LOCAL NOTICE TO MARINERS

District: 5

Week: 13/18

COASTAL WATERS FROM SHREWSBURY RIVER, NEW JERSEY TO LITTLE RIVER, SOUTH CAROLINA

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at <https://www.navcen.uscg.gov/?pageName=lnmDistrict®ion=5>.

If you have questions about the Fifth Coast Guard District Local Notice to Mariners (LNM), please contact:

COMMANDER
FIFTH COAST GUARD DISTRICT (dpw)
431 Crawford Street
Portsmouth, Virginia 23704

or for correspondence and article requests:

ward.b.posey@uscg.mil, (757) 398-6229 or matthew.e.kearney@uscg.mil, at (757) 398-6552 or CGD5Waterways@uscg.mil

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

AIDS TO NAVIGATION DISCREPANCY REPORTING

To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:

1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR MARYLAND NATIONAL CAPITAL REGION at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR HAMPTON ROADS at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

**** NEW OR UPDATED INFORMATION IN THE LOCAL NOTICE TO MARINERS ****

In an effort to bring attention to new, updated or very important information in the Local Notice to Mariners (LNM) this information will be preceded and followed by four asterisks.

LNM: 25/16

****PA – DE – NJ – DELAWARE RIVER AND BAY – MOVING SAFETY ZONE****

The Captain of the Port, Delaware Bay, is notifying mariners of two safety zones established on the Delaware Bay and River to facilitate safety during the transit and delivery of two post-Panamax cranes to Greenwich Terminal in Philadelphia, PA.

Safety zone one includes all navigable waters within 200 yards of the M/V ZHEN HUA 16 from the time the vessel departs Bigstone Anchorage until the completion of mooring operations at Greenwich Terminal in Philadelphia, PA. Except as noted below, vessels may not enter this safety zone unless authorized by the Captain of the Port or his designated representative via VHF-FM Channel 16. Requests to enter safety zone one will not be authorized for portions of the Delaware River north of the Chesapeake and Delaware Canal for vessels with a beam greater than 90

feet.

Vessels may enter safety zone one without obtaining approval from the Captain of the Port if all of the following criteria are met:

M/V ZHEN HUA 16 is anchored in a designated anchorage as defined in 33 CFR 110.157.

Except towing vessels designated as assist tugs, and operating in such capacity, no vessel may meet, overtake or otherwise pass another unmoored or unanchored vessel within the safety zone.

Vessel shall maintain the minimum safe speed to reduce wake and maintain steerage.

Safety zone two includes all navigable waters of the Delaware River bounded to the south by a line drawn from the southeast corner of Pier 124S at 39-53-41.751N, 075-08-19.141W, thence east-southeast to the New Jersey Shoreline at 39-53-34N, 075-07-49W, and bounded to the north by the southernmost edge of the Walt Whitman Bridge (see figure 1). Except as noted below, vessels may not enter this safety zone unless authorized by the Captain of the Port or his designated representative via VHF-FM Channel 16.

Vessels may enter safety zone two without obtaining approval from the Captain of the Port if all of the following criteria are met:

Regardless of travel direction, vessels shall remain east of the centerline of the main navigation channel.

Except towing vessels designated as assist tugs, and operating in such capacity, no vessel may meet, overtake or otherwise pass another unmoored or unanchored vessel within the safety zone.

Vessel shall maintain the minimum safe speed to reduce wake and maintain steerage.

If you have any questions regarding the content of this bulletin, please contact the Waterways Management staff at (215) 271-4814 or the Command Center at (215) 271-4807.

Charts: 12304 12311 12312

LNM: 12/18

****US - ATLANTIC SEACOAST - ENDANGERED NORTH ATLANTIC RIGHT WHALES WARNING****

Critically endangered right whales may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. East Coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. Approaching or remaining within 500 yards of right whales is prohibited and is a violation of U.S. law. A minimum distance of 500 yards must be maintained from a sighted whale unless hazardous to the vessel or its occupants. The National Oceanic and Atmospheric Administration (NOAA) recommends that operators assume that any whale sighted is a right whale unless confirmed otherwise. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. Please report all right whale sightings, collisions, or entanglements to 866-755-NOAA, or to the Coast Guard via channel 16. WHALESNORTH Mandatory Ship Reporting Area is active year-round. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr@noaa.gov. Informational charts and a compliance guide are available on NOAA Fisheries web site at <http://www.nmfs.noaa.gov/pr/shipstrike/>

LNM: 45/17

NC - HAZARDS OF NORTH CAROLINA COASTAL INLETS

This notice is to notify mariners about accessing hazardous inlets, to heighten public awareness about the hazards that exist in and around the inlets, and to provide the mariner with available information. Mariners are advised that shoaling conditions exist at following North Carolina coastal inlets:

Oregon Inlet Hatteras Inlet
Ocracoke Inlet Barden Inlet
Beaufort Inlet Bogue Inlet
New River Inlet Topsail Inlet
Masonboro Inlet Carolina Beach Inlet
Lockwoods Folly Inlet Shallotte Inlet

Shoaling conditions increase the potential for groundings. These inlets are subject to continual and sometimes rapid environmental changes. Mariners are highly encouraged to obtain the most recent U.S. Army Corps of Engineers Wilmington, North Carolina District hydrographic survey information, centerline waypoints and controlling depth at:

<http://www.saw.usace.army.mil/Missions/Navigation/HydrographicSurveys.aspx>

Mariners should use caution when navigating in these areas and passage through the inlets is not recommended without local knowledge of the area. The aids to navigation in these inlets may not be charted and may not be marking best water due to continually shifting shoals. Consult Local Notice to Mariners, 5th Coast Guard District for the latest positions and status of aids to navigation:

<https://www.navcen.uscg.gov/?pageName=InmDistrict®ion=5>

To report any aids to navigation discrepancies (missing, damaged, off station, extinguished lights), shoaling, hazards to navigation, or discrepancies on bridge lighting, please contact Sector North Carolina Command Center (910) 343-2200.

LNM: 17/16

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up

the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

LNM: 13/16

INTERFERENCE WITH AIDS TO NAVIGATION

U. S. Code, Title 14, Part I, Chapter 5, § 84

It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 81 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 83 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than \$1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

U. S. Code, Title 14, Part I, Chapter 5, § 84

LNM: 13/16

U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.

LNM: 20/14

WESTERN ATLANTIC AND U.S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA) –PROHIBITION ON DISTURBING, REMOVING ARTIFACTS OR DAMAGING SUNKEN CRAFT

All mariners are advised of the special protections provided to sunken military craft by the "Sunken Military Craft Act" (SMCA) (Public Law 108-375). Along the U.S. East Coast, and particularly off North Carolina, there are many sunken U.S. and foreign military craft. Sunken military craft may be the final resting places of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U.S. law, sunken foreign military craft, including those located in U.S. waters, remain the property of their respective country's government. Sovereign immune vessels, such as military crafts, are afforded protections under U.S. and international law. Included among these vessels are at least three known sunken German submarines (commonly called U-boats) located in waters off the North Carolina coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft except as authorized by law. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both purposeful or inadvertent activities including anchoring, fishing, diving, and other marine activities. Special dangers, such as unexploded ordnance, may also be associated with sunken military craft, and should be considered when operating in these areas. Violations of the SMCA may subject individuals to penalties of up to \$100,000 and to liability for damages. Mariners who witness theft of material from, disturbance of, or damage to a sunken military craft are asked to report it to the nearest U.S. Coast Guard unit.

LNM: 45/09

SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS

The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

LNM: 04/11

USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER

USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER 1.7

The United States Coast Guard Navigational Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information on GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar (NANU). These notices can also be obtained via-e-mail subscription through the USCG Navigation Center website (<https://www.navcen.uscg.gov/gps/status/default.htm>). In addition, the NIS investigates all reports of degradation or loss of GPS and DGPS

service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: Phone: 703-313-5900, Email: webmaster@navcen.uscg.mil or on the World Wide Web at <https://www.navcen.uscg.gov>.

BROADCAST NOTICES TO MARINERS

Navigation information having been of immediate concern to the Mariner and promulgated by the following Broadcast Notices to Mariners (BNMs) have been incorporated in this notice when still significant at the date of this publication.

CCGD5 (D5) - 133 THRU 141, 143, 146, 157, 158, 159, 161, 162, 163-18.

Sector Delaware Bay (DB) - 189, 188, 187, 186, 185, 184, 183, 182, 178, 169, 168, 167, 166, 165, 164-18.

Sector Maryland National Capital Region (MD) - 241/242/244/251/253/254/255/256/257/258/259/260/261/262-18.

Sector Hampton Roads (HR) - 254-18, 253-18, 251-18, 250-18, 249-18, 248-18, 247-18, 246-18, 244-18.

Sector North Carolina (NC) - 124, 125, 129, 137, 138, 139, 140, 141, 142, 143, 144, 145, 147, 148, 149, 150, 151, 152, 153, 154, 156, 157, 158, 160, 161, 162-18.

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

DISCREPANCIES (FEDERAL AIDS)

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

<u>Approved Project(s)</u>	<u>Project Date</u>	<u>Ref. LNM</u>
None		

Advance Notice(s)

****NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY – CHANGE TO AN AID TO NAVIGATION****

On or about the first week of April, the Coast Guard will permanently change New Jersey Intracoastal Waterway Daybeacon 381 (LLNR 36410) to New Jersey Intracoastal Waterway Buoy 381 (LLNR 36410). The buoy will be a steel hull and maintained year round.

Chart 12316 LNM: 12/18

****VA – CAPE HENRY TO THIMBLE SHOAL LIGHT – LYNNHAVEN INLET- CHANGE TO AIDS TO NAVIGATION****

On or about March 28, 2018 the Coast Guard will make the following changes in Lynnhaven Inlet. Change Lynnhaven Inlet Lighted Buoy 3 (LLNR 10136) to Lynnhaven Inlet Light 3 (LLNR 10136) with an optic height of approximately 15' and SG's on pile; the light characteristic will remain a flashing Green 4 second. Change Lynnhaven Inlet Lighted Buoy 4 (LLNR 10138) to Lynnhaven Inlet Light 4 (LLNR 10138) with an optic height of approximately 15' and TR's on pile; the light characteristic will remain a flashing Red 4 second.

Chart 12254

LNM: 13/18

******VA – CHESAPEAKE CHANNEL – TEMPORARY RELOCATION OF AIDS TO NAVIGATION FOR DREDGING******

On or about March 29, 2018 the Coast Guard will temporarily relocate the below listed aids to navigation in association with the dredging of the Chesapeake Channel, by Great Lakes Dredge and Dock Company. All aids will be located approximately 250 feet outside channel limits.

- Chesapeake Channel Lighted Buoy 5 (LL 7055) to 36-58-46.762N—76-00-15.998W
- Chesapeake Channel Lighted Buoy 6 (LL 7060) to 36-59-16.721N—76-00-14.087W
- Chesapeake Channel Lighted Buoy 7 (LL 7070) to 36-59-23.724N—76-00-50.539W
- Chesapeake Channel Lighted Buoy 9 (LL 7075) to 37-00-09.591N—76-01-51.669W
- Chesapeake Channel Lighted Buoy 10 (LL 7080) to 37-00-20.513N—76-01-39.066W
- Chesapeake Channel Lighted Buoy 11 (LL 7085) to 37-00-56.330N—76-02-53.828W
- Chesapeake Channel Lighted Buoy 12 (LL 7090) to 37-01-06.239N—76-02-39.976W

Chart 12221

LNM: 13/18

******VA – MOBJACK BAY AND YORK RIVER ENTRANCE – DAVIS CREEK – DISCONTINUANCE OF AID TO NAVIGATION******

On or about April 5, 2018 the Coast Guard will remove and discontinue Davis Creek Warning Daybeacon C (LLNR 14135).

Chart 12238

LNM: 13/18

******VA – UPPER POTOMAC RIVER – NEABSCO CREEK – CHANGES TO AIDS TO NAVIGATION******

Due to the continuing shoaling in Neabsco Creek; less than 4.0 feet, the Coast Guard cannot reposition the seasonal buoys; maintained from March 15 to December 1, to mark a definable navigable waterway. On 15 March 2018 the Coast Guard will discontinue these two buoys. Discontinue Neabsco Creek Buoy 3 (LLNR 18233) and Neabsco Creek Buoy 4 (LLNR 18234).

Chart 12285

LNM: 11/18

******VA – UPPER POTOMAC RIVER – NEABSCO CREEK – CHANGES TO THE FIXED AIDS TO NAVIGATION******

Due to the continuing shoaling in Neabsco Creek, on or about March 22 the Coast Guard will remove the lateral dayboards from Neabsco Creek Daybeacon 1 (LLNR 18231) and the lateral dayboards and lighting equipment from Neabsco Creek Light 2 (LLNR 18232) and install non-lateral dayboards worded "DANGER SHOAL" until they can be removed.

Change - Neabsco Creek Daybeacon 1 (LLNR 18231) to Neabsco Creek Warning Daybeacon A with NW dayboards worded "DANGER SHOAL".

Change - Neabsco Creek Light 2 (LLNR 18232) to Neabsco Creek Warning Daybeacon B with NW dayboards worded "DANGER SHOAL".

Chart 12285

LNM: 12/18

******VA – RAPPAHANNOCK RIVER ENTRANCE – GREAT WICOMICO RIVER – AID TO NAVIGATION CHANGE******

The Coast Guard will make the following changes to the aids to navigation marking the Great Wicomico River.

Great Wicomico River:

Relocate Great Wicomico River Lighted Buoy 1GW (LLNR 16180) to approximate position 37 47 25.630N, 76 14 02.850W.

Change Great Wicomico River Buoy 2 (LLNR 16195) to Lighted Buoy 2 with a flashing 2.5 second red light and relocate to approximate position 37 48 06.700N, 76 15 32.140W.

Relocate Great Wicomico River Buoy 3 (LLNR 16200) to approximate position 37 47 55.170N, 76 15 52.850W and will be replaced with a smaller buoy that will have a visual range on 1.4 NM and radar range of 1.6 NM.

Discontinue Great Wicomico River Warning Buoy (LLNR 16185).

Charts: 12225 12235

LNM: 10/18

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

<u>Proposed Project(s)</u>	<u>Closing</u>	<u>Docket No.</u>	<u>Ref. LNM</u>

Proposed Change Notice(s)

COAST GUARD POLICY ON NOTIFICATION OF PROPOSED CHANGES

Periodically, the Coast Guard, evaluates the system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing the aid is considered. In this regard, the Coast Guard is evaluating changes in aids to navigation as noted in the below articles. Users can provide feedback by filling out the District 5 Waterway Proposals data/feedback form, located at the NAVCEN D5 LNM website:

https://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf
This section also includes Public Notices for proposed changes to the bridges within the Fifth Coast Guard with a request for comments as indicated.

LNM: 41/11

NJ – SEA GRIT TO LITTLE EGG INLET – OYSTER CREEK – PROPOSED CHANGES TO AIDS TO NAVIGATION SEASONAL RELIEF SCHEDULE

The Coast Guard is proposing the following modifications to the seasonal relief schedule for the following aids in Oyster Creek. The following aids are proposed to be "Removed when endangered by ice." during winter months.

