LOCAL NOTICE TO MARINERS

District: 1

Week: 39/20

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:

- (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
- (2) The Local Notice to Mariners is a weekly edition.
- (3) Inquiries, published articles or Information: mail to: D1LNM@uscg.mil
- (4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
- (5) The Coast Pilot, along with its corrections, are available online at <https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html>.

The Local Notice to Mariners is available online at <https://www.navcen.uscg.gov/-pageName=InmDistrict®ion=1>
 The updated 2017 Light List is available online at: <https://www.navcen.uscg.gov/-pageName=lightListWeeklyUpdates>
 Information on Private Aids to Navigation is available at: <http://www.usharbormaster.com/>
 Reports of Channel conditions can be found at the Army Corps of Engineers website at:
<http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx>.
 NOAA Tides and Currents can be found at: <http://tidesandcurrents.noaa.gov/>.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: <http://cgls.uscg.mil/mailman/listinfo/nanu>. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: tis-sg-nisws@uscg.mil, or on the internet at: <https://www.navcen.uscg.gov>.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)
 408 Atlantic Avenue, Boston, Massachusetts 02110-3350
 Telephone: (617) 223-8356
 24 Hour FAX: (617) 223-8094
<http://www.uscg.mil/d1/prevention/Marineinfoeregulations.asp>

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
 AICW - Atlantic Intracoastal Waterway
 AI - Alternating
 B - Buoy
 BKW - Breakwater
 bl - Blast
 BNM - Broadcast Notice to Mariner
 bu - Blue
 C - Canadian
 CHAN - Channel
 CGD - Coast Guard District
 C/O - Cut Off
 CONT - Contour
 CRK - Creek
 CONST - Construction

I through O

I - Interrupted
 ICW - Intracoastal Waterway
 IMCH - Improper Characteristic
 INL - Inlet
 INOP - Not Operating
 INT - Intensity
 ISL - Islet
 Iso - Isophase
 kHz - Kilohertz
 LAT - Latitude
 LB - Lighted Buoy
 LBB - Lighted Bell Buoy
 LHB - Lighted Horn Buoy
 LGB - Lighted Gong Buoy
 LONG - Longitude

P through Z

PRIV - Private Aid
 Q - Quick
 R - Red
 RACON - Radar Transponder Beacon
 Ra ref - Radar reflector
 RBN - Radio Beacon
 REBUILT - Aid Rebuilt
 RECOVERED - Aid Recovered
 RED - Red Buoy
 REFL - Reflective
 RRL - Range Rear Light
 RELIGHTED - Aid Relit
 RELOC - Relocated
 RESET ON STATION - Aid Reset on Station
 RFL - Range Front Light

DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
Fl - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

SNNE- U.S. Coast Guard Sector Northern New England
SBOS- U.S. Coast Guard Sector Boston
SSENE- U.S. Coast Guard Sector Southeastern New England
SLIS- U.S. Coast Guard Sector Long Island Sound
SNEW- U.S. Coast Guard Sector New York

AIS - Automatic Identification System
AtoN - Aids to Navigation
LLNR - Light List Number
NM - Nautical Mile

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

NOAA RIGHT WHALE SLOW ZONES CAMPAIGN

NOAA Fisheries announces a new "Right Whale Slow Zones" campaign asking all vessel operators to reduce the risk of vessel strike to critically endangered North Atlantic right whales by slowing down or avoiding areas where right whales have been detected. Complementary to other NOAA vessel strike reduction efforts, the "Right Whale Slow Zones" campaign brings together sighting information, from NOAA's Dynamic Management Area program, with new acoustic detection information to help vessels of all sizes slow down in areas where right whales have been detected. We would like to thank our North Atlantic right whale Northeast U.S. Implementation Team (NEIT), our partners and advisers on right whale recovery activities from Maine through Virginia, who identified this opportunity to enhance vessel strike reduction efforts using acoustic information. If we've learned anything this year – it's that working together we can make a difference - and that's true for reducing vessel strike to right whales as well. Read more about our new campaign in our web story ([link follows](#)).

Media Questions: Contact Allison Ferreira, Regional Office, 978-281-9103

Inquiries about the right whale SLOW Zone program: Peter Kelliher, Protected Resources Division 978-282-8474

Further Slow Zone details: <https://www.fisheries.noaa.gov/feature-story/help-endangered-whales-slow-down-slow-zones>

Reducing Ship Strike: <https://www.fisheries.noaa.gov/national/endangered-species-conservation/reducing-ship-strikes-north-atlantic-right-whales>

LNM: 32/20

ME, NH, MA, RI, CT, NY, NJ-ATLANTIC OCEAN-OFFSHORE STRUCTURE PATON MARKING GUIDANCE

For Private Aids to Navigation (AtoN) applicants requesting Coast Guard permits to provide navigational markings on offshore wind energy area structures in First District-area waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all labels, light(s), sound signals and AIS signals). Private AtoN Permit applications should be submitted no sooner than 30 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

Tower Identification:

- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible to maximize charting effectiveness
- Letters and numbers labelled to as near to 3 meters high as possible
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water's surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials
- If feasible, also labelled below the servicing platform

Lighting:

- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water's surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6/FL Y 10) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. These do not require permits, only Coast Guard notification for appropriate marine notices and broadcasts until the final structure marking is established.

Sound Signals:

- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a range of 2NM
- Should not exceed 3NM spacing between perimeter structures
- Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds
- Timed to energize for 45 minutes from last VHF activation

Automated Information System (AIS) Transponder Signals:

- Must be transmitted superimposed at all corner structures/SPSs
 - Should be capable of transmitting signals to mark all locations of all structures throughout an established field
 - Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the First Coast Guard District's recommendation
- PATON Application Website: WWW.USARBORMASTER.COM.

Please forward questions or feedback in an e-mail to:
D01-SMB-DPWPUBLICCOMMENTS@USCG.MIL.

COAST GUARD SEEKS COMMENTS ON HOW TO IMPROVE OUR NATION'S SHALLOW DRAFT WATERWAYS ATON SYSTEM

The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) Study on the Shallow Draft system (waters less than 12 feet). The purpose of this study is to determine the navigational needs and requirements of vessels operating in shallow draft navigable waterways throughout the country. The study will focus on the existing shallow water Aids to Navigation (ATON) system, future development projects, waterborne commerce transiting these waters, and marine casualty information. Waterway users, interested parties, and stakeholders are invited to provide comments or feedback via the tool posted at <https://www.surveymonkey.com/r/ShallowWaterWAMS>. This link will remain available until November 1, 2020. Further questions or comments may be emailed to CGNAV@uscg.mil using the subject line: "Shallow Draft WAMS".

LNLM: 32/20

MARINER ALERT-SHIP/WHALE COLLISIONS

NOAA just designated the North Atlantic right whale as a Species in the Spotlight because it is on the brink of extinction. Collisions between vessels and whales are a threat to a number of endangered large whale species – most notably, the right whale. The United States has established measures to reduce this threat. A vessel speed restriction requires that vessels 65 feet or greater in length travel 10 knots or less in certain areas and on a rolling basis at certain times where endangered right whales may be present: <http://www.greateratlantic.fisheries.noaa.gov/protected/shipstrike/training/NOAA-RightWhalesCD.iso>. This rule applies within 20 nautical miles around all major ports and in other locations along the U.S. eastern seaboard. Temporary voluntary speed limits also may be imposed in other areas when an aggregation of three or more right whales is confirmed. In addition, ships 300 GT and greater are required to report their location and speed to a USCG shore station in certain prescribed areas: https://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf. A computer-based interactive guide and training resource for mariners is available at: <http://www.greateratlantic.fisheries.noaa.gov/shipstrike/doc/mtr.html>. The guide provides information on endangered whales, recommended navigational actions when operating in whale habitat, a guide to reporting sightings of dead or injured right whales, and related information. Additional steps mariners can take to help reduce the chances of hitting a right whale can be found at: http://www.nero.noaa.gov/shipstrike/doc/guidelines%20placard_high.pdf.

LNLM: 44/19

NOVEL CORONAVIRUS

"The outbreak of respiratory illness caused by the COVID-19 virus may affect mariners and maritime commerce transiting to or near New England, New York and New Jersey waters. Additional interim guidance for ships on managing suspected coronavirus disease concerns is available at <https://www.cdc.gov/quarantine/maritime/recommendations-for-ships.html>. An enclosure to this LNM includes additional information as well as a number of links to websites where additional information regarding this illness can be obtained. Mariners with questions/concerns while transiting to or near New England, New York and New Jersey should contact the nearest Coast Guard Sector Command Center at:

Sector New York: (718) 354-4353

Sector Long Island Sound: (203) 468-4404

Sector Southeastern New England: (508) 457-3211

Sector Boston: (617) 223-5757

Sector Northern New England: (207) 7670303

LNM: 10/20

NOTICE TO ALL PRIVATE BOATS AT SEA

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

LNM: 13/18

NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the "Rules of the Road", address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the "Rules of the Road", should consider a U.S. Coast Guard Auxiliary boating safety course. Course information is available online at <http://www.cgaux.org> in the "Take a Boating This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and U.S. Coast Guard Sector New York. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse" section, or by calling 1-800-336-BOAT. Further information can be found at <http://thesafeharbor.us/index.html>

LNM: 13/18

US NOTICE TO MARINERS (NTM)

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61. NTM 01 – Special Paragraphs includes information on: America's Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

LNM: 13/18

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

None

Advance Notice(s)

RI-BLOCK ISLAND-OLD HARBOR

The U.S. Coast Guard will be making the following changes to Aids to Navigation to this waterway:

CHANGE Block Island Old Harbor Channel Bell Buoy 1 (LLNR 19690) to Block Island Old Harbor Channel Lighted Bell Buoy 1 (LLNR 19690) , Green,

Flashing Green 2.5 seconds.

