

U.S. Department of Homeland Security  
United States Coast Guard

**LOCAL NOTICE TO MARINERS**

**District: 1**

**Week: 16/24**

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

\* Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.

\* The Local Notice to Mariners is a weekly edition.

\* Inquiries, published articles or Information: mail to: D01-SMB-LNM@uscg.mil.

\* The U.S. Coast Pilot supplements the navigational information shown on nautical charts.

\* The Coast Pilot, along with its corrections, are available online at <https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html>.

\* The Local Notice to Mariners is available online at <https://navcen.uscg.gov/local-notice-to-mariners-by-cg-district>

\* Updated Light List is available online: <https://navcen.uscg.gov/light-lists>.

\* Weekly updates to all Light Lists: <https://navcen.uscg.gov/weekly-light-lists>

\* Information on Private Aids to Navigation is available at: <http://www.usARBORMASTER.COM/>

\* Reports of Channel conditions can be found at the Army Corps of Engineers website at: <http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx>.

\* NOAA Chart Corrections and Chart Viewer: <https://www.nauticalcharts.noaa.gov>

\* NOAA Tides and Currents can be found at: <http://www.tidesandcurrents.noaa.gov/>.

\* Weather: <https://www.weather.gov/>

\* The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: <https://navcen.uscg.gov/nanu-information>. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: [tis-sg-nisws@uscg.mil](mailto:tis-sg-nisws@uscg.mil), or on the internet at: <https://navcen.uscg.gov/>.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)  
408 Atlantic Avenue, Boston, Massachusetts 02110-3350  
Telephone: (617) 223-8356  
24 Hour FAX: (617) 223-8094  
<http://www.uscg.mil/d1/prevention/Marineinforegulations.asp>

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

**ABBREVIATIONS**

**A through H**

ADRIFT - Buoy Adrift  
AICW - Atlantic Intracoastal Waterway  
AI - Alternating

**I through O**

I - Interrupted  
ICW - Intracoastal Waterway  
IMCH - Improper Characteristic

**P through Z**

PRIV - Private Aid  
Q - Quick  
R - Red

B - Buoy  
BKW - Breakwater  
bl - Blast  
BNM - Broadcast Notice to Mariner  
bu - Blue  
C - Canadian  
CHAN - Channel  
CGD - Coast Guard District  
C/O - Cut Off  
CONT - Contour  
CRK - Creek  
CONST - Construction  
DAYMK/Daymk - Daymark  
DBN/Dbn - Daybeacon  
DBD/DAYBD - Dayboard  
DEFAC - Defaced  
DEST - Destroyed  
DISCON - Discontinued  
DMGD/DAMGD - Damaged  
ec - eclipse  
EST - Established Aid  
ev - every  
EVAL - Evaluation  
EXT - Extinguished  
F - Fixed  
fl - flash  
FI - Flashing  
G - Green  
GIWW - Gulf Intracoastal Waterway  
HAZ - Hazard to Navigation  
HBR - Harbor  
HOR - Horizontal Clearance  
HT - Height

INL - Inlet  
INOP - Not Operating  
INT - Intensity  
ISL - Islet  
Iso - Isophase  
kHz - Kilohertz  
LAT - Latitude  
LB - Lighted Buoy  
LBB - Lighted Bell Buoy  
LHB - Lighted Horn Buoy  
LGB - Lighted Gong Buoy  
LONG - Longitude  
LNM - Local Notice to Mariners  
LT - Light  
LT CONT - Light Continuous  
LTR - Letter  
LWB - Lighted Whistle Buoy  
LWP - Left Watching Properly  
MHz - Megahertz  
MISS/MSNG - Missing  
Mo - Morse Code  
MRASS - Marine Radio Activated Sound Signal  
MSLD - Misleading  
N/C - Not Charted  
NGA - National Geospatial-Intelligence Agency  
NO/NUM - Number  
NOS - National Ocean Service  
NW - Notice Writer  
OBSCU - Obscured  
OBST - Obstruction  
OBSTR - Obstruction  
Oc - Occulting  
ODAS - Anchored Oceanographic Data Buoy

RACON - Radar Transponder Beacon  
Ra ref - Radar reflector  
RBN - Radio Beacon  
REBUILT - Aid Rebuilt  
RECOVERED - Aid Recovered  
RED - Red Buoy  
REFL - Reflective  
RRL - Range Rear Light  
RELIGHTED - Aid Relit  
RELOC - Relocated  
RESET ON STATION - Aid Reset on Station  
RFL - Range Front Light  
RIV - River  
RRASS - Remote Radio Activated Sound Signal  
s - seconds  
SEC - Section  
SHL - Shoaling  
si - silent  
SIG - Signal  
SND - Sound  
SPM - Single Point Mooring Buoy  
SS - Sound Signal  
STA - Station  
STRUCT - Structure  
St M - Statute Mile  
TEMP - Temporary Aid Change  
TMK - Topmark  
TRLB - Temporarily Replaced by Lighted Buoy  
TRLT - Temporarily Replaced by Light  
TRUB - Temporarily Replaced by Unlighted Buoy  
USACE - Army Corps of Engineers  
W - White  
Y - Yellow

**Additional Abbreviations Specific to this LNM Edition:**

SNNE- U.S. Coast Guard Sector Northern New England  
SBOS- U.S. Coast Guard Sector Boston  
SSENE- U.S. Coast Guard Sector Southeastern New England  
SLIS- U.S. Coast Guard Sector Long Island Sound  
SNEW- U.S. Coast Guard Sector New York

AIS - Automatic Identification System  
AtoN - Aids to Navigation  
LLNR - Light List Number  
NM - Nautical Mile

---

---

**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

---

**Right Whale Protections**

Right whales are active in coastal and offshore waters. It is illegal to approach or stay within 500 yards of right whales. Mandatory and voluntary speed restrictions of 10 knots apply to vessels 65 feet or longer in specific areas of the U.S. East Coast, but all vessels are urged to slow in these areas. Refer to Section VII of this LNM for active Slow Zones and Dynamic Management Areas. Or visit NOAA's website to learn more and sign up for notifications about seasonal management areas and right whale slow zones. Or follow on X @NOAAFish\_GARFO. See the latest sightings on [whalemap.org](http://whalemap.org). Please report sightings of dead, injured, or entangled whales to 877-942-5343 or to the U.S. Coast Guard on channel 16.

LNM: 10/24

**New Merchant Mariner Credential**

The U.S. Coast Guard announced a new merchant mariner credential (MMC) set to launch on March 1, 2024. This milestone marks the first comprehensive revision of the mariner credential in nearly a decade and is strategically designed to enhance both quality of service and security within the Marine Transportation System (MTS). U.S. Coast Guard Marine Safety Information Bulletin (MSIB) 01-24, New Merchant Mariner Credential Passport Booklet Replacement, has been posted on the DCO's MSIB Site and announced at the National Maritime Center (CG-NMC) Home Page ([uscg.mil](http://uscg.mil)). Please visit these resources for more information on the credential.

LNM: 09/24

**Publication of NVIC 03-23 Guidance on Navigational Safety In and Around Offshore Renewable Energy Installations (OREI).**

The Coast Guard has published Navigation and Vessel Inspection Circular (NVIC) 03-23: Guidance on Navigational Safety In and Around Offshore Renewable Energy Installations (OREI) to highlight considerations when planning and undertaking voyages in the vicinity of offshore renewable

energy installations (OREI) in U.S. waters. The prudent mariner should review and utilize this NVIC to make an informed risk assessment prior to navigating within or in the vicinity of an OREI. Important Maritime Safety Information (MSI) relating to OREIs is distributed by Local or Broadcast Notices to Mariners (LNM or BNM) promulgated by Coast Guard Districts. Marine Safety Information Bulletins (MSIB) released by the local Captain of the Port (COTP) may be issued to provide supplemental information. Interested parties should contact the Office of Navigation Systems at CGNAV@uscg.mil with any questions or feedback.

LNM: 47/23

#### **CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION**

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

LNM: 01/24

#### **INTERFERENCE WITH AIDS TO NAVIGATION**

14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than \$1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

LNM: 01/24

#### **U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE**

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.  
[http://www.cgaux.org/boating/class\\_finder/index.php](http://www.cgaux.org/boating/class_finder/index.php)

LNM: 01/24

#### **CANCELLATION OF NOAA PAPER AND RASTER NAUTICAL CHARTS**

The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, BookletChart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six months notice of the intent to cancel a specific chart is provided in a "Last Edition" notice. The final cancellation of a chart is made in a "Canceled" notice. Both types of notices will appear in LNM Section IV, "Chart Correction." A comprehensive list of all canceled NOAA charts is available at: <http://www.charts.noaa.gov/MCD/Dole.shtml>.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA's electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA's program to sunset traditional paper charts is on the NOAA Coast Survey website at: <https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html>

An online NOAA Custom Chart application at: <https://devgis.charttools.noaa.gov/pod> is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

LNM: 01/24

#### **NOTICE TO ALL PRIVATE BOATS AT SEA**

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that

program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

LNM: 01/24

**US NOTICE TO MARINERS (NTM)**

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at [http://msi.nga.mil/NGAPortal/MSI.portal?\\_nfpb=true&\\_pageLabel=msi\\_portal\\_page\\_61](http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61). NTM 01 – Special Paragraphs includes information on: America’s Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

LNM: 01/24

---

**SECTION II - DISCREPANCIES**

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted. If no chart is listed, the charts associated with that aid have been discontinued by NOAA.

---

**SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED**

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

**SECTION IV - CHART CORRECTIONS**

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR						
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3				CGD01	074-02-48.001W
	Green can					
Corrective Action	Object of Corrective Action			Position		

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

**5161** 14th Ed. 01-MAR-16 Last LNM: 20/20 NAD 83 16/24

Chart Title: Newport, Rhode Island to Bermuda (Plotting Sheet)

Main Panel 2912 PLOTTING SHEET NEWPORT TO BERMUDA. Page/Side: A

LAST EDITION No new editions of chart 5161 will be published. It will be canceled on 04- NOS -- --

Sep-24. Comparable or larger scale Electronic Navigational Chart (ENC) coverage is available. See "Cancellation of NOAA Paper and Raster Nautical Charts" in Section I of this LNM for details. A list of all canceled NOAA charts is at <https://www.charts.noaa.gov/MCD/Dole.shtml>.

## SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc.  
Mariners are advised to use caution while transiting these areas.

**SUMMARY OF ADVANCED APPROVED PROJECTS**

**Approved Project(s)**

None

**Project Date**

**Ref. LNM**

**Advance Notice(s)**

**ME-DAMARISCOTTA, SHEEPSCOT AND KENNEBEC RIVERS (Chart 13293)-KENNEBEC RIVER-UPPER KENNEBEC RIVER**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to this waterway:

PERMANENTLY DISESTABLISH all floating aids in the Upper Kennebec River from Buoy 47A (LLNR 6345) to Buoy 82 (LLNR 6435) with the exception of the aids listed below.

The following aids will be seasonally maintained from Jun 15 to Oct. 15.

Upper Kennebec River Buoy 47B (LLNR 6350)	Upper Kennebec River Buoy 48A (LLNR 6357)
Upper Kennebec River Buoy 49 (LLNR 6360)	Upper Kennebec River Buoy 54 (LLNR 6375)
Upper Kennebec River Buoy 64 (LLNR 6395)	Upper Kennebec River Buoy 68A (LLNR 6403)
Upper Kennebec River Buoy 74 (LLNR 6420)	

Previously advertised as a Proposal in LNM 43/23. Refer to Project No. 01-23-090. E-mail can be sent to: D01-SMB-DPWPUBLICCOMMENTS@USCG.MIL.

LNM: 43/23

**MA-SEACOAST- GEORGES BANK AND NANTUCKET SHOALS (Chart 13200)-BOSTON HARBOR APPROACH**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to facilitate navigation in this waterway:

REMOVE the RACON and WHISTLE from Boston Lighted Whistle Buoy B (LLNR 410/10676) and ADD an AIS signal to the aid.

Previously advertised as a Proposal in LNM 01/23 Refer to Project No. 01-23-003. E-mail can be sent to: D01-SMB- DPWPUBLICCOMMENTS@USCG.MIL.

Charts: 13003 13006 13009 13260

LNM: 01/23

**ME-FRENCHMAN AND BLUE HILL BAYS AND APPROACHES-FRENCHMAN BAY**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to facilitate navigation in this waterway:

DISESTABLISH Frenchman Bay Lighted Buoy FB (LLNR 1860) and ADD an AIS virtual signal to the assigned position.

Previously advertised as a Proposal in LNM 35/22 Refer to Project No. 01-22-063. E-mail can be sent to: D01-SMB- DPWPUBLICCOMMENTS@USCG.MIL.

LNM: 35/22

**ME-SEACOAST- BAY OF FUNDY TO CAPE COD (Chart 13260)-PORTLAND HARBOR APPROACH**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to facilitate navigation in this waterway:

REMOVE the RACON and WHISTLE from Portland Lighted Whistle Buoy P (LLNR 45/7480) and ADD an AIS signal to the aid.

Previously advertised as a Proposal in LNM 01/23 Refer to Project No. 01-23-002. E-mail can be sent to: D01-SMB- DPWPUBLICCOMMENTS@USCG.MIL.

Charts: 13003 13006 13009

LNM: 01/23

**NY AND NJ-NEW YORK HARBOR (Chart 12327)-SANDY HOOK CHANNEL**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to facilitate navigation in this waterway:

REMOVE the RACON and WHISTLE from Scotland Lighted Whistle Buoy S (LLNR 35085) and ADD an AIS signal to the aid.

Previously advertised as a Proposal in LNM 01/23 Refer to Project No. 01-23-007. E-mail can be sent to: D01-SMB- DPWPUBLICCOMMENTS@USCG.MIL.

Chart 12300

LNM: 01/23

**NY-BLOCK ISLAND SOUND AND GARDINERS BAY (Chart 13209)**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to facilitate navigation in this waterway:

REMOVE the RACON and WHISTLE from Valiant Rock Lighted Whistle Buoy 11 (LLNR 19825) and ADD an AIS signal to the aid.

Previously advertised as a Proposal in LNM 01/23 Refer to Project No. 01-23-005. E-mail can be sent to: D01-SMB- DPWPublicComments@uscg.mil.

Charts: 12300 12354

LNM: 01/23

**NY-NEW YORK HARBOR (Chart 12327)-AMBROSE CHANNEL**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to facilitate navigation in this waterway:

REMOVE the RACON and WHISTLE from Ambrose Channel Lighted Whistle Buoy A (LLNR 34785) and ADD an AIS signal to the aid.

Previously advertised as a Proposal in LNM 01/23 Refer to Project No. 01-23-006. E-mail can be sent to: D01-SMB- DPWPublicComments@uscg.mil.

Charts: 12300 13006

LNM: 01/23

**MAINE-PENOBSCOT BAY AND APPROACHES (Chart 13302)-WEST PENOBSCOT BAY-INNER BAY LEDGES**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to this waterway:

PERMANENTLY DISCONTINUE Drunkard Ledge Daybeacon (LLNR 4100).

Aid has been destroyed in a storm. Aid does not have any lateral significance and does not mark a navigable channel. Drunkard Ledge is well marked on all electronic and paper charts.

Previously advertised as a Proposal in LNM 13/22 Refer to Project No. 01-22-018.

E-mail can be sent to:

D01-SMB-DPWPublicComments@uscg.mil .

LNM: 13/22

**MAINE-PENOBSCOT BAY-FOX ISLAND THOROFARE**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to this waterway:

PERMANENTLY DISCONTINUE Fiddler Ledge Daybeacon (LLNR 3985).

Aid is redundant and has no navigational significance and is not marking a navigable waterway. Fiddler Ledge is well marked on electronic and paper charts.

Previously advertised as a Proposal in LNM 13/22 Refer to Project No. 01-22-017.

E-mail can be sent to:

D01-SMB-DPWPublicComments@uscg.mil .

LNM: 13/22

**MA-SEACOAST (Massachusetts)-First District- GEORGES BANK AND NANTUCKET SHOALS (Chart 13200)-APPROACHES TO BOSTON HARBOR**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to this waterway:

CHANGE The Graves Light (LLNR 390/10679) light signal from Flashing (2) White every 12 seconds to Group Flashing (3) White every 15 seconds. Nominal range of 15NM will not decrease. This change encompasses a new lens and LED light source in the cupola.

This change will occur in the fall.

Previously advertised as a Proposal in LNM 23/21 Refer to Project No. 01-20-073.

E-mail can be sent to:

D01-SMB-DPWPublicComments@uscg.mil

Charts: 13003 13006 13009 13200 13260

LNM: 23/21

**RI-SEACOAST-NARRAGANSETT BAY (Chart 13221)-EASTERN APPROACH**

The U.S. Coast Guard will be making the following changes to Aids to Navigation to facilitate navigation in this waterway:

REMOVE the RACON and WHISTLE from Narragansett Bay Entrance Lighted Whistle Buoy NB (LLNR 17675) and ADD an AIS signal to the aid.

Previously advertised as a Proposal in LNM 01/23 Refer to Project No. 01-23-004. E-mail can be sent to: D01-SMB- DPWPublicComments@uscg.mil.

### SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

#### PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

<u>Proposed Project(s)</u>	<u>Closing</u>	<u>Docket No.</u>	<u>Ref. LNM</u>
<b>None</b>			

#### Proposed Change Notice(s)

##### **ME-DAMARISCOTTA, SHEEPSHOT AND KENNEBEC RIVERS-FISHERMAN ISLAND PASSAGE**

The U.S. Coast Guard is considering making the following change to Aids to Navigation:

Remove the white sectors from Ram Island Light (LLNR 5420) making the characteristics Isophase Red every 6 seconds with an all-around 360 degree red lantern.

This change will incorporate LED technology.

Interested Mariners are strongly encouraged to comment on this in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 17 May 2024 to complete the process. To most effectively consider your feedback and improve the data collection, when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-24-037. E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil .

### SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

#### **MAINE GENERAL NOTICES**

Information for Mariners using the Waterways of the State of Maine.

#### **VERMONT GENERAL NOTICES**

Information for Mariners using the Waterways of Lake Champlain in the State of Vermont.

#### **NEW HAMPSHIRE GENERAL NOTICES**

Information for Mariners using the Waterways of the State of New Hampshire. Newest on top.

#### **NH- PISCATAQUA RIVER-NEWINGTON**

CDM Constructors Inc. will be dismantling a former fuel pier, on the Piscataqua River, in Newington, NH, in position 43-6-27.16N, 070-47-52.85W, from July 19, 2022 through May 2024. Equipment on scene will be sporadic depending on phase of project. Two working barges will be mobilized for crews and heavy equipment (excavator and Lull). Miscellaneous support vessels may also be present, monitoring VHF/CH-13 and 16. Work barges will be centralized to work areas only and will not impede navigation. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

LNLM: 29/22

#### **MASSACHUSETTS GENERAL NOTICES**

Information for Mariners using the Waterways of the State of Massachusetts. Newest on top.

#### **MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER – AMELIA EAHART DAM LOCKS – Lock Closure**

Mariners are advised that the Amelia Earhart Dam Locks will be closed to all vessel traffic for maintenance and electrical upgrade on April 25th, 2024, from 7:00 a.m. to 5:00 p.m. During the closure, vessels will not be able to transit through the locks. For more information mariners may contact the Department of

**MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER – AMELIA EAHART DAM LOCKS – Lock Closure**

Conservation and Recreation (DCR) Mr. William Gode at (617) 727-0488. Mariners are advised to plan accordingly and use caution when transiting the area.

LNM: 15/24

**MA-BOSTON-CHARLES RIVER**

Charles River Conservancy will be installing seasonal floating, vegetated, moorings on the Charles River, in position 42-21-47.58N 071-04-36.72 W from March 13, 2024, to December 1, 2024. For additional information, please contact Laura Jasinski at [ljjasinski@thecharles.org](mailto:ljjasinski@thecharles.org).

