LOCAL NOTICE TO MARINERS

District: 5  Week: 33/19

COASTAL WATERS FROM SHREWSBURY RIVER, NEW JERSEY TO LITTLE RIVER, SOUTH CAROLINA

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=5.

If you have questions about the Fifth Coast Guard District Local Notice to Mariners (LNM), please contact:

COMMANDER
FIFTH COAST GUARD DISTRICT (dpw)
431 Crawford Street
Portsmouth, Virginia 23704

or for correspondence and article requests:
ward.b.posey@uscg.mil, (757) 398-6229 and CGD5Waterways@uscg.mil

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

AIDS TO NAVIGATION DISCREPANCY REPORTING
To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:
1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR MARYLAND NATIONAL CAPITAL REGION at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR HAMPTON ROADS at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition: None

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

**** NEW OR UPDATED INFORMATION IN THE LOCAL NOTICE TO MARINERS ****

In an effort to bring attention to new, updated or very important information in the Local Notice to Mariners (LNM) this information will be preceded and followed by four asterisks.

LNM: 25/16

NC - Hazards of North Carolina Coastal Inlets

This notice is to notify mariners about accessing hazardous inlets, to heighten public awareness about the hazards that exist in and around the inlets, and to provide the mariner with available information. Mariners are advised that shoaling conditions exist at following North Carolina coastal inlets:

Oregon Inlet  Hatteras Inlet
Ocracoke Inlet  Barden Inlet
Beaufort Inlet  Bogue Inlet
New River Inlet  Topsail Inlet
Masonboro Inlet  Carolina Beach Inlet
Lockwoods Folly Inlet  Shallotte Inlet

Shoaling conditions increase the potential for groundings. These inlets are subject to continual and sometimes rapid environmental changes. Mariners are highly encouraged to obtain the most recent U.S. Army Corps of Engineers Wilmington, North Carolina District hydrographic survey information, centerline waypoints and controlling depth at:

Page 2 of 29
Coast Guard District 5

LNM: 33/19
13 August 2019
Mariners should use caution when navigating in these areas and passage through the inlets is not recommended without local knowledge of the area. The aids to navigation in these inlets may not be charted and may not be marking best water due to continually shifting shoals. Consult Local Notice to Mariners, 5th Coast Guard District for the latest positions and status of aids to navigation: https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=5

To report any aids to navigation discrepancies (missing, damaged, off station, extinguished lights), shoaling, hazards to navigation, or discrepancies on bridge lighting, please contact Sector North Carolina Command Center (910) 343-2200.

**CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION**

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

**INTERFERENCE WITH AIDS TO NAVIGATION**

U. S. Code, Title 14, Part I, Chapter 5, § 84. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 81 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 83 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than $1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense. U. S. Code, Title 14, Part I, Chapter 5, § 84.

**U. S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE**

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.

http://www.cgaux.org/boatinged/class_finder/index.php

**WESTERN ATLANTIC AND U. S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA) – PROHIBITION ON DISTURBING, REMOVING ARTIFACTS OR DAMAGING SUNKEN CRAFT**

All mariners are advised of the special protections provided to sunken military craft by the "Sunken Military Craft Act" (SMCA) (Public Law 108-375). Along the U. S. East Coast, and particularly off North Carolina, there are many sunken U. S. and foreign military craft. Sunken military craft may be the final resting places of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U. S. law, sunken foreign military craft, including those located in U. S. waters, remain the property of their respective country's government. Sovereign immune vessels, such as military crafts, are afforded protections under U. S. and international law. Included among these vessels are at least three known sunken German submarines (commonly called U-boats) located in waters off the North Carolina coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft except as authorized by law. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both purposeful or inadvertent activities including anchoring, fishing, diving, and other marine activities. Special dangers, such as unexploded ordnance, may also be associated with sunken military craft, and should be considered when operating in these areas. Violations of the SMCA may subject individuals to penalties of up to $100,000 and to liability for damages. Mariners who witness theft of material from, disturbance of, or damage to a sunken military craft are asked to report it to the nearest U. S. Coast Guard unit.

LNM: 33/19
13 August 2019
SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS
The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

LNM: 04/11

USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER
USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER
The United States Coast Guard Navigational Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information on GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar (NANU). These notices can also be obtained via e-mail subscription through the USCG Navigation Center website (https://www.navcen.uscg.gov/gps/status/default.htm). In addition, the NIS investigates all reports of degradation or loss of GPS and DGPS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: Phone: 703-313-5900, Email: webmaster@navcen.uscg.mil or on the World Wide Web at https://www.navcen.uscg.gov.

BROADCAST NOTICES TO MARINERS
Broadcast Notices to Mariners (BNMs) that are still in effect at the date of this publication.
CCGD5 (D5) - 323, 326, 328, 330, 331, 333, 334, 336, 339 thru 348-19.
Sector Delaware Bay (DB) - 213, 218, 219, 220, 228, 229-19.
Sector Maryland (MD) - 242, 249, 250-19.

SECTION II - DISCREPANCIES
This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

**Advance Notice(s)**

| **DISCONTINUANCE OF THE NATIONWIDE DIFFERENTIAL GLOBAL POSITIONING SYSTEM (NDGPS)**
---
The U.S. Coast Guard (USCG) announces the discontinuance of its remaining 38 maritime Differential Global Positioning System (DGPS) sites. The USCG will implement the closures through a phased reduction in service, which will commence in September of 2018, and conclude by September of 2020. These closures will culminate in the complete cessation of the Nationwide Differential Global Positioning System (NDGPS) service. Please see the link attached for additional information published in the Federal Register.

Specific site broadcast termination dates will be published via Local Notice to Mariners.

**MD – CHESAPEAKE BAY – HONGA, NANTICOKOKE, WICOMICO RIVERS AND FISHING BAY – FARM CREEK – AIDS TO NAVIGATION CHANGES****

Due to significant shoaling, depths from 6.0’ to 3.2,’ on or about August 21, 2019, the Coast Guard will make the following changes to the Aids to Navigation marking Farm Creek Channel:
- Change Farm Creek Channel Light 1 (LLNR 24425) to Farm Creek Warning Daybeacon A with NW dayboards worded “Danger Shoal”.
- Change Farm Creek Channel Daybeacon 2 (LLNR 24430) to Farm Creek Warning Daybeacon B with NW dayboards worded “Danger Shoal”.
- Change Farm Creek Channel Daybeacon 3 (LLNR 24435) to Farm Creek Warning Daybeacon C with NW dayboards worded “Danger Shoal”.
- Change Farm Creek Channel Light 5 (LLNR 24440) to Farm Creek Warning Daybeacon D with NW dayboards worded “Danger Shoal”.
- Change Farm Creek Channel Daybeacon 7 (LLNR 24445) to Farm Creek Warning Daybeacon E with NW dayboards worded “Danger Shoal”.

**VA – LEWIS CREEK – CHINCOTEAGUE BAY CHANNEL – AID TO NAVIGATION CHANGES****

On or about July 29, 2019 the Coast Guard will make the following changes to the aids to navigation marking Lewis Creek - Chincoteague Bay Channel due to shoaling, least depth of 4.3’ MLLW.
- Change Chincoteague Bay Channel Light 3 (LLNR 5415) to Chincoteague Channel Bay Warning Daybeacon A, with NW dayboards worded “Danger Shoal”.
- Discontinue Chincoteague Bay Channel Buoy 4 (LLNR 5420).
- Discontinue Chincoteague Bay Channel Buoy 6 (LLNR 5425).
- Change Chincoteague Bay Channel Lighted Buoy 8 (LLNR 5430) to Chincoteague Channel Bay Warning Buoy B, White can.

**VA – CAPE HENRY TO THIMBLE SHOAL LIGHT – DISCONTINUE - NORFOLK ENTRANCE REACH RANGE FRONT AND REAR LIGHTS****

On or about 15 July 2019, the Coast Guard will:
- Discontinue the Range Light on Norfolk Entrance Reach Range Front Light (LLNR 9370) and install a flashing 4 second white light, NW dayboards and rename it Norfolk Range Front Warning Light until the structure can be removed.
- Discontinue the Range Light on Norfolk Entrance Reach Range Rear Light (LLNR 9375) and install a flashing 4 second white light, NW dayboards and rename it Norfolk Entrance Reach Range Rear Warning Light until the structure can be removed.

**SECTION VI - PROPOSED CHANGES**

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids is considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

### PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

**Proposed Change Notice(s)**

- **COAST GUARD POLICY ON NOTIFICATION OF PROPOSED CHANGES**
  Periodically, the Coast Guard evaluates the system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing the aid is considered. In this regard, the Coast Guard is evaluating changes in aids to navigation as noted in the below articles. Users can provide feedback by filling out the District 5 Waterway Proposals data/feedback form, located at the NAVCEN DS LNM website: https://www.navcen.uscg.gov/pdf/idms/D05%20LNM%202015%20Special%20Notice_Waterway_Proposal%20Feedback%20Form.pdf
  This section also includes Public Notices for proposed changes to the bridges within the Fifth Coast Guard with a request for comments as...
The Coast Guard is proposing to:

Change Sassafras River Channel Lighted Buoy 2 (LLNR 27435) to Sassafras River Light 2 in approximate position: 39 22 38.880N, 75 59 39.930W with a flashing 2.5 second red light and TR dayboards.

Establish Sassafras Daybeacon 4 in approximate position: 39 22 02.890N, 75 58 46.770W with TR dayboards.

Discontinue Sassafras River Channel Buoy 5 (LLNR 27450).

Discontinue Sassafras River Channel Buoy 6 (LLNR 27455).

Relocate Sassafras River Channel Light 7 (LLNR 27460) to approximate position: 39 22 38.680N, 75 57 50.520W and rename to Sassafras River Light 5.

Change Sassafras River Channel Buoy 12 (LLNR 27500) to Sassafras River Light 10 in approximate position 39 21 50.690N, 75 54 43.900W with a flashing 2.5 second red light and TR dayboards.

Change Sassafras River Channel Buoy 14 (LLNR 27505) to Sassafras River Daybeacon 12 in approximate position: 39 21 54.850N, 75 53 44.670W with TR dayboards.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: https://www.navcen.uscg.gov/pdf/lnm/DO5 LNM 2015 Special Notice_Waterway_Proposal Feedback Form.pdf

All comments will be carefully considered and are requested prior to August 19, 2019 to be considered in the analysis. Refer to project number 05-19-052(D)

Send comments to: CGD5Waterways@uscg.mil

Charts:  12273  12274

The Fifth Coast Guard District is proposing to discontinue Beaufort Inlet Channel Lighted Buoy 1 (LLNR 29329), Beaufort Inlet Channel Lighted Buoy 2 (LLNR 29330), Beaufort Inlet Channel Lighted Buoy 3 (LLNR 29331), and Beaufort Inlet Channel Lighted Buoy 4 (LLNR 29332) based on review of the Waterway Analysis completed in March 2019.

Beaufort Inlet Channel Lighted Buoy BM (LLNR 720) will be relocated approximately 2.5nm north along channel line. The buoys in Beaufort Inlet Channel will be renamed/renumbered starting with Beaufort Inlet Channel Lighted Buoy 5 (LLNR 29333) which will be the new Beaufort Inlet Channel Buoy 1. This change will enhance safety of navigation and align the channel entrance with routine marine traffic entering the port.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lnm/DO5 LNM 2015 Special Notice_Waterway_Proposal Feedback Form.pdf

All comments will be carefully considered and are requested prior to September 30, 2019 to be considered in the analysis. Refer to project number 05-19-061(D)

______________________________

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

---

VA - ATLANTIC OCEAN - WALLOPS ISLAND ROCKET LAUNCHES

Rocket launches are regularly scheduled in the vicinity of Wallops Island, VA, Danger Zone 334.130. Prior to these launches, visual signals will be displayed consisting of either a large orange-colored, “blimp-shaped” balloon by day or a rotating alternately red and white beacon by night. The balloon will be flown from a position at 37-50-38N, 75-28-47W and the beacon will be displayed approximately 200 feet above mean high water in position 37-50-16N, 75-29-07W. While the warning signal is displayed, all persons and vessels in the Danger Zone, except vessels entering or departing Chincoteague Inlet, shall leave the zone promptly by the shortest possible route and remain outside the zone until allowed by a patrol boat to enter or the danger signal has been discontinued. Vessels entering or departing Chincoteague Inlet must take the shortest route possible upon display of the danger signal. The Danger Zone is depicted on navigational charts 12210 and 12211 with corner points starting in the vicinity of Assawoman Inlet and proceeding southerly to position 37-43-20N, 075-29-41W; thence northeasterly to a point in the vicinity of Chincoteague Shoals; thence westerly back to Wallops Island shoreline.

Charts: 12210 12211

LNM: 04/17

---

VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS

Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:

- Willoughby Bay
- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.
- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle. During these operations, the aircraft will be operating at altitudes as low as seventy-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels. All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary. These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the aircraft. AMCM helicopters will transit to and from the area described above in the following manner: Outboard from the seaplane ramp at the Norfolk Naval Air Station across Willoughby Bay to the main shipping channel, then easterly along the main channel to Buoy 21. From...
VA - WILLOWBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS
Buoy 21ether East, SE or SSE to the operating area. The return flight will follow the same path as the outbound flight. To minimize the potential for mishap, vessels are requested to keep well clear of these danger zones when AMCM operations are encountered.
Charts: 12200 12205 12221 12222 12245 12254

VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS
The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The bounding coordinates for each field are as follows:
AREA A: 37-09.0N 075-31.0W, 37-09.0N 075-34.7W, 37-12.0N 075-31.0W, 37-12.0N 075-34.7W.
AREA B: 36-29.0N 075-31.8W, 36-29.0N 075-35.5W, 36-26.0N 075-35.5W, 36-26.0N 075-31.8W.
AREA C: 36-29.0N 075-20.8W, 36-29.0N 075-24.5W, 36-26.0N 075-24.5W, 36-29.0N 075-20.8W.
AREA D: 36-46.5N 075-47.8W, 36-46.5N 075-46.5W, 36-47.5N 075-46.5W, 36-47.5N 075-47.8W.
Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines are placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation.
Chart 12200

VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDELTON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE
The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as "all of the waters seaward of the mean high water shore line within a sector between radial lines extending 13,500 yards seaward and bearing 90 degrees true and 150 degrees true, respectively, from a point on shore at 36° 49' 09"N, 075° 58' 45"W". All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (42nd Edition) when operating south of the entrance to the Chesapeake Bay. Firing will take place only during daylight hours and red flags will be displayed at conspicuous locations on the beach at the facility. Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.
Charts: 12205 12207 12221

DREDGING AND MARINE CONSTRUCTION CAUTIONS
Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

NJ – SEACOAST – APPROACHES TO NEW YORK – FIRE ISLAND LIGHT TO SEA GIRT - MARINE GEOFIELD TECHNICAL TESTING
The M/V TIDEWATER CONTI will be conducting seabed floor testing and core sampling offshore of NJ and NY within the following approximate positions 40-17-05.493N, 73-16-30.300W, 40-35-23.435N, 73-31-22.756W, 40-39-43.282N, 74-00-29.201W, 40-13-04.746N, 40-13-04.476W, 74-00-17.661W. Operations will be conducted from Jun to Aug 2019. The TIDEWATER CONTI may be contacted on VHF-FM channel 16 and at 832-245-7993 or Contibridge@gulfmark.com. For more information, contact Flanery Tangang at 757-478-2919 or f.tangang@fugro.com.
Chart 12326

NJ – ATLANTIC CITY – OFF SHORE – SURVEY ACTIVITIES
Updated information. Ocean Wind Survey Vessels OCEAN RESEARCHER, SHEARWATER and NEPTUNE are conducting surveys in this area for the next several months. All Mariners transiting or fishing in the survey area are requested to give a wide berth to survey vessels, as they may be limited in their ability to maneuver (VRAM) and towing gear out to 300 meters behind the vessel. For additional information or questions, contact John OKeepfe at 857-332-4485.
Chart 12318

NJ – SEA GIRT TO LITTLE EGG INLET
A routine inspection will be performed on the CR18 (Ocean Avenue) Bridge across the Shark River, at Monmouth County, NJ. Inspection personnel will be on-scene as follows: A routine inspection will be performed on the CR18 (Ocean Avenue) Bridge across the Shark River, at Monmouth County, NJ. Inspection personnel will be on-scene from August 1, 2019, to December 31, 2019. The inspection will require the use of an under-bridge inspection vehicle/snooper truck on the roadway and safety boat in the navigable channel. The inspection crew will relocate from the moveable span upon request for an opening. The bridge tender can be reached on VHF/FM CH 13. Mariner's should use caution when transiting the area.
Chart 12323

NJ – SEA GIRT TO LITTLE EGG INLET
A routine inspection will be performed on the W9 (Brielle Road) Bridge across the Gimmer Glass, at Monmouth County, NJ. Inspection personnel will be on-scene from August 1, 2019, to December 31, 2019. The inspection will require the use of an under-bridge inspection vehicle/snooper truck on the roadway and safety boat in the navigable channel. The inspection crew will relocate from the moveable span upon request for an opening. The bridge tender can be reached on VHF/FM CH 13. Mariners should use caution when transiting the area.
Chart 12323

NJ – INTRACOASTAL WATERWAY–LITTLE EGG HARBOR TO CAPE MAY–ATLANTIC CITY - US40-322/ALBANY AVENUE BRIDGE – CLOSED TO NAVIGATION
The US40-322 (Albany Avenue) Bridge over NJICW (Inside Thorofare), mile 70.0, in Atlantic City, NJ will remain in the closed-to-navigation position to accommodate the free movement of pedestrians and vehicles during the 9th Annual Atlantic City Triathlon, the US40-322 (Albany Avenue) Bridge will be maintained in the closed-to-navigation position from 6 a.m. to 1 p.m. on August 10, 2019. The bridge is a double bascule bridge and have vertical clearances in the closed position of 10 feet above mean high water. Vessels able to pass through the bridge in the closed-to-navigation position may do so at anytime. The bridge will be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. At all other times, the drawbridge will operate in accordance with the regulations set out in Title 33 Code of Federal Regulations Part 117.733(f).

Chart 12316  LNM: 31/19

***NJ – INTRACOASTAL WATERWAY, OCEAN CITY TO CAPE MAY***
An engineering firm, on behalf of the County of Cape May New Jersey, will be rehabilitating the CR 601 (Avalon Blvd) Bridge, across the New Jersey Intracoastal Water (NJICW), Ingram Thorofare, mile 98.2 at Avalon, NJ. The construction will be conducted from September 1, 2019, to May 25, 2021. To facilitate the work, scaffolding will be installed underneath the bridge and will reduce the vertical clearance to 33ft above mean high water. The Project Foreman may be reached on VHF/FM Channel 13. Mariners should use caution when transiting the area.

