LOCAL NOTICE TO MARINERS

District: 1           Week: 37/20

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:
(1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
(2) The Local Notice to Mariners is a weekly edition.
(3) Inquiries, published articles or Information: mail to: D1LNM@uscg.mil
(4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
(5) The Coast Pilot, along with its corrections, are available online at https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html.

The Local Notice to Mariners is available online at: https://www.navcen.uscg.gov/-pageName=lnmDistrict&region=1
The updated 2017 Light List is available online at: https://www.navcen.uscg.gov/-pageName=lightListWeeklyUpdates
Information on Private Aids to Navigation is available at: http://www.usharbormaster.com/
Reports of Channel conditions can be found at the Army Corps of Engineers website at: http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx.
NOAA Tides and Currents can be found at: http://tidesandcurrents.noaa.gov/.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)
408 Atlantic Avenue, Boston, Massachusetts 02110-3350
Telephone: (617) 223-8356
24 Hour FAX: (617) 223-8094
http://www.uscg.mil/d1/prevention/Marineinfo regulations.asp

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

ABBREVIATIONS

A through H           I through O           P through Z
ADrift - Buoy Adrift  I - Interrupted
AICW - Atlantic Intracoastal Waterway  ICW - Intracoastal Waterway

Rb - Radio Beacon
ReBuil - Aid Rebuilt
ReCoVered - Aid Recovered
Red - Red Buoy
ReFL - Reflective
RrL - Range Rear Light
Relight - Aid Relit
Reloc - Relocated
Reset On Station - Aid Reset on Station
RFl - Range Front Light
**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

---

**NOAA RIGHT WHALE SLOW ZONES CAMPAIGN**

NOAA Fisheries announces a new "Right Whale Slow Zones" campaign asking all vessel operators to reduce the risk of vessel strike to critically endangered North Atlantic right whales by slowing down or avoiding areas where right whales have been detected. Complementary to other NOAA vessel strike reduction efforts, the "Right Whale Slow Zones" campaign brings together sighting information, from NOAA's Dynamic Management Area program, with new acoustic detection information to help vessels of all sizes slow down in areas where right whales have been detected.

We would like to thank our North Atlantic right whale Northeast U.S. Implementation Team (NEIT), our partners and advisers on right whale recovery activities from Maine through Virginia, who identified this opportunity to enhance vessel strike reduction efforts using acoustic information. If we've learned anything this year – it's that working together we can make a difference - and that's true for reducing vessel strike to right whales as well. Read more about our new campaign in our web story (link follows).

Media Questions: Contact Allison Ferreira, Regional Office, 978-281-9103

Inquiries about the right whale SLOW Zone program: Peter Kelliher, Protected Resources Division 978-282-8474

---

**ME, NH, MA, RI, CT, NY, NJ-ATLANTIC OCEAN-OFFSHORE STRUCTURE PATON MARKING GUIDANCE**

For Private Aids to Navigation (AtoN) applicants requesting Coast Guard permits to provide navigational markings on offshore wind energy area structures in First District-area waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all labels, light(s), sound signals and AIS signals). Private AtoN Permit applications should be submitted no sooner than 30 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible to maximize charting effectiveness
- Letters and numbers labelled to as near to 3 meters high as possible
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water's surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials
- If feasible, also labelled below the servicing platform

**NOTICE TO ALL PRIVATE BOATS AT SEA**

United States laws and regulations require that all private boats arriving from a foreign port or place must report to the Bureau of Customs and Border Protection immediately upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the 1-68 – Canadian Border Boat Landing Program.

However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24-hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-85-TIPS.

---

**NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ**

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the “Rules of the Road”, address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enrollment patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the “Rules of the Road”, should consider a U.S. Coast Guard Auxiliary boating safety course. Course information is available online at http://www.cgaux.org. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub-chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse section, or by calling 1-800-336-BOAT. Further information can be found at http://thesafeharbor.us/index.html

---

**US NOTICE TO MARINERS (NTM)**

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts. The Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61. NTM 01 – Special Paragraphs includes information on: America’s Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

---

**SECTION II - DISCREPANCIES**

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

### SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

Platform Discrepancies Corrected
This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections. This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

### TEMPORARY CHANGES CORRECTED

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.
SECTION V - ADVANCE NOTICES
This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

**SUMMARY OF ADVANCED APPROVED PROJECTS**

**Advance Notice(s)**

**RI-BLOCK ISLAND-OLD HARBOR**
The U.S. Coast Guard will be making the following changes to Aids to Navigation to this waterway:

CHANGE Block Island Old Harbor Channel Bell Buoy 1 (LLNR 19690) to Block Island Old Harbor Channel Lighted Bell Buoy 1 (LLNR 19690), Green, Flashing Green 2.5 seconds.

Charts: 13205 13215 13217 13218

**ME-TIBBETT NARROWS TO SCHOODIC ISLAND (Chart 13324)-PETIT MANAN APPROACH**
The U.S. Coast Guard will be making the following change to Aids to Navigation:

DISCONTINUE Petit Manan East Bar Gong Buoy EB (LLNR 1765) from approximate position 44-23-06.729N / 067-52-49.558W.

DISCONTINUE Petit Manan West Bar Bell Buoy WB (LLNR 1770) from approximate position 44-22-58.880N / 067-53-11.128W.

Previously advertised as a Proposal in LNM 43/17 Refer to Project No. 01-17-079.

Charts: 13312 13324 13325

**NY-LONG ISLAND SOUND-OYSTER AND HUNTINGTON BAYS (Chart 12365)-HUNTINGTON HARBOR**
The U.S. Coast Guard will be making the following change to Aids to Navigation:

CHANGE: The radio activation frequency for the fog signal by the mariner VHF-FM radio to channel 81A/157.075MHZ instead of 83A. During times of reduced visibility, mariners are requested to turn their VHF-FM radio to channel 81A/157.075MHZ. By keying their microphone, 5 times consecutively, while on channel 81A, this will activate the fog signal for 45 minutes.

Huntington Harbor Light (LLNR 26530)

This change is to determine if the fog signal activation radio is experiencing undue interference from an unknown source on VHF-FM channel 83A.

Interested Mariners can comment on this change by responding to the below e-mail. Refer to Project No. 01-20-063. D01-SMB-DPWPublicComments@uscg.mil.

Charts: 12363 12364 12365

**MA-IPSWICH BAY TO GLOUCESTER HARBOR (Chart 13279)-ANNISQUAM RIVER**
The U.S. Coast Guard will be temporarily establishing two (2) fixed lights in the vicinity the MBTA Railroad Bridge that is being rebuilt on or about 15 September 2020.

Annisquam River Temporary Light 44A (LLNR 9777) Red TR daymark and Flashing Red 2.5s in approximate position 42-37-04.010N/070-40-45.010W.

Annisquam River Temporary Light 45 (LLNR 9780), Green SG daymark and Quick Flashing Red in approximate position 42-37-04.040N/070-40-44.080W.

Chart 13279

**SECTION VI - PROPOSED CHANGES**

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

**PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT**

RI-NARRAGANSETT BAY (CHART 13221)-MOUNT HOPE BAY

The U.S. Coast Guard is considering making the following changes to Aids to Navigation to this waterway:

CHANGE Mount Hope Bay Channel Buoy 15 (LLNR 18935) to Mount Hope Bay Channel Lighted Buoy 15 (LLNR 18935), Green Flashing Green 2.5s and change the seasonal status from permanent (PERM) to Relieve with an unlighted buoy during the winter months (SEAR) from (PERM) ULB to (SEAR) from December 1 to April 1.

DISCONTINUE Mount Hope Bay Channel Buoy 17 (LLNR 18940).

CHANGE the change the seasonal status on Mount Hope Bay Channel Lighted Buoy 19 (LLNR 18950) from When endangered by ice replace (ENDR) to When endangered by ice remove (ENDN).

