between 6:30 a.m. and 6:00 p.m. The navigation channel will be reduced in width, but available at all times for navigation. Questions should be directed to the contractor, Cianbro Corporation, Mr. Brayden Sheive at 207-553-6676. Mariners should exercise caution while transiting the area. Chart 13282 LNM 35/20 (CGD1)

RHODE ISLAND – MOUNT HOPE BAY – Bridge Repairs – Bridge repairs at the Mount Hope Bridge, mile 0.0, across Mount Hope Bay between Aquidneck Island and Bristol will commence on March 30, 2020 and continue through **December 15, 2020**. Work will occur beneath all spans of the bridge including the center navigation span. Work platforms will be in place beneath the bridge deck; however, they will not extend below existing low steel. There will be no support vessels in the water other than a life-saving skiff. Work hours will typically be from 7 a.m. to 5 p.m. Monday through Friday. Questions should be directed to the Piasecki Steel Construction Corp., Mr. William Bruno at 518-378-1349 (m). Mariners should use caution when transiting the area.
Charts 13226 LNM 35/20 (CGD1)

RHODE ISLAND – SEEKONK RIVER - Bridge Repairs - Repairs to the fender system of the Henderson Bridge over the Seekonk River will be conducted from November 1, 2019 to **October 16, 2020**. Work barges will be operating in various locations. Work hours are from 6 a.m. to 6 p.m. Work crews will monitor channels 13/16. Mariners can contact the Aetna Bridge Company at 401-663-6052 for more information. Mariners are advised to use caution when transiting the area.
Chart 13224 LNM 35/20 (CGD1)

RHODE ISLAND – SEEKONK RIVER - Bridge Repairs - Repairs to the fender system of the Crooks Point Railroad Bridge, mile 1.2, over the Seekonk River will be conducted from November 1, 2019 to **October 16, 2020**. Work barges will be operating in various locations. Work hours are from 6 a.m. to 6 p.m. Work crews will monitor channels 13/16. Mariners can contact the Aetna Bridge Company at 401-663-6052 for more information. Mariners are advised to use caution when transiting the area.
Chart 13224 LNM 35/20 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY - Newport Bridge Repairs – Repairs to the East and West highway approaches to the Newport Claiborne Pell Bridge, mile 4.0, Narragansett Bay will be conducted through **December 15, 2020**. Work barges and support vessels will be operating in various locations outside of the navigation Channel and will monitor channels 13 and 16. Work hours are from 6 a.m. to 6 p.m.; however, barges will remain on scene continuously. Mariners can contact the Aetna Bridge Company at 401-663-6257 or Steve Aguiar, Superintendent, at 401-663-6125 for more information. Mariners are advised to use caution when transiting the area.
Chart 13223 LNM 35/20 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY – Jamestown Bridge Repairs - The Rhode Island Bridge & Turnpike Authority and Aetna Bridge Company are conducting repair work on the Jamestown Bridge over the West Passage of Narragansett Bay. Work will take place from November 15, 2019 and continue until **December 1, 2020**. A crane barge, material barge, diving operations and support vessels will be in the vicinity of the bridge. Mariners are requested to operate with no wake & keep clear of diving operations. Work hours are 6:00 a.m. to 6:00 p.m. Project operations will monitor VHF Channels 13 and 16. Questions may be directed to the Project Manager, Steve Aguiar at (401) 663-6125. Mariners are advised to use caution when transiting the area.
Chart 13221 LNM 35/20 (CGD1)

CONNECTICUT – CONNECTICUT RIVER – Bridge Repairs – A bridge repair project is underway on the Arrigoni Highway Bridge (Route 66) across the Connecticut River in Middletown **fall 2022**. A working platform/debris shield will reduce the vertical clearance by 10.5 feet throughout the duration of the project. No in water work is planned at this time. Mariners are advised to exercise caution when transiting the area. The CONNDOT point of contact is Barak Brako Frempong, 860-594-3167.
Chart 12378 LNM 35/20 (CGD1)

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – PEQUONNOCK RIVER - Inspection – From August 17, 2020 to **September 4, 2020** between 9:00 a.m. and 3:00 p.m., a 60 foot bucket boat will be performing general bridge inspections at the I-95 Bridge across Pequonnock River at mile 0.0, in Bridgeport, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Luke Cardone (860) 594-3345. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12367 LNM 35/20

