TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation.	Lat: 40° 38' 15" Lon: -074° 11' 45"
Raritan River Cutoff Channel - Arthur Kill/General/Bridges/Maintenance	Bridges	General/Bridges/Maintenance On February 16, 2026, between 7:00 am and 3:30 pm on weekdays, bridge maintenance will be performed on the New Jersey Turnpike (99.70ANI) IVO Interchange 13) over Elizabeth River, mile .61 to the mouth of Elizabeth Reach, in Elizabeth, Union County, New Jersey. This work will be completed in 5 non-consecutive days. A 15 ft skiff and a 60 ft X 160 ft platform will be in the waterway intermittently. Mariners requiring full horizontal clearance can contact Matt Becker at (201) 304-3045. The project is to be completed by December 31, 2026. Mariners are advised to exercise caution when transiting the area. From: 2026-02-12 To: 2027-01-01 Location: 40-38-44.052N/074-12-14.508W Bridge Name: 99 67 Interstate95 Expressway Southbound Bridge	Lat: 40° 38' 44" Lon: -074° 12' 15"
Raritan River Cutoff Channel - Arthur Kill/General/Bridges/Maintenance	Bridges	General/Bridges/Maintenance From: 2026-02-13 To: 2026-08-12 Location: 40-35-57.408N/074-13-57.612W Bridge Name: Structure 96 23 Interstate 95 Expressway Southbound Bridge On February 16, 2026, between 7:00 a.m. and 3:30 p.m. on weekdays, in-water bridge maintenance and timber replacement will be performed on the New Jersey Turnpike Structure 96.23 (SNI) over Rahway River, mile 2.0 from the mouth of the Arthur Kill, in Linden, Union County, New Jersey. This work will be completed in 3 non-consecutive weeks. A 15 ft skiff and a 60 ft X 160 ft platform will be in the waterway. Mariners requiring full horizontal clearance can contact Matt Becker at (201) 304-3045. The project is to be completed by December 31, 2026. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 35' 57" Lon: -074° 13' 58"
Raritan River Cutoff Channel - Arthur Kill/General/Bridges/Inspection	Bridges	From April 1, 2026 to June 30, 2026, between 7:00 a.m. and 4:00 p.m., a bridge traveler will be operated under the Goethals Bridge over Arthur Kill at mile 11.5 to perform bridge inspection. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 38' 09" Lon: -074° 11' 49"
Raritan River Cutoff Channel - Arthur Kill/General/Bridges/Inspection	Bridges	General/Bridges/Inspection From: 2026-06-14 To: 2026-11-01 Location: 40-31-29.310N/074-14-49.110W Bridge Name: Outerbridge Crossing From June 15, 2026 – October 31, 2026, Monday-Friday, between 7:00 a.m. and 5:00 p.m., a biennial bridge inspection using a combination of a bucket truck, manlift, and tethered climbing will be conducted on the Outerbridge Crossing over Arthur Kill at mile 2.0. Vertical clearance will not be reduced by more than 5 feet below low steel due to this inspection. Additionally, there will be a dive inspection of the bridge piers periodically during this time period. Mariners requiring full vertical or horizontal clearance can contact VTS New York or contact the contractor via marine radio VHF-FM Ch. 13/16 or by calling Rudy Baliga (862) 345-4670. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 31' 29" Lon: -074° 14' 49"

North Channel Saybrook To New Haven - Connecticut River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2025-05-08 To: 2029-12-31 Location: 41.31087778° N / 72.34920833° W Bridge Name: Amtrak Railroad Bridge CONNECTICUT – CONNECTICUT RIVER – From July 7, 2025, through December 30, 2029, AMTRAK will have moored barges in place during the construction and demolition of the Amtrak Connecticut River Bridge. Due to the placement of a temporary fendering system, the horizontal clearance of the bridge in the navigation channel will be reduced to 115 feet. Similarly, the placement of temporary signal cables overhead of the navigation channel will reduce vertical clearance to 100 feet above MHW when the bridge is in the open position. From October 1, 2025 to November 15, 2025, contractors will be performing dive operations to remove submarine cables from 0630-1830 Monday through Friday. From October 30, 2025 through October 31, 2025, dive operations are scheduled to take place in the navigational channel. Barges will be placed along the bridge fenders blocking the channel. Mariners are encouraged to avoid the channel while dive operations are taking place. However, mariners requiring passage must contact Michael King at (617) 653-7987 with a 2 hour advance notice to arrange transit through the work area. Mariners are advised to exercise caution and reduce wake when transiting the area. Mariners with questions or concerns can contact the contractor via marine radio VHF-FM Ch 13/16 or call Patrick Finley at (860) 806-2365 or Bob Nardi at (203) 496-7353. Main Channel - East River Main Channel/General/Bridges/Rehabilitation	Bridges	Structural repairs to the Brooklyn Bridge, over the East River at mile 0.8, have commenced and will be ongoing through at least June 30, 2026, using the bridge traveler over the navigable channel. Active work will occur between 8:00 a.m. and 2:00 p.m., Monday through Friday. The traveler will reduce the vertical clearance of the bridge by 17 feet. During work hours the traveler can move with 2 hours' notice for vessels requiring full vertical clearance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call the VTS-NY watch supervisor at (718) 354-4088. The traveler platform will be moved out of the navigable channel each week from 2:00 p.m. on Friday until 8:00 a.m. on Monday. During the work week, the traveler may remain staged over the navigable channel outside of work hours. Mariners requiring full vertical clearance for transits between 2:00 p.m. and 8:00 a.m. on Monday through Thursday are strongly advised to contact the VTS-NY watch supervisor prior to 12:00 p.m. to arrange for the traveler to be located outside the navigable channel. Mariners with general questions about this construction project can contact NYC DOT at (917) 842-3753 or (212) 839-3740. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 42' 22" Lon: -073° 59' 48"
Main Channel - East River Main Channel/General/Bridges/Repairs, Painting, Or Fender Replacement	Bridges	Fender repairs are ongoing to the 145th Street Bridge across the Harlem River, mile 2.8, in New York City. From March 25, 2026 through June 26, 2026, barges will be staged 24/7 in the East Channel of the bridge opening, leaving 25 feet of vertical clearance. The West Channel of the bridge opening will not be obstructed. Active work on the fender system will occur 6:00 a.m. to 2:30 p.m. Monday through Friday. Mariners requiring additional information on this project may contact the project manager at (201) 417-4115. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 49' 10" Lon: -073° 55' 59"
