Coast Guard**

## LOCAL NOTICE TO MARINERS

**District: 5**

**Week: 28/23**

COASTAL WATERS FROM SHREWSBURY RIVER, NEW JERSEY TO LITTLE RIVER, SOUTH CAROLINA

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at <https://www.navcen.uscg.gov/>.

If you have questions about the Fifth Coast Guard District Local Notice to Mariners (LNM), please contact:

COMMANDER  
FIFTH COAST GUARD DISTRICT (dpw)  
431 Crawford Street  
Portsmouth, Virginia 23704

or for correspondence and article requests:  
[gregory.c.goetz2@uscg.mil](mailto:gregory.c.goetz2@uscg.mil), (757) 398-6220 and [CGD5Waterways@uscg.mil](mailto:CGD5Waterways@uscg.mil)

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

### AIDS TO NAVIGATION DISCREPANCY REPORTING

To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:

1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR MARYLAND - NATIONAL CAPITAL REGION at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR VIRGINIA at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

## ABBREVIATIONS

### A through H

ADRIFT - Buoy Adrift  
AICW - Atlantic Intracoastal Waterway  
AI - Alternating  
B - Buoy  
BKW - Breakwater  
bl - Blast  
BNM - Broadcast Notice to Mariner  
bu - Blue  
C - Canadian  
CHAN - Channel  
CGD - Coast Guard District  
C/O - Cut Off  
CONT - Contour  
CRK - Creek  
CONST - Construction  
DAYMK/Daymk - Daymark  
DBN/Dbn - Daybeacon  
DBD/DAYBD - Dayboard  
DEFAC - Defaced  
DEST - Destroyed  
DISCON - Discontinued  
DMGD/DAMGD - Damaged  
ec - eclipse  
EST - Established Aid  
ev - every  
EVAL - Evaluation  
EXT - Extinguished  
F - Fixed  
fl - flash  
Fl - Flashing  
G - Green  
GIWW - Gulf Intracoastal Waterway  
HAZ - Hazard to Navigation  
HBR - Harbor  
HOR - Horizontal Clearance  
HT - Height

### I through O

I - Interrupted  
ICW - Intracoastal Waterway  
IMCH - Improper Characteristic  
INL - Inlet  
INOP - Not Operating  
INT - Intensity  
ISL - Islet  
Iso - Isophase  
kHz - Kilohertz  
LAT - Latitude  
LB - Lighted Buoy  
LBB - Lighted Bell Buoy  
LHB - Lighted Horn Buoy  
LGB - Lighted Gong Buoy  
LONG - Longitude  
LNM - Local Notice to Mariners  
LT - Light  
LT CONT - Light Continuous  
LTR - Letter  
LWB - Lighted Whistle Buoy  
LWP - Left Watching Properly  
MHz - Megahertz  
MISS/MSNG - Missing  
Mo - Morse Code  
MRASS - Marine Radio Activated Sound Signal  
MSLD - Misleading  
N/C - Not Charted  
NGA - National Geospatial-Intelligence Agency  
NO/NUM - Number  
NOS - National Ocean Service  
NW - Notice Writer  
OBSCU - Obscured  
OBST - Obstruction  
OBSTR - Obstruction  
Oc - Occulting  
ODAS - Anchored Oceanographic Data Buoy

### P through Z

PRIV - Private Aid  
Q - Quick  
R - Red  
RACON - Radar Transponder Beacon  
Ra ref - Radar reflector  
RBN - Radio Beacon  
REBUILT - Aid Rebuilt  
RECOVERED - Aid Recovered  
RED - Red Buoy  
REFL - Reflective  
RRL - Range Rear Light  
RELIGHTED - Aid Relit  
RELOC - Relocated  
RESET ON STATION - Aid Reset on Station  
RFL - Range Front Light  
RIV - River  
RRASS - Remote Radio Activated Sound Signal  
s - seconds  
SEC - Section  
SHL - Shoaling  
si - silent  
SIG - Signal  
SND - Sound  
SPM - Single Point Mooring Buoy  
SS - Sound Signal  
STA - Station  
STRUCT - Structure  
St M - Statute Mile  
TEMP - Temporary Aid Change  
TMK - Topmark  
TRLB - Temporarily Replaced by Lighted Buoy  
TRLT - Temporarily Replaced by Light  
TRUB - Temporarily Replaced by Unlighted Buoy  
USACE - Army Corps of Engineers  
W - White  
Y - Yellow

### Additional Abbreviations Specific to this LNM Edition:

AIS - Automatic Identification System  
AtoN - Aids to Navigation  
LIB - Lighted Ice Buoy  
LLNR - Light List Number  
MD-NCR - Maryland-National Capital Region  
OREI - Offshore Renewable Energy Installations  
UXO - Unexploded Ordnances  
WTG - Wind Turbine Generator

## SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

### \*\*\*\*NEW OR UPDATED INFORMATION IN THE LOCAL NOTICE TO MARINERS \*\*\*\*

New, updated or very important information in the Local Notice to Mariners (LNM) will be preceded and followed by four asterisks.

### NC – VA – MD – DE – NJ – ATLANTIC OCEAN - OFFSHORE STRUCTURE PATON MARKING GUIDANCE

For Private Aids to Navigation (AtoN) applicants requesting Coast Guard permits to provide navigational markings on offshore wind farm structures in Fifth District-area waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all label(s), light(s), sound signals and AIS signals). Private AtoN Permit applications should be submitted no sooner than 60 days and no later than 365 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

Tower/Electrical Service Platform (ESP) Identification:

- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible
- (Tower) Letters and numbers, visible at night, labelled to as near to 3 meters high as possible, rendered through use of retro-reflective or high contrast black, comparable to MilSpec #17038 or RAL 9005, to maximize visual range for nearby mariners, is strongly recommended
- (ESP) Letters and numbers labelled to 1 meter high to visual range for nearby mariners.
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water's surface
- If feasible, also labelled below the servicing platform

- (Tower) All-around band, retro-reflective material (white, yellow or silver) is strongly recommended, visible through a 360 degree arc, at least 2 foot bands around the structure no less than 30 ft above MHHW.
- (Tower) Foundation base of all turbines should be painted yellow, comparable to MilSpec #23655 or RAL 1023, all around from Mean Higher High Water (MHHW) to 50 ft above MHHW

Lighting:

- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water's surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6/FL Y 10) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. The QY flashing lights are outlined within the lighting plan during the PATON Permit process.

Sound Signals:

- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a range of 2NM
- Should not exceed 3NM spacing between perimeter structures
- Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds
- Timed to energize for 45 minutes from last VHF activation

(CONTINUED BELOW)

LNM: 28/23

**NC – VA – MD – DE – NJ - ATLANTIC OCEAN - OFFSHORE STRUCTURE PATON MARKING GUIDANCE (CONTINUED)**

Automated Information System (AIS) Transponder Signals:

- Each Significant Peripheral Structure, and Intermediate Peripheral Structure adjacent to a fairway or used to identify a designated vessel transit route through the farm or closely adjacent farms, shall be identified by a properly encoded AIS message 21.
- The structures may be marked with either physical or synthetic AIS message 21 as circumstances warrant; the broadcasts should be made at sufficient power to provide a relatively uniform coverage recommended to extend at least 8 nautical miles beyond the periphery of the wind farm to allow sufficient time for ship operators to detect and make any necessary course or speed alterations.
- Capable of transmitting signals marking the locations of all structures within the facility.
- Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the Fifth Coast Guard District's recommendation.

PATON Application can be requested through email to: D05-SMB-CGD5Waterways@uscg.mil

Please forward questions or feedback in an e-mail Matthew.K.Creelman2@uscg.mil or Ryan.P.Doody2@uscg.mil

Charts: 12200 12211 12214 12221 12318

LNM: 28/23

**\*\*\*\*REPORTED UNEXPLODED ORDNANCES (UXO)\*\*\*\***

The Coast Guard advertises reported unexploded ordnances (UXO) information through local, Sector Broadcast Notice to Mariners (BNMs) and through the weekly, Fifth Coast Guard District LNM. BNMs are additionally available directly to mariners by email sign-up at the CG Navigation Center Web Site Subscribe to Our RSS Feeds | Navigation Center (uscg.gov). Once identified, NOAA will then chart the UXO location so they are available on electronic navigation chart updates. Information on proper reporting and safety procedures for UXOs can be found at the following link: <https://www.denix.osd.mil/uxo/>.

For an active list of UXO, see ENC 7.

LNM: 18/23

**NC - HAZARDS OF NORTH CAROLINA COASTAL INLETS**

Hazardous inlets. To heighten public awareness about the hazards that exist, this information is provided for shoaling conditions that exist at the following North Carolina inlets:

Oregon Inlet	Hatteras Inlet
Ocracoke Inlet	Barden Inlet
Beaufort Inlet	Bogue Inlet
New River Inlet	Topsail Inlet
Masonboro Inlet	Carolina Beach Inlet
Lockwoods Folly Inlet	Shallotte Inlet

Shoaling conditions increase the potential for groundings. These inlets are subject to continual and sometimes rapid environmental changes. Mariners are highly encouraged to obtain the most recent U.S. Army Corps of Engineers Wilmington, North Carolina District hydrographic survey information, centerline waypoints and controlling depth at:

<http://www.saw.usace.army.mil/Missions/Navigation/HydrographicSurveys.aspx>

Mariners should use caution when navigating in these areas and passage through the inlets is not recommended without local knowledge of the area. The aids to navigation in these inlets may not be charted and may not be marking best water due to continually shifting shoals. Consult Local Notice to Mariners, 5th Coast Guard District for the latest positions and status of aids to navigation:

<https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=5>

To report any aids to navigation discrepancies (missing, damaged, off station, extinguished lights), shoaling, hazards to navigation, or discrepancies on bridge lighting, please contact Sector North Carolina Command Center (910) 343-2200.

#### **CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION**

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or沉器 positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

#### **INTERFERENCE WITH AIDS TO NAVIGATION**

14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than \$1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

#### **U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE**

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.

[http://www.cgaux.org/boating/class\\_finder/index.php](http://www.cgaux.org/boating/class_finder/index.php)

#### **WESTERN ATLANTIC AND U.S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA) –PROHIBITION ON DISTURBING, REMOVING ARTIFACTS OR DAMAGING SUNKEN CRAFT**

Special protections are provided to sunken military craft by the "Sunken Military Craft Act" (SMCA) (Public Law 108-375). Along the U.S. East Coast, and particularly off North Carolina, there are many sunken U.S. and foreign military craft. Sunken military craft may be the final resting places of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U.S. law, sunken foreign military craft, including those located in U.S. waters, remain the property of their respective country's government. Sovereign immune vessels, such as military crafts, are afforded protections under U.S. and international law. Included among these vessels are at least three known sunken German submarines (U-boats) located in waters off the NC coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both purposeful or inadvertent activities including anchoring, fishing, diving, and other marine activities. Special dangers, such as unexploded ordnance, may also be associated with sunken military craft, and should be considered when operating in these areas. Violations of the SMCA may subject individuals to penalties of up to \$100,000 and to liability for damages. Mariners who witness theft of material from, disturbance of, or damage to a sunken military craft are asked to report it to the nearest Coast Guard unit.

#### **SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS**

The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

#### **SAFETY NOTICE - NAVIGATIONAL RANGE AND SECTOR LIGHTS ON ELECTRONIC CHARTS**

The U.S. Coast Guard has become aware that the Range and Sector Light Characteristic labels are not displayed on Electronic Navigational Charts (ENCs) when used in an Electronic Chart Display and Information System (ECDIS) due to limitations of the S-52 ECDIS display specification. Mariners may query the ENC data directly within ECDIS or refer to the Light List for complete information on Range and Sector Light

Characteristics.

LNM: 39/22

#### **USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER**

The U.S. Coast Guard Navigational Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information on GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar (NANU). These notices can also be obtained via e-mail subscription through the USCG Navigation Center website (<https://www.navcen.uscg.gov/gps/status/default.htm>). In addition, the NIS investigates all reports of degradation or loss of GPS and DGPS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: 703-313-5900, webmaster@navcen.uscg.mil or <https://www.navcen.uscg.gov>.

#### **CANCELLATION OF NOAA PAPER AND RASTER NAUTICAL CHARTS**

The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, Booklet Chart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six month notice of the intent to cancel a specific chart is provided in a "Last Edition" notice. The final cancellation of a chart is made in a "Canceled" notice. Both types of notices will appear in LNM Section IV, "Chart Correction." A comprehensive list of all canceled NOAA charts is available at: <http://www.charts.noaa.gov/MCD/Dole.shtml>.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA's electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA's program to sunset traditional paper charts is on the NOAA Coast Survey website at:

<https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html>

An online NOAA Custom Chart application at: <https://devgis.charttools.noaa.gov/pod> is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

LNM: 09/21

#### **BROADCAST NOTICES TO MARINERS**

Broadcast Notices to Mariners (BNMs) that are still in effect at the date of this publication.

CCGD5 (D5) - BNM - 0285, 0286, 0287, 0290, 0292, 0294, 0295-23.

Sector Delaware Bay (DB) - BNM - 0125, 0128, 0134, 0135, 0136, 0137-23.

Sector Maryland-National Capital Region (MD-NCR) - BNM - 0021, 0073, 0095, 0114, 0117, 0118, 0119, 0120, 0124, 0125, 0126, 0127, 0128, 0129, 0130-23.

Sector Virginia (VA) - BNM - 0114, 0115, 0116, 0117, 0118-23.

Sector North Carolina (NC) - BNM - 0167, 0299, 0300, 0301, 0302, 0303, 0304-23.

---

## **SECTION II - DISCREPANCIES**

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

---

### SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

#### TEMPORARY CHANGES

## SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR						
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3					CGD01 at 40-41-09.001N 074-02-48.001W
Corrective Action	Green can	Object of Corrective Action			Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

**SECTION V - ADVANCE NOTICES**

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

**SUMMARY OF ADVANCED APPROVED PROJECTS****Approved Project(s)**

None

**Project Date****Ref. LNM****Advance Notice(s)****NC – OCRACOKE INLET AND NORTHERN CORE SOUND – THOROFARE CHANNEL – AID TO NAVIGATION CHANGE**

On or about 15 Aug 2023 the Coast Guard will change Thorofare Channel Daybeacon 7 (LLNR 34450) to Thorofare Channel Buoy 7 (LLNR 34450).  
Chart 11544 LNM: 25/23

**SECTION VI - PROPOSED CHANGES**

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

**PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT****Proposed Project(s)**

None

**Closing****Docket No.****Ref. LNM****Proposed Change Notice(s)****COAST GUARD POLICY ON NOTIFICATION OF PROPOSED CHANGES**

The Coast Guard is evaluating changes in aids to navigation as noted in the below articles. Users may provide feedback on the Fifth Coast Guard District Waterway Proposals Data/Feedback Form:

[https://www.navcen.uscg.gov/sites/default/files/pdf/lnms/D05\\_LNM\\_Special\\_Note\\_Waterway\\_Proposal\\_Feedback\\_Form\\_Indefinite.pdf](https://www.navcen.uscg.gov/sites/default/files/pdf/lnms/D05_LNM_Special_Note_Waterway_Proposal_Feedback_Form_Indefinite.pdf)

This section also includes Public Notices for proposed changes to the bridges within the Fifth Coast Guard District with a request for comments as indicated.

LNM: 04/20

**SECTION VII - GENERAL**

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

**VA - ATLANTIC OCEAN - WALLOPS ISLAND ROCKET LAUNCHES**

Rocket launches are regularly scheduled in the vicinity of Wallops Island, VA, Danger Zone 334.130. Prior to these launches, visual signals will be displayed consisting of either a large orange-colored, "blimp-shaped" balloon by day or a rotating alternately red and white beacon by night. The balloon will be flown from a position at 37-50-38N, 75-28-47W and the beacon will be displayed approximately 200 feet above mean high water in position 37-50-16N, 75-29-07W. While the warning signal is displayed, all persons and vessels in the Danger Zone, except vessels entering or departing Chincoteague Inlet, shall leave the zone promptly by the shortest possible route and remain outside the zone until allowed by a patrol boat to enter or the danger signal has been discontinued. Vessels entering or departing Chincoteague Inlet must take the shortest route possible upon display of the danger signal. The Danger Zone is depicted on navigational charts 12210 and 12211 with corner points starting in the vicinity of Assawoman Inlet and proceeding southerly to position 37-43-20N, 075-29-41W; thence northeasterly to a point in the vicinity of Chincoteague Shoals; thence westerly back to Wallops Island shoreline.

Charts: 12210 12211

**\*\*\*\*VA – CHESAPEAKE BAY – CAPE CHARLES TO NORFOLK HARBOR - JOINT EXPEDITIONARY BASE LITTLE CREEK FORT STORY – LIVE FIRING\*\*\*\***

Live firing is conducted continuously off Joint Expeditionary Base Little Creek in Danger Zone 334.370, the area west of the south end of the Chesapeake Bay Bridge Tunnel, bounded by the following positions: 36-55-24N 76-08-43W, 36-55-50N 76-08-37W, 36-57-16N 76-08-14W, 36-57-16N 76-08-14W, 36-56-58.5N 76-07-11W, 36-57-07N 76-07-44W. Firing is conducted Monday through Friday from 7:00 am to 8:00 pm. For questions contact Range Operations and Training Area, Mr. Assaf or Ms. Lawrence at 757-422-7103/7101.

Charts: 12222 12254

#### **VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS**

Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:

- Willoughby Bay
- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.
- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle.

During these operations, the aircraft will be operating at altitudes as low as seventy-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels.

All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary.

These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the aircraft. AMCM helicopters will transit to and from the area described above in the following manner: Outboard from the seaplane ramp at the Norfolk Naval Air Station across Willoughby Bay to the main shipping channel, then easterly along the main channel to Buoy 21. From Buoy 21 either East, SE or SSE to the operating area. The return flight will follow the same path as the outbound flight. To minimize the potential for mishap, vessels are requested to remain well clear of these danger zones when AMCM operations are encountered.

Charts: 12200 12221 12222 12245 12254

#### **VA - YORK RIVER - U.S. NAVAL WEAPONS STATION - CHEATHAM ANNEX - SMALL ARMS LIVE FIRE DANGER ZONE**

A Danger zone has been established within an area beginning at Mean High Water on the shore at the U.S. Naval Weapons Station, Cheatham Annex facility on the York River, located at  $37^{\circ} 17' 33.10''N$ ,  $076^{\circ} 36' 19.06''W$ ; then northeast to a point on the York River at  $37^{\circ} 18' 36.650''N$ ,  $076^{\circ} 34' 39.010''W$ ; thence south, southeast to  $37^{\circ} 17' 59.37''N$ ,  $076^{\circ} 34' 13.65''W$ ; then southwest to a point on the shore located at  $37^{\circ} 17' 26.750''N$ ,  $076^{\circ} 36' 14.890''W$ . Vessels may transit this area at anytime; however, no vessel shall anchor, fish or conduct any waterborne activities within the Danger Zone established in accordance with this regulation any time live firing exercises are being conducted. Any time live firing is being conducted a red flag will be displayed in a conspicuous location along the shore to signify the range is active. At night, red lights will be displayed.

Chart 12241

LNM: 37/20

#### **VA - POTOMAC RIVER - NAVAL SURFACE WARFARE CENTER DAHLGREN - TEST RANGE/EXPLOSIVES EXPERIMENTAL AREA**

The Naval Surface Warfare Center Dahlgren Division operates the Potomac River Test Range and the Explosive Experimental Area (Pumpkin Neck). These facilities are used by our military to conduct munitions testing and should be avoided while testing is in progress.

Daily range schedule can be found at: <https://www.navsea.navy.mil/Home/Warfare-Centers/NSWC-Dahlgren/NSWCDD-Range-Schedule/> or by calling Range / Weapons Testing Hotline: 877-845-5656 (toll free) for daily updates on range operation and test schedules.

Noise Questions & Comments: Call NSF Dahlgren: 540-653-8153 to comment or ask a question about noise or vibrations you think are being caused by operations at Dahlgren.

For more information on NSWC Dahlgren's range schedule, contact the NSWCDD Public Affairs Office, (540) 653-8154.

LNM: 20/22

#### **VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS**

The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The bounding coordinates for each field are as follow:

AREA A:  $37-09.0N$   $075-31.0W$ ,  $37-09.0N$   $075-34.7W$ ,  $37-12.0N$   $075-31.0W$ ,  $37-12.0N$   $075-34.7W$ .

AREA B:  $36-29.0N$   $075-31.8W$ ,  $36-29.0N$   $075-35.5W$ ,  $36-26.0N$   $075-35.5W$ ,  $36-26.0N$   $075-31.8W$ .

AREA C:  $36-29.0N$   $075-20.8W$ ,  $36-29.0N$   $075-24.5W$ ,  $36-26.0N$   $075-24.5W$ ,  $36-29.0N$   $075-20.8W$ .

AREA D:  $36-46.5N$   $075-47.8W$ ,  $36-46.5N$   $075-46.5W$ ,  $36-47.5N$   $075-46.5W$ ,  $36-47.5N$   $075-47.8W$ .

Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines are placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation.

Chart 12200

#### **VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDLETON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE**

The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as "all of the waters seaward of the mean high water shore line within a sector between radial lines extending 13,500 yards seaward and bearing 090 degrees true and 150 degrees true, respectively, from a point on shore at  $36^{\circ} 49' 09''N$ ,  $075^{\circ} 58' 45''W$ ". All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (42nd) Edition when operating south of the entrance to the Chesapeake Bay. Firing will take place only during daylight hours and red flags will be displayed at conspicuous locations on the beach at the facility. Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.

Charts: 12207 12221

#### **DREDGING AND MARINE CONSTRUCTION CAUTIONS**

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

## DREDGING AND MARINE CONSTRUCTION CAUTIONS

### \*\*\*\*NJ - SHARK RIVER – BRIDGE INSPECTION\*\*\*\*

Mariners are advised that an engineering firm, on behalf of New Jersey Department of Transportation, will be performing a bridge inspection on the Ocean Avenue (Belmar Bridge) Bridge over Shark River, at mile 0.1, in between Belmar, NJ and Avon-By-The-Sea, NJ. The inspection will be conducted from 9 a.m. to 3 p.m.; Monday-Friday; from July 12, 2023, through July 13, 2023. Mariners should use caution navigating through the area.

Chart 12324

LNM: 28/23

### \*\*\*\*NJ – SHARK RIVER – MARINE SOIL BORING\*\*\*\*

Aquifer Drilling and Testing will begin marine soil boring on July 17, 2023 from various locations along both sides of the Main Street Bridge in the Shark River. Boring will be conducted from a 44ft jack up barge. At no time will barge impede vessel traffic in channel. Boring will be conducted 7 days a week from 0600 to 1800, and is expected to be completed around September 29, 2023. Crew can be reached on VHF-FM channels 9, 16, and 13.

LNM: 28/23

### \*\*\*\*NJ – SANDY HOOK TO LITTLE EGG HARBOR – MANASQUAN – BRIDGE INSPECTION\*\*\*\*

Mariners are advised that an engineering firm, on behalf of New Jersey Department of Transportation, will be performing a bridge inspection on the Brielle Road (Glimmer Glass) Bridge, over the Glimmer Glass (Debbie's Creek), mile 0.4, between Brielle, NJ and Manasquan, NJ. The inspection will be conducted from 9 a.m. to 3 p.m.; Monday-Friday; from July 18, 2023, through July 19, 2023. Mariners should use caution navigating through the area.

LNM: 28/23

### NJ – SANDY HOOK TO LITTLE EGG HARBOR – LITTLE EGG HARBOR – HAZARD TO NAVIGATION

A cofferdam has been installed in Little Egg Harbor approximately one mile northwest of Ham Island. In approximate position, 39° 36' 33.744" N, 074° 14' 24.179" W. The structure extends approximately 10' above the water line and is surrounded by yellow painted pilings. Six of these pilings have white lights placed on top of them. Mariners are advised to exercise caution when transiting the area.

Chart 12324

LNM: 14/21

### NJ – BRIGANTINE INLET- BEACH NOURISHMENT - BRIGANTINE ISLAND

Norfolk Dredging Company will begin beach nourishment on July 15, 2023, from Brigantine Inlet to Great Egg Harbor Inlet. The Dredge DELAWARE will dredge material from a location southeast of Brigantine Inlet, no more than one mile out. A floating pipeline will be placed from the southern side of the borrow area to a submerged pipeline that follows parallel along the beach in 15 feet of water to Brigantine Island Beach Placement. Submerged pipeline, approximately 15,000 feet, will be marked with buoys with appropriate signs and lights placed at pipeline entry and exit points. The floating pipeline length is approximately 3,000 feet at its longest and will be anchored and tended by tender tugboats. The dredge DELAWARE will stage in Absecon Inlet on the northern side of the channel in the vicinity of Brigantine Bridge. The dredge operator will monitor VHF-FM channel 13, 16, and 5.

Mariners are requested to exercise extreme caution when approaching, passing, and leaving the dredging plant. A slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing. All fishnets, crab pots and structures in the general area must be removed prior to commencement of work. Dredging operations will be conducted 24 hours a day, 7 days a week, and is expected to be completed by October 1, 2023.

LNM: 26/23

### \*\*\*\*NJ – PENNSYLVANIA HARBOR- DREDGING OPERATIONS – AVALON\*\*\*\*

Trident Piling Company, LLC, will begin mechanical dredging operations on July 14, 2023, in Pennsylvania Harbor, in the vicinity of 21st Street Marina, in Avalon, NJ. Trident Piling Company will have 2 push boats, 1 excavator barge, and 8 hopper barges on site. The vessels on scene will monitor VHF-FM radio channel 10. The expected completion date is July 31, 2023. Mariners are reminded to transit the area with caution.

LNM: 28/23

### PA – SCHUYLKILL RIVER – DREDGING

Dredgit and Michel's Construction will begin dredge operations on the Schuylkill River between the Spring Garden Street Bridge and the Girard Point (Interstate 95) Bridge starting on July 15, 2023 to October 15, 2023. The spud barge TOR (100' X 35') will be moored between the Spring Garden Street Bridge and the Vine Street Bridge. A floating dredge pipe will span between the Fairmount Dam and spud barge TOR. The spud barge WEEKS 231 (110' X 42') will be moored upstream (north) of the Girard Point Bridge west bridge abutment. A floating dredge pipe will span between the spud barge WEEKS 231 and the USACE Confined Disposal Facility on the west shore. Four hopper barges (WEEKS 072, WEEKS 079, ALPHALFA, SPANKY) will transport dredge material between the two spud barges. All vessels will monitor VHF-FM 16. For more information, contact Thomas Burgess, Project Manager, (813) 309-1570.

Chart 12313

LNM: 24/23

### PA – NJ – WILMINGTON TO PHILADELPHIA – DELAWARE RIVER – BRIDGE MAINTENANCE

Mariners are advised that an engineering firm, will be performing maintenance on the Commodore Barry Bridge over Delaware River, mile 81.4, in Chester, PA. The maintenance will not reduce the vertical and horizontal clearance of the navigational channel. Maintenance will be from 8:00 a.m. to 5:00 p.m.; Monday through Friday; from July 17, 2023, through August 11, 2023. The main channels will not be obstructed. Inspection personnel, equipment and safety vessel will relocate from the navigable channel upon request and may be reached on VHF-FM channel 13. The manager of field operations can be contacted by phone (717) 554-2073. All mariners should use caution when transiting the area.

LNM: 27/23

### DE -NJ – DELAWARE RIVER - SMYRNA RIVER TO WILMINGTON – DELAWARE RIVER (MAIN CHANNEL)

Mariners are advised that a construction company, on behalf of Delaware River and Bay Authority, will continue painting operations on the Delaware Memorial Bridge, at mile 68.9, across the Delaware River at New Castle, DE through July 2024. Work platforms have been installed, reducing the available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution when transiting the area.

**DE – NJ – SMYRNA RIVER TO WILMINGTON – DELAWARE RIVER (MAIN CHANNEL – DEBRIS REMOVAL)**

Northstar Marine will be conducting debris removal for the Army Corps of Engineers within the Delaware River near the mouth of the Christina River. Work will begin July 6, 2023 to July 16, 2023 between 7:30 and 16:30. Northstar Integrity and NS140 Crane Barge will monitor VHF-FM 16 & 13. Debris to be removed will be in approximate positions 39-43.141036N, 075-30.461725W and 39-42.880385N, 075-30.47521W.

