SOLAS Safety of Life at Sea
I.A.W. In Accordance With
M/V Motor Vessel
S/V Sailing Vessel
MPH Miles Per Hour

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

NOTICE OF PLATFORMS, DRILL RIGS AND ATTENDANT VESSELS

The drill rigs and vessels that have been temporarily established will display lights and sound signals, according to size or class, during periods of darkness and reduced visibility. Numerous large anchor buoys which may be lighted displaying a white 4-seconds characteristic light and unlighted buoy may be established up to 2,000 or more yards from the vessel or rig site. Mariners should avoid passing close aboard the rigs or vessels. Offshore structures that have been established will display lights and a fog signal sounding 1 blast (2-sec. blast) every 20-seconds. Mooring buoys (white with blue band) may be located within 500 yards of the structure for mooring attendant vessels and/or barges. Mariners should avoid passing close aboard structures.

LNM: DPW/PRIV AIDS

GPS TESTING

At times, throughout our area or responsibility, multiple U.S. Government Agencies conduct GPS testing. These tests vary in duration, affected range from the test site and potential impact to the maritime user as they may affect systems that rely on GPS such as E-911, AIS and DSC. More information is available at the U.S. Coast Guard Navigation Center Website, <https://www.navcen.uscg.gov>. During these periods, GPS users are encouraged to report any GPS outages that they may experience, to the Navigation Information Service (NIS) by calling (703) 313-5900 or by using the NAVCEN Website to submit a GPS problem report.

LNM: 07-19

AL/MS - TOMBIGBEE RIVER - BLACK WARRIOR RIVER - CHANNEL CONDITIONS/LOCK CLOSURES

The Inland Waterways of the Tombigbee, Black Warrior, and the Tenn-Tom Rivers are experiencing high water. Mariners should exercise prudent seamanship while considering these additional recommendations: daylight transit only of the following areas, Mile 268.0, AGS Railroad Bridge, Mile 261.1, Selden Lock, Mile 173.5, Nahelola Railroad Bridge, Mile 116.6, Coffeerville Lock, Mile 89.8, Jackson Railroad Bridge, Mile 411.9, Jamie Witten Lock. Vessels should use the most experienced mariners available to transit the system. Northbound traffic normal. Tripping or breaking down of tows to a width of 70 feet is highly recommended at Naheola Railroad Bridge. Helper boats or assist tugs should be used when available. Mariners are urged to contact vessels transiting the above/below areas for assistance. Mariners are urged to contact the USACE, as the conditions of the rivers are rapidly changing and locks are subject to closure or other restrictions based on safety of personnel and equipment.

LNM: 07-20

LA - MISSISSIPPI RIVER - Old River Lock

Continuing until approximately March 31, 2020, due to repairs on the Lock Emergency Bulkhead Lowering Carriage, and the procedures contained in this bulletin, tows entering the Lock are urged to use extreme caution while approaching and entering the lock chamber. While approaching the Lock, the following are required for passage:

1. Tows are to enter the Lock at DEAD SLOW speed.
2. All tows are restricted to no longer than 1,100 feet in length.
3. All tows will line up along the floating guidewall before proceeding.
4. Two line-handlers with life vests and bumpers will be required on both approach and exiting of the Lock.
5. Vessels must be moored by bow and stern lines to floating timberheads.

Again, use extreme caution when locking through Old River Lock. The Lockmaster, Anthony T. Lindsly, can be reached at (225) 492-3333, for up-to-date information. The point of contact with the USACE New Orleans District is Russell Beauvais, at (225) 492-2169.

LNM: 48-19

LA - MISSISSIPPI RIVER - Old River Control Structures Project

Mariners are advised that there are strong currents in addition to turbulent water around the entrances to the inflow channels of the federally-owned Old River Auxiliary Mile 311.0, AHOP and Low Sill Control Structures Mile 314.5, AHOP and the privately-owned Sidney A. Murray, Jr. Hydroelectric Plant Mile 316.5, AHOP.

During normal operation of these structures, a drawdown occurs at the entrances to the inflow channels. The drawdown becomes severe when the structures operate during high river stages. The inflow channel of each of the structures is marked with a flashing amber light that is located on the south bank of the entrance.