Chart 12316  LNM: 33/19

***NJ – CAPE MAY CANAL – NJ ROUTE 162/SEASHORE ROAD BRIDGE – DIVING OPERATIONS***
The New Jersey Department of Transportation will be conducting diving operations on the NJ Route 162/Seashore Road Bridge spanning the Cape May Canal/Intracoastal Waterway. This operation is scheduled for Thursday, August 15, 2019 between the hours of 8:00AM and 4:00PM. Inclement weather dates of Monday, August 19, 2019 through Thursday, August 22 have also been set. Work will take place from a small boat in the channel that requires 25% of the channel width. Should any vessel require the full channel width to transit the area, a one hour advance notice is requested. Vessels may contact Rebecca Collins at 856-264-9542 to request a full channel opening.

Chart 12316  LNM: 32/19

***NJ – DE – OFFSHORE – ENTRANCE TO DELAWARE BAY - GEOTECHNICAL SURVEYING***
The Skipjack Wind Farm (SJWF) is an offshore wind farm planned for federal waters off the coast of Delaware and Maryland. The SJWF will consist of wind turbines, an offshore substation, and subsea transmission system to shore. Marine survey activities are scheduled to begin in Summer 2018. Marine construction is planned to start in 2022. During those times, all mariners transiting or fishing in the survey area are requested to provide a wide berth to survey vessels, as they will be limited in their ability to maneuver and towing gear out to 300 meters behind the vessel.

Chart 12214  LNM: 33/19

NOAA/National Ocean Service/Center for Operational Oceanographic Products and Services will be collecting oceanographic observations in the Delaware River near Petty Island. A moored surface buoy equipped with a downward facing acoustic doppler current profiler will be temporarily deployed at Petty Island in approximate position 39-58-02.63" N, 75-07-01.36" W to measure currents. The buoy will be deployed on or about July 9, 2019 and will remain in place up to 90 days. This effort is supporting a NOAA/CO-OPS currents circulation study in the area that will improve tidal current predictions that may help save lives and property. For more information or questions contact, Eddie Roggenstein at eddie.roggenstein@noaa.gov or Katie Kirk at katie.kirk@noaa.gov.

Chart 12313  LNM: 28/19

***PA – NJ – DELAWARE RIVER – PHILADELPHIA TO TRENTON - TACONY-PALMYRA BRIDGE – CLOSED TO NAVIGATION***
The highway drawbridge – SR 73/Tacony-Palmyra Bridge, over the Delaware River, at mile 107.2, between Tacony, PA and Palmyra, NJ, will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge bascule spans. The bridge will be maintained in the closed position from midnight on August 31, 2019, through 11:59 p.m. on November 12, 2019. During the closure period, the bridge will open on signal, if at least two hours prior notification is given; except, from midnight on September 30, 2019, through 11:59 p.m. on October 4, 2019, and from midnight on October 9, 2019, through 11:59 p.m. on October 13, 2019. A containment system will occupy the bridge spans, reducing the vertical clearance of the bridge to approximately 47 feet above mean high water in the closed position from midnight on September 30, 2019, through 11:59 p.m. on October 4, 2019, and from midnight on October 9, 2019, through 11:59 p.m. on October 13, 2019. Vessels able to pass through the bridge in the closed position, and in the closed position with the reduced vertical clearance, may do so at any time. The bridge will not be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.716 (a). The bridge tender may be reached using VHF-FM channels 13/16. The project foreman may be reached at (856) 429-3400. Mariners should adjust their transits accordingly and should use caution when transiting the area.

Chart 12314  LNM: 33/19

***PA – NJ - DELAWARE RIVER - PHILADELPHIA TO TRENTON - SR 73 - TACONY-PALMYRA BRIDGE***
An engineering firm, on behalf of Burlington County Bridge Commission, will be performing maintenance SR 73 (Tacony-Palmyra) bridge, across the Delaware River, at mile 107.2, between Tacony, PA and Palmyra, NJ. The maintenance which previously began in May, 2019, will continue to be conducted from 7 a.m. through 3:30 p.m.; Monday-Friday; through November 29, 2019. Two work barges (45 foot crane barge and 35 foot supply barge) and several work boats will continue to be in and around the vicinity of the bridge. The crane barge will continue to be located adjacent to the navigational channel. Maintenance personnel, equipment and vessels will relocate from the moveable span and navigable channel, upon request. Vessels that require the crane barge relocate, should notify the bridge tender no less than 24 hours prior to transiting through the bridge. The bridge tender may be reached on VHF-FM channel 13 and 16. The project foreman can be reached at (215) 651-6278. Mariners should use extreme caution navigating through the area.

Chart 12314  LNM: 33/19

****DE – CAPE HENLOPEN TO INDIAN RIVER INLET – LEWES AND REHOBOTH CANAL****

---

Page 20 of 29
Coast Guard District 5

LNM: 33/19
13 August 2019
**DE – CAPE HENLOPEN TO INDIAN RIVER INLET – LEWES AND REHOBOTH CANAL****

The Delaware Department of Transportation, who owns and operates the Savannah Road (Business Route 9) Bridge, over Lewes and Rehoboth Canal, at mile 1.7, at Rehoboth, DE, has requested a temporary deviation from the current operating regulation for painting, mechanical, and structural work to be performed on the bridge. Under this temporary deviation, the bridge will remain in the closed-to-navigation position from 8 a.m. on Monday, August 19, 2019, thru 8 p.m. on Tuesday, December 31, 2019. This deviation allows the bridge to remain in the closed-to-navigation position throughout the project. The drawbridge is a bascule bridge with a vertical clearance in the closed-to-navigation position of 15 feet above mean high water; however, the maintenance will require a containment structure to hang below the bridge reducing the vertical clearance to 11 feet above mean high water throughout the maintenance period. The bridge will be unable to open for emergency vessels. Mariners should use caution when transiting the area.

Chart 12216  LNM: 31/19

******MD – VA – SEACOAST – OCEAN CITY INLET TO CAPE HATTERAS – PROPOSAL TO DISCONTINUE AIDS TO NAVIGATION****

The Coast Guard Fifth District is proposing discontinuing the below Seacoast aids to navigation based on the proliferation of AIS, charting software, GPS, and other aids to navigation in the area.

Little Gull Bank Buoy LG (LLNR 250)
Winter Quarter Shoal Lighted Buoy 6 (LLNR 270)
Parramore Bank Lighted Buoy 10 (LLNR 315)
Hog Island Lighted Buoy 12 (LLNR 335)
Cape Charles Lighted Buoy 14 (LLNR 345)

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lmns/D05 LNM 2015 Special Notice_Waterway_Proposal Feedback Form.pdf

All comments will be carefully considered and are requested prior to October 7, 2019 to be considered in the analysis. Refer to project number 05-19-054(D)

******MD – FENWICK ISLAND TO CHINCOTEAGUE INLET – OFFSHORE – OCEAN CITY - METEOROLOGICAL TOWER INSTALLATION****

US Wind will install a meteorological tower within the Bureau of Ocean Energy Management (BOEM) offshore lease OCS-A 0490, Maryland Wind Energy Area. The tower will be located approximately 15.5 miles east of Ocean City, Maryland, and 6.5 miles south by southwest of Delaware Lighted Buoy D, which marks the terminus of the Southeastern Approach of the Delaware Bay Approach Traffic Separation Scheme. The exact tower location will be 38 21 09.9 N, 074 45 12.8 W. The mast height will be approximately 100 m (328 feet) above mean sea level, and will be made of steel construction, including Braced Caisson foundation (3 legs), deck, and lattice framework tower. The foundation and deck will be yellow, approximately comprising the first 60 feet of the structure above mean sea level. The tower lattice structure will be painted orange and white, comprising the remainder of the tower height. Offshore construction is expected to begin in late August 2019 and last for at least 10 days. Vessels on scene will include a lift boat, cargo barge, tug and several crew boats. The cargo barge will be moored in the vicinity of the meteorological tower foundation with a 4 point mooring system with pennant buoys in a 300 meter radius. US Wind requests a 500 meter safety buffer during construction, though access will not be limited after construction is complete. Mariners can contact the Lift Boat Great White on VHF-FM on Channel 16. If you have any additional questions or require additional information Jen Banks of US Wind at (919) 714-9258.

******MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - ISLE OF WIGHT BAY – HAZARD TO NAVIGATION****

The Coast Guard received a report of a 12-14 inch diameter dredge pipe running through Isle of Wight Bay. It is marked by a danger obstruction buoy in position 3821.474N 07505.701W. Mariners are urged to transit the area with caution. MD-NCR BNM 170-19

Chart 12211  LNM: 24/19

******MD – POTOMAC RIVER – TEMPOARY MOORING BUOYS****

Coastal Design and Construction will establish 5 mooring buoy in in the following position in the Potomac River between the Harry Nice Bridge and Popes Creek to assist with the Shore Protection Project and Rock Sill Construction. The buoys are 3’ diameter balls, white with blue bands.

Clifton Mooring Buoy A – 38 22.617N, 76 59.166W
Clifton Mooring Buoy B – 38 22.692N, 76 59.191W
Clifton Mooring Buoy C – 38 22.769N, 76 59.201W
Clifton Mooring Buoy D – 38 23.316N, 76 59.454W
Clifton Mooring Buoy E – 38 23.559N, 76 59.535W

Chart 12288  LNM: 30/19

******MD-CHESAPEAKE BAY-EASTERN BAY AND SOUTH RIVER-WEST RIVER-PARISH CREEK-SNUG HARBOR****

Maintenance dredging operations are scheduled to occur in entrance of Snug Harbor at Shady Side in Anne Arundel County, MD, from Aug 5, 2019 until Feb 15, 2020. The work is located at the approximate position 38°50’52”N, 76°29’25.73”W. The channel width of the Snug Harbor entrance will be reduced during the dredging operation. Mariners are urged to use caution when transiting the area, provide at least 6 hours advance notice for passage into Snug Harbor, and reduce to a no-wake speed in the vicinity of the marine equipment. The Edwin A. and John O. Crandell Inc. tug boat BIG C TOO and dredge can be contacted on VHF-FM channels 13 and 16.

Chart 12270  LNM: 31/19
The U.S. Army Corps of Engineers and Maryland Department of Natural Resources have placed rock and shell on the bottom at sites to restore Oyster Reef Habitat in the Tred Avon River in Talbot County, MD. In those areas, water depths are between 1 ft to 2 ft shallower than what is currently shown on NOAA nautical charts. More information including maps and site coordinates may be obtained from http://www.nab.usace.army.mil/Missions/Environmental/Oyster-Restoration/ or the USACE Project Manager at 410-962-7440. Please also see Enclosure 5.

Chart 12266

****MD – WICOMICO RIVER – GREAT SHOAL LIGHT – PROPOSAL TO CHANGE NOMINAL RANGE****
The Coast Guard is proposing installing an LED optic, which will reduce the nominal range from 9nm to 7nm. The proposed "NW" dayboards will have a 2nm daytime visibility and worded “DANGER.”

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: https://www.navcen.uscg.gov/pdf/lmns/D05 LNM 2015 Special Notice_Waterway_Proposal Feedback Form.pdf

All comments will be carefully considered and are requested prior to September 9, 2019 to be considered in the analysis. Refer to project number 05-19-057(D)

****VA – NORFOLK HARBOR – ELIZABETH RIVER – EASTERN BRANCH****
The fender system on the northwest side of Route 460 (Campostella Road) Bridge, across Elizabeth River – Eastern Branch, at mile 1.8, at Norfolk, Virginia has been damaged. The cluster pile causing the obstruction to the navigational channel in the vicinity of the northwest side of the Campostella Bridge has been removed. Even with the obstruction removed, the northwest corner of the fender system remains heavily damaged and unstable rendering it susceptible to continued failure and exposes the northwest quadrant of the bridge support structure. Mariners should continue to favor the south side of the channel to the extent possible to maintain safe speed, water depth, and maneuverability. Based on the most recent report, The Captain of the Port Sector Hampton Roads has set the horizontal clearance within the bridge span to 120 feet. Mariners are advised the fender system lights have been verified in the following condition: northwest fender light (missing), southwest fender light (extinguished), southeast fender light (extinguished), northeast fender light (working). Both bridge centerline lights are operational. Plans to fix the damaged section of fender system are ongoing. Waterway usage should expect an estimated timeframe of 4 months before repairs will be completed. Should you have any questions or concerns regarding this matter, contact United States Coast Guard Sector Hampton Roads Waterways Management Division duty phone at (757) 374-3408 or HamptonRoadsWaterways@uscg.mil. For any urgent issues, please contact

### VA – DISMAL SWAMP CANAL – CLOSED****
Effective at 8:30 AM on August 13, 2019, the locks at Deep Creek, Virginia and South Mills, North Carolina will return to their normal operating schedule to accommodate vessels desiring to use the Dismal Swamp Canal of the Atlantic Intracoastal Waterway. The locks will be operated at 8:30 AM, 11:00 AM, 1:30 PM, and 3:30 PM seven days per week. The drawbridges adjacent to these locations will operate as normal and in conjunction with the lock openings. Vessels are allowed to moor overnight in the canal. There will only be one operator at Deep Creek and one at South Mills, so the bridge will not be manned when the lock is being operated, and vice versa. Locks and bridges monitor channel 13. The latest surveys of AIWW-Deep Creek, AIWW-Dismal Swamp Canal, and AIWW-Turners Cut are available at http://www.nao.usace.army.mil/HydroSurveys/. Those planning to use this route should contact the lock operator at 757-547-3311, or call the Norfolk District office at 757-201-7642.
Chart 12206  LNM: 33/19

### VA – NC – ATLANTIC INTRACOASTAL WATERWAY (AICW) – NORFOLK TO ALBEMARLE SOUND VIA NORTH LANDING RIVER - DRAWBRIDGE OPERATING SCHEDULE DEVIATION****
Maintenance at the Centerville Turnpike (SR-170) Bridge across the Albemarle and Chesapeake Canal, Atlantic Intracoastal Waterway, mile 15.2, at Chesapeake, VA began on Monday, May 13, 2019, and is scheduled to end on Friday, September 18, 2020. Bridge maintenance will be performed in six phases and updated notices will be published prior to each phase.
Phase I, scheduled from 6 a.m. on May 13, 2019, through 8:30 p.m. on August 23, 2019. Work hours are Monday through Friday, from 6 a.m. to 8:30 p.m. The bridge will remain operational in accordance with Title 33 Code of Federal Regulations Part 117.997(i). Vessels may contact the bridge tender on VHF-FM channel 13 or (757) 547-3631. Vessels may contact work vessels or the project foreman on VHF-FM channel 13 or (757) 620-3565. A bridge tender will not be stationed at the bridge.
Mariners should adjust their transits accordingly, keep a safe distance from the work vessels and barges, and use extreme caution when transiting the area.
Chart 12206  LNM: 33/19

### VA – NC – ATLANTIC INTRACOASTAL WATERWAY (AICW) – NORFOLK TO ALBEMARLE SOUND VIA NORTH LANDING RIVER - DRAWBRIDGE (S) OPERATING SCHEDULE DEVIATION****
A temporary deviation in the operating schedules for the Route 168 (Great Bridge) across Albemarle and Chesapeake Canal, Atlantic Intracoastal Waterway, mile 12.0, and Route 165 (North Landing River) Bridge across North Landing River, mile 20.2, both at Chesapeake, VA, will be in effect from 7 a.m. on August 26, 2019, through 6 p.m. on February 19, 2020. The temporary deviation in the operating schedules for the Route 168 (Great Bridge) and Route 165 (North Landing River) Bridge is necessary to provide for public safety and mobility of vehicular traffic, while providing for the reasonable needs of navigation, during scheduled maintenance of the Centerville Turnpike (SR-170) Bridge across the Albemarle and Chesapeake Canal, Atlantic Intracoastal Waterway, mile 15.2, at Chesapeake, VA. The Route 168 (Great Bridge) and Route 165 (North Landing River) Bridge will be maintained in the closed-to-navigation position from 7 a.m. to 9 a.m. and from 4 p.m. to 6 p.m. Monday through Friday, except Federal holidays, from 7 a.m. on August 26, 2019, through 6 p.m. on February 19, 2020. These bridges will open on signal at any time for commercial vessels carrying liquefied flammable gas or other hazardous materials and emergency vessels as defined in 33 CFR 117.31; and all vessels upon request, if at least a one-hour notice is given. Vessels may contact work vessels or the project foreman on VHF-FM channel 13 or (757) 620-3565. A bridge tender will not be stationed at the bridge.
Mariners should adjust their transits accordingly, keep a safe distance from the work vessels and barges, and use extreme caution when transiting the area.
Chart 12206  LNM: 33/19

### VA – LOWER JAMES RIVER – OYSTER SHELL DREDGING AND PLANTING****
H & I Contracting will be conducting dredging operations in the Lower James River, VA From 6 Jun to 31 Aug 2019 for the purpose of harvesting and planting oyster shells. Work hours are 24 hours a day, 7 days a week. There will be one 200’ x 50’ dredge (vessel name: OYSTER BAY), One 260’ x 50’ barge (un-named) for oyster shells, one 140’ x 35’ barge (un-named) for oyster shells; a 60’ tug boat (vessel name: GOOSE CREEK) A 40’ x 14’ push boat (vessel name: MENEMSHA), skiff (un-named), and other support vessels. The work area will be a square with corners at 36°57'22"N / 76°26'53"W AND 36°57'00"N / 76°27'00"W AND 36°56'12"N / 76°45'25"W AND 36°55'50"N / 76°25'50"W. The dredge OYSTER BAY will be spudded in place and other vessels moored to the dredge. A mooring buoy will be anchored south-west of the dredging area to create an anchorage for three (3) 260’ x 50’ barges and three (3) 140’ x 35’ barges. The anchorage area will be at approximately 36°56'30"N / 76°26'10"W. All marine equipment operators will be monitoring VHF-FM channel 63 and channel 16 and 13. Dredge and work vessels will monitor VHF-FM channel 13 and 16. H & I supervisor is Keith Johnson, superintendent. 24 hour contact no. is (631)553-1034. Mariner are requested to reduce speed and proceed with caution in the area.

****VA – YORK RIVER-YORKTOWN AND VICINITY – US17- COLEMAN BRIDGE****
An engineering firm, on behalf of the Virginia Department of Transportation, will be performing an inspection at the US 17 (Coleman Bridge) bridge, over the York River, mile 7.0, at Yorktown, VA. The inspection will be conducted from 8 a.m. through 5 p.m.; Monday-Friday, from August 12 through September 6, 2019. The project foreman can be reached at (757) 356-3217. Mariners should use caution when navigating through the area.

