LOCAL NOTICE TO MARINERS

District: 1  Week: 29/22

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:
(1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
(2) The Local Notice to Mariners is a weekly edition.
(3) Inquiries, published articles or Information: mail to: D01-SMB-LNM@uscg.mil
(4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
(5) The Coast Pilot, along with its corrections, are available online at https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html.

The Local Notice to Mariners is available online at https://www.navcen.uscg.gov/?pageName=lnmMain
Updated 2021 Light List is available online: https://www.navcen.uscg.gov/pdf/lightLists/weeklyUpdates/v1d01WeeklyChanges.pdf
Information on Private Aids to Navigation is available at: http://www.usharbormaster.com/
Reports of Channel conditions can be found at the Army Corps of Engineers website at: http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx.
NOAA Tides and Currents can be found at: http://www.tidesandcurrents.noaa.gov/.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: https://www.navcen.uscg.gov/?Do=constellationStatus. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: tis-sg-nisws@uscg.mil, or on the internet at: https://www.navcen.uscg.gov.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)
408 Atlantic Avenue, Boston, Massachusetts 02110-3350
Telephone: (617) 223-8356
24 Hour FAX: (617) 223-8094
http://www.uscg.mil/d1/prevention/Marineinforegulations.asp

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

INTERFERENCE WITH AIDS TO NAVIGATION

14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than $1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code. http://www.cgaux.org/boatinged/class_finder/index.php
ME, NH, MA, RI, CT, NY, NJ-ATLANTIC OCEAN-OFFSHORE STRUCTURE PATON MARKING GUIDANCE-Revised, Updated 15 March 2022 to reflect new submission lead time for AIS/MMSI

For Private Aids to Navigation (AtoN) applicants requesting Coast Guard permits to provide navigational markings on offshore wind energy area structures in First District-area waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all labels, light(s), sound signals and AIS signals). Private AtoN Permit applications should be submitted no sooner than 60 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

**Tower Identification:**
- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible to maximize charting effectiveness
- Letters and numbers labelled to as near to 3 meters high as possible
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water’s surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials
- If feasible, also labelled below the servicing platform

**Lighting:**
- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water’s surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY, 0.3s on/0.7s off, 60 flashes per minute) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5, 1.0s on 1.5s off, 12 flashes per minute) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6,1.0s on 5.0s off, 10 flashes per minute/FL Y 10, 1.0s on 9s off, 6 flashes per minute) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

**Sound Signals:**
- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a range of 2NM
- Should not exceed 3NM spacing between perimeter structures
- Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds
- Timed to energize for 45 minutes from last VHF activation

**Automated Information System (AIS) Transponder Signals:**
- Must be transmitted superimposed at all corner structures/SPSs
- Should be capable of transmitting signals to mark all locations of all structures throughout an established field
- Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the First Coast Guard District’s recommendation

**PATON Application Website:** WWW.USHARBORMASTER.COM.

Please forward questions or feedback in an e-mail to:
D01-SMB-DPWPublicComments@uscg.mil.

**NAVcen Website Transition**
The U.S. Coast Guard Navigation Center is going to transition the Navigation Center website to a new, enhanced version in the first quarter of 2022. As part of this transition, URLs will be updated across the site including URLs linked to PDFs. Therefore, once the transition is complete, legacy site URLs will no longer function, including bookmarked URLs and URLs used in automatic downloading of data and/or products. Outdated URLs will automatically redirect to the home page of the site, and from there you will be able to easily navigate to your preferred page.

Below are a few of the “old”/new URL pairs listed for your convenience. Please note that the new URLs will not be active until we launch the new website. Of course, once it is launched, the new URLs will be available for re-bookmarking. As a reminder, these are top level URLs that may contain additional links that you use.

This notice will be updated when the final launch date is determined and another notice will be issued to notify you when the site goes live. Questions/concerns may be directed to the NAVCENWebTEAM@uscg.mil.

**Local Notices to Mariners (LNMs)**

**** CANCELLATION OF NOAA PAPER AND RASTER NAUTICAL CHARTS****

The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, BookletChart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six months notice of the intent to cancel a specific chart is provided in a “Last Edition” notice. The final cancellation of a chart is made in a “Canceled” notice. Both types of notices will appear in LNM Section IV, “Chart Correction.” A comprehensive list of all canceled NOAA charts is available at: http://www.charts.noaa.gov/MCD/Dole.shtml.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA’s electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA’s program to sunset traditional paper charts is on the NOAA Coast Survey website at: https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html

An online NOAA Custom Chart application at: https://devgis.charttools.noaa.gov/pod is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

Approaches to Maine, New Hampshire, and Massachusetts-Port Access Route Study

MA-BOSTON HARBOR–MAIN CHANNEL–INNER HARBOR-NO WAKE ZONE

Mariners are advised that a No Wake speed limit is enforced in Boston Inner Harbor commencing at the Northwest corner of Logan International Airport Southwesterly across the harbor to pier seven next to the Fish Pier. Increased commercial and recreational traffic within the enforceable zone poses significant hazards when operators choose to not operate responsibly. Mariners are advised that you are responsible for the wake your vessel produces and any damages to facilities or other vessels that may occur. For more information regarding the no wake zone, mariners may contact the Boston Harbor Master via channel 16/13 VHF/FM. Mariners are advised to proceed at slowest speed possible to minimize wake.

MA-RI-CT-NY-NORTHERN NJ-Broadcast Notice to Mariners Delivery System

This section contains information of special concern to the Mariner.

US Coast Guard 1st District and Sectors Boston, Southeast New England, Long Island Sound and New York/Northern New Jersey (Sector Northern New England will be on line soon) Broadcast Notice to Mariners availability via text and email.

The U.S. Coast Guard Navigation Center (NAVCEN) has completed its Maritime Safety Information (MSI) project upgrade to offer Broadcast Notice to Mariners (BNM) to mariners via email in addition to voice radio broadcasts. The online subscription service is in addition to the standard BNM broadcasts over VHF radio that previously were the only way to receive this vital navigational information. Mariners can now use the subscription service to plan for underway periods and receive updates to navigational hazards in near real time without having to wait on scheduled VHF broadcasts.

Mariners who operate in New England and New York/New Jersey should visit the NAVCEN website and subscribe for email delivery of BNMs, https://www.navcen.uscg.gov/?pageNumber=feeds. Currently Sectors Boston, SE New England, Long Is Sound and NY are producing BNM's with this system, with Sector Northern New England coming on line shortly. BNMs are organized by Coast Guard Sector and mariners can subscribe to one, two or all five Coast Guard Sectors within the 1st District area (See following Sector Area of Responsibility (AOR) discriptions that follow this notice).

Additionally, NAVCEN has developed an online BNM archive that is highly filterable and available to the public. 1st District/Sector Boston BNMs can be viewed and downloaded from this database on the NAVCEN website at: https://www.navcen.uscg.gov/bnmmessages/DistrictSearchV1.php?d=138&i=3.

For any questions regarding these new services in the 1st District, please contact the office of Waterways Management at (603) 223-8358 or D01-SMB-DPWPublicComments@uscg.mil.
when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the “Rules of the Road”, address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the “Rules of the Road”, address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic

MA-RI-CT-NY-NORTHERN NJ-Broadcast Notice to Mariners Delivery System (Cont)

NOTICE TO ALL PRIVATE BOATS AT SEA

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program-. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the “Rules of the Road”, address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic
regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the “Rules of the Road”, should consider a U.S. Coast Guard Auxiliary boating safety course. Course information is available online at http://www.cgaux.org in the "Take a Boating This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and U.S. Coast Guard Sector New York. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse” section, or by calling 1-800-336-BOAT. Further information can be found at http://thesafeharbor.us/index.html

US NOTICE TO MARINERS (NTM)
The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61. NTM 01 – Special Paragraphs includes information on: America’s Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

SECTION II - DISCREPANCIES
This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number | Chart Edition | Last Local Notice | Horizontal Datum Reference | Source of Correction | Current Local Notice to Mariners | BNM Ref. | LNM St | LNM End |
-------------|---------------|-------------------|----------------------------|----------------------|---------------------------------|----------|--------|---------|
12327        | 91st Ed.      | 19-APR-97         | NAD 83                     |                      | 27/97                            |          |        |         |

Main Panel 2245 NEW YORK HARBOR
(Temp) ADD NATIONAL DOCK CHANNEL BUOY 3 at 40-41-09.001N 074-02-48.001W

Corrective Action: Green can
Object of Corrective Action: Position

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

Advance Notice(s)

ME-DAMARISCOTTA, SHEEPScot AND KENNEBEC RIVERS (Chart 13293)-SASANOA RIVER

The U.S. Coast Guard will be making the following changes to Aids to Navigation to this waterway:

Previously advertised as a Proposal in LNM 11/22 Refer to Project No. 01-20-016.

E-mail can be sent to:
D01-SMB-DPWPUBLICCOMMENTS@USCG.MIL
MAINE-APPROACHES TO BLUE HILL BAY (CHART 13313)-BLUE HILL BAY APPROACH-GREAT DUCK ISLAND

The U.S. Coast Guard will be making the following change to Aids to Navigation:

CHANGE the following aids nominal range to 14NM.

Great Duck Island Light (LLNR 2295)

This proposal would incorporate Light Emitting Diode (LED) technology and is intended to improve the reliability of this light

Previously advertised as a Proposal in LNM 11/18 Refer to Project No. 01-22-008.

E-mail can be sent to:
D01-SMB-DPWPublicComments@uscg.mil

CT- FISHERS ISLAND SOUND (Chart 13214)-NW OF RACE POINT-Revised

The U.S. Coast Guard will be establishing a yellow research buoy with a yellow flashing light, Fl Y 4s, in position 41-15-14.4N 072-02-38.4W approximately 0.4 nautical miles Northwest of Race Point on or about (OOA) 25 July 2022.

Race Point CG Research Lighted Buoy RD, Fl Yellow every 4 seconds, marked "RD".

NEW YORK AND NEW JERSEY-NEW YORK HARBOR-KILL VAN KULL

The Coast Guard will be making the following changes to Aids to Navigation to this waterway:

DISESTABLISH Kill Van Kull Channel Junction Lighted Whistle Buoy KV (LLNR 37265) RACON and Sound signal (Whistle)

Previously advertised as a Proposal in LNM 42/21 Refer to Project No. 01-22-016.

E-mail can be sent to:
D01-SMB-DPWPublicComments@uscg.mil

NY-LONG ISLAND SOUND-GREENWICH POINT TO NEW ROCHELLE-MILTON HARBOR-Revised

The U.S. Coast Guard has TEMPORARILY DISESTABLISHED the Federal aids affected by the extreme shoaling in Milton Harbor listed below. The Federal aids have been replaced by smaller private aids operated by the Harbormaster in Milton Harbor until the channel has been dredged:

TEMPORARILY DISESTABLISH the following aids affected by the extreme shoaling in Milton Harbor until the channel has been dredged:

Buoy 5 (LLNR 25670)  Buoy 6 (LLNR 25675)  Buoy 8 (LLNR 25680)
Buoy 9 (LLNR 25685)  Buoy 10 (LLNR 25690)  Buoy 12 (LLNR 25700)
Buoy 11 (LLNR 25695)  Buoy 13 (LLNR 25705)  Buoy 14 (LLNR 25710)

These Federal aids will be re-established when the planned dredging is completed with a current survey.

The City of Rye, NY has established privates aids to mark best water in locations as needed. Mariners are advised to use extreme caution if transiting this area due to the extreme shoaling that exists. Previously advertised as a Proposal in LNM 51/21 Refer to Project No. 01-21-089.

E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil
The U.S. Coast Guard has made the following changes to Jones Inlet due to severe shoaling in the Federal channel west of Jones Beach Island:

Jones Inlet is experiencing severe shoaling in the inlet west of the breakwater. The normal navigational channel has been rendered unusable. The Coast Guard has surveyed the area and determined that the current best water is available to the north, roughly parallel along the direction of the beach. The Coast Guard will remark best water until dredging of the Inlet can be completed as follows (also see picture below):

Relocated Jones Inlet Entrance LWB JI (LLNR 30900) to position approximate
40 33' 38.022"N 073 36' 02.532"W
Relocated Jones Inlet Entrance LB 1 (LLNR 30905) to position approximate
40 33' 58.785"N 073 36' 07.805"W
Relocated Jones Inlet Entrance LB 2 (LLNR 30910) to position approximate
40 33' 58.811"N 073 35' 59.765"W
Relocated Jones Inlet buoy 3 (LLNR 30920) to position approximate
40 34' 41.538"N 073 36' 07.345"W
Relocated Jones Inlet LB 4 (LLNR 30925) to position approximate
40 34' 33.599"N 073 35' 55.565"W
Established Jones Inlet LB 4A (LLNR 30927) in position approximate
40 34' 37.996"N 073 35' 30.860"W
Established Jones Inlet By 4B (LLNR 30928) in position approximate
40 34' 40.704"N 073 35' 01.938"W
Established Jones Inlet Hazard Buoy (LLNR 30933) in position approximate
40 34' 45.757"N 073 34' 47.486"W
Disestablished Jones Inlet By 5

Mariners are advised to use Jones Inlet with extreme caution and be aware that the channel is constantly changing due to the shifting sands, especially after a storm that comes from the south.

The Coast Guard Research and Development Center (RDC) is investigating several different types of non-ferrous aids to navigation buoy technologies (e.g., plastics, foam, hybrid plastic and steel, etc.) for potential use by the Coast Guard. RDC has deployed test buoys that will remain on station for a minimum of 2 years at the following locations:

Lewis Bay
Lewis Bay Approach Channel Lighted Buoy 5 (LLNR 14553)
Lewis Bay Approach Channel Lighted Buoy 6 (LLNR 14555)

Mount Hope Bay
Mount Hope Bay Channel Buoy 20 (LLNR 18953)
Mount Hope Bay Channel Lighted Buoy 21 (LLNR 18955)

Providence River
Providence River Channel Buoy 17 (LLNR 18320)
Green Jacket Shoal Buoy 2 (LLNR 18585)
Providence River Approach Channel Lighted Buoy 13 (LLNR 18295)
Providence River Approach Channel Lighted Buoy 14 (LLNR 18300)
Feedback can be sent by email to TestBuoyInfo@uscg.mil. Please include size and type of vessel, and if the vessel is recreational or commercial.

