<https://www.navcen.uscg.gov/?pageName=lnmDistrict®ion=13>

COMDTPUB P16502.6, Light List Volume VI, 2019 Edition, and Coast Pilot Volume 7, 2019 Edition.

Coast Pilots, along with corrections, are available at: www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html. Print on Demand (POD) copies are available for purchase at: www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot.

UNITED STATES COAST GUARD NAVIGATION INFORMATION SERVICE (NIS)

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts / Broadcast Notice to Mariners (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can also be obtained via e-mail subscription through the USCG Navigation Center website:

<https://www.navcen.uscg.gov/?pageName=GPS>.

In addition, the NIS investigates all reports of degradation or loss of GPS or DGPS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900 or Email: webmaster@navcen.uscg.mil, or on the World Wide Web: <https://www.navcen.uscg.gov>

BROADCAST NOTICE TO MARINERS

Urgent marine navigational and weather information is broadcast over VHF channel 22A (157.1 MHz). Broadcasts are first announced over the distress, safety and calling channel 16 before they are made. All ships in U.S. waters over 20 meters in length are required to monitor VHF channel 16, and must have radios capable of tuning to the VHF simplex channel 22A.

This section contains a range of all the significant Broadcast Notice to Mariners (BNM's) on the date of this edition.

Originating Unit	Beginning BNM	Ending BNM
CGD THIRTEEN	D13-0057-19	D13-0079-19

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
AI - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound

EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
FI - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

Mo - Morse Code
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

AtoN - Aids to Navigation
COTP - Captain of the Port
CPA - Closest Point of Approach
LLNR - Light List Number

NAVCEN - U.S. Coast Guard Navigation Center
NM - Nautical Miles
ODOT - Oregon Department of Transportation
RM - River Mile Marker

S-AIS - Synthetic AIS
VTS - Vessel Traffic Service
WSDOT - Washington State Department of Transportation
TSS - Traffic Separation Scheme

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

OREGON - WASHINGTON - 2019 Light List now available (Revised from LNM 03/19)

2019 Light Lists are available on the USCG Navigation Center's website at: <http://www.navcen.uscg.gov/?pageName=lightLists>. Coast Guard Light Lists are a means for communicating aids to navigation information to the maritime public. The last government printed Light Lists were the 2014 editions. While the Light Lists will no longer be available in government printed form, commercial reproductions may be available for purchase from maritime service providers. Local Notice to Mariners will continue to advise Light List corrections and NAVCEN will continue to publish a compilation of corrections.

Complete versions of the 2019 Light Lists are updated weekly on the NAVCEN website and mariners should download applicable copies and updates as needed at: <http://www.navcen.uscg.gov/?pageName=lightListWeeklyUpdates>. A summary of 2019 Light List corrections are available at: <https://www.navcen.uscg.gov/?pageName=lightListCorrections>. Guidance for use of electronic navigation publications onboard U.S. Vessels can be found at the following link: https://www.dco.uscg.mil/Portals/9/DCO%20Documents/5p/5ps/NVIC/2016/NVIC_01-16_electronic_charts_and_publications.pdf.

NOTE: Due to the lapse in federal funding, the weekly updates may not be up-to-date. We cannot guarantee this service until after appropriations are enacted.

LNM: 04/19

OREGON - WASHINGTON - NOAA charting updates suspended

Due to the lapse in federal appropriations, NOAA has reduced the level of service for nautical charting updates. Effective immediately and until further notice, all updates to the Raster Nautical Chart and paper chart suites of charts have been suspended. ENC's will continue to be updated weekly with chart corrections in the Local Notice to Mariners (LNM-USCG) and Notice to Mariners (NtM - NGA). Other sources of chart updates, from hydrographic surveys, shoreline surveys, dredging, new construction, and regulatory changes are not being applied to the ENC suite, nor are they being analyzed for potential local notice to mariners reports. US Coast Pilot has not been updated since December. Mariners should exercise additional caution while sailing in coastal waters, as nautical charts and publications will be increasingly out of date. All NOAA charts and publications will remain available through normal distribution channels, and continue to meet carriage requirements. Please direct any questions, concerns, or requests for urgent updates to the OCS's customer service portal located at <https://www.nauticalcharts.noaa.gov/customer-service/assist/>

LNM: 04/19

COLUMBIA RIVER - CRIMS ISLAND TO ST. HELENS - Marine Construction

Advanced American Construction (AAC) will be conducting marine construction at the confluence of the Columbia and Cowlitz Rivers (Columbia RM 67). Operations include dock demolition, pile driving, and dock construction. Onsite work is planned to occur from 24 Jan 2019 through 29 Mar 2019. AAC's Derrick Barge DB 4041, tug Lindy Marie, and work barges will be on scene. AAC will be monitoring VHF-FM channel 16 during the working hours of 0700 through 1700, Monday through Friday. The floating equipment will remain on-station during non-working hours and will be illuminated at night by steady white lights on all corners. Mariners are asked to transit through the area with extreme caution and minimize wake. For questions or more information, contact Jason Sweet at (503) 849-1883 or email jasons@callaac.com.