**DE – MD – SEACOAST – ATLANTIC OCEAN – AUTONOMOUS MARITIME VEHICLE DATA COLLECTION**

Liquid Robotics ([www.liquid-robotics.com](http://www.liquid-robotics.com)), in partnership with the University of Delaware, will conduct continuous autonomous, unmanned maritime vehicle operations from NOVEMBER 11, 2022 through NOVEMBER 11, 2023 in areas offshore of Delaware and Maryland, bounded by the following coordinates:

Offshore Delaware:

38° 44' 13.038" N, 74° 52' 34.5858" W

38° 44' 8.1852" N, 74° 35' 1.0464" W

38° 29' 22.6062" N, 74° 34' 34.5792" W

38° 29' 8.7648" N, 74° 39' 53.6646" W

Offshore Maryland:

38° 27' 52.7652" N, 74° 51' 58.9068" W

38° 28' 3.324" N, 74° 46' 32.3862" W

38° 14' 48.1482" N, 74° 35' 25.5114" W

38° 14' 54.7368", 74° 51' 37.0872" W

Operations consist of scientific ocean data collection. Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from our Wave Glider Operations Center (WGOC), moving at speeds of typically 1kt, and designed to give way or part if encountered by a vessel. It is surfboard size, copper in color, with a contact plaque and mast extending 1 meter above the surface supporting a flag. Mariners are urged to transit the area with caution. For up-to-date information, mariners can contact Liquid Robotics Operations Center at +1 408 636 4205, or by email at support@liquid-robotics.com.

**DE – NJ - SMYRNA RIVER TO WILMINGTON – DELAWARE RIVER - MILL CREEK - JETTY CONSTRUCTION**

Mariners are advised that SumCo Eco Contracting will be constructing a jetty/breakwater approximately one-half mile south of the mouth of Mill Creek in Pennsville, NJ in approximate GPS position latitude 39°35'11.180" N, longitude 75°31'41.628" W. Work will begin on July 5, 2023, and continue until August 20, 2023. Work will be conducted from 5 a.m. to 8 p.m. daily. There will be a work barge with an excavator, 1 crew boat, 1 push boat, and 3 hopper barges on site. The work vessel on site can be contacted on VHF-FM radio channel 3 for further information. Mariners are reminded to transit the area with caution.

**DE – SMYRNA RIVER TO WILMINGTON – DELAWARE RIVER – CHERRY ISLAND RANGE – SUBMERGED OBJECT**

There are two submerged objects in Cherry Island Range on the Delaware River. The submerged objects were discovered during survey operations by the U.S. Army Corps of Engineers. The first submerged object is 60 feet inside the green toe of the navigational channel. In approximate position: 39°43'08.5"N, 75°30'27.7"W, at a depth of 42.5 feet mean low low water. The second submerged object is 55 feet from the centerline of the navigational channel. In approximate position: 39°42'52.8"N, 75°30'28.5"W, at a depth of 43.3 feet mean low low water. Mariners are advised to use caution when navigating this area. For any questions, contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

**MD – FENWICK ISLAND TO CHINCOTEAGUE INLET – OCEAN CITY INLET – DREDGE OPERATIONS**

Dredging operations are expected to commence in Ocean City, MD, between 02 July 2023 to 13 July 2023. The work will be conducted within the federal navigation channel and at ebb/flood shoal at the confluence of the Ocean City Inlet and Atlantic Ocean. Interested mariners may contact the U.S. Army Corps of Engineers dredge via marine band radio VHF-FM channels 13 and 16.

**\*\*\*\*MD - CHESTER RIVER - KENT ISLAND NARROWS – BRIDGE TEMPORARY DEVIATION\*\*\*\***

Mariners are advised that the Maryland State Highway Administration, owner and operator of the SR 18B (Kent Narrows) Bridge across the Kent Island Narrows, mile 1.0, at Grasonville, MD, has requested a temporary deviation from the current operating schedule to continue with a routine inspection. Under this temporary deviation, the bridge will require a 5-minute advanced notice from 8 a.m. to 5 p.m. on July 17, 2023, and July 18, 2023, to move a bucket boat from the moveable span. Vessels able to pass through the bridge in the closed position may do so if at least 5 minutes notice is given. The inspection crew can be reached on VHF/FM CH 13. Mariners should adjust their transits accordingly and use caution when transiting the area.

**MD – CHESAPEAKE BAY – SANDY POINT TO SUSQUEHANNA RIVER – ABERDEEN RESTRICTED AREA – MILITARY LIVE FIRE TESTING/EXERCISES – COMMERCIAL FISHING PROHIBITED**

Mariners are advised that the Aberdeen Test Center (ATC) will be conducting live fire exercises and operational testing of various watercraft, scheduled to begin on or about June 5, 2023, through October 1, 2023. The operation area includes: entering the water near Bear Point, proceeding Southeast towards APG K Buoy, Southward along the restricted APG Water Boundary to H Buoy, Westward to the mouth of Delph Creek and then returning to the Bear Point area. The watercraft will be accompanied by ATC Patrol boats to provide escort and ensure area is clear of public boats. All Commercial Fishing, to include placement of crab pots, in this area will be prohibited during these exercises.

**VA – MD – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – NICE / MIDDLETON BRIDGE CONSTRUCTION**

Bridge replacement operations are scheduled to continue adjacent to the Federal Navigation Channel at the New Harry W. Nice / Thomas "Mac"

**VA – MD – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – NICE / MIDDLETON BRIDGE CONSTRUCTION**

Middleton (US 301) Bridge on the Potomac River in Newburg, MD through November 2024. A new 6-knot speed limit is now being enforced for 0.5 nautical miles north and south of the bridge. Wakes from speeding boats can create major hazards for construction operations and workers. Mariners are reminded to heed the speed limit markers established by the State of Maryland when transiting the area, so that wake does not affect the platforms and barges at the work site. For more information, visit [www.nicemiddletonbridge.com](http://www.nicemiddletonbridge.com) or call 888-994-1415.

LNM: 18/21

**MD - VA – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – BRIDGE DEMOLITION OPERATIONS**

Demolition of the old Harry W. Nice / Thomas "Mac" Middleton (US 301) Bridge on the Potomac River between Newburg, MD and Dahlgren VA, just south of the new bridge, is scheduled to continue into late 2024. Project vessels and barges will be working under and adjacent to the old bridge potentially 24 hours per day, 7 days per week.

Starting on or about December 1, 2022, through August 31, 2023, barges may be positioned in or adjacent to the federal navigation channel during daylight hours to support roadway deck removal and related activities. Barges and/or floating boom may delineate active demolition areas outside of the Federal Channel that should be avoided by mariners due to active sensitive work including heavy equipment and divers. At least half of the 250-foot wide federal navigation channel will be open at all times for vessel passage for this operation. The exception will be multiple one-hour closures in late April and May, and a 24-48 hour continuous closure in late May or early June, 2023, when the main span and adjacent spans of the old bridge over/near the federal channel will be dismantled and removed. Large vessels in transit that require use of the full federal navigation channel during the work period described must provide at least 24 hours advanced notice to either Mr. Mike Baker at (443) 286-1780 or Mr. Daniel Francis at (757) 375-3960. Interested mariners in transit can also contact the vessels SEAWARD 23 or MISS STACY via marine band radio VHF-FM channels 13 and 16 when actively working on the river for information/coordination.

As noted, during April 2023 - June 2023, and October 2023 – January 2024, more extensive federal navigation channel restrictions and/or closures are being planned to allow for heavy demolition of the old bridge above and adjacent to the federal navigation channel. When transiting this area at any time, mariners are reminded to heed the 6-knot speed limit established by the State of Maryland so wake does not affect the crane barges and endanger workers at the work site.

LNM: 17/23

**\*\*\*\*MD – VA – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – NICE/MIDDLETON BRIDGE DEMOLITION – SAFETY ZONE\*\*\*\***

To facilitate bridge demolition operations at the old Gov. Harry W. Nice/Sen. Thomas "Mac" Middleton Memorial (US-301) Bridge, located between Charles County, MD and King George County, VA, the Coast Guard will establish a temporary safety zone for certain navigable waters of the Potomac River from 12:01 a.m. on June 10, 2023 through 11:59 p.m. on July 14, 2023. The safety zone will cover two areas: Area 1. All navigable waters of the Potomac River, encompassed by a line connecting the following points beginning at 38°21'38.74" N, 077°00'52.99" W, thence east to 38°21'52.67" N, 076°59'2.51" W, thence south along the shoreline to 38°21'43.45" N, 076°58'56.64.22" W, thence west to 38°21'28.91" N, 077°00'52.81" W, and thence north along the shoreline back to the beginning point, located in King George County, VA. Area 2. All navigable waters of the Potomac River within 1,500 feet of the explosives barge located in approximate position 38°21'21.47" N, 076°59'45.40" W. These coordinates are based on datum NAD 83. The demolition operations will impede vessels requiring the use of the channel in this area. Explosive detonation across the main span of the bridge is scheduled to occur on June 29, 2023 at approximately 0900. The federal channel will be closed to all marine traffic for explosive detonation and will remain closed up to 48 hours after detonation for bridge debris removal from the channel. The Coast Guard will issue a Broadcast Notices to Mariners via VHF-FM marine band radio about the status of the safety zone. Under the general safety zone regulations in subpart C of 33 CFR part 165, except for marine equipment operated by Skanska-Corman-McLean, Joint Venture, or its subcontractors, you may not enter the safety zone described unless authorized by the Captain of the Port Maryland-National Capital Region (COTP) or the COTP's designated representative. Mariners requesting to transit any of these safety zone areas must first contact the Skanska-Corman-McLean, Joint Venture designated representative, the on-site project manager by telephone number 781-953-1465 or on Marine Band Radio VHF-FM channels 13 and 16 from the pusher tug Miss Stacy. If permission is granted, mariner must proceed at their own risk and strictly observe any and all instructions provided by the COTP, Skanska-Corman-McLean, Joint Venture, or designated representative to the mariner regarding the conditions of entry to and exit from any area of the safety zone. The COTP or the COTP's representative can be contacted by telephone number (410)576-2693 or on Marine Band Radio VHF-FM channel 16 (156.8 MHz). Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP's designated representative. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies. Interested persons can contact U.S. Coast Guard Sector Maryland-NCR Waterways Management Division telephone number (410)-576-2519 or (410)-576-2693 or [MDNCRWaterways@uscg.mil](mailto:MDNCRWaterways@uscg.mil).

**DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – ANACOSTIA RIVER**

Construction of the new Frederick Douglass Memorial (South Capitol Street) Bridge and demolition of the old bridge across the Anacostia River in Washington, DC continues into 2023. The federal navigation channel east of the original center pier, approximately 150 feet wide, remains available for navigation. Exclusion buoys labelled "DANGER" mark the ongoing bridge demolition in the Federal Channel. In addition, lit temporary piles are positioned around the old, submerged pier. Mariners are urged to use extreme caution when transiting the area, and to operate at minimum speed necessary to maintain safe course through the work site.

LNM: 04/23

**VA – HAMPTON ROADS – HAMPTON ROADS BRIDGE TUNNEL – FORT WOOL BIRD HABITAT**

On or around March 1, 2023, Coastal Management Group will be mooring 3 deck barges SSW of Fort Wool as a temporary habitat for nesting birds, during the Hampton Roads Bridge Tunnel Project. Barges will be moored in approximate position 36-59-07.96N, 076-18-05.96W. For more information contact Shane Meehan (757) 835-7830, [smeehan@cmgroupva.com](mailto:smeehan@cmgroupva.com).

LNM: 09/23

**VA – HAMPTON ROADS – HAMPTON ROADS BRIDGE TUNNEL (HRBT) – BRIDGE CONSTRUCTION/ISLAND EXPANSION**

#### **VA – HAMPTON ROADS – HAMPTON ROADS BRIDGE TUNNEL (HRBT) – BRIDGE CONSTRUCTION/ISLAND EXPANSION**

Mariners are advised that a construction firm, on behalf of Virginia Department of Transportation, will be constructing new approach bridges to replace the I-64/US 60 (Hampton Roads Beltway) North and South Approach Bridges, across Hampton Roads, at mile 0.0, between Norfolk, VA and Hampton, VA, commonly referred to as the Hampton Roads Bridge-Tunnel (HRBT). Construction activities will begin March 15, 2021, and are expected to continue through November, 2025. Marine construction activity will take place 24-hours per day, seven days a week.

The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00' 24.12" N, 76° 19' 18.84" W for the west span and at position 37° 00' 24.48" N, 76° 19' 15.60" W for the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58' 15.24" N, 76° 18' 03.96" W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new approach bridge spans or located within specific Mooring Areas or Safe Harbor locations.

**Bridge Structures/Work Trestles & Islands** – Mariners are advised to maintain a safe distance of 300 feet from all HRBT bridge structures/work trestles, HRBT North Island, and HRBT South Island. Construction managers may establish safe transit corridors through bridge structures/work trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines next to the existing trestles for the duration of the bridge construction to facilitate construction activity. Each pile will be lit by a flashing white light.

**Hampton Flats Mooring Area** – As charted. Changes pending. This area will contain six mooring buoys, lighted with flashing white lights, for the exclusive use of vessels involved in the HRBT Expansion project. The corners of the mooring area are marked with yellow buoys with flashing yellow lights. Mariners should use caution when transiting the area.

**Phoebe Safe Harbor Area** – As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. When utilized, mariners should keep clear of the area.

**Willoughby Bay Mooring and Safe Harbor Area** – As charted. This area contains a straight row of mooring pilings for the exclusive use of vessels involved in the HRBT Expansion project. The two end pilings are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

**Communications:** Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-685-3392 or Kareem Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373-4799 and/or email [MarineOps@hrcpjv.com](mailto:MarineOps@hrcpjv.com). In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at <https://hrbexpansion.org>.

LNM: 44/20

#### **VA - HAMPTON ROADS-WILLOUGHBY BAY - BRIDGE MODIFICATION**

Mariners are advised that a construction firm, on behalf of Virginia Department of Transportation, will be modifying the existing bridge I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge across Willoughby Bay, mile 1.5, at Norfolk, VA, commonly called the Willoughby Bay Bridge. Construction activities will begin on June 7, 2021, and are expected to continue through December, 2023. Marine construction activity will take place 24-hours per day, seven days a week.

The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

**Bridge Structures/Work Trestles:** Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines.

**Willoughby Mooring and Safe Harbor Area** – As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

**Communications:** Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536-9863 and/or email [MarineOps@hrcpjv.com](mailto:MarineOps@hrcpjv.com). In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at <https://hrbexpansion.org>.

**VA-NORFOLK HARBOR AND ELIZABETH RIVER-ELIZABETH RIVER-EASTERN BRANCH**

Mariners are advised that an engineering firm, on behalf of Virginia Department of Transportation, will be performing a bridge inspection on the I-264 (Berkley) Bridge, across the Elizabeth River-Eastern Branch, mile 0.4, at Norfolk, VA. The inspection will be conducted from 7 a.m. to 5 p.m.; Monday-Friday; from July 6, 2023, through July 7, 2023. Alternative workdays will be from 7 a.m. to 5 p.m., on July 10, 2023, through July 11, 2023. A 40-foot crane barge and a 25-foot tugboat will be located in and around the vicinity of the bridge. During the work hours, the crane barge will be located in the navigational channel, adjacent to the fender system, which will reduce the horizontal clearance of the bridge to approximately 100 feet. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may safely transit through the bridge, if at least a thirty-minute prior notice is given to the bridge tender. Inspection personnel, equipment and vessels will relocate from the moveable span and navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman can be reached at (757) 621-8443 or (252) 333-4656. Mariners should use extreme caution navigating through the area.

\*\*\*\*VA – HAMPTON ROADS - NEWPORT NEWS – PIPELINE INSTALLATION PROJECT\*\*\*\*

A pipeline installation project will begin on or about August 1, 2023 and is expected to continue to August 2025. A temporary work platform measuring 200 feet in length by 90 feet in width will be constructed on the south side of the federal shipping channel and federally maintained anchorage area, approximately 3/4 of a mile west of the Monitor-Merrimac Memorial Bridge Tunnel. Its approximate center at latitude/longitude 36.9486259°N, 076.4195787°W. At various stages of construction, series of piles will extend north ward from temporary work platform and barges will be moored to and around platform. The temporary work platform and each barge will be individually equipped with four (4) 360-degree visible white warning lights, one (1) light at each corner. All mooring piles, buoys, and goal-post piles will also be individually equipped with one (1) 360-degree visible white light atop each pile. At no time will construction project affect, interfere with, obstruct, nor otherwise adversely impact marine traffic in the federal navigation channel or federally maintained anchorage area.

Tugs, vessels, and platform operations associated with these construction activities will monitor VHF-FM channels 13 and 16 when work is in progress, or when vessels are operating in the project area. To reach an on-scene manager, contact Clint Robertson 757-705-6615. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. **VA – LOWER JAMES RIVER - OYSTER SHELL DREDGING AND PLANTING PROJECT**

Mariners are advised that H & L Contracting will be conducting dredging operations in the Lower James River, VA from 06/01/2023 thru 07/31/2023 for the purpose of planting oyster shells. Work will be intermittent but is possible 24 hours a day, 7 days a week. There will be one 81.4' x 30' tugboat (vessel name: Lucinda Smith), one 250 x 50' barge (un-named) for oyster shells, a 25.9' x 16' push boat (vessel name: Uncle Bill), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°01'17"N / 76°29'17"W; 37°00'41"N / 76°27'55"W; 36°59'25"N / 76°31'06"W; AND 36°56'03"N / 76°27'04"W. The barge will be moored in place by means of Danforth anchors and other vessels moored to the barge. All vessels will be marked and lighted in accordance with USCG regulations. All marine equipment operators will be monitoring VHF-FM channel 63 and channel 16 and 13. Dredge and work vessels will monitor VHF-FM channel 13 and 16. H & L Supervisors, Keith Johnson (631-553-1034), Brian Danielson (631-572-0817) and Jordy Johnson (850-557-8593). All Superintendents will be available 24 hours per day. Mariners are advised to reduce speed and proceed with caution in the area.

Chart 12248

LNM: 20/23

**\*\*\*\*VA – JAMESTOWN ISLAND TO JORDAN POINT – JAMES RIVER – DANCING POINT SHOAL - DREDGE OPERATIONS\*\*\*\***

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington and support equipment will be conducting dredging operations in the Dancing Point and Swann Point Channels on the James River. Operations will be ongoing between James River Channel Lighted Buoy 57 (LLNR 12200) and James River Channel Lighted Buoy 66 (LLNR 12250) from July 12, 2023 to September 15, 2023. Prior to approach, the dredge can be reached via VHF Radio Channels #13 and #16. For emergency the dredge operator can be contacted at phone number 757-635-2578.

LNM: 28/23

**VA - JAMESTOWN ISLAND TO JORDAN POINT - JAMES RIVER - DIASCUND CREEK**

Mariners are advised that a construction firm, on behalf of Virginia Department of Transportation, will be constructing a new bridge to replace the SR 601 (Hicks Island Road) across Diascund Creek, near Lenexa, James City County, VA. Construction activities which began May 2023, are expected to finish on January 24, 2025. Work will be on-going from 7 a.m. to 5:30 p.m., Monday-Saturday. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

A 20x8 foot wide work barge, 17-foot safety boat, will be operating or stationed in the vicinity of the existing and new bridge. A temporary trestle bridge will be constructed adjacent to the existing bridge site to allow for vehicular travel. The temporary trestle bridge will have a vertical clearance of approximately 2 feet at mean high water, and a horizontal clearance of approximately 25 feet.

During the demolition of the existing bridge and construction of new bridge, the east and west channels will each be reduced to approximately 13 feet between the abutment and pier cofferdams and one of the channels will be occupied by the work barge, while the other channel will be available for vessels to safely transit. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway.

Bryant Structures' work barge and safety boat will be operating in the area. The VDOT Construction Manager may be contacted at (757) 719-0556 and Bryant Structures' may be contacted at (757) 869-6591 or (757) 897-8728. Project information may be found at <https://www.virginiadot.org/projects/hampton-roads/route-601-over-diascund-creek.asp>.

LNM: 27/23

**VA-JAMES RIVER-JAMESTOWN ISLAND TO JORDAN POINT-JAMES RIVER – BRIDGE CLOSURE AND INSPECTION**

Mariners are advised that the highway drawbridge – SR 156 (Benjamin Harrison Memorial) Bridge across James River, mile 65.0, at Hopewell, VA, will be maintained in the closed-to-navigation position to facilitate a bridge inspection of the bridge. The bridge will remain in the closed position from 9 a.m. through 3 p.m., from July 10, 2023, through July 14, 2023. Alternative closure periods will be from 9 a.m. through 3 p.m., from July 17, 2023, through July 21, 2023. The bridge will open on signal, if a one-hour prior notice is given. During the closure periods, an under-bridge inspection vehicle will be located on and operating underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 40 feet above mean water. The bridge will not be able to open for emergencies. There is no immediate alternative route for vessels unable to pass through the bridge in the closed position. Vessels able to pass through the bridge in the closed position with the reduced vertical clearance may do so at any time. Vessels able to transit through the bridge in the closed position, but require the full 50 feet of vertical clearance, should notify the bridge tender at least 10 minutes prior to transiting through the bridge to allow for navigation safety. The bridge tender may be reached on VHF-FM channels 13 and 16 and/or 757-630-5522. The project foreman can be reached at (804) 564-4075. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.5. Mariners should adjust their transits accordingly and should use caution when transiting the area.

LNM: 27/23

**VA – JORDAN POINT TO RICHMOND – JAMES RIVER – SEDIMENT SAMPLING OPERATIONS**

Between 20 June and 17 July 2023, the Norfolk District of the U.S. Army Corps of Engineers (USACE) in partnership with EA Engineering, Science, and Technology, Inc, PBC (EA) will be conducting sediment sampling operations within an approximate 22-mile-long stretch of the James River Federal Navigation Channel from the Richmond Deepwater Terminal to Windmill Point and within the Appomattox River Federal Navigation Channel.

Sampling work will be performed near the centerline and at the margins (near the red and green channel toes) of the channel during daylight operations aboard the M/V USACE Elizabeth, a 100-foot long, self-propelled barge (MMSI 366999274) owned and operated by the USACE, Norfolk District. During sampling, the vessel will be anchored and have restricted maneuverability. The M/V USACE Elizabeth will be conducting crane operations with a sampling unit penetrating the riverbed and request a slow bell and no wake in vicinity of crane operations. A 30-minute advanced notice is requested for vessels that may require the entire channel. The M/V USACE Elizabeth will be monitoring VHF channels 13 and 16 and can be reached directly via cell phone by contacting the USACE Vessel captain John Payne (757-477-3786) or sampling field leads Mr. Michael Durbano (609-332-0534) and Mr. Tom King (301-788-8902).

LNM: 24/23

**\*\*\*\*VA - YORKTOWN AND VICINITY – YORK RIVER – BRIDGE TEMPORARY DEVIATION\*\*\*\***

Mariners are advised that an engineering firm, on behalf of Virginia Department of Transportation, will be performing an inspection at US 17 (George P. Coleman Memorial Bridge) over York River, mile 7.0, in Yorktown, VA. The bridge will have a reduced vertical clearance from 9 a.m. to 3 p.m., Monday through Friday, from July 31, 2023, through August 25, 2023. During work hours, a snooper truck and pontoon boat will be located in and around the navigation channel reducing the vertical clearance by approximately 15 feet to approximately 45 feet above mean high water. The

\*\*\*\*VA - YORKTOWN AND VICINITY – YORK RIVER – BRIDGE TEMPORARY DEVIATION\*\*\*\*

snooker truck will clear the navigation span for vessels requiring a vertical clearance of up to 60 feet above mean high water and the bridge will open on signal, if at least 15-minutes notice is given to the bridge tender. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.1025. Mariners should use caution when transiting the area.

Chart 12241

LNM: 28/23

\*\*\*\*VA – CHESAPEAKE BAY - RAPPAHANNOCK RIVER ENTRANCE - MILFORD HAVEN INLET, HILLS BAY\*\*\*\*

Mariners are advised that the Virginia Department of Transportation has requested a temporary deviation of the operating regulations for the State Route 223 drawbridge across Milford Haven Inlet, mile 0.1, at Hudgins, VA. Due to significant delays in fabrication of mechanical elements of the bridge's swing span, the drawbridge will remain in the closed-to-navigation position on May 8, 2023, and from May 9, 2023, through October 12, 2023. During the closure periods, the bridge will open on signal for vessel traffic at 11 a.m., 7 p.m., and 10 p.m. on May 8, 2023, and at 2 a.m., 5 a.m., 8 a.m., 11 a.m., 7 p.m. and 10 p.m. from May 9, 2023, through October 12, 2023. Vessels able to pass through the drawbridge in the closed position may do so at any time. The vertical clearance of the drawbridge in the closed-to-navigation position is 12 feet above mean high water. The drawbridge will be able to open for emergency vessels commencing May 8, 2023, at 11 a.m. Mariners should adjust their transits accordingly and use extreme caution when transiting the area.

LNM: 18/23

**VA – LOWER RAPPAHANNOCK RIVER - OYSTER SHELL DREDGING AND PLANTING PROJECT**

Mariners are advised that H & L Contracting will be conducting dredging operations in the Lower Rappahannock River, VA from 06/01/2023 thru 07/31/2023 for the purpose of planting oyster shells. Work will be intermittent but is possible 24 hours a day, 7 days a week. There will be one 81.4' x 30' tugboat (vessel name: Lucinda Smith), one 250 x 50' barge (un-named) for oyster shells, a 25.9' x 16' push boat (vessel name: Uncle Bill), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°40'02"N / 76°28'37"W; 37°36'55"N / 76°18'42"W; 37°36'39"N / 76°18'19"W; 37°36'30"N / 76°18'14"W; 37°38'20"N / 76°32'36"W; 37°38'06"N / 76°32'30"W; 37°36'35"N / 76°20'34"W; 37°34'19"N / 76°17'08"W; 37°34'38"N / 76°18'18"W; 37°37'08"N / 76°30'48"W; 37°34'28"N / 76°18'37"W; 37°34'36"N / 76°18'59"W; 37°34'37"N / 76°18'07"W; 37°34'32"N / 76°17'57"W; 37°34'39"N / 76°17'35"W; AND 37°34'42"N / 76°16'54"W.

The barge will be moored in place by means of Danforth anchors and other vessels moored to the barge. All vessels will be marked and lighted in accordance with USCG regulations. All marine equipment operators will be monitoring VHF-FM channel 63 and channel 16 and 13. Dredge and work vessels will monitor VHF-FM channel 13 and 16. H & L Supervisors, Keith Johnson (631-553-1034), Brian Danielson (631-572-0817) and Jordy Johnson (850-557-8593). All Superintendents will be available 24 hours per day. Mariners are advised to reduce speed and proceed with caution in the area.

LNM: 20/23

**VA – UPPER RAPPAHANNOCK RIVER - OYSTER SHELL DREDGING AND PLANTING PROJECT**

Mariners are advised that H & L Contracting will be conducting dredging operations in the Upper Rappahannock River, VA from 06/01/2023 thru 07/31/2023 for the purpose of planting oyster shells. Work will be intermittent but are possible 24-hours a day, 7 days a week. There will be one 81.4' x 30' tugboat (vessel name: Lucinda Smith), one 250 x 50' barge (un-named) for oyster shells, a 25.9' x 16' push boat (vessel name: Uncle Bill), skiff (un-named), and other support vessels. The work will consist of depositing oyster shells from the barge onto designated areas. The designated areas are: 37°43'31"N / 76°35'14"W; 37°43'12"N / 76°34'56"W; 37°42'45"N / 76°34'54"W; 37°41'05"N / 76°34'43"W; 37°41'56"N / 76°34'36"W; 37°41'27"N / 76°34'19"W; AND 37°41'25"N / 76°34'20"W.

The barge will be moored in place by means of Danforth anchors and other vessels moored to the barge. All vessels will be marked and lighted in accordance with USCG regulations. All marine equipment operators will be monitoring VHF-FM channel 63 and channel 16 and 13. Dredge and work vessels will monitor VHF-FM channel 13 and 16. H & L Supervisors, Keith Johnson (631-553-1034), Brian Danielson (631-572-0817) and Jordy Johnson (850-557-8593). All Superintendents will be available 24 hours per day. Mariners are advised to reduce speed and proceed with caution in the area.

LNM: 20/23

**VA – NORFOLK TO ALBEMARLE SOUND - ALBEMARLE AND CHESAPEAKE CANAL - GREAT BRIDGE LOCK - ADJUSTED LOCKING SCHEDULE**

Due to an electrical infrastructure malfunction at the Great Bridge facility, the lock is being operated on generator power. Starting on 20 April 2023 at 0600 and until permanent repairs can be made, lockings will occur every other hour (12 lockings per 24-hour period). The times of the lockings are as follows:

0000, 0200, 0400, 0600, 0800, 1000, 1200, 1400, 1600, 1800, 2000, 2200.

