LOCAL NOTICE TO MARINERS

District: 5

COASTAL WATERS FROM SHREWSBURY RIVER, NEW JERSEY TO LITTLE RIVER, SOUTH CAROLINA

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at https://www.navcen.uscg.gov/.

If you have questions about the Fifth Coast Guard District Local Notice to Mariners (LNM), please contact:

COMMANDER
FIFTH COAST GUARD DISTRICT (dpw)
431 Crawford Street
Portsmouth, Virginia 23704

or for correspondence and article requests:
ward.b.posey@uscg.mil, (757) 398-6229 and CGDSWaterways@uscg.mil

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

AIDS TO NAVIGATION DISCREPANCY REPORTING

To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:

1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR MARYLAND - NATIONAL CAPITAL REGION at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR VIRGINIA at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

NEW OR UPDATED INFORMATION IN THE LOCAL NOTICE TO MARINERS

****ESTABLISHMENT - SHIPPING SAFETY FAIRWAYS ALONG THE ATLANTIC COAST****

The Coast Guard seeks comments regarding the possible establishment of Shipping Safety Fairways along the Atlantic Coast of the United States identified in the Atlantic Coast Port Access Route Study. This potential system of fairways is intended to ensure that traditional navigation routes are kept free from obstructions that could impact navigation safety. Comments and related material must be received by the Coast Guard on or before August 18, 2020. Please use the link below to see the entire Advance notice of proposed rulemaking.

LNM: 25/20

****VA – OFFSHORE - VIRGINIA BEACH – UNCHARTED CABLE****

There is an uncharted, buried fiber-optic submarine telecommunications cable leading from a shore landing point at approximately 36 49.2431N, 75 58.49872W, near the Croatan Parking Lot, eastward approximately 32 km to 36 49.3891N, 75 36.3147W. The newly laid cable runs from the Virginia Beach coastline in an east-northeast direction roughly parallel and just to the north of two existing and currently charted cables MAREA and BRUSA s1. Vessels are requested to anchor at a minimum 500 m from the cable. For more information or if you think you have snagged the cable, maintain your position and contact: SubCom GTSC/NOC Hotline: 732-578-7474 (Press #3), Email: rrapp@subcom.com. For a chartlet showing the approximate location of the cable see Enclosure 11.

LNM: 19/20

Charts: 12200 12204 12207 13003
ThayerMahan, Inc. autonomous, unmanned maritime vehicle (Wave Glider-WG) will be transiting from approximately 100 NM East of Port Canaveral, FL to about 100 NM East of Cape May, NJ. The transit will commence on or about 27 May, 2020 and is expected to terminate on or about 27 August, 2020. 24/7 operations consist of scientific ocean data collection. The Wave Glider carries no fuel, lubricants or hydrocarbons. It is wave powered and remotely attended from the ThayerMahan Operations Center, moving at speeds of about 1kt, and is designed to automatically give way if encountered by a vessel transmitting AIS. It is approximately 6.5' x 2' (surfboard size), copper in color, with a contact plaque and mast extending 3' above the water surface. Mariners are requested to transit the area with caution. For more details, contact the ThayerMahan Operations center at 860-969-3171.

Charts: 12200 12300

Liquid Robotics (www.liquid-robotics.com) will conduct continuous autonomous, unmanned maritime vehicle operations from 23 March through 31 July 2020, within five miles of the line between the following two coordinates:

40° 4’ 37.0236” N, 66° 27’ 28.6626” W (40.076950714504356, -66.45796175781251)

36° 48’ 29.2032” N, 73° 16’ 29.9208” W (36.80811204342956, -73.27497835937501)

Operations consist of scientific ocean data collection. Wave Gliders carry no fuel, lubricants, or hydrocarbons, are wave powered, remotely attended from our Wave Glider Operations Center (WGOC), moving at speeds of typically 1kt, and designed to give way or part if encountered by a vessel. They are surfboard size, black in color, with a contact plaque. Mariners are urged to transit the area with caution. For up-to-date information, mariners can contact Liquid Robotics Operations Center at +1 408 636 4205, or by email at support@liquid-robotics.com.

Charts: 12200 12300

UPDATED. An outbreak of respiratory illness caused by a novel COVID-19 continues to affect mariners and maritime commerce. Vessel arriving to or traveling between any U.S. port or place must follow reporting and infection control measures to maintain the safety of personnel onboard vessels as well as within the port.

Vessel Reporting Requirements:

Illness of a person aboard any vessel that may adversely affect the safety of a vessel or port facility is a hazardous condition per 33 CFR 160.216 and must be reported immediately to the U.S. Coast Guard Captain of the Port (COTP). Cases of persons who exhibit symptoms consistent with COVID-19 must be reported to the COTP. This requirement is separate and additional to any other required Coast Guard or Center for Disease Control and Prevention (CDC) reporting, and applies to vessels departing from or arriving to any port or place in the U.S., includes internal waters, the territorial seas, and deep water ports. In addition to Coast Guard reporting requirements, 42 CFR 71.21 requires vessels destined for a U.S. port to report to the Center for Disease Control and Prevention (CDC) any sick or deceased crew/passengers during 15 days prior to arrival at the U.S. port. Guidance to vessels to report deaths and illnesses to the CDC can be found at: Cargo vessels and Cruise ships. U.S. flagged commercial vessels are also advised to report ill crewmembers in accordance with the requirements of each foreign port called upon. Further, 42 CFR 70.4 states the master of any vessel or person in charge of any conveyance engaged in interstate traffic, on which a case or suspected case of a communicable disease develops shall, as soon as practicable, notify the local health authority at the next port of call, station, or stop, and shall take such measures to prevent the spread of the disease as the local health authority directs. See Headquarters MSIB 06-20, (or Sector Virginia MSIB 20-063) "Vessel Reporting Requirements for Illness or Death", for further information.

Vessel Control Actions:

Presidential Proclamations have placed entry restrictions from persons arriving from or through the following countries: Iran, China (excluding Hong Kong and Macau), the European states within the Schengen Area (Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Switzerland), United Kingdom and Republic of Ireland.

Non-passenger Commercial Vessels: Non-passenger commercial vessels that have been to the countries noted above or embarked crewmembers from the countries noted above within the last 14 days, with no sick crewmembers, will be permitted to enter the U.S. and conduct normal operations, provided that crewmembers remain aboard the vessel except to conduct specific activities directly related to vessel cargo or provisioning operations. U.S. citizens or any other persons listed in Section 2 of Presidential Proclamation "Suspension of Entry as Immigrants and Nonimmigrants of Certain Additional Persons Who Pose a Risk of Transmitting 2019 Novel Coronavirus", for example crewmembers with a transit and/or crewmember visa, may be permitted to disembark the vessel to conduct vessel operations pier side or for the immediate and continuous transit through the U.S. to another country. When entering the U.S. all persons must be cleared by Customs and Border Protection (CBP) and, if applicable, CDC. Crewmembers without the appropriate visas will generally be required to remain onboard unless otherwise cleared for entry by CBP and, if applicable, CDC. Non-passenger commercial vessels that have been to the countries noted above or embarked crewmembers from the countries noted above within the last 14 days, and do have sick crewmembers should expect delays and need to work with local health and port officials prior to entry.

Passenger Vessels: On April 15, 2020, the CDC updated their existing No Sail Order. This Order will remain in effect until the Secretary of Health and Human Services’ declaration that COVID-19 constitutes a public health emergency, the CDC Director rescinds or modifies the order based on specific public health or other considerations, or 100 days from the date publication in the Federal Register. This renewed order requires all cruise ship operators to provide "an appropriate, actionable and robust plan to prevent, mitigate, and respond to the spread of COVID-19 on board cruise ships" prior to operating in waters subject to U.S. jurisdiction. In addition to the plan, there are further restrictions.

LNM: 17/20
NC - HAZARDS OF NORTH CAROLINA COASTAL INLETS
Hazardous inlets. To heighten public awareness about the hazards that exist in and around the North Carolina, this information is provide to mariners. Shoaling conditions exist at following North Carolina coastal inlets:

- Oregon Inlet
- Hatteras Inlet
- Ocracoke Inlet
- Barden Inlet
- Beaufort Inlet
- Bogue Inlet
- New River Inlet
- Topsail Inlet
- Masonboro Inlet
- Carolina Beach Inlet
- Lockeoods Folly Inlet
- Shallotte Inlet

Shoaling conditions increase the potential for groundings. These inlets are subject to continual and sometimes rapid environmental changes. Mariners are highly encouraged to obtain the most recent U.S. Army Corps of Engineers Wilmington, North Carolina District hydrographic survey information, centerline waypoints and controlling depth at:

Mariners should use caution when navigating in these areas and passage through the inlets is not recommended without local knowledge of the area. The aids to navigation in these inlets may not be charted and may not be marking best water due to continually shifting shoals. Consult Local Notice to Mariners, 5th Coast Guard District for the latest positions and status of aids to navigation:

https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=5

To report any aids to navigation discrepancies (missing, damaged, off station, extinguished lights), shoaling, hazards to navigation, or discrepancies on bridge lighting, please contact Sector North Carolina Command Center (910) 343-2200.

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION
The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close abord always risks collision with a yawing buoy or with the obstruction the buoy marks.

INTERFERENCE WITH AIDS TO NAVIGATION
14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, wilfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than $1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE
The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.

http://www.cgaux.org/boatinged/class_finder/index.php

WESTERN ATLANTIC AND U.S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA)

All mariners are advised of the special protections provided to sunken military craft by the "Sunken Military Craft Act" (SMCA) (Public Law 108-375). Along the U.S. East Coast, and particularly off North Carolina, there are many sunken U.S. and foreign military craft. Sunken military craft may be the final resting place of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U.S. law, sunken foreign military craft, including those located in U.S. waters, remain the property of their respective country's government. Sovereign immune vessels, such as military crafts, are afforded protections under U.S. and international law. Included among these vessels are at least three known sunken German submarines (commonly called U-boats) located in waters off the North Carolina coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft except as authorized by law. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both
SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS
The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER
The United States Coast Guard Navigational Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information on GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar (NANU). These notices can also be obtained via e-mail subscription through the USCG Navigation Center website (https://www.navcen.uscg.gov/gps/status/default.htm). In addition, the NIS investigates all reports of degradation or loss of GPS and DGPS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: Phone: 703-313-5900, Email: webmaster@navcen.uscg.mil or on the World Wide Web at https://www.navcen.uscg.gov.

BROADCAST NOTICES TO MARINERS
Broadcast Notices to Mariners (BNMs) that are still in effect at the date of this publication.
Sector Delaware Bay (DB) - 121, 124, 129, 130, 131, 132, 133, 135, 136, 139-20.
Sector Virginia (VA) - 136, 137, 138, 140, 141, 142-20.

SECTION II - DISCREPANCIES
This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections. This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

<table>
<thead>
<tr>
<th>Chart Number</th>
<th>Edition</th>
<th>Date to Mariners</th>
<th>Horizontal Datum Reference</th>
<th>Source of Correction</th>

**MD – CHESAPEAKE BAY – SANDY POINT TO SUSQUEHANNA RIVER – HEAD OF CHESAPEAKE BAY – AID TO NAVIGATION CHANGES**

Updated Action Date. Due to the ongoing shoaling in the North East River, on or about the first week of Aug 2020 the Coast Guard will make the following changes.

Discontinue Elk River Junction Buoy ER (LLNR 8970)
Convert Susquehanna River Junction Lighted Buoy A (LLNR 27585) to Susquehanna River Junction Light SN in approximate position 39 26 39.190N-76 02 07.540W, with 3G dayboards on multi-pile structure.
Convert Northeast River Lighted Buoy 2 (LLNR 27835) to Northeast River Light 2 in approximate position 39 29 23.080N-75 59 49.190W, with a flashing 2.5 second red light and TR dayboards.
Convert Northeast River Buoy 4 (LLNR 27840) to Northeast River Light 4 in approximate position 39 30 44.080N-75 28 27.0W, with a flashing 4 second red light and TR dayboards.
Convert Northeast River Buoy 5 (LLNR 27845) to Northeast River Lighted Buoy 5 in approximate position 39 31 53.050N-75 59 03.710W, with a flashing 2.5s green light and maintained from March 15 to December 1.
Relocate Northeast River Lighted Buoy 6 (LLNR 27850) to approximate position 39 32 36.410N-75 58 22.280W, change authorized hull reducing the daytime visibility to 1.2nm and radar range to 0.5nm, and maintain from March 15 to December 1.
Relocate Northeast River Buoy 7 (LLNR 27855) to approximate position 39 33 10.410N-75 30.304W, change authorized hull reducing the daytime visibility to 1.2nm and radar range to 0.5nm, and maintain from March 15 to December 1.
Convert Northeast River Light 8 (LLNR 27860) to Northeast River Lighted Buoy 8 in approximate position 39 33 41.080N-75 59 19.520W, with flashing 2.5 second red light and maintained from March 15 to December 1.
Discontinue Northeast River Buoy 9 (LLNR 27865).
Convert: Northeast River Light 10 (LLNR 27875) to Northeast River Lighted Buoy 10 in approximate position 39 34 21.480N-75 57 51.090W and maintained from March 15 to December 1.
Discontinue Northeast River Daybeacon 12 (LLNR27870).
Discontinue Northeast River Light 14 (LLNR27880).
Discontinue Northeast River Buoy 16 (LLNR 27890).
Discontinue Northeast River Light 17 (LLNR 27895).

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

COAST GUARD POLICY ON NOTIFICATION OF PROPOSED CHANGES

Periodically, the Coast Guard evaluates the system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing the aid is considered. In this regard, the Coast Guard is evaluating changes in aids to navigation as noted in the articles. Users can provide feedback by filling out the District 5 Waterway Proposals data/feedback form, located at the NAVCEN D5 LNM website: https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf

This section also includes Public Notices for proposed changes to the bridges within the Fifth Coast Guard with a request for comments as indicated.

LNM: 04/20

****NJ – NEW JERSEY INTRACOASTAL WATERWAY – PROPOSAL TO CONVERT FIXED AIDS TO FLOATING AIDS****

Manasquan to Atlantic City.

Due to extensive deterioration, associated hazards, and inaccessibility of the waterway; the Coast Guard is proposing to convert the following aids to unlit seasonal buoys.

New Jersey Intracoastal Waterway Daybeacon 31 (LLNR 35085)
New Jersey Intracoastal Waterway Daybeacon 33 (LLNR 35090)
New Jersey Intracoastal Waterway Light 74 (LLNR 35285)
New Jersey Intracoastal Waterway Daybeacon 75 (LLNR 35290)
New Jersey Intracoastal Waterway Daybeacon 84 (LLNR 35330)
New Jersey Intracoastal Waterway Light 88 (LLNR 35345)
New Jersey Intracoastal Waterway Light 99 (LLNR 35390)
New Jersey Intracoastal Waterway Light 189 (LLNR 35770)
New Jersey Intracoastal Waterway Daybeacon 197 (LLNR 35800)

Due to extensive deterioration, associated hazards, and inaccessibility of the waterway; the Coast Guard is proposing to convert the following aid to a lighted seasonal buoy.

New Jersey Intracoastal Waterway Light 189 (LLNR 35770)

Atlantic City to Cape May

Due to extensive deterioration, associated hazards, and inaccessibility of the waterway; the Coast Guard is proposing to convert the following aids to unlit seasonal buoys.

New Jersey Intracoastal Waterway Daybeacon 444 (LLNR 36605)
New Jersey Intracoastal Waterway Daybeacon 448 (LLNR 36620)
New Jersey Intracoastal Waterway Daybeacon 450 (LLNR 36630)
New Jersey Intracoastal Waterway Daybeacon 473 (LLNR 36705)

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf

All comments will be carefully considered and are requested prior to August 24, 2020 to be considered in the analysis. Refer to project number 05-20-055(D)

Send comments to CGD5Waterways@uscg.mil, or mail to: U.S. Coast Guard Fifth District Waterways Management (dpw) 431 Crawford Street, Room 100 Portsmouth, VA 23704 Attn: Ethan Coble

****DE – CAPE HENLOPEN TO INDIAN RIVER INLET – WHITE CREEK – AID TO NAVIGATION CHANGE AND REMOVAL****

Due to severe shoaling and inaccessibility of the waterway, the Coast Guard is proposing discontinuing the following unlit seasonal buoys and convert the lateral daybeacons to warning daybeacons.
White Creek Buoy 1 (LLNR 4645) Discontinue.
White Creek Buoy 3 (LLNR 4650) Discontinue.
White Creek Buoy 5 (LLNR 4655) Discontinue.
White Creek Buoy 6 (LLNR 4660) Discontinue.
White Creek Daybeacon 7 (LLNR 4665) Change to White Creek Warning Daybeacon A.
White Creek Daybeacon 9 (LLNR 4670) Change to White Creek Warning Daybeacon B.
White Creek Daybeacon 9A (LLNR 4675) Change to White Creek Warning Daybeacon C.
White Creek Daybeacon 11 (LLNR 4680) Change to White Creek Warning Daybeacon D.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lmns/D05_Proposal_Feedback_Form.pdf

All comments will be carefully considered and are requested prior to September 21, 2020 to be considered in the analysis. Refer to project number 05-20-056(D)

****MD – POTOMAC RIVER – PROPOSED CHANGE TO FORT WASHINGTON LIGHT 80****

In association with the National Park Services refurbishment of the lighthouse structure at Fort Washington the Coast Guard Fifth District is proposing to remove the lighting equipment and dayboard and establish a new light in the river.
Relocate/Rename: Fort Washington Light 80 (LLNR 18560) to Light 80 in approximate position 38 42 40.788N, 77 02 16.476W, with a flashing 6 second red light at an optic height of 18 ft., a nominal range of 4nm and TR dayboards.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lmns/D05_Proposal_Feedback_Form.pdf

All comments will be carefully considered and are requested prior to August 10, 2020 to be considered in the analysis. Refer to project number 05-20-053(D)

****VA – YORK RIVER – PERRIN RIVER – PROPOSED CHANGE TO AID TO NAVIGATION****

The Coast Guard Fifth District is proposing changing authorized hull for Perrin River Entrance Buoy 2 (LLNR 13515). This change will increase the daytime visibility from 1.4nm to 2.0nm, reduce the radar range from 1.8nm to 1.5nm and rename to Perrin River Buoy 2P (LLNR 13515).