Chart 18524

LNM: 04/19

WASHINGTON - PUGET SOUND - SEATTLE TO BREMERTON - DUWAMISH WATERWAY - Bridge deviation notice (Revised from LNM 49/18)

The Coast Guard has issued a temporary deviation from the operating schedule that governs the Spokane Street Bridge (LLNR 16870.1) across the Duwamish Waterway, mile 0.3, in Seattle, WA. The deviation is necessary to accommodate highway traffic during the closure of the Alaskan Way Viaduct and prior to opening the SR-99 Tunnel. The deviation authorizes the subject bridge to not open to marine vessels, except the draw shall open any time for vessels of 5000 or more gross tons, a vessel towing a vessel of 5000 or more gross tons, and a vessel proceeding to pick up for towing a vessel of 5000 gross tons or greater on the Duwamish Waterway, from 0001 on 11 Jan 2019 to 2359 on 09 Feb 2019. The hours to not open the subject bridge to marine vessels are from 0700 to 1000 and from 1400 to 1700 Monday - Friday. The deviation is necessary to accommodate highway traffic during the closure of the Alaskan Way Viaduct and prior to opening the SR-99 Tunnel. The bridge will not be required to open, if needed, for vessels engaged in emergency response operations during this closure period if roadway vehicles are on the bridges. In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. For additional information contact Mary Brown, Seattle DOT, at 206-386-4208.

Chart 18450

LNM: 04/19

WASHINGTON – LAKE WASHINGTON SHIP CANAL – Bridge deviation notice (Revised from LNM 49/18)

The Coast Guard has issued a temporary deviation from the operating schedule that governs three Seattle Department of Transportation bridges: the Ballard Bridge (LLNR 18180), mile 1.1, the Fremont Bridge (LLNR 18182), mile 2.6, and the University Bridge (LLNR 18235), mile 4.3, all crossing the Lake Washington Ship Canal in Seattle, WA. The deviation is necessary to accommodate highway traffic during the closure of the Alaskan Way Viaduct and prior to opening the SR-99 Tunnel. This deviation authorizes the three subject bridges to not open to marine vessels, less than 1000 tons, unless the vessel has in tow a vessel of 1000 or more gross tons, from 0001 on 11 Jan 2019 to 2359 on 09 Feb 2019. The hours to not open the three subject bridges to marine vessels are from 0700 to 1000 and from 1530 to 1900 Monday - Friday. Vessels which do not require bridge openings may continue to transit beneath these bridges during the closure periods. The lift spans will not be required to open, if needed, for vessels engaged in emergency response operations during this closure period if roadway vehicles are on the bridges. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the designated time period. For additional information contact Mary Brown, Seattle DOT, at 206-386-4208.

Chart 18447

LNM: 04/19

WASHINGTON – PACIFIC OCEAN – CAPE FLATTERY TO CAPE JOHNSON- Underwater Operations

The Cable Ship DECISIVE will be conducting underwater operations approximately 10 to 20 miles off the coast of Washington between Cape Flattery and Cape Johnson from 15 Jan 2019 through 30 Jan 2019. The vessel will be restricted in her ability to maneuver while conducting these operations. The coordinates of the cable operation area are as follows: 48-19-15.6N 125-01-22.2W, 48-04-12.0N 124-57-27.0W, 47-51-30.6N 125-22-42.6W, 48-06-16.2N 125-30-03.6W. Mariners are advised to transit the area with caution and may contact the vessel via VHF Ch. 16 & 13 as well as via satellite phone at 206-274-8941.

Chart 18460

LNM: 03/19

WASHINGTON - GRAYS HARBOR AND WESTHAVEN - Wishkah Street Bridge Repairs

WSDOT will be conducting emergency repairs to the Wishkah Street Bridge (LLNR 16072.3) over the Wishkah River (RM 0.4) from 22 Jan 2019 to 25 Jan 2019. During these necessary repairs, the bridge will not be able to open for marine traffic. For more information contact WSDOT Doug Krikava at (360) 470-9605 or email KrikavD@wsdot.wa.gov

Chart 18502

LNM: 03/19

WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – DECEPTION PASS – Bridge Inspection (revised from LNM 02/19)

WSDOT will be performing a regular scheduled biennial inspection of the Deception Pass Bridge on SR 20 over Deception Pass between the hours of 0800 to 1400 from 11 to 15 Feb 2019. WSDOT will be using two under-bridge inspection trucks (UBITs) occupying portions of the SR 20 roadway to complete the inspection. UBITs will maintain a minimum of approximately 120 ft. of vertical clearance and have flashing amber strobe lights mounted to the bucket undersides to improve visibility. For more information, contact Steve Dobron at (360) 930-9116 or email dobrons@wsdot.wa.gov.

LNM: 03/19

WASHINGTON – Canadian Coast Guard Notice to Shipping (NOTSHIP) service change

On 07 Jan 2019, the Canadian Coast Guard's Marine Communications and Traffic Services (MCTS) Western Region transitioned from the existing Notice to Shipping (NOTSHIP) service to a new Navigational Warning service (NAVWARN) for the publication of maritime information important to navigation in Canadian waters. This new service will use a publically accessible internet application that will provide the ability for users to create account profiles specific to geographic areas of interest and receive notification when new NAVWARNs are created that fit that profile. Interested mariners can visit <http://nis.ccg-gcc.gc.ca/public/rest/messages/en/search> to subscribe to notifications and, after 07 Jan, view NAVWARN notices.

