M/V Motor Vessel
S/V Sailing Vessel
MPH Miles Per Hour

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

NOTICE OF PLATFORMS, DRILL RIGS AND ATTENDANT VESSELS

The drill rigs and vessels that have been temporarily established will display lights and sound signals, according to size or class, during periods of darkness and reduced visibility. Numerous large anchor buoys which may be lighted displaying a white 4-seconds characteristic light and unlighted buoy may be established up to 2,000 or more yards from the vessel or rig site. Mariners should avoid passing close aboard the rigs or vessels. Offshore structures that have been established will display lights and a fog signal sounding 1 blast (2-sec. blast) every 20-seconds. Mooring buoys (white with blue band) may be located within 500 yards of the structure for mooring attendant vessels and/or barges. Mariners should avoid passing close aboard structures.

LNM: DPW/PRIV AIDS

GPS TESTING

At times, throughout our area or responsibility, multiple U.S. Government Agencies conduct GPS testing. These tests vary in duration, affected range from the test site and potential impact to the maritime user as they may affect systems that rely on GPS such as E-911, AIS and DSC. More information is available at the U.S. Coast Guard Navigation Center Website, <https://www.navcen.uscg.gov>. During these periods, GPS users are encouraged to report any GPS outages that they may experience, to the Navigation Information Service (NIS) by calling (703) 313-5900 or by using the NAVCEN Website to submit a GPS problem report.

LNM: 07-19

SPECIAL NOTICE - HURRICANE SEASON

The hurricane season is considered to extend from June 1, 2020 through November 30, 2020. Tropical storms and hurricanes often develop with little warning. Extensive damage to small craft often results in loss of life. All mariners, particularly operators of small fishing vessels, are reminded that advanced planning which might prevent loss of vessel and crew should include:

- (a) Instruction of crew and passengers in location of emergency equipment and emergency procedures.
- (b) Presailing check of vessel, machinery, and equipment for seaworthiness.
- (c) Installation of strong ground tackle.
- (d) Review of storm center evacuation procedures.
- (e) Knowledge of nearest hurricane shelter or port.
- (f) Constant radio watch on VHF-FM Channel 16 and frequent monitoring of VHF-FM Weather Channel for National Weather Service Broadcasts.

Due to tropical storms and hurricanes, mariners should be aware that aids to navigation along the coasts of Florida, Alabama, Mississippi, Louisiana and Texas, and on structures in the Gulf of Mexico and surrounding waters may have been damaged or destroyed. Lighted and unlighted buoys may have been moved from charted position, damaged, sunk, extinguished, or otherwise made inoperative. Mariners should not rely completely upon the position or operation of an aid to navigation, but should also employ such other methods of determining position as may be available. Wrecks and submerged obstructions may have been moved from charted locations and pipelines may become uncovered or moved, due to the force of storm surges. Storm surge and winds may create shoals in affected waters. The U.S. Aids to Navigation system marking wrecks and obstructions is intended for use with nautical charts. The exact meaning of a particular aid to navigation may not be clear to the mariner unless the appropriate nautical chart is consulted. Virtually all U.S. lateral marks are located in IALA Region B and follow the traditional 3R rule of red, right, returning. In U.S. waters, returning from seaward and proceeding toward the head of navigation is generally considered as moving westerly along the Gulf Coast. Mariners should exercise caution and report aid to navigation discrepancies and hazards to navigation to the nearest Coast Guard unit.

During the hurricane season, drawbridges along the coast may deviate from normal operating procedures. Some bridges may be unable to open

because of high winds. Others may be authorized extended closed periods to facilitate evacuation of land traffic. Mariners should anticipate bridge closures by listening to the National Weather Service and Coast Guard Broadcasts on hurricane conditions. Because of the uncertainty of hurricane movements and bridge closures, mariners are urged to seek passage through drawbridges well in advance of the arrival of gale force winds.

Locks and Navigation Structures are operated to pass navigation until such time, that water levels and wind conditions warrant operations unsafe. The structures are then closed in accordance with hurricane preparation procedures. Mariners will be given as much notice as possible when structures are to be closed. However, these structures may be closed on short notice well in advance of the actual storm. Mariners are advised to seek safe harbor as soon as possible.

LNM: 20-20

SPECIAL NOTICE - HURRICANE SEASON

Mariners are advised that the Hurricane Season extends from June 1, 2020 to November 30, 2020.

Locks and Navigation Structures operated by the U.S. Army Corps of Engineers will attempt to pass navigation until such time that water levels and wind conditions render operations unsafe. The structures are then closed in accordance with Hurricane procedures.

Mariners will be given as much notice as possible when structures are to be closed. However, these structures may be closed on short notice well in advance of the actual storm. Mariners are advised to seek safe harbor as soon as possible.

General information for the New Orleans District can be found at: <https://www.mvn.usace.army.mil>

Mariners using the following structures should consult the respective agency listed below for updates:

- * GIWW Sector Gate (on the Inner Harbor Navigation Canal Surge Barrier) - Southeast Louisiana Flood Protection Authority-East

U.S. MARITIME ADVISORY 2020-006

This revised advisory updates and cancels U.S. Maritime Advisory 2020-005.

1. References: (a) U.S. Maritime Alert 2020-002A.
- (b) U.S. Coast Guard (USCG) Maritime Safety Information Bulletins (MSIBs) on Novel Coronavirus (COVID-19)
2. Issue: Current info on COVID-19 for mariners and maritime commerce stakeholders is being published through USCG MSIBs, which are available within the 2020 drop down at <https://go.usa.gov/xdsP5>. This information will be updated as the situation warrants.
3. Guidance: Mariners should reference the latest Coast Guard MSIBs, per paragraph 2 above, for USCG, State Department, and CDC guidance, including travel guidance.
4. Contact Information: Maritime industry questions about COVID-19 guidance and requirements should be communicated to OutbreakQuestions@uscg.mil, local USCG Captain of the Port (COTP) offices, or to a vessel's appropriate COTP for its next port of call.

LNM: 11-20

LA - GIWW MILE 176.0, WHL TO ATCHAFALAYA RIVER MILE 98.0 - Waterways Analysis and Management System Study

The U.S. Coast Guard is conducting a Waterways Analysis and Management System Study on the GIWW, from Mile 176.0, WHL, to the Atchafalaya River Mile 98.0. The study focuses on the existing near shore aids to navigation system, waterborne commerce, marine casualty information, and future development projects. The purpose of this study is to determine the navigational requirements of vessels operating in the in shore environment. Individual operators and interested maritime industry representatives are requested to provide comments and feedback using the Local Notice Feedback email below. Comments and feedback can be emailed to: LocalNoticeFeedback@uscg.mil with GIWW to ATCHAFALAYA RIVER WAMS as the subject line. All comments can also be mailed to:

LNM: 25-20

U.S. COAST GUARD EIGHTH DISTRICT - GULF OF MEXICO - OUTER CONTINENTAL SHELF - MARINE SAFETY INFORMATION BULLETIN - EXTENSION OF THIRD PARTY SURVEYS

In light of the ongoing impacts of the novel coronavirus (COVID-19), and to help minimize the possible spread of the virus offshore, the U.S. Coast Guard D8 Outer Continental Shelf is allowing operators to self-extend expiration dates through July 31, 2020, for third party surveys that are normally conducted offshore. This extension only applies to U.S. Coast Guard regulated systems and includes those inspections related to firefighting and lifesaving equipment, as well as those parts of crane testing reviewed by the U.S. Coast Guard. Operators are expected to continue performing maintenance and inspections that would regularly be completed by the crew onboard the facility. It should be noted that this extension does not apply to any system regulated by any other Government Organization and it is not applicable to units that are subject to the Convention for the Safety of Life At Sea (SOLAS). For these vessels, it is recommended that you contact your Flag State for direction on this type extension. Any questions regarding this bulletin should be sent to ocscorrespondence@uscg.mil or LCDR Mickey Dougherty, at (504) 671-2106.

LNM: 26-20

LA - MISSISSIPPI RIVER - Old River Lock

Continuing until approximately September 30, 2020, due to repairs on the Lock Emergency Bulkhead Lowering Carriage, and the procedures contained in this bulletin, tows entering the Lock are urged to use extreme caution while approaching and entering the lock chamber. While approaching the Lock, the following are required for passage:

1. Tows are to enter the Lock at DEAD SLOW speed.
2. All tows are restricted to no longer than 1,100 feet in length.
3. All tows will line up along the floating guidewall before proceeding.
4. Two line-handlers with life vests and bumpers will be required on both approach and exiting of the Lock.
5. Vessels must be moored by bow and stern lines to floating timberheads.

Again, use extreme caution when locking through Old River Lock. The Lockmaster, Anthony T. Lindsly, can be reached at (225) 492-3333, for up-to-date information. The point of contact with the USACE New Orleans District is Russell Beauvais, at (225) 492-2169.