Oyster Creek Channel Buoy 37 (LLNR 1080)
Oyster Creek Channel Buoy 38 (LLNR 1090)
Oyster Creek Channel Buoy 38A (LLNR 1091)
Oyster Creek Channel Buoy 39 (LLNR 1093)
Oyster Creek Channel Buoy 40 (LLNR 1095)
Oyster Creek Channel Buoy 41 (LLNR 1097)
Oyster Creek Channel Lighted Buoy 42 (LLNR 1099)

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf. All comments will be carefully considered and are requested prior to 1 April 2017 to be considered in the analysis. Refer to project number 05-18-028(D)

******NC- CURRITUCK BEACH LIGHT TO WIMBLE SHOALS – WIMBLE SHOALS LIGHTED BUOY 10 – PROPOSAL TO DISCONTINUE******

The Coast Guard Fifth District is proposing to discontinue Wimble Shoals Lighted Buoy 10 (LLNR 620) located 6.5 NM offshore Rodanthe, NC in 95 feet of water. Based on the proliferation of AIS, charting software, GPS, and other aids to navigation in the general vicinity, this lighted buoy is no longer necessary. Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf. ******NC – CAPE HENRY TO PAMLICO SOUND – CROATAN SOUND – PROPOSAL TO DISCONTINUE CROATAN SOUND NORTH WARNING LIGHT******

The Coast Guard is proposing to discontinue Croatan Sound North Warning Daybeacon (LLNR 31906). This aid is redundant based on the proliferation of AIS, charting software, GPS, and two other aids to navigation marking submerged rocks within 20 yards separation of each other. The submerged rocks will still be marked by Croatan Sound Light 3CS (31900) and Croatan Sound South Warning Daybeacon (LLNR 31907).

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf. All comments will be carefully considered and are requested prior to May 21, 2018 to be considered in the analysis. Please reference project 05-18-023(D).

******NC – PAMLICO SOUND – NEUSE RIVER APPROACH – PROPOSAL TO DISCONTINUE BAY RIVER ENTRANCE LIGHTED WRECK BUOY******

The Coast Guard is proposing to discontinue Bay River Entrance Lighted Wreck Buoy WR2 (LLNR 33397). Based on the proliferation of AIS,

charting software, GPS, and other aids to navigation in the area, this aid no longer is needed and does not serve any lateral significates. Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf . ******NC – CAPE FEAR RIVER – CAPE FEAR RIVER ENTRANCE LIGHTED WHISTLE BUOY CF – PROPOSAL TO DISCONTINUE THE RACON******

The Coast Guard Fifth District is proposing to discontinue the RACON and downsize the hull of Cape Fear River Entrance Lighted Whistle Buoy CF (LLNR 860). This is based on the proliferation of AIS, charting software, GPS, and other aids to navigation in the area. The new buoy would be same size as the Cape Fear River channel aids and the aids marking Frying Pan Shoals. Mariner should only see a minimum reduction in radar return from the new buoy.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf All comments will be carefully considered and are requested prior to 14 May 2018 to be considered in the analysis. LNM: 11/18

******NC – CAPE FEAR RIVER – PROPOSAL TO DISCONTINUE NORTHEAST CAPE FEAR RIVER TURNING BASIN LIGHT******

The Coast Guard is proposing to discontinue Northeast Cape Fear River Turning Basin Light (LLNR 30970). Due to significant shoaling around the edge of the turning basin this aid is in less than three feet of water at MLW and the primary service unit has no accessibility to service, which poses a risk of it becoming a hazard to navigation.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf All comments will be carefully considered and are requested prior to 1 April 2017 to be considered in the analysis. ******NC – MYRTLE GROVE SOUND TO CASINO CREEK – PROPOSAL TO DISCONTINUE LOCKWOODS FOLLY INLET LIGHTED WHISTLE BUOY LW******

The Coast Guard Fifth District is proposing to discontinue Lockwoods Folly Inlet Lighted Whistle Buoy LW (LLNR 31005/865) based on the proliferation of AIS, charting software, GPS, and other aids to navigation in the area. The Coast Guard is proposing to light Lockwoods Folly Inlet Buoy 1 (LLNR 31010) and Lockwoods Folly Inlet Buoy 2 (LLNR 31015). This gated pair of lighted buoys will enhance safety of navigation that will aid the mariner while allowing opportunity for multiple Coast Guard assets to assist in frequent repositioning of aids to mark best water with constantly shifting shoals.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at http://www.navcen.uscg.gov/pdf/Inms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf.

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

VA - ATLANTIC OCEAN - WALLOPS ISLAND ROCKET LAUNCHES

Rocket launches are regularly scheduled in the vicinity of Wallops Island, VA. Prior to these launches, visual signals will be displayed consisting of either a large orange-colored, "blimp-shaped" balloon by day or a signal rotating alternately red and white beacon by night. The balloon will be flown from a position at 37°50'38-N / 75°28'47-W and the beacon will be displayed approximately 200 feet above mean high water in position 37°50'16-N / 75°29'07-W. While the warning signal is displayed, all persons and vessels in the danger zone, except vessels entering or departing Chincoteague Inlet, shall leave the zone promptly by the shortest possible route and remain outside the zone until allowed by a patrol boat to enter or the danger signal has been discontinued. Vessels entering or departing Chincoteague Inlet must take the shortest route possible upon display of the danger signal. The danger zone is depicted on navigational charts 12210 and 12211 with corner points starting in the vicinity of Assawoman Inlet and proceeding southerly to position 37-43-20N / 075-29-41W; thence northeasterly to a point in the vicinity of Chincoteague Shoals; thence westerly back to Wallops Island shoreline.

Charts: 12210 12211

LNM: 04/17

****VA – CHESAPEAKE BAY – CAPE CHARLES TO NORFOLK HARBOR - JOINT EXPEDITIONARY BASE LITTLE CREEK FORT STORY – LIVE FIRING****

Live firing is conducted continuously off Joint Expeditionary Base Little Creek in Danger Zone 334.370, the area west of the south end of the Chesapeake Bay Bridge Tunnel, bounded by the following positions: 36-55-24N 76-08-43W, 36-55-50N 76-08-37W, 36-57-16N 76-08-14W, 36-57-16N 76-08-14W, 36-56-58.5N 76-07-11W, 36-57-07N 76-07-44W. Firing is conducted Monday through Friday from 7:00 am to 8:00 pm. For questions contact Range Operations and Training Area, Mr. Assaf or Ms. Lawrence at 757-422-7103/7101.

Charts: 12222 12254

LNM: 19/16

VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS

Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:

- Willoughby Bay

- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.

- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle.

During these operations, the aircraft will be operating at altitudes as low as seventy-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels.

All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary.

These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the aircraft. AMCM helicopters will transit to and from the area described above in the following manner: Outboard from the seaplane ramp at the Norfolk Naval Air Station across Willoughby Bay to the main shipping channel, then easterly along the main channel to Buoy 21. From Buoy 21 either East, SE or SSE to the operating area. The return flight will follow the same path as the outbound flight. To minimize the potential for mishap, vessels are requested to remain well clear of these danger zones when AMCM operations are encountered.

LNM: 01/16

VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS

The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The bounding coordinates for each field are as follow:

- AREA A: 37-09.0N 075-31.0W, 37-09.0N 075-34.7W, 37-12.0N 075-31.0W, 37-12.0N 075-34.7W.
- AREA B: 36-29.0N 075-31.8W, 36-29.0N 075-35.5W, 36-26.0N 075-35.5W, 36-26.0N 075-31.8W.
- AREA C: 36-29.0N 075-20.8W, 36-29.0N 075-24.5W, 36-26.0N 075-24.5W, 36-29.0N 075-20.8W.
- AREA D: 36-46.5N 075-47.8W, 36-46.5N 075-46.5W, 36-47.5N 075-46.5W, 36-47.5N 075-47.8W.

Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines are placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation.

Chart 12200

LNM: 01/16

VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDLETON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE

The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as "all of the waters seaward of the mean high water shore line within a sector between radial lines extending 13,500 yards seaward and bearing 090 degrees true and 150 degrees true, respectively, from a point on shore at 36° 49' 09"N, 075° 58' 45"W". All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (42nd) Edition when operating south of the entrance to the Chesapeake Bay. Firing will take place only during daylight hours and red flags will be displayed at conspicuous locations on the beach at the facility.

Scheduled Firing: NONE SCHEDULED

Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.

Charts: 12205 12207 12221

LNM: 13/16

DREDGING AND MARINE CONSTRUCTION CAUTIONS

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

LNM: 01/16

******NJ – PA - DE - MD – DC - VA - SANDY HOOK NJ TO CAPE HENRY VA- COAST PILOT******

National Oceanic Atmospheric Administration (NOAA) – U.S. Coast Pilot 3, Atlantic Coast: Sandy Hook, NJ to Cape Henry, VA, 51st Edition, 2018, has been issued and is ready free download and weekly updates at www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html. Only Print-on-Demand (POD) bound copies are available for purchase at www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot. The 2018Edition cancels the preceding 2017Edition, and incorporates all previous corrections.

LNM: 05/18

NJ - VA - NC – SEACOAST OFFSHORE SUBMARINE CABLE LAYING OPERATIONS

The M/V ILE DE SEIN will be conducting Submarine Fiber Optic Cable operations beginning 27 January and continuing through 2 May, 2018 along the seacoast. Concerned mariners may contact the vessel on VHF-FM Ch 13 & 16.

Charts: 11009 13003

LNM: 03/18

******NJ – INTRACOASTAL WATERWAY – SANDY HOOK TO LITTLE EGG HARBOR – BARNEGAT BAY – SR37/MATHIS BRIDGE – CLOSED TO NAVIGATION******

The New Jersey Department of Transportation has requested a temporary deviation for the SR 37 (Mathis) Bridge, at mile 14.1, over the Barnegat Bay. Under this temporary deviation, the bridge will be maintained in the closed-to-navigation position from 12:01 am on April 1, 2018, to 8 p.m. on April 16, 2018. The current operating schedule is set out in 33 CFR 117.733(c). The vertical clearance of the main navigation span of the bridge is reduced by approximately 5 feet, due to temporary shielding of the bascule span, reducing the vertical clearance of the bridge in the closed position to approximately 25 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels unable to pass through the bridge in the closed position. Mariners should use caution when transiting the area during the scheduled maintenance period.

Chart 12324

LNM: 13/18

******NJ – GREAT EGG HARBOR INLET – DIVING OPERATIONS******

The US Army Corps of Engineers will be conducting diving operations in Great Egg Harbor Inlet in the following approximate positions: 39-17-12.825N, 74 31 41.193W – 39-17-14.748N, 74-31-44.052W and 39-17-14.666N, 74-31-44.006W on 3 thru 4 Apr 2018, with back up weather dates of 9 thru 11 Apr 2018. The Army Corps vessel RECONNAISSANCE will be on scene and may be contacted on VHF-FM channels 13 and 16. Diving will be conducted during daylight hours.

Chart 12316

LNM: 12/18

******NJ - NEW JERSEY INTRACOASTAL WATERWAY-LITTLE EGG HARBOR TO CAPE MAY – GRASSY SOUND CHANNEL – OCEAN DRIVE BRIDGE – CLOSED TO NAVIGATION******

The Grassy Sound Channel (Ocean Drive) Bridge across Grassy Sound Channel, mile 1.0, in Middle Township, NJ and the Townsend Inlet Bridge across Townsend Inlet, mile 0.6, at Avalon, NJ., will be maintained in the closed-to-navigation position from 9:15 a.m. to 2:30 p.m., on Sunday

******NJ - NEW JERSEY INTRACOASTAL WATERWAY-LITTLE EGG HARBOR TO CAPE MAY – GRASSY SOUND CHANNEL – OCEAN DRIVE BRIDGE – CLOSED TO NAVIGATION******

April 22, 2018, to accommodate the annual Ocean City Marathon event. At all other times the Grassy Sound Channel (Ocean Drive) Bridge will operate in accordance with Title 33 Code of Federal Regulations (CFR) 117.721 and the Townsend Inlet Bridge will operate in accordance with 33 CFR 117.757. Mariners able to pass under the closed span of these bridges may do so at any time. Mariners should exercise caution when transiting the area.

LNM: 09/18

******NJ – NEW JERSEY INTRACOASTAL WATERWAY - LITTLE EGG HARBOR TO CAPE MAY - ATLANTIC CITY - GRASSY SOUND CHANNEL - SR 147/NORTH WILDWOOD BOULEVARD BRIDGE – REDUCED HORIZONTAL CLEARANCE******

An engineering firm, on behalf of New Jersey Department of Transportation, will be performing maintenance at SR 147 (North Wildwood Boulevard) Bridge, over NJICW (Grassy Sound Channel), mile 105.2, in Middle Township, NJ. The maintenance to the bridge fender system which began in December 2017, will continue to be conducted from 7 a.m. to 7 p.m.; 7 days a week; through September 30, 2018. During the maintenance period, a 26-foot work vessel and two work barges will be in and around the vicinity of the bridge during work hours, which will reduce the horizontal clearance of the bridge to approximately 50 feet. Mariners who need more than 50 feet of horizontal clearance during work hours should notify the work supervisor no less than 24 hours prior to navigating through the bridge. The horizontal clearance of the bridge will be reduced to approximately 90 feet at all other times. Vessels who can safely transit through the reduced horizontal clearances, may do so at any time. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. The work vessel and work barges may be reached on VHF-FM channel 13. The project supervisor can be reached at (610) 368-3739 or (267) 907-6501. Mariners should use extreme caution when transiting the area.

******PA – NJ – DELAWARE BAY AND RIVER – MIAH MAULL TO LISTON RANGE – DREDGING******

The Dutra dredge PAULA LEE will be performing dredging operations beginning in Miah Maull working north to Liston Range, in the Delaware Bay and River, from March 10 through approximately June 31, 2018. The clamshell dredge will be dredging the main navigational channel beginning on the red side of the channel working north and then south on the green side of the channel. The dredge PAULA LEE will be able to move for vessel traffic. Vessels should contact the dredge 30 minutes prior to arrival to make safe passing arrangements. The dredge PALUA LEE can be contacted on VHF-FM channel 14 and 82. Mariners should proceed with caution when transiting the area.

Chart 12304

LNM: 11/18

******PA – NJ – DELAWARE RIVER – OBJECT IN NEW CASTLE RANGE******

An object, approximately 100ft in length and 3.5 inches in diameter, has been reported in the Delaware River Navigational Channel, in New Castle Range, at approximately 39 36.89833N, 075 34.56327W. The object is inside the red toe of the channel, approximately 300 feet upstream from Delaware River Lighted Buoy 18 (LLNR 2875). Mariners should use extreme caution when transiting this area of New Castle Range as depth at objects location is 42.7ft at mean low low water.

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - OCEAN CITY INLET – SHOALING

A Maryland Department of Natural Resources Bathymetric Survey conducted in November 2017 has identified shoaling midway between Ocean City Inlet Lighted Buoy 8 (LLNR 4745) and Lighted Buoy 10 (LLNR 4750) to a depth of less than five feet at MLLW and extending approximately 150 feet into the channel. A second area of severe shoaling has been identified between Ocean City Lighted 11 (LLNR 4755) and Lighted Buoy 12 (LLNR 4757) to a depth of less than seven feet at MLLW. Automatic Identification System (AIS) has been placed on the following aids to navigation. Marine Mobile Service Identification Numbers are as follows.