Charts: 13205 13215 13217 13218

LNLM: 36/20

ME-TIBBETT NARROWS TO SCHOODIC ISLAND (Chart 13324)-PETIT MANAN APPROACH

The U.S. Coast Guard will be making the following change to Aids to Navigation:

DISCONTINUE Petit Manan East Bar Gong Buoy EB (LLNR 1765) from approximate position 44-23-06.729N / 067-52-49.558W.

DISCONTINUE Petit Manan West Bar Bell Buoy WB (LLNR 1770) from approximate position 44-22-58.880N / 067-53-11.128W.

Previously advertised as a Proposal in LNM 43/17 Refer to Project No. 01-17-079.

Charts: 13312 13324 13325

LNLM: 24/20

NY-LONG ISLAND SOUND-OYSTER AND HUNTINGTON BAYS (Chart 12365)-HUNTINGTON HARBOR

The U.S. Coast Guard will be making the following change to Aids to Navigation:

CHANGE: The radio activation frequency for the fog signal by the mariner VHF-FM radio to channel 81A/157.075MHZ instead of 83A. During times of reduced visibility, mariners are requested to turn their VHF-FM radio to channel 81A/157.075MHZ. By keying their microphone, 5 times consecutively, while on channel 81A, this will activate the fog signal for 45 minutes.

Huntington Harbor Light (LLNR 26530)

This change is to determine if the fog signal activation radio is experiencing undue interference from an unknown source on VHF-FM channel 83A.

Interested Mariners can comment on this change by responding to the below e-mail. Refer to Project No. 01-20-063. D01-SMB-DPWPUBLICCOMMENTS@uscg.mil .

Charts: 12363 12364 12365

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

Proposed Change Notice(s)

RI-NARRAGANSETT BAY (CHART 13221)-MOUNT HOPE BAY

The U.S. Coast Guard is considering making the following changes to Aids to Navigation to this waterway:

CHANGE Mount Hope Bay Channel Buoy 15 (LLNR 18935) to Mount Hope Bay Channel Lighted Buoy 15 (LLNR 18935), Green Flashing Green 2.5s and change the seasonal status from permanent (PERM) to Relieve with an unlighted buoy during the winter months (SEAR) from (PERM) ULB to (SEAR) from December 1 to April 1.

DISCONTINUE Mount Hope Bay Channel Buoy 17 (LLNR 18940).

CHANGE the change the seasonal status on Mount Hope Bay Channel Lighted Buoy 19 (LLNR 18950) from When endangered by ice replace (ENDR) to When endangered by ice remove (ENDN).

CHANGE Mount Hope Bay Channel Buoy 21 (LLNR 18955) to Mount Hope Bay Channel Lighted Buoy 21 (LLNR 18955), Green, Flashing Green 4s and change the seasonal status from permanent (PERM) to Relieve with an unlighted buoy during the winter months (SEAR) from December 1 to April 1.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 2 October 2020 to complete the process. In order to most effectively consider your feedback and improve the data collection, when responding to this proposal, PLEASE INCLUDE size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal in your e-mail. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-20-072. E-mail can be sent to: D01-SMB-DPWPUBLICCOMMENTS@uscg.mil .

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

SUMMARY OF GENERAL PROJECTS STILL IN EFFECT

Enclosure

LNM: 04/19

MASSACHUSETTS-ANNISQUAM RIVER-BLYNMAN CANAL-Bridge Construction-Full Channel Closure

Massachusetts Bay Transportation Authority (MBTA) Bridge across the Annisquam River, mile 0.7, has been removed to allow for construction of a replacement bridge. The channel through the bridge will be closed to all vessel traffic including emergency response vessels from November 2, 2020, to December 31, 2020, to accommodate a 60 foot by 80 foot work barge and drilling rig installing two drilled seven foot diameter piers to support the new railroad bridge. Vessel operators can reach the Harbormaster on VHF CH 16/14. Questions may be directed to the MBTA Resident Engineer, Matt Moorehouse at 617-839-8075. Mariners are advised plan accordingly.

Chart 13281

LNM: 39/20

CT-SOUTH OF SEAVIEW

Marine borings will be done, from October 2 - 7, 2020, 1/2 a mile east of the Bayonne Bridge. The hours of operation will be Monday - Friday from 6:00 - 6:00 pm. On scene will be a lift boat and transportboat that will be monitoring VHF-FM channels 13 and 16.

LNM: 39/20

MA-CAPE COD

Deployment of up to 35 test objects on the sea floor to support unmanned underwater vehicle test will be done from October 5 - December 20, 2020. Test object locations will range from directly on the sea floor to anchored to the sea floor and suspended several meters above the sea floor. The test objects will be located within each field throughout the whole period and retrieved by December 20, 2020. After deployment of test object, unmanned underwater vehicle testing will occur within the field. The work will be done within this rectangle:

N41°58'56.100" W70°08'57.100"
N41°58'56.500" W70°08'11.200"
N41°58'12.000" W70°08'10.400"
N41°58'11.500" W70°08'56.300"

The hours of operation when on scene will be 24 hours a day. On scene will be the R/V RESOLUTION, R/V JAIME HANNA, M/V JAMES K GOODWIN, M/V RACHAEL K GOODWIN, and M/V WARREN JR that will be monitoring VHF-FM 13 & 16. Mariners are requested to proceed with caution after passing arrangement have been made.

Chart 13246

LNM: 39/20

MA-MASSACHUSETTS AND CAPE COD BAYS (REVISED)

General Dynamics Mission Systems is conducting Underwater vehicle testing in two different fields (listed below) until November 31 2020 24 hours a day when on scene. Within each field, 21 - 35 test objects have been placed on the sea floor to support the underwater vehicle test. Test object range in height up to several meters above the sea floor. The test objects will be located within each field throughout the whole period and retrieved by October 30, 2020. Equipment on scene will be the R/V RESOLUTION, M/V JAMES K GOODWIN, or M/V RACHAEL K GOODWIN. During underwater vehicle operations, the support vessel can be contacted on VHF-FM to coordinate passing on VHF-FM channels 13 and 16.

Latitude & Longitude of work area (Degrees, Minutes, Thousandths of seconds):

Within the rectangle of field 1:

SW Corner 40° 09' 02.6153" N 73° 43' 27.4915" W

The hours of operation will be 7 days a week, 24 hours a day. On scene will be the OCEAN ENDEAVOUR that will be monitoring VHF-FM channel 16.

LNM: 39/20

MA-SOUTH OF MARTHA'S VINEYARD

MA-SOUTH OF MARTHA'S VINEYARD

Geotechnical & Environmental Surveys are being done, until November 1, 2020, in the following positions: 40°55'N, 70°37'30"W. The hours of operation are 7 days a week, 24 hours a day. Geotechnical & environmental sampling equipment and towed equipment that are monitoring VHF-FM channel 13 and 16.

LNM: 39/20

MA-SOUTH OF MARTHA'S VINEYARD

Geotechnical and soil borings are being done, until October 31, 2020, in the following locations: LAT 41 05' 00" N, LONG 70 35' 00" W. The hours of operation are 7 days a week, 24 hours a day. On scene is the vessel GEOQUIP SPEER that is monitoring VHF-FM channel 16.

LNM: 39/20

NJ-LOWER PASSAIC AND SECOND RIVERS

Poling surveys around Bridges are being done, until October 13, 2020, in the following locations:

Newark Bay - Southern Point 40°42'15.87"N/74°08'14.29"W to
Newark Bay - Northern Point 40°43'10.09"N/74°06'34.11"W

The hours of operations are daily during daylight hours. On scene is the SLOW MOTION and pontoon boat. Mariners are requested to proceed with caution and provide buoys with a wide 50' berth.

LNM: 39/20

NY-EAST RIVER

Diving operations will be done under Pier 3 at the Brooklyn Bridge Park, from October 5 - December 31, 2020. The hours of operation will be Monday - Friday, 6:00 am - 4:00 pm. On scene will be the barge RTC 380.

LNM: 39/20

NY-EAST RIVER

Research work is being done from the battery to Montgomery Street about 1/2 mile east of Manhattan Bridge, until September 20, 2021. The hours of operation are Monday - Friday, from 8:00 am - 3:00 pm. On scene is the RV PANNAWAY, Bottom Trawls, Beach Seines, Fish Traps, Mid Water Trawls, Aris Sonar, Ponar grab. Vessels will be monitoring VHF-FM channels 13 and 16.

Chart 12335

LNM: 39/20

RI-BLOCK ISLAND

Dredging is being done, until December 31, 2020, in the following location: 41-20.477N 071-33.382W. The hours of operation are daily during daylight hours. On scene is the dredge SAMSON III, pushboat STRIDER, workboats SCULLY & SEA ARK scows 742 & SE-104 and tug AEGEAN SEA that are monitoring VHF-FM channels 13, 13 & 8.