LNM: 11/24

**RHODE ISLAND GENERAL NOTICES**

Information for Mariners using the Waterways of the State of Rhode Island. Newest on top.

**RI-NARRAGANSETT BAY –NEWPORT-GOULD ISLAND**

Naval UNDERSEA Warfare Center will be conducting continued testing using surface and subsurface devices north and east of Gould Island in the vicinity of the torpedo test range restricted area marked on NOAA chart 13223 and the Newport Bridge. Mariners are requested to cooperate with participating vessels for the safety of all. Any concerned traffic can contact Navy support craft on VHF channels 13,16. For more information please contact 401-832-6140.

LNM: 03/24

**PROVIDENCE RIVER – HEAD OF NARRAGANSETT BAY- BARRINGTON RIVER**

Increased outgoing tidal currents have been reported in the Barrington River following removal of the East Bay Bike Path Bridge. Mariners are advised to exercise caution transiting this area.

LNM: 41/23

**CONNECTICUT GENERAL NOTICES**

Information for Mariners using the Waterways of the State of Connecticut. Newest on top.

**CT-THAMES RIVER-NEW LONDON-GROTON**

Mohawk Northeast, Inc., will be conducting Subsurface Cable Installation & Sensor Removal, Tower Installation and removal, on the Thames River, from August April 22, 2024, to August 31, 2024, Monday through Saturday, between 6:00am to 5:00pm. Equipment on scene will be a 70x180 crane barge, 30x100 deck barge, 50' tug boat, 26' work boat, dive tending equipment, safety boat, monitoring VHF-FM CH 13 and 16 for any concerned traffic and will need a 3 hour notice for any vessel movement requests. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM: 16/24

**NEW YORK GENERAL NOTICES**

Information for Mariners using the Waterways of the State of New York including Lake Champlain, NY side. Newest on top.

**NY-LONG ISLAND OFFSHORE-WAINSCOTT BEACH AREA**

ORSTED will be deploying a fisheries research array on 01 September 2021 for an indefinite time in an area bounded on the east by moorings located at 40° 56' 33.0612"N, 72°10' 40.9188"W (inshore) and 40° 51' 41.5188"N, 72° 6' 52.6212"W (offshore) and on the west by moorings located at 40° 54' 6.3612"N, 72°17' 2.8788"W (inshore) and 40° 49' 34.5"N, 72° 13' 27.9588"W (offshore). Concerns and for more information, see South Fork Wind below or contact Orsted Northeast Marine Affairs Manager, John Mansolillo, at 401-450-5467, or [JOMAN@Orsted.com](mailto:JOMAN@Orsted.com)

LNM: 29/23

**NY – BROOKLYN-NEWTOWN CREEK**

A 30-foot sailboat is submerged in approximate position 40-44-20.803N 073-57-18.558W. The vessel is secured to the Newtown Creek's southeastern shoreline concrete bulkhead, adjacent to Manhattan Ave. Park, Brooklyn, NY. Mariners are urged to exercise extreme caution while in the area.

LNM: 13/23

**NY-NY LOWER HARBOR and RARITAN BAY**

S.T. Hudson Engineers, Inc. will be conducting geophysical surveys in Raritan Bay and New York Harbor, from April 16 – 30, 2024, seven days a week, during daylight hours. The survey areas are shown below in red. Equipment on scene will be the MV BELLA MARIE, a 38-ft survey vessel. Video survey equipment will be towed behind/below the vessel and maneuverability of the vessel will be restricted. Please note that some of the equipment will be towed subsurface at a distance of up to 250ft behind the vessel. The M/V BELLA MARIE will be monitoring VHF-FM Channel 16 continuously. Mariners are advised to use caution when transiting near the survey vessel and give a wide berth and slow bell. Contact information; MV BELLA MARIE: Captain Jeff Hudson, Phone 843817448

## NY-NY LOWER HARBOR and RARITAN BAY

LNM: 16/24

### MA-NANTUCKET SOUND-ALLEN HARBOR

Barnstable County – Dredge Department will be conducting dredging operations in the Allen Harbor Approach & Entrance Channel, Harwich located in Nantucket Sound, in position 41-39.664N, 070-05.346W, from April 17, 2024, to April 26, 2024, Monday through Saturday, between 7:00am to 4:30pm. Dredging will take place in the channel with the dredge pipe running from the dredge to various locations on the beaches east and west of the channel. The dredge boat Sand Shifter, one Pushboat, skiffs and approximately 3,500 feet of pipeline and will be monitoring VHF-FM CH 16 and 18 for any concerned traffic. The dredge is stationary and has limited maneuverability. The discharge pipe will be floating at times during dredging operations and may be blocking the channel. There will be cables extending on both the port and starboard side of the forward part of the dredge leading to anchors with floats marking their locations. Mariners are requested to give adequate clearance to the equipment at all times and to contact the dredge to arrange for passing arrangements when operating. When the dredge is not on station, there will be a large yellow pontoon that is anchored and supporting a section of the pipe near the channel.

LNM: 16/24

### MA-NANTUCKET SOUND-WYCHMERE

Barnstable County – Dredge Department will be conducting dredging operations in the Wychmere Harbor Approach & Entrance Channel, Harwich located in Nantucket Sound, in position 41-39.794N, 070-03.881W, from April 27, 2024, to April 30, 2024, Monday through Saturday, between 7:00am to 4:30pm. Dredging will take place in the channel with the dredge pipe running from the dredge to various locations on the beaches east and west of the channel. The dredge Sand Shifter, one Pushboat, skiffs and approximately 3,500 feet of pipeline and will be monitoring VHF-FM CH 16 and 18 for any concerned traffic. The dredge is stationary and has limited maneuverability. The discharge pipe will be floating at times during dredging operations and may be blocking the channel. There will be cables extending on both the port and starboard side of the forward part of the dredge leading to anchors with floats marking their locations. Mariners are requested to give adequate clearance to the equipment at all times and to contact the dredge to arrange for passing arrangements when operating. When the dredge is not on station, there will be a large yellow pontoon that is anchored and supporting a section of the pipe near the channel. Mariners are advised to give a wide berth to this area.

LNM: 16/24

### NY-UPPER BAY-MANHATTAN (REVISED)

A sheet pile has partially detached from the western face of the concrete pier located at the Coast Guard building at Battery Park in Manhattan. The pier is marked with a dayboard marked DANGER DO NOT MOOR. All mariners are advised to transit the area with caution.

LNM: 51/19

### NEW JERSEY GENERAL NOTICES

Information for Mariners using the Waterways of the State of New Jersey (Shrewsbury/Navisink Rivers North). Newest on top.

### ATLANTIC OCEAN GENERAL NOTICES

Information for Mariners using the Waterways of the Atlantic Ocean. Newest on top.

### ATLANTIC OCEAN-OFFSHORE MASSACHUSETTS-VINEYARD WIND 1 WIND FARM PROJECT AREA – SAFETY ZONE(S) ENFORCEMENT NOTIFICATION UPDATE-Update 04/16/2024

A 500-meter Safety Zone will be enforced around Vineyard Wind, LLC., construction operations from 8:00am, April 17, 2024, to 8:00am, April 24, 2024, Mariners are to avoid transiting within 500-meters of the following positions:

AM37: 41-07-12.22N, 070-29-06.60W; AR38: 41-03-13.06N, 070-27-43.34W; AN39: 41-06-14.17N, 070-26-27.96W;

**ATLANTIC OCEAN-OFFSHORE MASSACHUSETTS-VINEYARD WIND 1 WIND FARM PROJECT AREA – SAFETY ZONE(S)  
ENFORCEMENT NOTIFICATION UPDATE-Update 04/16/2024**

Mariners are strongly encouraged to operate with extreme caution and to maintain a safe distance from construction vessels and associated equipment when not located within one of the above-mentioned safety zone locations. Construction vessels include SEA INSTALLER and the NORTHSTAR COMMANDER. Construction will be supported by accommodation vessels – CADE CANDIES, GATEWAY ENDEAVOR, WINDEA COURAGEOUS, and GO LIBERTY, tugs WINDEA INTREPID, NICOLE FOSS & EARL REDD, and the barges PREVAILING WIND and MARMAC 400. There will be several safety and scout vessel from the local fishing fleet operating in the area, all monitoring VHF FM CH 13 and 16 for any concerned traffic. All Mariners are requested to give a 0.5 NM wide berth to the construction vessel as they are extremely limited in their ability to maneuver. Passing arrangement can be made via VHF with any construction vessels.

LNM: 16/24

**ATLANTIC OCEAN**

Global Marine has been contracted to undertake an emergency repair on the Amitie fibre optic telecommunications cable offshore of the US East coast (see attached chart for reference). The estimated fault location is between 42°26.226N 067° 32.663W. The repair vessel CS Wave Sentinel, is due to arrive on site on April 18, 2024, to commence repair works and will be monitoring VHF-FM CH 16 for any concerned traffic. The duration of the repair is anticipated to be approximately 5-7 days depending on weather and other operational conditions. The vessel will be limited in manoeuvrability and displaying shapes as per COLREGs. Other vessels are requested to maintain a distance of at least 1NM from the cable ship during operations, and 1/4NM from any cable buoys in place during the course of the repair for safety.

LNM: 16/24

**NOAA WEATHER BUOY 44025**

NOAA weather buoy 44025 has broken free from its mooring and is currently adrift south of the Ambrose to Nantucket Safety Fairway, approximately 53 nautical miles southwest of the entrance to New York Harbor and drifting to the east, northeast at half a knot. Mariners are advised to transit the area with extreme caution and report any sightings to the nearest Coast Guard unit. Updated information and the latest position can be found on NOAA's National Buoy Center (NDBC) website.

Updated 4/16/2024

## SUMMARY OF SHOALING REPORTED

New, updated or very important information in this enclosure will be highlighted in yellow.

## MAINE SHOALING

### ME-CASCO BAY -PORTLAND-SOUTH PORTLAND-Update 6/23/23

Shoaling has been reported in the inner harbor of Casco Bay's federal channel. Shoaling could impede the approach to the Gulf Oil Terminal in South Portland, and significantly reduces the available channel where large passenger ships regularly maneuver on and off berths in Portland. Deep draft vessels are advised to use caution when transiting the area.

Encl 1

**ME-SACO BAY AND VICINITY (Chart 13287) –RICHMOND ISLAND HARBOR–PROUTS NECK-SCARBOROUGH RIVER-Updated 2/8/22**

Dredging is completed at the entrance to the Scarborough River. Aids to navigating have been repositioned to mark best water. As the channel continues to shift, mariners are advised to use caution when transiting the area.

13286 13287 LNM 42/21

**ME-THOMASTON-SAINT GEORGE RIVER-Shoaling**

The St. George River in the vicinity of Thomaston Harbor has experienced heavy shoaling. Shoaling in spots has reduced the channel depth to less than 2 ft. at MLLW. Mariners are advised to use caution when transiting St. George River north of nun buoy #16 to Brooklyn Heights Bridge. For further information please contact Clayton Franklin, 207-767-0393.

13301

LNM 28/21

**NEW HAMPSHIRE SHOALING**

**NONE REPORTED**

**MASSACHUSETTS SHOALING**

**MA-CAPE COD-CHATHAM-OLD HARBOR**

Shoaling has been reported in Old Harbor between buoys 6 and 8. Mariners are advised to use extreme caution while transiting the area.

Chart 13205, 13217 LNM 14/24

**Encl 1**

**MA-CAPE COD CANAL-CAPE COD CANAL DEEP DRAFT UPDATE 12/27/2023**

The controlling depth of the Cape Cod Canal has been restored to 32 feet, effective **December 27, 2023**. Vessels drawing greater than 28 feet should consult well in advance with the Marine Traffic Controller on duty at 978-318-8500 or VHF Channel 14

LNM: 38/22 Chart 12326

**MA-BUZZARDS BAY-CUTTYHUNK HARBOR**

Mariners are advised of shoaling in the Cuttyhunk Inner Harbor Entrance Channel. The shoaling is reported to extend across the entirety of the entrance channel with an approximate depth at mean low water of 5 feet. Mariners are urged to exercise extreme caution while transiting this area.

Chart 13230 LNM 36/23

**MA-WESTPORT CHANNEL**

Westport Channel has experienced significant shoaling, with considerable narrowing of the federal channel. Aids to navigation have been relocated outside the federal channel, to mark best water. Mariners are advised that shoaling has been identified and is unpredictable outside the federal channel, affecting both commercial and recreational vessels. Mariners without local knowledge are advised to transit with extreme caution and only during plus tides. Mariners are urged to use caution while transiting the area.

Chart 13228 LNM 30/22

**MA-ESSEX BAY**

Essex Bay entrance has experienced increased shoaling from Essex Bay Buoy 3 in approximate position 42-40.4N 070-42.7W to Essex Bay Buoy 3A in approximate position 42-40.3N 070-43.3W. Mariners are advised that shoaling has been identified and extends the entire width of the channel to a least depth of 2 feet mean low water (MLW). Mariners without local knowledge are advised to transit with extreme caution and only during plus tides.

Essex Bay Channel Buoy 16 has been reported having increased shoaling. Mariners are urged to use caution while transiting the area.

Chart 13274 LNM 24/22

**MA-NEWBURYPORT HARBOR AND PLUM ISLAND SOUND-SHOALING**

Shoaling exists in Plum Island Sound between Plum Island Sound Entrance buoy 4 (LLNR 9310) and Plum Island Sound Entrance buoy 6 (LLNR 9320), aids are not properly marking best water. Mariners are advised to use caution while navigating this area. All of Plum Island is particularly susceptible to shoaling, the area between 4 and 6 being the worst at the mouth of the channel. Last year the unit partnered with the harbor Master moving the aids to mark the best water. Even though the aids are in the best possible locations that water is still shallow at low tide and mariners should use caution while navigating in this area.

Newburyport Harbor and Plum Island Sound – Plum Island Sound Entrance has experienced an increase in shoaling between Plum Island Sound Entrance Buoy 6 and 8. The shoaling was observed in approx. position 42-41.365N /070-45.169W and extends 100 yards west following the channel. Mariners are advised that at MLLW depths of 3' could be seen. Mariners without local knowledge are advised to transit with extreme caution and monitor tidal stations prior to transiting.

Chart 13274 13279 13282 LNM 25/22

**Encl 1**

**MA-CAPE COD-MASHPEE-POPPONESSET**

Shoaling has been reported throughout the channel, in the area of the Popponeset Approach Channel within Mashpee waters. Boaters are advised to use extreme caution while transiting the area.

Chart 13229 LNM 22/23

**MA-ANNISQUAM RIVER**

Severe shoaling has been reported in the Annisquam River. Annisquam River channel buoy 24 (LLNR 9690) has been relocated due to recent shoaling in the area to mark best water. Mariners should proceed with caution while transiting the area.

Chart 13274 LNM 24/22

**MA-LYNN HARBOR**

Increased shoaling has been reported between Sandy Point Light 11 (LLNR 10595) - Lynn Harbor Channel Lighted Buoy 14 (10610). Mariners should proceed with caution while transiting the area.

Chart 13274 LNM 02/14

**MA-SALEM AND LYNN HARBORS (Chart 13275)-SAUGUS RIVER APPROACH CHANNEL**

Severe shoaling has been reported in the Saugus River in the vicinity of Saugus River Approach Channel Lighted Buoy 5 (LLNR 10655). Mariners should proceed with caution while transiting the area.

Chart 13274 13275 LNM 15/21

**MA-SALEM AND LYNN HARBORS (CHART 13275)-BASS RIVER**

Severe shoaling has been reported between Bass River Channel Buoy 2 (LLNR 10325)-Bass River Channel Buoy 9 (LLNR 10355) and there is a severe decrease in the channel's width. Mariners should proceed with caution while transiting the area.

Chart 13275 LNM 02/14

**MA-MARSHFIELD-NEW INLET**

Shoaling has been reported from the North River junction buoy towards the #2 buoy South River. This area is reported as approx. 3.0 feet during the low tide. Mariners should use caution while transiting the area, especially during astronomical low tides.

Chart 13267 LNM 15/16

**MA-NUMMET CHANNEL (REVISED)**

The Coast Guard has received a report of shoaling in the vicinity of The Nummet Channel Buoy 7 (LLNR 12760). Mariners are advised to proceed with caution when transiting the area.

Chart 13253 LNM 38/10

**MA – BARNSTABLE HARBOR – SHOALING**

Mariners be advised that shoaling exists in the Barnstable Harbor Entrance channel. Shoaling extends approximately 200 feet into the channel north of Barnstable Harbor Entrance Lighted Buoy 6, in the vicinity of position 41-.43.5 N, 070-16.3W. Water depth is estimated to be 2 feet at low tide in this area. All mariners are requested to use caution while transiting the area.

Chart 13238 LNM 40/18

**Encl 1**

**MA-NANTUCKET SOUND AND APPROACHES (Chart 13237)-POLLOCK RIP CHANNEL**

The entrance to Pollock Rip Channel from the East continues to have SEVERE shoaling East of Pollock Rip Lighted Buoy 4 (LLNR 13535). Mariners should not attempt to transit the area without local knowledge of the shoals and use the channel at their own risk. If transiting the channel, Mariners are urged to transit at their slowest safe speed and proceed with extreme caution.

Chart 13237, 13244 LNM 41/21

**MA-MARTHA'S VINEYARD TO BLOCK ISLAND (Chart 13218)-WESTPORT HARBOR**

Shoaling exists in Westport Harbor in the vicinity of Westport Harbor Channel LB 14 (LLNR 17490) and Westport Harbor Channel Buoy 17 (LLNR 17505). There are other areas of shoaling throughout the Westport Harbor Channel reducing the available depth of water. Mariners are advised to use caution while navigating this area.

Chart 13228 LNM 31/20

**MA – CUTTYHUNK HARBOR – ENTRY CHANNEL**

Mariners are advised that the navigable width of the entry channel into Cuttyhunk Harbor has decreased to approximately 15 feet wide. This may cause navigability issues and restrict movement for two-way traffic. Mariners are urged to maintain a proper lookout and use extreme caution while transiting the area. You may contact the local harbormaster by phone at (508) 990-7578.

Chart 13230 LNM 29/19

**RHODE ISLAND SHOALING**

**RI-NARRAGANSETT BAY (CHART 13221)-GREENWICH BAY-WARWICK COVE**

Shoaling has been observed within the federal navigation channel to a least depth of 3 FT MLW. Shoaling is encroaching from the west and has impacted the western part of the channel, reducing the authorized project width from 150 feet to approx. 90 feet between Warwick Cove Buoy 3 (LLNR 19360) and Warwick Cove Buoy 7 (LLNR 19375).

Chart 13224 LNM 02/22

**RI-BLOCK ISLAND SOUND AND APPROACHES (CHART 13205)-POINT JUDITH POND**

Shoaling has been observed within the channel to a least depth of 5.5 feet MLW in approximate position 41 22'48"N, 071 33'55"W between Point Judith Pond Channel Buoy 2 (LLNR 19555) and Point Judith Pond Channel Buoy 4 (LLNR #19560). Shoal is encroaching from the East side of the channel and protruding west.

Chart 13219 LNM 02/22

**RI-NARRAGANSETT BAT (CHART 13221)-MOUNT HOPE BAY-KICKAMUIT RIVER**

Shoaling has been reported in the Kickamuit River in the vicinity of Kickamuit River Buoy 2. Mariners are advised to proceed with caution while transiting the area.