- A. Ocean City Inlet Lighted Buoy 8 (LLNR 4745), (MMSI) 993672676 in approx position 38-19-24.780N 075-05-24.510W.
- B. Ocean City Inlet Lighted Buoy 10 (LLNR 4750), (MMSI) 993672677 in approx position 38-19-27.923N 075-05-30.310W.
- C. Ocean City Inlet Junction Buoy OC (LLNR 4753), (MMSI) 993672678 in approx position 38-19-35.064N 075-05-34.620W.
- D. Ocean City Inlet Lighted Buoy 11 (LLNR 4755), (MMSI) 993672679 in approx position 38-19-36.367N, 075-05-42.67 W.
- E. Ocean City Inlet Lighted Buoy 12 (LLNR 4757), (MMSI) 993672680 in approx position 38-19-38.978N, 075-05-47.019W.

******MD - POTOMAC RIVER - ST PATRICK CREEK – SHOALING******

There has been a report of severe shoaling within the channel boundaries of St. Patrick Creek. Shoaling has been reported in the vicinity of St. Patrick Creek Channel Daybeacon 3 (LLNR 17120) extending to St. Patrick Creek Channel Daybeacon 5 (LLNR 17135) with depths of 2-4' at MLW. Shoaling to 1' MLW has been observed in the channel in the vicinity of St. Patrick Creek Channel Buoy 3A (LLNR 17125).

Chart 12286

******MD – CHESAPEAKE BAY – PATUXENT RIVER – MD-231/PATUXENT RIVER BRIDGE INSPECTION******

An engineering firm, on behalf of the Maryland State Highway Administration, will be performing inspections at the MD-231 (Patuxent River) Bridge across the Patuxent River, at mile 24.4, at Benedict, MD. The inspection will be conducted from March 26, 2018 to May 18, 2018; from 9 a.m. to 3 p.m. The underside of the bridge will be accessed by a pontoon boat with scaffolding and a boat-mounted man-lift that will be located in and around the vicinity of the bridge. Inspection personnel, equipment and vessels will relocate from the movable span navigable channel, upon request, to facilitate safe navigation through the bridge. The work boat may be reached on VHF-FM channel 13. The project foreman can be reached at (860) 214-2450. Mariners should use caution when transiting the area.

******MD – CHESAPEAKE BAY – LOVE POINT – ARTIFICIAL REEF DEPLOYMENT******

The Maryland Artificial Reef Initiative will be deploying concrete material at the Love Point Artificial Reef Site on or about March 21, 2018, weather permitting. The material will be deployed via crane at or near 39 04.020N, 76 17.345W, in approximately 27 feet of water. On the day of deployment, a tug and barges carrying the crane and concrete will be spudded down on the site from 07:00 to 17:00. In case of foul weather the deployment will take place between March 14 and March 20. The Maryland Artificial Reef Coordinator can be reached at Michael.Malpezzi@maryland.gov for questions.

Chart 12272

******MD – CHESAPEAKE BAY – SEVERN RIVER – SPA CREEK – ANNAPOLIS HARBOR – MARINE CONSTRUCTION AND TOWING OPERATIONS******

Annapolis Boat Shows, Inc. will conduct in-water operations in support of the Annapolis Spring Sailboat Show in Annapolis Harbor at Annapolis, MD during April 16-24, 2018. Temporary pilings, floating docks and submerged electrical cables extending channel ward from Ego Alley will be placed in Annapolis Harbor. To support the in-water operations in Annapolis Harbor, long tows will occur across the Chesapeake Bay, and in the Severn River and Spa Creek, between the Bay Bridge Marina at Stevensville, MD and Annapolis, MD, beginning on April 3, 2018 and ending on or before May 3, 2018. During these tows, mariners are urged to use extreme caution when transiting the area, and to operate at reduced speed to minimize wake near the towing operations. Information regarding special anchoring restrictions in Annapolis Harbor in the event of severe weather during this period should be directed to the Annapolis City Harbormaster's Office on marine band radio VHF-FM channel 71 or telephone (410) 263-7973.

******MD – BALTIMORE HARBOR – FRANCIS SCOTT KEY BRIDGE – CHANNEL RESTRICTION******

An engineering firm, on behalf of the Maryland Transportation Authority (MDTA) will be performing maintenance at the Francis Scott Key Bridge over the Patapsco River, at mile 6.0 at Baltimore, MD. The maintenance will be conducted between Monday, April 9, 2018, and Friday, April 13, 2018; Mon-Fri; from 6 a.m. to 5 p.m. Repair and rehabilitation of the bridge will require a tug and construction barge, 120 feet long by 70 feet wide to work inside the navigable channel. The barge will be working parallel to the pier and will encroach 70 feet into the navigable channel. The

******MD – BALTIMORE HARBOR – FRANCIS SCOTT KEY BRIDGE – CHANNEL RESTRICTION******

tug and barge will leave the channel after each workday. Maintenance personnel, equipment and vessels can relocate with 60 minutes notice. The vessel may be reached on VHF-FM channels 13 and 16. The project superintendent can be reached at (410) 977-0028. Mariners should use caution when transiting the area.

******MD – VA – CHESAPEAKE BAY – BALTIMORE HARBOR TO CAPE HENRY – DEAD SHIP TOW******

The articulated tug-barge (AT/B) unit Sea Raven/ATC-23 is scheduled to be towed in a dead ship status from the TE Subcom dock (Port Covington) in Baltimore, MD to Lake Charles, LA, along an intended route that includes the Patapsco River and Chesapeake Bay, to sea via Cape Henry, VA. The tow is expected to begin at 6 a.m. on March 22, 2018, however, in the event of inclement weather, the tow will be postponed. Upon departure, the Sea Raven will be removed from the notch of the ATC-23 and secured to the hip of the barge while being towed from Baltimore to its departure from the Chesapeake Channel near Cape Henry. At that location, the tow will be separated, with both the Sea Raven and ATC-23 placed in a tandem astern tow for the coastwise voyage. From its departure at Baltimore to a location just below the William P. Lane (US-50/301) Memorial Bridges, the tow will be accompanied by an assist tug. Interested mariners may contact the TradeWinds Towing lead towing vessel HOLLYWOOD via marine band radio VHF-FM channel 16 or 13. For any questions or concerns, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2693.

******VA – HAMPTON ROADS - NORFOLK HARBOR – DREDGING*****

The Dredge ESSEX is expected to commence dredging operations at the Craney Island Eastward Expansion Area on or about March 22, 2018. A submerged pipeline will be placed from the dredging area to the Craney Island Disposal Area. The dredge and associated equipment will be located 700 feet, or more, west of the main shipping channel near vicinity of Elizabeth River Channel Lighted Buoy 18 (LLNR 9600). Dredging is expected to continue until approximately April 21, 2018. Debris extraction in this area is expected to begin on March 8, 2018 by the Dredge ATLANTIC. The debris will be placed on barges and towed to Deep Creek for disposal. The Dredge Operator will standby on channels 13 and 16 VHF-FM. Contact Norfolk Dredging at 757-547-9391 for more information.

LNM: 11/18

******VA – ELIZABETH RIVER SOUTHERN BRANCH – HIGH RISE BRIDGE – MAINTENANCE******

An engineering firm, on behalf of Virginia Department of Transportation, will be performing maintenance at I-64 High Rise Bridge over Elizabeth River Southern Branch, mile 7.1, in Chesapeake, VA. This serves as an update to MSIB 17-105. The maintenance project being conducted has been extended through March 31, 2018; 24 hours a day; 7 days a week.
Work boats will be in and around the vicinity of the bridge during the repair and rehabilitation of the bridge. The work barge will remain on scene and will reduce the horizontal navigational clearance to 70 feet for the duration of the project. Maintenance personnel, equipment, and vessels will relocate out of the navigable channel with 24-hour advanced notice for mariners that require additional clearance to navigate safely through the bridge. Work vessels may be reached on VHF-FM channel 13. The project foreman can be reached at (813) 347-2134. Mariners should use caution when transiting the area. Should you have any questions or concerns regarding this matter, contact US Coast Guard Sector Hampton Roads Waterways Management Division at (757) 668-5580 or HamptonRoadsWaterway@uscg.mil.

LNM: 12/18

******VA – ATLANTIC INTRACOASTAL WATERWAY - DISMAL SWAMP CANAL – RESTRICTED REOPENING******

The locks at Deep Creek, Virginia and South Mills, North Carolina will return to their normal operating schedule to accommodate vessels desiring to use the Dismal Swamp Canal (Route 2) of the Atlantic Intracoastal Waterway. The locks will be operated at 8:30 AM, 11:00 AM, 1:30 PM and 3:30 PM seven days per week. The drawbridges adjacent to these locations will operate as normal and in conjunction with the lock openings. Vessels may moor overnight in the canal. There will be only be one operator at Deep Creek and one at South Mills, so the bridge will not be manned when the lock is being operated, and vice versa. Locks and bridges monitor channel 13. The latest surveys of AIWW-Deep Creek, AIWW-Dismal Swamp Canal, and AIWW-Turners Cut are available at: <http://www.nao.usace.army.mil/HydroSurveys/>. Boaters should review these surveys and the following conditions:

- AIWW-Dismal Swamp Canal currently has a controlling depth of 6 feet at centerline and 50 feet wide except at The Big Entry Ditch (MM #13) and the Feeder Ditch (MM #22) where the width narrows to approximately 25 feet wide. These shoaled areas have been marked with green and red stakes to show the channel. Due to the narrow channel, only one vessel can pass in these area at a time.
- AIWW-Turners Cut Channel just south of the South Mills Lock currently has a controlling depth of 5.9 feet at centerline and 80 feet wide. A remaining shoal south of Joyce Creek has been marked with green and red stakes to show the channel where the canal narrows to approximately 40 feet wide. Due to the narrow channel, only one vessel can pass in this area of the Turners Cut at a time.
- Norfolk District Corps of Engineers crane barge will working at the Big Entry Ditch and Turners Cut this spring. Dredging is scheduled this summer in the Dismal Swamp Canal at the Feeder Ditch.

Those planning to use this route should refer to the Coast Guard Local Notice to Mariners, contact the lock operator, or call the Norfolk District office at 757-201-7642.

VA – NC – OFFSHORE – FALSE CAPE - HYDROGRAPHIC SURVEY OPERATIONS

NOAA Ship FERDINAND R. HASSLER (S-250) will be conducting hydrographic survey operations near the Virginia and North Carolina border offshore of False Cape from 10 Feb through the end of April 2018. FERDINAND R. HASSLER (FH) is a 123-foot, white-hulled survey vessel with NOAA markings and can be identified on AIS. Survey operations will be conducted 24-hours a day and the vessel may be contacted on VHF-FM channel 13 and 16. Mariners are requested to exercise caution when transiting the operational area. There will be two modes of survey operations, which may happen simultaneously. Survey modes include; ship survey with or without towed sensors and survey from a 28 foot launch. When towed hydrographic instrumentation is deployed, FH will be restricted in her ability to maneuver. Questions or concerns can be addressed to the ship's Field Operations Officer via phone at (603) 812-8748 or via email at: ops.ferdinand.hassler@noaa.gov

NC - OREGON INLET CHANNEL - HERBERT C. BONNER BRIDGE CONSTRUCTION & REPLACEMENT

Construction activities for the replacement bridge are ongoing and are expected to finish on August 30, 2019. Work will be conducted 24-hours per day, seven days a week. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge. Crane barges will be secured in place with four anchors connected by anchor wires to the corners of the barge. The anchor locations will be marked with yellow crown buoys within an approximate 500-ft radius of the crane barge. Mariners should be aware that anchor wires may be at or just above/below the water surface between the barges and crown buoys; therefore vessels should stay on the outboard side of the crown buoys. In addition, construction activities for the replacement bridge immediately adjacent to the current navigation channel are scheduled to begin on July 24, 2017 and continue until December 31, 2017. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at <http://www.ncdot.gov/projects/bonnerbridge/replace/>.

******NC – OCEAN ISLE BEACH – SHALLOTTE INLET – DREDGING******

Starting approximately 8 March 2018, Weeks Marine Inc. will be mobilizing pipeline and equipment in the vicinity of Shallotte Sound, Ocean Isle Beach, NC. Starting approximately 19 March 2018 and continuing until 15 April 2018, the hydraulic dredge C.R. MCCASKILL and attendant plant will be operating in the vicinity of Ocean Isle beach NC.

Borrow Area for Ocean Isle Beach will be bound by the following approximate positions:

33°54'23.85"N, 78°23'28.90"W

33°53'32.94"N, 78°23'22.38"W

33°53'35.32"N, 78°22'8.58"W and 33°54'44.19"N, 78°22'31.79"W

Equipment Staging Area for Ocean Isle Beach positions:

33°54'15.20"N, 78°23'28.10"W

33°54'13.86"N, 78°23'27.73"W

33°54'16.33"N, 78°23'11.80"W and 33°54'18.26"N, 78°23'12.38"W

****NC – OCEAN ISLE BEACH – SHALLOTTE INLET – DREDGING****

Once underway, dredging operations will continue on a twenty four hours a day, seven days a week. The dredge will monitor VHF-FM channels 13 and 16. For information or questions contact James Price at 985-630-2512.

SUMMARY OF SHOALING REPORTED IN THE FIFTH COAST GUARD DISTRICT

NEW JERSEY SHOALING

NJ – INTRACOASTAL WATERWAY – MANASQUAN INLET TO CAPE MAY INLET - SHOALING

Shoaling has been reported in the New Jersey Intracoastal Waterway (NJICWW) between Manasquan Inlet and Cape May Inlet. Mariners are advised to use extreme caution when transiting the NJICWW due to shoaling. The following are some of the locations where the shoaling has been reported.

NJICWW Light 4 (LLNR 34995).

NJICWW Light 38 (LLNR 35115).

NJICWW Daybeacon 45 (LLNR 35165) & Daybeacon 46 (LLNR 35167).

NJICWW Daybeacon 49 (LLNR 35108).

NJICWW Junction Light LB (LLNR 35420) to Light 109 (LLNR 35430).

North side of Tow Island at NJICWW Daybeacon 129 (LLNR 35530).

NJICWW Light 145 (LLNR 35590) to Light 163 (LLNR 35655) Black Point on the red side.

Between NJICWW Daybeacon 206 (LLNR 35825) and Daybeacon 209 (LLNR 35835) IVO Bader Field.

IVO NJICWW Daybeacon 221 (LLNR 35867).

Between NJICWW Light 233 (LLNR 35905) and Daybeacon 243 (LLNR 3535945) Broad Thorofare.

IVO NJICWW Buoy 263 (LLNR 36007) and Buoy 263A (LLNR 36009) Shooting Island on the green side.

Between NJICWW Daybeacon 272 (LLNR 36035) and Daybeacon 282 (LLNR 36070) in Peck Bay.

Between NJICWW Light 383 (LLNR 36420) Daybeacon 399 (LLNR 36470).

Between NJICWW Buoy 417 (LLNR 36517) and Buoy 424 (LLNR 36535) Great Channel.

