

U.S. Department  
of Homeland Security  
**United States  
Coast Guard**

**LOCAL NOTICE TO MARINERS**

**District: 1**

**Week: 52/22**

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES:

- (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position. Mariners should proceed with caution.
- (2) The Local Notice to Mariners is a weekly edition.
- (3) Inquiries, published articles or Information: mail to: D01-SMB-LNM@uscg.mil
- (4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts.
- (5) The Coast Pilot, along with its corrections, are available online at <https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html>.

The Local Notice to Mariners is available online at <https://www.navcen.uscg.gov/?pageName=lnmMain>  
 Updated 2021 Light List is available online: <https://www.navcen.uscg.gov/pdf/lightLists/weeklyUpdates/v1d01WeeklyChanges.pdf>  
 Information on Private Aids to Navigation is available at: <http://www.usharbormaster.com/>  
 Reports of Channel conditions can be found at the Army Corps of Engineers website at:  
<http://www.nan.usace.army.mil/Missions/Navigation/ControllingDepthReports.aspx>.  
 NOAA Tides and Currents can be found at: <http://www.tidesandcurrents.noaa.gov/>.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: <https://www.navcen.uscg.gov/?Do=constellationStatus>. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: [tis-sg-nisws@uscg.mil](mailto:tis-sg-nisws@uscg.mil), or on the internet at: <https://www.navcen.uscg.gov>.

PLEASE IMMEDIATELY REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)  
 408 Atlantic Avenue, Boston, Massachusetts 02110-3350  
 Telephone: (617) 223-8356  
 24 Hour FAX: (617) 223-8094  
<http://www.uscg.mil/d1/prevention/Marineinfoeregulations.asp>

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

**ABBREVIATIONS**

**A through H**

ADRIFT - Buoy Adrift  
 AICW - Atlantic Intracoastal Waterway  
 AI - Alternating  
 B - Buoy  
 BKW - Breakwater  
 bl - Blast  
 BNM - Broadcast Notice to Mariner  
 bu - Blue  
 C - Canadian  
 CHAN - Channel  
 CGD - Coast Guard District  
 C/O - Cut Off  
 CONT - Contour  
 CRK - Creek  
 CONST - Construction

**I through O**

I - Interrupted  
 ICW - Intracoastal Waterway  
 IMCH - Improper Characteristic  
 INL - Inlet  
 INOP - Not Operating  
 INT - Intensity  
 ISL - Islet  
 Iso - Isophase  
 kHz - Kilohertz  
 LAT - Latitude  
 LB - Lighted Buoy  
 LBB - Lighted Bell Buoy  
 LHB - Lighted Horn Buoy  
 LGB - Lighted Gong Buoy  
 LONG - Longitude

**P through Z**

PRIV - Private Aid  
 Q - Quick  
 R - Red  
 RACON - Radar Transponder Beacon  
 Ra ref - Radar reflector  
 RBN - Radio Beacon  
 REBUILT - Aid Rebuilt  
 RECOVERED - Aid Recovered  
 RED - Red Buoy  
 REFL - Reflective  
 RRL - Range Rear Light  
 RELIGHTED - Aid Relit  
 RELOC - Relocated  
 RESET ON STATION - Aid Reset on Station  
 RFL - Range Front Light

DAYMK/Daymk - Daymark  
DBN/Dbn - Daybeacon  
DBD/DAYBD - Dayboard  
DEFAC - Defaced  
DEST - Destroyed  
DISCON - Discontinued  
DMGD/DAMGD - Damaged  
ec - eclipse  
EST - Established Aid  
ev - every  
EVAL - Evaluation  
EXT - Extinguished  
F - Fixed  
fl - flash  
FI - Flashing  
G - Green  
GIWW - Gulf Intracoastal Waterway  
HAZ - Hazard to Navigation  
HBR - Harbor  
HOR - Horizontal Clearance  
HT - Height

LNM - Local Notice to Mariners  
LT - Light  
LT CONT - Light Continuous  
LTR - Letter  
LWB - Lighted Whistle Buoy  
LWP - Left Watching Properly  
MHz - Megahertz  
MISS/MSNG - Missing  
Mo - Morse Code  
MRASS - Marine Radio Activated Sound Signal  
MSLD - Misleading  
N/C - Not Charted  
NGA - National Geospatial-Intelligence Agency  
NO/NUM - Number  
NOS - National Ocean Service  
NW - Notice Writer  
OBSCU - Obscured  
OBST - Obstruction  
OBSTR - Obstruction  
Oc - Occulting  
ODAS - Anchored Oceanographic Data Buoy

RIV - River  
RRASS - Remote Radio Activated Sound Signal  
s - seconds  
SEC - Section  
SHL - Shoaling  
si - silent  
SIG - Signal  
SND - Sound  
SPM - Single Point Mooring Buoy  
SS - Sound Signal  
STA - Station  
STRUCT - Structure  
St M - Statute Mile  
TEMP - Temporary Aid Change  
TMK - Topmark  
TRLB - Temporarily Replaced by Lighted Buoy  
TRLT - Temporarily Replaced by Light  
TRUB - Temporarily Replaced by Unlighted Buoy  
USACE - Army Corps of Engineers  
W - White  
Y - Yellow

**Additional Abbreviations Specific to this LNM Edition:**

SNNE- U.S. Coast Guard Sector Northern New England  
SBOS- U.S. Coast Guard Sector Boston  
SSENE- U.S. Coast Guard Sector Southeastern New England  
SLIS- U.S. Coast Guard Sector Long Island Sound  
SNEW- U.S. Coast Guard Sector New York

AIS - Automatic Identification System  
AtoN - Aids to Navigation  
LLNR - Light List Number  
NM - Nautical Mile

---

**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

---

**U.S. Coast Pilot 3-NEW EDITION**

PUBLICATION—National Oceanic Atmospheric Administration (NOAA) – U.S. Coast Pilot 3, Atlantic Coast: Sandy Hook, NJ to Cape Henry, VA, 56th Edition, 2023, has been issued and is ready for free download and weekly updates at

[www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html](http://www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html).

Only Print-on-Demand (POD) bound copies are available for purchase; visit

[www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot](http://www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot)

The 2023 Edition cancels the preceding 2022 Edition, and incorporates all previous corrections.

LNM: 51/22

**CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION**

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

LNM: 29/22

## INTERFERENCE WITH AIDS TO NAVIGATION

14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than \$1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

LNLM: 29/22

### U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.  
[http://www.cgaux.org/boating/class\\_finder/index.php](http://www.cgaux.org/boating/class_finder/index.php)

LNLM: 29/22

### ME, NH, MA, RI, CT, NY, NJ-ATLANTIC OCEAN-OFFSHORE STRUCTURE PATON MARKING GUIDANCE-Revised, Updated 28 Sep 2022 to reflect FCC AIS device requirement and ESP labling identification

For Private Aids to Navigation (AtoN) applicants requesting Coast Guard permits to provide navigational markings on offshore wind energy area structures in First District-area waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all labels, light(s), sound signals and AIS signals). Private AtoN Permit applications should be submitted no sooner than 60 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

#### Tower/Electrical Service Platform (ESP) Identification:

- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible to maximize charting effectiveness
- (Tower) Letters and numbers labelled to as near to 3 meters high as possible to maximize visual range for nearby mariners
- (ESP) Letters and numbers labelled to 1 meter high to maximize visual range for nearby mariners
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water's surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials is strongly recommended
- If feasible, also labelled below the servicing platform

#### Lighting:

- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water's surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY, 0.3s on/0.7s off, 60 flashes per minute) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s, 1.0s on 1.5s off, 12 flashes per minute) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6, 1.0s on 5.0s off, 10 flashes per minute/FL Y 10, 1.0s on 9s off, 6 flashes per minute) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. These do not require permits, only Coast Guard notification for appropriate marine notices and broadcasts until the final structure marking is established.

#### Sound Signals:

- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a 2NM range
- Should not exceed 3NM spacing between perimeter structures
- Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds
- Timed to energize for 45 minutes from last VHF activation

#### Automated Information System (AIS) Transponder Signals:

- Must be FCC-certified AIS Aids to Navigation device at the following link: <https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm>
- Must be transmitted superimposed at all corner structures/SPSs
- Should be capable of transmitting signals to mark all locations of all structures throughout an established field
- Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the First Coast Guard District's recommendation

PATON Application Website: [WWW.USHARBORMASTER.COM](http://WWW.USHARBORMASTER.COM).

LNLM: 33/20

**\*\*\*\* CANCELLATION OF NOAA PAPER AND RASTER NAUTICAL CHARTS\*\*\*\***

The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, BookletChart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six months notice of the intent to cancel a specific chart is provided in a "Last Edition" notice. The final cancellation of a chart is made in a "Canceled" notice. Both types of notices will appear in LNM Section IV, "Chart Correction." A comprehensive list of all canceled NOAA charts is available at: <http://www.charts.noaa.gov/MCD/Dole.shtml>.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA's electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA's program to sunset traditional paper charts is on the NOAA Coast Survey website at: <https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html>

An online NOAA Custom Chart application at: <https://devgis.charttools.noaa.gov/pod> is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

LNM: 11/21

**SAFETY NOTICE - NAVIGATIONAL RANGE AND SECTOR LIGHTS ON ELECTRONIC CHARTS**

The U.S. Coast Guard has become aware that the Range and Sector Light Characteristic labels are not displayed on Electronic Navigational Charts (ENCs) when used in an Electronic Chart Display and Information System (ECDIS) due to limitations of the S-52 ECDIS display specification. Mariners may query the ENC data directly within ECDIS or refer to the Light List for complete information on Range and Sector Light Characteristics.

LNM: 39/22

**NOTICE TO ALL PRIVATE BOATS AT SEA**

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

LNM: 13/18

**NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ**

The Operation Clear Channel program is designed to educate boaters about the hazards of operating small vessels and personal watercraft in the confines of navigational channels used by larger commercial ships. Federal Navigation Rules, also known as the "Rules of the Road", address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. An average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ every day and the masters of these vessels, while always on the lookout, cannot always see smaller vessels operating within the channels.

Recreational boaters should keep a sharp lookout and always be prepared to give way to ships constrained in their ability to maneuver, especially when operating within close proximity of a channel. U.S. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The U.S. Coast Guard focuses Operation Clear Channel efforts on high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but patrols all of New York Harbor in an effort to promote awareness. Mariners interested in increasing their knowledge of boating safety, including the "Rules of the Road", should consider a U.S. Coast Guard Auxiliary boating safety course. Course information is available online at <http://www.cgaux.org> in the "Take a Boating This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and U.S. Coast Guard Sector New York. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the PortCourse" section, or by calling 1-800-336-BOAT. Further information can be found at <http://thesafeharbor.us/index.html>

LNM: 13/18

**US NOTICE TO MARINERS (NTM)**

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the U.S. Coast Guard. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at [http://msi.nga.mil/NGAPortal/MSI.portal?\\_nfpb=true&\\_pageLabel=msi\\_portal\\_page\\_61](http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_61). NTM 01 – Special Paragraphs includes information on: America’s Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

LNM: 13/18

**SECTION II - DISCREPANCIES**

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

**DISCREPANCIES (FEDERAL AIDS)**

None

**Advance Notice(s)**

**ME-DAMARISCOTTA, SHEEPSCOT AND KENNEBEC RIVERS (Chart 13293)-KENNEBEC RIVER-UPPER KENNEBEC RIVER**

The U.S. Coast Guard will be making the following changes to Aids to Navigation in this waterway:

CHANGE the seasonal status from permanent (PERM) to Maintained from 15 May - 15 October (SEAN).

(All inclusive) From Upper Kennebec River Buoy 12 (LLNR 6220) to Upper Kennebec River Buoy 47 (LLNR 6340)

Previously advertised as a Proposal in LNM 28/22 Refer to Project No. 01-21-072.

E-mail can be sent to: D01-SMB-DPWPublicComments@uscg.mil.

Charts: 13293 13298

LNM: 28/22

**MASSACHUSETTS-NANTUCKET SOUND AND APPROACHES (Chart 13237)-CHATHAM HARBOR APPROACH**

Electrical work is being conducted at the U.S. Coast Guard Base in Chatham, Ma from November 9 2022 to January 10, 2023. At times during the work, electrical power may be secured causing disruption to Chatham Light (LLNR 525) and Chatham Inlet Bar Guide Light (LLNR 13305). If the main light at Chatham Light is extinguished, an emergency light of lesser intensity will replace it. Mariners are urged to use caution when navigating in the area.

Charts: 13009 13200 13237 13246 13248

LNM: 45/22

**NY-LONG ISLAND SOUND-OYSTER AND HUNTINGTON BAYS (Chart 12365)-HUNTINGTON HARBOR**

The U.S. Coast Guard will be making the following change to Aids to Navigation on or about 10 January 2023, weather and operations permitting :

Permanently Disestablish the sound signal for Huntington Harbor Light (LLNR 26530)

Previously advertised as a Proposal in LNM 22/22 Refer to Project No. 01-22-041.

E-mail can be sent to:

D01-SMB-DPWPublicComments@uscg.mil

Charts: 12363 12364 12365

LNM: 22/22

**MA-CAPE COD CANAL APPROACHES-CLEVELAND LEDGE CHANNEL**

The U.S. Coast Guard is considering making the following changes to Aids to Navigation in this waterway:

Cleveland Ledge Channel Range Rear Light (LLNR 16090) DISESTABLISH

Cleveland Ledge Channel Range Front Light (LLNR 16085) CHANGE to a single point LED lantern with sectors (see links for examples)

1 Lantern Sector Light (<https://marine.sabik.com/oscillating-boundary> )

The Sector Lights give a highly adjustable LED signal that has proven extremely reliable with minimal maintenance and down time.

Previously advertised as a Proposal in LNM 5/21 Refer to Project No. 01-22-045.

E-mail can be sent to:

D01-SMB-DPWPublicComments@uscg.mil

Charts: 13230 13236

LNM: 31/22

**MA-NANTUCKET SOUND-NORTH CHANNEL-MAIN CHANNEL-MUSKEGET CHANNEL-UPDATE**

The U.S. Coast Guard has temporarily disestablished and removing the following aids to navigation, on or around September 26, 2022 to on or around February 28, 2023, to enable safe cable-laying operations.

Muskeget Channel Buoy 4 (LLN 15370), position 41-22-57.428N 070-25-01.476W.

Muskeget Channel Buoy 6 (LLN 15380), position 41-26-01.303N 070-25-15.749W.

North Channel Wreck Shoal Lighted Buoy 8 (LLN 14780) position 41-32-26.005N 070-24-01.978W.

Mariners are urged to transit at their slowest safe speed and proceed with caution. Public comments or questions about these operations can be forwarded to D01-SMB-LNM@uscg.mil.

LNM: 34/22

**ME-CASCO BAY (CHART 13290)-MERRICONEAG SOUND APPROACH**

The U.S. Coast Guard will be making the following changes to this waterway:

PERMANENTLY DISESTABLISH Little Mark Island Monument Daybeacon (LLNR 6700).

Previously advertised as a Proposal in LNM 43/21 Refer to Project No. 01-21-020. E-

mail can be sent to:

D01-SMB-DPWPublicComments@uscg.mil .

## SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

#### Proposed Change Notice(s)

##### **CONNECTICUT- LONG ISLAND SOUND- NEW LONDON HARBOR AND VICINITY (Chart 13213)-NEW LONDON HARBOR**

The U.S. Coast Guard is considering making the following change to Aids to Navigation:

DISESTABLISH the following aid;

New London Harbor Channel Buoy 8 (LLNR 21880)

This change is due to changes to the waterfront in this area.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 18 January 2023 to complete the process. In order to most effectively consider your feedback and improve or data collection when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-22-073. E-mail can be sent to: D01-SMB-DPWPUBLICCOMMENTS@USCG.MIL.