Chart 13221 LNM 12/21

## **CONNECTICUT SHOALING**

### **CT-STONINGTON-SANDY POINT-Update 5/29/2023**

Shoaling has been reported in the vicinity of the western tip of Sandy Point Island, Stonington, CT in vicinity of little Narragansett Bay Entrance Lighted Buoy 5 (LLNR 20210) and Buoy 7 (LLNR 20215). Stonington Police Department's Marine Unit have observed significant narrowing of the channel, which may impact vessels transiting the area. Mariners should exercise extreme caution when navigating the channel.

Chart 13214 LNM 06/23

## **NEW YORK SHOALING**

### **NY-EAST ROCKAWAY INLET-SLOOP CHANNEL**

Shoaling has been identified in East Rockaway Inlet between buoys # 4 (LLNR: 31525), lighted buoy # 5 (LLNR: 31530), lighted buoy #6 (LLNR:31535), and buoy # 7 (LLNR: 31540). Mariners are urged to maintain a sharp lookout and transit the area with extreme caution, when navigating this area.

LNM 12/24

### **NY- JONES BEACH**

Shoaling has been identified in between Jones Beach Inlet Lighted Buoy 4 (LLNR 30920) and Jones Beach Inlet Lighted Buoy 6 (LLNR 30935). Mariners are urged to maintain a sharp lookout and transit the area with extreme caution, when navigating this area.

LNM 48/23

### **NY-SHINNECOCK BAY-EAST ROCKAWAY INLET**

Shoaling has been identified in East Rockaway Inlet in the area between buoys Narrows Bay Lighted Buoy 6 and Narrows Bay Buoy 7. Mariners are urged to maintain a sharp lookout and transit the area with extreme caution.

Chart 12352 LNM 23/23

### **NY-FIRE ISLAND INLET**

Shoaling has been identified in Fire Island Inlet in the area between buoys 3, 7, 13, and 15. Mariners are urged to use caution while transiting the area.

Chart 12352 LNM 21/23

### **NY-HUDSON RIVER-CATSKILL CREEK-ESOPUS CREEK-ROUNDOUT CREEK**

Significant shoaling has been reported at the mouth of Catskill Creek, that may impact commercial traffic, along the southern portion of the channel. In Esopus Creek, shoaling has occurred faster than anticipated at the mouth of the creek when passing between Saugerties Lighthouse and Hudson River Lighted Buoy 93. In Roundout Creek, there is shoaling at the mouth of the creek. Mariners should exercise caution when navigating these areas.

Chart 12347 LNM 06/23

**Encl 1**

**NY-GREAT KILLS HARBOR**

Shoaling has been reported in in the vicinity of Great Kills Harbor, between buoys 6 and 8. Mariners are advised to proceed with caution while transiting the area.

Chart 12327 LNM 49/22

**NY-BLOCK ISLAND SOUND AND GARDINERS BAY-GARDINERS BAY SOUTH ENRANCE-ACABONACK HARBOR**

Mariners are advised that dangerous shoaling conditions exist in Acabonack Harbor and vicinity which cause dangerous conditions when transiting the channel. Acabonack Harbor Buoys 1-4 (Private aids have been temporarily discontinued until the harbor is dredged. Mariners should exercise extreme caution when navigating the channel.

Chart 13209 LNM 30/22

**NY-SAYVILLE-BROWNS CREEK**

Mariners be advised, dangerous shoaling conditions exist east of Browns Creek and vicinity which cause dangerous conditions when transiting the channel. Mariners should exercise extreme caution when navigating the channel.

Chart 12352 LNM30/22

**NY-SHEEPSHEAD BAY TO NEW YORK**

Increased shoaling found in the vicinity of Sheepshead Bay Channel, specifically near Sheepshead Bay Buoys 6 and 7. Aids marking the channel may be unreliable. All mariners are urged to use extreme caution when transiting this area.

Chart 12350 LNM 29/22

**NY-RAUNT CHANNEL (Booklet Chart 12350 JAMAICA BAY**

Recent surveys have shown significant shoaling in the Raunt Channel. Shoaling exists in the vicinity of Buoy 6, in approximate position 40-36.17N 073-50.47W. Depths of less than 5 feet in the middle of the channel. Navigation of the area requires extreme caution due to the encroaching nature of the shoal.

Chart 12350 LNM 12/22

**NY-LONG ISLAND SOUND (Eastern Part) (Chart 12354)-SOUTH SIDE-MATTITUCK INLET**

Shoaling has been reported in the Mattituck Inlet. Mariners are advised to proceed with caution while transiting the area.

Chart 12358 LNM 12/21

**NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET (Chart 12352)-MORICHES BAY-Update 2/8/22**

Severe shoaling is present in Moriches Bay along the Long Island Intracoastal Waterway in the vicinity of Moriches Bay Buoys 21, 24, 26, 27, 28, and 29 extending the entire width of the channel at nearly all tide levels. The area from Buoys 24 to 29 is only navigable at the operator's risk. The most severe area of shoaling can be found between buoys 26 and 28 and is less than half the charted channel depth in some areas. Mariners should be aware that the Aids to Navigation in these areas are unreliable due to shoaling and mariners are strongly advised to seek alternate routes. Moriches Bay dredging has been completed.

Chart 12352 LNM 16/20

**Encl 1**

**NY-MORICHES BAY, SHINNECOCK BAY AND STATE BOAT CHANNEL- Update 2/8/22**

Shoaling has been reported in Moriches Bay along the Long Island Intercoastal Waterway in the vicinity of Moriches Bay Buoy 17, 18, 21, 26, 27, 28 and 29 extending the entire width of the channel and at any tide level. The most severe area of shoaling can be found between buoys 26 and 27 and is less than 3 ft. Shoaling is also reported in Moriches Inlet in the vicinity of Moriches Inlet East Cut Buoys 3E and 5E. Mariners should be aware that the Aids to Navigation in these areas have been deemed unreliable due to shoaling and mariners are advised to seek alternate routes. If transiting these areas, do so only at high tide and proceed slowly and with extreme caution. In addition, shoaling exists west of Moriches Bay Buoy 23 and East of Moriches Bay Buoy 27.

Chart 12352 LNM 39/16

**NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET-SLOOP CHANNEL**

Shoaling has been reported in the vicinity of Sloop Channel Beacon 21 (LLNR - 31100). All mariners are requested to use caution when transiting the area.

Chart 12352 LNM 49/17

**NY-LONG ISLAND SOUND –MILTON HARBOR**

Severe Shoaling has been reported in Milton Harbor. Mariners are advised to proceed with caution while transiting the area.

Chart 12364

**NEW JERSEY SHOALING**

**NJ-NAVESINK RIVER**

Recent surveys have shown significant shoaling in the Navesink River. Shoaling exists across the entire reach beginning at the entrance to the Navesink River to Navesink River Buoy 24. Least depths of 2.3 feet to 5.8 feet extending into channel and throughout the waterway. Navigation of the area requires extreme caution due to the encroaching nature of the shoal.

Chart 12325 LNM 01/22

**NJ-SHREWSBURY RIVER**

Shoaling has been reported in the vicinity of Shrewsbury River Channel Lighted Buoy 5 (LLNR - 35755). All mariners are requested to use caution when transiting the area.

Chart 12325 LNM 50/21

**SUMMARY OF ONGOING DREDGING AND MARINE CONSTRUCTION PROJECTS**

**Arranged by State, North to South, and newest information on top (for each State).**

**Updated 4/16/2024**

**NEW OR UPDATED INFORMATION**

**New, updated or very important information in this enclosure will be highlighted in yellow.**

**MAINE**

**ME-COBSCOOK BAY-GOOSE ISLAND**

ORPC will be conducting maintenance activities at its Cobscook Bay lease area corner marker buoys located off Goose Island. Maintenance activities will occur periodically from **April 18, 2024 – April 20, 2024**, between 6:00am to 6:00pm, in the following positions, Buoy A: 44°54.699N, 067°02.936W; Buoy B: 44°54.6091N, 067°02.541W; Buoy C: 44°54.547N, 067°03.043W; Buoy D: 44°54.449N, 067°02.625W. Equipment on scene will be 2 work boats monitoring VHF-FM CH 10 for any concerned traffic. There will be divers in the water during operations and mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 15/24

**ME-SEARSPORT HARBOR-MACK POINT-Update 4/1/2024**

Prock Marine will be conducting boring operations in Searsport Harbor, in position 44-26-53.484N, 068-54-04.324W, from **March 11, 2024, to April 26, 2024**, between 7:00am to 5:00pm. Equipment on scene will be a 48'X120' barge, monitoring VHF-FM CH 13 and 16 for any concerned traffic. Operations will be done on the west side of the channel, leaving room for vessel traffic to the east. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 10/24

**ME-GULF OF MAINE-RAM ISLAND**

SAILDRONE, INC. in collaboration with NOAA, is conducting aquaculture research with Uncrewed Surface Vehicles (USVs), called "SAILDRONE VOYAGERS" in the Eastern third of US waters within the Gulf of Maine, from **March 30, 2024, to August 30, 2024**. The two vehicles towed separately from Portland, Maine and deployed in the vicinity of Ram Island. The vehicles will transit to the survey area approximately 100 nm East of Portland. The survey area coordinates are: 43°52'56.9N, 068°18'42.2W; 43°52'37.6N, 067°23'0.3W; 43°46'58.7N, 068°20'6.6W; 43°45'43.8N, 067°50'16.7W; 43°5'33.7N, 068°2'49.8W; 42°53'5.1N, 067°44'7.6W; 42°32'11.8N, 067°48'27.1W; 42°39'1.2N, 067°33'44.6W.

SAILDRONE VOYAGERS are 33 ft in length, 21 ft tall, orange in color, have a tri-color light on top of the wing, and are marked "SAILDRONE". SAILDRONE VOYAGERS are primarily wind-propelled USV equipped with an electric thruster used for survey operations. The vehicles will have limited maneuverability during operations. Mariners are requested to remain greater than 500 meters away from the research equipment. Questions regarding this notice can be directed to Saildrone Mission Control at: [missioncontrol@saildrone.com](mailto:missioncontrol@saildrone.com) or via phone 24/7 at +1-510-722-6070.

LNM 12/24

### ME-KENNEBEC RIVER-BATH IRON WORKS

BIW will be conducting maintenance dredging Pier 2, Pier 3 and the Dry Dock Landing Grid #1 at Bath Iron Works in Bath, Maine located in the Kennebec River. Dredge spoils will then be barged north through the Sagadahoc Bridge to the Reed & Reed laydown area on the west bank of the river. Dredging will occur during daylight hours, Monday through Friday, from **January 2, 2024, to April 1, 2024**. Equipment on scene will be (2) spoil barges, a crane barge, and (2) tugboats, monitoring VHF-FM CH 16 for any concerned traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 52/23

### ME-PORTLAND

Cianbro will be conducting barge mooring operations in Portland, ME, in position 43-38-30.012N, 070-16-31.310W, from **December 14, 2023, to April 15, 2024**. Equipment on scene will be the barge JIM O and will be lit in accordance with COLREGS and will be extending partially into the channel. Mariners are urged to use caution when transiting in the area.

LNM 51/23

### ME-KITTERY-PORTSMOUTH-ODIORNE POINT

The University of New Hampshire will be conducting oceanographic data, near Odiorne Point, in position 43-2-19.7N, 070-41-31.90W, from **September 20, 2023, to May 1, 2024**, seven days a week, 24 hours a day. Equipment on scene will be a 2-meter-tall tripod in 49 feet of water. Mariners are advised to use caution and avoid anchoring in the area.

LNM 39/23

## ME-WEST PENOBSCOT BAY

Northeastern University will be deploying a wave amplitude measurement and tidal surge monitoring buoy in position 44-11-60N 069-1-58W, in West Penobscot Bay, from **June 12, 2023, to May 30, 2024**. The university will be servicing the buoy for 6 hours, every 21 days. Mariners are requested to give adequate clearance to the equipment at all times and transit at their slowest safe speed to minimize wake.

LNM 25/23

## **NEW HAMPSHIRE**

### NH-ISLE OF SHOALS-KITTERY-GOSPORT HARBOR

Lucianos Excavation, Inc. will be conducting breakwater repair operations in three breakwaters which connect Star Island, Cedar Island, Smuttynose Island and Malaga Island from **June 2023 to August 2024**, Monday through Friday, between 7:00am to 5:00pm. Equipment on scene will be JMC 141 ABS spud barge, tug Lucinda Smith, monitoring VHF-FM CH 13 and 16 for any concerned traffic. Winter shutdown is TBD but assumed to be Dec 2023 through March 2024. The remaining scows are scheduled to arrive **March 2024 through August 2024**. One day needed per stone transfer from material scow onto Cedar Island or Smuttynose Island. Kittery Maine Harbor master to provide security detail to ensure haul route is clear during offshore stone transfer. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

LNM 19/23

## **MASSACHUSETTS**

### MA-ACUSHNET RIVER

DW White Construction Inc. will be conducting dredging operations around the FOSS Marine Terminal, in position 41-37-47.50N, 070-54-59.60W, from **April 22, 2024, to July 5, 2024**, seven days a week 24 hours a day. Equipment on scene will be the push boats CAT 6015b, SHEELAGH M (PUSH BOAT), ERIN ASHLEY (PUSH BOAT), KS1502 (BARGE), MARY P (SCOW), monitoring VHF-FM CH 71 for any concerned traffic. The dredging will take place within a pile supported silt curtain. During dredging hours, the curtain will remain closed as to not impede vessel movement. The curtain will only open for dredging vessels to move in and out of the dredging area. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

### **MA-NANTUCKET SOUND-COTUIT-Update- 4/1/2024**

The Barnstable County dredge ‘Sand Shifter’ will be conducting dredge operations in the Cotuit Approach & Entrance Channel, Barnstable located in Nantucket Sound, mid channel in position 41-35.85N, 070-25.80W, from **February 27, 2024, to April 15, 2024**, between 7:00 am to 4:30pm. Dredging will take place in the channel with the dredge pipe running from the Sand Shifter north to the inside of Sampsons Island down to the east end of the island (Seapuit River) to an area just east of the Osterville entrance where the pipe will be brought onshore to a dewatering basin. The dredge boat ‘Sand Shifter’, one Pushboat – J.W. Doane, skiffs and approximately 9,000 feet of pipeline, will be monitoring VHF-FM CH 16 for any concerned traffic. The dredge Sand Shifter is stationary and has limited maneuverability. The discharge pipe will be floating at times during dredging operations and may be blocking the channel. The dredge pipe inside of the Seapuit River may be exposed at low tide. Cables extending on both the port and starboard side of the forward part of the dredge leading to anchors with floats marking their locations. Mariners are requested to give adequate clearance to the equipment at all times. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 07/24

### **MA-ACUSHNET RIVER-Update 3/25/2024**

DW White Construction Inc. will be conducting dredging operations on the Acushnet River in position 41-37-45.81N, 070-54-20.74W, from **February 22, 2024, to April 19, 2024**, Monday through Friday, from 6:00am to 11:00pm and Saturdays between 6:30am to 2:30pm. Equipment on scene will be CAT 6015, push boat SHEELAGH M, barge KS1502, and the scow PROC 15, monitoring VHF-FM CH 71. The dredging will take place in an enclosed pile supported silt curtain. During dredging hours, the curtain will remain closed as to not impede vessels. The curtain will only open when

Dredging vessels will be moving to and from the dredging operation. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 07/24

### **MA-ACUSHNET RIVER-Update 3/27/2024**

DW White Construction Inc. will be conducting dredging operations around the TRIO ALGARVIO and MASS FAB bulkheads, in position 41-37-43.13N, 070-54-57.86W, from **March 13, 2024, to April 26, 2024**, seven days a week 24 hours a day. Equipment on scene will be the push boats SHEELAGH M and ERIN ASHLEY, the barge POSIDEN, and the scow PROC 15, monitoring VHF-FM CH 71 for any concerned traffic. The dredging will take place within a pile supported silt curtain. During dredging hours, the curtain will remain closed as to not impede vessel movement. The curtain will only open for dredging vessels to move in and out of the dredging area. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 10/24

### **MA-BOSTON HARBOR-GEORGES ISLAND**

Semper Diving & Marine Corp will be conducting diving operations on the south side of Georges Island, in position 41-18-53.722N, 070-55-40.277W, from **March 25, 2024, to April 30, 2024**, between 6:00am to 4:00pm, weather permitting. Equipment on scene will be a 150’X54’X10’ spud barge, monitoring VHF-FM CH 16 for any concerned traffic and will be requesting a half mile encroachment zone. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 10/24

**ATLANTIC OCEAN-MA-SOUTH OF MARTHA’S VINEYARD-NANTUCKET**

Alpine Ocean Seismic Survey Inc. will be conducting cone penetration testing offshore Massachusetts in the Atlantic Ocean. Work will be done south of both Martha’s Vineyard and Nantucket within the area outlined in red in the figure below, bounded by the following positions: 40-50-42.00N, 070-11-47.40W; 40-45-24.60N, 070-1-3.60W; 40-34-53.40N, 070-31-55.80W; 40-35-16.20N, 070-0-54.00W, from **February 17, 2024, to April 27, 2024**, seven days a week, 24 hours a day. Equipment on scene will be the MV BERTO MILLER, monitoring VHF-FM CH 13 and 16 for any concerned traffic. The vessel will be performing geotechnical operations with equipment extending through the water and into the underlying seabed. The vessel will have limited maneuverability during operations. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 06/24

**MASSACHUSETTS – SAUGUS AND LYNN HARBORS – BELDEN BLY DRAWBRIDGE – Channel Restrictions**

Mariners are advised that MassDOT is continuing construction of the new Belden Bly (Route 107) Drawbridge over the Saugus River. Commencing February 1<sup>st</sup> SPS New England will be staging Tugs, and crane barges in the navigational channel to accommodate installation of the new draw bridge components. **From February 1<sup>st</sup>, 2024, through May 1<sup>st</sup>, 2024, a full channel closure will be in effect and a 100-yard Safety Zone will be in established for the duration of the full channel closure.** Vessels will not be able to pass through the bridge site during this period without permission from the Sector Boston COTP. The drawbridge operator will maintain a radio watch during the full channel closure, work hours will be 5:00am – 7:00pm 7 days a week. On scene work vessels will be monitoring VHF-FM Ch 13/16. Questions may be directed to Mr. William Schurman, SPS New England at (978) 265-7263 or Mr. Peter Tramontozzi MassDOT Highway division at (617) 279-9022. Mariners are urged to plan accordingly for the channel restrictions and to transit with caution.

**MA-DENNIS-YARMOUTH-BASS RIVER BRIDGE**

MassDOT will be conducting concrete, bridge repairs to the Bass River Bridge, in position 41-39-57.056N, 070-10-55.686W, from **January 2, 2024, to May 24, 2024**, Monday through Friday, between 7:00am to 3:00pm. Equipment on scene will be a lift barge, (2) “T” barges, (2) work floats, and (2) push boats, monitoring VHF-FM CH 5 and 13 for any concerned traffic. The work is not expected to impact the navigational channel. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 52/23

**MA-CAPE COD-NANTUCKET SOUND**

Ocean Surveys, Inc. will be conducting hydrographic surveys, for seafloor depth and feature mapping, in Nantucket Sound, from **October 2023 to November 2024**, 24 hours a day. Equipment on scene will be two, 30-35ft aluminum survey vessels; and a 92 ft tug/supply vessel, monitoring VHF-FM CH 13 and 16 for any concerned traffic. The survey vessels operate on a set of closely spaced planned tracklines and make frequent 90-180 degree turns. Mariners are advised to use caution and transit at slow speeds to minimize wake when transiting the area.

LNM 42/23

**MA - SCITUATE – Oyster Aquaculture Site Establishment**

Mariners are advised that the town of Scituate has established a three-acre oyster aquaculture site designated by the following coordinates. Northwest corner 42.14.85972N / 070.46.74462W Southwest Corner 42.14.83134N / 070.46.70472W Northeast corner 42.14.92494N / 070.46.66806W Southeast Corner 42.14.87538.N/ 070.46.60644W. the four corners are marked with white break away buoys with additional orange, yellow and blue buoys designating the perimeter. The designated site is outside of the navigational channel in the intertidal zone. For more information mariners may contact the Scituate Harbor Master at (781) 545-8724. Mariners are advised to use caution when transiting the area.