LNM: 01/19

WASHINGTON - PUGET SOUND - ELLIOTT BAY – Crane removal operations at Terminals 18 and 46

Pacific Pile & Marine is removing 03 container cranes from Terminal 18 and 01 from Terminal 46 in Elliott Bay. Operations are expected to

continue until approximately 20 Feb 2019. Operations will be conducted during daylight hours from 0600 to 1800, Monday through Friday. There will one large derrick crane (100' x 400'), one deck barge (100' x 400') as well as a tug. Work parties will answer hails as "PPM" or "Pacific Pile and Marine" on VHF-FM channel 17. All work will be conducted inside the dock line, however the crane and barge will stand off up to 235' during some loading operations. It is requested that all vessels transiting the vicinity operate with minimum wake. For additional information contact Dirk deGroot of Pacific Pile & Marine at (206) 455-5244 or email dirkd@pacificpile.com

Chart 18450

LNM: 01/19

WASHINGTON – PUGET SOUND – LAKE WASHINGTON SHIP CANAL – Hiram M. Chittenden Large Lock closure in January

USACE will close the Hiram M. Chittenden Locks large chamber to all vessel traffic from 0700 to 1700 on 24 and 25 Jan 2019 to complete work on the emergency closure system, or ECS. The large chamber closed 12-14 December for this work but the contractor could not finish the necessary work during that outage. The work includes replacing a wire rope, reconditioning a portion of the ECS and testing the system. The small lock will continue operations during the closures. For more information, contact the Seattle District Public Affairs Office: Bill Dowell at (206) 764-3464 or email william.r.dowell@usace.army.mil

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR					CGD01

		Green can				
Corrective Action		Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

Chart Number	Chart Edition	Edition Date	Last LNM	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

<u>Approved Project(s)</u>	<u>Project Date</u>	<u>Ref. LNM</u>
None		

Advance Notice(s)

COLUMBIA RIVER – HARRINGTON POINT TO ST. HELENS – Testing of LED Range Lights (Revised from LNM 12/18)

The U.S. Coast Guard will be testing a LED combination lantern system to replace the incandescent lanterns at the locations listed below. The changes are expected to occur during the spring or summer of 2018. A Broadcast Notice to Mariners will be issued when the changes are made. The selected sites are:

Skamokawa Range Front Light (LLNR 10355) the high intensity beam width will be increased from 1° to 3° and the intensity of the light will be increased.

Skamokawa Range Rear Light (LLNR 10360) the overall intensity of the range light will be increased.

Driscoll Range Front Light (LLNR 10465) the high intensity beam width will be increased from 1° to 3° and the intensity of the light will be increased.

Driscoll Range Rear Light (LLNR 10470) the overall intensity of the range light has been increased.

Stella Range Front Light (LLNR 10660) the high intensity beam width will be increased from 1° to 3° and the intensity of the light will be increased.

Stella Range Rear Light (LLNR 10665) the overall intensity of the range light will be increased.

Mariners are encouraged to share comments on the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-PF-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

Charts: 18523 18524

LNM: 50/18

COLUMBIA RIVER – BONNEVILLE TO THE DALLES – CASCAPE RAPIDS – Change to the light color for Cascade Rapids Lower Range

The U.S. Coast Guard will be changing the lighting color for Cascade Rapids Lower Range Front Light 8 (LLNR 11795) and Cascade Rapids Lower Range Rear Light (LLNR 11800) from white to red during the winter of 2018-2019. Currently the Range Front Light 8 is displaying a quick flashing white light (QW) and the Range Rear Light is displaying an isophase white light (Iso W 6s). To conform to the International Association for Lighthouse Authorities (IALA) standards, starboard aids to navigation when lighted will be red in color. The Range Front Light 8 will change to a quick flashing red light (QR) and the Range Rear Light will change to a isophase red light (Iso R 6s). Daymarks for both lights will remain the same and the intensity of both lights will be matched to those currently displayed.

Charts: 18531 18532

LNM: 50/18

COLUMBIA RIVER – VANCOUVER TO THE DALLES – Testing of LED Front Range Lights at selected locations (Revised from LNM 24/18)

The U.S. Coast Guard is testing LED Lantern systems to replace the incandescent lanterns at range sites on the Columbia River, between Vancouver, WA and Hood River, OR. The changes are expected to occur during the winter of 2018, before the nesting season. A Broadcast Notice to Mariners will be issued as the changes are made. The selected sites are:

Airport Bar Range Front Light (LLNR 11307) the high intensity beam has been removed and the intensity of the light has been increased.

Airport Bar Range Rear Light (LLNR 11308) the intensity of the light has been increased.

Government Island Range Front Light (LLNR 11465) the high intensity beam has been removed and the intensity of the light will be increased.

Government Island Range Rear Light (LLNR 11470) remains unchanged.

Washougal Lower Range Front Light (LLNR 11530) the high intensity beam has been removed and the intensity of the light has been increased.