Continuing until further notice, the U.S. Government M/V FRED LEE and M/V WILLIAM JAMES will be performing picket boat duties at the inflow channels of the Low Sill and Auxiliary Control Structures. The M/V FRED LEE and M/V WILLIAMS JAMES can be reached on VHF-FM Channels 13 and 16. The inflow channels of these structures are NOT navigable channels and are restricted from recreational purposes due to the hazardous conditions. When in the vicinity of these structures, tows and other vessels should navigate between the red nun buoys and green can buoys that mark the navigation channel of the river. This is advised in order to avoid effects of crosscurrents caused by the drawdown.

Vessels in distress that are drawn into the inflow channel of any of the structures or within the restricted mooring zone (see 33 CFR Ch.1, part 162.80, 01 July 2005 Edition) in the Mississippi River between Mile 311.0 and Mile 340.0, AHOP, should contact the M/V FRED LEE, M/V WILLIAM JAMES or any of the following by marine radio or any other emergency means. The structures that are staffed 24-hours each day and can be reached as follows:

- * Old River Complex - VHF-FM Channel 16 / (225) 492-2159 or (225) 492-2690 (Phone).
- * Sidney A. Murray, Jr. Hydroelectric Plant - VHF-FM Channel 16 / (225) 492-2153 ext. 207 (Phone).
- * Old River Lock - VHF-FM Channel 14 / (225) 492-3333 or (225) 492-2301 (Phone).

The point of contact with the USACE New Orleans District is Russell Beauvais, at (225) 492-2169 (Work) or (225) 202-3851 (Cell).

The following are information resources that are currently available and display, in chart format, the location of the hazardous conditions at the Old River Control Structures and the Sidney A. Murray, Jr. Hydroelectric Plant:

- * Map Nos. 66 and 67 (internet edition) of the 2015 Mississippi River Navigation Charts clearly depict the inflow channels of the above structures; the website address is: http://www.mvn.usace.army.mil/Missions/Engineering/Geospatial-Section/MRNB_2015/
- * The hard copy of the 2015 Mississippi River Flood Control and Navigation Maps.
- * CD-ROMs of the updated Map Chart Nos. 66 and 67 of the 2015 Mississippi River Navigation Charts.
- * Chart No. 1 of the 2016 Atchafalaya River Chart Books (hard copy) and Geographic Information Systems (GIS) publication CD-ROMs.
- * Chart No. 1 (internet edition) of the 2016 Atchafalaya River Navigation Charts; the website address is: http://www.mvn.usace.army.mil/Missions/Engineering/Geospatial-Section/ARNB_2016/.

LNM: 08-20

LA - MISSISSIPPI RIVER - BATON ROUGE TO VENICE - High River Stages

During present high river stages, revetments and levees south of Baton Rouge, Louisiana, are subject to damage from wave wash resulting from vessels traveling at excessive speeds, and also from contact with barges and vessels moored along the riverbank.

Mariners are advised to exercise extreme caution when navigating in the section of the river between Baton Rouge and Head of Passes, proceed at slowest safe speed, and steer a course as far away as possible from the levees and revetments to avoid damage by suction and wave wash. Mariners are also advised to exercise extreme caution when navigating or mooring their vessels in the forebays of Algiers, Harvey, Inner Harbor Navigation Canal, Port Allen and Old River Locks to prevent vessels and tows from coming in contact with the controlling levee line in those areas. Mariners and fleet operators are advised to secure their vessels and barges in such a manner as to ensure that there will be no contact with the levees or revetments and the barges are no closer than 180 feet to the centerline of the levee. Vessel owners or other persons responsible for any vessel or barges making contact with the levees and revetments in any way may be charged as provided for in Section 7 of the River and Harbor Act of August 8, 1917, and Title 33 of the United States Code, Sections 408 and 412.