Vessels drafting less than 6 feet are encouraged to utilize the Dismal Swamp Canal for transit. All attempts will be made to reduce the impacts to vessels transiting the Albemarle and Chesapeake Canal, however, minor delays should be anticipated.

Chart 12206

LNM: 16/23

**VA – NORFOLK TO ALBEMARLE SOUND - ALBEMARLE AND CHESAPEAKE CANAL - GREAT BRIDGE LOCK – NORTH LAND BRIDGE DEVIATION**

Effective immediately, the North Landing Bridge, Mile Marker 20.2 on the Atlantic Intracoastal Waterway, is restricted to only operating the north span for recreational boats. The horizontal clearance of the bridge with the south span closed to navigation is 38 feet. The bridge will continue to open both spans on the normal schedule for commercial traffic and government vessels. Due to mechanical system limitations, the south span of the bridge will remain operationally restricted until repairs can be completed.

Chart 12206

LNM: 25/23

**NC – ATLANTIC OCEAN – NAVAL RESEARCH EXERCISE**

The Office of Naval Research (ONR) is conducting an offshore exercise 12-28 July 2023, from 0600-1800 ET daily. The OPAREA is defined by the following points:

A: 36° 00' N; 69° 00' W B: 33° 00' N; 69° 00' W  
C: 30° 00' N; 69° 00' W D: 31° 30' N; 76° 00' W  
E: 34° 00' N; 73° 30' W F: 36° 30' N; 71° 30' W

Vessels and aircraft supporting this exercise are 2x Offshore Support Vessels, 3x Offshore Tugs, 5x 8m High-Speed Maneuverable Surface Targets (HSMST), 2x unmanned underwater vehicles (UUV), x1 King Air 200 Maritime Patrol Aircraft, and 1x King Air 350 ER Maritime Patrol Aircraft. The 8m HSMSTs are unmanned and remotely operated from an ashore facility. Hazards to navigation include: 128x floating low-profile buoys 9" diameter x 5" high in dimension and 8 lbs each, 2x unmanned surface floats 15' x 5' in dimension. Request a 1 nm standoff distance to all supporting vessels.

#### NC – ATLANTIC OCEAN – NAVAL RESEARCH EXERCISE

Request all vessels monitor VHF FM 16, and working channel 10, 69, and 72. Report any interference with any supporting elements to the working channel. This is not a live-fire event.

Event Test Director, Shane Stein, can be reached at 202-631-5340. Exercise is anticipated to be completed by July 28, 2023.

Exercise will be conducted in the defined OPAREA:

July 12 - 14, 2023 from 0600-1800 local time daily.

July 15 - 16, 2023 No HSMST or Aircraft Activity.

July 17 - 21 2023 from 0600-1800 local time daily.

July 22 - 23, 2023 No HSMST or Aircraft Activity.

July 24 - 28, 2023 from 0600-1800 local time daily.

LNM: 27/23

#### \*\*\*\*NC – PAMLICO SOUND - NEUSE RIVER – MARINE CORPS AIR STATION CHERRY POINT - NOTICE OF LIVE FIRING\*\*\*\*

Marine Corps Air Station (MCAS) Cherry Point, Notice of Live Firing.

Live fire operations being conducted which effect/impact these areas. Hancock Creek adjacent to MCAS Cherry Point (waters in Hancock Creek north of Cahoogue Creek into the Neuse River located at the Mouth of Hancock Creek), Piney Island (BT-11), and Brandt Island (BT-9):  
NONE SCHEDULED.

Commanding Officer, MCAS Cherry Point will not restrict public access to Public Trust Waters outside of the Danger Zones. This Notice serves to identify the possible hazards associated when

Boating in this area. This area will not be patrolled by Military Personnel or vessels.

Contact the MCAS Cherry Point Range Management Department at (252) 466-4040/2939 for questions or further information.

LNM: 50/22

#### \*\*\*\*NC - NEW RIVER - CAMP LEJEUNE - FIRING EXERCISES\*\*\*\*

Marine Corps Installations East-Marine Corps Base Camp Lejeune, North Carolina, Live firing, and training:

Mariners traveling in Atlantic Intracoastal Waterway through this area can expect a delays of about one to four hours during the below times.

Range Control Boats, from Camp Lejeune, NC monitor Channel 16 VHF-FM and the working Channel 82 Marine Corps Installations East-Marine Corps Base Camp Lejeune, North Carolina, Live firing and training:

Mariners traveling in Atlantic Intracoastal Waterway through this area can expect a delays of about one to four hours during the below times.

Range Control Boats, from Camp Lejeune, NC monitor Channel 16 VHF-FM and the working Channel 82 VHF-FM. Range Control can be reached at 910-451-3064 or 4449.

1. The restricted areas in the Atlantic Ocean east of the New River Inlet as shown on National Ocean Service Chart 11543, will be closed to navigation up to 15 nm seaward because of firing exercises during the following periods:

Restricted areas in the new river, as shown on National Ocean Service chart 11542 that will be closed to navigation because of stone bay rifle range firing exercises during the following periods:

Stone Creek Sector 12:01 a.m. to midnight daily

Stone Bay Sector 12:01 a.m. to midnight daily

West of the 77 (deg) 26 (min) Longitude line.

The restricted areas that may be closed to navigation because of firing exercises during the following periods:

Traps Bay Sector 12:01 a.m. to midnight daily

Courthouse Bay Sector 12:01 a.m. to midnight daily

Stone Bay Sector 12:01 a.m. to midnight daily

East of the 77 (deg) 26 (min) longitude line.

Grey Point sector 12:01 a.m. to midnight daily

Farnell Bay sector sunrise to sunset daily

Morgans Bay sector sunrise to sunset daily

Jacksonville sector sunrise to sunset daily

2. The target bombing area N1/BT-3 impact area in the Atlantic Ocean east of the new river inlet as shown on national ocean service chart 11543, may be closed to navigation because of firing exercises during the following periods:

3. Atlantic Intracoastal Waterway, inland waters in the Browns Island Inlet area between Bear Creek and Onslow Beach, may be closed for firing exercises during the following periods:

4. Due to unexploded ordnance on Browns Island and in the adjacent waterways and marsh areas, Browns Island is off limits to all unauthorized personnel. Vessels may transit the surrounding waters, however no vessel shall bottom fish or anchor.

5. Mariners traveling on the western side of the new river between Stone bay and Farnell Bay should be aware that there are numerous sign poles without working lights and are leaning or submerged as a result of Hurricane Florence and present hazards to navigation. These poles once had signs denoting areas of caution around the Stone bay rifle range and Verona Loop firing ranges.

5A. Signs are located along the stone bay, grey point and Farnell Bay sectors of the New River. Marine Corps Base Camp Lejeune is working to replace these signs.

6. Range control boats, MCIE-MCB CAMLEJ North Carolina monitor channel 16 VHF-FM (156.8 mhz) and the working channel 82 vhf-fm(161.725 mhz). Range Control can be reached by phone at 910-451-3064 or 4449.

#### NC – NEUSE RIVER TO MYRTLE GROVE SOUND - BANKS CHANNEL

Mariners are advised that a construction company, on behalf of North Carolina Department of Transportation, will continue repairs on the South Bank Channel Bridge over Banks Channel at Wrightsville Beach in New Hanover County, NC from 6 a.m. to 7 p.m. 7 days a week, through September 30, 2023. During the repair period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 4 feet above mean high water. Vessel traffic will need use an alternate route. Work vessels may be reached on VHF-FM channel 13 and 16.

Chart 11541

LNM: 24/23

#### NC – NEUSE RIVER TO MYRTLE GROVE SOUND – NEW RIVER – CAPE FEAR RIVER – DREDGE OPERATIONS

Southwind Construction Corp will begin dredge operation in Shinn Creek Crossing, New Hanover County North Carolina, Dredging Atlantic Intracoastal Waterway, between New River – Cape Fear River Light 128 (LLNR 39625) and New River – Cape Fear River Light 129A (LLNR 39635). Project will commence on July 7, 2023 with an expected completion date of August 1, 2023. Operations will be conducted 24 hours a day, 7 days a week. Dredge Wilko and work boats Ann Kay and Danny Joe will monitor VHF-FM 16, 13, and 78. Pipeline and vessels will be visibly lighted and

**NC – NEUSE RIVER TO MYRTLE GROVE SOUND – NEW RIVER – CAPE FEAR RIVER – DREDGE OPERATIONS**

marked pursuant to Coast Guard regulations. Submerged pipeline will be located along the right ascending shoreline from Shinn Creek Crossing northerly over a distance of 9000' to Upland Placement Area 24.

Chart 11541

LNM: 27/23

**NC – CAPE FEAR RIVER – CORE SAMPLING**

Athena Technologies will be conducting work to collect vibracores within the Cape Fear River - Wilmington Harbor shipping channel starting May 8, 2023 until September 23, 2023. Vibracores are to be collected in the following reaches: Smith Island Channel, Baldhead-Caswell, Southport, Battery Island, Horseshoe Shoal, Lower Lilliput, Upper Lilliput, and Keg Island (Southern Half). Majority of these vibracore locations are on the outer edge of the channel footprint.

Vibracores will be collecting during daylight hours. R/V Artemis will be monitoring VHF 16.

**NC – SC – GA – FL - SAILDRONE HURRICANE AND TROPICAL STORM MONITORING OPERATIONS**

SAILDRONE, INC. is conducting scientific research in collaboration with the NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION and UNIVERSITY OF WASHINGTON in the Atlantic Ocean along the Florida, Georgia, South Carolina, North Carolina, Puerto Rico, and US Virgin Islands coastline and offshore between May 15th, 2023 and January 12th, 2024. The survey will be conducted by up to twelve (12) Uncrewed Surface Vehicles (USVs), called "saildrones." Each saildrone is 23 ft in length, 9.5 ft tall, orange in color, has a white all-round light on the mast and is marked "SAILDRONE". Up to eight (8) saildrones from St. Thomas, USVI will be deployed beginning around May 15th through June 30th, 2023, two (2) from Charleston, SC on or about July 5th through July 15th, 2023 and up to two (2) saildrones from St. Petersburg, FL on or about June 19th through June 30th, 2023. All vehicles are wind and solar powered and will have limited maneuverability during survey operations. Mariners are requested to transit areas with caution and to remain greater than 500 meters away from the research equipment. The enclosure of this Local Notice to Mariners provides a photo and a description of the Saildrone. Questions regarding saildrone operations should be directed to Saildrone Mission Control, missioncontrol@saildrone.com or (510) 722-6070.

**NEW OR UPDATED INFORMATION**

New, updated or very important information in this enclosure will be highlighted in yellow.

**NEW JERSEY SHOALING**

**NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING**

Shoaling has been in the vicinity of New Jersey Intracoastal Waterway Light 262 (LLNR 36005). Shoaling has encroached into the channel; depths are currently 5 - 6ft at MLW.

Chart 12316

**NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING**

The shoal adjacent to New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal Waterway Daybeacon 130A (LLNR 35537) has encroached approximately 25-50yds into the channel. Depths of 2-3' at MLW. Shoaling to 2' MLW has been observed on the red side of the channel between New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal Waterway Daybeacon 130A (LLNR 35537). SEC DB BNM 124-20

Chart 12316

**NJ – BARNEGAT INLET – SHOALING**

U.S. Coast Guard Sector Delaware Bay is notifying mariners of extreme shoaling at the entrance to BarNEGAT Inlet. Due to this shoaling BarNEGAT Inlet Buoy 3 (LLNR 915) and BarNEGAT Inlet Lighted Buoy 4 (LLNR 925) are unreliable at marking the navigational channel. Mariners are advised to use extreme caution when transiting BarNEGAT Inlet. See SEC DB BNM 235-22.

Sector Delaware Bay is notifying mariners that there is shoaling reported at the entrance of BarNEGAT Bay inlet. The shoaling is reported in the main navigation channel between BarNEGAT Inlet Lighted Buoys 9 (LLNR 950) and 11 (LLNR 995). Mariners are advised to use extreme caution when transiting BarNEGAT Bay Inlet as some depths at mean low low water could be hazardous to navigation, especially during extreme weather events. If you have any questions, regarding the content of this message, please contact the waterways Management staff at (215) 271-4814 or the command center at (215) 271-4807. See SEC DB BNM 107-21 and SEC DB BNM 196-22

**NJ – BARNEGAT INLET – OYSTER CREEK CHANNEL – SHOALING**

Shoaling has been observed between Oyster Creek Channel Buoy 38 (LLNR-1090) and Oyster Creek Channel Buoy 40 (LLNR-1095). Shoaling has encroached between both buoys and within channel boundaries. Mariners are to proceed with caution when transiting the area. See SEC DB BNM 0069-23.

**NJ – INTRACOASTAL WATERWAY – MANASQUAN INLET TO CAPE MAY INLET – SHOALING**

Shoaling has been reported in the New Jersey Intracoastal Waterway (NJICWW) between Manasquan Inlet and Cape May Inlet. Mariners are advised to use extreme caution when transiting the NJICWW due to shoaling. The following are some of the locations where the shoaling has been reported:

NJICWW Light 4 (LLNR 34995).

NJICWW Light 38 (LLNR 35115).

NJICWW Daybeacon 45 (LLNR 35165) & Daybeacon 46 (LLNR 35167).

NJICWW Daybeacon 49 (LLNR 35108).

NJICWW Daybeacon 58 (LLNR 35215) to Buoy 75 (LLNR 35290).

NJICWW Junction Light LB (LLNR 35420) to Light 109 (LLNR 35430).

North side of Tow Island at NJICWW Daybeacon 129 (LLNR 35530).

NJICWW Daybeacon 128 (LLNR 35525) to Light 132 (LLNR 35550).

NJICWW Light 145 (LLNR 35590) to Light 163 (LLNR 35655) Black Point on the red side.

IVO NJICWW Light 170 (LLNR 35685).

Between NJICWW Daybeacon 206 (LLNR 35825) and Daybeacon 209 (LLNR 35835) IVO Bader Field.

IVO NJICWW Daybeacon 221 (LLNR 35867).

Between NJICWW Light 233 (LLNR 35905) and Buoy 246 (LLNR 35955) Broad Thoroughfare.

Between NJICWW Light 260 (LLNR 36000) and Buoy 266 (LLNR 36020).

Between NJICWW Daybeacon 272 (LLNR 36035) and Daybeacon 282 (LLNR 36070) in Peck Bay.

Between NJICWW Daybeacon 344 (LLNR 36285) to Daybeacon 354 (LLNR 36320).

Between NJICWW Light 383 (LLNR 36420) Daybeacon 399 (LLNR 36470).

Between NJICWW Buoy 417 (LLNR 36517) and Buoy 424 (LLNR 36535) Great Channel.

Between NJICWW Light 449 (LLNR 36625) and Daybeacon 457 (LLNR 36655) Grassy Sound. Ref LNM 24/17

NJICWW Light 465 (LLNR 36675) to Buoy 473 (LLNR 36705).

**NJ – LITTLE EGG INLET – SHOALING**

Shoaling has been observed between Little Egg Inlet Buoy 1 (LLNR 1100) and Little Egg Inlet Buoy 4 (LLNR 1115). Shoaling has encroached channel ward in between the aids. Minimal depths observed at low tide 4ft.

Shoaling has been observed between Little Egg Inlet Lighted Buoy 10 (LLNR 1131) and Little Egg Inlet Lighted Buoy (LLNR 1129). Shoaling has encroached channel ward in between the aids. Little Egg Inlet Lighted Buoy 8 (1129) is no longer marking best water.

Chart 12318

### **NJ - NEW JERSEY INTRACOASTAL WATERWAY- LITTLE EGG HARBOR TO CAPE MAY – SHOALING**

The shoal running from New Jersey Intracoastal Waterway Daybeacon 439 (LLNR 36585) to New Jersey Intracoastal Waterway Light 431 (LLNR 36560) has encroached approximately 50 to 100 yds into the channel. Depths of 1-2' at MLW. Shoaling to less than 2' MLW has been observed on the red side of the channel between New Jersey Intracoastal Waterway Light 436 (LLNR 36575) and New Jersey Intracoastal Waterway Daybeacon 434 (LLNR 36570).

Chart 12316

### **NJ – SALEM RIVER – SHOALING**

Shoaling was reported in the Salem River, in Salem, NJ. The shoaling was reported between Salem River Entrance Channel Light 5 (LLNR 2670), Light 6 (LLNR 2675) and Light 7 (LLNR 2680), Light 8 (LLNR 2685) on the east side of the channel. The depth was reported at 10 feet shortly after high tide.

Chart 12311

### **PENNSYLVANIA SHOALING**

#### **PA – DE – NJ – DELAWARE RIVER – MARCUS HOOK RANGE – SHOALING**

Shoaling has occurred in the Delaware River in approximate position 39-48.18791, 075-25.354427w, 50 feet off the green channel toe, in the vicinity of Marcus Hook Intake Light (LLNR 3170). Shallowest depth 38.5 feet. All mariners are requested to transit the area with caution. Ref LNM 09/18 Chart 12312

#### **PA – NJ – CHESTER RANGE – SHOALING**

The Coast Guard has received a report of shoaling 40ft within the PA side of the channel in approximate position 39-49'33.80"N, 075-22'39.81"W. The rock mound has been reported to have a minimum depth of 39.1ft. Mariners are urged to use caution when transiting the area.

Chart 12312

### **DELAWARE SHOALING**

#### **DE - INDIAN RIVER BAY – SHOALING**

There has been a report of shoaling in Indian River Bay between Indian River Inlet Buoy 19 (LLNR 4435) and Middle Island West Channel Junction Lighted Buoy MI (LLNR 4436). Depths of 0.0 ft at times, during low tide, are reported.

#### **DE – DELAWARE BAY – REHOBOTH BAY – SHOALING**

Shoaling reported by unit during seasonal establishment April 7 2021. Shoaling observed from entrance to Rehoboth-Lewis canal south to Rehoboth Bay Channel Buoy 3 (LLNR 2100), depths 2-4 feet at mean low water. Rehoboth Bay Channel Buoy 1 (LLNR 2095) was not able to be established. DB BNM 080-21.

Chart 12304

#### **DE – REHOBOTH BAY – INDIAN RIVER – BACKERS CHANNEL – SHOALING**

Delaware Department of Natural Resources and Environmental Control (DNREC) reports shoaling in Baker's Channel between Baker's Channel Lighted Buoy 1A (LLNR 2136) and Baker's Channel Lighted Buoy 1B (LLNR 2137) as well as Baker's Channel Lighted Buoy 5 (LLNR 2137.04) and Baker's Channel Lighted Buoy 6 (LLNR 2137.05). DNREC has established two warning buoys worded "DANGER SHOAL" to mark the shoaling. Ref LNM 26/17.

#### **DE – INDIAN RIVER BAY – WHITE CREEK – SHOALING**

Shoaling was observed in White Creek to 2 – 5 feet at MLW. Floating Aids to Navigation have been discontinue while fixed aids to navigation have been converted to Warning Daybeacons with "Danger Shoal" on them. SEC DB 055-20.

### **MARYLAND SHOALING**

#### **MD - FENWICK ISLAND TO CHINCOTEAGUE INLET- OCEAN CITY INLET – SHOALING**

Shoaling - a USACE survey conducted on March 23, 2023 has identified shoaling throughout the channel between Ocean City Inlet Lighted 12 (LLNR 4757) and Ocean City Inlet Lighted 14 (LLNR 4761), indicating depths of less than 7.5 feet at mean low water. Shoaling has also been identified between Ocean City Inlet Lighted 8 (LLNR 4745) and Ocean City Inlet Lighted 10 (LLNR 4750) extending from the north to mid-channel to depths of less than 9.5 feet at mean low water. Mariners are advised to use caution in the area.

Chart 12211 See MD-NCR BNM 0067-23

#### **MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY - SHOALING**

There has been a report of shoaling in Sinepuxent Bay within the channel boundaries between Sinepuxent Bay Channel Buoy 6 (LLNR 5015) and Sinepuxent Bay Channel Buoy 7 (LLNR 5017), to a depth of 4.5 feet at mean low water. Shoaling has also been reported between Sinepuxent Bay Channel Buoy 33 (LLNR 5130) and Sinepuxent Bay Channel Daybeacon 35 (LLNR 5135) in the channel, to a depth of 3.0 feet at mean low water.

Chart 12211

#### **MD - CHESAPEAKE BAY-NANTICOKE SHOALING**

Shoaling has been reported in the immediate vicinity of Nanticoke River Cut Light 4 (LLNR 23995) at the mouth of Nanticoke Harbor, extending approximately 30ft into the channel. Water depths have been found as low as 2ft at low water. MD-NCR BNM 147-20.

#### **MD - CHESAPEAKE BAY - HONGA RIVER – SHOALING**

There is shoaling in the Honga River extending out at 500yds radius from approximate position 38-18.38N 076-11.78W. Actual depth ranges from 5ft to 9ft at mean low water. SEC MD-NCR BNM 335-19.

**MD - CHESAPEAKE BAY - COVE POINT TO SANDY POINT - FLAG HARBOR - SHOALING**

Shoaling has been reported in the Entrance Channel to Flag Harbor Yacht Haven in Calvert County, MD. The shoaling is located just outside Flag Harbor Light 1 (LLNR 7671) and Flag Harbor Entrance Light 2 (LLNR 7672). Depth of water is less than 5 Ft at MHW. BNM MD 376-19. Chart 12263

**MD - POTOMAC RIVER - ST. GEORGE CREEK - SHOALING**

The ACOE Survey of St. George Creek Channel dated April 2018, indicates shoaling across the entire channel. The shoaling is from 850 feet up the channel of St. George Creek West Channel Warning Light A (LL 16760) to 500 feet up the channel of St. George Creek West Channel Warning Daybeacon B (LL 16765), with a least depth of 3.1 feet MLLW.

**MD - POTOMAC RIVER - ST. PATRICK CREEK - SHOALING**

Shoaling has been reported in St. Patrick Creek to depths of 2-4 feet at MLW near St. Patrick Creek Channel Buoy 3 (LLNR 17123) and extending to Buoy 7 (LLNR 17145). Shoaling of 1 foot at MLW has been observed within the channel limits in the vicinity of St. Patrick Creek Channel Buoy 4 (LLNR 17130).

**MD - CHESAPEAKE BAY - CHESAPEAKE BAY TO PINEY POINT - ST. JEROME CREEK - SHOALING**

Shoaling has been reported in St. Jerome Creek to a depth of 3 feet at MLW between St Jerome Creek DBN 3 (18805) and St. Jerome Creek Light 3A (LLNR 18810) and extending to St. Jerome Creek Buoy 4 (LLNR 18812) and St. Jerome Creek Buoy 6 (LLNR 18815). The channel width in the area of Deep Point is reduced to approximately 20 feet.

**MD - VA - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING**

Shoaling exists in St. Catherine Sound Lower Entrance (1) off the northeastern tip of St. Catherine Island extending channel ward between 38-14-17.586N, 076-47-15.562W and 38-14-32.841N, 076-47-14.761W, (2) IVO St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16.

**MD - CHESAPEAKE BAY - CHOPTANK RIVER AND HERRING BAY - CHESAPEAKE BEACH - SHOALING**

A USACE survey conducted on 21 OCT 2020 has identified shoaling in the following locations: west of Chesapeake Beach Light 1 (LLNR 19285) spanning the entire width of the channel to a depth of less than 7ft MLW. Additional portions of channel shoaling exists west of Chesapeake beach light 2 (LLNR 19300) and Chesapeake Beach Light 3 (LLNR 19305) spanning the entire width of the channel to a depth of 3ft MLW to 6ft MLW. See Sec MD-NCR BNM 148-21.

Chart 12266

**MD - CHESAPEAKE BAY - CHOPTANK RIVER AND HERRING BAY - KNAPPS NARROWS WEST CHANNEL - SHOALING**

Shoaling has been observed in the Knapps Narrow West Channel within the channel boundaries between Knapps Narrow West Channel Daybeacon 3 (LLNR 25925) and Knapps Narrow West Channel Daybeacon 5 (LLNR 25931) to a depth of 1 foot at mean low water.

See MD-NCR BNM 0082-23.

Chart 12266

**MD - CHESAPEAKE BAY - POCOMOKE AND TANGIER SOUNDS - POCOMOKE RIVER - SHOALING**

Shoaling has been reported in the Pocomoke River between Pocomoke River Channel Buoy 7 (LLNR 22540) and Pocomoke River Channel Buoy 8 (LLNR 22555), to reported depths less than 4.5 feet at MLW centerline, 2.3 feet on the red side of the channel, and 3.2 feet on the green side. MD-NCR BNM 299-21.

**MD - LITTLE CHOPTANK RIVER - SLAUGHTER CREEK - SHOALING**

Shoaling in the western portion of Slaughter Creek IVO of Holland Point has encroached easterly in most of the channel. The shoal adjacent to Slaughter Creek Light 2SC (LLNR 24645) has encroached approximately 50-100 yds easterly with observed depths of 3-4' in between tide cycles. Shoaling to 5' MLW has been observed on the red side of the channel between Slaughter Creek Buoy 6 (LLNR 24670) and Slaughter Creek Buoy 8 (LLNR 24683). Sec MD-NCR BNM 045-17.

Chart 12264, 12266

**MD - CHESAPEAKE BAY - HONGA, NANTICOKE AND WICOMICO RIVERS - FISHING BAY - TAR BAY**

A USACE survey conducted in Apr 2016 has identified shoaling to a depth of less than one foot at mean low water between Tar Bay Channel Warning Daybeacon E (LLNR 24595) and Tar Bay Channel Warning Daybeacon K (LLNR 24615). The channel width has been significantly reduced. Observed depths are between 2-4' at high tide. Sec MD-NCR BNM 044-17.

**MD - FISHING BAY - FARM CREEK - SHOALING**

Shoaling reported from channel entrance to Farm Creek Channel Daybeacon 2 (LLNR 24430), least depth of 5 feet within the channel limits. From Farm Creek Channel Daybeacon 2 (LLNR 24430) to Farm Creek Channel Daybeacon 7 (LLNR 24445) least depth of 2.0 feet on the red side of channel, 3.9 Ft centerline of channel, and 2.8 feet on the green side of channel. Ref LNM 16/18.

**MD - CHESAPEAKE BAY - EASTERN BAY AND SOUTH RIVER - CRAB ALLEY BAY - SHOALING**

Hazard to navigation - there has been a report of shoaling in Crab Alley Bay approximately 50 yards northwest of Crab Alley Bay Buoy 6, (LLNR 26300), and 200 yards south of Crab Alley Bay Daybeacon 7, (LLNR 26305), in approximate position: 38-55.78n, 076-17.58w to a depth of 2ft at mean low water. SEC MD-NCR BNM 0021-23 LNM 08/23

**MD – CHESTER RIVER – KENT ISLAND NARROWS NORTH APPROACH – SHOALING**

Hazard to navigation – A USACE survey conducted on May 4, 2021, has identified shoaling to a depth of four feet in the Kent Island Narrows North Approach within the channel boundaries between Kent Island Narrows North Approach Light 2KN (LLNR 26415) and Kent Island Narrows North Approach Light 8 (LLNR 26435). Mariners are urged to use caution when transiting the area. SEC MD-NCR BNM 065-21.

**MD - CHESAPEAKE BAY - CHESTER RIVER - QUEENSTOWN CREEK**

Hazard to navigation- A USACE survey conducted on July 12, 2021 has identified shoaling northwest of Queenstown Creek Buoy 3 (LLNR 26593) to south of Queenstown Creek Buoy 5 (LLNR 26595). Reported depths of less than four feet centerline and less than three feet closer to the channel boundaries. Least depths are located closer to the red side of the channel near Queenstown Creek Buoy 5 (LLNR 26595) to depths of less than two feet at mean low water. SEC MD-NCR BNM 182-21.

**MD – APPROACHES TO BALTIMORE HARBOR – HARTS ISLAND CHANNEL**

Corrected chart name and #. Shoaling has been reported by USCG ANT Baltimore via soundings in Harts Island Channel. Depths of 2.0-4.0 feet were observed extending into the channel in vicinity of Harts Island Channel Daybeacon 3 (LLNR 27010). Navigation of the area requires extreme caution. SEC MD-NCR BNM 263-21.