Chart 12241

****VA – RAPPAHANNOCK RIVER – OYSTER SHELL DREDGING AND PLANTING****
H & L Contracting will be conducting dredging operations in Tanger and Pocomoke Sounds, VA from 17 Jun to 31 Aug 2019 for the purpose of planting oyster shells. Work hours will be intermittent but are possible 24 hours a day, 7 days a week. There will be one 60’ tug boat (vessel name: GOOSE CREEK), one 260’ x 50’ barge (un-named) for oyster shells, a 26’ x 12’ push boat (vessel name: JAKE), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°40’02”N / 76°28’37”W; 37°36’55”N / 76°18’42”W; 37°36’39”N / 76°18’19”W; 37°36’30”N / 76°32’36”W; 37°38’20”N / 76°32’30”W; 37°36’35”N / 76°20’34”W; 37°34’19”N / 76°17’08”W; 37°34’38”N / 76°18’18”W; 37°37’08”N / 76°30’48”W; 37°34’28”N / 76°18’37”W; 37°34’36”N / 76°18’59”W; 37°34’37”N / 76°18’07”W; 37°34’32”N / 76°17’57”W; 37°34’39”N / 76°17’35”W; AND 37°34’42”N / 76°16’54”W; 37°43’31”N / 76°35’14”W; 37°43’12”N / 76°34’56”W; 37°42’45”N / 76°34’54”W; 37°41’05”N / 76°34’43”W; 37°41’56”N / 76°34’36”W; 37°41’27”N / 76°34’19”W; AND 37°41’25”N / 76°34’20”W; The barge will be moored in place by means of danforth anchors and other vessels moored to the barge. All marine equipment operators will be monitoring VHF-FM channel 63 and channel 16 and 13. Dredge and work vessels will monitor VHF-FM channel 13 and 16. H & I supervisor is Keith Johnson, superintendent. 24 hour contact no. is (631)553-1034. Mariners are requested to reduce speed and proceed with caution in the area.

Chart 12228

****VA – INGRAM BAY – OYSTER SHELL DREDGING AND PLANTING****
H & L Contracting will be conducting dredging operations in Ingram Bay, VA from 17 Jun to 31 Aug 2019 for the purpose of planting oyster shells. Work hours will be intermittent but are possible 24 hours a day, 7 days a week. There will be one 60’ tug boat (vessel name: GOOSE CREEK), one 260’ x 50’ barge (un-named) for oyster shells, a 26’ x 12’ push boat (vessel name: JAKE), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°48’40”N / 76°19’14”W; 37°47’37”N / 76°17’13”W; 37°48’35”N / 76°18’28”W; AND 37°47’37”N / 76°17’13”W; The barge will be moored in place by means of danforth anchors and other vessels moored to the barge. All marine equipment operators will be monitoring VHF-FM channel 63 and channel 16 and 13. Dredge and work vessels will monitor VHF-FM channel 13 and 16. H & I supervisor is Keith Johnson, superintendent. 24 hour contact no. is (631)553-1034. Mariners are requested to reduce speed and proceed with caution in the area.

****VA – TANGIER AND POCOMOKE SOUNDS – OYSTER SHELL DREDGING AND PLANTING****
H & L Contracting will be conducting dredging operations in Tanger and Pocomoke Sounds, VA from 17 Jun to 31 Aug 2019 for the purpose of planting oyster shells. Work hours will be intermittent but are possible 24 hours a day, 7 days a week. There will be one 60’ tug boat (vessel name: GOOSE CREEK), one 260’ x 50’ barge (un-named) for oyster shells, a 26’ x 12’ push boat (vessel name: JAKE), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°54’17”N / 75°55’26”W; AND 37°51’38”N / 75°55’40”W; The barge will be moored in place by means of danforth anchors and other vessels moored to the barge. All marine equipment operators will be monitoring VHF-FM channel 63 and channel 16 and 13. Dredge and work vessels will monitor VHF-FM channel 13 and 16. H & I supervisor is Keith Johnson, superintendent. 24 hour contact no. is (631)553-1034. Mariners are requested to reduce speed and proceed with caution in the area.

Chart 12228

VA – NC – OFFSHORE – KITTY HAWK AREA - GEOPHYSICAL SURVEY

Geophysical Survey Work, seabed mapping and characterization with towed sidescan sonar, magnetometer and Ultra-High Resolution Seismic. Towed equipment on the surface and 3-10m above the seabed. The towed equipment may be up to 1000 feet from the M/V GERRY BORDELON. Vessel will be stationary while grab samples of the seabed are collected. Main survey area: 33nm SE of the Cape Henry Lighthouse, 37nm NNE of Oregon Inlet, NC and 26nm E of Corolla, NC. A series of lines from the main survey area at 43nm SE of the Cape Henry Lighthouse to shore approximately 11nm S of the Cape Henry lighthouse. Center of main survey area: 36d 21’ 05.88”N 75d 08’ 42.46”W, Main survey area stretches from 36d 08’ N to 36d 28’N and 75d 20’ W to 75d 00’ W. See Enclosure 6 for a chartlet of the area. For questions or more information, contact **H & I supervisor is Keith Johnson, superintendent. 24 hour contact no. is (631)553-1034. Mariners are requested to reduce speed and proceed with caution in the area.**

Chart 12288
NC - OREGON INLET CHANNEL - HERBERT C. BONNER BRIDGE CONSTRUCTION & REPLACEMENT
Mariners are advised to use extreme caution transiting through the Bonner Bridge in Oregon Inlet, NC. Mariners should follow the aids to navigation closely and stay clear of construction areas. There are submerged concrete pilings just below the waterline in the vicinity of construction. The temporary bridge navigation span is between Bents 173 and 176 of the old bridge. The horizontal clearance of this span is 169 feet and the vertical clearance is 70 feet. Crane barges will be secured in place with four anchors connected by anchor wires to the corners of the barge. The anchor locations will be marked with yellow crown buoys within an approximate 500-ft radius of the crane barge. Mariners should be aware that anchor wires may be at or just above/below the water surface between the barges and crown buoys; therefore vessels should stay on the outboard side of the crown buoys. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at http://www.ncdot.gov/projects/bonnerbridgereplace/.

***NC - OREGON INLET - BONNER BRIDGE - SAFETY ZONE*****
33CFR165.T05-1065 Safety Zone; Oregon Inlet, Dare County, NC.
(a) Location. The following area is a safety zone: all navigable waters of Oregon Inlet, within 100 yards of active demolition work and demolition equipment, along the old Herbert C. Bonner Bridge, which follows a line beginning at approximate position 35°46'47"-N, 75°32'41"-W, then southeast to 35°46'37"-N, 75°32'33"-W, then southeast to 35°46'09"-N, 75°31'59"-W, then southeast to 35°46'03"-N, 75°31'51"-W, then southeast to 35°46'01"-N, 75°31'40"-W (NAD 1983) in Dare County, NC.
(b) Definitions. As used in this section- Designated representative means a Coast Guard Patrol Commander, including a Coast Guard commissioned, warrant, or petty officer designated by the Captain of the Port North Carolina (COTP) for the enforcement of the safety zone. Captain of the Port means the Commander, Sector North Carolina. Demolition crews means persons and vessels involved in support of demolition.
(c) Regulations. (1) The general regulations governing safety zones in §165.23 apply to the area described in paragraph (a) of this section.
(2) With the exception of demolition crews, entry into or remaining in this safety zone is prohibited.
(3) All vessels within this safety zone when this section becomes effective must depart the zone immediately.
(4) The Captain of the Port, North Carolina can be reached through the Coast Guard Sector North Carolina Command Duty Officer, Wilmington, North Carolina at telephone number 910-343-3882.
(5) The Coast Guard and designated security vessels enforcing the safety zone can be contacted on VHF-FM marine band radio channel 13 (165.65 MHz) and channel 16 (156.8 MHz).
(d) Enforcement. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies.
(e) Enforcement period. This regulation will be enforced from March 4, 2019, through March 30, 2020.
(f) Public Notification. The Coast Guard will notify the public of the active enforcement times at least 48 hours in advance by transmitting Broadcast Notice to Mariners via VHF-FM marine channel 16.

***NC - BEAUFORT INLET - CORE SOUND - THE STRAITS OF HARKERS ISLAND*****
The North Carolina Department of Transportation, who owns and operates the Harkers Island Road Bridge (SR 1332) across the Straits of Harkers Island, mile 0.6, at Carteret County, NC, is unable to open due to damage during Hurricane Florence. The bridge will remain in the closed-to-navigation position to facilitate bridge repairs due to damage caused by Hurricane Florence. The repairs require the bridge to remain in the closed-to-navigation position. The bridge is a swing bridge with a vertical clearance in the closed-to-navigation position of 14 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open in case of an emergency and there is an alternate route for vessels to pass. Mariners should use caution when transiting the area.

***NC - NEW RIVER - FIRING EXERCISES***

Marine Corps Installations East-Marine Corps Base Camp Lejeune, North Carolina, Live firing and training:

Mariners traveling in Atlantic Intracoastal Waterway through this area can expect a delays of about one to four hours during the below times. Range Control Boats, from Camp Lejeune, NC monitor Channel 16 VHF-FM and the working Channel 82 VHF-FM. Range Control can be reached at 910-451-3064 or 4449.

The restricted areas in the Atlantic Ocean east of the New River Inlet as shown on National Ocean Service Chart 11543, will be closed to navigation up to 15 NM seaward because of firing exercises during the following periods:

NONE SCHEDULED.

The Restricted Areas in the New River, as shown on National Ocean Service Chart 11542, that will be closed to navigation because of Stone Bay Rifle Range firing exercises during the following periods: 24 HOURS DAILY

STONE CREEK SECTOR
STONE BAY SECTOR
WEST OF THE 77 (DEG) 26 (MIN) LONGITUDE LINE.

The restricted areas that may be closed to navigation because of firing exercises during the following periods: 24 HOURS DAILY

TRAPS BAY SECTOR
COURTHOUSE BAY SECTOR
STONE BAY SECTOR
GREY POINT SECTOR
EAST OF THE 77 (DEG) 26 (MIN) LONGITUDE LINE.

The restricted areas that will be closed to navigation because of firing exercises during the following periods: 24 HOURS DAILY

FARNELL BAY SECTOR SUNRISE TO SUNSET - DAILY
MORGANS BAY SECTOR SUNRISE TO SUNSET - DAILY
JACKSONVILLE SECTOR SUNRISE TO SUNSET - DAILY

The Target Bombing Area NI/BT-3 Impact Area in the Atlantic Ocean east of the New River Inlet as shown on National Ocean Service Chart 11543, may be closed to navigation because of firing exercises during the following periods:

NONE SCHEDULED.

Atlantic Intracoastal Waterway, Inland Waters in the Browns Island Inlet area between Bear Creek and Onslow Beach, may be closed for firing exercises during the following periods:

NONE SCHEDULED.

Ship operations consisting of landing craft, amphibious vehicles, and helicopters may be conducted in the Onslow Beach Operating Area and all sectors of New River to include dive operations.

Due to unexploded ordnance on Browns Island and in the adjacent waterways and marsh areas, Browns Island is off limits to all unauthorized personnel. Vessels may transit the surrounding waters, however no vessel shall bottom fish or anchor.

Range Control Boats, MCIE-MCB Camp Lejeune NC monitor VHF-FM channels 16 and 82. Range Control can be reached at 910-451-3064 or 4449.

SUMMARY OF SHOALING REPORTED IN THE FIFTH COAST GUARD DISTRICT

NEW OR UPDATED INFORMATION

New, updated or very important information in this enclosure will be highlighted in yellow.

NEW JERSEY SHOALING

NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING

Shoaling has been located in the vicinity of New Jersey Intracoastal Waterway Light 262 (LLNR 36005). Shoaling has encroached into the channel, depths are currently 5 - 6ft at MLW.
Chart 12316

NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING

Shoaling has been reported in the New Jersey Intracoastal Waterway (NJICWW) IVO Beach Haven between NJICWW LT 130 (LLNR35536) and NJICWW LT 132 (LLNR 35550). Shoaling is visible at low tide and extends approximately 20yds into the channel, mariners are advised to use extreme caution when transiting the area.
Chart 12316

NJ – INTRACOASTAL WATERWAY – MANASQUAN INLET TO CAPE MAY INLET - SHOALING

Shoaling has been reported in the New Jersey Intracoastal Waterway (NJICWW) between Manasquan Inlet and Cape May Inlet. Mariners are advised to use extreme caution when transiting the NJICWW due to shoaling. The following are some of the locations where the shoaling has been reported.
NJICWW Light 4 (LLNR 34995).
NJICWW Light 38 (LLNR 35115).
NJICWW Daybeacon 45 (LLNR 35165) & Daybeacon 46 (LLNR 35167).
NJICWW Dabyacon 49 (LLNR 35108).
NJICWW Junction Light LB (LLNR 35420) to Light 109 (LLNR 35430).
North side of Tow Island at NJICWW Daybeacon 129 (LLNR 35530).
NJICWW Light 145 (LLNR 35590) to Light 163 (LLNR 35655) Black Point on the red side.
Between NJICWW Daybeacon 206 (LLNR 35825) and Daybeacon 209 (LLNR 35835) IVO Bader Field. IVO NJICWW Daybeacon 221 (LLNR 35867).
Between NJICWW Light 233 (LLNR 35905) and Daybeacon 243 (LLNR 3538954) Broad Thoroughfare.
IVO NJICWW Buoy 263 (LLNR 36007) and Buoy 263A (LLNR 36009) Shooting Island on the green side.
Between NJICWW Daybeacon 272 (LLNR 36035) and Daybeacon 282 (LLNR 36070) in Peck Bay.
Between NJICWW Light 383 (LLNR 36420) Daybeacon 399 (LLNR 36470).
Between NJICWW Buoy 417 (LLNR 36517) and Buoy 424 (LLNR 36535) Great Channel.
Between NJICWW Light 449 (LLNR 36625) and Light 453 (LLNR 36639) Grassy Sound. Ref LNM 24/17
Chart 12316, 12324

NJ – SALEM RIVER – SHOALING

Shoaling was reported in the Salem River, in Salem, NJ. The shoaling was reported between Salem River Entrance Channel Light 5 (LLNR 2670), Light 6 (LLNR 2675) and Light 7 (LLNR 2680), Light 8 (LLNR 2685) on the east side of the channel. The depth was reported at 10 feet shortly after high tide.
Chart 12311

PENNSYLVANIA SHOALING

Shoaling has occurred in the Delaware River in approximate position 39-48.18791, 075-25.35427w, 50 feet off the green channel toe, in the vicinity of Marcus Hook Intake Light (LLNR 3170). Shallowest depth 38.5 feet. All mariners are requested to transit the area with caution. Ref LNM 09/18
Chart 12312

PA – NJ – CHESTER RANGE – SHOALING

The Coast Guard has received a report of shoaling 40ft within the PA side of the channel in approx position 39-49'33.80"N, 075-22'39.81"W. The rock mound has been reported to have a minimum depth of 39.1ft. Mariners are urged to use caution when transiting the area.
Chart 12312

DELAWARE SHOALING

DE - INDIAN RIVER BAY – SHOALING

There has been a report of shoaling in Indian River Bay between Indian River Inlet Buoy 19 (LLNR 4435) and Middle Island West Channel Junction Lighted Buoy MI (LLNR 4436). Depths of 0.0 ft at times, during low tide, were reported.
Chart 12216

DE – REHOBOTH BAY – INDIAN RIVER – BACKERS CHANNEL – SHOALING

Delaware Department of Natural Resources and Environmental Control (DNREC) reports shoaling in Baker’s Channel between Baker’s Channel Lighted Buoy 1A (LLNR 2136) and Baker’s Channel Lighted Buoy 1B (LLNR 2137) as well as Baker’s Channel Lighted Buoy 5 (LLNR 2137.04) and Baker’s Channel Lighted Buoy 6 (LLNR 2137.05). DNREC has established two warning buoys worded “DANGER SHOAL” to mark the shoaling. Ref LNM 26/17
Chart 12216
MARYLAND SHOALING

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - OCEAN CITY INLET – SHOALING
A Maryland Department of Natural Resources Bathymetric Survey conducted in Nov 2017 has identified shoaling midway between Ocean City Inlet Lighted Buoy 8 (LLNR 47445) and Lighted Buoy 10 (LLNR 47500) to a depth of less than five feet at MLLW and extending approximately 150 feet into the channel. Shoaling has been identified between Ocean City LB 11 (LLNR 47585) and LB 12 (LLNR 4757) to a depth of less than seven feet at MLLW. Chart 12211

MD – FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY – SHOALING
There has been a report of shoaling in Sinepuxent Bay within the channel boundaries in the vicinity of Sinepuxent Bay Channel Daybeacon 11B (LLNR 19505), to a depth of three feet at mean low water and extending approximately 10 yards into the Channel boundaries. MD BNM 116-19 Chart 12211

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY – SHOALING
Shoaling exist between Sinepuxent Bay Channel Lighted Buoy 11 (LLNR 47542) to Sinepuxent Bay Channel Light 13 (LLNR 47555), water depth of three feet. Shoaling between Sinepuxent Bay Channel Buoy 6 (LLNR 47501) to Sinepuxent Bay Channel Buoy (LLNR 47517), water depth of four andone half feet. Sinepuxent Bay Channel Lighted Buoy (LLNR 47550), shoaling encroaches approximately 20 yds into the channel in a southwesterly direction. Water depths have been found as low as 2.5 ft during low tide. Between Sinepuxent Bay Channel Light 8 (LLNR 47520) and Sinepuxent Bay Channel Daybeacon 10 (LLNR 47555), shoaling encroaches approximately 15 yds into the channel in an easterly direction. Water depths have been found as low as 3 ft during low tide. Between Sinepuxent Bay Channel Buoy 33 (LLNR 475130) and Sinepuxent Bay Channel Daybeacon 35 (LLNR 475135) on the eastern side of the channel. Water depths have been found as low as 3 ft during low tide. Chart 12211

MD – POTOMAC RIVER – ST. GEORGE CREEK – SHOALING
The Army Corps of Engineers, Baltimore District, Survey of St. George Creek Channel dated April 2018, indicates shoaling across the entire channel. The shoaling is from 850 feet up the channel of St. George Creek West Channel Warning Light A (LL 16760) to 500 feet up the channel of St. George Creek West Channel Warning Daybeacon B (LL 16765), with a least depth of 3.1 feet MLLW. Chart 12233

MD - POTOMAC RIVER – ST. PATRICK CREEK – SHOALING
There has been a report of severe shoaling within the channel boundaries of St. Patrick Creek. Shoaling has been reported in the vicinity of St. Patrick Creek Channel Daybeacon 3 (LLNR 17120) extending to St. Patrick Creek Channel Daybeacon 5 (LLNR 17135) with depths of 2-4' at MLW. Shoaling to 1' MLW has been observed in the channel in the vicinity of St. Patrick Creek Channel Buoy 3A (LLNR 17125). Chart 12286

MD – MOBJACK BAY AND YORK RIVER ENTRANCE – BACK RIVER
A recent NOAA survey identified shoaling to a depth of 8 feet at MLW in Back River between Back River Channel Light 6 (LLNR 19529) and Back River Channel Light 5 (LLNR 19525). The survey also identified shoaling around Back River Channel Light 4 (LLNR 19529) to a depth of 10 ft at MLW. Chart 12222

MD - CHESAPEAKE BAY - CHESAPEAKE BAY TO PINEY POINT - ST. JEROME CREEK - SHOALING
Maryland DNR survey of the mouth of St. Jerome Creek indicates shoaling, to at least depth of 3.1feet MLLW, in the channel between St. Jerome Creek Light 4 (LLNR 18810), St. Jerome Creek Daybeacon 4A (LLNR 18812) and St. Jerome Creek Daybeacon 6 (LLNR 18815). The channel width in the area of St. Jerome Daybeacon 4A (LLNR 18812) and Deep Point is reduced to approx 20 ft. MD-NCR BNM 415-16, Ref LNM 52/16 Chart 12233