LNM: 02-20

USCG NAVIGATION RULES AND REGULATIONS HANDBOOK

Federal Register / Vol. 84, No. 125 / Friday, June 28, 2019 published non-substantive technical, organizational, and conforming amendments to existing Coast Guard regulations. Included were changes to:

- Vessel Bridge-to-Bridge Radio Telephone Regulations (33 CFR § 26)
- COLREGS Demarcation Lines (33 CFR § 80)
- 72 COLREGS Implementing Rules (33 CFR § 81)
- Inland Navigation Rules (33 CFR § 83)
- Inland Navigation Rules – Implementing Rules (33 CFR § 89)
- Vessel Traffic Management (33 CFR § 161)

All of these rules are represented in the U.S. Coast Guard Navigation Rules and Regulations Handbook. These changes are outlined as originally published in Federal Register / Vol. 84, No. 125 / Friday, June 28, 2019 as well as enclosure to this Local Notice to Mariners.

LNM: 10-20

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

TEMPORARY CHANGES

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR						
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3				CGD01 at 40-41-09.001N	074-02-48.001W
Corrective Action	Green can Object of Corrective Action				Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

TX – CORPUS CHRISTI BAY – La Quinta Channel

In order to provide a more efficient and effective Aid to Navigation signal, the Coast Guard is proposing the following Aids to Navigation Changes:

Change La Quinta Channel Daybeacon 15A (LLNR-29079) in approximate position 27-52-16.389N/097-14-58.967W to La Quinta Channel Light 15A (LLNR-29079) showing Fl G 4s, 3NM nominal range, SG on pile, Ra Ref.

Change La Quinta Channel Daybeacon 16 (LLNR-29079.01) in approximate position 27-52-17.759N/097-14-51.161W to La Quinta Channel Light 16 (LLNR-29079.01) showing Fl R 2.5s, 3NM nominal range, TR on pile, Ra Ref.

Change La Quinta Channel Daybeacon 19B (LLNR-29092) in approximate position 27-52-27.537N/097-15-55.404W to La Quinta Channel Light 19B (LLNR-29092) showing Fl G 4s, 3NM nominal range, SG on pile, Ra Ref.

Change La Quinta Channel Light A (LLNR-29100) in approximate position 27-52-25.778N/097-15-45.470W to La Quinta Channel Light 19A (LLNR-29100) showing Fl G 6s, 3NM nominal range, SG on pile, Ra Ref.

Comments will be taken until March 17, 2020. Please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil.

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

FL - GULF OF MEXICO - U.S. Navy Testing

Continuing until approximately December 31, 2020, the U.S. Navy will be conducting inert underwater mine and Airborne Mine Neutralization System (AMNS) destructor testing in the Gulf of Mexico, in an area approximately 39 nautical miles southwest of the Panama City Pass. The inert mine destructors are silver and orange, 3 feet long, 6 inches in diameter and weigh approximately 2 pounds in water, while weighing 35 pounds in air. Inert mine bottom shapes and inert mine destructors will be deployed, operated and tested in the below test areas during this period. AMNS testing will consist of surface ship operations to include the following: R/V SEWEE or R/V STARFLEET PATRIOT and Project Support Crafts (PSC) 02, 03, 05, 08, 11 or PSC 12; however, additional R/Vs may be added in the future. It is requested that all vessels maintain a one nautical mile CPA of all vessels while operations are in progress. All U.S. Navy / U.S. Navy contracted AMNS support vessels will monitor VHF-FM Channel 16. For up-to-date information, mariners can contact Mr. Robertson, at (850) 230-7698 or via e-mail at William.f.robertson@navy.mil. The corners of the test areas are as follows:

Test Area Tango:
29-56-25.20N 085-54-36.00W,
29-58-55.20N 085-54-36.00W,
29-58-55.20N 085-51-42.60W and
29-56-25.20N 085-51-42.60W.

Charts: 1115A 11360

LNM: 08-20

FL - GULF OF MEXICO - U.S. Navy Testing

The U.S. Navy will be conducting tow body test/operations in the Gulf of Mexico, navigation chart; U.S. Gulf of Mexico Cape St. George to Mississippi Passes chart number 11362, Panama City Operations Area; W-151A, W-151B: 5A, 5B, 6A, 6B, 6C, 6D, 7A and 7B, continuing until March 14, 2020. The GPS coordinates of the operation areas corner points are listed below.