Between NJICWW Light 449 (LLNR 36625) and Light 453 (LLNR 36639) Grassy Sound. Ref LNM 24/17

Chart 12316, 12324

NJ - LITTLE EGG INLET TO HEREFORD INLET – LITTLE EGG INLET – SHOALING

Shoaling has been observed in Little Egg Inlet across the channel between to an average channel depth of 3 feet at MLW. As a result, the aids to navigation have been removed because they did not accurately mark safe water. DB BNM 008-17

Chart 12318

NJ – SLAEM RIVER – SHOALING

Shoaling was reported in the Salem River, in Salem, NJ. The shoaling was reported between Salem River Entrance Channel Light 5 (LLNR 2670), Light 6 (LLNR 2675) and Light 7 (LLNR 2680), Light 8 (LLNR 2685) on the east side of the channel. The depth was reported at 10 feet shortly after high tide. Mariners are advised to proceed with caution when transiting the area.

Chart 12311

PENNSYLVANIA SHOALING

******PA – DE – NJ – DELAWARE RIVER – MARCUS HOOK RANGE – SHOALING******

Shoaling has occurred in the Delaware River in approximate position 39-48.18791, 075-25.354427w, 50 feet off the green channel toe, in the vicinity of Marcus Hook Intake Light (LLNR 3170). Shallowest depth 38.5 feet. All mariners are requested to transit the area with caution. Ref LNM 09/18

Chart 12312

PA – NJ – CHESTER RANGE – SHOALING

The Coast Guard has received a report of shoaling 40ft within the PA side of the channel in approx position 39-49'33.80"N, 075-22'39.81"W. The rock mound has been reported to have a minimum depth of 39.1ft. Mariners are urged to use caution when transiting the area.

DELAWARE SHOALING

DE- INDIAN RIVER BAY – SHOALING

There has been a report of shoaling in Indian River Bay between Indian River Inlet Buoy 19 (LLNR 4435) and Middle Island West Channel Junction Lighted Buoy MI (LLNR 4436). Depths of 0.0 ft at times, during low tide, were reported.

Chart 12216

DE – REHOBOTH BAY – INDIAN RIVER – BACKERS CHANNEL – SHOALING

The Delaware Department of Natural Resources and Environmental Control (DNREC) reports shoaling in Baker's Channel between Baker's Channel Lighted Buoy 1A (LLNR 2136) and Baker's Channel Lighted Buoy 1B (LLNR 2137) as well as Baker's Channel Lighted Buoy 5 (LLNR 2137.04) and Baker's Channel Lighted Buoy 6 (LLNR 2137.05). DNREC has established two warning buoys worded "DANGER SHOAL" to mark the shoaling. Mariners are advised to transit that area with caution. Ref LNM 26/17

Chart 12216

MARYLAND SHOALING

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - OCEAN CITY INLET – SHOALING

A Maryland Department of Natural Resources Bathymetric Survey conducted in Nov 2017 has identified shoaling midway between Ocean City Inlet Lighted Buoy 8 (LLNR 4745) and Lighted Buoy 10 (LLNR 4750) to a depth of less than five feet at MLLW and extending approximately 150 feet into the channel. A second area of severe shoaling has been identified between Ocean City Lighted 11 (LLNR 4755) and Lighted Buoy 12 (LLNR 4757) to a depth of less than seven feet at MLLW. Ocean City Inlet Lighted Buoy 12A has been established in approximate 38-19-38.995N, 075-05 -47.020W to mark the shoaling. To avoid confusion the light on Ocean City Inlet Lighted Buoy 12 (LLNR 4757) has been extinguished.

Chart 12211

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY – SHOALING

Sinepuxent Bay Channel Daybeacon 11B (LLNR 5050), shoaling encroaches approximately 20 yds into the channel in a southwesterly direction. Water depths have been found as low as 2.5 ft during low tide. Between Sinepuxent Bay Channel Light 8 (LLNR 5020) and Sinepuxent Bay Channel Daybeacon 10 (LLNR 5035), shoaling encroaches approximately 15 yds into the channel in an easterly direction. Water depths have been found as low as 2 ft during low tide. Between Sinepuxent Bay Channel Buoy 33 (LLNR 5130) and Sinepuxent Bay Channel Daybeacon 35 (LLNR 5135) on the eastern side of the channel. Water depths have been found as low as 3 ft during low tide.
Chart 12211

******MD - POTOMAC RIVER - ST PATRICK CREEK – SHOALING******

There has been a report of severe shoaling within the channel boundaries of St. Patrick Creek. Shoaling has been reported in the vicinity of St. Patrick Creek Channel Daybeacon 3 (LLNR 17120) extending to St. Patrick Creek Channel Daybeacon 5 (LLNR 17135) with depths of 2-4' at MLW. Shoaling to 1' MLW has been observed in the channel in the vicinity of St. Patrick Creek Channel Buoy 3A (LLNR 17125).
Chart 12286

******MD – UPPER POTOMAC RIVER – NEABSCO CREEK – SHOALING******

Severe shoaling is reported inside the channel boundaries of Neabsco Creek. Shoaling extends 50 yards into the channel from Neabsco Creek Daybeacon 1 (LLNR 18231) and Neabsco Creek Light 2 (LLNR 18232) depths of 3 to 4 ft at MLW. Additional shoaling between Neabsco Creek Buoy 3 (LLNR 18233) and Neabsco Creek Buoy 4 (LLNR 18234) positions has been observed to a depth less than 3 ft at MLW. LNM 11/18, MD BNM 231-18

MD - CHESAPEAKE BAY - TANGIER SOUND - NORTHERN PART - RHODES POINT GUT CHANNEL

A report of shoaling in Rhodes Point gut channel between Rhodes Point Gut Channel Buoy 3 (LLNR 23000) and Rhodes Point Gut Channel Buoy 5 (LLNR 23005), to a depth of less than six feet at mean low water. Depth is reading approx one and a half feet. Ref MD BNM 278-16
Chart 12228

MD - CHESAPEAKE BAY - CHESAPEAKE BAY TO PINEY POINT - ST. JEROME CREEK - SHOALING

Maryland DNR survey of the mouth of St. Jerome Creek indicates shoaling, to at least depth of 3.1feet MLLW, in the channel between St. Jerome Creek Light 4 (LLNR 18810), St. Jerome Creek Daybeacon 4A (LLNR 18812) and St. Jerome Creek Daybeacon 6 (LLNR 18815). The channel width in the area of St. Jerome Daybeacon 4A (LLNR 18812) and Deep Point is reduced to approx 20 ft. MD-NCR BNM 415-16, Ref LNM 52/16
Chart 12233

MD/VA - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING

Shoaling exists in St. Catherine Sound Lower Entrance at the following locations: (1) off the northeastern tip of St. Catherine Island extending channel ward between position 38-14-17.586N, 076-47-15.562W and position 38-14-32.841N, 076-47-14.761W, and (2) in the vicinity of St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, CCGD5 BNM 524-16
Chart 12286

MD - CHESAPEAKE BAY – LITTLE CHOPTANK RIVER - SLAUGHTER CREEK - SHOALING

Shoals on the western portion of Slaughter Creek in the vicinity of Holland Point have slowly encroached easterly in most of the federally marked channel. The shoal adjacent to Slaughter Creek Light 2SC (LLNR 24645) has encroached approx 50-100 yds easterly with observed depths of 3-4' in between tide cycles. Shoaling to 5' MLW has been observed on the red side of the channel between Slaughter Creek Daybeacon 6 (LLNR 24670) and Slaughter Creek Buoy 8 (LLNR 24683). Sec MD-NCR BNM 045-17
Chart 12264, 12266

MD - CHESAPEAKE BAY - HONGA, NANTICOKE AND WICOMICO RIVERS – FISHING BAY - TAR BAY

A USACE survey conducted in Apr 2016 has identified shoaling to a depth of less than one foot at mean low water between Tar Bay Channel Daybeacon 4 (LLNR 24595) and Tar Bay Channel Daybeacon 8 (LLNR 24615). The channel width has been significantly reduced. Observed depths are between 2-4' at high tide. Sec MD-NCR BNM 044-17
Chart 12261

MD – CHESAPEAKE BAY- CHESTER RIVER – KENT ISLAND NARROWS NORTH APPROACH

Depths of less than 4 feet have been reported between Kent Island Narrows North Approach LT 4 (LLNR 26425) and Kent Island Narrows North Approach LT 6 (LLNR 26435) on the red side of the channel. Vessels transiting the Kent Island Narrows North Approach Channel should exercise caution. Ref LNM 05/16
Chart 12272

******MD – CHESAPEAKE BAY – ROCKHOLD CREEK – SHOALING******

The Coast Guard has identified shoaling in the Rockhold Creek Channel boundaries near position 38-46.0N, 076-33.25W, approximately 70 yards east of Rockhold Creek Jetty Light 2 (LLNR 19400) to a depth of less than three feet at MLLW. Shoaling extends from the north to beyond mid-channel. Mariners are urged to use caution when transiting the area.
Chart 12270

MD – CHESAPEAKE BAY - ROCK HALL HARBOR – SHOALING

The MD DNR Survey of Rock Hall Harbor Entrance, dated April 21, 2017 indicates shoaling across the marked channel from Rock Hall Harbor Entrance Buoy 1 (LLNR 26890) to Rock Hall Harbor Light 5 (LLNR 26900). Least depths range to 6.9 feet to 4.8 feet MLLW.
Chart 12272, 12278

MD – UPPER CHESAPEAKE CHANNEL – SHOALING

A USACE Survey conducted on 11 May 2017 has identified shoaling to a depth of less than 34 feet at MLLW within the eastern one-quarter of the navigation channel extending northeast of Upper Chesapeake Channel Lighted Buoy 37 (LLNR 8635). MD BNM 175-17, Ref LNM 25/17
Chart 12273

Chart 12238

VA – CHESAPEAKE BAY – BACK RIVER – SHOALING

A NOAA Survey identified shoaling to a depth of 6 feet MLW in Back River in approximate position 37-06'33.0"N, 076-16'40.8"W, approximately 75 yards west of Back River Daybeacon 6 (LLNR 12930). Mariners are advised to transit the area with caution. HR BNM 044-17, LNM 07/17
Chart 12222

VA – CHESAPEAKE BAY – YORKTOWN TO WEST POINT - QUEEN CREEK

Shoaling to less the 3 feet has been reported in Queen Creek from Queen Creek Entrance Light 2QC (LLNR 13785) to Queen Creek Day beacon 10 (LLNR 13820). HR BNM 170-14
Chart 12243

VA – TANGIER SOUND – SHOALING

Shoaling to 5 – 6 feet MLW has been found in the vicinity of Tangier Sound Light in approximate position 37 47 06.4N, 075 58 23.2W along the 36 foot depth contour.
Chart 12228

VA – GREAT WICOMICO RIVER – SHOALING

Shoaling has been identified in the vicinity of Great Wicomico River Light 9 (LLNR 16300) extending 30 yards north and north northeast of structure to a depth of less than 2 feet.

VA – RAPPAHANNOCK RIVER – SHOALING

Rappahannock River mile 60 to 63, Devils Elbow. Shoaling has been reported to a depth of less than 04 ft at mean low water along the eastern side of the channel from Horse Head Point to south of Tobys Point extending along the eastern side of Tobys Point to North Bend. HR BNM 051-17, LNM 08/17
Chart 12237

VA - RAPPAHANNOCK RIVER - CORROTOMAN RIVER TO FREDERICKSBURG – GREENVALE CREEK SHOALING

An Army Corps of Engineers Survey of Greenvale Creek Channel indicates shoaling, to a least depth of 1.7 feet MLLW, across the channel from approximately 250 feet North-Northeast of Greenvale Channel Warning Daybeacon A (LLNR 15305) continuing inbound for approximately 880 feet. Ref LNM 50/16
Charts 12237

VA/MD - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING

Shoaling exists in St. Catherine Sound Lower Entrance at the following locations: (1) off the northeastern tip of St. Catherine Island extending channel ward between position 38-14-17.586N, 076-47-15.562W and position 38-14-32.841N, 076-47-14.761W, and (2) in the vicinity of St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, CCGD5 BNM 524-16
Chart 12286

VA - POTOMAC RIVER - YEOCOMICO RIVER - SHOALING

There has been a report of shoaling in the Yeocomico River within channel boundaries, located SE of South Yeocomico River Daybeacon 2 (LLNR 16830) to a depth of less than ten feet at mean low water. MD-NCR BNM 408-16, Ref LNM 50/16
Chart 12233

VA - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - BONUM CREEK - SHOALING

Soundings in Bonum Creek indicates shoaling in the channel between Bonum Creek Daybeacon 3 (LLNR 16885), Bonum Creek Daybeacon 4 (LLNR 16890), and Bonum Creek Daybeacon 5 (LLNR 16895). Due to extensive shoaling off Sandy Point Neck, the channel width has been reduced to approx 20ft between Bonum Creek Daybeacons 3 and 4. Mariners are urged to use caution when transiting the area.
Chart 12286

******VA – VIRGINIA BEACH – RUDEE INLET******

Based on the City of Virginia Beach survey dated 8 Feb 2018 shoaling still exist in Rudee Inlet Channel with least depths from 4.6' MLLW in the channel.
Chart 12205

NORTH CAROLINA SHOALING

NC – CAPE HENRY TO CURRITUCK BEACH LIGHT - CURRITUCK SOUND – FERRY CHANNEL – SHOALING

Shoaling has been reported between Currituck and Knott's Island in the ferry route, reducing the width of the ferry channel. Mariners are advised to proceed with caution while transiting the area. NC BNM 754-16, Ref LNM 01/17
Charts 12207, 12205

NC – PAMLICO SOUND BRANT ISLAND SHOAL – SHOALING

Shoaling to 3 feet has been reported in the area off the southeast tip of the charted shoal in the vicinity of Brant Island Slue in approximate position 35-10.45N, 076-23.05W.
Chart 11548

******NC – OREGON INLET – SHOALING******

Shoaling has been reported between Oregon Inlet Buoy 4 (LLNR 27990) and Oregon Inlet Lighted Buoy 6 (LLNR 28003). Observed depths of 4 feet MLW. Shoaling across entire channel to a depth of 4 feet MLW. Shoaling was also found extending across the channel between Oregon Inlet Lighted Buoy 19 (LLNR 28065) and Oregon Inlet Channel Buoy 21 (LLNR 28070). Observed depths of 4 feet MLW. Shoaling across entire channel to a depth of 4 feet MLW.
Chart 12204

NC – HATTERAS INLET – SHOALING

Due to severe shoaling Hatteras Inlet Buoy 2A (LLNR 28647), Hatteras Inlet Lighted Buoy 4 (LLNR 28650), Hatteras Inlet Lighted Buoy 5 (LLNR 28653), Hatteras Inlet Lighted 6 (LLNR 28660) no longer mark navigable water. Mariners should not rely on these buoys for navigation. LNM 07/17
Chart 11555, 11520

NC – CAPE HATTERAS – HATTERAS INLET

Shoaling has been reported to 3.5 feet in Hatteras Inlet between Hatteras Inlet Channel Buoy 9 (LLNR 28669) and Hatteras Inlet Channel Buoy 12C (LLNR 28733.2). NC BNM 028-15, LNM 06-15
Chart 11555

NC – CAPE HATTERAS – HATTERAS INLET

Shoaling has been reported to 5 feet in vicinity of Hatteras Inlet Channel Lighted Buoy 13A (LLNR 28735.3) and Hatteras Inlet Lighted Buoy 14 (LLNR 28735.6). NC BNM 340-15
Chart 11555