MD/VA - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING
Shoaling exists in St. Catherine Sound Lower Entrance at the following locations: (1) off the northeastern tip of St. Catherine Island extending channel ward between position 38-14-17.586N, 076-47-15.562W and position 38-14-32.841N, 076-47-14.761W, and (2) in the vicinity of St. Catherine Sound Lower Entrance 4L (LLNR 17230), Ref LNM 44/16, CCGD5 BNM 524-16 Chart 12286

MD – CHESAPEAKE BAY – ST. PETERS CREEK – SHOALING
Shoaling has been located within the channel limits of St. Peters Creek from Entrance Light 1SP (LLNR 23435) to St. Peters Creek Daybeacon 2 (LLNR 23440) least depth of 5.3' in center of channel, 4.3' on the green side of the channel, and 2.3' on the red side of the channel. From St. Peters Creek Daybeacon 2 (LLNR 23440) to St. Peters Creek Daybeacon 3 (LLNR 23445) least depth of 3.7' in the center of channel, 1.7' on the green side of the channel, and 1.7' on the red side of the channel. From St. Peters Creek Daybeacon 3 (LLNR 23445) to St. Peters Creek Daybeacon 5 (LLNR 23450) least depth of 3.3' in center of channel, 1.7' on the green side of the channel, and 2.3' on the red side of the channel. From St. Peters Creek Daybeacon 5 (LLNR 23450) to St. Peters Creek Daybeacon 6 (LLNR 23455) least depth of 3' in the center of the channel, 2.3' on the green side of the channel and 2.7' on the red side of the channel. Chart 12231

MD - LITTLE CHOPTANK RIVER - SLAUGHTER CREEK – SHOALING
Shoaling in the western portion of Slaughter Creek in the vicinity of Holland Point have encroached easterly in most of the federally marked channel. The shoal adjacent to Slaughter Creek Light 2SC (LLNR 24645) has encroached approx 50-100 yds easterly with observed depths of 3-4' in between tide cycles. Shoaling to 5' MLLW has been observed on the red side of the channel between Slaughter Creek Buoy 6 (LLNR 24670) and Slaughter Creek Buoy 8 (LLNR 24683). Sec MD-NCR BNM 045-17 Chart 12264, 12266

MD - CHESAPEAKE BAY - HONGA, NANTICOKE AND WICOMICO RIVERS – FISHING BAY - TAR BAY
A USACE survey conducted in Apr 2016 has identified shoaling to a depth of less than one foot at mean low water between Tar Bay Channel Warning Daybeacon E (LLNR 24595) and Tar Bay Channel Warning Daybeacon K (LLNR 24615). The channel width has been significantly reduced. Observed depths are between 2-4' at high tide. Sec MD-NCR BNM 044-17 Chart 12261
MD – FISHING BAY – FARM CREEK – SHOALING
From entrance of channel to Farm Creek Channel Daybeacon 2 (LLNR 24430) least depth of 5 feet within the channel limits. From Farm Creek Channel Daybeacon 2 (LLNR 24430) to Farm Creek Channel Daybeacon 7 (LLNR 24445) least depth of 2.0 feet on red side of channel, 3.9 Ft centerline of channel, and 2.8 feet on the green side of channel. Ref LNM 16/18.

VA – MD – POTOMAC RIVER – BONUM CREEK – SHOALING
U. S. Army Corps of Engineers Survey of Bonum Creek indicates shoaling, to less than 4 feet MLLW, in the channel between Bonum Creek Light 2B (LLNR 16880), Bonum Creek Channel Daybeacon 3 (LLNR 16885) and Bonum Creek Buoy 3A (LLNR 16887). MD-NCR BNM 149-17.
Chart 12286

VIRGINIA SHOALING

VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – VIRGINIA INSIDE PASSAGE – BRADFORD BAY – SHOALING
Shoaling has been identified 480’ past Wachapreague Channel Junction LT WB (LLNR 6695) and continues to 850’ past Bradford Channel Buoy 5A (LLNR 6035). Least depth range from 5.9’ TO 2.9’ MLLW. Shoaling has been identified in vicinity of Wachapreague Day Beacon 10 (LLNR 5995). Least depth range 4.0’ MLLW. Shoaling has been identified 130’ past Wachapreague Channel Daybeacon 13 (LLNR 6690) to Wachapreague Channel Junction Light WB (LLNR 6695). Least depth 4.0’ MLLW. LNM 2619,
Chart 12210

VA – NANDUA CREEK
Shoaling has been reported at the entrance to Nandua Creek to 2 feet. HR BNM 311-13
Chart 12226

VA – CHINCOTEAGUE BAY CHANNEL – SHOALING
Shoaling has been identified IVO Chincoteague Bay Channel Lighted Buoy 8 (LLNR 5430) and continuing along the channel to Chincoteague Bay Channel Light 3 (LLNR 5415). Depths at MLLW range from 5 feet at the north end to 3.6 feet at the south end.
Chart 12211

VA – CHINCOTEAGUE CHANNEL – SHOALING
The shoal adjacent to Chincoteague Channel Lighted Buoy 28 (LLNR 5397) has encroached approximately 30-40 yds into the channel, depths of 3 - 4’ at MLW. LNM 12/19
Chart 12210

VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – VIRGINIA INSIDE PASSAGE - WALLOPS ISLAND – SHOALING
There has been a report of shoaling in the vicinity of Wallops Island Lighted Buoy 2 (LLNR 5520) to a depth of one foot.
Chart 12210

VA – VIRGINIA INSIDE PASSAGE (VIP)
VIP Day beacon 164 (LLNR 6220) to VIP Day beacon 265 (LLNR 6580), Shoaling to less than 6ft MLW. HR BNM 106-16
Quinby Creek Day beacon 7 (LLNR 6770) to Quinby Creek Light 13 (LLNR 6785), Shoaling to less than 6 ft MLW. HR BNM 104-16
VIP Day beacon 244 (LLNR 6485), Shoaling to 1 foot. HR BNM 272-14, Sand Shoal Channel Light 1 (LLNR 6990) to Sand Shoal Light 10 (LLNR 6996) LNM 24-13, Oyster Creek Channel Junction Lighted Buoy OC (LLNR 7002/6447) to Oyster Creek Light 10 (LLNR 7025), Shoaling to less than 6ft MLW. HR BNM 107-16, Chart 12210, 12224

VA – CAPE HENRY TO THIMBLE SHOAL LIGHT – LYNNHAVEN INLET – SHOALING
Shoaling has been observed in Lynnhaven Basin and connected tributaries, south of Lesner Bridge. Depths of 0-3 feet from Pleasure House Creek eastbound to Long Creek Daybeacon 10 (LLNR 10170), in Crab Creek, Lynnhaven Inlet, Long Creek and at Great Neck Point. Depths of 3-5.9 feet east of Long Creek Daybeacon 10 to the entrance of Broad Bay. Navigation of the area requires extreme caution due to shoaling and the shifting nature of these shoals because of weather and tidal currents. HR BNM 407-18
Chart 12254

VA – CHESAPEAKE BAY – RAPPAHANNOCK RIVER ENTRANCE - MILFORD HAVEN EAST
Shoaling to a depth of 2 Feet at low tide has been identified from 400 yards northeast of Milford Haven East Buoy 7 (LLNR 14593.5) extending to the south 600 yards. Shoaling extends to the west 250 yard and impedes the width of the channel both inbound and out bound, Shoaling to a depth of 3 feet has been identified in various locations west of Buoy 7 (LLNR 14593.5) To Buoy 18 (LLNR 14625).
Chart 12235

VA – RAPPAHANNOCK RIVER ENTRANCE – QUEENS CREEK – SHOALING
The Army Corps of Engineers, Norfolk District, Survey of Queens Creek Channel; dated June 21, 2017 indicates shoaling across the channel from Queens Creek Channel Buoy 2 (LLNR 14820) to Queens Creek Channel Lighted Buoy 5(LLNR 14840) Least depths range from 5.8 feet MLLW to 1.8 feet MLLW, LNM 29/17
Chart 12235

VA – CHESAPEAKE BAY - MATTAWOMAN CREEK – SHOALING
Shoaling has been reported to a depth of 2-3ft at mean low water in the channel of Mattawoman Creek between Mattawoman Creek Light 1MC (LLNR 21580) and Mattawoman Creek Light 2 (LLNR 21585). Mariners are advised to transit the area with caution.
Chart 12226

VA – HAMPTON ROADS - WILLOUGHBY BAY
The USACE has reported shoaling in Willoughby Channel to 2.6 feet MLLW in the vicinity of Willoughby Channel Buoy 3 (LLNR 10583).
Chart 12245
**VA – CHESAPEAKE BAY – LYNNHAVEN INLET – LONG CREEK CHANNEL**
Shoaling to 2.4 feet has been reported in Long Creek Channel east of Long Creek Channel Day beacon 7 (LLNR 10167) in the vicinity of Pleasure House Point. HR BNM 293-14
Chart 12254

**VA – PAGEN RIVER – SHOALING**
Significant shoaling has been identified in the Pagen River Channel between Pagan River Channel Daybeacons 15 (LLNR 11435) and Daybeacon 17 (LLNR 11445). Least depth of 3.3 FT. HR BNM 218-19
Chart 12248

**VA – CHESAPEAKE BAY – MOBJACK BAY AND YORK RIVER ENTRENCE – DAVIS CREEK – SHOALING**
Significant shoaling has been identified from USACOE survey dated 07 Sep 2016 in Davis Creek. Shoaling of the channel begins 100 yards south of Davis Creek Warning Daybeacon B (LLNR 14130) to a depth of 4.9 feet extending across the entire length and width of the channel to 150 yards north of Davis Creek Warning Daybeacon D (LLNR 14140) with a minimum identified depth of 1.2 feet. Ref LNM 12/17
Chart 12238

**VA – CHESAPEAKE BAY – MOBJACK BAY AND YORK RIVER ENTRANCE – HORN HARBOR**
Shoaling has been reported to 1-2 feet extending 50 yards channel ward from Horn Harbor Lighted Buoy 8 (LLNR 14487). HR BNM 182-15
Chart 12238

**VA – CHESAPEAKE BAY – BACK RIVER – SHOALING**
A NOAA Survey identified shoaling to a depth of 6 feet MLW in Back River in approximate position 37-06'33.0"N, 076-16'40.8"W, approximately 75 yards west of Back River Daybeacon 6 (LLNR 12930). Mariners are advised to transit the area with caution. HR BNM 044-17, LNM 07/17
Chart 12222

**VA – CHESAPEAKE BAY – YORKTOWN TO WEST POINT - QUEEN CREEK**
Shoaling to less the 3 feet has been reported in Queen Creek from Queen Creek Entrance Light 2QC (LLNR 13785) to Queen Creek Day beacon 10 (LLNR 13820). HR BMN 170-14
Chart 12243

**VA – GREAT WICOMICO RIVER – SHOALING**
Shoaling has been identified in the vicinity of Great Wicomico River Light 9 (LLNR 16300) extending 30 yards north and north northeast of structure to a depth of less than 2 feet.

**VA – RAPPAHANNOCK RIVER – SHOALING**
Rappahannock River mile 60 to 63, Devils Elbow. Shoaling has been reported to a depth of less than 04 ft at mean low water along the eastern side of the channel from Horse Head Point to south of Tobys Point extending along the eastern side of Tobys Point to North Bend. HR BMN 051-17, LNM 08/17
Chart 12237

**VA - RAPPAHANNOCK RIVER - CORROTOMAN RIVER TO FREDERICKSBURG – GREENVALE CREEK SHOALING**
An ACOE Survey of Greenvale Creek Channel indicates shoaling, to a least depth of 1.7 feet MLLW, across the channel from approximately 250 feet North-Northeast of Greenvale Channel Warning Daybeacon A (LLNR 15305) continuing inbound for approximately 880 feet. Ref LNM 50/16
Charts 12237

**VA - MD - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING**
Shoaling exists in St. Catherine Sound Lower Entrance at the following locations: (1) off the northeastern tip of St. Catherine Island extending channel ward between position 38-14-17.586N, 076-47-15.562W and position 38-14-32.841N, 076-47-14.761W, and (2) in the vicinity of St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, CCGD5 BMN 524-16
Chart 12286

**VA – POTOMAC RIVER – YEOCOMICO RIVER – SHOALING**
There has been a report of shoaling in the Yeocomico River within channel boundaries, located SE of South Yeocomico River Daybeacon 2 (LLNR 16830) to a depth of less than ten feet at mean low water. MD-NCR BMN 408-16, Ref LNM 50/16
Chart 12233

**VA – POTOMAC RIVER – YEOCOMICO RIVER - SHOALING**
Sounds in Bonum Creek indicates shoaling in the channel between Bonum Creek Warning Daybeacon C (LLNR 16885), Bonum Creek Warning Daybeacon D (LLNR 16890), and Bonum Creek Warning Daybeacon E (LLNR 16895). Due to extensive shoaling off Sandy Point Neck, the channel width has been reduced to approx 20ft between Bonum Creek Warning Daybeacons C and D. Mariners are urged to use caution.
Chart 12286

**VA – UPPER POTOMAC RIVER – POTOMAC CREEK – SHOALING**
Severe shoaling has been reported within the channel boundaries of Potomac Creek. Shoaling extends 15 yards channel ward of Potomac Creek Buoy 3 (LLNR 17920) with depths of 3 to 4 feet at MLW. Additional shoaling further in has been observed to a depth less than 3 feet at MLW. Ref LNM 14/18
Chart 12288

**VA – RUDREE INLET – SHOALING**
Survey dated July 18, 2019 of Rudee Inlet indicates shoaling in the south side of the channel; least depth 8.2’ MLLW, from the approximate end of the South Jetty out eastward for approximately 220’. Additionally, shoaling in the north side of the channel; least depth 8.8’ MLLW, starting approximately 200’ west of the end of the North Jetty westward for approximately 425’.
Chart 12200
NORTH CAROLINA SHOALING

NC – OREGON INLET – SHOALING
Shoaling has been reported IVO Oregon Inlet Buoy 15 (LLNR 28045) and Oregon Inlet 17 (LLNR 28005) near the Bonner Bridge. Mariners are advised to use extreme caution while navigating this area. NC BNM 284-19
Chart 12205

NC – CAPE HATTERAS – HATTERAS INLET
Shoaling has been found encroaching 40 yards into the channel, depths of 2-3 at MLW. Shoaling to 2-3 MLW has been observed on the red side of the channel between Hatteras Inlet Channel Lighted Buoy 12 (LLNR 28732) and Buoy 12A (LLNR 28732.1). NC BNM 321-18
Chart 11555

NC – CAPE HATTERS – BARNEY SLOUGH
Shoaling has been found along north side of channel between Barney Slough Channel Buoy 4 (LLNR 28721.7) and Barney Slough Channel Lighted Buoy 6 (LLNR 28722.3). Observed depths of 4 feet MLW.
Chart 11555

NC – BARDEN INLET – BACK SOUND – SHOALING
Shoaling exists in Barden Inlet and Back Sound between Barden Inlet Buoy 8 (LLNR 29180) and Barden Inlet Buoy 15 (LLNR 29210) to an average depth of less than 3 feet at MLW. Under the current condition of the inlet, the aids to navigation can no longer be configured to safely mark a passable channel and the aids to navigation will be discontinued. Two Danger Shoal Buoys will be placed at each end of the removed section. NC BNM 136-19
Chart 11545

NC – BEAUFORT HARBOR – SHOALING
U.S. Army Corp of Engineers Survey on 4 Oct 2018 revealed significant shoaling between Beaufort Harbor Channel Lighted Buoy 2 (LLNR 34805) and Beaufort Harbor Buoy 2A (LLNR 34807) in Beaufort Harbor Channel. Depths as low as 6 feet at mean low water were reported along the right hand side of the channel when returning from sea. Mariners are advised to navigate with extreme caution when transiting this area. NC BNM 427-18, LNM 42/18
Chart 11545

NC – BOGUE SOUND – SHOALING
Shoaling has been reported between Bogue Sound Daybeacon 10 (LLNR 38875) and Bogue Sound Daybeacon 14 (LLNR 38895), 10 yards into the channel to a depth of 1-2 feet MLW. Mariners are advised to use extreme caution while navigating this area. NC BNM 228-18
Chart 11541

NC – BOUGE SOUND – PELETIER CREEK – SHOALING
Severe shoaling has been reported in Peletier Creek near Bogue Sound to a depth of 3 feet MLW. Multiple aids to navigation have been removed from Peletier Creek and Peletier Creek Entrance Daybeacon 1 (LLNR 38820) and Peletier Creek Entrance Daybeacon 5 (LLNR 38835) have been converted into a non-lateral warning aids. NC BNM 545-18
Chart 11541

NC – LENOXVILLE POINT – TAYLOR CREEK – SHOALING
Shoaling exists in the channel in vicinity of Lenoxville Point Buoy 1L (LLNR 34757) through Lenoxville Point Buoy 3 (LLNR 34760). NC BNM 294-18.
Chart 11545

NC - CORE SOUND - WAINWRIGHT SLOUGH - SHOALING
Significant shoaling exists between Core Sound Light 5 (LLNR 34345) and Core Sound Daybeacon 5B (LLNR 34350) in Wainwright Slough. Depth less than 3 feet may be present within the channel. Mariners are advised to navigate with extreme caution when transiting this area. NC BNM 384-18
Chart 11550

NC – WESTERN PART OF PAMLICO SOUND – PAMLICO RIVER – WRIGHT CREEK – SHOALING
Mariners are advised of shoaling in vicinity of Wright Creek Daybeacon 4 (LLNR 32870) off the Pungo River. NC BNM 141-18
Chart 11553

NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CAUSEWAY CHANNEL – SHOALING
Shoaling has worsened IVO Causeway Channel Buoy 5A (LLNR 38731) and Causeway Channel Buoy 6A (LLNR 38736), depths as low as 4 feet may be encountered inside the markers at MLW. Mariners should exercise extreme caution when navigating this area. NC BNM 262-19
Chart 11541

NC - NEUSE RIVER TO MYRTLE GROVE SOUND – AICWW - NEW RIVER TO CAPE FEAR RIVER – BROWNS INLET
Shoaling has been reported in the AICWW near the intersection of Browns Inlet and the AICWW in the vicinity of New River – Cape Fear River Buoy 61A (LLNR 39223).