900-foot Operation Area (62 Miles from Panama City Pass at 235° T) Corner Points:

29-31-17.46N 086-43-46.02W 29-31-17.46N 086-42-37.08W
29-30-00.90N 086-42-37.08W 29-30-00.90N 086-43-46.02W,

The U.S. Navy will be towing the submerged towed body from the M/V PATRIOT. Due to its towing configuration the M/V PATRIOT will be restricted in maneuverability. She will display the appropriate day shapes per the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) while the tow body operations are being conducted. Request all vessels maintain at least a one nautical mile CPA of the M/V PATRIOT while operations are in progress. All U.S. Navy support craft will monitor VHF-FM Channel 16.

Charts: 1115A 11360

LNM: 06-20

FL - GULF OF MEXICO - U.S. Navy Testing

Continuing until approximately June 2, 2020, the U.S. Navy will be conducting test operations in several areas south of Panama City, Florida, aboard primary vessel M/V PATRIOT, or from suitable alternative platform. Primary test areas are in the vicinity of 29-57-00.0N 086-53-00.0W (100-foot op area) and 29-40-00.0N 086-19-00.0W (330-foot op area). It is requested that all surface vessels remain at least 2 nautical miles from test vessels working in these areas as they are likely to be under restricted maneuverability towing conditions during test events. There are also items on the sea floor and in the water column in these general areas. Any items moored close enough to the surface to be a hazard to navigation will be lighted, buoyed, and/or guarded while deployed for short durations during the test period. M/V PATRIOT will be on station in these areas during test events scheduled at a frequency of approximately 3-5 days per week. Concerned traffic should contact the U.S. Navy Support Vessel on VHF-FM Channel 16, heed all instructions given, and stay a minimum of 2 nautical miles from vessels on station in any of these operational areas. Additionally, it is requested that all trawler operations within 2 nautical miles of the op area positions given be avoided at all times as U.S. Navy equipment has been deployed in these areas and will remain in these areas through the duration of the test event.

LNM: 37-19

FL - GIWW - APALACHICOLA BAY - Dredge Operation

Continuing until approximately April 2, 2020, the Dredge KELLY L., will be conducting dredging operations in the vicinity of the Apalachicola Bay reach of the GIWW. The dredged material will be disposed into Disposal Area No. 2.1, also known as Bird Island and open water sites, adjacent to the channel. The Dredge KELLY L., will utilize floating and submerged pipeline, in addition to a number of support vessels. All vessels will be lighted in accordance to the U.S. Coast Guard Safety Regulations. The Dredge KELLY L., will monitor VHF-FM Channels 13 or 16. Mariners are urged to exercise caution when transiting the area. For up-to-date information, mariners can contact USACE, Panama City Site Office, at (850) 784-9780.

FL - EAST PASS CHANNEL - Dredge Operation

Continuing until approximately April 13, 2020, the Dredge E. STROUD will be dredging the East Pass Channel, Destin, FL. Dredged material will be disposed of within the designated beach placement site, located east of the east jetty. There will be a combination of submerged and pontoon pipeline connecting to a shore connection on the LDB, adjacent to the east finger jetty. Operations will be conducted 24-hours a day, 7-days a week. The Dredge E. STROUD will monitor VHF-FM Channel 13 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact the

FL - TOMS BAYOU - Bridge Modifications and New Construction

The SR 397 (John Sims Parkway), across Toms Bayou, Mile 0.50, at Valparaiso, Okaloosa County, Florida, Phase II is scheduled until November 2020, the demolition of the northbound bridge and replacement with a new bridge. During construction, the contractor will designate different navigational channels and updates will follow. They will utilize two 80-foot by 80-foot section crane spud barges, a 40-foot by 40-foot material spud barge, four 20-foot by 10-foot section material barges, the Tug MISS RONDA and a crew work boat. VHF-FM Channel 13 or 16, will be monitored for communications. This equipment should be lighted according to the "Inland Navigational Rules of 1980." Mariners should avoid the area, travel through the navigation spans and urged to proceed at slowest safe speed with extreme caution. Anyone needing assistance should call the contractor at (334) 319-7006 or the FDOT at (850) 333-4389.

AL - MOBILE BAY - Naval Operations

Commencing approximately April 24, 2020 and continuing until approximately May 4, 2020, the Office of Naval Research (ONR) is funding a research project at the mouth of Mobile Bay. There will be 3 research vessels and 4 small boats supporting the research, the largest of which are the R/Vs PELICAN and PT. SUR. Five small tripods are scheduled to be deployed on the bottom for the duration of the experiment. They will be moored outside the navigational channel and will have yellow surface floats marking their location. There will be 3 mini-cats anchored each morning and recovered each evening. Each mini-cat will have equipment suspended below it. The positions of the mini-cats will be different each day, and will be outside the navigational channel.