Main Channel - East River Main Channel/General/Bridges/Inspection	Bridges	General/Bridges/Inspection From: 2026-05-11 To: 2026-07-04 Location: 40-42-21.852N/073-59-48.300W Bridge Name: Brooklyn Bridge From May 11, 2026 – July 3, 2026, Monday-Friday, with occasional Saturdays and Sundays, between 9:00 a.m. and 2:00 p.m., a biennial bridge inspection using a traveler will be conducted on the Brooklyn Bridge. Mariners requiring the traveler to move to provide full vertical clearance can contact VTS New York, or contact the contractor via marine radio VHF-FM Ch. 13/16 or by calling 917-821-9097. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 42' 22" Lon: -073° 59' 48"
Main Channel - East River Main Channel/General/Bridges/Inspection	Bridges	From May 1, 2026 – December 31, 2026, Monday-Friday, with occasional Saturdays and Sundays, between 8:00 a.m. and 4:00 p.m., a biennial bridge inspection using a traveler and rigging will be conducted on the Manhattan Bridge, mile 1.1 in the East River, New York City. The safety boat Kylie Anne (CT8893BM) will be on scene during inspection operations. Mariners requiring the traveler to move to provide full vertical clearance can contact VTS New York, or contact the contractor via marine radio VHF-FM Ch. 13/16 or by calling 631-891-9721. Main Channel - East River Main Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2026-05-26 To: 2026-09-30 This Local Notice to Mariners (LNM) Information Form, submitted to the U.S. Coast Guard District Northeast, details a marine construction project by C.A.C. Industries, managed by Michal Mludzik. The project involves timber pile repair, dive work, and concrete infill under the esplanade at Bobby Wagner Walk, New York, NY (just north of the E 90th Street ferry and south of DSNY 91st Street MTS), with precise coordinates at 40°46'41.2"N, 73°56'33.4"W. Operations are scheduled to begin May 27, 2026, and continue through September 2028, taking place Monday through Friday from 0600 to 1600 hours, dependent on tidal conditions. The site will utilize a 120x55 deck barge equipped with an MLC-150 crane, and marine radio communications will be available via channel 16 (hail) and channel 78 (monitor). The barge will be stationed along the bulkhead to minimize navigation impact.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Northern New England, Submerged Lands Act (SLA) - Frenchman Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2026-05-18 To: 2028-03-31 L Beginning May 18, 2026, and continuing until March 02, 2028, a Crane Barge along with an attendant plant will be operating at various locations in and around the Bar Harbor Breakwater located adjacent to Bald Porcupine Island and the Porcupine Dry Ledge. Materials will be delivered to this Crane Barge via Tug transit. The work zone in general extends approximately 300 feet on either the north or south sides of the existing breakwater rock structure. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution when travelling near the work area. When construction vessels are to navigate to the Bar Harbor breakwater they shall follow a designated haul route to minimize any disruptions to local marine traffic or fishermen. Vessels shall enter the harbor on a course of 343°. Upon reaching vertex of N 264340.78, E 1069401.28 (northeast of Bald Porcupine Island) they shall alter course to a heading of 270°. They will then continue at this heading until reaching a vertex of N264340.78, E 1067401.28 where they shall set a heading of 210° and maintain this heading to enter the work zone. The work zone in general extends approximately 300 feet on either the north or south sides of the existing breakwater rock structure. Its vertices are: Northeast corner: N 262830.48, E 1066588.92, Southeast corner: N 262354.34, E 1066858.96, Northwest corner: N 261413.24, E 1064383.15, Southwest corner: N 260917.96, E 1064721.87. When leaving the work zone any vessels shall navigate the course described above with opposite headings. Should any construction vessels need to leave the work zone for safe harbor they shall exit the work zone at its northeast corner (N 262830.48, E 1066588.92) on a course heading of 0° until reaching a vertex of N 268623.87, E 1066472.54 and start a heading of 45°. A safe harbor point shall be N 269679.20, E 1067527.92 which is west of Burnt Porcupine Island. An alternate safe harbor spot shall continue on the same course until reaching vertex N 270669.19, E 1068517.87 and then alter course to heading 148° until reaching safe harbor at N 269494.97, E 1070376.68. This safer harbor location is between Burnt Porcupine Island and Long Porcupine Island, east of Rum Key. Vessels may leave this safe harbor location on a heading of 210° back into the work zone. The above described safe harbor locations may be reached in the opposite direction if chosen. The Crane Barge will not be sitting in the federally marked navigation channel while repairing the breakwater. Should any construction vessels need to leave the work zone for safe harbor they shall exit the work zone and travel across the navigation channel to a designated safe harbor point that is located west of Burnt Porcupine Island. An alternate designated safe harbor point is located between Burnt Porcupine Island and Long Porcupine Island, east of Rum Key. The crew will be working Monday through Friday during daylight hours. The Crane and attendant plant will both monitor marine VHF Channel 16. Mariners are urged to use extreme caution and transit the area at a safe speed. If you have any questions or require additional information, please contact me via e-mail at mlayton@agatenj.com or via telephone at (609) 364-2078.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Newark Bay - Hackensack River/General/Bridges/Rehabilitation	Bridges	General/Bridges/Rehabilitation From: 2024-09-25 To: 2028-01-20 Location: 40.82286667° N / 74.03445556° W Bridge Name: Westerly Hackensack River Bridge Replacement of Two Waterway Piers and Bridge Washing – Installation of temporary trestle at the New Jersey Turnpike Bridge across the Hackensack River at mile 11.8 will commence on July 1, 2024. Hours of operation are from 6 am to 4 pm. 6 Shugart sectional barges will be installed at piers 15 and 18 outside navigation channel. A barge will be operating in the navigation channel for bridge washing during month of January in 2026, 2027 and 2028 (tentative). Mariners requiring full horizontal clearance can contact Albert Parker via marine radio VHF-FM Ch 13/16 or 215-495-2140. Mariners are advised to exercise caution when transiting the area. This project is to be completed by January 20, 2028.	Lat: 40° 49' 22" Lon: -074° 02' 04"