1.) Name and Light List Number of Aid reporting on.
2.) Buoy’s observed position relative to charted position
3.) Overall buoy condition
4.) Overall performance as a physical aid to navigation
5.) Buoy RADAR reflectivity
6.) Daytime Visibility
7.) Nighttime Visibility (lighted buoys, reflective tape, etc.)

Feedback can be sent by email to TestBuoyInfo@uscg.mil. Please include size and type of vessel, and if the vessel is recreational or commercial.

### SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Coast Guard District 1

20 July 2022
Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 7 September 2022 to complete the process. In order to most effectively consider your feedback and improve the data collection, when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-22-048. E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil.

Change the seasonal status from permanent (PERM) to Maintained from 15 May - 15 October (SEAN).

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 2 August 2022 to complete the process. In order to most effectively consider your feedback and improve or data collection when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-21-072. E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil.

circular

PERMANENTLY Disestablish the sound signal for Huntington Harbor Light (LLNR 26530)

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 19 August 2022 to complete the process. In order to most effectively consider your feedback and improve or data collection when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-22-041. E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil.

ATLANTIC OCEAN-OFFSHORE-CENTRAL GULF OF MAINE-SOUTH OF MONHEGAN ISLAND AND MATINICUS ROCK-NAVAL GUNNERY EXERCISE-UPDATE

Firing exercises hazardous to surface vessels will be conducted on July 28, 2022 between 8:00am to 4:00pm in the following locations in the Boston Operating Area (BSOA):

ME- GULF OF MAINE – KITTERY – HAZARD TO NAVIGATION
There is approximately 200 yards of debris from the savage operation of the M/Y TOO ELUSIVE with the majority of the debris at approximate position 43°02.308N, 070°40.612W to include a 3ft x 8ft section of the bow suspended 25ft off the bottom being held in place by the anchor chain in approximately 70ft of water. All vessels transiting the area should exercise caution and contact the Coast Guard at (207) 741-5465 with questions.

Chart 13283

ME- PENOBSCOT BAY-BAGADUCE RIVER
University of Maine, Dept. of Civil & Environmental Engineering will be conducting coastal engineering research prototype deployment and observations in position 44-23-24.42912N and 068-49-31.30104W, near the Bagaduce River, between May 23-August 31, 2022, 24hr/day, 7 days/week. Equipment on scene will be coastal research prototype with accompanying moorings and instrumentation. Mariners are requested not to pass within 100 meters of the prototype if possible, as it is studying wave attenuation for coastal protection, and boat wake could alter data collection. For any questions Dr. Kimberly Huguenard can be contacted at 207-581-1216.

Chart 13309

VERMONT GENERAL NOTICES
Information for Mariners using the Waterways of Lake Champlain in the State of Vermont.

VT-LAKE CHAMPLAIN (New York and Vermont)-CUMBERLAND HEAD TO FOUR BROTHERS ISLANDS-BROAD LAKE-AU SABLE RIVER
Mariners are advised that there is a hazard to navigation in vicinity of the mouth of Au Sable River, at approximate location 44-33-09.239N, 073-24-16.321W; approximately 226 yards north of Au Sable River Flats Buoy 34 (LLNR 39535). This hazard to navigation has been marked by a white and orange foam "DANGER" buoy. All mariners are requested to exercise caution when transiting the area.

NEW HAMPshire GENERAL NOTICES
Information for Mariners using the Waterways of the State of New Hampshire. Newest on top.

NH- PISCATAQUA RIVER-NEWINGTON
CDM Constructors Inc. will be dismantling a former fuel pier, on the Piscataqua River, in Newington, NH, in position 43-6-27.16N, 070-47-52.85W, from July 19, 2022 through May 2024. Equipment on scene will be sporadic depending on phase of project. Two working barges will be mobilized for crews and heavy equipment (excavator and Lull). Miscellaneous support vessels may also be present, monitoring VHF/CH-13 and 16. Work barges will be centralized to work areas only and will not impede navigation. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13285

NH–PISCATAQUA RIVER–NEWINGTON–Deteriorated Fuel Pier
Mariners are advised that recent inspections of the former fuel pier in Newington, NH, at approximate location 43°6′29″N, 070°47′55″W, have identified several safety concerns with the existing dolphin infrastructure and may pose a threat to waterway users in the area. Three (3) "DANGER NO ENTRY" fast water foam buoys and three (3) "DANGER NO ENTRY" warning signs, with black lettering and yellow background, will be installed to warn mariners of hazards associated with the existing dolphin infrastructure. All mariners are requested to exercise caution when transiting the area.

MASSACHUSETTS GENERAL NOTICES
Information for Mariners using the Waterways of the State of Massachusetts. Newest on top.

MA- BUZZARDS BAY – FALMOUTH- NYES NECK - DATA BUOY
The Woods Hole Group will be installing a Water Quality Monitoring Data Buoy in the vicinity of Nyes Neck, North Falmouth, MA, in approximate position of 41°38.162N / 070°39.277W, from June 29, 2022 through July 22, 2022. The buoy is a CB-450 Data Buoy, with a flashing 3.5 sec amber light (FL Y 3.5S) at a range of 1-2nm. For questions contact Mr. David Walsh at dwalsh@woodsholegroup.com or (508)495-6254

Chart 13229
Mariners are advised that the Massachusetts Institute of Technology will be deploying five to seven experimental vegetation floats outside the navigable channel around Rainsford Island. The floats will be monitoring water quality and ecosystem organisms. Deployment of the floats will occur on July 5th, 2022 and remain on scene through October 2022. For more information mariners may contact Gabriel Cira at (774) 327-1248. Mariners are advised to plan accordingly and use caution when transiting the area.

The Charles River Conservancy has created a floating vegetated island that is moored to the bottom in position 42-21-47.580N 071-04-36.720W. The island is a static display that will not move and be in the river from 17 March – 01 December 2022.

Regent Craft Inc. will be testing a prototype wing-in-ground-effect (WIG) craft in Narragansett Bay and Mt Hope Bay beginning July 7, 2022 until approximately August 31, 2022. The testing areas include the waters of Narragansett Bay, east and west of Prudence Island, and Mt Hope Bay. Testing of the prototype will last approximately 2-4 hours, Monday through Friday with occasional tests on weekends and occur during daylight hours only. All mariners are advised to use caution when transiting through these areas and avoid these areas if possible while testing is ongoing to deconflict traffic conditions. The vessel can be reached on VHF channel 13/16. For further information, please contact U.S. Coast Guard Sector

UNEXPLODED ORDNANCE HAVE BEEN REPORTED AT THE LOCATIONS INDICATED BY THE RED DOTS

RI-NARRAGANSETT BAY - WEST PASSAGE – UNEXPLODED ORDANCE-Revised 7/20/2022
Eleven (11) unexploded ordnances have been located via survey in Narragansett Bay - West Passage in positions: 41-24-49.86N 071-22-58.2W; 41-27.561N 071-24-38.28W; 41-27-7.68N 071-24-38.64W; 41-26-34.44N 071-24-38.22W; 41-26-1.8N 071-24-30.48W; 41-26-40.32N 071-24-42.54W; 41-28-0.96N 071-24-28.68W; 41-24-43.74N 071-21-34.44W; 41-24-55.74N 071-21-59.64W; 41-24-52.62N 071-23-43.62W in approximately 15-30 feet of water (see chartlet).
RI-NARRAGANSETT BAY–MT HOPE BAY–Vessel Testing
Southeast New England at (508) 457-3211.

Naval Undersea Warfare Center will be conducting continued testing using surface and subsurface devices north and east of Gould Island in the vicinity of the torpedo test range restricted area marked on NOAA Chart 13223 and the Newport Bridge Monday – Friday from September 2021 through December 2022. Mariners are requested to cooperate with participating vessels for the safety of all. Any concerned traffic can contact Navy support craft on VHF channels 13 and 16.

Chart 13223

CONNECTICUT GENERAL NOTICES
Information for Mariners using the Waterways of the State of Connecticut. Newest on top.

NEW YORK GENERAL NOTICES
Information for Mariners using the Waterways of the State of New York including Lake Champlain, NY side. Newest on top.

NY-HARLEM RIVER-SPUYTEN DUYVIL CREEK
Caldwell Marine, will be conducting submarine utility location investigations, in Spuyten Duyvil Creek entrance the Washington Fixed Bridge, Harlem River, NY, from July 25-m August 14, 2022, 7 days a week, between 7:00am through 7:00pm. Utility Investigation Barge will operate with both spuds and anchors, beginning at 40-52.664N; 073-55.535W and travel throughout the investigative process to 40-50.808N; 073- 55.661W. All anchor positions will be marked with white spherical marker buoys. Each anchor buoy will be equipped with high visibility reflective tape and illuminated with fixed white lights with a visible range of 2 nautical miles. Equipment on scene will be the following: CMI Utility Investigation Barge: ‘HUGHES #824’ (120ft length x 36ft beam, Support Tug: ‘ANGEL C’ (25ft length x 11ft beam), Crew Transfer Vessel: ‘LIL JOHNNY’ (26’ ft length x 10 ft beam), Crew Transfer Vessel: ‘LIL LEXI’ (25’ ft length x 11 ft beam) and will be monitoring VHF-FM CH 72 and 73. Mariners are urged to transit at their slowest safe speed, provide a wide berth, and proceed with caution.

Chart 12342

NY-SHEEPSHEAD BAY TO NEW YORK
Increased shoaling found in the vicinity of Sheepshead Bay Channel, specifically near Sheepshead Bay Buoys 6 and 7. Aids marking the channel may be unreliable. All mariners are urged to use extreme caution when transiting this area.

Chart 12350

NY-HUDSON RIVER-RHINECLIFF-CRUM ELBOW PT
Caldwell Marine will be conducting submarine utility location investigations, between Rhinecliff and Crum Elbow Point, between positions, 41-55.238N, 073-57.464W and 41-46.534N, 073-57.116W, between July 18-Aug 9, 2022. Work will be conducted 7 days a week, between 7:00am through 7:00pm. All anchor positions will be marked with white spherical marker buoys. Each anchor buoy will be equipped with high visibility reflective tape and illuminated with fixed white lights with a visible range of 2 nautical miles. Equipment on scene will be the CMI Utility Investigation Barge: ‘CALDWELL1232’ (120ft length x 40ft beam, Support Tug: ‘AUSTIN’ (25ft 3” length x 14ft beam) Crew Transfer Vessel: ‘ALEXIS’ (55ft length x 16ft beam), monitoring VHF-CH 13, 16, 72, and 77. Mariners are advised to use caution when transiting and give a wide berth and slow bell.

Chart 12347

NY-NYC-THE BATTERY
Reicon Group LLC will be conducting exploratory removal of granite fascia wharf face operations at The Battery in position 40-42-9.129N and 074-1-1.380W, Monday through Friday, 9:00pm to 5:00am, between July 11- 29, 2022. A crane on a barge will be on scene monitoring VHF-CH 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.
S. T. Hudson Engineers, Inc. (Hudson) will be conducting bathymetric surveys and small ROV inspections from approximately July 9th through July 30th, 2022, near The Narrows and Gravesend Bay, NY. The extents of the survey area are: North-West extent 40-37-55N, 074-03-00W and South-East extent 40-35-07N, 074-00-35W.

Equipment on scene will be the MV BELLA MARIE, 38-ft aluminum hulled catamaran. Geophysical survey equipment will be towed behind the vessel and maneuverability of the vessel will be restricted. Please note that some of the equipment will be towed subsurface at a distance of up to 600ft behind the vessel. Mariners are advised to use caution when transiting near the survey vessel and give a wide berth and slow bell. Mariners may contact the vessel “Bella Marie” on VHF-FM channels 13 and 16 for passing arrangements.

Aquifer Drilling and Testing, Inc. will be conducting marine borings in multiple locations on the Harlem River, (See below). Borings will be taken from July 11, 2022 through August 12, 2022; Mon through Sun, 6:00am – 8:00pm. Lights will be energized on the barge during night hours. Equipment on scene will be (1) 18X40 lift boat SMOKEY with a track mounted drill rig and (1) Crew Boat. Work will not impede channel. Borings M404 Will be drilled 24/7 to completion, boat manned at all times. Borings M404 will be drilled 24/7 to completion, boat manned at all times. Borings 403, 405, 103, 104, MG-203 & 213 – Will be drilled M - F, 6 a.m. – 6 p.m. and kept out of the channels. MR-404 will skirt the channel and will be drilled 24/7 to completion at an estimated 1.5 – 2 days to finish. Boat will be manned at all times and will not move unless an emergency is occurring. Vessels will be on scene monitoring VHF-FM 9, 13, and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

J Cashman will be conducting maintenance dredging operations at the Howland Hook Marine Terminals 2 and 3 from July 5 through August 31, 2022 from 6am to 6pm Monday through Saturdays and Sundays as required. Equipment on scene will be the Clamshell Dredge Wood 1, Tender Tug Ava Jude, Towing Tug, Miss ILA, Crew Boat David Auld Scudder, and Survey 2 and will be monitoring VHF-FM channel 13 and 16. Vessels will need 15 minutes to move vessels. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made with the dredge.
NY/NJ-NEW YORK HARBOR-KILL VAN KULL-HOWLAND HOOK
Chart 12333  LNM: 25/22

NY/NJ-NEW YORK HARBOR-PORT JERSEY TERMINALS
J Cashman will be conducting maintenance dredging operations at the Port Jersey Marine Terminals 1 and 2 from July 5 through August 31, 2022 from 6am to 6pm Monday through Saturdays and Sundays as required. Equipment on scene will be the Clamshell Dredge Wood 1, Tender Tug Ava Jude, Towing Tug, Miss ILA, Crew Boat David Auld Scudder, and Survey 2 and will be monitoring VHF-FM channel 13 and 16. Vessels will need 15 minutes to move vessels. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made with the dredge.
Chart 12334  LNM: 25/22

NY-BUTTERMILK CHANNEL
Great Lakes Dredge and Dock (GLDD) is conducting maintenance dredging operations in Buttermilk Channel from 28 June – 31 July 2022, 24 hours per day / 7 days per week. The Dredge 55, Scows 601 & 604, Tugs MISS GLORIA and SMITH PREDATOR, and Survey vessel WOLF RIVER will be on scene and monitoring VHF CH 5, 13 and 16. Dredged material will be placed in the charted Historic Area Remediation Site (HARS) southeast of the Sandy Hook Channel Scotland Lighted Whistle Buoy ”S” (LLNR 35085). Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.
Chart 12334  LNM: 25/22

NY-GOVERNORS ISLAND
There will be an illuminated sculpture on the Yankee Pier, on Governors Island, in position 40-41-9.99N and 074-1-00W. The lit structure will be on scene between 01 April through 30 November 2022. Governors Island point of contact is Lori Wasson (646) 522-4871 lwasson@govisland.org.
Chart 12335  LNM: 10/22

NY-LONG ISLAND-FIRE ISLAND TO MONTAUK POINT-MONTAUK LIGHT
Montauk Historical Society will be conducting exterior work on the Montauk lighthouse tower which will temporarily change the appearance of the lighthouse until the work is completed. Work will begin on 15 July 2020 from sunrise to sunset, 7 days a week (weather permitting) and continue until complete. On scene equipment will be 1-2 aerial lifts.
Charts: 13209  13215  LNM: 29/20

NY-UPPER BAY-MANHATTAN (REVISED)
A sheet pile has partially detached from the western face of the concrete pier located at the Coast Guard building at Battery Park in Manhattan. The pier is marked with a dayboard marked DANGER DO NOT MOOR. All mariners are advised to transit the area with caution.

