TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
General/Bridges/Temp Deviation	Bridges	General/Bridges/Temp Deviation From: 2026-01-04 To: 2026-03-23 Location: 42-36-35.496N/070-40-24.096W Bridge Name: Rt 127 Bridge MASSACHUSETTS – ANNISQUAM RIVER – BLYNMAN CANAL – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the Blynman (SR127) Bridge across the Annisquam River in Gloucester, MA at mile 0.0. Under this temporary deviation, the draw of the Blynman Bridge will remain in the closed position for repairs from 6 a.m. on Monday January 5th, 2026, through 6:00 p.m. on March 22nd, 2026. However, from January 6th, 2026, through February 21st, 2026, vessels may request a bridge opening with 24 hours advanced notice to the Bridge Tender or Mass DoT at which time the Bridge will open at 5:00 a.m. for vessels to depart the canal and re-open at 6:00 p.m. for vessels to re-enter the canal. The bridge tender will be available 24/7 for request at (978) 283-0243 for the duration of the repairs. Vessels that can pass under the draw without an opening may do so. A safety vessel will be on-scene monitoring Ch 13/16 VHF-FM. Questions may be directed to the MassDOT Highway Operations Center, at 800-227-0608. Mariners are advised to exercise caution when transiting the area. Chart 13281	Lat: 42° 36' 35" Lon: -070° 40' 24"
Portsmouth To Cape Ann - Annisquam River/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Severe shoaling has been reported in the Annisquam River. Annisquam River channel buoy 24 (LLNR 9690) has been relocated due to recent shoaling in the area to mark best water. Mariners should proceed with caution while transiting the area	

Arthur Kill

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Raritan River Cutoff Channel - Arthur Kill/General/Bridges/Inspection	Bridges	General/Bridges/Inspection From: 2025-21-05 To: 2026-03-31 Location: 40.63585° N / 74.19695278° W Bridge Name: Goethals Bridge From January 1, 2026 to March 31, 2026, between 7:00 a.m. and 4:00 p.m., a bridge traveler will be operated under the Goethals Bridge over Arthur Kill at mile 11.5 to perform bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 38' 09" Lon: -074° 11' 49"
General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation. TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
North Channel Saybrook To New Haven - Connecticut River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2025-05-08 To: 2029-12-31 Location: 41.31087778° N / 72.34920833° W Bridge Name: Amtrak Railroad Bridge CONNECTICUT – CONNECTICUT RIVER – From July 7, 2025, through December 30, 2029, AMTRAK will have moored barges in place during the construction and demolition of the Amtrak Connecticut River Bridge. Due to the placement of a temporary fendering system, the horizontal clearance of the bridge in the navigation channel will be reduced to 115 feet. Similarly, the placement of temporary signal cables overhead of the navigation channel will reduce vertical clearance to 100 feet above MHW when the bridge is in the open position. From October 1, 2025 to November 15, 2025, contractors will be performing dive operations to remove submarine cables from 0630-1830 Monday through Friday. From October 30, 2025 through October 31, 2025, dive operations are scheduled to take place in the navigational channel. Barges will be placed along the bridge fenders blocking the channel. Mariners are encouraged to avoid the channel while dive operations are taking place. However, mariners requiring passage must contact Michael King at (617) 653-7987 with a 2 hour advance notice to arrange transit through the work area. Mariners are advised to exercise caution and reduce wake when transiting the area. Mariners with questions or concerns can contact the contractor via marine radio VHF-FM Ch 13/16 or call Patrick Finley at (860) 806-2365 or Bob Nardi at (203) 496-7353. Hours of operation are from 6 a.m. to 4 p.m. weekdays. There will be a safety boat operating IVO the bridge. A 84ft navigation channel free of obstruction will be maintained at all times. For construction details please contact Jed Fitz, superintendent at 267-907-5932 or via marine radio VHF-FM 13/16. This project is to be completed by February 8, 2027. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 47' 60" Lon: -074° 04' 33"