NC – NEUSE RIVER TO MYRTLE GROVE SOUND - NEW RIVER – NEW RIVER INLET CROSSING
Shoaling in New River Inlet Crossing near Bogue Sound - New River Buoy 72A (LLNR 39300) to a depth of 3 feet MLW. NC BNM 011-19
Chart 11542

NC - NEW TOPSAIL INLET – SHOALING
Significant shoaling has been reported throughout New Topsail Inlet. Multiple aids to navigation are unreliable and not marking good water. Mariners should use extreme caution while navigating this area.
Chart 11541
NC – BANKS CHANNEL – SHOALING
USACE Surveys revealed significant shoaling in areas of Banks Channel to a depth of 1 foot MLW in the following locations. Banks Channel Light 1 (LLNR 30050) to Banks Channel Daybeacon 3 (LLNR 30065), Banks Channel Daybeacon 9 (LLNR 30085) to Banks Channel Daybeacon 9A (LLNR 30090), Banks Channel Light 11 (LLNR 30095) to Banks Channel Daybeacon 12 (LLNR 30100) and Banks Channel Daybeacon 21 (LLNR 30135) to Banks Channel Buoy 22 (LLNR 30137). Mariners are advised to navigate with extreme caution while navigating this area. Chart 1154

NC – CAROLINA BEACH INLET – SHOALING
Significant shoaling exists in Carolina Beach Inlet to a depth of less than 2 feet at mean low water in the area of Carolina Beach Inlet Buoy 7 (LLNR 30295) and Carolina Beach Inlet Buoy 9 (LLNR 30305). These aids to navigation are unreliable and not marking good water. Mariners are advised to use extreme caution while navigating this area. NC BNM 112-19

NC – SNOWS CUT – SHOALING
Shoaling exists in Snows Cut to a depth of 4 feet at mean low water in various locations between New River – Cape Fear River Buoy 162 (LLNR 39757) and New River - Cape Fear River Lighted Buoy 163 (LLNR 39825). Mariners are advised to use caution while navigating this area. NC BNM 293-19 Charts 11534

NC – LOCKWOODS FOLLY INLET – SHOALING
Shoaling exists in Lockwoods Folly inlet to a depth Of 4 feet at mean low water throughout the inlet and to a depth of 2 feet at mean low water in the crossing near Cape Fear River – Little River Buoy 47A (LLNR 40230). Mariners are advised to use caution while navigating this area. NC BNM 186-19 Chart 11534

NC – INTRACOASTAL WATERWAY - MYRTLE GROVE SOUND TO LITTLE RIVER
Shoaling was found between Cape Fear River - Little River Buoy 80A (LLNR 40337) and Cape Fear River - Little River Buoy 82 (LLNR 40345). Depths as low as 3ft were observed in the ICW channel at MLW. Position 33-54'25.55"N, 078-23'4.41"W. Shoaling is across the entire channel.
SUMMARY OF BRIDGE PERMITS, REGULATIONS AND CONSTRUCTION
IN THE FIFTH COAST GUARD DISTRICT

(Yellow indicates new item)

CURRENT PROJECTS
Permits:

SECTOR DELAWARE BAY

- Delaware
  Christina River – Christina River Bridge – Permit (1-17-5) signed April 7, 2017, for a fixed bridge across the Christina River, mile 3.8, City of Wilmington, New Castle County, DE. The bridge will provide a minimum vertical clearance of 14 feet above mean high water and a horizontal clearance of 150 feet centered on the axis of the navigable channel. (KB)

- New Jersey (Central & Southern)
  Oldmans Creek – US Route 130 Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 15, 2016; vertical clearance of 5 feet above mean high water and a horizontal clearance of 75 feet. (HP)
  Raccoon Creek – US 130 (fixed) Bridge - new fixed bridge structure to replace (lift) bridge. Permit (2-15-5) signed December 9, 2015. (KB)
  Glimmer Glass - W9 (Brielle Road) drawbridge - Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water (closed position), unlimited vertical clearance in the open position, and a horizontal clearance of 150 feet centered on the axis of the navigable channel. (KB)

- New Jersey (Central & Southern)
  Percussion River – US 17 Business Bridge (Hertford, NC) – replacement swing drawbridge Preliminary Navigation Clearance Determination issued on March 2, 2018; vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the bridge may be shifted up to 585 feet to the west of the current navigation span. (KB)

- New Jersey (Central & Southern)
  Delaware River – Governor Harry Nice Memorial Bridge – Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 2, 2018; vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the bridge may be shifted up to 585 feet to the west of the current navigation span. (KB)

- New Jersey (Central & Southern)
  Neale Sound – MD-254 (Cobb Island Road) Bridge – Permit (1-18-5) signed May 2, 2018, for a fixed replacement bridge with a vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)

- New Jersey (Central & Southern)
  Perquimans River – US 17 Business Bridge (Hertford, NC) – replacement swing drawbridge Preliminary Navigation Clearance Determination (PNCD) issued on November 1, 2017; vertical clearance of 33 feet above mean high water and a horizontal clearance of 55 feet. NCDOT

All interested parties are notified that the Commander, Fifth Coast Guard District has received a proposal from Monmouth County, NJ with plans for the modification of an existing highway drawbridge over a navigable waterway of the United States.

WATERWAY AND LOCATION: Glimmer Glass, at position (40˚ 42.27N, 74˚ 39.9W), at Monmouth County, NJ.

CHARACTER OF WORK: The proposed project is to replace the existing W9 (Brielle Road) drawbridge with a fixed bridge. The purpose of the project is to maintain the safety of the travelling public and replace a bridge design that is no longer considered acceptable, eliminating the need for increasingly costly bridge repairs and avoiding potential vehicular traffic disruption and delays. The existing drawbridge has a horizontal clearance of 31.9 feet and a vertical clearance of 9 feet of above mean high water in the closed position and an unlimited vertical clearance in the open position. The replacement bridge will be a fixed bridge with a horizontal clearance of 31.9 feet and a vertical clearance of 42 feet above mean high water. A copy of Public Notice D05PPN-03-2019, which describes the proposal in detail, can be obtained by calling (757) 398-6587 or by viewing at https://www.navcen.uscg.gov/?pageName=pnBridges. Comments on this proposal should be forwarded to the address in the notice no later than August 17, 2019. (MS)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- Maryland –
  Potomac River – Governor Harry Nice Memorial Bridge – Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 2, 2018; vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the bridge may be shifted up to 585 feet to the west of the current navigation span. (KB)
  Neale Sound – MD-254 (Cobb Island Road) Bridge – Permit (1-18-5) signed May 2, 2018, for a fixed replacement bridge with a vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)

- Washington DC –
  Anacostia River – Frederick Douglass Memorial Bridge - Permit (2-17-5) signed December 4, 2017, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water and a horizontal clearance of 150 feet. (MB)

- Virginia (Northern)
  Potomac River – Governor Harry Nice Memorial Bridge – Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 2, 2018; vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the bridge may be shifted up to 585 feet to the west of the current navigation span. (KB)

SECTOR HAMPTON ROADS

- Virginia (Southern)
  Western Branch of the Elizabeth River – Churchland Bridge - Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement of the northbound structure of the bridge with a structure providing a vertical clearance of 36.63 feet above mean high water and a horizontal clearance of 80 feet. (MS)

SECTOR NORTH CAROLINA

- North Carolina
  Atlantic Intracoastal Waterway – NC 210/50 Bridge, Surf City, NC - new fixed bridge structure to replace (swing) bridge. Permit (2-16-5) signed September 27, 2016. (KB)
  The Straits – Harkers Island Bridge – Bridge Replacement - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 24, 2017; vertical clearance of 45 feet above mean high water and a horizontal clearance of 125 feet. (MB)
  Perquimans River – US 17 Business Bridge (Hertford, NC) – replacement swing drawbridge Preliminary Navigation Clearance Determination (PNCD) issued on November 1, 2017; vertical clearance of 33 feet above mean high water and a horizontal clearance of 55 feet. NCDOT

These summaries are based on the information provided by the Commander, Fifth Coast Guard District.
preferred alternative would provide a vertical clearance of 12 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 55 feet. (HP)

Pamlico Sound – Bridge No. 71 (Rodanthe) Bridge – new fixed bridge carrying NC 12 on the mainland side of the outer bank along the northeastern shore of Pamlico Sound from a position approximately 1.8 miles north of the southern boundary of the Pea Island National Wildlife Refuge to a position north of the Chicamacomico Channel and the emergency ferry terminal in Rodanthe, Dare County, NC. Permit (1-19-5) signed on February 20, 2019. (HP)

 Regulations:

SECTOR DELAWARE BAY
- Delaware – None
- New Jersey (Central & Southern) - None
- Pennsylvania – None

SECTOR MARYLAND-NATIONAL CAPITAL REGION
- Washington, DC & Virginia (Northern) – None
- Maryland – None

SECTOR HAMPTON ROADS
- Virginia (Southern) - None

SECTOR NORTH CAROLINA
- North Carolina - None

Construction, et al:

SECTOR DELAWARE BAY
- Delaware
  - Lewes and Rehoboth Canal - Rehoboth Avenue (SR 1A) Bridge – Under this temporary deviation, the bridge will remain in the closed-to-navigation position from Monday, May 13, 2019, and Saturday, August 31, 2019; Mon-Fri, from 8 p.m. to 5:00 a.m. The drawbridge is a bascule drawbridge with a vertical clearance in the closed-to-navigation position of 16 feet above mean high water; however, bridge maintenance will require a containment structure to hang below the bridge reducing the vertical clearance to 13 feet above mean high water throughout the maintenance period. The bridge will be unable to open for emergency vessels. Mariners should use caution when transiting the area. (MB)

  - Christina River - SR 141 (1-501) Bridge – Bridge maintenance will be conducted from July 1, 2019, to September 30, 2019, Monday-Saturday from 7 a.m. to 5 p.m. To facilitate the work, barges will be connected and extended approximately 120 feet into the channel between the James Street Bridge and the SR 141 Bridge to assist with the placement of riprap. This will reduce the horizontal clearance of both bridges by 50%. There will also be divers in and around the vicinity of the crane barges. The Project Foreman may be reached on VHF/FM Channel 13. Mariner’s should carefully use caution when transiting the area. (MB)

  - Nanticoke River - SR 13 Bridge - Bridge will be maintained in the closed-to-navigation position to facilitate bridge repair and maintenance. This deviation allows the bridge to remain in the closed-to-navigation position 24 hours a day: 7 days a week; from 6 a.m. on June 17, 2019, through 5:59 a.m. on July 13, 2019, and from 6 a.m. on July 15, 2019, through 5:59 a.m. on August 26, 2019. Maintenance will be performed, Monday through Friday; from 6 a.m. on June 17, 2019, through 5:59 a.m. on July 13, 2019, and from 6 a.m. on July 15, 2019, through 5:59 on August 26, 2019. The bridge is a bascule bridge with a vertical clearance in the closed-to-navigation position of 3 feet above mean high water. However, the bridge will have a containment system under the bridge reducing the vertical clearance to 1 foot above mean high water for the entirety of the project. The bridge will not be able to open in case of an emergency and there is no alternate route for vessels to pass. Mariner’s should use extreme caution when transiting the area. (MB)

  - Lewes and Rehoboth Canal - Bridge 3-150 (State Road 1) Bridge – Bridge maintenance will be conducted from July 19, 2019, to December 30, 2020. To facilitate the work, scaffolding will be installed underneath the bridge and will reduce the vertical clearance to 32 feet above mean high water. The Project Foreman may be reached on VHF/FM Channel 13. Mariners should use caution when transiting the area. (MS)

  - Lewes and Rehoboth Canal - Savannah Road (Business Route 9) Bridge – To facilitate bridge maintenance, the bridge will be maintained in the closed-to-navigation position from 8 a.m. on Monday, August 19, 2019, through 8 p.m. on Tuesday, December 31, 2019. The drawbridge is a bascule bridge with a vertical clearance in the closed-to-navigation position of 15 feet above mean high water; however, the maintenance will require a containment structure to hang below the bridge reducing the vertical clearance to approximately 11 feet above mean high water throughout the maintenance period. Vessels able to transit through the bridge in the closed position with a reduced vertical clearance of approximately 11 feet above mean high water may do so at any time. The bridge will be unable to open for emergency vessels. Mariners should use caution when transiting the area. (MB)

  - New Jersey (Central & Southern)
   - Delaware River – Commodore Barry (fixed) Bridge – To facilitate painting, work will continue until 2019. Work platforms will be installed 3 feet beneath the bridge in various locations reducing the vertical clearance to 178 ft. above mean high water at the edge of the navigable channel (187 ft. center of channel). Phase 1 – NJ approach girder and deck truss spans due completion in September 2016. Phase 2 – PA approach girder and deck truss spans, scheduled to commence fall of 2016. Phase 3 – Cantilever truss span, scheduled to commence in 2017 and conclude in 2019. Mariners should exercise caution. (KB)

  - Delaware River - Interstate 276/Delaware River Turnpike Bridge – Bridge work on the bridge superstructure will continue to be performed from 7 a.m. to 7 p.m.; M-F; and from 6 a.m. to 6 p.m. on the weekends. The repainting and miscellaneous improvements ongoing since mid-November, 2015, will be extended through July 31, 2019. The project foreman may be contacted at 267-767-2850. Mariners should use caution when navigating through the area. (MT)

  - Delaware River - Betsy Ross Bridge - Painting will be conducted from May 15, 2018, to October 1, 2019; Monday - Saturday, from 7 a.m. to 5 p.m. A work platform will be installed and will extend 3 feet below low steel. The vertical clearance of the bridge will be reduced by 3 feet, to approximately 110 feet above mean high water. There will be no maintenance personnel or equipment in the waterway. A small safety boat will be in vicinity of the bridge when work is conducted over the navigational spans. Mariners are urged to use caution when transiting the area. (MS)

  - New Jersey Intracoastal Waterway (NJICW), Inside Thorofare - US40-322 (N Albany Ave) Bridge – Bridge maintenance will be conducted from 7 a.m. to 7 p.m.; Monday-Friday; from September 24, 2018, through January 24, 2020. Work will consist of repair and rehabilitation of the bridge fender system. A crane barge, a material barge, a 25-foot work vessel, and several work floats will be located in and around the vicinity
of the bridge. During the work hours, the horizontal clearance of the bridge will be reduced to approximately 25 feet due to work floats located inside the navigational channel throughout for the duration of the maintenance period. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may transit through the bridge between 11:30 a.m. and 12:30 p.m., if at least a 24-hour prior notice is given to the project foreman. Maintenance personnel, equipment and vessels will relocate from the navigable channel to facilitate the safe transit through the bridge of vessels that cannot safely transit the bridge with a reduced horizontal clearance. Work vessels and barges may be reached on VHF-FM channel 13. The project foreman may be reached at (215) 394-7997. Mariners should use extreme caution when transiting the area. (MT)

New Jersey Intracoastal Waterway (NJICW), Beach Thorofare - US 30 (Absecon Boulevard) Bridge – Bridge maintenance will be conducted from 7 a.m. to 7 p.m.; Monday-Friday; from September 14, 2019, through November 15, 2019. During the work hours, the horizontal clearance of the bridge will be reduced to approximately 30 feet due to work floats located inside the navigational channel throughout for the duration of the maintenance period. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may transit through the bridge between 11:30 a.m. and 12:30 p.m., if at least a 24-hour prior notice is given to the project foreman. Maintenance personnel, equipment and vessels will relocate from the navigable channel to facilitate the safe transit through the bridge of vessels that cannot safely transit the bridge with a reduced horizontal clearance. Work vessels and barges may be reached on VHF-FM channel 13. The project foreman may be reached at (215) 394-7997. Mariners should use extreme caution when transiting the area. (MT)

Delaware River - SR 73 (Tacony-Palmyra) Bridge – Bridge maintenance will be conducted from March 25, 2019, to March 16, 2020, Monday through Thursday, from 7 a.m. to 5 p.m. To facilitate the work, scaffolding will be installed underneath the bridge and will reduce the vertical clearance by 4 feet at the Tacony Truss and Palmyra Truss Spans and by 3 feet at the Arch Span. The Project Foreman may be reached at (267) 767-2550 or VHF/FM Ch. 13. Mariners are urged to use extreme caution navigating through the area. (MT)

Delaware River - SR 413 (Burlington-Bristol) Bridge – Bridge will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge lift span. The bridge will be maintained in the closed position 24 hours a day; 7 days a week; from 6 a.m. on June 19, 2019, through 7:59 a.m. on September 17, 2019. During bridge maintenance, work platforms will occupy the bridge span reducing the vertical clearance to approximately 58 feet above mean high water in the closed position and approximately 132 feet above mean high water in the open position. The bridge will open on signal, if two hours prior notification is given. The bridge will not be able to open for emergencies. At all other times the bridge will operate per 33 CFR 117.716 (a). Vessels able to pass through the bridge in the closed position, and in the closed navigation position, an unlimited vertical clearance in the open position, a horizontal clearance of 75 feet in the western navigation span, and 65 feet in the eastern navigation span. Detailed project information and information concerning the waterway closures will be provided via updated

Pennsylvania –

Schuylkill River - Grays Ferry Railroad Bridge - Modification (pedestrian bridge) activities which began June 2018, are expected to finish on May 1, 2020. Work will be performed from 6 a.m. to 5 p.m.; M-F. During this bridge modification project, one navigation span will be occupied; the other navigation span will be open for vessels to transit. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. The new bridge will have a vertical clearance of 26 feet above mean high water in the closed-to-navigation position, an unlimited vertical clearance in the open position, a horizontal clearance of 75 feet in the western navigation span, and 65 feet in the eastern navigation span. Detailed project information and information concerning the waterway closures will be provided via updated
local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, and support vessels will be operating or stationed in the vicinity of the existing bridge. A.P. Construction Inc.'s vessels are monitoring VHF-FM channels 13 and 16 when working or operating. The City of Philadelphia construction manager may be contacted at 215-275-8066 and A.P. Construction, Inc.'s project foreman may be contacted at 215-651-6278 or 215-783-2262. Mariners should use extreme caution when transiting the area. (MT)

Delaware River - Interstate 276/Delaware River Turnpike Bridge – Bridge work on the bridge superstructure will continue to be performed from 7 a.m. to 7 p.m., and from 6 a.m. to 6 p.m. on the weekends. The repainting and miscellaneous improvements ongoing since mid-November, 2015, will be extended through July 31, 2019. The project foreman may be contacted at 267-767-2550. Mariners should use caution when navigating through the area. (MT)

Schuylkill River - I-76 (Schuylkill) Expressway, west bank, between University Avenue - Bridge maintenance will be conducted between Wednesday, March 27, 2019, and Friday, November 22, 2019; Mon-Fri; from 6 a.m. to 4 p.m. The maintenance will require a tug and two barges to work along the western bank of the Schuylkill River. The project superintendent may be reached at (610) 487-4976. The tug will be monitoring VHF-FM channels 13 and 16. Mariners should use caution when transiting the area. (MB)

Delaware River - SR 73 (Tacony-Palmyra) Bridge – Bridge maintenance will be conducted from March 21, 2019, to January 8, 2020, Monday through Saturday, from 7 a.m. to 5 p.m. The maintenance of the bridge will require a vertical clearance restriction of 3 feet in the arch span, between piers D and E, and 4 feet vertical clearance restriction along the remaining sections of the bridge. The project supervisor may be reached at (267) 767-2550. The bridge tender may be reached on VHF-FM channels 13 or 16. Mariners are urged to use caution when transiting the area. (MB)