##### **ME-FRENCHMAN AND BLUE HILL BAYS AND APPROACHES-FRENCHMAN BAY-Revised**

The U.S. Coast Guard is considering making the following changes to Aids to Navigation to facilitate navigation in this waterway:

DISESTABLISH Frenchman Bay Lighted Buoy FB (LLNR 1860) and ADD an AIS virtual signal to the assigned position.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 4 January 2023 to complete the process. In order to most effectively consider your feedback and improve data collection when responding to this proposal, please include size and type of vessel, recreational or commercial, and distance from aid that you start looking for it, and if and how you use the signal. Please do not call the Coast Guard via telephone or other means, only written responses to this proposal will be accepted. Refer to Project No. 01-22-063. E-mail can be sent to: D01-SMB-DPWPUBLICCOMMENTS@USCG.MIL.

## SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

---

#### **Outreach/Educational Efforts to Protect the North Atlantic Right Whale**

Northeast- D1 (01JAN-31JUL): QUOTE. US- AtlanticSeacoast - Critically endangered right whales may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. Collisions with whales are dangerous - passengers can be injured and vessels badly damaged. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. East Coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. Approaching or remaining within 500 yards of right whales is prohibited and is a violation of U.S. law. A minimum distance of 500 yards must be maintained from a sighted whale unless hazardous to the vessel or its occupants. The National Oceanic and Atmospheric Administration (NOAA) recommends that operators assume that any whale sighted is a right whale unless confirmed otherwise. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. In the northeast, please report all right whale sightings, collisions, or entanglements to 866-755-NOAA, or to the Coast Guard via channel 16. WHALESNORTH Mandatory Ship Reporting Area is active year-round. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent to [rightwhale.msr\(at\)noaa.gov](mailto:rightwhale.msr(at)noaa.gov).

NOAA Right Whale Slow Zones Campaign NOAA Fisheries uses the "Right Whale Slow Zones" campaign to reduce the risk of vessel strike to critically endangered North Atlantic right whales. Complementary to other NOAA vessel strike reduction efforts, the Slow Zones campaign brings together sighting information from NOAA's Dynamic Management Area program with acoustic detection information from underwater receivers to establish voluntary speed reduction areas. Read more about the new campaign in the web story ([link follows](#)). Media Questions: Contact Allison Ferreira, Regional Office, 978-281-9103 Inquiries about the right whale Slow Zone program: Alicia Schuler, Protected Resources Division (978) 281-9235 Further

## MAINE GENERAL NOTICES

Information for Mariners using the Waterways of the State of Maine.

### ME-KENNEBEC RIVER-BATH

General Dynamics Bath Iron Works, will be conducting maintenance dredging at Pier 2, Pier 3 and the Dry Dock Landing Grid #1 at Bath Iron Works in Bath, Maine located in the Kennebec River. Dredge spoils will then be barged north through the Sagadahoc Bridge to the Reed & Reed laydown area on the west bank of the river, in position 43-54-25.87N 069-48-47.20W; 43-54-23.20N 069-48-49.10W; 43-54-09.00N 069-48-47.30W, from January 9 to February 17, 2023. Dredging will be occurring during weekday daylight hours with one or two off-loads per day expected. Equipment on scene will be 3 spoil barges, 1 crane barge, up to two tugboats, monitoring VHF-FM CH 16 for all concerned traffic. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13298

LNM: 52/22

## VERMONT GENERAL NOTICES

Information for Mariners using the Waterways of Lake Champlain in the State of Vermont.

## NEW HAMPSHIRE GENERAL NOTICES

Information for Mariners using the Waterways of the State of New Hampshire. Newest on top.

### NH- PISCATAQUA RIVER-NEWINGTON

CDM Constructors Inc. will be dismantling a former fuel pier, on the Piscataqua River, in Newington, NH, in position 43-6-27.16N, 070-47-52.85W, from July 19, 2022 through May 2024. Equipment on scene will be sporadic depending on phase of project. Two working barges will be mobilized for crews and heavy equipment (excavator and Lull). Miscellaneous support vessels may also be present, monitoring VHF/CH-13 and 16. Work barges will be centralized to work areas only and will not impede navigation. Mariners are urged to transit at their slowest safe speed to minimize wake and production.

LNM: 29/22

## MASSACHUSETTS GENERAL NOTICES

Information for Mariners using the Waterways of the State of Massachusetts. Newest on top.

### MA-NANTUCKET HARBOR

A partially submerged vessel has been identified in Nantucket Harbor, fixed to the ocean floor in position 41-17.528N and 070-05.303W. The color and size are unknown, at this time due to marine growth. Mariners are advised to use caution and transit at slow speeds, while in the area.

Chart 13241

LNM: 52/22

**MA-CAPE COD BAY**

NOAA fisheries announces that a voluntary vessel speed restriction zone under the Right Whale Slow Zone Program is currently in effect in Cape Cod Bay to protect right whales. This right whale slow zone is in effect through January 5, 2023. NOAA requests mariners to route around this zone or transit through it at ten knots or less. The Cape Cod Bay slow zone is bounded by: 42 degrees 09 minutes north, 41 degrees 31 minutes north, 069 degrees 56 minutes west, 070 degrees 47 minutes west. Information about voluntary vessel speed restrictions can also be found at:

[HTTPS://WWW.FISHERIES.NOAA.GOV/NATIONAL/ENDANGERED-SPECIES-CONSERVATION/REDUCING-VESSEL-STRIKES-NORTH-ATLANTIC-RIGHT-WHALES](https://www.fisheries.noaa.gov/national/endangered-species-conservation/reducing-vessel-strikes-north-atlantic-right-whales)

LNM: 52/22

**MA-SOUTH OF MARTHA'S VINEYARD**

NOAA fisheries announces that a voluntary vessel speed restriction zone under the Right Whale Slow Zone Program is currently in effect south of Martha's Vineyard to protect right whales. This right whale slow zone is in effect through December 29, 2022. NOAA requests mariners to route around this zone or transit through it at ten knots or less. The south of Martha's Vineyard slow zone is bounded by: 41 degrees 20 minutes north, 40 degrees 40 minutes north, 070 degrees 10 minutes west, 071 degrees 02 minutes west. Information about voluntary vessel speed restrictions can also be found at:

[HTTPS://WWW.FISHERIES.NOAA.GOV/NATIONAL/ENDANGERED-SPECIES-CONSERVATION/REDUCING-VESSEL-STRIKES-NORTH-ATLANTIC-RIGHT-WHALES](https://www.fisheries.noaa.gov/national/endangered-species-conservation/reducing-vessel-strikes-north-atlantic-right-whales)

LNM: 51/22

**MA- BUZZARDS BAY – FALMOUTH- NYES NECK - DATA BUOY-Update**

The Woods Hole Group has installed a Water Quality Monitoring Data Buoy in the vicinity of Nyes Neck, North Falmouth, MA, in approximate position of 41-38-9.72N / 070-39-16.62W, on July 14, 2022. The buoy is a CB-450 Data Buoy, with a flashing 3.5 sec amber light (FL Y 3.5S) at a range of 1-2nm. For questions contact Mr. David Walsh at [dwalsh@woodsholegroup.com](mailto:dwalsh@woodsholegroup.com) or (508)495-6254

Chart 13229

**RHODE ISLAND GENERAL NOTICES**

Information for Mariners using the Waterways of the State of Rhode Island. Newest on top.

**RI-NARRAGANSETT BAY–MT HOPE BAY–Vessel Testing-Update 10/24/2022**

Regent Craft Inc. will be testing a prototype wing-in-ground-effect (WIG) craft in Narragansett Bay and Mt Hope Bay beginning July 7, 2022 until approximately May 31, 2023. The testing areas include the waters of Narragansett Bay, east and west of Prudence Island, and Mt Hope Bay. Testing of the prototype will last approximately 2-4 hours, Monday through Friday with occasional tests on weekends and occur during daylight hours only. All mariners are advised to use caution when transiting through these areas and avoid these areas if possible while testing is ongoing to deconflict traffic conditions. The vessel can be reached on VHF channel 13/16. For further information, please contact U.S. Coast Guard Sector Southeast New England at (508) 457-3211.

Chart 13226

LNM: 27/22

**RI-DYER ISLAND**

There is a partially submerged vessel in position 41-34-54.78N and 071-18-6.48W, in the vicinity of Dyer Island being marked by a white danger buoy. Mariners are urged to transit at their slowest safe speed, avoid the vessel, and proceed with caution.

Charts: 13221 13223

LNM: 30/22

#### **RI-NARRAGANSETT BAY**

Naval Undersea Warfare Center will be conducting continued testing using surface and subsurface devices north and east of Gould Island in the vicinity of the torpedo test range restricted area marked on NOAA Chart 13223 and the Newport Bridge Monday – Friday from September 2021 through December 2022. Mariners are requested to cooperate with participating vessels for the safety of all. Any concerned traffic can contact Navy support craft on VHF channels 13 and 16.

Chart 13223

LNM: 35/21

### **CONNECTICUT GENERAL NOTICES**

Information for Mariners using the Waterways of the State of Connecticut. Newest on top.

#### **CT-STAMFORD HARBOR**

SoundWaters, Inc. will be installing and grow lines for sugar kelp harvesting in position 41-0-30.05N 073-3313.37W and 41-0-23.12N, 073-13-10.4W, from November 7, 2022 to June 15, 2023, 24 hours a day seven days a week. The area will be marked with eight white and orange regulatory buoys. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12368

LNM: 44/22

### **NEW YORK GENERAL NOTICES**

Information for Mariners using the Waterways of the State of New York including Lake Champlain, NY side. Newest on top.

#### **NY-BROOKLYN-GOWANUS CANAL**

Aquifer Drilling and Testing, Inc. will be conducting geotechnical survey operations in the Gowanus Canal, from January 9 to 31, 2023, between 5:00am to 5:00pm. Equipment on scene will be a spud barge via Millers Launch - 30' Beam X 90' LOA, shallow draft tug and crew boat, monitoring VHF-FM CH 13,14, and 16, for any concerned traffic. The tug/ barge will need a slow bell and minimum wake during periods that she is positioning. VTS will be notified of exact dates and timeframes for positioning and the working time frame becomes clearer.

Chart 12326

LNM: 52/22

#### **NY- SOUTHEAST OF NEW YORK CITY**

NOAA fisheries announces that a voluntary vessel speed restriction zone under the Right Whale Slow Zone Program is currently in effect southeast of New York City to protect right whales. This right whale slow zone is in effect through December 28, 2022. NOAA requests mariners to route around this zone or transit through it at ten knots or less. The southeast of New York City slow zone is bounded by:

40 degrees 35 minutes north, 39 degrees 56 minutes north,  
072 degrees 47 minutes west, 073 degrees 40 minutes west.

Information about voluntary vessel speed restrictions can also be found at:

[HTTPS://WWW.FISHERIES.NOAA.GOV/NATIONAL/ENDANGERED-SPECIES-CONSERVATION/REDUCING-VESSEL-STRIKES-NORTH-ATLANTIC-RIGHT-WHALES](https://www.fisheries.noaa.gov/national/endangered-species-conservation/reducing-vessel-strikes-north-atlantic-right-whales)

LNM: 51/22

#### **NY-CITY ISLAND- ORCHARD BEACH**

Multiple reports have identified a partially submerged wreck/obstruction north of City Island, NY at the southernmost point of Orchard Beach, in position 40-51-38N, 073-47-27W. The wreck is only visible at low tide. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 81023

LNM: 43/22

#### **NY-LONG ISLAND-FIRE ISLAND TO MONTAUK POINT-MONTAUK LIGHT**

Montauk Historical Society will be conducting exterior work on the Montauk lighthouse tower which will temporarily change the appearance of the lighthouse until the work is completed. Work will begin on 15 July 2020 from sunrise to sunset, 7 days a week (weather permitting) and continue until complete. On scene equipment will be 1-2 arial lifts.

Charts: 13209 13215

LNM: 29/20

#### **NY-UPPER BAY-MANHATTAN (REVISED)**

A sheet pile has partially detached from the western face of the concrete pier located at the Coast Guard building at Battery Park in Manhattan. The pier is marked with a dayboard marked DANGER DO NOT MOOR. All mariners are advised to transit the area with caution.

# NEW JERSEY GENERAL NOTICES

Information for Mariners using the Waterways of the State of New Jersey (Shrewsbury/Navisink Rivers North). Newest on top.

## ATLANTIC OCEAN GENERAL NOTICES

Information for Mariners using the Waterways of the Atlantic Ocean. Newest on top.

### NH-MA-ATLANTIC OCEAN

NOAA fisheries announces that a voluntary vessel speed restriction zone under the Right Whale Slow Zone Program is currently in effect southeast of Portsmouth to protect right whales. This right whale slow zone is in effect through December 28, 2022. NOAA requests mariners to route around this zone or transit through it at ten knots or less. The southeast of Portsmouth slow zone is bounded by:

43 degrees 16 minutes north, 42 degrees 36 minutes north,  
069 degrees 47 minutes west, 070 degrees 41 minutes west.

Information about voluntary vessel speed restrictions can also be found at:

[HTTPS://WWW.FISHERIES.NOAA.GOV/NATIONAL/ENDANGERED-SPECIES-CONSERVATION/REDUCING-VESSEL-STRIKES-NORTH-ATLANTIC-RIGHT-WHALES](https://www.fisheries.noaa.gov/national/endangered-species-conservation/reducing-vessel-strikes-north-atlantic-right-whales)

Commander, First Coast Guard District

# SUMMARY OF SHOALING REPORTED FIRST COAST GUARD DISTRICT

Updated 12/28/2022

## NEW OR UPDATED INFORMATION

New, updated or very important information in this enclosure will be highlighted in yellow.

## MAINE SHOALING

### ME-SACO BAY AND VICINITY (Chart 13287) –RICHMOND ISLAND HARBOR–SCARBOROUGH RIVER

There is serious shoaling in the entrance to the Scarborough River in the vicinity of gated Buoys 1-2 and 3-4. Soundings of +0.8 at Mean Lower Low Water (MLLW) has been surveyed, that means the bottom is exposed at the lowest possible tide. Mariners are advised to use caution when transiting the Scarborough River and do so only at higher tides.

13286 13287 LNM 42/21

### ME-THOMASTON-SAINTE GEORGE RIVER-Shoaling

The St. George River in the vicinity of Thomaston Harbor has experienced heavy shoaling. Shoaling in spots has reduced the channel depth to less than 2 ft. at MLLW. Mariners are advised to use caution when transiting St. George River north of nun buoy #16 to Brooklyn Heights Bridge. For further information please contact Clayton Franklin, 207-767-0393.

13301 LNM 28/21

## NEW HAMPSHIRE SHOALING

NONE REPORTED

## **MASSACHUSETTS SHOALING**

### **MA-CAPE COD CANAL-CAPE COD CANAL DEEP DRAFT UPDATE**

The maximum deep draft for transiting the Cape Cod Canal has been restored to 32 feet, effective September 21, 2022. Due to sand shoaling in two locations, vessels drawing greater than 25 feet should consult well in advance with the Marine Traffic Controller on duty at 978-318-8500. One sand shoal at 30 feet MLLW is located at station 05, east entrance of the Canal in the vicinity of GC "7" and one at 29 feet MLLW is located at station 155, ¼ mile west of the Sagamore Bridge. Mariners are advised to continue to monitor the Local Notice to Mariners for updates.

LNM: 38/22 Chart 12326

### **MA-WESTPORT CHANNEL**

Westport Channel has experienced increase shoaling, with considerable narrowing of the channel. Mariners are advised that shoaling has been identified and extends the entire width of the channel, affecting both commercial and recreational vessels. Mariners should proceed with caution while transiting the area.