Washougal Lower Range Rear Light (LLNR 11535) the intensity of the light has been increased.

Little White Salmon Upper Range Front Light 30 (LLNR 11895) the high intensity beam has been removed and the intensity of the light increased.

Little White Salmon Upper Range Rear Light (LLNR 11900) the intensity of the light will be increased.

Hood River Range Front Light (LLNR 11915) the high intensity beam width will be increased from 1° to 3° and the intensity of the light will be increased.

Hood River Range Rear Light (LLNR 11920) the intensity of the light will be increased.

Mariners are encouraged to share comments on the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-PF-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

OREGON – UMPQUA RIVER – Barretts Range Front and Rear Light arc of visibility change

The U.S. Coast Guard is proposing to change the arc of visibility characteristics for Barretts Range Front Light and Barretts Range Rear Light to facilitate the installation of LED lanterns as listed below:

Barretts Range Front Light (LLNR 9305) remove the high intensity beam and increase the intensity of the current light. The light will remain an all-around white light.

Barretts Range Rear Light (LLNR 9310) remove the high intensity beam and install a lantern with a 3° beam (1.5° either side of the range centerline). The intensity of the 3° beam will be increased from the current light.

Mariners are encouraged to share comments on this proposed change and the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-PF-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector North Bend.

Chart 18584

LNM: 50/18

COLUMBIA RIVER – VANCOUVER TO BONNEVILLE – REED ISLAND CHANNEL – Changing Reed Island Buoy 61 to Lighted Buoy 61

proposing to change Reed Island Buoy 61 (LLNR 11580) to Reed Island Lighted Buoy 61, displaying a green light flashing every 2.5 seconds (FI G 2.5s) with a nominal range of 4 NM. This lighted buoy will mark the southeastern corner of the shoal in approximately 20 feet of water at Columbia River Datum (CRD)

Mariners are encouraged to share comments on this proposed change. All comments should be sent to the email address D13-PF-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

Chart 18531

LNM: 50/18

WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – ROSARIO STRAIT – Change to the light characteristic of Belle Rock Sector Light

The U.S. Coast Guard is proposing to change the red high intensity beam on Belle Rock Sector Light (LLNR 19395) from a 1.5° beam to a 3° beam. This change will facilitate the installation of a LED lantern, and increase the intensity of both the red and white light characteristic from the current light.

Mariners are encouraged to share comments on this proposed change and the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-PF-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Puget Sound.

OREGON - COOS BAY – Isthmus Slough Bridge Notice

The US Coast Guard has approved a Temporary Final Rule (TFR) for the Isthmus Slough Bridge (LLNR 9087) near Coos Bay, OR. The new rule will allow the Oregon Department of Transportation to temporarily operate and open one half of the span, single leaf, for vessel traffic on signal if at least 24 hours notice is given, and reduce the vertical clearance with a work platform from 28 feet to 18 feet from 0600 on 26 Feb 18 through 1800 on 31 Jul 19. The TFR will be up loaded to the Federal Register, and may be read at: <https://www.federalregister.gov/>. To view the rule, type in the search box, uscg-2017-0868. For more info on the work or operation of the bridge, contact Sam Dunnivant at (541) 957-3519.

Chart 18587

LNM: 02/18

COLUMBIA RIVER - PACIFIC OCEAN TO HARRINGTON POINT - Youngs Bay bridges notice (Revised from LNM 34/18)

The Coast Guard has approved a temporary test deviation that governs the Youngs Bay Bridge (LLNR 14573), the Old Youngs Bay Bridge (LLNR 14582) and the Lewis and Clark River Highway Bridge (LLNR 14607) in Astoria. This deviation period will be from 0700 on 22 Sep 18 to 0700 on 19 Mar 19. This bridge deviation allows ODOT to remove the bridge tender during weekend hours. The three subject drawbridges are authorized to open with at least a two-hour notice due to infrequent weekend opening requests. The deviation authorizes ODOT's bridge operator to open the subject bridges within two hours after receiving a request for an opening by telephone from 1700 on Friday to 0700 on Monday, including all Federal holidays. At all other times, the bridges shall operate per 33 CFR 117.899. For more info, contact Dan McFadden at (503) 440-0949.

LNM: 39/18

WASHINGTON – LAKE WASHINGTON SHIP CANAL - George Washington Memorial Bridge Notice (Revised from LNM 01/18)

Washington State Department of Transportation will be conducting painting and preservation operations on the George Washington Memorial Street Bridge (Aurora Avenue Bridge) (LLNR 18184). The work will be conducted from 01 Apr 18 through 31 Oct 20. Hours of work will be from 0700 to 1900, Monday through Saturday. The subject bridge provides 135 feet of vertical clearance will be reduced to 125 feet for containment. The containment will be marked with flashing yellow lights and signage. Half of the 150 feet of horizontal clearance will have containment. Mariners may transit under the bridge at any time, and are advised to use caution while transiting the area. For additional information, contact Nick Hadsell, PM, at (330) 402-3232 or nhadsell@libertymaintenanceinc.com.