CONNECTICUT – NEW HAVEN HARBOR – QUINNIPIAC RIVER – Bridge Construction – Starting March 9, 2020 until **December 31, 2021**, the City of New Haven will be performing construction activities for the rehabilitation of the Grand Ave Bridge over Quinnipiac River at mile 1.3. The Swing Bridge will remain in the open position the entire duration of the project. Barges and floating dock will occupy one navigational channel leaving the remaining navigational channel open for mariners to transit. All docks and barges will be light with constant red lights for visibility. Mariners with any questions or concerns may contact Project Manager Daniel Butler (860) 250-7128. Mariners are advised to exercise caution when transiting the area.
Charts 12371 LNM 35/20 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – NORWALK RIVER – Bridge Repairs – Starting December 7, 2018 ConnDOT will be performing repairs on the Yankee Doodle Bridge over Norwalk River at mile 0.7. A working platform will be installed beneath the bridge deck, which will reduce the navigational vertical clearance from 60 feet to 56 feet at MHW. There will be a 28'x10' aluminum workboat tied to the fender system during construction hours, Monday through Friday 6:30 a.m. to 2:30 p.m. This work is expected to

be completed by **May 1, 2021**. Mariners requiring full horizontal clearance can call Kevin Dorynioski at 860-993-6491, Jerry Mals at 860-982-4294, John Jakobeit at 860-229-4853. Mariners are advised to exercise caution when transiting the area.

Charts 12364 LNM 35/20 (CGD1)

CONNECTICUT – NIAN TIC BAY – NIAN TIC RIVER - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the S156 Bridge over the Niantic River between East Lyme and Waterford at mile 0.1. Under this temporary deviation, the S156 Bridge may remain in the closed to navigation position from **November 1, 2020 to March 30, 2021**. The deviation supports needed repairs to the bridge. The vertical clearance of the bridge will be reduced from 32 feet to 21.1 feet at mean high water and horizontal clearance will be reduced to 75 feet when the work barge is in the channel. The barge will monitor channels 13/16 during working hours. Vessels able to pass under the temporary bridge in the closed position may continue to do so. The bridge will not be able to open for emergencies. Questions may be directed to Ms. Rosmary Rodriguez, Connecticut Department of Transportation at 860-594-2127, Brent Church Project Engineer at 860-213-2625, or the Harbormaster, Ron Johnson at 860-649-0228. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

Chart 12372, LNM 35/20 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – WATCH HILL TO NEW HAVEN HARBOR – THAMES RIVER EXTENSION. Bridge Inspection – From August 17, 2020 to **September 25, 2020** between 9 a.m. and 3 p.m., a contractor will conduct inspections at the Route 2A Bridge across the Thames River, mile 11.4, utilizing an Underbridge Inspection Vehicle reaching over the side and under the bridge. The vertical clearance may be reduced up to 10 feet. Divers will conduct the underwater portion of the inspection. A dive boat and a safety boat will be in the water. The dive vessel and safety boat can be reached on VHF CH 13 if needed to arrange safe passage. The Project Manager is William Kristoff at 860-471-0606 or 860-257-2409. Mariners are advised to exercise caution, proceed at slow speed, and reduce wake when transiting the area.

Chart 12372, Thames River Extension, LNM 35/20 (CGD1)

CONNECTICUT – GREENWICH POINT TO NEW ROCHELLE- HOUSATONIC RIVER – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Devon Bridge across the Housatonic River at mile 3.9. The deviation is needed to perform track work on the Devon Bridge. Under this temporary deviation, the Devon Bridge may stay in the closed position September 8, 2020 to October 20, 2020 and October 26, 2020 to **December 7, 2020**, Monday through Friday. The bridge must open to emergency vessels given advance notice. Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to Mr. Rodney Armstrong (203) 627-8818. Mariners are advised to exercise caution when transiting the area.

Chart 12367 LNM 35/20 (CGD1)

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – COS COB HARBOR - Inspection – From August 29, 2020 to **September 30, 2020** between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Metro-North New Haven Railroad Bridge over the Cos Cob Harbor at mile 0.0. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12367 LNM 35/20

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – SAUGATUCK RIVER - Inspection – From August 29, 2020 to **September 30, 2020** between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Metro-North Railroad Bridge across Saugatuck River at mile 1.1, in Westport, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – PEQUONNOCK RIVER - Inspection – From August 29, 2020 to **September 30, 2020** between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Peck Railroad Bridge across Pequonnock River at mile 0.3, in Bridgeport, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12367 LNM 35/20

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – HOUSATONIC RIVER - Inspection – From August 29, 2020 to **September 30, 2020** between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Devon Railroad Bridge across Housatonic River at mile 3.9, in Stratford, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12367 LNM 35/20

NEW YORK – LONG ISLAND SOUND – HEMPSTEAD HARBOR TO TALLMAN ISLAND – WESTCHESTER CREEK – Bridge Replacement – There are two temporary lift bridges located North and South of the existing Unionport Bridge across Westchester Creek at mile 1.7.