Chart 13228 LNM 30/22

### **MA-ESSEX BAY**

Essex Bay entrance has experienced increased shoaling from Essex Bay Buoy 3 in approximate position 42-40.4N 070-42.7W to Essex Bay Buoy 3A in approximate position 42-40.3N 070-43.3W. Mariners are advised that shoaling has been identified and extends the entire width of the channel to a least depth of 2 feet mean low water (MLW). Mariners without local knowledge are advised to transit with extreme caution and only during plus tides.

Essex Bay Channel Buoy 16 has been reported having increased shoaling. Mariners are urged to use caution while transiting the area.

Chart 13274 LNM 24/22

### **MA-MERRIMACK RIVER ENTRANCE**

Severe shoaling has been reported in the entrance to the Merrimack River. Mariners should proceed with caution while transiting the area.

Chart 13278 LNM 02/14

### **MA-MERRIMACK RIVER-JOPPA FLAT AREA**

Severe shoaling has been reported between Merrimack River Lighted Buoy 13 (LLNR 9050) - North Pier Light 18 (LLNR 9070). The channel shoals to 6 feet versus 9 feet. Mariners should proceed with caution while transiting the area.

Chart 13278 LNM 02/14

## **Encl 1**

### **MA-NEWBURYPORT HARBOR AND PLUM ISLAND SOUND-SHOALING**

Shoaling exists in Plum Island Sound between Plum Island Sound Entrance buoy 4 (LLNR 9310) and Plum Island Sound Entrance buoy 6 (LLNR 9320), aids are not properly marking best water. Mariners are advised to use caution while navigating this area. All of Plum Island is particularly susceptible to shoaling, the area between 4 and 6 being the worst at the mouth of the channel. Last year the unit partnered with the harbor Master moving the aids to mark the best water. Even though the aids are in the best possible locations that water is still shallow at low tide and mariners should use caution while navigating in this area.

Newburyport Harbor and Plum Island Sound – Plum Island Sound Entrance has experienced an increase in shoaling between Plum Island Sound Entrance Buoy 6 and 8. The shoaling was observed in approx. position 42-41.365N /070-45.169W and extends 100 yards west following the channel. Mariners are advised that at MLLW depths of 3' could be seen. Mariners without local knowledge are advised to transit with extreme caution and monitor tidal stations prior to transiting.

Chart 13274 13279 13282 LNM 25/22

### **MA-ANNISQUAM RIVER**

Severe shoaling has been reported in the Annisquam River. Annisquam River channel buoy 24 (LLNR 9690) has been relocated due to recent shoaling in the area to mark best water. Mariners should proceed with caution while transiting the area.

Chart 13274 LNM 24/22

### **MA-LYNN HARBOR**

Increased shoaling has been reported between Sandy Point Light 11 (LLNR 10595) - Lynn Harbor Channel Lighted Buoy 14 (10610). Mariners should proceed with caution while transiting the area.

Chart 13274 LNM 02/14

### **MA-SALEM AND LYNN HARBORS (Chart 13275)-SAUGUS RIVER APPROACH CHANNEL**

Severe shoaling has been reported in the Saugus River in the vicinity of Saugus River Approach Channel Lighted Buoy 5 (LLNR 10655). Mariners should proceed with caution while transiting the area.

Chart 13274 13275 LNM 15/21

### **MA-SALEM AND LYNN HARBORS (CHART 13275)-BASS RIVER**

Severe shoaling has been reported between Bass River Channel Buoy 2 (LLNR 10325)-Bass River Channel Buoy 9 (LLNR 10355) and there is a severe decrease in the channel's width. Mariners should proceed with caution while transiting the area.

Chart 13275 LNM 02/14

### **MA-MARSHFIELD-NEW INLET**

Shoaling has been reported from the North River junction buoy towards the #2 buoy South River. This area is reported as approx. 3.0 feet during the low tide. Mariners should use caution while transiting the area, especially during astronomical low tides.

Chart 13267 LNM 15/16

**Encl 1**

**MA-NUMMET CHANNEL (REVISED)**

The Coast Guard has received a report of shoaling in the vicinity of The Nummet Channel Buoy 7 (LLNR 12760). Mariners are advised to proceed with caution when transiting the area.

Chart 13253 LNM 38/10

**MA – BARNSTABLE HARBOR – SHOALING**

Mariners be advised that shoaling exists in the Barnstable Harbor Entrance channel. Shoaling extends approximately 200 feet into the channel north of Barnstable Harbor Entrance Lighted Buoy 6, in the vicinity of position 41-.43.5 N, 070-16.3W. Water depth is estimated to be 2 feet at low tide in this area. All mariners are requested to use caution while transiting the area.

Chart 13238 LNM 40/18

**MA-NANTUCKET SOUND AND APPROACHES (Chart 13237)-POLLOCK RIP CHANNEL**

The entrance to Pollock Rip Channel from the East continues to have SEVERE shoaling East of Pollock Rip Lighted Buoy 4 (LLNR 13535). Mariners should not attempt to transit the area without local knowledge of the shoals and use the channel at their own risk. If transiting the channel, Mariners are urged to transit at their slowest safe speed and proceed with extreme caution.

Chart 13237, 13244 LNM 41/21

**MA-MARTHA'S VINEYARD TO BLOCK ISLAND (Chart 13218)-WESTPORT HARBOR**

Shoaling exists in Westport Harbor in the vicinity of Westport Harbor Channel LB 14 (LLNR 17490) and Westport Harbor Channel Buoy 17 (LLNR 17505). There are other areas of shoaling throughout the Westport Harbor Channel reducing the available depth of water. Mariners are advised to use caution while navigating this area.

Chart 13228 LNM 31/20

**MA – CUTTYHUNK HARBOR – ENTRY CHANNEL**

Mariners are advised that the navigable width of the entry channel into Cuttyhunk Harbor has decreased to approximately 15 feet wide. This may cause navigability issues and restrict movement for two way traffic. Mariners are urged to maintain a proper lookout and use extreme caution while transiting the area. You may contact the local harbormaster by phone at (508) 990-7578.

Chart 13230 LNM 29/19

**RHODE ISLAND SHOALING**

**RI-NARRAGANSETT BAY (CHART 13221)-GREENWICH BAY-WARWICK COVE**

Shoaling has been observed within the federal navigation channel to a least depth of 3 FT MLW. Shoaling is encroaching from the west and has impacted the western part of the channel, reducing the authorized project width from 150 feet to approx. 90 feet between Warwick Cove Buoy 3 (LLNR 19360) and Warwick Cove Buoy 7 (LLNR 19375).

Chart 13224 LNM 02/22

**RI-BLOCK ISLAND SOUND AND APPROACHES (CHART 13205)-POINT JUDITH POND**

Shoaling has been observed within the channel to a least depth of 5.5 feet MLW in approximate position 41 22'48"N, 071 33'55"W between Point Judith Pond Channel Buoy 2 (LLNR 19555) and Point Judith Pond Channel Buoy 4 (LLNR #19560). Shoal is encroaching from the East side of the channel and protruding west.

Chart 13219 LNM 02/22

**Encl 1**

**RI-NARRAGANSETT BAT (CHART 13221)-MOUNT HOPE BAY-KICKAMUIT RIVER**

Shoaling has been reported in the Kickamuit River in the vicinity of Kickamuit River Buoy 2. Mariners are advised to proceed with caution while transiting the area.

Chart 13221 LNM 12/21

**NEW YORK SHOALING**

**NY-GREAT KILLS HARBOR**

Shoaling has been reported in in the vicinity of Great Kills Harbor, between buoys 6 and 8. Mariners are advised to proceed with caution while transiting the area.

Chart 12327 LNM 49/22

**NY-BLOCK ISLAND SOUND AND GARDINERS BAY-GARDINERS BAY SOUTH ENTRANCE-ACABONACK HARBOR**

Mariners are advised that dangerous shoaling conditions exist in Acabonack Harbor and vicinity which cause dangerous conditions when transiting the channel. Acabonack Harbor Buoys 1-4 (Private aids have been temporarily discontinued until the harbor is dredged. Mariners should exercise extreme caution when navigating the channel.

Chart 13209 LNM 30/22

**NY-SAYVILLE-BROWNS CREEK**

Mariners be advised, dangerous shoaling conditions exist east of Browns Creek and vicinity which cause dangerous conditions when transiting the channel. Mariners should exercise extreme caution when navigating the channel.

Chart 12352 LNM30/22

**NY-SHEEPSHEAD BAY TO NEW YORK**

Increased shoaling found in the vicinity of Sheepshead Bay Channel, specifically near Sheepshead Bay Buoys 6 and 7. Aids marking the channel may be unreliable. All mariners are urged to use extreme caution when transiting this area.

Chart 12350 LNM 29/22

**NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET-FIRE ISLAND INLET**

East Rockaway Inlet is experiencing severe shoaling in the inlet west of the breakwater and in between Lighted Buoys 5 and 6. Mariners are urged to use extreme caution while navigating Inlet. The Coast Guard will remark best water until dredging of the Inlet can be completed.

Chart 12352 LNM 23/22

**NY-RAUNT CHANNEL (Booklet Chart 12350 JAMAICA BAY**

Recent surveys has shown significant shoaling in the Raunt Channel. Shoaling exists in the vicinity of Buoy 6, in approximate position 40-36.17N 073-50.47W. Depths of less than 5 feet in the middle of the channel. Navigation of the area requires extreme caution due to the encroaching nature of the shoal.

Chart 12350 LNM 12/22

**Encl 1**

**NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET-JONES INLET**

Mariners be advised, dangerous shoaling conditions exist east of Jones Inlet and vicinity which cause dangerous conditions when transiting the channel. Mariners should exercise extreme caution when navigating the channel.

Chart 12352 LNM 32/21

**NY-LONG ISLAND SOUND (Eastern Part) (Chart 12354)-SOUTH SIDE-MATTITUCK INLET**

Shoaling has been reported in the Mattituck Inlet. Mariners are advised to proceed with caution while transiting the area.

Chart 12358 LNM 12/21

**NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET (Chart 12352)-MORICHES BAY**

Severe shoaling is present in Moriches Bay along the Long Island Intracoastal Waterway in the vicinity of Moriches Bay Buoys 21, 24, 26, 27, 28, and 29 extending the entire width of the channel at nearly all tide levels. The area from Buoys 24 to 29 is only navigable at the operator's risk. The most severe area of shoaling can be found between buoys 26 and 28 and is less than half the charted channel depth in some areas. Mariners should be aware that the Aids to Navigation in these areas are unreliable due to shoaling and mariners are strongly advised to seek alternate routes.

Chart 12352 LNM 16/20

**NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET**

Mariners be advised, dangerous shoaling conditions exist in the East Rockaway Inlet and vicinity. Mariners should exercise extreme caution when navigating the channel.

Chart 12352 LNM 15/18

**NY-MORICHES BAY, SHINNECOCK BAY AND STATE BOAT CHANNEL (REVISED 39/16)**

Shoaling has been reported in Moriches Bay along the Long Island Intercoastal Waterway in the vicinity of Moriches Bay Buoy 17, 18, 21, 26, 27, 28 and 29 extending the entire width of the channel and at any tide level. The most severe area of shoaling can be found between buoys 26 and 27 and is less than 3 ft. Shoaling is also reported in Moriches Inlet in the vicinity of Moriches Inlet East Cut Buoys 3E and 5E. Mariners should be aware that the Aids to Navigation in these areas have been deemed unreliable due to shoaling and mariners are advised to seek alternate routes. If transiting these areas, do so only at high tide and proceed slowly and with extreme caution.

Chart 12352 LNM 39/16

**NY-SHINNECOCK BAY TO EAST ROCKAWAY INLET-SLOOP CHANNEL**

Shoaling has been reported in the vicinity of Sloop Channel Beacon 21 (LLNR - 31100). All mariners are requested to use caution when transiting the area.

Chart 12352 LNM 49/17

**NY-LONG ISLAND SOUND –MILTON HARBOR**

Severe Shoaling has been reported in Milton Harbor. Mariners are advised to proceed with caution while transiting the area.

Chart 12364

## **NEW JERSEY SHOALING**

### **NJ-NAVESINK RIVER**

Recent surveys have shown significant shoaling in the Navesink River. Shoaling exists across the entire reach beginning at the entrance to the Navesink River to Navesink River Buoy 24. Least depths of 2.3 feet to 5.8 feet extending into channel and throughout the waterway. Navigation of the area requires extreme caution due to the encroaching nature of the shoal.

Chart 12325 LNM 01/22

### **NJ-SHREWSBURY RIVER**

Shoaling has been reported in the vicinity of Shrewsbury River Channel Lighted Buoy 5 (LLNR - 35755). All mariners are requested to use caution when transiting the area.

Chart 12325 LNM 50/21

## SUMMARY OF ONGOING DREDGING AND MARINE CONSTRUCTION PROJECTS

Arranged by State, North to South, and newest information on top (for each State).

Updated 12/28/2022

### NEW OR UPDATED INFORMATION

New, updated or very important information in this enclosure will be highlighted in yellow.

### MAINE

#### ME-KENNEBEC RIVER-BATH

General Dynamics Bath Iron Works will be conducting maintenance dredging at Pier 2, Pier 3 and the Dry Dock Landing Grid #1 at Bath Iron Works in Bath, Maine located in the Kennebec River. Dredge spoils will then be barged north through the Sagadahoc Bridge to the Reed & Reed laydown area on the west bank of the river, in position 43-54-25.87N 069-48-47.20W; 43-54-23.20N 069-48-49.10W; 43-54-09.00N 069-48-47.30W, from **January 9 to February 17, 2023**. Dredging will be occurring during weekday daylight hours with one or two off-loads per day expected. Equipment on scene will be 3 spoil barges, 1 crane barge, up to two tugboats, monitoring VHF-FM CH 16 for all concerned traffic. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13298 LNM 52/22

#### ME-CASTINE BAY-BAGADUCE RIVER

University of Maine, Dept. of Civil & Environmental Engineering will be conducting, coastal engineering research into tidal intrusion fronts effects on wave environments, from **December 12, 2002, to February 12, 2023**, 24 hours a day seven days a week. Equipment on scene will be coastal research instrumentation with accompanying moorings and flotation buoys, in position 44-22-47.978N and 068-48-59.752W. For more information on this research project please contact Dr. Kimberly Huguenard at [Kimberly.huguenard@maine.edu](mailto:Kimberly.huguenard@maine.edu). Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13309 LNM 50/22

#### ME-PENOBSCOT RIVER-SOUTH BREWER

Cianbro Company will be conducting dredging operations in the Penobscot River, in South Brewer in position 44-46-18.400N and 068-47-8.210W from **November 8, 2022, to January 1, 2023**, between 6:00am to 6:00pm. Equipment on scene will be 4 deck barges, monitoring VHF-FM CH 13 and 16, for any concerned traffic. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13309 LNM 46/22

#### ME-BLUE HILL BAY

Kokosing Industrial Inc. will be conducting submarine power cable installation from Swans Island to Tremont ME, in position 44-12-52.08N and 068-24-00.85W, from **November 29 to December 29, 2022**, 24 hours a day, seven days a week. Equipment on scene will be the tug, DAN MARINE, SEA COAST, and barge JMC 150, monitoring VHF-FM CH 13 and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and remain 1500 feet from the construction vessels, and proceed with caution.