Chart 18447

LNM: 26/18

WASHINGTON – LAKE WASHINGTON SHIP CANAL – LAKE WASHINGTON - Interstate 90 Highway Bridge (West Channel) construction (Revised from LNM 15/18)

Kiewit-Hoffman will be performing seismic upgrades to the existing approach piers for the Interstate 90 (I-90) Highway Bridge (LLNR 18389 and 18398). The west navigation channel and east navigation channels for the I-90 Floating Bridge will have marine activities, including the moving of barges, but will stay open to mariners. At this time an aerial platform will also be working from the existing bridge structure above. The platform will not restrict the minimum vertical clearances published for the east and west navigation channels. Mariners are advised to use caution while transiting near barges within the Sound Transit E130 project area. These vessels are currently moored to columns and may present hazards. Work zones around the construction barges will be marked with steady white lights on the corners. Mariners should maintain a safe distance and minimize wake around all floating barges and other construction vessels. The eastern navigation channel will be open and will not change vertical or horizontal clearances. Two temporary mooring buoys marked with white lights flashing every 4 seconds (FI W 4s) have been relocated near the bridge for the mooring of the barges. The positions are:

Mooring Buoy (Northwest side of I-90 Floating Bridge) 47-35-32.040N, 122-16-49.740W

Mooring Buoy (Northeast side of I-90 Floating Bridge) 47-35-31.860N, 122-15-37.680W

Mariners should not deviate from these established paths through navigations channels when open to vessel traffic. Construction and operations at this site are expected to continue through 2020. For additional information contact Matt Larson at (425) 318-5296 or email mattson.larson@kiewit.com.

Chart 18447

LNM: 22/18

SNAKE RIVER –Walters Ferry Highway Bridge repair work notice (Revised from LNM 33/18)

The Idaho Transportation Department will be conducting repair work to the Walters Ferry Bridge, at Snake River mile 442.9, from approximately 04 Sep 18 until 30 Apr 19. The Walters Ferry Bridge is approximately 15 miles south of Nampa, ID, on SH-45. The working hours will be Monday through Saturday, 0700 to 1900. The repair work will be above and below the waterline; mariners watch for diver flags to warn of divers in the water. Work barges will be anchored at the bridge, and lighted per Coast Guard regulations. Turbidity curtains will be submerged around the work area and marked with lighted buoys. Mariners are requested to remain at least 100 feet away from the marked work area and proceed with minimum wake. For additional information, contact Styles Salek at (208) 559-1275 or styles.salek@itd.idaho.gov.

LNM: 34/18

IDAHO - LAKE COEUR D'ALENE – I-90 Blue Creek Bay Highway Bridge Notice

Idaho Transportation Department is conducting repair work to the I-90 Blue Creek Highway Bay Bridge across Lake Coeur D'Alene from Jun 18 through Aug 19. These dates are weather pending. The subject bridge is located at 47-37-38.5N, 116-40-37.3W. This project is in three phases as shown in enclosure (5) of Local Notice to Mariners 28/18. The enclosure shows work zones for mariners to remain clear, and the section of the bridge open for passage during each phase. The work will include heavy construction with fall hazards in the closure areas, and painting and preservation. Hours will be 0700 to 1730, seven days a week for most above water work and all underwater work, with 0700 to 1930 above water a few times per week. The vertical clearance for the navigable section will be 24 feet, and the horizontal clearance will be a minimum of 120 feet. The construction zone will be marked with orange buoys and lighted regulatory no wake buoys. Orange caution signs will be installed from the bridge marking the navigable section. Mariners may transit under the bridge span with no active working, but at minimum safe speed. The point of contact for the construction company is Skip Delwisch at (208) 600-2595.

LNM: 25/18

COLUMBIA AND SNAKE RIVERS – Winter seasonal recreational vessel lockage

The USACE Portland and Walla Walla Districts will implement the winter seasonal lockage schedule, from 15 Sep 2018 to 14 May 2019, for the passage of recreational craft through the Columbia and Snake River navigation locks. Winter recreational vessel lockage will be made during daylight hours only, on request at each lock – vessels should contact the lock operator via VHF-FM channel 14 or commercial telephone, and should make their request at least 30 minutes in advance.

Lock Name	Location	Phone Number	Radio Call Sign
Bonneville Lock	Columbia River Mile 145.5	(541) 374-8323	WUJ 33
The Dalles Lock	Columbia River Mile 191.5	(541) 298-4007	WUJ 34
John Day Lock	Columbia River Mile 215.6	(541) 298-9712	WUJ 35
McNary Lock	Columbia River Mile 292	(541) 922-2231	WUJ 41
Ice Harbor Lock	Snake River Mile 9.7	(509) 543-3253 x231	WUJ 42
Lower Monumental Lock	Snake River Mile 41.6	(509) 282-7231	WUJ 43

COLUMBIA AND SNAKE RIVERS – Winter seasonal recreational vessel lockage

Little Goose Lock Snake River Mile 70.3 (509) 399-2233 x231 WUJ 44
Lower Granite Lock Snake River Mile 107.5 (509) 843-1493 x231 WUJ 45

Commercial vessels continue to have lockage precedence over recreational vessels. At the discretion of the lock operator, recreational vessels may be allowed to lock through with commercial vessels. All vessel owner/operators lock through at their own risk. All persons in the vessel must be wearing a personal flotation device (PFD) during lockage. Follow the directions of the lock operator when using locks or operating in the vicinity of the locks. The lock operator has final authority on the suitability of a craft for lockage. Please refer to USACE Safe Lockage Policy for Recreational Craft on the Columbia and Snake Rivers, published separately, for safety requirements. For safety and additional information on navigation lock operations and schedules visit <http://www.nww.usace.army.mil/Missions/Navigation.aspx>. or call the USACE Walla Walla Operations Division at (509) 527-7112.

