bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station

EXT - Extinguished
F - Fixed
fl - flash
Fl - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

MRGO Mississippi River - Gulf Outlet
HWY Highway
IHNC Inner Harbor Navigation Canal
F/V Fishing Vessel
AP Assigned Position
CPA Closest Point of Approach
COTP Captain of The Port
SOLAS Safety of Life at Sea

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

NOTICE OF PLATFORMS, DRILL RIGS AND ATTENDANT VESSELS

The drill rigs and vessels that have been temporarily established will display lights and sound signals, according to size or class, during periods of darkness and reduced visibility. Numerous large anchor buoys which may be lighted displaying a white 4-second characteristic light and unlighted buoy may be established up to 2,000 or more yards from the vessel or rig site. Mariners should avoid passing close aboard the rigs or vessels. Offshore structures that have been established will display lights and a fog signal sounding 1 blast (2-sec. blast) every 20-seconds. Mooring buoys (white with blue band) may be located within 500 yards of the structure for mooring attendant vessels and/or barges. Mariners should avoid passing close aboard structures.

LNM: DPW/PRIV AIDS

DEPARTMENT OF HOMELAND SECURITY SUSPICIOUS ACTIVITY

The Department of Homeland Security (DHS) encourages the maritime public to report information concerning suspicious activity to the local Federal Bureau of Investigation Joint Terrorism Task Force (JTTF) Office, http://www.fbi.gov/about-us/investigate/terrorism/terrorism_jttfs, or to other appropriate authorities. The U.S. Coast Guard reminds the maritime industry that they may also report information concerning suspicious activity to the www.AmericasWaterwayWatch.org, the National Response Center (NRC) 1-800-424-8802 or 1-877-24WATCH.

LNM: DPW

SPECIAL NOTICE - HURRICANE SEASON

The hurricane season is considered to extend from June 1, 2018 through November 30, 2018. Tropical storms and hurricanes often develop with little warning. Extensive damage to small craft often results in loss of life. All mariners, particularly operators of small fishing vessels, are reminded that advanced planning which might prevent loss of vessel and crew should include:

- (a) Instruction of crew and passengers in location of emergency equipment and emergency procedures.
- (b) Presailing check of vessel, machinery, and equipment for seaworthiness.
- (c) Installation of strong ground tackle.
- (d) Review of storm center evacuation procedures.
- (e) Knowledge of nearest hurricane shelter or port.
- (f) Constant radio watch on VHF-FM Channel 16 and frequent monitoring of VHF-FM Weather Channel for National Weather Service Broadcasts.

Due to tropical storms and hurricanes, mariners should be aware that aids to navigation along the coasts of Florida, Alabama, Mississippi, Louisiana and Texas, and on structures in the Gulf of Mexico may have been damaged or destroyed. Lighted and unlighted buoys may have been moved from charted position, damaged, sunk, extinguished, or otherwise made inoperative. Mariners should not rely completely upon the position or operation of an aid to navigation, but should also employ such other methods of determining position as may be available. Wrecks and submerged obstructions may have been moved from charted locations and pipelines may become uncovered or moved, due to the force of storm surges. Storm surge and winds may create shoals in affected waters. The U.S. Aids to Navigation system marking wrecks and obstructions is intended for use with nautical charts. The exact meaning of a particular aid to navigation may not be clear to the mariner unless the appropriate nautical chart is consulted. Virtually all U.S. lateral marks are located in IALA Region B and follow the traditional 3R rule of red,

right, returning. In U.S. waters, returning from seaward and proceeding toward the head of navigation is generally considered as moving westerly along the Gulf Coast. Mariners should exercise caution and report aid to navigation discrepancies and hazards to navigation to the nearest Coast Guard unit.

During the hurricane season, drawbridges along the coast may deviate from normal operating procedures. Some bridges may be unable to open because of high winds. Others may be authorized extended closed periods to facilitate evacuation of land traffic. Mariners should anticipate bridge closures by listening to the National Weather Service and Coast Guard Broadcasts on hurricane conditions. Because of the uncertainty of hurricane movements and bridge closures, mariners are urged to seek passage through drawbridges well in advance of the arrival of gale force winds.

Locks and Navigation Structures are operated to pass navigation until such time, that water levels and wind conditions warrant operations unsafe. The structures are then closed in accordance with hurricane preparation procedures. Mariners will be given as much notice as possible when structures are to be closed. However, these structures may be closed on short notice well in advance of the actual storm. Mariners are advised to seek safe harbor as soon as possible.

LNM: 21-18

SPECIAL NOTICE - HURRICANE SEASON

Mariners are advised that the Hurricane Season extends from June 1, 2018 until November 30, 2018.

Locks and Navigation Structures operated by the U.S. Army Corps of Engineers will attempt to pass navigation until such time that water levels and wind conditions render operations unsafe.

The structures are then closed in accordance with Hurricane procedures. Be advised that this includes the Harvey Canal Sector Gate, located in the Harvey Canal immediately south of the Lapalco Bridge at mile marker 2.8 of the Gulf Intracoastal Waterway (GIWW) West of Harvey Lock (WHL).

Mariners will be given as much notice as possible when Structures are to be closed. However, these Structures may be closed on short notice well in advance of the actual storm. Mariners are advised to seek safe harbor as soon as possible.

General information for the New Orleans District can be found at: <http://www.mvn.usace.army.mil>

Mariners using the following structures should consult the respective agency listed below for updates:

- * GIWW Sector Gate (on the Inner Harbor Navigation Canal Surge Barrier) - Southeast Louisiana Flood Protection Authority-East
- * Bayou Bienvenue Floodgate - Southeast Louisiana Flood Protection Authority-East

TX - FREEPORT HARBOR CHANNEL - Waterways Analysis and Management System Study - UPDATE

The U.S. Coast Guard is conducting a Waterways Analysis and Management System Study on the Freeport Harbor Channel. The study focuses on the existing near shore aids to navigation system, waterborne commerce, marine casualty information, and future development projects. The purpose of this study is to determine the navigational requirements of vessels operating in the offshore and near shore environment. Individual operators and interested maritime industry representatives are requested to provide comments and feedback using the Local Notice Feedback email below. Comments must be received by September 8, 2018.