LNM: 39/20

MA - NANTUCKET SOUND - SEA TURTLE MIGRATION

Mariners are advised that sea turtles are present in Southern Massachusetts coastal waters, especially surrounding Martha's Vineyard, Nantucket, and the Elizabeth Islands. Mariners are advised to reduce speed in these areas and keep a lookout for sea turtles. Often, only the turtle's dark head is visible at the surface. Sightings of jellyfish also indicate sea turtles are likely nearby. Vessel strikes are a significant risk to sea turtles. Sightings of dead, injured, or entangled turtles should be reported to the NOAA Fisheries Greater Atlantic Regional Fisheries Office by phone at (866) 755-6622.

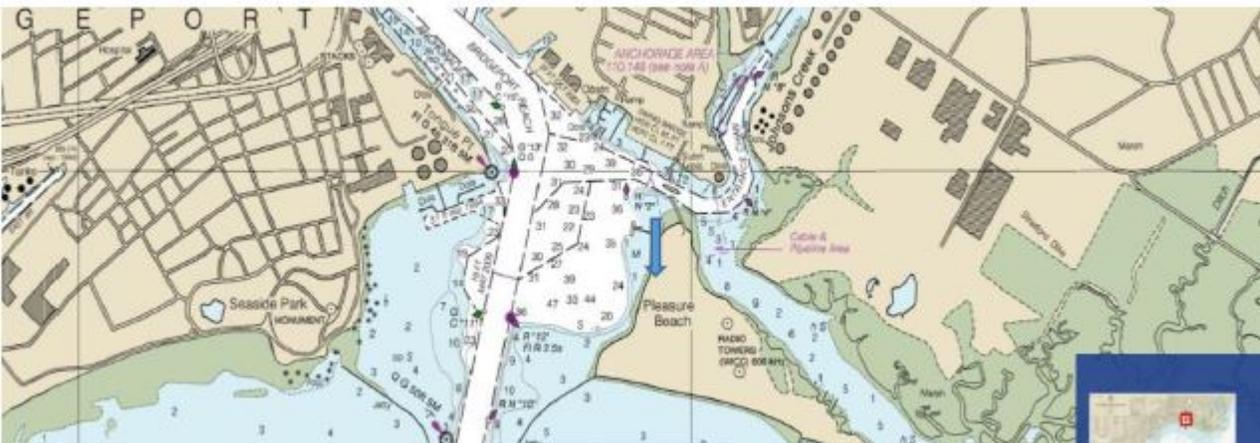

Chart 13237

LNM: 38/20

CT - BRIDGEPORT HARBOR - BRIDGEPORT - CAD OBJECT

Mariners are advised that an obstruction has been discovered in the vicinity of Bridgeport Harbor. Length of obstruction is 27.4 ft. at or around 41.1627N and 73.1718W. Controlling depth is 21.9 feet. Mariners are advised to exercise caution if transiting through this area in Bridgeport Harbor. Utilize VHF Channel 16 if in an emergency.

COAST GUARD SEEKS COMMENTS ON HOW TO IMPROVE OUR NATION'S SHALLOW DRAFT WATERWAYS ATON SYSTEM

The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) Study on the Shallow Draft system (waters less than 12 feet). The purpose of this study is to determine the navigational needs and requirements of vessels operating in shallow draft navigable waterways throughout the country. The study will focus on the existing shallow water Aids to Navigation (ATON) system, future development projects, waterborne commerce transiting these waters, and marine casualty information. Waterway users, interested parties, and stakeholders are invited to provide comments or feedback via the tool posted at <https://www.surveymonkey.com/r/ShallowWaterWAMS>. This link will remain available until November 1, 2020. Further questions or comments may be emailed to CGNAV@uscg.mil using the subject line: "Shallow Draft WAMS".

LNLM: 32/20

MA-SOUTH OF MARTHA'S VINEYARD

The survey vessel STRIL EXPLORER will be conducting Hydrographic and Geophysical surveys from August 9 2020 for approximately 240 days (weather dependent), the offshore areas and coastal sea areas south of Martha's Vineyard and east in to Long Island Sound. During this survey the STRIL EXPLORER will be deploying ROV subsea survey equipment along with towed Seismic equipment and will be restricted in their ability to manoeuvre. Approaching vessels are requested to pass at a safe speed and distance. The survey covers the planned Beacon Wind lease area and planned export cable route. The hours of operation will be 24 hours a day of operation are 7 days per week, when on scene. On scene vessels will be monitoring VHF-FM channels 13 and 16.

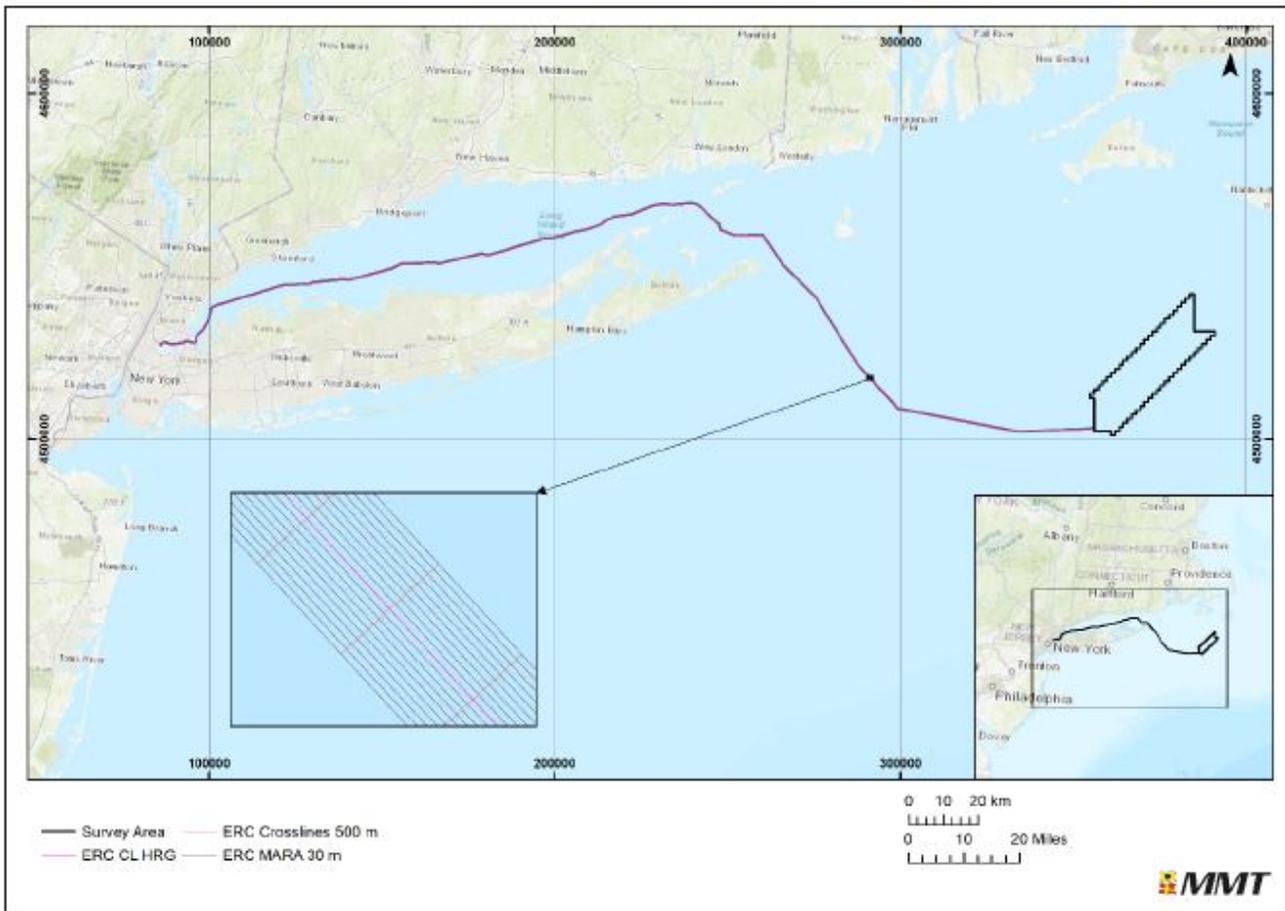

Chart 13006

LNLM: 35/20

MA-MARTHA'S VINEYARD TO BLOCK ISLAND (Chart 13218)-WESTPORT HARBOR

Shoaling exists in Westport Harbor in the vicinity of Westport Harbor Channel LB 14 (LLNR 17490) and Westport Harbor Channel By 17 (LLNR 17505). There are other areas of shoaling throughout the Westport Harbor Channel reducing the available depth of water. Mariners are advised to use caution while navigating this area.

Chart 13228

LNM: 31/20

MA-SOUTH of MARTHA'S VINEYARD- BOEM Lease Area OCS-A 0501

EGS (International) Ltd. Will be conducting Hydrographic and Geophysical surveys from July 7 – October 15, 2020, South of Martha's Vineyard in BOEM Lease Area OCS-A 0501 and associated offshore export cable corridor OECC) heading north toward shore from the lease area through the Muskeget Channel near position 40-55N 070-37.30W. A survey vessel will be towing a Multibeam echo sounder & ultra high resolution geophysical spread, including towed equipment up to 200m astern of the vessel. The hours of operation will be 24 hours a day of operation are 7 days per week, 34 hours per day. On scene are vessels that are monitoring VHF-FM channels 13 and 16

LNM: 10/20

NY/NJ-OFFSHORE-SOUTH OF AMBROSE TO NANTUCKET TRAFFIC LANE , SOUTH TO 39° 09' N APPROX. EAST OF FIVE FATHOM SHOAL.