Chart 12278

**MD - CHESAPEAKE BAY - HEAD OF CHESAPEAKE BAY - SASSAFRAS RIVER**

Hazard to navigation. Shoaling has been reported in Sassafras River extending from Sassafras River Daybeacon 8 (LLNR 27495) to the southeast approximately 520 yards towards Sassafras River Light 10 (LLNR 27500) and into the channel approximately 50 yards to reported depths of seven feet at mean low water. SEC MD-NCR BNM 257-21.

Chart 12274

**MD - NORTHEAST RIVER – SHOALING**

There has been a report of shoaling in the Northeast River within the channel between Northeast River Buoy 7 (LLNR 27855) and Northeast River Buoy 8 (LLNR 27860). Depths as low as 4.2 feet were observed. Mariners are advised to transit the area with caution. MD-NCR BNM 035-21.

Chart 12274

**VA – MD – POTOMAC RIVER – BONUM CREEK – SHOALING**

U. S. Army Corps of Engineers Survey of Bonum Creek indicates shoaling, to less than 4 feet MLLW, in the channel.

**VIRGINIA SHOALING****VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – QUINBY CHANNEL – SHOALING**

Norfolk District Army Corp of Engineers Survey of Quinby Creek; dated 11 Feb 2020, indicated significant shoaling with least depth of 6.0'MLLW at Quinby Channel Buoy 13 (LLNR 6775) to 1.2'MLLW at Quinby Channel Light 19 (LLNR 6785). VA BNM 040-20.

Chart 12210

**VA – VIRGINIA INSIDE PASSAGE – WACHAPREAGUE CHANNEL – SHOALING**

The Coast Guard reports shoaling between Bradford Bay Light 9 (LLNR 6020) and Wachapreague Channel Junction Lighted Buoy WB (LLNR 6695) and between Bradford Bay Light 9 (LLNR 6020) and Bradford Bay Buoy 8 (LLNR 6025). Depths may be less than 1ft and MLW. Mariners should use caution when transiting the area. See SEC VA BNM 141-22.

Chart 12210

**VA – NANDUA CREEK**

Shoaling has been reported at the entrance to Nandua Creek to 2 feet. HR BNM 311-13.

**VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – VIRGINIA INSIDE PASSAGE - WALLOPS ISLAND – SHOALING**

There has been a report of shoaling in the vicinity of Wallops Island Lighted Buoy 2 (LLNR 5520) to a depth of one foot.

Chart 12210

**VA – VIRGINIA INSIDE PASSAGE (VIP)**

VIP Daybeacon 184 (LLNR 6220) to VIP Daybeacon 265 (LLNR 6580), Shoaling to less than 6ft MLW. HR BNM 106-16, VIP Daybeacon 244 (LLNR 6485), Shoaling to 1 foot. HR BNM 272-14, Sand Shoal Channel Light 1 (LLNR 6990) to Sand Shoal Light 10 (LLNR 6996) LNM 24-13.

**VA – LYNNHAVEN INLET – SHOALING**

Army Corp of Engineer Survey has indicated shoaling between Lynnhaven Inlet Light 1L (LLNR 10130) and Lynnhaven Inlet Light 3 (LLNR 10136) on the east side of the channel extending into the channel with the Minimum depth of 6.8 feet. Additional shoaling has been located between Lynnhaven Inlet Light 4 (LLNR 10138) and Lynnhaven Inlet Daybeacon 6 (LLNR 10145) on the western side of the channel extending into the Channel with a minimum depth of 2 feet. Navigation in these areas requires extreme caution. SEC VA BNM 022-22.

Chart 12222, 12221, 12254

**VA - VIRGINIA BEACH - LYNNHAVEN INLET - SHOALING**

Mariners are advised Army Corp of Engineer survey has indicated shoaling between Lynnhaven Inlet Light 4 (LLNR 10138) and Lynnhaven Inlet Daybeacon 6 (LLNR 10145) on the western side of the channel extending into the channel with a minimum depth of 2 feet. US Coast Guard has placed a temporary shoaling buoy, Lynnhaven Inlet Lighted Buoy 4A (LLNR 10139) in the channel to mark the shoal. Mariners are requested use extreme caution when operating in the vicinity.

Chart 12254

**VA - LYNNHAVEN INLET - LONG CREEK - SHOALING**

ACOE Survey indicates shoaling in Lynnhaven Basin and connected tributaries, south of the Lesner Bridge. Depths of 3.1 - 5.2 feet extend into channel from Pleasure House Creek eastbound to Long Creek Light 6A (LLNR 10170), in Crab Creek, Lynnhaven Inlet and Long Creek. Depths of 1.4 - 5.0 feet observed in Long Creek side channel in the vicinity of Fish House Island. Navigation of the area requires extreme caution. SEC VA BNM 114-20.

Chart 12254

**VA - LITTLE CREEK HARBOR - SHOALING**

Shoaling has encroached approximately 20ft into the channel from the shoreline to approximate position 36-55.48N, 076 10.58W. The location of the shoal is approximately 120yds north of Little Creek Harbor Light 7 (LLNR 10525). Visually the shoal can be observed. Depth at tip of shoal is approximately 2' with a significant depth drop to approximately 18ft.

**VA - GREAT BRIDGE TO ALBEMARLE SOUND - INTRACOASTAL WATERWAY - SHOALING**

There has been a report of shoaling in the VA Intracoastal Waterway approximately 1.15 nm south of North Landing Bridge IVO positions 36-42.71N, 076-04.87W, and 36-42.75N, 076-05.00W, to a least depth of 0.5 feet.

Chart 12206

**VA - CHESAPEAKE BAY - MATTAWOMAN CREEK - SHOALING**

Shoaling has been Reported to a depth of 2-3ft at mean low water in the channel of Mattawoman Creek between Mattawoman Creek Light 1MC (LLNR 21580) and Mattawoman Creek Light 2 (LLNR 21585). Mariners are advised to transit the area with caution.

**VA - HAMPTON ROADS - WILLOUGHBY BAY**

The USACE has reported shoaling in Willoughby Channel to 2.6 feet MLLW in the vicinity of Willoughby Channel Buoy 3 (LLNR 10583). Chart 12245

**VA - PAGAN RIVER - SHOALING**

Shoaling has been located on the approach to Jones Creek outside of the Pagan River Channel between Pagan River Channel Light 13 (LLNR 11415) and Jones Creek Daybeacon 2 (LLNR 11420). Depths observed 4ft at approximately 3 hours before MLW. HR BNM 254-20. Significant shoaling has been identified in the Pagan River Channel between Pagan River Channel Daybeacon 15 (LLNR 11435) and Daybeacon 17 (LLNR 11445). Least depth of 3.3 FT. HR BNM 218-19.

Chart 12248

**VA - BENNET CREEK - POQUOSON RIVER - SHOALING**

Shoaling was reported on the east side of channel in between Bennett Creek - Poquoson River Light 4 (LLNR 13270) and Bennett Creek - Poquoson River Light 6 (LLNR 13275). Depth of 3 feet at MLW. See SEC VA BNM 082-22.

Chart 12238

**VA - MOBJACK BAY AND YORK RIVER ENTRANCE - BACK RIVER**

A recent NOAA survey identified shoaling to a depth of 8 ft at MLW in Back River between Back River Channel Daybeacon 6 (LLNR 12930) and Back River Channel Light 5 (LLNR 12925). The survey also identified shoaling around Back River Channel Light 4 (LLNR 12920) to a depth of 10ft at MLW. Chart 12222

**VA - CHESAPEAKE BAY - MOBJACK BAY AND YORK RIVER ENTRANCE - DAVIS CREEK - SHOALING**

Significant shoaling has been identified from USACOE survey dated 07 Sep 2016 in Davis Creek. Shoaling begins 100 yards south of Davis Creek Warning Daybeacon B (LLNR 14130) to a depth of 4.9 feet extending across the entire length and width of the channel to 150 yards north of Davis Creek Warning Daybeacon D (LLNR 14140) with a minimum identified depth of 1.2 feet. Ref LNM 12/17.

Chart 12238

**VA - CHESAPEAKE BAY - MOBJACK BAY AND YORK RIVER ENTRANCE - HORN HARBOR**

Shoaling has been reported to 1-2 feet extending 50 yards channel ward from Horn Harbor Lighted Buoy 8 (LLNR 14487). HR BNM 182-15. Chart 12238

**VA - CHESAPEAKE BAY - YORKTOWN TO WEST POINT - QUEEN CREEK**

Shoaling to less the 4 feet has been reported in Queen Creek from Queen Creek Entrance Light 2QC (LLNR 13785) to Queen Creek Daybeacon 10 (LLNR 13820). HR BNM 170-14.

Chart 12243

**VA - GREAT WICOMICO RIVER - SHOALING**

Shoaling has been identified in the vicinity of Great Wicomico River Light 9 (LLNR 16300) extending 30 yards north and north northeast of structure to a depth of less than 2 feet.

**VA – CHESAPEAKE BAY – RAPPAHANNOCK RIVER ENTRANCE - MILFORD HAVEN EAST**

Shoaling to a depth of 2 Feet at low tide has been identified from 400 yards northeast of Milford Haven East Buoy 7 (LLNR 14593.5) extending to the south 600 yards. Shoaling extends to the west 250 yard and impedes the width of the channel both inbound and out bound.  
Shoaling to a depth of 3 feet has been identified in various locations west of Buoy 7 (LLNR 14593.5) To Buoy 18 (LLNR 14625).

**VA – RAPPAHANNOCK RIVER – SHOALING**

Rappahannock River mile 60 to 63, Devils Elbow. Shoaling has been reported to a depth of less than 4ft at mean low water along the eastern side of the channel from Horse Head Point to south of Toby's Point extending along the eastern side of Toby's Point to North Bend. HR BNM 051-17, LNM 08/17.

**VA - RAPPAHANNOCK RIVER - CORROTMAN RIVER TO FREDERICKSBURG – GREENVALE CREEK SHOALING**

An ACOE Survey of Greenvale Creek Channel indicates shoaling, to a least depth of 1.7 feet MLLW, across the channel from approximately 250 feet North-Northeast of Greenvale Channel Warning Daybeacon A (LLNR 15305) continuing inbound for approximately 880 feet. Ref LNM 50/16.

**VA – CHESAPEAKE BAY TO PINEY POINT – LITTLE WICOMICO RIVER – SHOALING**

Shoaling has been reported in Little Wicomico River within the channel Boundaries between Little Wicomico River Light 4 (LLNR 16355) to the south approximately 75 yards towards Little Wicomico River Light 5 (LLNR 16360) to reported depths of three feet at mean low water.

**VA – EASTERN SHORE - CHESAPEAKE BAY – MATTAWOMAN CREEK – SHOALING**

Shoaling has been located in Mattawoman Creek VA. Lowest depth found 3' at high tide from Mattawoman Creek Light 1MC (LLNR 21580) to west of Mattawoman Creek Light 3 (LLNR 21590). VA BNM 006-20.

Chart 12225

**VA – CHESAPEAKE BAY – TANGIER SOUND - TANGIER ISLAND EAST CHANNEL – SHOALING**

There has been a report of shoaling in the Tangier Island East Channel within the channel boundaries between Tangier Island East Daybeacon 6 (LLNR 22765) and Tangier Island East Channel Light 7 (LLNR 22770) to a depth of three feet.

**VA - CHESAPEAKE BAY - POCOMOKE SOUND - DEEP CREEK – SHOALING**

U.S. Army Corps Survey on 19 Sep 19 indicated a least depth of 1.2' MLW within the channel limits. From Deep Creek Channel Daybeacon 12 (LLNR 22225) to Deep Creek Channel Daybeacon 14 (LLNR 22230) least depth of 6.3' in center of channel, 5.8' on green side of channel, and 4.5' on red side of channel. From Deep Creek Channel Daybeacon 14 to Deep Creek Channel Light 15 (LLNR 22235) least depth of 5.0' In center of channel, 3.0' on green side of channel, 3.8' on red side of Channel. From Deep Creek Channel Light 15 to Deep Creek Channel Daybeacon 16 (LLNR 22240) least depth of 4.4' in center of channel, 3.2' on green side of channel, and 4.1' on red side of channel. From Deep Creek Channel Daybeacon 16 to Deep Creek Channel Daybeacon 17 (LLNR 22245) least depth of 3.6' in center of Channel, 0.2' on green side of channel, and 2.6' on red side of channel.  
Chart 12207

**VA - MD - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING**

Shoaling exists in St. Catherine Sound Lower Entrance at the following locations: (1) off the northeastern tip of St. Catherine Island extending channel ward between position 38-14-17.586N, 076-47-15.562W and position 38-14-32.841N, 076-47-14.761W, and (2) in the vicinity of St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, CCGD5 BNM 524-16.

**VA - POTOMAC RIVER - YEOCOMICO RIVER - SHOALING**

There has been a report of shoaling in the Yeocomico River within channel boundaries, located SE of South Yeocomico River Daybeacon 2 (LLNR 16830) to a depth of less than ten feet at mean low water. MD-NCR BNM 408-16, Ref LNM 50/16.

Chart 12233

**VA - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - BONUM CREEK - SHOALING**

Soundings in Bonum Creek indicates shoaling in the channel between Bonum Creek Warning Daybeacon C (LLNR 16885), Bonum Creek Warning Daybeacon D (LLNR 16890), and Bonum Creek Warning Daybeacon E (LLNR 16895). Due to extensive shoaling off Sandy Point Neck, the channel width has been reduced to approx 20ft between Bonum Creek Warning Daybeacons C and D. Mariners are urged to use caution.

**VA – UPPER POTOMAC RIVER – POTOMAC CREEK – SHOALING**

Severe shoaling has been reported within the channel boundaries of Potomac Creek. Shoaling extends 15 yards channel ward of Potomac Creek Buoy 3 (LLNR 17920) with depths of 3 to 4 feet at MLW. Additional shoaling further in has been observed to a depth less than 3 feet at MLW. Ref LNM 14/18.

**VA – RUDEE INLET – SHOALING**

June 29, 2023 survey indicates shoaling from the eastern ends of the jetties extending out eastward for approximately 240' across the entire channel with a least depth of 5.2' MLLW.

**NORTH CAROLINA****NC - CURRITUCK BEACH LIGHT TO WIMBLE SHOALS – OREGON INLET – SHOALING**

Shoaling exists in the vicinity of Oregon Inlet Buoy 14 (LLNR 28050) and Oregon Inlet Lighted Buoy 16 (LLNR 28057) reported depths of 3 FT MLW. NC BNM 0154-23.

**NC – CAPE HENRY TO PAMLICO SOUND – WALTER SLOUGH – SHOALING**

Shoaling exists within Walter Slough Channel. Shoaling to 3-4 feet MLW was observed between Walter Slough Buoy 8 (LLNR 28335) and Walter Slough Lighted Buoy 9 (LLNR 28340). NC BNM 134-20.

#### **NC - HATTERAS INLET - SHOALING**

Shoaling exists in various locations throughout Hatteras Inlet Channel to a depth of 5 feet at mean low water. Shoaling continues to encroach the channel near Hatteras Inlet Channel Lighted Buoy 12A (LLNR28732.1), and Hatteras Inlet Channel Buoy 15 (LLNR 28736). Depths of less than 4 feet MLW have been reported between Hatteras Inlet Channel Buoy 18 (LLNR 28760) and Hatteras Channel Lighted Buoy 19 (LLNR 28760). Some aids to navigation in the inlet may be unreliable. NC BNM 029-22, 030-22.

Shoaling has been observed on ACOE survey in the vicinity of Hatteras Inlet Channel Lighted Buoy16 (LLNR 28750). Depths of 3 feet MLW reported in approximate position: 35-12-07.188N, 075-43-38.916W. NC BNM 268-22.

#### **NC - BARNEY SLOUGH - SHOALING**

Shoaling exists North East of Barney Slough Channel Buoy 3A (28721.6). Reported depths of 4 feet MLW in position 35-47-34.526N, 075-31-34.764W. Shoaling extends to middle of channel to a depth of 4 FT MLW. Shoaling has been found along north side of channel between Barney Slough Channel Buoy 4 (LLNR 28721.7) and Lighted Buoy 6 (LLNR 28722.3). Observed depths of 4 feet MLW. Shoaling is occurring in the vicinity of Barney Slough Channel Lighted Buoy 15 (LLNR 28723.7) and Barney Slough Channel Lighted Buoy 16 (LLNR 28723.9). NC BNM 204-20, 013-20, 027-22.

#### **NC - OCRACOKE INLET - SHOALING**

Shoaling exists in the vicinity of Ocracoke Inlet. Aids to Navigation may be unreliable in various locations between Ocracoke Inlet Buoy 1 (LLNR 28900) and Ocracoke Inlet Buoy 8 (LLNR 28927). Mariners are advised to use caution while navigating this area. NC BNM 207-20.

#### **NC - TEACHES HOLE CHANNEL - SHOALING**

Shoaling exists in the vicinity between Teaches Hole Channel Lighted Buoy 19 (LLNR 28953) and Teaches Hole Channel Lighted Buoy 24 (LLNR 28962). Reported depths less than 4 feet MLW. NC BNM 028-22.

#### **NC - BEAUFORT INLET AND CORE SOUND - BARDEN INLET - BACK SOUND - SHOALING**

Severe shoaling between Barden Inlet Buoy 24 (LLNR 29240) and Back Sound Lighted Buoy 1 (LLNR 29315) has rendered the waterway un-mark able. All floating aids were removed. Pending dredging operations or waterway improvements, Barden Inlet Channel no longer connects to Back Sound Channel. Mariners should navigate the area with caution, local knowledge is recommended. NC BNM 409-20.

Chart 11545

#### **NC - PAMLICO SOUND - CORE SOUND - WAINWRIGHT SLUE - SHOALING**

Due to lack of navigable water all floating aids have been removed and all remaining fixed aids converted to non-lateral warning beacons up to Core Sound Light 11 (LLNR 34370) proceeding south from Pamlico Sound. The remaining fixed aids are scheduled for removal. Pending future dredging or waterway improvements, the Core Sound waterway is no longer accessible from Pamlico Sound. NC BNM 404-20.

#### **NC - CORE SOUND - HARKERS ISLAND - THE STRAITS - SHOALING**

Wilmington District USACE Survey of 12 Mar 2020 has identified significant shoaling IVO Harker's Island in The Straights. Depths as low as 4ft MLW were found between Harkers Island Straits Light 14 (LLNR 29382) and Harkers Island Straits Light 15 (LLNR 29384). NC BNM 085-20.

Chart 11545

#### **NC - BOGUE INLET - SHOALING**

Shoaling of 2ft to 4ft MLW has been found in the vicinity of Bogue Inlet Buoy 1 (LLNR 29525) and between Bogue Inlet Buoy 3A (LLNR 29570) and Bogue Inlet Lighted Buoy 5 (LLNR 29580) at a depth of 1 foot at MLW. Bogue Inlet Buoy 3B (LLNR 29573) has been established to help mark shoaling in approximate position 34-38-52.635N, 077-06-34.889W. Mariner should use caution in area as shoaling shifts frequently. SEC NC BNM 344-22.

Shoaling has been identified from Bogue Inlet Buoy 9 (LLNR 29600) and Bogue Inlet Buoy 12 (LLNR 29615). Depths of 3-4ft at MLW have been observed. Shoaling currently extends across entire width of the marked channel. SEC NC BNM 031-22.

Chart 11541

#### **NC - BOGUE SOUND - NEW RIVER - SHOALING**

Shoaling has been observed between Bogue Sound – New River Buoy 66B (LLNR 39243) and Bogue Sound – New River Light 66 (LLNR 39245), south of buoy 66B. Shoaling is reported of less than 4FT MLW and extends into the channel. See SEC NC BNM 0298-22.

Chart 11541

#### **NC - NEW RIVER - NEW RIVER INLET - SHOALING**

Significant shoaling has occurred in New River Inlet between New River Inlet Lighted Buoy 1 (LLNR 29655) and New River Inlet Lighted Buoy 2 (LLNR 29660) with depths of 3' - 4' MLW present. Significant shoaling has occurred between New River Inlet Buoy 9A (LLNR 29712) and New River Inlet Buoy 10 (LLNR 29720) with depths of 1' - 2' MLW. Buoys arepresenting misleading signal due to extreme shoaling. See SEC NC BNM 0295-22.

Chart 11542

#### **NC - NEW RIVER - SHOALING**

Shoaling exists in the vicinity of the channel to Jacksonville spanning the entire width of the channel between New River Channel Daybeacon 16 (LLNR 29750) and New River Channel Light 17 (LLNR 29760). Depths reported of 4ft MLW. SEC NC BNM 181-22.

Chart 11542

#### **NC - BOGUE SOUND - SHOALING**

Shoaling has been reported between Bogue Sound Daybeacon 10 (LLNR 38875) and Bogue Sound Daybeacon 14 (LLNR 38895). Survey indicates depths as low as 5FT MLW encountered in channel center and depths as low as 4FT have been reported. Depths close to channel markers may be less. Conditions may change rapidly and mariners are advised to transit the area with caution. The most recent ACOE survey can be found here:

<https://www.saw.usace.army.mil/missions/navigation/hydrographic-surveys/aiww>

Chart 11541

**NC – LENOXVILLE POINT – TAYLOR CREEK – SHOALING**

Aids to Navigation in Lenoxville Point have been relocated to mark best available water. Shoaling still exists in the channel in vicinity of Lenoxville Point Buoy 1L (LLNR 34757) through Lenoxville Point Buoy 3 (LLNR 34760) and channel remains very narrow. Users of waterways should observe new route of channel and new locations of shoaling which can be viewed on US Army Corps of Engineers Hydrographic Survey – Taylor's Creek East. See SEC NC BNM 303-22.

Chart 11545

**NC – WESTERN PART OF PAMLICO SOUND – PAMLICO RIVER – WRIGHT CREEK – SHOALING**

Mariners are advised of shoaling in vicinity of Wright Creek Daybeacon 4 (LLNR 32870) off the Pungo River. NC BNM 141-18.

Chart 11553

**NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CORE CREEK – SHOALING**

Shoaling exists in the AICW north of Morehead City between Core Creek Light 29 (LLNR 38435) and Core Creek Daybeacon 31 (LLNR 38485), to a depth of less than 5ft at MLW. Mariners are advised to use extreme caution while navigating this area.

Chart 11541

**NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CAUSEWAY CHANNEL – SHOALING**

Shoaling has been reported IAW the most recent ACOE survey dated 26 OCT 2020 IVO Causeway Channel Buoy 5A (LLNR 38731) and Causeway Channel Buoy 6A (LLNR 38736). Reported depths of 4 feet MLW encroaching from east side of channel. NC BNM 415-20.

Chart 11541

**NC – OLD TOPSAIL CREEK – SHOALING**

Significant shoaling has been observed in Old Topsail Creek between Old Topsail Creek Buoy 6 (LLNR 30036), Old Topsail Creek Buoy 7 (LLNR 30037) and Old Topsail Creek Buoy 8 (LLNR 30038) Spanning the width of the channel. Depths of less than 3' at MLW have been observed. Mariners are advised to transit the area with caution. SEC NC BNM 381-21.

Chart 11541

**NC – BANKS SLOUGH CHANNEL – SHOALING**

Significant shoaling has occurred in Banks Slough Channel between Banks Slough Channel Buoy 2BS (LLNR 30048) and Banks Slough Channel Buoy 3 (LLNR 30048.02) spanning the width of the channel. Depths of 2' MLW have been reported.

Chart 11541

**NC – NEW TOPSAIL INLET – SHOALING**

Significant shoaling has occurred in New Topsail Inlet between New Topsail Inlet Buoy 3 (LLNR 29995) and New Topsail Inlet Buoy 4 (LLNR 30000). Depths of 2' MLW have been reported. The buoys are presenting misleading signal due to extreme shoaling and mariners are advised to transit the area with extreme caution. See SEC NC BNM 0270-22.

Chart 11541

**NC – CAROLINA BEACH INLET – SHOALING**

Significant shoaling has been reported in Carolina Beach Inlet in the vicinity of Carolina Beach Inlet Buoy 3 (LLNR 30275) spanning the width of the channel. Depths of 4'-5' MLW have been reported. SEC NC BNM 368-21.

Chart 11534

**NC – NEW RIVER – CAPE FEAR RIVER – SHOALING**

The shoal that is adjacent to the red side of the channel between New River – Cape Fear River Daybeacon 170 (LLNR 39860) and New River - Cape Fear River Light 168 (LLNR 39857) has encroached to the edge of the channel. Depths of 4-5ft at MLW have been observed.

Chart 11537

# SUMMARY OF BRIDGE PERMITS, REGULATIONS AND CONSTRUCTION IN THE FIFTH COAST GUARD DISTRICT

## Enclosure (2)

Updated July 11, 2023

(Yellow indicates new item)

### CURRENT PROJECTS

Permits:

#### SECTOR DELAWARE BAY

- **Delaware**

Christina River – Christina River Bridge – Permit (1-17-5) signed April 7, 2017, for a fixed bridge across the Christina River, mile 3.8, City of Wilmington, New Castle County, DE. The bridge will provide a minimum vertical clearance of 14 feet above mean high water and a horizontal clearance of 150 feet centered on the axis of the navigable channel. (KB)

Broadkill River – Bridge 3-155 N&S (SR 1/SR 14/Coastal Highway) – Permit (2-21-5) signed October 14, 2021, for a fixed bridge across Broadkill River, mile 8.08, near Milton, Sussex County, DE with a horizontal clearance of 50 feet and a vertical clearance of 16.5 feet above mean high water. (MT)

Cedar Creek – SR36 Bridge – Drawbridge replacement – Preliminary Navigation Clearance (PNCD) issued on August 23, 2022; vertical clearance of 4 feet above mean high water in the closed position and unlimited vertical clearance above mean high water in the open position with a horizontal clearance of 27 feet. (MT)

- **New Jersey (Central & Southern)**

Oldmans Creek – US Route 130 Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 15, 2018; vertical clearance of 5 feet above mean high water and a horizontal clearance of 75 feet. (HP)

Raccoon Creek – US 130 (fixed) Bridge - new fixed bridge structure to replace (lift) bridge. Permit (2-15-5) signed December 9, 2015. (KB)

Glimmer Glass - W9 (Brielle Road) Drawbridge – Fixed bridge replacement and drawbridge replacement Preliminary Navigation Clearance Determination (PNCD) issued on October 22, 2019. A fixed bridge replacement will provide a horizontal clearance of 31.9 feet and a vertical clearance of 60 feet above mean high water and a drawbridge replacement will provide a vertical clearance of 9 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 31.9 feet. (MS)

Atlantic Intracoastal Waterway, Middle Thorofare - Ocean Drive Causeway Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on December 10, 2019; vertical clearance of 80 feet above mean high water and a horizontal clearance of 80 feet. (MB)(HP)

Big Timber Creek – Route 130 Bridge – Permit (4-22-5) signed October 12, 2022, for a fixed bridge across the Big Timber Creek, mile 0.9 between Borough of Westville, Gloucester County and Borough of Brooklawn, Camden County, NJ. The bridge will provide a minimum vertical clearance of 14.73 feet above mean high water and a horizontal clearance of 60 feet centered on the axis of the navigable channel. (MS)

Maurice River - All interested parties are notified that the Commander, Fifth Coast Guard District has received a proposal from the New Jersey Department of Transportation with plans for replacement of an existing highway fixed bridge over a navigable waterway of the United States.

WATERWAY AND LOCATION: Maurice River, mile 23.9, at Millville, Cumberland County, NJ.

**CHARACTER OF WORK:** The proposed project is to replace the superstructure and substructure rehabilitation. The purpose of the project is to eliminate the structural deficiencies and improve the condition of the Route 49 Bridge over Maurice River.

The existing fixed bridge has a horizontal clearance of 60 feet and a vertical clearance of 3.72 feet above mean high water. The replacement bridge will be a fixed bridge with a horizontal clearance of 60 feet and a vertical clearance of 3.46 feet above mean high water.

A copy of **Preliminary Public Notice D05PPN-05-2023**, which describes the proposal in detail, can be obtained by calling (757) 398-6557 or by viewing at <https://www.navcen.uscg.gov/?pageName=pnBridges>. Comments on this proposal should be forwarded to the address in the notice no later than June 16, 2023. (MT)

- **Pennsylvania**

Schuylkill River – Grays Ferry Pedestrian Bridge – Permit (3-17-5) signed November 27, 2017, for a swing drawbridge replacement with a vertical clearance of 26 feet above mean high water (closed position), unlimited vertical clearance in the open position, and a horizontal clearance of 75 feet in the west navigation span and 65 feet in the east navigation span. (MT)

#### SECTOR MARYLAND-NATIONAL CAPITAL REGION

- **Maryland** –

Potomac River – Governor Harry Nice Memorial Bridge – Permit (1a-20-5) signed June 25, 2020, for a fixed replacement bridge with a vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the new bridge will be shifted approximately 115 feet to the west of the center of the current navigation span. (KB)

Neale Sound – MD-254 (Cobb Island Road) Bridge – Permit (1-18-5) signed May 2, 2018, for a fixed replacement bridge with a vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)

- **Washington DC** –

Anacostia River – Frederick Douglass Memorial Bridge - Permit (2-17-5) signed December 4, 2017, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water and a horizontal clearance of 150 feet. (CT)

- **Virginia (Northern)** – None.