**RHODE ISLAND**

**RI-QUONSET-PORT OF DAVISVILLE**

Daniel Morrison will be conducting pier construction in the Port of Davisville, in position 41-36-38.539N, 071-24-22.249W, from **January 31, 2024, to June 30, 2025**, 24 hours a day, seven days a week. Equipment on scene will be a 260’X60’ barge monitoring VHF-FM CH 12 and 16 for any concerned traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 08/24

**CONNECTICUT**

**CT-NORWALK RIVER-Updated 2/29/2024**

Cianbro Middlesex Joint Venture will be installing water quality monitoring buoys in the Norwalk River, in position 41-05-55.5N, 073-24-54.5W, **indefinitely**. The data buoys will be yellow in color, with two red floating marker buoys attached and will display a white light. Vessels on scene will be monitoring VHF-FM CH 13 and 16 and should be hailed “Walk Bridge” for any concerned traffic. Mariners are advised to use caution and transit at slow speeds to minimize wake when transiting the area.

LNM 52/23

**CT-NEW HAVEN-WEST RIVER**

United Illuminating will be conducting electrical infrastructure work from land to the existing Metro North Railroad Bridge, in position 41-17-16.76N, 072-56-23.82W, from **September 2023 to July 2024**. Work will be conducted periodically during this time frame, generally during normal business hours. Equipment on scene for this project will be land based and will not impede the safe navigation of the channel.

LNM 46/23

**CT-THAMES RIVER-ELECTRIC BOAT**

Electric Boat Corporation, will be mobilizing and demobilizing heavy lift assets, used for vessel construction, at Electric Boat, from **July 2024 to August 2024**. Equipment on scene will be various tugs, spud barges, and crane barges, monitoring VHF-FM CH 8 and 13 for any concerned traffic. Mariners are advised to use caution and operate at slowest speed possible to avoid wake.

LNM 44/23

### CT-STAMFORD HARBOR

SoundWaters, Inc. will be installing anchors and grow lines for sugar kelp, approximately 3200 feet SW of Stamford Harbor Ledge Light, from **November 1, 2023, to June 15, 2024**. The area will be bonded by the following positions: **NE Corner:** 41-0-30.006N; 073-33-9.964W; **SE Corner:** 41-0-23.116N; 073-33-10.037W; **SW Corner:** 41-0-23.205N; 073-33-25.171W; **NW Corner:** 41-0-30.996N; 073-33-25.096W and will be marked by eight (8) white and orange regulatory buoys. For additional information please contact Sean Ryan at [sryan@soundwaters.org](mailto:sryan@soundwaters.org). . Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

LNM 39/23

### CT-THAMES RIVER-GALES FERRY

Sterling Equipment, Inc, will be storing rental fleet barges in position 41-26-39.5N 072-05-04.0W, until **May 2024**. Equipment on scene will be Spud Barges, Hopper Barge and Deck Barges, which will be outside the navigable channel and will not impede navigation. Point of contact for this operation is Mark Quinn, who can be reached at (617) 984-0022 or at [mark@sterlingequipment.com](mailto:mark@sterlingequipment.com). Mariners are requested to give adequate clearance to the equipment and transit at their slowest safe speed to minimize wake.

LNM 22/23

**NEW YORK**

**NY-NY LOWER HARBOR and RARITAN BAY**

S.T. Hudson Engineers, Inc. will be conducting geophysical surveys in Raritan Bay and New York Harbor, from **April 16 – 30, 2024**, seven days a week, during daylight hours. The survey areas are shown below in red. Equipment on scene will be the MV BELLA MARIE, a 38-ft survey vessel. Video survey equipment will be towed behind/below the vessel and maneuverability of the vessel will be restricted. Please note that some of the equipment will be towed subsurface at a distance of up to 250ft behind the vessel. The M/V BELLA MARIE will be monitoring VHF-FM Channel 16 continuously. Mariners are advised to use caution when transiting near the survey vessel and give a wide berth and slow bell. Contact information;

**MV BELLA MARIE:** Captain Jeff Hudson, Phone 843817448

Email: jahudson@sthe.com

## **NY-HUDSON RIVER-CONGERS**

Caldwell Marine International, LLC will be in operations in support of the Congers Horizontal Directional Drill, on the Hudson River at Congers, seven days a week, 24 hours per day, from **April 15, 2024, to August 3, 2024**. The marine support operation will include a crane support barge and a drill rig barge on spuds and a four point-anchor moor at 41-09.675N, 073-55.151W. The support assets will be paired and remain stationary throughout the entire operation. Mobilization of the assets will originate from Greens Cove in position 41-14.827N, 073-57.287W. All anchor positions, once stationary, will be marked with white spherical marker buoys. Each anchor buoy will be equipped with high visibility reflective tape and illuminated with fixed white lights with a visible range of 2 nautical miles. Barge positions will be maintained with spuds and breasting piles. Sentry vessels will be utilized as part as the construction project. Each barge will be equipped with a light tower that will be continuously illuminated through off-shift and nighttime hours. The light towers will be shielded to not interfere with navigation and ATON. Equipment on scene will be the CMI Crane Support Barge: 'Alexandra' (120ft length x 55ft beam), CMI Marine Drill Rig Barge 'U 806' Barge (180ft length x 54ft beam), Support Tug: 'Austin' (25ft 6" length x 14ft beam) AIS equipped, Crew Transfer/Work Vessel: 'Maren' (32ft length x 10ft beam), 'Jory' (30ft length x 10ft beam). Monitoring Hailing Channel VHF CH13 and CH16, Working Channel VHF CH73. Marine assembly will remain stationary for the entire scheduled work period. There will also be a vertical pile support system and a horizontal steel casing pipe in place for the duration of the construction period. The barge will be moored by driven breasting piles. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 15/24

## **NY-LAKE CHAMPLAIN**

JMT of New York, will be conducting diving operations in Lake Champlain New York, for debris clearing in position 43-51-15.500N, 073-23-00.500W, from **April 8, 2024, to May 15, 2024**, seven days a week, during daylight hours. Equipment on scene will be a 21-ft Carolina skiff and 24-ft C-hawk, monitoring VHF-FM CH 16. A safe passing distance of 500-ft. Minimum standoff distance while divers in the water is 300-ft, is requested and once notified vessel, will be moved as soon as possible pending recovery of diver(s). There will be divers in the water during operations and mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 15/24

## **NY-BROOKLYN-GOWANUS BAY**

Trevcon Construction Company, LLC, will be conducting bulkhead demolition, installation of steel pipe pile bulkhead, on sheet piles, furnish and installing bulkhead, floating dock, and Rip Rap, at the South Brooklyn Marine Terminal, in position 40-39-36.100N, 074-00-28.500W, from **May 1, 2024, to July 31, 2024**, between 5:00am to 6:00pm. Equipment on scene will be a 153' x 54' and a 140' x 40, barge. All moving of vessels to occur by tugboat; vessels will be moved at all times of day and night. Barge positioning will not impede any federal channel or vessel traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 15/24

## **NY-HUDSON RIVER-PEEKSKILL**

Encl 2

Sevenson Environmental Services, Inc. will be conducting environmental dredging and backfilling operations on the Hudson River, in Peekskill, NY, in position 41-17-24.04N, 073-56-00.60W, from **April 15, 2024, to December 1, 2024**, between 6:00am to 7:00pm. Equipment on scene will be (3) barges, small tugs, and work boats, monitoring VHF\_FM CH 16 for any concerned traffic. The operations will be conducted outside the federal channel so navigation will not be impeded. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 14/24

#### **NY-LAKE CHAMPLAIN-ROUSES PT BRIDGE-MOTTE REEF**

Caldwell Marine International, LLC will be conducting submarine utility location investigations, in Lake Champlain, between the Rouses Point Bridge and Motte Reef, Lake Champlain seven days a week, between 0700 and 1900, between **April 6, 2024, and April 14, 2024**. The Utility Investigation Barge will operate on spuds for mooring, beginning at 44-59.951N, 073-20.815W, and travel throughout the planned articulated concrete mattress installation to 44-56.201N, 073-20.554W. Equipment on scene will be the tug 'GAVIN' is AIS equipped for position location, the CMI Utility Investigation Barge: 'CMI LAKE SECTIONAL' (190 ft length x 60 ft beam, Support Tug: 'GAVIN' (25ft 6" length x 14ft beam), Crew Transfer Vessel/Work Boats: 'Patty C' and 'Little Johnny' (26' ft length x 10 ft beam), Crew Transfer Vessel/Work Boat: 'JORY' (30' ft length x 10 ft beam) monitoring Hailing Channel VHF CH13 and CH16, Working Channel VHF CH73. Thirty minutes notice is requested for moving the barge, to not impede safe navigation. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution as divers will frequently be in the water.

LNM 14/24

#### **NY-HUDSON RIVER-CATSKILL-TARRYTOWN**

Ocean Surveys, Inc (OSI) will be conducting acquisition of marine geophysical and hydrographic data operations along survey route options that include the Hudson River from Catskill, NY south the area of Tarrytown, NY, between positions 42-8-47.97N, 073-54-23.44W and 40-47-28.46N, 073-56-26.56W, from **April 2, 2024, to April 19, 2024**, between 6:00am to 6:00pm. OSI vessel, R/V Able II, monitoring VHF-FM CH 13 and 16 by a two man field crew (with client representative) equipped with a multibeam depth sounder, side scan sonar, and magnetometer. The survey equipment will either be fix-mounted or towed behind the vessel; while towing the remote sensing array, the vessel will have limited mobility. The vessel will be operating out of various marinas along the survey route. The crew and vessel will not be working within the NY VTS area of operations., During operations with towed equipment, vessel will be able to move offline to avoid observed vessel traffic, but with limited mobility. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 13/24

#### **NY-HUDSON RIVER-NEW BALTIMORE**

Coeymans Marine Towing will be conducting dredging operations near Houghteling Island, Hudson River, New Baltimore, NY, in position 42-26.131N and 073-46W, from **April 3, 2024, to September 1, 2024**, seven days a week, between 6:00am to 6:00pm. Equipment on scene will be (2) 195x35' hopper barges, (1) tug, (1) safety boat, (1) 80X40' dredge platform, monitoring VHF-FM CH 13, 16, and 81A, for any concerned traffic. Operations will not be in the navigation channel and Operations will communicate daily with Hudson River Pilots and any passing commercial traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 13/24

#### **NY-EAST RIVER-BRONX-LONG ISLAND SOUND**

Encl 2

Champion Painting SSC will be conducting surface preparation and painting operations of Throgs Neck Bridge Towers, from **April 1, 2024, to December 23, 2025**, between 7:00am to 5:30pm, seven days a week. Equipment on scene will be a 150'X50' equipment barge, monitoring VHF-FM CH 10 for any concerned traffic. The barge will not impede the navigable channel, during this operation. Mariners are urged to transit at their slowest safe speed.

LNM 13/24

### **NY-HUDSON RIVER-KINGSTON-HASTINGS**

Hornbeck Offshore Services will be conducting pre-lay mattress installation for CHPE Project, on the Hudson River from Kingston, NY to Hastings on Hudson, NY, from 40-59-40N to 41-54-39N, **March 23, 2024, to April 15, 2024**, seven days a week, 24 hours a day. Equipment on scene will be the MSV HOS Bayou, monitoring VHF-FM CH 13 and 16 and will be restricted in her ability to maneuver, during mattress installation, operations. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 12/24

### **NY-NEW YORK CITY-THE BATTERY**

Walsh Construction Co. will be conducting demolition and construction operations at the Battery in New York City, NY, in position 40-42-10.958N 074-1-2.902W, from **March 11, 2024, to January 6, 2026**, between 6:00am to 6:00pm. Equipment on scene will be three equipment decks barges, supported by up to 5 material barges, 24' push boat and two work skiffs, moored at bulkhead not in navigational channels, monitoring VHF-FM CH 16. Mariners are urged to transit at their slowest safe speed to produce no wake and proceed with caution.

LNM 12/24

### **NY-EAST RIVER THROGS NECK BRIDGE**

Trevcon Construction Company, Inc. will be installing and removing temporary indicator piles, for the Throgs Neck Bridge, in positions 40-48-09.84N, 074-4-16.553W and 40-47-52.06N, 073-47-35.31W, from **April 1, 2024, to May 1, 2024**, between 5:00am to 6:00pm. Equipment on scene will be (2) barges and a tug, monitoring VHF-FM CH 16 for any concerned traffic. All moving of vessels to occur by tugboat; vessels will be moved at all times of day and night. Barge positioning will not impede any federal channel or vessel traffic. Mariners are urged to transit at their slowest safe speed to produce no wake and proceed with caution.

LNM 12/24

### **NY-STATEN ISLAND-RARITAN BAY-Update 3/12/2024**

Weeks Marine will be constructing rubble mound breakwaters, north of Ward Point, East Reach approximately halfway between the shipping channel and the shoreline, in position 40-29-37.9841N 074-14-48.6976W and 40-29-54.3500N, 074-13-56.6352W. Breakwaters 1-6 are completed as labeled on the site plan. Construction of breakwaters 7-9 will continue through the project end date. Breakwaters #6, 7, 8, 9 (eastern reach of project) have seaward rock extensions branching off the main breakwater trunks. These structures are approximately 60 to 70-feet and have a varied crest elevation below mean high water (i.e., at high tide the reef ridges are below water and at low tide the reef ridges are exposed). Equipment and construction activities are anticipated onsite until **August 31, 2024**, Mon-Friday 5:00am to 5:00 pm. Equipment on scene will be W537 (250'x64'x16'), W70 (150'x80'x13'), W201-205 (130'x40'x11') W291/W293 (180'x54'x14'), W297 (250'x75'x16'), W263 ( 160'x 54'x12'), LISA D. Crew boat (47'x13'x4'), JESSE O. Workboat (25'x11'x6'). The barges will remain on scene overnight and on weekends and will be properly marked and lit. W537 and W263 may be on anchors or spuds, W70 will be on spuds and all other barges will be moored alongside. Mariners operating or transiting in the area, are requested to give a 0.5 nautical mile closest point of approach and are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made with the dredge. All vessels will be monitoring VHF CH 16 and 82.

Chart 12331 LNM 11/24

**NY- HUDSON RIVER-CATSKILL CREEK**

CD Perry LLC. will be conducting shoreline protection and timber dock repairs Hudson River outside of the navigation channel starting approximately 300-foot north of Catskill Point where the Catskill Creek meets the Hudson River and carrying on to approximately 600-foot north of Catskill Point, in position 42-12-35N, 073-51-11W, from **March 20, 2024, to August 24, 2024**, Monday through Saturday. Equipment on scene will be a 120’x40’ crane barge with 138 Link Belt crane, medium sized excavator, small material barge, tugboat, monitoring VHF-FM CH 19, for any concerned traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to minimize wake.

LNM 11/24

**NY-MANHATTAN CRUISE TERMINAL-Updated 3/10/2024**

Donjon Marine Co. will be conducting spring maintenance dredging at the Manhattan Cruise Terminal berths, in position 40-45-57.938N, 073-59-57.03W, from **April 9, 2024, to May 16, 2024**, 24 hours a day, seven days a week. Equipment on scene will be the dredge OYSTER BAY or DELEWARE BAY, three dump scows, a tending tug, two, and two, towing to sea tugs, monitoring VHF-FM CH 13 and 16 for any concerned traffic. This will be a move on demand project and Donjon, will maintain a tug on site 24/7 to move the dredge and equipment, as needed. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 10/24

**NY-NEW YORK CITY-THE EAST RIVER**

JT Cleary Inc. will be conducting diver operations on the FDR Drive between 18<sup>th</sup> Street and 25<sup>th</sup> Street from **February 26, 2024, to June 30, 2024**. Equipment on scene will be an 80’x50’ jack up barge, with crane moored at 310 Ave C, New York. Mariners are urged to transit at their slowest safe speed to produce no wake and proceed with caution.

LNM 09/24

**NY- JAMAICA BAY**

NYS Bulk LLC will be deploying a permanent USACE approved mooring buoy in Jamaica Bay in Position 40°37'-18.36N/073°46'-39.00W on **March 4, 2024**. The mooring ball will be used for hopper barges 260'x 53', 4-side by side (4 total) swing diameter of approximately 1000'. Mariners are advised to proceed with caution, while operating in the area.

LNM 09/24

**NY- LONG ISLAND SOUND -GREENS LEDGE**

Cianbro Middlesex Joint Ventures will be deploying 12 marker buoys and 3 mooring buoys in Long Island Sound – Greens Ledge area on or around the week of **February 27, 2024** (see chartlet below). The perimeter buoys (WP1-WP4 & A-H) will be flashing yellow and the mooring buoys (MB 1- MB 3) will be flashing white. Mariners may contact THE “Walk Bridge Project” on VHF CH 16 & 13 for questions or concerns. Mariners are advised to use caution and proceed with caution, while operating in the area.

Point Name	Point Code	Latitude N/Longitude W	
Greens Ledge WP1	Green Ledge Barges	41°02.42464', -073°26.63087'	Deg Min

LNM 09/24

## **NY-LONG ISLAND SOUND-HEMPSTEAD BAY-EAST RIVER-WESTCHESER CREEK**

Insight GeoServices, will be conducting marine survey operations, in Long Island Sound between Hempstead Bay and New Rochelle, East River in the vicinity of the Whitestone Bridge and Westchester Creek from **March 1, 2024, to April 30, 2024**, seven days a week, during daylight hours. The survey location will be bounded by the following positions: west of a line extending from 40-55.3N, 073-44.0W; 40-53.0N, 073-39.0W and east of a line extending from 40-53.5N, 073-46.5W; 40-52.0N, 073-44.0W. Equipment on scene will be the survey vessel TIME and TIDE and HALF MOON, monitoring VHF-FM CH 13 and 16 for any concerned traffic and is requesting vessels to maintain a 500 yard closest point of approach and will be towing survey equipment 100 meters astern. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 07/24

## **NY-LAKE CHAMPLAIN-KELLY BAY**

CHPE LLC and CHPE Properties Inc. will be conducting Marine operations to install articulated concrete mattresses at various identified locations throughout Lake Champlain for protection of the existing collocated infrastructure, from **April 1, 2024, to May 6, 2024**, seven days a week, in the following positions: 44-59.951N, 073-20.815W to 44-56.201N, 073-20.554W; 44-42.834N, 073-21.913W to 44-40.768N, 073-22.708W; 43-52.090N, 073-22.758W to 043-48.123N, 073- 22.686W. Equipment on scene will be a V60' x 180' sectional crane barge with spuds, 46' x 160' 'Hughes 866' mattress feeder barge, Tug Gavin, Vessel Patty C, and Carolina Skiff, monitoring VHF-FM CH 73 for any concerned traffic and will require a 30-60 minute notice for all vessel movement requests. During extreme weather events, marine assets will be moved to safe mooring or safe harbor. All barges will be illuminated when moored during nighttime hours. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 04/24

## **NY-HUDSON RIVER-CROFTON POINT**

Caldwell Marine will be conducting marine construction operations, to support the installation of two horizontal drills, on the Hudson River, near Crofton Point in position 41-09.643N, 073-55.092W, from **April 1, 2024, to July 30, 2024**, 24 hours a day, seven days a week. Equipment on scene will be a 60' x 180' deck crane barge with spuds, 40' x 100' sectional drill support barge with anchors, Tug Gavin, Vessel Patty C, and Carolina Skiff, monitoring VHF-FM CH 73 for any concerned traffic. The marine spread set at fixed position for the duration of the horizontal directional drill operations, weather permitting. During extreme weather events, marine assets will be moved to safe mooring or safe harbor. All anchor positions will be marked with white spherical marker buoys. Each anchor buoy will be equipped with high visibility reflective tape and illuminated with fixed white lights with a visible range of 2 nautical miles. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 03-24

## **NY-EAST RIVER-EAST 14<sup>th</sup> STREET**

American Structural Works, will be conducting heavy lift, crane work on the East River at Montgomery and East 14<sup>th</sup> streets, in position 40-42-54.0N, 073-58-27.7W, from **December 1, 2023, to June 2024**, between 6:00am to 5:00pm. Equipment on scene will be the tug DEBORAH QUINN, 297' x 108' x 17' Crane Barge 260' x 80' x 16' Material Barge extending approximately 70' into the 1,000' wide East River federal channel. All equipment will be monitoring VHF-FM CH 13 and 66 for any concerned traffic. The tug DEBROAH QUINN will require a 1-hour notice and the spud barge will require a 24-hour notice for any vessel movement requests. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been.

