SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

NOTICE OF PLATFORMS, DRILL RIGS AND ATTENDANT VESSELS

The drill rigs and vessels that have been temporarily established will display lights and sound signals, according to size or class, during periods of darkness and reduced visibility. Numerous large anchor buoys which may be lighted displaying a white 4-seconds characteristic light and unlighted buoy may be established up to 2,000 or more yards from the vessel or rig site. Mariners should avoid passing close aboard the rigs or vessels. Offshore structures that have been established will display lights and a fog signal sounding 1 blast (2-sec. blast) every 20-seconds. Mooring buoys (white with blue band) may be located within 500 yards of the structure for mooring attendant vessels and/or barges. Mariners should avoid passing close aboard structures.

LNM: DPW/PRIV AIDS

DEPARTMENT OF HOMELAND SECURITY SUSPICIOUS ACTIVITY

The Department of Homeland Security (DHS) encourages the maritime public to report information concerning suspicious activity to the local Federal Bureau of Investigation Joint Terrorism Task Force (JTTF) Office, http://www.fbi.gov/about-us/investigate/terrorism/terrorism_jttfs, or to other appropriate authorities. The U.S. Coast Guard reminds the maritime industry that they may also report information concerning suspicious activity to the www.AmericasWaterwayWatch.org, the National Response Center (NRC) 1-800-424-8802 or 1-877-24WATCH.

LNM: DPW

LA - MISSISSIPPI RIVER - BATON ROUGE TO VENICE - High River Stages

During present high river stages, revetments and levees south of Baton Rouge, Louisiana, are subject to damage from wave wash resulting from vessels traveling at excessive speeds, and also from contact with barges and vessels moored along the riverbank.

Mariners are advised to exercise extreme caution when navigating in the section of the river between Baton Rouge and Head of Passes, proceed at slowest safe speed, and steer a course as far away as possible from the levees and revetments to avoid damage by suction and wave wash.

Mariners are also advised to exercise extreme caution when navigating or mooring their vessels in the forebays of Algiers, Harvey, Inner Harbor Navigation Canal, Port Allen and Old River Locks to prevent vessels and tows from coming in contact with the controlling levee line in those areas.

Mariners and fleet operators are advised to secure their vessels and barges in such a manner as to ensure that there will be no contact with the levees or revetments and the barges are no closer than 180 feet to the centerline of the levee. Vessel owners or other persons responsible for any vessel or barges making contact with the levees and revetments in any way may be charged as provided for in Section 7 of the River and Harbor Act of August 8, 1917, and Title 33 of the United States Code, Sections 408 and 412.

LNM: 10-18

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01	
(Temp) ADD		NATIONAL DOCK CHANNEL BUOY 3			at 40-41-09.001N	074-02-48.001W
		Green can				
Corrective Action		Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true.

Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

Approved Project(s)	Project Date	Ref. LNM
None		

Advance Notice(s)