CHANGE Mount Hope Bay Channel Buoy 21 (LLNR 18955) to Mount Hope Bay Channel Lighted Buoy 21 (LLNR 18955), Green, Flashing Green 4s and change the seasonal status from permanent (PERM) to Relieve with an unlighted buoy during the winter months (SEAR) from December 1 to April 1.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 2 October 2020 to complete the process. In order to most effectively consider your feedback and improve the data collection, when responding to this proposal, PLEASE INCLUDE size a

NY-UPPER NEW YORK BAY

Diving operations are being done, at Pier 5 Brooklyn Bridge Park, until December 31, 2020. The hours of operation are daily, from 6:00 am - 2:00 pm. On scene is a stationary barge that is monitoring VHF-FM channel 74.

MA-NANTUCKET SOUND AND APPROACHES (Chart 13237)-COTUIT

The dredge boat 'Sand Shifter' will be located at the western end of Sampson Island, Nantucket Sound, with discharge pipe running from the dredge boat along the shoreline on the north side of Sampson Island to a discharge location near the eastern end of Sampson Island. A barge will also be located in the vicinity for dredge operations support from 21 September – 24 October 2020, Monday - Saturday, 0700 – 1700 Local. Approximate dredge boat location 41.36.525 N 070.26.035 W Approximate barge location 41.35.550 N 070.25.444 W Equipment on scene will be the Dredge Boat Sand Shifter, 3 support boats, one barge and 9000 feet of pipeline to be phased in over the operational period. The vessels will be monitoring VHF-FM channel 16 and 18. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution give adequate clearance to the equipment.

NY-APPROACHES TO NY HARBOR-SANDY HOOK CHANNEL

Weeks Marine Inc. will be conducting dredging operations in Sandy Hook Channel along the right descending side of the Sandy Hook Channel, NY. Dredging operations will be performed between Green Lighted Buoy 13 (LLNR 35165) and Green Lighted Buoy 11 (LLNR 35155) from 1 October to 31 December 2020 24 hours a day 7 days a week. Equipment on scene will be the the Clamshell Dredge Weeks #551 and support equipment (crew boat, towing tugs, scow barges, etc.). All dredge material will be towed and offloaded at an approved location in Perth Amboy, NJ. or deposited in the Sea Bright Offshore Borrow Area (SBOBA).On scene vessels will be monitoring VHF-FM channels 13 and 16. Approaching vessels are requested make passing arrangements and slow to minimum wake if possible.

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

SUMMARY OF GENERAL PROJECTS STILL IN EFFECT

LNM: 36/20

COAST GUARD SEEKS COMMENTS ON HOW TO IMPROVE OUR NATION’S SHALLOW DRAFT WATERWAYS ATON SYSTEM

The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) Study on the Shallow Draft system (waters less than 12 feet). The purpose of this study is to determine the navigational needs and requirements of vessels operating in shallow draft navigable waterways throughout the country. The study will focus on the existing shallow water Aids to Navigation (ATON) system, future development projects, waterborne commerce transiting these waters, and marine casualty information. Waterway users, interested parties, and stakeholders are invited to provide comments or feedback via the tool posted at https://www.surveymonkey.com/r/ShallowWaterWAMS. This link will remain available until November 1, 2020. Further questions or comments may be emailed to CGNAV@uscg.mil using the subject line: “Shallow Draft WAMS”.

RI-NARRAGANSETT BAY
Naval Undersea Warfare Center will be conducting continued testing using Unmanned Undersea Vehicles north and east of Gould Island in the vicinity of the torpedo test range restricted area marked on NOAA Chart 13223 and the Newport Bridge during the period of 21-25 September 2020. Navy 841 will serve as the command vessel during range operations along with support craft. Mariners are requested to cooperate with participating vessels for the safety of all. Any concerned traffic can contact Navy 841 or support craft on VHF channels 13 and 16.

Chart 13223 LNM: 37/20

MA-SOUTH OF MARTHA’S VINEYARD
The survey vessel STRIL EXPLORER will be conducting Hydrographic and Geophysical surveys from August 9 2020 for approximately 240 days (weather dependent), the offshore areas and coastal sea areas south of Martha’s Vineyard and east in to Long Island Sound. During this survey the STRIL EXPLORER will be deploying ROV subsea survey equipment along with towed Seismic equipment and will be restricted in their ability to manoeuvre. Approaching vessels are requested to pass at a safe speed and distance. The survey covers the planned Beacon Wind lease area and planned export cable route. The hours of operation will be 24 hours a day of operation are 7 days per week, when on scene. On scene vessels will be monitoring VHF-FM channels 13 and 16.

Charts: 12327 12401 LNM: 37/20

MA-BROAD SOUND
General Dynamics Mission Systems is conducting Unmanned undersea vehicle testing from August 28 to October 30, 2020, 0630-2000 local. As a part of this testing a sensor tower will be deployed with a height of 2.5m off the seafloor. Test objects will be deployed on the seafloor within the operational region. Test objects and tower will remain in position 24 hours through operation dates. During vehicle operations R/V Resolution will serve as command vessel. Equipment on scene will be the R/V RESOLUTION, M/V JAMES K GOODWIN, or M/V RACHAEL K GOODWIN. During underwater vehicle operations, the support vessel can be contacted on VHF-FM to coordinate passing on VHF-FM channels 13 and 16.

General Dynamics Mission Systems is conducting Underwater vehicle testing in two different fields (listed below) from August 28 – October 30, 2020. 24 hours a day when on scene. Within each field, 21 – 35 test objects have been placed on the sea floor to support the underwater vehicle test. Test object range in height up to several meters above the sea floor. The test objects will be located within each field throughout the whole period and retrieved by October 30, 2020. Equipment on scene will be the R/V RESOLUTION, M/V JAMES K GOODWIN, or M/V RACHAEL K GOODWIN.

During underwater vehicle operations, the support vessel can be contacted on VHF-FM to coordinate passing on VHF-FM channels 13 and 16.

Shoaling exists in Westport Harbor in the vicinity of Westport Harbor Channel LB 14 (LLNR 17490) and Westport Harbor Channel By 17 (LLNR 17505). There are other areas of shoaling throughout the Westport Harbor Channel reducing the available depth of water. Mariners are advised to use caution while navigating this area.

EGS (International) Ltd. Will be conducting Hydrographic and Geophysical surveys from July 7 – October 15, 2020, South of Martha’s Vineyard in BOEM Lease Area OCS-A 0501 and associated offshore export cable corridor OECC) heading north toward shore from the lease area through the Muskeget Channel near position 40-55N 070-37.30W. A survey vessel will be towing a Multibeam echo sounder & ultra high resolution geophysical spread, including towed equipment up to 200m astern of the vessel. The hours of operation will be 24 hours a day of operation are 7 days per week, 24 hours per day. On scene are vessels that are monitoring VHF-FM channels 13 and 16.

Geotechnical/ oil boring site survey for offshore windfarm will be done from July 20 - September 20, 2020. The hours of operation will be 7 days a week, 24 hours a day. On scene will be the vessel GEOQUIP SPEER that will be monitoring VHF-FM channel 16.

MA-SOUTH OF MARTHAS VINEYARD

Installation of a water ski slalom course, has been done in South Hero (PA) 44° 38' 2.9832" N. 73° 15' 34.1244" W, until September 19, 2020. Hours of operations are varied.

VT-LAKE CHAMPLAIN

Installation of a water ski slalom course, has been done in South Hero (PA) 44° 38' 2.9832" N. 73° 15' 34.1244" W, until September 19, 2020. Hours of operations are varied.

NY/NJ- NY LOWER BAY-SANDY HOOK CHANNEL

Dredging operations have stopped in Sandy Hook Channel between Sandy Hook Channel LGB 11 (LLNR 35155) and Sandy Hook Channel LGB 13 (LLNR 35165). Significant shoaling still extends into the channel. All mariners are urged to exercise caution while transiting this area.