#### SECTOR VIRGINIA

- **Virginia (Southern)**

Western Branch of the Elizabeth River – Churchland Bridge - Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement of the northbound structure of the bridge with a structure providing a vertical clearance of 36.63 feet above mean high water and a horizontal clearance of 80 feet. (MS)

Hampton Roads – Permit (5-20-5) signed November 16, 2020, for a fixed bridge replacement of I-64/US 60 (Hampton Roads Beltway) north and south approach bridges for the Hampton Roads Bridge Tunnel (HRBT). North Approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 80 feet; south approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 100 feet. (MT)

Willoughby Bay – Permit (140b-68-5) signed December 22, 2020, for I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - fixed bridge modification; vertical clearance of 25 feet above mean high water, horizontal clearance of 50 feet, and width of 168.84 feet (MT)

Blackwater River - Permit (4-20-5) signed July 29, 2020, for a fixed bridge replacement providing a vertical clearance of 35 feet above mean high water and a horizontal clearance of 60 feet. (MS)

Cat Creek - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on May 11, 2021; vertical clearance of 12.8 feet above mean high water and a horizontal clearance of 60 feet. (MS)

James River Oxbow - All interested parties are notified that the Commander, Fifth Coast Guard District has received a proposal from Chesterfield County with plans for construction of a new highway, fixed bridge over a navigable waterway of the United States.

**WATERWAY AND LOCATION:** James River Oxbow, at position (37.372424, -77.360040), at Chesterfield, VA.

**CHARACTER OF WORK:** The proposed project is to build a new bridge that will span approximately 10,000 linear feet and will involve a 2-lane roadway with shoulders on a new alignment from Henricus Park to Corporate Village Parkway, including a bridge across the James River Oxbow. The proposed roadway will also include a shared use pedestrian path and new public utilities along the length of the project. The need for this new access to Henricus Park is due to Dominion Energy's coal-ash landfill exhumation of coal combustion, located along the current Henricus Park Road. The exhumation process will span multiple years, requiring a new long-term multimodal access road and path to access the Park.

The purpose of the project is to construct three new facilities within Dutch Gap and James River Conservation Areas, that will provide park access to the public, replace the Dutch Gap Boat Launch, implement operational best practices and compliment the proposed new roadway and bridge into Henricus Park. The new bridge will be a fixed bridge with a horizontal clearance of 160 feet and a vertical clearance of 29 feet above mean high water.

A copy of **Preliminary Public Notice D05PPN-062023**, which describes the proposal in detail, can be obtained by calling (757) 398-6587 or by viewing at <https://www.navcen.uscg.gov/?pageName=pnBridges>. Comments on this proposal should be forwarded to the address in the notice no later than June 17, 2023. (MS)

#### **SECTOR NORTH CAROLINA**

- ***North Carolina***

Atlantic Intracoastal Waterway – NC 210/50 Bridge, Surf City, NC - new fixed bridge structure to replace (swing) bridge. Permit (2-16-5) signed September 27, 2016. (KB)

The Straits – Harkers Island Bridge – Fixed replacement bridge - Permit (2-20-5) dated September 30, 2020, vertical clearance of 45 feet above mean high water and a horizontal clearance of 125 feet. (HP)

Pamlico Sound – Bridge No. 71 (Rodanthe) Bridge – new fixed bridge carrying NC 12 on the mainland side of the outer bank along the northeastern shore of Pamlico Sound from a position approximately 1.8 miles north of the southern boundary of the Pea Island National Wildlife Refuge to a position north of the Chicamacomico Channel and the emergency ferry terminal in Rodanthe, Dare County, NC. Permit (1-19-5) signed on February 20, 2019. (HP)

Perquimans River – Bridge No. 8 (US17 BUS/NC37) Bridge, Hertford, Perquimans County, NC - new drawbridge to replace existing drawbridge. Permit (6-19-5) signed December 31, 2019. (HP)

Currituck Sound – Proposed new fixed bridge across mid-Currituck Sound, approximately 18 miles north of the Wright Memorial Bridge, between Aydlett (on the mainland) and Corolla (on the Outer Banks), at Currituck County, NC. Preliminary Navigation Clearance Determination (PNCD) issued on February 9, 2021; vertical clearance of 20 feet above mean high water and a horizontal clearance of 40 feet. (MS)

Atlantic Intracoastal Waterway (New Port River) – Proposed modified fixed bridge - Newport River Bridge, carrying US 70 over the Atlantic Intracoastal Waterway, mile 203.8, near Morehead City, Carteret County, NC. Preliminary Navigation Clearance Determination (PNCD) issued on October 20, 2022; vertical clearance of 65 feet above mean high water and a horizontal clearance of 80 feet. (MT)

Dawson Creek - SR 1302 (Janeiro Road) Bridge – Proposed replacement fixed bridge preliminary navigation clearance determination (PNCD) with a horizontal clearance of 70 feet and a vertical clearance of 10.89 feet above mean high water. (MS)

#### Regulations:

#### **SECTOR DELAWARE BAY**

- ***Delaware* – None**
- ***New Jersey (Central & Southern)* –**  
Rancocas Creek - US Route 543 (Riverside-Delanco) Bridge – To reduce the number of openings during off-peak hours, the bridge will be maintained in the closed-to-navigation position from 7 a.m. to 3 p.m., and from 8 p.m. to 11 p.m., Monday through Friday, from 7 a.m. to 1 p.m., and from 8 p.m. to 11 p.m., Saturday and Sunday, and from 11 p.m. to 7 a.m., daily, from May 9, 2023, through October 15, 2023. The vertical clearance of the bridge in the closed-to-navigation position is 4 feet above mean high water. Vessels able to safely pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. At all other times the bridge will operate per 33 CFR 117.745 (b). (MS)
- ***Pennsylvania* – None**

#### **SECTOR MARYLAND-NATIONAL CAPITAL REGION**

- ***Washington, DC & Virginia (Northern)***  
Potomac River - I-95/I-495 (Woodrow Wilson Memorial Bridge) - New contact number. Any Mariners requesting transit should contact 571-513-3745. (CT)
- ***Maryland***  
Potomac River - I-95/I-495 (Woodrow Wilson Memorial Bridge) - New contact number. Any Mariners requesting transit should contact 571-513-3745. (CT)

#### **SECTOR VIRGINIA**

- *Virginia (Southern)* - None
- SECTOR NORTH CAROLINA

- *North Carolina* – None
- Construction, et al:

SECTOR DELAWARE BAY

- *Delaware*

Delaware River - Delaware Memorial Bridge – Ongoing bridge painting through July 2024. Work platforms have been installed, reducing the available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution when transiting the area. (CT)

Mispillion River - Route 1/Rehoboth Blvd. Bridge – Bridge sustained a causality and will not be capable of normal operations. The bridge will remain in the closed position until further notice. Vessels able to transit through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 5 feet above mean high water. The bridge will not be able to open for emergency vessels. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area. (MT)

C&D Canal - St Georges Bridge – Bridge maintenance will be performed from 6 a.m. to 5 p.m., 7 days a week, from March 1, 2023, through December 1, 2023. During work hours, a snooper truck will be located in and around the navigation channel reducing the vertical clearance by approximately 20 feet to approximately 113 feet above mean high water. A barge and tug will be in and around the vicinity of the bridge which will reduce the horizontal clearance by approximately 80 feet to approximately 370 feet. The work vessel can be reached on VHF-FM channel 13. The project foreman can be reached at (610) 842-5257. Mariners should use caution while navigating in the vicinity of the bridge. (JW)

**New Jersey (Central & Southern)**

Delaware River – Commodore Barry (fixed) Bridge – Repainting of the main (cantilever) truss span, signal gantries, steel barriers along the entire bridge, and water tower will continue through 2023. Work platforms will be installed, reducing the available vertical clearance by 3 feet, reducing the clearance from 190 feet to 187 feet above mean high water. Mariners should exercise caution when transiting the area. (KB)

Delaware River - Commodore Barry Bridge – Bridge maintenance will not reduce the vertical and horizontal clearance of the navigational channel. Maintenance will be from 8:00 a.m. to 5:00 p.m.; Monday through Friday; from July 17, 2023, through August 11, 2023. The main channels will not be obstructed. Inspection personnel, equipment and safety vessel will relocate from the navigable channel upon request and may be reached on VHF-FM channel 13. The manager of field operations can be contacted by phone (717) 554-2073. All mariners should use caution when transiting the area. (JW)

Delaware River - Benjamin Franklin Bridge – Bridge maintenance will be performed from July 27, 2020, through December 31, 2024. For the duration of the project, the preferred navigation channel and bridge navigational lighting normally situated over the 410-foot Federal project channel will be shifted to the east approximately 205 feet. The Federal Project channel will remain fully open to traffic; however, the vertical clearance of the channel has temporarily decreased based on the planned scaffolding system (work platform) to be installed. The scaffolding system will be installed over the entire length of the bridge, as detailed below.

Preferred Navigation Channel: A 410-foot scaffolding (work platform) system, with five 82-foot independent work zones, will be installed extending below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet). When in use, a single 82-foot work zone portion of the 410-foot scaffolding (work platform) system will be extended below the bridge approximately 18.5 inches (1.54 feet), thereby reducing the vertical clearance of the bridge within the work zone by approximately 18.5 inches (1.54 feet). The single 82-foot work zone portion of the 410-foot scaffolding (work platform) system in use will be lifted to extend below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet), if at least 48-hour notice is given to [Eric.Dovak@Skanska.com](mailto:Eric.Dovak@Skanska.com).

Outside the Preferred Navigation Channel: Scaffolding will extend below the bridge approximately two feet from the west boundary of the Federal project channel to the center of the Federal project channel (west boundary of preferred navigation channel) and from the east boundary of the preferred navigation channel toward the east abutment approximately 385 feet. West of the west boundary of the Federal project and east of the position approximately 385 feet east of the east boundary of the preferred navigation channel, scaffolding will extend below the bridge approximately three feet.

A safety boat will be in the vicinity of the bridge during bridge maintenance, which may be reached via VHF FM channel 13. Mr. Eric Dovak, contractor's representative, may be reached at [Eric.Dovak@Skanska.com](mailto:Eric.Dovak@Skanska.com) or (347) 860-2399. Mariners are advised to exercise caution when transiting the area. (HP)

New Jersey Intracoastal Waterway (NJICW), Barnegat Bay - SR 37 (J. Stanley Tunney) (fixed) Bridge – Bridge maintenance will be conducted from 7 a.m. to 3:30 p.m.; Monday-Friday; from October 25, 2021, through December 23, 2023. A 54-foot crane barge, a 40-foot material barge, a 24-foot work barge with push boat, float stages and divers will be located around the vicinity of the bridge. Vessels may safely transit through the navigational channel of the bridge unrestricted at all times. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (609) 941-9677 or (609) 331-2096. Mariners should use caution navigating through the area. (MT)

Rancocas Creek – I 295 Bridge - Bridge maintenance will be conducted from 7 a.m. to 3 p.m.; Monday-Friday; from June 20, 2022, through September 30, 2023. A work platform will be located under the bridge. During the maintenance period the work platform will be located under the bridge reducing the vertical clearance of the bridge approximately 17 feet at mean high water. Vessels that can safely transit through the bridge during periods with a reduced vertical clearance may do so at any time. The project foreman may be reached on VHF-FM channel 13 and 16, and (267) 935-2194. Mariners should use extreme caution navigating through the area. (MT)

New Jersey Intracoastal Waterway (NJICW), Broad Thorofare - Route 152 Bridge (Longport Sommers Point Blvd Bridge) - Bridge maintenance which began on June 20, 2022, will continue to be conducted from 7 a.m. to 3 p.m.; Monday-Friday; through March 31, 2023. The vertical clearance will be reduced by 3 ft. The shielding system will remain in place for the duration of the project. Work vessels may be reached on VHF-FM channel 13. Mariners should use extreme caution navigating through the area. (KB)(HP)

New Jersey Intracoastal Waterway (NJICW), Beach Thorofare - Route 30 (Absecon Boulevard) Bridge - To facilitate repairs, a work platform will reduce the horizontal clearance of the navigation channel to approximately 50 feet and temporary shielding will reduce the vertical clearance of the entire bridge to approximately 19 feet above mean high water in the closed position. Mariners should use caution when transiting the area. (MS)

Schuylkill River - CSX (Tasker Avenue/BAK-2) Railroad Bridge - Bridge causality. Until further notice, the eastern navigation span will be restricted; the western navigation span of the bridge will be available for vessels to safely transit through the bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. The drawbridge will continue to operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.905 (a). (MT)

- *Pennsylvania* –

Schuylkill River - Schuylkill River Park Trail - along the eastern bank of the Schuylkill River - Construction activities commenced in mid-

February 2022, and are scheduled to conclude at the end of April 2025. Work will be performed from 6 a.m. to 6 p.m., Monday through Friday, with potential night and weekend work. A 70-foot by 120-foot crane barge, 30-foot by 100-foot material barges, work floats, and 24-foot work boats will be utilized during operations and stationed in the vicinity of construction. Vessels may be contacted via VHF-FM on channel 13 or 16. Construction firm representatives may be contacted at (215) 669-7883 and (484) 680-8550, 24-hours/day. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Mariners should navigate the vicinity of construction with due caution at minimum safe speed. (HP)

New Jersey Intracoastal Waterway, Cape May Canal - SR 109 Bridge - Bridge painting will be conducted from 7 a.m. to 3 p.m.; Monday through Friday; from June 20, 2022, through May 1, 2023. There will be no equipment in the water, but a temporary shielding system will reduce the vertical clearance by 5 feet. Mariners should use extreme caution navigating through the area and transit through the bridge at a safe speed. (MS)

Schuylkill River - CSX (Tasker Avenue/BAK-2) Railroad Bridge - Bridge causality. Until further notice, the eastern navigation span will be restricted; the western navigation span of the bridge will be available for vessels to safely transit through the bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. The drawbridge will continue to operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.905 (a). (MT)

Delaware River - Millrift Railroad Bridge - Bridge maintenance will not restrict the height or width of the main navigational channel. Maintenance will be from 7:00 a.m. to 7:00 p.m. from August 1, 2023, through December 31, 2023. The project foreman can be contacted by phone (678) 427-5228. All mariners should use caution when transiting the area. (JW)

Delaware River - Cochecton Turnpike Bridge - Bridge maintenance (painting) will be conducted between August 8, 2023, and November 7, 2023, from 6:30 a.m. to 6:30 p.m. Monday-Friday. To facilitate painting operations, equipment has been installed reducing the available vertical clearance by seven feet to approximately 25 feet, above MHW. Mariners should use caution when transiting the area. (CT)

#### SECTOR MARYLAND-NATIONAL CAPITAL REGION

- ***Maryland***

Lower Potomac River - Harry W. Nice/Thomas "Mac" Middleton (US 301) Bridge - Construction will commence in May 2020, with completion estimated in November 2024. Work is scheduled from 7:00 a.m. to 7:00 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, a barge loading facility will be constructed on the Maryland shore and work trestles will be located north of the existing bridge extending outward from the Virginia shore to approximately 320 feet and from the Maryland shore to approximately 200 feet. Dredging will occur from the end of the Virginia work trestle until the water depth reaches 6 feet at mean lower low water. A vertical clearance of 135 feet above mean high water and horizontal clearance of 250 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (KB)

Curtis Creek - CSX Railroad Bridge - Bridge maintenance will be conducted from 7 a.m. to 4 p.m., Monday through Friday and occasional weekends, if needed, from January 27, 2023, through September 30, 2023. During work hours there will be a barge in the westside of the navigation channel reducing the horizontal clearance by approximately 24 feet. If track equipment is required, the bridge will be closed. When this occurs, the bridge will remain open upon request. Once the open request is received, track equipment and personnel will immediately clear to open for marine traffic. VHF CH 13 and CH 16 will be monitored by two dual watch handheld marine radios or phone numbers (410) 596-1816, (813) 415-5727, (919) 616-9622 for bridge opening requests. Mariners should use caution navigating through the area. (JW)

Chesapeake Bay - US 50/US 301 (William P. Lane Jr. Memorial) East Bound Bridge - Bridge maintenance will be conducted from 6:30 a.m. to 5:30 p.m.; 7 days a week; from March 1, 2023, through December 2024. During work hours, work vessels will be located in and around the vicinity of the bridge. Work vessels may be reached on VHF-FM channel 13. Mariners should use caution navigating through the area. (CT)

Nanticoke River - SR 313 (Sharptown Road) Bridge - Maintenance will be conducted from 7 a.m. to 7 p.m.; 7 days a week; from March 15, 2023, through 7 p.m. August 31, 2023. A containment system will be located on and around the vicinity of the bridge for the entirety of the maintenance period. The containment system will reduce the vertical clearance of the bridge to approximately 46 feet of vertical clearance above mean high water. The project foreman can be reached at (727) 515-9174 or (727) 237-3948. Mariners should use caution navigating through the area. (MT)

Curtis Creek - CSX Railroad Bridge - To facilitate bridge maintenance the bridge will remain in the closed position from 7 a.m. through 5 p.m., M-F, from June 26, 2023, through August 31, 2023. A 24-foot work boat, a 20-foot work boat and two 24-foot work floats will be located in and around the vicinity of the bridge. During the work hours, the bridge will open on signal, if at least a two-hour prior notice is given to the CSX Flagman and/or the onsite project foreman, and the horizontal clearance of the bridge will be reduced to approximately 125 feet due to work floats located inside the navigational channel. Vessels that can safely transit through the bridge in the closed position and during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge in the closed position and during periods with a reduced horizontal clearance may transit through the bridge, if at least a two-hour prior notice is given to the CSX Flagman and/or the onsite project foreman. Maintenance personnel, equipment and vessels will relocate from the moveable span and navigable channel, upon request. Work vessels and CSX Flagman may be reached on VHF-FM channel 13 and 16. The CSX Flagman and onsite project foreman can also be reached at (410) 596-1816 or (813) 415-5727 or 919-616-9622. The bridge will be able to open for emergencies, if at least a 30-minute prior notice is given to the CSX Flagman and/or onsite project foreman. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.5. Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)

- ***Washington DC***

Anacostia River - Frederick Douglass Memorial (South Capitol Street) Bridge -

Construction of the new Frederick Douglass Memorial (South Capitol Street) Bridge and demolition of the old bridge across the Anacostia River in Washington, DC continues into 2023. The federal navigation channel east of the original center submerged pier, approximately 150 feet wide, remains available for navigation. Exclusion buoys labelled "DANGER" mark the ongoing bridge demolition in the Federal Channel. In addition, lit temporary piles are positioned around the old pier. Mariners are urged to use extreme caution when transiting the area, and to operate at minimum speed necessary to maintain safe course through the work site (CT)

- ***Virginia (Northern) – None.***

#### SECTOR VIRGINIA

- ***Virginia (Southern)***

Hampton Roads - I-64/US 60 (Hampton Roads Beltway) North and South Approach Bridges - Construction activities commenced on March 15, 2021, and are expected to continue through November 2025. Marine construction activity will take place 24-hours per day, seven days a week. The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00' 24.12" N, 76° 19' 18.84" W for the west span and at position 37° 00' 24.48" N, 76° 19' 15.60" W for the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet

above mean high water at position 36° 58' 15.24" N, 76° 18' 03.96" W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new approach bridge spans or located within specific Mooring Areas or Safe Harbor locations.

Bridge Structures/Work Trestles & Islands – Mariners are advised to maintain a safe distance of 300 feet from all HRBT bridge structures/work trestles, HRBT North Island, and HRBT South Island. Construction managers may establish safe transit corridors through bridge structures/work trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines next to the existing trestles for the duration of the bridge construction to facilitate construction activity. Each pile will be lit by a flashing white light.

Hampton Flats Mooring Area – As charted. Changes pending. This area will contain six mooring buoys, lighted with flashing white lights, for the exclusive use of vessels involved in the HRBT Expansion project. The corners of the mooring area are marked with yellow buoys with flashing yellow lights. Mariners should use caution when transiting the area.

Phoebe Safe Harbor Area – As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. When utilized, mariners should keep clear of the area.

Willoughby Bay Mooring and Safe Harbor Area – As charted. This area contains a straight row of mooring pilings for the exclusive use of vessels involved in the HRBT Expansion project. The two end pilings are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-685-3392 or Kareem Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373-4799 and/or email [MarineOps@hrcpjv.com](mailto:MarineOps@hrcpjv.com). In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at <https://hrbtexpansion.org>. (MT)

Willoughby Bay - I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - Construction activities began on June 7, 2021, and are expected to continue through December 2023. Marine construction activity will take place 24-hours per day, seven days a week.

The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

Bridge Structures/Work Trestles: Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area – As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536-9863 and/or email [MarineOps@hrcpjv.com](mailto:MarineOps@hrcpjv.com). In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at <https://hrbtexpansion.org>. (MT)

Milford Haven Inlet - State Route 223 (Gwynn's Island Bridge) – Due to significant delays in fabrication of mechanical elements of the bridge's swing span, the drawbridge will remain in the closed-to-navigation position on May 8, 2023, and from May 9, 2023, through October 12, 2023. During the closure periods, the bridge will open on signal for vessel traffic at 11 a.m., 7 p.m., and 10 p.m. on May 8, 2023, and at 2 a.m., 5 a.m., 8 a.m., 11 a.m., 7 p.m. and 10 p.m. from May 9, 2023, through October 12, 2023. Vessels able to pass through the drawbridge in the closed position may do so at any time. The vertical clearance of the drawbridge in the closed-to-navigation position is 12 feet above mean high water. The drawbridge will be able to open for emergency vessels commencing May 8, 2023, at 11 a.m. Mariners should adjust their transits accordingly and use extreme caution when transiting the area. (CT)

Southern Branch of the Elizabeth River - US 13/460 (Gilmerton) Bridge - To facilitate the work, the bridge will be maintained in the closed-to-navigation position from 9 p.m., on Friday, June 2, 2023, to 5 a.m., on Monday, June 5, 2023; except for scheduled openings at 7 a.m. and 5 p.m., daily. The vertical clearance of the bridge is 36 feet above mean high water in the closed position. Vessels able to pass through the bridge in the closed position may do so after confirming their current clearance. The bridge will not be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.997(c). Mariners should use extreme caution when transiting the area. (MS)

Western Branch of the Elizabeth River - US 17 (Churchland) Bridge – The horizontal clearance will be reduced to 35 feet, 24 hours a day, until June 30, 2023. There will be a work barge IVO the bridge during this time. Vessels able to pass may do so at any time. The project officer can be reached via cell at (757) 708-2900, or on VHF/FM CH 13. All mariners should use caution when transiting the area. (MS)

James River - James River Bridge – Bridge maintenance will not affect operations of the movable span or restrict the height or width of the main navigational channel. Maintenance will be from 6:30 a.m. to 7:30 p.m. from March 15, 2023, through December 15, 2023. The project foreman can be contacted on VHF-FM channel 13 and (703) 870-9625. All mariners should use caution when transiting the area. (JW)

Southern Branch of the Elizabeth River - I-64 High Rise Bridge - To facilitate bridge work, the bridge will have a reduced vertical clearance from 7 a.m. to 7 p.m., Monday through Saturday, from March 6, 2023, through September 1, 2023. During work hours a snooper truck will be located in and around the navigation channel reducing the vertical clearance of the bridge in the closed position by approximately 10 feet to approximately 55 feet above mean high water. Vessels that can safely transit the bridge in the closed position with the reduced vertical clearance may do so at any time. Vessels that can safely transit the bridge in the closed position that require a vertical clearance of 65 feet above mean high water may do so, if at least a 60-minute notice is given to the project foreman or bridge tender. The project foreman may be reached on VHF-FM channel 13 and at (843) 957-5951. The drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.997(e). All mariners should use caution when transiting the area. (JW)

Chesapeake Bay - US 50/US 301 (William P. Lane Jr. Memorial) East Bound Bridge - Maintenance will be conducted from 9 a.m. to 3 p.m.; Monday through Wednesday; from May 22, 2023, through June 29, 2023. During work hours, a snooper truck will be located in and around the secondary navigational channel reducing the vertical clearance by approximately 15 feet to approximately 43 feet above mean high water. A safety boat will be in and around the vicinity of the secondary channel and can be reached on VHF-FM channel 13. The project manager can be

reached at (443) 722-4386. Mariners should use caution navigating through the area. (JW)

James River - SR 156 (Benjamin Harrison Memorial) Bridge – The bridge will be

maintained in the closed-to-navigation position to facilitate a bridge inspection of the bridge. The bridge will remain in the closed position from 9 a.m. through 3 p.m., from July 10, 2023, through July 14, 2023. Alternative closure periods will be from 9 a.m. through 3 p.m., from July 17, 2023, through July 21, 2023. The bridge will open on signal, if a one-hour prior notice is given. During the closure periods, an under-bridge inspection vehicle will be located on and operating underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 40 feet above mean water. The bridge will not be able to open for emergencies. There is no immediate alternative route for vessels unable to pass through the bridge in the closed position. Vessels able to pass through the bridge in the closed position with the reduced vertical clearance may do so at any time. Vessels able to transit through the bridge in the closed position, but require the full 50 feet of vertical clearance, should notify the bridge tender at least 10 minutes prior to transiting through the bridge to allow for navigation safety. The bridge tender may be reached on VHF-FM channels 13 and 16 and/or 757-630-5522. The project foreman can be reached at (804) 564-4075. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.5. Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)

Elizabeth River-Eastern Branch - I-264 (Berkley) Bridge – Bridge inspection will be conducted from 7 a.m. to 5 p.m.; Monday-Friday; from July 6, 2023, through July 7, 2023. Alternative workdays will be from 7 a.m. to 5 p.m., on July 10, 2023, through July 11, 2023. A 40-foot crane barge and a 25-foot tugboat will be located in and around the vicinity of the bridge. During the work hours, the crane barge will be located in the navigational channel, adjacent to the fender system, which will reduce the horizontal clearance of the bridge to approximately 100 feet. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may safely transit through the bridge, if at least a thirty-minute prior notice is given to the bridge tender. Inspection personnel, equipment and vessels will relocate from the moveable span and navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman can be reached at (757) 621-8443 or (252) 333-4656. Mariners should use extreme caution navigating through the area. (MT)

Diascund Creek - SR 601 (Hicks Island Road) – Bridge construction activities which began May 2023, are expected to finish on January 24, 2025. Work will be on-going from 7 a.m. to 5:30 p.m., Monday-Saturday. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. A 20x8 foot wide work barge, 17-foot safety boat, will be operating or stationed in the vicinity of the existing and new bridge. A temporary trestle bridge will be constructed adjacent to the existing bridge site to allow for vehicular travel. The temporary trestle bridge will have a vertical clearance of approximately 2 feet at mean high water, and a horizontal clearance of approximately 25 feet. During the demolition of the existing bridge and construction of new bridge, the east and west channels will each be reduced to approximately 13 feet between the abutment and pier cofferdams and one of the channels will be occupied by the work barge, while the other channel will be available for vessels to safely transit. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Bryant Structures' work barge and safety boat will be operating in the area. The VDOT Construction Manager may be contacted at (757) 719-0556 and Bryant Structures' may be contacted at (757) 869-6591 or (757) 897-8728. Project information may be found at

<https://www.virginiadot.org/projects/hampton-roads/route-601-over-diascund-creek.asp>. (MT)

## SECTOR NORTH CAROLINA

- **North Carolina**

White Oak River - S882 Bridge (near Stella, NC) – Bridge construction will commence in October 2021, with completion estimated in January 2024. Work is scheduled from 6 a.m. to 6 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, temporary work trestle will be installed in the White Oak River between October 2021, and February 2022, and will remain in place until completion. Work trestles will be located immediately adjacent and upstream of the existing White Oak River railroad trestle. The temporary trestle vertical clearance of 10.5 feet above mean high water and horizontal clearance of 33 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (CT)

Banks Channel - South Bank Channel Bridge – Bridge maintenance will continue on the South Bank Channel Bridge over Banks Channel at Wrightsville Beach in New Hanover County, NC from 6 a.m. to 7 p.m. 7 days a week, through September 30, 2023. During the repair period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 4 feet above mean high water. Vessel traffic will need use an alternate route. Work vessels may be reached on VHF-FM channel 13 and 16. will be performed from 6 a.m. to 7 p.m., 7 days a week, from January 3, 2022, through June 30, 2023. During the repair period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 4 feet above mean high water. Vessel traffic will need use an alternate route. Work vessels may be reached on VHF-FM channel 13 and 16.