NC – CAPE HATTERS – BARNEY SLOUGH

Shoaling has been found along north side of channel between Barney Slough Channel Buoy 4 (LLNR 28721.7) and Barney Slough Channel Lighted Buoy 6 (LLNR 28722.3). Observed depths of 4 feet MLW.
Chart 11555

NC – CAPE HATTERAS – HATTERAS INLET – SOUTH FERRY TERMINAL

Shoaling has been reported to 2.6 feet in South Ferry terminal between South Ferry Terminal Lighted Buoy 1SF (LLNR 28699.1) and South Ferry terminal Light 7 (LLNR 28715). NC BNM 031-16, 069-16

NC – BEAUFORT INLET AND CORE SOUND – BARDEN INLET – SHOALING

Significant shoaling is present in Barden Inlet between Harker's Island and Cape Lookout. The shoal is encroaching the channel from both sides in the area of Barden Inlet Buoy 28 (LLNR 29250), Buoy 30 (LLNR 29253) and Buoy 31 (LLNR 29257). Mariners should exercise extreme caution while transiting through the Inlet. NC BNM 342-17, LNM 29/17
Chart 11545

NC – CORE SOUND – SHOALING

Significant shoaling exists in the vicinity of Core Sound Light 27 (LLNR 34540) to Core Sound Light 24 (LLNR 34520). NC BNM 357-17 & 396-17.
Chart 11545

******NC – WESTERN PART OF PAMLICO SOUND – PAMLICO RIVER – WRIGHT CREEK – SHOALING******

Mariners are advised of shoaling in vicinity of Wright Creek Daybeacon 4 (LLNR 32870) off the Pungo River. All mariners are requested to transit the area with caution. NC BNM 141-18
Chart 11553

NC – ICW - NEUSE RIVER TO MYRTLE GROVE - RUSSELL SLOUGH

Shoaling has been reported to 1 foot in vicinity of Russell Slough Day beacon 6A (LLNR 38467) NC BNM 344-15
Chart 11541

NC – ICW - NEUSE RIVER TO MYRTLE GROVE SOUND – BOGUE SOUND - NEW RIVER

Shoaling to 3 feet has been reported in the vicinity of Bogue Sound - New River buoys 72A (LLNR 39300), 72B (LLNR 39303) and 74 (LLNR 39305). LNM 06-15

Shoaling has been reported to 0.5 feet in Banks Slough Channel. NC BNM 658-14
Chart 11541

NC – NEUSE RIVER TO MYRTLE GROVE SOUND – CAROLINA BEACH INLET

Shoaling to 2.6 feet has been reported in Carolina Beach Inlet from Carolina Beach Inlet Buoy 1 (LLNR 30265) to Buoy 6 (LLNR 30290). NC BNM 659-15, 206-16
Chart 11541

NC - NEUSE RIVER TO MYRTLE GROVE SOUND – AICWW - NEW RIVER TO CAPE FEAR RIVER – BROWNS INLET

Shoaling has been reported in the AICWW near the intersection of Browns Inlet and the AICWW in the vicinity of New River – Cape Fear River Buoy 61A (LLNR 39223).

NC – NEUSE RIVER TO MYRTLE GROVE SOUND - NEW RIVER – NEW RIVER INLET

Shoaling has been reported to 2 feet in New River Inlet Channel. NC BNM 003-15
Chart 11542

NC - NEUSE RIVER TO MYRTLE GROVE SOUND – NEW RIVER TO CAPE FEAR RIVER

An area of shoaling has been reported IVO of New River – Cape Fear River Buoy 121 (LLNR 39597) in the AICWW St M 280 near Mason Inlet Crossing. ACOE reported a depth of 2.2ft at MLW. Mariners are urged to use caution when transiting this area. NC BNM 357-16
Chart 11541

NC – INTRACOASTAL WATERWAY - MYRTLE GROVE SOUND TO LITTLE RIVER

Shoaling to 1 foot has been reported in the vicinity of Lockwoods Folly Inlet at Cape Fear River – Little River Buoy 47 (LLNR 40225). NC BNM 256-16
Chart 11534

NC – INTRACOASTAL WATERWAY - MYRTLE GROVE SOUND TO LITTLE RIVER

Shoaling was found between Cape Fear River - Little River Buoy 80A (LLNR 40337) and Cape Fear River - Little River Buoy 82 (LLNR 40345). Depths as low as 3ft were observed in the ICW channel at MLW. Position 33-54'25.55"N, 078-23'4.41"W. Shoaling is across entire channel.

SUMMARY OF BRIDGE PERMITS, REGULATIONS AND CONSTRUCTION IN THE FIFTH COAST GUARD DISTRICT

(Yellow indicates new item)

CURRENT PROJECTS

Permits:

SECTOR DELAWARE BAY

- **Delaware**

Christina River – Christina River Bridge – Permit (1-17-5) signed April 7, 2017, for a fixed bridge across the Christina River, mile 3.8, City of Wilmington, New Castle County, DE. The bridge will provide a minimum vertical clearance of 14 feet above mean high water and a horizontal clearance of 150 feet centered on the axis of the navigable channel.

Raccoon Creek – US 130 (fixed) Bridge - new fixed bridge structure to replace (lift) bridge. Permit 2-15-5 signed December 9, 2015. (KB)

- **New Jersey (Central & Southern)**

Oldmans Creek – US Route 130 Bridge

All interested parties are notified that the Commander, Fifth Coast Guard District has received a proposal from the New Jersey Department of Transportation with plans for modification of an existing highway drawbridge over a navigable waterway of the United States.

WATERWAY AND LOCATION: Oldmans Creek, mile 3.1 at Nortonville, NJ.

CHARACTER OF WORK: The proposed project is to permanently close the existing drawbridge; thereby making the structure a fixed bridge. The drawbridge has not opened for vessels since the 1960s and is presently in a “need not open for passage of vessels” status as authorized in Title 33 Code of Federal Regulations, Section 117.737. No bridge work, other than permanently locking the moveable span, will be completed. The existing drawbridge has a horizontal clearance of 75 feet and a vertical clearance of 5.0 feet above mean high water in the closed position and 64 feet above mean high water in the open position. The retained bridge will be a fixed bridge with a horizontal clearance of 75 feet and a vertical clearance of 5.0 feet above mean high water.

A copy of Preliminary Public Notice 5-1381, which describes the proposal in detail, can be obtained by calling (757) 398-6222 or by viewing at <https://www.navcen.uscg.gov/?pageName=pnBridges>. Comments on this proposal should be forwarded to the address in the notice no later than **11 DEC 2017 (HP)**

- **Pennsylvania**

Schuylkill River – Grays Ferry Pedestrian Bridge – Permit (3-17-5) signed November 27, 2017, for a swing drawbridge replacement with a vertical clearance of 26 feet above mean high water (closed position), unlimited vertical clearance in the open position, and a horizontal clearance of 75 feet in both navigation spans. (MT)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- **Maryland** –

Potomac River - Harry Nice Memorial Bridge – Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 2, 2018; vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the bridge may be shifted up to 585 feet to the west of the current navigation span. (KB)

Neale Sound – MD-254 (Cobb Island Road) Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 22, 2017; vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)

- **Washington DC** –

Anacostia River – Frederick Douglass Memorial Bridge - Permit (2-17-5) signed December 4, 2017, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water and a horizontal clearance of 150 feet. (MB)

- **Virginia (Northern)**

Potomac River - Harry Nice Memorial Bridge – Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 2, 2018; vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the bridge may be shifted up to 585 feet to the west of the current navigation span. (KB)

SECTOR HAMPTON ROADS

- **Virginia (Southern)**

AICW – Elizabeth River Southern Branch – I-64/High Rise Bridge – VDOT has proposed to replace the existing drawbridge with a new fixed bridge at essentially the same location. The replacement project will modify the existing vertical clearance of the bridge. The charted vertical clearance of the existing bascule bridge in the closed-to-navigation position is 65 feet above MHW with unlimited vertical clearance in the full open position. The proposed replacement will be a fixed bridge that will provide a vertical clearance of 100 feet above MHW. The current horizontal clearance of 125 feet will be maintained for the new fixed bridge. (KB)

Elizabeth River (Western Branch) – US Route 17 (Churchland Street) Bridge – Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD); vertical clearance of 37 feet above mean high water and a horizontal clearance of 80 feet. (MS)

Hampton Roads - Hampton Roads Bridge Tunnel –

All interested parties are notified that the Commander, Fifth Coast Guard District has received a proposal from the Virginia Department of Transportation (VDOT) for construction of a new highway fixed bridge tunnel over a navigable waterway of the United States.

WATERWAY AND LOCATION: Hampton Roads, mile 0.0, between City of Norfolk, VA and the City of Hampton, Hampton County, VA.

CHARACTER OF WORK: The proposed project is to construct a third Hampton Roads Bridge Tunnel crossing. VDOT has proposed that the third bridge-tunnel with adjoining bridges to the north and south will be located to the west of the existing Hampton Roads Bridge Tunnel system. The bridges will also have the same vertical and horizontal clearances of 10 feet above mean water and 45 feet, respectively, as the existing Hampton Roads Bridge Tunnel system. The purpose of the project is to relieve congestion in a manner that improves accessibility, transit, emergency evacuation, and military and goods movement along the primary transportation corridors in the Hampton Roads region including I-64, I-664, I-564, and VA Route 164 corridors.

A copy of Preliminary Public Notice 5-1382, which describes the proposal in detail, can be obtained by calling (757) 398-6557 or by viewing at <https://www.navcen.uscg.gov/?pageName=pnBridges>. Comments on this proposal should be forwarded to the address in the notice no later than **14 DEC 2017**. (MT)

SECTOR NORTH CAROLINA

- **North Carolina**
 - Atlantic Intra-coastal Waterway – NC 210/50 Bridge, Surf City, NC - proposed new fixed bridge structure to replace (swing) bridge. Permit 2-16-5 signed September 27, 2016. (KB)
 - The Straits – Harkers Island Bridge – Bridge Replacement - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 24, 2017; vertical clearance of 45 feet above mean high water and a horizontal clearance of 125 feet. (HP)
 - Perquimans River – US 17 Business Bridge (Hertford, NC) – Replacement swing drawbridge Preliminary Navigation Clearance Determination (PNCD) issued on November 1, 2017; vertical clearance of 33 feet above mean high water and a horizontal clearance of 55 feet. NCDOT preferred alternative will provide a vertical clearance of 12 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 55 feet. (HP)

Regulations:

SECTOR DELAWARE BAY

- **Delaware** – None
- **New Jersey (Central & Southern)**
 - NJICW Barnegat Bay - Thomas Mathis Bridge (SR37) – Maintenance is scheduled between October 20, 2017, and March 31, 2018. From 8 a.m. on October 20, 2017, to 8 a.m. on December 1, 2017, a Safespan work platform will be installed on the anchor spans adjacent to the bascule span, reducing the vertical clearance in the anchor spans by approximately two feet. From 8 a.m. on December 1, 2017, to 8 p.m. on March 31, 2018, the vertical clearance of the main navigation span of the bridge will be reduced by approximately 5 feet, due to temporary shielding of the bascule span, reducing the vertical clearance of the bridge in the closed position to approximately 25 feet above mean high water. The operating regulation of the bridge in Title 33 Code of Federal Regulations 117.733(c) (4) allows the bridge to be maintained in the closed-to-navigation position from 8 a.m. on December 1, 2017, until 8 p.m. on March 31, 2018. Mariners should use caution when transiting the area during the scheduled maintenance period. (HP)
 - Delaware River - DELAIR Memorial Railroad Bridge -The Coast Guard has issued a temporary deviation authorizing the DELAIR Memorial Railroad Bridge over the, mile 104.6, in Delair, NJ, to be remotely operated from the Conrail South Jersey dispatch center in Mount Laurel, NJ, from 8 a.m. on October 21, 2017, to 7:59 a.m. on April 19, 2018. This deviation will test the remote operation capability of the drawbridge to determine whether the bridge can be safely operated from a remote location. During the temporary deviation, a bridge tender will be stationed on-site at the bridge and will be able to immediately take local control of the bridge, as required. The remote operation system of the bridge incorporates a dedicated telephone line (856) 231-2301 for bridge operations, a push-to-talk (PTT) opening signal of 5 clicks on VHF-FM channel 13, and an automated identification system (AIS) transmitter to provide real-time bridge status. AIS bridge status is provided via the name transmitted by the private aids to navigation as: DELAIR BRG-OPEN (fully open and locked position, channel light green), DELAIR BRG-CLOSED (other than fully open, not inoperative), or DELAIR BRG-INOP (other than fully open, inoperative). The AIS transmitter is assigned maritime mobile service identity (MMSI) number 993663001 and has been installed on the New Jersey side of the bridge at the bridge and land intersection in approximate position 39 degrees, 58 minutes, 50.52 seconds North (39.9807 N), 75 degrees, 03 minutes, 58.75 seconds West (-75.06632 W). The Coast Guard is encouraging public participation and requesting comments concerning this temporary (test) deviation. Comments and related material must reach the Coast Guard on or before March 2, 2018. Please access the Federal eRulemaking Portal at <http://www.regulations.gov> to view docket number USCG-2016-0257 for additional details and to provide comments concerning this temporary (test) deviation. (HP)
 - Grassy Sound Channel & Townsend Inlet - Grassy Sound Channel (Ocean Drive) Bridge & Townsend Inlet Bridge – Bridges will be maintained in the closed-to-navigation position from 9:15 a.m. to 2:30 p.m., on Sunday April 22, 2018, to accommodate the annual Ocean City Marathon event. At all other times the Grassy Sound Channel (Ocean Drive) Bridge will operate in accordance with Title 33 Code of Federal Regulations (CFR) 117.721 and the Townsend Inlet Bridge will operate in accordance with 33 CFR 117.757. Mariners able to pass under the closed span of these bridges may do so at any time. Mariners should exercise caution when transiting the area. (KB)

- **Pennsylvania** – None

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- **Washington, DC & Virginia (Northern)** – None
- **Maryland** – None

SECTOR HAMPTON ROADS

- **Virginia (Southern)** – None

SECTOR NORTH CAROLINA

- **North Carolina** - None

Construction, et al:

SECTOR DELAWARE BAY

- **Delaware**

Christina River – Industrial Trail Track Bridge (new pedestrian bridge) - Construction activities will begin on January 03, 2017, and are expected to finish on April 27, 2018. Workers will be on-scene from 7 a.m. to 4 p.m.; M-F. To facilitate the construction, a 41' barge and 2 work boats will be in and around the vicinity and will relocate from the navigable channel, upon request. The 41' barge will remain on-scene after work hours away from the navigational channel. Work vessels may be reached on VHF-FM channel 13. The project foreman can be reached at (302) 363-1093. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area.

- **New Jersey (Central & Southern)**

Delaware River – Commodore Barry (fixed) Bridge – To facilitate painting, work will continue until 2019. Work platforms will be installed 3 feet beneath the bridge in various locations reducing the vertical clearance to 178 ft. above mean high water at the edge of the navigable channel (187 ft. center of channel). Phase 1 – NJ approach girder and deck truss spans due completion in September 2016. Phase 2 – PA approach girder and deck truss spans, scheduled to commence fall of 2016. Phase 3 – Cantilever truss span, scheduled to commence in 2017 and conclude in 2019. Mariners should exercise caution.