Line surveys and geophysical reconnaissance investigation surveys will be done, from July 10 - October 15, 2020, in the following positions:

there are three sub-areas

- 39° 11' 39" N 73° 39' 39" W
- 40° 19' 10" N 73° 38' 00" W
- 40° 19' 40" N 72° 29' 13" W
- 39° 09' 31" N 72° 46' 10" W

Offshore, south of Ambrose to Nantucket Traffic Line, a proposed draft Wind Energy Areas Hudson North and Hudson South. The hours of operation will be 7 days a week, with likely only daylight operations due to restrictions with limited maneuverability, On scene will be the ODEAN ENDEAVOUR, call sign GAAL, that will be monitoring VHF-FM channel 16.

SEPARATION REQUESTED:

It is requested that other vessels give at least 1000 Meter separation from the subject vessel, when sighted as various data and hydrographic information is being collected by instrumentation deployed by the Ocean Endeavour, as well as in consideration of their restricted maneuverability.

Novel Coronavirus – Update (Change 1)

An outbreak of respiratory illness caused by a novel coronavirus (COVID-19) may affect mariners and maritime commerce. The CDC has updated their Interim Guidance for Ships on Managing Suspected Coronavirus Disease 2019 (see <https://go.usa.gov/xdfyG>) and Cruise Ship Travel to Asia (see <https://go.usa.gov/xdfVP>).

Illness of a person onboard a vessel that may adversely affect the safety of a vessel or port facility is a hazardous condition per 33 CFR 160.216 and must be reported to the U.S. Coast Guard Captain of the Port (COTP). Cases of persons who exhibit symptoms consistent with COVID-19 must be reported to the COTP.

Per 42 CFR 71.21, vessels destined for a U.S. port are required to report to the CDC any sick or deceased crew/passengers during 15 days prior to arrival at the U.S. port. Guidance to vessels to report deaths and illnesses to the CDC can be found at: <https://go.usa.gov/xdjmi>. U.S. flagged commercial vessels are also advised to report ill crewmembers in accordance with the requirements of each foreign port called upon.

Vessel owners/operators and local stakeholders should be aware of the following:

- Passenger vessels or any vessel carrying passengers that have been to Iran or China (excluding Hong Kong and Macau) or embarked passengers who have been in Iran or China (excluding Hong Kong and Macau) within the last 14 days will be denied entry into the United States. If all passengers exceed 14 days since being in Iran or China (excluding Hong Kong and Macau) and are symptom free, the vessel will be permitted to enter the United States to conduct normal operations. These temporary measures are in place to safeguard the American public.
- Non-passenger commercial vessels that have been to Iran or China (excluding Hong Kong and Macau) or embarked crewmembers who have been in Iran or China (excluding Hong Kong and Macau) within the last 14 days, with no sick crewmembers, will be permitted to enter the U.S. and conduct normal operations, with restrictions. Crewmembers on these vessels will be required under COTP authority to remain aboard the vessel except to conduct specific activities directly related to vessel cargo or provisioning operations.
- The Coast Guard considers it a hazardous condition under 33 CFR 160.216 if a crewmember who was in Iran or China (excluding Hong Kong and Macau) within the past 14-days is brought onboard the vessel during transit. This requires immediate notification to the nearest Coast Guard COTP.
- The Coast Guard will continue to review all “Notice of Arrivals” in accordance with current policies and will communicate any concerns stemming from sick or deceased crew or passengers to their Coast Guard chain of command and the cognizant CDC quarantine station, who will coordinate with local health authorities.
- Vessel masters shall inform Coast Guard boarding teams of any ill crewmembers on their vessel prior to embarking the team.

- Local industry stakeholders, in partnership with their Coast Guard COTP, should review and be familiar with section 5310 Procedures for Vessel Quarantine and Isolation, and Section 5320 - Procedures for Security Segregation of Vessels in their Area Maritime Security Plan.
- Local industry stakeholders, in partnership with their Coast Guard COTP, should review and be familiar with their Marine Transportation System Recovery Plan.
- Maritime facility operators are reminded that they are not permitted to impede the embarkation/disembark of crew members as permitted under Seafarer's access regulations. This authority resides with CBP, Coast Guard, or the CDC for medical matters. Facility operators should contact their local CBP, Coast Guard, or CDC/health department offices regarding specific questions or concerns about their individual operations.
- The Coast Guard recommends that people review the CDC travel guidance (see <https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html>) and the U.S. Department of State (DoS) Travel Advisories related to COVID-19 at <https://travel.state.gov/content/travel/en/traveladvisories/traveladvisories.html/>.

Ms. Dana S. Tulis, SES, U.S. Coast Guard, Director, Emergency Management (CG-5RI) sends.

MARINE EVENTS

SECTOR BOSTON

MA – SALEM SOUND – JUBILEE YACHT CLUB THURSDAY EVENING RACING - SAILING REGATTA
Mariners are advised that a regatta is scheduled to be held in Salem Sound in the vicinity of Beverly, MA, beginning July 3, 2020 through October 1, 2020. Races will occur on Wednesdays between 6:00 p.m. and 9:00 p.m. approximately 30 sailboats (22-40 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer on marine band radio channel 72 VHF-FM. Chart 13276

MA – BOSTON HARBOR – SUNDAY AFTERNOON RACING- SAILING REGATTA Mariners are advised that a regatta is scheduled to be held in Boston Harbor Inner Harbor, beginning September 8, 2020 through October 25, 2020. Races will occur on Sundays between 12:00 p.m. and 2:00 p.m. approximately 12 sailboats (23 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer on marine band radio channel 78 VHF-FM. Chart 13272

MA – ATLANTIC OCEAN – FALL LASERS- SAILING REGATTA Mariners are advised that a regatta is scheduled to be held in Atlantic Ocean in the vicinity of Marblehead, MA beginning September 13, 2020 through November 22, 2020. Races will occur on Sundays between 12:00 p.m. and 5:00 p.m. approximately 30 sailboats (14 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer by cell phone at 617-791-1585. Chart 13276

SECTOR SOUTHEASTERN NEW ENGLAND

RECURRING EVENTS

RI – NARRAGANSETT BAY – ILYC SHIELDS WEDNESDAY NIGHT SERIES – RACE/REGATTA

Mariners are advised that the **Ida Lewis Yacht Club Shields Wednesday Night Series** is scheduled to be held in the vicinity of Castle Hill to Gould Island in Narragansett Bay, RI. The event will take place **every Wednesday from June 24th through October 7th, 2020, between 4:30 p.m. to 7:30 p.m. each day.** Expect up to 22 sailing vessels, 30ft in length. Mariners are advised to transit to the area with extreme caution. Mariners may contact the person in charge by phone at (401) 862-3840 or by marine radio on channel 79.

Chart 13223

MA – VINEYARD SOUND – WEDNESDAY NIGHT KNOCKABOUT RACE SERIES – RACE/REGATTA

Mariners are advised that the **Wednesday Night Knockabout Race Series** is scheduled to be held in the vicinity of Woods Hole Yacht Club in Great Harbor, MA. The event will take place every Wednesday starting **July 1st through October 7th, 2020, from 4:30 p.m. to 7:30 p.m. each day.** Expect approximately 15 sailing vessels, 18ft in length. Mariners are advised to transit to the area with caution. Mariners may contact the person in charge by marine radio on VHF channel 13.

Chart 13235

MA – VINEYARD SOUND – THURSDAY EVENING KNOCKABOUT RACE SERIES – RACE/REGATTA

Mariners are advised that the **Thursday Evening Knockabout Race Series** is scheduled to be held in the vicinity of Woods Hole Yacht Club in Great Harbor, MA. The event will take place every Thursday starting **July 2nd through October 8th, 2020, from 4:30 p.m. to 7:30 p.m. each day.** Expect approximately 15 sailing vessels, 18ft in length. Mariners are advised to transit to the area with caution. Mariners may contact the person in charge by marine radio on VHF channel 13.

SECTOR LONG ISLAND SOUND

NY – GREAT SOUTH BAY – BABYLON – Boat Race

Mariners are advised that South Bay Cruising Club BSIR is scheduled to be held on Great South Bay in the vicinity of Babylon, NY. The event will be held every Tuesday from September 29, 2020 through October 20, 2020 from 6:00 p.m. to 9:00 p.m. Approximately (20) sailboats will be participating. Chart number: 12352. For event information contact: Duncan Burns, dbu632@gmail.com.

NY – GREAT SOUTH BAY – BABYLON – Boat Race

Mariners are advised that South Bay Cruising Club BSIR is scheduled to be held on Great South Bay in the vicinity of Babylon, NY. The event will be held every Tuesday from September 29, 2020 through October 20, 2020 from 6:00 p.m. to 9:00 p.m. Approximately (20) sailboats will be participating. Chart number: 12352. For event information contact: Duncan Burns, dbu632@gmail.com.

CT – LONG ISLAND SOUND – DARIEN – Boat Race

Mariners are advised that Noroton YC Women's Sailing is scheduled to be held in the Long Island Sound in the vicinity of Darien, CT. The event will be held Wednesday September 30, 2020 from 6:00 p.m. to 8:30 p.m. Approximately (18) sailboats will be participating. Chart number: 12364. For event information contact: Connor Brady, sailingdirector@norotonyc.com.