Newark Bay - Hackensack River/General/Bridges/Modification	Bridges	General/Bridges/Modification From: 2024-12-10 To: 2027-02-08 Location: 40.79992778° N / 74.07591389° W Bridge Name: Berry's Creek Canal New Jersey Turnpike Bridge Bridge Replacement – Installation of temporary trestle to the New Jersey Turnpike Bridge (W112.72B) over Berry's Creek Canal at mile .05 will commence on or about December 16, 2024. Hours of operation are from 6 a.m. to 4 p.m. weekdays. There will be a safety boat operating IVO the bridge. A 84ft navigation channel free of obstruction will be maintained at all times. For construction details please contact Jed Fitz, superintendent at 267-907-5932 or via marine radio VHF-FM 13/16. This project is to be completed by February 8, 2027. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 47' 60" Lon: -074° 04' 33"
Newark Bay - Hackensack River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2024-05-24 To: 2027-10-22 Location: 40.75346° N / 74.095153° W Bridge Name: Portal (N) Bridge Portal (N) Bridge Bridge replacement to the Portal Bridge North, across Hackensack River at mile 5.04 is in progress. Hours of operations are from Monday to Friday between 6:30 a.m. to midnight. There will be waterborne equipment blocking one draw of a swing bridge at a time and the other draw will be free and clear of any equipment for the passage of vessels. Mariners can contact one of the three (3) provided telephone numbers/emails or via marine radio VHF-FM CH 13/16 advising of travel through the channel (including possible return trips): 1. Martir Ortez – Main Span Project Manager – (562) 307- 4916, mortez@traylor.com 2. Jack Phillips – Main Span Superintendent – (347) 924- 5635, john.h.phillips@skanska.com 3. Jim Hummel – Main Span Area Lead - (917) 417- 4885, Jim.Hummel@skanska.com Skanska Traylor PNB JV has been awarded the construction of the New Portal North Bridge Project (NJT Contract No. 20-083X, WBS No. GC.02) with a Notice to Proceed of April 7, 2022. Specific to the Hackensack River work, mile 5.0, the project consists of constructing two bridge piers, demolition of the existing center pier north fender, erecting three tied-arch spans of approximately 400 LF (1,200 LF overall), and demolition of the existing bridge once railroad traffic is switched to the new bridge. The current status of the channels: East Channel – Open West Channel – Close The Coast Guard is modifying the operating schedule that governs the Amtrak Portal Bridge across the Hackensack River, mile 5.0, at Little Snake Hill, New Jersey. This action is necessary to facilitate the construction of the new replacement Portal Bridge North, as designed by Amtrak as the owner of the bridge, adjacent to the current Amtrak Portal Bridge. This final rulemaking limits the extent of the opening of the Amtrak Portal Bridge in the horizontal position to prevent the swing span from striking the new Portal Bridge North during construction as follows: The draw shall only open to 55 feet horizontal clearance in the east channel and the west channel will be closed to all navigation while the draw is open. Whenever any bridge opening is needed, contact one of the three (3) provided telephone numbers/emails above with 24-hour advance notice to allow the removal of any waterborne equipment from the East Channel that restricts the horizontal clearance to less than 55 feet. The draw need not open for the passage of vessel traffic from 5 a.m. to 10 a.m. and from 3 p.m. to 8 p.m. Additional bridge openings shall be provided for tide restricted commercial vessels between 7 a.m. and 8 a.m. and between 5 p.m. and 6 p.m., if at least a two-hour advance notice is given by calling the number posted at the bridge. At all other times the bridge shall open on signal if at least a 2-hour advance notice is given. Please be advised that the existing Portal Bridge east channel horizontal clearance (temporary fender) will be maintained at approx. 55ft and west channel horizontal clearance at 91ft until it's demolished, both with a closed swing bridge vertical clearance of 23ft. With a swing bridge opening, the vertical clearance increases to 50ft with the existing Portal Bridge east channel horizontal clearance (temporary fender) being maintained at approx. 55ft and west channel being closed. Mariners are advised to exercise caution when transiting the area. This project will be completed by October 22, 2027.	Lat: 40° 45' 12" Lon: -074° 05' 43"
General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation.	Lat: 40° 44' 36" Lon: -074° 04' 37"

Newark Bay - Hackensack River/General/Bridges/Maintenance	Bridges	General/Bridges From: 2026-01-30 To: 2027-01-02 Location: 40.83963, -74.01879 Bridge Name: New Jersey Interstate 95 Turnpike Northbound Bridge On February 16, 2026, between 7:00 am and 3:30 pm on weekdays, in-water bridge maintenance will be performed on the New Jersey Turnpike (117.6 NO) IVO Pier One Overpeck Creek, mile .73 in Ridgefield, Bergen County, New Jersey. This work will be completed in three non-consecutive weeks. A 15 ft skiff and a 60 ft X 160 ft platform will be in the waterway intermittently. Hackensack River/General/Bridges/Removal	Bridges	General/Bridges From: Tentative 2026-09-01 through 2026-12-28 (to start) To: Project will take approximately 8 weeks Location: 40.75343, -74.09542 Bridge Name: Amtrak Portal Bridge This is a preliminary notice. STJV is tentatively scheduled to start demolition of the existing Portal North bridge as early as September 1, 2026, but could start as late as end of December 28, 2026. The actual start date will be provided in future updates and is dependent on moving remaining existing rail traffic onto the new bridge. Upon making the rail traffic switch, the power to the swing bridge will be cut, making the existing bridge inoperable and commencing demolition activities. The demolition of the existing bridge will require eight (8) continuous weeks of full channel closures (Both Channels) for the safety of the public and for the successful completion of the work. The bridge demolition will NOT use explosives, instead sections of steel well be cut and removed with a crane on a barge. Once the steel beams are removed, cofferdams will be installed, the concrete piers will be demolished along with the timber fendering. Mariners are advised to plan accordingly and exercise caution when transiting the area.	Lat: 40° 45' 12" Lon: -074° 05' 44"