Perquimans River - US 17 Bridge – New bridge is under construction until August 2022. Vessels able to pass through the bridge in the closed position may do so at any time. Mariners should exercise caution when transiting the area. (HP)

Atlantic Intracoastal Waterway - Onslow Beach Swing Bridge - Construction activities, which began in October 2022, and are expected to finish in February 2025. Work will be on-going from 7 a.m. through 7 p.m.; Monday through Friday, excluding Government holidays. To facilitate construction of the new bridge fender system, a work barge will be placed in the navigation channel from 8 a.m. to noon, and 1 p.m. to 5 p.m.; Monday through Friday, excluding Government Holidays from January 5, 2023, through March 31, 2023. During construction of the new bridge fendering system vessels with beams less than 20 feet may transit the bridge at any time and vessels with beams greater than 20 feet should adjust their voyage plan to transit the bridge outside working hours or between the hour of noon to 1 p.m. Vessels with a beam greater than 20 feet unable to adjust their voyage plan between the hour of noon to 1 p.m., may transit the bridge during working hours, if at least 24 hours' notice is given. Two barges, support vessel, and crew boat will be operating or stationed in the vicinity of the existing and new bridge. Temporary work platforms will be in place for the duration of construction of the new bridge and demolition of the existing bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Barge and vessels may be reached on VHF-FM channel 13 and 16 when work is in progress or vessels are operating the area. Mariners should use caution when transiting the area. (CT)

Croatan Sound - William B. Umstead Bridge – Bridge maintenance will not affect operations or restrict the height or width of the main navigational channel. Maintenance will be from 7 a.m. on March 15, 2023, through 6 p.m. on December 15, 2023. The project foreman can be contacted on VHF-FM channel 13 and (252) 423-0114. All mariners should use caution when transiting the area. (JW)

Chowan River - Chowan River Bridge (US 17) – Bridge maintenance will be conducted from June 1, 2023, to October 31, 2023; seven days a week during daylight hours. Work floats and barges will be working in the vicinity of the bridge. All work will be conducted outside the navigation channel. Mariners should use caution when transiting the area. (CT)

Permits/Construction:

## SECTOR DELAWARE BAY

- *Delaware* – None
- *New Jersey (Central & Southern)* - None
- *Pennsylvania* – None

## SECTOR MARYLAND-NATIONAL CAPITAL REGION

- *Maryland*  
Potomac River - Theodore Roosevelt (fixed) Bridge - DDOT is conducting an investigation and assessment of the bridge. Will assess structural condition, needs for extended life cycle, and safety compliance improvements. Then will do a design analysis of alternatives with construction in the future (no date given).

Anacostia River – 11th Street Bridge Park – Proposed fixed pedestrian bridge park to be built on retained substructure of old 11<sup>th</sup> Street Bridge. (KB)
- *Virginia (Northern)* – None

## SECTOR VIRGINIA

- *Virginia (Southern)* – None

## SECTOR NORTH CAROLINA

- Mid-Currituck Sound (fixed) Bridge – Proposed new fixed structure. (MS)
- Alligator River – US 64 (fixed) Bridge Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package. (HP)
- Cape Fear River – Wilmington bypass south (fixed) Bridge Proposed new fixed bridge structure in review of the design and environmental package. (MT)

## **SUMMARY OF DREDGING/MARINE CONSTRUCTION PROJECTS**

### **CURRENTLY IN PROGRESS**

#### **Enclosure (3)**

##### **NEW OR UPDATED INFORMATION**

New, updated or very important information in this enclosure are highlighted in yellow.

##### **DREDGING AND MARINE CONSTRUCTION CAUTIONS**

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks, and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing, and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires, and related equipment. Dredging projects are usually conducted 24 hours a day, 7 days a week. All fishnets, crab pots and structures in the general area must be removed, prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

##### **NEW JERSEY**

##### **\*\*\*\*NJ – SHARK RIVER – MARINE SOIL BORING\*\*\*\***

Aquifer Drilling and Testing will begin marine soil boring on July 17, 2023 from various locations along both sides of the Main Street Bridge in the Shark River. Boring will be conducted from a 44ft jack up barge. At no time will barge impede vessel traffic in channel. Boring will be conducted 7 days a week from 0600 to 1800 and is expected to be completed around **September 29, 2023**. Crew can be reached on VHF-FM channels 9, 16, and 13.

##### **NJ – LITTLE EGG INLET TO HEREFORD INLET - BRIGANTINE INLET- BEACH NOURISHMENT - BRIGANTINE ISLAND**

Norfolk Dredging Company will begin beach nourishment on July 15, 2023, from Brigantine Inlet to Great Egg Harbor Inlet. The Dredge DELAWARE will dredge material from a location southeast of Brigantine Inlet, no more than one mile out. A floating pipeline will be placed from the southern side of the borrow area to a submerged pipeline that follows parallel along the beach in 15 feet of water to Brigantine Island Beach Placement. Submerged pipeline, approximately 15,000 feet, will be marked with buoys with appropriate signs and lights placed at pipeline entry and exit points. The floating pipeline length is approximately 3,000 feet at its longest and will be anchored and tended by tender tugboats. The dredge DELAWARE will stage in Absecon Inlet on the northern side of the channel in the vicinity of Brigantine Bridge. The dredge operator will monitor VHF-FM channel 13, 16, and 5.

Mariners are requested to exercise extreme caution when approaching, passing, and leaving the dredging plant. A slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing. All fishnets, crab pots and structures in the general area must be removed prior to commencement of work. Dredging operations will be conducted 24 hours a day, 7 days a week, and is expected to be completed by **October 1, 2023**.

Chart 12318 LNM 26/23.

#### **NJ – LITTLE EGG INLET TO HEREFORD INLET – DREDGING & BEACH RE-NOURISHMENT**

Great Lakes Dredge and Dock, LLC will begin Beach re-nourishment of Great Egg Harbor Inlet and Peck Beach including placement of approximately 1,810,000 cubic yards of beach fill starting from the groin at Seaview Road and ending between 14th and 15th Streets in Ocean City, New Jersey. The Cutter Suction Dredge (CSD) Texas will dredge beach fill quality material from the Great Egg Harbor Inlet Borrow Area, located approximately 5,000 feet offshore, northeast of the project location, east of the Great Egg Harbor Inlet. The material will pump through one subline extending from the borrow area to the placement beach. GLDD has secured two waterside staging areas on the northeast side of Absecon Inlet in Atlantic City and in Cape May Harbor where rafted pipeline and equipment will be stored when not in use. The survey vessel Wolf River and crew transfer vessel (CTV) Cooper River will traverse between the work areas and Golden Nugget Marina in Atlantic City throughout the duration of the project.

For cautionary areas and dredging/work operations, mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Cutter Suction Dredge (CSD) Texas, Derrick GL64, Anchor Barge, GL116, Tug Evergreen State, Tug Caspian Dawn, Tug Mr. Connor, CTV Cooper River, and survey vessel Wolf River can be reached on VHF-FM 13 and 16. Operations will be conducted 24 hours per day, 7 days per week.

Anticipated completion Date is **August 30, 2023**.

Chart 12318

#### **NJ – TOWNSENDS INLET – BEACH NOURISHMENT – AVALON TO STONE HARBOR**

Great Lakes Dredge and Dock will begin beach nourishment from Townsends Inlet to Cape May Inlet. Beach fill will start from Avalon 9th Street to 32nd Street Avalon, NJ and Stone Harbor 91st Street to 125th Street, Stone Harbor, NJ. The Cutter Suction Dredge (CSD) Texas will dredge material from the Townsends Inlet Borrow Area, located approximately 5,000 feet offshore, northeast of the project location, west of the Townsends Inlet. The material will pump through one subline extending from the borrow

area to the placement beach. GLDD has secured two waterside staging areas on the Cape May Inlet where rafted pipeline and equipment will be stored when not in use. The survey vessel and crew transfer vessel (CTV) Saginaw River will traverse between the work areas and Avalon Marina throughout the duration of the project. All vessels will monitor VHF – FM 16 & 13. Dredging will be conducted 24 hours a day, 7 days a week and is expected to be completed **August 30, 2023**.

Chart 12318 LNM 04/23

#### **\*\*\*\*NJ – PENNSYLVANIA HARBOR- DREDGING OPERATIONS – AVALON\*\*\*\***

Trident Piling Company, LLC, will begin mechanical dredging operations on July 14, 2023, in Pennsylvania Harbor, in the vicinity of 21<sup>st</sup> Street Marina, in Avalon, NJ. Trident Piling Company will have 2 push boats, 1 excavator barge, and 8 hopper barges on site. The vessels on scene will monitor VHF-FM radio channel 10. The expected completion date is **July 31, 2023**. Mariners are reminded to transit the area with caution.

#### **NJ – LITTLE EGG HARBOR TO CAPE MAY – CAPE MAY HARBOR – DREDGING AND SUBMERGED DREDGE PIPE**

Mobile Dredging and Video Pipe Inc. will be conducting dredging operations in Middle Thorofare Channel, in approximate position latitude 38°57'30.44"N, longitude 74°52'38.83"W, and in Spicer's Creek Channel, in approximate position latitude 38°57'12.51"N, longitude 74°54'32.69"W. The dredging operations will begin on July 6, 2023, and the anticipated completion date is **December 31, 2023**. The Dredge D-40 will be conducting the dredging in Middle Thorofare Channel and the Dredge D-15 will be conducting the dredging in Spicer's Creek Channel. Both dredges will be monitoring VHF-FM radio channel 72 and 13.

Mobile Dredging and Video Pipe Inc. has submerged dredge pipeline beginning in Cape May Canal just north of the entrance to Spicer's Creek, and then continues to Cape May Harbor Light 16 (LLNR 36780) and then along the red side of channel to Cape May Harbor Front Light 4 (LLNR 36733), before finishing beneath Middle Thorofare Bridge. Please reference the chartlet below for the approximate location of the submerged pipeline.

Mariners are advised to transit the area with extreme caution.

Chart 12317 LNM 16/23

#### **PENNSYLVANIA**

#### **PA – PHILADELPHIA AND CAMDEN WATERFRONT – SCHUYLKILL RIVER**

Mariners are advised that a construction firm, on behalf of the City of Philadelphia, will be constructing an extension of the Schuylkill River Park Trail along the eastern bank of the Schuylkill River, between mile 6.3 and 6.4, at Philadelphia, PA. Construction activities commenced in mid-February 2022 and are scheduled to conclude at the end of **April 2025**. Work will be performed from 6 a.m. to 6 p.m., Monday through Friday, with potential night and weekend work. A 70-foot by 120-foot crane barge, 30-foot by 100-foot material barges, work floats, and 24-foot work boats will be utilized during operations and stationed in the vicinity of construction. Vessels may be contacted via VHF-FM on channel 13 or 16. Construction firm representatives may be contacted at (215) 669-7883 and (484) 680-8550, 24-hours/day. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Mariners should navigate the vicinity of construction with due caution at minimum safe speed.

Chart 12313 LNM 06/22

## **MARYLAND**

### **\*\*\*\*MD – FENWICK ISLAND TO CHINCOTEAGUE INLET – OCEAN CITY INLET – DREDGE OPERATIONS\*\*\*\***

Dredging operations are expected to commence in Ocean City, MD, between 2 July and **13 July 2023**. The work will be conducted within the federal navigation channel and at ebb/flood shoal at the confluence of the Ocean City Inlet and Atlantic Ocean. Interested mariners may contact the U.S. Army Corps of Engineers dredge via marine band radio VHF-FM channels 13 and 16.

Chart: 12211. LNM 26/23

### **MD – HONGA, NANTICOKE, WICOMICO RIVERS AND FISHING BAY – BARREN ISLAND – SHORELINE STABILIZATION**

Coastal Design & Construction, Inc. will begin shoreline stabilization on Barron Island, MD starting on February 13, 2023 to approximately **October 26, 2024**. Twenty barges of various sizes will be moored in positions around the west side of the island. All barges will be marked with constant White Light per Coast Guard requirements and moorings with slow flashing white lights. Tug Capt. Dale and Push Boat Emelie B will be monitoring VHF Channel 13 & 16. For more information, contact, J Richard Mattingly – Superintendent (Marine), Cell: 301-643-4323.

Chart 12261 LNM 05/22

### **MD – COVE POINT TO SANDY POINT – COVE POINT LNG TERMINAL – DIVE OPERATIONS**

Greg's Marine Construction will provide maintenance to the Cathodic Protection services for Dominion's Cove Point LNG Terminal. This involves placing a cofferdam around a portion of the tunnel and working from barges and boats. Vessels are requested to use idle speed when within 2 miles of terminal so as not to have the barges hit against the tunnel due to high waves and for the safety of diver and crew on board.

The work is scheduled to begin June 5, 2023 through **October 30, 2023**.

Chart 12263 LNM 23/23

### **MD – COVE POINT TO SANDY POINT – BREEZY POINT MD – SHORELINE RESTORATION PROJECT\*\*\*\***

Seaward Marine Corp. will conduct shoreline restoration in Breezy Point, MD, starting July 5, 2023. Seaward Marine will utilize multiple barges and as well various tugs in vacuity of project.

Project bounded by:

Northwest Extent: 38°37.231' N, 76°30.820' W Northeast Extent: 38°37.230' N, 76°30.620' W

Southwest Extent: 38°36.919' N, 76°30.822' W Southeast Extent: 38°36.918' N, 76°30.622' W

Staging Area bound by:

Northwest Extent: 38°36.575' N, 76°30.279' W Northeast Extent: 38°36.574' N, 76°30.068' W

Southwest Extent: 38°36.413' N, 76°30.280' W Southeast Extent: 38°36.410' N, 76°30.069' W

Angelina Autumn, Seaward 4, Brittany Lynn, and Geri T can be reached on VHF channels 16,13, and 03 and is expected to be finished around **August 30, 2023**.

Chart 12263 LNM 26/23

### **MD – CHOPTANK RIVER AND HERRING BAY – ROCK HOLD CREEK**

Southern Maryland Dredging, Inc. will begin the dredging of Herring Bay and Rockhold Creek, beginning in the Herring Bay and working their way into Rockhold Creek. Equipment will be on site starting June 12, 2023 and anticipated dredging will begin the week of June 26, 2023.

The dredge is an Ellicott 670. In addition to the dredge, 4 small work skiffs, 4 miles of pipeline from the dredge to the spoil site and two anchor barges as well as two booster pumps will be utilized. The pipeline will be continuously marked with orange buoys. Dredge will operate 5 days a week, 12 hours a day, weather permitting, and we will monitor VHF-FM channel 08. Work is scheduled to be completed by **August 31, 2023** with equipment breakdown shortly after. All equipment should be removed from the area by September 30, 2023.

Chart 12266 LNM 24/23

### **MD – BALTIMORE AND VICINITY – DREDGE OPERATIONS**

On or about June 1, 2023, Cashman Dredging and Marine Contracting Co., LLC will begin dredging operations in the Baltimore Harbor Channels, Brewerton Angle, Brewerton Channel Eastern Extension, Craighill Angle, and Tolchester Channel. The work areas are located on NOAA Charts 12270, 12278, & 12281 inside the coordinates listed below.

Brewerton Angle		Craighill Angle

		N39°11'20.52	W-76°16'36.91	N39°07'58.70
				W-76°19'17.00

The project will utilize the Dredge Dale Pyatt and dump scows Joe Verrochi, MERC Shevlin, Kurt Schulte, and DMT - 7253. Loaded scows from the Brewerton Angle will be transported to Cox Creek, located on Marley Neck, for disposal by the off-loader barge Kraken. Cox Creek on Marley Neck is located on NOAA Chart 12281. Loaded scows from the Brewerton Channel Eastern Extension, Craighill Angle, and Tolchester Channel will be transported to the Northern Access Channel at Poplar Island for disposal by the off-loader barge Kraken. Poplar Island North Access Channel is located on NOAA Chart 12270. Loaded scows will be transported by the tugboats Charles James, Michael Daigle, John Joseph, Indian Dawn, and Kendall Hebert. The marine equipment will be supported by the survey vessel "Cape Elizabeth" and the support vessel "Brooks Hooks." All vessels will monitor VHF channels 16, 13, and 67.

**Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.**

Marine operations will be conducted 24 hours daily, Monday through Sunday. Marine operations will be completed on or before **Sept 15, 2023**  
Chart 12270, 12278, 12281

#### **MD – POTOMAC RIVER - CHESAPEAKE BAY TO PINEY POINT - SAINT MARYS RIVER**

Pier construction operations are scheduled to occur along the western shoreline of the St. Mary's River, at the Coppage Pier in Drayden, MD from **July 15, 2023 to August 31, 2023**. The work will be conducted Mondays through Saturdays, from 7 a.m. to 5 p.m. The project consists of the construction of a 550' x 6' timber pier, 10' x 6' "L" platform, 4' x 10' "L" lower platform, 3' x 15' stairwell and the installation of two boat lifts, two PWC lifts and four mooring piles in approximate position 38°09'25.0452" N, 076°27'5.6088" W. During that period, a 30' x 80' construction barge and a 25' workboat will be on scene. All equipment will be marked and lighted as required by U. S. Coast Guard regulations. Mariners are urged to use caution when transiting the area and operate at minimum speed necessary to maintain safe course near the work site. Interested mariners can contact the on-scene work vessels via marine band radio VHF-FM channels 16 and 13.

Chart 12233.

#### **\*\*\*\*MD – BALTIMORE HARBOR – FAIRFIELD CHANNEL – FAIRFIELD MARINE TERMINAL – PIER REPLACEMENT\*\*\*\***

McLean Contracting Company will conduct pier replacement on pier 4 in the Fairfield Marine Terminal from July 2023 to July 2025. Work will be conducted 24 hours a day, 7 days a week until complete. Up to 4 crane barges and as well as numerous material barges will be moored around the pier. All assist boats will monitor VHF-FM 74.

Chart 12281

#### **VA – POTOMAC RIVER – ALEXANDRIA CHANNEL – CONSTRUCTION**

River Renew will begin building a turbidity curtain on October 25, 2021, in approximate position 38.8096919N, 77.038250912W. Once turbidity curtain is complete, a permeant seawall will be built, shore side of curtain. All work will be conducted from shore; however, seawall could extend 30ft into Oronoco Bay and the Potomac River. Project completion, anticipated to be **August 2024**.

LNM 41/22

#### **DC**

None

#### **VIRGINIA**

##### **VA – CAPE MAY TO CAPE HATTERAS – CHESAPEAKE BAY SOUTHERN APPROACH – DREDGE OPERATIONS**

Dutra Group will begin dredge operation starting the first week of July. Hopper dredge Stuyvesant will conduct all offshore work between Chesapeake Bay Southern Approach Lighted Buoys 7 and 8 (LLNR 445 and 450) through Chesapeake Bay Southern Approach Lighted Buoys 11 and 12 (LLNR 465 and 470) with spoils going to the DNODS offshore disposal Sites 3 & 4. Work will continue until **September 1, 2023**.

Chart 12200) LNM 25/23

##### **VA – LYNNHAVEN RIVER WESTERN BRANCH – DREDGE OPERATIONS\*\*\*\***

Salmons Incorporated will conduct maintenance dredging operations starting in the Cripple Creek area of Lynnhaven River Western Branch. Dredging will begin July 17, 2023 and will dredge during daylight hours, Monday through Friday and possibly Saturday until completed on or before **August 31, 2024**. Material will be loaded into barges by hydraulic excavator with pusher boat Miss Naomi moving barges to unloading area.

Chart 12254

##### **VA – LYNNHAVEN RIVER EASTERN BRANCH – DREDGE OPERATIONS**

H&H Enterprises will be dredging three locations inside Lynnhaven River which are Brown Cove, Keeling Drain, and Pleasure House Creek. Dredge spoil barge will be working in the Lynnhaven basin and Crab Creek area. The push boat, "Miss Jennifer", will be transiting with the dredge spoil barge from Lynnhaven River to Western Branch of the Elizabeth River and will be standing by on VHF-FM channels 13, 16 and cell 757-435-9667. Dredging operations will begin February 6, 2023 and end **January 2024**. For more information or questions, contact H&H Enterprises at 757-484-0308.

Chart 12222. LNM 05/23

##### **VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE BAY BRIDGE TUNNEL – MARINE OPERATIONS**

Chesapeake Tunnel Joint Venture will continue Tug, Crane, and Barge operations near the existing tunnel protection berms for Islands 1 and 2. Work will not impede the navigational channel. A crane barge may be held in place by way of spuds, a six-point anchoring system or made fast to several steel mooring piles. Buoys will be attached to the anchors so that they may be moved as the crane barge advances. Buoys will be illuminated at night by one second flashing white lights and the barges will be illuminated by steady white lights on all corners. The steel piles will be illuminated at night by white lights. The steel piles and trestle will be positioned west of Island #1 approximately 125 feet and extending north of the fishing pier approximately 1000 feet. The ROBERT T and ANGELINA AUTUMN will be on VHF-FM 13 and 16.

Charts 12222

##### **VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGE OPERATIONS**

Great Lakes Dredge & Dock Company, LLC (GLDD) with the hopper dredge M/V ATB Douglas B. Mackie & Trailing Suction Hopper Dredge Ellis Island will commence channel dredging operations in the Thimble Shoal Channel between Thimble Shoal Channel Lighted Bell Buoy 9 (LLNR 9255) and Thimble Shoal Channel Lighted Buoy 18 (LLNR 9300) on approximately March 29th, 2023. Dredged material will be transported to DAM NECK OFFSHORE DISPOSAL SITE and bottom dumped in the contract designated area by the dredge. Operations occur 24 hours per day, 7 days per week.

Chart 12245 LNM 13/23

**\*\*\*\*VA – CAPE HENNEY TO THIMBLE SHOAL LIGHT - LITTLE CREEK HARBOR – DREDGE OPERATIONS\*\*\*\***

W3 Marine and the dredges MOBRO 112, MOBRO 114, and MOBRO 1003 will be conducting dredging operations at Little Creek Entrance Channel in the vicinity of Little Creek Naval Base beginning on January 15 2023 until **November 1, 2023**. The dredge can be contacted on VHF-FM channels 13 and 16. Mariners are requested to review the DREDGING and MARINE CAUTIONS notice at the beginning of this section. Mariners are requested to stay clear of the dredges, dumpscows, and attendant plant. Exercise extreme caution when approaching, passing, and leaving the dredge area. Mariners are reminded to strictly comply with Inland Rules of the Road.

Chart 12255 LNM 28/23

**VA – NORFOLK HARBOR AND ELIZABETH RIVER – SCOTT CREEK CHANNEL – PIER REPAIR**

Crofton Construction Services, Incorporated (CCSI) will be performing repair of Crofton Bulkhead in Scott Creek. Specifically, there will be installed approximately 276 linear feet of replacement steel sheet pile bulkhead, an average 3 feet channel ward of an existing, deteriorating bulkhead withing Scotts Creek, adjacent to property situated at 16 Harper Avenue in the City of Portsmouth. The limits of construction are approximately .20 acres in size and the area is bound by the land on the NW and Scott Creek on the other three sides of the bulkhead at in the following location:36°50'54.20"N, 76°18'56.41"W.

Beginning June 16, 2023, and continuing until **December 31, 2024**, approximately 198 days or until complete from 7:00 AM – 5:00 PM, five days a week. Operations will include crane barge operations, material barges, tugboats, work floats, and smaller crafts consistent with general marine construction.

Barge(s) & vessel(s) will be moored, on site with employees working over the side on small floats or crew boats. The construction equipment will be confined to the barges with crew boats working in the vicinity. The entire channel will not be closed, during any stage of construction, or will not restrict marine traffic. Vessels are requested to proceed in this area with caution and no wake within 500' of the above coordinates. Crews will be monitoring the following radio frequencies: VHF channels 13 & 16.

Chart 12253 LNM 23/23

**\*\*\*\*VA – HAMPTON ROADS - NEWPORT NEWS – PIPELINE INSTALLATION PROJECT\*\*\*\***

A pipeline installation project will begin on or about August 1, 2023 and is expected to continue to August 2025. A temporary work platform measuring 200 feet in length by 90 feet in width will be constructed on the south side of the federal shipping channel and federally maintained anchorage area, approximately  $\frac{1}{4}$  of a mile west of the Monitor-Merrimac Memorial Bridge Tunnel. Its approximate center at latitude/longitude 36.9486259°N, 076.4195787°W. At various stages of construction, series of piles will extend north ward from temporary work platform and barges will be moored to and around platform. The temporary work platform and each barge will be individually equipped with four (4) 360-degree visible white warning lights, one (1) light at each corner. All mooring piles, buoys, and goal-post piles will also be individually equipped with one (1) 360-degree visible white light atop each pile. At no time will construction project affect, interfere with, obstruct, nor otherwise adversely impact marine traffic in the federal navigation channel or federally maintained anchorage area.

Tugs, vessels, and platform operations associated with these construction activities will monitor VHF-FM channels 13 and 16 when work is in progress, or when vessels are operating in the project area. To reach an on-scene manager, contact Clint Robertson 757-705-6615. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Updated project information can be obtained from <https://www.hrsd.com/boat-harbor-underwater-transmission-pipe-installation>.

Chart 12245 LNM28/23

**VA – NEWPORT NEWS TO JAMESTOWN ISLAND – NEWPORTS NEWS SHIPBUILDING – DREDGE PROJECT**

Seaward Marine Corporation will begin maintenance dredging of Newport News Shipyard facility using crane barge and dump scows. Dredging will begin on May 20, 2023 and continue until **May 20, 2028**. Tender Tug, Matty T, will monitor VHF FM Channel 16, 13, 03. Operations will utilize two mooring buoys in approximate position: 36°58.825' N, 76°27.525' W, and 36°58.668' N, 76°27.386' W. All equipment will be lighted in accordance with regulations. For more information, contact Scott White, Project Manager, 757-641-2132.

**VA – NEWPORT NEWS TO JAMESTOWN ISLAND – JAMES RIVER – TRIBELL SHOAL CHANNEL - DREDGE OPERATIONS**

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington and support equipment will be conducting dredging operations in Tribell Shaol Channel on the James River. Operations will be ongoing between James River Channel Lighted Buoy 44 (LLNR 11987) and James River Channel Buoy 41 (LLNR 11945) from June 27, 2023 to **August 25, 2023**. Prior to approach, the dredge can be reached via VHF Radio Channels #13 and #16. For emergency the dredge operator can be contacted at phone number 757-635-2578.

Chart 12248

**VA – HAMPTON ROADS – NEWPORT NEW CHANNEL – DREDGE OPERATIONS**

Mariners are advised that the Norfolk Dredging Company will be conducting dredging operations in the Newport News Channel from January 2023 through **June 2023** for the Norfolk harbor deepening project. Work hours are 24 hours a day, 7 days a week. On February 24<sup>th</sup>through February 25<sup>th</sup>, the dredge Charleston will place floating pipeline 300 feet outside the channel toe and parallel to the channel within anchorage k-1 and k-2. During pipeline placement, vessels are to remain 300 feet away from the operation. There will be no obstructions to the Newport news channel during this project. The pipeline will be in place until June 2023 and will be marked with buoys every 500 feet, as well as appropriate signs and lights. The dredge operator will be monitoring VHF-FM channel 13, 16, and 5. Mariners are advised to proceed at a slow bell and contact the dredge Charleston prior to passing.

Chart - 12222, 12245 LNM 09/23

**VA – NEWPORT NEWS TO JAMESTOWN ISLAND – SKIFFES CREEK CHANNEL – DREDGE OPERATION**

Corman Kokosing Construction Company will begin mechanical dredging operations on behalf of the Army Corps of Engineers, commencing on or about March 13, 2023 at Ft Eustis located on the James River. Loaded scows will be towed from the work area along the Ft Eustis Channel to the Unloader barge located in Skiffs Creek near Goose Island. A 16"-18" submerged HDPE pipeline will be placed on the river bottom from the Unloading Barge into the placement Facility. The Dredge KOKO VI will perform the dredging with the assistance of a tender tug, towing tugs, and scows. Vessels and crew will monitor VHF channel 13 during the project execution. Dredging and unloading operations will continue periodically until the estimated completion date of **January 01, 2024**. For more information, contact Adam Dondero, (443) 695-3788, [adondero@kokos.com](mailto:adondero@kokos.com).