Beginning June 26, 2020 through **September 15, 2020** between 7:00 a.m. to 3:00 p.m., there will be a 30'x60' barge in the waterway performing demolition on the pier tops in the waterway. A minimum of 20' will be clear in the channel at all times for mariners' passage. During work hours the barge can be moved out of the channel with 1-hour notice and weekends & nights with 6-hour notice. Beginning August 5, 2019, the temporary bridges will be operational and will provide minimum vertical clearance of 17'-2" in closed position and 35' in open position. These temporary bridges will temporarily alter the existing vertical clearance from 53 feet to 35 feet from the above MHW EL+1.78 until **September 2021**.

Mariners can contact Abdi Hedayati at (347) 885-8613 regarding the temporary bridges and John Albano at (732) 272-7837 if requiring full horizontal clearance. Mariners are advised to exercise caution and reduce wake when transiting the area and find alternate routes if the vessel exceeds vertical clearance.

Chart 12366 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND SOUND, SHELTER ISLAND SOUND AND PECONIC BAYS; MATTITUCK INLET – PECONIC RIVER – Bridge Inspection – From September 21, 2020 to **October 9, 2020** between 9 a.m. and 3 p.m. an Under Bridge Inspection Unit (UBIU) will be operating at the Cross River Drive over Peconic River for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call (646) 872-2967. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12358 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND SOUND- NEW HAVEN HARBOR ENTRANCE TO PORT JEFFERSON TO THROGS NECK – NEW ROCHELLE HARBOR- Inspection – Beginning September 14, 2020 to **September 15, 2020**, will be conducting general inspections utilizing a boat with a mounted bucket at Glen Island Bridge across New Rochelle Harbor. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Tom Barrell (914) 336-0850. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12364 LNM 35/20

NEW YORK – LONG ISLAND – SHINNECOCK BAY TO EAST ROCKAWAY INLET – FIRE ISLAND INLET – Bridge Painting – From June 15, 2020 to **December 31, 2021** New York State Department of Transportation will be performing steel superstructure painting and bridge repairs at the Robert Moses Bridge across Fire Island Inlet at mile 4.0. Beginning August 10, 2020 through September 10, 2020 platforms will be installed which will reduce the vertical reduction between the piers. The vertical reduction will not affect the navigational channel. All work will be outside of the navigational channel. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12352 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND – SHINNECOCK BAY TO EAST ROCKAWAY INLET –GREAT SOUTH BAY– Under Bridge Inspections – From September 21, 2020 to **December 18, 2020** between 9 a.m. and 3 p.m., an under bridge inspection unit (UBIU) and Pontoon boat will be operating at the Robert Moses Causeway over the Great South Bay at mile 7.3. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Paul Marzuillo (917) 930-5541. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12352 LNM 35/20 (CGD1)

NEW YORK – EAST RIVER TALLMAN ISLAND TO QUEENSBORO BRIDGE – FLUSHING CREEK -Bridge Repairs – Starting September 1, 2020 NYCDOT will be performing repairs on the Northern Blvd Bridge across Flushing Creek at mile 0.4. The contractor will be working in two shifts, day shift 7:00 a.m. to 3:30 p.m., and night shift 10:00 p.m. to 5:00 a.m. There will be a safety boat in the waterway during working hours. This work is expected to be completed by **March 1, 2021**. Mariners with questions or concerns may contact Anthony Berardi at (646) 302-6288. Mariners are advised to exercise caution when transiting the area.

Charts 12339 LNM 35/20 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET- JAMAICA BAY - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Marine Parkway Bridge across Jamaica Bay at mile 3.0 to accommodate steel painting. Under this temporary deviation, the Marine Parkway Bridge, from April 15, 2020 through

October 15, 2020, Monday through Friday between the hours of 8 a.m. and 4 p.m., the draw shall open on signal if notice is given at least two hours in advance of a vessel's time of intended passage through the draw. Questions may be directed to the Marine Parkway Bridge Desk at (718) 692-5501, or Nicolae Popescu, at (917) 577-3734. Mariners that can pass without a bridge opening may do so and are advised to exercise caution when transiting the area.
Chart 12350 LNM 35/20 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET –JAMAICA BAY– Scour and Fender Repairs – Contractors will be performing fender repairs at the Cross Bay Blvd Bridge over Jamaica Bay at mile 6.0. Contractors will be installing scour and fender protection utilizing barges. At all times there will be a minimum of 100 feet available for mariners' passage.