The Freeport Harbor Channel WAMS User Feedback Form is enclosed; Comments and feedback can be emailed to: LocalNoticeFeedback@uscg.mil with Freeport Harbor Channel as the subject line. All comments can also be mailed to:

CHANGES TO THE NATIONAL RADIOFACSIMILE BROADCAST SCHEDULES FROM THE BOSTON, MA; PT. REYES, CA; AND KODIAK, AK, EFFECTIVE SEPTEMBER 4, 2018

The National Weather Service (NWS), National Centers for Environmental Prediction (NCEP), Ocean Prediction Center (OPC), in cooperation with the U.S. Coast Guard, will be incorporating 72-hour forecast information into the radiofacsimile broadcasts from Boston, MA (call sign NMF), Pt. Reyes, CA (call sign NMC), and Kodiak, AK (call sign NOJ). The introduction of the 72-hour forecast information into the radiofacsimile schedule will take place September 4, 2018. The OPC began producing 72-hour forecast information March 7, 2018.

To add new information to the radiofacsimile broadcasts, the schedules will be adjusted. The new schedule can be found on the OPC internet page at:

<https://ocean.weather.gov/radiofaxupdate.php>

and on the NWS Marine Program page at:

<http://www.nws.noaa.gov/om/marine/home.htm>

No forecast information will be removed as a result of this change. The current Worldwide Marine Radiofacsimile Broadcast schedule can be found at: <http://www.nws.noaa.gov/os/marine/rfax.pdf>

Users of these products do not need to take any actions in order to continue receiving them. Please send comments or requests for more information to:

OPC Operations Branch Chief Darin Figurskey at:

Darin.figurskey@noaa.gov

301-683-1497

NWS Marine Program Leader Darren Wright at:
 darren.wright@noaa.gov
 301-427-9283
 National Service Change Notices are online at:
<https://www.weather.gov/notification/>

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only.

It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01	
(Temp)	ADD	NATIONAL DOCK CHANNEL BUOY 3			at 40-41-09.001N	074-02-48.001W
		Green can				
	Corrective Action	Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true.

Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

<u>Approved Project(s)</u>	<u>Project Date</u>	<u>Ref. LNM</u>
None		

Advance Notice(s)

TX – MATAGORDA BAY – LAVACA BAY – PORT LAVACA HARBOR OF REFUGE

The following change will be made after the week of August 14, 2018.

Due to shoaling and shallow water depths at the entrance to Port Lavaca Harbor of Refuge, the Coast Guard is unable to service Daybeacon 10.

The Coast Guard will make the following change.

Change Port Lavaca Harbor of Refuge Day beacon 10 (LLNR-27815) in approximate position 28-35-33.923N/096-36-46.506W to Port Lavaca Buoy 10 (LLNR-27815) in approximate position 28-35-33.923N/096-36-46.506W, showing a red nun.

Chart 11317

LNM: 25/18

TX – ELLENDER TO GALVESTON BAY – PORT ARTHUR – GALVESTON – BOLIVAR PENNISULA

The following change will be made after the week of August 14, 2018. Due to a history of Bolivar Peninsula Buoys 19 and 20 frequently being knocked off station the Coast Guard proposes the following changes in order to improve the visibility of Aton in the Port Bolivar Channel.

Relocate and change Bolivar Peninsula Lighted Buoy 20 (LLNR-35945) in approximate position 29-22-19.793N/094-47-09.542W to Bolivar Peninsula Light 20 (LLNR-35945) in position 29-22-21.149N/094-47-10.758W, showing Q R, 17 foot focal height, 4NM nominal range, TR-TY on a pile, Ra ref.

Change Bolivar Peninsula Lighted Buoy 19 (LLNR-35940) in approximate position 29-22-10.778N/094-47-08.755W to Bolivar Peninsula Light 19 (LLNR-35940), in position 29-22-10.778N/094-47-08.755W, showing Q G, 17 foot focal height, 4NM nominal range, SG-SY on a pile, Ra ref.

Charts: 11324 11326 11331

LNM: 25/18

TX – CORPUS CHRISTI BAY – PORT ISABEL – CORPUS CHRISTI BAFFIN BAY

The following change will be made after the week of August 14, 2018.

Due to shoaling between Corpus Christi Baffin Bay Daybeacon 6 (LLNR-39760) and Corpus Christi Baffin Bay Buoy 10 (LLNR-39770) the Coast Guard will make the following change.

Establish Corpus Christi Baffin Bay Lighted Buoy 8 (LLNR-39768) in approximate position 27-40-46.103N/097-13-36.979W showing FL Q R, 3NM

nominal range, red.

Charts: 11308 11309

LNM: 25/18

TX – LAGUNA MADRE – LAND CUT-ARROYO COLORADO

The following change will be made after the week of August 14, 2018.

Due to a history of Land Cut-Arroyo Colorado Daybeacon 96 frequently being knocked down and the temporary buoy going missing the Coast Guard will make the following change.

Discontinue Land Cut-Arroyo Colorado Daybeacon 96 (LLNR-41995) in approximate position 26-29-21.096N/097-22-59.862W.

Chart 11306

LNM: 25/18

TX – ELLENDER TO GALVESTON BAY – PORT ARTHUR – GALVESTON – EAST BAY BAYOU

In order to improve nighttime visibility of the Aids to Navigation picture in East Bay Bayou the following changes will be made after September 11, 2018.

Change East Bay Bayou Buoy 2 (LLNR-35775) in approximate position, 29-33-11.729N/094-28-02.242W to East Bay Bayou Light 2 (LLNR-35775) in approximate position, 29-33-11.729N/094-28-02.242W, showing FL R 2.5s, Nominal Range 3NM, TR-TY on pile, Ra Ref.

Change East Bay Bayou Buoy 3 (LLNR-35780) in approximate position, 29-33-09.579N/094-27-59.689W to East Bay Bayou Light 3 (LLNR-35780) in approximate position, 29-33-09.579N/094-27-59.689W, showing FL G 2.5s, Nominal Range 3NM, SG-SY on pile, Ra Ref.