Sector Northern New England, Submerged Lands Act (SLA) - Hampton Harbor/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	General/LAA/RNA/Temporary Regulated Navigation Zone From: 2025-07-08 To: 2030-12-31 The Coast Guard is establishing a temporary regulated navigation area (RNA) and a safety zone on the Hampton River at the inlet to Hampton Harbor, Hampton, NH, in response to hazardous conditions created by construction activities for the Neil R. Underwood Seabrook-Hampton Harbor Bridge replacement project. This rule is necessary to provide for the safety of life in the areas undergoing demolition and construction. The RNA will be enforced from July 1, 2025, through December 31, 2030, and will establish the following operating restrictions on vessels: Nothing in this regulation relieves any vessel, owner, operator, charterer, master, or person directing the movement of a vessel, from the consequences of any neglect to comply with this part or any other applicable law or regulation (i.e. the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) or 33 CFR part 84—Subchapter E, Inland Navigation Rules) or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case. Entry and movement within the RNA is subject to a "Slow-No Wake" speed limit. All vessels may not produce a wake and may not attain speeds greater than five (5) knots unless a higher minimum speed is necessary to maintain bare steerageway. Any vessel transiting through the RNA must make a direct passage. No vessel may stop, fish, moor, anchor, or loiter within the RNA at any time. Vessels may not pass (overtake) another vessel within the RNA. Only one vessel is permitted to pass through the center span navigational channel at any given time. Except when transiting through the center span navigation channel, no vessel or craft may operate within 20 feet of the bridge(s). The operator of any vessel transiting in the RNA must comply with all lawful directions given to them by the COTP or the COTP's on-scene representative. viii) One-way traffic will flow northbound between the eastern side of the shallow waters and the Seabrook-Hampton Harbor Bridge. The northern side of the shallow area will accommodate one-way traffic moving west. The Safety Zone, includes all navigable waters within a 50-yard radius of the center point of the bridge, will be effective from July 1, 2025, through December 31, 2030, but will only be enforced during active construction within the main span navigational channel or other instances which may cause a hazard to navigation as determined by the COTP. The COTP will make notification of the exact dates and times in advance of each closure period of the safety zone to the local maritime community through the Local Notice to Mariners and will issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency. The complete rulemaking is available under Federal Register docket number USCG-2025-0389 and can be accessed through the federal portal at https://www.regulations.gov/document/USCG-2025-0389-0001 We invite your comments on this rulemaking. To submit your comment online, go to https://www.regulations.gov , and insert "USCG-2025-0389" in the "search box". Click "Search" and then click "Comment." We will consider all comments received on or before October 6, 2025. If the project is completed before December 31, 2030, enforcement of the safety zones will be suspended, and notice given via Local Notice to Mariners. The First Coast Guard District Local Notice to Mariners can be found at: https://www.navcen.uscg.gov/msi . For questions regarding this Marine Safety Information Bulletin contact Mr. Craig Lapiejko, Waterways Management at First Coast Guard District, telephone (571) 607-6314, e-mail: craig.d.lapiejko@uscg.mil . Mariners are advised to exercise caution when transiting the area.	Lat: 40° 52' 42" Lon: -073° 55' 32"
Main Channel - Hudson River/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	General/Hazards To Navigation/Shoaling Reported From: 2024-09-12 To: 2039-12-01 Location: 42.07223° N / 73.92927° W 42.07103° N / 73.92916° W 42.07132° N / 73.93048° W 42.07204° N / 73.92998° W 42.07223° N / 73.92927° W NY-HUDSON RIVER-CATSKILL CREEK-ESOPUS CREEK-ROUNDOUT CREEK Significant shoaling has been reported at the mouth of Catskill Creek, that may impact commercial traffic, along the southern portion of the channel. In Esopus Creek, shoaling has occurred faster than anticipated at the mouth of the creek when passing between Saugerties Lighthouse and Hudson River Lighted Buoy 93. In Roundout Creek, there is shoaling at the mouth of the creek. Mariners should exercise caution when navigating these areas.	
Main Channel - Hudson River/General/LAA/RNA/Safety Zone	LAA/RNA	General/LAA/RNA/Safety Zone § 165.T01-0336 Safety Zone; Hudson River, Manhattan, NY (a) Location. The following area is a safety zone: All waters of the Hudson River from surface to bottom, encompassed by a line connecting the following points beginning at 40°45'20.32" N, 074°00'23.84" W; thence to 40°45'23.34" N, 074°00'30.60" W; thence to 40°45'24.03" N, 074°00'40.85" W; thence to 40°45'18.89" N, 074°00'48.18" W; thence to 40°45'13.80" N, 074°00'48.64" W; thence to 40°45'08.03" N, 074°00'46.44" W; thence to 40°45'07.51" N, 074°00'37.61" W; thence to 40°45'09.18" N, 074°00'36.37" W; thence to 40°45'06.70" N, 074°00'30.78" W; thence returning along the Manhattan shoreline to the beginning point. These coordinates are based on the World Geodetic System (WGS 84) / North American Datum 83 (NAD 83). (b) Definitions. As used in this section, designated representative means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer with law enforcement authority designated by or assisting the Captain of the Port New York (COTP) in the enforcement of the safety zone. (c) Regulations. (1) Under the general safety zone regulations in subpart C of this part, you may not enter the safety zone described in paragraph (a) of this section unless authorized by the COTP or the COTP's designated representative. (2) To seek permission to enter, contact the COTP or the COTP's representative on VHF-FM channel 16 or by telephone at (718) 354-4353. Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP's designated representative. (3) Hudson River Community Sailing Vessels and Human Powered Vessels transiting directly to or from the Pier 66 area may transit through the southern area of the safety zone to the east of the Hudson River Cofferdam Lighted Hazard Buoy D (LLNR 37663.3) unless otherwise directed by the COTP or the COTPs designated representative. (d) Enforcement period. This section will be subject to enforcement from 12:01 a.m. on May 1, 2026, to 11:59 p.m. on January 20, 2029. If the project is completed before January 20, 2029, enforcement of the safety zone will be suspended, and notice given via Local Notice to Mariners. The Coast Guard Northeast District Local Notice to Mariners can be found at: https://www.navcen.uscg.gov/maritime-safety-information .	
Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2025-06-16 To: 2027-06-25 Location: 40.77075° N / 73.99841° W Reicon Group, LLC will be conducting pile repairs at Pier 94 from June 16, 2025, to June 25, 2027, Monday through Friday, between 7:00am to 3:30pm. Equipment on scene will be the RTC 330, monitoring VHF-FM CH 13 and will require a 24-hour notice for all vessel movement requests.	Lat: 40° 46' 15" Lon: -073° 59' 54"
General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2025-11-03 To: 2026-10-31 Location: 40-42-06.984N/074-02-02.364W PKF-Mark III, Inc will be conducting marine construction operations on the Hudson River, at Liberty State Park, in position 40-42-7.000N, 074-02-02.370W, from November 3, 2025, to October 31, 2026, Monday through Friday from 6:00am to 5:00pm. Equipment on scene will be multiple floating barges, crane barges, and material barges.	Lat: 40° 42' 25" Lon: -074° 02' 01"
Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2026-02-17 To: 2031-01-29 Location: 41-59-01.284N/073-57-06.408W Bank Stabilization operations will be conducted north of the Kingston Rhinecliff Bridge off the west side of the Hudson River in position 41-59-1.240N, 073-57-9.794W, from February 17, 2026, to January 28, 2031. Work will be conducted withing the Town of Ulster allowable work hours between 7:00 am to 10:00 pm. Equipment on scene will be, Long reach excavators from upland at first and possibly on a barge if necessary. All work will be within the existing cove. The work will be within the existing cove off the Hudson River and will not interfere with the channel. The installation of a 44-foot by 8-foot floating pier, attached to a bulkhead by a 36-foot by 4-foot gangway. Three (3) finger piers, approximately 36-feet by 6-feet each, will extend from the main floating pier. The entire pier assembly will be held in place by five (5) plastic, 16-inch-diameter piles, each installed by vibratory hammer. The dredging of a total of approximately 1,429 cubic yards of material, over an area of approximately 12,500 square feet. All dredged material will be disposed of within a contained upland disposal area on the property.	Lat: 41° 59' 01" Lon: -073° 57' 06"

<p>Main Channel - Hudson River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes</p>	<p>Marine Construction (Excluding Bridges)</p>	<p>General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes From: 2026-01-06 To: 2027-01-21 From November 24, 2024, through January 20, 2027, Weeks Marine and Frontier-Kemper Tutor Perini JV will conduct marine construction in the Hudson River on behalf of the Hudson Tunnel Project. The construction area is bounded by the following positions off the Manhattan bulkhead: 40-45-20.32N 074-00-23.84W; 40-45-18.89N, 074-00-48.18W; 40-45-13.80N 074-00-48.64W; 40-45-12.40N. 074-00-28.47W. The USCG has established a Safety Zone, 33 CFR 165.T01-0336 Safety Zone; Hudson River, Manhattan, NY. Mariners transiting west of the safety zone should proceed at a speed to minimize potential wake or surge damage to the vessels working the construction area. There are two distinct jobsites within the construction area. The first jobsite, which is operated by Weeks Marine, is west of Pier 66. Within this jobsite, Weeks Marine is conducting soil mixing within a 110' wide x 600' long cofferdam for the Hudson River Ground Stabilization (HRGS) Project. Work hours are approximately 7AM – 7PM, Monday through Saturday. The cofferdam is marked with FL W 4s lights at each corner and at 30 ft intervals, and with white retro-reflective tape 6" high and at least 4' long is installed above the MHHW mark every 50 feet on the cofferdam. The Weeks 263 barge (AIS- WEEKS 263) and material barges will be on the southern side outside of the cofferdam to support drilling operations within the cofferdam. The Weeks 263 barge monitors VHF-FM channels 13 / 16 / 67. Starting on or about June 15th, 2026, the Weeks 526 barge (AIS- WEEKS 526) and material barges will be on the northern side outside of the cofferdam to advance the cofferdam east. The 526 will remove piles from the west end, lay them down on barges, shift east, and reinstall them. The Weeks 526 barge monitors VHF-FM channels 13 / 16 / 66. The second jobsite, which is north of Pier 66 in close proximity to the Manhattan bulkhead and near position 40-45-15.270N, 074-0-28.007W, is operated by Frontier-Kemper Tutor Perini JV. Within this jobsite, Posillico Civil has constructed a 200 ft x150 ft temporary marine structure to facilitate grouting and freezing operations to stabilize the ground beneath the Manhattan bulkhead in preparation for tunnel boring. All barges require tug assistance for a movement and a minimum notice of 24 hours via VHF radio is required for any barge relocation. All moored barges display fixed white lights in accordance with the Inland Navigation Rules. From June 8, 2026 to June 12, 2026, Aqua Survey, Inc. will be on site conducting sediment sampling operations. As part of this operation, R/V Prattis or R/V Tesla will be on scene from 7AM to 5PM monitoring VHF-FM Channels 13 / 16. Additionally, Normandeau Associates, Inc., will be conducting benthic macroinvertebrate ponar grabs and bottom fish samples via trawl. Privateer 2 (P2) will be on site from 7AM to 5PM monitoring VHF-FM Channels 13 / 16. Four seasonal white lighted buoys have been reset. Two (LLNR 37663, 37663.1) are upriver of the construction area, and two (LLNR 37663.2, 37663.3) are downriver. All four lighted buoys exhibit FL W 2.5s characteristics.</p>	
<p>Main Channel - Hudson River/General/Marine Events/Boat Parade</p>	<p>Marine Events</p>	<p>General/Marine Events/Boat Parade From: 2026-06-12 To: 2026-06-21 Location: NY – HUDSON RIVER – Boat Parade Hudson River from Yonkers, NY to Newburgh, NY Details: NY – HUDSON RIVER – Boat Parade Mariners are advised that a boat parade is scheduled to take place on June 20, 2026, between 12:00 p.m. and 8:00 p.m. on the Hudson River, beginning near the Yonkers Pier in Yonkers, NY and ending near Riverfront Marina in Newburgh, NY The parade will involve a formation of approximately 4 vessels ranging between 130 feet and 25 feet in length. Mariners are urged to transit with caution while in the vicinity of this event. Interested mariners may contact the Event Coordinator on marine band radio channels 78 and 13 VHF-FM. 40-56-07.080N/073-54-20.340W 40-56-35.844N/073-54-16.668W 40-57-13.788N/073-54-10.656W 40-57-42.372N/073-53-55.680W 40-57-53.676N/073-53-40.992W 40-58-34.752N/073-53-29.724W 40-58-58.296N/073-53-24.756W 40-59-09.960N/073-53-22.452W 40-59-44.736N/073-53-20.904W 41-00-13.284N/073-53-17.808W 41-00-32.868N/073-53-04.524W 41-01-13.548N/073-52-56.496W 41-01-36.768N/073-52-53.112W 41-02-05.784N/073-52-44.616W 41-02-38.976N/073-52-35.040W 41-03-28.368N/073-52-31.620W 41-04-16.140N/073-52-50.952W 41-04-43.176N/073-52-42.276W 41-07-24.888N/073-52-34.860W 41-08-55.968N/073-52-59.880W 41-09-44.352N/073-53-44.844W 41-10-02.388N/073-54-16.524W 41-10-44.976N/073-54-38.448W 41-11-53.340N/073-55-32.376W 41-13-19.920N/073-56-44.844W 41-15-07.020N/073-58-15.060W 41-15-57.420N/073-58-04.260W 41-16-08.796N/073-57-42.948W 41-16-57.828N/073-56-35.268W 41-17-36.816N/073-56-57.516W 41-18-24.156N/073-58-21.540W 41-19-12.216N/073-58-57.720W 41-19-50.484N/073-58-36.696W 41-20-19.284N/073-58-07.032W 41-20-34.332N/073-57-44.784W 41-21-03.816N/073-57-30.888W 41-21-43.920N/073-57-29.016W 41-22-10.848N/073-57-25.632W 41-22-53.976N/073-57-00.612W 41-23-24.576N/073-56-51.936W 41-23-37.320N/073-56-43.296W 41-23-57.012N/073-56-51.036W 41-24-02.124N/073-57-22.860W 41-24-06.048N/073-57-37.980W 41-24-17.640N/073-57-45.720W 41-24-49.176N/073-57-46.944W 41-25-05.160N/073-57-57.456W 41-25-21.360N/073-58-03.000W 41-25-26.004N/073-58-17.832W 41-25-37.812N/073-58-23.736W 41-25-49.620N/073-58-18.480W 41-26-31.344N/073-58-52.752W 41-26-57.516N/073-59-16.260W 41-27-19.044N/073-59-43.440W 41-29-17.340N/073-59-37.248W 41-29-49.272N/073-59-37.248W 41-30-08.712N/073-59-44.988W 41-30-15.912N/074-00-14.040W 41-30-16.128N/074-00-14.040W</p>