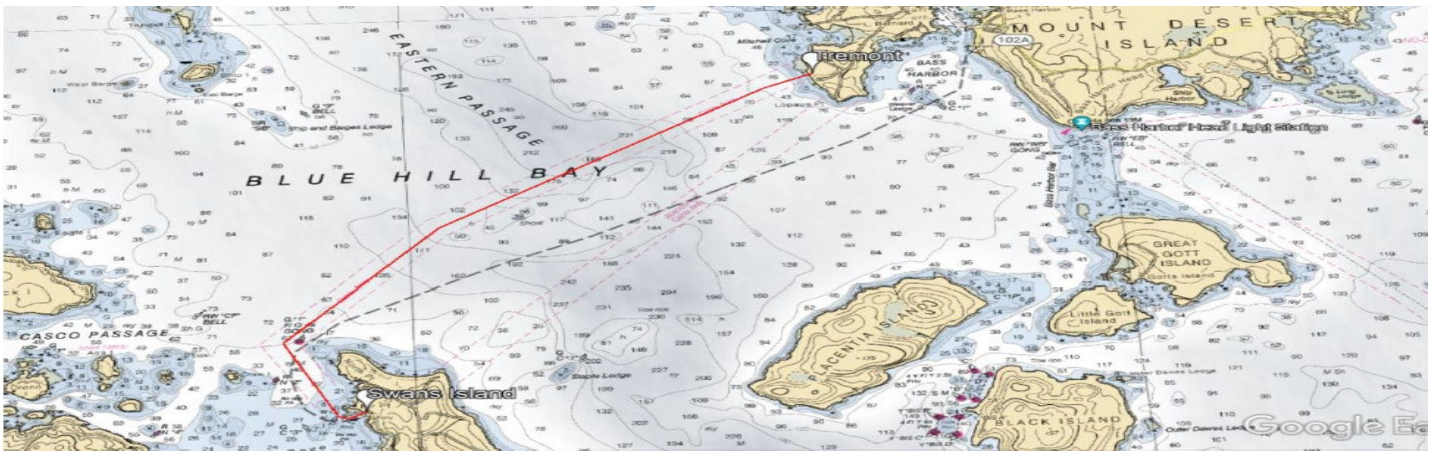

Chart 13313 LNM 46/22

### **ME-ROCKLAND**

Prock Marine will be conducting dredging and ocean water disposal operations at the Rockland, Municipal Fish Pier, in position 44-6-9.468N 063-6-37.368W, from **November 8, 2022 to March 1, 2023**, 24 hours a day, seven days a week. Equipment on scene will be the tug DORTHY, Prock Marine barge No. 5, Scow Prock 17 and a skiff boat, monitoring VHF-FM CH 10,12,13, and 16. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13307 LNM 43/22

### **VERMONT**

### **NONE TO REPORT**

### **NEW HAMPSHIRE**

### **NH-PISCATAQUA RIVER-NEWINGTON-LITTLE BAY**

DAKA Properties, LLC, will be conducting dredging operations in Little Bay, NH, in position 43-07-15.95N, 070-50-04.89W, from **January 3 to March 15, 2023**, seven days a week, between 6:00am to 12:00am. Equipment on scene will be a 40' x 100' dredge barge, a 30' x 120' hopper barge, a 26' push boat, and work skiffs. All working vessels will be monitoring VHF-FM CH 18, for any concerned traffic. Barges will be moved as tide allows to offload facility in Newington, NH. Any vessel or barge movements that encounter other traffic shall be coordinated via VHF-FM CH 13. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13285 LNM 51/22

### **NH- PISCATAQUA RIVER-NEWINGTON**

CDM Constructors Inc. will be dismantling a former fuel pier, on the Piscataqua River, in Newington, NH, in position 43-6-27.16N, 070-47-52.85W, from **July 19, 2022 through May 31, 2024**. Equipment on scene will be sporadic depending on phase of project. Two working barges will be mobilized for crews and heavy equipment (excavator and Lull). Miscellaneous support vessels may also be present, monitoring VHF/CH-13 and 16. Work barges will be centralized to work areas only and will not impede navigation. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13285 LNM 29/22

**MASSACHUSETTS****MA-MERRIMACK RIVER-HAVERHILL-Updated 10/31/2022**

The Merrimack Valley Regional Transit Authority, will be conducting riverbank stabilization operations, along the Merrimack River, at 85 Railroad Avenue, Haverhill, MA, in position 45-45-59.187N, 071-5-29.727W. Work will run between **August 15-November 30, 2022**, Monday through Friday, from 7:00am-3:00pm. Equipment on scene will be land based construction equipment, vibratory hammer, backhoe, and a bobcat. The work will not impede the safe navigation on the river. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13274 LNM 32/22

**MA-SPRINGFIELD-CONNECTICUT RIVER CROSSING PROJECT – UPDATE 10/31/2022**

The Springfield Water and Sewer Commission continues construction and pipeline installation operations on the Connecticut River Western Agawam bank between the Memorial and South End Bridges at approximately River Mile 75. Construction will consist of the installation of a pile supported access trestle with limited floating turbidity curtains extending approximately 90 feet beyond the mean annual high water mark into the Connecticut River. Phase III of construction has commenced. Connecticut River – Mile 73 Springfield/Agawam: Construction & Dredging for Pipeline Crossing Activities shall commence on or about **June 1, 2022, to January 15, 2023** pending weather and production. Temporary pile to support environmental curtains shall extend 600 feet into the river from the West bank and 1000 feet north tapering from the West bank shore to the center of the river. Piles shall be lighted with navigational steady all-round white lights. Construction equipment consist of,

- 1 150-180 Ton Crane Mount on 70' x 80' x 7' Poseidon (2) Spud Barge
- 2 215,000 LB Komatsu 1250 Excavator Dredge Barge w/ (4) powered spuds
- 3 30'x 80' x 7' Material / Environmental Controls - Poseidon section barges
- 1 300HP-400HP shallow water push boat.
- 1 225 HP Sea Bee 180-degree hydraulic thruster-master
- 1 60hp work boat
- 1 8'x10'x3' Environmental work barge w/ motor
- 1 DOC Inspection Boat (Daniel O'Connell's Sons)

Clear navigable passage for boaters will be maintained on the eastern side of the river. Due to barge mounted equipment and Dive operation safety concerns; Mariners are advised to exercise extreme caution when transiting the area proceeding at headway speed at "No Wake" and to monitor VHF- FM Channels 13/16. For more information mariners may contact J.F White Contracting Co at (617) 454-1832 or Project Manager Robert Pellerin at (508) 905-9582. Additional Questions concerning this project may be directed to Mr. Gus O'Leary at (617) 498-4649 or the on scene contractor, J.F. White Company at (617) 699-5063. On scene work vessel may be contacted via VHF-FM 05 or 07 Mariners are urged to use caution while transiting the area.

LNM 20/21

**MA-NANTUCKET SOUND-Updated 10/29/2022**

On or about the 30th of October in preparation for Cable Laying Operations there will be a construction barge and a materials barge along with tugs KODIAK and BUCKY performing Diving Operations at the HDD Cable ducts to get the cables ready for connection and pull-in to the beach. Additionally, six smaller workboats and a Crew Transfer Vessel will assist in these operations. Subsequently, the Cable Barge ULISSE will be towed to site by the NICOLE FOSS and begin conducting cable laying operations approximately 700m (0.4nm) off Covell's Beach, Barnstable. The cable will be pulled to shore by an onshore winch, once secured the ULISSE will lay and bury the cable away from the beach out to the Cape Poge area. Attending the ULISSE cable laying operations will be the support vessels MENA C & MARTINE P that will be performing anchor handling for the operations. Two local fishing vessels will be operating around the activities as

safety vessels to monitor traffic and facilitate the safe movement of fishing vessels, recreational craft, or other transiting vessels, around the work sites and project vessels. All Mariners transiting or fishing in the area are requested to give a wide berth to the vessels as they are limited in their ability to maneuver, and the Cable layer ULISSE will have gear out 1500m ahead of the vessel and up to 1500 meters behind the vessel. The ULISSE will operate on a 5-point mooring spread utilizing the full width of the Offshore Export Cable Corridor (OECC). The mooring spread will consist of four positioning anchors positioned up to 1 km or 0.54 nm from the barge and a single pulling anchor positioned up to 1.5 km or 0.82 nm. Her anchors will be deployed with pennant buoys and will be marshalled by various support vessels. Vessels in the vicinity of the operations are requested to operate in a manner as to not endanger the vessel or associated equipment. Passing arrangement can be made via VHF with the vessels on VHF-FM CH 13 and 16. Additional information on this project can be viewed at the following link: <https://www.vineyardwind.com/mariners-updates/70>

Chart 13237 LNM 42/22

## MA-NANTUCKET

Robert B. Our Co. Inc. will be conducting pier improvements and repairs to the Nantucket Town Pier in position 41-9-55.2096N 070-3-14.724W, from **October 5, 2022, to May 31, 2023**, 24 hours a day 7 days a week, between 6:00am to 6:00pm. Equipment on scene will be the barge TYRONE, scow COVE POINT, LINKBELT 138 CRAWLER CRANE, tug ROBERT B, push boats MR. MAGOO and MR. BOJANGLES, and the work skiff SERM. All working vessels will be monitoring VHF-FM CH 13 and 16, for all passing and movement arrangements. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13241 LNM 40/22

## MA-SCITUATE HARBOR-Update 9/27/22

Scituate Historical Society will be conducting a restoration project of the lantern room on Old Scituate Light from **October 3, 2022, to August 30, 2023**. During this time, the light will be temporarily disestablished and extinguished. Mariners are advised to use caution when transiting the area. Information on the Scituate Historical Society can be found at [scituatehistoricalsociety.org](http://scituatehistoricalsociety.org) or by calling 781-545-1083.

Chart 13269 LNM 38/22

## MA – NEWBURYPORT HARBOR – DREDGING- Update 12/6/2022

Mariners are advised that H&L Contracting will be conducting dredging operations in Newburyport Harbor, MA from **September 28, 2022, to March 15, 2023**. The 20” Dredge OYSTER BAY will be performing dredging in the channel outside of the inlet at 42-49-03” N 70-48-01” W. with the dredge pipe located along the south side of the inlet. The 16” Dredge FINN will be performing dredging at multiple locations in the main harbor channel with the dredge pipe located on the south side of the channel. All dredge pipes will be marked and lit I.A.W. Coast Guard Regulations. Channel crossings will be provided with the dredge pipe submerged and marked with temporary red and green buoys. Work hours are 24 hours a day, 7 days a week. There will be two dredges, multiple push boats, skiff, booster pump barge, equipment barge, and dredging pipeline on scene. All marine equipment operators will be monitoring VHF-FM Channel 63 and Channel 16 and 13. Dredge and work vessels will monitor VHF-FM Channel 13 and 16. Mariners are advised to proceed with caution when transiting the area and are requested to limit speed to the minimum required to make way.

Chart 13278 LNM 37/22

## MASSACHUSETTS - BEVERLY – SALEM- DANVERS - ESSEX BRIDGE Conduit Installation:

Mariners are advised that McCourt Construction Company will be installing new conduit lines beneath the Beverly Salem Memorial Bridge crossing the Danvers River commencing **October 3, 2022, to March 31, 2023**. Work hours will be from 9:00 a.m. to 6:00 p.m. Monday thru Friday. Equipment on scene will consist of a Snooper truck with suspended bucket platform and multiple small tending vessels, no impact to Navigation is anticipated. For more information Mariners may contact Mr. Tom Pyle at (617) 620-5974 on scene vessels will be monitoring VHF-FH CH 12. Mariners are urged to use caution when transiting and to proceed at headway speed no wake in the vicinity of repair vessels that may be present.

Chart 13276 LNM 37/22

## **RHODE ISLAND**

### RI-NARRAGANSETT BAY

Regent Craft Inc. will be testing a prototype wing-in-ground-effect (WIG) craft in Narragansett Bay beginning **July 7, 2022, until approximately May 31, 2023**. The testing areas include the waters of Narragansett Bay, east and west of Prudence Island. Testing of the prototype will last approximately 2-4 hours, Monday through Friday with occasional tests on weekends and occur during daylight hours only. All mariners are advised to use caution when transiting through these areas and avoid these areas if possible while testing is ongoing to deconflict traffic conditions. The vessel can be reached on VHF channel 13/16. For further information, please contact U.S. Coast Guard Sector Southeast New England at (508) 457-3211.

LNM 48/22

## **RI-POINT JUDITH POND**

Patriot Marine will be conducting improvement dredging in Point Judith Pond and Harbor Refuge, in position 41-22-34.66N and 071-30-39.53W, with transport to the Mantunuck Nearshore Disposal site, from **November 30, 2022, to January 31, 2023**, 24 hours a day, seven days a week. Equipment on scene will be the dredge 410, scow 144 and 143, and a tugboat, monitoring VHF-FM CH 13, for all concerned traffic and are requesting a 10 minute notice for vessel movement requests. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13219 LNM 46/22

## **RHODE ISLAND – PROVIDENCE RIVER – SEAWALL REPAIRS**

The Narragansett Electric Company and JF Brennan Company are performing repairs to the Seawall Bulkhead in Providence: 41-48-00.3N 71-23-31.3W. Work will take place from **March 14, 2022, to April 1, 2023**. A Crane Spud Barge, a Materials Barge, Work Floats and Marine Vessels operating in the Work Area defined below to perform demolition activities on the existing seawall and install a new sheet pile wall. Work hours are 6:00am to 6:00pm. Project operations will monitor VHF Channels 13 and 16 during working hours. Questions or concerns may be directed to the Project Manager, Kristian Theriault at 401-378-1876 (kristian.theriault@nationalgrid.com). Mariners should use caution when transiting the area.

Chart 13225 LNM 10/22

## **CONNECTICUT**

### **CT-BRIDGEPORT HARBOR-BARNUM LANDING-Update 12/19/22**

L/B JILL will be conducting crane operations alongside the pier at Barnum Landing, in Bridgeport Harbor, in position 41-10-9.127N 073-10-25.269W, from **December 20, 2022, to January 16, 2023**, seven days a week 24 hours a day. Equipment on scene will be the LB JILL and SEACOR BRAVE, monitoring VHF-FM CH 13 and 16. The edge of the turning basin is approximately 90' from the face of the Eastern Dock at Barnum Landing. With a beam of 135' the JILL will be approximately 45' across the edge of the northeastern side of the turning basin. While at the prescribed berth, the JILL will be outside of the Bridgeport Reach. Per the chart, the Bridgeport Reach has a width ranging from 400' to 600' in its widest point to the west of Barnum Landing. While alongside the Eastern Dock, the JILL will not impede on vessels transiting the Bridgeport Reach. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13213 LNM 48/22

### **CT-CONNECTICUT RIVER-THAMES RIVER-SUBASE**

Weeks Marine will be conducting dredging operations near SUBASE Pier 15, in positions 41-23-52N, 72-5-40WN, 41-23-1N, 072-5-22W, from **December 2, 2022, to January 31, 2023**, seven days a week, 24 hours a day. Equipment on scene will be WEEKS 551, WEEKS 259, and WEEKS 256, monitoring VHF-FM CH 67, for all concerned traffic and passing arrangements. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13213 LNM 47/22

## **CT-LONG ISLAND SOUND-GUILFORD HARBOR**

Patriot Marine will be conducting maintenance dredging activities in Guilford Harbor with transport and disposal at the Central Long Island Sound Disposal Site in position 41-16-18.35N 072-39-56.43W from **November 30, 2022, to February 28, 2023**, 24 hours a day, 7 days a week. Equipment on scene will be the Dredge 562 and a tug and push boat. The vessels will be monitoring VHF-FM CH 13 and will need a 10-minute warning to move. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made with the dredge.