Delaware River - SR 73 (Tacony-Palmyra) Bridge – Bridge maintenance will be conducted from March 25, 2019, to March 16, 2020, Monday through Saturday, from 7 a.m. to 5 p.m. To facilitate the work, scaffolding will be installed underneath the bridge and will reduce the vertical clearance by 4 feet at the Tacony Truss and Palmyra Truss Spans and by 3 feet at the Arch Span. The Project Foreman may be reached at (267) 767-2550 or VHF/FM Ch. 13. Mariners are urged to use caution when transiting the area. (MT)

Delaware River - SR 413 (Burlington-Bristol) Bridge – Bridge will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge lift span. The bridge will be maintained in the closed position 24 hours a day; 7 days a week; from 6 a.m. on June 19, 2019, through 7:59 a.m. on September 17, 2019. During bridge maintenance, work platforms will occupy the bridge span reducing the vertical clearance to approximately 58 feet above mean high water in the closed position and approximately 132 feet above mean high water in the open position. The bridge will open on signal, if two hours prior notification is given. The bridge will not be able to open for emergencies. At all other times the bridge will operate per 33 CFR 117.716 (a). Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. The bridge tender may be reached using VHF-FM channels 13/16. The project foreman may be reached at (215) 651-6278. Mariners should use extreme caution navigating through the area. (MT)

Delaware River - SR 73 (Tacony-Palmyra) Bridge – Bridge will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge bascule spans. The bridge will be maintained in the closed position from midnight on August 31, 2019, through 11:59 p.m. on November 12, 2019. During the closure period, the bridge will open on signal, if at least two hours prior notification is given; except, from midnight on September 30, 2019, through 11:59 p.m. on October 4, 2019, and from midnight on October 9, 2019, through 11:59 p.m. on October 13, 2019. A containment system will occupy the bridge spans, reducing the vertical clearance of the bridge to approximately 47 feet above mean high water. The bridge will open on signal, if two hours prior notification is given; except, from midnight on September 30, 2019, through 11:59 p.m. on October 4, 2019, and from midnight on October 9, 2019, through 11:59 p.m. on October 13, 2019. Vessels able to pass through the bridge in the closed position, and in the closed position with the reduced vertical clearance, may do so at any time. The bridge will not be able to open for emergencies. At all other times, the bridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.716 (a). The bridge tender may be reached using VHF-FM channels 13/16. The project foreman may be reached at (856) 429-3400. Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

• Maryland

Chesapeake Bay - US 50/US 301 (William P. Lane Jr. Memorial) (Eastern Channel) Westbound Bridge – Bridge maintenance which began in July 2017, has been extended to December 31, 2020; 24 hours a day; 7 days a week. The work will involve the Spans 44-46 (span 45 is the navigational span). A barge and work vessels will be in and around the vicinity of the bridge. A work platform will be attached to the underside of bridge which will reduce the vertical clearance of the bridge span to approximately 56 feet above mean high water. During the maintenance period from March 5, 2019, through May 25, 2019, a work barge will be located near the center of the navigational span, reducing the horizontal clearance of the bridge to approximately 300 feet on either side of the barge. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (717) 490-1699 or 803-535-9995. Mariners should use extreme caution navigating through the area. (MT)

Neale Sound - Bridge No. 0083800 (MD-254) Bridge - Construction activities will begin on May 21, 2018, and are expected to conclude on August 10, 2018. Work hours are from 6 a.m. to 6 p.m. Monday through Friday. Detailed project information and information concerning marine equipment engaged in bridge construction will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Mariners should navigate with extreme caution in the vicinity of the bridge and construction equipment. (NP)

Patapsco River - SR-2 (Hanover Street) Bridge) - The bridge is currently inoperable and cannot open. Maintenance will be performed from August 13, 2019, through November 29, 2019. Monday through Friday, from 6:00 a.m. to 5:00 p.m., and on several weekends 24-hours/day. A 120-foot by 30-foot barge with equipment and a man-lift will be positioned in the navigation channel, reducing the available horizontal clearance through the bridge to approximately 60 feet on each side of the barge during working hours and 120 feet with the barge alongside the fender system outside of working hours. Vessels able to pass through the bridge in the closed position may do so at any time. Vessels may contact work vessels on VHF-FM channel 13 and the project superintendent/boat operator at (443) 694-3916. Mariners should use extreme caution when transiting the area. (KB)

Choptank River - SR 331 (Dover) Drawbridge – Bridge maintenance will be conducted from 7 a.m. to 8 p.m.; 7 days a week; from May 20,
2019, through August 30, 2019. During the bridge maintenance period, the bridge will be maintained in the open position; a work platform will be located in one navigation span at all times. The other navigation span will be open for vessels to transit through the bridge. The bridge has a horizontal clearance of approximately 40 feet in each navigation span. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Maintenance personnel and equipment will not be able to relocate from the moveable span and navigable channel. The bridge tender may be reached on VHF-FM channels 13 and 16, and 410-822-0538. The project foreman may be reached at (410) 371-5124. Mariners should exercise caution navigating through the area. (MT)

• Washington DC

Potomac River - Arlington Memorial Bridge - Major rehabilitation of the Arlington Memorial Bridge commenced in the Potomac River in Washington, DC on April 19, 2019, and will continue into 2021. The current work consists of building the temporary West Trestle from the western shoreline to approximately 200 feet out to the center of the Federal Channel. A west-side work barge will be stationed in the western/down bound side of the Federal channel during trestle construction and properly lit. The existing western and center fender piers will also be partially demolished, south of the existing bridge. The western half of the Federal channel is currently closed as demarcated by the white exclusion buoys upstream and downstream of the bridge. The East Trestle is also being constructed, which will extend from the eastern shoreline to the east side of the Federal channel. Multiple barges and push vessels are supporting this activity. The eastern half of the Federal channel, east of the center fender pier, will be open for navigation at all times. Construction work will be conducted Mondays through Saturday, between 7 a.m. and 7 p.m., with no pile driving work on Saturday. Marine equipment on site includes a crew boat, a push boat, and multiple deck barges. All equipment will be marked and lighted as required by U. S. Coast Guard regulations. Mariners are urged to use caution when transiting the area, control wake, and operate at minimum speed necessary to maintain safe course near the work site. Interested mariners may contact the vessels BULLDOG II and CAPT. JACK via marine band radio VHF-FM channels 16 and 13 when actively working on the river, or at telephone number 305-304-6853. The Kiewit bridge construction contractor may be contacted at 813-323-4611. For any questions or concerns, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone (410) 576-2674 or (410) 576-2693. (MS)(RH)

Anacostia River - Frederick Douglass Memorial (South Capitol Street) Bridge – Bridge construction commenced in the Anacostia River in Washington, DC on April 19, 2019, and will continue into 2021. The current work consists of building the temporary West Trestle from the western shoreline to approximately 200 feet out to the center of the Federal Channel. A west-side work barge will be stationed in the western/down bound side of the Federal channel during trestle construction and properly lit. The existing western and center fender piers will also be partially demolished, south of the existing bridge. The western half of the Federal channel is currently closed as demarcated by the white exclusion buoys upstream and downstream of the bridge. The East Trestle is also being constructed, which will extend from the eastern shoreline to the east side of the Federal channel. Multiple barges and push vessels are supporting this activity. The eastern half of the Federal channel, east of the center fender pier, will be open for navigation at all times. Construction work will be conducted Mondays through Saturday, between 7 a.m. and 7 p.m., with no pile driving work on Saturday. Marine equipment on site includes a crew boat, a push boat, and multiple deck barges. All equipment will be marked and lighted as required by U. S. Coast Guard regulations. Mariners are urged to use caution when transiting the area, control wake, and operate at minimum speed necessary to maintain safe course near the work site. Interested mariners may contact the vessels "Ms. Becky" or "Claire Marie" via marine band radio VHF-FM channels 16 and 13 when actively working on the river. (MB)(RH)

• Virginia (Northern) - None

• Virginia (Southern)

Lynnhaven Inlet – US 60/John A. Lesner (fixed) Bridge – Work is in progress through August 30, 2019 for a new replacement bridge at essentially the same location. The new bridge will have a vertical clearance of 45 feet above MHW, along with a horizontal clearance of 150 feet between face of the fenders. A dredge material placement site will be located southwest of the existing bridge, adjacent to the boat ramp facility and used as a staging area. The contractor will access the lay down and staging area via the waterway through a proposed temporary bulkhead. (HP)

Queens Creek - I-64 Bridges - Bridge construction will be conducted from December 3, 2018, to September 24, 2021, Monday-Friday from 7 a.m. to 6 p.m. To facilitate the work, a temporary work trestle and a work barge will be in the vicinity of the navigational channel. A minimum 15-foot wide navigational opening will be maintained in the main navigational channel at all times. The Project Foreman may be reached on VHF/FM Channel 13. Mariners should use caution when transiting the area. (MS)

York River - US 17 (Coleman Memorial) Bridge – Bridge maintenance will be conducted from April 15, 2019, to September 6, 2019. Bridge maintenance will include installation of submarine cable protection panels outside the navigation channel. Mariners should use caution when transiting the area. (MS)

James River - US 17/US 258/SR 32 (James River Bridge) Bridge – Bridge maintenance will be conducted from 7 a.m. to 5 p.m.; Monday-Friday, from 7 a.m. on April 1, 2019, through 5 p.m. on September 6, 2019. A crane barge, work barge, a dive boat with diver, will be in and around the vicinity of the bridge. Maintenance personnel, equipment and vessels will relocate from the moveable span and navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (757) 817-1338. Mariners should notify the work foreman no less than thirty minutes prior to transiting through the bridge. Mariners should use caution navigating through the area (MT)

Sarah Creek (Northwest Branch) - SR 641 (Tidemill Road) Bridge – Bridge maintenance will be conducted from 7 a.m. to 5 p.m.; Monday-Saturday, from June 1, 2019, through November 30, 2019. During work hours, a work platform and workboat will be in and around the vicinity of the bridge. Work will reduce the horizontal clearance of the bridge to approximately 39 feet. The bridge will be unrestricted, at all other times. Vessels able to safely transit through the bridge with the reduced clearance, may do so at any time. Vessels that cannot safely transit through the bridge with the reduced clearance should notify the project foreman no less than one hour prior to transiting through the bridge. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channels 13 and 16. The project foreman may be reached at (804) 238-1182 or (804) 432-0179. Mariners should use caution navigating through the area. (MT)

Elizabeth River – Eastern Branch - Route 460 (Campostella Road) Bridge – Bridge has been damaged. The cluster pile causing the obstruction to the navigational channel in the vicinity of the northwest side of the Campostella Bridge has been removed. Even with the obstruction removed, the northwest corner of the fender system remains heavily damaged and unstable rendering it susceptible to continued failure and exposes the northwest quadrant of the bridge support structure. Mariners should continue to favor the south side of the channel to the extent possible to maintain safe speed, water depth, and maneuverability. Based on the most recent report, The Captain of the Port Sector Hampton Roads has set the horizontal clearance within the bridge span to 120 feet. Mariners are advised the fender system lights have been verified in the following condition: northwest fender light (missing), southwest fender light (extinguished), southeast fender light (extinguished), northeast fender light (working). Both bridge centerline lights are operational. Plans to fix the damaged section of fender system are ongoing. Waterway users should expect an estimated timeframe of 4 months before repairs will be completed. Should you have any questions or concerns regarding this matter, contact United States Coast Guard Sector Hampton Roads Waterways Management Division duty phone at...
Albemarle and Chesapeake Canal, Atlantic Intracoastal Waterway - Centerville Turnpike (SR-170) Bridge – Bridge maintenance began on Monday, May 13, 2019, and is scheduled to end on Friday, September 18, 2020. Bridge maintenance will be performed in six phases and updated notices will be published prior to each phase. This notice provides details for Phase I, scheduled from 6 a.m. on May 13, 2019, through 8:30 p.m. on August 23, 2019. Work hours are Monday through Friday, from 6 a.m. to 8:30 p.m. The bridge will remain operational in accordance with Title 33 Code of Federal Regulations Part 117.997(i). Vessels may contact the bridge tender on VHF-FM channel 13 or (757) 547-3631. Vessels may contact work vessels or the project foreman on VHF-FM channel 13 or (757) 620-3565. Mariners should adjust their transits accordingly, keep a safe distance from the work vessels and barges, and use extreme caution when transiting the area. (MT)

Albemarle and Chesapeake Canal, Atlantic Intracoastal Waterway - Centerville Turnpike (SR-170) Bridge – Bridge maintenance began on Monday, May 13, 2019, and is scheduled to end on Friday, September 18, 2020. Bridge maintenance will be performed in six phases and updated notices will be published prior to each phase. This notice provides details for Phase II, scheduled from 6 a.m. on August 24, 2019, through 11:59 p.m. on November 3, 2019. Work hours are 7 days/week, from 6 a.m. to 11:59 p.m. The swing span of the bridge will be maintained in the open-to-navigation position. During work hours, bridge maintenance vessels and barges will occupy the navigation span, reducing the horizontal clearance to approximately 40 feet. Bridge maintenance vessels and barges will relocate from the navigation span, upon request, for commercial vessels carrying liquefied flammable gas or other hazardous materials and emergency vessels as defined in 33 CFR 117.31; and all vessels upon request, if at least a one-hour notice is given. Vessels may contact work vessels or the project foreman on VHF-FM channel 13 or (757) 620-3565. A bridge tender will not be stationed at the bridge. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.997(i). The drawbridge has a vertical clearance of 4 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 80 feet. Mariners should adjust their transits accordingly and use extreme caution when transiting the area. (HP)

Albemarle and Chesapeake Canal, Atlantic Intracoastal Waterway - Route 168 (Great Bridge) and Route 165 (North Landing River) Bridge – A temporary deviation in operating schedules will be in effect from 7 a.m. on August 26, 2019, through 6 p.m. on February 19, 2020. The temporary deviation in the operating schedules for the Route 168 (Great Bridge) and Route 165 (North Landing River) Bridge is necessary to provide for public safety and mobility of vehicular traffic, while providing for the reasonable needs of navigation, during scheduled maintenance of the Route 168 (SR-170) Bridge across the Albemarle-Chesapeake Canal, Atlantic Intracoastal Waterway, at the U.S. Route 168, Chesapeake, VA. The Route 168 (Great Bridge) and Route 165 (North Landing River) Bridge will be maintained in the closed-to-navigation position from 7 a.m. to 9 a.m. and from 4 p.m. to 6 p.m., Monday through Friday, except Federal holidays, from 7 a.m. on August 26, 2019, through 6 p.m. on February 19, 2020. These bridges will open on signal at any time for commercial vessels carrying liquefied flammable gas or other hazardous materials and emergency vessels as defined in Title 33 Code of Federal Regulations Part 117.31. All other provisions of Title 33 Code of Federal Regulations Part 117.997(g) for the Route 168 (Great Bridge) and Part 117.1021 for the Route 165 (North Landing River) Bridge remain in effect. The Route 168 (Great Bridge) has a vertical clearance of 8 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 100 feet. The Route 165 (North Landing River) Bridge has a vertical clearance of 6 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 80 feet. Vessels able to pass through these bridges in the closed position may do so at any time. Mariners should adjust their transits accordingly and use extreme caution when transiting the area. (HP)

### North Carolina

- **North Carolina**
  - **Oregon Inlet** - Herbert C. Bonner Bridge – Construction activities for the replacement bridge will begin on March 7, 2016 and are expected to finish on August 30, 2019. Work will be on-going 24-hours per day, seven days a week. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge. A work trestle/loading dock will be constructed approximately 200 yards south of the southeastern end of the existing Bonner Bridge, on the southern side of Currituck Sound in Pamlico Sound, extending 150 feet southwesterly from the shoreline and terminate at approximately 35.766 N, 75.526 W. Running parallel to the dock will be a 245-foot breast-line comprised of eight 36-inch hollow pipe piles spaced fifty feet apart, to be used for mooring purposes. The breast-line will begin near shore and terminate at approximately 35.765N, 75.527 W. Each pile will be lit by a flashing white light. PCL Civil Constructors tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 473-3637. Project information may be found at [http://www.ncdot.gov/projects/bonnerbridgeremodel/](http://www.ncdot.gov/projects/bonnerbridgeremodel/). (HP)
  - **Oregon Inlet** - Herbert C. Bonner Bridge – During demolition of the old bridge, the designation of navigation spans and placement of bridge lighting will be changed several times, as reflected below, and provided via updated local notice to mariners and broadcast notice to mariners. Phase 2 (Effective April 24, 2019): The navigation spans are between bridge bents 173 and 176 (old bridge, with no superstructure between bridge bents) and bridge bents 20 and 21 (span 21) on the new bridge. The approximate limiting navigation clearances are 70 feet above mean high water (new bridge, span 21) and 169 feet between bridge bents (old bridge, between bridge bents 173 and 176). Temporary bridge lighting has been placed between bridge bents 173 and 176 of the old bridge and between bridge bents 20 and 21 (span 21) of the new bridge. Phase 3 (to be announced): The navigation span will be between bridge bents 22 and 23 (span 23) of the new bridge. The adjacent spans of the old bridge will have been removed. The limiting navigation clearances (approximate) will be 70 feet above mean high water and 275 feet between bridge bents. Permanent bridge lighting will be placed between bridge bents 22 and 23 (span 23) of the new bridge. Mariners are advised to use extreme caution when transiting through the bridge, follow the aids to navigation closely and remain at least 500 feet clear of all construction vessels and equipment. Submerged concrete pilings are just below the surface of the water near construction activities. (HP)
  - **Curtis Sound** - US 158 (Wright Memorial) Bridge – Maintenance will be conducted from 7 a.m. to 7 p.m.; 7 days a week; from October 3, 2017, through November 1, 2019. A 40 ft. barge, several work boats, several work platforms and a team of divers will be in and around the vicinity of the bridge. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channels 13 and 16. The project foreman may be reached at (252) 340-2471 or (936) 404-9514. Mariners should notify the work foreman no less than one hour prior to transiting through the bridge and should use caution when navigating the area. (MT)
  - **Atlantic Intracoastal Waterway (Bogue Sound)** - SR 1184 (Atlantic Beach Bridge) Bridge – Bridge maintenance, which began October 2018, will continue to be conducted from 7 a.m. to 7 p.m.; Monday-Saturday; through January 31, 2020. A crane barge, material barge, several tugs, several work vessels and platforms, and a snooper truck will be located in the vicinity of the bridge. The snooper truck will be performing concrete repairs outside the navigation span from September 1, 2019, through November 30, 2019, and within the navigation span from December 1, 2019, through January 31, 2020. During work hours, within the navigation span period from December 1, 2019, through January 31, 2020, the snooper truck will extend below low steel of the bridge approximately five feet, reducing the vertical clearance in the navigation span to approximately 60 feet above mean high water. Vessels that require the snooper truck to clear the navigation span to safely navigate...
through the bridge should notify the work foreman no less than 30 minutes prior to navigating through the bridge. The tugs, barges, and work vessels and platforms will reduce the horizontal clearance in the navigation span to approximately 50 feet. Vessels that require the tugs, barges, and work vessels and platforms to clear the navigation span to safely navigate through the bridge should notify the work foreman no less than one hour prior to navigating through the bridge. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (571) 287-9269 or (703) 231-8589. Mariners should use extreme caution navigating through the area. (MT)

The Straits - Harkers Island Bridge (SR 1332) - Bridge will remain in the closed-to-navigation position to facilitate bridge repairs due to damage caused by Hurricane Florence. The repairs require the bridge to remain in the closed-to-navigation position. The bridge is a swing bridge with a vertical clearance in the closed-to-navigation position of 14 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open in case of an emergency and there is an alternate route for vessels to pass. Mariners should use caution when transiting the area. (MB)

Permits/Construction:

SECTOR DELAWARE BAY

- Delaware – None
- New Jersey (Central & Southern) - None
- Pennsylvania – None

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- Maryland
  - Potomac River - Theodore Roosevelt (fixed) Bridge - DDOT is conducting an investigation and assessment of the bridge. They'll assess structural condition, needs for extended life cycle, and safety compliance improvements. Then will do a design analysis of alternatives with construction in the future (no date given).
- Washington, DC –
  - Anacostia River – 11th Street Bridge Park – Proposed fixed pedestrian bridge park to be built on retained substructure of old 11th Street Bridge. (HP)
- Virginia (Northern) – None

SECTOR HAMPTON ROADS

- Virginia (Southern) – None

SECTOR NORTH CAROLINA

- Mid-Currituck Sound (fixed) Bridge – Proposed new fixed structure. (MB)
- Alligator River – US 64 (fixed) Bridge – Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package.
- Cape Fear River – Wilmington bypass south (fixed) Bridge – Proposed new fixed bridge structure in review of the design and environmental package. (MT)
SUMMARY OF DREDGING/MARINE CONSTRUCTION PROJECTS
CURRENTLY IN PROGRESS

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

DREDGING AND MARINE CONSTRUCTION CAUTIONS
Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted 24 hours a day, 7 days a week. All fishnets, crab pots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

NJ – DEAL – DEMOLITION AND INSTALLATION OF NEW SEWER OUTFALL
Weeks Marine, INC will be conducting demolition of the existing diffuser leg of Township of Ocean, NJ sewer outfall and installation of a new sewer outfall consisting of approx. 1,112ft of 42” Diameter HDPE pipe which will be covered in rock and covered by articulating concrete mats. Divers will be in the water during the majority of the work. Piles will be driven along the new outfall location during a portion of the work. Work location is offshore of Deal, NJ running in the East-West direction starting approx. 1,220ft offshore and ending approx. 2,100ft offshore, in approximate position N 40° 15' 17.65" / W 73° 59' 08.07" to N 40°15' 13.17" / W 73° 58' 56.73". Starting June 20, 2019 and continuing until November 30, 2019. Crane Barges, Material Deck Barges, Crew Boats, Tug Boats, and Pile Driving Equipment will be on scene and may be contacted on VHF-FM 65, 13 and 16. For more information or questions, contact Tim Straut at 908-463-4906 or trstraut@WeeksMarine.com.