LNM: 13-20

FL - AL - GA - APALACHICOLA - CHATTAHOOCHEE RIVER SYSTEM - WATER LEVEL INFORMATION/CHANNEL CONDITION - UPDATE

The U.S. Coast Guard is unable to service aids to navigation on the Chattahoochee River between Walter F. George and George W. Andrews Locks and Dams. The U.S. Coast Guard is reporting multiple buoys missing between Mile 75.0 and Mile 46.5. Mariners are urged to exercise extreme caution when transiting near Mile 68.0, on the Chattahoochee River, due to an unmarked rock wall. The U.S. Coast Guard is reporting shoaling on the Chattahoochee River below George W. Andrews Lock and Dam and between Mile 2.0 through Mile 5.0. Mariners are urged to exercise extreme caution when transiting the Chattahoochee and Apalachicola Rivers, as the aids to navigation may be missing, submerged, or

not reliable. U.S. Coast Guard Aids to Navigation Team Eufaula will continue servicing aids as weather and river conditions allow.
LNM: 29-20

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR						
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3				CGD01 at 40-41-09.001N	074-02-48.001W
Corrective Action	Green can Object of Corrective Action				Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

<u>Approved Project(s)</u>	<u>Project Date</u>	<u>Ref. LNM</u>
None		

Advance Notice(s)

TX/LA – SABINE AND NECHES RIVER – Sabine River

Due to an underwater obstruction preventing a pile to be driven, the Coast Guard is unable to rebuild Old River Obstruction Light 2A (LLNR-23265) and will be making the following change after August 4, 2020:
Change Old River Obstruction Light 2A (LLNR-23265) in approximate position 30-04-43.790N/093-43-33.390W to Old River Obstruction Lighted Buoy 2A (LLNR-23265) showing Q R, 3NM nominal range, Red.

Chart 11343 LNM: 23/20

FL – ST. ANDREW BAY – St Andrew Bay

Due to increased water depths and vessel traffic in the St Andrew Bay, the Coast Guard will be making the following changes after August 4, 2020:
Establish St Andrew Bay 26 V-AIS (LLNR-3482/31082) in approximate position 30-07-49.219N/085-37-51.450W, showing as a Virtual AIS Aid with MMSI to be determined.
Establish St Andrew Bay West 12 V-AIS (LLNR-3592/31158) in approximate position 30-10-30.290N/085-43-36.975W, showing as a Virtual AIS Aid with MMSI to be determined.

Chart 11391 LNM: 23/20

TX/LA – SABINE AND NECHES RIVER – Neches River

Due to a dredging project in the Neches River, the Coast Guard will be making the following changes after August 11, 2020:
Relocate Neches River Light 40 (LLNR-23450) in approximate position 30-00-54.120N/094-00-06.700W to 30-00-58.645N/094-00-21.547W, showing FI R 4s, 4NM nominal range, TR on pile, Ra Ref.
Establish Neches River Light 38 (LLNR-23447) in approximate position 30-00-51.838N/093-59-54.453W, showing Q R, 4NM nominal range, TR on pile, Ra Ref.

Chart 11343 LNM: 24/20

TX – MATAGORDA BAY – Matagorda Ship Channel

In order to provide a more efficient and effective Aid to Navigation signal, the Coast Guard will be making the following change after August 18, 2020:

Change Matagorda Ship Channel Light 11 (LLNR-27165) in approximate position 28-25-34.457N/096-19-46.130W from 8NM nominal range to 6NM nominal range.

Chart 11317

LNM: 25/20

LA – ISLES DERNIERES TO POINT AU FER – Bayou Grand Caillou

Due to shallow water in Bayou Grand Caillou, the Coast Guard is unable to rebuild Bayou Grand Caillou Daybeacon 11 (LLNR-18005) and will be making the following Aid to Navigation change after August 18, 2020:

Change Bayou Grand Caillou Daybeacon 11 (LLNR-18005) in approximate position 29-11-14.586N/090-55-40.903W to Bayou Grand Caillou Buoy 11 (LLNR-18005) showing Green can.

Chart 11356

LNM: 25/20

TX – GALVESTON BAY ENTRANCE – Galveston Bay Entrance Channel

In order to provide a more efficient and effective Aid to Navigation signal, the Coast Guard will be making the following changes after September 1, 2020:

Change Galveston South Jetty Light 5A (LLNR-23720) in approximate position 29-19-39.647N/094-41-20.402W from 6NM nominal range to 5NM nominal range.

Change Galveston North Jetty Light 6A (LLNR-23725) in approximate position 29-20-42.173N/094-40-41.445W from 6NM nominal range to 5NM nominal range.

Chart 11324

LNM: 27/20

FL – PENSACOLA BAY – Bayou Chico

In order to provide a more efficient and effective Aid to Navigation signal, the Coast Guard will be making the following change after September 1, 2020:

Change Bayou Chico Daybeacon 13 (LLNR-5340) in approximate position 30-24-18.213N/087-15-14.897W to Bayou Chico Buoy 13 (LLNR-5340), showing Green can.

Chart 11383

LNM: 27/20

MS – DOG KEYS PASS TO WAVELAND – Cat Island Channel

Due to maritime needs of vessels operating in the vicinity of the Cat Island Channel along with the available water depths, the Coast Guard will be making the following Aid to Navigation Changes after September 1, 2020:

Discontinue Cat Island Channel Buoy A (LLNR-10145) in approximate position 30-10-46.719N/089-07-25.133W.

Discontinue Cat Island Channel Buoy B (LLNR-10150) in approximate position 30-11-24.919N/089-08-33.635W.

Discontinue Cat Island Channel Buoy C (LLNR-10155) in approximate position 30-12-02.717N/089-09-48.138W.

Discontinue Cat Island Channel Buoy D (LLNR-10160) in approximate position 30-12-32.717N/089-10-59.141W.

Discontinue Cat Island Channel Buoy E (LLNR-10165) in approximate position 30-12-16.467N/089-12-32.245W.

Discontinue Cat Island Channel Buoy F (LLNR-10170) in approximate position 30-11-46.816N/089-13-30.247W.

Discontinue Cat Island Channel West Buoy 2 (LLNR-10175) in approximate position 30-10-55.864N/089-14-49.015W.

Discontinue Cat Island Channel West Buoy 4 (LLNR-10180) in approximate position 30-10-00.697N/089-16-11.836W.

Chart 11372

LNM: 27/20

AL – MOBILE BAY – Mobile Channel

The Coast Guard will be making the following change after September 15, 2020:

Discontinue Theodore Ship Channel Buoy 1A (LLNR-6540) in approximate position 30-28-38.405N/088-01-07.900W.

Chart 11376

LNM: 29/20

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

<u>Proposed Project(s)</u>	<u>Closing</u>	<u>Docket No.</u>	<u>Ref. LNM</u>
None			

Proposed Change Notice(s)

AL – MOBILE BAY – Mobile Channel

The Coast Guard is proposing the following Aid to Navigation Change:

Change Arlington Channel Junction Buoy (LLNR-6690/7555) in approximate position 30-38-40.688N/088-02-01.991W to Arlington Channel Junction Buoy A (LLNR-6690/7555) showing Green can with red band.

Comments will be taken until July 28, 2020. Please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil

Chart 11376

LNM: 22/20

TX – GALVESTON BAY TO CEDAR LAKES – Freeport – Port O'Connor – Brazos River Crossing

Due to the Brazos River Lock expansion plan, the Coast Guard is proposing the following Aid to Navigation changes:

Discontinue Brazos River Crossing Light 2 (LLNR-37395) in approximate position 28-53-48.575N/095-23-01.367W.

Discontinue Brazos River Crossing Light 4 (LLNR-37400) in approximate position 28-53-48.535N/095-23-09.158W.

Comments will be taken until August 4, 2020. Please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil.

FL – WEST BAY TO SANTA ROSA SOUND – Choctawhatchee Bay – Old East Pass Harbor Channel

The Coast Guard is proposing the following Aid to Navigation Change:

Discontinue Old East Pass Harbor Channel Buoy 2 (LLNR-4590) in approximate position 30-23-33.091N/086-30-37.981W.

Comments will be taken until August 11, 2020. Please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil.

LA – MISSISSIPPI RIVER – New Orleans to Baton Rouge

The Coast Guard is proposing the following Aids to Navigation Changes:

Change Huey P Long Bridge Approach Buoy C (LLNR-14045) in approximate position 29-56-33.658N/090-10-11.886W, from an AIS Aid to a V-AIS Aid named Huey P Long Bridge Approach C V-AIS with assigned MMSI 993682002.

Change Hale Boggs Luling Bridge Approach Buoy A (LLNR-14240) in approximate position 29-56-31.012N/090-22-21.069W, to an AIS Aid with MMSI to be determined.