COLUMBIA AND SNAKE RIVERS – 2019 Annual Lock closures for maintenance

The USACE Portland and Walla Walla Districts have scheduled the annual navigation lock maintenance closure for March 2019. During this time, the Locks and Dams on the Columbia and Snake Rivers have scheduled routine inspections and maintenance, as well as some non-routine work. All seven (7) of the navigation locks will close at 0600 on Saturday 02 Mar 2019. Bonneville, The Dalles, John Day, McNary, Ice Harbor, and Little Goose will reopen at 2359 on Sunday 17 Mar 2019, while Lower Monumental and Lower Granite will reopen at 2359 on Sunday 24 Mar 2019.

Columbia River navigation lock maintenance closures are:

Bonneville (RM 145) – 0600 on 02 Mar 2019 to 2359 on 17 Mar 2019

The Dalles (RM 191) – 0600 on 02 Mar 2019 to 2359 on 17 Mar 2019

John Day (RM 216) – 0600 on 02 Mar 2019 to 2359 on 17 Mar 2019

McNary (RM 292) – 0600 on 02 Mar 2019 to 2359 on 17 Mar 2019

Snake River navigation lock maintenance closures are:

Ice Harbor (RM 9.7) – 0600 on 02 Mar 2019 to 2359 on 17 Mar 2019

Lower Monumental (RM 41.6) – 0600 on 02 Mar 2019 to 2359 on 24 Mar 2019

Little Goose (RM 70.3) – 0600 on 02 Mar 2019 to 2359 on 17 Mar 2019

Lower Granite (RM 107.3) – 0600 on 02 Mar 2019 to 2359 on 24 Mar 2019

For additional information regarding Bonneville, The Dalles and John Day lock maintenance closures, contact Portland District, Operations Division at (503) 808-4341. For additional information regarding McNary, Ice Harbor, Lower Monumental, Little Goose and Lower Granite lock maintenance closures, contact Walla Walla District, Operations Division, at (509) 527-7112.

SNAKE RIVER – LAKE SACAJAWEA – ICE HARBOR DAM – Extension of floating guide wall restrictions at Ice Harbor Navigation Lock (Revised from LNM 28/18)

The use of the floating guide wall at Ice Harbor Navigation Lock (Snake River RM 9.7) is restricted due to a failure of the brackets that hold the bumpers in the correct position. Mariners are requested to avoid pushing on, bumping into or tying up to the guide wall until repairs are made. The repairs require divers and a one-day lock closure, which is scheduled for the next in-water work period in February of 2019. For more information, contact the Ice Harbor Chief Operator at (509) 543-3231. Call Sign WUJ42 Ice Harbor.

WASHINGTON – PUGET SOUND – LAKE WASHINGTON SHIP CANAL – Future schedule for Hiram M. Chittenden Large Lock maintenance closures

USACE Seattle District has released a projected schedule for extended maintenance outages of the large lock chamber at the Hiram M. Chittenden Locks in Ballard. In 2019, USACE will commence the first of five extended 45-day closures to replace the valve gates, which are original equipment that must be replaced to keep the 101-year-old Chittenden Locks safe and operational for years to come.

The projected 45-day closure dates are:

2019: 12 Oct – 30 Nov

2020: 12 Feb – 02 Apr

12 Oct – 30 Nov

2021: 12 Feb – 02 Apr

09 Nov – 24 Nov

For more information, contact the Seattle District Public Affairs Office, Bill Dowell at (206) 764-3464 or email william.r.dowell@usace.army.mil.

WILLAMETTE RIVER - PORT OF PORTLAND - Portland Winter Light Festival underwater display

The Portland Winter Light Festival will be placing an underwater art display in the shape of a school of salmon approximately 20 feet off the east bank of the Willamette River directly south of the Marquam Bridge in Portland, OR from 05 Feb 19 through 11 Feb 19. The display will be comprised of a 100' long polyester line with floats at each end, running parallel to the shore. There will be 15-20 salmon, formed of soft materials and lit with LEDs, attached to the line directly under the surface of the water. Mariners are requested to use caution when transiting the area. For additional information, contact Jean Margaret at (503) 753-7725 or tech@pdxwlf.com.

Chart 18526

COLUMBIA RIVER – PACIFIC OCEAN TO HARRINGTON POINT - Mouth of the Columbia River Jetty System Major Rehabilitation Project (Revised from LNM 31/17)

Scheduled repairs of the North Jetty have commenced and will continue through 2020. Current repairs are being conducted via the land access, but at a future date barges and in water equipment will be used to conduct repairs. This notice will be updated once in water work is scheduled. For additional information on this project contact Sherri Brenner at (503) 550-6743 and email Sheri@jemcamis.com or the Project Superintendent Aaron Anderson at (503) 791- 2161 and email AAnderson@jemcamis.com.