NEW JERSEY GENERAL NOTICES
Information for Mariners using the Waterways of the State of New Jersey (Shrewsbury/Navisink Rivers North). Newest on top.

NJ- SHREWSBURY RIVER-SEA BRIGHT
Edgewater Marini, LLC will be installing new floating docks and slip redevelopment in the Shrewsbury River, in position 40-21-18.950, 073-58-30.061, from July 29-August 31, 2022. Equipment on scene will be a 20’x40’ spud barge with Kubota SK140 excavator and a 24’x48’ spud barge with Kubota SK135 excavator. This project will be conducted outside the navigable channel and will not impeded vessel traffic. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.
Chart 12325  LNM: 29/22

ATLANTIC OCEAN GENERAL NOTICES
Information for Mariners using the Waterways of the Atlantic Ocean. Newest on top.

ATLANTIC OCEAN-SOUTH OF MARTHAS VINEYARD
One unexploded ordnance has been located approximately 18NM south of Marthas Vineyard in position 41-04.044N, 070-26.470W in approximately 41 meters of water.
Geoquip Marine will be conducting ROV surveys and equipment recovery in the BOEM Lease area OCS-A 0520, from July 12-16, 2022, 24 hours a day, 7 days a week. Equipment on scene will be the HOS MYSTIQUE, monitoring VHF CH 16. Mariners are advised to plan accordingly and use caution when transiting the area.

Mariners are advised that the Block Island to Montauk Swim event is scheduled to take place, based on weather, one day between July 28, 2022 and August 2, 2022. A single swimmer, assisted by a 35' chase boat and two safety kayaks, will depart Block Island at 4:00 am, swim the 14nm and is expected to arrive Montauk Point eight hours later. Mariners are urged to stay at a safe distance of 100 yard from the swim event and transit at a low wake speed while in the vicinity of this event. Interested mariners may contact the Swim Organizer at (631) 327-6060 or on marine band radio channel 16 VHF-FM.

Ocean Infinity will be conducting marine geophysical, environmental and geotechnical sampling, from July 11-17, 2022, in the Beacon Wind Lease Area, export cable route, 24 hours a day, 7 days a week. Equipment on scene will be the DANIELLE MILLER, call sign WDJ 9747, monitoring VHF-CH 13 and 16 and will be operating out of New Haven, CT and the Port of New York. During the survey the vessel will be deploying subsurface survey equipment along the Export route corridor and in the beacon Wind Lease Area and will be restricted in their ability to maneuver. Approaching vessels are requested to pass at a safe speed and distance. Further enquiries should be addressed to the following people Sara Anderson, sara.anderson@oceaninfinity.se and Jim Miller, jmiller@millermarineservice.com.

The Bureau of Ocean Energy Management (BOEM), in consultation with the National Marine Fisheries Service (NMFS) and affected coastal states, will be holding meetings to discuss draft guidance for ways to mitigate impacts from offshore wind projects on commercial and recreational fisheries and fishing. The guidance was developed based on public input received in late 2021.

BOEM will hold four public meetings to:
1. Present the draft guidance.
2. Answer questions about the draft guidance and how it was developed.
3. Receive feedback on key issue areas.
4. Provide information on how to submit comments during the public comment process.

The Draft Fisheries Mitigation Guidance is being shared with the public for review and input for a 60-day comment period. Guidelines developed through this process may be updated periodically based upon public feedback and evaluation by BOEM staff. Comments on the guidance can be submitted via regulations.gov from June 23 to August 22, 2022 under Docket number BOEM-2022-0033 or by attending one of four upcoming virtual public meetings:
- July 11 East Coast Meeting (9-11am EDT): https://kearnswest.zoom.us/meeting/register/tZ0sd-CrDIOoH9ZB_Q6Z2cQ3S0Rn5b-Bkvh0
ATLANTIC COAST-BOEM- OFFSHORE WIND ENERGY DEVELOPMENT

The workshops are intended primarily for commercial and recreational fishermen on the West Coast, the Gulf, and the Atlantic Coast, as well as developers. However, the meetings are open to the public. Additional information is available on BOEM’s website.

Rear Admiral, U.S. Coast Guard
Commander, First Coast Guard District
NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

MAINE SHOALING

ME–SACO BAY AND VICINITY (Chart 13287) –RICHMOND ISLAND HARBOR–SCARBOROUGH RIVER

There is serious shoaling in the entrance to the Scarborough River in the vicinity of gated Buoys 1-2 and 3-4. Soundings of +0.8 at Mean Lower Low Water (MLLW) has been surveyed, that means the bottom is exposed at the lowest possible tide. Mariners are advised to use caution when transiting the Scarborough River and do so only at higher tides.

ME–THOMASTON–SAINT GEORGE RIVER–Shoaling

The St. George River in the vicinity of Thomaston Harbor has experienced heavy shoaling. Shoaling in spots has reduced the channel depth to less than 2 ft. at MLLW. Mariners are advised to use caution when transiting St. George River north of nun buoy #16 to Brooklyn Heights Bridge. For further information please contact Clayton Franklin, 207-767-0393.

NEW HAMPSHIRE SHOALING

NONE REPORTED
**MASSACHUSETTS SHOALING**

**MA-ESSEX BAY**

Essex Bay entrance has experienced increased shoaling from Essex Bay Buoy 3 in approximate position 42-40.4N 070-42.7W to Essex Bay Buoy 3A in approximate position 42-40.3N 070-43.3W. Mariners are advised that shoaling has been identified and extends the entire width of the channel to a least depth of 2 feet mean low water (MLW). Mariners without local knowledge are advised to transit with extreme caution and only during plus tides.

Essex Bay Channel Buoy 16 has been reported having increased shoaling. Mariners are urged to use caution while transiting the area.

Chart 13274 LNM 24/22

**MA-MERRIMACK RIVER ENTRANCE**

Severe shoaling has been reported in the entrance to the Merrimack River. Mariners should proceed with caution while transiting the area. Chart 13278 LNM 02/14

**MA-MERRIMACK RIVER-JOPPA FLAT AREA**

Severe shoaling has been reported between Merrimack River Lighted Buoy 13 (LLNR 9050) - North Pier Light 18 (LLNR 9070). The channel shoals to 6 feet versus 9 feet. Mariners should proceed with caution while transiting the area.

Chart 13278 LNM 02/14

**MA-NEWBURYPORT HARBOR AND PLUM ISLAND SOUND-SHOALING**

Shoaling exists in Plum Island Sound between Plum Island Sound Entrance buoy 4 (LLNR 9310) and Plum Island Sound Entrance buoy 6 (LLNR 9320), aids are not properly marking best water. Mariners are advised to use caution while navigating this area. All of Plum Island is particularly susceptible to shoaling, the area between 4 and 6 being the worst at the mouth of the channel. Last year the unit partnered with the harbor Master moving the aids to mark the best water. Even though the aids are in the best possible locations that water is still shallow at low tide and mariners should use caution while navigating in this area.

Newburyport Harbor and Plum Island Sound – Plum Island Sound Entrance has experienced an increase in shoaling between Plum Island Sound Entrance Buoy 6 and 8. The shoaling was observed in approx. position 42-41.365N /070-45.169W and extends 100 yards west following the channel. Mariners are advised that at MLLW depths of 3' could be seen. Mariners without local knowledge are advised to transit with extreme caution and monitor tidal stations prior to transiting.

Chart 13274 13279 13282 LNM 25/22
**MA-ANNISQUAM RIVER**

Severe shoaling has been reported in the Annisquam River. Annisquam River channel buoy 24 (LLNR 9690) has been relocated due to recent shoaling in the area to mark best water. Mariners should proceed with caution while transiting the area.

Chart 13274 LNM 24/22

**MA-LYNN HARBOR**

Increased shoaling has been reported between Sandy Point Light 11 (LLNR 10595) - Lynn Harbor Channel Lighted Buoy 14 (10610). Mariners should proceed with caution while transiting the area.

Chart 13274 LNM 02/14

**MA-SALEM AND LYNN HARBORS (Chart 13275)-SAUGUS RIVER APPROACH CHANNEL**

Severe shoaling has been reported in the Saugus River in the vicinity of Saugus River Approach Channel Lighted Buoy 5 (LLNR 10655). Mariners should proceed with caution while transiting the area.

Chart 13274 13275 LNM 15/21

**MA-SALEM AND LYNN HARBORS (CHART 13275)-BASS RIVER**

Severe shoaling has been reported between Bass River Channel Buoy 2 (LLNR 10325)-Bass River Channel Buoy 9 (LLNR 10355) and there is a severe decrease in the channels width. Mariners should proceed with caution while transiting the area.

Chart 13275 LNM 02/14

**MA-MARSHFIELD-NEW INLET**

Shoaling has been reported from the North River junction buoy towards the #2 buoy South River. This area is reported as approx. 3.0 feet during the low tide. Mariners should use caution while transiting the area, especially during astronomical low tides.

Chart 13267 LNM 15/16

**MA-PLYMOUTH, KINGSTON AND DUXBURY HARBORS (Chart 13253)-GREEN HARBOR-SHOALING**

The Green Harbor entrance channel has sustained SEVERE shoaling over the past couple of years. Depths at Low tide can be as shallow as 2.0 Feet, in the “Narrows” entrance of the Federal Channel. The Federal channel width reduces from 100 feet to 40 feet at low tide. Mariners should not attempt to transit the area until 2.5 hours into the Flood tide cycle. Additional time should be allotted for minus tides/astronomically low tides.

Chart 13246 13253 LNM 14/21
MA-NUMMET CHANNEL (REVISED)

The Coast Guard has received a report of shoaling in the vicinity of The Nummet Channel Buoy 7 (LLNR 12760). Mariners are advised to proceed with caution when transiting the area.

Chart 13253 LNM 38/10

MA – BARNSTABLE HARBOR – SHOALING

Mariners be advised that shoaling exists in the Barnstable Harbor Entrance channel. Shoaling extends approximately 200 feet into the channel north of Barnstable Harbor Entrance Lighted Buoy 6, in the vicinity of position 41.43.5 N, 070-16.3W. Water depth is estimated to be 2 feet at low tide in this area. All mariners are requested to use caution while transiting the area.

Chart 13238 LNM 40/18

MA-NANTUCKET SOUND AND APPROACHES (Chart 13237)-POLLOCK RIP CHANNEL

The entrance to Pollock Rip Channel from the East continues to have SEVERE shoaling East of Pollock Rip Lighted Buoy 4 (LLNR 13535). Mariners should not attempt to transit the area without local knowledge of the shoals and use the channel at their own risk. If transiting the channel, Mariners are urged to transit at their slowest safe speed and proceed with extreme caution.

Chart 13237, 13244 LNM 41/21

MA-MARTHA'S VINEYARD TO BLOCK ISLAND (Chart 13218)-WESTPORT HARBOR

Shoaling exists in Westport Harbor in the vicinity of Westport Harbor Channel LB 14 (LLNR 17490) and Westport Harbor Channel Buoy 17 (LLNR 17505). There are other areas of shoaling throughout the Westport Harbor Channel reducing the available depth of water. Mariners are advised to use caution while navigating this area.

Chart 13228 LNM 31/20

MA – CUTTYHUNK HARBOR – ENTRY CHANNEL – URGE CAUTION

Mariners are advised that the navigable width of the entry channel into Cuttyhunk Harbor has decreased to approximately 15 feet wide. This may cause navigability issues and restrict movement for two way traffic. Mariners are urged to maintain a proper lookout and use extreme caution while transiting the area. You may contact the local harbormaster by phone at (508) 990-7578.