Change Hale Boggs Luling Bridge Approach Buoy B (LLNR-14245) in approximate position 29-56-36.784N/090-22-32.791W, from a Physical Aid to a V-AIS Aid named Hale Boggs Luling Bridge Approach B V-AIS with MMSI to be determined.

Change Hale Boggs Luling Bridge Approach Buoy C (LLNR-14250) in approximate position 29-56-38.922N/090-22-39.000W, to an AIS Aid with MMSI to be determined.

Change Gramercy Bridge Approach Buoy 1 (LLNR-14555) in approximate position 30-02-45.215N/090-40-11.131W, to an AIS Aid with MMSI to be determined.

Change Gramercy Bridge Approach Buoy 3 (LLNR-14560) in approximate position 30-02-38.507N/090-40-25.727W, from a Physical Aid to a V-AIS Aid named Gramercy Bridge Approach 3 V-AIS with MMSI to be determined.

Change Gramercy Bridge Approach Buoy 5 (LLNR-14565) in approximate position 30-02-36.515N/090-40-29.939W, to an AIS Aid with MMSI to be determined.

Change Sunshine Bridge Approach Buoy 1 (LLNR-14835) in approximate position 30-05-46.671N/090-54-53.317W, from an AIS Aid to a V-AIS Aid named Sunshine Bridge Approach 1 V-AIS with assigned MMSI 993682009.

Change Sunshine Bridge Approach Buoy B (LLNR-14845) in approximate position 30-05-58.176N/090-54-46.531W, from an AIS Aid to a V-AIS Aid named Sunshine Bridge Approach B V-AIS with assigned MMSI 993682011.

Establish Sunshine Bridge Approach 4 V-AIS (LLNR-14846) in approximate position 30-06-00.50N/090-54-36.83W showing as a V-AIS Aid with MMSI to be determined.

Comments will be taken until August 18, 2020. Please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil.

LA – MISSISSIPPI RIVER DELTA – Tiger Pass

Due to extensive shoaling in Tiger Pass the Aids to Navigation are unreliable and misleading to waterway users between Tiger Pass Light 23 (LLNR-15535) and Tiger Pass Daybeacon 26 (LLNR-15550). The Coast Guard is proposing the following Aids to Navigation changes:

Change Tiger Pass Light 23 (LLNR-15535) in approximate position 29-09-14.699N/089-23-43.287W to Tiger Pass Danger Light "L" (LLNR-15535) showing Fl W 2.5s, 3NM nominal range, NW on pile, worded DANGER L, Ra Ref.

Discontinue Tiger Pass Buoy 24 (LLNR-15540) in approximate position 29-09-18.474N/089-23-33.216W.

Change Tiger Pass Daybeacon 25 (LLNR-15545) in approximate position 29-09-30.524N/089-23-20.519W to Tiger Pass Danger Daybeacon "N" (LLNR-15545) showing NW on pile, worded DANGER N, Ra Ref.

Change Tiger Pass Daybeacon 26 (LLNR-15550) in approximate position 29-09-27.601N/089-23-19.889W to Tiger Pass Danger Daybeacon "M" (LLNR-15550) showing NW on pile, worded DANGER M, Ra Ref.

Comments will be taken until September 1, 2020. Please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil.

LA – MISSISSIPPI RIVER – New Orleans to Baton Rouge

In order to provide a more efficient and effective Aid to Navigation signal, the Coast Guard is proposing the following Aid to Navigation Changes:

Change Lower Belmont Crossing Lower Side Range Front Light (LLNR-14640) in approximate position 30-01-07.659N/090-45-57.285W showing F G, Visible all around; higher intensity on range line to showing Q G, Visible all around.

Change Lower Belmont Crossing Lower Side Range Rear Light (LLNR-14645) in approximate position 30-01-09.625N/090-45-54.666W showing F G, Visible all around; higher intensity on range line to showing Iso G 6s, Visible all around.

Change Lower Belmont Crossing Upper Side Range Front Light (LLNR-14660) in approximate position 30-01-06.599N/090-46-07.464W showing F R, Visible all around; higher intensity on range line to showing Q R, Visible all around.

Change Lower Belmont Crossing Upper Side Range Rear Light (LLNR-14665) in approximate position 30-01-09.172N/090-46-04.044W showing F R, Visible all around; higher intensity on range line to showing Iso R 6s, Visible all around.

Comments will be taken until September 15, 2020. Please email comments regarding this proposal to: LocalNoticeFeedback@uscg.mil.

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

FL - GULF OF MEXICO - U.S. Navy Testing

Continuing until approximately December 31, 2020, the U.S. Navy will be conducting inert underwater mine and Airborne Mine Neutralization System (AMNS) destructor testing in the Gulf of Mexico, in an area approximately 39 nautical miles southwest of the Panama City Pass. The inert mine destructors are silver and orange, 3 feet long, 6 inches in diameter and weigh approximately 2 pounds in water, while weighing 35 pounds in air. Inert mine bottom shapes and inert mine destructors will be deployed, operated and tested in the below test areas during this period. AMNS testing will consist of surface ship operations to include the following: R/V SEWEE or R/V STARFLEET PATRIOT and Project Support Crafts (PSC) 02, 03, 05, 08, 11 or PSC 12; however, additional R/Vs may be added in the future. It is requested that all vessels maintain a one nautical mile CPA of all vessels while operations are in progress. All U.S. Navy / U.S. Navy contracted AMNS support vessels will monitor VHF-FM Channel 16. For up-to-date information, mariners can contact Mr. Robertson, at (850) 230-7698 or via e-mail at William.f.robertson@navy.mil. The corners of the test

FL - GULF OF MEXICO - U.S. Navy Testing

areas are as follows:

Test Area Tango:

29-56-25.20N 085-54-36.00W,
29-58-55.20N 085-54-36.00W,
29-58-55.20N 085-51-42.60W and
29-56-25.20N 085-51-42.60W.

Charts: 1115A 11360

LNM: 08-20

FL - GULF OF MEXICO - PORT ST. JOE - Unmanned Maritime Vessel Operations

Commencing approximately August 1, 2020 and continuing until approximately September 30, 2020, Liquid Robotics, Inc., will conduct continuous autonomous, unmanned maritime vessel operations in the Northern Gulf of Mexico, within 20 nautical miles of the line between approximate positions 29-41-09.2N 085-34-22.1W and 29-09-23.3N 085-34-02.6W. Operations consist of scientific ocean data collection. Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from our Wave Glider Operations Center (WGOC), moving at speeds of typically 1 knot and designed to give way or part if encountered by a vessel. The unmanned maritime vessel is surfboard-sized, copper/black in color, with a contact plaque and mast extending approximately 1 meter above the surface, supporting a flag. Mariners are urged to transit the area with caution. For up-to-date information, mariners can contact Liquid Robotics Operations Center, at (408) 636-4205, or by email at; support@liquidr.com.

Charts: 1115A 11360

LNM: 29-20

FL - GULF OF MEXICO - U.S. Navy Testing

Continuing until approximately October 1, 2020, the U.S. Navy will be conducting test operations in several areas south of Panama City, Florida, aboard primary vessel M/V PATRIOT, or from suitable alternative platform. Primary test areas are in the vicinity of 29-57-00.0N 086-53-00.0W (100-foot op area) and 29-40-00.0N 086-19-00.0W (330-foot op area). It is requested that all surface vessels remain at least 2 nautical miles from test vessels working in these areas as they are likely to be under restricted maneuverability towing conditions during test events. There are also items on the sea floor and in the water column in these general areas. Any items moored close enough to the surface to be a hazard to navigation will be lighted, buoyed, and/or guarded while deployed for short durations during the test period. M/V PATRIOT will be on station in these areas during test events scheduled at a frequency of approximately 3-5 days per week. Concerned traffic should contact the U.S. Navy Support Vessel on VHF-FM Channel 16, heed all instructions given, and stay a minimum of 2 nautical miles from vessels on station in any of these operational areas. Additionally, it is requested that all trawler operations within 2 nautical miles of the op area positions given be avoided at all times as U.S. Navy equipment has been deployed in these areas and will remain in these areas through the duration of the test event.

FL - OCHLOCKONEE RIVER - Bridge Rehabilitation

Approval has been given to repair fender and the navigational lighting that was damaged from Hurricane Michael on the Ochlockonee River, Mile 2.0, the (SR 30/US 98), Franklin County, Florida. The work is scheduled to begin July 22, 2020, from 7:00 a.m., to 6:00 p.m., 4-days a week, Monday through Thursday, until September 3, 2020. A 16-foot by 5-foot vessel will be present within the area of the bridge monitoring VHF-FM Channel 16. For additional information, mariners can contact (850) 245-7939. Mariners are requested to exercise caution when transiting the area.