AL - MOBILE RIVER - HURRICANE, AL. - Drawbridge Operations

The U.S. Coast Guard has issued a temporary deviation from the operating schedule that governs the CSX Transportation Railroad vertical lift bridge across Mobile River, Mile 13.3, near Hurricane, Alabama. This drawbridge is being operated remotely from a CSX location in Mobile, AL., through March 27, 2020. Procedures for signaling the bridge have not changed. This deviation is needed to collect and analyze information on vessel traffic when the bridge tender is moved to a geographically remote centralized control point. The U.S. Coast Guard is seeking comments from the public about the impact to vessel traffic generated by this change. This temporary deviation is published in the Federal eRulemaking Portal at <http://www.regulations.gov>. The docket number is USCG-2019-0911. Comments may be submitted through the Federal eRulemaking Portal. If your material cannot be submitted using <http://www.regulations.gov>, contact the Eighth Coast Guard District Bridge Administration Office at (504) 671-2128 or at D8DPBALL@uscg.mil for alternate instructions.

MS - MISSISSIPPI SOUND - Barrier Island Restoration/Dredge Operation - UPDATE

Commencing March 15, 2020 and continuing until approximately June 15, 2020, Hydraulic Cutter Suction Dredge ALASKA will be conducting island restoration and dredging operations in the vicinity of Ship Island.

Commencing June 15, 2020 and continuing until December 1, 2020, Hydraulic Dredge ELLIS ISLAND will be conducting island restoration and dredging operations in the vicinity of Ship Island. In support of the dredging operations, auxiliary equipment that may include, but is not limited to, tugs, barges, anchor barges and derricks will arrive and stage prior to commencement. Both floating and submerged pipeline will be staged with the auxiliary equipment in preparation for this project. Temporary occupancy and storage of equipment will be in the following locations:

On the southwest side of the railroad bridge in Biloxi Bay.

North side of Horn Island, adjacent to Dog Key Pass.

See attached enclosures of charts for further details. All equipment will be lighted and marked as per U.S. Coast Guard regulations. These markers should NOT be used for navigation, and mariners are advised to maintain a safe distance.

Dredge ALASKA will be connected to approximately 1,700 feet of floating pipeline that will direct connect to submerged pipeline. The submerged pipeline will run from the connection, to Ship Island borrow area, while also passing through a hydraulic booster. All pipeline and vessels will be marked and lighted in accordance with U.S. Coast Guard regulations. Operations will be performed 24-hours a day, 7-days a week.

Dredge ELLIS ISLAND will be connected to approximately 300 feet of floating pipeline that will direct connect to submerged pipeline. The submerged pipeline will run from the connection, to Ship Island borrow area, while also passing through a hydraulic booster. Mariners should be aware, that additional pipeline may be laid in place for future operations south of Ship Island. All pipeline and vessels will be marked and lighted in accordance with U.S. Coast Guard regulations. Operations will be performed 24-hours a day, 7-days a week.

See attached enclosure of charts for further details. Dredge ALASKA and Dredge ELLIS ISLAND will monitor VHF-FM Channel 13 or 16. For further information, mariners can contact Nicholas Williams, Project Manager, at (630) 247-2256, or Mario Martinez, QC Manager, at (806) 292-5637.

LNM: 06-20

TX - SABINE-NECHES CANAL - Construction Operations

Continuing until approximately May 15, 2020, the Manson Construction Co., will be conducting construction of Berth 5 at the Port of Port Arthur which includes, but is not limited to:

Removal of existing structures, pile driving, bulkhead installation, dive operations and other wharf construction activities in the vicinity of Sabine-Neches Ship Channel, at and near existing Berth 4, in approximate positions 29-51-27.272N 093-56-28.987W and 29-51-20.573N 093-56-35.438W. Work will be conducted from 6:00 a.m., until 6:00 p.m., 7-days a week. Equipment on-scene: Derrick Barge HAAKON, 268 feet by 68 feet and a flat barge 120 feet by 50 feet, will be monitoring VHF-FM Channel 13, 16 and 69. Passing arrangements and time to move vessels to not impede navigation:

Construction operations will need a minimum 2-hour notice to insure all anchors can be moved. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

LNM: 05-20

TX - SABINE NECHES WATERWAY - Dredge Operation

Continuing until approximately March 30, 2020, Crosby Dredging, LLC., Cutterhead Dredge SUSAN CROSBY will be performing mobilization and dredging operations for the upcoming construction of Phillips 66 Dock 4. The dredging location is on the channel's green side between approximate positions 30-00-45.60N 093-57-59.70W and 30-00-47.50N 093-57-45.10W. A booster pump barge will be located on the red side of the channel between approximate positions 30-00-36.10N 093-58-38.10W and 30-00-37.75N 093-58-34.25W. The dredge will work 24-hours a day, 7-days a week. There are numerous work and support vessels associated with this dredging operation, which include tender vessels as well as various work barges. Dredge SUSAN CROSBY can be contacted via VHF-FM Channel 13 or 16. The field point of contact for Crosby Dredging, LLC., is Captain Dexter Bunton, at (318) 573-9099. The alternate point of contact is Dwayne Naquin, at (985) 637-3142. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

TX - ARANSAS PASS - Dredge Operation - Safety Zone

A Safety Zone has been established in the Aransas Pass Sea Bar Channel portion of the Corpus Christi Ship Channel, from 7:30 p.m., until 7:30 a.m., each day, through Sunday, March 22, 2020, to ensure safety around Dredge CAROLINA. During these times, no vessel shall enter within 1,000 feet of Dredge CAROLINA without permission from the COTP. Dredge CAROLINA will be working outside of the jetties in approximate position 27-49-47.0N 097-01-51.0W.

Charts: 11307 11309

LNM: 10-20

TX - ARANSAS PASS - GIWW - Bridge Maintenance

Maintenance and repairs will continue through 6:00 p.m., March 23, 2020, on the State Highway 361, Dale Miller fixed span bridge across the GIWW, Mile 533.1, WHL, at Aransas Pass, Nueces County, Texas. The horizontal clearance will be reduced to 62.5 feet, for a barge placed underneath the bridge to install dolphin sheet metal. Vessels that require a horizontal clearance greater than 62.5 feet will be allowed to pass when requested 30-minutes in advance via VHF-FM Channel 16.

LNM: 04-20

TX - CORPUS CHRISTI BAY - INGLESIDE - Dredge Operation

Continuing until approximately July 30, 2020, Orion Marine Group will be conducting dredging operations at approximate position 27-49-22.00N 097-11-27.85W. Dredging will be performed 24-hours a day, 7-days a week. There will be 24 inch pipeline laid down the north side of the GIWW, starting from the intersection of the Corpus Christi Ship Channel down the GIWW, for approximately 4,000 feet, headed east bound and then upland into the placement area, Dagger Island. There will also be 24 inch pipeline laid up the La Quinta channel on both sides of the channel for approximately 25,000 feet and then into the upland placement area, Good Hope. Contractor's related floating plant consists of 4 anchor barges, 2 supply barges, 6 tender boats and 2 fuel barges. The Dredge LINDA LAQUAY and Dredge JOHN LAQUAY will monitor VHF-FM Channels 16 and 78. Mariners are urged to exercise caution in the area.

USCG Navigation Rules and Regulations Handbook, 2014 Edition

Federal Register / Vol. 84, No. 125 / Friday, June 28, 2019 published non-substantive technical, organizational, and conforming amendments to existing Coast Guard regulations. All of these rules are represented in the U.S. Coast Guard Navigation Rules and Regulations Handbook.

PART 26—VESSEL BRIDGE-TO-BRIDGE RADIOTELEPHONE REGULATIONS

- Revise the authority citation for part 26 to read as follows:
Authority: 14 U.S.C. 2, 33 U.S.C. 1201–1208; Pub. L. 107–295, 116 Stat. 2064;
Department of Homeland Security Delegation No. 0170.1; Rule 1, International Regulations for the Prevention of Collisions at Sea.