TX – COPRUS CHRISTI BAY – LA QUINTA CHANNEL

In order to mark the centerline of the La Quinta Channel extension the

following aids to navigation will be established between May 2018 and October 2018:
 Establish La Quinta Channel A Outer Range Front Light (LLNR-29076) in position 27-52-26.553N/097-14-56.319W, showing Q G Day/Night and KRW on skeleton tower.
 Establish La Quinta Channel A Outer Range Front Passing Light (LLNR-29076.01) in position 27-52-26.553N/097-14-56.319W, on same structure as the La Quinta Channel A Outer Range Front Light, showing FI W 4s
 Establish La Quinta Channel A Outer Range Rear Light (LLNR-29077) in position 27-52-20.098N/097-14-24.959W, showing Iso G 6s Day/Night and KRW on skeleton tower.
 Establish La Quinta Channel A Outer Precision Directional Light (LLNR-29078) in position 27-52-20.098N/097-14-24.959W, showing FI G from 101.9 to 102.2, F G from 102.2 to 102.6, alternating GW from 102.6 to 102.9, F W (on channel line) from 102.9 to 103.1, alternating RW from 103.1 to 103.5, F R from 103.5 to 103.9, FI R from 103.9 to 104.2. The PDL will be waterway user activated via a Marine Radio Activated Light System (MRALS).
 Establish La Quinta Channel A Inner Range Front Light (LLNR-29101.25) in position 27-52-53.103N/097-17-05.427W, showing Q G Day/Night and KRW on skeleton tower.
 Establish La Quinta Channel A Inner Range Rear Light (LLNR-29101.26) in position 27-52-56.969N/097-17-24.241W, showing Iso G 6s Day/Night and KRW on skeleton tower.
 Establish La Quinta Channel A Inner Precision Directional Light (LLNR-29101.28) in position 27-52-56.969N/097-17-24.241W, on same structure as the La Quinta Channel A Inner Range Rear Light, showing FI R from 281.9 to 282.3, F R from 282.3 to 282.6, alternating RW from 282.6 to 282.9, F W (on channel line) from 282.9 to 283.1, alternating GW from 283.1 to 283.5, F G from 283.5 to 283.8, FI G from 283.8 to 284.2. The PDL will be waterway user activated via a Marine Radio Activated Light System (MRALS).
 More specific construction dates will be published as soon as they are available.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

<u>Proposed Project(s)</u>	<u>Closing</u>	<u>Docket No.</u>	<u>Ref. LNM</u>

Proposed Change Notice(s)

TX – CORPUS CHRISTI BAY – LA QUINTA CHANNEL

Due to the La Quinta Channel extension project the Coast Guard is proposing the following Aid to Navigation Change.

Establish La Quinta Channel Light 20A (LLNR-29098) in approximate position 27-52-41.0950N/097-15-50.9010W Showing FL R 4s, 17ft Focal Height, 3NM Nominal Range, TR on pile.

Comments will be taken until April 17, 2018.

Chart 11309

LNM: 08/18

TX – CORPUS CHRISTI BAY – LA QUINTA CHANNEL

Due to the shoaling on the south east side of Jewel Fulton Channel the Coast Guard is proposing the following Aid to Navigation Change.

Establish Jewel Fulton Channel Daybeacon 2 (LLNR-29002) in approximate position 27-50-32.100N/097-13-51.360W Showing TR on pile.

Comments will be taken until April 17, 2018.

Chart 11309

LNM: 08/18

FL – ST. MARKS RIVER AND APPROACHES – ST. MARKS RIVER

Due to shoaling and shallow water depths, the Coast Guard is reducing the size of the buoy hulls marking the channel. This change shall enable smaller Coast Guard vessels to respond quicker to any buoy discrepancies and better maintain this channel. The mariner will notice a slight difference in nominal visual range and radar range of the buoy.

Reduce ST. Marks River Buoy 8 (LLNR-1550) on scene hull size in approximate position 30-04-06.207N/084-11-22.607W.

Comments to be taken until May 16, 2018.

Chart 11406

LNM: 12/18

TX – ELLENDER TO GALVESTON BAY – PORT ARTHUR-GALVESTON – BOLIVAR PENINSULA

Due to a history of Bolivar Peninsula Buoys 19 and 20 frequently being knocked off station the Coast Guard proposes the following changes in order to improve the visibility of Aids to Navigation in the Port Bolivar Channel.

Relocate and change Bolivar Peninsula Lighted Buoy 20 (LLNR-35945) in approximate position 29-22-19.793N/094-47-09.542W to Bolivar Peninsula Light 20 (LLNR-35945) in position 29-22-21.149N/094-47-10.758W, showing Q R, 17ft Focal Height, 4NM Nominal Range, TR-TY on a pile, Ra ref.

Change Bolivar Peninsula Lighted Buoy 19 (LLNR-35940) in approximate position 29-22-10.778N/094-47-08.755W to Bolivar Peninsula Light 19 (LLNR-35940), in position 29-22-10.778N/094-47-08.755W, showing Q G, 17ft Focal Height, 4NM Nominal Range, SG-SY on a pile, Ra ref.

Comments to be received by May 22, 2018, please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil.