LNM 45/23

**NY-LONG ISLAND-GREAT SOUTH BAY-FIRE ISLAND-MONTAUK**

Great Lakes Dredge and Dock Company, LLC will be conducting beach nourishment and emergency stabilization operations, in Great South Bay (adjacent to Democrat Point), Fire Island (Saltaire to Seaview) & Montauk, NY, from **October 2023 to May 2024**, 24 hours a day, seven days a week. Equipment on scene will be trailing suction hopper dredge “ELLIS ISLAND”, (3) tugboats, (1) survey vessel, (1) crew boat, (1) derrick barge, and (1) anchor barge, monitoring VHF-FM CH 13 and 16 for any concerned traffic.

## **NY-LONG ISLAND SOUND-MAMARONECK HARBOR**

J T Cleary will be conducting bulkhead replacement and stone revetment operations in Mamaroneck Harbor, in position 40-56-3.6N, 073-43-46.5W, from **October 23, 2023, to December 31, 2024**, between 6:30 am to 4:30 pm, in accordance with tides. Equipment on scene will be a 40'x60' material barge, Cleary 60150 spud barge, small tugboat, small work boat, with white lights on corners of the barge in the waterway and will be monitoring VHF-FM CH 13 and 16 for any concerned traffic. Mariners are advised to use caution and transit at slow speeds to minimize wake when transiting the area.

Chart 12367 LNM 41/23

## **NY-HUDSON RIVER-MANHATTAN**

J.T. Cleary will be conducting structural pier reconstruction and pile driving operations on the Hudson River, at Pier 86, USS Intrepid Museum, from **September 25, 2023, to September 25, 2024**, Monday through Friday, between 6:00am to 3:30pm. Equipment on scene will be a crane barge with spuds, material barge, work boats and float stages. All working vessels will be monitoring VHF-FM CH 13 for any concerned traffic. Mariners are advised to use caution and operate at slowest speed possible to avoid wake.

LNM 40/23

## **NY-LONG ISLAND CITY-DUTCH KILLS CREEK**

Leeding Builders Group will be conducting marine construction in Dutch Kills Creek, in position 40-44-18.400N, 073-56-36.300W, from **September 25, 2023, to November 2025**, between 7:00am to 6:00pm. Equipment on scene will be pile drivers, excavators, and mobile cranes. Mariners are advised to use caution and operate at slowest speed possible to avoid wake.

LNM 39/23

## **NY-JAMAICA BAY-BERGIN BASIN-Update 8/4/2023**

Haugland Marine Service will be offloading marine construction material to a 180' x 60' barge spudded down 24 hours per day south of the charted security zone boundary crossing Bergen Basin at 40-39-26.4N. Work hours are Mon-Fri from 7 am to 3 pm **through July 20, 2028**. Material will be offloaded from a hopper barge (190' x 35') to the spud barge which will then be offloaded to JFK Airport property. Other sized vessels may be used. The assist tug will be monitoring VHF-FM CH 13, 16 and 68. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12350 LNM 32/23

## **NY-LONG ISLAND-HEMPSTEAD BAY**

Breakwater Marine, LLC, will be conducting bridge maintenance and pile jacket installation, operations approximately 1 nautical mile north of Coast Guard Station Jones Beach, in position 40-36.17N, 073-33.13W, from **July 5 to September 1, 2024**, between 6:00am to 6:00pm. Equipment on scene will be a 25' "Bridge Builder" Tug "Pushillico", 38' x 110' spudded Crane Barge, 32' x 110' spudded deck barge and miscellaneous sectional work floats, monitoring VHF FM CH 13 and 16 for any concerned traffic. A "No Wake Zone" is requested 500 yards either side of bridges. Minimal impact to navigation is anticipated as the majority of work will take place outside navigational channels. Individual Bridge Sections outside channel will be blocked over the course of this project. Mariners are requested to give adequate clearance to the equipment and transit at their slowest safe speed to minimize wake.

Chart 12352 LNM 23/23

## **NY-BERGEN BASIN-JAMAICA BAY**

The New York City Department of Environmental Protection, with support from the Science and Resilience Institute at Jamaica Bay, will be conducting in-water research in Bergen Basin, Jamaica Bay, in position 40-39-38.600N 073-49-18.300W from **May 15, 2023, to October 31, 2024**, seven days a week 24 hours a day. Equipment on scene will be a 56 X 19 series of cage systems, suspended under plastic buoys and secured in place by anchors. The area will be clearly demarcated and marked with four white and orange regulatory buoys. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12350 LNM 18/23

## **NY-NYC-EAST RIVER**

IPCP will be conducting esplanade, bulkhead, and park reconstruction, on the East River, Montgomery St to East 14<sup>th</sup> Street, from **January 2022 to December 2026**, 5-7 days a week, between 6:00am to 6:00pm. Equipment on scene will be Tugboat DEBRA QUINN, Inspection Boat, 290 x 40 Mooring Barges, 250 x 62 Gantry Crane Barge, Crawler Crane Barge, 150 x 60 Deck Barges, 140 x 40 Hopper Barges All moving of vessels to occur by tugboat; vessels will be moved at all times of day and night and will be monitoring VHF-CH 13 and 66. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Chart 12339 LNM 20/22

## **NY-UPPER NEW YORK HARBOR, BROOKLYN**

JT Cleary, Inc. will be conducting reconstruction of West Berth Platform, Installation of piles/ precast concrete work and demolition and reconstructive work of North Berth Platform and Inshore Return Platform in Brooklyn NY, at the Owl's Head Wastewater Treatment Plant 6700 Shore Rd. West Sludge pumping dock. In position 40-38-39.53N and 74-02-02.84W, 40-38-37.14N and 074-02-05.40W, 40-38-40.16N and 074-02-03.86W, 40-38-37.65N and 074-02-06.50W. Work will be done from **21 March 2022 to 30 December 2024**, Monday through Friday 6:00am - 6:00pm. Equipment of scene will be a Crane on barges with Spuds, material barge, hopper barges, work boats. The crew boat will be monitoring VHF-FM Channel 13 and 16 during working hours. Barges/equipment will not impede passage of any vessel. However, barges may be staged 50ft into east edge of The Bay Ridge Channel. Barges will be spudded down along shoreline. All moving of vessels to occur by tugboat. Mariners are urged to travel slowest safe speed to minimize wake.

Chart 12334 LNM: 11/22

## **NY-EAST RIVER-MONGOMERY STREET TO E 14 STREET**

IPCRP will be conducting Esplanade, bulkhead and park reconstruction work on the East River at Montgomery and East 14<sup>th</sup> Streets, in position 40-42-54.0N/ 073-58-27.7W from **01 January 2022 to 31 December 2026**, Monday to Friday from 6:00am to 5:00pm. Equipment on scene will be tugboat, mooring barges, material handling barges, a crane barge and deck barge. Vessels will be on scene monitoring CH 13 and 66. Vessels will need a one-hour notification to move. Mariners are urged to transit at their slowest safe speed to minimize wake.

Chart 12335 LNM 50/21

## **NY-GOWANUS CANAL**

The Gowanus Canal is closed to all recreational boating between 9th Street and Butler Street, including use of the 2nd Street public boat launch, at the direction of the U.S. Environmental Protection Agency (USEPA), the lead federal agency for the Gowanus Canal Superfund Site, due to the ongoing construction of the dredging and capping remedy of the canal until further notice unless specific advance written authorization is granted by USEPA. Contact: (212) 637-3639. For further information: <https://gowanussuperfund.com>.

Chart 12334 LNM 20/21

**NEW JERSEY**

**NJ-SEA BRIGHT**

Weeks Marine has completed dredging operations in Sea Bright and has started to demobilization operations until approximately **April 15, 2024**. Offshore Staging Areas for dredge pipelines and equipment will be bound by the following approximate positions: 40°25'46.28"N, 74° 0'53.74"W; 40°25'21.32"N, 74° 0'24.38"W; 40°25'14.95"N, 74° 0'33.26"W; 40°25'40.74"N, 74° 1'2.30"W and Anchorage Area 49F: 40°27'10.50"N, 74° 1'29.72"W; 40°27'11.48"N, 74° 1'15.36"W; 40°26'49.43"N, 74° 1'11.03"W; 40°26'48.38"N, 74° 1'26.91"W.

A staging area located in the vicinity of Barnegat Inlet, NJ will be bound by the following approximate positions: 39°46'6.66"N, 74° 7'11.88"W; 39°46'6.36"N, 74° 6'57.60"W; 39°45'37.26"N, 74° 7'8.70"W; 39°45'37.98"N, 74° 6'52.50"W.

The proposed pipeline corridor is located between the following approximate GPS positions: 40° 6'34.89"N, 74° 1'58.64"W; 40° 6'22.83"N, 74° 0'34.71"W; 40°20'30.09"N, 73°56'23.67"W; 40°20'42.64"N, 73°58'18.93"W.

Operations will continue on a twenty-four (24) hours per day, seven days per week basis. Onsite vessels will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. Pipelines and equipment will have all required U.S. Coast Guard lighting for night operations. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 11/24

**NJ-JERSEY CITY**

Trevcon Construction Company Inc. will be installing precast concrete elements, placement of stone and structural concrete work at the Global Container Terminal, Jersey City, in position 40-40-8.900N 074-4-30.312W, from **October 24, 2022, to December 31, 2024**, between 5:00am to 7:00pm. Equipment on scene will be multiple barges and work vessels, monitoring VHF-FM CH 13 and 16 for any vessel passing or movement request. Mariners are urged to transit at their slowest safe speed to produce no wake and proceed with caution.

Chart 12316 LNM 39/22

**ATLANTIC OCEAN**

**ATLANTIC OCEAN-NY-NJ BIGHT-OCS-A-0512 LEASE AREA**

TDI-Brooks International vessel RV Brooks McCall (Radio Call Sign: WCZ 7811) will be conducting geotechnical operations in the New York/New Jersey Bight Area from approximately **5 April through 30 April 2024**, weather permitting. Vessel will have restricted maneuverability during survey operations. The lease block OCS A-0512 is being developed by Equinor. Geotechnical data will be collected across the lease area and along the export cable route in support of the project. The survey vessel will be obtaining vibracore data of the ocean sediment. The vessel will be working with restricted/limited maneuverability with Geotechnical equipment sub-sea. The master requests a CPA of 0.5 – 1.0 mile to accommodate operations. RV Brooks McCall will be monitoring VHF FM CH 13 and 16 for any concerned traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

## **OFFSHORE WIND ENERGY/ONGOING WORK**

**Updated 4/16/2024**

**New information highlighted in Yellow.**

This guidance is for Private Aids to Navigation (AtoN) applicants requesting Coast Guard approval to provide navigational markings on offshore wind energy area structures in First District-area waters. The following structure label identification, lighting, sound, and Automatic Identification System (AIS) signals are strongly recommended, to be included in the USCG/BOEM/BSEE-accepted Marking Labeling and Signaling Plan (ML&SP). Applicants should plan to apply for one Private Aid Permit per structure (to include all labels, light(s), sound and AIS signals per the accepted ML&SP). Private AtoN Permit applications should be submitted using the “as designed” position, between 60 and 30 days prior to the start of construction, when they will be processed. Additional specific recommendations, **to allow sufficient time for vessel operators to detect and make any necessary course or speed alterations, include:**

### **Tower/Electrical Service Platform (ESP) Identification:**

- The foundation base of all towers should be painted yellow, RAL 1023, all around from the level of Mean Higher High Water (MHHW) to 50 ft above MHHW.
- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible to enable quick recognition and reference by mariners and agencies for search and rescue, law enforcement, and other purposes.
- (Tower) Letters and numbers, visible at night, labelled uniformly to at **least 2.5 m (8.2 ft) and as close to 3 m (9.8 ft) in height as possible**, rendered through use of retro-reflective or high contrast black, comparable to MilSpec #17038 or RAL 9005, to maximize visual range for nearby mariners.
- (ESP) Letters and numbers labelled to 1 meter high to maximize visual range for nearby mariners.
- The bottom of the 2.5m to 3m alphanumeric characters should be located at least 30 ft above MHHW and should be visible above any service platforms throughout a 360-degree arc from the water’s surface. If feasible, each unique alphanumeric designation should be duplicated below any servicing platform.
- It is strongly recommended to use retro-reflective paint and lettering/numbering materials to enhance visibility at night, and that an all-around band, retro-reflective material (white, yellow, or silver), visible through a 360-degree arc, at least 2 feet high, be applied to structures no less than 30 ft above MHHW.

### **Lighting:**

- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water’s surface.
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY), visible at a 5 nautical mile range.
- Intermediate Perimeter Structures (IPS) are those located along a wind energy facility’s outside boundary between SPSs: 2.5 sec flashing yellow (Fl Y 2.5s), visible at a 3 nautical mile range.
- Interior Towers, those inside the line of IPS and SPS towers: 6 second or 10 second flashing yellow (Fl Y 6/Fl Y 10), visible at a 2 nautical mile range.
- All lights serving the same function (SPS, IPS, inner boundary, etc.) should be synchronized within the field of structures.

### Encl 3

*Note:* All base, tower and construction components preceding the final structure completion must be marked with Quick Flashing Yellow (QY) obstruction lights visible throughout 360 degrees at a 5 nautical mile range. **These interim lights do not require additional PATON applications and will be accounted for by the First District Waterways staff through BOEM/USCG/BSEE acceptance of the Marking, Labeling and Signaling Plan.** Coast Guard notification is *required* when a structure is first lighted, with a QY after it breaks the water's surface, and again when the final ML&SP is operational.

#### **Sound Signals:**

- All SPS should be fitted with a Mariner Radio Activated Sound Signal (MRASS) which when activated--by multiple (5x) keying on VHF channel 83A within 10 seconds--should sound every 30 seconds (4s Blast, 26s off) and audible for at least 2 NM, for 45 minutes from its last VHF activation.

#### **Automated Information System (AIS) Transponder Signals:**

- At a minimum, FCC-certified AIS Aids to Navigation signals should mark all SPS or other significant locations within the wind energy facility. **The structures may be marked with either physical or synthetic AIS message 21 as circumstances warrant.**

- **AIS broadcasts should be made at sufficient antenna height and power to provide a relatively uniform coverage strongly recommended to extend at least 8 nautical miles beyond the periphery of the wind farm.**

*Note:* AIS stations must be FCC type-certified and granted appropriate FCC licensing prior to broadcasting. See our USCG AIS Frequently Asked Questions #21 for more information and additional instructions on submitting an AIS PATON application.

AIS FAQ#21: <https://www.navcen.uscg.gov/ais-frequently-asked-questions#21> PATON Application Website: <http://www.usharbormaster.com/>

### ATLANTIC OCEAN-OFFSHORE MASSACHUSETTS-VINEYARD WIND 1 WIND FARM PROJECT AREA – SAFETY ZONE(S) ENFORCEMENT NOTIFICATION UPDATE-Update 4/9/2024

A 500-meter Safety Zone will be enforced around Vineyard Wind, LLC., construction operations from **8:00am, April 10, 2024, to 8:00am, April 17, 2024**, Mariners are to avoid transiting within 500-meters of the following positions:

- AM37: 41-07-12.22N, 070-29-06.60W; AR38: 41-03-13.06N, 070-27-43.34W; AN39: 41-06-14.17N, 070-26-27.96W;
- AP41: 41-05-16.09N, 070-23-47.93W; M39: 41-07-14.22N, 070-26-29.27W; AT37: 41-01-11.97N, 070-28-59.96W;
- AL38: 41-08-13.25N, 070-27-50.00W; AS37: 41-02-12.00N, 070-29-01.30W; AQ34: 41-04-08.95N, 070-33-02.00W;
- AP35: 41-05-10.05N, 070-31-44.06W; AN36: 41-06-11.13N, 070-30-26.08W; AS32: 41-02-06.71N, 070-35-37.75W;
- AR33: 41-03-07.84N, 070-34-19.90W; AS33: 41-02-07.80N, 070-34-18.47W; AW38: 40-58-12.86N, 070-27-36.71W;
- AR34: 41-03-08.91N, 070-33-00.59W; AR37: 41-03-12.04N, 070-29-02.65W; AT33: 41-01-07.76N, 070-34-17.04W;
- AQ35: 41-04-10.01N, 070-31-42.67W; AS34: 41-02-08.88N, 070-32-59.18W; AT39: 41-01-13.98N, 070-26-21.41W;
- AU38: 41-00-12.94N, 070-27-39.36W; AV38: 40-59-12.90N, 070-27-38.03W; AS39: 41-02-14.02N, 070-26-22.72W;
- AQ38: 41-04-13.10N, 070-27-44.67W.

Mariners are strongly encouraged to operate with extreme caution and to maintain a safe distance from construction vessels and associated equipment when not located within one of the above-mentioned safety zone locations. Construction vessels include SEA INSTALLER and the NORTHSTAR COMMANDER. Construction will be supported by accommodation vessels – CADE CANDIES, GATEWAY ENDEAVOR, WINDEA COURAGEOUS, and GO LIBERTY, tugs WINDEA INTREPID, NICOLE FOSS & EARL REDD, and the barges PREVAILING WIND and MARMAC 400.

There will be several safety and scout vessel from the local fishing fleet operating in the area, all monitoring VHF FM CH 13 and 16 for any concerned traffic. All Mariners are requested to give a 0.5 NM wide berth to the construction vessel as they are extremely limited in their ability to maneuver. Passing arrangement can be made via VHF with any construction vessels.

## ATLANTIC OCEAN-OFFSHORE RHODE ISLAND-SOUTH FORK WIND FARM PROJECT

South Fork Wind has concluded major construction. Project commissioning will continue within the lease in the next months via several small and medium sized vessels. The project's 13 towers include their temporary navigation lights; AIS is not yet commissioned.

Various scientific monitoring and fisheries research, is ongoing in and near the wind farm, with a variety of fixed and mobile gear or equipment. Researchers are encouraged to contact Ørsted Marine Affairs prior to: [MANEP@Orsted.com](mailto:MANEP@Orsted.com).

Charted features: South Fork Wind is on the NOAA chart. Mariners are encouraged to update their charting software. Plotter files are available free at [us.ored.com/mariners](http://us.ored.com/mariners). Available chart types include Loran-C coordinates, Garmin, TimeZero, P-SEA Windplot, and others.

!

LNM 16/24

## SUNRISE WIND

Sunrise Wind is commencing activities in New York State waters.

Sunrise Wind will conduct a short-term nearshore bathymetry survey and deploy a temporary current measurement device on or about April 15, 2024. The survey will be conducted by Tetra Tech vessel Silver Streak or similar vessel. The bottom mount temporary current measurement device includes a seabed frame with an approximately 4 X 6 (2.2 m<sup>2</sup>) footprint. It is 2 ft (0.6 m) in height and weighs 600 lbs (272 kg). No surface buoy. Please refer to Orsted Mariners Briefing.