Chart 11405

LNM: 29-20

FL - ST. GEORGE SOUND - Channel Condition

Shifting channel conditions have been reported in the vicinity of St. George Island. An unlit red nun has been temporarily established, St. George Island Buoy 2A (LLNR TBD) in position 29-37-09.213N 084-57-45.822W, in 6.6 feet of water. Mariners are urged to use caution when transiting this area.

FL - PANAMA CITY HARBOR - Dredge Operation

Continuing until approximately November 30, 2020, Dredge E. STROUD will be conducting dredging operations in the Panama City Harbor in Panama City, Florida. Dredging will be performed in the Terminal Channel and Entrance Channel. The dredged material from the Terminal Channel will be disposed into existing open water sites and dredged material from the Entrance Channel will be placed onto the beach of St. Andrews Park, located west of the channel. The dredge will utilize floating and submerged pipeline, in addition to a number of support vessels. All vessels will be lighted in accordance to U.S. Coast Guard Safety Regulations. The dredge plant can be contacted on VHF-FM Channels 13 and 16. Mariners should exercise extreme caution when transiting this area. For further information, mariners can contact USACE Panama City Site Office, at (850) 784-9780.

LNM: 26-20

FL - TOMS BAYOU - Bridge Modifications and New Construction

The SR 397 (John Sims Parkway), across Toms Bayou, Mile 0.50, at Valparaiso, Okaloosa County, Florida, Phase II is scheduled until November 2020, the demolition of the northbound bridge and replacement with a new bridge. During construction, the contractor will designate different navigational channels and updates will follow. They will utilize two 80-foot by 80-foot section crane spud barges, a 40-foot by 40-foot material spud barge, four 20-foot by 10-foot section material barges, the Tug MISS RONDA and a crew work boat. VHF-FM Channel 13 or 16, will be monitored for communications. This equipment should be lighted according to the "Inland Navigational Rules of 1980." Mariners should avoid the area, travel through the navigation spans and urged to proceed at slowest safe speed with extreme caution. Anyone needing assistance should call the contractor at (334) 319-7006 or the FDOT at (850) 333-4389.

- Green 30-38-18.0N 087-55-17.0W and
- Green 30-38-24.8N 087-55-31.6W.

The structures have not been approved by the U.S. Coast Guard and the positions have not been verified. Mariners are urged to use caution when transiting this area.

Chart 11376

LNM: 29-20

AL - ALABAMA RIVER - Channel Condition

Due to severe shoaling and unknown channel depths, all mariners are advised to not rely on floating Aids to Navigation within the Alabama River. Until a 9-foot channel depth is restored and maintained, the U.S. Coast Guard will not be conducting Aids to Navigation Patrols on the Alabama River.

Chart 11376

LNM: 38-19

AL/MS - TENNESSEE-TOMBIGBEE WATERWAY - Survey Operations

Periodic inspection survey work will be conducted at Howell Heflin L/D, Tennessee Tombigbee Waterway Mile 266.0, during the week of August 10, 2020. Every effort will be made to coordinate the work to minimize the impacts to navigation traffic. However, to accomplish two specific survey requirements, possible delays of up to 6-hours could occur. Mariners should contact the lock operator during this period to receive an update on the status of the work and the possibility of any delay. For further information, mariners can contact Howell Heflin Lock, at (205) 652-9258 or Roger Wilson, Jr. at the Tennessee-Tombigbee Project Management Office at (662) 245-5486.

LNM: 29-20

AL - TENNESSEE-TOMBIGBEE WATERWAY - Lock Closure - UPDATE

The Howell Heflin L/D in the vicinity of Mile 266.1, will be shut down for maintenance, continuing until July 26, 2020, at noon. For additional information, mariners can contact Mr. Chad Brumelow at the BWT/Alabama-Coosa Project Management Office, at (205) 752-3571 or Mr. Roger Wilson, Jr., at the Tennessee-Tombigbee Project Management Office, at (662) 245-5500.

LNM: 29-20

MS - TENNESSEE-TOMBIGBEE WATERWAY - Survey Operations

Periodic inspection survey work will be conducted at Aberdeen L/D, Tennessee Tombigbee Waterway, Mile 357.5, during the week of August 4, 2020. Every effort will be made to coordinate the work to minimize the impacts to navigation traffic. However, to accomplish two specific survey requirements, possible delays of up to 6-hours could occur. Mariners should contact the lock operator during this period to receive an update on the status of the work and the possibility of any delay. For further information, mariners can contact Aberdeen Lock, at (662) 369-7966 or Roger Wilson, Jr. at the Tennessee-Tombigbee Project Management Office at (662) 245-5486.

LNM: 29-20

MS - TENNESSEE-TOMBIGBEE WATERWAY - Dredge Operation

Continuing until approximately July 26, 2020, Dredge KELLY L., and attendant plant will be conducting dredging operations on the Tennessee-Tombigbee Waterway, near Mile 366.0, on Aberdeen Lake. Operations will be conducted 24-hours per day, 7-days per week. Dredge material will be disposed in the permitted upland disposal area AB-12. Dredge KELLY L., and attendant plant can be contacted via VHF-FM Channel 16. For further information please contact Roger Wilson, Jr. or Joshua Oliver, at the Tennessee-Tombigbee Project Management Office, at (662) 245-5500. Mariners are urged to transit the area at their slowest safe speed to minimize wake.

LNM: 26-20

AL - TENNESSEE-TOMBIGBEE WATERWAY - Lock Closure

Recreational traffic will not be allowed to lock through Montgomery Lock, in the vicinity of Mile 406.7, for the duration of the Whitten Lock closure. Damage to the minimum flow structure gate at Whitten Lock has reduced flows into Montgomery Pool. Lockages for recreational traffic will be suspended to conserve water and maintain pool level for commercial navigation. The minimum flow structure gate at Whitten Lock is currently under repair during the lock closure. For additional information, mariners can contact Mr. Roger Wilson, Jr., at (662) 245-5486 or (662) 574-7316.

LNM: 29-20

AL - TENNESSEE-TOMBIGBEE WATERWAY - Lock Closure - UPDATE

AL - TENNESSEE-TOMBIGBEE WATERWAY - Lock Closure - UPDATE

The Jamie Whitten L/D in the vicinity of Mile 411.9, will be shut down for maintenance, continuing until August 10, 2020, at noon. For up-to-date information, mariners can contact Mr. Roger Wilson Jr., at the Tennessee Tombigbee Project Office, at (662) 245-5500.

LNM: 29-20

AL - BLACK WARRIOR-TOMBIGBEE WATERWAY - Lock Closure

Commencing approximately August 18, 2020, at 7:00 a.m., and continuing until noon on, August 27, 2020, the Holt Lock and Dam on the Black Warrior Tombigbee Waterway, near Mile 347.0, will be shut down for maintenance. For additional information, mariners can contact Mr. Chad Brumelow at the BWT/Alabama-Coosa Project Management Office (CESAM-OP-BA), at (205) 752-3571.

LNM: 25-20

MS - PASCAGOULA HARBOR - BAYOU CASOTTE SHIP CHANNEL - Dredge Operation

Continuing until August 10, 2020, the Hopper Dredge COLUMBIA will be conducting dredging operations in the vicinity of the Pascagoula Bar Channel and Bayou Casotte Ship Channel. Survey Vessel CAPE ANNE will also be on-scene. Dredged material will be transported to designated offshore disposal site on board the Hopper Dredge COLUMBIA. There will be no pipelines, tugs, or barges used for this project. Trawling Vessel, WILD DREAM II, will be used to relocate endangered species out of the channel. Dredge COLUMBIA and attendant vessels will monitor the VHF-FM Channels 13, 16 and 69. Mariners are urged to use caution when transiting the area.

Charts: 11373 11375

LNM: 24-20

MS - MISSISSIPPI SOUND - Partially Submerged and Adrift Vessel

A pontoon boat has been reported partially submerged and adrift, north of Ship Island, in approximate position 30-16-24.0N 088-57-52.0W, on July 15, 2020. The pontoon boat is reportedly not marked. Mariners are urged to use caution in this area and report any findings/sightings to their nearest U.S. Coast Guard unit.

Charts: 11373 11374

LNM: 29-20

MS - MISSISSIPPI SOUND - Barrier Island Restoration/Dredge Operation

Continuing until December 31, 2020, Hydraulic Dredge ELLIS ISLAND will be conducting island restoration and dredging operations in the vicinity of Ship Island. In support of the dredging operations, auxiliary equipment that may include, but is not limited to, tugs, barges, anchor barges and derricks will arrive and stage prior to commencement. Both floating and submerged pipeline will be staged with the auxiliary equipment in preparation for this project. Temporary occupancy and storage of equipment will be in the following locations:

On the southwest side of the railroad bridge in Biloxi Bay.