From January 13, 2020 to **December 31, 2020** between 4 a.m. and 7:30 p.m., a crane barge (200'x60') will be working at Pier 7 and 8, outside of the navigational channel.

From June 17, 2020 to **February 8, 2021**, a barge (150'x40') and a crane barge (267'x50') will be working at pier 3 and pier 6, along the channel.

Mariners can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Anthony Macca at (917) 243-0498. Mariners are advised to exercise caution when transiting the area.

Chart 12350 LNM 35/20 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – ROCKAWAY INLET – JAMAICA BAY– Fender Repairs –

From July 7, 2020 to **September 30, 2020** between 7:00 a.m. and 3:30 p.m., fender repairs will be conducted utilizing a 60'x200' barge at the Cross Bay Blvd Bridge at mile 10.0 across Jamaica Bay. The barge will reduce the horizontal channel during work hours to a minimum of 70 feet. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Gerrod McDaniel (732) 788-5787. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12350 LNM 35/20

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY– Fender Repairs – From August 17, 2020 to **September 30, 2021** contractors will be replacing the fender protection at the Marine Parkway (Gil Hodges) Bridge over Jamaica Bay at mile 1.0. Contractors will be utilizing a crane barge (50'x267') and a material barge (150'x40') will be working outside of the navigational channel. Any questions or comments can be addressed to Anthony Macca at (917) 243-0498. Mariners are advised to exercise caution when transiting the area.

Chart 12350 LNM 35/20 (CGD1)

NEW YORK –JAMAICA BAY AND ROCKAWAY INLET- MILL BASIN– Bridge Construction – From April 20, 2020 to **December 31, 2020**, there will be barges placed at the Belt Parkway Bridge across Mill Basin at mile 0.8, for construction activities. This will reduce the horizontal navigational channel to 100 feet. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Carl Ortmann (920) 539-2460. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12350 LNM 35/20 (CGD1)

NEW YORK – COXSACKIE TO TROY - HUDSON RIVER – Bridge Rehabilitation – Repairs to the Route 7 (Hoosick Street) Bridge across Hudson River at mile 153.1 is in progress. There will be hanging temporary platform scaffold at piers 10 and 11. No equipment in the navigation channel. This project is to be completed by **November 30, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12348 LNM 35/20 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – Steel Repairs – From July 22, 2020 to **December 31, 2021** during daylight hours a bridge traveler will be operating under the Mid-Hudson Bridge across Hudson River at mile 75.6. The traveler will reduce the vertical clearance by approximately 5 ft below chord. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM channel 13/16 or call 845-234-8623. Mariners are advised to exercise caution when transiting the area.

Chart 12343 LNM 35/20 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – Deck Replacement – Construction to the Newburg-Beacon Bridge (North Span), mile 62.0 across Hudson River will commence on September 15, 2020. A temporary work platform will be installed under the entire length of the bridge. Temporary work platform will reduce the vertical clearance in the navigation channel by approximately 3ft. Mariners can contact project manager at 845-691-4077 ext. 322 for construction details. This project is to be completed by **December 15, 2022**. Mariners are advised to exercise caution when transiting the area.
Chart 12343 LNM 35/20 (CGD1)