Vessels will be available on VHF FM 16 and 13.

LNM 16/24

LNM 14/24

### REVOLUTION WIND-Update 4/16/2024

WYATT CANDIES is relocating boulders in the Revolution Wind Lease Area and ROCKPIPER is installing scour protection at proposed turbine locations.

LNM 16/24

Construction in the lease area begins 01 MAY 2024.

A Safety Vessel will be infield to answer questions as early as 15 APRIL.

Vessels supporting major construction works will begin to arrive in the area, including ports and anchorages in Narraganset Bay, in the last two weeks in April. The Bokalift 1 and Bokalift 2 will call at Newport, RI for inspections as early as 23 April into the first week of May.

Proposed USCG Safety Zone regulations are posted to the federal register.

From approximately April 25<sup>th</sup> –01 May, vessels will arrive offshore and conduct various operations at sea, including equipment calibration.

Beginning 01 May, the Boaklift 1 and Bokalift two will install monopile foundations and their supporting infrastructure, with the assistance of many vessels.

During Monopiling operations, many sound-monitoring buoys, environmental monitoring vessels, and support craft will surround the monopile being installed out to 2000 yards. A 500 yard safety zone may be enforced by the USCG.

Hoses for a “Big Bubble Curtain” will be laid ahead of monopile installation, and may be marked with a lit surface buoy. Mariners should avoid contact with the bottom in the vicinity of the hoses.

### Encl 3

Offshore Heavy Lift Operations. Monopiles will be transferred from a heavy lift vessel, towed ahead and astern by two tugs, while the monopile installation vessel comes alongside. These operations may occur anywhere in the vicinity of Rhode Island Sound and the Revolution Wind lease area. Mariners should exercise extreme caution in the vicinity and take care not to pass between these vessels or over their towing wires. Vessels will be Restricted in their ability to Maneuver.

#### During Foundation Installation the following activities will occur simultaneously:

Seabed Preparation: **From January 2024 to May 2024**, the Wyatt Candies will relocate boulders with a grab within the 20m interarray cable corridors and within 150-200m of Foundation positions. Boulder locations will be available shortly after relocation at [us.orsted.com/mariners](https://us.orsted.com/mariners). While operating the Wyatt Candies with be RAM; please provide a wide berth. Safety Vessel and/or an FLO are on scene to communicate with mariners.

Scour Protection: Beginning **17 March through 30 May**, the **Rockpiper** will call in Rhode Island, then proceed to the REVOLUTION WIND to install stone scour pads at tower locations. While installing scour, the vessel will be restricted in ability to maneuver and requests a wide berth.

Charted features: REVOLUTION Wind is on the NOAA chart. Mariners are encouraged to update their charting software. Plotter files are available free at [us.orsted.com/mariners](https://us.orsted.com/mariners). Available chart types include Loran-C coordinates, Garmin, TimeZero, P-SEA Windplot, and others.

LNM 03/24

### STARBOARD WIND

Orsted is commencing site investigation activities as part of its OCS Lease 500 (Bay State Wind) development. Site investigation for the proposed project named Starboard Wind will occur in the northern portions of L500, and along a cable route into Narraganset Bay, beginning as early as **May 2024**. More information in the Orsted Mariners Brief, [us.orsted.com/mariners](https://us.orsted.com/mariners).

**ATLANTIC OCEAN-NY-OFFSHORE-OCS-A-0544**

TDI-Brooks International vessel RV Nautilus (Radio Call Sign: YJQA8) will be conducting geotechnical survey operations in OCS-A 0544 offshore New York from approximately **March 15, 2024, to May 15, 2024**, weather permitting. Vessel will have restricted maneuverability during survey operations. The Research Vessel Nautilus will operate in a planned area as shown on the attached chart. Activities will be conducted within the following way point coordinates: 40-17-36.312N, 072-55-27.084W; 40-8-25.44N, 073-7-48.288W; 40-12-14.04N, 073-13-35.508W; 40-21-12.528N, 073-0-50.004W. The vessel NAUTILIS will be working with restricted/limited maneuverability while keeping station deploying geotechnical sampling equipment. The master requests a CPA of 0.5 – 1.0 mile to accommodate operations and will be monitoring VHF-FM CH 13 and 16 for any concerned traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

**ATLANTIC OCEAN-MA COAST**

Geoquip Marine will be conducting geotechnical soil borings in the BOEM Lease Area OCS-A-0522, from **March 9, 2024, to September 2024**. Equipment on scene will be the Geoquip Speer”, “Dina Polaris” with associated subsea drilling and testing equipment and will be monitoring VHF FM CH 16 for any concerned traffic. While conducting borings, mariners are requested to maintain a one nautical mile separation from the vessels, if possible. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to

Encl 3

create minimum wake after passing arrangements have been made.

LNM 09/24

**ATLANTIC OCEAN-NJ COAST-BOEM LEASE AREA OCS-A-0544**

Geoquip Marine will be conducting geotechnical and soil boring site surveys in the BOEM Lease No. OCS-A 0544, from **February 15, 2024, to October 30, 2024**, 24 hours a day, seven days a week. Equipment on scene will be the GEOQUIP SAENTIS and DINA POLARIS with associated subsea drilling and testing equipment, monitoring VHF-FM CH 16 for any concerned traffic and request a 1NM separation wherever possible from other vessels and vessel will require 24-hour notice to relocate as drilling equipment will need to be recovered. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

Figure 1. Location map of the 544 lease area.

LNM 07/24

**NY-NJ-SEACOAST-OFFSHORE SURVEY OPERATIONS-OCS-A 0542**

R/V GO Pursuit will be conducting benthic sampling and marine remote sensing with acoustic sources, i.e. multibeam, sonar, magnetometer, and high frequency sub-bottom profilers; to map the seafloor and near-surface conditions. Vessel may additionally run weather patterns or testing in sheltered areas without survey sensors. Offshore vessel operations are planned in OCS-A 0542 and in the polygon bounded by the following coordinates: NW= 40-29-05.350N, 074-00-48.777W; NE= 40-28-39.934N, 073-23-09.886W, SE= 39-25-40.837N, 073-24-38.059W; SW= 39-26-05.329N, 074-01-

Encl 3

42.687W Survey operations will begin **February 2024, continuing until approximately September 30, 2024**, and will be conducted 7 days per week, 24 hours per day until survey completion with periodic port calls. Go Pursuit will monitor VHF-FM Ch 16. Average vessel speed will be 4.5 knots with towed sensors up to 600-feet behind vessel, maximum vessel speed is 10 knots during transits when not towing sensors. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 07/24

**ATLANTIC OCEAN-OCS-0539 LEASE AREA**

Fugro USA Marine, Inc. will be conducting marine remote, seafloor mapping operations, originating at the OCS-0539 lease area and terminating in Lower Bay, Long Beach NY and Manasquan NJ, from **January 31, 2023, to June 2024**, 12-hours a day (see chart below). Equipment on scene will be the survey vessel WESTERLY, operating multibeam bathymetry; side scan sonar and will be operating at 3.7 knots, with towed sensors up to 425-feet behind the vessel and will be monitoring VHF-FM CH 16 for any concerned traffic. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made.

LNM 06/24

**ATLANTIC OCEAN OFFSHORE NY-OCS-A-0542**

M/V Fugro Explorer will be conducting a geotechnical site investigation, comprised of drilling and performance of downhole sampling and Piezo Cone Penetration Testing within Federal waters. Vessel may additionally run weather patterns or testing in sheltered areas without survey sensors. Offshore vessel operations are planned in OCS-A 0542 and in the polygon bounded by the following coordinates: NW: 40° 29' 05.3500N, 074° 00' 48.777W; NE: 40° 28' 39.934N, 073° 23' 09.886W; SE: 39° 25' 40.837N, 073° 24' 38.059W; SW: 39° 26' 05.329N, 074° 01' 42.687W. Survey operations started in **November 2023, continuing until approximately April 30, 2024**, and will be conducted 7 days per week, 24 hours per day until survey completion with periodic port calls. Fugro Explorer will monitor VHF-FM Ch 16. The vessel

### Encl 3

will be fixed to the seabed and requires at least two hours' notice to move; please observe a minimum 0.5NM passing clearance.

LNM 45/23

### ATLANTIC OCEAN-NEW YORK-NEW JERSEY

Petroleum Geo-Services, Inc. will be conducting marine remote sensing operations in the OCS-A 0539 lease area, approximately 32 nautical miles offshore Little Egg Harbor, NJ, from **September 20, 2023, to May 15, 2024**. Equipment on scene will be the survey vessel SANCO SWIFT, operating with multibeam bathymetry and ultra-high-resolution 3D seismic and will be monitoring VHF-FM CH 16 for any concerned traffic. Average vessel speed will be 4 knots with towed sensors up to 1300 feet (400 m) behind vessel and 390 feet (120 m) wide. Maximum vessel speed is 12 knots during transits when not towing sensors. The vessel will be restricted in its ability to maneuver when towing and approaching vessels are requested to pass at a closest point of approach of 1 nautical mile.

LNM 37/23

### ATLANTIC OCEAN-RI-MA

Marine Acoustics Inc will be conducting underwater, passive, acoustic monitoring, from **August 12, 2023, to August 12, 2025**. The monitoring will be conducted in five locations offshore RI and southern Massachusetts in Atlantic Ocean (29 to 49 nautical miles from nearest land and islands in the following positions:

40-52-17.358N, 071-9-37.609W; 40-50-33.595N, 070-48-30.675W; 40-48-37.668N, 069-58-42.642W; 40-40-8.467N, 070-42-15.473W; 40-39-16.272N, 070-28-7.774W. Equipment on scene will be passive acoustic recording moorings (each includes acoustic recorder, acoustic release, buoy, line, anchor, and shackles); top of each mooring is 27 feet above seafloor. Mariners are advised to us caution when operating in the area.

LNM 39/23

### ATLANTIC OCEAN-COMMONWEALTH WIND-OSC-A 0534

Avangrid Renewables was informed by its contractor that an 11 m length of coiled rod, seismic cone, and 2 sections of casing were lost in the seafloor, in position 40-52-59.905N 070-43-19.333W. The loss occurred on **August 23, 2022**, while performing routine geotechnical surveys (cone penetration testing) in Lease OCS-A 0534. The available evidence suggests that the marine debris is 0.78 m below the seabed. There are no hazardous materials or oil within the debris. Therefore, the lost gear is not reasonably recoverable and should not interfere with other OCS uses or the environment.

**Encl 3**

LNM 37/22

**MA- SOUTHEAST OF MARTHA'S VINEYARD-SOUTHWEST OF NANTUCKET- OCS-A-501**

Vineyard Wind will be utilizing the F/V BEAST OF BURDEN to deploy one Passive Acoustic Monitoring (PAM) device as part of the University of New Hampshire multi-year study to record ambient sound and marine mammal species vocalizations in OCS-A 501 lease area, in position 41-3-45.18N 070-28-27.768W from **January 2023 to 2025**. The PAM device is approximately 2 meters high and 1.7 meters wide and weighs 800 kg with anchor. The device consists of the body and four arms that extend vertically to a central lift point. The device is connected via acoustic releases to the anchor, which consists of a steel triangle assembly with five 20 kg weight plates on each point of the triangle. The BEAST OF BURDEN will be monitoring VHF-FM CH 16 for any concerned traffic. More information about this project can be found on the following link: [PASSIVE ACOUSTIC MONITORING DEVICE DEPLOYMENT — Vineyard Wind](#)

Chart 12300 LNM 02/23

**LOCAL NOTICE TO MARINERS****BRIDGE SECTION****Week: 16/24****16 April 2024****BRIDGE DEVIATIONS, REPAIRS AND CONSTRUCTION**

<b>BRIDGE/WATERWAY</b>	<b>MILE</b>	<b>33 CFR Sect.</b>	<b>DEVIATION/RULE</b>	<b>EFF. DATE</b>
Meadowbrook State Parkway Bridge/Sloop Channel	12.8	117.799(h)	Temporary Interim Rule	10/3/2023-6/01/2024
East Haddam Swing Bridge Rte 82/Connecticut River	16.8	117.205(c)	Temporary Deviation	4/1/2024-8/31/2024
Southport Swing Bridge, Townsend Gut	0.7	117.537	Temporary Deviation	11/20/2023 – 5/18/2024

**MAINE – BOOTHBAY HARBOR TO BATH – Bridge Repair & Temporary Deviation** – Demolition, repair and rehabilitation on the Southport Swing Bridge (SR27) over Townsend Gut in Boothbay Harbor will be conducted through **May 18, 2024**. During the repair, the contractor will have several barges and workboats alongside the bridge pivot and piers blocking either the east channel or west channel. Work will be conducted during daylight hours only Monday through Saturday. Vessels needing to transit are advised to contact the Cianbro work boat via VHF Channel 13 or 16 to arrange for passage. Diving operations and crane operations which require complete closure of the channel will occur intermittently throughout the period of work. The Coast Guard has issued a temporary deviation from the rules requiring the bridge to open on signal. Closures will be published on the Maine DOT website at [Southport - Bridge Rehabilitation | MaineDOT](#). Mariners are advised to proceed at no wake speed and exercise caution when transiting in the vicinity of the bridge. Buoys will be placed on both sides of the bridge advising mariners of transit restrictions. Questions may be directed to Sam Stilwell, MaineDOT, at 207-441-8639.  
Chart 13296 LNM 16/24 (CGD1)

**MAINE – NEW HAMPSHIRE – CAPE NEDDICK HARBOR TO ISLES OF SHOALS – Bridge Repair** – Portsmouth Naval Shipyard will be conducting general maintenance work on Bridge 2 over the Back Channel, Portsmouth Harbor. The work will require the installation of a temporary hanging containment system to support the under-deck work on the structure. The location of the system will be on the south side of the bridge (Phase A) from approximately July 2024 through **October 2024**. After Phase A is complete, the system will be moved to the North Side of the Bridge (Phase B) from approximately October 2024 to January 2025. Mariners are advised to proceed at no wake speed and exercise caution when transiting in the vicinity of the bridge. Questions may be directed to the Portsmouth Naval Shipyard Public Affairs Office, (207) 438-1525.  
Chart 13283 LNM 16/24 (CGD1)

**MASSACHUSETTS – BOSTON INNER HARBOR – LOWER CHARLES RIVER – Bridge Construction** - Demolition and construction are ongoing at the North Washington Street Bridge through **August 1, 2024**. Work hours are 6 a.m. to 9 p.m. Vessels may transit through the work site in the open channel. Multiple barges, cranes and other equipment are on-scene. Work boats and push boats can be contacted on VHF Channel 13 to arrange passage if needed. If access to the commercial lock is required and work barges are in the channel, 24 hour notice to J.F. White is required to clear access to the commercial lock. The on-scene foreman for J.F. White Contracting Company is Patrick Wilson at 617-680-7537. Mariners are advised to proceed at slow speed and exercise caution.  
Chart 13272 LNM 16/24 (CGD1)

**MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER – Bridge Repairs** – Repairs will be conducted at the Tobin Bridge, mile 0.1, across the Mystic River between Boston and Chelsea through **May 31, 2024**. Working hours are from 0600 to 1500 and from 1900 to 0400, Monday through Friday. Work will be conducted outside of the 600 foot navigation channel with the exception of Under Bridge Inspection Units which will reduce the vertical clearance over the 600 foot navigation channel by approximately 10 feet for two to three weeks at the beginning of the project and for two to three weeks at the end of the project. Coast Guard Sector Boston will coordinate with the pilots and SPS New England so the Under Bridge Inspection Units are not operating over the navigation channel during the passage of deep draft vessels. Temporary scaffolding and work platforms will at times be installed around the bridge piers and lighted with constant red lights. Except when barges are relocated, barges will operate outside of the 600 foot channel. The barges will be lit with constant burning white lights on all four corners. Barge operators will monitor VHF channels 13/16. Questions may be directed to Darren Saunders, Project Manager for SPS New England at 508-982-4652; Patrick

**Encl 4**

Blais, Project Superintendent for SPS New England at 978-994-2741 or Tim Chase, Coast Guard Sector Boston at 617-447-1620. Mariners should use caution while transiting the area  
Chart 13272 LNM 16/24 (CGD1)

**MASSACHUSETTS – SAUGUS AND LYNN HARBORS – GENERAL EDWARDS DRAWBRIDGE – Bridge Closure -**  
The General Edwards Drawbridge over the Saugus River between Revere and Lynn is closed to vessel traffic due to structural repairs. Vessels able to pass under the bridge in the closed position may do so. Questions may be directed to Christopher Leahy or Elias Demissie, MassDOT Highway Division at 617-892-3643 or 781-570-6051. Mariners are urged to transit with caution.  
Chart 13275 LNM 16/24 (CGD1)

**MASSACHUSETTS – SAUGUS AND LYNN HARBORS – BELDEN BLY DRAWBRIDGE – Channel Closure -**  
MassDOT is continuing construction of the new Belden Bly (Route 107) Drawbridge over the Saugus River. From February 1<sup>st</sup>, 2024, through **May 1<sup>st</sup>, 2024**, a full channel closure will be in effect and a 100 yard Safety Zone will be established for the duration of the full channel closure. Vessels will not be able to pass through the bridge site during this period without permission from the Sector Boston COTP. Work hours are 5am – 7pm, 7 days a week. On scene work vessels will monitor VHF-FM Ch 13/16. Questions may be directed to Mr. William Schurman, SPS New England at (978) 265-7263 or Mr. Peter Tramontozzi MassDOT at (617) 279-9022. Mariners are urged to plan accordingly for the channel restrictions and to transit with caution.  
Chart 13275 LNM 16/24(CGD1)

**MASSACHUSETTS – PLUM ISLAND RIVER -- Emergency Bridge Closure –** The Plum Island Drawbridge (Sgt. Donald Wilkinson Memorial Drawbridge) over the Plum Island River is closed to vessel traffic for emergency repairs. Vessels may pass under the bridge in the closed position. Mariners with questions or concerns may contact Elias Demissie, MassDOT at 781-570-6051, or Kenneth Wong, MassDOT at 617-777-815. Mariners are advised to exercise caution when transiting the area.  
Charts 13282 LNM 16/24 (CGD1)

**RHODE ISLAND – BARRINGTON RIVER – HEAD OF NARRAGANSETT BAY -** Increased outgoing tidal currents have been reported in the Barrington River following removal of the East Bay Bike Path Bridge. Mariners are advised to exercise caution transiting the Barrington River in the vicinity of the bike path location.  
Chart 13224 LNM 16/24 (CGD1)

**CONNECTICUT – NIAN TIC BAY - Bridge Repairs –** From 9 p.m. on Wednesday April 17, 2024, to 6 a.m. on Thursday April 18, 2024, and from 9 p.m. on April 18 through 6 a.m. on **Friday April 19** Amtrak is servicing the electrical drive motors on the Amtrak Niantic Bridge. The draw will open upon request, however a delay in opening up to one hour should be expected. Mariners are requested to schedule transits to avoid opening requests to allow for the prompt completion of repairs. Questions may be addressed to Steven Knott, Amtrak Structures Engineer, at 401-265-7949.  
Chart 13211 LNM 16/24 (CGD1)

**CONNECTICUT – THAMES RIVER - Bridge Inspection –** Contractors for CT DOT will conduct a dive inspection of the Route 2A Bridge over the Thames River in Montville, CT on 7 and **8 May, 2024**. Working hours are from 8 a.m. to 4 p.m. A 21 foot dive boat will be on-scene and will monitor VHF Ch 13/16. Vessels will be able to pass at slow safe speed with due care to the location of the dive boat and divers. Questions may be addressed to Clay Carlson, A. DiCesare Associates, at 203-216-1766 or Nan Kuttin, PE, CT DOT at [Nandhinisree.kuttin@ct.gov](mailto:Nandhinisree.kuttin@ct.gov)  
Chart 12372 Thames River Extension LNM 15/24 (CGD1)

**CONNECTICUT – NEW LONDON HARBOR - Bridge Repairs –** From April 1, 2022 to **June 25, 2025**, between 7 a.m. and 5:30 p.m., the Connecticut Department of Transportation will conduct repairs on the Gold Star I-95 Northbound Bridge over the Thames River, mile 3.1. Work will be performed from hanging platforms on the bridge structure. The platforms will extend over the river approximately 420 feet from the shoreline on the New London side and 290 feet from the shoreline on the Groton side and will not be over federal channel. The reduction in vertical clearance caused by the platforms will not exceed 3 feet below the current bridge vertical clearances of 135 feet (MHW). A safety boat will be in the water and will monitor VHF Channel 16 when work is performed over the water. Questions may be addressed to Scott Thompson, Project Manager Aetna Bridge Company, at 401-663-6052 or Keith Schoppe, CT DOT, at 860-213-2360.  
Chart 13213 LNM 16/24 (CGD1)

**CONNECTICUT – CONNECTICUT RIVER DEEP RIVER TO BODKIN ROCK – CONNECTICUT RIVER - Notice of Temporary Deviation** - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Route 82 Bridge across the Connecticut River at mile 16.8. The deviation is needed to accommodate bridge rehabilitation operations. Under this temporary deviation, the Route 82, East Haddam Swing Bridge will restrict the bridge openings to the following time frames: From April 1, 2024, through August 31, 2024, bridge openings will be limited to the following schedule:

- Monday-Thursday openings at 10 a.m. and 2 p.m.
- Friday-Sunday openings at 10 a.m., 2 p.m. and 5 p.m.