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lmns/D05_LNM 2015 Special Notice_Waterway_Proposal Feedback Form.pdf

All comments will be carefully considered and are requested prior to August 10, 2020 to be considered in the analysis. Refer to project number 05-20-059(D)

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

VA - ATLANTIC OCEAN - WALLOPS ISLAND ROCKET LAUNCHES

Rocket launches are regularly scheduled in the vicinity of Wallops Island, VA, Danger Zone 334.130. Prior to these launches, visual signals will be displayed consisting of either a large orange-colored, "blimp-shaped" balloon by day or a rotating alternately red and white beacon by night. The balloon will be flown from a position at 37-50-38N, 75-28-47W and the beacon will be displayed approximately 200 feet above mean high water in position 37-50-16N, 75-29-07W. While the warning signal is displayed, all persons and vessels in the Danger Zone, except vessels entering or departing Chincoteague Inlet, shall leave the zone promptly by the shortest possible route and remain outside the zone until allowed by a patrol boat to enter or the danger signal has been discontinued. Vessels entering or departing Chincoteague Inlet must take the shortest route possible upon display of the danger signal. The Danger Zone is depicted on navigational charts 12210 and 12211 with corner points starting in the vicinity of Assawoman Inlet and proceeding southerly to position 37-43-20N, 075-29-41W; thence northeasterly to a point in the vicinity of Chincoteague Shoals; thence westerly back to Wallops Island shoreline.

Charts: 12210 12211

****VA - CHESAPEAKE BAY - CAPE CHARLES TO NORFOLK HARBOR - JOINT EXPEDITIONARY BASE LITTLE CREEK FORT STORY - LIVE FIRING****

Live firing is conducted continuously off Joint Expeditionary Base Little Creek in Danger Zone 334.370, the area west of the south end of the Chesapeake Bay Bridge Tunnel, bounded by the following positions: 36-55-24N 76-08-43W, 36-55-50N 76-08-37W, 36-57-16N 76-08-14W, 36-57-16N 76-08-14W, 36-56-58.5N 76-07-11W, 36-57-07N 76-07-44W. Firing is conducted Monday through Friday from 7:00 am to 8:00 pm. For questions contact Range Operations and Training Area, Mr. Assaf or Ms. Lawrence at 757-422-7103/7101.

Charts: 12222 12224

VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS

Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:
- Willofibghy Bay
- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.
- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle.

During these operations, the aircraft will be operating at altitudes as low as seventy-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels.

All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary.

These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the

Charts:

VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS

VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS

The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The bounding coordinates for each field are as follow:

AREA A: 37-09.0N 075-31.0W, 37-09.0N 075-34.7W, 37-12.0N 075-31.0W, 37-12.0N 075-34.7W.
AREA B: 36-29.0N 075-31.8W, 36-29.0N 075-35.5W, 36-26.0N 075-35.5W, 36-26.0N 075-31.8W.
AREA C: 36-29.0N 075-20.8W, 36-29.0N 075-24.5W, 36-26.0N 075-24.5W, 36-29.0N 075-20.8W.
AREA D: 36-46.5N 075-47.8W, 36-46.5N 075-46.5W, 36-47.5N 075-46.5W, 36-47.5N 075-47.8W.

Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines are placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation.

Charts: 12200

VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDLETON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE

The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as “all of the waters seaward of the mean high water line within a sector between radial lines extending 13,500 yards seaward and bearing 090 degrees true and 150 degrees true, respectively, from a point on shore at 36° 49’ 09”N, 075° 58’ 45”W”. All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (42nd Edition) when operating south of the entrance to the Chesapeake Bay. Firing will take place only during daylight hours and red flags will be displayed at conspicuous locations on the beach at the facility. Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.

Charts: 12205 12207 12221

DREDGING AND MARINE CONSTRUCTION CAUTIONS

Mariners are cautioned to stay clear of dredge, booster, floating (pentoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Boeys are attached to the anchors so that the anchors may be moved as the dredge advances, and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

Charts: 12300

NJ – OFFSHORE – APPROACHES TO NEW YORK – SURVEYING

From 10 Jun to 01 Aug 2020, the TIDEWATER ROYAL and TIDEWATER HIGHLAND EAGLE will be conducting Surveys and Core Penetration Testing in the area between the Ambrose to Nantucket Traffic Lane and the Hudson Canyon to Ambrose Traffic Lane surveying. The vessels may be contacted on VHF-FM Channel 16 or at 504-264-5038. For more information, contact Flanery Tangang at 757-364-6111.

Charts: 12300

NJ – OFFSHORE – AMBROSE TO NANTUCKET TRAFFIC LANE TO FIVE FATHOM BANK – SURVEYING

Updated Information. The OCEAN ENDEAVOUR will be conducting surveying operations from the Ambrose to Nantucket Traffic Lane south to 39-09N, approximately east of Five Fathom Bank. Starting 10 Jul until 15 Oct, operations will be conducted 24 hours a day, 7 days a week. It is requested that other vessels give at least 1000 Meter separation from the subject vessel, when sighted as various data and hydrographic information is being collected by instrumentation deployed by the Ocean Endeavour, as well as in consideration of their restricted maneuverability. The OCEAN ENDEAVOUR monitors and can be reached on VHF-FM channel 16. For more information or questions, contact Julian Hanton at 44-1493-845600 or julian.hanton@gardline.com.

Charts: 12300

NJ – OFFSHORE – MANASQUAN - BARNEGAT LIGHT - ATLANTIC CITY – SURVEY ACTIVITIES

Updated Area of Operations. The M/V Fugro Enterprise, call sign WDD9388, will be conducting survey operations, using sensors towed approximately 150 meters behind the survey vessel. Operations will begin on July 23, 2020 and continue to approximately December 24, 2020. The survey area is located about 9 to 20 miles off the New Jersey coast, between Barnegat Light and Atlantic City, bounded by the following approximate positions:

NE Corner: 39° 40’ 22”N / 73° 56’ 11”W
SE Corner: 39° 15’ 43”N / 73° 56’ 34”W
S Corner: 39° 08’ 40”N / 73° 56’ 34”W
SW Corner: 39° 16’ 31”N / 74° 14’ 55”W
NW Corner: 39° 35’ 14”N / 74° 02’ 59”W

The M/V Fugro Enterprise will be restricted in its ability to maneuver and is requesting mariners operating in or transiting the area to give a 1 NM CPA. The M/V Fugro Enterprise will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements. For more information contact Bruce Grimball 713-369-5672.

Charts: 12318 12323

NJ – ATLANTIC CITY – OF SHORE – SURVEY ACTIVITY

The M/V GEOQUIP SAENTIS will be conducting survey operations in the off shore wind area OCS-A 0499 off Atlantic City NJ as depicted on Enclosure 7. All vessels are requested to remain 1 nm clear of the GEOQUIP’s position and pass with at a reduced speed. For more information contact Torran Purchase at 44 117 376 3068.

Charts: 12318
NJ – ATLANTIC CITY – OFF SHORE – SURVEY ACTIVITY
From 01 Aug to 30 Sep 2020, the M/V TIDEWATER ROYAL will be conducting surveys and vibrocore sampling in the off shore wind area OCS-A 0499 off Atlantic City NJ as depicted on Enclosure 8 and inside the following coordinates.
NE Corner: 39° 17' 44"N / 74° 14' 56"W
SW Corner: 39° 16' 56"N / 74° 14' 57"W
North Central Mid-Point: 39° 19' 51"N / 74° 21' 39"W
South Central Mid-Point: 39° 19' 06"N / 74° 21' 51"W
NW Corner: 39° 21' 09"N / 74° 26' 11"W
SW Corner: 39° 20' 43"N / 74° 27' 23"W
For more information or questions, contact Flanery Tangang at 757-487-2919.
Chart 12318 LNM: 22/20

****NJ – ATLANTIC CITY – OFFSHORE – DATA BUOY DEPLOYMENT****
On or about 29 Jul 2020, Woods Hole Oceanographic Institution will deploy a Data Collection Buoy in approximate position 39-04-23.88n, 74-10-18.12W. The blue and yellow buoy will have a flashing four second yellow light and is equipped with a radar reflector. “WHOI” is in black letters on the hull of the buoy. For more information or questions, contact Jeff Pietro at 508-548-1401 or jpietro@whoi.edu.
Chart 12300 LNM: 29/20

****NJ – SHARK RIVER - ROUTE 71 - SHARK RIVER BRIDGE – CLOSED TO NAVIGATION****
The New Jersey Department of Transportation, who owns and operates the New Jersey (Route 71) Shark River Bridge, over Shark River, at mile 0.8, between the boroughs of Avon-By-The-Sea and Belmar, NJ, has requested a temporary deviation from the current operating regulation for mechanical and structural work to be performed on the bridge. Under this temporary deviation, the bridge will remain in the closed-to-navigation position from 5 p.m., Monday, July 20, 2020, thru 5 a.m., Tuesday, July 21, 2020, with one opening between 12 a.m. and 12:30 a.m., and again from, 5 p.m. Tuesday, July 21, 2020, thru 5 a.m. Wednesday, July 22, 2020, with one opening between 12 a.m. and 12:30 a.m. This deviation allows for one bridge opening between 12 a.m. and 12:30 a.m. on both evenings. The bridge will remain in the closed-to-navigation position at all other times during the project period. The drawbridge is a bascule bridge with a vertical clearance in the closed-to-navigation position of approximately 8 feet above mean high water. Vessels able to transit through the bridge in the closed position may do so at any time. The bridge will be able to open for emergency vessels with at least a two-hour notice. Mariners should use caution when transiting the area.
Chart 12324 LNM: 28/20

NJ – OFFSHORE – ATLANTIC CITY – MANASQUAN TO BARNEGAT LIGHT – SURVEY ACTIVITY
Marine Geophysical Survey Operations will take place offshore of Atlantic City and Point Pleasant, NJ. R/V AQUEOS SPLASH, call sign WDH9259, is planned to arrive in the area on or about June 27 and is expected to be in operation through August 15, 2020. Average vessel speed will be 3.5 knots while surveying, maximum vessel speed is 10 knots during transits. The Aqueos Splash will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 1 NM CPA.

NJ - DE – OFFSHORE – ENTRANCE TO DELAWARE BAY - GEOTECHNICAL SURVEYING
The Skipjack Wind Farm (SJWF) is an offshore wind farm planned for federal waters off the coast of Delaware and Maryland. The SJWF will consist of wind turbines, an offshore substation, and subsea transmission system to shore. Marine survey activities are currently ongoing. Marine construction is planned to start in 2022. Mariners transiting or fishing in the survey area are requested to provide a wide berth to survey vessels, as they will be limited in their ability to maneuver, and deploying various equipment to the seabed. For more information, contact Edward LeBlanc, Orsted Marine Affairs Manager, at 978-447-2737.
Chart 12214 LNM: 33/19

****PA – DELAWARE RIVER – DELAWARE MEMORIAL BRIDGE – TEST BORINGS****
The Tug SANDY G and Drill Barge CT 511 will be conducting drilling operations on the Delaware River in the vicinity of the Delaware Memorial Bridge piers. Operations will be conducted 24 hours a day seven days a week and will begin on 10 Aug and continue until 31 Aug 2020. The Tug and barge will require a minimum of 2 hours to move locations if required. For questions or more information, contact Robert Stothoff at 201-433-9797 or bob@warrengeorge.com.
Chart 12311 LNM: 30/20

****PA – DELAWARE RIVER - SCHUYLKILL RIVER - SUBMERGED OBJECT****
A submerged object has been reported in the Schuykill River near Mud Island. Mariners are advised to use extreme caution when transiting this
Coast Guard District

On Monday through Saturday during daylight hours.

The preferred navigation channel and bridge navigational lighting normally situated over the 410-foot Federal project channel, will be shifted to the east approximately 205 feet. The Federal Project channel will remain fully open to traffic; however, the vertical clearance of the channel has temporarily decreased based on the planned scaffolding system (work platform) to be installed. The scaffolding system will be installed over the entire length of the bridge, as detailed below.

Preferred Navigation Channel: A 410-foot scaffolding (work platform) system, with five 82-foot independent work zones, will be installed extending below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet). When in use, a single 82-foot work zone portion of the 410-foot scaffolding (work platform) system will be extended below the bridge approximately 18.5 inches (1.54 feet), thereby reducing the vertical clearance of the bridge within the work zone by approximately 18.5 inches (1.54 feet). The single 82-foot work zone portion of the 410-foot scaffolding (work platform) system in use will be lifted to extend below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet), if at least 48 hours notice is given to Eric.Dovak@Skanska.com.

Outside the Preferred Navigation Channel: Scaffolding will extend below the bridge approximately two feet from the west boundary of the Federal project channel to the center of the Federal project channel (west boundary of preferred navigation channel) and from the east boundary of the preferred navigation channel toward the east abutment approximately 385 feet. West of the west boundary of the Federal project and east of the position approximately 385 feet east of the east boundary of the preferred navigation channel, scaffolding will extend below the bridge approximately three feet.

A safety boat will be in the vicinity of the bridge during bridge maintenance, which may be reached via VHF FM channel 13. Mr. Eric Dovak, contractor’s representative, may be reached at Eric.Dovak@Skanska.com or (347) 860-2399. Mariners are advised to exercise caution when transiting the area.

Submerged objects that have been reported in the Frankford Channel, Tacony Channel, Mud Island Range and Edgewater Channel on the Delaware River. Mariners are advised to use extreme caution when transiting these portions of the Delaware River as some depths at mean low low water could be hazardous to navigation. Vessels drafting over 35 feet should avoid these areas and transit around the objects.

Frankford Channel:
Minimum depth 39.7 feet at mean low low water.
Approximately 10 feet inside green toe.

Tacony Channel:
Minimum depth 39.8 feet at mean low low water.
Approximately 10 feet inside green toe.

Mud Island Range:
Minimum depth 36.3 feet at mean low low water.
Approximately 25 feet east of centerline.

Edgewater Channel Object:
Minimum depth 37.1 feet at mean low low water.
Approximately 30 feet inside green toe.

The U.S. Army Corps of Engineers is currently evaluating the objects and assessing the potential for removal. If you have any questions regarding the content of this bulletin, please contact the Waterways Management staff at (215) 271-4814 or the Command Center at (215) 271-4807.

The U.S. Army Corps of Engineers is currently evaluating the object and assessing the potential for removal. If you have any questions regarding the content of this bulletin, please contact the Waterways Management staff at (215) 271-4814 or the Command Center at (215) 271-4807.

There is currently no timetable for removal of these objects.

Object 5: Latitude: 39 54.334224 N, Longitude: 075 07.940211 W Depth at MLLW=35.7'
Minimum depth 31.6 feet at mean low low water. Approximate location 39˚53.275063N, 075˚11.698723W.

Object 4: Latitude: 39 57.692964 N, Longitude: 075 07.925196 W Depth at MLLW=38.7'

MD – FENWICK ISLAND TO CHINCOTEAGUE INLET - ISLE OF WIGHT BAY – HAZARD TO NAVIGATION
The Coast Guard received a report of a 12-14 inch diameter dredge pipe running through Isle of Wight Bay. It is marked by a danger obstruction buoy in position 38°21.474N 070°50.701W. Mariners are urged to transit the area with caution. MD-NCR BNM 170-19
Chart 12211  LNM: 24/19

MD – CHESAPEAKE BAY – PATAUXTEN RIVER AND VICINITY – SEDIMENT TEST BORING OPERATIONS
Sediment test boring operations are scheduled to commence at two locations in the middle Chesapeake Bay during April 30, 2020-July 31, 2020, during daylight hours only. Drilling will occur at multiple sites located: (1) north, west and south of Barren Island, in approximate position latitude 38°29’00” N, longitude 76°16’00” W; and (2) north and west of James Island, in approximate position latitude 38°31’00” N, longitude 76°21’00” W. Work will be performed using two drilling rigs (crane on large barge, drill rig on small barge), along with support tugs and shallow draft workboats. At other times when operations are not being conducted, barges will be secured to mooring buoys established at or near these locations. All marine equipment will be marked and lighted as required by U.S. Coast Guard regulations. Mariners are urged to use extreme caution when transiting these areas, and to operate at minimum speed necessary to maintain safe course that minimizes wake near the work sites. Interested mariners can contact the support vessels operating at these sites via marine band radio VHF-FM channels 16 and 13, or Smith Shipyard at telephone number (410) 355-7626.