NEW YORK – NEW YORK TO WAPPINGER CREEK - HUDSON RIVER – Main Cable Rehabilitation and Sidewalk Modification – Construction to the main cable rehabilitation and sidewalk modification at the George Washington Bridge across the Hudson River at mile 11.0 is in progress. There will not be any obstruction in the Channel. Welding (hot work) may be performed during working hours. The resident engineer or contractor will be equipped with a VHF-FM marine radio and will be monitoring Channel 13/16 during hours of operation. Mariners can contact Marc Helman at 212-435-6112 for construction details. This project is to be completed by **February 15, 2026**. Mariners are advised to exercise extreme caution when transiting the area.
Chart 12343 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Deck Replacement – Construction to the Throgs Neck Bridge across East River at mile 15.8 is in progress. Temporary work platform will be installed under the main span over navigation channel. The temporary work platform will reduce the vertical clearance by 4ft 6in max. (Including deflection) from the low steel of the bridge. Hot work operations will be performed through November 30, 2022. A barge will be operating IVO Bronx Anchorage through May 29, 2020. A safety boat will be operating IVO the bridge. Any questions regarding construction can contact Jeff Brugge via marine radio VHF-FM Ch. 13/16 or 516-445-3495. This project is to be completed by **November 30, 2022**. Mariners are advised to exercise caution when transiting the area.
Chart 12366 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Rehabilitation Approach Spans – Construction to the Throgs Neck Bridge across East River at mile 15.8 is in progress. Temporary work platform will be installed under the Bronx and Queens approach spans. The temporary work platform will reduce the vertical clearance by 3ft max. (Including deflection) from the low steel of the bridge. A barge will be operating under the Queens/Bronx approach spans during installation and removal of the platforms. A safety boat will be operating IVO the bridge. Any questions regarding construction can contact Herbert Negron via marine radio VHF-FM Ch. 13/16 or 718-904-4364. This project is to be completed by **August 31, 2023**. Mariners are advised to exercise caution when transiting the area.
Chart 12366 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Security Upgrade – Construction to the Bronx Whitestone Bridge across East River at mile 13.8 is in progress. Temporary work platforms are installed immediately adjacent to the Queens and Bronx towers. There is no horizontal or vertical clearance reduction in the navigation channel. Hot work operations may be performed throughout the project. A safety boat will be operating IVO the bridge. Any questions regarding construction can contact Johan Perez at 646-539-8051. This project is to be completed by **September 30, 2020**. Mariners are advised to exercise caution when transiting the area.
Chart 12366 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER - HEMPSTEAD HARBOR TO TALLMAN ISLAND - EAST RIVER – Bridge Inspection – Inspection to Bronx- Whitestone Bridge across the East River, mile 13.8 will commence on August 31, 2020. Hours of operations are from Monday to Friday between 8 a.m. and 4 p.m. Bridge traveler will be operated under the bridge in order to perform bridge inspection. Available vertical clearance under traveler platforms is approximately 130 ft at MHW near the channel edge and 136 ft 11 inches at MHW at center channel. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Anthony Balseca at (917) 887-0772. The bridge traveler will be moved out of the navigable channel after work hours or when not in use. This project is to be completed by **October 23, 2020**. Mariners are advised to exercise caution when transiting the area.
Chart 12366 LNM 35/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Fender Replacement – Construction to the Bronx Whitestone Bridge across East River at mile 13.8 will commence on July 20, 2020. Two 60ft by 120ft crane and material barges will be operating IVO Queens and Bronx Towers. There is no horizontal or vertical clearance reduction in the navigation channel. Any questions regarding construction can contact Robert Peterson at 732-522-1916. This project is to be completed by **December 24, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12366 LNM 35/20 (CGD1)

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Bridge Inspection – From September 21, 2020 to **November 15, 2020** between 8 a.m. and 4 p.m. a 20ft by 40ft steel barge and 25ft boat will be operating IVO the Rikers Island

Bridge across East River at mile 10.7 for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 631-891-9721 or 646-275-7609. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12339 LNM 35/20 (CGD1)

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Biennial Inspection – Bridge Inspections to the Triboro (RFK) Bridge across East River at mile 7.8 will commence on August 10, 2020. Contractor will be using rope access technique to perform inspection. There will not be any reduction to the horizontal and vertical clearances in the navigation channel. Any questions to this inspection, please contact David Kolesnik at 914-420-4665. This project is to be completed by **October 30, 2020**. Chart 12339 LNM 35/20 (CGD1)

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Bridge Inspection – From September 16, 2020 to **October 16, 2020** between 8 a.m. and 4 p.m. an under bridge inspection unit will be operating under the Roosevelt Island Bridge across East Channel of the East River at mile 6.4 for bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 631-891-9721 or 646-275-7609. Mariners are advised to exercise caution when transiting the area.

Chart 12339 LNM 35/20 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER – Fender Repairs – Repairs to the Roosevelt Island Bridge across East River (East Channel) at mile 6.4 is in progress. A crane and material barges will be operating IVO of the bridge (most of the time will be near Queens fender system). Hours of operations are from Monday to Friday between 6 a.m. and 2:30 p.m. Mariners requiring full horizontal clearance can call 917-502-4546 or 845-587-0670 or via marine radio VHF-FM Ch. 13/16. This work will be completed by **October 31, 2020**. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12339 LNM 35/20 (CGD1)

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Replacement of Upper Roadways – Construction to the Queensboro Bridge over East River at mile 5.5 is in progress. All work are on top of the bridge. Hot work operations will be performed through **October 28, 2022**. A safety boat will be operating IVO the bridge. Any questions regarding the construction please contact Anthony Grosso at 718-685-3990 or 347-242-6442. This project is to be completed by **October 28, 2022**. Mariners are advised to exercise caution when transiting the area.