MA-SOUTH OF MARTHAS VINEYARD

Marine remote sensing will be done from, July 24 - September 15, 2020, in the following locations:

within the rectangle:
North-West Corner = N41°32'18.88", W70°37'12.91";
North-East Corner = N41°36'43.94", W70°20'10.61";
South-West boundary = N40°37'47.40", W70°43'20.51" and
South-East Corner = N40°30'47.28", W70°21'39.08".

The hours of operation will be 7 days a week, 24 hours a day. On scene will be the R/V FURGRO BRASILIS that will be monitoring VHF-FM channel 16.

MA-SOUTH OF NANTUCKET

Marine remote sensing will be done from, July 24 - September 15, 2020, in the following locations:

within the rectangle:
North-West Corner = N41°32'18.88", W70°37'12.91";
North-East Corner = N41°36'43.94", W70°20'10.61";
South-West boundary = N40°37'47.40", W70°43'20.51" and
South-East Corner = N40°30'47.28", W70°21'39.08".

The hours of operation will be 7 days a week, 24 hours a day. On scene will be the R/V FURGRO BRASILIS that will be monitoring VHF-FM channel 16.
Line surveys and geophysical reconnaissance investigation surveys will be done, from July 10 - October 15, 2020, in the following positions:

there are three sub-areas

39° 11’ 39” N 73° 39’ 39” W
40° 19’ 10” N 73° 38’ 00” W
40° 19’ 40” N 72° 29’ 13” W
39° 09’ 31” N 72° 46’ 10” W

Offshore, south of Ambrose to Nantucket Traffic Line, a proposed draft Wind Energy Areas Hudson North and Hudson South. The hours of operation will be 7 days a week, with likely only daylight operations due to restrictions with limited maneuverability. On scene will be the ODEAN ENDEAVOUR, call sign GAAL, that will be monitoring VHF-FM channel 16.

SEPARATION REQUESTED:
It is requested that other vessels give at least 1000 Meter separation from the subject vessel, when sighted as various data and hydrographic information is being collected by instrumentation deployed by the Ocean Endeavour, as well as in consideration of their restricted maneuverability.

Charts: 12200 12300 12323 12326

NY-UPPER BAY-MANHATTAN (REVISED)
A sheet pile has partially detached from the western face of the concrete pier located at the Coast Guard building at Battery Park in Manhattan. The pier is marked with a dayboard marked DANGER DO NOT MOOR. All mariners are advised to transit the area with caution.

MAINE - BOOTHBAY HARBOR TO BATH - BACK RIVER - Bridge Construction - Work on the new Barter's Island swing bridge is ongoing. The temporary fixed bridge will reduce the vertical clearance of the channel to 6.8 feet at mean high water (MHW) until October 30, 2020 or later. A 36-foot horizontal channel will be maintained, however temporary channel restrictions may be in effect from time to time. The new bridge is currently expected to be operating on October 22, 2020. Questions may be directed to Glenn Philbrook, Resident Engineer, at 207-592-7819 or Glenn.philbrook@maine.gov. Mariners should plan accordingly and use caution while transiting the area.

Chart 13296 LNM 37/20 (CGD1)

MAINE - MOOSABEC REACH - Bridge Construction - Work is ongoing on the new Beals Island Bridge across Moosabec Reach between Jonesport and Beals Island, ME (mile 2.4). The width of the navigation channel through the center span is 75 feet with a vertical clearance of 37 feet (MHW). Temporary channel restrictions may be in effect during construction. Blasting/demolition of the old bridge will be conducted early to mid September. Broadcast Notice to Mariners will be broadcasted 1-2 days prior to each of the six blasting events which will not be consecutive days, but will take place over the course of several weeks. During each blasting event a 500 yard radius safety zone around the bridge will be enforced, Federal Register docket # USCG-2020-0447. Questions may be directed to Phil Roberts, Maine DOT Resident Engineer at 207-557-5169 or Phil.Roberts@maine.gov. Mariners should use caution while transiting the area.

Chart No. 13326, LNM 37/20 (CGD1)

MAINE AND NEW HAMPSHIRE – PORTSMOUTH TO DOVER AND EXETER – PISCATAQUA RIVER – Bridge Repairs – Bridge repairs to the I-95 Bridge between Portsmouth, New Hampshire and Kittery, Maine will continue through May 2022. Working hours are scheduled daily Monday through Friday 6 a.m. to 2:30 p.m. and 9 p.m. to 3:30 a.m. Suspended platforms will be installed under the bridge but will not reduce vertical clearances or impede vessel navigation. Hydraulic suspension trucks and welding will be utilized during the duration of the project, which will temporarily reduce the vertical clearance. Welding and reduction in clearance will cease upon approach of a vessel. Questions concerning the bridge repair project should be directed to Mr. Joel Dietrich, project manager with SPS at 978-423-2438 or Mr. Craig Hurd, ME DOT Resident Engineer at 207-446-1746. The project superintendent will monitor channel 13 and 16 and a safety boat will be on scene during work over the waterway. Mariners should exercise caution while transiting the area.

Chart 13285 LNM 37/20 (CGD1)

VERMONT – LAKE CHAMPLAIN – REVIERE RICHELIEU TO SOUTH HERO ISLAND – Bridge Construction – Construction of the new US Route 2 drawbridge (mile 91.8) from North Hero to Grand Island is ongoing. The temporary bridge will open at the top of the hour from 8 a.m. to 8 p.m. daily. The horizontal clearance of the channel is 40 feet. The vertical clearance in the closed position is 17.5 feet at mean water level. Vessels that can pass under the bridge between openings are allowed to do so. Mariners should pass with extreme caution and No Wake. Questions may be directed to Mr. Jeff Ramsey of the Vermont Agency of Transportation at 802-917-4467, or Jacqueline Dagesse, Public Outreach Manager, at 802-324-5522. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

Chart 14781 LNM 37/20 (CGD1)

NEW HAMPSHIRE – PORTSMOUTH HARBOR - LITTLE HARBOR – Bridge Rehabilitation – Repairs to the Shapleigh Island Bridge and Goat Island Bridge across Little Harbor will commence on March 2019 through September 2020. A mobile hydra platform will be utilized for the duration of the project. The platform will be deployed during working hours 7 am through 4:30 pm and removed at the end of each day. Location of the platform will be variable and time dependent reducing the vertical clearance by 6 feet and horizontal clearance by 4 feet. Small scaffolding may be utilized near bents with minimal reduction to clearances. The platform may be removed for emergency situations. Mr. Michael Ferrari may be contacted for additional information at 603-455-1791. Mariners are advised to transit the area with caution.
**MASSACHUSETTS - BOSTON INNER HARBOR - CHARLES RIVER** - **Bridge Repairs** – Rehabilitation of the Lechmere Viaduct (mile 1.0) which carries the MBTA Green Line over the Charles River from Science Park Station in Boston to Lechmere in Cambridge will be ongoing until **August 31, 2021**. The navigation span will remain open but subject to reductions in vertical and horizontal clearance. Temporary work platforms will be installed on the bascule span and arch spans to allow cleaning, painting, and structural repairs. The work platform will reduce the vertical clearance of the bascule span by 5 feet to 28 feet Average Water Level. Work barges and work boats will be at various locations and at times will reduce the horizontal clearance. Temporary closures of the navigable channel will occur. Working hours are from 0700 a.m. to 10 p.m. daily. Mariners may contact the on-scene work boat on VHF channels 13/16 for safe passage. Questions may be directed to the Contractor, SPS New England, Inc., 24 hour POC Patrick Blais at 978-994-2741.