During the following time frames the bridge will remain in the closed position:

- From 8:00 p.m. April 7 through 10:00 a.m. April 11
- From 8:00 p.m. April 14 through 10:00 a.m. April 18
- From 8:00 p.m. April 21 through 10:00 a.m. April 25
- From 8:00 p.m. April 28 through 10:00 a.m. May 2
- From 8:00 p.m. May 5 through 10:00 a.m. May 9
- From 8:00 p.m. May 12 through 10:00 a.m. May 16

Inclement weather and other unforeseen circumstances have the potential to impact the actual dates of these closures. The Connecticut DOT will notify mariners of a canceled closure at least 24-hours before the start of the closure. If a scheduled closure is canceled, the closure will occur the following week. Vessels able to pass under the bridge in the closed position will be allowed to do so. Mariners are advised to exercise caution when transiting the area.

Chart 12377 LNM 16/24 (CGD1)

**CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND SHERWOOD POINT TO STAMFORD HARBOR- NORWALK RIVER - General Construction** – Connecticut Department of Transportation will begin preliminary work for the new Norwalk Bridge construction. Beginning June 1, 2023 to **March 1, 2026**, a safety vessel and a combination of twelve (12) 10' x 20' and 10' x 40' modular flexi barges will be arranged to create a larger 40' x 80' barge. The barge will have a Linkbelt 228 crane onboard and will be used for numerous construction activities and it's position will change daily at the Walk Bridge over the Norwalk River at mile 0.1. Construction equipment will be in one channel (east or west) at a time leaving the remaining side available for mariners to transit. Mariners are advised to exercise caution and reduce wake when transiting the area as the permanent fender system has been removed and replaced with a temporary fender buoy during construction. Mariners with questions or concerns can contact the contractor via marine radio VHF-FM Ch 13/16 or call Megan Tower at (860) 560-6629 or Jason Rourke (860) 250-1020.

Chart 12368 LNM 16/24 (CGD1)

**CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND SHERWOOD POINT TO STAMFORD HARBOR – NORWALK RIVER – Emergency Closure** - The Coast Guard has issued an emergency closure deviation from the regulation governing the operation of the Walk (Metro-North) Bridge across the Norwalk River at mile 0.1. The bridge has suffered mechanical failure and cannot perform bridge openings at this time. Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to MNR Chief Engineer Anamaria Bonilla, P.E. at 646-208-8509. Mariners are advised to exercise caution when transiting the area.

Chart 12368 LNM 16/24 (CGD1)

**CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND SHERWOOD POINT TO STAMFORD HARBOR – NORWALK RIVER – Notice of Temporary Deviation Extension** - The Coast Guard has issued an extension to a temporary deviation from the regulation governing the operation of the Walk (Metro-North) Bridge across the Norwalk River at mile 0.1. Under this temporary deviation the Metro-North Bridges may remain closed to mariners from 9:00 pm March 15, 2024 through 6:00 am April 1, 2024.

Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to MNR Assistant Director Tyler Chambers at (646) 476-0237. Mariners are advised to exercise caution when transiting the area.

Chart 12368 LNM 16/24 (CGD1)

**NEW YORK – NORTH SHORE OF LONG ISLAND SOUND GREENWICH POINT TO NEW ROCHELLE – MILL NECK CREEK - BRIDGE REHABILITATION** – The Nassau County Department of Public Works has been authorized to temporarily deviate from the operating schedule at the Bayville Highway Bridge at mile 0.1, across Mill Neck Creek, to perform bridge rehabilitation. **NEW YORK - HARLEM RIVER – Electrical/Mechanical Rehabilitation** – Construction to the Madison Ave Bridge across Harlem River at mile 2.3 is in progress. Any questions to this project can contact Kambiz Riazi at 646-246-6666 or Steve Koch at 908-723-4355. This project is to be completed by **December 31, 2024**. Mariners are advised to exercise caution when transiting the area.

Chart 12342 LNM 16/24 (CGD1)

**NEW YORK – NEW YORK HARBOR – Lower – Level Deck Rehab** – Repairs to the Verrazzano Narrows Bridge over New York Harbor at mile 0.0 will commence on September 11, 2023. This project includes milling, paving, cleaning, painting, steel repairs/replacement, and miscellaneous drainage/utility work throughout the bridge. From April 1, 2024 and November 30, 2024, a bridge traveler will be operated under the main span to perform repairs (weekends from 11 pm Friday night to 5 am Monday morning) and weekdays for inspection. The traveler will be moved out of the navigable channel after work hours or when not in use. Installation of safespan shielding will be installing under the approach span between Brooklyn Tower and Brooklyn Anchorage on or about February 29, 2024 through November 30, 2024. The safespan shielding will not reduce the vertical clearance by more than 5ft below the low steel or below the existing catwalks. Mariners requiring full vertical clearance in the main navigation channel with one hour advance notice can contact Scott Valente via marine radio VHF-FM Ch. 13/16 or call 732-337-7576. Any questions regarding the construction can contact resident engineer Jeff Sawyer at 317-439-0978. This project is to be completed by **December 30, 2025**. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 16/24 (CGD1)

**NEW YORK – NEW YORK HARBOR – Tower Painting** – Painting to the Staten Island and Brooklyn Towers of the Verrazzano Narrows Bridge over New York Harbor at mile 0.0 will commence on April 1, 2024. From April 1, 2024 and April 30, 2025, a 165ft by 54ft barge and a 120ft by 55ft barge bridge will be operating IVO Staten Island Tower. From May 1, 2025 to March 31, 2026, a 165ft by 54ft barge and a 120ft by 55ft barge will be operating IVO Brooklyn Tower. No equipment will be in the navigation channel at any times. Any questions regarding the barge placement can contact resident engineer Abdi Hedayati at 347-885-8613. This project is to be completed by **March 31, 2026**. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 16/24 (CGD1)

**NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Bridge Inspection** – Inspection to the Goethals Bridge across the Arthur Kill, mile 11.5 is in progress. Hours of operations are from 7 a.m. to 4 p.m. At times, an underdeck traveler will be operating at various locations over the navigation channel. Mariners requiring full vertical clearance can contact Carlo Thompson via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. This inspection is to be completed by **June 30, 2024**. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 16/24 (CGD1)

**NEW YORK AND NEW JERSEY – NEW YORK HARBOR – UPPER BAY – KILL VAN KULL – Fender System Rehabilitation** – Construction to the Bayonne Bridge across Kill Van Kull at mile 1.5 will commence on April 1, 2024. A vessel/barge

**Encl 4**

will be operating IVO the bridge fender outside the navigation channel between 7 a.m. and 5 p.m. Mariners can contact the vessel/barge operator via marine radio VHS-FM CH 13/16. The work will be completed by **June 30, 2024**. Mariners are advised to exercise caution when transiting the area.  
Chart 12327 LNM 16/24 (CGD1)

**NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Structural Steel Repairs** – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 is in progress. Safe span platforms installed under the main spans and will reduce vertical clearance by 5 feet. On or about **February 1, 2024**, two spud barges and one push boat will be operating in the navigation channel to lift new structural steel and remove old steel from the barge to the underside of the bridge using a hydraulic tugger winch. A minimum of 200 feet horizontal clearance will be available in navigation channel at all times. POC for this project is William Ritter and can be reached at 973-390-7221.

This project is to be completed by **December 31, 2024**. Mariners are advised to exercise caution when transiting the area.

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction** – Replacement of the new Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 is in progress. Contractors are working on the punch list. There is no barge equipment in the navigation channel. Mariners can contact the personnel below regarding the project:

- Alexander Garcia 646-431-2185
- Vicken Bedian 347-680-5191
- Jerry Yang 201-985-6
- Evan Raab 201-359-0906

This project is to be completed by **June 30, 2024**.  
Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Bridge Inspection** – Inspection to Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 will commence on May 17, 2024. Hours of operation are from 8 am to 5 pm. A 35ft pontoon boat with 65ft bucket lift will be operating IVO the bridge. Mariners requiring full horizontal clearance can contact Captain Ronald Althouse via marine radion VHF-FM Ch 13/16 or 717-715-4621. Mariners are advised to exercise caution when transiting the area. This project is to be completed by **May 17, 2024**.  
Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fiber Optic Cables Relocation/Removal** – Fiber optic cables relocation/removal at the Portal Bridge across the Hackensack River at mile 5.0 will commence on April 12, 2024. Hours of operations are from 10 p.m. to 8 a.m. Cables will be raising on the south side of the tracks from 10 pm on 4/12/2024 to 8 am on 4/13/2024 and from 10 pm on 4/13/2024 to 8 am on 4/14/2024. Cables will be removed on the

north side of the tracks from 10 pm on 4/19/2024 to 8 am on 4/20/2024; and from 10 pm on 4/20/2024 to 8 am on 4/21/2024. Questions may be directed to Mr. Rick Heys (2Com Group) at 862-400-5662. This project will be completed by **April 21, 2024**. Mariners are advised to plan their transits accordingly and exercise extreme caution when transiting the area. Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Bridge Replacement –**

Installation of temporary trestle and cofferdam, and testing borings to the Portal Bridge North, across Hackensack River at mile 5.04 is in progress. Hours of operations are from Monday to Friday between 6:30 a.m. to midnight. There will be waterborne equipment blocking one draw of a swing bridge at a time and the other draw will be free and clear of any equipment for the passage of vessels. Mariners can contact one of the three (3) provided telephone numbers/emails or via marine radio VHF-FM CH 13/16 advising of travel through the channel (including possible return trips):

1. Ernest Hamilton – Main Span Superintendent – (904) 451-2979, [ehamilton@traylor.com](mailto:ehamilton@traylor.com)
2. Martir Ortez – Main Span Project Manager – (562) 307-4916, [mortez@traylor.com](mailto:mortez@traylor.com)
3. Jim Hummel – Main Span Area Lead - (917) 417-4885, [Jim.Hummel@skanska.com](mailto:Jim.Hummel@skanska.com)

Skanska Traylor PNB JV has been awarded the construction of the New Portal North Bridge Project (NJT Contract No. 20-083X, WBS No. GC.02) with a Notice to Proceed of April 7, 2022. Specific to the Hackensack River work, mile 5.0, the project consists of constructing two bridge piers, demolition of the existing center pier north fender, erecting three tied-arch spans of approximately 400 LF (1,200 LF overall), and demolition of the existing bridge once railroad traffic is switched to the new bridge.

The current barges are in place as shown below:

This project will be completed by **October 22, 2027**.

#### Encl 4

Please be advised that the existing Portal Bridge east channel horizontal clearance (temporary fender) will be maintained at approx. 88ft and west channel horizontal clearance at 91ft until it's demolished. Mariners are advised to exercise caution when transiting the area.

Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Bridge Allision** – The HX Bridge, at mile 7.7 across Hackensack River has been struck and damaged. The bridge will remain operational but the fender lights on the southside of bridge are extinguished due to the damage sustained on the walkway of the bridge. The walkway of the bridge is in the water and maybe impeding the navigation channel. The debris is roughly 20ft from the shore, fixed and submerged 7ft above the channel bottom. Mariners are advised to exercise extreme caution when transiting the area until the debris removal has been completed.

Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Fiber Optic Conduit Installation** – Construction to the New Jersey Turnpike Bridge across the Hackensack River at mile 11.8 will commence on May 1, 2024. Hours of operation are from 6 am to 4 pm. A barge will be operating IVO the bridge. Mariners requiring full horizontal clearance can contact Albert Parker via marine radion VHF-FM Ch 13/16 or 215-495-2140. Mariners are advised to exercise caution when transiting the area. This project is to be completed by **December 31, 2024**.

Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – BERRY'S CREEK CANAL AND SAWMILL CREEK – Substructure Rehabilitation** – Construction to the New Jersey Turnpike Authority Bridge, across Berry's Creek Canal at mile 0.1 and Sawmill Creek will commence on April 1, 2024. A 15ft by 7.5ft work platform barge and 30ft by 22.5ft material barge will be operating IVO the bridge during working hours and remain out of channel during non-working hours. Mariners requiring full horizontal clearance can contact Resident Engineer Scott Plant at 609-578-1303 or via marine radio VHF-FM CH 13/16. This project will be completed by **December 15, 2025**. Mariners are advised to exercise caution when transiting the area.

Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – BERRY'S CREEK CANAL AND SAWMILL CREEK – Bridge Replacement**– The Coast Guard received an application from the New Jersey Turnpike Authority proposing to replace the two-lane fixed highway: W112.72B Structure across the Berry Creek Canal, mile 0.3, at the City of East Rutherford, Bergen County, New Jersey. The public notice which describes the proposal in detail can be viewed at:

<http://www.navcen.uscg.gov/?pageName=pnBridges&Active=1&region=1>. Map of the location and plan sheets are attached to the public notice D01-202-2024\_Berry Creek.W112.72B. Address comments to Donna Leoce, Bridge Management Specialist and forwarded to the office of the Commander (dpb), First Coast Guard District Bridge Branch, by email to [D1Boston-Bridges-PublicNotices@uscg.mil](mailto:D1Boston-Bridges-PublicNotices@uscg.mil) through **April 28, 2024**.

Chart 12327 LNM 16/24 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – PASSAIC RIVER – Bridge Replacement** – Installation of temporary trestle, test borings and partial fender removal to the Point No Point Bridge, across Passaic River at mile 2.6 is in progress. Hours of operations are from 6:30 a.m. to 4:30 p.m. daily. Construction equipment will be blocking one channel while working in the cofferdam.

The contractor is requesting to coordinate with bridge operators/contractor well in advance for bridge openings during the construction period. For barge placement details please contact Dan Post at 732-751-2091 or 732-618-6117. This project will be completed by **August 13, 2025**. Mariners are advised to exercise caution when transiting the area and plan accordingly.  
 Chart 12337 LNM 16/24 (CGD1)

**NEW JERSEY – RARITAN RIVER TO NEW BRUNSWICK - RARITAN RIVER – Bridge Replacement** – Installation of temporary trestle, test borings, drilled shafts, etc. to the Raritan River Railroad Bridge across Raritan River at mile 0.66 are in progress. Hours of operation are from 6:30 a.m. to 4 p.m. Construction equipment are operating outside the navigation channel. For construction details please contact Chris Alves via marine radio VHF-FM CH 13/16 or call 732-614-7153. This project is to be completed by **October 14, 2024**. Mariners are advised to exercise caution when transiting the area.  
 Chart 12332 LNM 16/24 (CGD1)

**NEW JERSEY – RARITAN RIVER TO NEW BRUNSWICK - RARITAN RIVER – Deck and Structural Replacement** – Deck and structural replacement at the New Jersey Turnpike (Basilone) Bridge across Raritan River at mile 10.2 will commence on May 26, 2022. A safe span will be installed under the bridge across the entire span which will reduce the vertical clearance by approximate 5ft. Please contact Daniel Weissman of D’Annunzio Group or Mike Norris of WSP via marine radio VHF-FM CH 13/16 or call 732-877-3894/732-934-7535 for bridge construction. This project will be completed by **May 26, 2025**. Mariners are advised to exercise caution when transiting the area.  
 Chart 12332 LNM 16/24 (CGD1)

**NEW JERSEY – NAVESINK AND SHREWSBURY RIVERS – SHREWSBURY RIVER – Bridge Replacement** – Installation of temporary trestle to the S-32 (Rumson Road) Bridge over Shrewsbury River at mile 4.0 is in progress. There will be barge equipment operating IVO the bridge. For barge placement details, please contact David Nyarko, Resident Engineer at 646-334-2431 or via marine radio VHF-FM CH 13/16.  
 Due to steel fabrication delays and construction impacts to the federal navigation channel, the originally published full/partial channel closure schedule is likely to be modified and not occur until at least May 2024 or later. Updates will be provided, as they are available, in the D1 LNM and on the project website at <https://www.rumsonseabrightbridge.com>. To receive e-mail updates for this project select the “Contact Us” tab, then “E-mail List Sign Up” from the drop-down menu. Mariners are advised to exercise caution when transiting the area. The project will be completed by **March 17, 2025**.