Chart 12373 LNM 47/22

## **CT-STAMFORD-COVE ISLAND MARINA**

Lucianos Excavation, Inc. will be conducting upland-based maintenance dredging with upland beach nourishment, at the Cove Island Marina Channel, Stamford, CT in position 41-2-38.42N and 073-30-13.70W, from **November 28, 2022, to January 31, 2023**, seven days a week, 24 hours a day. Equipment on scene will be an upland-based long reach excavator with digging bucket. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 12368 LNM 46/22

## **CT-CONNECTICUT RIVER-THAMES RIVER-SUBASE**

Weeks Marine will be conducting dredging operations near SUBASE Pier 32, in positions 41-24-3.27N 072-5-46.61W, 41-22-59.23N, 072-5-26.29W, from **November 23, 2022, to January 3, 2023**, seven days a week, 24 hours a day. Equipment on scene will be WEEKS 551, WEEKS 258, and WEEKS 116, monitoring VHF-FM CH 72, for all concerned traffic and passing arrangements. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 13213 LNM 46/22

## **CT- LONG ISLAND SOUND- BRANFORD**

Skellig Glas Archaeology LLC will be conducting kelp farming in Long Island Sound off of Branford, Connecticut southeast of Indian Neck and approximately 16500 feet northwest of Gangway Rock, in position 41-14-40.106N 072-47-44.064W; 41-14-39.933N 072-47-36.214W; 41-14-32.197N 072-47-36.402W; 41-14-34.166N 072-47-44.278W, from **November 5, 2022, to May 28, 2023**, 24 hours a day seven days a week. Equipment on scene will be Two (2), 500 foot-long longlines anchored at each end and in the middle with two 300-pound anchors (a total of 6 anchors per long line; 12 anchors in all) in water depths of between 19 feet mean lower low water (MLLW) and 25 feet mean high water (MHW). Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12373 LNM 43/22

## **CT-NEW LONDON HARBOR**

Cashman Dredging and Marine Contracting Company, LLC will begin mobilizing equipment into New London Harbor for dredging work for the Infrastructure Improvements to Connecticut State Pier Project. Dredging for the project is expected to begin on or about **October 1, 2022, to January 31, 2023**. Dredging will occur along the Connecticut State Pier to the west of the Federal Channel and just South of the Gold Star Memorial Bridge. Equipment for the project will include the following: WOOD 1, Clamshell Dredge, a crane barge, 6 material barges, SURVEY 2 survey vessel, and associated crew boat and tugboats. Mariners are urged to transit at their slowest safe speed to produce no wake and proceed with caution past the dredging site.

Chart 13212 LNM 39/22

**NEW YORK**

**NY-BROOKLYN-GOWANUS CANAL**

Aquifer Drilling and Testing, Inc. will be conducting geotechnical survey operations in the Gowanus Canal under and near the 9<sup>th</sup> Street Bridge, from **January 9 to 31, 2023**, between 5:00am to 5:00pm. Equipment on scene will be a spud barge via Millers Launch - 30' Beam X 90' LOA, shallow draft tug and crew boat, monitoring VHF-FM CH 13,14, and 16, for any concerned traffic. The tug/ barge will need a slow bell and minimum wake during periods that she is positioning. VTS will be notified of exact dates and timeframes for positioning and the working time frame becomes clearer.

Chart 12326 LNM 52/22

**NY-LONG ISLAND SOUND-HUNTINGTON/OYSTER BAY**

New York State Department of Environmental Conservation, Division of Marine Resources will be conducting marine artificial reef enhancement operations, by deploying concrete buoy sinkers, at Matinecock Reef 40-54-30.32N, 073-37-40.23W, Huntington/Oyster Bay Reef, 40-57-27.0N, 073-27-33.18W, on or around **January 6, 2023**, between daylight hours. Equipment on scene will be the UCSCGC KATHRINE WALKER, monitoring VHF-FM CH 16 for any concerned traffic. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12363 LNM 52/22

**NY-BRONX-HAMMOND COVE**

Frank Scobbo Contractors Inc. Will be conducting dredging operations in Hammond Cove in position 40-48-42.811N, 073-48-11.571W, from December 18 to 31, 2022, 24 hours a day, seven days a week. Equipment on scene will be a mechanical dredge barge, tugboat, two crew boats, and material scow, monitoring VHF-FM CH 13 and 16 for all concerned traffic. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

LNM 51-22

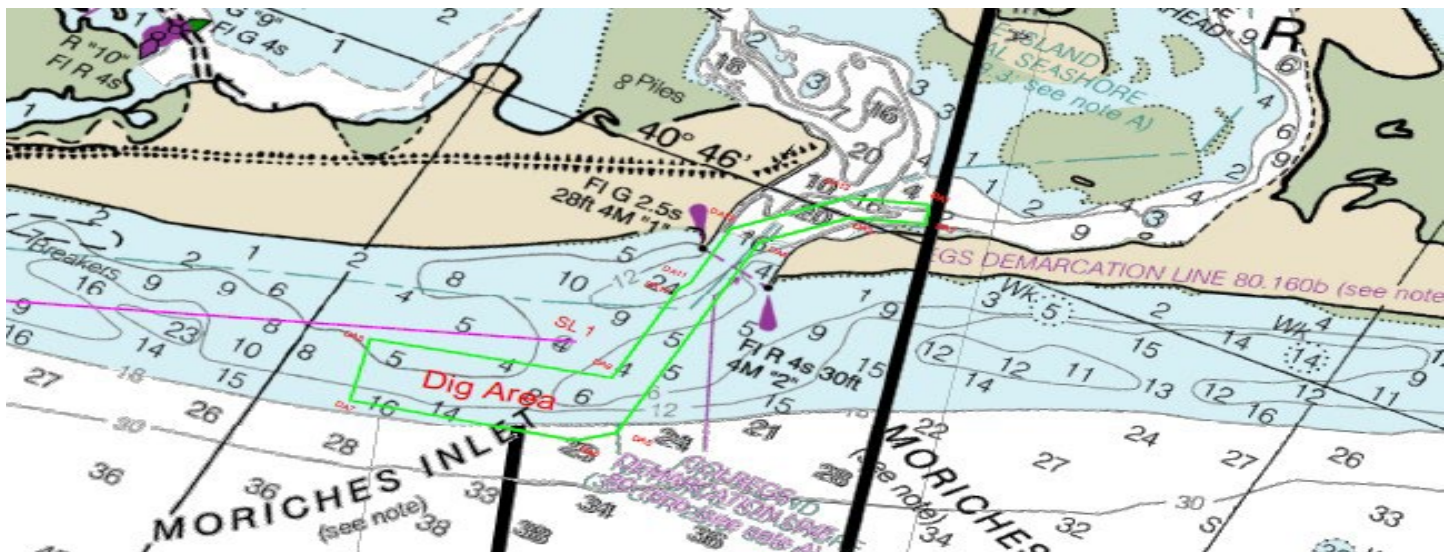

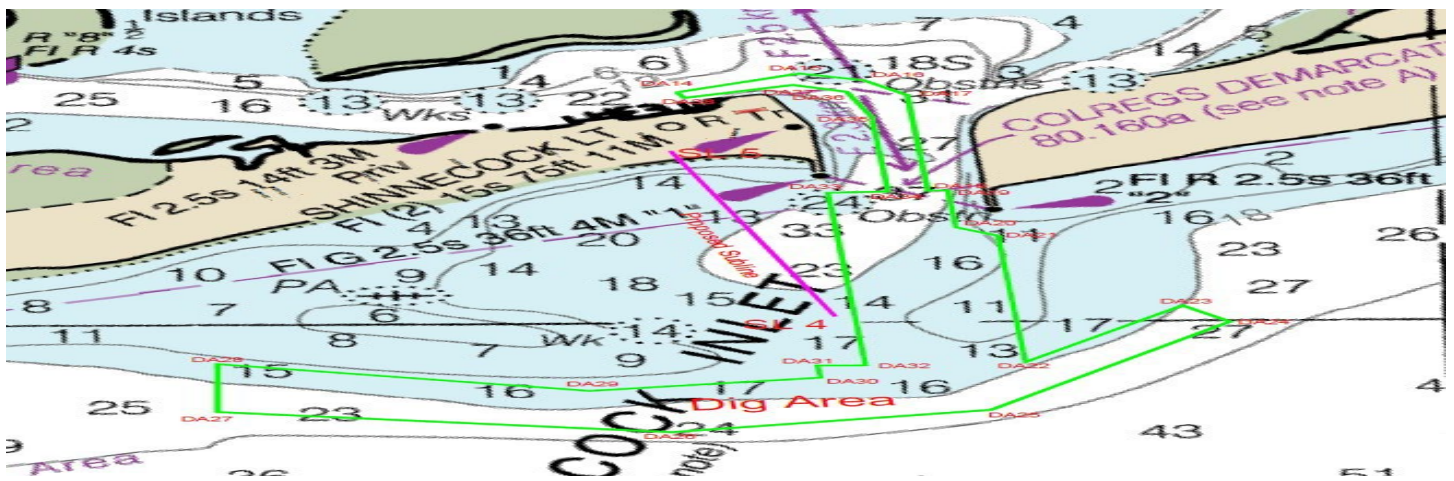

### NY-BROOKLYN-GOWANUS BAY

Donjon Marine Co., Inc. Will be conducting maintenance dredging in Gowanus Bay, Brooklyn, on the south side of Sunset Park Material Recovery facility, in position 40-39-43.8N 074-00-29.0W, from **December 26 to 31, 2022**, seven days a week, between 6:00am to 6:00pm. Equipment on scene will be (1) Dredge, (1) Tending Tug, (1) Hopper Scow, (1) Crew Boat, monitoring VHF-FM CH 13, 16, and 78 for all concerned traffic. This dredge project is a move on demand project, Donjon requests, when possible, a 20-minute notice so that we can move our dredge equipment to a safe location while vessels pass. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12327 LNM 50/22

### NY-LONG ISLAND-SHINNECOCK-MORICHES INLET

Great Lakes Dredge and Dock Company, LLC will be conducting dredging and coastal protection operations, in Shinnecock and Moriches Inlets, from **December 19, 2022, to May 1, 2023**, seven days a week, 24 hours a day. Equipment on scene will be Cutter Suction Dredge Illinois, (4-5) Tugboats, (2) Booster Barges, (1) Survey Vessel, (1) Crew Boat, (1) Derrick Barge, (1-2) Anchor Barges, monitoring VHF-FM CH 13 and 16 for all passing arrangements. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Charts 12352, 12353 LNM 50/22

### NY-MANHATTAN-THE BATTERY

Reicon Group LLC will be conducting fendering rehabilitation work at the Battery Maritime Building, in position 40-42-2.257N 074-0-41.760W, between **December 12, 2022, to May 31, 2023**, Monday through Friday, from 7:00am to 3:30pm. Equipment on scene will be CB Bergen 50'x180' crane barge & 32'x110' material barge and can be reached by phone at 917-560-6100. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12327 LNM 49/22

### NY- HARLEM RIVER

Reicon Group LLC will be conducting pile indicator operations in the Harlem River, in position 40-48-392N, 073-55-44.2888W, 40-48-40.536N, 073-56-2.738W, from **December 5, 2022, to January 31, 2023**, Monday through Friday, between 7:00am to 3:30pm. CB Rockland will be on scene and can be contacted at 917-560-6100, for all concerned traffic. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12342 LNM 49/22

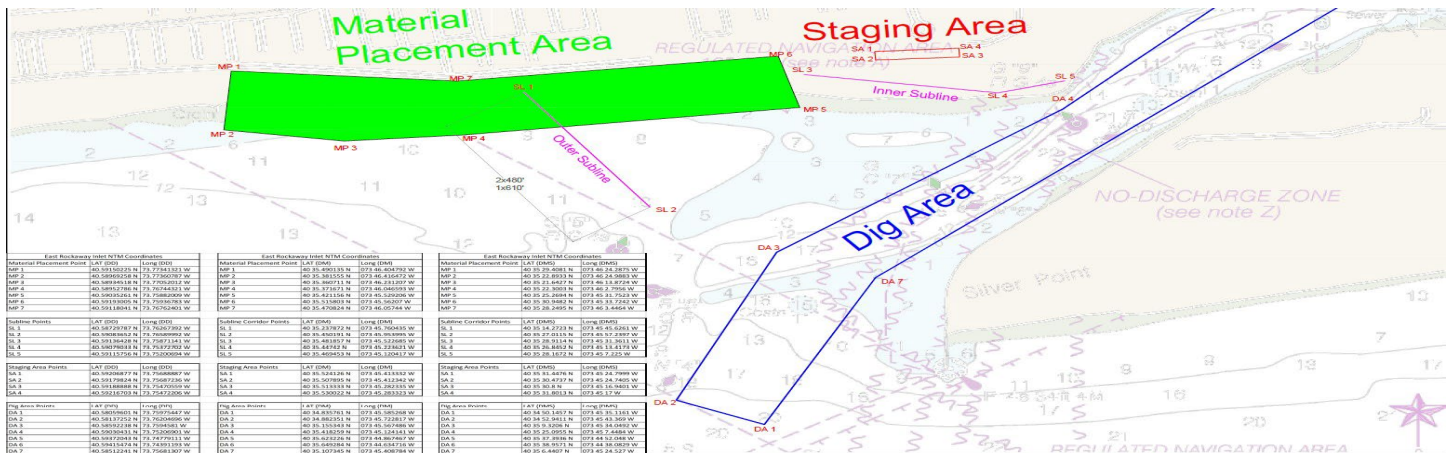

### NY-LONG ISLAND SOUND-STONY BROOK HARBOR

H&L Contracting LLC. Will be conducting cutter suction dredging operations at the Stony Brook Harbor, Porpoise Channel and Yacht Club Spur, in position 40-55-05.39N 073-09-51.49W and 40-55-25.69N, 073-08-55.68W, from **December 12, 2022, to January 23, 2023**, 24 hours a day seven days a week. Equipment on scene will be the dredge FINN and tugs ON THE ROCKS and MIKE. All working vessels will be monitoring VHF-FM CH 63 and 13 and are requesting a 30-minute advance for all movement requests. From the two dredging areas, pipelines will be connected aft of the dredge, pumping the dredged material to Schubert's Beach with spar buoys marking the dredge pipe. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12362 LNM48/22

### NY-EAST ROCKAWAY INLET

Great Lakes Dredge and Dock Co. LLC will be conducting mechanical dredging in East Rockaway Inlet, from **November 30 to December 31, 2022**, seven days a week, 24 hours a day. All working vessels will be monitoring VHF-FM CH 5, 13, and 16 for all concerned traffic and passing arrangements. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

### NY-NEW ROCHELLE

Patriot Marine LLC. Will be conducting Maintenance Dredging with transport from Huguenot Yacht Club in New Rochelle, NY to Clean Earth Dredging Technologies, LLC in Jersey City, NJ, in position 40-53-21.95N 073-47-00.34W, from **November 1, 2022, to January 31, 2023**, seven days a week, 24 hours a day. Equipment on scene will be the TUG MULBERRY, TUG SCHOHARIE, TUG MISS ANNA, & DREDGE 410, monitoring VHF-FM CH 13 and 16 for all concerned traffic and is requesting a ten-minute notice, for all vessel movement requests. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12367 LNM 43/22

### NY-NEW YORK CITY-EAST RIVER

JT Cleary Inc. will be conducting construction repair along the shore line of the East River, in position 40-43-52.147N 073-58-22.976W, from **October 12, 2022 to April 1, 2023**, Monday through Friday, 6:00am to 2:30 pm. Equipment on scene will be a jack up barge, monitoring VHF-FM CH 13 and 16. Mariners transiting the work area are urged to exercise extreme caution, travel at the slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made.

Chart 12339 LNM 42/22

### NY-LONG ISLAND-FIRE ISLAND INLET-MONTAUK

Great Lakes Dredge Co. will be conducting dredging and pumping via two booster pump plants and submerged pipeline approximately 800,000 cubic yards of material from the Fire Island Inlet Channel, with beach placement along the Atlantic shoreline of Robert Moses State Park, NY, from **October 19, 2022, to March 31, 2023**, 24 hours a day seven days a week. Equipment on scene will be the Cutter Suction Dredge ILLINOIS, (4-5) Tugboats, two booster barges, survey vessel, crew boat, derrick barge and an anchor barge, monitoring VHF –FM CH 13 and 16. Mariners transiting the work area are urged to exercise extreme caution, travel at the slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made.