Drag Channel & Great Egg Harbor Bay (GEHB) – Garden State Parkway (fixed) Bridges - Marine work consisting of several activities including but not limited to temporary cofferdam construction, superstructure erection and demolition are in progress through December 2018 for the replacement of the existing southbound bridges and rehabilitation of the northbound bridges. In addition to replacing the southbound causeway, the project includes the demolition of the remaining portions of the Beesely's Point Bridge (US Route 9 over GEHB and Drag Channel). Daily hours of construction operations are Monday through Saturday from 7 a.m. to 5 p.m. with a second shift and 24-hour operations scheduled for specific activities. It is anticipated that closure or reduced horizontal clearance of the navigational channels will be required. (HP)

Great Egg Harbor Bay - Garden State Parkway (southbound) Bridge – Demolition of the old bridge will be performed from November 1, 2016 until February 28, 2018, between 7 a.m. and 4 p.m., Monday through Saturday. A second work shift and 24-hour operations may be scheduled via separate notice and broadcast notice to mariners. One to three 40-foot wide barges will be placed in the navigation span from November 21, 2016, until January 15, 2017, limiting the approximate horizontal clearance through the navigation span to between 30 feet and 110 feet. Vessels and barges will be operating and working in the area and necessary waterway closures will be scheduled via separate notice and broadcast notice to mariners. A work trestle situated at the southwest end of the Garden State Parkway Bridge erected in 2013 in connection with the construction of the new southbound structures will be used for equipment staging and debris removal. Mariners should use extreme caution when transiting the area. (HP)

Great Egg Harbor Bay - Garden State Parkway (northbound and southbound) Bridges – Construction of a new fender system will occur from April 17, 2017, until February 26, 2018, between 7 a.m. and 4 p.m., Monday through Friday. One or more barges will be placed in the navigation span adjacent to the fender system, limiting the horizontal clearance through the navigation span to approximately 90 feet. Vessels may contact the marine superintendent via VHF-FM channels 13, 16 or 9 and (609) 381-9837. Mariners should use extreme caution when transiting the area. (HP)

Great Egg Harbor Bay - Garden State Parkway (Northbound) Bridge - Maintenance will be performed from November 1, 2016, until February 28, 2018, between 7 a.m. and 4 p.m., Monday through Saturday. A second work shift and 24-hour operations may be scheduled via separate notice and broadcast notice to mariners. Bridge work will include superstructure removal and replacement, deck repair and resurfacing, parapet replacement, substructure repairs, and fender replacement. A work platform extending approximately 2 feet below low steel of the bridge will be installed over the middle portion of the bridge, reducing the vertical clearance of the navigation span to approximately 48 feet. Vessels and barges will be operating and working in the area and necessary waterway closures will be scheduled via separate notice and broadcast notice to mariners. Mariners should use extreme caution when transiting the area. (HP)

Delaware River - Interstate 276/Delaware River Turnpike Bridge - Repainting and miscellaneous improvements will be performed from mid-November 2015 through December 31, 2018. All work on the bridge superstructure will continue to be performed from 7 a.m. to 7 p.m.; M-F; and from 6 a.m. to 6 p.m. on the weekends. The repainting and miscellaneous improvements ongoing since mid-November, 2015, will be extended through to December 31, 2018. A work platform occupying approximately half of the navigation span, will continue to reduce the vertical clearance by approximately 5 feet to approximately 130 feet above mean high water. The project foreman can be contacted at 267-767-2550. Mariners should use extreme caution when transiting the area. (MT)

Manahawkin Bay (NJICW) - Route 72 Bridges – Bridge construction continues until May 2019.

The new Route 72 Manahawkin Bridge has a vertical clearance of 55 feet above mean high water and a horizontal clearance of 100 feet between fender systems. In addition to bridge construction, marine construction operations include installation and removal of work trestles, caissons and cofferdams, bridge scaffolding and false work, as well as demolition of portions of the existing bridge not utilized in the new bridges. Vessels and barges used during marine construction and will monitor VHF-FM channel 13. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Mariners should use caution when transiting the area. (MT)

NJICW (Beach Creek) - SR 147 (Beach Creek Bridge) Bridge - Maintenance will be conducted from 7 a.m. to 7 p.m.; 7 days a week; on Tuesday, October 10, 2017, through Monday, July 2, 2018. Work will consist of repair and rehabilitation of the bridge fender system. A 26 ft. work vessel and two work barges will be in and around the vicinity of the bridge. During the maintenance period, the horizontal clearance of the bridge will be reduced by approximately 20 feet to approximately 20 feet of available navigable clearance during the work hours, and will be reduced by approximately 10 feet to approximately 30 feet of available navigable clearance at all other times. Vessels that can safely transit through the reduced horizontal clearances may do so at any time. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. The work vessel and work barges may be reached on VHF-FM channel 13. The project foreman can be reached at (610) 368-3739 or (267) 907-6501. Mariners who need more than 20 feet of horizontal clearance during work hours should notify the work foreman no less than 24 hours prior to navigating through the bridge. Mariners should use extreme caution when transiting the area.

Delaware River - SR 413 (Burlington-Bristol) Bridge -Maintenance will be conducted between September 18, 2017 and March 20, 2018; from 7 a.m. to 7 p.m.; M-F and from 6 a.m. to 6 p.m. Sat-Sun; the towers of the bridge are to be cleaned and painted; No work will be done in or on the navigable portions of the bridge. The project foreman can be reached at (267)-767-2550 or (609) 381-1407. Mariners should use caution when transiting the area.

New Jersey Intracoastal Waterway (NJICW) (Cape May Canal) - SR 162 (CR 626/Seashore Road) Bridge - Maintenance to the bridge fender system, which began in October, 2017, will continue to be conducted from 6 a.m. to 11 p.m.; 7 days a week; from Monday, February 26, 2018, through Saturday, March 31, 2018, and from 6 a.m. to 6 p.m.; M-F; from Sunday, April 1, 2018, through Thursday, May 31, 2018. Work will consist of repair and rehabilitation of the bridge fender system. A 26 ft. work vessel and two work barges will be in and around the vicinity of the bridge. During the maintenance period, the horizontal clearance of the bridge will be reduced by approximately 40 feet to approximately 40 feet of available navigational clearance during the work hours, and will be reduced by approximately 10 feet to approximately 70 feet of available navigable clearance at all other times. Vessels that can safely transit through the reduced horizontal clearances may do so at any time. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. The work vessel and work barges may be reached on VHF-FM channel 13. The project foreman can be reached at (610) 368-3739 or (267) 907-6501. Mariners who need more than 40 feet of horizontal clearance during work hours should notify the work foreman no less than 24 hours prior to navigating through the bridge. Mariners should use extreme caution when transiting the area. (MT)

Musquash Brook and Shark River Bay - N-17 (East End Avenue) Bridge - Maintenance will be conducted from October 11, 2017 to May 25, 2018; Monday through Saturday, from 7 a.m. to 3:30 p.m. A work float and work vessels will be in and around the vicinity of the bridge during the work hours. The vessels and crew will not block the navigational channel. The Project Foreman can be reached at 973-621-2828 or VHF/FM CH 13. Mariners should use caution when transiting the area.

Crook Horn Creek - Roosevelt Boulevard Bridge - Maintenance will be conducted from October 9, 2017, to May 1, 2018, M-F; from 6 a.m. to 5 p.m. The bridge's vertical clearance will be reduced to 33 feet above mean high water. Maintenance personnel and equipment will be working on the surface of the bridge exclusively and will not affect the navigable waterway.

NJICW (Grassy Sound Channel) - SR 147 (North Wildwood Boulevard) Bridge - Maintenance will be conducted from 7 a.m. to 7 p.m.; 7 days a week; on Thursday, December 21, 2017 through September 30, 2018. Work will consist of repair and rehabilitation of the bridge fender system. A 26 ft work vessel and two work barges will be in and around the vicinity of the bridge. During the maintenance period, the horizontal clearance of the bridge will be reduced by 50 feet to approximately 50 feet of available navigational clearance during the work hours, and will be reduced by approximately 10 feet to approximately 90 feet of available navigational clearance at all other times. Vessels that can safely transit through the reduced horizontal clearances may do so at any time. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. The work vessel and work barges may be reached on VHF-FM channel 13. The project foreman can be reached at (610) 368-3739 or (267) 907-6501. Mariners who need more than 50 feet of horizontal clearance during work hours should notify the work foreman no less than 24 hours prior to navigating through the bridge. Mariners should use extreme caution when transiting the area.

Big Timber Creek (South Branch) - SR 42 Bridge - Maintenance will be conducted from January 30, 2018, to September 18, 2019. Work barges will be in and around the vicinity of the bridge and will not be blocking the navigable channel. The bridge has a horizontal clearance of 60 feet. The Project Foreman can be reached at 609-517-6658 or VHF/FM CH 13. Mariners should use caution when transiting the area.

New Jersey Intracoastal Waterway (NJICW) (Cape May Canal) - SR 109 Bridge - Maintenance to the bridge fender system, which began in September, 2017, will continue to be conducted from 6 a.m. to 11 p.m.; 7 days a week; from Monday, February 26, 2018, through Saturday, March 31, 2018, and from 6 a.m. to 6 p.m.; M-F; from Sunday, April 1, 2018, through Thursday, May 31, 2018. During the maintenance period from February through March, 2018, a 26-foot work vessel and two work barges will be in the vicinity of the bridge during work hours, which will reduce the horizontal clearance of the bridge to approximately 40 feet. Mariners who need more than 40 feet of horizontal clearance, should notify the work foreman no less than 24 hours prior to navigating through the bridge. The horizontal clearance of the bridge will be reduced to approximately 70 feet at all other times. Vessels who can safely transit through the reduced horizontal clearances, may do so at any time. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. The work vessel and work barges may be reached on VHF-FM channel 13. The project foreman can be reached at (610) 368-3739 or (267) 907-6501. Mariners should use extreme caution when transiting the area. (MT)

- **Pennsylvania** –

Delaware River – Walt Whitman Bridge (I-76) - Painting of the suspension spans and towers will be conducted from October 19, 2015 to March 31, 2018, between 7 a.m. and 5 p.m. daily. A work platform extending 3 feet beneath the lower portion of the bridge will be installed over the entire length of the bridge. The vertical clearance of the bridge will be reduced by 3 feet to approximately 136 feet above MHW. Mariners should use caution when transiting the area.

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- **Maryland**

Choptank River - MD 331/Dover (fixed) Bridge – Construction activities begun on September 16, 2014 and are expected to finish in November 2018. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, and vessels are operating or stationed in the vicinity of the existing and new bridge. McLean Contracting Company's tugs and vessels are monitoring VHF-FM channel 13 when work is in progress or vessels are operating in the area. The MDSHA project engineer may be contacted at (816) 989-4019 and McLean Contracting Site Supervisor may be contacted at (443) 980-7633. Mariners should use extreme caution when transiting the area. Project Information may be found at: <http://apps.roads.maryland.gov/WebProjectLifeCycle/ProjectSchedule.aspx?projectno=TA392515>

Bear Creek - I-695 Bridge - Maintenance will be conducted between Wednesday, April 19, 2017, and Thursday, May 31, 2018; Mon-Fri; from 6 a.m. to 5 p.m. Repair and rehabilitation of the bridge will require up to 30-foot-wide construction barges, and various construction craft to be working outside the navigable channel. This maintenance project is in

conjunction with the Francis Scott Key Bridge project. Periodic maintenance updates will be added into the Local Notice to Mariners. Maintenance personnel, equipment and vessels can relocate. The vessels may be reached on VHF-FM channel 13 and 16. Mariners should use caution when transiting the area.

Patapsco River - Francis Scott Key Bridge - Maintenance will be conducted between Wednesday, April 19, 2017, and Thursday, May 31, 2018; Mon-Fri; from 6 a.m. to 5 p.m. Repair and rehabilitation of the bridge will require up to four, 30-foot-wide construction barges, and various construction craft to be working outside the navigable channel. The work will also include dive operations from a 24-foot wide barge. Periodic maintenance updates will be added into the Local Notice to Mariners. Maintenance personnel, equipment and vessels can relocate. The vessel may be reached on VHF-FM channel 13 and 16. The project superintendent can be reached at (571) 422-7954. Mariners should use caution when transiting the area. (MB)

Patapsco River - Francis Scott Key Bridge - Maintenance will be conducted between Monday, April 9, 2018, and Friday, April 13, 2018; Mon-Fri; from 6 a.m. to 5 p.m. Repair and rehabilitation of the bridge will require a tug and construction barge, 120 feet long by 70 feet wide to work inside the navigable channel. The barge will be working parallel to the pier and will encroach 70 feet into the navigable channel. The tug and barge will leave the channel after each workday. Maintenance personnel, equipment and vessels can relocate with 60 minutes notice. The vessel may be reached on VHF-FM channels 13 and 16. The project superintendent can be reached at (410) 977-0028. Mariners should use caution when transiting the area. (MB)

Chesapeake Bay - US 50/US 301 (William P. Lane Jr. Memorial) (Eastern Channel) Westbound Bridge - Maintenance will be conducted from July 10, 2017, through June 20, 2019; 24 hours a day; 7 days a week. The work will involve bridge spans 44-49, broken into two phases. The first phase will commence on July 10, 2017, with spans 47-49, and the second phase for spans 44-46 (span 45 is the navigational span) will commence on a later date to be published via an updated LNM. A work platform will be attached to the underside of bridge which will reduce the vertical clearance of the bridge spans by approximately 2 feet. A barge and work vessels will be in and around the vicinity of the bridge. Work vessels may be reached on VHF-FM channel 13. The project foreman can be reached at (910) 228-9164. Mariners should use caution when transiting the area.

Severn River - US 50 Bridge - Maintenance will be conducted 24 hours, Monday-Saturday from August 7, 2017, through August 30, 2018. Two crane barges and two work boats will be in and around the vicinity of the bridge. The maintenance will require scaffolding to extend a maximum of three feet below the bridge, which will be inside the navigable channel. A minimum vertical clearance of 74.6 feet above mean high water will be attained. Mariners should use caution when transiting the area.

Patapsco River Southern Branch - I-895 Bridge - Maintenance will be conducted between September 22, 2017 through September 1, 2018; 24 hours a day; 7 days a week. The bridge superstructure will be replaced. A work vessel and several work barges will be located adjacent to the bridge. Maintenance personnel, equipment and vessels will not impede into the navigable channel. The project foreman can be reached at (443) 392-8089. Mariners should use caution when transiting the area.

Curtis Creek - I-695 Bridge - Maintenance will be performed from January 8, 2018, through November 30, 2018, 24 hours a day. During the maintenance period, barges will be placed in the navigable channel, reducing the horizontal clearance to between 128 feet and 160 feet. The bascule spans will be placed in the open-to-navigation position or opened on signal, if at least a one-hour notice is given, as provided in 33 CFR 117.557. Barges will relocate outside of the navigable channel, if at least a one-hour notice is given. Vessels may contact the project engineer at (410) 330-7332 or project manager at (410) 377-9655 concerning bridge openings and navigation safety. Vessels engaged in bridge maintenance may be contacted via VHF-FM channels 13 or 16. Mariners should use caution when transiting the area during the scheduled maintenance period.