Chart 13230 LNM 29/19
RHODE ISLAND SHOALING

RI-NARRAGANSETT BAY (CHART 13221)-GREENWICH BAY-WARWICK COVE
Shoaling has been observed within the federal navigation channel to a least depth of 3 FT MLW. Shoaling is encroaching from the west and has impacted the western part of the channel, reducing the authorized project width from 150 feet to approx. 90 feet between Warwick Cove Buoy 3 (LLNR 19360) and Warwick Cove Buoy 7 (LLNR 19375).
Chart 13224 LNM 02/22

RI-BLOCK ISLAND SOUND AND APPROACHES (CHART 13205)-POINT JUDITH POND
Shoaling has been observed within the channel to a least depth of 5.5 feet MLW in approximate position 41 22'48"N, 071 33'55"W between Point Judith Pond Channel Buoy 2 (LLNR 19555) and Point Judith Pond Channel Buoy 4 (LLNR #19560). Shoal is encroaching from the East side of the channel and protruding west.
Chart 13219 LNM 02/22

RI-NARRAGANSETT BAT (CHART 13221)-MOUNT HOPE BAY-KICKAMUIT RIVER
Shoaling has been reported in the Kickamuit River in the vicinity of Kickamuit River Buoy 2. Mariners are advised to proceed with caution while transiting the area.
Chart 13221 LNM 12/21

NEW YORK SHOALING

NY-SHEEPSHEAD BAY TO NEW YORK
Increased shoaling found in the vicinity of Sheepshead Bay Channel, specifically near Sheepshead Bay Buoys 6 and 7. Aids marking the channel may be unreliable. All mariners are urged to use extreme caution when transiting this area.
Chart 12350 LNM 29/22

NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET-FIRE ISLAND INLET
East Rockaway Inlet is experiencing severe shoaling in the inlet west of the breakwater and in between Lighted Buoys 5 and 6. Mariners are urged to use extreme caution while navigating Inlet. The Coast Guard will remark best water until dredging of the Inlet can be completed.
Chart 12352 LNM 23/22

NY-RAUNT CHANNEL (Booklet Chart 12350 JAMAICA BAY)
Recent surveys has shown significant shoaling in the Raunt Channel. Shoaling exists in the vicinity of Buoy 6, in approximate position 40-36.17N 073-50.47W. Depths of less than 5 feet in the middle of the channel. Navigation of the area requires extreme caution due to the encroaching nature of the shoal.
Chart 12350 LNM 12/22
NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET-JONES INLET

Mariners be advised, dangerous shoaling conditions exist east of Jones Inlet and vicinity which cause dangerous conditions when transiting the channel. Mariners should exercise extreme caution when navigating the channel.
Chart 12352 LNM 32/21

NY-LONG ISLAND SOUND (Eastern Part) (Chart 12354)-SOUTH SIDE-MATTITUCK INLET

Shoaling has been reported in the Mattituck Inlet. Mariners are advised to proceed with caution while transiting the area.
Chart 12358 LNM 12/21

NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET (Chart 12352)-MORICHES BAY

Severe shoaling is present in Moriches Bay along the Long Island Intracoastal Waterway in the vicinity of Moriches Bay Buoys 21, 24, 26, 27, 28, and 29 extending the entire width of the channel at nearly all tide levels. The area from Buoys 24 to 29 is only navigable at the operator's risk. The most severe area of shoaling can be found between buoys 26 and 28 and is less than half the charted channel depth in some areas. Mariners should be aware that the Aids to Navigation in these areas are unreliable due to shoaling and mariners are strongly advised to seek alternate routes.
Chart 12352 LNM 16/20

NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET

Mariners be advised, dangerous shoaling conditions exist in the East Rockaway Inlet and vicinity. Mariners should exercise extreme caution when navigating the channel.
Chart 12352 LNM 15/18

NY-MORICHES BAY, SHINNECOCK BAY AND STATE BOAT CHANNEL (REVISED 39/16)

Shoaling has been reported in Moriches Bay along the Long Island Intracoastal Waterway in the vicinity of Moriches Bay Buoy 17, 18, 21, 26, 27, 28 and 29 extending the entire width of the channel and at any tide level. The most severe area of shoaling can be found between buoys 26 and 27 and is less than 3 ft. Shoaling is also reported in Moriches Inlet in the vicinity of Moriches Inlet East Cut Buoys 3E and 5E. Mariners should be aware that the Aids to Navigation in these areas have been deemed unreliable due to shoaling and mariners are advised to seek alternate routes. If transiting these areas, do so only at high tide and proceed slowly and with extreme caution. Chart 12352 LNM 39/16

NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET-SLOOP CHANNEL

Shoaling has been reported in the vicinity of Sloop Channel Beacon 21 (LLNR - 31100). All mariners are requested to use caution when transiting the area.
Chart 12352 LNM 49/17
NY-LONG ISLAND SOUND – MILTON HARBOR

Severe Shoaling has been reported in Milton Harbor. Mariners are advised to proceed with caution while transiting the area.

Chart 12364

NEW JERSEY SHOALING

NJ-NAVESINK RIVER

Recent surveys have shown significant shoaling in the Navesink River. Shoaling exists across the entire reach beginning at the entrance to the Navesink River to Navesink River Buoy 24. Least depths of 2.3 feet to 5.8 feet extending into channel and throughout the waterway. Navigation of the area requires extreme caution due to the encroaching nature of the shoal.

Chart 12325 LNM 01/22

NJ-SHREWSBURY RIVER

Shoaling has been reported in the vicinity of Shrewsbury River Channel Lighted Buoy 5 (LLNR - 35755). All mariners are requested to use caution when transiting the area.

Chart 12325 LNM 50/21
SUMMARY OF ONGOING DREDGING AND MARINE CONSTRUCTION PROJECTS
Arranged by State, North to South, and Newest information on top (for each State).

Updated 07/20/2022

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

MAINE
None to Report

NEW HAMPSHIRE

NH- PISCATAQUA RIVER-NEWINGTON

CDM Constructors Inc. will be dismantling a former fuel pier, on the Piscataqua River, in Newington, NH, in position 43-6-27.16N, 070-47-52.85W, from July 19, 2022 through May 2024. Equipment on scene will be sporadic depending on phase of project. Two working barges will be mobilized for crews and heavy equipment (excavator and Lull). Miscellaneous support vessels may also be present, monitoring VHF/CH-13 and 16. Work barges will be centralized to work areas only and will not impede navigation. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13285 LNM 29/22

MASSACHUSETTS

MA-BOSTON HARBOR-BOSTON INNER HARBOR

Burnham Associates, Inc will be conducting maintenance dredging of Moran Shipping Terminal, Charlestown, MA in position 42-23-04.556N 071-03-15.786W from July 16 – August 31, 2022, 24 hours a day, 7 days a week. The Boston Inner Harbor CAD cell in the Mystic River will be used. Equipment on scene will be the dredge TRINITY, scow SE 103, push boat STRIDER or MANTIS, and two 600CY scows. Project operations will monitor VHF Channels 8, 13 and 16. Dredge equipment will work with all local authorities and concerned parties to ensure passing arrangements are safe and do not impede navigation. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

13272 26/22

MA-SPRINGFIELD-CONNECTICUT RIVER CROSSING PROJECT – UPDATE

The Springfield Water and Sewer Commission continues construction and pipeline installation operations on the Connecticut River Western Agawam bank between the Memorial and South End Bridges at approximately River Mile 75. Construction will consist of the installation of a pile supported access trestle with limited floating turbidity curtains extending approximately 90 feet beyond the mean annual high water mark into the Connecticut River. Phase III of construction has commenced. Connecticut River – Mile 73 Springfield/Agawam: Construction & Dredging for Pipeline Crossing Activities shall commence on or about June 1, 2022 and continue until the end of October 2022 pending weather and production. Temporary pile to support environmental curtains shall extend 600 feet into the river from the West bank and 1000 feet north tapering from the West bank shore to the center of the River. Piles shall be lighted with navigational steady all-round white lights. Construction equipment consist of, 1 150-180 Ton Crane Mount on 70’ x 80’ x 7’ Poseidon (2) Spud Barge
Encl 2

2 215,000 LB Komatsu 1250 Excavator Dredge Barge w/ (4) powered spuds
3 30’x 80’ x 7’ Material / Environmental Controls - Poseidon section barges
1 300HP-400HP shallow water push boat.
1 225 HP Sea Bee 180-degree hydraulic thruster-master
1 60hp work boat
1 8’x10’x3’ Environmental work barge w/ motor
1 DOC Inspection Boat (Daniel O’Connell’s Sons)

Clear navigable passage for boaters will be maintained on the eastern side of the river. Due to barge mounted equipment and Dive operation safety concerns; Mariners are advised to exercise extreme caution when transiting the area proceeding at headway speed at “No Wake” and to monitor VHF-FM Channels 13/16. For more information mariners may contact J.F White Contracting Co at (617) 454-1832 or Project Manager Robert Pellerin at (508) 905-9582. Additional Questions concerning this project may be directed to Mr. Gus O’Leary at (617) 498-4649 or the on scene contractor, J.F. White Company at (617) 699-5063. On scene work vessel may be contacted via VHF-FM 05 or 07 Mariners are urged to use caution while transiting the area.

LNM 20/21

MA-OFFSHORE-SOUTH OF MARTHA’S VINEYARD-NANTUCKET

Fugro USA Marine Inc will be conducting Geotechnical site investigation, comprising of seabed CPT’s and downhole drilling at selected locations from June 1 - September 30, 2022, 24 hours a day/7 days a week. Offshore vessel operations are planned within OCS-A-501S lease survey area is approximately 12 nautical miles offshore Martha's Vineyard and 12 nautical miles offshore Nantucket in the northern portion of Vineyard Wind’s lease area, Figure 1&2 below show an overview of the proposed locations (South of Nantucket). Equipment on scene will be the Geotechnical drilling vessel PSV REGULUS. Vessel operations will be within the boundary coordinates:
40-07-02.00N 070-27-29.00W
40-01-16.00N 070-22-13.00W
40-44-54.00N 070-44-54.00W
40-50-29.00N 070-51-02.00W

The vessel will be stationary during execution of this site investigation work, the maximum vessel speed during transit is limited to 10 knots and will be monitoring VHF-FM CH 16.

LNM 20/22

MA-CENTERVILLE HARBOR-EAST OF SPINDLE ROCK

Vineyard Wind will be placing two orange A3 Norwegian, Sub Surface marker buoys in position 41-37-55.0452N, 070-19-59.1204W and 41-37-55.234N, 070-20-0.9168W. The buoys will be on scene between March 30- October 30, 2022 and will be secured to sea bottom 2.5m above sediment (8.2ft) in approximately 14 feet of water. The buoys are marking the location of the conduit flange at the punch out location. The hours of operation will be 24 hours a day of operation are 7 days per week. POC: Jeannot Smith (904) 613-0134.

13237 14-41/22
RHODE ISLAND

RHODE ISLAND – PROVIDENCE RIVER – SEAWALL REPAIRS

The Narragansett Electric Company and JF Brennan Company are performing repairs to the Seawall Bulkhead in Providence: 41-48-00.3N 71-23-31.3W. Work will take place from March 14, 2022 and continue until April 1, 2023. A Crane Spud Barge, a Materials Barge, Work Floats and Marine Vessels operating in the Work Area defined below to perform demolition activities on the existing seawall and install a new sheet pile wall. Work hours are 6:00am to 6:00pm. Project operations will monitor VHF Channels 13 and 16 during working hours. Questions or concerns may be directed to the Project Manager, Kristian Theriault at 401-378-1876 (kristian.theriault@nationalgrid.com). Mariners should use caution when transiting the area.

CONNECTICUT

None to Report

NEW YORK

NY-HARLEM RIVER-SPUYTEN DUYVIL CREEK

Caldwell Marine, will be conducting submarine utility location investigations, in Spuyten Duyvil Creek entrance the Washington Fixed Bridge, Harlem River, NY, from July 25-m August 14, 2022, 7 days a week, between 7:00am through 7:00pm. Utility Investigation Barge will operate with both spuds and anchors, beginning at 40-52.664N, 073-55.535W and travel throughout the investigative process to 40-50.808N, 073-55.661W. All anchor positions will be marked with white spherical marker buoys. Each anchor buoy will be equipped with high visibility reflective tape and illuminated with fixed white lights with a visible range of 2 nautical miles. Equipment on scene will be the following: CMI Utility Investigation Barge: ‘HUGHES #824’ (120ft length x 36ft beam, Support Tug: ‘ANGEL C’ (25ft length x 11ft beam), Crew Transfer Vessel: ‘LIL JOHNNY’ (26’ ft length x 10 ft beam), Crew Transfer Vessel: ‘LIL LEXI’ (25’ ft length x 11 ft beam) and will be monitoring VHF-FM CH 72 and 73. Mariners are urged to transit at their slowest safe speed, provide a wide berth, and proceed with caution.

NY-NYC-EAST RIVER

Aries Marine will be conducting geotechnical surveys in west fork of East River .02 nm south of Queensboro Bridge (July 26-Aug 3, 2022). A second set of surveys will be conducted in the East fork of the East River .25 nm north of the Roosevelt Island Bridge (Aug 6-8, 2022). A third set of surveys will conducted in the East River 1 nm north of the Williamsburg Bridge (Aug 8-Sep 3, 2022). A fourth set of surveys will be conducted in
the East River .2 nm north of the Robert F Kennedy Bridge(Sep 4-15, 2022). Work will begin on July 26, 2002 and will run to September 15, 2022, seven days a week, 24 hours a day. The lift boat “RAM VII”, Black Hull White superstructure LOA 81’, beam 63’, draft 6.5’. The RAM VII is equipped with AIS (Class A). The RAM VII will need a slow bell and minimum wake during periods that she is positioning, elevating or lowering. When repositioning is necessary it will occur near slack tide. Once elevated, clear of the water, and stable, normal operating speeds can be used. RAM VII will maintain a 24 hour radio communication watch on VHF CH-13, 14, and 16 and will check in with VTS NY.
NY-QUEENS-ATLANTIC BEACH-REYNOLDS CHANNEL

Aries Marine will be conducting geotechnical surveys in the Reynolds Channel 0.25 nm west of the Atlantic Beach Bridge. Work will begin on September 17-19, 2022, 24 hours a day. The lift boat “RAM VII”, Black Hull White superstructure LOA 81’, beam 63’, draft 6.5’. The RAM VII is equipped with AIS (Class A). The RAM VII will need a slow bell and minimum wake during periods that she is positioning, elevating or lowering. When repositioning is necessary it will occur near slack tide. Once elevated, clear of the water, and stable, normal operating speeds can be used. RAM VII will maintain a 24 hour radio communication watch on VHF CH-13, 14, and 16 and will check in with VTS NY.

NY-QUEENS-FLUSHING BAY-FLUSHING CREEK

DONJON Marine will be conducting dredging in Flushing Bay and Creek in position 40°45-34.5’N, 073°51-15.7’W, between AUG 1- November 30, 2022, 24 hours a day, 7 days a week. Equipment on scene will be (2) dredges, (1) crew boat, (1) tending tug, and (1) towing tug. Vessels on scene will be monitoring VHF-FM CH 13 and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 12339

NY-HARLEM RIVER –Revised 06/28/22

Aquifer Drilling and Testing, Inc. will be conducting marine borings in multiple locations on the Harlem River, (See below). Borings will be taken from July 11, 2022 through August 12, 2022; Mon through Sun, 6:00am – 8:00pm. Lights will be energized on the barge during night hours. Equipment on scene will be (1) 18X40 lift boat SMOKEY with a track mounted drill rig and (1) Crew Boat. Work will not impede channel. Boring M404 Will be drilled 24/7 to completion, boat manned at all times. Borings M404 will be drilled 24/7 to completion, boat manned at all times. Borings 403,405, 103, 104, MG-203 & 213 – Will be drilled M - F, 6 a.m. – 6 p.m. and kept out of the channels. MR-404 will skirt the channel and will be drilled 24/7 to completion at an estimated 1.5 – 2 days to finish. Boat will be manned at all times and will not move unless an emergency is occurring. Vessels will be on scene monitoring VHF-FM 9, 13, and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.
NY–BUTTERMILK CHANNEL

Great Lakes Dredge and Dock (GLDD) is conducting maintenance dredging operations in Buttermilk Channel from 28 June – 31 July 2022, 24 hours per day / 7 days per week. The Dredge 55, Scows 601 & 604, Tugs MISS GLORIA and SMITH PREDATOR, and Survey vessel WOLF RIVER will be on scene and monitoring VHF CH 5, 13 and 16. Dredged material will be placed in the charted Historic Area Remediation Site (HARS) southeast of the Sandy Hook Channel Scotland Lighted Whistle Buoy “S” (LLNR 35085). Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Chart 12334 LNM 25/22
NY/NJ-NY HARBOR-KILL VAN KULL

DONJON Marine will be conducting maintenance dredging in the Kill van Kull Federal Navigation Project from 20 June – 27 July 2022 24 hours a day 7 days a week. Equipment on scene will be (1) Dredge, (1) Tending Tug, (2) Towing to HARS Tug, (1) crew Boat. This will be a move on demand dredge project. Donjon Marine request a 20 minute courtesy call to move when possible. Vessels on scene will be monitoring VHF-FM channel 13, 16 and 78.