Charts: 11324 11326 11331

LNM: 13/18

TX – UPPER GALVESTON BAY – HOUSTON SHIP CHANNEL – BAYPORT SHIP CHANNEL

Due to dredging that will widen the entrance to the Bayport Ship Channel and allow for an easier transition for marine traffic both inbound and outbound from the Houston Ship Channel into the Bayport Ship Channel the Coast Guard is proposing the following aid to navigation changes.

Establish Bayport Ship Channel Light 1 (LLNR-24450) in approximate position 29-36-37.415N/094-57-23.283W, FL G 6s, Focal Height 17ft, Nominal Range 4NM, SG on a pile, Radar Reflector.

Relocate Bayport Ship Channel Light 3 (LLNR-24475) to approximate position 29-36-44.560N/094-57-34.010W.

Relocate Bayport Ship Channel Light 5 (LLNR-24485) to approximate position 29-36-49.137N/094-57-50.161W.

Relocate Houston Ship Channel Light 75 (LLNR-24385) to approximate position 29-36-26.614N/094-57-18.025W.

Relocate Houston Ship Channel Light 76 (LLNR-24390) to approximate position 29-36-30.679N/094-57-06.341W.

Comments to be taken until 10 April 2018.

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

FL - GULF OF MEXICO - U.S. Navy Testing

The U.S. Navy will be conducting tow body test operations in the Gulf of Mexico, navigation chart; U.S. Gulf Of Mexico Cape St. George to

FL - GULF OF MEXICO - U.S. Navy Testing

Mississippi Passes chart number 11362, Panama City Operations Area; W-151A, W-151B, 6D, 6C and 7B, commencing approximately April 9, 2018 through June 30, 2018. The test area is defined by the following approximate positions:

- 29-45-13.9N 086-06-08.3W,
- 29-23-01.0N 086-11-48.1W,
- 29-22-31.7N 086-27-38.5W and
- 29-38-46.2N 086-27-50.0W.

The U.S. Navy will be towing the submerged towed body behind the tow platform at various cable scopes that could reach up to 1,600 feet. The vessel will display the appropriate day shapes per the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) while the tow body operations are being conducted. The main surface craft supporting these test/operations and serving as the tow platform is the M/V PATRIOT. It is requested that all vessels maintain a one nautical mile CPA of the M/V PATRIOT while operations are in progress. All U.S. Navy support craft will monitor VHF-FM Channel 16

LNM: 13-18

FL - GULF OF MEXICO - Air Force Exercise

The U.S. Air Force will be conducting air-to-ground weapon testing in the Gulf of Mexico, approximately 20 nautical miles south of Destin, FL. The times the hazard area will be active are April 2-6, 2018, from 8:00 a.m. until noon, each day, bound by the following approximate positions:

- 30-18-33.0N 086-39-36.0W,
- 30-18-33.0N 086-25-30.0W,
- 30-12-21.0N 086-16-00.0W,
- 29-55-07.8N 086-16-00.0W,
- 29-47-46.2N 086-23-00.0W,
- 29-47-46.2N 086-43-48.0W,
- 29-55-21.6N 086-47-12.0W,
- 30-12-39.6N 086-47-06.0W and
- 30-18-33.0N 086-39-36.0W.

All vessels are required to remain clear of this hazard area during the mission periods. In addition, ground based GPS navigation and electronic devices or smart phone apps that rely on GPS may be effected in the vicinity of Eglin Air Force Base. It is strongly encouraged that mariners plan activities accordingly as the GPS signal may be unreliable. All concerned traffic can contact the Eglin Joint Test and Training Operations Control Center (JTTOCC) at (850) 882-5800 or Billy Childress, 96TW/SEU, at (850) 882-7343.

FL - CHOCTAWHATCHEE BAY - U.S. Air Force Surface Operations

The U.S. Air Force will be conducting coordinated surface craft formation operations in either Choctawhatchee Bay between the Mid-May Bridge (State HWY 293) and the State HWY 331 Bridge or between 3-15 miles due south of Destin Pass. This operation will include a large number of surface craft in formation traveling between the two bridges. The surface craft will be firing multiple distress signal flares as part of this operation.