SECTOR NEW YORK

UPPER NEW YORK BAY

(North of the Verrazano Bridge including Hudson River north to Whitehall Narrows, East River West of the Throgs Neck Bridge)

NY/NJ –EAST RIVER - HARLEM RIVER - HUDSON RIVER – Swim

Mariners are advised that a swim event is scheduled for **October 1st, 2020 between the hours of 7:30 a.m. and 4:30 p.m.** Three swimmers will be assisted by various power driven vessels and kayaks. Swimmers will begin in the vicinity of Pier A Battery Park, Manhattan and circumnavigate counterclockwise Manhattan Island via the East, Harlem and Hudson Rivers. Various vessels will be assisting the event. Mariners are requested to transit at low wake speeds and use caution when in the vicinity of the participants. Interested mariners may contact the Principal Swim Safety Officer on marine band radio channels 6 VHF-FM. Chart 12327, 12334, 12335, 12338, 12339, 12341, 12342 LNM 40/20 (CGD1)

NY – EAST RIVER - UPPER BAY - LOWER BAY – CONEY ISLAND – Swim

Mariners are advised that a swim event is scheduled for Sunday, **October 4th, 2020 from 08:30 a.m. to 1:00 p.m.** 4 swimmers, assisted by various power driven vessels will transit from the East River through the Upper Bay to Coney Island. The swim begins at the Brooklyn Bridge, Brooklyn, NY and proceeds south through Buttermilk Channel toward the Verrazano-Narrows Bridge then continues to Coney Island Pier, NY where swimmers will egress. Interested mariners may contact the Swim Organizer on marine band radio channel 6 VHF-FM. Chart 12327 LNM 40/20 (CGD1)

NY – HUDSON RIVER – NEWBURGH - Sailing Regatta

Mariners are advised that a regatta is scheduled to be held on the Hudson River in the vicinity of Newburgh NY, beginning **June 7, 2020 through October 11, 2020.** Races will occur on Sundays between 1:30 p.m. and 4:30 p.m. approximately 30 sailboats (12-36 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer on marine band radio channel 72 VHF-FM. Chart 12343 LNM 23/20 (CGD01)

NY/NJ – NEW YORK HARBOR – UPPER BAY - Sailing Regatta

Mariners are advised that a regatta is scheduled to be held in the Upper Bay of New York Harbor north of Ellis Island beginning **June 02, 2020 through October 13, 2020.** Races will occur on Tuesdays from 6:30 p.m. to 8:00 p.m. approximately 4 sailboats (24 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer on marine band radio channel 68 VHF-FM. Chart 12327, 12335 LNM 22/20 (CGD01)

NY/NJ – NEW YORK HARBOR – UPPER BAY - Sailing Regatta

Mariners are advised that a regatta is scheduled to be held in the Upper Bay of New York Harbor north of Ellis Island beginning **June 3, 2020 through October 21, 2020.** Races will occur on Wednesdays from 6:30 p.m. to 8:00 p.m. approximately 4 sailboats (24 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer on marine band radio channel 68 VHF-FM. Chart 12327, 12335 LNM 23/20 (CGD01)

NY/NJ – NEW YORK HARBOR – UPPER BAY - Sailing Regatta

Mariners are advised that a regatta is scheduled to be held in the Upper Bay of New York Harbor north of Ellis Island beginning **June 4, 2020 through October 22, 2020.** Races will occur on Thursdays from 6:30 p.m. to 8:00 p.m. approximately 4 sailboats (24 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer on marine band radio channel 68 VHF-FM. Chart 12327, 12335 LNM 23/20 (CGD01)

NY/NJ – NEW YORK HARBOR – UPPER BAY - Sailing Regatta

Mariners are advised that a sailing regatta is scheduled to be held on the Upper NY Bay starting and finishing north of Ellis Island, beginning **June 6, 2020 and running until October 24, 2020.** Races will occur between 2:00 p.m. and 4:00 p.m. every Saturday. Approximately 4 sailboats (12-65 feet in length) will participate on short-distance courses. Interested mariners may contact the Principal Race Officer on marine band radio channel 68 VHF-FM. Chart 12327, 12335 LNM 23/20 (CGD01)

MAINE - BOOTHBAY HARBOR TO BATH - BACK RIVER - Bridge Construction - Work on the new Barter's Island swing bridge is ongoing. The temporary fixed bridge will reduce the vertical clearance of the channel to 6.8 feet at mean high water (MHW) **until October 30, 2020** or later. A 36-foot horizontal channel will be maintained, however temporary channel restrictions may be in effect from time to time. The new bridge is currently expected to be operating on **October 22, 2020**. Questions may be directed to Glenn Philbrook, Resident Engineer, at 207-592-7819 or Glenn.philbrook@maine.gov Mariners should plan accordingly and use caution while transiting the area. Chart 13296 LNM 39/20 (CGD1)

MAINE - MOOSABEC REACH - Bridge Construction - Work is ongoing on the new Beals Island Bridge across Moosabec Reach between Jonesport and Beals Island, ME (mile 2.4). The width of the navigation channel through the center span is 75 feet with a vertical clearance of 37 feet (MHW). Temporary channel restrictions may be in effect during construction. Blasting/demolition of the old bridge will be conducted early to mid October. Broadcast Notice to Mariners will be broadcasted 1-2 days prior to each of the six blasting events which will not be consecutive days, but will take place over the course of several weeks. During each blasting event a 500 yard radius safety zone around the bridge will be enforced, Federal Register docket # USCG-2020-0447. Questions may be directed to Phil Roberts, Maine DOT Resident Engineer at 207-557-5169 or Phil.Roberts@maine.gov. Mariners should use caution while transiting the area. Chart No. 13326, LNM 39/20 (CGD1)

MAINE AND NEW HAMPSHIRE – PORTSMOUTH TO DOVER AND EXETER – PISCATAQUA RIVER – Bridge Repairs – Bridge repairs to the I-95 Bridge between Portsmouth, New Hampshire and Kittery, Maine will continue through **May 2022**. Working hours are scheduled daily Monday through Friday 6 a.m. to 2:30 p.m. and 9 p.m. to 3:30 a.m. Suspended platforms will be installed under the bridge but will not reduce vertical clearances or impede vessel navigation. Hydraulic suspension trucks and welding will be utilized during the duration of the project, which will temporarily reduce the vertical clearance. Welding and reduction in clearance will cease upon approach of a vessel. Questions concerning the bridge repair project should be directed to Mr. Joel Dietrich, project manager with SPS at 978-423-2438 or Mr. Craig Hurd, ME DOT Resident Engineer at 207-446-1746. The project superintendent will monitor channel 13 and 16 and a safety boat will be on scene during work over the waterway. Mariners should exercise caution while transiting the area. Chart 13285 LNM 39/20 (CGD1)

VERMONT – LAKE CHAMPLAIN – REVIERE RICHELIEU TO SOUTH HERO ISLAND – Bridge Construction – Construction of the new US Route 2 drawbridge (mile 91.8) from North Hero to Grand Island is ongoing. The temporary bridge will open at the top of the hour from 8 a.m. to 8 p.m. daily. The horizontal clearance of the channel is 40 feet. The vertical clearance in the closed position is 17.5 feet at mean water level. Vessels that can pass under the bridge between openings are allowed to do so. Mariners should pass with extreme caution and No Wake. Questions may be directed to Mr. Jeff Ramsey of the Vermont Agency of Transportation at 802-917-4467, or Jacqueline Dagesse, Public Outreach Manager, at 802-324-5522. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area. Chart 14781 LNM 39/20 (CGD1)

MASSACHUSETTS - BOSTON INNER HARBOR - CHARLES RIVER - Bridge Repairs – Rehabilitation of the Lechmere Viaduct (mile 1.0) which carries the MBTA Green Line over the Charles River from Science Park Station in Boston to Lechmere in Cambridge will be ongoing until **August 31, 2021**. The navigation span will remain open but subject to reductions in vertical and horizontal clearance. Temporary work platforms will be installed on the bascule span and arch spans to allow cleaning, painting, and structural repairs. The work platform will reduce the vertical clearance of the bascule span by 5 feet to 28 feet Average Water Level. Work barges and work boats will be at various locations and at times will reduce the horizontal clearance. Temporary closures of the navigable channel will occur. Working hours are from 0700 a.m. to 10 p.m. daily. Mariners may contact the on-scene work boat on VHF channels 13/16 for safe passage. Questions may be directed to the Contractor, SPS New England, Inc., 24 hour POC Patrick Blais at 978-994-2741. Chart 13272 LNM 39/20 (CGD1)

MASSACHUSETTS – BOSTON INNER HARBOR - CHARLES RIVER – Bridge Construction - Demolition and construction are ongoing at the North Washington Street Bridge and will continue to **December, 2020**. Work hours are 6 a.m. to 9 p.m. Vessels may transit through the work site in the open channel. Multiple barges, cranes and other equipment are on-scene. Work boats and push boats can be contacted on VHF Channel 13 to arrange passage if needed. If access to the commercial lock is required and work barges are in the channel, 24 hour notice to J.F. White is required to clear access to the commercial lock. The on-scene foreman for the J.F. White Contracting Company is Patrick Wilson at 617-680-7537. Mariners are advised to proceed at slow speed and exercise caution.
Chart 13272 LNM 39/20 (CGD1)

MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER – Bridge Repairs – Bridge repairs continue at the Tobin Bridge, mile 0.1, across the Mystic River between Boston and Chelsea through **October 2020**. Working hours are 6 a.m. to 4 p.m., Monday through Saturday. The main channel horizontal clearance will be temporarily reduced to 328 feet by the two temporary scaffolding platforms on the north and south side; this will reduce the vertical clearance by 4 feet for the remaining horizontal clearance of the channel. Signage and red lights will mark the work platforms and a snooper truck will be utilized to install the platforms. Questions concerning this bridgework may be directed to the contractor, J.F. White Contracting Company, 24 hour POC Mr. Eric Ruth at 617-799-2018. Mariners should use caution while transiting the area.
Chart 13272 LNM 39/20 (CGD1)

MASSACHUSETTS - BOSTON HARBOR - NEPONSET RIVER - Bridge Painting - Work at the Granite Ave Bridge, mile 2.5, across the Neponset River between Boston and Milton will be conducted from September 13 through **December 9, 2020**. From September 13, 2020, to December 9, 2020, suspended scaffolding will be installed at the spans on either side of the main channel. The scaffolding will reduce the vertical clearance under these spans to 1 foot at Mean High Water (MHW). The range of tide is 6 to 9 feet.