NY-EAST RIVER-MANHATTEN-MONTGOMERY EAST 15th STREETS

Trevcon Construction Co. Inc will be conducting Demolition, Installation of Steel Pipe Pile, Anodes, and Structural Concrete Work Existing Concrete on Piles on the Manhattan Side at Pier 40 on the East River, The physical location is East River Park, East River Promenade, New York, NY 10002 in position 40-42-48.276N/073-58-32.160W from 23 May – 30 September 2022, Monday to Friday from 5:00am to 7:00pm. Equipment on scene will be two Barges (180’ x 60’, 140’x40’), One Barge (160’ x 50’). All moving of vessels to occur by tugboat; vessels will be moved at all times of day and night. Vessels are requested to navigate with caution in this area.

Chart12335 LNM 18/22

NY-EAST RIVER-BROOKLYN BRIDGE-EAST BRIDGE PARK

Phoenix Marine Co. will be conducting diver operations in the East River, Pier 2, Brooklyn Bridge Park, in position 40-41-58.4628N, 073-59-55.6656W. Work will be conducted between 6:00am-2:00pm, from May 9-December 31, 2022. Equipment on scene will be a 130’X60’ stationary spud barge monitoring VHF-CH 13 and 74. Mariners transiting the work area are urged to exercise extreme caution, travel at the slowest safe speed to minimize wake, and proceed with caution.

Chart 12327 LNM 17/22

NY-UPPER NEW YORK HARBOR, BROOKLYN

IT Cleary, Inc. will be conducting reconstruction of West Berth Platform, Installation of piles/ precast concrete work and demolition and reconstructive work of North Berth Platform and Inshore Return Platform in Brooklyn NY, at the OWI's Head Waste Water Treatment Plant 6700 Shore Rd. West Sludge pumping dock. In position 40-38-39.53N and 74-02-02.84W, 40-38-37.14N and 074-02-05.40W, 40-38-40.16N and 074-02-03.86W, 40-38-37.65N and 074-02-06.50W. Work will be done from 21 March 2022 to 30 December 2024, Monday through Friday 6:00am - 6:00pm. Equipment of scene will be a Crane on barges with Spuds, material barge, hopper barges, work boats. The crew boat will be monitoring VHF-FM Channel 13 and 16 during working hours. Barges/equipment will not impede passage of any vessel. However barges may be staged 50ft into east edge of The Bay Ridge Channel. Barges will be spudded down along shoreline. All moving of vessels to occur by tugboat. Mariners are urged to travel slowest safe speed to minimize wake.

Chart 12334 LNM: 11/22
NY-EAST RIVER, HARLEM RIVER, NEWTOWN CREEK

Bud South, LLC. Will be conducting Riprap shoreline maintenance and outfall pipe installation within Newtown Creek, shoreline of property at 55-01 2nd Street (AKA 2-20 Malt Drive), NY in approximate position 40-44-20N 073-57-32W. Work will be conducted from 28 December 2021 – 31 December 2022, from 7:30am – 5:30pm. Equipment on scene will be a turbidity curtain, steel sheeting, concrete outfall, an Eco-Mat, a Robotize Hammer, 2 excavator, front end loader, and a pile driver. No vessels will be used in the water. Mariners are urged to exercise caution when in the vicinity.

Chart 12338 52/21

NY-EAST RIVER-MONGOMERY STREET TO E 14 STREET

IPCRP will be conducting Esplanade, bulkhead and park reconstruction work on the East River at Montgomery and East 14th Streets, in position 40-42-54.0N/ 073-58-27.7W from 01 January 2022 to 31 December 2026, Monday to Friday from 6:00am to 5:00pm. Equipment on scene will be tugboat, mooring barges, material handling barges, a crane barge and deck barge. Vessels will be on scene monitoring CH 13 and 66. Vessels will a one hour notification to move. Mariners are urged to transit at their slowest safe speed to minimize wake.

Chart 12335 LNM 50/21

NY-GOWANUS CANAL

The Gowanus Canal is closed to all recreational boating between 9th Street and Butler Street, including use of the 2nd Street public boat launch, at the direction of the U.S. Environmental Protection Agency (USEPA), the lead federal agency for the Gowanus Canal Superfund Site, due to the ongoing construction of the dredging and capping remedy of the canal until further notice unless specific advance written authorization is granted by USEPA. Contact: (212) 637-3639. For further information: https://gowanussuperfund.com.

NEW JERSEY

NJ- SHREWSBURY RIVER-SEA BRIGHT

Edgewater Marini, LLC will be installing new floating docks and slip redevelopment in the Shrewsbury River, in position 40-21-18.950, 073-58-30.061, from July 29-August 31, 2022. Equipment on scene will be a 20’x40’ spud barge with Kubota SK140 excavator and a 24’x48’ spud barge with Kubota SK135 excavator. This project will be conducted outside the navigable channel and will not impeded vessel traffic. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 12325 LNM 29/22
NJ-HACKENSACK RIVER-BERRYS CREEK

Aquifer Drilling and Testing Inc. will be conducting marine borings in the south east mouth of Berrys Creek Canal off of the Hackensack River between July 26-August 26, 2022, Monday through Sunday, 6:00am-8:00pm. Borings will be performed in the red shaded areas in the picture below. Equipment on scene will be (1) 18x40 Lift Boat with track mounted mount drill rig, (1) 30’ Crew Boat via Millers Launch, monitoring VHF-CH 9, 13, and 16 and will not impeded the navigable channel. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

NY-GRAVESEND BAY-THE NARROWS

S.T. Hudson Engineers, Inc. (Hudson) will be conducting bathymetric surveys and small ROV inspections from approximately July 9th through July 30th, 2022, near The Narrows and Gravesend Bay, NY. The extents of the survey area are: North-West extent 40°37′55″N, 074°03′00″W and South-East extent 40°35′07″N, 074°00′35″W. Equipment on scene will be the MV BELLA MARIE, 38-ft aluminum hulled catamaran. Geophysical survey equipment will be towed behind the vessel and maneuverability of the vessel will be restricted. Please note that some of the equipment will be towed subsurface at a distance of up to 600ft behind the vessel. Mariners are advised to use caution when transiting near the survey vessel and give a wide berth and slow bell. Mariners may contact the vessel “Bella Marie” on VHF-FM channels 13 and 16 for passing arrangements.
Norfolk Dredging Company will be conducting dredging operations at Naval Weapons Station Earle, NJ at the Piers in Sandy Hook Bay with dredging inside Sandy Hook Channel (Bayside Reach) and Sandy Hook East Section, in position 40-28-45.8675N, 074-01-10.6196W. Dredging will be conducted between June 10-November 30, 2022, 24 hours a day 7 days a week. Equipment on scene will be the Dredge VIRGINIAN, equipment barge 261, fuel barge 17, scow 6003, scow 6002, tug ATLANTIC COAST and tug CAPTAIN DANN and will be monitoring VHF-CH 13 and 16. Upon completion of maintenance dredging at the NWS Earle piers, the dredge VIRGINIAN will work outbound through Terminal Channel to Sandy Hook Channel between Red buoy #20 and Red buoy #14. There will be two equipment mooring balls temporarily established inside Sandy Hook Bay. One mooring will be used for the scows, and another will be for a Fuel Barge and Equipment Barge. These moorings will be outside of the navigation channel. Coordinates for the scow mooring: 40 27 47.3521N, 074 01 33.827W. Coordinates for the Fuel barge and Equipment barge mooring: 40 28 15.8566N, 074 02 38.3711W. The Dredge Operators will standby on channels #13 and #16 VHF-FM. All mariners are requested to stay clear of the dredge, barges, cranes, and tugs. Operators of vessels of all types should be aware that the barges are held in place by cables, attached to anchors some distance away from the equipment. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution and to contact the dredge 60 minutes in advance, for passing arrangements.

ATLANTIC COAST-BOEM- OFFSHORE WIND ENERGY DEVELOPMENT

BOEM - Guidance for Mitigating Impacts to Commercial and Recreational Fisheries from Offshore Wind Energy Development

The Bureau of Ocean Energy Management (BOEM), in consultation with the National Marine Fisheries Service (NMFS) and affected coastal states, will be holding meetings to discuss draft guidance for ways to mitigate impacts from offshore wind projects on commercial and recreational fisheries and fishing. The guidance was developed based on public input received in late 2021.

BOEM will hold four public meetings to:

1. Present the draft guidance.
2. Answer questions about the draft guidance and how it was developed.
3. Receive feedback on key issue areas.
4. Provide information on how to submit comments during the public comment process.
The [Draft Fisheries Mitigation Guidance](#) is being shared with the public for review and input for a 60-day comment period. Guidelines developed through this process may be updated periodically based upon public feedback and evaluation by BOEM staff. Comments on the guidance can be submitted via [regulations.gov](http://regulations.gov) from June 23 to August 22, 2022 under Docket number BOEM-2022-0033 or by attending one of four upcoming virtual public meetings:

- July 11 East Coast Meeting (9-11am EDT): [https://kearnswest.zoom.us/meeting/register/tZ0sd-CrrDloH9Z8_Q6Z2cQ350Rn5b-Bkvho](https://kearnswest.zoom.us/meeting/register/tZ0sd-CrrDloH9Z8_Q6Z2cQ350Rn5b-Bkvho)

The workshops are intended primarily for commercial and recreational fishermen on the West Coast, the Gulf, and the Atlantic Coast, as well as developers. However, the meetings are open to the public. Additional information is available on BOEM’s [website](#).

**ATLANTIC OCEAN-APPROACHES TO NEW YORK-HUDSON SOUTH FORK-BOEM LEASE AREA OCS-A-0542**

Geoquip Marine will be conducting Geotechnical site investigations for offshore windfarms in BOEM Lease Area OCS-A 0542, from June 17 – August 07, 2022, 24 hours a day/7days a week in position 39 31’ 00”N, 73 30’ 00”W. Equipment on scene will be the vessel DINA-POLARIS and subsea drilling equipment. Vessel will have zero maneuverability when drilling operations are underway and request all vessels to maintain a 1NM exclusion around the vessel. If the vessel is required to relocate then a minimum of 6 hour notice would ensure sufficient time to recover all drilling equipment and permit the vessel to move. Vessel will be monitoring VHF-FM ch 16.

LNM 25/22

**MA-OFFSHORE-SOUTH OF NANTUCKET**

Fugro USA Marine Inc will be conducting geotechnical site investigation, comprised of drilling and performance of seabed piezo cone penetration testing within federal waters in selected locations from June 1- October 30, 2022, 24 hours a day/7 days a week. Offshore vessel operations are planned within OCS-A-521 lease survey area, south of Nantucket. Equipment on scene will be the Geotechnical drilling vessel MV FUGRO EXPLORER. Vessel operations will be within the boundary coordinates:

- 40-56-42.00N 070-16-12.00W
- 40-49-37.20N 070-11-34.80W
- 40-34-40.80N 070-30-57.60W
- 40-37-33.60N 070-41-09.60W

The vessel will be fixed to the seabed and require at least two hour notice to move, please observe a minimum 0.5NM passing clearance and will be monitoring VHF-FM CH 16.

- 40-50-29.00N 070-51-02.00W

The vessel will be stationary during execution of this site investigation work, the maximum vessel speed during transit is limited to 10 knots and will be monitoring VHF-FM CH 16.

LNM 20/22

MA-SOUTH of MARTHA'S VINEYARD- BOEM Lease Area OCS-A 0520

RPS Group, Inc. will be conducting operations in the Massachusetts Offshore Wind Energy Area, specifically OCS-A 0520, for the Equinor Beacon Wind project. Lidar buoys (4.5m diameter hull, lighted: FL. 5s White every 20s) and moorings will be deployed for 2-years from November 2021 to November 2023.

1. LiDAR Buoys, location
a. Meteorological Buoy #1, Deployed from 9 November 2021 – 9 November 2023 in position 40° 42' 50.4188"N / 070° 40' 40.1922"W 2.6m diameter hull, lighted: 5fl, 20s Acoustic Release Mooring 40° 42' 50.9863"N / 070° 40' 43.3977"W: subsurface mooring with flotation, acoustic releases, clump anchor and ground line to Metbuoy anchor.

b. Meteorological Buoy #2, Deployed from 7 November 2021 – 7 November 2022 in position 40° 57' 05.6662"N / 070° 22' 32.8203"W 2.6m diameter hull, lighted: 5fl, 20s Acoustic Release Mooring 40° 57' 07.6236"N / 070° 22' 37.0794"W: subsurface mooring with flotation, acoustic releases, clump anchor and ground line to Metbuoy anchor.

c. Subsurface Mooring #1, Deployed from 9 November 2021 – 9 November 2023 in position 40° 42' 18.9354"N / 070° 41' 19.9072"W

d. Subsurface Mooring #2, Deployed from 7 November 2021 – 7 November 2023 40° 56' 37.8365"N / 070° 23' 08.7557"W

Subsurface moorings top to bottom: Steel float, relocation beacon, current meters, conductivity / temperature / salinity sensors, tide gauge, fish tag hydrophone, acoustic release system, and anchor.

NY/NJ OFFSHORE-BARNEGET TO AMBROSE-Revised

The M/V Fugro Enterprise, call sign WDD9388, will be conducting survey operations, using sensors towed approximately 150 meters behind the survey vessel. Operations will occur within two survey areas and will begin on October 9, 2021 and continue to approximately July 31, 2022.