The mission is scheduled for April 2-6, 2018, between the hours of noon and 5:00 p.m., each day. Hot range advisories and local notice to mariners will be broadcast on VHF-FM Channel 16 and on HF-Upper Sideband 2182 Khz, by the Eglin Joint Test and Training Operations Control Center, call sign WOLFALL. Points of contact are Eglin Joint Test and Training Operations Control Center (JTTOCC), at (850) 882-5800 or Billy Childress, 96TW/SEU, at (850) 882-7343.

FL - WHITE RIVER, Bridge RIP-RAP Rehabilitation

Rehabilitation work began on March 17, 2018 and will continue until July 4, 2018, on the US Hwy. 90 (SR 10) bridge crossing White Bayou (aka Saultsman Cove). Work consist of surface preparation of the existing piles at intermediate bents, installation of integral pile jackets and the installation of cathodic protection systems. Work will be performed during daylight hours only. There will be no changes to the horizontal or vertical clearances. They will be utilizing pontoon boats 22 to 24 feet in length and 8 to 10 feet wide. Equipment will be removed from the waterway at night. Equipment should be properly lighted according to the "Inland Navigation Rules of 1980". Radio equipment will be monitored and a contact number at the job site is (256) 810-7676.

AL - BLACK WARRIOR RIVER - Air Show

The COTP Mobile under the authority of the Ports and Waterways Safety Act is establishing a temporary Safety Zone on the Black Warrior River from mile 335.0 to 337.0, in Tuscaloosa, AL., from April 12, 2018 to April 15, 2018, from 10:00 a.m. until 5:00 p.m. This Safety Zone is to protect the public from the hazards associated with the Tuscaloosa Air Show. During the enforcement period, no vessel may transit this zone without approval from the COTP Mobile or a designated representative. For up-to-date information, mariners can the U.S. Coast Guard Sector Mobile, at (251) 441-5976.

LNM: 12-18

AL - BLACK WARRIOR RIVER - Dragon Boat Race

A Tuscaloosa Dragon Boat Race will be conducted on the Black Warrior River, Tuscaloosa, Alabama, on March 28-31, 2018, from 7:00 a.m. until 6:00 p.m. The U.S. Coast Guard is establishing a temporary special local regulation for a portion of the Black Warrior River for this event. The regulated area for this event is all waters of the Black Warrior River between Mile 339.0 and Mile 341.0. Vessels desiring to transit the regulated area may do so only with prior approval of the Patrol Commander and when so directed by that officer and will be operated at a no wake speed in a manner which will not endanger participants in the event or any other craft. The Patrol Commander can be contacted on VHF-FM Channel 16, call sign "PATCOM". For up-to-date information, mariners can contact the U.S. Coast Guard Sector Mobile, at (251) 441-5976.

LNM: 10-18

AL - BLACK WARRIOR RIVER - Lock Closure

The Holt Lock, in the vicinity of mile 347.0, will be closed commencing approximately 7:00 a.m., July 10, 2018 and continuing until approximately 7:00 p.m., August 8, 2018. The closure is to replace the lower miter gates and related components. For up-to-date information, mariners can contact Anthony Perkins or Danny Hensley at the BWT/Alabama-Coosa Project Management Office (CESAM-OP-BA), at (205) 752-3571.

LNM: 08-18

AL - BLACK WARRIOR RIVER - Lock Closure

The Bankhead Lock, in the vicinity of mile 366.0, will be closed commencing approximately 7:00 a.m., July 11, 2018 and continuing until approximately 7:00 p.m., August 7, 2018. The closure is to replace sections of hydraulic pipes for the lock operating machinery and related components. For up-to-date information, mariners can contact Anthony Perkins or Danny Hensley at the BWT/Alabama-Coosa Project Management Office (CESAM-OP-BA), at (205) 752-3571.

LNM: 08-18

AL - BLACK WARRIOR RIVER - Shoaling

Shoaling has been reported on the west side of the river near mile 366.2. The navigation channel width has been restricted to approximately 150 feet. The M/V TENNTOM and crane barge R.W. DAVIS are en route to remove the shoal. The plant will offload the dredged material into a nearby disposal area on the east side of the river. Dredging operations are expected to continue for approximately 3 weeks. Marine traffic is requested to transit this reach by staying close to the red side of the channel, with caution at no wake speed. The Corps Plant will monitor VHF-FM Channel 16.