North side of Horn Island, adjacent to Dog Key Pass.

North side of Ship Island

See attached enclosures of charts for further details. All equipment will be lighted and marked as per U.S. Coast Guard regulations. These markers should NOT be used for navigation, and mariners are advised to maintain a safe distance.

Dredge ELLIS ISLAND will be connected to approximately 300 feet of floating pipeline that will direct connect to submerged pipeline. The submerged pipeline will run from the connection indicated on the drawings to Ship Island. All pipeline and vessels will be marked and lighted in accordance with U.S. Coast Guard regulations. Operations will be performed 24-hours a day, 7-days a week.

See attached enclosure of charts for further details. Dredge ELLIS ISLAND will monitor VHF-FM Channel 13 or 16. For further information, mariners can contact Nicholas Williams, Project Manager, at (630) 247-2256, or Mario Martinez, QC Manager, at (806) 292-5637.

Charts: 11373 11374

LNM: 21-20

MS - MISSISSIPPI SOUND - BAYOU CADDY - Dredge Operation

Continuing until further notice, Magnolia Dredge and Dock's Pipeline Dredge GRAND CHENIER will be conducting maintenance dredging operations in Bayou Caddy. The dredge will be disposing material from the Bayou Caddy Channel into the nearby marsh creation site and open water site adjacent to the channel. The dredge plant will monitor VHF-FM Channels 13 and 16. Mariners should exercise extreme caution when transiting this area. For further information, mariners can contact the USACE, Irvington Site Office, at (251) 957-6019.

Chart 11371

LA - TCHEFUNCTA RIVER - Permit Amendment Action - Public Notification

All interested parties are notified that an application from the State of Louisiana, Louisiana Department of Transportation and Development has been received by the Commander, Eighth Coast Guard District for a Coast Guard Bridge Permit Amendment for the approval to modify the existing dual fixed bridges over a navigable waterway of the United States. The applicant proposes to modify the existing Eastbound and Westbound Interstate 12 (I-12) highway bridges across the Tchefuncta River, Mile 10.8, at Covington, St. Tammany Parish, LA., by increasing and improving capacity and safety while supporting regional growth. Both horizontal and vertical clearance will remain the same. The project proposes to remove the existing bridge protective system (fenders) using the same navigational clearance alignments.

Public Notice (01-20) dated June 15, 2020, has been issued regarding this proposed bridge permit amendment. The public notice contains a description of the work, a location map and bridge drawings with navigational clearances. Interested parties may view the public notice at the following website:

https://www.navcen.uscg.gov/pdf/bridges/publicNotices//D08gPN01-20_DualBridgesTchefuncteRiverMile_CovingtonLA.pdf.

LNM: 28-20

LA - CALCASIEU LAKE - Surveying/Dredging/Rock Placement Operations

Continuing until approximately November 30, 2020, Tarpan Construction, LLC., will be conducting surveying, earthen terraces, dredging, rock placement and dewatering operations on the southern bank of the GIWW, beginning 1,700 feet west of the Gibbstown Bridge and continuing west for almost two miles in Cameron Parish, LA. Hours of operation for all construction items will be 10-hours a day, 6-days a week. Dredging will be conducted 24-hours a day, 7-days a week. Rock barges as well as construction barges will be operating and staged approximately 100-150 feet from the southern shore line within this work zone.

Starting approximate position: 29-56-01.6N 093-05-07.3W.

Ending approximate position: 29-56-07.4N 093-06-42.4W.

The goal of this project is to restore the function, value and sustainability to approximately 22,247 acres of marsh and open water by improving hydrologic conditions via freshwater input and increasing organic productivity. M/V CAPT. BUFORD will monitor VHF-FM Channel 7 and 16. Mariners are urged to use caution when transiting the area.