Newark Bay - Hackensack River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2024-05-24 To: 2027-10-22 Location: 40.75346° N / 74.095153° W Bridge Name: Portal (N) Bridge Portal (N) Bridge Bridge replacement to the Portal Bridge North, across Hackensack River at mile 5.04 is in progress. Hours of operations are from Monday to Friday between 6:30 a.m. to midnight. There will be waterborne equipment blocking one draw of a swing bridge at a time and the other draw will be free and clear of any equipment for the passage of vessels. Mariners can contact one of the three (3) provided telephone numbers/emails or via marine radio VHF-FM CH 13/16 advising of travel through the channel (including possible return trips): 1. Martir Ortez – Main Span Project Manager – (562) 307- 4916, morteza@traylor.com 2. Jack Phillips – Main Span Superintendent – (347) 924-5635, john.h.phillips@skanska.com 3. Jim Hummel – Main Span Area Lead - (917) 417- 4885, Jim.Hummel@skanska.com Skanska Traylor PNB JV has been awarded the construction of the New Portal North Bridge Project (NJT Contract No. 20-083X, WBS No. GC.02) with a Notice to Proceed of April 7, 2022. Specific to the Hackensack River work, mile 5.0, the project consists of constructing two bridge piers, demolition of the existing center pier north fender, erecting three tied-arch spans of approximately 400 LF (1,200 LF overall), and demolition of the existing bridge once railroad traffic is switched to the new bridge. The current status of the channels: East Channel – Open West Channel – Close The Coast Guard is modifying the operating schedule that governs the Amtrak Portal Bridge across the Hackensack River, mile 5.0, at Little Snake Hill, New Jersey. This action is necessary to facilitate the construction of the new replacement Portal Bridge North, as designed by Amtrak as the owner of the bridge, adjacent to the current Amtrak Portal Bridge. This final rulemaking limits the extent of the opening of the Amtrak Portal Bridge in the horizontal position to prevent the swing span from striking the new Portal Bridge North during construction as follows: The draw shall only open to 55 feet horizontal clearance in the east channel and the west channel will be closed to all navigation while the draw is open. Whenever any bridge opening is needed, contact one of the three (3) provided telephone numbers/emails above with 24-hour advance notice to allow the removal of any waterborne equipment from the East Channel that restricts the horizontal clearance to less than 55 feet. The draw need not open for the passage of vessel traffic from 5 a.m. to 10 a.m. and from 3 p.m. to 8 p.m. Additional bridge openings shall be provided for tide restricted commercial vessels between 7 a.m. and 8 a.m. and between 5 p.m. and 6 p.m., if at least a two-hour advance notice is given by calling the number posted at the bridge. At all other times the bridge shall open on signal if at least a 2-hour advance notice is given. Please be advised that the existing Portal Bridge east channel horizontal clearance (temporary fender) will be maintained at approx. 55ft and west channel horizontal clearance at 91ft until it's demolished, both with a closed swing bridge vertical clearance of 23ft. With a swing bridge opening, the vertical clearance increases to 50ft with the existing Portal Bridge east channel horizontal clearance (temporary fender) being maintained at approx. 55ft and west channel being closed. Mariners are advised to exercise caution when transiting the area. This project will be completed by October 22, 2027.	Lat: 40° 45' 12" Lon: -074° 05' 43"
General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation. Sector Northern New England, Submerged Lands Act (SLA) - Hampton Harbor/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2025-04-29 To: 2026-04-29 Location: 42.899° N / 70.8203° W 42.89746° N / 70.81608° W 42.89488° N / 70.80814° W 42.89251° N / 70.81105° W 42.89471° N / 70.817° W 42.8953° N / 70.82135° W 42.899° N / 70.8203° W Bridge Name: Hampton River New Hampshire 1A State Route Bridge Mariners are urged to exercise extreme caution when exiting or entering Hampton Harbor. All vessel traffic is restricted to the center span of the bridge due to work trestles which have been constructed alongside the existing Hampton Harbor Bridge, blocking the side channels. Mariners should anticipate strong currents in the marked navigation channel coupled with very shallow water just outside the marked channel and plan their transits accordingly. One way vessel traffic is strongly recommended with vessels transiting with the tidal current having priority. Larger vessels will be limited in their maneuverability and once committed to the passage will not be able to stop. Mariners unfamiliar with the area are encouraged to contact the Harbor Master on VHF-FM Channel 16 for transit guidance, as well as making a radio broadcast of their transit to facilitate safest passage.	