§ 26.08 [Amended]

- In § 26.08(a), remove the text “Marine Safety, Security and Environmental Protection” and add, in its place, the text “Prevention Policy”.

PART 80—COLREGS DEMARCATION LINES

- In § 80.750, revise paragraphs (b) and (f) to read as follows: § 80.750 Sanibel Island, FL to St. Petersburg, FL.

* * * * *

(b) A line drawn across the Charlotte Harbor entrance from position latitude 26°42.18' N, longitude 070°41.2' W to Port Boca Grande Light.

* * * * *

(f) A line drawn from position latitude 27°17.89' N, longitude 082°33.55' W to the southernmost extremity of Lido Key (position latitude 27°17.93' N, longitude 082°33.99' W).

* * * * *

- In § 80.753, revise paragraphs (a) and (d) to read as follows: § 80.753 St. Petersburg, FL to the Anclote, FL.

(a) A line drawn across Blind Pass, from the seaward extremity of the Long Key jetty to the seaward extremity of the Treasure Island jetty.

* * * * *

(d) A line drawn from the northernmost extremity of Honeymoon Island to Anclote Anchorage South Entrance Light 3; thence to Anclote Key position latitude 28°10.0' N longitude 082°50.6' W; thence a straight line to position latitude 28°11.11' N, longitude 082°47.91' W.

§ 80.810 [Amended]

- 8. In § 80.810, remove paragraphs (c) and (d); and re-designate paragraphs (e) through (h) as paragraphs (c) through (f).

PART 81—72 COLREGS: IMPLEMENTING RULES

§ 81.3 [Amended]

- In § 81.3, remove the words “Marine Safety” and add, in their place, the word “Prevention”.

§ 81.5 [Amended]

- In § 81.5(a) introductory text, remove the words “Marine Safety” and add, in their place, the word “Prevention”.

§ 81.9 [Amended]

- In § 81.9 introductory text, remove the words “Marine Safety” and add, in their place, the word “Prevention”.

PART 83—NAVIGATION RULES

§ 83.24 [Amended]

- In § 83.24(h), after the words “exhibit the lights”, add the words “or shapes”.

§ 83.26 [Amended]

- In § 83.26(f)(i), remove the word “around” and add, in its place, the word “round”; in § 83.26(f)(ii)(2)(B), remove the text “(a)” and add, in its place, “(f)(ii)(1).”

§ 83.27 [Amended]

- In § 83.27(d)(iv)(1)(B) and (d)(iv)(2)(A), remove the word “around” and add, in its place the word “round”.

PART 89—INLAND NAVIGATION RULES: IMPLEMENTING RULES

§ 89.3 [Amended]

- In § 89.3, remove the words “Marine Safety” and add, in their place, the word “Prevention”.

§ 89.5 [Amended]

- In § 89.5(a) introductory text, remove the words “Marine Safety” and add, in their place, the word “Prevention”.

§ 89.9 [Amended]

- In § 89.9 introductory text, remove the words “Marine Safety” and add, in their place, the word “Prevention”.

§ 89.27 [Amended]

- In the section heading to § 89.27 and paragraphs (a) and (b), remove the text “24(i)” and add, in its place, the text “24(j)”.

PART 161—VESSEL TRAFFIC MANAGEMENT

§ 161.2 [Amended]

■ Amend § 161.2 as follows:

- a. Remove the word “sector” wherever it appears, and add, in its place, the word “zone”;
- b. Add definitions in alphabetical order for “Center” and “Published”;
- c. In the definition of “Vessel Traffic Service Area or VTS Area”, remove the word “sectors” and add, in its place, the word “zones”; and
- d. In the introductory text of the definition of “VTS User”, remove the word “area” and add, in its place, the word “Area”.

§ 161.2 [Amended]

■ Amend § 161.2 Definitions - with additions to read as follows:

* * * * *

Center means a Vessel Traffic Center or Vessel Movement Center.

* * * * *

Published means available in a widely-distributed and publicly available medium (e.g., VTS User’s Manual, ferry schedule, Notice to Mariners).

* * * * *

Under *VTS User* Re-designate (a) – (b) as (1) – (2); add (3) Equipped with a required Coast Guard type-approved Automatic Identification System (AIS).