Chart 12339 LNM 35/20 (CGD1)

NEW YORK – EAST RIVER NEWTOWN CREEK – NEWTOWN CREEK – Bridge Inspection – From September 14, 2020 to **September 17, 2020** between 8:00 a.m. and 2:00 p.m., will be conducting biennial inspections utilizing a boat with mounted scaffold at Grand Ave Bridge at mile 3.1 across Newtown Creek. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Sayan Chandra (917) 444-0801. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12338 LNM 35/20

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Construction – Construction to the East Midtown Waterfront Esplanade Bridge, mile 5.1 – 5.7 across East River is in progress. There will be crane, deck and material barges placed between 53rd Street and 61st Street along East River bulkhead. All equipment are operated outside the navigation channel. Mariners with questions regarding the equipment in the waterway may contact Ms. Prybylski at 212-312-3577. This project is to be completed by **January 30, 2022**. Mariners are advised to exercise caution when transiting the area.

Chart 12335 LNM 35/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Inspection – From August 31, 2020 to **September 30, 2020** between 8 a.m. and 4 p.m., a skiff will be operated IVO Williamsburg Bridge towers over East River at mile 2.3 to perform bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 848-219-5811 or 917-439-2316. The skiff will be moved out of the navigable channel after work hours or when not in use. Mariners are advised to exercise caution when transiting the area.

Chart 12335 LNM 35/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Maintenance – On **September 10, 2020** between 9:30 a.m. and 2 p.m., a bridge traveler will be operated under the Williamsburg Bridge over East River at mile 2.3 to perform bridge maintenance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 917-295-1856. The traveler platform will be moved out of the navigable channel after work hours or when not in use. Mariners are advised to exercise caution when transiting the area.

Chart 12335 LNM 35/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Inspection – Inspection to Manhattan Bridge across East River at mile 1.1 is in progress. During daylight hours, bridge traveler or rigging platform will be operated under the bridge in order to perform bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Steve Bertos at 631-891-9721. The traveler platform will be moved out of the navigable channel after work hours or when not in use. This project is to be completed by **December 31, 2020**. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 35/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Rehabilitation – Three localized underdeck platforms are installed under the Manhattan Bridge across East River at mile 1.1 and will not reduce vertical clearance in the navigation channel more than three feet. Hot work will be performed during this construction period. A 50ft by 110ft barge will be operating IVO Manhattan Tower from January 22, 2020 to April 24, 2020 during daylight hours. Mariners can contact Chad Umphred at 908-307-3890 or Daniel Chasse at 646-522-1248 for barge equipment. This project is to be completed by **April 16, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 35/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Inspection – Inspection to Brooklyn Bridge across East River at mile 0.8 is in progress. From June 15, 2020 to **November 12, 2020** during daylight hours, bridge traveler will be operated under the bridge in order to perform bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Robert Drew at 917-573-8229. The traveler platform will be moved out of the navigable channel after work hours or when not in use. This project is to be completed by **December 31, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 35/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Rehabilitation – Construction to the Brooklyn Bridge over East River at mile 0.8 is in progress. Approximate four barges will be operating at the Manhattan Tower from May 28, 2020 to May 28, 2021. No construction equipment will be operating in the navigation channel during rehabilitation. Mariners can contact Bill Ferdinandsen Resident Engineer at 347-242-6203 for construction status. This project is to be completed by **February 28, 2023**. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12335 LNM 35/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Rehabilitation – Rehabilitation of the Henry Hudson Bridge over Harlem River at mile 7.2 is in progress. A tug and 20ft by 40ft barge will be operating near Manhattan abutment on May 21, 2020 between 7 a.m. and 7 p.m. to remove hanging temporary platform on the Manhattan abutment. Hot work may be operating within the platform area. All work are locating outside the navigation channel. Mariners can contact Steve Nastro at 646-569-4243 or via marine radio VHF-FM CH 13/16 for barge status. This project is delayed through **September 30, 2020** due to COVID-19 restrictions. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 35/20 (CGD1)

NEW YORK – HARLEM RIVER – Misc. Structure Rehabilitation and Repairs of Overcoat Painting – Rehabilitation of the Henry Hudson Bridge over Harlem River at mile 7.2 is in progress. A tug and 300ft by 90ft barge will be operating in the navigation channel (during installing and removing of temporary work platform). Temporary work platforms will be installed under the entire arc span and will reduce the vertical clearance by approximately 67in below the low steel. Hot work may be operating within the platform area. Mariners requiring full horizontal clearance can contact Rafael De Soto via marine radio VHF-FM CH 13/16 or call 347-843-8440. This project is to be completed by **March 23, 2023**. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 35/20 (CGD1)

NEW YORK – HARLEM RIVER – Emergency Closure – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Broadway Bridge across Harlem River at mile 6.8 to facilitate emergency repairs. The bridge need not open for the passage of vessel traffic **through March 14, 2023**. Vertical clearance is approx. 24 feet at MHW. NYCDOT is in contract to repair the bridge. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.