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Piscataqua River - Little Bay/General/Bridges/Removal	Bridges	Demolition activities have commenced to the General Sullivan Bridge across Little Bay, mile 0.1, between Newington and Dover NH and will continue through March 31, 2027. Work trestles have been constructed adjacent to the bridge from both banks, reducing the navigable channel to a width of 160 feet. A temporary work platform will be suspended from the bridge over the navigable channel on or about April 1, 2026. This work platform will not reduce the vertical clearance of the General Sullivan Bridge further than the clearance of the adjacent Spaulding Turnpike Bridge. Between April 1, 2026, and August 28, 2026, there will be short duration navigable channel closures to facilitate the removal of the bridge deck and superstructure over the navigable channel. The Coast Guard will announce these closures via Broadcast Notice to Mariners and updates to the Local Notice Mariners. Work hours for this project are 6:00 a.m. to 6:00 p.m. Monday through Friday. Mariners can contact on-scene project managers via VHF-FM channels 13/16 or by calling (207) 841-1902. Mariners are advised to exercise caution when transiting this area. Under this temporary deviation, the Glen Island Temporary Bridge will remain in the closed position from October 2, 2025 through June 26, 2026. Mariners that can pass without a bridge opening may do so and are advised to exercise caution when transiting the area.	Lat: 40° 53' 21" Lon: -073° 46' 57"
New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	New Rochelle, NY - Long Island Sound – Safety Zone – Bridge Construction Mariners are advised that a safety zone will be enforced for construction work on the Glen Island Approach Bridge. The safety zone will be enforced from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The Safety Zone encompasses all waters within a line beginning at 40° 53' 18.58"N 73° 46' 56.26"W; thence to 40° 53' 22.08"N 73° 46' 59.39"W; thence north along the shore to 40° 53' 23.8"N 73°46' 57.51"W; thence to 40° 53' 19.15"N 73° 46' 52.54"W and thence south along the shore back to the point of origin (WGS 84). You may not enter, remain in, or transit through the Safety Zone during the enforcement period unless authorized by the Coast Guard Captain of the Port. Other Federal, State and local agencies may assist these personnel in the enforcement of the Safety Zone. Mariners are urged to exercise caution while in the area. The anticipated dates for the windows of full channel closures: Date December 2, 2024, through December 20, 2024 February 3, 2025, through May 22, 2025 October 2, 2025 through 12 p.m. on May 22, 2026; from 7 a.m. on May 26, 2026, through 5 p.m. on May 29, 2026; and from 7 a.m. on June 22, 2026, through 5 p.m. on June 26, 2026.	

<p>New Rochelle Harbor North Approach - Middle Channel/General/LAA/RNA/COTP Restriction</p>	<p>LAA/RNA</p>	<p>General/LAA/RNA/COTP Restriction From: 2024-12-16 To: 2027-05-31 The Coast Guard is establishing a temporary safety zone for certain waters of Long Island Sound in the vicinity of the Glen Island Approach Bridge, New Rochelle, NY, for construction vessels and machinery involved in the rehabilitation project of the bridge. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards associated with the bridge construction between December 2, 2024, through May 27, 2027. When enforced, this regulation prohibits persons and vessels from being in the safety zone unless authorized by the Captain of the Port New York or a designated representative. DATES: This rule is effective without notice from December 3, 2024, through 5 p.m. on May 27, 2027. For the purposes of enforcement, actual notice will be used from midnight on December 2, 2024, until December 3, 2024. This rule will only be enforced during periods when construction operations at the bridge are in progress. Comments and related material must be received by the Coast Guard on or before March 3, 2025. ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to https://www.regulations.gov, type USCG-2024-0956 in the search box and click "Search." Next, in the Document Type column, select "Supporting & Related Material." FOR FURTHER INFORMATION CONTACT: If you have questions about this rule, call or email Jeffrey Yunker, Waterways Management Division, U.S. Coast Guard Sector New York; telephone 718-354-4195, email Jeffrey.M.Yunker@uscg.mil. IV. Discussion of the Rule This rule establishes a safety zone from 7 a.m. until 5 p.m. each day starting on midnight December 2, 2024, through May 27, 2027. The safety zone will only be enforced during periods when construction operations at the Glen Island Bridge rehabilitation project are in progress. The anticipated dates for the windows of full channel closures are from 7 a.m. on December 2, 2024, through 5 p.m. on December 20, 2024; from 7 a.m. on February 3, 2025, through 5 p.m. on May 22, 2025; and from 7 a.m. on October 2, 2025, through 5 p.m. on April 29, 2026. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in advance of these scheduled closures. All these dates are tentative and subject to change due to weather, supply chain delays, or other unforeseen circumstances. This rule remains effective through May 27, 2027, in case the project is delayed due to unforeseen circumstances. The area regulated by the safety zone will encompass the waters around the Glen Island Bridge and will cover all navigable waters, from surface to bottom, within the area formed by connecting the following latitude and longitude points in the following order: 40°53'18.58" N 73°46'56.26" W; thence to 40°53'22.08" N 73°46'59.39" W; thence north along the shore to 40°53'23.8" N 73°46'57.51" W; thence to 40°53'19.15" N 73°46'52.54" W and thence south along the shore back to the point of origin. This area is intended for the vessels and machinery being used by personnel for the Glen Island Bridge rehabilitation project. The duration of the zone is intended to ensure the safety of personnel, vessels, and these navigable waters during the bridge construction. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The Coast Guard will make notice of the safety zone via the Local Notice to Mariners and issue a Broadcast Notice to Mariners via marine channel 16 (VHF-FM) as soon as practicable in response to an emergency or hazardous condition.</p>

Main Channel - New Jersey Pierhead/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	General/Hazards To Navigation/Shoaling Reported From: 2025-02-13 To: 2027-02-28 Claremont Terminal Channel Shoaling - The Harbor Safety, Operations and Navigation Committee of the Port of NY and NJ - Deep Draft Working Group: The need to immediately restrict the deep draft of vessels transiting Claremont Terminal Channel has come to our attention. Based on the latest available surveys conducted by the Army Corps of Engineers, November 4, 2024, shoaling has occurred in the channel. The shoaling has minimized the available depth of water to 15 feet near the centerline of the channel. Based on this data, vessels will be restricted to a draft of 13 feet, plus the rise in tide, with a maximum draft of 18 feet. On 11/04/2024, the shoal area was bound by the following approximate coordinates: 40° 41'11"N, 074° 04' 41"W; thence to 40° 41' 17"N, 074° 04' 33"W; thence to 40° 40' 14"N, 074° 03' 06"W; thence to 40° 40' 10"N, 074° 03' 13"W.