§ 161.4 Requirement to Carry the Rules. [Amended]

■ Re-designate the note at the end of the section as Note 1 to § 161.4 and revise it to read as follows:

* * * * *

Note 1 to § 161.4: These rules are contained in the applicable U.S. Coast Pilot, the VTS User’s Manual which may be obtained by contacting the appropriate VTS or downloaded from the Coast Guard Navigation Center website (<https://www.navcen.uscg.gov>).

§ 161.5 [Amended]

■ In § 161.5(b), remove the text “VTS Director” and add, in its place, the text “VTC”.

§ 161.12 [Amended]

■ Amend § 161.12 in Table 1 to § 161.12(c) as follows:

- a. In entry (10)(ii) – *Seattle Traffic*, in the “Monitoring area” column, remove the words “Strait of Juan de Fuca” and add, in their place, the words “Salish Sea”;
- b. In entry (12) – *St. Marys River*, remove the text “Mary’s” wherever it appears and add, in its place, the text “Marys”;
- c. In Note 6, remove the word “sector” and add, in its place, the word “zone”.

§ 161.17 [Removed and Reserved]

■ Remove and reserve § 161.17.

PART 161—VESSEL TRAFFIC MANAGEMENT (continued)

§ 161.55 [Amended]

■ Amend § 161.55 by revising paragraph (c)(3) to read as follows:

§ 161.55 Vessel Traffic Service Puget Sound and the Cooperative Vessel Traffic Service for the Juan de Fuca Region.

* * * * *

(c) * * *

(3) A vessel of less than 100 meters in length is exempt from the provisions set forth in § 161.13(b)(3) of this part.

* * * * *

§ 161.70 [Amended]

■ In entry 4 to the Table to § 161.70(d) and entry 3 to the Table to § 161.70(f), remove the word “Sector” and add, in its place, the word “Zone”.

Questions may be directed to the Office of Navigation Systems at CGNAV@uscg.mil.

NAVIGATION BULLETIN NO. 20-40

NOTICE TO NAVIGATION INTERESTS:

APALACHICOLA, CHATTAHOOCHEE AND FLINT RIVER SYSTEM (ACF)

Reference Navigation Bulletin No. 19-131. Notice is given to mariners that based on the 10-day forecast for releases from Jim Woodruff Lock and Dam and subsequent forecasted stage at Blountstown gage, we are currently supporting a 7 foot navigation channel.

A 7.4 foot Blountstown stage is needed to provide a 7 foot channel on the Apalachicola River and today's gage reading is 20.7 feet. River stages for the ACF system can be viewed at:

http://water.sam.usace.army.mil/forecast_acf_plots.htm

Commercial mariners should schedule lockage appointments at the Jim Woodruff lock by calling (850) 663-4692 or (229) 723-3482. George W. Andrews and Walter F. George Locks remain closed due to mechanical failures.

Navigation Bulletins will be issued on a weekly basis throughout the navigation season to provide the latest water level and navigation information.

For additional information, contact Ashley Kleinschrodt at 251-694-3726.

February 25, 2020

TECHNICAL SUPPORT BRANCH

NAVIGATION BULLETIN NO. 20-34

NOTICE TO NAVIGATION INTERESTS:

TENNESSEE-TOMBIGBEE WATERWAY MISSISSIPPI

Notice is given to mariners, in response to the recent flood event, **there are a number of areas along the waterway with channel restrictions**, where the channel has shoaled to less than authorized dimensions.

The following areas have a restricted width and restricted depth channel:

- **Columbus Lake**
 - **Mile 357.0 (lower approach to Aberdeen Lock) – 140' width available, 8' draft at normal pool**
 - **Mile 352.5 – 140' width available, 8' draft at normal pool**

Corps floating plant is underway to these locations and will mark the available channel in both areas with buoys. Corps plant will begin digging operations at Mile 357 first before descending to Mile 352.5. It is anticipated to take 3 weeks to restore a 9' depth at both locations. Channel width restrictions will take considerable more time to remedy.

Mariners should exercise caution when transiting these locations as the Corps fleet will be working within the channel.

For additional information, contact **Mr. Roger Wilson, Jr.** at the **Tennessee-Tombigbee Project Management Office (CESAM-OP-CO)** at **(662) 245-5486** or **(662) 574-7316**.