Operating area #1:

The survey area is located about 9 to 20 miles off the New Jersey coast, between Barnegat Light and Atlantic City bounded by the following approximate positions:

NE Corner: 39° 40' 22"N / 73° 56' 11"W
SE Corner: 39° 15' 43"N / 73° 56' 34"W
S Corner: 39° 08' 40"N / 74° 05' 50"W
SW Corner: 39° 16' 31"N / 74° 14' 55"W
NW Corner: 39° 35' 14"N / 74° 02' 59"W

Operating area #2:

The survey corridor is located about 2 to 20 miles off the New Jersey coast, between Sandy Hook and Brigantine bounded by the following approximate positions:

NW extent: 40° 26' 53"N / 73° 57' 38"W
NE extent: 40° 28' 2"N / 73° 54' 7"W
NW midpoint: 40° 13' 12"N / 73° 59' 5"W
NE midpoint: 40° 14' 11"N / 73° 49' 30"W
SW midpoint: 39° 55' 43"N / 73° 51' 16"W
SE midpoint: 39° 55' 40"N / 73° 56' 32"W
SW extent: 39° 27' 52"N / 73° 56' 51"W
SE extent: 39° 27' 51"N / 73° 53' 42"W

The M/V Fugro Enterprise will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 1 NM CPA. The M/V Fugro Enterprise will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Charts 12323 12326  

**NY-LONG ISLAND OFF SHORE-WAINSCOTT BEACH AREA**

ORSTED will be deploying a fisheries research array on 01 September 2021 for an indefinite time in an area bounded on the east by moorings located at 40° 56' 33.0612"N, 72°10' 40.9188"W (inshore) and 40° 51' 41.5188"N, 72° 6' 52.6212"W (offshore) and on the west by moorings located at 40° 54’ 6.3612"N, 72°17’ 2.8788"W (inshore) and 40° 49’ 34.5"N, 72° 13’ 27.9588"W (offshore). Concerns and for more information, see South Fork Wind below or contact Orsted Northeast Marine Affairs Manager, Edward G. LeBlanc, at 978-447-2737, or EDWLE@Orsted.com

LNM 37/21
Northeast Survey Activity

Mariners Briefing

Date of notice: May 2nd, 2022

Overview

These briefings are intended to update mariners on marine operations for Ørsted survey activities. Survey operations are planned throughout the lease areas (see chart) and are expected to last several months. Currently these operations only involve the survey phase of the projects.

Mariners briefings are distributed on Mondays and Thursdays. Interested mariners can sign up for briefings on our website at: us.orsted.com/wind-projects/mariners or via email upon request through Chris Sarro (CHSAR@orsted.com).

Vessels will designate a working channel on VHF 16 daily at 0600 and 1800 to communicate work plan for the next 12 hours

About the Wind Farms

Revolution, South Fork and Sunrise Wind are 50-50 joint ventures between Ørsted and Eversource.

Revolution Wind is a planned offshore wind farm located 15 miles south of the Rhode Island coast.

South Fork Wind is a planned offshore wind farm located 35 miles east of Montauk Point.

Sunrise Wind is a planned offshore wind farm located 30 miles east of Montauk Point.

- Project Beginning: May 2022
- Project End: August 2022

- **Projected Outlook:** 05/05-05/08
- **Survey Zones:** 10, 11 and potentially 17, 18, 19
*Geotechnical vessels do not tow gear and use Dynamic Positions to stay on location while sampling.

^Geophysical vessels tow gear which is actively monitored at all times. Any data anomalies result in an immediate work stoppage.

For more information on our survey activities please visit [https://us.orsted.com/wind-projects/mariners](https://us.orsted.com/wind-projects/mariners).

All Mariners transiting or fishing in the survey area are requested to give a wide berth to survey vessels as they may be limited in their ability to maneuver (VRAM) and towing gear out to 300 meters behind the vessel. Vessels in the vicinity of the survey vessels should operate in a manner that will not endanger the vessel or associated equipment

At any time, vessels may seek shelter in a different zone due to weather
Wx permitting / Survey operations will be conducted 24/7
Vessel Outlook:
Deep Helder: In port
Berto L Miller: In port
Provider: Zones 10, 11 and potentially 17, 18 and 19
NOTICE TO MARINERS

2022 Geophysical Survey,
Rev 01 - Issued: 2022-03-24

Mariners are advised that survey vessels and equipment will be used in the offshore areas and coastal sea areas in Buzzard’s Bay, MA.

The surveys will be performed by Ocean Infinity US and CSA on behalf of Park City Wind using survey vessels Deep Helder and Dolphin.

Vessel: DEEP HELDER
Call sign: PBYU
IMO: 9690872
Owner: Seamar
GSM: +31 61 90 06 277

Vessel: DOLPHIN
Call sign: WDL 6143
IMO: NEU00325L989
Owner: CSA
GSM: 281-507-0233
During the geophysical surveys the vessels will be deploying subsurface towed survey equipment along the survey route corridor and will be restricted in their ability to manoeuvre. Approaching vessels are requested to pass at a safe speed and closest distance of 250m.

**Project Description**

Starting March 28th, the offshore geophysical survey will be conducted by Ocean Infinity with survey vessel Deep Helder. Deep Helder will mobilise in Fall River before proceeding to the survey area. See figure 3 below.

Starting in mid-April, the CSA vessel Dolphin will conduct geophysical surveys nearshore. See figure 2 below.

Mariners are advised to keep a safety clearance to the vessel of no less than 250m.

Park City Wind will deploy a fishing liaison officer onboard Deep Helder and a FLO safety vessel for the duration of the survey.

**Port of Operation**

Both geophysical vessels will operate from the port of New Bedford (following mobilisation). Deep Helder is a 24-hour survey operation. Dolphin is a 12-hour survey operation.

**Key Contact Details:**

Further enquiries should be addressed to the following people in the following order:

1. Martin Godfrey (OI Project Manager), T: +44 (0)7590 515114, martin.godfrey@mmt.se

Mariners Briefing
South Fork Wind Fisheries Monitoring Activity
Beam Trawl Survey:

Date of Notice: March 15th, 2022

Overview:
From October 2020 through October 2022, the Commercial Fisheries Research Foundation will be working with a Rhode Island based commercial fishing vessel to complete a pre-construction beam trawl study for demersal fish and invertebrate species. Sampling will occur inside South Fork Wind (SFW) and at two control areas to the northeast and west of SFW (see attached chart). No catch will be sold from this study; all animals will be returned to the water as quickly as possible after biological sampling is complete, with the exception of a small number of fish that will be sacrificed for stomach sampling.

Survey details:

Purpose: To assess the impacts of offshore wind activities in SFW on the abundance, diet composition, and demographics of various demersal fish and invertebrate species compared to the control areas.

Vessels: F/V Mister G (see below for vessel details)

Sampling frequency: Sampling will occur monthly with 3 tows made at random locations in each of the 3 areas.

Gear configuration: 10 ft beam trawl with 4.5 in mesh and a 1 in codend liner. Tows are 20 minutes long at approximately 4 knots.

Gear marking: N/A

Communications: VHF channels 13 & 16 will be monitored as all times.

Mariners Briefing
Sunrise Wind Fisheries HabCam Survey:

Date of Notice: **July 12th, 2022**

**Background:** Beginning tomorrow July 13th, scientists from the Coonamessett Farm Foundation will be working with a New Bedford scallop vessel to execute a towed video survey for sea scallops and other benthic organisms in the Sunrise Wind lease area and a nearby control area. There will be no catch associated with the survey activities.

**Survey details:**

**Purpose:** To assess the impacts of offshore wind activities in Sunrise Wind on the abundance and distribution of sea scallops and other benthic organisms compared to the control area.

**Vessels:** *F/V Kathy Marie* (see below for vessel details)

**Sampling frequency:** Sampling will occur continuously during the survey, which is expected to take 4-6 days to complete. There will be no fixed gear associated with the survey, and the vessel will be transiting at approximately 4.5 knots.

**Gear configuration:** The survey will be completed using HabCam, which is a towed dual-array camera system that is flown approximately 1.5-2.5 meters above the seafloor behind the vessel. The camera system captures approximately 6 images per second of benthic habitats. In addition, the HabCam system has integrated sensors to measure a suite of environmental variables such as bottom temperature, conductivity, and salinity throughout each transect.

**Gear marking:** N/A

**Communications:** VHF channels 13 & 16 will be monitored as all times.

Acoustic Monitoring of Highly Migratory Fish Species in RI/MA Wind Energy Areas

The New England Aquarium and INSPIRE Environmental are conducting research on the movements of highly migratory fish species (sharks, tunas, and marlins) in the southern New England wind energy area. Part of this research requires acoustic receivers to be placed on the sea floor in the locations shown as colored circles in the below map. To reduce the risk of entangling protected species, receivers have no surface buoys and are connected to a mooring system weighing approximately 75 pounds that extends 2 to 3 meters (6 to 9 feet) off the sea floor, as shown in the below photo. To reduce risk of interaction with mobile fishing gear, receivers have been placed near obstructions to the extent possible. All receivers will be deployed in these locations until December 15, 2022.

For more information on the research, please contact the New England Aquarium or INSPIRE Environmental. For information on activities in a particular offshore wind lease area, please contact the developer staff listed below.

MAINE – BOOTHBAY HARBOR TO BATH INCLUDING KENNEBEC RIVER – BARTERS ISLAND BRIDGE - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Barters Island Swing Bridge at mile 2.0, across the Back River at Trevett, ME. The deviation is needed to perform repair work and to ensure the bridge is available for emergency services vehicles’ access to Barters Island. Under this temporary deviation, the Barters Island Bridge will not be able to open from July 15, 2022 through July 19, 2022. The bridge has a vertical clearance in the closed position of 6.93 feet above mean high water. Vessels which can safely pass beneath the bridge when it is in the closed position will be permitted to do so. Mariners are advised to exercise caution when transiting the area.

Chart 13296 LNM 29/22 (CGD1)

VERMONT – LAKE CHAMPLAIN – REVIERE RICHELIEU TO SOUTH HERO ISLAND – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the US2 Drawbridge over Lake Champlain from North Hero to Grand Island at mile 91.8. Under this temporary deviation, the US2 Temporary Bridge will open on the hour only between 8 a.m. and 8 p.m. from May 15 to October 15, 2022. The horizontal clearance of the temporary bridge is 40 feet. The vertical clearance of the temporary bridge in the closed position is a minimum of 10 feet above Ordinary High Water. Vessels able to pass under the temporary bridge in the closed position may continue to do so. The temporary bridge will open for emergencies. Questions may be directed to Mr. Jeff Ramsey of the Vermont Agency of Transportation at 802-917-4467, or Jacqueline Dagesse, Public Outreach Manager, at 802-324-5522. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

Chart 14781 LNM 29/22 (CGD1)
VERMONT – LAKE CHAMPLAIN – REVIERE RICHELIEU TO SOUTH HERO ISLAND – Vessel Transit Restriction -
Concrete work on the US2 Drawbridge over Lake Champlain from North Hero to Grand Island at mile 91.8 will commence on May 15, 2022 and continue through the Summer of 2022. During the construction one leaf will remain closed reducing the horizontal clearance through the bridge to 40 feet. Due to the reduction only one way traffic through the bridge will be permitted. A traffic control vessel will be on-scene to ensure vessel meeting and overtaking situations are avoided while approaching and transiting through the bridge. Mariners are advised to contact the bridge tender for transit instructions on Channel 13 or via phone at 802-372-4360. Questions may be directed to Mr. Jeff Ramsey of the Vermont Agency of Transportation at 802-917-4467, or Jacqueline Dagesse, Public Outreach Manager, at 802-324-5522. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.
Chart 14781 LNM 29/22 (CGD1)

MASSACHUSETTS – ANNISQUAM RIVER – MBTA RAILROAD DRAWBIDGE – Bridge Construction -
Work on the Annisquam River MBTA Railroad Bridge is reaching the final stages of construction. The bridge consists of two independent spans which will open on request. As the work proceeds, and for the final condition, one span may be open while the other is closed. Questions may be directed to the MBTA Resident Engineer, Matt Moorehouse at (617) 839-8075, or Joe Meyer of J.F. White at (508) 598-8944, or Mike Gabrielli of J.F. White at (617)799-2947, or Mr. Tim Chase Sector Boston Waterways Management at (617) 447-1620. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.
Chart 13281 LNM 29/22 (CGD1)

MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER – Bridge Repairs – A 13 month bridge repair project will be conducted at the Tobin Bridge, mile 0.1, across the Mystic River between Boston and Chelsea from May 1, 2022, through June, 2023. Working hours are from 0600 to 1500 and from 1900 to 0400, Monday through Friday. Work will be conducted outside of the 600 foot navigation channel with the exception of Under Bridge Inspection Units which will reduce the vertical clearance over the 600 foot navigation channel by approximately 10 feet for two to three weeks at the beginning of the project and for two to three weeks at the end of the project. Coast Guard Sector Boston will coordinate with the pilots and SPS New England so the Under Bridge Inspection Units are not operating over the navigation channel during the passage of deep draft vessels. Temporary scaffolding and work platforms will at times be installed around the bridge piers and lighted with constant red lights. Except when barges are relocated, barges will operate outside of the 600 foot channel. The barges will be lit with constant burning white lights on all four corners. Barge operators will monitor VHF channels 13/16. Questions may be directed to Darren Saunders, Project Manager for SPS New England at 508-982-4652; Patrick Blais, Project Superintendent for SPS New England at 978-994-2741 or Tim Chase, Coast Guard Sector Boston at 617-447-1620. Mariners should use caution while transiting the area.
Chart 13272 LNM 29/22 (CGD1)

MASSACHUSETTS – SALEM AND LYNN HARBORS – GENERAL EDWARDS DRAWBIDGE – Bridge Closure -
The General Edwards Drawbridge over the Saugus River between Revere and Lynn is closed to vessel traffic due to emergency structural repairs. Vessels able to pass under the bridge in the closed position may do so. Questions may be directed to Christopher Leahy or Elias Demissie, MassDOT Highway Division at 617-892-3643 or 781-570-6051. Mariners are urged to transit with caution. Chart 13275 LNM 29/22(CGD1)