From October 15 to October 29, the bascule span will not open for vessels from 8:00 p.m. to 6 a.m., Sunday through Friday. Vessels able to pass under the bascule span which has a clearance of 6 feet at MHW will be allowed to do so with the following exception: from October 23, 2020 at 7 p.m. to Friday October 30, 2020 at 11:59 p.m. the entire waterway (all spans) will be closed to vessels to conduct steel repairs to the bascule span.

From November 1, 2020, through December 9, 2020, the bascule span will not open for vessels to allow work from suspended scaffolding. The scaffolding will result in clearance of 1 foot at MHW. Vessels that can pass under the bridge with the tidal range will be allowed to do so. The bridge will not be able to open for emergency vessels as the scaffolding would take multiple days to dismantle. The MassDOT point of contact for the work is Kathryn Barr, 857-368-6211.
Chart 13270 LNM 39/20 (CGD1)

MASSACHUSETTS – ANNISQUAM RIVER – BLYNMAN CANAL – Bridge Construction– The draw span of the Massachusetts Bay Transportation Authority (MBTA) bridge across the Annisquam River, mile 0.7, has been removed to allow for construction of a replacement bridge. The channel through the bridge is open with unlimited vertical clearance. Work vessels will be at the bridge periodically. Vessel operators can reach the Harbormaster on VHF CH 16/14. Questions may be directed to the MBTA Resident Engineer, Matt Moorehouse at 617-839-8075. Mariners are advised to proceed at safe speed and exercise caution when transiting the area.
Chart 13281 LNM 39/20 (CGD1)

MASSACHUSETTS – ANNISQUAM RIVER – BLYNMAN CANAL – Bridge Construction– Full Channel Closure -The draw span of the Massachusetts Bay Transportation Authority (MBTA) Bridge across the Annisquam River, mile 0.7, has been removed to allow for construction of a replacement bridge. The channel through the bridge will be closed to all vessel traffic including emergency response vessels from November 2, 2020, to December 31, 2020, to accommodate a 60 foot by 80 foot work barge and drilling rig installing two drilled seven foot diameter piers to support the new railroad bridge. Vessel operators can reach the Harbormaster on VHF CH 16/14. Questions may be directed to the MBTA Resident Engineer, Matt Moorehouse at 617-839-8075. Mariners are advised plan accordingly.
Chart 13281 LNM 39/20 (CGD1)

MASSACHUSETTS - MERRIMACK RIVER - Bridge Rehabilitation – Bridge Repairs - Work on the Massachusetts Bay Transportation Authority (MBTA) Bridge in Haverhill, MA at mile 19.9 of the Merrimack River will continue through **December 2020**. Construction barges will be operating and stored in the navigation channels. Hours of work are Monday through Friday between 6:30 a.m. and 6:00 p.m. The navigation channel will be reduced in width, but available at all times for navigation. Questions should be directed to the contractor, Cianbro Corporation, Mr. Brayden Sheive at 207-553-6676. Mariners should exercise caution while transiting the area. Chart 13282 LNM 39/20 (CGD1)

RHODE ISLAND – MOUNT HOPE BAY – Bridge Repairs – Bridge repairs at the Mount Hope Bridge, mile 0.0, across Mount Hope Bay between Aquidneck Island and Bristol will commence on March 30, 2020 and continue through **December 15, 2020**. Work will occur beneath all spans of the bridge including the center navigation span. Work platforms will be in place beneath the bridge deck; however, they will not extend below existing low steel. There will be no support vessels in the water other than a life-saving skiff. Work hours will typically be from 7 a.m. to 5 p.m. Monday through Friday. Questions should be directed to the Piasecki Steel Construction Corp., Mr. William Bruno at 518-378-1349 (m). Mariners should use caution when transiting the area.

Charts 13226 LNM 39/20 (CGD1)

RHODE ISLAND – SEEKONK RIVER - Bridge Repairs - Repairs to the fender system of the Henderson Bridge over the Seekonk River will be conducted from November 1, 2019 to **October 16, 2020**. Work barges will be operating in various locations. Work hours are from 6 a.m. to 6 p.m. Work crews will monitor channels 13/16. Mariners can contact the Aetna Bridge Company at 401-663-6052 for more information. Mariners are advised to use caution when transiting the area.

Chart 13224 LNM 39/20 (CGD1)

RHODE ISLAND – SEEKONK RIVER - Bridge Repairs - Repairs to the fender system of the Crooks Point Railroad Bridge, mile 1.2, over the Seekonk River will be conducted from November 1, 2019 to **October 16, 2020**. Work barges will be operating in various locations. Work hours are from 6 a.m. to 6 p.m. Work crews will monitor channels 13/16. Mariners can contact the Aetna Bridge Company at 401-663-6052 for more information. Mariners are advised to use caution when transiting the area.

Chart 13224 LNM 39/20 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY - Newport Bridge Repairs – Repairs to the East and West highway approaches to the Newport Claiborne Pell Bridge, mile 4.0, Narragansett Bay will be conducted through **December 15, 2020**. Work barges and support vessels will be operating in various locations outside of the navigation Channel and will monitor channels 13 and 16. Work hours are from 6 a.m. to 6 p.m.; however, barges will remain on scene continuously. Mariners can contact the Aetna Bridge Company at 401-663-6257 or Steve Aguiar, Superintendent, at 401-663-6125 for more information. Mariners are advised to use caution when transiting the area.

Chart 13223 LNM 39/20 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY – Jamestown Bridge Repairs - The Rhode Island Bridge & Turnpike Authority and Aetna Bridge Company are conducting repair work on the Jamestown Bridge over the West Passage of Narragansett Bay. Work will take place from November 15, 2019 and continue until **December 1, 2020**. A crane barge, material barge, diving operations and support vessels will be in the vicinity of the bridge. Mariners are requested to operate with no wake & keep clear of diving operations. Work hours are 6:00 a.m. to 6:00 p.m. Project operations will monitor VHF Channels 13 and 16. Questions may be directed to the Project Manager, Steve Aguiar at (401) 663-6125. Mariners are advised to use caution when transiting the area.

Chart 13221 LNM 39/20 (CGD1)

CONNECTICUT – CONNECTICUT RIVER – Bridge Repairs – A bridge repair project is underway on the Arrigoni Highway Bridge (Route 66) across the Connecticut River in Middletown **fall 2022**. A working platform/debris shield will reduce the vertical clearance by 10.5 feet throughout the duration of the project. No in water work is planned at this time. Mariners are advised to exercise caution when transiting the area. The CONNDOT point of contact is Barak Brako Frempong, 860-594-3167.

Chart 12378 LNM 39/20 (CGD1)

CONNECTICUT – NEW HAVEN HARBOR – QUINNIPIAC RIVER – Bridge Construction – Starting March 9, 2020 until **December 31, 2021**, the City of New Haven will be performing construction activities for the rehabilitation of the Grand Ave Bridge over Quinnipiac River at mile 1.3. The Swing Bridge will remain in the open position the entire duration of the project. Barges and floating dock will occupy one navigational channel leaving the remaining navigational channel open for mariners to transit. All docks and barges will be light with constant red lights for visibility. Mariners with any questions or concerns may contact Project Manager Daniel Butler (860) 250-7128.

Mariners are advised to exercise caution when transiting the area.

Charts 12371 LNM 39/20 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – NORWALK RIVER – Bridge Repairs – Starting December 7, 2018 ConnDOT will be performing repairs on the Yankee Doodle Bridge over Norwalk River at mile 0.7. A working platform will be installed beneath the bridge deck, which will reduce the navigational vertical clearance from 60 feet to 56 feet at MHW. There will be a 28'x10' aluminum workboat tied to the fender system during construction hours, Monday through Friday 6:30 a.m. to 2:30 p.m. This work is expected to be completed by **May 1, 2021**. Mariners requiring full horizontal clearance can call Kevin Dorynioski at 860-993-6491, Jerry Mals at 860-982-4294, John Jakobeit at 860-229-4853. Mariners are advised to exercise caution when transiting the area.