Change East Bay Bayou Buoy 5 (LLNR-35785) in approximate position, 29-32-59.127N/094-28-07.084W to East Bay Bayou Light 5 (LLNR-35785) in approximate position, 29-32-59.127N/094-28-07.084W, showing FL G 4s, Nominal Range 3NM, SG-SY on pile, Ra Ref.

Change East Bay Bayou Buoy 6 (LLNR-35790) in approximate position, 29-32-50.786N/094-28-16.856W to East Bay Bayou Light 6 (LLNR-35790) in approximate position, 29-32-50.786N/094-28-16.856W, showing FL R 2.5s, Nominal Range 3NM, TR-TY on pile, RA Ref.

Change East Bay Bayou Buoy 7 (LLNR-35795) in approximate position, 29-32-47.668N/094-28-15.540W to East Bay Bayou Light 7 (LLNR-35795) in approximate position, 29-32-47.668N/094-28-15.540W showing FL G 2.5s, Nominal Range 3NM, SG-SY on pile, Ra Ref.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

FL - GULF OF MEXICO - U.S. Navy Testing

Continuing until approximately January 1, 2019, the U.S. Navy will be conducting inert underwater mine and Airborne Mine Neutralization System (AMNS) destructor testing in the Gulf of Mexico, in an area approximately 39 nautical miles southwest of the Panama City Pass. The inert mine destructors are silver and orange, 3 feet long, 6 inches in diameter and weighs approximately 2 pounds in water, while weighing 35 pounds in air. Inert mine bottom shapes and inert mine destructors will be deployed, operated and tested in the below test areas during this period. AMNS testing will consist of surface ship operations to include the following: R/V SEWEE or R/V STARFLEET PATRIOT and Project Support Crafts (PSC) 02, 03, 05 or PSC 11; however, additional R/Vs may be added in the future. It is requested that all vessels maintain a one nautical mile CPA of all vessels while operations are in progress. All U.S. Navy / U.S. Navy contracted AMNS support vessels will monitor VHF-FM Channel 16. For up-to-date information, mariners can contact Mr. Robertson, at (850) 230-7698 or via e-mail at William.f.robertson@navy.mil. The corners of the test areas are as follows:

Test Area Tango:

29-56-25.20N 085-54-36.00W,
29-58-55.20N 085-54-36.00W,
29-58-55.20N 085-51-42.60W and
29-56-25.20N 085-51-42.60W.

Test Area Harp 8:

29-45-25.20N 086-21-49.80W,
29-47-01.20N 086-21-49.80W,
29-47-01.20N 086-19-52.80W and
29-45-25.20N 086-19-52.80W.

Charts: 1115A 11360

LNM: 17-18

FL - GULF OF MEXICO - Navy Testing

The U.S. Navy will be conducting sensor testing, involving the following assets: Unmanned Aircraft Systems (UAS), communication buoys, and underwater sensors continuing until December 21, 2018. The sensor testing operations will be conducted in the Gulf of Mexico (GOMEX). The surface vessels supporting U.S. Navy sensor testing operations will include the following:

PSC-12 and 11 meter Rigid Hull Inflatable Boat (RHIB) are test vessels and will support test operations.

PSC-14 is chase boat.

PSC-5 is a dive/chase boat.

The location is bound by the following approximate positions:

Northern most approximate position: 30-01-14.7N 085-44-58.9W.

Southern most approximate position: 29-58-44.4N 085-44-58.9W.

Eastern most approximate position: 29-58-44.4N 085-42-38.6W.

Western most approximate position: 30-01-14.2N 085-42-38.6W.

Request all vessels maintain a 1,000 yard closest point of approach (CPA) from all U.S. Navy support craft and testing equipment. All U.S. Navy Craft will monitor VHF-FM Channel 16.

Charts: 1114A 11400

LNM: 29-18

FL - ST. JOSEPH BAY - Dredge Operation/Beach Nourishment

Continuing until approximately September 30, 2018, Manson Construction Company will be conducting dredge operations and beach nourishment operations near St. Joseph Bay Peninsula, Port St. Joe, FL. Operations will be performed 24-hours a day, 7-days a week. Hopper Dredge GLEN EDWARDS, Tug JOAN CENAC, Tug CHARLES CENAC, M/V JOHN M., Crane Barge MANSON 41 and Anchor Barge MANSON 80 will be monitoring VHF-FM Channel 13, 16 or 66. Mariners are requested to transit the area with caution.

LNM: 29-18

FL - CHOCTAWHATCHEE BAY - SANTA ROSA SOUND - Marine Event

On August 18, 2018, from 8:00 a.m. until 5:00 p.m., the Florida Power Boat club will be conducting its 26th Annual Emerald Coast Poker Run, in Choctawhatchee Bay. Event participants will visit checkpoints along bays and the GIWW from the Destin Mid-Bay Bridge (east end) to Pensacola Beach Boardwalk (west end) and surrounding the Choctawhatchee Bay area. Mariners are urged to exercise caution in the area during the event period. For up-to-date information, mariners can contact the U.S. Coast Guard Sector Mobile, at (251) 441-5976.

LNM: 31-18

FL - SANTA ROSA SOUND - Fireworks Display

Saltwater Restaurants will be conducting their 2018 Season of Fireworks displays on multiple dates through September 2, 2018. Specific dates will be announced by Broadcast Notice to Mariners. Displays are from 8:30 p.m. until 9:30 p.m. The fireworks will be launched from the Fort Walton Pier. All mariners are requested to remain a minimum of 420 feet from the pier due to hazards associated with fireworks. For up-to-date information, mariners can contact U.S. Coast Guard Sector Mobile, at (251) 441-5976.

Chart 11385

FL - SANTA ROSA SOUND - Fireworks Display

The Portofino Island Resort will be conducting their 2018 Season of Fireworks display on multiple dates through December 31, 2018. Specific dates will be announced by Broadcast Notice to Mariners. Displays begin at 9:00 p.m. until 9:30 p.m. The fireworks will be launched from a floating platform anchored 500 feet off the end of the resort's pier. Mariners are urged to remain a minimum of 280 feet from the floating platform due to

FL - SANTA ROSA SOUND - Fireworks Display

hazards associated with fireworks. For up-to-date information, mariners may contact U.S. Coast Guard Sector Mobile, at (251) 441-5976.