LNM: 11-18

MS - PASCAGOULA HARBOR - Dredge Operation

Continuing until approximately April 10, 2018, the Dredge HENRY A., will be conducting dredging operations at the Chevron refinery's Bayou Casotte facilities. The dredged material will be disposed of in the Chevron's onsite upland disposal area. Dredging will be performed 24-hours a day, 7-days a week. The dredge plant will be monitoring VHF-FM Channel 13 or 16. For up-to-date information, mariners can contact Justin Tassin, at (504) 782-0995 or contact the dredge directly, at (985) 703-2246. All mariners are requested to use caution while transiting the area.

LA - GULF OF MEXICO - SHIP SHOAL BLOCK 88 - WHISKEY ISLAND - Dredge Operation - Coastal Restoration

Continuing until approximately July 2018, Great Lakes Dredge & Dock Company will be conducting dredging operations from the Ship Shoal Block 88 Borrow Area located approximately 8.2 nautical miles south southwest of Whiskey Island. Material dredged will be hydraulically placed via submerged pipeline onto the center of Whiskey Island. The 30 inch diameter submerged steel pipeline will be placed directly on top of the existing natural sea floor within the permitted conveyance corridor. The hydraulic cutter suction Dredge ALASKA will be operating within the Ship Shoal Block 88 Borrow Area along with Tender Tugs and Anchor Barges. Approximately 3,000 feet of float hose will be trailing the Dredge ALASKA within the Borrow Area. Three Hydraulic Boosters, the ERIN, JESSIE and TEXAS JUNIOR, will be anchored at various points within the permitted submerged pipeline conveyance corridor to aid in pumping the dredge material from the Borrow Area to Whiskey Island. Work will be performed 24-hours a day, 7-days a week. The Dredge ALASKA and support vessels will be monitoring VHF-FM Channel 13 or 16. All vessels will display appropriate lighting and day markers as required by U.S. Coast Guard Regulations. All floating pipeline (Float Hose) and marker/anchor buoys will be highly visible and marked with yellow flashing lights. The submerged pipeline will be marked with regularly spaced orange Norwegian type buoys with Solas retro-reflective tape at a maximum spacing of 500 feet as well as yellow can buoys with yellow flashing lights at a maximum spacing of 2,500 feet apart. The Project is comprised of offshore borrow areas and the existing barrier island of Whiskey Island, in approximate positions:

LA - LAKE PONTCHARTRAIN - US 11 Bridge Rehabilitation Outside the Main Channel Spans

The contractor continues the rehabilitation work on the US 11 Bascule Bridge across Lake Pontchartrain between New Orleans and Slidell, Orleans and St. Tammany Parishes, Louisiana. The contractor will work Monday through Friday, from 6:30 a.m. until 5:30 p.m. Work on the project has begun on the Slidell side (north) and consist of inspections, measuring of cracks, sand blasting, grinding, spall repairs and wrapping of the piers and caps as necessary. The contractor has extended the scaffolding which extends a total of 2,400 feet north of the Bascule Bridge, as this entire section has a reduced vertical clearance of 8 feet, thus eliminating the availability by recreational boaters. The new scaffolding set-up, including moving cables to Span 421 to Span 398. The majority of the time workers are located between Span 489 to Span 398. Decking removal is complete to Span 489 to Span 470 as the project moves to Orleans side (south). The work area will be marked by danger buoys approximately 50 feet on either side of the bridge marking an exclusion zone for vessels to stay out of the work zone. The buoys will be spaced approximately 200 feet apart and will mark the entire length of the work area. The buoys will be lighted at night with Fl W 2.5 sec. lights. Mariners should avoid this area at all times. Additionally, the contractor has added an additional crane barge measuring 150 feet by 50 feet, to the existing barges (1 measuring 30 feet by 120 feet, with a height of 25 feet and 1 measuring 30 feet by 110 feet). There are also 2 flex floats and 1 supply barge located near the bridge within the work zone. When the contractor is not working at night and over the weekends, the barges will be grouped together and spud down away from the navigation span and near the work area. This equipment will be lighted by fixed white lights on each outward corner as required. During the work day, the Tug JO ANN SIMS will monitor VHF-FM Channel 16. The L&A Contracting Company is the contractor on the project and can be reached at (601) 270-7704, 24-hours a day. This project will take approximately 48 months to complete. In conjunction with this work, additional work beneath the bridge on the New Orleans Side (south) will have divers placing wraps during daylight hours, issued in a separate Local Notice to Mariners, for additional information.