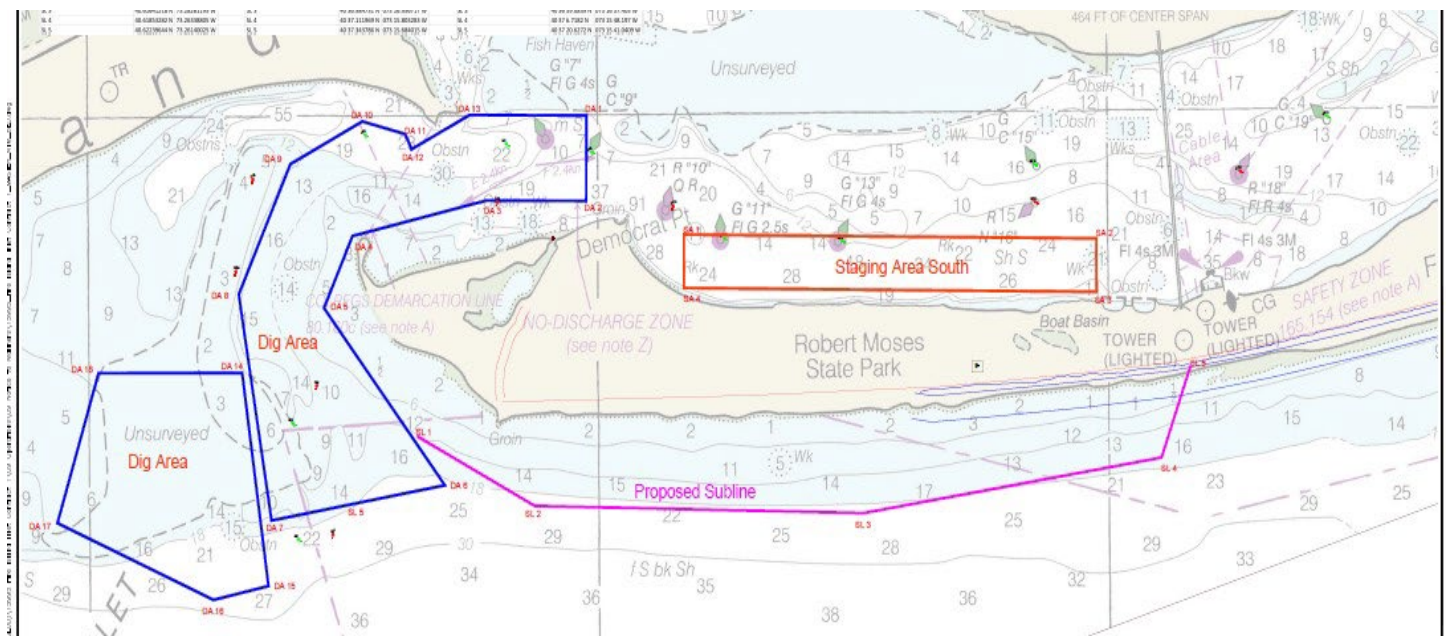

Chart 12352 LNM 42/22

## NY-LONG ISLAND-WAINSCOTT BEACH

Cashman Dredging and Michaels Trenchless Inc. will be conducting Pile Driving, Horizontal Directional Drilling (HDD) off of Wainscott Beach, Long Island, NY and Towing HDPE pipe from Qounset, RI to work site off Wainscott Beach, Long Island, NY, in position 40-55-24.74N 072-13-55.73W, from **October 31, 2022 to March 30, 2023**, seven days a week, between 7:00am to 7:00pm. Equipment on scene will be the Seacor L/V JILL, Seacor S/V BRAVE, S/V Windserve Odyssey Tugs – Rowan McCallister, Buckley McCallister, Matthew McCallister, Rainbow, and Gaspee. The Lift Boat JILL will be spudded down in a box area. Supply Boat BRAVE will make a twice weekly run from Bridgeport, CT to the work site for crew change and supplies, monitoring VHF-FM CH 13 and 16. Mariners are requested to transit the area with caution and minimize wake during mobilization hours 0700-1900 in Bridgeport, CT, and in the vicinity of the Lift Boat JILL.

Chart 12358 LNM 42/22

## NY-LONG ISLAND SOUND- RYE-MILTON HARBOR

Patriot Marine LLC will be conducting maintenance dredging in Milton Harbor, Rye, NY in position 40-57-18.04N 073-41-37.44W, from **October 24, 2022, to January 31, 2023**, seven days a week 24 hours a day. Equipment on scene will be the tug, MULBERRY, SCHOHARIE, SARA, and the dredge 410, monitoring VHF-FM CH 13 and will be transporting and disposing of dredge material, at the Western Long Island Disposal Site (WLDS). Mariners are advised to use caution and transit at slow speed to minimize wake and are asked to give the dredging equipment a ten-minute notice for all movement requests.

Chart 12367 LNM 42/22

## NY-LONG ISLAND-GREEN CREEK-BROWNS RIVER

H&L Contracting LLC. Will be conducting dredging operations at the Timber Point Marina, in Green Creek, Great South Bay, NY, in position 40-43-17.83N 073-05-22.73W, from **October 10 to January 10, 2023**, 24 hours a day seven days a week. The disposal site for the two dredging locations is through Brown's River to Brown's River disposal site in position 40-43-25.41N 073-04-10.39W. The pipeline will be from the two dredging areas, across Great South Bay to the Brown's Creek disposal site. All of the pipe will be marked with crossings and spar buoys. Equipment on scene will be the dredge SCROD and LITTLE DRAGON and the workboats NIXON and DIXIE. All working vessels will be monitoring VHF-FM CH 65 and 16 and are requesting a 30-minute advance for all movement requests. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12353-page C LNM 41/22

**NY-NEW YORK CITY-THE BATTERY**

JT Cleary Inc. will be conducting diver operations at the Battery in New York City, NY, in position 40-42-4.80N 074-0-52.41W, from **October 10, 2022, to May 10, 2023**. Equipment on scene will be an 80'x50' jack up barge, moored at bulkhead not in navigational channels, monitoring VHF-FM CH 4. Mariners are urged to transit at their slowest safe speed to produce no wake and proceed with caution.

Chart 12327 LNM 39/22

**NY-LONG ISLAND-MORICHES BAY**

Dredgit Corporation will be conducting maintenance dredging from **October 11, 2022, through January 15, 2023**, 24 hours a day, seven days a week. Dredging and associated pipeline will be in the vicinity of the Long Island Federal Navigation Channel, Moriches Bay in the following positions: 40-46-44.9831N 072-45-45.7376, 40-46-44.034N 072-45-45.374W, 40-47-09.046N 072-43-52.340W, 40-47-09.995N 072-43-52.703W. Equipment on scene will be, 18' Ellicott Dredge with Idler Barge & Swing Anchors, 18' Ellicott Booster Pump with flex hoses, 20' Dredge Pipeline and multiple work boats, monitoring VHF-FMCH 7,8,13, and 16. The dredge will minimize interference with the use of the Federal Navigation Channel. Dredgit will shift or move the dredge and interrupt dredging operations to accommodate the movement of vessels and floating equipment, if necessary. Mariners are urged to use extreme caution and transit the dredge area at their slowest safe speed to create minimum wake. Mariners are encouraged to utilize the vessels navigational aids, navigational lights and day shapes to determine safest passage. The dredge pipeline will be clearly marked with floats and amber blinking lights.

Chart 12352 LNM 38/22

**NY- BROOKLYN-ATLANTIC BASIN**

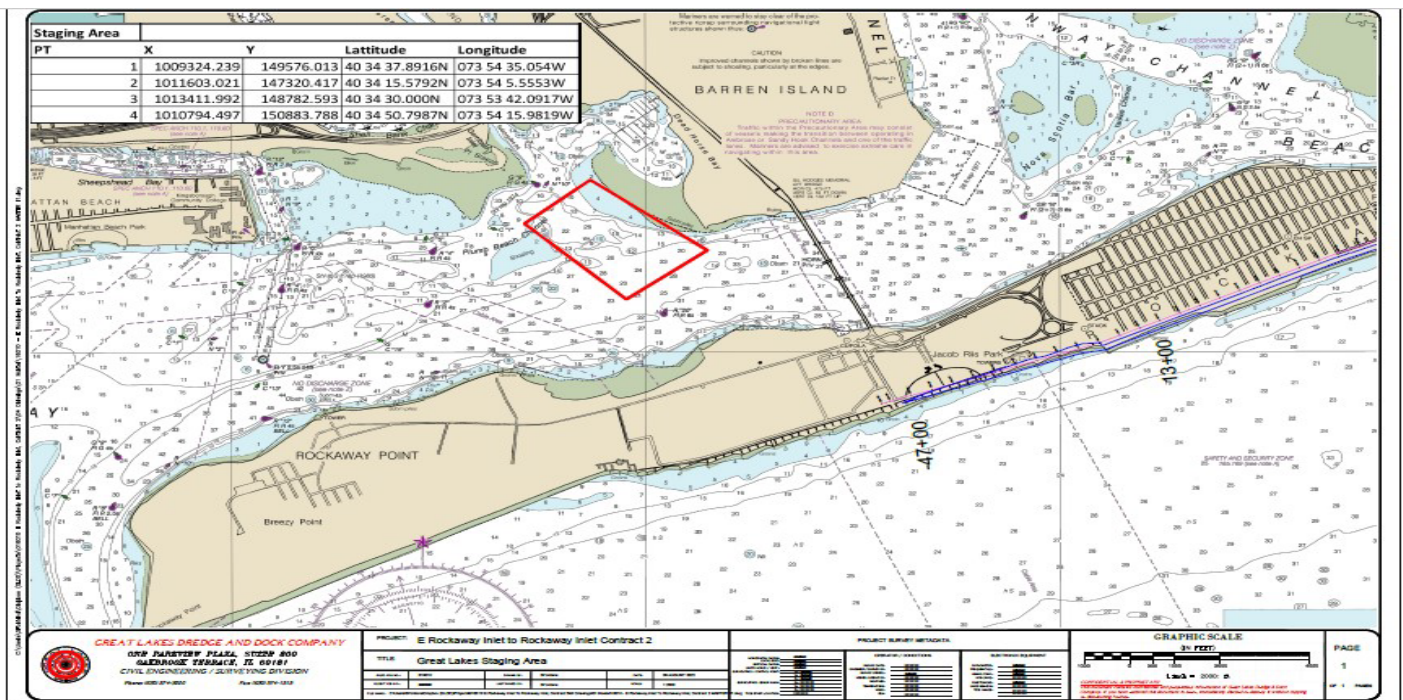

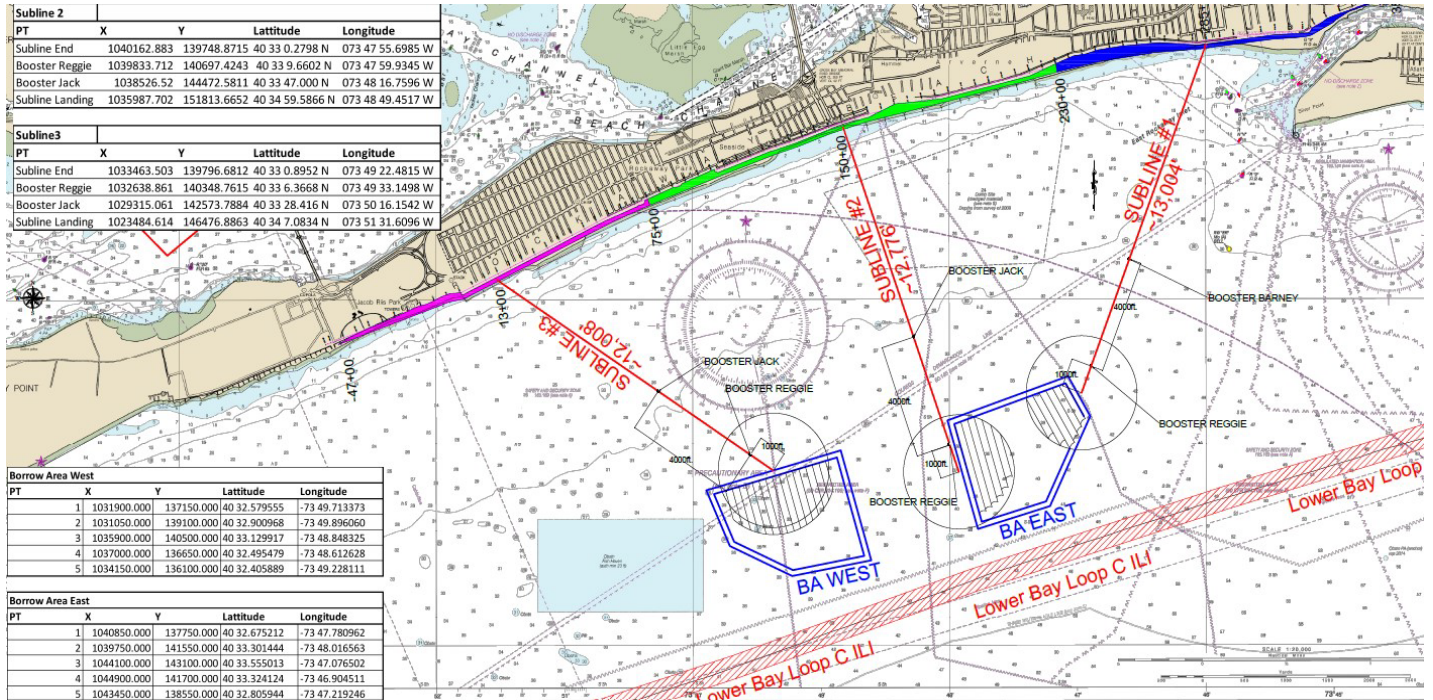

Trevcon Construction Company will be conducting steel pipe and precast pile driving, fender and concrete deck installation, in position 40-40.998N 074-0.658W, in the Atlantic Basin, Brooklyn, NY. Work will run from **September 22, 2022, to July 31, 2023**, from 6:00am to 6:00pm. Equipment on scene will be a 190'X60' crane barge and two 40'X110" material barges. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12327 LNM 38/22

# NY-EAST ROCKAWAY-ROCKAWAY

Great Lakes Dredge and Dock Co. LLC will be conducting dredging operations in East Rockaway Inlet to Rockaway Inlet, Atlantic Shore Front, Rockaway, from **August 12, 2022, to January 31, 2023**, 24 hours a day, seven days a week. Equipment on scene will be the dredge ILLINOIS, DERRICK 70, Tending tugs, CHARLOTTE V, MAVERICK, CANDIACE L, survey boats MIAMI RIVER and MUSKEGON RIVER. All working boats will be monitoring VHF-FM CH 5, 13, and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

**NY-STATEN ISLAND-RARITAN BAY**

Weeks Marine will be constructing 8 rubblemound breakwaters, north of Ward Point, East Reach approximately halfway between the shipping channel and the shoreline, in position 40-29-37.9841N 074-14-48.6976W and 40-29-54.3500N, 074-13-56.6352W, from **April 1-June 30, 2023**, Mon-Friday 5:00am to 5:00 pm. Equipment on scene will be W537 (250’x64’x16’), W80 (150’x80’x13’) W201-205 (130’x40’x11’) W291 (180’x54’x14’) LISA D. Crew boat (47’x13’x4’), JESSE O. Workboat (25’x11’x6’). The barges will remain on scene overnight and on weekends and will be properly marked and lit. W537 will be on anchors, W80 will be on spuds and all other barges will be moored alongside. Mariners operating or transiting in the area, are requested to give a 0.5 nautical mile closest point of approach and are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made with the dredge. All vessels will be monitoring VHF CH 16 and 82.