Chart 11385

LNM: 21-18

FL - PENSACOLA BAY - Bridge Construction of New Bridge

Continuing until approximately December 31, 2020, construction of the new Pensacola Bay Bridge will be taking place on Pensacola Bay, Florida. The COTP Mobile under the Ports and Waterways Safety Act has established a temporary Safety Zone within 500 yards of current bridge construction. This Safety Zone restricts vessel speed to an idle speed for all vessels within the zone. Mariners are urged to transit the area with extreme caution. For up-to-date information, mariners can contact the COTP, U.S. Coast Guard Sector Mobile, at (251) 441-5976.

LNM: 07-18

AL - MOBILE HARBOR - Dredge Operation

Continuing until approximately December 2018, the Mason Hopper Dredge GLENN EDWARDS will conduct dredging operations in Mobile Harbor. The dredge will be working multiple locations in the harbor and disposing of dredged material in an offshore site south of Dauphin Island. The Hopper Dredge GLENN EDWARDS will monitor VHF-FM Channel 13 or 16. Mariners may contact the USACE Irvington Site Office at (251) 957-6019, for additional information. Mariners are urged to exercise caution in the area.

Chart 11376

LNM: 31-18

AL - TOMBIGBEE RIVER - Dredge Operation

Continuing until approximately September 1, 2018, the KELLY L will be dredging in the Tombigbee River, Alabama. Dredging will be between Sunflower Bar, mile 78.0 and Pine Tree Bar mile 114.0. Dredged material will be disposed in the permitted area within bank and/or upland disposal areas in the proximity of the dredging assignments. The KELLY L will be monitoring VHF-FM Channel 13 or 16. Mariners are urged to exercise caution when transiting the area. For up-to-date information, mariners can contact the USACE Tuscaloosa Site Office, at (205) 752-3571.

LNM: 30-18

AL - TOMBIGBEE RIVER - Shoaling/Low Water

Shoaling in combination with low water levels have been reported on the Tombigbee River, in the vicinity of Sunflower Bar, near mile 78.0. This could result in a width restriction for 9-foot channel depth availability if local gauge levels fall to a "Zero" elevation. The U.S. Coast Guard has placed navigation buoys marking a 160-foot wide channel at the narrowest location. A contract dredge is expected to be mobilized to the Tombigbee River later this summer to perform maintenance dredging.

Additional updates will be provided as warranted. Mariners are urged to exercise extreme caution when navigating this section of the river. For up-to-date information, mariners can contact the Derek Kendrick at the BWT/Alabama River Project Management Office, at (205) 752-3571.

LNM: 20-18

AL - BLACK WARRIOR RIVER - Lock Closure - UPDATE

The Holt Lock, in the vicinity of mile 347.0, will be closed continuing until approximately 6:00 p.m., August 12, 2018. The closure is to replace the lower miter gates and related components. For up-to-date information, mariners can contact Anthony Perkins or Danny Hensley at the BWT/Alabama-Coosa Project Management Office (CESAM-OP-BA), at (205) 752-3571.

LNM: 32-18

AL - BLACK WARRIOR RIVER - Overhead Conductor Wire Installation

Continuing until August 10, 2018, from approximately 7:30 a.m. until approximately 5:00 p.m., each day, the Alabama Power Company (APC) will be pulling conductor wire across the Black Warrior River, at the Locust Fork in Jefferson County, AL., between mile 401.0 and mile 402.0. A vessel will be staged in the area to help flag traffic. For up-to-date information, mariners can contact Alabama Power Company (APC) representative Phillip Chapman, at (205) 438-2853.

LNM: 30-18

LNM: 15-18

MS - MISSISSIPPI SOUND - Hydrographic Surveys

Continuing until August 30 2018, the R/V PATHFINDER will be conducting hydrographic survey operations in the waters north of Cat Island, MS., and southeast of Pass Christian, MS., in the waters north and south of the GIWW. The survey area north of Cat Island, MS., is centered in approximate position 30-16-07.29489N 089-05-15.78828W, while the survey area southeast of Pass Christian, MS., is centered in approximate position 30-17-14.24932N 089-11-39.05547W. Both areas are 1,000 by 1,500 meters in size. The R/V PATHFINDER is a 40-foot, aluminum twin hulled survey vessel that will be equipped with a pole mounted sonar transducer. Survey operations will be conducted during daylight hours only. In addition, the R/V PATHFINDER will monitor VHF-FM Channel 13 or 16. Mariners are requested to give the R/V PATHFINDER a wide berth in order to avoid interactions with the autonomous International Regulations for Preventing of Collision at Sea (COLREGs) compliance technologies and otherwise interfering with surveying operations.

Chart 11373

LNM: 29-18

MS - GULFPORT HARBOR - Dredge Operation

Continuing until approximately September 18, 2018, Mike Hooks, LLC., Pipeline Dredge MISSOURI H., will conduct dredging operations in Gulfport Harbor. Dredging will begin in the Upper Sound Channel and continue to the Anchorage Basin. Dredged material will be disposed into existing open water sites adjacent to the channel. The dredge will utilize floating and submerged pipeline, in addition to a number of support vessels, all lighted in accordance to U.S. Coast Guard Safety Regulations. The Dredge MISSOURI H., will be monitoring VHF-FM Channel 13 or 16. Mariners

MS - GULFPORT HARBOR - Dredge Operation

are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact the USACE Irvington Site Office, at (251) 957-6019.

Chart 11373

LNM: 24-18

MS - MISSISSIPPI SOUND - WAVELAND - Breakwater Construction Project

Breakwater construction operations are being conducted from Heron Bay to Bayou Bolan in Mississippi Sound. The project consists of constructing a stone breakwater to a +2.0 feet elevation, from Heron Bay to Bayou Bolan. Mariners are advised that several spud barges with equipment as well as barges transporting stone to and from the site will be in the area. Tow boats will be manned 24 hours per day and will include the M/V JAY GENE. Fleeting will occur along the project and the mouth of the Pearl River. Anticipated completion of this project is November 30, 2018. For up-to-date information, mariners can contact U.S. Coast Guard Sector Mobile, at (251) 441-5976.