**Chart 13272 LNM 37/20 (CGD1)**

**MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER** – **Bridge Repairs** – Bridge repairs continue at the Tobin Bridge, mile 0.1, across the Mystic River between Boston and Chelsea through **October 2020**. Working hours are 6 a.m. to 4 p.m., Monday through Saturday. The main channel horizontal clearance will be temporarily reduced to 328 feet by the two temporary scaffolding platforms on the north and south side; this will reduce the vertical clearance by 4 feet for the remaining horizontal clearance of the channel. Signage and red lights will mark the work platforms and a snooper truck will be utilized to install the platforms. Questions concerning this bridgework may be directed to the contractor, J.F. White Contracting Company, 24 hour POC Mr. Eric Ruth at 617-799-2018. Mariners should use caution while transiting the area.

**Chart 13272 LNM 37/20 (CGD1)**

**MASSACHUSETTS - BOSTON HARBOR - NEPONSET RIVER - Bridge Repairs** - Bridge repairs at the Granite Ave Bridge, mile 2.5, across the Neponset River between Boston and Milton will be conducted through **September 30, 2020**. Working hours are 8 p.m. to 6 a.m., Monday through Friday with some daytime work 7 a.m. to 5 p.m. The main channel horizontal clearance may be temporarily reduced by a working 20'x 50' barge; however, the bridge operating regulation will not be affected. Outside the navigation channel the vertical clearance will reduced by 5 feet due to scaffolding. Questions concerning this bridge work may be directed to the contractor, SPS Contracting Company, 24 hour POC Mr. William Schurman at 978-265-7263 or to the work barge and draw tender on VHF Channel 13/16. Mariners should use caution while transiting the area.

**Chart 13270 LNM 37/20 (CGD1)**
Seaport District. Comments on this proposal should be forwarded to the office of the Commander (dpb), First Coast Guard District, 408 Atlantic Avenue, Boston, MA 02110. The public notice, which describes the proposal in detail, is on the USCG Navigation Center website: https://www.navcen.uscg.gov/D1BN. A hard copy of the public notice can be obtained by writing to the above address or by calling 617-223-8364 or e-mail to Jeffrey.D.Stieb@uscg.mil. Comments are due by September 28, 2020.

MASSACHUSETTS – NEW BEDFORD HARBOR AND APPROACHES - Bridge Repairs - Fender repairs at the New Bedford – Fairhaven Route 6 Swing Bridge, mile 0.0, across the Acushnet River will be conducted through September 25, 2020. Working hours are 7 a.m. to 3 p.m., Monday through Friday. A work barge will be in the East Channel along the fender system south of the bridge. The horizontal clearance of the East channel will be reduced to 75 feet. A tugboat will be onsite to move the work barge if additional horizontal clearance is needed to transit the East channel. A dive barge and divers will be on-site. Work vessels will monitor VHF channel 13 to respond to requests. Questions can be directed to Louis DaPonte, MassDOT, at 774-286-6403. Mariners should use caution while transiting the area.

MASSACHUSETTS - CAPE COD CANAL AND APPROACHES - Bridge Inspection and Maintenance - National Grid will conduct inspections and maintenance under the Sagamore Highway Bridge over the Cape Cod Canal from April 9, 2020 to October 1, 2020. Scaffolding will reduce the vertical clearance from 135 feet to 131.5 feet. Questions concerning the project should be directed to Joe Mazzola, Deputy Canal Manager, US Army Corps of Engineers, Cape Cod Canal Field Office at 978-318-8545 or the Army Corp Cape Cod Canal Control office on VHF Channel 13. Mariners should exercise caution while transiting the area.

MASSACHUSETTS – ANNISQUAM RIVER – BLYNMAN CANAL – Temporary Deviation and Full Channel Closure – The Massachusetts Bay Transportation Authority (MBTA) drawbridge across the Annisquam River, mile 0.7, will be in the closed position from September 8, 2020 through September 14, 2020 to allow demolition operations. The vertical clearance in the closed position will be 16 feet, 4 inches. Vessels capable of passing under the bridge in the closed position will be allowed to do so. The MBTA has also requested a full channel closure, including closure for emergency vessels, from September 15 to September 17, 2020, for additional demolition work. The Gloucester Harbormaster will be on a patrol detail for the duration of the deviation in operating schedule and full channel closure. The Harbormaster can be reached on VHF CH 16/14 for on scene questions. Questions may be directed to the MBTA Resident Engineer, Matt Moorehouse at 617-839-8075. Mariners are advised to plan accordingly and to exercise caution when transiting the area.

MASSACHUSETTS - MERRIMACK RIVER - Bridge Rehabilitation – Bridge Repairs - Work on the Massachusetts Bay Transportation Authority (MBTA) Bridge in Haverhill, MA at mile 19.9 of the Merrimack River will continue through December 2020. Construction barges will be operating and stored in the navigation channels. Hours of work are Monday through Friday between 6:30 a.m. and 6:00 p.m. The navigation channel will be reduced in width, but available at all times for navigation. Questions should be directed to the contractor, Cianbro Corporation, Mr. Brayden Sheive at 207-553-6676. Mariners should exercise caution while transiting the area.

RHODE ISLAND – MOUNT HOPE BAY – Bridge Repairs – Bridge repairs at the Mount Hope Bridge, mile 0.0, across Mount Hope Bay between Aquidneck Island and Bristol will commence on March 30, 2020 and continue through December 2020. Work will occur beneath all spans of the bridge including the center navigation span. Work platforms will be in place beneath the bridge deck; however, they will not extend below existing low steel. There will be no support vessels in the water other than a life-saving skiff. Work hours will typically be from 7 a.m. to 5 p.m. Monday through Friday. Questions should be directed to the contractor, Cianbro Corporation, Mr. William Bruno at 518-378-1349 (m). Mariners should use caution when transiting the area.

RHODE ISLAND – SEEKONK RIVER - Bridge Repairs - Repairs to the fender system of the Henderson Bridge over the Seekonk River will be conducted from November 1, 2019 to October 16, 2020. Work barges will be operating in various locations. Work hours are from 6 a.m. to 6 p.m. Work crews will monitor channels 13/16. Mariners can contact the Aetna Bridge Company at 401-663-6052 for more information. Mariners are advised to use caution when transiting the area.

RHODE ISLAND – SEEKONK RIVER - Bridge Repairs - Repairs to the fender system of the Crooks Point Railroad Bridge, mile 1.2, over the Seekonk River will be conducted from November 1, 2019 to October 16, 2020. Work barges will be operating in various
locations. Work hours are from 6 a.m. to 6 p.m. Work crews will monitor channels 13/16. Mariners are advised to contact the Aetna Bridge Company at 401-663-6052 for more information. Mariners are advised to use caution when transiting the area.
Chart 13224 LNM 37/20 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY - Newport Bridge Repairs – Repairs to the East and West highway approaches to the Newport Claiborne Pell Bridge, mile 4.0, Narragansett Bay will be conducted through December 15, 2020. Work barges and support vessels will be operating in various locations outside of the navigation Channel and will monitor channels 13 and 16. Work hours are from 6 a.m. to 6 p.m.; however, barges will remain on scene continuously. Mariners can contact the Aetna Bridge Company at 401-663-6257 or Steve Aguiar, Superintendent, at 401-663-6125 for more information. Mariners are advised to use caution when transiting the area.
Chart 13221 LNM 37/20 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY – Jamestown Bridge Repairs - The Rhode Island Bridge & Turnpike Authority and Aetna Bridge Company are conducting repair work on the Jamestown Bridge over the West Passage of Narragansett Bay. Work will take place from November 15, 2019 and continue until December 1, 2020. A crane barge, material barge, diving operations and support vessels will be in the vicinity of the bridge. Mariners are requested to operate with no wake & keep clear of diving operations. Work hours are 6:00 a.m. to 6:00 p.m. Project operations will monitor VHF Channels 13 and 16. Questions may be directed to the Project Manager, Steve Aguiar at (401) 663-6125. Mariners are advised to use caution when transiting the area.
Chart 13223 LNM 37/20 (CGD1)