MD – HEAD OF CHESAPEAKE BAY - ABERDEEN TEST CENTER – LIVE FIRE EXERCISES****
The Aberdeen Test Center (ATC) will be conducting live fire exercises and operational testing of various watercraft, scheduled to begin on or about June 22, 2020 through August 4, 2020. The operation area includes: entering the water near Black Point, proceeding towards and operating in the Stoney Point area, then returning to the Black Point area. The watercraft will be accompanied by ATC Patrol boats to provide escort and ensure area is clear of public boats. All Commercial Fishing, to include placement of crab pots, in this area will be prohibited during these exercises.
Chart 12281  LNM: 26/20

MD - ABERDEEN PROVING GROUND PROHIBITION OF MARINE GATHERINGS DUE TO COVID – 19
Due to COVID-19, in order to protect the health and safety of our local community, marine gatherings are not authorized within the restricted waters of the Aberdeen Proving Ground military reservation, as described in 33 CFR 334.140, until further notice. Marine gatherings include, but are not limited to, the practice commonly known as a “raft-up,” or the roping together of any number of small vessels, and gatherings of 8 or more people on one vessel. Boaters must maintain a minimum distance of 25 feet between vessels at all times.

****VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGING****

The B.E. Lindholm and the Clamshell Dredge Weeks 506 have completed dredging operations in Thimble Shoal Channel. Starting approximately 4 Aug 2020 and continuing until approximately 31 October 2020 the Clamshell Dredge PAULA LEE, Work Boat TROJAN, Tug COLONEL and scows will be operating in the Thimble Shoal Channel between Thimble Shoal Channel Lighted Bell Buoy 9 (LLNR 9255) and Thimble Shoal Channel Lighted Buoy 7 (LLNR 9235). The clamshell dredge will start dredging approximately 1,800 feet west of Thimble Shoal Channel Lighted Buoy 16 (LLNR 9290) moving east. All dredged material will be towed to Dam Neck Ocean Disposal Site (DNODS) Cells 5, 6 & 7. Starting approximately 12 August 2020 and continuing until approximately 31 August 2020 the Hopper Dredges R.N. WEEKS and MAGDALEN will be operating in the Thimble Shoal Channel West of the Chesapeake Bay Bridge Tunnel. Dredged material will be transported to Dam Neck Ocean Disposal Site (DNODS) Cell #7.

VA - ELIZABETH RIVER - EASTERN BRANCH - OYSTER SHELL DREDGING AND PLANTING PROJECT

H and L Contracting will be conducting dredging operations in the Eastern Branch Of The Elizabeth River from 6/17/20 thru 8/31/20 for the purpose of planting oyster shells. Work hours will be intermittent but are possible 24 hours a day, 7 days a week. There will be one 60' tug boat (vessel name: GOOSE CREEK), one 260' x 50' barge (un-named) for oyster shells, a 26' x 12' push boat (vessel name: JAKE), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are:

- 36°50'14"N / 76°11'11"W
- 36°50'08"N / 76°14'27"W
- 36°50'18"N / 76°13'49"W
- 36°50'17"N / 76°13'27"W

The barge will be moored in place by means of Danforth Anchors and other vessels moored to the barge. All vessels will be marked and lighted in accordance with USCG Regulations. All marine equipment operators will be monitoring VHF-FM channels 63, 16 and 13. H & L supervisor is Keith Johnson, Superintendent 24 hour contact is (631)553-1034. Mariners are advised to reduce speed and proceed with caution in the area.

VA - NC – ATLANTIC INTRACOASTAL WATERWAY (AICW) – NORFOLK TO ALBEMARLE SOUND VIA NORTH LANDING RIVER

Maintenance at the Centerville Turnpike (SR-170) Bridge across the Albemarle and Chesapeake Canal, Atlantic Intracoastal Waterway, mile 15.2, at Chesapeake, VA began on Monday, May 13, 2019, and is scheduled to end on Friday, September 18, 2020. Bridge maintenance will be performed in six phases and updated notices will be published prior to each phase. This notice provides details for Phase VI, scheduled from 6 a.m. on February 20, 2020, through 8:30 p.m. on September 18, 2020.

Work hours are Monday through Friday, from 6 a.m. to 8:30 p.m. The swing span of the bridge will be operational. During work hours, bridge maintenance vessels and barges will occupy the navigation span, reducing the horizontal clearance to approximately 40 feet. Bridge maintenance vessels and barges will relocate from the navigation span, upon request, for commercial vessels carrying liquefied flammable gas or other hazardous materials and emergency vessels as defined in 33 CFR 117.31; and all vessels upon request, if at least a one-hour notice is given. Vessels may contact the bridge tender on VHF-FM channel 13 or (757) 547-3631. Vessels may contact work vessels or the project foreman on VHF-FM channel 13 or (757) 620-3565.

At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.997(i). The drawbridge has a vertical clearance of 4 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 80 feet. Mariners should adjust their transits accordingly and use extreme caution when transiting the area.

Chart 12206

LNM: 16/20

VA – LOWER JAMES RIVER - OYSTER SHELL DREDGING AND PLANTING PROJECT

H & L Contracting will be conducting Dredging Operations in the Lower James River from 16 Jun thru 31 Aug 2020 for the purpose of harvesting and planting Oyster Shells. Work hours are 24 hours a day, 7 days a week. There will be one 200’ x 50’ dredge (vessel name: OYSTER BAY), one 260’ x 50’ barge (un-named) for oyster shells, one 140’ x 35’ barge (un-named) for oyster shells; a 60’ tug boat (vessel name: GOOSE CREEK) a 40’ x 14’ push boat (vessel name: MENEMSHA), skiff (un-named), and other support vessels. The work area will be a square with corners at 36°57’22’N / 76°26’53’W AND 36°57’00’N / 76°27’00’W AND 36°56’12’N / 76°45’25’W AND 36°55’50’N / 76°25’50’W. The Dredge OYSTER BAY will be spudded in place and other vessels moored to the dredge. In addition, the work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are:

- 37°01’17”N / 76°29’17”W
- 37°00’41”N / 76°27’55”W
- 36°59’25”N / 76°31’06”W
- 36°56’03”N / 76°27’04”W

A mooring buoy will be anchored south-west of the dredging area to create an anchorage for three (3) 260’ x 50’ barges and three (3) 140’ x 35’ barges. The anchorage area will be at approximately 36°56’30”N / 76°26’10”W. All vessels will be marked and lighted in accordance with USCG Regulations. All marine equipment operators will be monitoring VHF-FM Channel 63, 16 and 13. H&L Supervisor is Keith Johnson, Superintendent. 24 Hour contact no. is (631)553-1034. Mariners are advised to reduce speed and proceed with caution in the area.

Coast Guard District 5

28 July 2020
VA – CHESAPEAKE BAY – YORK RIVER – SURVEY OPERATIONS

A Hydrographic survey will be conducted in the waters in and around the Southern Chesapeake Bay. These surveys are being conducted for the National Oceanographic and Atmospheric Administration in support of their nautical charting mission. Commencing on or about June 20, 2020 and continuing through August 2020 the M/V ATLANTIC SURVEYOR and R/V OYSTER BAY II will be conducting hydrographic survey operations in the waters of Southern Chesapeake Bay, VA. Survey operations will be bounded from approximately 37° 27' 41"N, 75° 40' 32"W to the northeast and 36° 57' 19"N, 75° 59' 21"W to the southwest. Survey operations include the lower reaches of the York River extending upriver to the Coleman Memorial Bridge.

The M/V ATLANTIC SURVEYOR is a 110', steel hulled survey boat with a black hull and a white deckhouse. The vessel is equipped with a keel mounted sonar transducer and will be towing a side scan sonar approximately 5-15 meters off the seafloor and 50 meters astern of the vessel. The vessel will be conducting 24-hour operations. In addition, the ATLANTIC SURVEYOR will maintain watch on VHF channels 13 and 16 (call sign WTR5417). The R/V OYSTER BAY II is a 30', Aluminum hulled survey vessel. The vessel is equipped over the side sonar mounts and sonars. The vessel will primarily be conducting daytime operations. The R/V OYSTER BAY II will maintain watch on VHF channels 13 and 16. There may be occasional unmanned aircraft (Drone) activities within the survey area. Request that all vessels give the M/V ATLANTIC SURVEYOR and R/V OYSTER BAY a wide berth in order to avoid becoming fouled in the towed equipment or otherwise interfering with surveying operations. Please direct any questions you may have to the Project Supervisor at 401-848-4757.

VA – RAPPAHANNOCK RIVER - OYSTER DREDGING AND PLANTING PROJECT

H & L Contracting will be conducting dredging operations in the Rappahannock River from 17 Jun thru 31 Aug 2020 for the purpose of planting oyster shells. Work hours will be intermittent but are possible 24 hours a day, 7 days a week. There will be one 60’ tugboat (vessel name: GOOSE CREEK), one 260’ x 50’ barge (un-named) for oyster shells, a 26’ x 12’ push boat (vessel name: Jake), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°16’24”N / 76°31’54”W; 37°14’37”N / 76°30’15”W; 37°15’30”N / 76°29’52”W; 37°15’15”N / 76°29’37”W; The barge will be moored in place by means of danforth anchors and other vessels moored to the barge. All marine equipment operators will be monitoring VHF-FM channel 63, 16 and 13. H & L Supervisor is Keith Johnson, 24 hour contact is (631) 553-1034. Mariners are advised to reduce speed and proceed with caution in the area.

VA – POCOMOKE AND TANGIER SOUNDS – OYSTER DREDGING AND PLANTING PROJECT

H & L Contracting will be conducting dredging operations in Pocomoke Sound and Tangier Sound, VA from 17 Jun to 31 Aug 2020 for the purpose of planting oyster shells. Work hours will be intermittent but are possible 24 hours a day, 7 days a week. There will be one 60’ tugboat (vessel name: GOOSE CREEK), one 260’ x 50’ barge (un-named) for oyster shells, a 26’ x 12’ push boat (vessel name: Jake), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas in Pocomoke Sound are: 37°16’24”N / 76°31’54”W; 37°14’37”N / 76°30’15”W; 37°15’30”N / 76°29’52”W; 37°15’15”N / 76°29’37”W; The barge will be moored in place by means of danforth anchors and other vessels moored to the barge. All marine equipment operators will be monitoring VHF-FM channel 63, 16 and 13. H & L Supervisor is Keith Johnson, 24 hour contact is (631) 553-1034. Mariners are advised to reduce speed and proceed with caution in the area.

VA – WICOMICO RIVER – OYSTER DREDGING AND PLANTING

H & L Contracting will be conducting dredging operations in the WICOMICO RIVER, VA from 16 Jun thru 31 Aug 2020 for the purpose of planting oyster shells. Work hours will be intermittent but are possible 24 hours a day, 7 days a week. There will be one 60’ tugboat (vessel name: GOOSE CREEK), one 260’ x 50’ barge (un-named) for oyster shells, a 26’ x 12’ push boat (vessel name: Jake), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°49’17”N / 76°18’37”W; 37°48’33”N / 76°18’02”W; 37°47’37”N / 76°17’13”W; AND 37°49’00”N / 76°17’17”W; The barge will be moored in place by means of danforth anchors and other vessels moored to the barge. All marine equipment operators will be monitoring VHF-FM channel 63, 16 and 13. H & L Supervisor is Keith Johnson, superintendent 24 hour contact is (631)553-1034.

VA – OFFSHORE – CAPE HENRY – SURVEY

UPDATED OPERATION DATES. The Survey vessel SARHA BORDELON will be conducting surveys in the in the following areas until approximately 15 Aug 2020.

Center of main survey area: 36 - 54.564'N 75 - 21.166'W
Main survey area stretches from 36 - 49'N to 36 - 59'N and 75 - 29' W to 75 - 13' W. The survey vessel will be mapping the seabed with hull mounted sensors as well as towed sensors. The vessel will be working with restricted/limited maneuverability with equipment in tow up to 1000 feet to the stern of the vessel. The master requests a CPA of 0.5 – 1.0 mile to accommodate operations. SARAH BORDELON will monitor VHF 16 & 13 during the survey. For more information or questions, contact Mark Maclean at 902-412-1780.

Chart 12200  LNM: 14/20

****VA – OFFSHORE – VIRGINIA BEACH – CABLE LAYING OPERATIONS****

The cable laying ship CS DEPENDABLE will be conducting telecommunication cable installation activities for the transatlantic undersea fiber optic communications cable DUNANT off VA Beach 19 July to 9 August 2020. Cable installation and burial work will begin approximately 18 NM from shore in approximate position 36 49.6485N, 75 36.5245W and extend to 36 52.8827N, 70 34.2836W where burial will end in 112 fathoms water depth. See Enclosure 6. Request that ships and fishing vessels keep a distance of at least 1 NM from the cable installation vessel to ensure safe operations. In addition, request that any set or drift gear, such as longlines, gillnets, and pots/traps be moved off the route by a distance of 1/2 nm on either side at the locations and during these periods noted above in order to avoid gear entanglement.

****VA – OFFSHORE – VIRGINIA BEACH – UNCHARTED CABLE****

UPDATED ENCLOSURE NUMBER. There is an uncharted, buried fiber-optic submarine telecommunications cable leading from a shore landing point at approximately 36 49 2.431N, 75 58 4.9872W, near the Croatan Parking Lot, eastward approximately 32 km to 36 49 38.91N, 75 36 31.47W. The newly laid cable runs from the Virginia Beach coastline in an east-northeast direction roughly parallel and just to the north of two existing and currently charted cables MAREA and BRUSA s1. Vessels are requested to anchor at a minimum 500 m from the cable. For more information or if you think you have snagged the cable, maintain your position and contact: SubCom GTSC/NOC Hotline: 732-578-7474 (Press #3), Email: rrapp@subcom.com. For a chartlet showing the approximate location of the cable see Enclosure 6.

NC - OREGON INLET CHANNEL - HERBERT C. BONNER BRIDGE CONSTRUCTION & REPLACEMENT

Mariners are advised to use extreme caution transiting through the Bonner Bridge in Oregon Inlet, NC. Mariners should follow the aids to navigation closely and stay clear of construction areas. There are submerged concrete pilings just below the waterline in the vicinity of construction. The temporary bridge navigation span is between Bents 173 and 176 of the old bridge. The horizontal clearance of this span is 169 feet and the vertical clearance is 70 feet. Crane barges will be secured in place with four anchors connected by anchor wires to the corners of the barge. The anchor locations will be marked with yellow crown buoys within an approximate 500-ft radius of the crane barge. Mariners should be aware that anchor wires may be at or just above/below the water surface between the barges and crown buoys; therefore vessels should stay on the outboard side of the crown buoys. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at http://www.ncdot.gov/projects/bonnerbridgeplace/.

****NC – OREGON INLET – BONNER BRIDGE – SAFETY ZONE*****

33CFR165.705-1065 Safety Zone; Oregon Inlet, Dare County, NC.

(a) Location. The following area is a safety zone: all navigable waters of Oregon Inlet, within 100 yards of active demolition work and demolition equipment, along the old Herbert C. Bonner Bridge, which follows a line beginning at approximate position 35°46'47" N, 75°32'41" W, then southeast to 35°46'37" N, 75°32'33" W, then southeast to 35°46'09" N, 75°31'59" W, then southeast to 35°46'03" N, 75°31'51" W, then southeast to 35°46'01" N, 75°31'40" W (NAD 1983) in Dare County, NC.

(b) Definitions. As used in this section- Designated representative means a Coast Guard Patrol Commander, including a Coast Guard commissioned, warrant, or petty officer designated by the Captain of the Port North Carolina (COTP) for the enforcement of the safety zone. Captain of the Port means the Commander, Sector North Carolina. Demolition crews means persons and vessels involved in support of demolition.

(c) Regulations. (1) The general regulations governing safety zones in $165.23$ apply to the area described in paragraph (a) of this section.

(2) With the exception of demolition crews, entry into or remaining in this safety zone is prohibited.

(3) All vessels within this safety zone when this section becomes effective must depart the zone immediately.

(4) The Captain of the Port, North Carolina can be reached through the Coast Guard Sector North Carolina Command Duty Officer, Wilmington, North Carolina at telephone number 910-343-3882.

(5) The Coast Guard and designated security vessels enforcing the safety zone can be contacted on VHF-FM marine band radio channel 13 (165.65 MHz) and channel 16 (156.8 MHz).

(d) Enforcement. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies.

(e) Enforcement period. This regulation will be enforced from March 4, 2019, through March 30, 2020.

(f) Public notification. The Coast Guard will notify the public of the active enforcement times at least 48 hours in advance by transmitting Broadcast Notice to Mariners via VHF-FM marine channel 16.

****NC – NEW RIVER – CAMP LEJEUNE – POSSIBLE HAZARDS TO NAVIGATION*****

Marine Corps Installations East-Marine Corps Base Camp Lejeune, North Carolina, Live firing and training:
Mariners traveling in Atlantic Intracoastal Waterway through this area can expect delays of about one to four hours during the below times. Range Control Boats, from Camp Lejeune, NC monitor Channel 16 VHF-FM and the working Channel 82 VHF-FM. Range Control can be reached at 910-451-3064 or 4449.

The restricted areas in the Atlantic Ocean east of the New River Inlet as shown on National Ocean Service Chart 11543, will be closed to navigation up to 15 NM seaward because of firing exercises during the following periods:

NONE SCHEDULED.