Charts 12248 LNM 10/23

**\*\*\*\*VA – JAMESTOWN ISLAND TO JORDAN POINT – JAMES RIVER – DANCING POINT SHOAL - DREDGE OPERATIONS\*\*\*\***

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge *Lexington* and support equipment will be conducting dredging operations in the Dancing Point and Swann Point Channels on the James River. Operations will be ongoing between James River Channel Lighted Buoy 57 (LLNR 12200) and James River Channel Lighted Buoy 66 (LLNR 12250) from July 12, 2023 to September 15, 2023. Prior to approach, the dredge can be reached via VHF Radio Channels #13 and #16. For emergency the dredge operator can be contacted at phone number 757-635-2578.

Chart 12251

**VA – JAMESTOWN ISLAND TO JORDAN POINT – CHICKAHOMINY RIVER – PIER PROJECT**

Crofton Construction Services, Incorporated (CCSI) will be performing construction at the Chickahominy Riverfront Park with the demolition of the existing pier and installation of a 290 open-pile pier, and asphalt access pathway. Approximate project location: 37°15'52.90"N, 76°52'28.98"W. Project will begin June 5, 2023, and continuing until **March 1, 2024**, from 7:00 AM – 5:00 PM, five days a week. Operations will include crane barge operations, material barges, tugboats, work floats, and smaller crafts consistent with general marine construction. Barge(s) & vessel(s) will be moored, on site with employees working over the side on small floats or crew boats. The construction equipment will be confined to the barges with crew boats working in the vicinity. The entire channel will not be closed, during any stage of construction, or will not restrict marine traffic. Vessels are requested to proceed in this area with caution and no wake within 500' of the above coordinates. Crews will be monitoring the following radio frequencies: VHF channels 13 & 16.

Chart 12251 LNM 21/23

**VA – JORDAN POINT TO RICHMOND – JAMES RIVER – SEDIMENT SAMPLING OPERATIONS**

Between 20 June and **17 July 2023**, the Norfolk District of the U.S. Army Corps of Engineers (USACE) in partnership with EA Engineering, Science, and Technology, Inc, PBC (EA) will be conducting sediment sampling operations within an approximate 22-mile-long stretch of the James River Federal Navigation Channel from the Richmond Deepwater Terminal to Windmill Point and within the Appomattox River Federal Navigation Channel. Sampling work will be performed near the centerline and at the margins (near the red and green channel toes) of the channel during daylight operations aboard the M/V *USACE Elizabeth*, a 100-foot long, self-propelled barge (MMSI 366999274) owned and operated by the USACE, Norfolk District. During sampling, the vessel will be anchored and have restricted maneuverability. The M/V *USACE Elizabeth* will be conducting crane operations with a sampling unit penetrating the riverbed and request a slow bell and no wake in vicinity of crane operations. A 30-minute advanced notice is requested for vessels that may require the entire channel. The M/V *USACE Elizabeth* will be monitoring VHF channels 13 and 16 and can be reached directly via cell phone by contacting the USACE Vessel captain John Payne (757-477-3786) or sampling field leads Mr. Michael Durbano (609-332-0534) and Mr. Tom King (301-788-8902).

Chart 12252 LNM 24/23

**VA – YORKTOWN TO WEST POINT – UPPER YORK RIVER - SHORELINE STABILIZATION AND BREAKWATERS CONSTRUCTION**

Coastal Design & Construction, Inc. will begin shoreline stabilization, stone breakwaters construction, and installing sand the southwest side of the Upper York River, along the Colonial National Historical Park, starting on February 20, 2023 to approximately **July 31, 2024**. Sixteen barges of various sizes will be moored in positions along the southwest side of the river, between Yorktown NAVAL Weapons Station and Cheatham Annex. All barges will be marked with constant White Light per Coast Guard requirements and moorings with slow flashing white lights. Tug Linda M will be monitoring VHF Channel 13 & 16. For more information, contact, Steven Bailey – Superintendent (Marine), Cell: 240-298-8701.

Chart 12243 LNM 07/23

**VA – PIANKATANK RIVER – OYSTER REEF REHABILITATION PROJECT**

Mariners are advised that beginning **January 2, 2023**, until **August 5, 2023**, seaward marine will be conducting rock placing operations for the oyster reef rehabilitation project at the mouth of the Piankatank River. All mariners are requested to stay clear of the crane barge, material barge and mooring. All operators should be aware that the mooring is held in place by a single cable attached to an anchor. All fishnets, crab pots, and structures in the area are requested to be removed prior to commencement of any work. Mariners are requested to exercise extreme caution when approaching the rock placing operation and proceed at no wake speed. Seaward marine will be monitoring VHF channel 16.

LNM 50/22

**NORTH CAROLINA****NC – OREGON INLET – DREDGING OPERATIONS**

EJE Dredging Service will begin dredging operations back in the Oregon Inlet. The "MISS KATIE" dredge vessel is expected to begin dredging operations on June 20, 2023, and will continue throughout the remainder of the summer, dependent upon weather conditions, maintenance, and/or other emergency dredging projects out of the area. Dredging operations will be performed on a schedule of 12 hours and/or 24 hours a day, seven (7) days a week. Material that is hopper dredged will be transported to a disposal site located in deep sour holes near the Basnight Bridge on the south side of Oregon Inlet and/or a nearshore site located off Pea Island. All mariners are requested to use caution in the area. MISS KATIE can be reached on VHF-FM CH 16 and 13. For more information, contact Jordan Hennessy at [jhennessy@ejeedredgng.com](mailto:jhennessy@ejeedredgng.com) or (252) 597-5752.

**NC – CAPE HATTERAS – PAMLICO SOUND – OYSTER REEF CONSTRUCTION**

SJ Hamill Construction, LLC will begin construction of about 50 oyster reefs comprised of stone in the Pamlico Sound. Center point of project is approximate position 35-23-12.95N, 075-58-14.27W. Storage of our materials and equipment will be Engelhard, NC, in the Engelhard Marine Industrial Park. Three small tugboats, a crew boat, and two rock barges will frequently be used to tow material from storage site to project sites.

**NC – NEUSE RIVER TO MYRTLE GROVE SOUND – NEW RIVER – CAPE FEAR RIVER – DREDGE OPERATIONS**

Southwind Construction Corp will begin dredge operation in Shinn Creek Crossing, New Hanover County North Carolina, Dredging Atlantic Intracoastal Waterway, between New River – Cape Fear River Light 128 (LLNR 39625) and New River – Cape Fear River Light 129A (LLNR 39635). Project will commence on July 7, 2023 with an expected completion date of August 1, 2023. Operations will be conducted 24 hours a day, 7 days a week. Dredge Wilko and work boats Ann Kay and Danny Joe will monitor VHF-FM 16, 13, and 78. Pipeline and vessels will be visibly lighted and marked pursuant to Coast Guard regulations. Submerged pipeline will be located along the right ascending shoreline from Shinn Creek Crossing northerly over a distance of 9000' to Upland Placement Area 24.

Chart 11541

**SUMMARY OF MARINE EVENTS AND FIREWORKS DISPLAYS**  
**IN THE FIFTH COAST GUARD DISTRICT**  
**ENCLOSURE (4)**

**NEW OR UPDATED INFORMATION**

New, updated or very important information in this enclosure will be highlighted in yellow.

**NJ – METEDECONK RIVER – BRICK TOWNSHIP – LAND BASED FIREWORKS DISPLAYS - SAFETY ZONES**

A land-based fireworks display is scheduled to occur on every Thursday in July 2023, or on a rain date of **August 10, 2023**, from Winward Beach Park in Brick Township, NJ, from 9 p.m. to 9:45 p.m. A safety zone will be in effect for the duration of each fireworks display to include all navigable waters of the Metedeconk River within 300 yards of the fireworks launch site located at approximate position latitude 40°03'22.57" N, longitude 074°06'39.24" W. Vessels may not enter, remain in, or transit through the safety zone during the enforcement period unless authorized by the Captain of the Port or official on-scene patrol. Mariners may contact official patrol on-scene via marine band radio VHF-FM channel 16 or channel 72.

**NJ – ATLANTIC OCEAN – CAPE MAY – CORINTHIAN YACHT CLUB OF CAPE MAY SAILING RACES**

The Corinthian Yacht Club of Cape May hosts multiple sailing races on the Atlantic Ocean approximately 1 mile offshore and 1 mile east or west of Cape May Inlet. The Ocean Racing Series will be held every Saturday from 11:00 a.m. to 5:00 p.m. beginning on June 17, 2023, and continuing through **September 9, 2023**. The Mayra Laser and 420 Championship Regatta will be held on July 30, 2023, from 10:00 a.m. to 5 p.m. Mariners are urged to use caution when transiting the area. For any comments or questions, contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

**\*\*\*NJ – CAPE MAY – AVALON – ATLANTIC OCEAN - AVALON CUP SAILING RACE\*\*\***

The Corinthian Yacht Club of Cape May is hosting the Avalon Cup a sailing race on the Atlantic Ocean from Avalon, NJ to Cape May, NJ on July 16, 2023, from noon to 4:00 p.m. The race will begin approximately 1 mile offshore from Townsends Inlet, then continue parallel along the coast, and ending approximately 1 mile east of the Cape May Inlet. The sailing vessels will remain 1 to 2 miles offshore for the entire race. Mariners are urged to use caution when transiting the area. For any comments or questions, contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

**NJ – BACK CHANNEL OF THE DELAWARE RIVER – CAMDEN – FLOAT EVENT**

A recreational float event is scheduled for **July 15, 2023**, from 10:00 a.m. to 4:00 p.m. on the Back Channel of the Delaware River in the vicinity of Petty Island in Camden, NJ. The event will involve approximately 85 participants in tubes and rafts. The event sponsor will have safety boats on scene. Mariners are urged to reduce wake and use caution when transiting the area. For any comments or questions, contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

Chart 12313

**PA – DELAWARE RIVER – PHILADELPHIA – BARGE BASED FIREWORKS DISPLAY - SAFETY ZONE**

A barge-based fireworks display is scheduled to occur on the Delaware River adjacent to Rivers Casino in Philadelphia, PA, from 10:30 p.m. to 11 p.m. on **July 15, 2023**. A safety zone will be in effect for the duration of the fireworks display to include all navigable waters within 500 yards of a fireworks barge located at approximate position latitude 39°57'42" N, longitude 075°7'45" W. Vessels may not enter, remain in, or transit through the safety zone during the enforcement period unless authorized by the Captain of the Port or official on-scene patrol. Mariners may contact official patrol on-scene via marine band radio VHF-FM channel 16. For any comments or questions, contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

**DE – DELAWARE RIVER – NEW CASTLE – WEEKLY SAILING RACES**

There will be a sailboat race series held by the New Castle Sailing Club on the Delaware River near Battery Park in New Castle, DE every Saturday starting on May 6, 2023, until **October 21, 2023**, from 8 a.m. to 2 p.m. The event sponsor will have a vessel on scene that will be monitoring VHF-FM radio channels 13 and 16. Mariners are urged to use caution when transiting the area. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

**\*\*\*MD – SEACOAST – FENWICK ISLAND TO CHINCOTEAGUE ISLAND – OCEAN CITY INLET – OPEN WATER DISTANCE SWIM EVENT\*\*\***

An annual open water long distance swim event is scheduled to occur in the North Atlantic Ocean at Ocean City, MD on **July 15, 2023**, between 8:00 a.m. and 5 p.m. The event includes up to 35 swimmers competing on marked 3-mile and 9-mile linear courses extending approximately 300 feet from the Maryland shoreline, located between the Ocean City Inlet (to the south) and the MD/DE boundary (to the north). The swim courses will be marked with sponsor-provided, small inflatable buoys set into place at 8:00 a.m. the day of the event. The 9-mile swim race will start at 10 a.m. and a 3-mile race will start at 12 noon. Each 9-mile swimmer will be supported by a kayaker from start to finish. Participants will be supported by sponsor-provided motorized safety patrol vessels, and lookouts and beach patrols located on shore. Official patrol personnel on scene can be contacted on marine band radio VHF-FM channel 16. Additional Ocean Games event information is available at website [www.oceangamesusa.org](http://www.oceangamesusa.org). For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2596.

Chart 12211.

**\*\*\*MD - SEACOAST - FENWICK ISLAND TO CHINCOTEAGUE ISLAND – ASSAWOMAN BAY - OCEAN CITY – WEEKLY FIREWORKS DISPLAYS\*\*\***

Short-duration, aerial fireworks displays are scheduled to occur along Assawoman Bay at Ocean City, MD, on each Sunday, **from July 11, 2023 through August 29, 2023**, at approximately 10:30 p.m. On these dates, fireworks will be discharged from the floating pier near Ropewalk Tavern in Ocean City, MD, in approximate position latitude 38°24'7.77"N, 75°3'48.17"W. Mariners are urged to use caution when transiting the area, and absent specific guidance, should remain 300 feet from the fireworks discharge site. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division at (410) 576-2596.

Chart 12211.

**\*\*\*\*MD – CHESAPEAKE BAY - CHOPTANK RIVER – REGULATED AREA\*\*\*\***

The annual "Thunder on the Choptank" power boat races are scheduled to occur in the Choptank River during **July 22-23, 2023**, between 10:00 a.m. and 6:30 p.m. both days. As described in Title 33 Code of Federal Regulations (CFR) 100.501, special local regulations establish a regulated area, which includes all navigable waters within Choptank River and Hambrooks Bay bounded by a line connecting the following coordinates: commencing at the shoreline at Long Wharf Park, Cambridge, MD, at position latitude 38°34'30" N, longitude 076°04'16" W; thence east to latitude 38°34'20" N, longitude 076°03'46" W; thence northeast across the Choptank River along the Senator Frederick C. Malkus, Jr. (US-50) Memorial Bridge, at mile 15.5, to latitude 38°35'30" N, longitude 076°02'52" W; thence west along the shoreline to latitude 38°35'38" N, longitude 076°03'09" W; thence north and west along the shoreline to latitude 38°36'42" N, longitude 076°04'15" W; thence southwest across the Choptank River to latitude 38°35'31" N, longitude 076°04'57" W; thence west along the Hambrooks Bay breakwall to latitude 38°35'33" N, longitude 076°05'17" W; thence south and east along the shoreline to and terminating at the point of origin.. Within the regulated area are the Race area, Buffer zone, and Spectator area. The regulated area will be enforced from 10 a.m. to 6:30 p.m. both days on July 22, 2023 and July 23, 2023. The patrol vessel and the Event Patrol Commander (PATCOM) may be contacted on VHF-FM Channel 16. The Event PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. The Event PATCOM or official patrol vessel may forbid and control the movement of all persons and vessels in the regulated area. When hailed or signaled by an official patrol, the person or vessel being hailed must immediately comply with all directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The operator of a vessel in the regulated area must stop the vessel immediately when directed to do so by an official patrol vessel and then proceed only as directed. A person or vessel must comply with all instructions of the Event PATCOM or official patrol vessel. A vessel operator may request permission to enter and transit through a regulated area by contacting the Event PATCOM or official patrol vessel on VHF-FM channel 16. When authorized to transit through the regulated area, the vessel must proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the event area. Non-participants are only allowed inside the regulated area if they remain within a designated spectator area or have authorization from the Event PATCOM or official patrol vessel to transit through the area. A non-participant vessel must be stationary or operate at a safe speed while within the designated spectator area. On scene official patrol vessels or the Event PATCOM will direct non-participant vessels to the spectator area. A non-participant must contact the Event PATCOM or official patrol vessel to request permission to pass through the regulated area. If permission is granted, the non-participant must pass directly through the regulated area at minimum speed necessary to maintain a safe course that minimizes wake and without loitering. Non-participants are only allowed inside the regulated area to pass through or enter and remain within a designated spectator area. A non-participant must contact the Event PATCOM or an official patrol vessel to request permission to either enter the Spectator Area or pass through the regulated area. If permission is granted, the non-participant may enter the spectator area or pass directly through the regulated area as instructed by the Event PATCOM or official patrol vessel at minimum speed necessary to maintain a safe course that minimizes wake and without loitering. For any comments or questions, contact U.S. Coast Guard Sector Maryland-National Capital Region, at (410) 576-2596.

Charts 12266, 12268.

**\*\*\*\*MD - HONGA, NANTICOKE, WICOMICO RIVERS, AND FISHING BAY – NANTICOKE – FIREWORKS DISPLAY\*\*\*\***

An aerial fireworks display will be held along the Nanticoke River at Vienna, MD on **July 15, 2023**, at approximately 9 p.m. Mariners are urged to use caution when transiting the area, to keep a sharp lookout for other watercraft in the area and are reminded to heed the directions of patrolling law enforcement and public safety officials. Absent specific guidance, mariners should remain 500 feet from the fireworks discharge site located at the end of the Vienna Waterfront Park, in approximate position latitude 38° 28' 52.6152" N, longitude 075° 49' 29.2944" W. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2596.

Chart 12286.

**MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – SEVERN RIVER – SAILING REGATTAS**

Annual sailing regattas sponsored by the Annapolis Yacht Club (AYC) are scheduled to occur on the Severn River and the Chesapeake Bay near the mouth of the Severn River, during 2023. Unless otherwise indicated, the events will occur between 10 a.m. and 4 p.m. Twenty two individual AYC events are scheduled on the following dates: **April 26-August 30 (Wednesday Night Races** - 90 participants, 22-50 feet in length, from 6 p.m. to 7:30 p.m.); **July 5 (Junior Annual Regatta** - 100 participants, 8-15 feet in length); **July 22-23 (Annual Regatta** - 45 participants, 24-50 feet in length); **July 23 (Annual Regatta** - 7 participants, 24-50 feet in length); **July 30 (Two Bridge Fiasco**- 75 participants, 22-60 feet in length, from 10 a.m. to 5 p.m.); **August 18-21 (US Women's Match Race Championship** – 10 participants, 22 feet in length; **September 22-24 (Annapolis YC 3-2-1 Invitational** - 12 participants, 20-30 feet in length); **September 23 (Fall Race to Solomons** - 45 participants, 30-50 feet in length); **September 30-October 1 (Fall Series 1** - 30 participants, 22-34 feet in length); **October 2-4 (Warrior Sailing Program** - 8 participants, 22 feet in length); **October 7 (Fall Series River Course** - 25 participants, 20-28 feet in length); **October 7-8 (Fall Series-2**- 30 participants, 30-50 feet in length); **October 8 (Fall Series-2**- 30 participants, 30-50 feet in length); **October 21-22 (J/105 Chesapeake Bay Championship** - 25 participants, 35 feet in length); **October 28-29 (Halloween Howl** - 50 participants, 8 feet in length); **November 5-December 10 (Frostbite Series - 1st Half** - 80 participants, 22-45 feet in length, from 12 p.m. to 4 p.m.). Additional information on these events can be obtained at website <https://www.annapolisyc.com/>. The AYC Race Committee can be contacted via marine band radio VHF-FM channels 09, 13, 16, 68, 69, 70, 71 and 72. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2596 or (410) 576-2693.

Charts 12270, 12282, 12283.

**MD – CHESAPEAKE BAY – SEVERN RIVER — SAILING REGATTA (WEEKLY SERIES)**

An annual sailboat racing weekly series is scheduled to occur in the Severn River each Thursday evening during **May 18, 2023-August 31, 2023**, between 6 p.m. and 9 p.m. Up to 80 participants (small keel sailboats, 16-26 feet in length) will race in heats within two courses located between the mouth of the Severn River and the Severn River Middle Ground Anchorage. Mariners are urged to use caution and remain alert for other watercraft when transiting the area, proceed at the minimum speed necessary to maintain a safe course that minimizes wake while operating near the race courses. Race committee support vessels will be on scene. Event information is available at website <http://worldannapolis.com/annapolis-sailing-courses/racing/thursday-night-racing/>. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2596 or (410) 576-2693.

Charts 12282, 12283

**MD – CHESAPEAKE BAY – SEVERN AND MAGOTHY RIVERS – SEVERN RIVER – SAILING REGATTA SERIES**

An annual sail racing series is scheduled to occur in the Severn River each Friday evening during **May 19, 2023 - August 11, 2023**, between 5 p.m. and 8:00 p.m. Up to 40 auxiliary sail boats (20 to 50 feet in length) of various classes will compete in sail races along a designated course located in the Severn River, between the mouth of the Severn River and the entrance to Spa Creek at Annapolis, MD. First race start will occur at approximately 6:15 p.m. Additional information can be obtained at the website: <https://www.eastportyachtclub.org/beer-cans>. Interested mariners can contact the Eastport Yacht Club Race Committee on "EYC Friday Night Signal Boat" via marine band radio VHF-FM channel 16 or 73. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2596 or (410) 576-2693.

#### **MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – PATAPSCO RIVER – SAILING REGATTA WEEKLY SERIES**

An annual weekly sailboat racing series is scheduled to occur on the Patapsco River each Tuesday during **April 18, 2023 - October 24, 2023**, between 6 p.m. and 9 p.m. Up to 20 sail boats (20 to 40 feet in length) will compete in a single race along a designated course located between the Baltimore Inner Harbor and the Francis Scott Key Memorial (I-695) Bridge, at Baltimore, MD. More information on the "Baltimore City Yacht Association Tuesday Night Racing Series" can be obtained at website <https://www.bcyt.com>. Interested mariners may contact the race committee on marine band radio VHF-FM channel 72. For any comments or questions contact U.S. Coast Guard Sector Maryland-NCR, Waterways Management Division, at telephone number (410) 576-2569 or (410) 576-2693.

#### **MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – BACK RIVER - REGULATED AREA**

An annual air show event is scheduled to occur above Back River in Baltimore County, MD during **July 14-16, 2023**. On Friday, the event will occur from 7 p.m. to 8 p.m., and, on Saturday and Sunday, the event will occur from 2 p.m. and 3 p.m. High-speed, low-flying civilian aircraft will operate over the water adjacent to Tiki Lee's Dock Bar at Sparrows Point, MD. Coast Guard special local regulations will establish a regulated area for all navigable waters of Back River, within an area bounded by a line connecting the following points: from the shoreline at Lynch Point at latitude 39°14'46" N, longitude 076°26'23" W, thence northeast to Porter Point at latitude 39°15'13" N, longitude 076°26'11" W, thence north along the shoreline to Walnut Point at latitude 39°17'06" N, longitude 076°27'04" W, thence southwest to the shoreline at latitude 39°16'41" N, longitude 076°27'31" W, thence south along the shoreline to the point of origin, located in Baltimore County, MD. The aerobatics box and spectator areas are within the regulated area. This regulated area will be enforced from 7 p.m. to 8 p.m. on July 14, 2023, from 2 p.m. to 3 p.m. on July 15, 2023, and, from 2 p.m. to 3 p.m. on July 16, 2023. The Captain of the Port (COTP) Maryland-National Capital Region or Event Patrol Commander (Event PATCOM) may forbid and control the movement of all vessels and persons, including event participants, in the regulated area. When hailed or signaled by an official patrol, a vessel or person in the regulated area shall immediately comply with the directions given by the patrol. Failure to do so may result in the Coast Guard expelling the person or vessel from the area, issuing a citation for failure to comply, or both. The COTP Maryland-National Capital Region or Event PATCOM may terminate the event, or a participant's operations at any time the COTP Maryland-National Capital Region or Event PATCOM believes it necessary to do so for the protection of life or property. Except for participants and vessels already at berth, a person or vessel within the regulated area at the start of enforcement must immediately depart the regulated area. A spectator must contact the Event PATCOM to request permission to either enter or pass through the regulated area. The Event PATCOM, and official patrol vessels enforcing this regulated area, can be contacted on marine band radio VHF-FM channel 16 (156.8 MHz) and channel 22A (157.1 MHz). If permission is granted, the spectator must enter the designated Spectator Area or pass directly through the regulated area as instructed by Event PATCOM. A vessel within the regulated area must operate at safe speed that minimizes wake. A spectator vessel must not loiter within the navigable channel while within the regulated area. Only participant vessels are allowed to enter the aerobatics box. A person or vessel that desires to transit, moor, or anchor within the regulated area must obtain authorization from the COTP Maryland-National Capital Region or Event PATCOM. A person or vessel seeking such permission can contact the COTP Maryland-National Capital Region at telephone number 410-576-2693 or on Marine Band Radio, VHF-FM channel 16 (156.8 MHz) or the Event PATCOM on Marine Band Radio, VHF-FM channel 16 (156.8 MHz). The Coast Guard will issue a marine information broadcast on VHF-FM marine band radio announcing specific event dates and times. The Coast Guard may be assisted with marine event patrol and enforcement of the regulated area by other federal, state, and local agencies. Additional information on the "2023 Tiki Lee's Shootout on the River Airshow" event can be obtained at website <https://www.shootoutontheriver.com>. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2596.

Charts 12278.

#### **MD – HEAD OF CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – BACK RIVER – POWER BOAT POKER RUN**

An annual power boat poker run is scheduled to occur in the upper Chesapeake Bay and its tributaries, and the Chesapeake and Delaware (C & D) Canal, on **July 14, 2023**, between 9 a.m. and 4:30 p.m. Up to 130 v-hull and multi-hull power boats (20-50 feet in length) will operate along a designated course that starts and finishes on Back River (Tiki Lee's Dock Bar, Sparrows Point, MD). Stops include upper Chesapeake Bay (Tolchester Beach, MD), C & D Canal (Schaefer's Canal House, Chesapeake City, MD), Susquehanna River (Lees Landing Dock Bar, Port Deposit, MD) and upper Chesapeake Bay (Pooles Island, MD). Additional information on the "2nd Annual Tiki Lee's Shootout on the River Poker Run" event can be obtained at website <https://www.shootoutontheriver.com>. During the event, event officials and official patrol vessels can be contacted via marine band radio VHF-FM channel 16. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

Charts 12274, 12277, 12278.

## **MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – BACK RIVER - REGULATED AREA**

An annual high-speed power boat event is scheduled to occur on Back River in Baltimore County, MD on **July 15, 2023** (rain date July 16, 2023), between 9 a.m. and 5 p.m. Up to 40 power boats (20-50 feet in length) will operate on a marked, linear course located adjacent to Tiki Lee's Dock Bar at Sparrows Point, MD. Coast Guard special local regulations will establish a regulated area for all navigable waters of Back River, within an area bounded by a line connecting the following points: from the shoreline at Lynch Point at latitude 39°14'46" N, longitude 076°26'23" W, thence northeast to Porter Point at latitude 39°15'13" N, longitude 076°26'11" W, thence north along the shoreline to Walnut Point at latitude 39°17'06" N, longitude 076°27'04" W, thence southwest to the shoreline at latitude 39°16'41" N, longitude 076°27'31" W, thence south along the shoreline to the point of origin, located in Baltimore County, MD. The course area, buffer area, and spectator areas are within the regulated area. This regulated area will be enforced from 8 a.m. to 6 p.m. on July 15, 2023, and, if necessary due to inclement weather on July 15, 2023, from 9 a.m. to 6 p.m. on July 16, 2023. The Captain of the Port (COTP) Maryland-National Capital Region or Event Patrol Commander (Event PATCOM) may forbid and control the movement of all vessels and persons, including event participants, in the regulated area. When hailed or signaled by an official patrol, a vessel or person in the regulated area shall immediately comply with the directions given by the patrol. Failure to do so may result in the Coast Guard expelling the person or vessel from the area, issuing a citation for failure to comply, or both. The COTP Maryland-National Capital Region or Event PATCOM may terminate the event, or a participant's operations at any time the COTP Maryland-National Capital Region or Event PATCOM believes it necessary to do so for the protection of life or property. Except for participants and vessels already at berth, a person or vessel within the regulated area at the start of enforcement must immediately depart the regulated area. A spectator must contact the Event PATCOM to request permission to either enter or pass through the regulated area. The Event PATCOM, and official patrol vessels enforcing this regulated area, can be contacted on marine band radio VHF-FM channel 16 (156.8 MHz) and channel 22A (157.1 MHz). If permission is granted, the spectator must enter the designated Spectator Area or pass directly through the regulated area as instructed by Event PATCOM. A vessel within the regulated area must operate at safe speed that minimizes wake. A spectator vessel must not loiter within the navigable channel while within the regulated area. Only participant vessels are allowed to enter and remain within the course area. A person or vessel that desires to transit, moor, or anchor within the regulated area must obtain authorization from the COTP Maryland-National Capital Region or Event PATCOM. A person or vessel seeking such permission can contact the COTP Maryland-National Capital Region at telephone number 410-576-2693 or on Marine Band Radio, VHF-FM channel 16 (156.8 MHz) or the Event PATCOM on Marine Band Radio, VHF-FM channel 16 (156.8 MHz). The Coast Guard will issue a marine information broadcast on VHF-FM marine band radio announcing specific event dates and times. The Coast Guard may be assisted with marine event patrol and enforcement of the regulated area by other federal, state, and local agencies. Additional information on the "3rd Annual Shootout on the River" event can be obtained at website <https://www.shootoutontheriver.com>. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2596.