CONNECTICUT – CONNECTICUT RIVER – Bridge Repairs – A bridge repair project is underway on the Arrigoni Highway Bridge (Route 66) across the Connecticut River in Middletown fall 2022. A working platform/debris shield will reduce the vertical clearance by 10.5 feet throughout the duration of the project. No in water work is planned at this time. Mariners are advised to exercise caution when transiting the area. The CONNDOT point of contact is Barak Brako Frempong, 860-594-3167.
Chart 12378 LNM 37/20 (CGD1)

CONNECTICUT – NEW HAVEN HARBOR – QUINNIPIAC RIVER – Bridge Construction – Starting March 9, 2020 until December 31, 2021, the City of New Haven will be performing construction activities for the rehabilitation of the Grand Ave Bridge over the Quinpiac River at mile 1.3. The Swing Bridge will remain in the open position the entire duration of the project. Barges and floating dock will occupy one navigational channel leaving the remaining navigational channel open for mariners to transit. All docks and barges will be light with constant red lights for visibility. Mariners with any questions or concerns may contact Project Manager Daniel Butler (860) 250-7128. Mariners are advised to exercise caution when transiting the area.
Charts 12371 LNM 37/20 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – NORWALK RIVER – Bridge Repairs – Starting December 7, 2018 ConnDOT will be performing repairs on the Yankee Doodle Bridge over Norwalk River at mile 0.7. A working platform will be installed beneath the bridge deck, which will reduce the navigational vertical clearance from 60 feet to 56 feet at MHW. There will be a 28’x10’ aluminum workboat tied to the fender system during construction hours, Monday through Friday 6:30 a.m. to 2:30 p.m. This work is expected to be completed by May 1, 2021. Mariners requiring full horizontal clearance can call Kevin Dorynioski at 860-993-6491, Jerry Mals at 860-982-4294, John Jakobeit at 860-229-4853. Mariners are advised to exercise caution when transiting the area.
Charts 12364 LNM 37/20 (CGD1)

CONNECTICUT – NANTICOKE – NANTICOKE RIVER - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the S156 Bridge over the Niantic River between East Lyme and Waterford at mile 0.1. Under this temporary deviation, the S156 Bridge may remain in the closed to navigation position from November 1, 2020 to March 30, 2021. The deviation supports needed repairs to the bridge. The vertical clearance of the bridge will be reduced from 32 feet to 21.1 feet at mean high water and horizontal clearance will be reduced to 75 feet when the work barge is in the channel. The barge will monitor channels 13/16 during working hours. Vessels able to pass under the bridge in the closed position may continue to do so. The bridge will not be able to open for emergencies. Questions may be directed to Ms. Rosmery Rodriguez, Connecticut Department of Transportation at 860-594-2127, Brent Church Project Engineer at 860-213-2625, or the Harbormaster, Ron Johnson at 860-649-0228. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.
Chart 12372, LNM 37/20 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – WATCH HILL TO NEW HAVEN HARBOR – THAMES RIVER EXTENSION. Bridge Inspection – From August 17, 2020 to September 25, 2020 between 9 a.m. and 3 p.m., a contractor will conduct inspections at the Route 2A Bridge across the Thames River, mile 11.4, utilizing an Underbridge Inspection Vehicle reaching over the side and under the bridge. The vertical clearance may be reduced up to 10 feet. Divers will conduct the
underwater portion of the inspection. A dive boat and a safety boat will be in the water. The dive vessel and safety boat can be reached on VHF CH 13 if needed to arrange safe passage. The Project Manager is William Kristoff at 860-471-0606 or 860-257-2409. Mariners are advised to exercise caution, proceed at slow speed, and reduce wake when transiting the area.

Chart 12372, Thames River Extension, LNM 37/20 (CGD1)

CONNECTICUT – GREENWICH POINT TO NEW ROCHELLE- HOUSATONIC RIVER – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Devon Bridge across the Housatonic River at mile 3.9. The deviation is needed to perform track work on the Devon Bridge. Under this temporary deviation, the Devon Bridge may stay in the closed position September 8, 2020 to October 20, 2020 and October 26, 2020 to December 7, 2020, Monday through Friday. The bridge must open to emergency vessels given advance notice. Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to Mr. Rodney Armstrong (203) 627-8818. Mariners are advised to exercise caution when transiting the area.

Chart 12367 LNM 37/20 (CGD1)

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – COS COB HARBOR - Inspection – From August 29, 2020 to September 30, 2020 between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Metro-North New Haven Railroad Bridge over the Cos Cob Harbor at mile 0.0. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12367 LNM 37/20

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – SAUGATUCK RIVER - Inspection – From August 29, 2020 to September 30, 2020 between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Metro-North Railroad Bridge across Saugatuck River at mile 1.1, in Westport, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12367 LNM 37/20

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – SHERWOOD POINT TO STAMFORD HARBOR – SAUGATUCK RIVER – Bridge Inspections - From September 14, 2020 to October 2, 2020 between 9 a.m. and 3 p.m., contractors will be performing bridge inspections at the Bridge Street (Rte 136) Bridge across Saugatuck River at mile 1.3, in Westport, Connecticut. The contractor will be utilizing a 40′ under bridge inspection unit (UBIU) stationed on the bridge deck, a barge with scaffolding attached to a safety boat, and a 23′ boat and diving equipment. All barges and vessels will be lighted with constant burning white lights on all four corners. Mariners with any concerns or questions may contact the contractor via marine radio VHF-FM Ch 13/16 or call William Kristoff, Project Manager at 860-257-2409. Mariners are advised to exercise caution and reduce wake when transiting the area.

Charts 12368 LNM 37/20 (CGD1)

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – SHERWOOD POINT TO STAMFORD HARBOR- SAUGATUCK RIVER – Bridge Closure- On September 3, 2020 the Metro North SAGA Railroad Bridge, mile 1.1, over the Saugatuck River in Westport, CT, was not be able to open for marine traffic due to a broken band brake on the south leaf. Metro-North is working diligently to repair the broken band. The bridge will be unable to open to marine traffic until repair is complete. Expected repair date is September 23, 2020. The vertical clearance in the closed position is 13 feet. Mariners who can transit without a open request may transit with caution and plan accordingly.

Chart 12368 LNM 37/20 (CGD1)

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – PEQUONNOCK RIVER - Inspection – From August 29, 2020 to September 30, 2020 between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Peck Railroad Bridge across Pequonnock River at mile 0.3, in Bridgeport, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12367 LNM 37/20

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – HOUSATONIC RIVER - Inspection – From August 29, 2020 to September 30, 2020 between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Devon Railroad Bridge across Housatonic River at mile 3.9, in Stratford, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.
NEW YORK – LONG ISLAND SOUND – HEMPSTEAD HARBOR TO TALLMAN ISLAND – WESTCHESTER CREEK – Bridge Replacement – There are two temporary lift bridges located North and South of the existing Unionport Bridge across Westchester Creek at mile 1.7. Beginning June 26, 2020 through October 31, 2020 between 7:00 a.m. to 3:00 p.m., there will be a 30’x60’ barge in the waterway performing demolition on the pier tops in the waterway. A minimum of 20’ will be clear in the channel at all times for mariners’ passage. During work hours the barge can be moved out of the channel with 1-hour notice and weekends & nights with 6-hour notice. Beginning August 5, 2019, the temporary bridges will be operational and will provide minimum vertical clearance of 17’-2” in closed position and 35’ in open position. These temporary bridges will temporarily alter the existing vertical clearance from 53 feet to 35 feet from the above MHW EL+1.78 until September 2021. Mariners can contact Abdi Hedayati at (347) 885-8613 regarding the temporary bridges and John Albano at (732) 272-7837 if requiring full horizontal clearance. Mariners and are advised to exercise caution and reduce wake when transiting the area and find alternate routes if the vessel exceeds vertical clearance.