Charts 12364 LNM 39/20 (CGD1)

CONNECTICUT – NIAN TIC BAY – NIAN TIC RIVER - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the S156 Bridge over the Niantic River between East Lyme and Waterford at mile 0.1. Under this temporary deviation, the S156 Bridge may remain in the closed to navigation position from **November 1, 2020 to March 30, 2021**. The deviation supports needed repairs to the bridge. The vertical clearance of the bridge will be reduced from 32 feet to 21.1 feet at mean high water and horizontal clearance will be reduced to 75 feet when the work barge is in the channel. The barge will monitor channels 13/16 during working hours. Vessels able to pass under the bridge in the closed position may continue to do so. The bridge will not be able to open for emergencies. Questions may be directed to Ms. Rosmery Rodriguez, Connecticut Department of Transportation at 860-594-2127, Brent Church Project Engineer at 860-213-2625, or the Harbormaster, Ron Johnson at 860-649-0228. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.
Chart 12372, LNM 39/20 (CGD1)

CONNECTICUT – GREENWICH POINT TO NEW ROCHELLE- HOUSATONIC RIVER – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Devon Bridge across the Housatonic River at mile 3.9. The deviation is needed to perform track work on the Devon Bridge. Under this temporary deviation, the Devon Bridge may stay in the closed position September 8, 2020 to October 20, 2020 and October 26, 2020 to **December 7, 2020**, Monday through Friday. The bridge must open to emergency vessels given advance notice. Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to Mr. Rodney Armstrong (203) 627-8818. Mariners are advised to exercise caution when transiting the area. Chart 12367 LNM 39/20 (CGD1)

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – COS COB HARBOR - Inspection – From August 29, 2020 to **September 30, 2020** between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Metro-North New Haven Railroad Bridge over the Cos Cob Harbor at mile 0.0. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12367 LNM 39/20

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND – GREENWICH POINT TO NEW ROCHELLE – SAUGATUCK RIVER - Inspection – From August 29, 2020 to **September 30, 2020** between 5:00 a.m. and 3:00 p.m., a safety boat performing general bridge inspections will be operating at the Metro-North Railroad Bridge across Saugatuck River at mile 1.1, in Westport, CT. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Kirshna Mehta (215) 872-2347. Mariners are advised to exercise caution and reduce wake when transiting the area.

NEW YORK – LONG ISLAND SOUND – HEMPSTEAD HARBOR TO TALLMAN ISLAND – WESTCHESTER CREEK – Bridge Replacement – There are two temporary lift bridges located North and South of the existing Unionport Bridge across Westchester Creek at mile 1.7.

Beginning June 26, 2020 through **October 31, 2020** between 7:00 a.m. to 3:00 p.m., there will be a 30'x60' barge in the waterway performing demolition on the pier tops in the waterway. A minimum of 20' will be clear in the channel at all times for mariners' passage. During work hours the barge can be moved out of the channel with 1-hour notice and weekends & nights with 6-hour notice.

Beginning August 5, 2019, the temporary bridges will be operational and will provide minimum vertical clearance of 17'-2" in closed position and 35' in open position. These temporary bridges will temporarily alter the existing vertical clearance from 53 feet to 35 feet from the above MHW EL+1.78 until **September 2021**.

Mariners can contact Abdi Hedayati at (347) 885-8613 regarding the temporary bridges and John Albano at (732) 272-7837 if requiring full horizontal clearance. Mariners are advised to exercise caution and reduce wake when transiting the area and find alternate routes if the vessel exceeds vertical clearance.

Chart 12335 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Maintenance – On **October 8, 2020** between 9:30 a.m. and 2 p.m., a bridge traveler will be operated under the Williamsburg Bridge over East River at mile 2.3 to perform bridge maintenance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 917-295-1856 or 646-879-4107. The traveler platform will be moved out of the navigable channel after work hours or when not in use. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Inspection – Inspection to Manhattan Bridge across East River at mile 1.1 is in progress. During daylight hours, bridge traveler or rigging platform will be operated under the bridge in order to perform bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Steve Bertos at 631-891-9721. The traveler platform will be moved out of the navigable channel after work hours or when not in use. This project is to be completed by **December 31, 2020**. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Rehabilitation – Three localized underdeck platforms are installed under the Manhattan Bridge across East River at mile 1.1 and will not reduce vertical clearance in the navigation channel more than three feet. Hot work will be performed during this construction period. A 50ft by 110ft barge will be operating IVO Manhattan Tower from January 22, 2020 to April 24, 2020 during daylight hours. Mariners can contact Chad Umphred at 908-307-3890 or Daniel Chasse at 646-522-1248 for barge equipment. This project is to be completed by **April 16, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Inspection – Inspection to Brooklyn Bridge across East River at mile 0.8 is in progress. From June 15, 2020 to **November 12, 2020** during daylight hours, bridge traveler will be operated under the bridge in order to perform bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call Robert Drew at 917-573-8229. The traveler platform will be moved out of the navigable channel after work hours or when not in use. This project is to be completed by **December 31, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Maintenance – On **October 6, 2020** between 9:30 a.m. and 2 p.m., a bridge traveler will be operated under the Brooklyn Bridge over East River at mile 0.8 to perform bridge maintenance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 917-295-1856 or 646-879-4107. The traveler platform will be moved out of the navigable channel after work hours or when not in use. Mariners are advised to exercise caution when transiting the area.
Chart 12335 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – EAST RIVER – Bridge Rehabilitation – Construction to the Brooklyn Bridge over East River at mile 0.8 is in progress. Approximate four barges will be operating at the Manhattan Tower from May 28, 2020 to May 28, 2021. No construction equipment will be operating in the navigation channel during rehabilitation. Mariners can contact Bill Ferdinandsen Resident Engineer at 347-242-6203 for construction status. This project is to be completed by **February 28, 2023**. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12335 LNM 39/20 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET- PAERDEGAT BASIN – Bridge Inspections – On **October 16, 2020** between 8 a.m. and 2 p.m., the contractor will be performing inspections at the Shore Parkway Bridge over Paerdegat at mile 0. Contractors will also be utilizing a 30'x40' barge with manlift. Mariners requiring full vertical and/or horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Sayan Chandra (917) 444-0801. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12350 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – GOWANUS CANAL – Notice of Temporary Deviation – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Hamilton Ave Bridge across Gowanus Canal at mile 1.2. From November 15, 2020 to **May 8, 2021**, Monday through Friday, between 7 a.m. and 6 p.m., the Hamilton Ave Bridge will open on signal provided at least a two-hour advance notice by calling bridge operator/section office. All other times, the bridge will open on signal. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly.

Chart 12352 LNM 39/20 (CGD1)

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET – GOWANUS CANAL – Bridge Painting – From September 3, 2020 to **October 16, 2020** New York City Department of Transportation will be performing steel superstructure painting at the Union Street Bridge across Gowanus Canal at mile 2.1. A snooper truck will be operating under the span during painting. Mariners requiring full vertical clearance can contact John Jones at 646-235-1879 or Daniel Wynne at 917-364-6164 or via marine radio VHF-FM CH 13/16. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12352 LNM 39/20 (CGD1)

NEW YORK – HARLEM RIVER - Bridge Rehabilitation – Rehabilitation of the Henry Hudson Bridge over Harlem River at mile 7.2 is in progress. A tug and 20ft by 40ft barge will be operating near Manhattan abutment on May 21, 2020 between 7 a.m. and 7 p.m. to remove hanging temporary platform on the Manhattan abutment. Hot work may be operating within the platform area. All work are locating outside the navigation channel. Mariners can contact Steve Nastro at 646-569-4243 or via marine radio VHF-FM CH 13/16 for barge status. This project is delayed through **September 30, 2020** due to COVID-19 restrictions. Mariners are advised to reduce wake and exercise caution when transiting the area.

Chart 12342 LNM 39/20 (CGD1)

NEW YORK – HARLEM RIVER – Misc. Structure Rehabilitation and Repairs of Overcoat Painting – Rehabilitation of the Henry Hudson Bridge over Harlem River at mile 7.2 is in progress. A tug and 300ft by 90ft barge will be operating in the navigation channel (during installing and removing of temporary work platform). Temporary work platforms will be installed under the entire arc span and will reduce the vertical clearance by approximately 67in below the low steel. Hot work may be operating within the platform area. Mariners requiring full horizontal clearance can contact Rafael De Soto via marine radio VHF-FM CH 13/16 or call 347-843-8440. This project is to be completed by **March 23, 2023**. Mariners are advised to reduce wake and exercise caution when transiting the area.

Chart 12342 LNM 39/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Closure – Broadway Bridge, mile 6.8, over across Harlem River was not able to open for marine traffic due to damaged electrical control system. New York City DOT is working diligently to repair the bridge. The bridge will be unable to open to marine traffic until repairs are completed. The vertical clearance in the closed position is approx. 24 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.

Chart 12342 LNM 39/20 (CGD1)

NEW YORK – HARLEM RIVER- Bridge Rehabilitation – Construction to the Broadway Bridge across Harlem River at mile 6.8 will commence on or about October 1, 2020. A temporary shielding will be installed under the Broadway Bridge across Harlem River at mile 6.8. Temporary shielding will reduce vertical clearance in the navigation channel by approximately 3ft 9in. A one half of navigation channel will be free of obstruction at all time. Mariners can contact Joe Pollack via marine radio VHF-FM CH 13/16 or 917-656-6820 for temporary shielding information. This project is to be completed by **April 30, 2023**. Mariners are advised to reduce wake and exercise caution when transiting the area. Chart 12342 LNM 39/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Painting – Painting to the 207th Street/University Heights Bridge across Harlem River at mile 6.0 is in progress. Rigging cables and installation of work platform will begin from Manhattan approach span (west abutment) and work toward to the Bronx approach span (east abutment). The work platform under the east and west approach spans will reduce the vertical clearance by approximately 4 ft. While working in the navigation channel, one draw of a swing bridge vertical clearane will be reduced by the work platform approximately 3 feet; the other draw will be free and clear of any equipment for the passage of vessels. Mariners has questions can contact the contractor via marine radio VHF-FM CH 13/16 or call 917-440-9478. This project will be completed by **May 1, 2022**. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12342 LNM 39/20 (CGD1)

NEW YORK - HARLEM RIVER – Electrical/Mechanical Rehabilitation – Construction to the Madison Ave Bridge across Harlem River at mile 2.3 is in progress. A protective shield will be installed around the center pier. This shield will not affect operation of the bridge. Any questions to this project can contact Kambiz Riazi at 646-246-6666 or Steve Koch at 908-723-4355. This project is to be completed by **April 13, 2022**. Mariners are advised to exercise caution when transiting the area.