NJ – MANASQUAN INLET TO BARNEGAT INLET – BEACHFILL OPERATIONS
Barge surrounded by a turbidity curtain situated in the middle of Little Egg Harbor. Floating pipe will extend from the cofferdam on the western side toward Dock Road in Eagleswood Township, Ocean County, NJ. Work vessels may be contacted on channel 16 VHF-FM. For more information or questions, contact Scott Murray at 973-579-4100. LNM 47/18

NJ – LITTLE EGG HARBOR – HORIZONTAL DRILLING
New Jersey Natural Gas Company (NJNG) and CDM Smith Inc. will be installing an underground utility distribution main beneath Little Egg Harbor via horizontal directional drilling (HDD). Construction activities will continue until the summer 2019. The work includes the installation of a 12-inch steel utility distribution main below the Little Egg Harbor via HDD “intersect drill method”. The HDD will be supported by a temporary cofferdam and jack-up barge surrounded by a turbidity curtain situated in the middle of Little Egg Harbor. Floating pipe will extend from the cofferdam on the western side of the water during the majority of the work. Piles will be driven along the new outfall location during a portion of the work. Work location is offshore of Deal, NJ running in the East-West direction starting approx. 1,220ft offshore and ending approx. 2,100ft offshore, in approximate position N 40° 15' 17.65" / W 73° 59' 08.07" to N 40°15' 13.17" / W 73° 58' 56.73". Starting June 20, 2019 and continuing until November 30, 2019. Crane Barges, Material Deck Barges, Crew Boats, Tug Boats, and Pile Driving Equipment will be on scene and may be contacted on VHF-FM 65, 13 and 16. For more information or questions, contact Matt Henry (985) 237-5050, mthenry@weeksmarine.com, Site Manager, Ted Tarvin - (856) 217-4509, tttarvin@weeksmarine.com. Ref LNM 34/17

NJ – GREAT EGG HARBOR BAY – BEESEYS POINT – TRANSITION TOWER CONSTRUCTION
In mid-August 2019, South State Contractors will begin construction of new transition towers in Great Egg Harbor Bay west of the Garden State Parkway Great Egg Harbor. The new towers will be located approximately 500’ to the west of the existing towers. All barges and work boats involved will be monitoring VHF channel 13. Project work will be conducted 7 days a week between the hours of 5:00 a.m. and 8:00 p.m. and expected to last till Aug 2021. A floating dock consisting of Shugart barges will be staged outside of navigable channel near the old Route 9 bridge. Mariners are advised to use caution when transiting the area.

PA – DELAWARE RIVER – CHRISTINA RIVER – WILMINGTON HARBOR – DREDGING
Norfolk Dredging Company Dredge ESSEX along with support equipment, tender boats, PUSHER 11, DUKE and CAPTAIN ED will commence dredging operations in Wilmington, Christiana River, DE on or about July 22, 2019. A submerged pipeline will be placed from the dredging area to the Peddertown North Disposal area, on the New Jersey side of the river. The project is expected to continue until approximately September 15, 2019. The Dredge Operator will stand by on VHF-FM channels 13 and 16. Traffic should call 30 minutes prior to expected time of passage. For any emergencies, the dredge operator can be reached at 757-373-5253. Chart 12313

PA – NJ – MIFFLIN RANGE – FORT MIFFLIN TERMINAL DOCK – MARINE CONSTRUCTION
Commerce Construction Corporation will be performing marine construction for Energy Transfer Partners at their Fort Mifflin Terminal Dock, located along the Del River in Tinicum Township, PA. All work will occur outside of the channel in the immediate vicinity of the Energy Transfer Partners Marine Terminal docks. Crews will be on the water from 6:00 AM to 6:00 PM Monday thru Sunday, thru Dec 2020. Multiple barge mounted cranes, support barges and small craft will be near the dock supporting construction activities. Operators of vessels of all types should be aware that men will be working on floating equipment and within the water around the crane barge and docks. A NO WAKE transit is requested. LNM 40/18

PA - NJ – DELAWARE RIVER – PORT OF PAULSBORO – MARINE CONSTRUCTION
The Paulsboro Marine Terminal will be conducting construction activities along the existing marine wharf. The multi-phase project will involve creation of a new berth on the downriver side of the existing pier. The project will continue through Oct 2021. During construction, there will be multiple tugs, work vessels, material and crane barges in the vicinity of the pier and Mantua Creek. Mariners are urged to use caution when transiting near the area, stay clear of all equipment, and maintain a minimal wake. For questions or concerns contact United States Coast Guard Sector Delaware Bay Waterways. Chart 12312
MD – CHESAPEAKE BAY – WEST RIVER – MARINE CONSTRUCTION
Central Marine will be starting the Jack Creek Park Shoreline Stabilization Project June 15, 2019 in approximate position 38°8′40″ N, 76°48′92″ W near the entrance to the West River MD. The project is expected to continue until 30 Dec 2019. Work will be conducted 7 days a week during daylight hours. For additional information or questions, contact Charlie Young at Central Marine Construction at 410-320-7030.
Chart 12270

Maintenance dredging operations are scheduled to occur in entrance of Snug Harbor at Shady Side in Anne Arundel County, MD, from Aug 5, 2019 until Feb 15, 2020. The work is located at the approximate position 38° 50′.52″N, 76°29′.25″W. The channel width of the Snug Harbor entrance will be reduced during the dredging operation. Mariners are urged to use caution when transiting the area, provide at least 6 hours advance notice for passage into Snug Harbor, and reduce to a no-wake speed in the vicinity of the marine equipment. The Edwin A. and John O. Crandell Inc. tug boat BIG C TOO and dredge can be contacted on VHF-FM channels 13 and 16.
Chart 12270

MD – CHESAPEAKE BAY – POPLAR ISLAND – ONGOING MARINE CONSTRUCTION
Marine construction of the new dredge containment Cell Number 11 on Poplar Island is ongoing. Crews will be building sand and stone berms to expand the island and create a new containment cell for future dredge material. Mariners should avoid the area and if necessary contact the work vessels on VHF-FM channels 13 and 16. Ref LNM 1919
Chart 12266

MD – BALTIMORE HARBOR – MARINE CONSTRUCTION
Conduit construction installation operations on behalf of CSX Transportation, at the Bear Creek Rail Road Bridge, Bear Creek, Baltimore County Maryland, in the vicinity of 39° 14′.88″ N, 076° 29′.477″ W. The Construction Barge R-5 (175′ x 43′), will be performing the activities with the assistance of a Tender Tug ARTIE. Vessels will be moored on spuds while working, on standby, and moored. The vessels will monitor VHF channels 13 and 7. Construction activities will continue on a daily basis until 31 Jul. For questions contact Jim Matters at (410) 320-7534, JMatters@CormanMarine.com
Chart 12281

VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGING
Manson Construction Co. will be conducting dredging operations in Thimble Shoal Channel from Thimble Shoal Lighted Buoy 19 (LLNR 9305) to Thimble Shoal Lighted Buoy 2 (LLNR 9910) beginning 18 Jun and with an expected completion date of 31 Aug 2019. Work will be conducted 24 hours a day, seven days a week. The Dredge GLEN EDWARDS will be on scene and may be contacted on VHF-FM channels 13, 16 and 66. The dredge material will be transported and disposed of in the Dam Neck Material Management Area (DNMMA). Contact Dave Howard, Operations Manager at 941-315-1010 or Juan Valdez, Asst. Operations Manager at 904-697-6099 for questions or concerns.
Chart 12222

VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE BAY BRIDGE TUNNEL – MARINE OPERATIONS
Chesapeake Tunnel Joint Venture will commence Tug, Crane and Barge operations along with the Tug Robert T (or other similar vessel) around the existing Chesapeake Bay Bridge Tunnel protection berms for Island 1 and Island 2 on or about February 11, 2019. Work is expected to last 2020. This work will not impede the navigational channel. Operators of vessels of all types should be aware that at different times, the crane barge and material barges may be held in place by way of spuds and at other times, it may be held in place by a single, or up to a six point anchoring system. Buoy is attached to the anchors so that the anchors may be moved as the crane barge advances along the project. All Mariners are cautioned to strictly comply with the Rules of the Road when in the vicinity of the job area and approaching or leaving the area of operations, and remain a safe distance away from any and all buoys, cables, barges, workboats, and tugs working at the job site. The anchor buoys will be illuminated at night by flashing white lights and the barges will be illuminated by steady white lights on all corners. Work vessels in the area will be on standby by on VHF-FM channels 13 and 16.
Charts 12222

VA – PORTSMOUTH – CRANEY ISLAND – MARINE CONSTRUCTION
Marine construction at North Pier D located at the Defense Fuel Supply Point (DFSP), Craney Island, Portsmouth, Virginia will begin Jun 12, 2019 and last through the end of Oct. The structure consists of 24 inch square precast, concrete batter pies with a 25 feet by 30 feet cast-in-place concrete pile cap for the south breasting dolphin, and a 21.5 feet by 33 feet cast-in-place concrete pile cap for the north breasting dolphin. The on-site construction barge expected to extend approximately 200 feet off the pier in an eastwardly direction.
Chart 12245

VA – NORFOLK HARBOR – ELIZABETH RIVER – US NAVY DEGAUSSING RANGE
Precon Marine will be working on the US Navy Degaussing Range which is located at the entrance of the Elizabeth River. Work will include diving operations, crane operations, and cable laying operations. The work will commence on April 29, 2019, and will end on October 31, 2019. We are scheduled to work 7 days a week, and the work hours will be during the daylight hours. The caution area will be from buoys 1ER (LLNR 9445) to Buoy 3 (LLNR 9465). The actual work station will be at 36 degrees 58.916 N, / 76 degrees 19.290 W. Tug Boat on site will be DOTTI J, tug will monitor VHF Channels 13/16. Mariners are requested use a slow bell and wide berth.
Chart 12245

VA - ELIZABETH RIVER - WESTERN BRANCH - I-164 – BRIDGE
Ryan Construction Company has extended the completion date for its fender replacement project on the 1-164/west Norfolk Bridge until June 30, 2019. Mariners are advised the horizontal clearance of the navigable channel will be reduced to approximately 50 feet during construction. The tug CATHERINE and at least two construction barges will be on site and may be contacted on VHF-FM channel 13. For questions or additional information contact the onsite Forman at 757-328-6537 or the Project Manager at 757-879-0854. Mariners should use extreme caution when transiting the area.
Chart 12248

VA – CHESAPEAKE BAY – ELIZABETH RIVER
Crofton Construction Services Inc. will begin a 2-year construction project at Norfolk Naval Shipyard in the vicinity of berths 18 & 19 beginning Monday Dec 3, 2018 and continue until Feb, 2020. Work will consist of pier replacement and repair of existing structures requiring multiple surface assets to including a crane barge, material barges, tugs and assist vessels. All equipment will be provided with navigational devices indicating to any potential traffic to stay clear of the barges. Equipment will be spudded down on-site with nighttime navigational lights present. Mariners are advised to maintain a minimal wake zone while transiting within 500 feet of the work site. On-scene vessels can be contacted via VHF-FM channels 13 and 16.
Chart 12253
VA – CHESAPEAKE BAY – BACK RIVER - DREDGING
McLean Contracting Company will be conducting dredging in the Back River, Hampton, VA from 25 Feb to 26 Aug 2019. The vessel SOUTHERN STAR and at least two barges will be in the area. The SOUTHERN STAR may be contacted on VHF-FM channels 16, 13 and 03, 757-272-4918. Contact Scott White at 757-641-2132 for questions or more information. LNM 08/19
Chart 12222

VA – JAMES RIVER – JAMESTOWN ISLAND TO JORDAN POINT – DREDGING
Cottrell Contracting Corporation of Chesapeake, VA Dredge MARION will be conducting dredging operations on the James River between James River Channel Lighted Buoy 57 (LLNR 12200) and James River Channel Lighted Buoy 66 (LLNR 12250) from 8 Jul to 20 Sep 2019.
Chart 12251

VA – POTOMAC RIVER – DUMFRIES – SHORELINE STABILIZATION – TURBIDITY CURTAIN
In conjunction with the Shoreline Stabilization Project, a Turbidity Curtain will be installed in the Potomac River at Dumfries, VA. The curtain will extend approximately 75 to 100 feet into the Potomac River in approximate position Lat 38.549073, Long -77.274838, to Lat 38.547058, Long -77.276584 and will be lighted every 100 feet. For any questions, contact Jessica Kelly at 757-779-7337.
Chart 12288

VA – VIRGINIA BEACH – HURRICANE PROTECTION PROJECT
Great Lakes Dredge & Dock Company will be working on the Virginia Beach Hurricane Protection Project. This Project includes placing 1,400,000 cubic yards of beach fill along 19,700 linear feet of beach located at Virginia Beach, VA. Beach fill material will be dredged using hopper dredges and will come from both the Atlantic Ocean Channel Borrow and the Thimble Shoals Borrow. Hopper dredge PADRE ISLAND and DODGE ISLAND, tug BRANGUS, tug VOLUNTEER STATE and crewboat ST. LOUIS will be in the area and may be contacted on VHF-FM channels 5, 13 and 16. The project is expected to last until 1 Dec 19. LNM 24/19.
Chart 12222

NC – NAGS HEAD BEACH – BEACH RE-NOURISHMENT
Great Lakes Dredge & Dock Company, LLC (GLDD) for the Town of Nags Head, NC. Dredging will consist of digging from pre-designated borrow areas entitled “Borrow Area 3A” and “Borrow Area 4”. GLDD will be placing the material on Nags Head Beach utilizing various submerged pipelines to pump the material from the dredge on to the beach. The installed submerged pipelines will have flexible floating pipeline attached to a yellow cube at the water’s surface. Dredged material will be transported to the pump out stations by hopper dredges. All pipelines will be marked with flashing yellow lights and orange buoys. For questions concerning this project, please contact Site Manager Bryan Dast at 630-699-9995 or BPDast@gldd.com. LNM 13/19 Chart 12205

NC – OREGON INLET – BONNER BRIDGE - ARTIFICIAL REEF DEPLOYMENTS
North Carolina Division of Marine Fisheries will be conducting bridge material deployments at several artificial reefs located offshore of Oregon Inlet. Material will be deployed from a barge and tugboat, which will have limited maneuverability while offloading. Deployments will take 2-3 hours each, and will occur over the next 12 months. For more information, contact Jordan Byrum with the Division’s Artificial Reef Program at 252-808-8036 or at jordan.byrum@ncdenr.gov. The following artificial reefs will be used.

AR-130 (36° 00.296’N, 75° 31.957’W)
AR-140 (35° 56.718’N, 75° 31.965’W)
AR-145 (35° 54.017’N, 75° 23.883’W)
AR-160 (35° 43.888’N, 75° 26.771’W)

Chart 12204

NC – BUXTON RESTORATION – DEMOBILIZATION
Starting approximately 15 July 2019 and continuing until approximately 30 August 2019 Weeks Marine will be demobilizing (2nd phase) pipeline and equipment from the Buxton Beach Project.
Chart 11555

NC – BEAUFORT INLET – MOREHEAD HARBOR – DREDGING
Great Lakes Dredge & Dock Company will be conducting maintenance dredging of Morehead City Harbor Cutoff and Range A. Material will be disposed in the Nearshore West Placement Area cells R-5 to R-8 or Nearshore East Placement Area cells R-2, R-3, R-10 and R-11. The dredge ILLINOIS will be conducting the dredging and may be contacted on VHF-FM channels 5, 13 and 16. Dredging will commence on 15 Apr and run until approximately 12 Sep 2019. Contact Nicholas Williams (630) 247-2256, Nicholas Yancy at (630) 207-3593 for more information.
Chart 11545

NC – PAMLICO SOUND – OUTER BANKS – US 12 - BRIDGE CONSTRUCTION
Construction will take place on the new US-12 Bypass Bridge (also known as Jug Handle) from Jan 2019 through May 2021 on the Outer Banks of NC. This bridge extends approximately 2.5 from the southern end of the Pea Island National Wildlife Refuge over the Pamlico Sound into Rodanthe. The vessel SOUTHERN STAR and at least two barges will be in the area. The SOUTHERN STAR may be contacted on VHF-FM channels 13 and 03, 757-272-4918. Contact John Vannoy at 813-205-6352.