MASSACHUSETTS – MERRIMACK RIVER – ROCKS VILLAGE DRAWBIDGE – Bridge Repairs -
The Rocks Village Drawbridge over the Merrimack River between Haverhill and West Newbury is open to vessel traffic and will remain in the open position while bridge repairs are being conducted. Mariners are advised that work barges will be on scene during repairs leaving one side of the channel open for vessel traffic at all times. Questions may be directed to Christopher Leahy or Elias Demissie, MassDOT Highway Division at 617-892-3643 or 781-570-6051. Mariners are urged to transit with caution proceeding at headway speed no wake and to stay clear of repair vessels which may be present.
Chart 13274 Merrimack River Extension

MASSACHUSETTS – MERRIMACK RIVER – MBTA COMMUTER RAIL BRIDGE – Bridge Repairs -
From May 31, 2022 through August 1, 2022, MBTA will be conducting repair work on the MBTA Commuter Rail bridge over the Merrimack River in Haverhill, MA from 6:00 am until 2:00 pm. Work will be conducted from a 30’ x 80’ work barge which will be located adjacent to the bridge pier during work hours and moored to the northern most bridge span out of the channel during off shift hours. Horizontal clearance through the bridge will be reduced by approximately 30’ when the work barge is moored adjacent to the bridge piers. A safety boat will be on scene during working hours and will monitor VHF Channel 5, 13 and 16. Questions may be addressed to Chris Pickford at 603-502-8797. Mariners are advised to use caution when transiting the area.
Chart 13274 Merrimack River Extension LNM 29/22(CGD1)
CAPE COD CANAL AND APPROACHES – BOURNE HIGHWAY BRIDGE - Bridge Inspection and Maintenance - National Grid will conduct inspections and maintenance under the Bourne Highway Bridge over the Cape Code Canal from July 1, to October 1, 2022. Scaffolding will reduce the vertical clearance from 135 feet to 131.5 feet. Questions concerning the project should be directed to the Duty Marine Traffic Controller, US Army Corps of Engineers, Cape Cod Canal Field Office at 978-318-8500 or VHF Channel 14. Mariners should exercise caution while transiting the area.
Chart 13236 LNM 29/22 (CGD1)

CONNECTICUT – NEW LONDON HARBOR - Bridge Repairs – From April 1, 2022 to June 25, 2025, between 7 a.m. and 5:30 p.m., the Connecticut Department of Transportation will conduct repairs on the Gold Star I-95 Northbound Bridge over the Thames River, mile 3.1. Work will be performed from hanging platforms on the bridge structure. The platforms will extend over the river approximately 420 feet from the shoreline on the New London side and 290 feet from the shoreline on the Groton side and will not be over federal channel. The reduction in vertical clearance caused by the platforms will not exceed 3 feet below the current bridge vertical clearances of 135 feet (MHW). A safety boat will be in the water and will monitor VHF Channel 16 when work is performed over the water. Questions may be addressed to Scott Thompson, Project Manager Aetna Bridge Company, at 401-663-6052 or Keith Schoppe, CT DOT, at 860-213-2360.
Chart 13213 LNM 29/22 (CGD1)

CONNECTICUT – CONNECTICUT RIVER – Bridge Repairs – A bridge repair project is underway on the Arrigoni Highway Bridge (Route 66) across the Connecticut River in Middletown through the fall of 2022. A working platform/debris shield will reduce the vertical clearance by 10.5 feet throughout the duration of the project. No in water work is planned at this time. Mariners are advised to exercise caution when transiting the area. The CONNDOT point of contact is Barak Brako Frempong, 860-594-3167.
Chart 12378 LNM 29/22 (CGD1)

CONNECTICUT – CONNECTICUT RIVER – Bridge Repairs – A bridge repair project including blasting, painting, and steel repair operations is underway on the Route 190 Bridge across the Connecticut River at mile 69.1 between Enfield and Suffield. This project will be completed by November 27, 2022. All work will be conducted on top of the bridge deck. No in water work is planned at this time. Mariners are advised to exercise caution when transiting the area. The CONNDOT point of contact is Lukasz Obrebski (860) 212-5120.

CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND - HOUSATONIC RIVER AND MILFORD HARBOR – HOUSATONIC RIVER – Bridge Rehabilitation – Construction to the Washington Ave (Route 1) Bridge over Housatonic River at mile 3.5 will commence on January 4, 2022. Hours of operation are from Sunday to Saturday between 12:01 a.m. and 10 p.m. A barge and an underbridge inspection unit will be operated under one closed draw span. A minimum of 62.5 feet navigation channel will be free of obstruction at all times. A floating causeway will be installed from the vicinity of the west abutment to pier 3 (outside

...
the navigation channel). This access will be in place for the majority of the project scope providing access to pier 3 and a docking point for the safety and work boats and platforms. This floating causeway will be secured using heavy dock lines and land anchors as needed fixed to the existing piers. Hinged ramps will be utilized to transition from the causeway to land and the pier. All work will cease from July 1, 2022 to July 11, 2022 to maintain normal bridge openings for the fourth of July Holiday time-period. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call DOT Resident Engineer Stacey Epps at (203) 913-4489. This project is to be completed by **November 29, 2022**. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12370 LNM 29/22 (CGD1)

**CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND - HOUSATONIC RIVER AND MILFORD HARBOR – HOUSATONIC RIVER – Bridge Rehabilitation** – Beginning April 1, 2021 until **December 2023** Connecticut Department of Transportation will be performing bridge rehabilitation work at the Bridge Street Bridge across Housatonic River at mile point 13.8. Any questions regarding construction can contact Ms. Heather Falzano at (203) 389-3126. Mariners are advised to exercise caution when transiting the area.

Chart 12370 LNM 29/22 (CGD1)

**CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND SHERWOOD POINT TO STAMFORD HARBOR – NORWALK RIVER – Notice of Temporary Deviation** - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Walk (Metro-North) Bridge across the Norwalk River at mile 0.1. The deviation is to accommodate the excessive high temperatures forecast. Under this temporary deviation, the Metro-North Bridge may remain in the closed position from 10:00 am until 10:00 pm between Wednesday, July 20, 2022 through Sunday, July 24, 2022. During all other times the bridge will open upon request. Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to Ms. Anamaria Bonilla, P.E. at (646) 208-8509.

Mariners are advised to exercise caution when transiting the area.

Chart 12368 LNM 29/22 (CGD1)

**CONNECTICUT – LONG ISLAND SOUND – NORWALK RIVER – Bridge Repairs** – Starting December 7, 2018 ConnDOT will be performing repairs on the Yankee Doodle Bridge over Norwalk River at mile 0.7. A working platform will be installed beneath the bridge deck, which will reduce the navigational vertical clearance from 60 feet to 56 feet at MHW. There will be a 28’x10’ aluminum workboat tied to the fender system during construction hours, Monday through Friday 6:30 a.m. to 2:30 p.m. This work is expected to be completed by **June 20, 2023**. Mariners requiring full horizontal clearance can call Kevin Dorynioski at 860-993-6491, Jerry Mals at 860-982-4294, John Jakobeit at 860-229-4853. Mariners are advised to exercise caution when transiting the area.

**NEW YORK – LONG ISLAND SOUND AND EAST RIVER - HEMPSTEAD HARBOR TO TALLMAN ISLAND - HUTCHINSON RIVER – Bridge Inspection** – From July 25, 2022 to **August 19, 2022** between 9 a.m. and 3 p.m., a 60’ under bridge inspection unit will be operating at the Boston Road Bridge Hutchinson River at mile 2.5. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Bridge team leader Paul Marzuillo at (917) 930-5541. Mariners are advised to exercise caution and reduce wake when transiting the area.

Chart 12366 LNM 17/22 (CGD1)
NEW YORK – LONG ISLAND SOUND – HEMPSTEAD HARBOR TO TALLMAN ISLAND – WESTCHESTER CREEK – Bridge Replacement – New York City Department of Transportation will be performing work on the fenders at Unionport Bridge across Westchester Creek at mile 1.7. Working hours are from 7 a.m. to 3 p.m. A 30ft by 40ft flexi float barge with CAT excavator will be operating in the navigation channel from July 11, 2022 to November 1, 2022. A minimum of 10ft horizontal clearance will be maintained at all times. Mariners requiring full horizontal clearance can contact Abdi Hedayati at (347) 885-8613 or Rocco Cerami (973) 715-7820 or via marine radio VHF CH 13/16 with one hour advance notice during working hours and six hour advance notice after work hours. Mariners are advised to exercise caution and reduce wake when transiting the area. Chart 12366 LNM 29/22 (CGD1)

NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET- LONG CREEK - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Loop Parkway Bridge across Long Creek at mile point 0.7. The deviation is needed to perform bridge deck repairs. Under this temporary deviation, the Loop Parkway Bridge may operate under single leaf operations during the following dates:
- September 2022 through December 15, 2022
- January 15, 2023 through May 2023
Mariners are advised to exercise caution when transiting the area. Chart 12352 LNM 29/22 (CGD1)

NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET- SLOOP CHANNEL - Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Meadowbrook Parkway Bridge across Sloop Channel at mile point 12.8. The deviation is needed to perform bridge deck repairs. Under this temporary deviation, the Meadowbrook Parkway Bridge may operate under single leaf operations during the following dates:
- January 2022 through May 2022
- September 2022 through December 15, 2022
- January 15, 2023 through May 2023
Mariners are advised to exercise caution when transiting the area. Chart 12352 LNM 29/22 (CGD1)

NEW YORK – EAST RIVER NEWTOWN CREEK – DUTCH KILLS – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Borden Ave Bridge, across Dutch Kills at mile 1.2. Under this temporary deviation, the Bridge may remain in the closed position between March 1, 2022 to June 30, 2022 and August 1, 2022 to November 30, 2022, to facilitate bridge painting. Mariners are advised to plan their transits accordingly. Mariners are advised to exercise caution and reduce wake when transiting the area. Chart 12338 LNM 29/22 (CGD1)

NEW YORK – EAST RIVER NEWTOWN CREEK – DUTCH KILLS – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Hunters Point Ave Bridge, across Dutch Kills at mile 1.4. Under this temporary deviation, the Bridge may remain in the closed position between March 1, 2022 to June 30, 2022 and August 1, 2022 to November 30, 2022, to facilitate bridge painting. Mariners are advised to plan their transits accordingly. Mariners are advised to exercise caution and reduce wake when transiting the area. Chart 12338 LNM 29/22 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY – Fender Replacement – Repairs to the Beach Channel Bridge over Jamaica Bay at mile 6.0 will commence on or about April 18, 2022. One draw of a swing bridge maybe blocked by barge equipment; the other draw will be free and clear of any equipment for the passage of vessels. This work will not affect operation of the bridge. Mariners has questions can contact Shea Thorvaldsen at 646-773-9414. This project is to be completed by December 31, 2022. Mariners are advised to exercise caution when transiting the area. Chart 12350 LNM 29/22 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY - Bridge Inspections – From July 11, 2022 to July 29, 2022 between 8:00 a.m. and 2:00 p.m., a barge and manlift will be performing bridge inspections at the Belt Parkway Bridge across Jamaica Bay at mile XXX. Mariners requiring full vertical and horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Parag Kadakia (917) 498-9956. Mariners are advised to exercise caution and reduce wake when transiting the area. Chart 12350 LNM 29/22 (CGD1)
NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY – Bridge Maintenance – From June 1, 2021 to December 31, 2022, contractors will be performing bridge maintenance activities at the Cross Bay Bridge over Jamaica Bay at mile 10.0. A work platform will be installed at this bridge reducing the vertical clearance by 5 feet. That leaves a remaining 50 feet clearance during mean high water. Any questions or comments can be addressed to Jarrod Padilla at (917) 848-5324. Mariners are advised to exercise caution when transiting the area.
Chart 12350 LNM 29/22 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPPINGER CREEK – HUDSON RIVER – RONDOUT CREEK - Bridge Rehabilitation – Construction to the Wurts St. Bridge (Old 9W Bridge) Bridge across Rondout Creek at mile 1.3 is in progress. Temporary safe span platforms will be installed under the low steel across the entire span which will reduce vertical clearance by approximately 3 feet. Hot work will be performed at this location. For construction related questions, please contact Jordan Strack at 845-264-5716. This project is to be completed by October 30, 2023. Mariners are advised to exercise caution when transiting the area.
Chart 12347 LNM 29/22 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPPINGER CREEK – HUDSON RIVER – Bridge Rehabilitation – Construction to the Castleton on Hudson Bridge across Hudson River at mile 135.7 is in progress. Hours of operation are from 7 a.m. and 5 p.m. Temporary safe span platforms will be installed under the tram rail steel (over navigation channel) which will reduce vertical clearance by approximately 6 feet. A minimum of 210 feet east side of navigation channel (between PP24 and PP31) will be cleared of obstruction at all times for safe passage of vessels. In addition, a 25 feet buffer will be maintained each side of the channel marker. A safety boat will be operated IVO the bridge. Hot work will be performed during construction. Mariners requiring full horizontal clearance can contact the contractor/operator via marine radio VHF-FM CH 13 or call 518-320-6986. For all construction related questions, please contact Tim Mastro at 518-337-7231. This project is to be completed by June 30, 2023. Mariners are advised to exercise caution when transiting the area.
Chart 12347 LNM 29/22 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPPINGER CREEK – HUDSON RIVER – Emergency Bridge Support Tower Repairs – Repairs to the CSX Castleton Bridge across Hudson River at mile 135.6 is in progress. A16ft by 24ft float will be installed between towers 3 and 7 west of the bridge. A 120ft by 40ft crane barge, hopper barge and tug boat will be operated IVO pier 7. All work are done outside navigation channel. For all construction related questions, please contact Bill Bruno at 518-378-1349 or via marine radio VHF-FM CH 13/16. This project is to be completed by December 30, 2022. Mariners are advised to exercise caution when transiting the area.
Chart 12347 LNM 29/22 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPPINGER CREEK – HUDSON RIVER – Bridge Pier Repairs – Repairs to the Rip Van Winkle Bridge over Hudson River at mile 113.6 will commence on May 23, 2022. A 10ft by 20ft work barge and a 26ft steel work boat will be operating IVO the bridge piers. Mariners requiring full horizontal clearance can contact Mike Antinore at 856-649-6260 or via marine radio VHF-FM CH 13/16. This project is to be completed by September 1, 2022. Mariners are advised to exercise caution when transiting the area.
Chart 12347 LNM 29/22 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPPINGER CREEK – HUDSON RIVER - Diving Inspections – From August 8, 2022 through September 2, 2022 between 6 a.m. and 5 p.m., a contractor will be performing underwater pier inspections at the Newburgh Beacon Bridge, mile 62.0; Kingston-Rhinecliff Bridge, mile 94.3; and Rip Van Winkle, mile 113.6, all across Hudson River, in New York. The contractor will utilize a dive boat “Louie” and diving equipment. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM CH 13/16 or call 609-209-2029 or 914-261-0912. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12368 LNM 29/22 (CGD1)

NEW YORK – HUDSON RIVER TO WAPPPINGER CREEK – HUDSON RIVER – Bridge Pier Repairs – Repairs to the Kingston Rhinecliff Bridge over Hudson River at mile 94.3 will commence on May 23, 2022. A 10ft by 20ft work barge and a 26ft steel work boat will be operating IVO the bridge piers. Mariners requiring full horizontal clearance can contact Mike Antinore at 856-649-6260 or via marine radio VHF-FM CH 13/16. This project is to be completed by September 1, 2022. Mariners are advised to exercise caution when transiting the area.