Sector Northern New England, Submerged Lands Act (SLA) - Hampton Harbor/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	<p>General/LAA/RNA/Temporary Regulated Navigation Zone From: 2025-07-08 To: 2030-12-31 The Coast Guard is establishing a temporary regulated navigation area (RNA) and a safety zone on the Hampton River at the inlet to Hampton Harbor, Hampton, NH, in response to hazardous conditions created by construction activities for the Neil R. Underwood Seabrook-Hampton Harbor Bridge replacement project. This rule is necessary to provide for the safety of life in the areas undergoing demolition and construction. The RNA will be enforced from July 1, 2025, through December 31, 2030, and will establish the following operating restrictions on vessels: Nothing in this regulation relieves any vessel, owner, operator, charterer, master, or person directing the movement of a vessel, from the consequences of any neglect to comply with this part or any other applicable law or regulation (i.e. the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) or 33 CFR part 84—Subchapter E, Inland Navigation Rules) or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case. Entry and movement within the RNA is subject to a "Slow-No Wake" speed limit. All vessels may not produce a wake and may not attain speeds greater than five (5) knots unless a higher minimum speed is necessary to maintain bare steerageway. Any vessel transiting through the RNA must make a direct passage. No vessel may stop, fish, moor, anchor, or loiter within the RNA at any time. Vessels may not pass (overtake) another vessel within the RNA. Only one vessel is permitted to pass through the center span navigational channel at any given time. Except when transiting through the center span navigation channel, no vessel or craft may operate within 20 feet of the bridge(s). The operator of any vessel transiting in the RNA must comply with all lawful directions given to them by the COTP or the COTP's on-scene representative. viii) One-way traffic will flow northbound between the eastern side of the shallow waters and the Seabrook-Hampton Harbor Bridge. The northern side of the shallow area will accommodate one-way traffic moving west. The Safety Zone, includes all navigable waters within a 50-yard radius of the center point of the bridge, will be effective from July 1, 2025, through December 31, 2030, but will only be enforced during active construction within the main span navigational channel or other instances which may cause a hazard to navigation as determined by the COTP. The COTP will make notification of the exact dates and times in advance of each closure period of the safety zone to the local maritime community through the Local Notice to Mariners and will issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency. The complete rulemaking is available under Federal Register docket number USCG-2025-0389 and can be accessed through the federal portal at https://www.regulations.gov/document/USCG-2025-0389-0001 We invite your comments on this rulemaking. To submit your comment online, go to https://www.regulations.gov, and insert "USCG-2025-0389" in the "search box". Click "Search" and then click "Comment." We will consider all comments received on or before October 6, 2025. If the project is completed before December 31, 2030, enforcement of the safety zones will be suspended, and notice given via Local Notice to Mariners. The First Coast Guard District Local Notice to Mariners can be found at: https://www.navcen.uscg.gov/msi. For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapiejko, Waterways Management at First Coast Guard District, telephone (571) 607-6314, e-mail: craig.d.lapiejko@uscg.mil. Matthew B. Stuck, First Coast Guard District Chief of Waterways Management, sends</p>