Chart 12366 LNM 37/20 (CGD1)

NEW YORK – LONG ISLAND SOUND, SHELTER ISLAND SOUND AND PECONIC BAYS; MATTITUCK INLET – PECONIC RIVER – Bridge Inspection – From September 21, 2020 to October 9, 2020 between 9 a.m. and 3 p.m. an Under Bridge Inspection Unit (UBIU) will be operating at the Cross River Drive over Peconic River for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call (646) 872-2967. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12358 LNM 37/20 (CGD1)

NEW YORK – LONG ISLAND – SHINNECOCK BAY TO EAST ROCKAWAY INLET – FIRE ISLAND INLET – Bridge Painting – From June 15, 2020 to December 31, 2021 New York State Department of Transportation will be performing steel superstructure painting and bridge repairs at the Robert Moses Bridge across Fire Island Inlet at mile 4.0. Beginning September 9, 2020 a barge will be at pier 19 (outside the channel) to assist in the painting operations. All work will be outside of the navigational channel. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12352 LNM 37/20 (CGD1)

NEW YORK – LONG ISLAND – SHINNECOCK BAY TO EAST ROCKAWAY INLET – GREAT SOUTH BAY – Under Bridge Inspections – From September 21, 2020 to December 18, 2020 between 9 a.m. and 3 p.m., an under bridge inspection unit (UBIU) and Pontoon boat will be operating at the Robert Moses Causeway over the Great South Bay at mile 7.3. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM CH. 13/16 or call Paul Marzuillo (917) 930-5541. Mariners are advised to exercise caution and reduce wake when transiting the area.

Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Jan Pawluczuk (646) 872-2967. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12352 LNM 37/20 (CGD1)

NEW YORK – EAST RIVER TALLMAN ISLAND TO QUEENSBORO BRIDGE – FLUSHING CREEK – Bridge Repairs – Starting September 1, 2020 NYCDOT will be performing repairs on the Northern Blvd Bridge across Flushing Creek at mile 0.4. The contractor will be working in two shifts, day shift 7:00 a.m. to 3:30 p.m., and night shift 10:00 p.m. to 5:00 a.m. There will be a safety boat in the waterway during working hours. This work is expected to be completed by March 1, 2021. Mariners with questions or concerns may contact Anthony Berardi at (646) 302-6288. Mariners are advised to exercise caution when transiting the area.
Charts 12339 LNM 37/20 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY – Notice of Temporary Deviation – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Marine Parkway Bridge across Jamaica Bay at mile 3.0 to accommodate steel painting. Under this temporary deviation, the Marine Parkway Bridge, from April 15, 2020 through October 15, 2020, Monday through Friday between the hours of 8 a.m. and 4 p.m., the draw shall open on signal if notice is given at least two hours in advance of a vessel’s time of intended passage through the draw. Questions may be directed to the Marine Parkway Bridge Desk at (718) 692-5501, or Nicolae Popescu, at (917) 577-3734. Mariners that can pass without a bridge opening may do so and are advised to exercise caution when transiting the area.
Chart 12350 LNM 37/20 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY – Scour and Fender Repairs – Contractors will be performing fender repairs at the Cross Bay Blvd Bridge over Jamaica Bay at mile 6.0. Contractors will be installing scour and fender protection utilizing barges. At all times there will be a minimum of 100 feet available for mariners’ passage. From January 13, 2020 to December 31, 2020 between 4 a.m. and 7:30 p.m., a crane barge (200’x60’) will be working at Pier 7 and 8, outside of the navigational channel. From June 17, 2020 to February 8, 2021, a barge (150’x40’) and a crane barge (267’x50’) will be working at pier 3 and pier 6, along the channel.
Mariners can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Anthony Macca at (917) 243-0498. Mariners are advised to exercise caution when transiting the area.
Chart 12350 LNM 37/20 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – ROCKAWAY INLET – JAMAICA BAY – Fender Repairs – From July 7, 2020 to September 30, 2020 between 7:00 a.m. and 3:30 p.m., fender repairs will be conducted utilizing a 60’x200’ barge at the Cross Bay Blvd Bridge at mile 10.0 across Jamaica Bay. The barge will reduce the horizontal channel during work hours to a minimum of 70 feet. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Gerrod McDaniel (732) 788-5787. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12350 LNM 37/20

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY – Fender Repairs – From August 17, 2020 to September 30, 2021 contractors will be replacing the fender protection at the Marine Parkway (Gil Hodges) Bridge over Jamaica Bay at mile 1.0. Contractors will be utilizing a crane barge (50’x267’) and a material barge (150’x40’) will be working outside of the navigational channel. Any questions or comments can be addressed to Anthony Macca at (917) 243-0498. Mariners are advised to exercise caution when transiting the area.
Chart 12350 LNM 37/20

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – MILL BASIN – Bridge Construction – From April 20, 2020 to December 31, 2020, there will be barges placed at the Belt Parkway Bridge across Mill Basin at mile 0.8, for construction activities. This will reduce the horizontal navigational channel to 100 feet. Mariners requiring full horizontal clearance can
contact the contractor via marine radio VHF-FM Ch. 13/16 or call Carl Ortmann (920) 539-2460. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12350 LNM 37/20 (CGD1)

NEW YORK – COXSACKIE TO TROY - HUDSON RIVER – Bridge Rehabilitation – Repairs to the Route 7 (Hoosick Street) Bridge across Hudson River at mile 153.1 is in progress. There will be hanging temporary platform scaffold at piers 10 and 11. No equipment in the navigation channel. This project is to be completed by November 30, 2020. Mariners are advised to exercise caution when transiting the area.

Chart 12348 LNM 37/20 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – Steel Repairs – From July 22, 2020 to December 31, 2021 during daylight hours a bridge traveler will be operating under the Mid-Hudson Bridge across Hudson River at mile 75.6. The traveler will reduce the vertical clearance by approximately 5 ft below chord. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM channel 13/16 or call 845-234-8623. Mariners are advised to exercise caution when transiting the area.

Chart 12343 LNM 37/20 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – Deck Replacement – Construction to the Newburg-Beacon Bridge (North Span), mile 62.0 across Hudson River will commence on September 15, 2020. A temporary work platform will be installed under the entire length of the bridge. Temporary work platform will reduce the vertical clearance in the navigation channel by approximately 3ft. A24ft by 40ft barge and push boat will be operated IVO the bridge to install safety warning signs from September 17, 2020 to September 25, 2020 during daylight hours. Mariners requiring full horizontal clearance can contact Mike Lloyd at 914-403-2653 or via marine radio VHF-FM CH 13/16. This project is to be completed by December 15, 2022. Mariners are advised to exercise caution when transiting the area.

Chart 12343 LNM 37/20 (CGD1)

NEW YORK – NEW YORK TO WAPPINGER CREEK - HUDSON RIVER – Main Cable Rehabilitation and Sidewalk Modification – Construction to the main cable rehabilitation and sidewalk modification at the George Washington Bridge across the Hudson River at mile 11.0 is in progress. There will not be any obstruction in the Channel. Welding (hot work) may be performed during working hours. The resident engineer or contractor will be equipped with a VHF-FM marine radio and will be monitoring Channel 13/16 during hours of operation. Mariners can contact Marc Helman at 212-435-6112 for construction details. This project is to be completed by February 15, 2026. Mariners are advised to exercise extreme caution when transiting the area.

Chart 12343 LNM 37/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Deck Replacement – Construction to the Throgs Neck Bridge across East River at mile 15.8 is in progress. Temporary work platform will be installed under the main span over navigation channel. The temporary work platform will reduce the vertical clearance by 4ft 6in max. (Including deflection) from the low steel of the bridge. Hot work operations will be performed through November 30, 2022. A barge will be operating IVO Bronx Anchorage through May 29, 2020. A safety boat will be operating IVO the bridge. Any questions regarding construction can contact Jeff Brugge via marine radio VHF-FM Ch. 13/16 or 516-445-3495. This project is to be completed by November 30, 2022. Mariners are advised to exercise caution when transiting the area.