NEW YORK – HUDSON AND EAST RIVERS – GOVERNORS ISLAND TO 67TH STREET - EAST RIVER – Bridge Maintenance – On July 23 between 6 a.m. and 2 p.m., between 9:30 a.m. and 2 p.m., a bridge traveler will be operated under the Brooklyn Bridge over East River at mile 0.8 to perform bridge maintenance. Mariners requiring full vertical clearance can contact the contractor via marine radio VHF-FM Ch. 13/16 or call 917-295-1856 or 917-471-2257. The traveler platform will be moved out of the navigable channel after work hours or when not in use. Mariners are advised to exercise caution when transiting the area. Chart 12335 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER – HARLEM RIVER – Underwater Inspection – Inspection to the Spuyten Duyvil Bridge across Harlem River at mile 7.9 will commence on July 23, 2022. Hours of operations are from 6 a.m. to 6 p.m. There will be diving equipment blocking one draw of a swing bridge at a time and the other draw will be free and clear of any equipment for the passage of vessels. This project is to be completed by July 30, 2022. Any questions to this project can contact Robert Snelgrove at 860-460-2704. Mariners are advised to exercise caution when transiting the area. Chart 12342 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER - HARLEM RIVER – Temporary Cables Installation – Installation of temporary cables to the Spuyten Duyvil Bridge over Harlem River (south channel) at mile 7.9 is in progress. Horizontal clearance will be reduced by the cable duct along the fender approximately four feet in the south channel. North channel will free and clear of any equipment for the passage of vessels. Any questions regarding the project can contact Weeks Marine at 973-567-5643. This project is to be completed by October 1, 2022. Mariners are advised to use north channel, reduce wake and exercise caution when transiting the area. Chart 12342 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER - HARLEM RIVER – Emergency Bridge Closure – Broadway Bridge, mile 6.8, over across Harlem River was not able to open for marine traffic due to damaged electrical control system. New York City DOT is working diligently to repair the bridge. The bridge will be unable to open to marine traffic until repairs are completed. The vertical clearance in the closed position is approx. 24 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area. Chart 12342 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER - HARLEM RIVER - Bridge Rehabilitation – Construction to the Broadway Bridge across Harlem River at mile 6.8 is in progress. A temporary shielding is installed under the Broadway Bridge Temporary shielding will reduce vertical clearance in the navigation channel by approximately 38 9in. A one half of navigation channel will be free of obstruction at all time. Mariners have questions regarding temporary shielding information can contact Joe Pollack via marine radio VHF-FM CH 13/16 or 917-656-6820. This project is to be completed by April 30, 2023. Mariners are advised to reduce wake and exercise caution when transiting the area. Chart 12342 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER - HARLEM RIVER – Bridge Repairs – Fender and dolphin repairs to the 145th Street Bridge across Harlem River at mile 2.8 will commence on May 23, 2022. Hours of operation are Monday to Friday between 6 A.M. and 2:30 P.M. One crane barge and one material barge will be operating under one draw span and the other draw will remain free of obstructions at all times. The barges will be moored in line with the center pier on the weekends. Mariners can contact the contractor via marine radio VHF-FM Ch 13/16 or call 914-447-8451 for barge location. This project is to be completed by September 16, 2022. Mariners are advised to exercise caution when transiting the area. Chart 12342 LNM 29/22 (CGD1)

NEW YORK - NEW YORK HARBOR – EAST RIVER - HARLEM RIVER – Electrical/Mechanical Rehabilitation – Construction to the Madison Ave Bridge across Harlem River at mile 2.3 is in progress. Any questions to this project can contact Kambiz Riazi at 646-246-6666 or Steve Koch at 908-723-4355. This project is to be completed by December 13, 2022. Mariners are advised to exercise caution when transiting the area. Chart 12342 LNM 29/22 (CGD1)
NEW YORK – NEW YORK HARBOR – EAST RIVER – HARLEM RIVER – Bridge Inspection – Inspection to the Madison Ave Bridge across Harlem River at mile 2.3 will commence on July 13, 2022. Hours of operation are from 8 A.M. to 4 P.M. A 20ft by 40ft barge and 25ft steel boat will be operating under one draw span and the other draw will remain free of obstructions. After work hours, the barge will be moored outside the navigational channel. Mariners can contact the contractor via marine radio VHF-FM Ch 13/16 or 631-891-9721 or 646-275-7609 for barge location. This project is to be completed by August 25, 2022. Mariners are advised to exercise caution when transiting the area.

Chart 12342 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER – HARLEM RIVER – Notice of Temporary Deviation – The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Madison Ave Bridge, across Harlem River at mile 2.3. Under this temporary deviation, from May 16, 2022 to August 28, 2022, bridge need not open for the passage of vessel traffic to facilitate end dam replacement. Vessels that can pass under the span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly and exercise caution when transiting the area.

Chart 12342 LNM 29/22 (CGD1)

NEW YORK - NEW YORK HARBOR – EAST RIVER - HARLEM RIVER - Fender Replacement – Construction to the Metro North (Park Ave) Bridge across Harlem River at mile 2.1 is in progress. A 240ft by 70ft crane barge will spud down IVO Manhattan side seawall from June 14, 2021 to August 12, 2022. There will not be any construction equipment in the navigation channel. Any questions regarding barge placement can contact Tony Rivara at 917-715-9429 or 516-459-4513. This project is to be completed by October 1, 2022. Mariners are advised to reduce wake and exercise caution when transiting the area.

Chart 12342 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER – HARLEM RIVER – Bridge Inspection – Inspection to the Willis Ave Bridge across Harlem River at mile 1.5 will commence on July 13, 2022. Hours of operation are from 8 A.M. to 4 P.M. A 20ft by 40ft barge and 25ft steel boat will be operating under one draw span and the other draw will remain free of obstructions. After work hours, the barge will be moored outside the navigational channel. Mariners can contact the contractor via marine radio VHF-FM Ch 13/16 or 631-891-9721 or 646-275-7609 for barge location. This project is to be completed by August 25, 2022. Mariners are advised to exercise caution when transiting the area.

Chart 12342 LNM 29/22 (CGD1)

NEW YORK – NEW YORK HARBOR – EAST RIVER – Structural Steel Repairs and Painting – Repairs to the Verrazano Narrows Bridge over New York Harbor are in progress. Temporary safe-span platforms will be installed under the entire length of the bridge and will reduce the vertical clearance by approximately 2 ft. below the traveler rail with maximum two feet sag. The temporary platform for 250ft on both sides of the centerline of the bridge for a total of 500ft must maintain less than one foot of vertical clearance reduction below the traveler rail at all times unless approved by Coast Guard Vessel Traffic Service New York (CG VTS-NY). Four corners of temporary platforms marking the 500ft center of the span where less than one foot of vertical clearance reduction is maintained will be lighted with constant burning red lights. Any questions regarding the platforms please contact Chris Daskalakis at 718-639-5880 or CG VTS-NY at 718-354-4088. This project is to be completed by October 31, 2022. Mariners are advised to exercise caution when transiting the area.

Chart 12327 LNM 29/22 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – Arthur Kill – Bridge Interim Rehabilitation Priority Repairs – Construction to the Outerbridge Crossing Bridge across the Arthur Kill, mile 2.0 will commence on June 1, 2022. A localized temporary work platform will be installed under the bridge and will not reduce vertical clearance in the navigation channel more than 3’-9”. Welding (hot work) may be performed during working hours. The resident engineer or contractor will be equipped with a VHF-FM marine radio and will be monitoring Channel 13/16 during hours of operation. Mariners can contact Marc Helman at 212-435-6112 for construction details. This project is to be completed by December 31, 2024. Mariners are advised to exercise extreme caution when transiting the area.

Chart 12327 LNM 29/22 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – Arthur Kill – Biennial Inspection – Inspection to the Outerbridge Crossing Bridge across the Arthur Kill, mile 2.0 will commence on July 25, 2022. Hours of operations are from 6 a.m. to 3 p.m. At times, a 32ft long by 3ft wide movable scaffold or underbridge inspection unit will be operating at various locations over the navigation channel. When a movable scaffold in use, the unit will reduce the vertical clearance by approximately 5ft. Underbridge Inspection Unit may be used under the bridge. Diving inspection will be performed IVO the bridge. The contractor will utilize a dive boat and safety boat in the channel. Mariners requiring full vertical or horizontal clearance can contact Jeff White at 917-671-3962 or

...
NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Bridge Inspection – Inspection to the Goethals Bridge across the Arthur Kill, mile 11.5 will commence on July 22, 2022. Hours of operations are from 7 a.m. to 4 p.m. At times, an underdeck traveler will be operating at various locations over the navigation channel. Mariners requiring full vertical clearance can contact Carlo Thompson via marine radio VHF-FM Ch. 13/16 or call 848-231-3359. This inspection is to be completed by September 30, 2022. Mariners are advised to exercise caution when transiting the area. Chart 12327 LNM 29/22 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Structural Steel Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 is in progress. Safe span platforms will be installed under the main spans and will reduce vertical clearance by 5 feet. POC for this project is William Ritter and can be reached at 973-390-7221. This project is to be completed by March 30, 2023. Mariners are advised to exercise caution when transiting the area. Chart 12327 LNM 29/22 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Pier Emergent Repairs – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 will commence on July 1, 2020. There will be barge equipment IVO E-17 pier (outside the navigation channel). POC for this project is Amy Ruta and can be reached at 630-881-3214. This project is to be completed by September 30, 2022. Mariners are advised to exercise caution when transiting the area. Chart 12327 LNM 29/22 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Notice of Temporary Deviation – The Coast Guard has issued a temporary deviation from the operating schedule that governs the Lehigh Valley Drawbridge across the Newark Bay, mile 4.3, at Newark, New Jersey. This deviation is necessary to allow the bridge owner to replace wire ropes at the bridge. This deviation allows the bridge to remain closed for 48 hours and is effective from 6 a.m. on September 10, 2022 to 6 a.m. on September 12, 2022. Should inclement weather occur, the following rain dates may be used: a) from 6 a.m. on September 24, 2022 to 6 a.m. on September 26, 2022; or b) from 6 a.m. on October 8, 2022 to 6 a.m. on October 10, 2022. Lehigh Valley Drawbridge has a vertical clearance in the closed position of 35 feet at Mean High Water and 39 feet at Mean Low Water. Vessels able to pass through the bridge in the closed positions may do so at anytime. Mariners are advised to plan accordingly. Chart 12327 LNM 29/22 (CGD1)

NEW YORK – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Preventive Maintenance – Repairs to the Routes 1 & 9 Bridge, across Hackensack River at mile 1.8 will commence on September 5, 2022. Hours of operations are from Monday to Friday between 6 a.m. and 5 p.m. A 40ft by 40ft flexflow barge will be operating IVO the bridge. Mariners requiring full horizontal clearance can contact Anthony DeFranco at 973-342-7930 or Sean Milachouski at 201-675-1553 or via marine radio VHF-FM CH. 13/16 with 2-hour advance notice. This project will be completed by November 24, 2022. Mariners are advised to exercise caution when transiting the area. Chart 12337 LNM 29/22 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Notice of Temporary Deviation - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Portal Bridge across the Hackensack River at mile 5.0. The deviation is to replace timber piles at the bridge. Under this temporary deviation the Portal Bridge may stay in the closed position as follows: From 10:00 pm June 24, 2022 until 6:00 am June 26, 2022 From 10:00 pm July 8, 2022 until 6:00 am July 11, 2022 From 10:00 pm July 15, 2022 until 6:00 am July 18, 2022 From 10:00 pm July 22, 2022 until 6:00 am July 25, 2022 From 10:00 pm July 29, 2022 until 6:00 am August 1, 2022 From 10:00 pm August 5, 2022 until 6:00 am August 7, 2022 During all other times the bridge will be open as usual. Vessels able to pass under the bridge in the closed position will be allowed to do so. Questions may be directed to Mr. Juan Salinas at (267) 608-8262. Mariners are advised to exercise caution when transiting the area. Chart 12337 LNM 29/22 (CGD1)
NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - Notice of Temporary Deviation – The Coast Guard has issued an emergency temporary deviation from the regulation governing the operation of the PATH Bridge across Hackensack River at mile 3.0 for failure of control system. Under this emergency temporary deviation from March 28, 2022 to September 23, 2022, the PATH Bridge shall open on signal provided a minimum of twenty-four (24) hours advance notice by calling US Coast Guard VTS at 718-354-4088 or Port Authority Trans-Hudson John Burkhard at 201-410-4260. The draw need not open for the passage of vessel traffic Monday through Friday from 6 a.m. and 10 a.m., and from 3 p.m. to 7:30 p.m. The vertical clearance in the closed position is approx. 40 feet at MHW. Vessels that can pass under the closed span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly and exercise extreme caution when transiting the area.

Chart 12337 LNM 29/22 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction – Replacement of the new Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 is in progress. There is no construction equipment in the waterway. This project is to be completed by October 31, 2022. Mariners are advised to exercise extreme caution when transiting the area.

Chart 12337 LNM 29/22 (CGD1)

NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Temporary Trestle and Demolition – Demolition to the old Witt Penn (Route 7) Bridge across the Hackensack River, at mile 3.1 is in progress. There are no construction activities and barge equipment in the navigation channel. Contractor is continued to remove approach spans and temporary trestle behind the fender system. If you have any questions, please contact Resident Engineer via marine radio VHF-FM CH 13 or call 908-618-6313/973-518-6571. This project is to be completed by October 1, 2022. Mariners are advised to exercise caution and use the main navigation channel when transiting the area.