<p>General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes</p>	<p>Marine Construction (Excluding Bridges)</p>	<p>General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2026-01-06 To: 2027-01-21 Contractors Weeks Marine and Posillico Civil will conduct marine construction in the Hudson River on behalf of the Hudson Tunnel Project. The construction zone is bounded by the following positions off the Manhattan bulkhead: 40-45-20.32N 074-00-23.84W; 40-45-18.89N, 074-00-48.18W; 40-45-13.80N 074-00-48.64W; 40-45-12.40N. 074-00-28.47W. Mariners are advised to transit west of the construction area. Vessels transiting near the work zone should proceed with extreme caution, operate at their slowest safe speed, and maintain a minimum 200 ft buffer from all structures and barges. There are two distinct jobsites operating within the construction area. Weeks Marine is conducting soil mixing within a 110' wide x 600' long cofferdam for the Hudson River Ground Stabilization (HRGS) Project located west of Pier 66. Work Hours are 12 hours/day Monday through Saturday. The cofferdam is marked with FL W 4s lights at each corner and at 30 ft intervals, and with White retro-reflective tape 6" high and at least 4' long is installed above the MHW mark every 50 feet on the cofferdam. The Weeks 263 barge (AIS- WEEKS 263) and material barges will be on the southern side outside of the cofferdam to support drilling operations within the cofferdam. VHF-FM Channel 13 / 16 / 67. The Weeks 61 barge (AIS - WEEKS 61 Barge) and dump scow will be on the south or north side of the cofferdam to place sand inside the cofferdam as well as remove obstructions ahead of the drilling operations. One Dump Scow will also be on-site. VHF-FM Channel 13 / 16 / 82. The Weeks 526 barge (AIS - WEEKS 526) and pile barges will be on the north side of the cofferdam to advance the cofferdam East. The Weeks 526 barge will continue to remove piles from the west end, lay them down on a deck barge, shift to the east, and reinstall them. VHF-FM Channel 13 / 16 / 66. Manhattan Tunnel Project – Posillico Civil. The second jobsite is north of Pier 66, in close proximity to the Manhattan bulkhead, near position 40-45-15.270N, 074-0-28.007W. Posillico Civil is conducting marine construction for the Manhattan Tunnel Project to stabilize the ground beneath the Manhattan bulkhead in preparation for tunnel boring. Work hours are 0700-1900, seven days a week, through April 30, 2026. Equipment on scene includes a 56' x 17' Tugboat "Dana Alexa", Aluminum Work Skiffs, 150' x 40' Scow "Angela", and a 150' x 69' Work Barge "JFB 4550" with Liebherr LR1300 Crane. VHF-FM Channel 13 / 16 / 66. General Construction area Requirements: All barges require tug assistance for a movement. A minimum notice of 24 hours, via VHF radio, is required for any barge relocation. All moored barges display fixed white lights in accordance with the Inland Navigation Rules. Aids to Navigation: Four seasonal white lighted danger buoys have been established. Two (LLNR 37663, 37663.1) are upriver of the construction area, and two (LLNR 37663.2, 37663.3) are downriver. All four buoys exhibit FL W 2.5s characteristics. Buoys will be withdrawn for the winter season and will be reset on or about April 1, 2026.</p>	
<p>General/Miscellaneous</p>	<p>Miscellaneous</p>	<p>General/Miscellaneous From: 2025-12-18 To: 2026-04-01 All commercial vessels engaged in towing or pushing ahead, excluding ferry operations, are requested to report to Coast Guard Sector New York vessel traffic service at 1-718-354-4088 prior to leaving berth. The following information should be provided: vessel name, cargo type, cargo quantity, and destination. Mariners are advised that ice condition messages are updated on the Navigation Centers Port Status Page linked here https://www.navcen.uscg.gov/port-status?zone=NEW%20YORK Location: Hudson River from George Washington Bridge to Troy Locks</p>

New Rochelle Harbor North Approach - Middle Channel/General/Bridges/Temp Deviation	Bridges	General/Bridges/Temp Deviation From: 2025-10-01 To: 2026-04-30 Location: 40.88902778° N / 73.78247222° W Bridge Name: Glen Island Bridge NEW YORK – NEW ROCHELLE HARBOR - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation for the Glen Island Temporary Bridge. Under this temporary deviation, the Glen Island Temporary Bridge will remain in the closed position from October 2, 2025 through April 29, 2026. Mariners that can pass without a bridge opening may do so and are advised to exercise caution when transiting the area.	Lat: 40° 53' 21" Lon: -073° 46' 57"