General/Bridges/Temp Deviation	Bridges	The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Lehigh Valley Lift Bridge at mile point 4.6 in Newark Bay NJ. This deviation will test a change to the drawbridge operation procedures to determine whether a permanent change to the procedures is needed. Under this test deviation, from 8:00 a.m. on January 16, 2026, through 8:00 a.m. on July 16, 2026, the Lehigh Valley Lift Bridge will be remotely operated from the Conrail North Jersey Dispatch Center, in Mount Laurel, NJ. This change will also apply to the operation of the Arthur Kill Railroad Bridge and Hack Freight Railroad Bridge. The operating schedules of these bridges will not change because of this test deviation. Vessels that require a bridge opening shall continue to make requests via the methods (sound or visual signals or radio telephone (VHF-FM) voice communications) as defined in 33 CFR 117.15(b) through (d), via telephone at (973) 690-2850, or push-to-talk (PTT) on VHF-FM channel 13. During the test deviation, if the North Jersey Dispatch Center does not respond to a vessel's request, or is unable to operate the bridge, the bridge tender at the Lehigh Valley Lift Bridge will take immediate action to respond to the vessel's request for a bridge opening. Please contact the Northeast Coast Guard District bridge branch at (571) 607-8154 or D01-SG-BridgesD1obr-NY@uscg.mil with any questions, concerns, or feedback regarding this test deviation.	Lat: 40° 41' 56" Lon: -074° 07' 11"
Kill Van Kull - Newark Bay/General/Bridges/Construction	Bridges	Construction will commence on June 1, 2026, to replace NJ Turnpike Authority's Newark Bay Bridge over Newark Bay at mile 3.8 between Newark and Bayonne NJ. From June 1, 2026, to April 1, 2027, contractors will be constructing a work trestle from the Bayonne shore of Newark Bay to the navigable channel. This work will not impede the navigable channel. Work hours will be 6:00 a.m. to 4:00 p.m. Monday through Friday. For construction details please contact Jed Fritz at 267-907-5932 or on-scene work vessels via marine radio VHF-FM 13/16. Mariners are advised to exercise caution when transiting the area.	Lat: 40° 41' 43" Lon: -074° 07' 04"

Kill Van Kull - Newark Bay/General/Bridges/Inspection	Bridges	General/Bridges/Inspection From: 2026-04-27 To: 2026-07-28 Location: 40-41-56.328N/074-07-10.704W Bridge Name: Lehigh Valley Drawbridge Underwater diving inspection to Conrail Lehigh Valley Bridge over Newark Bay mile 4.3 commenced on April 27, 2026. Working hours are between 7 a.m. to 5 p.m. Monday through Friday. A Tri Hull 18' "Brazil" and alternately an aluminum hull 26' "Lou" will be moored to each pier upon completion. At no time will the work vessels(s) be positioned in the navigation channel. Mariners requiring full horizontal clearance can contact Austin Goldstein at 856-266-0442 or via marine radio VHF-FM CH 13/16. This project is to be completed by July 28, 2026. Portsmouth To Cape Ann - Plum Island Sound/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Shoaling exists in Plum Island Sound between Plum Island Sound Entrance buoy 4 (LLNR 9310) and Plum Island Sound Entrance buoy 6 (LLNR 9320), aids are not properly marking best water. Mariners are advised to use caution while navigating this area. All of Plum Island is particularly susceptible to shoaling, the area between 4 and 6 being the worst at the mouth of the channel. Last year the unit partnered with the harbor Master moving the aids to mark the best water. Even though the aids are in the best possible locations that water is still shallow at low tide and mariners should use caution while navigating in this area	
Portsmouth To Cape Ann - Plum Island Sound/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	Newburyport Harbor and Plum Island Sound – Plum Island Sound Entrance has experienced an increase in shoaling between Plum Island Sound Entrance Buoy 6 and 8. The shoaling was observed in approx. position 42-41.365N /070-45.169W and extends 100 yards west following the channel. Mariners are advised that at MLLW depths of 3' could be seen. Mariners without local knowledge are advised to transit with extreme caution and monitor tidal stations prior to transiting.

Sector Boston, Submerged Land Act (SLA) - Plymouth Bay/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Survey Operations From: 2026-03-06 To: 2026-07-01 Ocean Surveys, Inc. (OSI) is expecting to perform a nautical charting survey in Cape Cod Bay, in support of NOAA's Office of Coast Survey. The modern bathymetric and feature data acquired during this project will be used to update nautical charting products and services. The survey data will supersede all prior survey data. This survey project is not related to offshore wind development, fisheries regulation or research, or marine mammal research. To complete this project, OSI plans to mobilize three survey vessels (R/V NORTH COVE, R/V SOUTH COVE, and R/V TWISTER) in March of 2026. The survey vessels will operate 7 days per week (weather permitting) until data acquisition is complete in June of 2026. All vessels will operate 12 hours per day and will be operating from harbors situated near or within the survey area. Each vessel will be equipped with 350 kHz multibeam echosounders on fixed pole mounts and manually deployed and hauled sound speed profilers and will monitoring VHF-FM CG 13 & 16. No towed gear will be utilized. All vessels will be equipped with AIS.