Chart 12342 LNM 35/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Painting – Painting to the 207th Street/University Heights Bridge across Harlem River at mile 6.0 is in progress. Rigging cables and installation of work platform will begin from Manhattan approach span (west abutment) and work toward to the Bronx approach span (east abutment). The work platform under the east and west approach spans will reduce the vertical clearance by approximately 4 ft. While working in the navigation channel, one draw of a swing bridge vertical clearane will be reduced by the work platform approximately 3 feet; the other draw will be free and clear of any equipment for the passage of vessels. Mariners has questions can contact the contractor via marine radio VHF-FM CH 13/16 or call 917-440-9478. This project will be completed by **May 1, 2022**. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12342 LNM 35/20 (CGD1)

NEW YORK – HARLEM RIVER – Fender Repairs – Repairs to the 207th Street/University Heights Bridge across Harlem River at mile 6.0 is in progress. Working hours are from 6 a.m. to 2:30 p.m. daily. A 52ft by 112ft crane barge and 34ft by 130ft material barge will be operating IVO of the bridge. During working hours, one draw of a swing bridge may be blocked by the barge placement; the other draw will be free and clear of any equipment for the passage of vessels. After work hours, all barge equipment will be out of navigation channel. Mariners has questions can contact the contractor via marine radio VHF-FM CH 13/16 or call 917-502-4546. This work will be completed by **September 4, 2020**. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12342 LNM 35/20 (CGD1)

NEW YORK - HARLEM RIVER – Electrical/Mechanical Rehabilitation – Construction to the Madison Ave Bridge across Harlem River at mile 2.3 is in progress. A protective shield will be installed around the center pier. This shield will not affect operation of the bridge. Any questions to this project can contact Kambiz Riazi at 646-246-6666 or Steve Koch at 908-723-4355. This project is to be completed by **April 13, 2022**. Mariners are advised to exercise caution when transiting the area.

Chart 12342 LNM 35/20 (CGD1)

NEW YORK - HARLEM RIVER - Fender Replacement – Construction to the Metro North (Park Ave) Bridge across Harlem River at mile 2.1 will commence on September 1, 2020. There will be crane barges operating in the area. Work will begin west fender through April 30, 2021 and shift to east fender on May 1, 2021 through **April 30, 2022**. 120ft of horizontal clearance in the navigation channel will be maintained at all times. Any questions regarding barge placement can contact Tony Rivera at 917-715-9429. This project is to be completed by **October 1, 2022**. Mariners are advised to reduce wake and exercise caution when transiting the area.

Chart 12342 LNM 35/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Inspection – Inspection to the Willis Ave Bridge across Harlem River at mile 1.5 will commence on September 8, 2020. Hours of operation are from 8 A.M. to 2 P.M. A barge with lift will be operating IVO the bridge and can move out of channel upon request. Mariners can contact the contractor via marine radio VHF-FM Ch 13/16 or 917-498-9956 for barge location. This project is to be completed by **September 18, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12342 LNM 35/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Inspection – From September 7, 2020 to **October 30, 2020** between 7 a.m. and 3 p.m., a 40ft by 40ft barge with 80ft manlift and tug “Jerry” will be operating IVO the 125th Street (RFK) Bridge across Harlem River at mile 1.3 for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call 848-391-2127. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12342 LNM 35/20 (CGD1)

NEW YORK – NEW YORK HARBOR – Structural Steel Repairs and Painting – Repairs to the Verrazano Narrows Bridge over New York Harbor are in progress. Temporary safe-span platforms will be installed under the entire length of the bridge and will reduce the vertical clearance by approximately 2 ft. below the traveler rail with maximum two feet sag. The temporary platform for 250ft on both sides of the centerline of the bridge for a total of 500ft must maintain less than one foot of vertical clearance reduction below the traveler rail at all times unless approved by Coast Guard Vessel Traffic Service New York (CG VTS-NY). Four corners of temporary platforms marking the 500ft center of the span where less than one foot of vertical clearance reduction is maintained will be lighted with constant burning red lights. Any questions regarding the platforms please contact Chris Daskalakis at 718-639-5880 or CG VTS-NY at 718-354-4088. This project is to be completed by **November 30, 2021**. Mariners are advised to exercise caution when transiting the area.