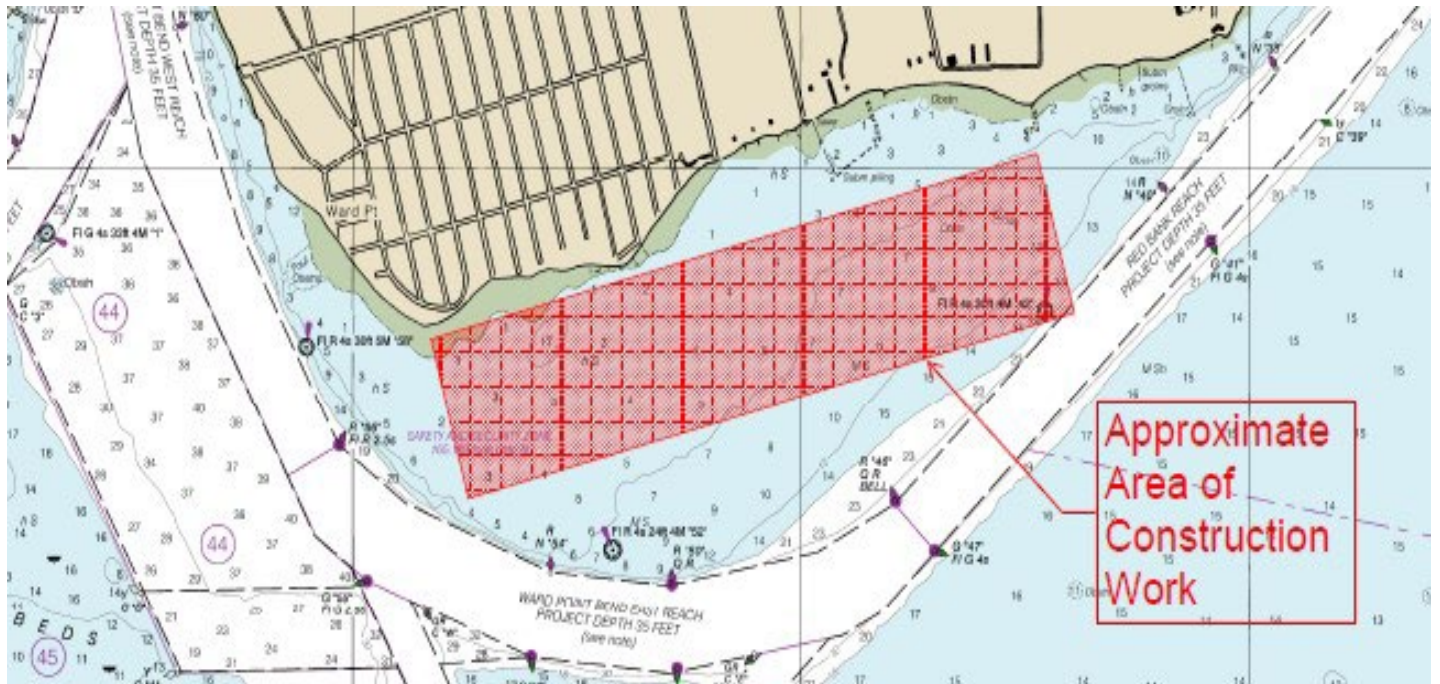

Chart 12331 LNM/20/22

**NY-NYC-EAST RIVER**

IPCP will be conducting esplanade, bulkhead, and park reconstruction, on the East River, Montgomery St to East 14<sup>th</sup> Street, from **January 2022 to December 2026**, 5-7 days a week, between 6:00am to 6:00pm. Equipment on scene will be Tugboat DEBRA QUINN, Inspection Boat, 290 x 40 Mooring Barges, 250 x 62 Gantry Crane Barge, Crawler Crane Barge, 150 x 60 Deck Barges, 140 x 40 Hopper Barges All moving of vessels to occur by tugboat; vessels will be moved at all times of day and night and will be monitoring VHF-CH 13 and 66. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Chart 12339 LNM 20/22

**NY-EAST RIVER-BROOKLYN BRIDGE-EAST BRIDGE PARK**

Phoenix Marine Co. will be conducting diver operations in the East River, Pier 2, Brooklyn Bridge Park, in position 40-41-58.4628N, 073-59-55.6656W. Work will be conducted between 6:00am-2:00pm, from **May 9-December 31, 2022**. Equipment on scene will be a 130’X60’ stationary spud barge monitoring VHF-CH 13 and 74. Mariners transiting the work area are urged to exercise extreme caution, travel at the slowest safe speed to minimize wake, and proceed with caution.

Chart 12327 LNM 17/22

## **NY-UPPER NEW YORK HARBOR, BROOKLYN**

IT Cleary, Inc. will be conducting reconstruction of West Berth Platform, Installation of piles/ precast concrete work and demolition and reconstructive work of North Berth Platform and Inshore Return Platform in Brooklyn NY, at the OWT's Head Wastewater Treatment Plant 6700 Shore Rd. West Sludge pumping dock. In position 40-38-39.53N and 74-02-02.84W, 40-38-37.14N and 074-02-05.40W, 40-38-40.16N and 074-02-03.86W, 40-38-37.65N and 074-02-06.50W. Work will be done from **21 March 2022 to 30 December 2024**, Monday through Friday 6:00am - 6:00pm. Equipment of scene will be a Crane on barges with Spuds, material barge, hopper barges, work boats. The crew boat will be monitoring VHF-FM Channel 13 and 16 during working hours. Barges/equipment will not impede passage of any vessel. However, barges may be staged 50ft into east edge of The Bay Ridge Channel. Barges will be spudded down along shoreline. All moving of vessels to occur by tugboat. Mariners are urged to travel slowest safe speed to minimize wake.

Chart 12334 LNM: 11/22

## **NY-EAST RIVER, HARLEM RIVER, NEWTOWN CREEK**

Bud South, LLC. Will be conducting Riprap shoreline maintenance and outfall pipe installation within Newtown Creek, shoreline of property at 55-01 2<sup>nd</sup> Street (AKA 2-20 Malt Drive), NY in approximate position 40-44-20N 073-57-32W. Work will be conducted from **28 December 2021 – 31 December 2022**, from 7:30am – 5:30pm. Equipment on scene will be a turbidity curtain, steel sheeting, concrete outfall, an Eco-Mat, a Robotize Hammer, 2 excavator, front end loader, and a pile driver. No vessels will be used in the water. Mariners are urged to exercise caution when in the vicinity.

Chart 12338 52/21

## **NY-EAST RIVER-MONGOMERY STREET TO E 14 STREET**

IPCRIP will be conducting Esplanade, bulkhead and park reconstruction work on the East River at Montgomery and East 14<sup>th</sup> Streets, in position 40-42-54.0N/ 073-58-27.7W from **01 January 2022 to 31 December 2026**, Monday to Friday from 6:00am to 5:00pm. Equipment on scene will be tugboat, mooring barges, material handling barges, a crane barge and deck barge. Vessels will be on scene monitoring CH 13 and 66. Vessels will need a one-hour notification to move. Mariners are urged to transit at their slowest safe speed to minimize wake.

Chart 12335 LNM 50/21

## **NY-GOWANUS CANAL**

The Gowanus Canal is closed to all recreational boating between 9th Street and Butler Street, including use of the 2nd Street public boat launch, at the direction of the U.S. Environmental Protection Agency (USEPA), the lead federal agency for the Gowanus Canal Superfund Site, due to the ongoing construction of the dredging and capping remedy of the canal until further notice unless specific advance written authorization is granted by USEPA. Contact: (212) 637-3639. For further information: <https://gowanussuperfund.com>.

Chart 12334 LNM 20/21

**NEW JERSEY****NJ- SEA BRIGHT- BARNEGAT**

Weeks Marnie will be conducting dredging operations and will be mobilizing equipment in the vicinity of Barnegat Inlet, NJ. The staging area will be bound by the following approximate positions:

39°46'6.66"N, 74° 7'11.88"W, 39°46'6.36"N, 74° 6'57.60"W, 39°45'37.26"N, 74° 7'8.70"W

39°45'37.98"N, 74° 6'52.50"W. Starting approximately **December 22, 2022, and continuing until approximately**

**March 1, 2023**, the hopper dredge(s) "R.N. Weeks" and "B.E. Lindholm" will be operating three (3) nautical miles offshore of Sea Bright Beach, Sea Bright, NJ. Work limits for the Borrow Area will be the perimeter bound by the following approximate positions: 40°26'7.43"N, 73°56'34.48"W, 40°26'7.74"N, 73°54'36.65"W, 40°23'57.45"N,

73°54'36.76"W, 40°24'0.08"N, 73°56'35.78"W. Dredged material will be transported through a combination of floating and submerged line reaching between 2,500 feet to 4,500 feet offshore from Elberon Beach, NJ. The proposed pipeline corridor will be bound by the following approximate positions: 40°16'52.81"N, 73°58'54.81"W, 40°16'47.21"N,

73°57'47.97"W, 40°15'35.49"N, 73°58'2.51"W, 40°15'49.29"N, 73°59'12.66"W. Operations will continue a twenty-four (24) hours per day, seven days per week basis. The dredge and tugs will monitor marine VHF channels 13 and 16.

Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. Pipeline and equipment will have all required lighting for night operations.

Chart 12324 LNM 49/22

**NJ-NEW JERSEY- AUTHER KILL-CARTERET**

Donjon Marine Co. Inc. will be conducting maintenance dredging, at the New Jersey Carteret Ferry Terminal, in position 40-34-22.101N 074-12-46.551W. Dredging will run from **November 30 to December 31, 2022**, seven days a week, between 6:00am to 6:00pm. Equipment on scene will be one dredge, one tending tug, and two hopper scows. All working vessels will be monitoring VHF-FM CH 13, 16, and 78. This will be a move on demand dredge project. Donjon Marine request a 20-minute courtesy call to move when possible. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 12327 LNM 47/22

**NJ-BAYONNE**

JT Cleary Inc. will be conducting maintenance dredging at the Duraport Terminal at 12 E 2<sup>nd</sup> Street, Bayonne, NJ, between **November 7 to December 31, 2022**, Monday through Friday, 6:00am to 6:00pm. Equipment on scene will be JTC Dredge (clamshell barge), JTC 35200A hopper barge, Carver hopper Barge A, Carver Hopper Barge B, push boat, and the tug TULLY TIME. Dredging will be conducted in the following positions:

40-38-40.36056N, 074-7-26.16852W, 40-38-41.49096N, 074-7-18.28992W, 40-38-43.01844N, 074-7-13.8514W

40-38-44.25972N, 074-7-14.96676W, 40-38-42.76968N, 074-7-26.15232W, 40-38-43.77444N, 074-7-26.14548W

40-38-45.15576N, 074-7-15.77136W. Passing arrangements can be made on VHF-FM CH 13. 24 hour on scene point of contact is Dylan Levy (929) 766-9242 or Tom McIntosh (201) 417-4115. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

Chart 12333 LNM 45/22

## **NJ-JERSEY CITY**

Trevcon Construction Company Inc. will be installing precast concrete elements, placement of stone and structural concrete work at the Global Container Terminal, Jersey City, in position 40-40-8.900N 074-4-30.312W, from **October 24, 2022, to December 31, 2024**, between 5:00am to 7:00pm. Equipment on scene will be multiple barges and work vessels, monitoring VHF-FM CH 13 and 16 for any vessel passing or movement request. Mariners are urged to transit at their slowest safe speed to produce no wake and proceed with caution.

Chart 12316 LNM 39/22

## **NJ-NEWARK BAY-PORT NEWARK CHANNEL**

Donjon Marine Co. Inc. will be conducting maintenance dredging in Newark Bay and Port Newark channel, in position 40-44.626N, 074-8-31.621W. Dredging will run between **August 19, 2022, to February 2023**, seven days a week, 24 hours a day. Equipment on scene will be (1) Dredge, (1) tending tug, hopper scows, (1) towing tug for loaded scows, (1) crew boat, monitoring VHF-FM CH 13, 14, and 78. This is a move on demand dredge project, Donjon will maintain a tending tug on the dredge site to move the dredge & scow if needed. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

**OFFSHORE WIND ENERGY/ONGOING WORK**

**Updated 12/28/2022**

**New information highlighted in Yellow**

**NY-LONG ISLAND OFFSHORE-WAINSCOTT BEACH AREA-Update 11/03/2022**

ORSTED will be deployed for an indefinite time in an area bounded on the east by moorings located at 40° 56' 33.0612"N, 72°10' 40.9188"W (inshore) and 40° 51' 41.5188"N, 72° 6' 52.6212"W (offshore) and on the west by moorings located at 40° 54' 6.3612"N, 72°17' 2.8788"W (inshore) and 40° 49' 34.5"N, 72° 13' 27.9588"W (offshore). Concerns and for more information, see South Fork Wind below or contact Orsted Northeast Marine Affairs Manager, John Mansolillo, [JOMAN@orsted.com](mailto:JOMAN@orsted.com) , 401-450-5467.

LNM 37/21

**MA-NANTUCKET SOUND-Updated 10/29/2022**

On or about the 30th of October in preparation for Cable Laying Operations there will be a construction barge and a materials barge along with tugs KODIAK and BUCKY performing Diving Operations at the HDD Cable ducts to get the cables ready for connection and pull-in to the beach. Additionally, six smaller workboats and a Crew Transfer Vessel will assist in these operations. Subsequently, the Cable Barge ULISSE will be towed to site by the NICOLE FOSS and begin conducting cable laying operations approximately 700m (0.4nm) off Covell's Beach, Barnstable. The cable will be pulled to shore by an onshore winch, once secured the ULISSE will lay and bury the cable away from the beach out to the Cape Poge area. Attending the ULISSE cable laying operations will be the support vessels MENA C & MARTINE P that will be performing anchor handling for the operations. Two local fishing vessels will be operating around the activities as safety vessels to monitor traffic and facilitate the safe movement of fishing vessels, recreational craft, or other transiting vessels, around the work sites and project vessels. All Mariners transiting or fishing in the area are requested to give a wide berth to the vessels as they are limited in their ability to maneuver, and the Cable layer ULISSE will have gear out 1500m ahead of the vessel and up to 1500 meters behind the vessel. The ULISSE will operate on a 5-point mooring spread utilizing the full width of the Offshore Export Cable Corridor (OECC). The mooring spread will consist of four

### Encl 3

positioning anchors positioned up to 1 km or 0.54 nm from the barge and a single pulling anchor positioned up to 1.5 km or 0.82 nm. Her anchors will be deployed with pennant buoys and will be marshalled by various support vessels. Vessels in the vicinity of the operations are requested to operate in a manner as to not endanger the vessel or associated equipment. Passing arrangement can be made via VHF with the vessels on VHF-FM CH 13 and 16. Additional information on this project can be viewed at the following link: <https://www.vineyardwind.com/mariners-updates/70>

LNM 44/22

### ATLANTIC OCEAN-SOUTH FORK WIND

South Fork Wind will install a temporary metocean wave buoy with a single mooring anchor in position 40-55-04.24 N 072-14-04.819 W. The buoy will be set on or about **11/9/2022 and removed on or about 04/30/2023**. The wave buoy will provide real-time sea conditions to inform activities in the area. Work at South Fork Wind's cable landfall area is bounded by positions 40- 55 24.2N 072-14-22.812W, 40-55-43.2114N 072-13-41.844W, 40-55-02.7114N 072-14-5.28W, 40-55-21.9N 072-13-24.312W, approximately 1500 yards off Beach Lane, East Hampton, NY. The jack up vessel Lift Boat JILL, attended by support vessels, to include the Seacor BRAVE and a work skiff, will be on scene from as early as 11/14/22 through 03/31/2023. Boulder clearance vessel Laney Chouest may be in New York state waters during winter 2023. When the Lift Boat JILL departs scene, the pipe installed will have its end temporarily marked with a single, unlit, red A3 sized Cherry Fender in position 40-55-24.74N 072-13-55.73W. Future work in NYS waters will include both removal of the wave buoy and interconnection of the export cable, in 2023. Vessels will be available on VHF FM 16 and 13. Mariners are advised to use caution when transiting the area.

Chart 13303 LNM 44/22

## ATLANTIC OCEAN-BETWEEN BARNAGET LIGHT AND ATLANTIC CITY

Fugro will be conducting geotechnical survey operations **between June 1, 2022 to March 31, 2023** 16 miles off the New Jersey coast, between Barnaget Light and Atlantic City, bounded by the following positions:

NE Corner: 39° 40' 22"N / 73° 56' 11"W.