New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	New Rochelle, NY - Long Island Sound – Safety Zone – Bridge Construction Mariners are advised that a safety zone will be enforced for construction work on the Glen Island Approach Bridge. The safety zone will be enforced from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The Safety Zone encompasses all waters within a line beginning at 40° 53' 18.58"N 73° 46' 56.26"W; thence to 40° 53' 22.08"N 73° 46' 59.39"W; thence north along the shore to 40° 53' 23.8"N 73°46' 57.51"W; thence to 40° 53' 19.15"N 73° 46' 52.54"W and thence south along the shore back to the point of origin (WGS 84). Vessels may not enter, remain in, or transit through the Safety Zone during the enforcement period unless authorized by the Coast Guard Captain of the Port. Other Federal, State and local agencies may assist these personnel in the enforcement of the Safety Zone. Mariners are urged to exercise caution while in the area. The anticipated dates for the windows of full channel closures: Date December 2, 2024, through December 20, 2024 February 3, 2025, through May 22, 2025 October 2, 2025, through April 29, 2026 Tentative Full Channel Closure Dates August 11, 2026, through August 17, 2026 October 2, 2026, through October 29, 2026	

<p>New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/COTP Restriction</p>	<p>LAA/RNA</p>	<p>General/LAA/RNA/COTP Restriction From: 2024-12-16 To: 2027-05-31 The Coast Guard is establishing a temporary safety zone for certain waters of Long Island Sound in the vicinity of the Glen Island Approach Bridge, New Rochelle, NY, for construction vessels and machinery involved in the rehabilitation project of the bridge. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards associated with the bridge construction between December 2, 2024, through May 27, 2027. When enforced, this regulation prohibits persons and vessels from being in the safety zone unless authorized by the Captain of the Port New York or a designated representative. DATES: This rule is effective without notice from December 3, 2024, through 5 p.m. on May 27, 2027. For the purposes of enforcement, actual notice will be used from midnight on December 2, 2024, until December 3, 2024. This rule will only be enforced during periods when construction operations at the bridge are in progress. Comments and related material must be received by the Coast Guard on or before March 3, 2025. ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to https://www.regulations.gov, type USCG-2024-0956 in the search box and click "Search." Next, in the Document Type column, select "Supporting & Related Material." FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email Jeffrey Yunker, Waterways Management Division, U.S. Coast Guard Sector New York; telephone 718-354-4195, email Jeffrey.M.Yunker@uscg.mil. IV. Discussion of the Rule This rule establishes a safety zone from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The anticipated dates for the windows of full channel closures are from 7 a.m. on December 2, 2024, through 5 p.m. on December 20, 2024; from 7 a.m. on February 3, 2025, through 5 p.m. on May 22, 2025; and from 7 a.m. on October 2, 2025, through 5 p.m. on April 29, 2026. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in advance of these scheduled closures. All these dates are tentative and subject to change due to weather, supply chain delays, or other unforeseen circumstances. This rule remains effective through May 27, 2027, in case the project is delayed due to unforeseen circumstances. The area regulated by the safety zone will encompass the waters around the Glen Island Bridge and will cover all navigable waters, from surface to bottom, within the area formed by connecting the following latitude and longitude points in the following order: 40°53'18.58" N 73°46'56.26" W; thence to 40°53'22.08" N 73°46'59.39" W; thence north along the shore to 40°53'23.8" N 73°46'57.51" W; thence to 40°53'19.15" N 73°46'52.54" W and thence south along the shore back to the point of origin. This area is intended for the vessels and machinery being used by personnel for the Glen Island Bridge rehabilitation project. The duration of the zone is intended to ensure the safety of personnel, vessels, and these navigable waters during the bridge construction. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency or hazardous condition.</p>