**SECTOR NEW YORK**

**HUDSON RIVER**

(North of the George Washington Bridge to Whitehall Narrows)

**NY – HUDSON RIVER– ALBANY - Regatta**

Mariners are advised that a rowing regatta is scheduled to be held on the North Hudson River on **September 22, 2024, from 8:00 a.m. to 3:00 p.m.** Approximately 100 vessels of various lengths will transit a course beginning north of the I-90 Bridge heading southbound on the Hudson River finishing near the Riverfront Amphitheater at Jennings Landing. Rowers will egress north of the finish line near Albany rowing center boathouse. Mariners are requested to transit at low wake speed and use caution when in the vicinity of the rowers. Interested mariners may contact the Principal Race Officers via telephone at (573) 578-2532 or (917) 650-4680. LNM 12/24 (CGD1)

**UPPER NEW YORK BAY**

(North of the Verrazano Bridge including Hudson River north to George Washington Bridge, East River West of the Throgs Neck Bridge)

**NY – UPPER BAY - Sailing Regatta**

Mariners are advised that a sailing regatta is scheduled to be held in the Upper Bay south of Governors Island, near Bay Ridge Flats, beginning **April 24, 2024, through October 13, 2024**, on every Wednesday and Thursday between the hours of 6:00 p.m. to 9:00 p.m.; on Saturdays and Sundays from 12:00 p.m. to 5:00 p.m. Approximately 13 sailboats, 24-26 feet in length, with multiple motorized support vessels will participate. Interested mariners may contact the Executive Director on marine band radio channel 71 VHF-FM. Chart 12334 LNM 14/24 (CGD01)

**NY/NJ – UPPER BAY – Barge-Based Fireworks**

Mariners are advised that a barge based fireworks display will occur on **April 29 & May 4, 2024, between 9:30 p.m. until 10 p.m.** A safety zone will be enforced in a 600 foot radius of the barge at position 40° 41' 10" N 074° 02' 28" W, approximately 175 yards southeast of Liberty Island. No vessel's will be authorized inside the safety zone while it is being enforced unless authorized by the COTP. Interested mariners may contact the Event Coordinator via telephone at 336-264-8987. LNM 14/24

**NY – UPPER BAY – HUDSON RIVER – Boat Parade**

Mariners are advised that a boat parade is scheduled to occur on **June 29, 2024**, between 11:00 a.m. and 5:00 p.m. A formation of approximately 50 vessels between 28 and 95 feet in length, will gather north of Liberty Island in the Upper NY Bay at approximately 11:00 a.m. Beginning at 1:00 p.m. the parade will travel North up the Hudson River to the USS Intrepid Museum and then return to the Upper NY Bay to disperse around 5:00 p.m. Mariners are urged to transit with caution while in the vicinity of this event. Interested mariners may contact the Event Coordinator on marine band radio channel 16 and 69 VHF-FM. Chart 12327. LNM 12-24 (CGD01)

**NY/NJ – HUDSON RIVER - UPPER BAY – Competition**

Mariners are advised that a paddle-craft competition is scheduled for **September 7th and 8th, 2024** between the hours of 9:00 a.m. and 4:00 p.m. Approximately 70 participating canoes, kayaks, and paddle boards will transit shore-side along the Hudson River beginning in Hoboken Cove heading south to Liberty Island then around the southernmost point of Governors Island transiting the Buttermilk channel heading north up the Hudson River. Interested mariners may contact the Race Director on marine band radio channel 72 VHF-FM. Chart 12327 LNM 12/24 (CGD01)

**NY – HUDSON RIVER - SOUTH NYACK- TARRYTOWN – Swim**

Mariners are advised that the Lighthouse Swim event is scheduled for **September 8, 2024** from 9 a.m. to 12 p.m. within the waters of the Hudson River. Approximately 150 swimmers, assisted by kayakers, power-driven vessels, and local law enforcement will transit from the western portion of the Village of Nyack Memorial Park, NY, proceeding eastward to Kingsland Park, Sleepy Hollow, NY, where the swimmers will egress. Mariners are requested to operate with extreme caution within the vicinity of the support craft and proceed at no wake speed near event participants. Interested mariners may contact the Swim Organizer on marine band radio channel 6 VHF-FM. Chart 12343, LNM 12/24 (CGD1)

**NY/NJ – NEW YORK HARBOR – UPPER BAY – Sailboat Exhibition Race**

Mariners are advised there is a sailboat exhibition race scheduled to take place in the Upper Bay on **May 24, 2024**, between **10:00 a.m. and 4:00 p.m.** The race will be located between Governors Island and Liberty Island, oriented NE/SW, approximately 1.5 nautical miles long and 0.25 nautical miles wide. The races will consist of a maximum of 9 boats in each heat with each heat lasting approximately 10 minutes. At the completion of each heat, the vessels will return to the start line acting as a power-driven vessel, while observing standard navigation practices in accordance with U.S. Coast Guard Navigation Rules. The event coordinator may be contacted at +1-646-484-8655 or on VHF-FM channel 74.

THIS CHART IS NOT FOR NAVIGATIONAL USE

(North of Long Branch)

**CARTERET, NJ – LAND BASED – FIREWORKS DISPLAY**

Mariners are advised that a land-based fireworks display is scheduled in Carteret, NJ, from 9:30 p.m. until 10:30 p.m. on **July 3, 2024**. The launch site is located on land in approximate position 40° 34'26.00" N 74° 12'51.00" W. The fallout radius will encompass land only within a 350 foot radius from the launch site. Chart 12331, LNM 12/24 (CGD01)

**NJ – ARTHUR KILL – WOODBRIDGE / SEWAREN – Fireworks Display - Land Display**

Mariners are advised that a land-based fireworks display is scheduled to be held at Alvin Williams Park, Sewaren, NJ, from approximate position 40° 33'5 05.57"N, 074° 15' 13.36"W. The fireworks display will take place between 9:30 p.m. and 10:00 p.m. on **July 3, 2024, with a July 5, 2023** rain date. Mariners are requested to exercise caution while transiting the area. Chart 12333. LNM 12/24 (CGD01)

**REPORTED UNEXPLODED ORDNANCES (UXO)**

**Updated 4/16/2024**

**New information highlighted in Yellow.**

The Coast Guard advertises this information through local, Sector Broadcast Notice to Mariners (BNMs) and through the weekly, First Coast Guard District LNM. BNMs are additionally available directly to mariners by email sign-up at the CG Navigation Center Web Site ([Subscribe to Our RSS Feeds | Navigation Center \(uscg.gov\)](https://www.uscg.gov/Navigation-Center)). Once identified NOAA will then chart the UXO location so they are available on electronic navigation chart updates. Information on proper reporting and safety procedures for UXOs can be found [here](#).

**NY-NJ-ATLANTIC OCEAN-NEW YORK BIGHT-Updated 3/4/2024**

Two unexploded ordnances have been located via survey approximately 25 miles east of Sandy Hook, NJ in positions, 40-22-15.667N, 073-33-49.519W and 40-20-37.821N, 073-31-11.674W in approximately depth of 26 meters (see chartlet). Mariners are urged to avoid the ordnance and transit the area with caution.

LNM 04/24

**RI- NARRAGANSETT BAY - WEST PASSAGE – UNEXPLODED ORDNANCE-  
UPDATE 9/2/2022**

Sixteen (16) unexploded ordnances have been located via survey in Narragansett Bay – West Passage in positions:

- (1.) 41-27-7.68N 071-24-35.64W;
  - (2.) 41-27-25.74N 071-24-38.94W;
  - (3.) 41-27-33.60N 071-24-38.34W
  - (4.) 41-24-49.80N 071-22-58.14W
  - (5.) 41-26-40.32N 071-24-42.54W
  - (6.) 41-26-34.44N 071-24-8.22W;
  - (7.) 41-26-00.18N 071-24-30.48W;
  - (8.) 41-28-00.96N 071-24-28.68W;
  - (9.) 41-24-43.74N 071-4.26.40W;
  - (10.) 41-24-56.52N 071-21-59.64W;
  - (11.) 41-24-52.62N 071-23-43.62W;
  - (12.) 41-27-38.88N 071-24-6.978W;
  - (13.) 41-26-4.324N 071-24-30.591W;
  - (14.) 41-27-36.236N 071-24-37.026N;
  - (15.) 41-26-44.709N 071-24-38.97W;
  - (16.) 41-24-45.927N 071-21-39.508W.
- Mariners are urged to avoid the ordnances and transit the area with caution.

Chart 13223 LNM 27/22

### ATLANTIC OCEAN- 22 MILES SOUTHEAST OF BLOCK ISLAND – UNEXPLODED ORDNANCE

An unexploded ordnance has been located via survey in 22 miles southeast of Block Island in position, 41-58-32.182N 071-11-13.534W, in approximately depth of 54 meters (see chartlet). Mariners are urged to avoid the ordnance and transit the area with caution.

Chart 13223 LNM 36/22

### ATLANTIC OCEAN-SOUTH OF MARTHA’S VINEYARD

One unexploded ordnance has been located approximately 18NM south of Martha’s Vineyard in position 41-04.044N, 070°-26.470W in approximately, 41 meters of water. Mariners are urged to avoid the ordnance and transit the area with caution.

Chart 13006 LNM 27/22

## Don't Forget

- Munitions are dangerous and may not be easily recognizable!
- Avoid operational and former military ranges, and disposal areas!
- Do not bring munitions on-board!
- Never bring a munition into port, unless directed to do so by USCG!

## Follow the 3Rs

### Recognize

When you may have encountered a munition and that munitions are dangerous.

### Retreat

If you know or suspect you have encountered a munition, carefully return it to the water or secure it and keep the crew away from the immediate area.

### Report

Immediately notify the USCG of the vessel's or munition's location and provide a description of the munition.

#### Emergency contacts:

- In port: Call 911
- At sea: Use Channel 16 (156.800 MHz)

(Insert contact information here)

## NOTICE OF ARRIVAL REQUIREMENTS

In recent months, some Offshore Supply Vessels (OSVs) greater than 300 gross tons<sup>i</sup> arriving from outside of the First Coast Guard District have failed to submit a Notice of Arrival (NOA). The purpose of this Bulletin is to remind the commercial vessel industry of their obligation to submit a Notice of Arrival as required by Title 33 of the Code of Federal Regulations (CFR), Part 160.212(a).

All commercial vessels greater than 300 gross tons, measured under either domestic or international tonnage, shall submit an electronic NOA<sup>ii</sup> via the National Vessel Movement Center's website in accordance with the timetable below prior to entering a new Captain of the Port zone.

If your voyage time is—

1. 96 hours or more; Then you must submit an NOA at least 96 hours before arriving at the port or place of destination.
2. Less than 96 hours, then you must submit an NOA before departure but at least 24 hours before arriving at the port or place of destination.

**Failure to submit a Notice of Arrival as required may result in a Notice of Violation (NOV), Letter of Warning (LOW), or Denial of entry into port.**

Local Captain of the Port Zones can be contacted directly at the following:

**Sector Northern New England: (207) 899-6281 / [secnne-prevention-psc@uscg.mil](mailto:secnne-prevention-psc@uscg.mil)**

---

<sup>i</sup> 33 CFR 160.202 Definitions: Gross tons means the tonnage determined by the tonnage authorities of a vessel's flag state in accordance with the national tonnage rules in force before the entry into force of the International Convention on Tonnage Measurement of Ships, 1969 ("Convention"). For a vessel measured only under Annex I of the Convention, gross tons means that tonnage. **For a vessel measured under both systems, the higher gross tonnage is the tonnage used for the purposes of the 300-gross-ton threshold.**

## Federal Pilotage Requirements

Recently, there have been situations wherein vessels have entered or departed waters where a federal pilot is required but have done so without one on board. The purpose of this bulletin is to provide clarity and a greater understanding of the pilotage requirements outlined in 46 CFR 15.812 as it pertains to vessels operating in the designated waters of Sector Southeastern New England. The waters of Sector Southeastern New England accommodate a variety of vessels with wide ranging dimensions and purposes. Depending on the dimensions of a given vessel, particularly Gross Registered Tons, a federal pilot may be required to navigate the vessel into or out of port.

### **When is a federal or state pilot required?**

Coastwise, seagoing vessels are subject to federal pilotage requirements and are to be under the direction and control of a federal pilot if the vessel is not sailing on register, is underway, not on the high seas, propelled by machinery, and subject to inspection under chapter 37 of title 46 ([46 U.S.C. 8502](#)). In general, pilotage is compulsory for all domestic vessels measuring greater than 1,600 Gross Registered Tons when entering and departing port as specified by [46 CFR 15.812\(a\)](#). Additionally, the states regulate pilotage on foreign trade vessels (foreign vessels and U.S. vessels operating on register) in the bays, rivers, harbors, and ports of the United States ([46 U.S.C. 8501](#)). Any U.S. documented vessel with only a registry endorsement on its Certificate of Documentation (COD) would be subject to state pilotage laws. All foreign vessels are subject to state pilotage laws.

Figure 1 - Chart of Sector Southeastern New England with Boundary Lines (approximate)

## Who can serve as a federal pilot?

[46 CFR 15.812\(b\)](#) outlines who is permitted to serve in the capacity as a federal pilot. An individual holding a valid first-class pilot's license or Merchant Mariner Credential officer endorsement as first-class pilot, operating within the restrictions of that credential, may serve as a pilot. A table is provided below to summarize these conditions.

Table 1 to 46 CFR 15.812(e)(1) – Quick Reference Table for Federal Pilotage Requirements for U.S. – Inspected, Self-Propelled Vessels, Not Sailing on Register

	<b>Designated areas of pilotage waters (routes for which First-Class Pilot's licenses or MMC officer endorsements are issued)</b>	<b>Non-designated areas of pilotage waters (between the 3-mile line and the start of the traditional pilotage routes)</b>
Inspected self-propelled vessels <b>greater than</b> 1,600 GRT, authorized by their COI to proceed beyond the Boundary Line <sup>3</sup> , or operating on the Great Lakes	First-Class Pilot	Master or Mate may serve as pilot if he or she- 1. Is at least 21 years old; 2. Has an annual physical exam; and 3. Maintains current knowledge of the waters to be navigated. <sup>1</sup>
Inspected self-propelled vessels <b>not more than</b> 1,600 GRT, authorized by their COI to proceed beyond the Boundary Line <sup>3</sup> , or operating on the Great Lakes	First-Class Pilot, <i>or</i> Master or Mate may serve as pilot if he or she- 1. Is at least 21 years old; 2. Maintains current knowledge of the waters to be navigated; and <sup>1</sup> 3. Has four roundtrips over the route. <sup>2</sup>	Master or Mate may serve as pilot if he or she- 1. Is at least 21 years old; and 2. Maintains current knowledge of the waters to be navigated. <sup>1</sup>
Inspected self-propelled vessels <b>greater than</b> 1,600 GRT, not authorized by their COI to proceed beyond the Boundary Line <sup>3</sup> (inland route vessels); other than vessels operating on the Great Lakes	First-Class Pilot	Master or Mate may serve as pilot if he or she- 1. Is at least 21 years old; 2. Has an annual physical exam; and 3. Maintains current knowledge of the waters to be navigated. <sup>1</sup>
Inspected self-propelled vessels <b>not more than</b> 1,600 GRT, not authorized by their COI to proceed beyond the Boundary Line <sup>3</sup> (inland route vessels); other than vessels operating on the Great Lakes	No pilotage requirement	No pilotage requirement

<sup>1</sup> One roundtrip within the past 60 months.

<sup>2</sup> If the route is to be traversed during darkness, one of the four roundtrips must be made during darkness.

<sup>3</sup> Defined for Sector Southeastern New England by [46 CFR 7.15 – Massachusetts Bay, MA](#) and [46 CFR 7.20 – Nantucket Sound, Vineyard Sound, Buzzards Bay, Narragansett Bay, MA, Block Island Sound and easterly entrance to Long Island Sound, NY](#).

Failure to comply with the above regulations may result in civil penalty or action against the operator's merchant mariners credential under [46 CFR 5](#).

### SAFETY AND HEALTH OF THE FLEET

The Captain of the Port (COTP), as well as Coast Guard units and personnel of Sector Southeastern New England, remain committed to the physical and mental health of all mariners homeported, passing through, and operating in this area. As professional seafarers in New England's largest and most profitable fleet, commercial fishermen are vital contributors to the nation's supply chain, and the arduous nature of this profession poses significant health risks that the Coast Guard is dedicated to helping reduce.

#### COMMON HEALTH RISKS ASSOCIATED WITH INDUSTRY

With respect to the commercial fishing industry, physical injury, overdose, depression, and drowning have shown to be common risks among its crews. None of these risks are exclusive to commercial fishing, but the inherently dangerous work subjects mariners to injury, which often results in prescription medications that are difficult to manage; hence, addiction and potential overdose affect many of the crews.

Notwithstanding, depression remains a HUMAN problem that effects people from all walks of life, yet days at sea that fishermen endure make seeking help difficult. When such issues remain unmanaged, one's ability to focus may decline, which can lead to accidents and possible loss of life. The Coast Guard has teamed with several local organizations to directly address this health threat and serve a role in improving fishermen's well-being.

#### HAZARDOUS CONDITIONS AT SEA

First and foremost, rescuing and/or transporting the individual to appropriate care remains the Coast Guard's primary objective. Notifying the Coast Guard of a hazardous condition at sea, which includes injury or illness of a person aboard the vessel, satisfies federal requirements of 33 CFR 160.216. The rescue, recovery, or transport of an individual who may have suffered from a substance-related episode does not yield suspicion or implicate uninvolved members of the crew. If illicit substances are found on board the vessel, the same notification to the Coast Guard will initiate a response to assist with removing the product(s) safely from the boat and protect the crew. Finding and reporting unauthorized substances aboard your vessel **DOES NOT** suggest willful carriage, storage, or use by members of the crew.

#### CARRIAGE OF NALOXONE (NARCAN)

Commercial fishing vessel owners, captains, and crews are highly encouraged to carry naloxone, or Narcan, on board their vessels, as this lifesaving product can immediately reverse an overdose and save a life. The carriage of Narcan **DOES NOT** imply that illicit substances are on board a vessel, nor does it suggest anyone in the crew has, or has knowledge of, a drug problem or addiction; this is simply a first-aid item that can be the difference between a life saved and an avoidable fatality. One can overdose on any medication, including prescription and over-the-counter drugs, and Narcan has the same intended effect, regardless of the substance(s) involved.

## LOCAL RESOURCES AVAILABLE

The Coast Guard has teamed with the Greater New Bedford Waterfront Task Force and Fishing Partnership to promote safety and resources for the commercial fishing fleet. The Greater New Bedford Waterfront Task Force regularly hosts **FREE** health and wellness events in the Port of New Bedford, whereby port partners typically include the Coast Guard, Fishing Partnership, local harbor masters, local first responders, mobile healthcare workers, behavioral health specialists, and Port Authority representatives. Some of the free services offered include:

- Immunizations
- Narcan training and distribution
- Overdose education
- Health and blood pressure screening
- *Lifejackets for Fishermen* rebate option
- Nutrition and health information
- Local, state, and federal regulations information

Additionally, the Fishing Partnership has two locations within the Southeastern New England area that provide free services and resources to commercial fishermen, including:

- Naloxone (Narcan) education and training
- **FREE** Narcan distribution
- Behavioral health services
- Crisis response
- Safety and survival courses for crews
- CPR and first-aid training for crews
- Health and cancer screenings
- Vaccinations (flu, tetanus, pneumonia, etc.)
- Health insurance enrollment

<https://fishingpartnership.org/>

## CONCLUSION

Crews are reminded that if someone experiences an injury, overdose emergency, or behavioral crisis while at sea, contact the Coast Guard Sector Southeastern New England Command Center via VHF Channel 16 or 22, or by phone at **(866) 819-9128**. Likewise, if illicit substances are found on board, the Coast Guard will assist with the removal of such products without implication of involvement among the crew. All mariners are strongly encouraged to read and share this informational bulletin widely.

## Notice of Proposed Rulemaking - Safety Zone; Revolution Wind Farm Project Area, Outer Continental Shelf, Lease OCS-A 0486, Offshore Rhode Island Atlantic Ocean

This bulletin addresses a Notice of Proposed Rulemaking - Safety Zone; Revolution Wind Farm Project Area, Outer Continental Shelf, Lease OCS-A 0486, Offshore Rhode Island, Atlantic Ocean.

The Coast Guard is proposing to establish 67 temporary safety zones around the construction of each facility during the development of the Revolution Wind Farm project area within federal waters on the Outer Continental Shelf, specifically in the Bureau of Ocean Energy Management Renewable Energy Lease Area OCS-A 0486, approximately 15 nautical miles offshore southeast of Point Judith, Rhode Island.

(Chartlet showing the positions of the proposed safety zones.)

This action is necessary to provide for the safety of life, property, and the environment during the planned construction of each facility's monopile type foundation and subsequent installation of the wind turbine generators and offshore substations from June 1, 2024 to May 31, 2027. When enforced, only attending vessels and those vessels specifically authorized by the First Coast Guard District Commander, or a designated representative, are permitted to enter or remain in the temporary safety zones.

1. The complete Notice of Proposed Rulemaking is available under Federal Register docket number USCG-2024-0134 and can be accessed through the federal portal at <https://www.regulations.gov/document/USCG-2024-0134-0001>.
2. We invite your comments on this proposed rulemaking. To submit your comment online, go to <https://www.regulations.gov>, and insert "USCG-2024-0134" in the "search box". Click "Search" and then click "Comment." We will consider all comments and material received on or before April 22, 2024.
3. For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapiejko, Waterways Management at First Coast Guard District, telephone 617-603-8592, e-mail [craig.d.lapiejko@uscg.mil](mailto:craig.d.lapiejko@uscg.mil).

Captain Richard J. Schultz, First Coast Guard District Chief of Prevention, sends