Charts: 11367 11372

LA - Breton Sound - Hydrographic Surveying

Commencing August 17, 2018 and continuing until approximately November, 2018, the M/V ATLANTIC SURVEYOR will be conducting hydrographic survey operations will be conducting hydrographic survey operations in the waters just east the safety fairway offshore of Breton Sound bound by approximate positions:

29-40-31.2N 088-31-40.8W,
29-23-18.0N 088-50-48.6W.

The vessel is equipped with a keel mounted sonar transducer and will be towing a side scan sonar instrument approximately 5-15 meters off of the seafloor and 100 meters astern of the vessel. Work will be performed 24-hours a day, 7-days a week. The M/V ATLANTIC SURVEYOR will monitor VHF-FM Channel 10, 13 or 16.

In addition, commencing on or about September 7, 2018 and continuing through September 20, 2018, the R/V PATHFINDER will be conducting hydrographic survey operations in the same waters as the M/V ATLANTIC SURVEYOR. These surveys will be conducted with a manned vessel for safety; however the vessel will be operating in an autonomous mode. Survey operations will be conducted 24-hours a day, 7-days a week. The R/V PATHFINDER will monitor VHF-FM Channel 13 or 16. Mariners are urged to give the M/V ATLANTIC SURVEYOR and the R/V PATHFINDER a wide berth in order to avoid becoming fouled in the towed equipment, avoid interactions with the International Regulations for Preventing of Collision at Sea (COLREGs) compliance technologies, and otherwise interfering with surveying operations.

LA - GIWW - INNER HARBOR NAVIGATION CANAL - Bridge Closure

The Judge Seeber Bridge (Claiborne Ave. Bridge) on SR 39 across the Inner Harbor Navigation Canal, mile 0.9 (GIWW, mile 6.7, EHL) in New Orleans, Orleans Parish, Louisiana, will undergo bridge inspections from 8:00 a.m. until 4:00 p.m., each day, August 6, 2018 through August 24, 2018. During these times and dates bridge inspectors will be using a bridge mounted basket/snooper that at times will reduce the vertical clearance of the bridge to 30 feet above mean high water. The basket/snooper can be moved to allow vessels to pass under the bridge. Mariners that require 25 feet or more of vertical clearance to safely pass under the bridge should contact the bridge tender at least 20 minutes prior to signaling for an opening to allow the basket/snooper to move to a safe position. On scene bridge inspectors can be reached by calling (225) 236-8342.

LA - LAKE PONTCHARTRAIN - US 11 Bridge Rehabilitation Outside the Main Channel Spans

The contractor continues the rehabilitation work on the U.S. 11 Bascule Bridge across Lake Pontchartrain between New Orleans and Slidell, Orleans and St. Tammany Parishes, Louisiana. The contractor will work Monday through Friday, from 6:30 a.m. until 5:30 p.m. Work on the project has begun on the Slidell side (north) and consists of inspections, measuring of cracks, sand blasting, grinding, spall repairs and wrapping of the piers and caps as necessary. The contractor has extended the scaffolding to a total of 2,400 feet north of the Bascule Bridge, as this entire section has a reduced vertical clearance of 8 feet, thus eliminating the availability by recreational boaters. The new scaffolding set-up, including moving cables to Span 404 to Span 383 and removing scaffolding from Span 445 to Span 424. The majority of the time workers are located between Span 702 to Span 381. The work area will be marked by danger buoys approximately 50 feet on either side of the bridge marking an exclusion zone for vessels to stay out of the work zone. The buoys will be spaced approximately 200 feet apart and will mark the entire length of the work area. The buoys will be lighted at night with FI W 2.5s. lights. Mariners should avoid this area at all times. Additionally, the contractor has added an additional 3 crane barges measuring 150 feet by 50 feet, to the existing barges (1 measuring 30 feet by 120 feet, with a height of 25 feet and 1 measuring 30 feet by 110 feet). There are also 2 flex floats, 2 supply barges and 3 crew boats located near the bridge within the work zone. When the contractor is not working at night and over the weekends, the barges will be grouped together and spud down away from the navigation span and near the work area. This equipment will be lighted by fixed white lights on each outward corner as required. During the work day, the Tug JO ANN SIMS will monitor VHF-FM Channel 16. The L&A Contracting Company is the contractor on the project and can be reached at (601) 270-7704, 24-hours a day. This project will take approximately 48 months to complete.

LA - FRESHWATER BAYOU - Breakwater Installation

Continuing until approximately December 30, 2018, LeBlanc Marine will be conducting Breakwater Installation Operations in the Gulf of Mexico, starting in Freshwater Bayou to Rockefeller Refuge within a mile of the shoreline, in approximate position 29-38-40.49N 092-48-17.30W. Work will be conducted during daylight hours and night time hours. 7-days a week. The contractors floating plant will consist of the M/V MISS RILEY, M/V LISA, M/V DIAMOND TINDER, M/V JESSE RAY, Tug MARSH ISLAND, 2 work boats and 3 spud barges. During non-working hours, the contractors floating plant will be moored at the work-site and lighted accordingly. The vessels will monitor VHF-FM Channel 14. Mariners are urged to exercise caution in the area.

Charts: 11345 11349

LNM: 29-18

LA - CALCASIEU SHIP CHANNEL - Conductor Replacement

Continuing until August 11, 2018, overhead power line conductor replacement will be performed on the Calcasieu Ship Channel, between mile 27.0 and mile 28.0. Irby Construction will continue to remove and replace conductors, during daylight hours only. Mariners are urged to transit with caution.

Chart 11347

LNM: 29-18

LA - CALCASIEU RIVER - Dredge Operation

Continuing until approximately August 9, 2018, the Hopper Dredge WHEELER will be dredging in the Calcasieu River Bar Channel from mile -3.0 to mile -6.2. Dredging will be performed 24-hours a day, 7-days a week, and will give way to passing navigation. The Hopper Dredge WHEELER will be monitoring VHF-FM Channel 13 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact Tracy Falk, at (504) 862-2971.