Chart 11537

NC – CAPE FEAR RIVER – PORT OF WILMINGTON – CONSTRUCTION
Construction crews will be working on the waterfront at the State Port in Wilmington, NC from April through December 2019. Workers and equipment may be present on or near the water from 7 AM to 5:30 PM daily at Berth 7 near approximate position 34°11’43”N 77°57’20”W. Mariners are requested to transit at no wake speeds in this area during work hours.

SUMMARY OF MARINE EVENTS AND FIREWORKS DISPLAYS
IN THE FIFTH COAST GUARD DISTRICT

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NJ – ATLANTIC OCEAN POINT PLEASANT BEACH WEEKLY FIREWORKS DISPLAY
The Jenkins’ Boardwalk fireworks display series is scheduled for each Thursday at 9:30 PM from Jun 20 to Aug 29, 2019. Displays will also occur on two additional dates: Sep 2 and 21, 2019. The display discharge site will be on the beach adjacent to the boardwalk in Point Pleasant Beach, NJ. Displays will start gradually earlier throughout the season with the final displays starting at approximately 8:45 PM. Absent specific guidance, should remain 100 yards from the fireworks discharge barge. For comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.
Chart 12316

NJ – ATLANTIC OCEAN – ATLANTIC CITY – AC PAGEANT SWIM
The Atlantic City Pageant Swim is scheduled for August 17, 2019 from 6 a.m. to 8 a.m. on the Atlantic Ocean in Atlantic City, NJ. The event will involve approximately 150 swimmers on course between Michigan Ave and Albany Ave. Mariners are urged to maintain a safe distance, heed direction from official event patrol, and use caution when transiting near the area. Mariners may contact official patrol personnel on scene via marine band radio VHF-FM channel 16. For comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.
Chart 12316

The 2019 Atlantic City Airshow Thunder Over the Boardwalk will occur over the waters of the Atlantic Ocean adjacent to Atlantic City, NJ on Aug 19, 20, and 21, 2019 from 10:30 a.m. to 4:30 p.m. A special local regulation will be enforced during the above times restricting access to an area bounded by a line drawn between the following points:

39-21°31′ N, 074-25°04′ W
39-21°08′ N, 074-24°48′ W
39-20°16′ N, 074-27°17′ W
39-20°44′ N, 074-27°31′ W

No vessel may enter, remain in, or transit through this area unless authorized by the Captain of the Port, or official event patrol. Official event patrol can be contacted on VHF-FM CH 16. For comments or questions contact Coast Guard Sector Delaware Bay, at (215) 271-4814.
Chart 12316

NJ – ATLANTIC OCEAN – NORTH WILDWOOD – TRIATHLON
The swim portion of the 16th Annual Tri the Wildwoods Triathlon is scheduled for Aug 19, 2019 from 6 a.m. to 10 a.m. on the Atlantic Ocean in North Wildwood, NJ. The event will involve approximately 1200 swimmers on course adjacent to the shore between 12th Ave and 18th Ave. Mariners are urged to maintain a safe distance, heed direction from official event patrol, and use caution when transiting near the area. Mariners may contact official patrol personnel on scene via marine band radio VHF-FM channel 16. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.
Chart 12316

NJ – DE – DELAWARE BAY – LEWES TO CAPE MAY – PADDLE EVENTS – SAFETY ZONE
The Annual DeSatnick Foundation Five Mile Recreational Paddle and Cape to Cape Paddle are scheduled for Aug 18, 2019. The Five Mile Recreational Paddle is scheduled from 10:30 a.m. to 1:30 p.m. on the Atlantic Ocean adjacent to the shore between Coral Ave in Cape May Point, NJ and Queen St in Cape May, NJ. The event will involve approximately 100 participants on various paddle craft. Official event patrol will be on-scene and can be contacted on VHF-FM channel 16. The Cape to Cape Paddle is scheduled for 8:00 a.m. to 3:00 p.m. beginning in at the Lewes Ferry Terminal, crossing the Delaware Bay, and finishing at the Queen St. Beach in Cape May, NJ. The event will involve approximately 50 participants on various paddle craft. A temporary moving safety zone will be enforced for this event. The safety zone will encompass all waters within 50 yards in front of the lead safety vessel preceding the first event participants, to 50 yards behind the safety vessel trailing the last event participants, and 100 yards on either side of participant and safety vessels during the event. The safety zone will move at the pace of the event patrol vessels and participants. All non-participant persons and vessels are prohibited from entering, transiting through, anchoring in, or remaining within the regulated areas unless authorized by official event patrol. Vessels already moored or anchored may stay moored or anchored within the zone, but must be authorized by the designated representative prior to transiting within the zone. Designated representatives may control vessel traffic throughout the regulated areas as determined by
the prevailing conditions. Persons and vessels may request authorization to enter, transit through, anchor in, or remain within the regulated areas by contacting the Captain of the Port or a designated representative via VHF-FM channel 13 or 16. If authorization is granted by the Captain of the Port or a designated representative, all persons and vessels receiving such authorization must comply with the instructions of the Captain of the Port or a designated representative. For comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814. Chart 12214

PA - NJ – DELAWARE RIVER – BURLINGTON – FESTIVAL OF LIGHTS BOAT PARADE AND FIREWORKS DISPLAY

The Festival of Lights boat parade and fireworks display is scheduled for August 24, 2019 with a rain date of August 25, 2019 on the Delaware River along Burlington, NJ. The boat parade will begin at approximately 8:00 p.m. with a fireworks display to follow at approximately 9:00 p.m. Mariners are urged to use caution and reduce wake when transiting the area and heed direction of official event patrol. A fireworks display will take place after the parade. Fireworks launch site will be landside on Burlington Island at approximate position latitude 40°05′02″ N., longitude 74°51′20″ W. Mariners may contact official patrol personnel on scene via marine band radio VHF-FM channel 16. For any comments or questions, contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814. Chart 12314

DE – REHOBOTH BAY – DELAWARE SEASHEAR STATE PARK

The Delaware Seashore Paddlefest is scheduled for August 24, 2019 from 8:00 a.m. to 3:00 p.m. on the marshes along Delaware Seashore State Park in Rehoboth Bay, Delaware. The event will involve 200 participants in kayaks. Mariners are urged to use caution when transiting near the area. For any comments or questions, contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814. Chart 12216

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET – ISLE OF WRIGHT BAY – FIREWORKS DISPLAY SAFETY ZONE

An annual fireworks display is scheduled to occur in Isle of Wight Bay on September 1, 2019 (rain date September 2, 2019), at 9:30 p.m. As described in the Table to 33 CFR Section 165.506, a safety zone is established for all waters of Isle of Wight Bay within a 200 yard radius of the fireworks barge in approximate position latitude 38°22′31″ N, longitude 75°04′30″ W, located at Ocean City, MD. The safety zone will be enforced from 8:30 p.m. to 10:30 p.m. on September 1, 2019, or if necessary due to inclement weather on that date, the safety zone will be enforced from 8:30 p.m. to 10:30 p.m. on September 2, 2019. The fireworks barge within the regulated area will have a diamond-shaped, 4 feet by 4 feet sign with orange retro-reflective border affixed to the port and starboard sides of the barge labeled “FIREWORKS—DANGER—STAY AWAY” with black block letters on a white background to provide on scene notice that the safety zone has been enforced. All persons and vessels shall comply with the instructions of the Coast Guard Captain of the Port (COTP), the Coast Guard Patrol Commander, or the designated on-scene-patrol personnel. The COTP Maryland-National Capital Region can be contacted by telephone at (410) 576-2693 or by marine band radio on VHF–FM Channel 16. All Coast Guard vessels enforcing this zone can be contacted on marine band radio VHF–FM Channel 16. Comments or questions should be directed to Coast Guard Sector MD-NCR, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693. Chart 12214

MD - SEACOAST - FENWICK ISLAND TO CHINCOTEAGUE ISLAND – ASSAWOMAN BAY - OCEAN CITY – WEEKLY FIREWORKS DISPLAYS

Short-duration, aerial fireworks displays are scheduled to occur along Assawoman Bay weekly between June 16, 2019 and August 26, 2019, at 9:30 p.m. On Sundays during this period, fireworks will be launched from the pier at the west end of Northside Park in Ocean City, MD, in approximate position latitude 38°25′55.15″ N, longitude 75°03′50.51″ W. Mariners are urged to use caution when transiting the area, and absent specific guidance, should remain 400 feet from the fireworks discharge site. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division at (410) 576-2674 or (410) 576-2693. Chart 12211

MD - CHESAPEAKE BAY - LITTLE ANNESESSEX RIVER - SOMERS COVE – FIREWORKS DISPLAY

An annual fireworks display is scheduled to occur from a point of land along Somers Cove on September 1, 2019 (rain date on September 2, 2019), at 9 p.m. Mariners are urged to use caution when transiting the area, and absent specific guidance, should remain 100 yards from the fireworks discharge site on Jersey Island at Crisfield, MD, located in approximate position latitude 37°58′34″ N, longitude 75°51′40″ W. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Charts 12228, 12231

MD – CHESAPEAKE BAY – CHOPTANK RIVER AND HERRING BAY – CHOPTANK RIVER – SAILING REGATTA

The annual Governor Hicks Trophy Weekend for Log Canoes sailing regatta is scheduled to occur in the Choptank River near Cambridge, MD during August 17-18, 2019. On Saturday, two races will occur, starting at 10 a.m. and 2 p.m., and on Sunday, the one race will occur, starting at 10 a.m. The racing will involve 8 to 10 vessels competing along a designated course located between the Sen. Frederick C. Mallows Jr. (US-50) Bridge and Hambrooks Bar Warning Light (LLNR 24995). These antique log canoe sailing vessels have low freeboard and are especially vulnerable to heavy wakes from passing power vessels. Mariners are urged to use caution when transiting the area, and operate vessels with a safe course and speed that minimizes wake near the event participants and avoids close quarters situations. Interested mariners can contact the Cambridge Yacht Club Race Committee boat ON THE ROCKS (and a course Safety Boat) via marine band radio VHF-FM channel 71. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Charts 12228, 12231

MD – CHESAPEAKE BAY – PATUXENT RIVER AND VICINITY– SOLOMONS HARBOR – DOCKING CONTEST

An annual boat docking contest is scheduled to occur in Solomons Harbor on September 15, 2019, between noon and 3:30 p.m. Up to 20 Bay Built work boats and charter boats (20-45 feet in length) will participate in a boat-handling competition held along the Watermen’s Wharf at Solomons, MD. Floating markers will be placed around the event area. Mariners are urged to use caution when transiting near the event area, and are reminded to avoid loitering within the navigation channel. Official safety patrol vessel on scene can be contacted via marine band radio VHF-FM channel 16. Additional information on this Calvert County Watermen's Assoc. event can be obtained at website www.calvertwatermen.org/. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Chart 12264

MD – CHESAPEAKE BAY– EASTERN BAY AND SOUTH RIVER – WEST RIVER – SAILING REGATTA

An annual sailing regatta is scheduled to occur in the West River during August 31, 2019-September 1, 2019, between 10 a.m. and 4 p.m. both days. Approximately 40 sailboats (12 to 20 feet in length) of various classes will operate on windward-leeward courses with offset marks located outside the navigation channel in two of three designated race areas on the West river: (1) north of West River Lt 4 (LLNR 19500) at Galesville, MD; and (2) either between West River LB 1A (LLNR 19465) and Curtis Point, or between West River ENTR LT 2 (LLNR 19470) and West River DBN 3 (LLNR 19495).
The selection of the latter race area is dependent upon wind conditions on the day of the event. Racing starts are scheduled for 11 a.m. on Saturday and 10:30 a.m. on Sunday. Participants will be supported by sponsor-provided watercraft. Additional information is available at the West River Sailing Club website [www.westrivercs.org](http://www.westrivercs.org). Interested mariners can contact the race committee via marine band radio channel VHF-FM channel 16 or 68. Official safety patrol vessels on scene can be contacted via marine band radio VHF-FM channel 16. For any comments or questions, contact U. S. Coast Guard Sector Maryland-National Capital Region at telephone number (410) 576-2674 or (410) 576-2693.

Charts 12270

** MD – CHESAPEAKE BAY – SEVERN RIVER – SAILING REGATTA WEEKLY SERIES**

A sailboat racing series is scheduled to occur in the Severn River each Thursday evening from May 9, 2019 through Aug 29, 2019, between 6:30 pm and 9:30 pm. Up to 80 participants (small keel sailboats, 22-26 foot in length) will race in heats along a course located between the mouth of the Severn River and Severn River Middle Ground Anchorage. Mariners are urged to use caution and remain alert for other watercraft when transiting the area, proceed at the minimum speed necessary to maintain a safe course that minimizes wake while operating near the race course, and heed the directions of official patrol vessels, which can be contacted on VHF-FM channel 16. For any comments or questions, contact U. S. Coast Guard Sector MD-NCR at (410) 576-2674 or (410) 576-2693.

Charts 12292, 12293

** MD – CHESAPEAKE BAY – CHESAPEAKE CHANNEL – SEVERN RIVER – SAILING REGATTA**

An annual sailing regatta will occur in the Severn River and Chesapeake Bay on Aug 17, 2019, between 11 am and 5 pm. Up to 75 auxiliary sailing vessels (24 to 50 feet in length) will compete in two different sail races using three race course areas designated as follows: Harbor 20 race, in the Severn River, (1) located between Annapolis Harbor Channel LB 2 (LLNR 19695), Annapolis Harbor Channel Buoy 14 (LLNR 19810), and Spa Creek Entrance Buoy 15C (LLNR 19905); and Pursuit race, in the Chesapeake Bay, (2) located between Annapolis Harbor Channel LB 2 (LLNR 19695), Chesapeake Channel Channel LB WR87 (LLNR 7775), and South River Junction Buoy SR (LLNR 19560); or (3) located between Annapolis Harbor Channel LB 2 (LLNR 19695), Chesapeake Channel Channel LB WR87 (LLNR 7775), and Hackett Point Shoal Buoy 1 (LLNR 7820). More information may be obtained at website [https://www.eastportyc.org/crab-cup](http://https://www.eastportyc.org/crab-cup). Interested mariners can contact the Eastport Yacht Club race committee via VHF-FM channels 16 and 73. For comments or questions, contact Coast Guard Sector MD-NCR, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

Charts 12270, 12293

** MD – CHESAPEAKE BAY – SUNDY POINT TO SUSQUEHANNA RIVER – BOHEMIA RIVER – FIREWORKS DISPLAY**

A fireworks display is scheduled to occur along the upper Bohemia River on Aug 31, 2019, at 9 p.m. Mariners are urged to use caution when transiting the area, reminded to heed the directions of patrolling law enforcement and public safety officials, and absent specific guidance, should remain 420 feet from the fireworks discharge site at the Bohemia Manor Farm pier, located in approximate position 39°28′04.63″ N, 075°52′06.74″ W. For comments or questions contact Coast Guard Sector MD-NCR, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

Charts 12273, 12274

** MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – SEVERN RIVER – SAILING REGATTA**

The Annapolis Yacht Club (AYC) will conduct annual sailing regattas in the Severn River and the Chesapeake Bay, near the mouth of the Severn River, between 10 a.m. and 8 p.m. AYC events with competing sailing vessels are scheduled on the following dates in 2019: (10) August 23-25 (Corinthian Cup - 4 participants, 22 feet in length); (11) August 31-September 1 (Annapolis Labor Day Regatta - 150 participants, 22 to 50 feet in length); (12) September 13-15 (Annapolis YC 3-2-1 Invitational - 8 to 10 participants, 20 to 30 feet in length); (13) September 20-22 (J/30 North Americans - 17 participants, 30 feet in length); (14) September 21 (Fall Race to Solomons - 30 participants, 30 to 50 feet in length); (15) September 28-29 (Fall Series Weekend 1 - 30 participants, 22 to 34 feet in length); (16) October 5-6 (Fall Series Weekend 2 - 30 participants, 30 to 50 feet in length); (17) October 12 (Fall Series Race Course - 25 participants, 20 to 28 feet in length); (18) October 15-18 (Warrior Sailing Project - 8 participants, 22 feet in length); (19) October 19-20 (Eschells ACC - Lippincott - 30 participants, 23 & 31 feet in length); (20) October 26-27 (Halloween Howl - 50 participants, 8 feet in length); (21) October 26-27 (J/105 & J/35 Fall Championships - 25 participants, 35 feet in length); and (22) November 3-December 8 (Frostbite Series - 1st Half - 80 participants, 22 to 45 feet in length). Additional information [http://www.annapolisyc.com/racing/regattas](http://www.annapolisyc.com/racing/regattas). VA – MD - DC - POTOMAC RIVER - MATTAWOMAN CREEK TO GEORGETOWN - UPPER POTOMAC RIVER – NATIONAL HARBOR ACCESS CHANNEL – FIREWORKS DISPLAY
A short-duration fireworks display is scheduled to occur on the Potomac River at National Harbor, MD on August 31, 2019 (rain date September 1, 2019) at approximately 7:45 p.m. The fireworks will be launched from a floating platform (pontoon boats) located approximately 950 feet from the grounds of the Gaylord National Resort & Conference Center, in approximate position latitude 38°47′02.21″ N., longitude 077°01′16.77″ W. Mariners are urged to use caution when transiting the area, and heed the directions of patrolling law enforcement and public safety officials. Absent specific guidance, mariners are requested to remain 250 feet from the fireworks floating platform (pontoon boats). For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone (410) 576-2674 or (410) 576-2693.
Chart 12289

DC – POTOMAC RIVER – UPPER POTOMAC RIVER – ANACOSTIA RIVER – FIREWORKS DISPLAY SAFETY ZONE
An aerial fireworks display is scheduled to occur on the Anacostia River on August 30, 2019 (no rain date), at the conclusion of the Washington Nationals MLB game, at approximately 10 p.m. As described in 33 CFR section 165.506, the fireworks safety zone listed as number (b)18 is established for all waters of the Anacostia River within a 150 yard radius of the fireworks barge in approximate position latitude 38°52′13″ N., longitude 077°00′16″ W., located near the Washington Nationals Ball Park. The safety zone will be enforced from 9 p.m. to 11 p.m. on August 30, 2019. The general regulations contained in 33 CFR 165.23 apply. All persons and vessels shall comply with the instructions of the Coast Guard Captain of the Port (COTP), the Coast Guard Patrol Commander, or the designated on-scene-patrol personnel. Other Federal, State, and local agencies may assist these personnel in the enforcement of the safety zone. Vessels may not enter, remain in, or transit through the safety zone during the enforcement period unless authorized by the COTP or designated Coast Guard patrol personnel on scene. The COTP MD-NCR can be contacted at (410) 576–2693, or on VHF–FM Channel 16. Coast Guard vessels enforcing this zone can be contacted on marine VHF–FM Channel 16. The fireworks barge that operates within this safety zone will have a diamond-shaped sign affixed to the port and starboard side of the barge labeled “FIREWORKS—DANGER—STAY AWAY.” The signs will consist of a white background with an orange retro reflective border and the words in black block letters centered on the signs. Comments or questions should be directed to Coast Guard Sector MD-NCR, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