Chart 11370

LNLM: 09-18

LA - MISSISSIPPI RIVER - MILE 128.0, AHOP, LDB - Spillway Operation

Continuing until further notice, the Bonnet Carré Spillway, located on the Mississippi River, in the vicinity of Mile 128.0, AHOP, LDB, 1.6 miles above Goodhope Landing, Louisiana, will be placed in operation. All vessels, particularly heavy loaded tows passing the site, are directed to steer a course sufficiently toward the opposite or right descending bank to avoid possible crosscurrents or drawdown resulting from water being diverted through the Spillway and flowing toward and into Lake Pontchartrain. The M/V KENT will be stationed on the LDB just north of the Spillway to monitor marine traffic on VHF-FM Channel 16 and 67. Should an incident occur between the Spillway and Mile 140.0, AHOP, involving an adrift vessel, barge, etc., the attending vessel or any other vessel in the vicinity should immediately report the incident to the M/V KENT. Terminal operators and fleet owners with facilities above Bonnet Carré Spillway should exercise every precaution to properly secure moored or anchored vessels, especially fleets of barges, to ensure that they do not breakaway as a result of increased velocities with the opening of this structure. Vessels operating in Lake Pontchartrain in the vicinity of the discharge area are cautioned to be on the lookout for possible logs or stumps which may be deposited into the lake due to the operations and should give that area a wide berth. Additionally, in order to protect persons and vessels from potential safety hazards, all recreational vessels and personal watercraft are to remain clear of the discharge area, including areas upstream and in the vicinity of the railroad trestle and Interstate 10 bridge.

LA - DES OIES BAYOU - Replacement Bridge Project

Louisiana Department of Transportation and Development replacement bridge project work continues on State Highway 45, Goose Bayou Bridge across Des Oies Bayou, mile 0.1, at Lafitte, Louisiana. The schedule of work is from 6:30 a.m. to 5:00 p.m., Monday through Friday. The equipment being used is crane barge measuring 20 feet by 54 feet and the material barge 20 feet by 30 feet. The pile driving has begun on the northeast side of the existing bridge. Periodically, the channel will have restrictions and there may be delays. The project manager assigned to the project can be contacted at (225) 615-5028. The tug assisting will be monitoring VHF-FM Channel 16 or 13. Mariners should use caution while transiting the waterway.

TX - HOUSTON SHIP CHANNEL - Baytown - Dredge Operation

Continuing until approximately May 31, 2018, the Dredge LINDA LAQUAY will be conducting dredging operations in the vicinity of Houston Ship Channel Light 115 (LLNR-25385) and Houston Ship Channel Light 109 (LLNR-25250). The dredge will have approximately 20,000 feet of submerged pipeline running on the green side of the channel in the vicinity of Houston Ship Channel Light 119 (LLNR-25435) into Peggy's Lake Placement Area.

Contractor's related floating plant includes 2 anchor barges, 3 tugboats, a supply barge and a fuel barge. Dredging will be performed 24-hours a day. The Dredge LINDA LAQUAY will be monitoring VHF-FM Channel 03 or 13. The Dredge LINDA LAQUAY can also be contacted, at (361) 487-6470. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

TX - CORPUS CHRISTI BAY - LA QUINTA CHANNEL - Temporary Precision Directional Light

The U.S. Coast Guard has discontinued the Q green night optic and installed a temporary Precision Directional Light (PDL) on La Quinta Channel Inner Range Front Light (LLNR- 28970). The PDL is user activated by keying the mic on VHF-FM Channel 83A, five times. Once activated it will remain on for 30 minutes. The PDL will operate with a Iso 6 second rhythm displaying a center white sector from 156.6 degrees true to 157.1 degrees true, a green sector from 157.1 degrees true to 157.6 degrees true and a red sector from 156.6 degrees true to 157.1 degrees true. The PDL is not effective seaward of La Quinta Channel Light 11 (LLNR-29050) and La Quinta Channel Light 12 (LLNR-29055).