Main Channel - New Jersey Pierhead/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	General/Hazards To Navigation/Shoaling Reported From: 2025-02-13 To: 2027-02-28 Claremont Terminal Channel Shoaling – The Harbor Safety, Operations and Navigation Committee of the Port of NY and NJ – Deep Draft Working Group: The need to immediately restrict the deep draft of vessels transiting Claremont Terminal Channel has come to our attention. Based on the latest available surveys conducted by the Army Corps of Engineers, November 4, 2024, shoaling has occurred in the channel. The shoaling has minimized the available depth of water to 15 feet near the centerline of the channel. Based on this data, vessels will be restricted to a draft of 13 feet, plus the rise in tide, with a maximum draft of 18 feet. On 11/04/2024, the shoal area was bound by the following approximate coordinates: 40° 41' 11" N, 074° 04' 41" W; thence to 40° 41' 17" N, 074° 04' 33" W; thence to 40° 40' 14" N, 074° 03' 06" W; thence to 40° 40' 10" N, 074° 03' 13" W.

Long Island Sound Eastern Part - New London Harbor/General/Bridges/Repairs, Painting, Or Fender Replacement	Bridges	CONNECTICUT – NEW LONDON HARBOR - Bridge Repairs – From April 1, 2025 to January 30, 2026, between 6 a.m. and 5:30 p.m., the Connecticut Department of Transportation will conduct repairs on the Gold Star I-95 Southbound Bridge over the Thames River, mile 3.1. Work will be performed from hanging platforms on the bridge structure. The platforms will extend over the full width of the river from the shoreline on the New London side to the shoreline on the Groton side. The reduction in vertical clearance caused by the activities will not exceed 3 feet below the current bridge vertical clearances of 135 feet (MHW). There will be no impacts to navigation other than the 3-foot reduction of vertical clearance. A safety boat will be in the water and will monitor VHF Channel 16 when work is performed over the water. Questions may be addressed to Patrick Mahoney, Project Manager Aetna Bridge Company, at 401-378-7225 or Patrick McNamara, CT DOT, at 860-904-8613.	Lat: 41° 21' 51" Lon: -072° 05' 16"

General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation. General/MSIB MSIB	General/MSIB From: 2025-12-22 To: 2026-02-17 Notice of Proposed Rulemaking - Special Local Regulation, Temporary Anchorage Ground Suspension, and Security Zones: Sail 4th 250, International Naval Review 250; Port of New York and New Jersey This bulletin addresses a Notice of Proposed Rulemaking – “Special Local Regulation, Temporary Anchorage Ground Suspension, and Security Zones: Sail 4th 250, International Naval Review 250; Port of New York and New Jersey.” 1. The Coast Guard is proposing to establish temporary special local regulations and multiple security zones, and to temporarily suspend certain anchorage grounds in New York Harbor, Sandy Hook Bay, and the Hudson River before, during, and after Sail 4th 250 events, the U.S. Navy’s International Naval Review 250 and International Aerial Review, Independence Day fireworks displays, and U.S. Navy Fleet Week events to be held between July 1, 2026, and July 9, 2026. 2. Due to a high concentration of expected spectator vessels and the series of events, the Coast Guard Northeast District Commander and the Captain of the Port, New York, have determined these regulations are necessary for the safety of Sail 4th 250 participants, International Naval Review 250 participants, spectator vessels, non-participant and non-spectator vessels operating in and around Port of New York and New Jersey, and life and property. 3. The complete rulemaking is available under Federal Register docket number USCG-2025-0903 and can be accessed through the federal portal at https://www.regulations.gov/search?filter=uscg-2025-0903 . 4. We invite your comments on this rulemaking. To submit your comment online, go to https://www.regulations.gov , and insert “USCG-2025-0903” in the “search box”. Click “Search” and then click “Comment.” We will consider all comments and material received on or before February 17, 2026. 5. For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapijko, Waterways Management at Coast Guard Northeast District, telephone (571) 607-6314, e-mail craig.d.lapijko@uscg.mil . Matthew B. Stuck, Coast Guard Northeast District Chief of Waterways Management, sends