NOTICE OF MARINE SEISMIC SURVEY
MARINE OCEAN BOTTOM SEISMIC SURVEY
APRIL-SEPTEMBER 2020

Seismic source vessel - SW Emerald

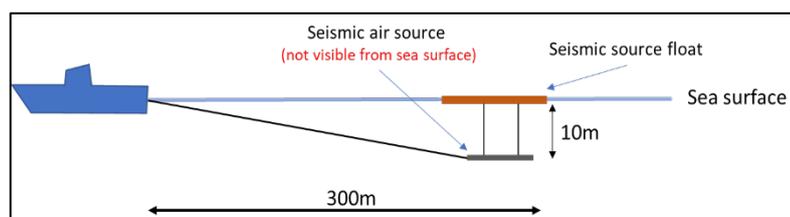

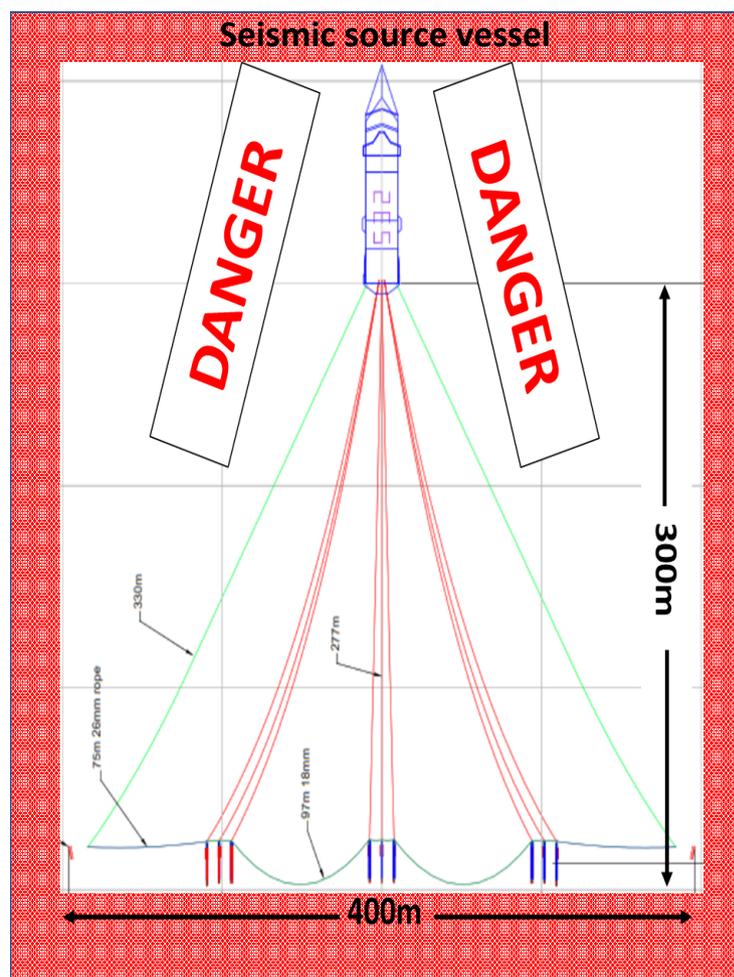

Seismic source vessel – SW Diamond

ROV deployment vessel – Harvey Deep Sea

Seismic supply vessel – Marianne-G

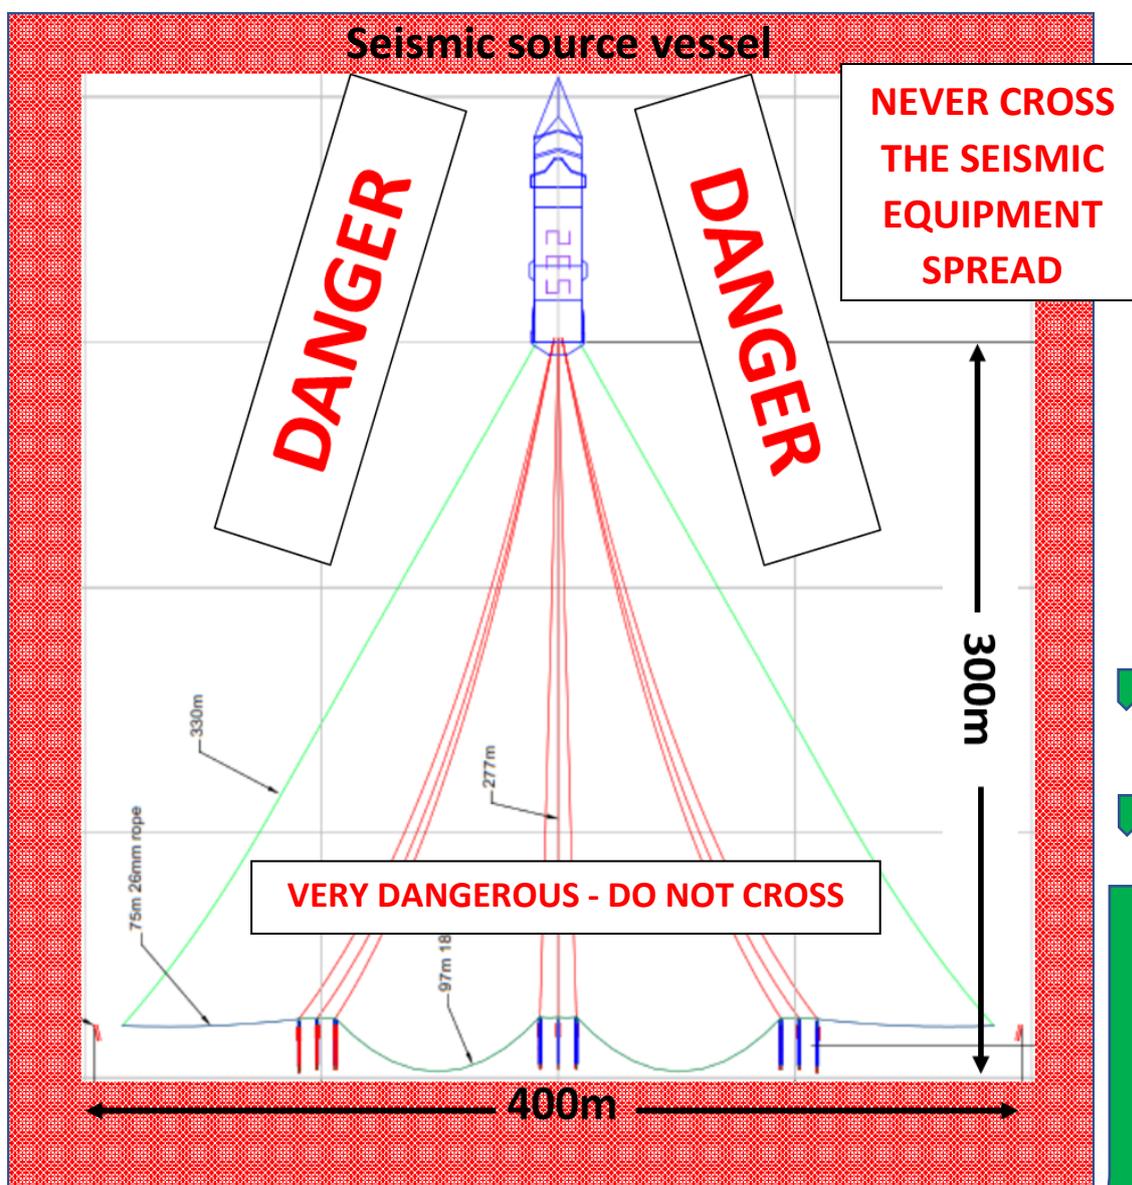

SAFETY WARNING TO MARINERS, DIVERS AND FISHERMEN

TGS will be conducting an ocean bottom seismic survey with the SW EMERALD, SW DIAMOND and HARVEY DEEP SEA, starting approximately on the 20th APRIL for a period of 160 days. The SW EMERALD and SW DIAMOND will act as seismic source vessels towing a source array of approximately 300m (0.18Nm) length and 400m (0.2Nm) width astern of the vessel. The HARVEY DEEP SEA will deploy the ocean bottom recording equipment (nodes) using up to 2 ROVs. The 2 ROVs will position the seismic recording equipment on the seafloor at predefined positions up to 600m either side of the HARVEY DEEP SEA. While towing the seismic source arrays and deploying the seafloor seismic recording equipment, the vessels are restricted in their manoeuvrability and will be moving at a speed of between 1knot and 4,5 knots. The vessels will be assisted by supply vessel Marianne-G. All vessels can be contacted via VHF ch. 16.

NOTE: THE COMPRESSED AIR RELEASED CAN BE HAZARDOUS TO DIVERS, FOR THE SAFETY OF YOUR PERSONNEL, SHIP AND EQUIPMENT, YOU ARE REQUESTED TO KEEP WELL CLEAR OF THIS SURVEY VESSEL AND ITS TOWED EQUIPMENT.

NOTICE OF MARINE SEISMIC SURVEY
 MARINE OCEAN BOTTOM SEISMIC SURVEY
 APRIL-SEPTEMBER 2020

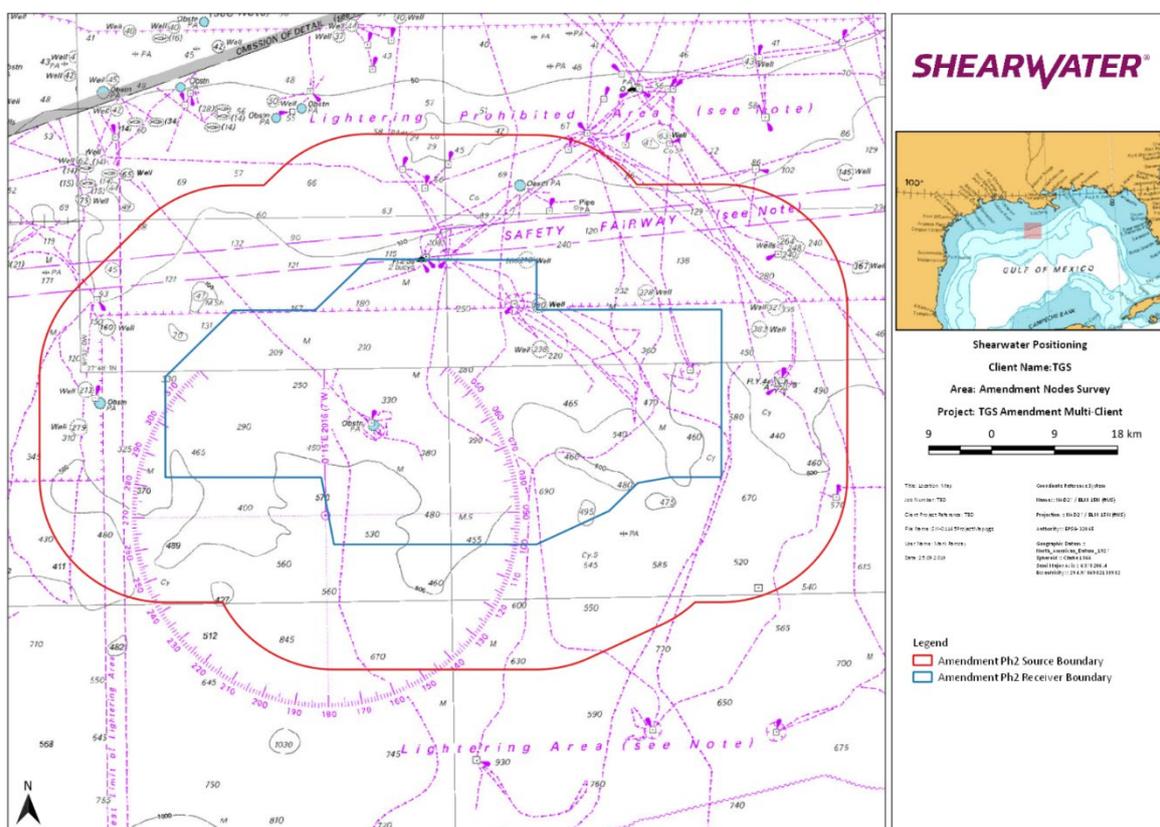

VESSEL RESTRICTED IN ITS MANOEUVRABILITY

VESSELS ARE REQUESTED NOT TO CROSS OVER THE SEISMIC EQUIPMENT SPREAD AND MAINTAIN A MINIMUM DISTANCE OF 1Nm ASTERN OF THE VESSEL, 2Nm AHEAD OF THE VESSEL AND 1Nm ON EACH SIDE OF THE SEISMIC EQUIPMENT

Serial Letter No.: 12190206-27

Reference: Terrebonne Basin Barrier Island and Beach Nourishment/
West Belle Headland Restoration (TE-143/TE-118)
Terrebonne and Lafourche Parishes, Louisiana

Subject: Notice to Mariners for Clamshell Dredge "Weeks 262" and Hydraulic
Dredge(s) E.W. Ellefsen **and R.S. Weeks**

Dear Sir or Madam,

Continuing until approximately 30 September 2020 the hydraulic dredge E.W. Ellefsen, Spider Barge and attendant plant will be operating inside the South Pelto borrow area (see work limits below). Dredged material will be loaded by the spider barge onto scow barges and transported to the Weeks Marine "320 Unloader" located at the West Belle conveyance corridor near coordinates: 29° 3'38.78"N, 90°15'41.20"W. **Location of Weeks "3301 Booster" near coordinate: 29°04'51.32"N, 90°15'28.13"W**

Continuing until approximately **31 July 2020, the Clamshell Dredge "Weeks 262"** will be excavating access channels at Trinity East Island and West Belle Headland areas, Terrebonne Basin, LA. Dredged material will be placed on the designated temporary sidecast disposal areas per plans and contract specifications.