TX - CORPUS CHRISTI HARBOR - TULE LAKE CHANNEL - Dredge Operation

Continuing until approximately May 31, 2018, Weeks Marine Inc., Clamshell Dredge J.C. DEVILLE will be operating in the vicinity of Tule Lake Channel, Corpus Christi, TX. The work perimeter will be the area bound by the following approximate positions:

- 27-49-12.9N 097-27-08.0W,
- 27-49-09.6N 097-27-16.6W,
- 27-49-05.7N 097-27-03.4W and
- 27-49-02.0N 097-27-13.6W.

Once underway, operations will continue 24-hours a day, 7-days a week. The Clamshell Dredge J.C. DEVILLE will be monitoring VHF-FM Channel 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

TX - CORPUS CHRISTI HARBOR - TULE LAKE CHANNEL - Crane Operations

Continuing until approximately June 8, 2018, Weeks Marine Inc., Crane Barge 752 will be operating in the vicinity of Tule Lake Lift Bridge, Corpus Christi, TX. The work perimeter will be the area bound by the following approximate positions:

- 27-49-12.87N 097-27-07.99W,
- 27-49-08.85N 097-27-17.97W,
- 27-49-07.59N 097-27-17.27W and
- 27-49-11.61N 097-27-07.36W.

Demolition operations will continue Monday through Saturday, from 6:30 a.m. until 5:30 p.m. Crane Barge 752 will be monitoring VHF-FM Channel 12 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

TX - BROWNSVILLE SHIP CHANNEL - Dismantle and Disposal of Navy Aircraft Carriers

Continuing until March 31, 2019, the International Shipbreaking Limited, LLC., Brownsville will be dismantling and disposing of 2 U.S. Navy aircraft carriers in Brownsville, TX. The west boundary will be in approximate position 25-57-50.8N 097-21-50.0W and the east boundary will be in approximate position 25-57-57.8N 097-21-27.0W. All commercial vessels, tour vessels, and pleasure/fishing craft are required to remain within the channel while passing the International Shipbreaking facilities. There will be overhead industrial work in progress which can pose a hazard to vessels in the vicinity of the facility. For additional information mariners can contact Omar Valdez, Facility Security Officer, ISL, at (956) 371-6228, email at omar.valdez@internationalshipbreaking.com., or Dan Richardson, U.S. Navy On-Site Representative (OSR), at (207) 751-2906, email Daniel.Richardson@supshipba.navy.mil.

NAVIGATION BULLETIN NO. 18-33

MISSISSIPPI RIVER
OLD RIVER CONTROL STRUCTURES PROJECT (UPDATE)

Reference Navigation Bulletin No. 18-27, dated 27 February 2018, stating that commencing on 4 March 2018 and continuing until further notice, the U.S. Government M/V FRED LEE will be performing picket boat duties at the inflow channels of the Low Sill and Auxiliary Control Structures. This is due to strong currents and turbulent water around the entrances to the inflow channels of the federally-owned Old River Auxiliary (mile 311.0 Above Head of Passes) and Low Sill Control Structures (mile 314.5 Above Head of Passes), and the privately-owned Sidney A. Murray, Jr. Hydroelectric Plant (mile 316.5 Above Head of Passes).

COMMENCING ON 3 MARCH 2018 AND CONTINUING UNTIL FURTHER NOTICE, MARINERS ARE ADVISED THAT THE U.S. GOVERNMENT M/V FRED LEE WILL BE PERFORMING PICKET BOAT DUTIES AT THE INFLOW CHANNELS OF THE LOW SILL AND AUXILIARY CONTROL STRUCTURES.