The Restricted Areas in the New River, as shown on National Ocean Service Chart 11542, that will be closed to navigation because of Stone Bay Rifle Range firing exercises during the following periods:

STONE CREEK SECTOR
STONE BAY SECTOR
WEST OF THE 77 (DEG) 26 (MIN) LONGITUDE LINE.

The restricted areas that may be closed to navigation because of firing exercises during the following periods:

TRAPS BAY SECTOR
COURTHOUSE BAY SECTOR
STONE BAY SECTOR
GREY POINT SECTOR

EAST OF THE 77 (DEG) 26 (MIN) LONGITUDE LINE.

The restricted areas that will be closed to navigation because of firing exercises during the following periods:

FARNELL BAY SECTOR  SUNRISE TO SUNSET - DAILY
MORGANS BAY SECTOR  SUNRISE TO SUNSET - DAILY
JACKSONVILLE SECTOR  SUNRISE TO SUNSET - DAILY

The Target Bombing Area N1/BT-3 Impact Area in the Atlantic Ocean east of the New River Inlet as shown on National Ocean Service Chart 11543, may be closed to navigation because of firing exercises during the following periods:

NONE SCHEDULED.

Atlantic Intracoastal Waterway, Inland Waters in the Browns Island Inlet area between Bear Creek and Onslow Beach, may be closed for firing exercises during the following periods:

NONE SCHEDULED.

Ship operations consisting of landing craft, amphibious vehicles, and helicopters may be conducted in the Onslow Beach Operating Area and all sectors of New River to include dive operations.

Due to unexploded ordnance on Browns Island and in the adjacent waterways and marsh areas, Browns Island is off limits to all unauthorized personnel. Vessels may transit the surrounding waters, however no vessel shall bottom fish or anchor.

Range Control Boats, MCIE-MCB Camp Lejeune NC monitor VHF-FM channels 16 and 82. Range Control can be reached at 910-451-3064 or 4449.

****NC – CAPE FEAR RIVER - NORTHEAST CAPE FEAR RIVER - US 74/SR 133 - ISABEL S. HOLMES – BRIDGE****

The highway drawbridge – US 74/SR 133 (Isabel S. Holmes) Bridge, over Northeast Cape Fear River, mile 1.0, at Wilmington, NC, will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge bascule spans. The bridge will be maintained in the closed-to-navigation position from 7 p.m. on June 12, 2020, through 6 a.m. on August 10, 2020. The bridge will remain in the closed position from 7 p.m. to 6 a.m. on June 12, 2020, through June 15, 2020; June 25, 2020, through June 29, 2020; and from July 24, 2020, through July 27, 2020. Alternative work dates for these closure periods will be from 7 p.m. to 6 a.m. on June 19, 2020, through June 22, 2020; July 31, 2020, through August 3, 2020; and from August 7, 2020, through August 10, 2020. During the maintenance period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 34 feet above mean high water in the closed position. There is no immediate alternative route for vessels unable to pass through the bridge in the closed position. Vessels that can safely transit through the bridge in the closed position with the reduced vertical clearance may do so at any time. The bridge will not be able to open for emergencies. Work vessels and barges may be reached on VHF-FM channel 13 and the project foreman may be reached at (561) 232-9773. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.829 (a). Mariners should adjust their transits accordingly and should use caution when transiting the area.

Shoaling has been reported near Rehoboth Bay Channel Light 2 (LLNR 2097). Depths as low as 3 feet reported. DB BNM 051-20
Chart 12304
Maryland Shoaling

DE – REHOBOTH BAY – INDIAN RIVER – BACKERS CHANNEL – SHOALING
Delaware Department of Natural Resources and Environmental Control (DNREC) reports shoaling in Baker’s Channel between Baker’s Channel Lighted Buoy 1A (LLNR 2136) and Baker’s Channel Lighted Buoy 1B (LLNR 2137) as well as Baker’s Channel Lighted Buoy 5 (LLNR 2137.04) and Baker’s Channel Lighted Buoy 6 (LLNR 2137.05). DNREC has established two warning buoys worded “DANGER SHOAL” to mark the shoaling. Ref LNM 26/17 Chart 12216

DE – INDIAN RIVER BAY – MIDDLE ISLAND WEST – SHOALING
Shoaling was observed in the Middle Island West Channel to 2 – 4 feet at MLW. Seasonal Aid to Navigation Middle Island West Channel Buoy MI (LLNR 4436), Middle Island West Channel Buoy 1 (LLNR 4437), Middle Island West Channel Buoy 3 (LLNR 4438) and Middle Island West Channel Buoy (LLNR 4439.5) were unable to be established. SEC DB 054-20 Chart 12216

DE – INDIAN RIVER BAY – PEPPER CREEK – SHOALING
Shoaling was observed in Pepper Creek throughout the entire waterway to 2 – 4 feet at MLW. Seasonal Aid to Navigation Pepper Creek Buoy 1 (LLNR 4440), Pepper Creek Buoy Lighted Wreck Buoy WR2 (LLNR 4445), Pepper Creek Buoy 4 (LLNR 4450), Pepper Creek Buoy 5 (LLNR 4455) and Pepper Creek Light Wreck Buoy WR 10 (LLNR 4470) were unable to be established. SEC DB BNM 056-20 Chart 12216

DE – INDIAN RIVER BAY – WHITE CREEK – SHOALING
Shoaling was observed in White Creek to 2 – 5 feet at MLW. Seasonal Aids to Navigation White Creek Buoy 1 (LLNR 4645), White Creek Buoy 3 (LLNR 4650), White Creek Buoy 5 (LLNR 4655) and White Creek Buoy 6 (LLNR 4660) were unable to be established. SEC DB 055-20 Chart 12216

MARYLAND SHOALING

MD – FENWICK ISLAND TO CHINCOTEAGUE INLET - OCEAN CITY INLET – SHOALING
A USACE survey dated Oct 8, 2019 has identified shoaling at Ocean City Inlet Lighted Buoy 8 (LLNR 4745) to a depth of less than six feet centerline of the channel at MLW and extending approximately 150 feet northwest down channel towards Ocean City Inlet Lighted Buoy 10 (LLNR 4750) with deeper water to the left and right of centerline. A second area of shoaling was identified extending west of Ocean City Inlet Junction Lighted Buoy OC (LLNR 4753) to a depth of eight to nine feet at MLW and extending west approximately 150 feet. Shoaling was identified west of Ocean City Inlet Lighted Buoy 11 (LLNR 4755) extending from the southern channel boundary to mid-channel for approximately 500 feet towards the commercial fish harbor with depths less than four feet at MLW. Shoaling within the channel to the commercial fish harbor extends mostly from the northern channel boundary to mid-channel with depths of eight feet or less at MLW. Chart 12211

MD – FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY – SHOALING
There has been a report of shoaling in Sinepuxent Bay within the channel boundaries in the vicinity of Sinepuxent Bay Channel Daybeacon 11B (LLNR 5050), to a depth of 1.8 feet at mean low water and extending across the channel. MD-NCR BNM 116-19/ Chart 12211

MD – FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY – SHOALING
Shoaling exist between Sinepuxent Bay Channel Lighted Buoy 11 (LLNR 5042) to Sinepuxent Bay Channel Buoy Light 13 (LLNR 5055), water depth of 3 ft. Shoaling between Sinepuxent Bay Channel Buoy 6 (LLNR 5015) to Sinepuxent Bay Channel Buoy (LLNR 5017), water depth of 4 1/2 ft. Sinepuxent Bay Channel Daybeacon 11B (LLNR 5050), shoaling encroaches approximately 20 yds into the channel in a southwesterly direction. Water depths have been found as low as 2 1/2 ft during low tide. Between Sinepuxent Bay Channel Light 8 (LLNR 5020) and Sinepuxent Bay Channel Buoy 10 (LLNR 5035), shoaling encroaches approximately 15 yds into the channel in an easterly direction. Water depths have been found as low as 2 ft during low tide. Between Sinepuxent Bay Channel Buoy 33 (LLNR 5130) and Sinepuxent Bay Channel Daybeacon 35 (LLNR 5135) on the eastern side of the channel. Water depths have been found as low as 3 ft during low tide. Chart 12211

MD-CHESAPEAKE BAY-BACKERS CHANNEL – SHOALING
Shoaling has been reported in the immediate vicinity of Nanticoke River Cut Light 4 (LLNR 23995) at the mouth of Nanticoke Harbor, extending approximately 30 ft into the channel. Water depths have been found as low as 2 ft at low water. MD-NCR BNM 147-20 Chart 12261

MD - CHESAPEAKE BAY - HONGA RIVER – SHOALING
There is shoaling in the Honga River extending out at 500yds radius from approximate position 38 - 18.38N 076 - 11.78W. Actual depth ranges from 5ft to 9ft at mean low water. SEC MD-NCR BNM 335-19 Chart 12261

MD - CHESAPEAKE BAY - COVE POINT TO SANDY POINT – FLAG HARBOR – SHOALING
Shoaling has been reported in the Entrance Channel to Flag Harbor Yacht Haven in Calvert County. MD. The shoaling is located just outside Flag Harbor Light 1 (LLNR 7671) and Flag Harbor Entrance Light 2 (LLNR 7672). Depth of water is less than 5 Ft at MHW. BNM MD 376-19 Chart 12263

MD – POTOMAC RIVER – ST. GEORGE CREEK – SHOALING
The Army Corps of Engineers, Baltimore District, Survey of St. George Creek Channel dated April 2018, indicates shoaling across the entire channel. The shoaling is from 850 feet up the channel of St. George Creek West Channel Warning Light A (LL 16760) to 500 feet up the channel of St. George Creek West Channel Warning Daybeacon B (LL 16765), with a least depth of 3.1 feet MLW. Chart 12233
MD - POTOMAC RIVER – ST. PATRICK CREEK – SHOALING
There has been a report of severe shoaling within the channel boundaries of St. Patrick Creek. Shoaling has been reported in the vicinity of St. Patrick Creek Channel Daybeacon 3 (LLNR 17120) extending to St. Patrick Creek Channel Daybeacon 5 (LLNR 17135) with depths of 2-4' at MLW. Shoaling to 1' MLW has been observed in the channel in the vicinity of St. Patrick Creek Channel Buoy 3A (LLNR 17125).
Chart 12286

MD – MOBJACK BAY AND YORK RIVER ENTRANCE – BACK RIVER
A recent NOAA survey identified shoaling to a depth of 8 feet at MLW in Back River between Back River Channel Daybeacon 6 (LLNR 12930) and Back River Channel Light 5 (LLNR 12925). The survey also identified shoaling around Back River Channel Light 4 (LLNR 12920) to a depth of 10 ft at MLW.
Chart 12222

MD - CHESAPEAKE BAY - CHESAPEAKE BAY TO PINOEY POINT - ST. JEROME CREEK - SHOALING
Maryland DNR survey of the mouth of St. Jerome Creek indicates shoaling, to at least depth of 3.1 feet MLLW, in the channel between St. Jerome Creek Light 4 (LLNR 18810), St. Jerome Creek Daybeacon 4A (LLNR 18812) and St. Jerome Creek Daybeacon 6 (LLNR 18815). The channel width in the area of St. Jerome Daybeacon 4A (LLNR 18812) and Deep Point is reduced to approx 20 ft. MD-NCR BNM 415-16, Ref LNM 52/16
Chart 12233

MD/VA - POTOMAC RIVER - PINOEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING
Shoaling exists in St. Catherine Sound Lower Entrance (1) off the northeastern tip of St. Catherine Island extending channel ward between 38-14-17.586N, 076-47-15.562W and 38-14-32.841N, 076-47-14.761W, (2) IVO St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, Chart 12286

MD - CHESAPEAKE BAY - POCOMOKE AND TANGIER SOUNDS - POCOMOKE RIVER – SHOALING
Shoaling has been reported in the Pocomoke River between Pocomoke River Channel Buoy 7 (LLNR 22540) and Pocomoke River Channel Buoy 8 (LLNR 22555). MD-NCR BNM 006-20
Chart 12228

MD - LITTLE CHOPTANK RIVER - SLAUGHTER CREEK – SHOALING
Shoaling in the western portion of Slaughter Creek IVO of Holland Point has encroached easterly in most of the channel. The shoal adjacent to Slaughter Creek Light 2SC (LLNR 24645) has encroached approx 50-100 yds easterly with observed depths of 3-4' in between tide cycles. Shoaling to 5' MLW has been observed on the red side of the channel between Slaughter Creek Buoy 6 (LLNR 18812) and Slaughter Creek Buoy 8 (LLNR 18815). The channel width in the area of Slaughter Creek Buoy 4A (LLNR 18812) and Deep Point is reduced to approx 20 ft. MD-NCR BNM 045-17, Chart 12264, 12266

MD - CHESAPEAKE BAY - HONGA, NANTICOKE AND WICOMICO RIVERS – FISHING BAY - TAR BAY
A USACE survey conducted in Apr 2016 has identified shoaling to a depth of less than one foot at mean low water between Tar Bay Channel Warning Daybeacon E (LLNR 24595) and Tar Bay Channel Warning Daybeacon K (LLNR 24615). The channel width has been significantly reduced. Observed depths are between 2-4' at high tide. Sec MD-NCR BNM 044-17
Chart 12261

MD – FISHING BAY – FARM CREEK – SHOALING
From entrance of channel to Farm Creek Channel Daybeacon 2 (LLNR 24430) least depth of 5 feet within the channel limits. From Farm Creek Channel Daybeacon 2 (LLNR 24430) to Farm Creek Channel Daybeacon 7 (LLNR 24445) least depth of 2.0 feet on red side of channel, 3.9 Ft centerline of channel, and 2.8 feet on the green side of channel. Ref LNM 16/18.

VA – MD – POTOMAC RIVER – BONUM CREEK – SHOALING
U. S. Army Corps of Engineers Survey of Bonum Creek indicates shoaling, to less than 4 feet MLLW, in the channel.

  Potomac River – Governor Harry Nice Memorial Bridge – Permit (1-20-5) signed March 20, 2020, for a fixed replacement bridge with a vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the bridge may be shifted up to 585 feet to the west of the current navigation span. (KB)
  Neale Sound – MD-254 (Cobb Island Road) Bridge – Permit (1-18-5) signed May 2, 2018, for a fixed replacement bridge with a vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)
- Washington DC
  Anacostia River – Frederick Douglass Memorial Bridge - Permit (2-17-5) signed December 4, 2017, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water and a horizontal clearance of 150 feet. (MB)
- Virginia (Northern) – None.

SECTOR VIRGINIA

- Virginia (Southern)
  Western Branch of the Elizabeth River – Churchland Bridge - Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement of the northbound structure of the bridge with a structure providing a vertical clearance of 36.63 feet above mean high water and a horizontal clearance of 80 feet. (MS)
  Darby Creek – S.R. 420 (Wanamaker Avenue) - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on December 13, 2018; vertical clearance of 11 feet above mean high water and a horizontal clearance of 78 feet. (MT)
  Hampton Roads - I-64/US 60 (Hampton Roads Beltway) north and south approach bridges for the Hampton Roads Bridge Tunnel (HRBT) – Fixed bridge replacement Preliminary Navigation Clearance Determination (PNCD) issued on July 1, 2020: north approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 90 feet; south approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 100 feet. (MT)
  Willoughby Bay – I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - Fixed bridge replacement Preliminary Navigation Clearance Determination (PNCD) issued on July 1, 2020; vertical clearance of 25 feet above mean high water and horizontal clearance of 50 feet. (MT)
  Blackwater River - Public Notice D05PN-05-2020 - Comments closed on June 9, 2020. (MS)

SECTOR NORTH CAROLINA

- North Carolina
  Atlantic Intracoastal Waterway – NC 210/50 Bridge, Surf City, NC - new fixed bridge structure to replace (swing) bridge. Permit (2-16-5) signed September 27, 2016. (KB)
  The Straits – Harkers Island Bridge – Bridge Replacement - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 24, 2017; vertical clearance of 45 feet above mean high water and a horizontal clearance of 125 feet. (MB)
  Pamlico Sound – Bridge No. 71 (Rodanthe) Bridge – new fixed bridge carrying NC 12 on the mainland side of the outer bank along the northeastern shore of Pamlico Sound from a position approximately 1.8 miles north of the southern boundary of the Pea Island National Wildlife Refuge to a position north of the Chicamacomico Channel and the emergency ferry terminal in Rodanthe, Dare County, NC. Permit (1-19-5) signed on February 20, 2019. (HP)
  Perquimans River – Bridge No. 8 (US17 BUS/NC37) Bridge, Hertford, Perquimans County, NC - new drawbridge to replace existing drawbridge. Permit (6-19-5) signed December 31, 2019. (HP)
SECTOR DELAWARE BAY

  [Image]
- Glimmer Glass, (Debbie’s Creek) - Monmouth County Bridge (W-9) – Bridge will be maintained in the closed-to-navigation position from 12:01 am. on April 22, 2020, until 11:59 p.m. on October 31, 2020. The closure is necessary due to reduced personnel staffing related to the coronavirus (COVID-19) pandemic. During the closure, the bridge will open on signal between 3 p.m. and 8 p.m., from Monday through Friday, and between 1 p.m. and 8 p.m., on Saturday and Sunday. The vertical clearance of the bridge in the closed-to-navigation position is 4 feet above mean high water. Vessels able to safely pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open for emergencies if at least 2 hours notice is given to (609) 465-1035. At all other times the bridge will operate per 33 CFR 117.745 (b). Mariners should use caution when transiting the area. (HP)