Chart 12342 LNM 39/20 (CGD1)

NEW YORK - HARLEM RIVER - Fender Replacement – Construction to the Metro North (Park Ave) Bridge across Harlem River at mile 2.1 will commence on September 1, 2020. There will be crane barges operating in the area. Work will begin west fender through April 30, 2021 and shift to east fender on May 1, 2021 through **April 30, 2022**. 120ft of horizontal clearance in the navigation channel will be maintained at all times. Any questions regarding barge placement can contact Tony Rivera at 917-715-9429. This project is to be completed by **October 1, 2022**. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12342 LNM 39/20 (CGD1)

NEW YORK – HARLEM RIVER – Bridge Inspection – From September 7, 2020 to **October 16, 2020** between 7 a.m. and 3 p.m., a 40ft by 40ft barge with 80ft manlift and tug “Jerry” will be operating IVO the 125th Street (RFK) Bridge across Harlem River at mile 1.3 for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call 848-391-2127. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12342 LNM 39/20 (CGD1)

NEW YORK – HARLEM RIVER – Field Measurement – From October 19, 2020 to **October 30, 2020** between 7 a.m. and 3 p.m., a 40ft by 40ft barge with 80ft manlift and tug “Jerry” will be operating IVO the 125th Street (RFK) Bridge across Harlem River at mile 1.3 for bridge inspection. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call 347-728-7960. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12342 LNM 39/20 (CGD1)

NEW YORK – NEW YORK HARBOR – Structural Steel Repairs and Painting – Repairs to the Verrazano Narrows Bridge over New York Harbor are in progress. Temporary safe-span platforms will be installed under the entire length of the bridge and will reduce the vertical clearance by approximately 2 ft. below the traveler rail with maximum two feet sag. The temporary platform for 250ft on both sides of the centerline of the bridge for a total of 500ft must maintain less than one foot of vertical clearance reduction below the traveler rail at all times unless approved by Coast Guard Vessel Traffic Service New York (CG VTS-NY). Four corners of temporary platforms marking the 500ft center of the span where less than one foot of vertical clearance reduction is maintained will be lighted with constant burning red lights. Any questions regarding the platforms please contact Chris Daskalakis at 718-639-5880 or CG VTS-NY at 718-354-4088. This project is to be completed by **November 30, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 39/20 (CGD1)

NEW YORK – NEW YORK HARBOR – Diving Inspection – From September 21, 2020 to **October 9, 2020** between 6 a.m. and 6 p.m. a 25 ft fiberglass Chaser Boat Mad Hatter will be performing diving inspection at the pier towers of the Verrazano Narrows Bridge, mile 0.0 over New York Harbor. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM CH 13/16 or call 646-334-1853. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12327 LNM 39/20 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Structural Steel Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 will commence on March 1, 2020. Safe span platforms will be installed under the east and west approach spans and will reduce vertical clearance by 2 feet. POC for this project is William Ritter and can be reached at 973-390-7221. This project is to be completed by **March 30, 2023**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 39/20 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Fender and Pile Jacketing Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 will commence on June 29, 2020. There will be barges operating in the navigation channel. Work will begin west fender then shift to east fender through December 31, 2020. Approximately 520ft of horizontal clearance in the navigation channel will be maintained at all time. Cranes barges will be operating at the east side piers E6, E7 and E8 from August 1, 2020 to **December 31, 2021**. POC for this project is Todd Davis and can be reached at 609-405-0417. This project is to be completed by **December 31, 2021**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 39/20 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Bridge Inspections – Inspections to the Goethals Bridge across the Arthur Kill, mile 11.5 is in progress. Hours of operations are from 7 a.m. to 4 p.m. At times, an underdeck traveler will be operating at various locations over the navigation channel. Mariners requiring full vertical clearance can contact Carlo Thompson via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. This inspection is to be completed by **October 31, 2020**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 39/20 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Biennial Inspection – Inspection to the Outerbridge Crossing Bridge across the Arthur Kill, mile 2.0 will commence on June 8, 2020. Hours of operations are from 6 a.m. to 3 p.m. At times, a 32ft long by 3ft wide movable scaffold or underbridge inspection unit will be operating at various locations over the navigation channel. When a movable scaffold in use, the unit will reduce the vertical clearance by approximately 5ft. Mariners requiring full vertical clearance can contact Joel Bautista via marine radio VHF-FM Ch. 13/16 or call 201-696-6742. This inspection is to be completed by **November 13, 2020**. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Routes 1 & 9 Bridge, across Hackensack River at mile 1.8 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 100 feet of unobstructed Channel at all times. Mariners requiring more than 100 feet of horizontal clearance can contact Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **December 31, 2020**. Mariners are advised to exercise caution when transiting the area.
Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Emergency Closure – PATH Bridge, mile 3.0, over across Hackensack River was not able to open for marine traffic due to failure of control system. Port Authority NY & NJ is working diligently to repair the bridge. The bridge will be unable to open to marine traffic until repairs are completed. The vertical clearance in the closed position is approx. 40 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.
Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - Notice of Temporary Deviation and and Barge Placement – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Hack Freight Bridge, across Hackensack River at mile 3.1. Under this temporary deviation the Hack-Freight Railroad Bridge will not open for marine traffic from 7 a.m. on October 25, 2020 to 7 a.m. on **November 1, 2020** to facilitate operating drum assembly. A 32ft by 110ft barge will be operating in the navigation channel during bridge closure period. At minimum of one half of unobstructed navigation channel will be available at all times. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.
Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction – Replacement of the new Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 is in progress.

The following channel restriction schedule will be utilized during the construction of the new bridge towers and lift span:

Vertical Height Restriction: September 28th- December 26th (70' VERTICAL CLEARANCE at mean high water)

12 Hour Notice Protocol: September 28th – December 26th (SEE BELOW FOR INSTRUCTIONS)

12-hour Advance Notice Protocol:

While CCA Civil is working in the navigable channel, other than during the daily/full channel closures, CCA Civil will implement the following 12 Hour Advance Notice Protocol.

1. Mariners will call one of the three (3) Provided Telephone Numbers advising of travel through the channel. (including possible return trips)
Christopher Saulys Site Superintendent 201-600-6070
Derek Guenther Assistant Site Superintendent 908-797-5032
Evan Raab Senior Project Engineer 201-359-0906
2. CCA Civil will prepare barges to be moved from the Channel prior to the vessel(s) arrival onsite.
3. Tug boats will move CCA Civil barges from the work hour location in the channel to the off-hour work location outside the channel.
4. Mariners will safely travel through the navigable channel.
5. Once safely past the channel and clear of the jobsite, CCA will remobilize barge(s) back into prior work positions.

Under this protocol, Mariners will provide a 12 Hour Advance Notice, stating when they will be traversing the Channel. Once CCA Civil receives notice from a Mariner, the barge(s) will be moved from the Navigable Waterway and allow the vessel(s) to pass. This 12 Hour Advance Notice will only be in effect for 3 months from the start of work in the waterway. Please email "raab_evan@ccacivil.us" if you

would like to receive email updates during this portion of the contract. This project will be completed by **January 31, 2021**. Mariners are advised to exercise extreme caution when transiting the area.

Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Temporary Trestle Installation –

Installation of temporary trestle at the existing WittPenn Bridge across the Hackensack River at mile 3.1 will commence on October 1, 2020. There will not be any obstruction in the navigation channel at any times. All barges will be operating outside the navigation channel. Mariners can contact the Resident Engineer via marine radio VHF-FM CH 13 or call 908-618-6313 for the operation status. This project is to be completed by **September 1, 2022**. Mariners are advised to use main navigation channel when transiting the area.

Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Route 3 Eastbound Bridge, across Hackensack River at mile 8.8 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 74 feet of unobstructed Channel at all times. Mariners requiring more than 74 feet of horizontal clearance can contact Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **December 31, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Route 3 Westbound Bridge, across Hackensack River at mile 8.9 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 75 feet of unobstructed Channel at all times. Mariners requiring more than 75 feet of horizontal clearance can contact Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **December 31, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fender Replacement – Construction to the Route 46 Bridge, across Hackensack River at mile 14 is in progress. Temporary false work and turbidity barrier will be installed at the existing fender location, which will reduce horizontal clearance by approximately 10 feet. Crane and material barges will be operating in the navigation Channel from Monday to Friday between 7 a.m. and 7 p.m. Contractor will maintain a minimum of 75 feet of unobstructed Channel at all times. Mariners requiring more than 75 feet of horizontal clearance can contact Jack Clark at 215-815-1251 or via marine radio VHF-FM CH. 13/16 with 24-hour advance notice. This project will be completed by **December 31, 2020**. Mariners are advised to exercise caution when transiting the area.

Chart 12337 LNM 39/20 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Structural Inspection –On **October 6, 2020** between 8 a.m. and 4 p.m. a 14ft boat will operating IVO the Court Street Bridge across Hackensack River, mile 16.2 Mariners requiring full horizontal clearance can contact Rima Zahalan via marine radio VHF-FM Ch. 13/16 or call 848-391-2127. Mariners are advised to exercise caution when transiting the area.