Chart 11347

LNM: 29-18

LA - CALCASIEU LAKE - Dredge Operation

Continuing until approximately December 2018, APOLLO Environmental Strategies will be dredging on the far east side of Calcasieu Lake. The Dredge SANDRA G will conduct dredging operations bound by the following approximate positions:

LA - CALCASIEU LAKE - Dredge Operation

29-52-25.202N 093-15-45.964W,
29-52-27.198N 093-14-52.659W,
29-51-42.294N 093-15-05.809W and
29-51-40.871N 093-15-42.304W.

The dredge discharge pipeline will run east into Grand Bayou marsh. The Dredge SANDRA G will monitor VHF-FM Channel 13 and 16. Mariners are urged to use caution when transiting the area.

Charts: 11341 11347

LNM: 49-17

LA - CALCASIEU RIVER - Dredge Operation

Continuing until approximately August 15, 2018, the U.S. Government Contract Cutterhead Dredges DREDGE 32 and MIKE HOOKS will be conducting dredging operations in the Calcasieu River, from approximate mile 15.0, to mile 36.0, including the A4 Turning Basin. Dredging will be performed 24-hours a day, 7-days a week and will give way to passing navigation. The Cutterhead Dredges DREDGE 32 and MIKE HOOKS will be monitoring VHF-FM Channel 13 or 16. There are numerous work and support vessels associated with this dredging operation, which includes various work barges. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For up-to-date information, mariners can contact Tracy Falk, at (504) 862-2971.

LNM: 30-18

TX - SABINE NECHES CANAL - Construction Operations

Continuing until approximately May 15, 2020, the Manson Construction Co., will be conducting construction of Berth 5 at the Port of Port Arthur which includes, but is not limited to:

Removal of existing structures, pile driving, bulkhead installation, dive operations and other wharf construction activities in the vicinity of Sabine-Neches Ship Channel, at and near existing Berth 4, in approximate positions 29-51-27.272N 093-56-28.987W and 29-51-20.573N 093-56-35.438W. Work will be conducted from 6:00 a.m. until 6:00 p.m., 7-days a week. Equipment on scene: Derrick Barge HAAKON, 268 feet by 68 feet and a flat barge 120 feet by 50 feet, will be monitoring VHF-FM Channel 13, 16 and 69. Passing arrangements and time to move vessels to not impede navigation:

Construction operations will need a minimum 2-hour notice to insure all anchors can be moved. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Chart 11331

LNM: 18-18

TX - BAYPORT FLARE - HOUSTON SHIP CHANNEL - Dredge Operation

Continuing until approximately August 20, 2018, pipeline and equipment will be staged between placement area 14 and placement area 15. Staging area will be bound by the following approximate positions:

29-37-59.47N 094-57-07.13W,
29-37-46.82N 094-57-02.43W,
29-37-22.30N 094-57-21.49W and
29-38-08.56N 094-57-37.67W.

Pipeline and tugs will have all required U.S. Coast Guard lighting for night operations. Mariners are urged to transit the area at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

TX - LAVACA BAY - Bridge Rehabilitation

The rehabilitation project on the SH 35 bridge across Lavaca Bay, mile 8.2, at Port Lavaca, Calhoun County, Texas continues. The scheduled working hours are from 7:00 a.m. until 7:00 p.m. The main channel work has begun to include a walking platform reducing vertical clearance by 4 feet the entire horizontal clearance between Bents 115 to 118. Therefore, the vertical clearance reduction is 41 feet within the channel until August 2018. Presently, small work floats measuring approximately 40 feet by 8 feet, in multiple configurations could obstruct an entire area near

TX - LAVACA BAY - Bridge Rehabilitation

the main channel. Two barges are working in Span 133 to Span 153. All barges are located at Span 66 and when heavy winds and bad water conditions are present barges are returned to the dock facility. If barges remain they will be properly lighted as required by the "Inland Navigation Rules of 1980" and accompanied by a 26 foot push boat. The M/V BARBARA ANN will monitor VHF-FM Channel 16, or onsite Project Manager can be contacted, at (281) 831-7864. Mariners should avoid these areas. The estimated date of completion is February 2019.

Chart 11317

LNM: 23-18

TX - GIWW - SAN ANTONIO BAY - Dredge Operation

Continuing until August 31, 2018, dredging operations will be conducted off of Rattlesnake Island to San Antonio Bay, between San Antonio Bay Daybeacon 25 (LLNR-38510.01) and San Antonio Bay Daybeacon 37 (LLNR-38580.01). Mariners are cautioned against overtaking and are urged to transit at their slowest safe speed to minimize wake in the vicinity. Double breasted barges are also requested to not transit in this vicinity due to dredge operations, to ensure safety of mariners and dredging equipment. The Dredge EAGLE ONE will be monitoring VHF-FM Channel 16 or 79A. For up-to-date information, mariners can contact U.S. Coast Guard Sector Corpus Christi, at (361) 939-0450.

LNM: 32-18

TX - CORPUS CHRISTI BAY - LA QUINTA CHANNEL - Dredging Operation

Mobilization of equipment began on May 15, 2018, for the Cheniere's LNG Berthing Terminal and the La Quinta Ship Channel North and South Bend easing locations. Continuing until approximately September 30, 2018, the Dredge ALASKA, attendant plant and support vessels will be conducting dredging operations in this area

Dredge Area 1 Boundary (Cheniere LNG Berthing Terminal). Positions shown are general locations of each work area:

- 27-52-52.51N 097-16-19.79W,
- 27-52-47.66N 097-16-07.38W,
- 27-52-51.58N 097-16-04.61W,
- 27-52-40.91N 097-15-46.42W,
- 27-52-38.72N 097-15-47.04W,
- 27-52-47.15N 097-16-29.29W,
- 27-52-50.02N 097-16-29.05W and
- 27-52-48.04N 097-16-20.22W.