Rancocas Creek - Riverside-Delanco Bridge – The bridge will be maintained in the closed-to-navigation position from 12:01 am. on May 5, 2020, through 11:59 p.m. on October 31, 2020. The closure is necessary due to reduced personnel staffing related to the coronavirus (COVID-19) pandemic. During the closure, the bridge with open on signal between 3 p.m. and 8 p.m., from Monday through Friday, and between 1 p.m. and 8 p.m., on Saturday and Sunday. The vertical clearance of the bridge in the closed-to-navigation position is 4 feet above mean high water. Vessels able to safely pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open for emergencies if at least 30 minutes notice is given to (856) 829-3002. At all other times the bridge will operate per 33 CFR 117.719. (HP)

Great Channel - CR 619 (Ocean Drive) Bridge - The bridge will be maintained in the closed-to-navigation position from 6 a.m. on May 15, 2020, to 10 p.m. on October 15, 2020. The closure is necessary due to reduced personnel staffing related to the coronavirus (COVID-19) pandemic. During the closure, the bridge will open on signal, if at least 2 hours notice is given to (609) 465-1035. Vessels able to pass through the bridges in the closed-to-navigation position may do so at any time. The bridge will be able to open on signal for emergencies if at least 30 minutes notice is given to (609) 465-1035. At all other times, the drawbridge will operate in accordance with the regulations set out in Title 33 Code of Federal Regulations Part 117.720. Mariners should use caution when transiting the area. - New Jersey Intracoastal Waterway (NJICW), Inside Thorofare - US40-322 (N Albany Ave) Bridge – Bridge maintenance that begun in May 2019 will continue through 2023. Work will consist of repair and rehabilitation of the bridge fender system. Work will be conducted from 7 a.m. to 5 p.m. The maintenance will require one 30 x 40 foot barge to be anchored parallel to each pier while that pier has maintenance performed. Each span is 80 feet wide, which will leave approximately a 49-foot opening for vessels to pass alongside the barge. All additional spans will retain their 80-foot horizontal openings. The project superintendent may be reached at 484-318-0713. Mariners should use caution when transiting the area. (MB)

New Jersey (Central & Southern)

Delaware River – Commodore Barry (fixed) Bridge – Repainting of the main (cantilever) truss span, signal gantries, steel barriers along the entire bridge, and water tower will continue through 2023. Work platforms will be installed, reducing the available vertical clearance by 3 feet, reducing the clearance from 190 feet to 187 feet above mean high water. Mariners should exercise caution when transiting the area. (KB)

New Jersey Intracoastal Waterway (NJICW), Inside Thorofare - US40-322 (N Albany Ave) Bridge – Bridge maintenance that begun in September, 2018, will continue to be conducted from 6 a.m. to 6 p.m.; Monday-Friday; through December 31, 2020. Work will consist of repair and rehabilitation of the bridge fender system. A crane barge, a material barge, a 25-foot work vessel, and several work floats will be located in and around the vicinity of the bridge. During the work hours, the horizontal clearance of the bridge will be reduced to approximately 25 feet due to work floats located inside the navigational channel throughout for the duration of the maintenance period. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may transit through the bridge between 11:30 a.m. and 12:30 p.m., if at least a 24-hour prior notice is given to the project foreman. Maintenance personnel, equipment and vessels will relocate from the navigable channel to facilitate the safe transit through the bridge of vessels that cannot safely transit the bridge with a reduced horizontal clearance. Work vessels and barges may be reached on VHF-FM channel 13. The project superintendent may be reached at (267) 907- 5087 or (215) 815-1251. Mariners should use extreme caution when transiting the area. (MT)
September, 2018, will continue to be conducted from 6 a.m. to 6 p.m.; Monday-Thursday; through December 31, 2020. Work will consist of repair and rehabilitation of the bridge fender system. A crane barge, a material barge, a 25-foot work vessel, and several work floats will be located in and around the vicinity of the bridge. During the work hours, the horizontal clearance of the bridge will be reduced to approximately 30 feet due to work floats located inside the navigational channel throughout for the duration of the maintenance period. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may transit through the bridge between 11:30 a.m. and 12:30 p.m., if at least a 24-hour prior notice is given to the project foreman. Maintenance personnel, equipment and vessels will relocate from the navigable channel to facilitate the safe transit through the bridge of vessels that cannot safely transit the bridge with a reduced horizontal clearance. Vessels and barges may be reached on VHF-FM channel 13. The project foreman may be reached at (267) 907-5087 or (215) 815-1251. Mariners should use extreme caution when transiting the area. (MT)

Delaware River - SR 73 (Tacony-Palmyra) Bridge – Bridge painting project will be conducted from March 25, 2019, to September 1, 2020, Monday through Saturday, from 7 a.m. to 5 p.m. To facilitate the work, scaffolding will be installed underneath the bridge and will reduce the vertical clearance by 4 feet at the Tacony Truss and Palmyra Truss Spans and by 3 feet at the Arch Span. The Project Foreman may be reached at (267) 767-2550 or VHF/FM Ch. 13. Mariners are urged to use caution when transiting the area. (MT)

New Jersey Intracoastal Water (NJICW), Ingram Thorofare - CR 601 (Avalon Blvd) Bridge – Bridge construction will be conducted from September 1, 2019, to May 25, 2021. To facilitate the work, scaffolding will be installed underneath the bridge and will reduce the vertical clearance to 33ft above mean high water. The Project Foreman may be reached on VHF/FM Channel 13. Mariners should use caution when transiting the area. (MS)

Delaware River - SR 73 (Tacony-Palmyra) Bridge - Bridge maintenance will be conducted from February 12, 2020, to August 11, 2020, Monday through Saturday, from 7 a.m. to 5 p.m. The maintenance will require a 2-hour advance notice for all requested bridge openings during the entire maintenance period. The project supervisor can be reached at (856) 429-5400. The bridge tender may be reached on VHF-FM channels 13 or 16. The movable span shall be unable to open for an emergency during the specified working hours unless a 2-hour notice is provided. Mariners are urged to use caution when transiting the area. (MB)

Delaware River - Betsy Ross Bridge – Bridge inspection will be conducted from June 8, 2020, to June 12, 2020; Monday - Friday, 7 a.m. to 4 p.m. Inspection vessels will be monitoring VHF channel 13, and the boat captain may be reached at (513) 313-0610 or (732) 407-0957. The inspection vessels can relocate with 30 minutes notice. Mariners are urged to use caution when transiting the area. (KB)

Delaware River - Benjamin Franklin Bridge – Bridge maintenance will be performed from July 27, 2020, through December 31, 2024. For the duration of the project, the preferred navigation channel and bridge navigational lighting normally situated over the 410-foot Federal project channel will be shifted to the east approximately 205 feet. The Federal Project channel will remain fully open to traffic; however the vertical clearance of the channel has temporarily decreased based on the planned scaffolding system (work platform) to be installed. The scaffolding system will be installed over the entire length of the bridge, as detailed below:

Preferred Navigation Channel: A 410-foot scaffolding (work platform) system, with five 82-foot independent work zones, will be installed extending below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet). When in use, a single 82-foot work zone portion of the 410-foot scaffolding (work platform) system will be installed below the bridge approximately 18.5 inches (1.54 feet), thereby reducing the vertical clearance of the bridge within the work zone. By approximately 13 inches (1.04 feet) extending below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet), if at least 48 hours notice is given to Eric.Dovak@Skanska.com.

Outside the Preferred Navigation Channel: Scaffolding will extend below the bridge approximately two feet from the west boundary of the Federal project channel to the center of the Federal project channel (west boundary of preferred navigation channel) and from the east boundary of the preferred navigation channel toward the east abutment approximately 385 feet. West of the west boundary of the Federal project and east of the position approximately 385 feet east of the east boundary of the preferred navigation channel, scaffolding will extend below the bridge approximately three feet.

A safety boat will be in the vicinity of the bridge during bridge maintenance, which may be reached via VHF FM channel 13. Mr. Eric Dovak, contractor’s representative, may be reached at Eric.Dovak@Skanska.com or (347) 860-2399. Mariners are advised to exercise caution when transiting the area. (HP)

Pennsylvania – Schuylkill River - Grays Ferry Railroad Bridge - Modification activities that began in 2018, are expected to finish on December 31, 2020. Work will be performed from 6 a.m. to 5 p.m.; M-F. During this bridge modification project, one navigation span will be occupied; the other navigation span to be open for vessel traffic. Mariners are urged to navigate the transect with extreme caution and due regard for prevailing conditions on the waterway. The new bridge will have a vertical clearance of 26 feet above mean high water in the closed-to-navigation position, an unlimited vertical clearance in the open position, a horizontal clearance of 75 feet in the western navigation span, and 65 feet in the eastern navigation span. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. (MT)

Schuylkill River - I-76 (Schuylkill Expressway), west bank, between University Avenue - Bridge maintenance will be conducted between Wednesday, March 27, 2019, and Friday, October 16, 2020; Mon-Fri; from 6 a.m. to 4 p.m. The maintenance will require a tug and two barges to work along the western bank of the Schuylkill River. The project superintendent may be reached at (610) 487-4976. The tug will be monitoring VHF-FM channels 13 and 16. Mariners are urged to use caution when transiting the area. (MB)

Delaware River - SR 73 (Tacony-Palmyra) Bridge – Bridge painting project will be conducted from March 25, 2019, to August 11, 2020, Monday through Saturday, from 7 a.m. to 5 p.m. To facilitate the work, scaffolding will be installed underneath the bridge and will reduce the vertical clearance by 4 feet at the Tacony Truss and Palmyra Truss Spans and by 3 feet at the Arch Span. The Project Foreman may be reached at (267) 767-2550 or VHF/FM Ch. 13. Mariners are urged to use caution when transiting the area. (MS)

Delaware River - Betsy Ross Bridge – Bridge inspection will be conducted from June 8, 2020, to June 12, 2020; Monday - Friday, 7 a.m. to 4 p.m. Inspection vessels will be monitoring VHF channel 13, and the boat captain may be reached at (513) 313-0610 or (732) 407-0957. The inspection vessels can relocate with 30 minutes notice. Mariners are urged to use caution when transiting the area. (KB)

Shark River - Route 71 (Main Street) Bridge - To facilitate bridge work, the bridge will be maintained in the closed-to-navigation position from 5 p.m. to 5 a.m., from Monday, June 29, 2020, through Wednesday, July 1, 2020. During this period, the bridge will open on signal or demand from 5 a.m. to 5 p.m. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.751. The project superintendent may be reached at (856) 718-2133. Mariners should use caution when transiting the area. (KB)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- Maryland
  - Chesapeake Bay - US 50/US 301 (William P. Lane Jr. Memorial) (Eastern Channel) Westbound Bridge – Bridge maintenance which began in July, 2017, has been extended to December 31, 2020; 24 hours a day; 7 days a week. The work will involve the Spans 44-46 (span 45 is the
navigational span). A barge and work vessels will enter in and around the vicinity of the bridge. A work platform will be attached to the underside of bridge which will reduce the vertical clearance of the bridge span to approximately 56 feet above mean high water. During the maintenance period from March 5, 2019, through May 25, 2019, a work barge will be located near the center of the navigational span, reducing the horizontal clearance of the bridge to approximately 300 feet on either side of the barge. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (717) 40-1699 or 803-535-9995. Mariners should use extreme caution navigating through the area.

Neale Sound - Bridge No. 0803800 (MD-254) Bridge - Construction activities will begin on May 21, 2018, and are expected to conclude on August 31, 2020. Work hours are from 6 a.m. to 6 p.m., Monday through Friday. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Marine equipment engaged in bridge construction will include the Tug Rising Sun; whirley crane Hampton Road on a 46-foot by 108-foot barge; pedestal crane Patapsco on a 40-foot by 100-foot barge; WS4 a 40-foot by 98-foot crane barge; SC149 a 52-foot by 115-foot deck barge; SC77 a 34-foot by 240-foot car float barge and work boats, jack boats and crew boats. Marine equipment will moor via spuds in Neale Sound during bridge construction and for heavy weather. Mariners may contact vessels and construction personnel via VHF-FM channel 13 and 16. The project superintendent may be contacted at (443) 980-7633 and the project area construction manager may be contacted at (410) 215-3579. Mariners should navigate with extreme caution in the vicinity of the bridge and construction equipment. (HP)

Squistine - US 101/SR 1 North Bend - Bridge - The project area is located in the vicinity of the Squintine Bridge which will be under construction for the purpose of widening the bridge. Media equipment engaged in bridge construction will include the Tug Rising Sun; whirley crane Hampton Road on a 46-foot by 108-foot barge; pedestal crane Patapsco on a 40-foot by 100-foot barge; WS4 a 40-foot by 98-foot crane barge; SC149 a 52-foot by 115-foot deck barge; SC77 a 34-foot by 240-foot car float barge and work boats, jack boats and crew boats. Marine equipment will moor via spuds in Neale Sound during bridge construction and for heavy weather. Mariners may contact vessels and construction personnel via VHF-FM channel 13 and 16. The project superintendent may be contacted at (443) 980-7633 and the project area construction manager may be contacted at (410) 215-3579. Mariners should navigate with extreme caution in the vicinity of the bridge and construction equipment. (HP)

Severn River - US 50/US 301/SR 2 (John Hanson Highway/Severn River) Bridge - Bridge maintenance will be conducted from July 1, 2020, through July 11, 2020, from 9 a.m. to 3 p.m. to accommodate bridge inspections. Vessels able to pass through the bridge in the closed position (15 feet above MHW) may do so at any time, and others should adjust their transits accordingly. Bridge can open upon request. Mariners should use caution when transiting the area. (KB)

Lower Potomac River - Harry W. Nice/Thomas "Mac" Middleton (US 301) Bridge – Construction will commence in May 2020, with completion estimated in November 2024. Work is scheduled from 7:00 a.m. to 7:00 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, a barge loading facility will be constructed on the Maryland shore and work vessels will be located north of the existing bridge extending outward from the Virginia shore to approximately 320 feet and from the Maryland shore to approximately 200 feet. Dredging will occur from the end of the Virginia work trestle until the water depth reaches 6 feet at mean lower low water. A vertical clearance of 135 feet above mean high water and horizontal clearance of 250 feet will be maintained throughout construction. Marine equipment engaged in bridge construction will include the Tug Rising Sun; whirley crane Hampton Road on a 46-foot by 108-foot barge; pedestal crane Patapsco on a 40-foot by 100-foot barge; WS4 a 40-foot by 98-foot crane barge; SC149 a 52-foot by 115-foot deck barge; SC77 a 34-foot by 240-foot car float barge and work boats, jack boats and crew boats. Marine equipment will moor via spuds in Neale Sound during bridge construction and for heavy weather. Mariners may contact vessels and construction personnel via VHF-FM channel 13 and 16. The project superintendent may be contacted at (443) 980-7633 and the project area construction manager may be contacted at (410) 215-3579. Mariners should navigate with extreme caution in the vicinity of the bridge and construction equipment. (HP)

Potomac River - Arlington Memorial Bridge - Major rehabilitation of the Arlington Memorial Bridge commenced in the Potomac River in Washington, DC in July of 2018, and will continue until November 2020. The initial work consisted of pinning a pier barge in place with a steel ramp connecting the barge to the shore on the western shoreline south of the bridge and outside of the federal navigation channel. Construction work will generally be conducted Mondays through Saturdays, between 7 a.m. and 7 p.m., though nighttime work is possible. Marine equipment on site includes a crew boat, push boats, and up to 10 barges at various locations along the length of the bridge with work focused on the center span. In July of 2018, the project relocated the federal navigation channel under the center span of the bridge (Arch 5) to a temporary channel located under the adjacent span to the east (Arch 4). On Monday, August 17, 2020, the temporary channel will be relocated to Arch 3 due to marine construction under Arch 5 and Arch 4. On the evening of September 25, 2020, the navigation channel lighting at the bridge will be in accordance with Coast Guard requirements. The federal navigation channel (Arch 5) remains completely obstructed to replace the center span of the bridge. All elements will be marked and lighted in accordance with USCG requirements. Mariners are urged to use caution when transiting the area, and operate at the minimum speed necessary to maintain safe course near the work site. Interested mariners can contact the vessels BULLDOG II and CAPT. JACK via marine band radio VHF-FM channels 16 and 13 when actively working on the river, or at telephone number 305-304-6853. The Kiewit bridge construction contractor may be contacted at 813-323-4611. For any questions or concerns, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone (410) 576-2674 or (410) 576-2693. (MS)(RH)

Anacostia River - Frederick Douglass Memorial (South Capitol Street) Bridge – Bridge construction commenced in the Anacostia River in Washington, DC on April 19, 2018, and will continue into 2022. The work is being conducted Mondays through Saturdays, between 7 a.m. and 7 p.m., with intermittent night work and currently consists of: (1) The temporary West Trestle, which extends from the western shoreline eastward to the center of the federal navigation channel and connects to the eastern span of the Bridge Pier 1 and the eastern portion of the new bridge structure; (2) The temporary East Trestle, which extends from the eastern shoreline westward to the eastern limit of the federal navigation channel and includes new Bridge Pier 2 and the eastern portion of the new bridge structure. This area is marked with two orange and white information and regulatory marker buoys labeled "Danger" that are placed approximately 85 yards (250 feet) upstream of the bridge. The temporary navigation channel east of the center pier (eastern half), approximately 150 feet wide, remains available for navigation. To support active construction operations, a vessel/barge may be intermittently positioned within the navigable channel. Mariners intending to transit this area are urged to contact the vessels MS. BECKY or CLAIRE MARIE for passing arrangements. Marine equipment on site includes a crew boat, a push boat, and multiple deck barges. All equipment will be marked and lighted as required by U. S. Coast Guard regulations. Mariners are urged to use extreme caution when transiting the area, and to operate at minimum speed necessary to maintain safe course near the work site. Interested mariners can contact the vessel MS. BECKY or vessel CLAIRE MARIE via VHF-FM channels 16 and 13 when actively working on the river. (MB)(RH)