Charts 12278.

## **MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – BACK RIVER – REGULATED AREA AND SAFETY ZONE**

A fireworks display is scheduled to occur on Back River in Baltimore County, MD on **July 15, 2023**, at 9:00 p.m.

### **1. 2023 Tiki Lee's Shootout on the River Fireworks, Back River, Baltimore County, MD.**

As described in 33 Code of Federal Regulations (CFR) Section 100.T05-0374, a special local regulation establishes a temporary regulated area for all navigable waters of Back River, within an area bounded by a line connecting the following points: From the shoreline at Lynch Point at latitude 39°14'46" N, longitude 076°26'23" W, thence northeast to Porter Point at latitude 39°15'13" N, longitude 076°26'11" W, thence north along the shoreline to Walnut Point at latitude 39°17'06" N, longitude 076°27'04" W, thence southwest to the shoreline at latitude 39°16'41" N, longitude 076°27'31" W, thence south along the shoreline to and terminating at the point of origin. This regulated area will be enforced from 8 p.m. to 10 p.m. on July 15, 2023. The Captain of the Port (COTP) Maryland-National Capital Region or Event Patrol Commander (PATCOM) may forbid and control the movement of all vessels and persons, including event participants, in the regulated area described in this paragraph. When hailed or signaled by an official patrol, a vessel or person in the regulated area shall immediately comply with the directions given by the patrol. Failure to do so may result in the Coast Guard expelling the person or vessel from the area, issuing a citation for failure to comply, or both. The COTP Maryland-National Capital Region or Event PATCOM may terminate the event, or a participant's operations at any time the COTP Maryland-National Capital Region or Event PATCOM believes it necessary to do so for the protection of life or property. Except for participants and vessels already at berth, a person or vessel within the regulated area at the start of enforcement of this regulation must immediately depart the regulated area. A spectator must contact the Event PATCOM to request permission to either enter or pass through the regulated area. The Event PATCOM and official patrol vessels enforcing this regulated area can be contacted on marine band radio VHF-FM channel 16 (156.8 MHz) and channel 22A (157.1 MHz). If permission is granted, the spectator must enter a designated spectator area or pass directly through the regulated area as instructed by Event PATCOM. A vessel within the regulated area must operate at safe speed that minimizes wake. A spectator vessel must not loiter within the navigable channel while within the regulated area. A person or vessel that desires to transit, moor, or anchor within the regulated area must obtain authorization from the COTP Maryland-National Capital Region or Event PATCOM. A person or vessel seeking such permission can contact the COTP Maryland-National Capital Region at telephone number 410-576-2693 or on Marine Band Radio, VHF-FM channel 16 (156.8 MHz) or the Event PATCOM on Marine Band Radio, VHF-FM channel 16 (156.8 MHz). The Coast Guard will issue a marine information broadcast on VHF-FM marine band radio announcing specific event dates and times. The Coast Guard may be assisted with marine event patrol and enforcement of the regulated area by other federal, state, and local agencies.

### **2. Safety Zone; Back River, Baltimore County, MD.**

As described in 33 CFR Section 165.T05-0374, a temporary safety zone is established for all navigable waters of the Back River within 500 feet of the fireworks barge in approximate position latitude 39°15'35.54" N, longitude 76°26'56.62" W. These coordinates are based on datum NAD 1983. This safety zone will be enforced from 8 p.m. to 10 p.m. on July 15, 2023. Under the general safety zone regulations in 33 CFR 165.2, you may not enter the safety zone described in this paragraph unless authorized by the Coast Guard Captain of the Port (COTP) Maryland-National Capital Region or the COTP's designated representative. To seek permission to enter, contact the COTP or the COTP's designated representative by telephone at (410) 576-2693 or on Marine Band Radio VHF-FM channel 16 (156.8 MHz). The Coast Guard vessels enforcing this safety zone can be contacted on Marine Band Radio VHF-FM channel 16 (156.8 MHz). Other federal, state and local agencies may assist these personnel in the enforcement of the safety zone. Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP's designated representative. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies. Additional information on the "Shootout on the River Fireworks" event can be obtained at website <https://www.shootoutontheriver.com>. For any comments or questions contact U.S. Coast Guard Sector Maryland-NCR, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

Charts 12278.

**\*\*\*\*VA – MD – POTOMAC RIVER – PINEY POINT TO LOWER CEDAR POINT – BRETON BAY - REGULATED AREA\*\*\*\***

The "Southern Maryland Boat Club Leonardtown Bash on the Bay" is scheduled to occur in Breton Bay during **July 29-30, 2023**, between 8 a.m. and 4 p.m., both days. Up to 50 vintage and historic race boats (8 to 21 feet in length) will conduct demonstrations along a designated course in scheduled heats. As described in Title 33 CFR Section 100.501, a regulated area is established for all waters of Breton Bay and McIntosh Run, immediately adjacent to Leonardtown, MD shoreline, from shoreline to shoreline, within an area bounded to the east by a line drawn along latitude 38°16'43" N., and bounded to the west by a line drawn along longitude 076°38'30" W., located at Leonardtown, MD. The regulated area will be enforced from 7:30 a.m. to 4:30 p.m., both days, on July 29, 2023 and on July 30, 2023. The Event Patrol Commander (PATCOM) or official patrol vessel may forbid and control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, the person or vessel hailed must immediately comply with all directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The operator of a vessel in the regulated area must stop the vessel immediately when directed to do so by an official patrol vessel and then proceed only as directed. A person or vessel must comply with all instructions of the Event PATCOM or official patrol vessel. A vessel operator may request permission to enter and transit through a regulated area by contacting the Event PATCOM or official patrol vessel on VHF-FM channel 16. When authorized to transit through the regulated area, the vessel must proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the event area. Non-participants are only allowed inside the regulated area if they remain within a designated spectator area or have authorization from the Event PATCOM or official patrol vessel to transit through the area. A non-participant vessel must be stationary or operate at a safe speed while within the designated spectator area. On scene official patrol vessels or the Event PATCOM will direct non-participant vessels to the spectator area. A non-participant must contact the Event PATCOM or official patrol vessel to request permission to pass through the regulated area. If permission is granted, the non-participant must pass directly through the regulated area at minimum speed necessary to maintain a safe course that minimizes wake and without loitering. Non-participants are only allowed inside the regulated area to pass through or enter and remain within a designated spectator area. A non-participant must contact the Event PATCOM or an official patrol vessel to request permission to either enter the Spectator Area or pass through the regulated area. If permission is granted, the non-participant may enter the spectator area or pass directly through the regulated area as instructed by the Event PATCOM or official patrol vessel at minimum speed necessary to maintain a safe course that minimizes wake and without loitering. For any comments or questions, contact U.S. Coast Guard Sector Maryland-National Capital Region, at (410) 576-2596.

Chart 12286.

**\*\*\*\*VA – FENWICK ISLAND TO CHINCOTEAGUE INLET – ASSATEAGUE CHANNEL – REGULATED AREA\*\*\*\***

The Captain of the Port Sector Virginia will establish a special local regulation in support of the Chincoteague Volunteer Fire Company Wild Pony Swim. The regulated area encompasses all waters of Assateague Channel from shoreline to shoreline bounded to the east by a line drawn from position 37-55-01N/075-22-40W, thence south to position 37-54-50N/ 075-22-46W, and to the southwest by a line drawn from position 37-54-54N/075-23-00W, thence east to position 37-54-49N/075-22-49W. The regulated area will be enforced from 6 a.m. to 1 p.m. on **July 26 and July 28, 2023**. Mariners must remain outside of the safety zone unless authorized by the Captain of the Port or a designated representative. See chart let below.

Chart 12211

**VA – CAPE HENRY TO THIMBLE SHOAL LIGHT - LINKHORN BAY - THE NARROWS, VIRGINIA BEACH**

The Narrows at First Landing State Park will be the site of a recurring VB Boat Church each Sunday from 9:30 a.m. to 11:30 a.m. on each Sunday between 28 May and **3 September 2023**. Participating Vessels may be rafted on the east side of the channel but should not impede the flow of traffic. If concerns arise, the POC for the event can be reached at 757 373 8070 before or after each occurrence.

Chart 12254

**VA – SOUTHERN CHESAPEAKE BAY - BBSA LITTLE CREEK RACES WEDNESDAY NIGHT SERIES**

The Broad Bay Sailing Association is sponsoring the Little Creek Races Wednesday Night Series on April 5<sup>th</sup> running until **November 29<sup>th</sup>** in Southern Chesapeake Bay, off the shores of Norfolk and Virginia Beach, VA. The sailboats will begin transiting to the racing area at 4:30 p.m. Mariners are requested to use caution when transiting the area.

Chart 12245

**VA – HAMPTON ROADS – WILLOUGHBY BAY - WILLOUGHBY RACERS THURSDAY RACES**

The Broad Bay Sailing Association is sponsoring the Willoughby Racers Thursday Races on April 6<sup>th</sup> running until **November 2<sup>nd</sup>** in Willoughby Bay, Norfolk VA. The sailboats will begin transiting to the racing area at 6:00 p.m. Mariners are requested to use caution when transiting the area.

Chart 12245

**\*\*\*\*VA – JAMES RIVER – ROCKETTS LANDING, RICHMOND – RICHMOND INTERNATIONAL DRAGON BOAT FESTIVAL\*\*\*\***

Sports Backers is sponsoring the Richmond International Dragon Boat Festival in the James River at Rocketts Landing. The Dragon boat regatta will begin on **August 5** 2023 from 8 a.m. to 5 p.m. Mariners are requested to use caution when transiting in the area.

**VA – ROANOKE RIVER – JOHN H. KERR RESERVOIR – 2023 VIRGINIA LAKE FESTIVAL**

The Clarksville Lake County Chamber of Commerce will sponsor a land fired aerial fireworks display from the Highway 58 Business Bridge, Clarksville, VA near the Bugg Island Lake. The U.S. Coast Guard has established a special local regulation for all waters of the John H. Kerr Reservoir within a 400-yard radius of position 36° 37' 51"N, 078° 32' 50"W. This special local regulation will be in effect **July 22, 2023**, from 9:30 p.m. to 10:00 p.m. Mariners must request permission to enter the area from the patrol commander via VHF-FM Channel 16. Mariners are urged to use caution when transiting the area and are reminded to heed the directions of patrolling law enforcement and public safety officials.

**NC – ATLANTIC OCEAN AND BANKS CHANNEL – WRIGHTSVILLE BEACH – CAROLINA YACHT CLUB REGATTAS**

Mariners are advised that the Carolina Yacht Club will host a series of regattas in the Atlantic Ocean near Masonboro Inlet and Banks Channel in Wrightsville Beach, NC. Approximately 45 regattas will take place from March 18, 2023 through **January 1, 2024**. Race coordinators will monitor local vessel traffic and can be contacted via VHF Marine Radio Channel 78. The sailing schedule can be found at [www.carolinayachtclub.org](http://www.carolinayachtclub.org). For any questions or comments, please contact the Coast Guard Sector North Carolina Marine Event Coordinator at (910) 772-2221. No restrictions will be placed on the navigable channel.

Chart 11541

# SUMMARY OF OFFSHORE RENEWABLE ENERGY INSTALLATIONS (OREI) AND OPERATIONS IN SUPPORT OF OREI IN THE FIFTH COAST GUARD DISTRICT ENCLOSURE (5)

## **NEW OR UPDATED INFORMATION**

New, updated or very important information in this enclosure will be highlighted in yellow.

### **NY – NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

TerraSond will be conducting geophysical survey activities from the GO Adventurer survey vessel within the Bluepoint Wind Lease Area (OCS-A 0537), and nearshore waters of NY and NJ.

The survey area is within the following coordinates:

39° 51' 07.2" N, 073° 01' 28.1" W	40° 03' 06.4" N, 074° 02' 55.3" W
40° 30' 02.8" N, 074° 17' 35.7" W	40° 36' 35.5" N, 074° 02' 46.7" W
40° 38' 22.1" N, 073° 19' 15.0" W	40° 03' 41.5" N, 072° 35' 45.9" W
39° 53' 42.6" N, 072° 35' 15.4" W	

Sidescan sonar (SSS), multibeam bathymetry echo sounder (MBES), cesium vapor magnetometer (MAG), parametric sub-bottom profiler (SBP), and ultrashort base line (USBL) acoustic transceiver, and marine multi-tip sparker seismic system (MCS) will be used starting on March 1, 2023, until approximately **September 30, 2023** and will conduct 7 days per week, 24 hours per day until survey completion with periodic port calls. In addition, the vessel will be towing an ultra-high-resolution streamer. GO Adventure will monitor VHF-FM Ch 16. For more information, Trevor Jones may also be contacted at 1-857-972-4328.

Chart 13003 LNM 07/23

### **NY – NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

TerraSond will be conducting geophysical survey activities from the Gerry Bordelon survey vessels within the Bluepoint Wind Lease Area (OCS-A 0537).

The survey area will be bounded by below coordinates:

39° 51' 07.2" N, 073° 01' 28.1" W;	40° 03' 06.4" N, 074° 02' 55.3" W;	40° 30' 02.8" N, 074° 17' 35.7" W,
40° 36' 35.5" N, 074° 02' 46.7" W,	40° 38' 22.1" N, 073° 19' 15.0" W;	40° 03' 41.5" N, 072° 35' 45.9" W,
39° 53' 42.6" N, 072° 35' 15.4" W.		

Sidescan sonar (SSS), multibeam bathymetry echo sounder (MBES), cesium vapor magnetometer (MAG), parametric sub-bottom profiler (SBP), and ultrashort base line (USBL) acoustic transceiver will be used starting on April 4, 2023, until approximately **September 30, 2023** and will conduct 7 days per week, 24 hours per day for Gerry Bordelon, until survey completion with periodic port calls. Gerry Bordelon will monitor VHF-FM Ch 16.

Vessels will have restricted maneuverability during survey operations when towing equipment. Mariners, please transit the area with extreme caution and transit at slow speed to minimize wake when transiting the area. For more information, Trevor Jones may also be contacted at 1-857-972-4328.

Chart 13003 LNM 11/23

### **NY – NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

EGS will be conducting geophysical survey activities from the Time & Tide survey vessels within NJ and NY waters and federal waters.

The survey area will be bounded by below coordinates:

39° 51' 07.2" N, 073° 01' 28.1" W;	40° 03' 06.4" N, 074° 02' 55.3" W;	40° 30' 02.8" N, 074° 17' 35.7" W,
40° 36' 35.5" N, 074° 02' 46.7" W,	40° 38' 22.1" N, 073° 19' 15.0" W;	40° 03' 41.5" N, 072° 35' 45.9" W,
39° 53' 42.6" N, 072° 35' 15.4" W.		

Side scan sonar (SSS), multibeam bathymetry echo sounder (MBES), cesium vapor magnetometer (MAG), parametric sub-bottom profiler (SBP), single-channel seismic boomer (S-UHRS), and ultrashort base line (USBL) acoustic transceiver will be used starting on April 1, 2023, until approximately **September 30, 2023** and will conduct 7 days per week during daylight hours, until survey completion with periodic port calls. Time & Tide will monitor VHF-FM Ch 16. Vessels will have restricted maneuverability during survey operations when towing equipment. Mariners, please transit the area with extreme caution and transit at slow speed to minimize wake when transiting the area. For more information, Trevor Jones may also be contacted at 1-857-972-4328.

Chart 13003 LNM 11/23

## NY – NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS

Fugro will be conducting geotechnical investigations from Regulus and/or Explorer within the Bluepoint Wind Lease Area (OCS-A 0537).

The survey area will be bounded by the following coordinates:

NW: 072° 53' 32.7" W, 40° 03' 39.4" N

NE: 072° 36' 19.3" W, 40° 03' 19.3" N

SE: 072° 36' 38.9" W, 39° 53' 58.6" N

SW: 072° 53' 49.9" W, 39° 54' 18.6" N

Equipment on the vessel(s) include C25 drill rig, API drill pipe, WISON geotechnical sampling equipment and P&S logging equipment. Survey operations start approximately on July 7, 2023, until approximately **August 7, 2023** and will be conducted 7 days per week, 24 hours per day until survey completion with periodic port calls. Regulus and/or Explorer will monitor VHF-FM Ch 16. The vessel(s) will have restricted or no maneuverability during survey operations for extended periods of time and is requesting mariners operating in or transiting the area to give a 0.5 NM passing clearance.

Mariners, please transit the area with extreme caution. For more information, Trevor Jones may also be contacted at 1-857-972-4328.

Chart 13003 LNM 25/23

## NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS

The *R/V GO Discovery*, call sign WDK4727 and *R/V GO Pursuit*, call sign WDK6498 will be conducting survey operations, operating multibeam bathymetry; side scan sonar; marine magnetometer, and high frequency sub-bottom profiler. Towed sensors will be approximately 430 ft behind the survey vessel. Average vessel speed will be 5 knots while towing sensors. Operations will begin on May 30, 2023 and continue to approximately **August 31, 2023**. Vessels will survey the Community Offshore Wind potential export cable corridors within Offshore and State waters.

Area will be bounded by the following approximate positions: 40° 07' 11" N, 74° 00' 54" W; 39° 31' 55" N, 73° 27' 57" W; 39° 36' 37" N, 73° 18' 11" W; 40° 33' 33" N, 73° 39' 33" W; 40° 34' 49" N, 74° 01' 41" W; N – N40° 30' 45", W73° 57' 56" / N – N39° 40' 27", W73° 44' 16" / N – N40° 22' 44", W73° 53' 52" / N – N40° 26' 38", W73° 53' 55" / N40° 26' 12", W73° 49' 52" / N – N40° 24' 52", W73° 46' 79" / N – N40° 34' 39", W73° 39' 43" / N – N40° 31' 53", W73° 40' 49" / N – N40° 28' 59", W73° 40' 42" / N – N40° 28' 59", W73° 40' 42" / N – N40° 28' 58", W73° 39' 54" / N – N40° 23' 05", W73° 39' 49" / N – N40° 14' 40", W73° 20' 32" / N – N39° 59' 02", W73° 20' 53" / N – N39° 47' 02", W73° 26' 25" / N – N39° 56' 03", W73° 33' 47" / N – N39° 57' 58", W73° 34' 09" / N – N40° 01' 53", W73° 37' 30" / N – N40° 11' 22", W73° 38' 11" / N – N40° 15", W73° 40' 18" / N – N40° 04' 54", W73° 44' 56" / N – N40° 09' 12", W73° 45' 59" / N – N40° 17' 53", W73° 42' 02" / N – N39° 19' 02", W73° 42' 23" / N – N40° 21' 48", W73° 44' 30" / N – N40° 21' 29", W73° 07' 92".

The *R/V GO Discovery* and *R/V Go Pursuit* will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 0.5 NM CPA. The *R/V GO Discovery* and *R/V Go Pursuit*, will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements. See image below.

Chart 12326, 12323

#### **NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

The *M/V Fugro Enterprise*, call sign WDD9388, will be conducting survey operations, using sensors towed approximately 150 meters behind the survey vessel. Operations are ongoing and will continue to approximately **August 10, 2023**. The survey area is located about 40 to 70 miles off the New Jersey coast, between Barnegat Light and Atlantic City bounded by the following approximate positions:

NE Corner: 39°30'05"N / 73°25'46"W

SE Corner: 39°10'19"N / 73°26'11"W

SW Corner: 39°10'30"N / 73°40'34"W

NW Corner: 39°30'14"N / 73°40'10"W

The *M/V Fugro Enterprise* will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 1 NM CPA.

The *M/V Fugro Enterprise* will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12326, 12323

#### **NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

The *RV Shearwater*, Call Sign WDF5838, will be conducting geotechnical survey operations, using a mobilized vibrocoring system. Operations will occur within Lease 0541 area and export cable routes North-East of the lease and will begin on June 14, 2023 and continuing to approximately **July 15, 2023**.

Operating Export Cable Corridor:

The work area is located about 46 miles off the New Jersey coast, between Sandy Hook and Brigantine bounded by the following approximate positions:

39°25'11.69"N 073°43'47.61"W

39°34'33.31"N 073°36'06.49"W

39°40'58.32"N 073°58'09.97"W

39°31'24.67"N 074°01'07.80"W

The vessel will have restricted maneuverability during seafloor sampling operations and is requesting mariners working in or transiting through the area to give a 0.5 NM CPA. The *RV Shearwater* will be monitoring VHF channels 16 and can be contacted on these frequencies for safe passing arrangements. LNM 24/23

#### **NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

The *R/V Westerly*, will be conducting survey operations, operating multibeam bathymetry; side scan sonar; marine magnetometer, and shallow/medium seismic to map the seafloor and near-surface sub-bottom conditions. Vessel may additionally run weather patterns or testing in sheltered areas without survey sensors. Average vessel speed will be 3.7 knots while towing sensors up to 425 feet behind vessel. Operations will continue through **September 2023**. Survey area will be bounded by the following approximate positions in Lease area 0542 and along export route(s) originating at the lease and terminating outside of Lower New York Bay:

NW= 40° 08' 17.6743"N, 74° 02' 33.6234" W

NE = 40° 08' 16.2502" N, 73° 59' 45.4728" W

SE = 40° 04' 17.4962" N, 73° 59' 48.9814" W

SW = 40° 04' 18.9170" N, 74° 02' 36.9687" W

NW= 40° 44' 44.5159" N; 74° 04' 36.7620" W

Manasquan Area:

NE=40° 44' 37.9188" N, 73° 52' 14.8115" W

SE = 40° 25' 58.4141" N, 73° 52' 33.6006" W

SW =40° 26' 04.9397" N, 74° 04' 52.1231" W

The *R/V Westerly* will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 0.5 NM CPA. The *R/V Westerly*, will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12326, 12323

#### **NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

The *R/V GO Explorer*, will be conducting survey operations, operating multibeam bathymetry; side scan sonar; marine magnetometer, and shallow/medium seismic to map the seafloor and near-surface sub-bottom conditions. Vessel may additionally run weather patterns or testing in sheltered areas without survey sensors. Average vessel speed will be 4.5 knots while towing sensors up to 600 feet behind vessel. Operations will continue to approximately **November 2023**. Survey area will be bounded by the following approximate positions in Lease area 0542 and along export route(s) originating at the lease and terminating outside of Lower New York Bay and offs Manasquan.

NW extent: = 40° 29' 05.3500", N 74° 00' 48.7773" W

NE extent: NE = 40° 28' 39.9348" N, 73° 23' 09.8861" W

SW extent: 39° 26' 05.3295" N, 74° 01' 42.6876" W

SE extent: 39° 25' 40.8372" N, 73° 24' 38.0595" W

The *R/V GO Explorer* will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 0.5 NM CPA.

The *R/V GO Explorer*, will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12326, 12323

#### **NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

The *R/V GO Seeker*, will be conducting survey operations, operating multibeam bathymetry; side scan sonar; marine magnetometer, and shallow/medium seismic to map the seafloor and near-surface sub-bottom conditions. Vessel may additionally run weather patterns or testing in sheltered areas without survey sensors. Average vessel speed will be 4.5 knots while towing sensors up to 600 feet behind vessel. Operations will continue through **September 2023**. Survey area will be bounded by the following approximate positions in Lease area 0542 and along export route(s) originating at the lease and terminating outside of Lower New York Bay and offs Manasquan.

NW extent: = 40° 29' 05.3500", N 74° 00' 48.7773" W

NE extent: NE = 40° 28' 39.9348" N, 73° 23' 09.8861" W

SW extent: 39° 26' 05.3295" N, 74° 01' 42.6876" W

SE extent: 39° 25' 40.8372" N, 73° 24' 38.0595" W

The *R/V GO Seeker* will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 0.5 NM CPA. The *R/V GO Seeker*, will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12326, 12323

## **NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS**

The *HOS Browning*, call sign XCBK8, will be conducting geotechnical survey operations, using Geotechnical Drilling Rig (Fugro C30). Operations will occur within Lease 0541 area and will begin on April 22, 2023 and continue to approximately **July 31, 2023**.

Operating area Lease 0541:

The work area is located about 46 miles off the New Jersey coast, between Sandy Hook and Brigantine bounded by the following approximate positions:  
NW extent: 39° 30' 14"N / 73° 40' 10"W  
NE extent: 39° 30' 05"N / 73° 25' 46"W  
SW extent: 39° 10' 30"N / 73° 40' 35"W  
SE extent: 39° 10' 19"N / 73° 26' 11"W

The OSS *HOS Browning* will be restricted in her ability to maneuver for extended periods (up to 72 hours) and is requesting mariners operating in or transiting the area to give a 1 NM CPA. The OSS *HOS Browning* will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12323, 12318

## **NJ – SEACOAST - GEOPHYSICAL SURVEY OPERATIONS OFF ATLANTIC CITY, NJ**

Mariners be advised that TDI-Brooks International vessel RV Emma McCall (Radio Call Sign: WDG 8742) and RV Brooks McCall (Radio Call Sign: WDG 7811) will be continuing geophysical operations offshore Atlantic City, New Jersey from approximately February 7, 2023, to **December 31, 2023**, weather permitting. Vessel will have restricted maneuverability during survey operations.

Both Vessels will monitor VHF 16 & 13 during the survey. Mariners, please transit the area with extreme caution.

Chart 12318

## **VA – NC – SEACOAST - UNEXPLDED ORDNANCE SURVEY**

Dominion Energy's UXO Survey activities are expected to finish in early-May 2023 with the vessels operating on a 24/7 basis to complete the remaining work in the area identified below. Beginning on/about 25-April, the UXO Identification work will begin with mobilization of the M/V Subsea Responder I, followed shortly by the M/V Subsea Responder II. These vessels will utilize Remotely Operated Vehicles (ROVs) to investigate targets identified by survey activities and determine if they are UXO. This operation will begin in the nearshore cable corridor (Area A) and continue offshore through Area B and then into the Lease Area (Area C). These vessels will not be towing any survey equipment and should not pose a hazard to any fixed gear commercial fishing operations. These operations are expected to continue into the Fall of 2023.

We remain committed to maintaining communications with fishing communities and other mariners in the area via these periodic updates, dock visits, informational speaking engagements and the additional information posted on the CVOW Website – ([www.coastalvawind.com](http://www.coastalvawind.com)). Mariners are also encouraged to contact Dominion Energy's Fisheries Liaisons with any specific questions about CVOW project activities in relation to fisheries.

Mariners transiting or fishing in the survey area are requested to give a wide berth to survey vessels which may be limited in their ability to maneuver and towing gear up to 1,000' behind the vessel. Mariners should operate in a manner that will not endanger themselves, the survey vessel or its equipment, a 0.5 NM clearance is requested.

Additional project information is available on the Coastal Virginia Offshore Wind project web page ([www.coastalvawind.com](http://www.coastalvawind.com))  
Chart 12200

## **VA – NC – SEACOAST – GEOTECHNICAL OPERATIONS**

TDI-Brooks International vessel RV Proteus (Radio Call Sign: YJTP5) will be conducting geotechnical operations offshore Elizabeth City, North Carolina from approximately June 15th to **August 15, 2023**, weather permitting. RV Proteus will be obtaining core samples of the ocean seabed. The vessel will be working with restricted/limited maneuverability with Geotechnical equipment sub-sea. The master requests a CPA of 0.5 – 1.0 mile to accommodate operations.

Activities will be conducted within the following boundaries:

36.46191N, 075.10871W  
36.21137N, 075.10672W  
36.62296N, 075.89609W  
36.80589N, 075.96370W

RV Proteus will monitor VHF 16 & 13 during the survey ops.

**\*\*\*\*REPORTED UNEXPLODED ORDNANCES (UXO)\*\*\*\*****Enclosure 7**

The Coast Guard advertises reported unexploded ordnances (UXO) information through local, Sector Broadcast Notice to Mariners (BNMs) and through the weekly, Fifth Coast Guard District LNM. BNMs are additionally available directly to mariners by email sign-up at the CG Navigation Center Web Site [Subscribe to Our RSS Feeds | Navigation Center \(uscg.gov\)](#). Once identified, NOAA will then chart the UXO location so they are available on electronic navigation chart updates. Information on proper reporting and safety procedures for UXOs can be found at the following link: <https://www.denix.osd.mil/uxo/>.

The following is a list of Reported Unexploded Ordnances (UXO) in Fifth Coast Guard District. The UXO will remain on list until added to electronic navigation chart by NOAA. New information will be highlighted in yellow.