Chart 12366 LNM 37/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Rehabilitation Approach Spans – Construction to the Throgs Neck Bridge across East River at mile 15.8 is in progress. Temporary work platforms are installed immediately adjacent to the Queens and Bronx approach spans. The temporary work platform will reduce the vertical clearance by 3ft max. (Including deflection) from the low steel of the bridge. A barge will be operating under the Queens/Bronx approach spans during installation and removal of the platforms. A safety boat will be operating IVO the bridge. Any questions regarding construction can contact Herbert Negron via marine radio VHF-FM Ch. 13/16 or 718-904-4364. This project is to be completed by August 31, 2023. Mariners are advised to exercise caution when transiting the area.

Chart 12366 LNM 37/20 (CGD1)

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Security Upgrade – Construction to the Bronx Whitestone Bridge across East River at mile 13.8 is in progress. Temporary work platforms are installed immediately adjacent to the Queens and Bronx towers. There is no horizontal or vertical clearance reduction in the navigation channel. Hot work operations may be performed throughout the project. A safety boat will be operating IVO the bridge. Any questions regarding construction can contact Johan Perez at 646-539-8051. This project is to be completed by September 30, 2020. Mariners are advised to exercise caution when transiting the area.
NEW YORK – LONG ISLAND SOUND AND EAST RIVER - HEMPSTEAD HARBOR TO TALLMAN ISLAND - EAST RIVER – Bridge Inspection – Inspection to Bronx- Whitestone Bridge across the East River, mile 13.8 will commence on August 31, 2020. Hours of operations are from Monday to Friday between 8 a.m. and 4 p.m. Bridge traveler will be operated under the bridge in order to perform bridge inspection. Available vertical clearance under traveler platforms is approximately 130 ft at MHW near the channel edge and 136 ft 11 inches at MHW at center channel. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Anthony Balseca at (917) 887-0772. The bridge traveler will be moved out of the navigable channel after work hours or when not in use. This project is to be completed by October 23, 2020. Mariners are advised to exercise caution when transiting the area.

NEW YORK – LONG ISLAND SOUND AND EAST RIVER – HEMPSTEAD HARBOR TO TALLMAN ISLAND – EAST RIVER – Fender Replacement – Construction to the Bronx Whitestone Bridge across East River at mile 13.8 will commence on July 20, 2020. Two 60ft by 120ft crane and material barges will be operating IVO Queens and Bronx Towers. There is no horizontal or vertical clearance reduction in the navigation channel. Any questions regarding construction can contact Robert Peterson at 732-522-1916. This project is to be completed by December 24, 2021.

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Bridge Inspection – From September 21, 2020 to November 15, 2020 between 8 a.m. and 4 p.m. a 20ft by 40ft steel barge and 25ft boat will be operating IVO the Rikers Island Bridge across East River at mile 10.7 for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 631-891-9721 or 646-275-7609. Mariners are advised to exercise caution and reduce wake when transiting the area.

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Biennial Inspection – Bridge Inspections to the Triboro (RFK) Bridge across East River at mile 7.8 will commence on August 10, 2020. Contractor will be using rope access technique to perform inspection. There will not be any reduction to the horizontal and vertical clearances in the navigation channel. Any questions to this inspection, please contact David Kolesnik at 914-420-4665. This project is to be completed by October 30, 2020.

NEW YORK – TALLMAN ISLAND TO QUEENSBORO BRIDGE – EAST RIVER – Replacement of Upper Roadways – Construction to the Queensboro Bridge over East River at mile 5.5 is in progress. All work are on top of the bridge. Hot work operations will be performed through October 28, 2022. A safety boat will be operating IVO the bridge. Any questions regarding the construction please contact Anthony Grosso at 718-685-3990 or 347-242-6442. This project is to be completed by October 28, 2022. Mariners are advised to exercise caution when transiting the area.

NEW YORK – HUDSON AND EAST RIVERS – EAST RIVER – Bridge Inspection – Inspection to Queensboro Bridge across East River at mile 5.5 is in progress. On September 25, 2020 during daylight hours, bridge traveler will be operated under the bridge in order to perform bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Seth Medwick at 917-821-9130. The traveler platform will be moved out of the navigable channel after work hours.
or when not in use. This project is to be completed by December 31, 2021. Mariners are advised to exercise caution when transiting the area.

Mariners with any questions may contact Earlene Powell at (646) 235-1928. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12352 LNM 37/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Rehabilitation – Rehabilitation of the Henry Hudson Bridge over Harlem River at mile 7.2 is in progress. A tug and 20ft by 40ft barge will be operating near Manhattan abutment on May 21, 2020 between 7 a.m. and 7 p.m. to remove hanging temporary platform on the Manhattan abutment. Hot work may be operating within the platform area. All work are locating outside the navigation channel. Mariners can contact Steve Nastro at 646-569-4243 or via marine radio VHF-FM CH 13/16 for barge status. This project is delayed through September 30, 2020 due to COVID-19 restrictions. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 37/20 (CGD1)

NEW YORK – HARLEM RIVER – Misc. Structure Rehabilitation and Repairs of Overcoat Painting – Rehabilitation of the Henry Hudson Bridge over Harlem River at mile 7.2 is in progress. A tug and 300ft by 90ft barge will be operating in the navigation channel (during installing and removing of temporary work platform). Temporary work platforms will be installed under the entire arc span and will reduce the vertical clearance by approximately 67in below the low steel. Hot work may be operating within the platform area. Mariners requiring full horizontal clearance can contact Rafael De Soto via marine radio VHF-FM CH 13/16 or call 347-843-8440. This project is to be completed by March 23, 2023. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 37/20 (CGD1)
NEW YORK – HARLEM RIVER – Bridge Closure – Broadway Bridge, mile 6.8, over across Harlem River was not able to open for marine traffic due to damaged electrical control system. New York City DOT is working diligently to repair the bridge. The bridge will be unable to open to marine traffic until repairs are completed. The vertical clearance in the closed position is approx. 24 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.
Chart 12342 LNM 37/20 (CGD1)

NEW YORK – HARLEM RIVER- Bridge Rehabilitation – Construction to the Broadway Bridge across Harlem River at mile 6.8 will commence on or about October 1, 2020. A temporary shielding will be installed under the Broadway Bridge across Harlem River at mile 6.8. Temporary shielding will reduce vertical clearance in the navigation channel by approximately 3ft 9in. A one half of navigation channel will be free of obstruction at all time. Mariners can contact Joe Pollack via marine radio VHF-FM CH 13/16 or 917-656-6820 for temporary shielding information. This project is to be completed by April 30, 2023. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 37/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Painting – Painting to the 207th Street/University Heights Bridge across Harlem River at mile 6.0 is in progress. Rigging cables and installation of work platform will begin from Manhattan approach span (west abutment) and work toward to the Bronx approach span (east abutment). The work platform under the east and west approach spans will reduce the vertical clearance by approximately 4 ft. While working in the navigation channel, one draw of a swing bridge vertical clearance will be reduced by the work platform approximately 3 feet; the other draw will be free and clear of any equipment for the passage of vessels. Mariners has questions can contact the contractor via marine radio VHF-FM CH 13/16 or call 917-440-9478. This project will be completed by May 1, 2022. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12342 LNM 37/20 (CGD1)

NEW YORK - HARLEM RIVER – Electrical/Mechanical Rehabilitation – Construction to the Madison Ave Bridge across Harlem River at mile 2.3 is in progress. A protective shield will be installed around the center pier. This shield will not affect operation of the bridge. Any questions to this project can contact Kambiz Riazi at 646-246-6666 or Steve Koch at 908-723-4355. This project is to be completed by April 13, 2022. Mariners are advised to exercise caution when transiting the area.
Chart 12342 LNM 37/20 (CGD1)

NEW YORK - HARLEM RIVER - Fender Replacement – Construction to the Metro North (Park Ave) Bridge across Harlem River at mile 2.1 will commence on September 1, 2020. There will be crane barges operating in the area. Work will begin west fender through April 30, 2021 and shift to east fender on May 1, 2021 through April 30, 2022. 120ft of horizontal clearance in the navigation channel will be maintained at all times. Any questions regarding barge placement can contact Tony Rivera at 917-715-9429. This project is to be completed by October 1, 2022. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 37/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Inspection – Inspection to the Willis Ave Bridge across Harlem River at mile 1.5 will commence on September 8, 2020. Hours of operation are from 8 A.M. to 2 P.M. A barge with lift will be operating IVO the bridge and can move out of channel upon request. Mariners can contact the contractor via marine radio VHF-FM Ch 13/16 or 917-498-9956 for barge location. This project is to be completed by September 18, 2020. Mariners are advised to exercise caution when transiting the area.