ADDITIONALLY, COMMENCING ON 8 MARCH 2018, THE U.S. GOVERNMENT M/V WILLIAM JAMES WILL ALSO BE PERFORMING PICKET BOAT DUTIES AT THE INFLOW CHANNELS OF THE LOW SILL AND AUXILIARY CONTROL STRUCTURES UNTIL FURTHER NOTICE. BOTH THE M/V FRED LEE AND M/V WILLIAM JAMES CAN BE REACHED ON VHF MARINE CHANNELS 13 AND 16.

During normal operation of these structures, a drawdown occurs at the entrances to the inflow channels. The drawdown becomes severe when the structures operate during high river stages. The inflow channel of each of the structures is marked with a flashing amber light that is located on the south bank of the entrance.

The inflow channels of these structures are NOT navigable channels and are restricted from recreational purposes due to the hazardous conditions. When in the vicinity of these structures, tows and other vessels should navigate between the red nun buoys and green can buoys that mark the navigation channel of the river. This is advised in order to avoid effects of crosscurrents caused by the drawdown.

Vessels in distress that are drawn into the inflow channel of any of the structures or within the restricted mooring zone (see 33 CFR Ch.1, part 162.80, 01 July 2005 Edition) in the Mississippi River (between mile 311.0 and 340.0 Above Head of Passes) should contact the M/V FRED LEE, M/V WILLIAM JAMES, or any of the following by marine radio or any other emergency means. The structures that are staffed 24 hours each day can be reached as follows:

- Old River Complex - VHF Channel 16 (Marine Radio) / (225) 492-2159 or (225) 492-2690 (Phone)
- Sidney A. Murray, Jr. Hydroelectric Plant - VHF Channel 16 (Marine Radio) / (225) 492-2153 ext. 207 (Phone)
- Old River Lock - VHF Channel 14 (Marine Radio) / (225) 492-3333 or (225) 492-2301 (Phone).

The point of contact with the New Orleans District is Russell Beauvais at (225) 492-2169 (Work) or (225) 202-3851 (Cell).

The following are information resources that are currently available and display in chart format the location of the hazardous conditions at the Old River Control Structures and the Sidney A. Murray, Jr. Hydroelectric Plant:

6 March 2018

NAVIGATION BULLETIN NO. 18-40

MISSISSIPPI RIVER
OLD RIVER CONTROL STRUCTURES PROJECT
SAFETY ZONE NOTICE (UPDATE)

Reference Navigation Bulletin No. 18-35, dated 5 March 2018, stating that effective 12 March 2018 and continuing until further notice, a safety zone will be established around the Old River Control Structures due to high river conditions.

MARINERS ARE ADVISED THAT THE SAFETY ZONE WILL GO INTO EFFECT 9 MARCH 2018 DUE TO THE RIVER STAGE EXCEEDING 60.0 FEET ON THE KNOX LANDING GAGE, WHICH IS LOCATED ON THE RIGHT DESCENDING BANK (RDB) OF THE MISSISSIPPI RIVER AT APPROXIMATE MILE 313.7 ABOVE HEAD OF PASSES (AHP) .

Mariners are advised that the restrictions are as follows:

1. A safety zone is in effect from the Black Hawk Point Light mile 316.1 Above Head of Passes (AHP), Lower Mississippi River (LMR), to a point opposite Fort Adams Light at approximate mile 311.5 AHP, LMR, to prevent vessels from being drafted towards the Old River Control Structures.
2. All vessels are required to check in with the U.S. Army Corps of Engineers assist tugs M/V Fred Lee or M/V William James on scene **prior** to entering the safety zone. They can be contacted on VHF-FM marine channels 13 and 16.
3. Vessels shall not meet or pass in the safety zone.
4. Vessels shall transit as far off the right descending bank as is safe.
5. No vessels shall anchor, stop, remain, or drift without power at any time in the safety zone.
6. Vessels are required to check out with the U.S. Army Corps of Engineers upon departing the safety zone.

The point of contact with the New Orleans District is Russell Beauvais at (225) 492-2169 (Work) or (225) 202-3851 (Cell).