Spa Creek - MD 181 (Sixth Street) Bridge - Inspection will be performed between February 19, 2018, and February 23, 2018, from 8 a.m. to 4 p.m. Testing of the movable span will include multiple openings. The underside of the bridge will be accessed from the top of the bridge utilizing a snooper truck. A 16-foot work boat will assist with the inspection effort; the crew will relocate from the movable span and channel upon request. The Project Foreman can be reached via VHF/FM Channel 13 or (410) 494-9093. Mariners should use caution when transiting the area. (MS)

Curtis Creek - CSX Swing Bridge - Bridge will remain in the closed-to-navigation position to facilitate installation of railroad ties across the swing span of the drawbridge. The bridge will remain in the closed position from 8 a.m. to 2:30 p.m.; Monday through Friday; from March 5, 2018, through March 30, 2018. During the closure period, the bridge will be able to open on signal, if at least one-hour notice is given. The bridge will be able to open for emergencies, if at least 15 minutes' notice is given. The bridge may be contacted at (410) 354-5593 24 hours per day. Vessels able to pass under the closed span of 13 feet above mean high water during the closure period, may do so at any time. The bridge foreman may be reached at (443) 695-0602 and on VHF-FM channels 13 and 16. Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)

Bohemia River - Maryland 213 Bridge - Bridge maintenance. The maintenance will require a 25' work vessel that will be tied-off to the bridge piers and fender system from Monday, April 16, 2018, through Friday, April 20, 2018; from 7 a.m. to 4 p.m. The vessel will be monitoring channels 16 & 13 and may be reached via telephone at 443-243-4067. The vessel can relocate with at least 30 minutes notice. Mariners should remain vigilant and use caution when transiting the area. (MB)

- **Washington DC** - None
- **Virginia (Northern)** - None

SECTOR HAMPTON ROADS

- **Virginia (Southern)**

Lynnhaven Inlet - US 60/John A. Lesner (fixed) Bridge - Work is in progress through August 30, 2019 for a new replacement bridge at essentially the same location. The new bridge will have a vertical clearance of 45 feet above MHW, along with a horizontal clearance of 150 feet between face of the fenders. A dredge material placement site will be located southwest of the existing bridge, adjacent to the boat ramp facility and used as a staging area. The contractor will access the lay down and staging area via the waterway through a proposed temporary bulkhead. (HP)

Rappahannock River - Robert O. Norris Bridge - The bridge painting maintenance which began in October, 2016, will continue to be conducted through to July 1, 2018; 24 hours a day; 7 days a week. The vertical clearance of the bridge will be reduced to approximately 106 feet above mean high water. A work platform will be attached to the bridge. Maintenance personnel, equipment, two barges and work vessels will be in the vicinity of the bridge. Quick flashing red lights will be positioned no more than 10 feet apart and on all corners, to mark the bottom of the work platform used attached to the bridge. Legible signs will be erected on the existing fender system to bring awareness regarding the reduced clearance. Work vessels may be reached on VHF-FM channel 13. The project foreman can be reached at (804) 577-0049 or (216) 235-3933. Mariners should use caution when transiting the area. (MT)

James River - I-295, Varina-Enon Bridge - Maintenance will be conducted between Monday, October 2, 2017, through Tuesday, May 01, 2018; M-F; from 9 a.m. to 5 p.m. All work will be conducted outside the navigable channel and should not interfere with vessels within the navigable channel. No vertical or horizontal restrictions are anticipated. Mariners should remain vigilant and use caution when transiting the area.

Elizabeth River - I-64 High Rise Bridge - Maintenance will be conducted from July 31, 2017 to March 2, 2018; 7 days a week from 7 a.m. to 5 p.m. Repair and rehabilitation of the bridge will occur. A barge and work boats will be in and around the vicinity of the bridge. The work barge will reduce the horizontal navigational clearance to 70 feet for the duration of the project. Maintenance personnel, equipment and vessels will relocate from the navigable channel with 24-hour advanced notice for mariners that require additional clearance to navigate safely through the bridge. Work vessels may be reached on VHF-FM channel 13. The project foreman can be reached at (813) 347-2134. Mariners should use caution when transiting the area. (MS)

SECTOR NORTH CAROLINA

- **North Carolina**

Gallants (Beaufort) Channel – US 70/Grayden Paul (fixed) Bridge – Work is in progress through October 31, 2017, for construction of a high-level fixed bridge relocated between Radio Island and Michael J Field in Carteret County. When completed, the new high-level fixed bridge will have a vertical clearance of 65 feet above MWH, along with a horizontal clearance of 100 feet between pile bents. The construction operation will include in-water work involving pile driving, concrete placement, girder setting, and concrete deck installation with post tensioning. Tugboats and barges will be used and will monitor VHF channel 13 in the event that mariners need to contact the contractor. Waterway closures are being planned. (HP)

Oregon Inlet - Herbert C. Bonner Bridge – Construction activities for the replacement bridge will begin on March 7, 2016 and are expected to finish on August 30, 2019. Work will be on-going 24-hours per day, seven days a week. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge. A work trestle/loading dock will be constructed approximately 200 yards south of the southeastern end of the existing Bonner Bridge, on the southwest side of South Point in Pamlico Sound, extending 150 feet southwestly from the shoreline and terminate at approximately 35.766 N, 75.526 W. Running parallel to the dock will be a 245-foot breast-line comprised of eight 36-inch hollow pipe piles spaced fifty feet apart, to be used for mooring purposes. The breast-line will begin near shore and terminate at approximately 35.765N, 75.527 W. Each pile will be lit by a flashing white light. PCL Civil Constructors tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at <http://www.ncdot.gov/projects/bonnerbridgereplace/>.

Atlantic Intracoastal Waterway (Alligator River) - US 64 (Alligator River Bridge) - Maintenance will be conducted Monday-Saturday from July 17, 2017 through July 17, 2018, from 6:30 a.m. to 6 p.m. A crane barge and work boats with divers will be in and around the vicinity of the bridge. Maintenance personnel, equipment and vessels will relocate from the moveable span and navigable channel, upon request. Work vessels may be reached on VHF-FM channel 16. The project foreman can be reached at (919) 437-4763 or (757) 449-4652. Mariners should notify the work foreman no less than one hour prior to navigating through the area and should use extreme caution when transiting the area.

Atlantic Intracoastal Waterway (Alligator River) - US 64 (Alligator River Bridge) - be maintained in the closed-to-navigation position to facilitate bridge maintenance from 7 a.m. to 7 p.m., on Wednesday, December 27, 2017, through Saturday, December 30, 2017; Monday, January 1, 2018, through Saturday, January 5, 2018; and Monday, January 8, 2018, through Tuesday, January 9, 2018. During these closure periods the bridge will open on signal, if at least 2 hours notice is given. The bridge will also remain in the closed-to-navigation position 24 hours a day, 7 days a week, from 6 a.m. on Wednesday, January 10, 2018, through 6 p.m. on Wednesday, January 17, 2018; and from 6 a.m. on Wednesday, March 14, 2018, through 6 p.m. on Wednesday, March 21, 2018. Alternative work dates for these closure periods will be from noon on Thursday, January 18, 2018, through 6 p.m. on Wednesday, January 24, 2018; and from noon on Thursday, March 22, 2018, through 6 p.m. on Thursday, March 29, 2018. If the alternative work dates from noon on Thursday, January 18, 2018, through 6 p.m. on Wednesday, January 24, 2018, are used, the bridge will also remain in the closed-to-navigation position from 7 a.m. to 6 p.m., Monday through Saturday, from January 22, 2018, through March 14, 2018, except for scheduled daily openings at noon, if at least 2 hours notice is given. If the alternative work dates from noon on Thursday, January 18, 2018, through 6 p.m. on Wednesday, January 24, 2018, are not used, the bridge will also remain in the closed-to-navigation position from 7 a.m. to 6 p.m., Monday through Saturday, from January 17, 2018, through March 14, 2018; except for scheduled daily openings at noon, if at least 2 hours notice is given. Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. During the 24-hour closure periods, the bridge will not be able to open for emergencies and the Croatan Sound to the Pamlico Sound can be used as an alternative route for vessels unable to pass through the bridge in the closed position. During the closure periods with scheduled openings at noon, the bridge will be able to open up for emergencies, if at least one hour notice is given. During the bridge maintenance, a barge will be placed in one navigation span and the other navigation span will be open for vessels to transit through the bridge. The bridge has a vertical clearance of 14 feet above mean high water in the closed position and a horizontal clearance of 100 feet in each navigation span. Work vessels may be reached on VHF-FM channel 16 and the project foreman may be reached at (919) 437-4763 or (443) 790-8905. Mariners should navigate the waterway with extreme caution and due regard

for prevailing conditions on the waterway. All others should adjust their transits accordingly and use caution when transiting the area.

Currituck Sound - US 158 (Wright Memorial) Bridge - Maintenance will be conducted from 7 a.m. to 7 p.m.; 7 days a week; from October 03, 2017, through December 1, 2018. A 40 ft. barge, several work boats, several work platforms and a team of divers will be in and around the vicinity of the bridge. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channels 13 and 16. The project foreman can be reached at (252) 340-2471 or (936) 404-9514. Mariners should notify the work foreman no less than one hour prior to transiting through the bridge and should use caution when navigating the area.

Roanoke River - NC 45 Bridge – Fender maintenance will be conducted between Monday, December 04, 2017, through Thursday, April 5, 2018; M-F; from 7 a.m. to 6 p.m. All work will be conducted outside the navigable channel and should not interfere with vessels within the navigable channel. No vertical or horizontal restrictions are anticipated. Mariners should remain vigilant and use caution when transiting the area. (MB)

FUTURE PROJECTS:

Permits/Construction:

SECTOR DELAWARE BAY

- *Delaware* – None
- *New Jersey (Central & Southern)* - None
- *Pennsylvania* – None

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- *Maryland*
Potomac River - Theodore Roosevelt (fixed) Bridge - DDOT is conducting an investigation and assessment of the bridge, which will be completed winter of 2015. They'll assess structural condition, needs for extended life cycle, and safety compliance improvements. Then will do a design analysis of alternatives with construction in the future (no date given).
- *Washington, DC* –
Anacostia River – 11th Street Bridge Park – Proposed fixed pedestrian bridge park to be built on retained substructure of old 11th Street Bridge. (HP)

SECTOR HAMPTON ROADS

- *Virginia (Southern)* – None

SECTOR NORTH CAROLINA

- Mid-Currituck Sound (fixed) Bridge – Proposed new fixed structure.
- Perquimans River – US 17 business (fixed) Bridge – Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package. (HP)
- Alligator River – US 64 (fixed) Bridge Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package.
- Cape Fear River – Wilmington bypass south (fixed) Bridge Proposed new fixed bridge structure in review of the design and environmental package. (HP)

SUMMARY OF DREDGING/MARINE CONSTRUCTION PROJECTS CURRENTLY IN PROGRESS

****DREDGING AND MARINE CONSTRUCTION CAUTIONS****

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted 24 hours a day, 7 days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

NJ – MANASQUAN INLET TO BARNEGAT INLET – BEACHFILL OPERATIONS

Staging area updated.

Continuing until approximately **30 Nov 2018** the hopper dredge R.N. WEEKS and attendant plant will be operating approximately 2 miles offshore of Mantoloking Beach and Seaside Heights Beach, Ocean County, NJ.

Work limits for Borrow Area B is bound by the following approximate positions:

NJ – HARVEY CEDARS – SURT CITY – BRANT BEACH – LONG BEACH ISLAND – FLOOD CONTROL AND COASTAL REPAIR

Starting approximately 10 March and continuing until approximately **15 Jun 2018** the hydraulic dredge R.S. WEEKS/hopper dredge MAGDALEN and attendant plant will be operating 3 nautical miles offshore of Long Beach Island, NJ.

Work limits for borrow area will be the perimeter bound by the following approximate positions:

39°40'6.56"N, 74° 5'25.27"W
39°41'35.68"N, 74° 3'41.52"W
39°40'48.98"N, 74° 2'27.00"W
39°39'18.71"N, 74° 4'7.23"W

The staging area will be located between the following approximate positions at Barnegat Inlet:

39°46'6.66"N, 74° 7'11.88"W
39°46'6.36"N, 74° 6'57.60"W
39°45'37.26"N, 74° 7'8.70"W
39°45'37.98"N, 74° 6'52.50"W

Pipeline corridors will be bound by the following approximate positions while pumping at Brant Beach:

39°37'39.06"N, 74°11'19.16"W
39°37'0.06"N, 74° 9'52.65"W
39°37'0.92"N, 74° 9'52.00"W
39°37'40.79"N, 74°11'17.50"W

Once underway, dredging operations will continue a twenty-four (24) hours per day, seven days per week basis. Dredge and attendant plan will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

Chart 12324

Pipeline corridors will be bound by the following approximate positions while pumping at Harvey Cedars:

39°41'5.68"N, 74° 8'40.58"W
39°40'16.97"N, 74° 4'27.78"W
39°40'17.93"N, 74° 4'27.47"W
39°41'6.64"N, 74° 8'40.27"W

Pipeline corridors will be bound by the following approximate positions while pumping at Surf City:

39°40'8.53"N, 74° 9'24.00"W
39°40'40.53"N, 74° 6'29.94"W
39°40'16.97"N, 74° 4'27.78"W
39°40'17.93"N, 74° 4'27.47"W
39°40'41.55"N, 74° 6'29.93"W
39°40'9.54"N, 74° 9'24.17"W

******NJ - BRIGANTINE INLET TO GREAT EGG HARBOR INLET – FLOOD CONTROL AND COASTAL REPAIR******

Continuing until approximately **30 April 2018** the hydraulic dredge E.W. ELLEFSEN and attendant

plant will be operating in the vicinity of Brigantine Inlet.

Work limits for borrow area will be bound

by the following approximate positions:

39°26'52.73"N, 74°17'47.76"W

39°27'16.48"N, 74°19'23.21"W

39°26'39.05"N, 74°19'37.27"W

39°26'5.62"N, 74°18'10.83"W

The staging area will be located between the

following approximate positions.

1) 39 26 26.5968 N, 074 19 10.1012 W

2) 39 26 39.6802 N, 074 18 59.5044 W

3) 39 26 31.1711 N, 074 18 40.5867 W

4) 39 26 17.8159 N, 074 18 50.5786 W

Once underway, dredging operations will continue a twenty-four (24) hours per day, seven days per week basis. Dredge and attendant plan will monitor marine VHF channels 13 and 16.

Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

Chart 12318

Pipeline corridors will be bound by the following approximate positions.

5) 39 26 27.6241 N, 074 18 59.2321 W

6) 39 26 26.5123 N, 074 18 57.1326 W

7) 39 25 13.6202 N, 074 20 9.3984 W

8) 39 25 12.5155 N, 074 20 7.4202 W

9) 39 25 4.302 N, 074 20 7.0123 W

10) 39 25 0.0937 N, 074 21 8 W

NJ – LITTLE EGG HARBOR TO CAPE MAY – BEACH NOURISHMENT

Continuing until approximately **30 April 2018** the Hopper Dredge B.E. LINDHOLM will be operating 4.5 nautical miles offshore of Longport Beach, NJ.