Dredge Area 2 Boundary (La Quinta Channel North Bend Easing)

- 27-52-29.75N 097-15-18.95W,
- 27-52-25.81N 097-15-04.36W,
- 27-52-17.04N 097-14-56.30W,
- 27-51-57.21N 097-14-45.08W,
- 27-51-55.76N 097-14-49.87W,
- 27-52-17.81N 097-15-03.27W and
- 27-52-26.86N 097-15-19.39W.

Dredge Area 3 Boundary (La Quinta Channel South Bend Easing)

- 27-49-20.46N 097-13-30.50W,
- 27-49-08.60N 097-13-23.20W
- 27-49-00.30N 097-13-10.55W,
- 27-48-55.03N 097-13-13.67W,
- 27-49-06.23N 097-13-30.21W and
- 27-49-19.27N 097-13-35.71W.

Submerged Pipeline Route and Floating Pipeline Crossing Ship Channel:

Submerged 30-inch dredge pipeline will be placed on the seafloor at the south side of the La Quinta Ship Channel at the top of slope. Floating pipeline will be crossing the ship channel at approximately POCCA C/L Station 320+00.

- 27-49-21.41N 097-13-32.74W,
- 27-50-45.29N 097-14-12.96W,
- 27-51-55.40N 097-14-46.46W,
- 27-52-21.73N 097-15-04.23W,
- 27-52-30.02N 097-15-27.97W,
- 27-52-25.88N 097-15-47.96W,
- 27-52-27.08N 097-15-54.94W and
- 27-52-37.00N 097-16-02.21W.

Work will be conducted 24-hours a day, 7-days a week. The Dredge ALASKA, attendant plant and support vessels will monitor VHF-FM Channel 13 or 16. Mariners are urged to transit the area at their slowest safe speed to minimize their wake.

Chart 11309

LNM: 21-18

TX - CORPUS CHRISTI BAY - LA QUINTA CHANNEL - Temporary Precision Directional Light

The U.S. Coast Guard has discontinued the Q green night optic and installed a temporary Precision Directional Light (PDL) on La Quinta Channel Inner Range Front Light (LLNR-28970). The PDL is user activated by keying the mic on VHF-FM Channel 83A, five times. Once activated it will remain on for 30 minutes. The PDL will operate with a Iso 6 second rhythm displaying a center white sector from 156.6 degrees true to 157.1 degrees true, a green sector from 157.1 degrees true to 157.6 degrees true and a red sector from 156.6 degrees true to 157.1 degrees true. The PDL is not effective seaward of La Quinta Channel Light 11 (LLNR-29050) and La Quinta Channel Light 12 (LLNR-29055).

MARINE SAFETY INFORMATION BULLETIN

MSIB 004-18

Date: June 11, 2018

2018 HURRICANE SEASONAL ALERT

Hurricane Port Condition Requirements

This MSIB clarifies USCG mandated hurricane procedures and defines Hurricane Port Conditions for Port Fourchon, Louisiana Offshore Oil Port, Houma Navigation Canal, Port of Morgan City, Port of Iberia, Intracoastal City, the Gulf Intracoastal Waterway, and all terminals, facilities, and waterways in the Captain of the Port (COTP) Houma/Morgan City area of responsibility.

General Vessel and Barge Mooring Requirements for Heavy Weather

To promote safe navigation and protect vital infrastructure the Coast Guard will enforce the following regulations found in 33 CFR 803:

No person may secure a vessel or barge to trees or to other vegetation.

No person may allow a vessel or barge to be moored with unraveled or frayed lines or other defective or worn mooring.

No person may moor barges side to side unless they are secured to each other from fittings as close to each corner of abutting sides as practicable.

No person may moor barges end to end unless they are secured to each other from fittings as close to each corner of abutting ends as practicable.

Barge Moorings: Barge-to-barge; barge-to-vessel; barge-to-wharf or pier. The person in charge shall ensure that a barge moored to another barge, a mooring or spar barge, a vessel, a wharf, or a pier, is secured as near as practicable to each abutting corner of the barge being moored by:

- (1) Three parts of wire rope of at least 7/8 inch diameter with an eye at each end of the rope passed around the timberhead, caval, or button;
- (2) A mooring of natural or synthetic fiber rope that has at least 75 percent of the breaking strength of three parts of 7/8 inch diameter wire rope; or
- (3) Fixed rigging that is at least equivalent to three parts of 7/8 inch diameter wire rope.

For further information regarding the severe weather and high water moorings, the U.S. Committee on the Marine Transportation System's recommends the Best Practices for Preventing and Managing Breakaway Vessels found at:

[http://www.cmts.gov/downloads/Best Practices for Preventing and Managing Breakaway Vessels.pdf](http://www.cmts.gov/downloads/Best_Practices_for_Preventing_and_Managing_Breakaway_Vessels.pdf).

In addition to setting port conditions, the COTP will take the following actions commensurate with each Port Condition:

Port Condition Whiskey (gale force winds (34kts/39mph) within 72 hours):

Port Status: Open to all commercial traffic.

- Contact port authorities, other government agencies, and industry stakeholders to identify and address concerns over port status, activities, and emergency preparations.
- The COTP will issue a MSIB requiring the following information to be submitted to Vessel Traffic Service, Berwick Bay:
 - (a) All self-propelled oceangoing vessels over 500 GT and all oceangoing barges and their supporting tugs remaining in port will complete and submit to the COTP within 24 hours for approval, a REMAINING IN PORT CHECKLIST FOR 500 GT (GRT) VESSELS (Annex A of the Maritime Hurricane Contingency Plan). Each vessel intending to remain in port must request permission from the waterfront facility where mooring and forward that information to the COTP at COTPHoumaSevereWeather@uscg.mil.
- The Coast Guard will have increased harbor patrols and will advise vessel and facility operators of any conditions that require immediate action or correction.
- The Coast Guard will advise vessel operators of anticipated times of floodgate and bridge closures affecting their ability to seek safe refuge and will provide best points of contact information to obtain accurate updates.
- Advise port stakeholders of intentions for setting next condition.

Port Condition X-Ray (gale force winds (34kts/39mph) within 48 hours):

Port Status: Open to all commercial traffic.