Virginia (Northern) - None

SECTOR VIRGINIA

Virginia (Southern) - None

Queens Creek - I-64 Bridges - Bridge construction will be conducted from December 3, 2018, to September 24, 2021, Monday-Friday from 7 a.m. to 6 p.m. To facilitate the work, a temporary work trestle and a work barge will be in the vicinity of the navigational channel. A minimum 15-foot wide navigational opening will be maintained in the main navigational channel at all times. The Project Foreman may be reached on VHF/FM Channel 13. Mariners should use caution when transiting the area. (MS)

Albermarle and Chesapeake Canal, Atlantic Intracoastal Waterway - Centerville Turnpike (SR-170) Bridge – Bridge maintenance began on Monday, May 13, 2019, and is scheduled to end on Friday, September 18, 2020. Bridge maintenance will be performed in six phases and updated notices will be published prior to each phase. This notice provides details for Phase VI, scheduled from 6 a.m. on February 20, 2020, through 8:30 p.m. on September 18, 2020. Work hours are Monday through Friday, from 6 a.m. to 8:30 p.m. The swing span of the bridge will be operational. During work hours, bridge maintenance vessels and barges will occupy the navigation span, reducing the horizontal clearance
to approximately 40 feet. Bridge maintenance vessels and barges will relocate from the navigation span, upon request, for commercial vessels carrying liquefied flammable gas or other hazardous materials and emergency vessels as defined in 33 CFR 117.31; and all vessels upon request, if at least a one-hour notice is given. Vessels may contact the bridge tender on VHF-FM channel 13 or (757) 547-3631. Vessels may contact work vessels or the project foreman on VHF-FM channel 13 or (757) 620-3565. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.997(i). The drawbridge has a vertical clearance of 4 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 80 feet. Mariners should adjust their transits accordingly and use extreme caution when transiting the area. (HP) Pamunkey River - US 30 (Eltham Road) Bridge – Bridge inspection personnel will be on-scene from December 02, 2019, to December 27, 2019. The inspection will require the use of an under-bridge inspection vehicle/snooper truck on the roadway and safety boat in the navigable channel each day from 8 a.m. to 5 p.m. The inspection crew is requesting a 10-minute advance notice for an opening to allow inspection personnel and equipment to relocate from the moveable span. The bridge tender may be reached on VHF-FM CH 13. Mariners should use caution when transiting the area. (KB) James River - SR 156 (Benjamin Harrison Memorial) Bridge – Bridge maintenance will be conducted from 7 a.m. to 5 p.m.; Monday-Friday; from 7 a.m. on March 9, 2020, through 5 p.m. on October 30, 2020. A 40-foot barge and two work boats and a dive team will be located in the vicinity of the bridge, but should not encroach into the navigation channel. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (757) 435-9097 or (757) 588-3939 or (757) 478-2705. Mariners should use extreme caution navigating through the area. (HP) James River - SR 156 (Benjamin Harrison Memorial) Bridge – Bridge inspection will be conducted from 9 a.m. to 3:30 p.m.; Monday-Friday; from July 20, 2020, through July 31, 2020. A bucket inspection vehicle will be operating under and in the vicinity of the bridge to provide access for inspection. Inspection personnel, equipment and vessels will relocate from the moveable span and navigable channel, upon request. The bridge tender and inspection vehicle may be reached on VHF-FM channels 13 and 16. The project foreman MAY be reached at (804) 564-4075. Mariners should notify the work foreman no less than 45 minutes prior to transiting the bridge. Mariners should use caution when navigating through the area. (MT) SECTOR NORTH CAROLINA

- North Carolina
  - Oregon Inlet - Herbert C. Bonner Bridge – Demolition of the old bridge is anticipated to be completed by January 31, 2020. During demolition of the old bridge, the designation of navigation spans and placement of bridge lighting will be changed several times, as reflected below, and provided via updated local notice to mariners and broadcast notice to mariners. Phase 2 (Effective April 24, 2019): The navigation spans are between bridge bents 173 and 176 (old bridge, with no superstructure between bridge bents) and bridge bents 20 and 21 (span 21) on the new bridge. The approximate limiting navigation clearances are 70 feet above mean high water limiting new bridge, span 21) and 169 feet between bridge bents (old bridge, between bridge bents 173 and 176). Temporary bridge lighting has been placed between bridge bents 173 and 176 of the old bridge and between bridge bents 20 and 21 (span 21) of the new bridge. Phase 3 (to be announced): The navigation span will be between bridge bents 22 and 23 (span 23) of the new bridge. The adjacent spans of the old bridge will have been removed. The limiting navigation clearances (approximate) will be 70 feet above mean high water and 275 feet between bridge bents. Permanent bridge lighting will be placed between bridge bents 22 and 23 (span 23) of the new bridge. Mariners are advised to use extreme caution when transiting through the bridge, follow the aids to navigation closely and remain at least 500 feet clear of all construction vessels and equipment. Submerged concrete pilings and barges will be located on the surface of the water near construction activities. Mariners should use caution navigating through the area. (MT)
  - Norfolk - James River - SR 156 (Benjamin Harrison Memorial) Bridge – Bridge inspection will be conducted from 7 a.m. to 5 p.m.; Monday-Friday; from July 20, 2020, through July 31, 2020. A crane barge, material barge, several tugs, several work vessels and platforms, and a snooper truck will be located in and around the vicinity of the bridge. During work hours, the snooper truck will be located in and around the navigational span of the bridge performing concrete repairs through November 30, 2020. During work hours, the crane barge, material barge, several tugs, several work vessels and platforms will be located within the navigation span performing work on the fender system through March 31, 2020. The snooper truck will extend below low steel of the bridge approximately ten feet, reducing the vertical clearance in the navigation span to approximately 55 feet above mean high water. Vessels that require the snooper truck to clear the navigation span to safely navigate through the bridge should notify the work foreman no less than 30 minutes prior to navigating through the bridge. The tugs, barges, and work vessels and platforms will reduce the horizontal clearance in the navigation span to approximately 38 feet. Vessels that require the tugs, barges, and work vessels and platforms to clear the navigation span to safely navigate through the bridge should notify the work foreman no less than one hour prior to navigating through the bridge. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (757) 287-9269 or (703) 231-8589. Mariners should use extreme caution navigating through the area. (MT)
  - Pungo River - SR 156 (Benjamin Harrison Memorial) Bridge - Bridge inspection will be conducted from 7 a.m. to 5 p.m.; Monday-Friday; from July 20, 2020, through July 31, 2020. A work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 34 feet above mean high water in the closed position. Vessels that can safely transit through the bridge in the closed position may do so at any time. The bridge will not be able to open in case of an emergency and there is an alternate route for vessels to pass. Mariners should use caution when transiting the area. (MB)
  - Northeast Cape Fear River - US 74/SR 133 (Isabel S. Holmes) Bridge – Bridge maintenance which began in September 2019, will continue to maintain the bridge in the closed position 24 hours a day, 7 days a week, through 12:01 a.m. on June 30, 2021. The bridge will open on signal for daily scheduled openings at 6 a.m., 10 a.m., 2 p.m. and 7 p.m., if at least a 24-hour notice is given; except for scheduled bridge closures for events per 33 CFR 117.829 (a) (4). The bridge will open on signal for vessels unable to safely transit the bridge during a scheduled opening, due to the vessel’s draft, if at least a 24-hour notice is given; except for scheduled bridge closures for events per 33 CFR 117.829 (a) (4). During the maintenance period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 34 feet above mean high water in the closed position. Vessels that can safely transit through the bridge in the closed position with the reduced vertical clearance may do so at any time. The bridge will not be able to open for emergencies. Work vessels and barges may be reached on VHF-FM channel 13 and the project foreman may be reached at (910) 251-5774 or 561-232-9773. Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)
  - North River - US 74/SR 133 (Isabel S. Holmes) Bridge – Bridge maintenance, which began in September 2019, will continue to maintain the bridge in the closed position 24 hours a day, 7 days a week, through 12:01 a.m. on June 30, 2021. The bridge will open on signal for daily scheduled openings at 6 a.m., 10 a.m., 2 p.m. and 7 p.m., if at least a 24-hour notice is given; except for scheduled bridge closures for events per 33 CFR 117.829 (a) (4). The bridge will open on signal for vessels unable to safely transit the bridge during a scheduled opening, due to the vessel’s draft, if at least a 24-hour notice is given; except for scheduled bridge closures for events per 33 CFR 117.829 (a) (4). During the maintenance period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 34 feet above mean high water in the closed position. Vessels that can safely transit through the bridge in the closed position with the reduced vertical clearance may do so at any time. The bridge will not be able to open for emergencies. Work vessels and barges may be reached on VHF-FM channel 13 and the project foreman may be reached at (910) 251-5774 or 561-232-9773. Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)
  - Pamunkey River - US 30 (Eltham Road) Bridge – Bridge inspection personnel will be on-scene from December 02, 2019, to December 27, 2019. The inspection will require the use of an under-bridge inspection vehicle/snooper truck on the roadway and safety boat in the navigable channel each day from 8 a.m. to 5 p.m. The inspection crew is requesting a 10-minute advance notice for an opening to allow inspection personnel and equipment to relocate from the moveable span. The bridge tender may be reached on VHF-FM CH 13. Mariners should use caution when transiting the area. (KB)
9773. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.829 (a). Mariners should adjust their transits accordingly and should use caution when transiting the area.  (MT)

**SUMMARY OF DREDGING/MARINE CONSTRUCTION PROJECTS**

**CURRENTLY IN PROGRESS**

**NEW OR UPDATED INFORMATION**

New, updated or very important information in this enclosure will be highlighted in yellow.

**DREDGING AND MARINE CONSTRUCTION CAUTIONS**

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted 24 hours a day, 7 days a week. All fishnets, crab pots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

**NJ - SHARK RIVER INLET – DREDGING**

The US Army Corps of Engineers will be conducting maintenance dredging with the hopper dredge CURRITUCK in the vicinity of Shark River Inlet daily from 6:00 a.m. to 6:00 p.m. beginning July 19 through July 24, 2020. Mariners are reminded to maintain a safe distance from all dredge equipment and vessels. The dredge CURRITUCK can be contacted on VHF-FM Channel 13 or 16.

Chart 12324

**NJ – GREAT EGG HARBOR BAY – BEESELYS POINT – TRANSITION TOWER CONSTRUCTION**

In mid-August 2019, South State Contractors will begin construction of new transition towers in Great Egg Harbor Bay west of the Garden State Parkway Great Egg Harbor. The new towers will be located approximately 500’ to the west of the existing towers. All barges and work boats involved will be monitoring VHF channel 13. Project work will be conducted 7 days a week between the hours of 5:00 a.m. and 8:00 p.m. and expected to last till Aug 2021. A floating dock consisting of Shugart barges will be staged outside of navigable channel near the old Route 9 bridge.

Chart 12316

**NJ - GREAT EGG HARBOR INLET TO TOWSEND INLET, AND PECK BEACH – DREDGING - BEACHFILL**

Great Lakes Dredge & Dock Company will be conducting dredging and beachfill operations from Great Egg Harbor Inlet to Townsends Inlet, and Peck Beach, Cape May County, New Jersey. Operations will commence in June and continue until Oct 2020. Material will be dredged from the Great Egg Harbor Inlet Borrow Area and be pumped directly to shore from the hydraulic dredge OHIO. VHF- FM Channels 13 & 16 will be monitored 24hr/day, 7 day/week. For more information or questions contact Stuart Hilgendorf Project Manager (443) 831-0785 or SHilgendorf@gldd.com.

Chart 12318

**NJ – SEA ISLE CITY – DREDGING - BEACHFILL**

Great Lakes Dredge & Dock Company will be conducting dredging and beachfill operations in Sea Isle City. Operations will commence in June and continue until Oct 2020. Material will be dredged from the L1 Borrow Area and be pumped directly to shore from the hydraulic dredge LIBERTY ISLAND. VHF- FM Channels 13 & 16 will be monitored 24hr/day, 7 day/week. For more information or questions contact Stuart Hilgendorf Project Manager (443) 831-0785 or SHilgendorf@gldd.com.

Chart 12318

**NJ – HEREFORD INLET – SEAWALL REPAIR**

Beginning June 1, 2020 and continuing until February 25, 2021 a Crane Barge along with an attendant plant will be operating at various locations in and around the Hereford Inlet. Materials will be delivered to this Crane Barge via tug and barge. The Crane Barge will not be sitting in the federally marked navigation channel at any time. The crew will be working Monday through Friday during day light hours. The Crane and attendant plant will both monitor VHF-FM Channel 16. Mariners are urged to use extreme caution and transit the area at a safe speed. If you have any questions or require additional information, please contact Agate Construction at cyurick@agateconstruction.net or at (609) 780-5175.

Chart 12316, 12318

**PA – NJ – MIFFLIN RANGE – FORT MIFFLIN TERMINAL DOCK – MARINE CONSTRUCTION**

Commerce Construction Corporation will be performing marine construction for Energy Transfer Partners at Fort Mifflin Terminal Dock, located along the Delaware River in Tinicum Township, PA. Crews will be on the water from 6:00 AM to 6:00 PM Monday thru Sunday, thru Dec 2020. Multiple barge mounted cranes, support barges and small craft will be near the dock supporting construction activities. Operators of vessels of all types should be aware that men will be working on floating equipment and within the water around the crane barge and docks. A NO WAKE transit is requested. LNM 40/18

Chart 12312

**PA - NJ – DELAWARE RIVER – PORT OF PAULSBORO – MARINE CONSTRUCTION**

The Paulsboro Marine Terminal will be conducting construction activities along the existing marine wharf. The multi-phase project will involve creation of a new berth on the downriver side of the existing pier. The project will continue through Oct 2021. During construction, there will be multiple tugs, work vessels, material and crane barges in the vicinity of the pier and Mantua Creek. For questions contact Coast Guard Sector Delaware Bay Waterways.

Chart 12312

**DE – DELAWARE RIVER – SILVER RUN – TRANSITION TOWER CONSTRUCTION**

From Jul 13 through Sep 30, 2020, South State Inc. will be constructing an ice protection system for an electrical transition structure in approximate position 39°27’26” N, 75°34’40” W, Silver Run Tower Vessel Protection Light A (LLNR 2497) and Silver Run Tower Vessel Protection Light B (LLNR 2497.1). The project and associated vessels and equipment will remain outside and to the west of navigation channel. Project work will be conducted Monday through Saturday during daylight hours. Mariners are requested to maintain a safe distance from all project barges and equipment and to minimize wake when transiting in the vicinity.

Chart 12311
DE – DELAWARE RIVER – NEW CASTLE RANGE - RED LION CREEK – CONSTRUCTION
From 1 Jul to approximately 12 Aug 2020, Delaware DOT will be conducting repairs to the Red Lion Creek Tide Gates and Dyke. Work will include constructing cofferdams on both sides of the existing Tide Gates and dewatering the area around the gates. Mariners are urged to transit the area with caution. For more information, contact Anna Smith, DelDOT at 302-760-2126 or anna.smith@state.de.us.
Chart 12311

MD – OCEAN CITY INLET – DREDGING
Dredging operations are expected to occur in Ocean City Inlet at Ocean City, MD, from July 22 through August 28, 2020. The work will be conducted within the federal navigation channel and at ebb/flood shoal at the confluence of the Inlet and Atlantic Ocean. Interested mariners may contact the U.S. Army Corps of Engineers dredge CURRITUCK via VHF-FM channels 13 and 16.
Chart 12211

MD – CHOPTANK RIVER – CAMBRIDGE – MARINE CONSTRUCTION
McLean Contracting Company will be replacing the Timber Bulkhead at Cambridge Marine Terminal in Cambridge County MD. Construction equipment and barges will be in the waterway during construction. Work expected to last until 30 Nov 2020. Equipment will monitor VHF-FM channels 13 and 16. Contact John Hackmann 443-623-8412 or Jay Musser 443-392-8089 for additional information.
Chart 12266

MD – CHESAPEAKE BAY – POPLAR ISLAND NARROWS – FERRY COVE – MARINE CONSTRUCTION
Lane Engineering will be conducting marine construction operations in Ferry Cove near Lowes Wharf, in approximate position 38-46-08.0N, 76-19-47.35W. Work will continue until 25 Sep 2020 and consist of installing a pier and water intakes. For more information or questions contact Sean Callahan at 410-221-0818.