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Structural Steel Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 will commence on March 1, 2020. Safe span platforms will be installed under the east and west approach spans and will reduce vertical clearance by 2 feet. POC for this project is William Ritter and can be reached at 973-390-7221. This project is to be completed by **March 30, 2023**. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 35/20 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Fender and Pile Jacketing Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 will commence on June 29, 2020. There will be barges operating in the navigation channel. Work will begin west fender then shift to east fender through December 31, 2020. Approximately 520ft of horizontal clearance in the navigation channel will be maintained at all time. Cranes barges will be operating at the east side piers E6, E7 and E8 from August 1, 2020 to **December 31, 2021**. POC for this project is Todd Davis and can be reached at 609-405-0417. This project is to be completed by **December 31, 2021**. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 35/20 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Inspections – Inspections to the Goethals Bridge across the Arthur Kill, mile 11.5 will commence on September 14, 2020. Hours of operations are from 7 a.m. to 4 p.m. At times, an underdeck traveler will be operating at various locations over the navigation channel. Mariners requiring full vertical clearance can contact Carlo Thompson via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. This inspection is to be completed by **September 30, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 35/20 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Biennial Inspection – Inspection to the Outerbridge Crossing Bridge across the Arthur Kill, mile 2.0 will commence on June 8, 2020. Hours of operations are from 6 a.m. to 3 p.m. At times, a 32ft long by 3ft wide movable scaffold or underbridge inspection unit will be operating at various locations over the navigation channel. When a movable scaffold in use, the unit will reduce the vertical clearance by approximately 5ft. Mariners requiring full vertical clearance can contact Joel Bautista via marine radio VHF-FM Ch. 13/16 or call 201-696-6742. This inspection is to be completed by **November 13, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 35/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Routes 1 & 9 Bridge, across Hackensack River at mile 1.8 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 100 feet of unobstructed Channel at all times. Mariners requiring more than 100 feet of horizontal clearance can contact Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **December 31, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12337 LNM 35/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - Notice of Temporary Deviation – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the PATH Bridge across Hackensack River at mile 3.0 due to COVID-19 emergency social distancing issues. From June 25, 2020 to **September 30, 2020**, the PATH Bridge shall open on signal provided at least a two-hour advance notice is provided by calling the number posted at the bridge. The draw need not open for the passage of vessel traffic Monday to Friday, except Federal holidays, from 6 a.m. to 10 a.m. and from 4 p.m. to 8 p.m. Additional bridge openings shall be provided for commercial vessels from 6 a.m. to 7 a.m.; 9 a.m. to 10 a.m.; and 6:30 p.m. to 8 p.m. provided a minimum of twelve (12) hours advance notice is given by calling the number posted at the bridge to coordinate a transit time that is mutually agreeable and least disruptive to PATH operations. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly.

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction –
Replacement of the new Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 is in progress.

The following TENTATIVE Channel closure schedule will be utilized during the construction of the new bridge towers and lift span
(UPDATED):

Install Main Lift Span – Full Channel Closure: 6 a.m. on Sep 8th through 10 pm on Sep 11th (Possible channel closure extension through 6 pm on Sep 12th)

Vertical Height Restriction: September 12th- December 11th (70' VERTICAL CLEARANCE)

12 Hour Notice Protocol: September 12th – December 11th (SEE BELOW FOR INSTRUCTIONS)

12-hour Advance Notice Protocol:

While CCA Civil is working in the navigable channel, other than during the daily/full channel closures, CCA Civil will implement the following 12 Hour Advance Notice Protocol.

1. Mariners will call one of the three (3) Provided Telephone Numbers advising of travel through the channel. (including possible return trips)

Christopher Saulys Site Superintendent 201-600-6070

Derek Guenther Assistant Site Superintendent 908-797-5032

Evan Raab Senior Project Engineer 201-359-0906

2. CCA Civil will prepare barges to be moved from the Channel prior to the vessel(s) arrival onsite.

3. Tug boats will move CCA Civil barges from the work hour location in the channel to the off-hour work location outside the channel.

4. Mariners will safely travel through the navigable channel.

5. Once safely past the channel and clear of the jobsite, CCA will remobilize barge(s) back into prior work positions.

Under this protocol, Mariners will provide a 12 Hour Advance Notice, stating when they will be traversing the Channel. Once CCA Civil receives notice from a Mariner, the barge(s) will be moved from the Navigable Waterway and allow the vessel(s) to pass. This 12 Hour Advance Notice will only be in effect for 3 months from the start of work in the waterway. Please email "raab_evan@ccacivil.us" if you would like to receive email updates during this portion of the contract. This project will be completed by **January 31, 2021**. Mariners are advised to exercise extreme caution when transiting the area.