Starting approximately 1 August 2020 the hydraulic dredge R.S. Weeks, and attendant plant will be operating inside the Ship Shoal borrow area near coordinate: 28°54'18.90"N, 90°39'31.47"W (see work limits below). Dredged material will be transported through combination of floating and submerged pipeline. Location of Weeks "3302 Booster" near coordinates: 38°57'40.47"N, 90°40'54.09"W

Proposed pipeline corridor and booster location from Trinity East Island to Ship Shoal Borrow Area will be bound by the following approximate positions.

29° 2'57.75"N, 90°43'38.35"W

29° 3'10.15"N, 90°42'38.38"W

28°54'35.17"N, 90°39'15.29"W

28°54'21.56"N, 90°39'54.70"W

Buoy locations for submerged line at Trinity East:

29° 3'0.94"N, 90°43'15.62"W

29° 2'53.27"N, 90°43'12.50"W

29° 6'42.76"N, 90°12'36.93"W
29° 6'22.30"N, 90°11'26.25"W
29° 6'45.97"N, 90°11'6.13"W

Access Channel for Delivery of Supplies:

29°10'0.41"N, 90°14'21.21"W
29° 9'35.65"N, 90°13'34.51"W

29° 7'44.13"N, 90°14'34.26"W
29° 8'14.78"N, 90°15'30.02"W

Once underway, operations will continue on a twenty-four (24) hours per day, seven days per week basis. The dredge and attendant plant will have all required Coast Guard lighting for night operations. Dredge, tugs/barges will monitor marine VHF channels 11,13 and 72. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

Your office will be notified immediately if there are any changes to our schedule. If you have any questions or require additional information, please do not hesitate to contact me at (985) 875-2564 or macruz@weeksmarine.com or please contact project manager(s) or superintendent(s) on site:

Cheniere Sabine Pass LNG Berth 3 Expansion
Bechtel Subcontract No. 26012-140-HC2-CM50-00160
Great Lakes Dredge and Dock Company Project No. 84604

Designation: Dredging and excavation of a new marine berth (Berth 3) to the existing Cheniere Sabine Pass Liquefaction (SPL) facility located in Cameron Parish, Louisiana on the Sabine Pass River (Ship Channel).

Contractor:	Corporate Office: Great Lakes Dredge & Dock Company, LLC 2122 York Road Oak Brook, IL 60523 Ph. (630)-574-3000	Field Office: Port City Marine Yard c/o GLDD 8010 S. 1st Avenue Sabine Pass, TX 77655
--------------------	---	---

Contract Duration: Approximate Mobilization Commencement: July 1st, 2020
Approximate Dredging Commencement: August 15th, 2020
Approximate Work Completion: February 28th, 2021
-24hrs/day, 7days/week

Equipment:

Major Equipment "Name"	Communication
Hydraulic Dredge "Alaska"	Satellite Phone: 443-838-1711
Booster Barge "Texas Jr."	Marine VHF Channels 13 and 16
Survey Boat "West Bay"	Operator Eli Crosby: 727-385-7786
Crew Boat "Brooke Elizabeth"	Marine VHF Channels 13 and 16
Tug- TBD	Marine VHF Channels 13 and 16
Tug- TBD	Marine VHF Channels 13 and 16
Tug- TBD	Marine VHF Channels 13 and 16
Crane Barge "Derrick 69"	Marine VHF Channels 13 and 16

Communications: All GLDD equipment shall monitor Marine VHF Channels 13 and 16. Bridge/Main Control Station shall also monitor VTS frequency 01A VFH-FM.

Current Operations:

Great Lakes Dredge and Dock Company, LLC (GLDD) has begun mobilization activities for the creation of Cheniere Sabine Pass LNG Berth 3 under the direction of Bechtel, Oil, Gas, and Chemicals Inc. (Bechtel) utilizing Subcontract No. 26012-140-HC2-CM50-00160. GLDD intends to commence dredging activities on or near August 1st, 2020. Operations will occur 24 hours a day, 7 days a week.

Mobilization activities consist of waterside equipment mobilization to the permitted waterside staging area west of the Sabine River Channel and west of Point Hunt Island. A drawing with coordinates are provided in the following pages. GLDD is mobilizing approximately 22,000 linear feet of rafted pipeline, float hose, a derrick barge, an anchor barge, booster barge, three tugs, and additional work vessels. After all equipment and materials arrive, the pipeline will be assembled in the staging area and prepped for submerged placement in the project site.

Dredging will consist of approximately 3.6 million cubic yards of material from Cheniere Energy and Bechtel property along the Sabine River Channel to be transferred through GLDD submerged pipeline to the Dredged Material Placement Area (DMPA). The dredging area (Sabine Pass LNG Berth 3), the proposed submerged pipeline placement area, the approximate location of the booster barge, and the DMPA is also outlined in the attached drawings. The maximum allowable depth for removal of material in the dredging area is minus 48 feet (NAVD88).

Mariners are urged to use extreme caution in the area. For dredging and placement operations, mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