Sector Southeastern New England, Submerged Lands Act (SLA) - Provincetown Harbor Approach/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	General/Marine Construction (Excluding Bridges)/Survey Operations From: 2026-03-06 To: 2026-07-01 Ocean Surveys, Inc. (OSI) is expecting to perform a nautical charting survey in Cape Cod Bay, in support of NOAA's Office of Coast Survey. The modern bathymetric and feature data acquired during this project will be used to update nautical charting products and services. The survey data will supersede all prior survey data. This survey project is not related to offshore wind development, fisheries regulation or research, or marine mammal research. To complete this project, OSI plans to mobilize three survey vessels (R/V NORTH COVE, R/V SOUTH COVE, and R/V TWISTER) in March of 2026. The survey vessels will operate 7 days per week (weather permitting) until data acquisition is complete in June of 2026. All vessels will operate 12 hours per day and will be operating from harbors situated near or within the survey area. Each vessel will be equipped with 350 kHz multibeam echosounders on fixed pole mounts and manually deployed and hauled sound speed profilers and will monitoring VHF-FM CG 13 & 16. No towed gear will be utilized. All vessels will be equipped with AIS.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Raritan River Cutoff Channel - Raritan River/General/Bridges/Public Notice	Bridges	The TIR published in the Federal Register at https://www.govinfo.gov/content/pkg/FR-2026-05-05/pdf/2026-08733.pdf . Comments and related material must be received by the Coast Guard on or before August 3, 2026. This establishes a RNA from 12:01 a.m. on April 15, 2026, until 11:59 p.m. on June 30, 2030. ADDRESSES: You may submit comments at https://www.regulations.gov . See the "Public Participation and Request for Comments" portion of the SUPPLEMENTARY INFORMATION section for further instructions on submitting comments. To view available documents go to https://www.regulations.gov and search for USCG-2026-0149. --165.T01-0149 Regulated Navigation Area (RNA); (a)Location. See MSI LNM Layer. (c) In addition to the general RNA regs in § 165.13, the following regs apply to the RNA. (1) Nothing in this regulation relieves any vessel, owner, operator, charterer, master, or person directing the movement of a vessel, from the consequences of any neglect to comply with this part or any other applicable law or regulation (i.e. the International Regulations for Prevention of Collisions at Sea, 1972 (72 COLREGS) or 33 CFR part 84-Subchapter E, Inland Navigation Rules) or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case. (2) Entry and movement within the RNA is subject to a "Slow-No Wake" speed limit. All vessels may not produce a wake and may not attain speeds greater than five (5) knots unless a higher minimum speed is necessary to maintain bare steerageway. (3) No vessel is permitted to transit through the south span navigational channel of the bridge(s) at any given time. (4) Any vessel transiting through the RNA must make a direct passage. No vessel may stop, fish, moor, anchor, or loiter within the RNA at any time. (5) Vessels may not pass (overtake) another vessel within the RNA. (6) Only one vessel is permitted to pass through the north span navigational channel of the bridge(s) at any given time. (7) Except when transiting through the north span navigation channel, no vessel or craft may operate within 20 feet of the bridge(s). (8) The operator of any vessel transiting in the RNA must comply with all lawful directions given to them by the COTP or the COTP's on-scene representative. (9) When a full enforcement period of the regulated area is activated, only vessel authorized by COTP may enter or remain within the RNA. (d) Enforcement. The following enforcement periods and requirements apply to this RNA. (1) This section enforced from 12:01 a.m. on 15Apr2026, to 11:59 p.m. on 30Jun2030. (2) The "Slow-No Wake" speed limit, south channel closure, and other restrictions-except for the limited full enforcement period prohibiting vessels from entering the regulated area-will be enforced throughout the entire enforcement period. (3) Full enforcement periods of the regulated area, prohibiting all vessel entry, will be enforced only during hazardous construction operations involving multiple tugs and large barges maneuvering in and obstructing the navigable channel for heavy lift, construction, or demolition activities. The USCG will issue information on full enforcement periods through LNM's, the CG Navigation Center at https://www.navcen.uscg.gov/msi , and BNMs via VHF CH 16 as soon as practicable. (4) Persons or vessels seeking to deviate from the restrictions described in section (c) of this section or to enter the regulated area during a full enforcement period must request authorization from the COTP or COTP's on-scene designated representative on VHF-16 or via (718) 354-4353. Enforcement periods prohibiting vessels from entering the RNA planned during the following approx. dates (subject to change): Jul-Aug2026, two separate 1-day full-chnl closures Jul2027-Jun2028, three, 7-day full chnl closures Jan-Sep2028, one 30-day full chnl closure Jul-Sep2029, one 14-day full chnl closure Dates/times provided when available.	
Raritan River Cutoff Channel - Raritan River/General/Bridges/Construction	Bridges	NEW JERSEY – RARITAN RIVER – Construction and demolition operations to replace the Raritan River Railroad Bridge will commence on April 1, 2026, and continue through January 18, 2030. During April-May 2026, A number of barges and support vessels will be moored outside the navigational channel. Due to ongoing construction activities, mariners will be unable to use the south navigational channel. Work hours for this project are 7:00a.m. to 3:30 p.m. Monday -Friday. Mariners are advised to exercise caution and reduce wake when transiting the area. Mariners with questions or concerns can contact the vessels on scene via marine radio VHF-FM Ch 13/16. Mariners may also contact Daniel Nola at 732-221-3815 or Email: Daniel.Nola@skanska.com with questions/concerns, and to request to receive regular construction updates. The USV is the Chance Maritime MC40, a 40' USV painted yellow with a black mast, running inboard diesel and makes a 7 knot top speed. It will be continuously monitored and controlled 24/7 with live visual and thermal cameras, radar, AIS (Class A), marine VHF communications, and has a backup Iridium communications system. The vessel will be escorted in congested areas in/out of Newport as needed, weather dependent. Please contact the Chance Maritime Operations 337-362-4791 (24x7 ops, primary line) DL.OPS@ChanceMaritime.com
Sector Southeastern New England, Exclusive Economic Zone (EEZ)/General/Miscellaneous	Miscellaneous	Miscellaneous/Survey Operations From: 2026-04-01 To: 2026-12-31 SAILDRONE INC. intends to conduct operations with up to ten Uncrewed Surface Vehicles (USVs), contracted by the United States Coast Guard District Northeast from 01 April through 31 December 2026. The SAILDRONE VOYAGER is 33 feet in length, 19 feet tall, gray in color with an orange wing, and has a tricolor light on the top wing and is marked "SAILDRONE." These vehicles will be operating in waters predominantly offshore of Maine in the New England Grey Zone area, down to 300NM off the coast of Connecticut and New York. Mariners are requested to maintain 500m CPA from the vehicle. The plan for Saildrone USVs is to transit from Portland, Maine