Staging Area #1 will be located between the following approximate positions: 39°22'41.93"N/ 74°24'48.90"W and 39°22'32.03"N/ 74°24'37.66"W

Staging Area #2 will be located between the following approximate positions: 39°23'48.89"N/ 74°25'51.98"W and 39°23'32.55"N/ 74°25'40.73"W

Proposed Pipeline corridors will be bound by the following approximate

positions:

PL Corridor #1:

39°19'51.64"N/ 74°29'19.08"W

39°18'34.71"N/ 74°28'19.60"W

39°18'28.87"N/ 74°28'29.57"W

39°19'44.89"N/ 74°29'31.86"W

PL Corridor #2:

39°18'41.20"N/ 74°31'22.69"W

39°17'36.63"N/ 74°30'15.98"W

39°17'41.91"N/ 74°30'05.96"W

39°18'49.63"N/ 74°31'10.20"W

Once underway, dredging operations will continue a twenty-four (24) hours per day, seven days per week basis. Dredge(s) and attendant plan will monitor marine VHF channels 13 and 16.

Chart 12316

Work limits for borrow area "H"

will be bound by the following

approximate positions:

39°19'20.25"N/ 74°25'3.57"W

NJ – INTRACOASTAL WATERWAY – MANASQUAN RIVER TO CAPE MAY CANAL – MANAHAWKIN BAY – BRIDGE CONSTRUCTION

A construction firm, on behalf of the NJ DOT will continue marine construction in the vicinity of the existing and new Route 72 Bridges over Manahawkin Bay, at NJICW mile 37.4, in Ship Bottom, Ocean County, NJ until **May 2019**. The new Route 72 Manahawkin Bridge has a vertical clearance of 55 feet above MHW and a horizontal clearance of 100 feet between fender systems. Operations include installation and removal of work trestles, caissons and cofferdams, bridge scaffolding and false work, as well as demolition of portions of the existing bridge. Vessels may contact the demolition crew supervisor at (732) 751-2088 or (732) 751-2020. Vessels and barges will monitor VHF-FM channel 13.

Chart 12234

NJ – GREAT EGG HARBOR BAY – DRAG CHANNEL - BRIDGE CONSTRUCTION & DEMOLITION UPDATE

Marine work consisting of cofferdam construction, superstructure erection and demolition are in progress through **Dec 2018** for the replacement of the southbound bridges and rehabilitation of the northbound bridges of the Garden State Parkway. Ref LNM 03/16

Chart 12316

NJ – NEW JERSEY INTRACOASTAL WATERWAY – STONE HARBOR – CAPE MAY LEWES FERRY CHANNEL – DREDGING

On Mar 5, 2018, the dredge FULLERTON will proceed to conduct work at the Cape May Lewes Ferry Channel until **Apr 15, 2018**. The Dredge FULLERTON will be monitoring VHF-FM channel 13 and 16. Ref LNM 08/18

Chart: 12316

NJ – SALEM RIVER – DREDGING

H & L Contracting will be conducting dredging operations in the Salem River, NJ from 1 Mar to **15 Apr 2018**. There will be two points where submerged pipeline will be crossing the main navigational channel. These locations of submerged pipeline will be at: Salem River 39°34'08"n; 75°30'21"w and at the Fort Mott Ferry Dock 39°36'03"n; 75°33'18"w. All marine equipment operators will be monitoring VHF-FM channel 63, 16 and 13. Vessels are requested to transit with no wake when passing the dredge and dredge equipment. Dredge and work vessels will monitor vhf-fm channel 13 and 16. Mariners are advised to proceed with caution when transiting the area. Ref LNM 09/18

Chart 12277

PA – NJ – DELAWARE BAY AND RIVER – MIAH MAULL TO LISTON RANGE – DREDGING

The Dutra dredge PAULA LEE will be performing dredging operations beginning in Miah Maull working north to Liston Range, in the Delaware Bay and River, from Mar 10 thru **Jun 31, 2018**. The clamshell dredge will be dredging the main navigational channel beginning on the red side of the channel working north and then south on the green side of the channel. The dredge PAULA LEE will be able to move for vessel traffic. Vessels should contact the dredge 30 minutes prior to arrival to make safe passing arrangements. VHF-FM channel 14 and 82. Ref LNM 11/18

Chart 12304

PA – NJ – DELAWARE RIVER - BILLINGSPOUR RANGE PBF LOGISTICS PAULSBORO DOCK - REPAIRS

Commerce Construction Corporation will be performing dock repairs at PBF Logistics at their Paulsboro NJ dock, located along the NJ side of the Billingsport Range. A Commerce Crane and support barge will be positioned on the inshore side of the PBF logistics dock from approx. Feb 5 thru approximately **Apr 30, 2018**. Work will also be performed along the out shore edge of the dock for approx. 3 weeks starting the week of Feb 26, 2018. No work is planned in the channel. For more information, contact Chris Spence at 856-373-8595 or cms@commerceconstruction.com. Ref LNM 08/18 Chart 12312

PA – NJ – WILMINGTON TO PHILADELPHIA – GIBBSTOWN - DREDGING - MARINE DEMOLITION - WHARF CONSTRUCTION

Weeks Marine, Inc. will begin the dredging and construction for the Repauno Marginal Wharf on or about Dec 1, 2017 and will be completed on or about **Sep 15, 2018**. Dredging and demolition will commence in early Dec followed by the pile driving and construction of the new wharf. Equipment will be in place 24 hours a day and 7 days a week, work will be conducted during various times based on the tide and weather. For more information contact Weeks Marine, Tyler Drapeau at 908-290-7737. Ref LNM 47/17 Chart 12312

DE – INDIAN RIVER – DREDGING

Delaware DNREC will be conducting dredging operations Oct 17, 2017 until **31 Mar 2018** in Indian River near the town of Millsboro, DE. The project area will begin approximately 300 yards east of the Hunters Point Community at approximately 38-35-39.89N, 75-17-02.48W and extend approximately 2,000 feet east to 38-35-29.11N, 75-16-39.56W. The dredge will be working on the shoal areas between channel markers 73 and 74, as well as 73A and 74A. Ref LNM 42/17 Chart 12216

MD – UPPER POTOMAC RIVER - ANACOSTIA RIVER – MARINE CONSTRUCTION OPERATIONS

Marine Technologies Inc. will be conducting marine construction operations along the eastern shoreline of the Anacostia River at Joint Base Anacostia-Bolling until **20 Apr 2018**. Work will be conducted Mondays through Fridays, from 6 a.m. to 3 p.m., daylight permitting, and with weekends as weather makeup days. The project consists of relocating the existing NuStar Energy fuel pier and loading platform at the north end of Joint Base Andrews downstream to approximate position 38°52'02.1 N, 077°00'16.2 W. Mariners may contact the tugs SPIRIT or JEZEBEL via marine band radio VHF-FM channels 16 and 13, or Marine Technologies Inc. at 410-355-2000. Ref LNM 52/17 Chart 12289

MD – TILGHMAN ISLAND – KNAPPS NARROWS – DREDGING

Southwind Construction Company dredge JENNI LEA II, tenders ANN KAY and DANNY JOE will be conducting dredging operations in Knapps Narrows beginning 12 Mar and continuing until approximately **22 Apr 2018**. Floating rubber and polyethylene pipeline associated with dredging operation will traverse north/northwesterly from the Federal Channel of Knapps Narrows through the shallow waters of Back Creek to the adjacent Upland Fill Placement Area. Pipeline and all floating plant will be visibly lighted and marked with floating buoys in accordance with Coast Guard regulations. Mariners are urged to use extreme caution in the area, transit at their slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made with dredge. For more information, contact Mike Will at 812-483-1528 or Chris Barton at 812-454-7114. Ref LNM 09/18 Chart 12266

MD – CHOPTANK RIVER – U of M CENTER FOR ENVIRONMENT SCIENCE – JETTY CONSTRUCTION

Central Marine Construction will be constructing a stone jetty along the east shoreline of the Choptank River near Horn Point at the University of Maryland Center for Environmental Science, 2020 Horns Point Rd, Cambridge, MD in approximate position 38 35 20N, 76 07 52W. Construction is expected to begin on 24 Oct 2017 and continue through **30 Mar 2018**. Contact Charlie Young, Central Marine Construction, 410-320-7030 for any question. Ref LNM 42/17 Chart 12266

MD – SMITH ISLAND – BIG THOROFARE – DREDGING

Vortex Marine Construction will be conducting dredging operations in Big Thorofare, North West and South East of Ewell, in the vicinity of Ewell and Twitch Cove entrance channel South East of Smith Island. Dredging will start the second week of Oct and is expected to continue until **Apr 2018**. The dredge VORACIOUS with the tugboats BABE and AMITY, survey boat JOEY and crew boat ACE will be in the area and can be reached on VHF-FM Channel 13. MD – CHESAPEAKE BAY – POPLAR ISLAND EXPANSION PROJECT

Beginning on 4 Dec 2017, The Wesson Group will commence construction of several breakwater and dikes on the northern part of Polar Island. The project work will extend 1NM north of the island and will be approximately one-half nautical mile in width running east & west. From 4 Dec 2017 to **1 Jul 2019** multiple tugs, work vessels, and barges will be on scene conducting construction of the break waters and dikes. Mariners are advised to maintain a minimal wake and use caution when transiting the area. The on-site project manager, Mike Delaney, can be reached at (518) 332-8430. All on-scene vessels may be contacted via VHF Channel 16. Ref LNM 47-17 Chart 12266

MD – CHESAPEAKE BAY - COVE POINT TO SANDY POINT – CHESAPEAKE CHANNEL – DREDGING OPERATIONS

Dredging operations are scheduled in the Chesapeake Bay at Kent Island, MD until **March 31, 2018**. The dredging will be conducted at the Matapeake Marine Terminal Entrance Channel near Stevensville, Queen Anne's County, MD. Marine equipment on site includes an ELLICOTT 370 dredge, anchor barge, three small work skiffs, and approximately 2,000 feet of pipeline, which will be continuously marked with orange buoys. Contact the Southern Maryland Dredging, Inc. dredge on marine band radio VHF-FM channels 08, 13 and 16. Ref LNM 10/18 Chart 12263

MD - CHESAPEAKE BAY - COVE POINT TO SANDY POINT - BRIDGE REHABILITATION CONTINUES AT THE WILLIAM P. LANE JR

An engineering firm, on behalf of Maryland Transportation Authority, will be performing maintenance at US 50/US 301 (William P. Lane Jr. Memorial) (eastern channel) westbound bridge, over Chesapeake Bay, mile 138.1, near Stevensville, MD. The maintenance will continue through **June 20, 2019**; 24 hours a day; 7 days a week. A work platform will be attached to the underside of bridge which will reduce the vertical clearance of the bridge spans by approximately 2 feet. To facilitate the work, a barge will be anchored between bridge piers 47 and 48 outside the eastern channel in approx posit 38-59.264N, 076-21.264W. Work vessels may be reached on vhf-fm channel 13. The project foreman can be reached at (910) 228-9164. Ref LNM 39/17 Chart 12270

MD – BALTIMORE HARBOR – DUNDALK CHANNEL – DREDGING

McLean Contracting Company will be conducting dredging operations in Dundalk East Federal Channel & Dundalk Marine Terminal Berths 7-10 & 11-13, Patapsco River, in approximate position 39°14' 20" N, 76°31' 58" W. Dredging will be conducted from 15 Nov 2017 to **15 Jun 2018**, 24 hours a day, seven days a week. The vessels WHIRLEY CURTIS BAY, WHIRLEY NEWPORT NEWS and Barge # SC130 will be on scene and may be contacted on VHF-FM channel 16 and 13. For more information, contact John Hackmann, Superintendent at 443-623-8412 or Keith Aschenbach, Area Construction Manager, 410-215-3579.

SUMMARY OF MARINE EVENTS AND FIREWORKS DISPLAYS IN THE FIFTH COAST GUARD DISTRICT

MD – VA - POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – UPPER POTOMAC RIVER - LITTLE HUNTING CREEK – FIREWORKS DISPLAY

A short-duration, aerial fireworks display is scheduled to occur on the Potomac River on **April 8, 2018**, at 9:30 p.m. Mariners are urged to use caution when transiting the area, and absent specific guidance, reminded to heed the directions of patrolling law enforcement and public safety officials, and absent specific guidance, should remain 500 feet from the fireworks barge located near the grounds of George Washington's Mount Vernon Estate and Gardens, in approximate position latitude 38°42'22.4" N., longitude 077°04'59.5" W., near Little Hunting Creek LB 4 (LLNR 18430). For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Chart 12289

****MD – DC – VA - POTOMAC RIVER - MATTAWOMAN CREEK TO GEORGETOWN - UPPER POTOMAC RIVER – NATIONAL HARBOR CHANNEL – FIREWORKS DISPLAY****

A short-duration aerial fireworks display is scheduled to occur on the Potomac River at National Harbor, MD on **April 14, 2018** (no rain date), at approximately 9:30 p.m. The fireworks will be launched from a floating platform (pontoon boat) located approximately 175 yards from the grounds of the Gaylord National Resort & Conference Center, in approximate position latitude 38° 47' 02" N, longitude 077° 01' 13" W. Mariners are urged to use caution when transiting the area, and heed the directions of patrolling law enforcement and public safety officials. Absent specific guidance, mariners should remain 100 yards from the fireworks discharge site. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone (410) 576-2674 or (410) 576-2693. Chart 12289

****MD – CHESAPEAKE BAY – SEVERN RIVER - ROWING COMPETITION****

An annual intercollegiate rowing competition is scheduled to occur on the Severn River at Annapolis, MD on Saturday, **April 14, 2018**, from 6:25 a.m. to 9:30 a.m. Up to 100 participants (in 64-foot long rowing shells) will race in heats along a 2,000-meter marked rowing course is located between Severn River Light 2 (LLN-19945) and the entrance to College Creek; an alternate course, if necessary, is located between Severn River Light 2A (LLN-19950) and Severn River Light 2 (LLN-19945). Mariners are urged to use caution and remain alert for other watercraft when transiting the area, proceed at the minimum speed necessary to maintain a safe course that minimizes wake while operating near the race course, and heed the directions of official patrol vessels, which can be contacted on marine band radio VHF-FM channel 16. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2674 or (410) 576-2693. Charts 12282, 12283

MD – CHESAPEAKE BAY – BALTIMORE HARBOR – BALTIMORE INNER HARBOR – ANNUAL WATERFRONT LIGHTS FESTIVAL

The annual "Light City" festival is scheduled to occur in Baltimore's Inner Harbor nightly during **April 02-25, 2018**. The festival includes lighted art displays and sculptures on both land and water. On water displays will be located between Inner Harbor Piers 4 and 5 (3 displays) and Inner Harbor Piers 5 and 6 (1 display), tethered in place to both sides of the piers. To facilitate the displays of floating art installations between the pier areas, a line of white floating markers will be installed between the pier heads of Inner Harbor Piers 4 and 5, and Inner Harbor Piers 5 and 6, limiting boating access to on-water display area. Mariners are urged to use extreme caution when transiting the area. Questions regarding the event should be directed to the Festival Coordinator via telephone at (410) 752-8632 or email at AMolese@promotionandarts.org. Chart 12281