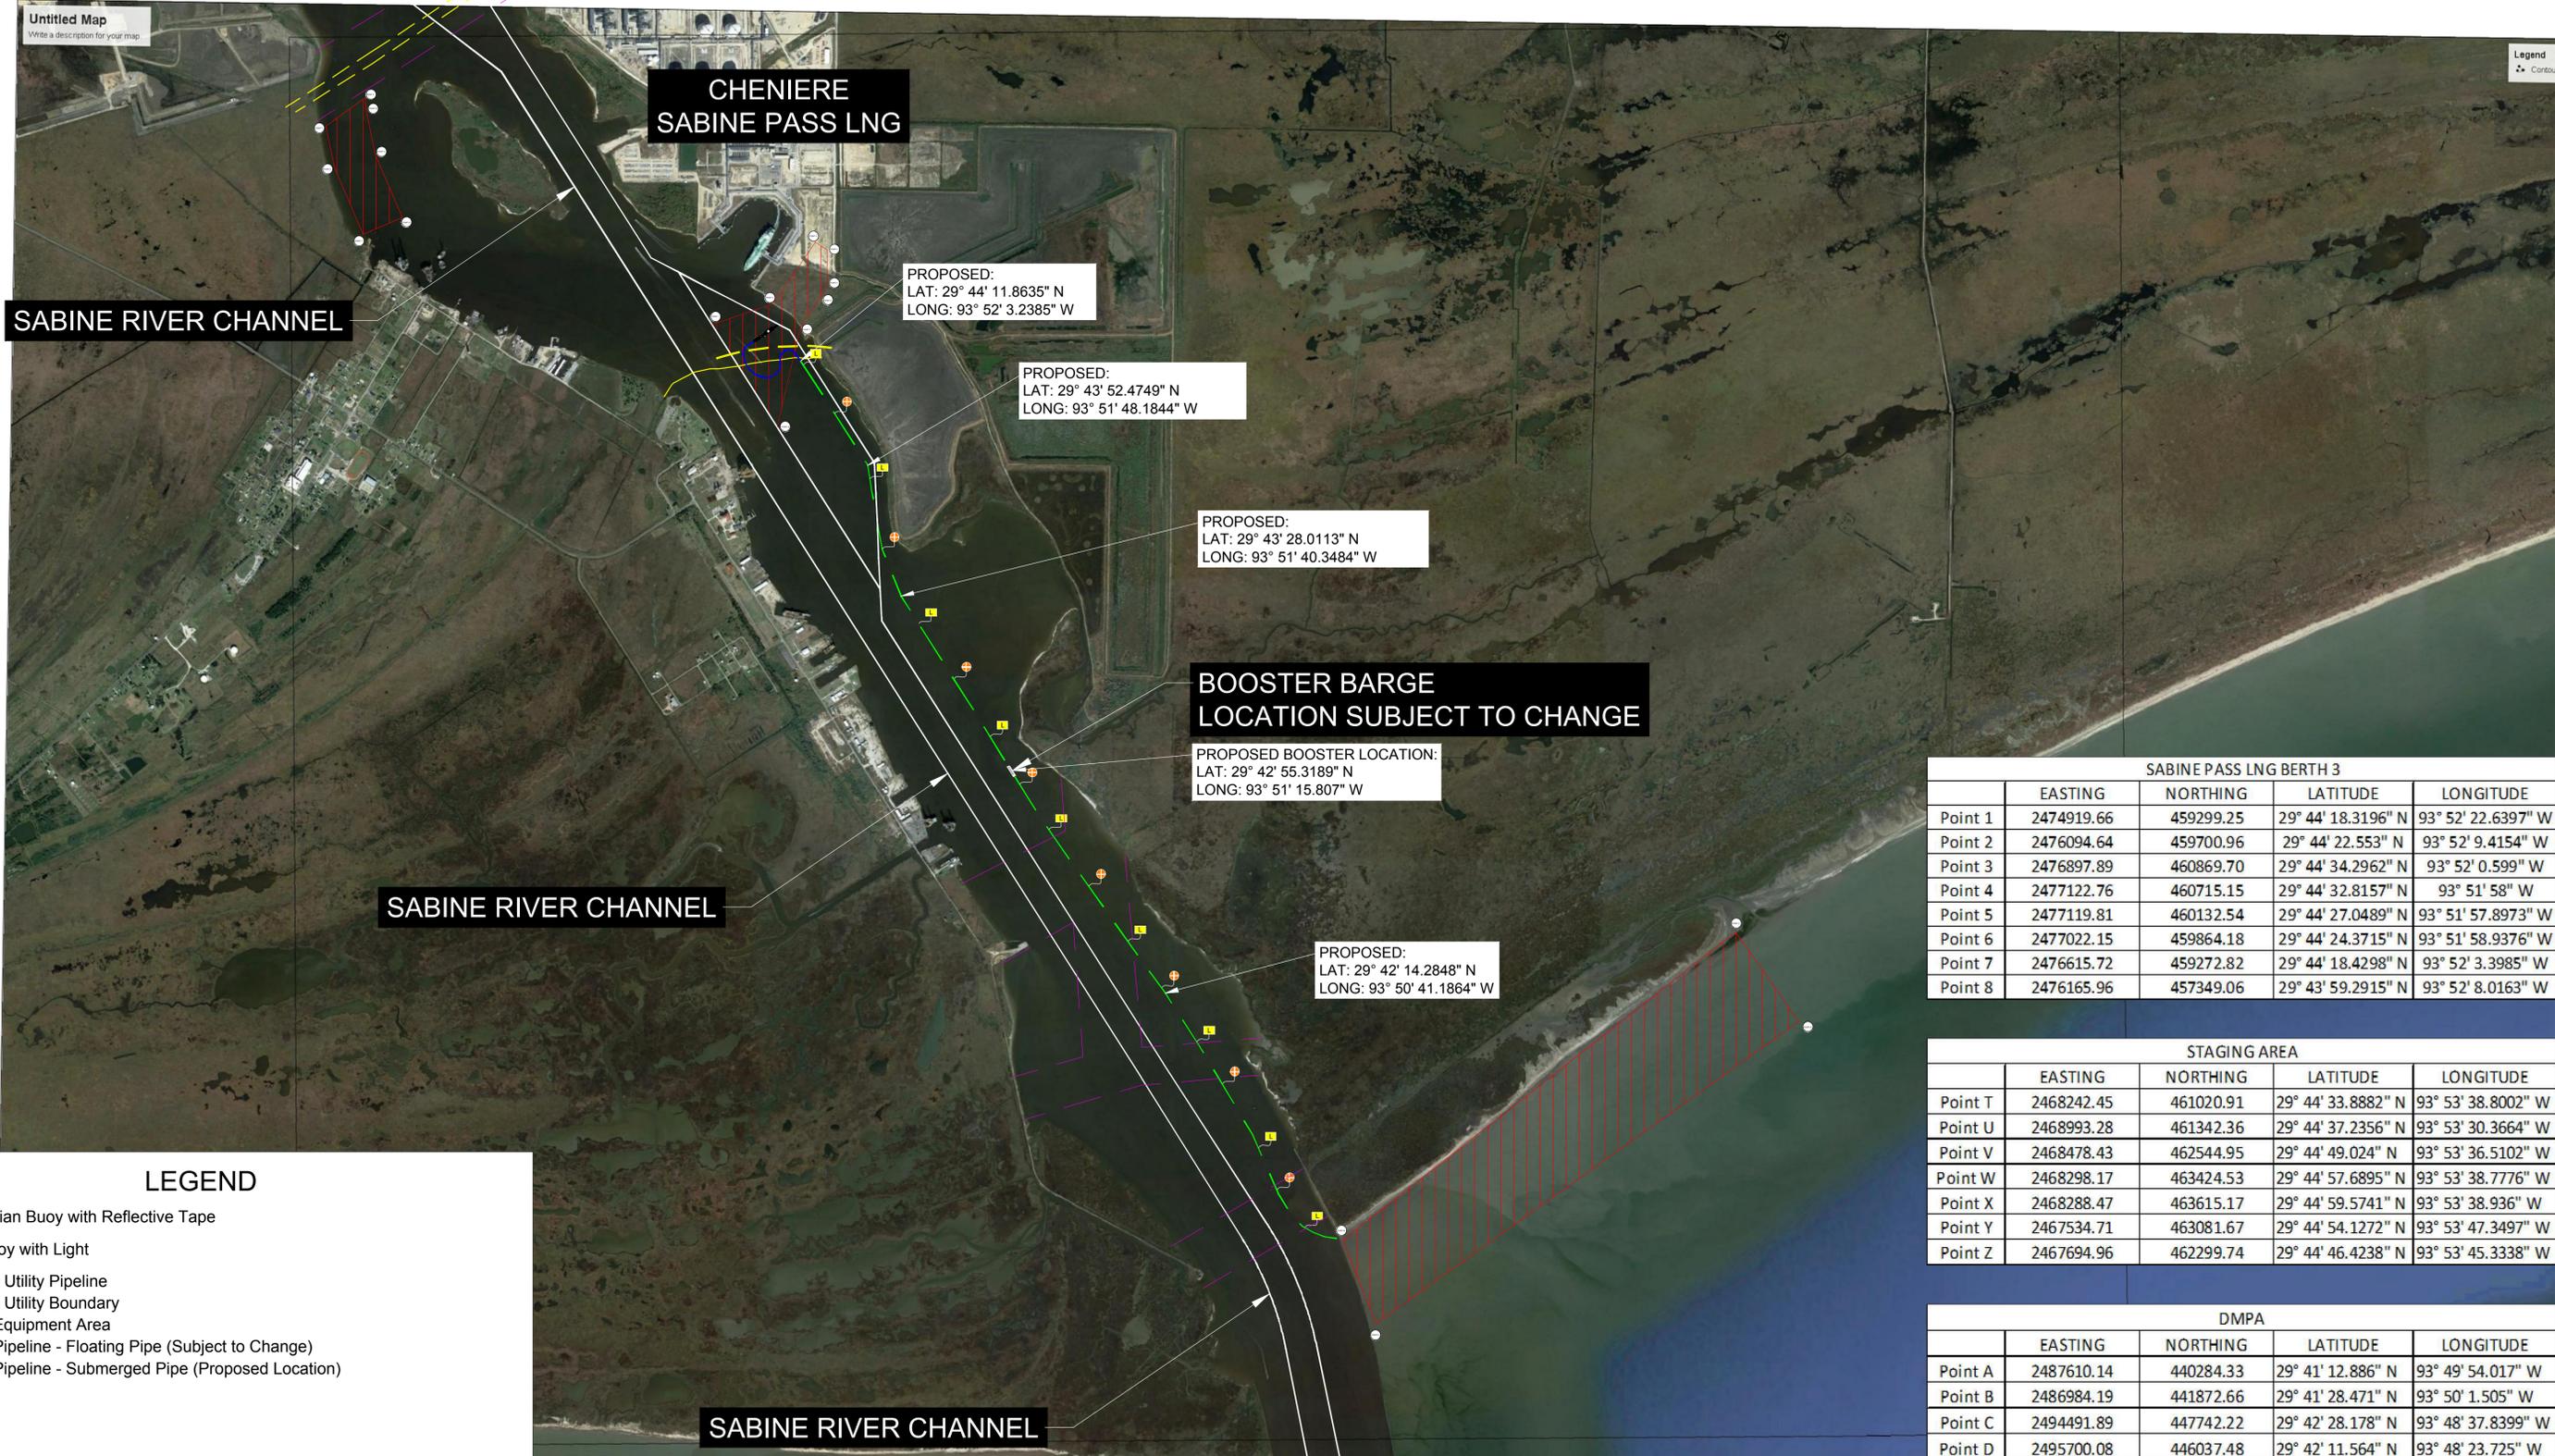

GLDD understands that circumstances that warrant specific maritime precautions must be handled on a case-by case basis in coordination with the local U. S. Coast Guard representatives. GLDD requests that the U.S. Coast Guard disseminate information provided in this notification to the general maritime community through Local Notice to Mariners publications and marine band broadcasts.

GLDD will report project updates on status and equipment location changes as needed throughout the duration of the project via e-mail and/or phone. Should you have any questions concerning this project, please contact GLDD Site Managers Nathan Stevick (630-247-6207 / NStevick@gldd.com), Keith Pearce (904-616-7290 / KPearce@gldd.com), or Project Manager David Mills (630-209-1874 / DMills@gldd.com).

Sincerely,

Christy DiFelice