MD – POPLAR ISLAND – MARINE CONSTRUCTION
McLean Contracting Company will be conducting marine construction operations on Poplar Island, Chesapeake Bay side from 8 Nov 2019 to 31 Jul 2020. Crane barges, deck barges, tugs, survey vessels and crew boats will be in the area and may be contacted on VHF-FM 13 and 16. For more information or questions contact, Scott Huchenski, Superintendent, 570-357-7894 or Mr. Jay Musser, Area Construction Manager, 443-392-8089.
Chart 12270

MD – CHESAPEAKE BAY – POPLAR ISLAND – ONGOING MARINE CONSTRUCTION
Marine construction of containment Cell Number 11 on Poplar Island is ongoing. Crews will be building sand and stone berms to expand the island and create a new containment cell. Mariners should avoid the area; if necessary contact the work vessels on VHF-FM channels 13 and 16. Ref LNM 1919 Chart 12266

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE – DREDGING
Great Lakes Dredge and Dock will be conducting dredging operations in Brewerton Eastern Extension, Tolchester channel, Brewerton Angle, Brewerton Channel, and the Northwest Branch (East Channel) Harbor channels until 31 Jul 2020. 24 hours a day, 7 days a week. Equipment on scene will be Dredge 54 and 55, tugs MICHAEL DAIGLE, BERING DAWN, ANNE JARRETT, ALLIE B, GULF DAWN, REED DANOS, HAYES, which may be contacted on VHF-FM channels 13 and 16. For more information or questions, contact Lester Salinas at 630-649-8879.
Chart 12278

MD – BALTIMORE HARBOR – PATAPSCO RIVER – OVERHEAD TRANSMISSION LINE – CONSTRUCTION
Marine construction operations for an aerial electric power transmission lines will occur on the Patapsco River, between Hawkins Point and Solters Point north and adjacent to the Francis Scott Key Memorial (I-695/Baltimore Beltway) Bridge, during May 4, 2020-October 7, 2022. The work will occur 24 hours per day, 7 days per week, at the following 5 approximate positions: (1) 39°12'46.8737" N, 076°31'58.7405 W; (2) 39°13'13.7868 N, 076°31'38.7851 W; (3) 39°13'26.6084 N,076°31'21.9825 W; and (5) 39°13'39.4271 N, 076°31'05.1787 W. McLean Contracting Company marine equipment spudded on site will include: (1) a sectional barge (120’x120’x7’) with Manitowoc Crane, (2) the Whirley Crane Baltimore barge (140’x70’x12.5’); (3) the Whirley Crane Hampton Roads barge (100’x46’x8’); (4) a Whirley Crane Newport News barge (110’x43’x8’); and (5) a deck barge. Mariners are urged to use caution when transiting the area, and to operate at minimum wake speed. Vessels on site, including "WB29", "MEGALADON", "RISING SUN", "CAPTAIN STEVE", crewboat and jackboats may be contacted on VHF-FM channels 16 and 13. For questions, contact Mr. Scott Popoloski, 603-501-8360 or Mr. Jay Musser, 443-392-8089.
Chart 12281

MD – BALTIMORE HARBOR – PATAPSCO RIVER – MARINE CONSTRUCTION
McLean Contracting Company will be conducting marine construction operations in the Baltimore Inner Harbor Channel near Fells Point. The dredge will need approx. 30-45 minutes notice to clear the channel for traffic. The tug RISING SUN will be towing barges in the Fort McHenry Channel to the Ferry Bar Channel to the Masonville DMCF. Mariners are cautioned to stay clear of dredge and barges associated with dredging operations. Operation are 6:00 am to 6:00 pm, six days a week. For more information or questions, contact Eric Brinson, at 910-330-5862 or ebrinson@mcleancontracting.com
Chart 12281

MD – UPPER CHESAPEAKE BAY - ELK RIVER – DREDGING
Southern Maryland Dredging will be dredging in the upper Elk River beginning at the Elk River Park public boat ramp and northward past Old Frenchtown Wharf into Big Elk Creek. A dredge pipeline will be routed west of the channel to an upland disposal site. About 1.6 miles of pipeline will be in the immediate vicinity of the channel, both submerged and floating. The pipeline will be marked with high visibility floating orange balls and a line of Danger and No Wake buoys. Dredging scheduled to be completed by 30 July 2020. Operations are 12 hours a day, 5 days a week. The dredge RHODES II monitors channel 8. For questions or additional information, contact Erika Wilson Goldman at 443-336-2320.
Chart 12274
VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – WALLOPS ISLAND – DREDGING AND BREAKWATER CONSTRUCTION

Continental Heavy Civil Corp will be conducting a Breakwater and Beach Nourishment project at Wallops Island in Accomack County VA. Operations will begin on 25 Mar 2020 and continue until Feb 2021. The vessels CAPTAIN BEAU and HEIDI will be on scene. The beach nourishment project will be along the beach front inside the NASA base. The construction of six off shore stone breakwaters will be directly in front on the newly placed sand. The project will include, barging material from Cape Charles Terminal to Wallops Island for the installation of the stone breakwaters. Project Coordinates are 37°51'10.06"N, 75°27'41.12"W. Contact Francisco J. Juelle for more information at 787-238-3243 or fjuelle@chcivil.com. LNM 1120 Chart 12210

VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE BAY BRIDGE TUNNEL – MARINE OPERATIONS

Chesapeake Tunnel Joint Venture will continue Tug, Crane and Barge operations near the existing tunnel protection berms for Islands 1 and 2. This work will not impede the navigational channel. A crane barge may be held in place by way of spuds and at other times it may be held in place by a six point anchoring system or made fast to several steel mooring piles. Buoy will be attached to the anchor so that the anchors may be moved as the crane barge advances. Buoy will be illuminated at night by one second flashing white lights and the barges will be illuminated by steady white lights on all corners. The steel piles will be illuminated at night by white lights. The steel piles and trestle will be positioned west of Island #1 approximately 125 feet and extending north of the fishing pier approximately 1000 feet. The ROBERT T and ANGELINA AUTUMN be on VHF-FM channel 16. For questions or more information, contact Jeremy Good at 978-979-3729. Charts 12222

VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGING

The B.E. Lindholm and the Clamshell Dredge Weeks 506 have completed dredging operations in Thimble Shoal Channel. Starting approximately 4 Aug 2020 and continuing until approximately 31 October 2020 the Clamshell Dredge PAULA LEE, Work Boat TROJAN, Tug COLONEL and scows will be operating in the Thimble Shoal Channel between Thimble Shoal Channel Lighted Bell Buoy 9 (LLNR 9255) and Thimble Shoal Lighted Channel Buoy 7 (LLNR 9235). The clamshell dredge will start dredging approximately 1,800 feet west of Thimble Shoal Channel Lighted Buoy 16 (LLNR 9290) moving east. All dredged material will be towed to Dam Neck Ocean Disposal Site (DNODS) Cells 5,6 & 7. Starting approximately 12 August 2020 and continuing until approximately 31 August 2020 the Hopper Dredges R.N. WEEKS and MAGDALEN will be operating in the Thimble Shoal Channel West of the Chesapeake Bay Bridge Tunnel. Dredged material will be transported to Dam Neck Ocean Disposal Site (DNODS) Cell #7.
Charts 12256

VA – LYNNHAVEN BAY – LINKHORN BAY – BRIDGE CONSTRUCTION

Allan Myers is conducting road widening and bridge replacement on Laskin Road in Virginia Beach, VA. Bridge passes over Great Neck Creek. Completion on or about Oct 2022. A cofferdam and turbidity curtains are installed at the site. For more information contact Pat Robinson at 610-960-3139. Chart 12222

VA – ELIZABETH RIVER – WESTERN BRANCH – BRIDGE CONSTRUCTION

Until Mar 2023, McLean Contracting will be conducting bridge demolition, and replacement of the Churchland Bridge on the Western Branch of the Elizabeth River. Signs have been installed on both sides of the bridge worded "OVERHEAD BRIDGE CONSTRUCTION 500 FEET AHEAD". A temporary pile crane trestle will be extending approximately 600 ft from either shoreline on the North side of the bridge. Barges and tugs will be on scene throughout the project and may be contacted on VHF-FM Channels 03, 13 and 16. For information, contact Scott White at 757-641-2132. LNM 2320 Chart 12253

VA – HAMPTON ROADS – ELIZABETH RIVER – NEWPORT NEWS CHANNEL – DREDGING

UPDATED END DATE. Cottrell Contracting Corporation of Chesapeake, Virginia Dredge LEXINGTON will be conducting dredging operations in various locations within the Norfolk Harbor Federal Channel. Dredging will be between Elizabeth River Channel Lighted Buoy 1ER (LLNR 9445) and Elizabeth River Channel Lighted Buoy 25 (LLNR 9710) and in the Newport News Channel between Newport News Channel Lighted Buoy 2 (LLNR 10840) and Newport News Channel Lighted Buoy 10 (LLNR 10875). The dredging will continue until 15 Sep 2020. Chart 12222

VA – JAMES RIVER – JORDAN POINT TO RICHMOND – DREDGING

Cottrell Contracting Corporation of Chesapeake Dredge MARION will be conducting dredging operations in the Hopewell to Richmond Deepwater Terminal Reach of the James River. Work will be conducted from the James River Channel Light 133 (LLNR 12640) and continue to James River Channel Light 124 (LLNR 12610). Work will continue until approximately August 31, 2020.
Chart 12252
VA – YORK RIVER – PAMUNKEY RIVER – TRANSMISSION LINE REPLACEMENT
STANTEC on behalf of Dominion Energy will be rebuilding an existing overhead transmission line which crosses the Pamunkey River approximately 6.5 miles west northwest of West Point, VA. Work will consist of the removal and replacement of five transmission structures within the Pamunkey River and adjacent tidal marsh. All new structures will be located outside the navigational channel. One existing structure, 224/228 is located within the river. Construction will begin on Sep 22, 2019. During the wire pulling operation, two boats will be actively patrolling the waterway and making contact with any vessel traffic. Barges will be moored in the Pamunkey River outside of the navigational channel when not actively working. Chart 12244

VA – CHESAPEAKE BAY – CHESAPEAKE CHANNEL – DREDGING
Great Lakes Dredge and Dock Company will be continuing Dredging and Bed Leveling Operations in the Chesapeake Channel also known as the York Spit Channel from Chesapeake Channel Lighted Buoy 15 (LLNR 7115) to Chesapeake Channel Lighted Buoy 35 (LLNR 7210) until 4 Dec 2020. The dredge DODGE ISLAND AND PADRE ISLAND will be on scene until Dec. All vessels will monitor VHF-FM channels 13 and 16. Dredging and disposal operations done at slow speeds with limited maneuverability. Mariners are urged to use extreme caution in the area of the dredge and transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For more information or questions contact Tom Jessee at 207-522-5494 or tjjessee@gldd.com. Chart 12254

VA – RAPPAHANNOCK RIVER – CABLE CROSSING INSTALLATION
Construction activities by Croman Construction for the for Dominion Energy Virginia Rappahannock River Cable Crossing will continue until Apr of 2021, east of the VA Route 3 Rappahannock River Bridge in the vicinity of 37 37 01.655N, 076 25 44.9693W (South Platform) and, 37 37 55.1326N, 076 24 52.724W (North Platform). The Crane Barges Xavier and CKK 495 will be performing the construction activities supported by a Tender Tug, a Towing Tug, and material barges. All vessels and crew will monitor VHF channels 13 and 17. For more information, contact James Matters 410-320-7534. Chart 12237

VA – CHESAPEAKE BAY – TANGIER ISLAND – JETTY CONSTRUCTION
Coastal Design and Construction will be building a stone jetty near Tangier Island on the West side just north of Tangier Island West Channel Light 3 (LLNR 22730). Construction is scheduled to begin 6 Jul and continue until 31 Oct 2020. Deck barges, crane barges and tug and push boats will be in the area and may be contacted on VHF-FM channel 13. For more information or questions, contact J. Richard Mattingly – Superintendent at 301-643-4323. Chart 12228

VA – POTOMAC RIVER – DUMFRIES – SHORELINE STABILIZATION – TURBIDITY CURTAIN
In conjunction with the Shoreline Stabilization Project, a Turbidity Curtin will be installed in the Potomac River at Dumfries, VA. The curtain will extend approximately 75 to 100 feet into the Potomac River in approximate position 38.549073, 77.274838, to 38.547058, 77.276584 and will be lighted every 100 feet. It is expected to be in place until Aug 2020. For any questions, contact Jessica Kelly at 757-778-7337. Chart 12228

VA – SANDBRIDGE – HELL POINT CREEK – BRIDGE – DEMOLITION
Sandbridge Road Bridge over Hei’s Point Creek demolition. Demolition of the existing bridge structure will affect the waterway beginning 2 Dec 2019. Project completion is Jul 2020. For any question or more information contact, Ryan Johnson of the City of Virginia Beach at 757-385-2050. Chart 12205, 12207

NC – OREGON INLET – BONNER BRIDGE - ARTIFICIAL REEF DEPLOYMENTS
North Carolina Division of Marine Fisheries will be conducting bridge material deployments at several artificial reefs located offshore of Oregon Inlet. Material will be deployed from a barge and tugboat, which will have limited maneuverability while offloading. Deployments will take 2-3 hours each. For more information, contact Jordan Byrum at 252-808-8036 or at jordan.byrum@ncdenr.gov. The following artificial reefs will be used. AR-130 (36° 00.296'N, 75° 31.957'W), AR-140 (35° 56.718'N, 75° 31.965'W), AR-145 (35° 54.017'N, 75° 23.883'W), AR-160 (35° 43.888'N, 75° 26.771'W) Chart 12204

NC – HATTERAS INLET – CONSTRUCTION AREA
NCDOT is performing construction work in Hatteras Inlet on the shoreline near the Ocracoke North Ferry Terminal in approximate position 35-11'29'S, 075-46'48"W. Mariners are advised to travel at no wake speeds and use caution while navigating this area. NC BNM 311-19

NC – PAMLICO SOUND – OUTER BANKS – US 12 - BRIDGE CONSTRUCTION
Construction will take place on the new US-12 Bypass Bridge (also known as Jug Handle) from Jan 2019 through May 2021 on the Outer Banks of NC. This bridge extends approximately 2.5 from the southern end of the Pea Island National Wildlife Refuge over the Pamlico Sound into Rodanthe. The air draft along the new bridge during construction will be restricted to 14 feet. More information, contact Jordan Byrum at 252-808-8036 or at jordan.byrum@ncdenr.gov. Chart 12204

NC – BEAUFORT INLET - MOREHEAD CITH HARBOUR – DREDGING
Great Lakes Dredge & Dock Company will be dredging in the entrance channel of the Morehead City Harbor, Ocean Bar Carteret County. NC. Disposal of dredged material will be offshore distributed among the Ocean Dredged Material Disposal Site (ODMDS), the Nearshore East Placement Area and the Nearshore West Placement Area. Dredges PADRE ISLAND and DODGE ISLAND will be on scene and may be contacted on VHF-FM Channels 13 and 16. Dredging is expected to continue until Jul 31 2020. Should you have any questions concerning this project, please contact Site Manager Matt Ferrrell at (630) 248-4078, Mferrrell@gldd.com or Contract Manager, Megan Place at (630) 209-7619, MPlace@gldd.com Charts 11547

NC – CAPE FEAR RIVER – DREDGING
The dredge PAULA LEE will be conducting dredging operations in the following reaches in the Cape Fear River: Upper Big Island, Lower Lilliput, Upper Midnight, Lower Midnight and Horseshoe Shoals Channels. Material dredged will be disposed at the New Wilmington ODMDS south of the mouth of the Cape Fear River. Towing will be performed by the Dann Marine Tugs COLONEL and THOMAS DANN, towing 5000 cubic yard scows from the reaches through the mouth to the ODMDS. The ODMDS is approximately 9 NM south of the mouth of the Cape Fear River at N 33-44-6.946°, W 078-02-8.979°. Dredging is scheduled to be completed by Aug 31, 2020. Work will continue 24 hours a day, 7 days a week. The Dredge PAULA LEE will monitor VHF-FM Channels 13, 16, and 79. Project Manager Danny Myers can be reached at (415) 302-5369 or Ryan Swink at 628-888-4304. Chart 11541
SUMMARY OF MARINE EVENTS AND FIREWORKS DISPLAYS
IN THE FIFTH COAST GUARD DISTRICT

NEW OR UPDATED INFORMATION
Now, updated or very important information in this enclosure will be highlighted in yellow.