- The Coast Guard will continue to contact waterfront facilities to determine their intentions and any vessels moored thereto. Individually assess vessels desiring to remain in port, and issue COTP Orders as appropriate.
- Contact deep draft vessels at anchor and determine their intentions.
- Inspect wharf and pier areas with waterfront facility representatives during harbor patrols.
- Spot check mariners and waterways to determine the status of hurricane preparations.
- Advise port stakeholders of intentions for setting next Port Condition.

Port Condition YANKEE (Gale force winds (34kts/39mph) expected within 24 hours):

Port Status: Vessel traffic control measures in effect.

- The COTP may close portions of the port in response to forecasted weather and actual damage, impact, or threat in different geographic areas within the port.
- Establish a Safety Zone controlling vessel movements and activities as appropriate, including:
 - (a) Close ports, where necessary, to all commercial vessel traffic except as specifically allowed by COTP. Port closure will not apply to vessels that are capable of completing the cargo load/discharge cycle in less than 12 hours. The area affected by this order includes all Navigable Waters of the United States within 12 nautical miles of shoreline.

- Issue COTP Order as appropriate for any vessels or facilities not complying with Port Condition requirements:
 - (a) Each self-propelled vessel over 500 GT without COTP approval to stay in port will be directed out of port.
 - (b) The COTP will approve or direct, as necessary, final mooring arrangements for vessels remaining in port.
- Advise port stakeholders of intentions for setting next Port Condition.
- Establish safety zone preventing red flagged barges from mooring along shore in Houma central business district and other population centers as identified by the COTP.

Port Condition Zulu (gale force winds (34kts/39mph) expected within 12 hours):

Port Status: Vessel traffic control measures in effect. The default for ZULU is closure of the port and facility operations.

- The COTP may deviate from this default and keep ports open with restrictions and close only portions of the port in response to forecasted weather, actual damage, impact, or threat in different geographic ports within the COTP Zone.
- Establish a Safety Zone controlling vessel movements and activities as appropriate, including:
 - (a) Close ports, where necessary, to all commercial vessel traffic (including vessel transits within the port). This prohibition will not apply to vessels that have requested and received approval from the COTP to transit the port. The approval of the COTP will only be granted if the transit can be made safely and mooring or anchorage space has been identified; or if the vessel is departing to sea, only if the vessel can reach safe water prior to encountering hurricane conditions.
- Suspend cargo operations involving bulk liquid dangerous cargoes (including bunkering and lightering operations), unless permission is requested to continue operations and approval is granted. Approval will be given on a case-by-case basis. This approval provision does not apply to operations involving Cargoes of Particular Hazard or Certain Dangerous Cargoes, which in every case must be suspended.

Post-Hurricane Conditions

As soon as practicable following the passage of the storm, the COTP will:

- Assess whether to close ports and waterways, maintain closure, or open with or without restrictions.
- Assess whether to maintain a Safety Zone restricting vessel movements until the navigation channels can be surveyed and declared safe for passage.
- Coordinate completion of channel surveys as needed.
- Conduct maritime damage and risk assessments emphasizing channels, bridges, anchorages, piers, and wharves.
- Organize a post-hurricane Port Coordination Team conference call with senior representatives from other federal, state, and local government agencies and industry stakeholders to assess, outline, and prioritize the recovery effort for the COTP Zone:

All hurricane informational documents will be posted to Homeport at the following link: <https://homeport.uscg.mil/port-directory/houma>. MSIBs and related updates can be found in the "Safety Notifications" section. The Maritime Hurricane Contingency Plan can be found in the "Contingency Plans" section.

If you have any questions, please contact Marine Safety Unit Houma Officer of the Day at (985) 665-2437, the Marine Safety Unit Morgan City Officer of the Day at (985)397-330, or at COTPHoumaSevereWeather@uscg.mil.

Attn: Notice to Mariners

**MsCIP Comprehensive Barrier Island Restoration Plan
Ship Island Phase 1
Ship Island
Harrison County, Mississippi
Owner Contract No. W91278-14-8-0007 GL #84510**

To Whom It May Concern:

Great Lakes Dredge and Dock has been contracted by The USACOE Mobile District in connection with the above referenced contract. We hereby notify and request that an issue of "Notice to Mariners" be published alerting to those using the locations identified below. **Please be advised, buoys marking these locations should NOT be used for navigational purposes. Boaters should try to maintain a safe distance form these buoys.**

Operations: The locations between Ship Islands West and East and in Biloxi Bay will be occupied as a staging area for pipeline for future use while conducting island restoration operations on Ship Island; in addition, submerged pipeline will start to be laid near Ship Islands West and East in preparation for island restoration operations; additional equipment includes but is not limited to anchors barges, dredge tenders and floating pipeline. The location between the Biloxi Bay ship channel and Deer Island will see occasional traffic with pipeline of lengths up to 3000'; in addition, pipeline preparations may be conducted with additional equipment outside the safety fairway toward Deer Island. All manned vessels will monitor VHF Channels 3, 5, and 16.

Be aware of pipeline in the area of:

1) Between Ship Islands West and East:

North Limit	Lat. 30 13.852°N	Lon. 088 54.574°W
East Limit	Lat. 30 13.716°N	Lon. 088 54.461°W
West Limit	Lat. 30 13.595°N	Lon. 088 55.189°W
South Limit	Lat. 30 13.412°N	Lon. 088 55.106°W

2) Biloxi Bay Immediately South of Railroad Bridge

North Limit	Lat. 30 24.4523°N	Lon. 088 51.1523°W
East Limit	Lat. 30 24.3993°N	Lon. 088 51.1175°W
West Limit	Lat. 30 24.3575°N	Lon. 088 51.3778°W
South Limit	Lat. 30 24.3046°N	Lon. 088 51.3456°W

3) Between Biloxi Bay Ship Channel and Deer Island:

North Limit	Lat. 30 23.37751°N	Lon. 088 49.48400°W
East Limit	Lat. 30 22.19127°N	Lon. 088 47.99643°W
West Limit	Lat. 30 22.70566°N	Lon. 088 50.49420°W
NW Limit	Lat. 30 23.00752°N	Lon. 088 50.39627°W