NEW YORK – HARLEM RIVER – Bridge Inspection – From September 7, 2020 to October 30, 2020 between 7 a.m. and 3 p.m., a 40ft by 40ft barge with 80ft manlift and tug “Jerry” will be operating IVO the 125th Street (RFK) Bridge across Harlem River at mile 1.3 for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call 848-391-2127. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12342 LNM 37/20 (CGD1)

NEW YORK – NEW YORK HARBOR – Structural Steel Repairs and Painting – Repairs to the Verrazano Narrows Bridge over New York Harbor are in progress. Temporary safe-span platforms will be installed under the entire length of the bridge and will reduce the vertical clearance by approximately 2 ft. below the traveler rail with maximum two feet sag. The temporary platform for 250ft on both sides of the centerline of the bridge for a total of 500ft must maintain less than one foot of vertical clearance reduction below the traveler rail at all times unless approved by Coast Guard Vessel Traffic Service New York (CG VTS-NY). Four corners of temporary platforms marking the 500ft center of the span where less than one foot of vertical clearance reduction is maintained will be lighted with constant burning red lights. Any questions regarding the platforms please contact Chris Daskalakis at 718-639-5880 or...
NEW YORK – NEW YORK HARBOR – Diving Inspection – From September 21, 2020 to October 1, 2020 between 6 a.m. and 6 p.m. a 25 ft fiberglass Chaser Boat Mad Hatter will be performing diving inspection at the pier towers of the Verrazano Narrows Bridge, mile 0.0 over New York Harbor. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM CH 13/16 or call 646-334-1853. Mariners are advised to exercise caution and reduce wake when transiting the area.

NEW YORK – EAST RIVER – GOWANUS CANAL – Bridge Inspection – Inspection to the Union Street Bridge across Gowanus Canal, mile 2.1 will commence on September 28, 2020. Hours of operation are from 8 a.m. to 2 p.m. A boat with scaffold will be operating at various locations over the navigation channel. Mariners requiring full horizontal clearance can contact Sayan Chandra via marine radio VHF-FM CH 13/16 or call 917-444-0801. This project is to be completed by October 1, 2020. Mariners are advised to exercise caution when transiting the area.

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Structural Steel Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 will commence on March 1, 2020. Safe span platforms will be installed under the east and west approach spans and will reduce vertical clearance by 2 feet. POC for this project is William Ritter and can be reached at 973-390-7221. This project is to be completed by March 30, 2023. Mariners are advised to exercise caution when transiting the area.

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Inspections – Inspections to the Goethals Bridge across the Arthur Kill, mile 11.5 will commence on September 14, 2020. Hours of operations are from 7 a.m. to 4 p.m. At times, an underdeck traveler will be operating at various locations over the navigation channel. Mariners requiring full vertical clearance can contact Carlo Thompson via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. This inspection is to be completed by September 30, 2020. Mariners are advised to exercise caution when transiting the area.

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Routes 1 & 9 Bridge, across Hackensack River at mile 1.8 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 100 feet of unobstructed Channel at all times. Mariners requiring more than 100 feet of horizontal clearance can contact Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 or call 201-696-6742. This inspection is to be completed by December 31, 2020. Mariners are advised to exercise caution when transiting the area.
NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Notice of Temporary Deviation

- The Coast Guard has issued a temporary deviation from the regulation governing the operation of the PATH Bridge across Hackensack River at mile 3.0 due to COVID-19 emergency social distancing issues. From June 25, 2020 to September 30, 2020, the PATH Bridge shall open on signal provided at least a two-hour advance notice is provided by calling the number posted at the bridge. The draw need not open for the passage of vessel traffic Monday to Friday, except Federal holidays, from 6 a.m. to 10 a.m. and from 4 p.m. to 8 p.m. Additional bridge openings shall be provided for commercial vessels from 6 a.m. to 7 a.m.; 9 a.m. to 10 a.m.; and 6:30 p.m. to 8 p.m. provided a minimum of twelve (12) hours advance notice is given by calling the number posted at the bridge to coordinate a transit time that is mutually agreeable and least disruptive to PATH operations. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly.

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Notice of Temporary Deviation and Barge Placement

- The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Hack Freight Bridge, across Hackensack River at mile 3.1. Under this temporary deviation the Hack-Freight Railroad Bridge will not open for marine traffic from 7 a.m. on October 4, 2020 to 7 a.m. on October 11, 2020. Should inclement weather occur, the following rain dates may be used: 1) from 7 a.m. on October 11, 2020 to 7 a.m. on October 18, 2020, or 2) 7 a.m. on October 18, 2020 to 7 a.m. on October 25, 2020, or 3) 7 a.m. on October 25, 2020 to 7 a.m. on November 1, 2020 to facilitate operating drum assembly. A 32ft by 110ft barge will be operating in the navigation channel during bridge closure period. At minimum of one half of unobstructed navigation channel will be available at all times. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – New Bridge Construction

- Replacement of the new Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 is in progress. The following TENTATIVE Channel closure schedule will be utilized during the construction of the new bridge towers and lift span (UPDATED):

  Install Main Lift Span – Full Channel Closure: 6 a.m. on Sep 17th through 10 pm on Sep 20th (Possible channel closure extension through 6 pm on Sep 21th)

  Vertical Height Restriction: September 21st - December 18th (70’ VERTICAL CLEARANCE)

  12 Hour Notice Protocol: September 21st – December 18th (SEE BELOW FOR INSTRUCTIONS)

12-hour Advance Notice Protocol:
While CCA Civil is working in the navigable channel, other than during the daily/full channel closures, CCA Civil will implement the following 12 Hour Advance Notice Protocol.

1. Mariners will call one of the three (3) Provided Telephone Numbers advising of travel through the channel. (including possible return trips)
   - Christopher Saulys Site Superintendent 201-600-6070
   - Derek Guenther Assistant Site Superintendent 908-797-5032
   - Evan Raab Senior Project Engineer 201-359-0906

2. CCA Civil will prepare barges to be moved from the Channel prior to the vessel(s) arrival onsite.
3. Tug boats will move CCA Civil barges from the work hour location in the channel to the off-hour work location outside the channel.
4. Mariners will safely travel through the navigable channel.
5. Once safely past the channel and clear of the jobsite, CCA will remobilize barge(s) back into prior work positions.

Under this protocol, Mariners will provide a 12 Hour Advance Notice, stating when they will be traversing the Channel. Once CCA Civil receives notice from a Mariner, the barge(s) will be moved from the Navigable Waterway and allow the vessel(s) to pass. This 12 Hour Advance Notice will only be in effect for 3 months from the start of work in the waterway. Please email “raab_evan@ccacivil.us” if you would like to receive email updates during this portion of the contract. This project will be completed by January 31, 2021. Mariners are advised to exercise extreme caution when transiting the area.

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Temporary Trestle Installation

- Installation of temporary trestle at the existing Wittpenn Bridge across the Hackensack River at mile 3.1 will commence
on October 1, 2020. There will not be any obstruction in the navigation channel at any times. All barges will be operating outside the navigation channel. Mariners can contact the Resident Engineer via marine radio VHF-FM CH 13 or call 908-618-6313 for the operation status. This project is to be completed by September 1, 2022. Mariners are advised to use main navigation channel when transiting the area.