Revolution Wind (REV) "On January 12, 2026, the U.S. District Court for the District of Columbia granted Revolution Wind, LLC's motion for a preliminary injunction against the Order issued by the Bureau of Ocean Energy Management (BOEM) on Monday, December 22, 2025. The preliminary injunction allows Revolution Wind, LLC to resume previously suspended activities on the Outer Continental Shelf, which Revolution Wind, LLC is doing with safety as its top priority." SCYLLA and supporting vessels are installing wind turbine generators (WTG) in REV. WTG components are stored and prepared in New London, CT. Barge 455-8 and tugs SAM and OCEAN SKY, transport one complete WTG per roundtrip, consisting of two tower sections, one nacelle and three blades. HYDRA is positioned for commissioning of the REV Offshore Substation (OSS) at AL11. Multiple vessels are supporting this work. REV array cables have been buried, and there are areas where additional cable protection measures may be installed. HOS MYSTIQUE will begin cable protections installation this week. This work is expected to take one to two weeks. Please contact Safety Vessels on scene before conducting bottom contacting activity. Please be advised that there is a circular seafloor obstruction approximately 9' off the seafloor and over 30' in diameter at 41-07-41.1478N, 071-03-32.5954W. Sunrise Wind (SRW) "Sunrise Wind LLC is complying with the Order issued by the Bureau of Ocean Energy Management (BOEM) on Monday, December 22, 2025, by suspending activities on the Outer Continental Shelf. The Order states that the project 'may perform any activities that are necessary to respond to emergency situations and/or prevent impacts on health, safety and the environment.' Accordingly, a limited number of vessels may be in the Sunrise Wind lease area for certain limited activities, in compliance with the Order." Work at SRW's cable landfall area will take place approximately 1320 feet (400 meters) off Smith Point Park Beach in Brookhaven, NY and will be conducted by the vessel JOSEPHINE MILLER and the NORTHSTAR COMMANDER (or similar). The work at the cable landfall area will be completed on or around January 31, 2026. LEVIATHAN is stationed at AU08 for safety critical works. ADHEMAR DE SAINT-VENANT is installing cable protection on SRW's export cable. Vessels should be advised of potentially exposed cable in the vicinity of 40-50-52.8N, 074-28-26.4W and use caution if operating gear making bottom contact.

There will be barge equipment operating IVO the bridge. From December 15, 2025, through December 19, 2025, and again on January 5, 2026, through January 9, 2026, the width of the navigation channel will be reduced to 35 feet as barges install cofferdams around the existing bridge piers. Once the cofferdams are installed, the width of the navigation channel will be reduced to 65 feet until the cofferdams are removed on or about February 28, 2026. During this period, there will be other periodic 35-foot channel restrictions during work hours (7:00 a.m. to 5:00 p.m. Monday through Friday). For daily barge placement details, please contact Kevin Cummons at (609) 839-0595, Nick Scuderi at (609) 743-0156, or vessels on-scene via marine radio VHF-FM CH 13 / 16. Updates will be provided, as they are available, in the D1 LNM and on the project website at https://www.rumsonseabrightbridge.com and click on the Travel Advisory or Channel Info links at the top of the page. To receive e-mail updates for this project select the "Contact Us" tab, then "E-mail List Sign Up" from the drop-down menu. Mariners are advised to exercise caution when transiting the area. The project will be completed by March 31, 2026.	Lat: 40° 21' 57" Lon: -073° 58' 32"