MD - SEACOAST - FENWICK ISLAND TO CHINCOTEAGUE ISLAND – ASSAWOMAN BAY – OCEAN CITY – WEEKLY FIREWORKS DISPLAYS
Short-duration, aerial fireworks displays are scheduled to occur along Assawoman Bay at Ocean City, MD, on each Sunday, through Sep 6, 2020, at 9:30 p.m. On these dates, fireworks will be discharged from the pier at the west end of Northside Park in Ocean City, MD, in approximate position latitude 38°25′55.15″ N, longitude 075°03′50.51″ W. Mariners are urged to use caution when transiting the area, and absent specific guidance, should remain 400 feet from the fireworks discharge site. Information on this event can be found at website https://ococean.com/events/sundaes-in-the-park-2020. For any comments or questions contact Coast Guard Sector MD-NCR, Waterways Management Division at (410) 576-2674 or (410) 576-2693. Chart 12211

MD - SEACOAST - FENWICK ISLAND TO CHINCOTEAGUE ISLAND - OCEAN CITY – WEEKLY FIREWORKS DISPLAYS
Short-duration, aerial fireworks displays are scheduled to occur along the North Atlantic Ocean at Ocean City, MD, on each Thursday, through Sep 3, 2020, at 10:30 p.m. On these dates, fireworks will be discharged from the beach near North Division and First Streets, in approximate position latitude 38°19′51.53″ N, longitude 075°05′00.80″ W. Absent specific guidance, mariners should remain 100 yards from the fireworks discharge site. Information on this weekly fireworks event can be found at website https://ococean.com/events/thursday-s-downtown-beach-fireworks2020. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2674 or (410) 576-2693. Chart 12211

MD – CHESAPEAKE BAY – WICOMICO RIVER – LIGHTED BOAT PARADE
A lighted boat parade is scheduled to occur in the upper Wicomico River on August 1, 2020, between 7 p.m. and 9:30 p.m. The parade consists of approximately 20 power vessels (18-25 feet in length) operating on a designated route that will start at the Port of Salisbury, MD at 7:45 p.m., transit downbound in the Wicomico River, and finish at the Wicomico Yacht Club in Wicomico Creek at 9:15 p.m. Interested mariners may contact the Wicomico Yacht Club Fleet captain via marine band radio VHF-FM channel 16, if necessary. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2674 or (410) 576-2693. Charts 12261

MD – CHESAPEAKE BAY – PATUXENT RIVER AND VICINITY – SOLOMONS ISLAND – BOAT PARADE
An annual “Blessing of the Fleet” boat parade is scheduled to occur in the Patuxent River on August 9, 2020, between 2 p.m. and 4 p.m. The event consists of 40 sail and power vessels (16-50 feet in length) operating at slow speed along a designated route that starts at Patuxent River Light 6A (LLNR 19304) and proceeds upriver toward the Solomons Pier at Solomons, MD, where a pass in review will take place near two anchored vessels, the WM. B. TENNISON and the TURTLE ISLAND. Interested mariners can contact the Solomons Island Yacht Club fleet captain via marine band radio VHF-FM channel 16 or 68. Additional information is available at website http://soliomonsislandyachtclub.com/. Comments or questions should be directed to Coast Guard Sector MD_NCR at (410) 576-2674 or (410) 576-2693. Charts 12264, 12284

MD–CHESAPEAKE BAY– COVE POINT TO SANDY POINT – NORTH BEACH – DRAGON BOAT PADDLE RACES
An annual dragon boat festival is scheduled to occur on the Chesapeake Bay at North Beach, in Calvert County, MD during Aug 18-22, 2020. Race practices will occur Aug 18-21, 2020, from 5 p.m. to 8 p.m. (dusk), and the race on Aug 22, 2020, from 9 a.m. to 2 p.m. Up to four dragon boats (40 feet in length) per race, with 19 paddlers in each boat, will compete along a marked 200-meter course located adjacent to the North Beach boardwalk. Participants will be supported by sponsor-provided motorized watercraft. For more information https://www.northbeachmd.org/end-hunger-dragon-boat-festival/. For any comments or questions contact Coast Guard Sector MD-NCR, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Chart 12263

MD – CHESAPEAKE BAY – SEVERN RIVER – SAILING REGATTA
A sailing regatta is scheduled to occur on the Chesapeake Bay and Severn River at Annapolis, MD, on August 2, 2020, between 11 a.m. and 5 p.m. Up to 50 sail boats (22 to 60 feet in length) of various classes will compete along a designated race course on portions of the Chesapeake Bay and Severn River, located between the William P. Lane, Jr. (US-50/301) Memorial Bridges and the Naval Academy (SR-450) Bridge. The first race start will occur near the mouth of the Severn River near Annapolis Harbor Channel LB 2 (LLNR 19695) at 11 a.m. The race finish will occur on the Severn River near Annapolis Harbor Channel LB 9 (LLNR 19760). Regatta officials on board the Annapolis Yacht Club race committee boat can be contacted via marine band radio VHF-FM channel 16, if necessary. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2674 or (410) 576-2693. Charts 12270, 12282, 12283

MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – SEVERN RIVER – SAILING REGATTAS
Annual sailing regattas sponsored by the Annapolis Yacht Club (AYC) are scheduled to occur on the Severn River and the Chesapeake Bay near the mouth of the Severn River, during 2020. Unless otherwise indicated, the events will occur between 10 a.m. and 4 p.m., and are scheduled on the following dates: (2) July 25-26 (Annual Regatta - 45 participants, 24-50 feet in length); (3) August 11 (Junior Annual Regatta - 100 participants, 8-15 feet in length); (4) August 28-30 (NOOD Regatta - 200 participants, 22-40 feet in length); (5) September 6 (Annapolis Labor Day Regatta - 150 participants, 22-50 feet in length); (6) September 13 (CRAB Cup - 6 participants, 22 feet in length); (7) September 25-27 (Annapolis YC 3-2-1 Invitationals - 8-10 participants, 20-30 feet in length); (8) October 26 (Fall Race to Solomons - 30 participants, 30-50 feet in length); (9) October 3-4 (Fall Series 1 - 30 participants, 32-34 feet in length); (10) October 3-4 (Doublehanded Distance Race - 20 participants, 29-50 feet in length, overnight from noon to noon); (11) October 10 (Fall Series River Course - 25 participants, 20-28 feet in length); (12) October 13-15 (Warrior Sailing Project - 8 participants, 22 feet in length); (13) October 17-18 (Fall Series 2 - 30 participants, 30-50 feet in length); (14) October 24-25 (Eschells - Lippincott - 30 participants, 23 & 31 feet in length); (15) October 26-27 (Halloween Howl - 50 participants, 8 feet in length); (16) October 29-November 1 (J705 & J/11 North American Championships - 40 participants, 35-50 feet in length); and (17) November 8-December 13 (Frostbite Series - 1st Half - 80 participants, 22-45 feet in length). Additional information on these events can be obtained at website https://www.annapolisyachtclub.com/. The AYC Race Committee can be contacted via marine band radio VHF-FM channels 09, 13, 16, 68, 69, 70, 71 and 72. For any comments or questions, contact Coast Guard Sector MD-NCR, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Charts 12270, 12282, 12283
MD – CHESAPEAKE BAY – SEVERN AND MAGOTHY RIVERS – SEVERN RIVER – SAILING REGATTA SERIES
An annual sailing regatta is scheduled to occur in the Severn River and adjacent waters of the Chesapeake Bay on August 15, 2020, between 11 a.m. and 5 p.m. Up to 65 sail boats of various classes (22 to 45 feet in length) will compete on three designated race course areas located as follows: (1) in the Severn River, between the entrance to Back Creek and Greenbury Point; (2) in the Chesapeake Bay, between Hackett Point and Tolly Point; and (3) in the Chesapeake Bay, between Tolly Point and Thomas Point. Racing will start at approximately noon. All classes, except for one sailing a fixed mark course on the Severn River, will sail one pursuit-style race. Interested mariners can contact the race committee or on board the Eastport Yacht Club chase boat via marine band radio VHF-FM channels 16, 09, 13, 73, and 78. More information on the event can be obtained at website http://eastportyc.org/crab-cup. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Charts 12270, 12282.

MD – CHESAPEAKE BAY – SEVERN AND MAGOTHY RIVERS – SEVERN RIVER – SAILING REGATTA SERIES
An annual sailing racing series is scheduled to occur in the Severn River each Friday evening during June 26, 2020 - August 21, 2020, between 5 p.m. and 9 p.m. Excluded date includes July 3rd. Up to 45 auxiliary sail boats (25 to 55 feet in length) of various classes will compete in sail races along a designated course located in the Severn River, between the mouth of the Severn River and the entrance to Spa Creek at Annapolis, MD. First race start will occur at approximately 6:15 p.m. Additional information can be obtained at the website: www.eastportyc.org/beer-cans. Interested mariners can contact the Eastport Yacht Club Race Committee on “EYC Friday Night Signal Boat” via marine band radio VHF-FM channel 16, 09 or 73. For any comments or questions, contact Coast Guard Sector MD-NCR, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Charts 12282, 12283

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – PATAPSCO RIVER – SAILING REGATTA WEEKLY SERIES
An annual weekly sail boat racing series is scheduled to occur on the Patapsco River each Tuesday evening from Jun 16 - Sep 1, 2020, between 5:30 p.m. and 9:30 p.m. Up to 25 sail boats in three fleets (20 to 40 feet in length) will compete in a single race along a designated course located between the Fort McHenry National Monument and Historic Shrine and the Francis Scott Key Memorial (I-695) Bridge, at Baltimore, MD. More information on the Baltimore City Yacht Association Tuesday Night Series can be obtained at https://www.bcya.com. Mariners may contact the race committee on VHF-FM channel 72. For comments or questions contact Coast Guard Sector MD-NCR, Waterways Management Division, at 410-576-2674 or 410-576-2693. Chart 12281

MD - CHESAPEAKE BAY – SANDY POINT TO SUSQUEHANNA RIVER – BOHEMIA RIVER – FIREWORKS DISPLAY #1
A fireworks display is scheduled to occur along the Bohemia River on August 8, 2020 (rain date August 9, 2020), at 8:30 p.m. Mariners are urged to use caution when transiting the area, reminded to heed the directions of patrolling law enforcement and public safety officials, and absent specific guidance, should remain 210 feet from the fireworks discharge site located along the eastern shore of Veazey Cove, southwest of Battery Point, in approximate position latitude 39°28'10” N, longitude 075°54'35” W. Comments or questions should be directed to Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693. Charts 12273, 12274

MD - CHESAPEAKE BAY – SANDY POINT TO SUSQUEHANNA RIVER – BOHEMIA RIVER – FIREWORKS DISPLAY #2
A fireworks display is scheduled to occur along the upper Bohemia River on August 8, 2020 (rain date August 9, 2020), at 9 p.m. Mariners are urged to use caution when transiting the area, reminded to heed the directions of patrolling law enforcement and public safety officials, and absent specific guidance, should remain 420 feet from the fireworks discharge site at the Bohemia Manor Farm pier, located in approximate position latitude 39°28’04.63” N, longitude 075°52’06.74” W. Comments or questions should be directed to Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693. Charts 12273, 12274

VA – MD – POTOMAC RIVER – PINEY POINT TO LOWER CEDAR POINT – BRETON BAY – REGULATED AREA
High-speed vintage and historic power race boat demonstrations are scheduled to occur in Breton Bay during August 1-2, 2020, between 9 a.m. and 5 p.m., both days. Up to 50 boats (12 to 21 feet in length) will operate along a designated course in scheduled heats. Coast Guard special local regulations will establish a regulated area for all waters within Breton Bay and McIntosh Run, immediately adjacent to Leonardtown, MD shoreline, from shoreline to shoreline, within an area bounded to the east by a line drawn along latitude 38°16’43” N, and bounded to the west by a line drawn along longitude 076°38’30” W, located at Leonardtown, MD. The regulated area will be enforced from 8 a.m. to 6 p.m., both days, on August 1, 2020 and on August 2, 2020. Broadcast notices to mariners will be issued via marine band radio to inform waterway users about the status of the regulated area. Except for mariners already at berth, everyone other than participants are prohibited from entering, transiting through, anchoring in, or remaining within the regulated area unless authorized by the Captain of the Port (COTP) Maryland-National Capital Region or Coast Guard Patrol Commander (PATCOM). To seek permission to enter, contact the COTP Maryland-National Capital Region at telephone number 410-576-2693 or on Marine Band Radio, VHF-FM channel 16, or the PATCOM on Marine Band Radio, VHF-FM channel 16. Those in the regulated area must comply with all lawful orders or directions given to them by the COTP Maryland-National Capital Region or PATCOM. Vessels are required to operate at a safe speed that minimizes wake while within the regulated area in a manner that would not endanger participants or any other craft. The COTP Maryland-National Capital Region or PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. The race area and milling area are restricted to participants and official patrols. Spectators are only allowed inside the regulated area if they remain within a designated spectator area. The Coast Guard may be assisted with marine event patrol and enforcement of the regulated area by other Federal, State, and local agencies. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, at (410) 576-2674 or (410) 576-2693. Chart 12288.
VA – MD – POTTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – NATIONAL HARBOR ACCESS CHANNEL - REGULATED AREA

An annual open water swim event is scheduled to occur on the Upper Potomac River on September 27, 2020, between 7:30 a.m. and 10:30 a.m. The open water swim courses, marked to designate three distances including 1 Km, 2 Km and 4 Km, will start and finish at the commercial pier at National Harbor, MD. Up to 250 adult and youth participants will be supported by sponsor-provided watercraft. The Coast Guard has established a regulated area for all navigable waters of the Upper Potomac River, within an area bounded by a line connecting the following points: From the Rosalie Island shoreline at latitude 38°47′30.30″ N, longitude 077°01′26.70″ W, thence west to latitude 38°47′30.00″ N, longitude 077°01′37.30″ W, thence south to latitude 38°47′08.20″ N, longitude 077°01′37.30″ W, thence east to latitude 38°47′09.00″ N, longitude 077°01′09.20″ W, thence southeast along the pier to latitude 38°47′06.30″ N, longitude 077°01′02.50″ W, thence north along the shoreline and west along the southern extent of the Woodrow Wilson (I-95/I-495) Memorial Bridge and south and west along the shoreline to the point of origin, located at National Harbor, MD. The regulated area will be enforced from 7 a.m. to 11 a.m. on September 27, 2020. Except for vessels already at berth, all non-participants are prohibited from entering, transiting through, anchoring in, or remaining within the regulated area unless authorized by the Captain of the Port (COTP) Maryland-National Capital Region or Coast Guard Patrol Commander (PATCOM). To seek permission to enter, contact the COTP Maryland-National Capital Region at telephone number 410-576-2693 or on Marine Band Radio, VHF-FM channel 16 or the PATCOM on Marine Band Radio, VHF-FM channel 16. Those in the regulated area must comply with all lawful orders or directions given to them by the COTP Maryland-National Capital Region or PATCOM. The Coast Guard may be assisted with marine event patrol and enforcement of the regulated area by other Federal, State, and local agencies. Mariners are urged to schedule their transits on this waterway beyond the enforcement times. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

VA – CHESAPEAKE BAY – CAPE CHARLES SAILING RACE

The Broad Bay Sailing Association will sponsor the 2 Day - 2020 Leo Wardrup Memorial Cape Charles Cup Sailing Race on August 15-16 2020. Each day the race will begin at 10:00 a.m. and end at 5:00 p.m. about 75 – 90 sailboats are expected to participate in this 2 day race. Race participant are expected to gather in Willoughby Bank just east of the Hampton Roads Bridge Tunnel to conduct a series of short races over the 2 day event. Mariners are requested to use caution when transiting the area.

VA – CHESAPEAKE BAY – LITTLE CREEK INLET ENTRANCE

The Little Creek Sailing Association will be sponsoring the Wednesday Night Race Series through October 28, 2020. This race is expected to involve around 27 participants with boats ranging from 24ft - 46ft beginning at 6:25 p.m. and ending at 8:25 p.m. on the following scheduled dates: July 1st, 8th, 15th, 22nd, 29th, August 5th, 12th, 19th, and 26th, 2020. For the following dates the event will begin at 5:55 p.m. and end at 7:55 p.m.: September 2nd, 9th, 16th, 23rd, 30th, October 7th, 14th, 21st, and 28th, 2020. Mariners are requested to use caution and bare steerage when transiting the area.

Undersea Communication Cable off Virginia Beach

The positions of this cable route are shown in the included route position list and map. If you have questions or want to request the route in a navigational plotter format, please contact:

SubCom GTSC/NOC Hotline: +1 732 578 7474 (Press #3)

The cable is buried to a depth of 0.82 fathom (1.5m/5ft) into the seabed to a water depth of approx. 246 fathoms (450m/1476ft), however, ships are asked to avoid using anchors, bottom trawl fishing, and other seabed gear within 1 nautical mile of the cable route.

If your gear does snag something you think may be the cable, please don’t try to lift it. After some initial slack is taken up, it may become extremely hard to lift, and this could threaten your vessel’s stability. Furthermore, active cables carry an electrical current that pose a risk to humans if any attempt is made to cut the cable.

Fishermen who sacrifice gear to avoid cable damage may be compensated for that gear, if they can provide evidence of the loss and show that they took precautions to avoid cable damage beforehand.

NOTE: The submarine cable installation will take place around August 2020.

The DUNANT Submarine Cable is a planned transatlantic telecommunication network that will connect the United States of America and Europe. This cable system design spans nearly 6,600 km with landing points in Virginia Beach, USA, and St. Hilaire de Riez, France.
Target: Phila Harbor_28May2020
Latitude: 39 54.334224 N
Longitude: 75 07.940211 W
Depth: 35.7 MLLW
Ref to Channel: 11 feet outside of green toe
Object: Phila Harbor 3_16Jun2020
Latitude: 39 57.703381 N
Longitude: 075 07.908944 W
Depth: 38.4' MLLW
Ref to Channel: 70' inside Green Toe
Comments: Two Possible boulders within 25' of eachother

Object: Phila Harbor 4_16Jun2020
Latitude: 39 57.692964 N
Longitude: 075 07.925196 W
Depth: 38.7' MLLW
Ref to Channel: 60' inside Green Toe
Comments: Possible Boulder

NOT TO BE USED FOR NAVIGATION
Object: Phila Harbor 1_16June2020
Latitude: 39 58.011515 N
Longitude: 75 07.013911 W
Depth: 21’ MLLW
Ref to Channel: Green edge
Comments: Debris and shoal working its way into channel

Object: Phila Harbor 2_16June2020
Latitude: 39 58.011515 N
Longitude: 75 07.35325 W
Depth: 39.9’
Ref to Channel: 90’ inside of Green toe
Comments: Possible Boulder