The jetties at the Columbia River Entrance have suffered severe deterioration and may no longer be correctly represented upon the nautical charts of the area. Mariners should use caution when transiting in the vicinity of the jetties and the river entrance. Repairs of the South jetty are scheduled to be conducted from 2019 through 2023. More information may be found at the USACE Portland District web site: <http://www.nwp.usace.army.mil/jetties/>.

COLUMBIA RIVER – HARRINGTON POINT TO CRIMS ISLAND – Dock construction

Advanced American Construction (AAC) will be conducting marine construction in the Columbia River at Wauna (RM 42). Operations include dock demolition, pile driving, and dock construction. Onsite work is expected to occur from 01 Nov 2018 to 28 Feb 2019. AAC's Derrick Barges DB 4100 and DB Millennium, tug Lindy Marie, and work barges will be on station from 01 Nov 2018 to 28 Feb 2019. AAC will be monitoring VHF-FM channel 16 during the working hours of 0700 through 1700, Monday through Friday. The floating equipment will remain on-station during non-working hours and will be illuminated at night by fixed white lights on all corners. Mariners are asked to transit the area with extreme caution and minimize wake. Please contact Jason Sweet at (503) 849-1883 jasons@callaac.com with questions.

COLUMBIA RIVER – BONNEVILLE TO THE DALLES – Wind River Railroad Bridge construction

Advanced American Construction (AAC) will be conducting bridge construction in the Columbia River at the mouth of Wind River (RM 155). Operations include pile driving and drilled shaft work. Onsite work is expected to occur from 01 Nov 2018 to 28 Feb 2019. AAC's Derrick Barge DB 4000 and tug Ruth will be on station and monitoring VHF-FM channel 16 during the working hours of 0700 through 1700, Monday through Saturday. The floating equipment will remain on-station during non-working hours and will be illuminated at night by fixed white lights on all corners. Mariners are asked to transit the area with extreme caution and minimize wake. Please contact Kyle Izatt at (503) 849-3336 Kylei@CallAAC.com or Todd High at (503) 572-0101 Toddh@CallAAC.com with questions.

WASHINGTON COAST – COLUMBIA RIVER TO THE STRAIT OF JUAN DE FUCA – Deployment of sub-surface acoustic recorder moorings

NOAA Northwest Fisheries Science Center (NMFS) will be deploying subsurface acoustic recorder moorings along the Washington Coast on 15 Oct 18. The moorings will have a subsurface float and cabling up to 125 meters from the ocean floor but may be as little as 20 meters below the surface in some locations. The moorings are expected to remain on site through 01 Oct 19. The moorings are located at:

Location Area Name	Latitude - Longitude
Columbia River North	46-19-37N 124-11-54W
Westport	46-57-51N 124-18-09W
LaPush	47-52-50N 124-40-53W
Cape Flattery Offshore	48-10-33N 125-37-08W
Western Strait of Juan de Fuca	48-29-30N 124-47-00W

Mariners should avoid trailing any gear or equipment to prevent entanglement when transiting in the vicinity. For additional information contact Brad Hanson at (206) 860-3220 or email at Brad.Hanson@noaa.gov.

WASHINGTON – APPROACHES TO ADMIRALTY INLET - Sequim Bay scientific sensor deployment

The Pacific Northwest National Laboratory (PNNL) will be deploying and retrieving submerged scientific equipment in the entrance channel to Sequim Bay, Washington from 07 Jan 2019 through 31 Mar 2019. The submerged equipment be located in various locations between approximate positions 48-04-54.51N 123-02-32.50W and 48-04-42.74N 123-02-34.80W, and will have cables running on the seafloor to PNNL's pier located on the west side of the channel, opposite Travis Spit. There will be no surface marker buoys on the equipment, but the equipment extends more than 5 feet above the seafloor, leaving at least 23 feet of water over the equipment at all times. Several research vessels will be involved in the operations, and may be hailed on VHF-FM channel 16, including the Strait Science, Desdemona, and R/V Jack Robertson. Mariners will not be restricted from using the channel, but should anticipate the research and support vessels may have decreased maneuverability during operations. Additionally, when diving operations are conducted, vessels supporting divers will fly the blue and white Alpha flag as well as the red and white Diver Down flag and other vessels should keep well clear at a slow speed. A Sécurité message will announce the start and end of the deployment and retrieval periods, expected to take place during slack tides approximately 8 to 10 times total during project time period. For additional information, contact PNNL Marine Sciences Laboratory, Susan Southard, at (360) 681-3615 (office) or (360) 460-1999 (cell) or email sue.southard@pnnl.gov.

WASHINGTON - PUGET SOUND – ELLIOT BAY – Construction at Piers 62 and 63

Pacific Pile and Marine, LP is conducting pier demolition and construction operations at Piers 62 and 63 in Elliott Bay, WA from 15 Jan 18 through January of 2020. The hours of operations will be 0700 to 1700, Monday through Friday though some work may be continued through the weekends. The construction and crane barge Web and various other barges will be on scene at all times, lighted at night, and will monitor VHF-FM channels 13, 16 & 69. Construction equipment may be moored in the vicinity of Pier 62 and may restrict sections of the waterway. For additional information, contact Karl Benjamin at (206) 331-3873 or at email Karlb@pacificpile.com.

WASHINGTON – SEATTLE TO BREMERTON – ELLIOTT BAY - Colman Dock construction

Washington State Ferries is conducting demolition and construction operations at the Colman Docks, scheduled to be completed in the summer of 2022. Operations will be conducted from 0700 to 1700, Monday through Friday. Mariners should be aware of marine construction equipment moored around the Colman Dock and regular tows up and down the Duwamish River in support of the operation. Equipment may obstruct small sections of the waterway adjacent to Colman Dock. Water quality monitoring will be taking place during construction operations. Please direct any inquiries to WSF Communications at (206) 402-8070 or email wsfcomms@wsdot.wa.gov.

WASHINGTON – PUGET SOUND – ELLIOTT BAY – Construction under Terminal 46

Stellar J and Bergerson Construction is conducting repair work operations under Terminal 46 in Elliott Bay until approximately 30 Jan 20. Operations will be conducted during daylight hours to coincide with tidal changes, Monday through Friday. There will be up to five work skiffs, two working floats as well as a scaffolding system under the dock. Work parties will answer hails as Stellar J or Bergerson Construction on VHF-FM channel 17. All work will be conducted inside the dock line, and it is requested that all vessels transiting the vicinity operate with minimum wake. For additional information contact Mike Klassen of Stellar J Corporation at (360) 518-2544 or email mikeklassen@stellarj.com.

WASHINGTON – PUGET SOUND – GPS testing

US Strategic Command has proposed GPS testing encompassing the majority of the Puget Sound area. The center point of the test will be at position 47-01-47.437N, 122-32-57.893W, near Fort Lewis, WA, with a radius of 52 NM. The GPS navigation signal may be unreliable due to testing on GPS frequencies used by shipboard navigation and handheld systems. Systems that rely on GPS, such as e-911, AIS and DSC, may be affected. The testing frequencies will be GPS L1 and L2. Testing dates and times are as listed below, using Pacific Standard Time as local time:

26 Feb 2019: 0700 – 1900
27 Feb 2019: 0700 – 1900
28 Feb 2019: 0700 – 1900

For additional information or to express concerns, contact the Coast Guard Navigation Center at (703) 313-5900 or at <https://www.navcen.uscg.gov/?pageName=dgpsSiteInfo¤tOutages>.

WASHINGTON - PUGET SOUND - APPROACHES TO EVERETT - Port of Everett's South Terminal Wharf Construction

Advanced American Construction is conducting repair work operations under South Terminal Wharf at the Port of Everett in Port Gardner Bay until approximately January 2020. Operations will be conducted during day and nighttime hours to coincide with tidal changes, Monday through Saturday. There will be up two work skiffs, several working floats as well as a scaffolding system under the wharf. Work parties will answer hails as Advanced American Construction on VHF 63 and 64. All work will be conducted inside the wharf line, and it is requested that all vessels transiting the vicinity operate with minimum wake. For additional information, contact Steve Hager, Port of Everett, at (425) 388-0633 or email steveh@portofeverett.com.

WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – SAN JUAN CHANNEL – Submarine cable operations (Revised from 30/17)

Harbor Offshore Inc. is installing and recovering submarine cables in the San Juan Channel between Pear Point on San Juan Island and Fisherman's Bay on Lopez Island, within the charted cable areas. Operations are expected to continue through 13 Aug 19. The hours of operations are 24 hours a day, 7 days a week. The Cable Lay Barge HOI-1, the tugs Westrac, Flyer and Reliable and the work boat Bobbie T may be contacted on VHF-FM channels 13, 16 and 68. An anchor system will be placed in approximate position 48-31-02.58N 122-58-46.73W off of Pear Point. Mariners are requested to contact one of the vessels listed above before transiting in the vicinity. For additional information contact Mr. Cliff Center at (206) 949-7133 or Mr. Lester Garrett at (206) 391-4077.

Chart 18434

LNM: 34/17

STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – HARO STRAIT AND BOUNDARY PASS - Placement of underwater equipment (Revised from LNM 08/16)

Two Canadian subsurface research buoys have been placed in Canadian waters in Haro Pass and Boundary Pass at approximate positions:

48-41-07.32N 123-16-26.10W 48- 30-23.68N 123-12-37.92W

STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – HARO STRAIT AND BOUNDARY PASS - Placement of underwater equipment (Revised from LNM 08/16)

The buoys are set to float approximately eight meters above the seabed and are expected to be in place until further notice. For additional information contact Mr. Sean Dyble of the Canadian Hydrographic Services Office Esquimalt at (250) 363-4929 or email sean.dyble@forces.gc.ca.

Mariners are advised that the start and ending dates for dredging activities may vary due to unforeseen on-site conditions, such as gill net fishing, weather and other factors.

USACE dredges request mariners transit at their slowest safe speed to minimize wake when in the vicinity of a dredge and proceed with caution after passing arrangements have been made. Vessel(s) and/or equipment may encroach into the channel.