SE Corner: 39° 15' 43"N / 73° 56' 34"W.

S Corner: 39° 08' 40"N / 74° 05' 50"W.

SW Corner: 39° 16' 31"N / 74° 14' 55"W.

NW Corner: 39° 35' 14"N / 74° 02' 59"W.

Equipment on scene will be the Seabed CPR Unit – Fugro Seacalf and Geotechnical Drilling Rig – Fugro C30 and the HOS Browning will be monitoring VHF-FM CH 16 for safe passing arrangements. The HOS Browning will be restricted in her ability to maneuver for extended periods (up to 72 hours) and is requesting mariners operating in or transiting the area to give a 1 nautical mile, closest point of approach. Mariners are advised to use caution and transit at slow speed to minimize wake when transiting the area.

Chart 13003 LNM 44/22

## NY-LONG ISLAND-EAST HAMPTON

South Fork Wind intends to install a temporary metocean wave buoy with a single mooring anchor in position 40-55-04.24 N 072-14-04.819 W. The buoy will be set on or about **10/19/2022 and removed on or about 04/30/2023**. The purpose of this wave buoy is to provide real-time sea conditions to inform activities in the area. Work to begin efforts at South Fork Wind's cable landfall area will be conducted in a box bounded by positions: 40- 55 24.2N 072-14-22.812W, 40-55-43.2114N 072-13-41.844W, 40-55-02.7114N 072-14-5.28W, 40-55-21.9N 072-13-24.312W, (see chart below), approximately 1500 yards off Beach Lane, East Hampton, NY. The jack up vessel Lift Boat JILL, attended by support vessels, to include the Seacor BRAVE, will be on scene from as early as 11/14/2022 to as late as 02/28/2023. Vessels will be available on VHF FM 16 and 13. Mariners are advised to use caution when transiting the area.

**Encl 3**

**ATLANTIC OCEAN-COMMONWEALTH WIND-OSC-A 0534**

Avangrid Renewables was informed by its contractor that an 11 m length of coiled rod, seismic cone, and 2 sections of casing were lost in the seafloor, in position 40-52-59.905N 070-43-19.333W. The loss occurred on August 23, 2022 while performing routine geotechnical surveys (cone penetration testing) in Lease OCS-A 0534. The available evidence suggests that the marine debris is 0.78 m below the seabed. There are no hazardous materials or oil within the debris. Therefore, the lost gear is not reasonably recoverable and should not interfere with other OCS uses or the environment.

LNM 37/22

# Acoustic Monitoring of Highly Migratory Fish Species in RI/MA Wind Energy Areas

The New England Aquarium and INSPIRE Environmental are conducting research on the movements of highly migratory fish species (sharks, tunas, and marlins) in the southern New England wind energy area. Part of this research requires acoustic receivers to be placed on the sea floor in the locations shown as colored circles in the below map. To reduce the risk of entangling protected species, receivers have no surface buoys and are connected to a mooring system weighing approximately 75 pounds that extends 2 to 3 meters (6 to 9 feet) off the sea floor, as shown in the below photo. To reduce risk of interaction with mobile fishing gear, receivers have been placed near obstructions to the extent possible. All receivers will be deployed in these locations until December 15, 2022.

For more information on the research, please contact the New England Aquarium or INSPIRE Environmental. For information on activities in a particular offshore wind lease area, please contact the developer staff listed below.

# Gear loss claim Instructions

## Instructions

To have a claim reviewed, applicants must:

1. Contact Ørsted Offshore North America's Corporate Fisheries Liaison or a Regional Fisheries Liaison as soon as safe and in all instances within 14 days to notify them of incident. Contact information for the Fisheries Liaisons is below.

Corporate Fisheries Liaison  
Rodney Avila  
rodav@orsted.com  
857-332-4479

Mid-Atlantic Fisheries Liaison  
Kara Gross  
kargr@orsted.com  
857-330-7699

NY/CT Fisheries Liaison  
Julia Prince  
julpr@orsted.com  
631-662-3775

RI/MA Fisheries Liaison  
Chris Sarro  
chsar@orsted.com  
857-276-1332

2. Provide responses to each item in the Gear Claim Application Form. Applicants may print the form found here <https://bit.ly/3q1XNo3> and submit the completed form with required documents to Ørsted Offshore North America's Corporate Fisheries Liaison and the appropriate Regional Fisheries Liaison via email.
3. Submit the completed application within 30 days of incident.

## Overview of gear loss claim form review process

Claims will be reviewed by Ørsted Offshore North America for completeness. Incomplete submissions will be rejected and applicants will be notified. If an application is rejected for incompleteness, an Applicant may resubmit a complete application within 30 days after receiving an incomplete notice.

Complete applications will be substantively reviewed by the Fisheries Representative for the Applicant's home port, the Ørsted Offshore North America Fisheries Liaison, and a representative of Ørsted Offshore North America. A majority of these three individuals is necessary to approve a claim. Applicants will be notified of Ørsted Offshore North America's findings, in writing, within 30 days of receipt of a complete application.

If a finding is made that the gear loss resulted from an interaction with a vessel or equipment associated with one of Ørsted Offshore North America's projects, Ørsted Offshore North America will notify the Applicant of the amount to be paid and issue a check for that amount within five business days of the expiration of the Notice of Appeal period.

If the claim is denied, a written explanation will be provided to the Applicant.

Applicants who disagree with the decision, or part of a decision, will have an opportunity for an appeal as described below.

### Required elements of gear loss claim form

1. The name, mailing address, telephone number, email address, and employment status (i.e. vessel owner, operator/captain, or crew) of each claimant.
2. Coast Guard Documentation Number or State Registration Number of the Vessel
3. Copy of a valid fishing permit
4. Home Port of the Vessel
5. Type of Vessel
6. Size of Vessel
7. Gear type
8. Claim amount
9. A full statement about the damage and/or loss. The statement must include:
  - Date the damage or loss was first discovered
  - If mobile gear, your vessel's direction, speed, and activities immediately before, during, and after the incident (including a full description of both the deployment of any fishing gear which is the subject of the claim and all attempts at retrieval of the gear)
  - Names and addresses of all witnesses to the incident
  - Specific location of incident in LORAN or LAT/LONG
  - If available, a description of the vessel, item, or obstruction which caused the incident and whether or not any surface markers were attached to or near the obstruction
  - Reasoning why the loss and/or damage is associated with Ørsted Offshore North America activities
10. In order to receive compensation for lost or damaged gear, please provide the following:
  - An itemized and complete list of all lost and/or damaged fishing gear
  - Proof of purchase of all lost and/or damaged gear
  - An estimate from a gear repair or supply company to repair or replace lost or damaged gear
  - If you are repairing the gear by yourself, a detailed estimate identifying the repair cost
11. If claiming economic loss, please submit the following:
  - VTRs for the three fishing trips immediately before the trip during which the loss occurred or was discovered
  - VTR for the trip on which the loss occurred or was discovered
  - VTR for the trip immediately following the trip on which the loss occurred or was discovered
  - If mobile gear, a statement describing the amount of time each of the above trips took
  - If fixed gear, a statement on the number of gear units deployed on each trip
  - A statement of the amount of time lost from fishing because of the gear loss and/or damage and a full explanation of why this time period is reasonable
  - Documentation of the date replacement gear was ordered and received or the date gear repair began and ended

If awarded based on a review of the information submitted, economic loss will be paid in the amount of 50 percent of the Applicant's gross income, as estimated by Ørsted Offshore North America, that the Applicant will lose because of not being able to fish, or having to reduce fishing effort, during the period before the Applicant's damaged or lost fishing gear is replaced and available for use. This period begins on the date of the incident and ends on the date the damage could reasonably have been remedied by repair or replacement.

## Appeal process

- Within 30 days after the written decision is issued, Applicants who disagree with the decision, or part of a decision, may file a written notice of appeal by sending the notice to Ørsted North America's Corporate Fisheries Liaison and ROSPE@orsted.com. Notice of Appeal forms can be found here <https://bit.ly/35qbs0i>
- All decisions will become final 30 days after the date indicated on the decision. Appeals made after 30 days will not be accepted.
- The notice of appeal must state the reason for the appeal and an explanation as to why the Applicant believes Ørsted Offshore North America's findings are incorrect. Incomplete notices of appeal will not be accepted.
- Ørsted will provide an Independent Third-Party Reviewer (ITR) with the notice of appeal and the applicant's complete application.
- The ITR will, within 30 days, review the issues raised in the notice of appeal and issue a written determination.
- The ITR's decision will be final and not subject to any further right of appeal.

## Required elements of gear loss claim form

1. A full statement about the damage and/or loss. The statement must include:
  - Date the damage or loss was first discovered
  - If mobile gear, your vessel's direction, speed, and activities immediately before, during, and after the incident (including a full description of both the deployment of any fishing gear which is the subject of the claim and all attempts at retrieval of the gear)
  - Names and addresses of all witnesses to the incident
  - Specific location of incident in LORAN or LAT/LONG
  - If available, a description of the vessel, item, or obstruction which caused the incident and whether or not any surface markers were attached to or near the obstruction
  - Reasoning why the loss and/or damage is associated with Ørsted Offshore North America activities
2. In order to receive compensation for lost or damaged gear, please provide the following:
  - An itemized and complete list of all lost and/or damaged fishing gear
  - Proof of purchase of all lost and/or damaged gear
  - An estimate from a gear repair or supply company to repair or replace lost or damaged gear
  - If you are repairing the gear by yourself, a detailed estimate identifying the repair cost
3. If claiming economic loss, please submit the following:
  - VTRs for the three fishing trips immediately before the trip during which the loss occurred or was discovered
  - VTR for the trip on which the loss occurred or was discovered
  - VTR for the trip immediately following the trip on which the loss occurred or was discovered
  - If mobile gear, a statement describing the amount of time each of the above trips took
  - If fixed gear, a statement on the number of gear units deployed on each trip
  - A statement of the amount of time lost from fishing because of the gear loss and/or damage and a full explanation of why this time period is reasonable
  - Documentation of the date replacement gear was ordered and received or the date gear repair began and ended

By submitting this Application, Applicant authorizes Ørsted Offshore North America Inc. to make whatever reasonable inquiries and investigations it deems necessary to verify the Application and request for compensation. Applicant understands that submitting this Application does not guarantee payment. Applicant further agrees that if the claim is accepted and paid, acceptance of such payment constitutes full, final and complete payment for this particular claim and that neither Ørsted Offshore North America Inc., nor any of its affiliates or joint venture partners shall have any further outstanding or ongoing obligation with respect to this particular claim and Applicant shall not, directly or indirectly, assert any claim, or commence, join in, prosecute, participate in, or fund any part of, any suit or other proceeding of any kind against Ørsted Offshore North America Inc., or any of its affiliates or joint venture partners, based upon this particular claim. If a claim is denied in part, Applicant may accept payment for the undisputed portion, as long as a release for that portion is provided, without waiving Applicant's right to appeal the disputed part of the claim. Applicant recognizes that submission of this Application does not affect Applicant's rights concerning matters other than those specifically identified in this particular Application. Finally, Applicant attests under penalty of perjury that to the best of Applicant's knowledge the information submitted is true and correct.

**BOSTON HARBOR – LONG ISLAND BRIDGE – Preliminary Public Notice** – The City of Boston is proposing to replace the superstructure on the Long Island Bridge between Moon Island and Long Island in Boston Harbor. This Preliminary Public Notice solicits public comment on the proposed clearances for the replacement superstructure. The full text of the Preliminary Public Notice can be found at [Public Notices for Bridges | Navigation Center \(uscg.gov\)](https://www.uscg.gov/Navigation-Center/Public-Notices-for-Bridges). Interested parties are requested to provide their input to the Coast Guard on the impacts of the proposal to navigation. Comments may be submitted to the office of the Commander (dpb), First Coast Guard District Bridge Branch at the address on the Public Notice, or by email to [SMB-DI Boston-Bridges-PublicNotices@uscg.mil](mailto:SMB-DI-Boston-Bridges-PublicNotices@uscg.mil) through **January 6, 2023**. A Navigation Impact Study and Navigation Study Supplement providing additional information may be found at <https://www.boston.gov/long-island#related-info>  
Chart 13270 LNM 52/22 (CGD1)

**MASSACHUSETTS - BOSTON HARBOR – Bridge Repairs** – Contractors are installing fiberglass pile jackets on deteriorated timber supports on the Spinnaker Island Bridge through **December 30, 2022**. Work hours are from 6 a.m. to 6 p.m. Monday – Friday. Divers will be on-scene throughout construction. A minimum of 10 spans will be open at all times for transit under the bridge by small boats, canoes and kayaks. Work floats, a support barge, support vessels, and dive operations will block passage through the spans as the work progresses. There will be no reduction in vertical clearance on the open spans. Questions may be directed to Nathan Fontaine, Project Superintendent for ACK Marine & General Contracting at 978-798-8063 or Danielle Goudreau, Collins Engineers at 401-287-8864. Mariners are advised to plan their transits accordingly and exercise caution.  
Chart 13270 LNM 52/22 (CGD1)

**Encl 4**

**MASSACHUSETTS – BOSTON INNER HARBOR – MYSTIC RIVER – Bridge Repairs** – A 13 month bridge repair project will be conducted at the Tobin Bridge, mile 0.1, across the Mystic River between Boston and Chelsea from May 1, 2022, through **June, 2023**. Working hours are from 0600 to 1500 and from 1900 to 0400, Monday through Friday. Work will be conducted outside of the 600 foot navigation channel with the exception of Under Bridge Inspection Units which will reduce the vertical clearance over the 600 foot navigation channel by approximately 10 feet for two to three weeks at the beginning of the project and for two to three weeks at the end of the project. Coast Guard Sector Boston will coordinate with the pilots and SPS New England so the Under Bridge Inspection Units are not operating over the navigation channel during the passage of deep draft vessels. Temporary scaffolding and work platforms will at times be installed around the bridge piers and lighted with constant red lights. Except when barges are relocated, barges will operate outside of the 600 foot channel. The barges will be lit with constant burning white lights on all four corners. Barge operators will monitor VHF channels 13/16. Questions may be directed to Darren Saunders, Project Manager for SPS New England at 508-982-4652; Patrick Blais, Project Superintendent for SPS New England at 978-994-2741 or Tim Chase, Coast Guard Sector Boston at 617-447-1620. Mariners should use caution while transiting the area  
Chart 13272 LNM 52/22 (CGD1)

**MASSACHUSETTS - BOSTON HARBOR - NEPONSET RIVER – Bridge Repairs - Channel Restrictions for the Granite Avenue Bridge** - From January 3 to **April 30, 2023**, from 7 a.m. to 5 p.m. (Monday through Friday) and 7 p.m. to 5 a.m. (Sunday through Thursday) the horizontal clearance will be reduced to 30 feet (MHW). Vertical clearance will be reduced to 5 feet (MHW). Vessels capable of passing through the bridge in the closed position will be allowed to do so. Work vessels will monitor VHF channels 13/16. The draw will be able to open for vessels and the contractor can provide a full horizontal clearance provided at least one hour notice is given by calling Andrew Chamberland, SPS New England, Inc. at 508-328-8828. There will be no clearance restrictions on holidays. Questions may be directed to Tom Mulry, MassDOT, at 617-963-4233 or Noah Chinburg, SPS New England, Inc. at 603-682-6763. Mariners are advised to plan their transits accordingly.  
Chart 13270 LNM 52/22 (CGD1)

**MASSACHUSETTS – SALEM AND LYNN HARBORS – BELDEN BLY DRAWBRIDGE – Channel Restrictions**  
Mariners are advised that MassDOT has commenced construction of the new Belden Bly (Route 107) Drawbridge over the Saugus River. From January 23 through **February 4, 2023**, barges will conduct dredging in the navigation channel from 6 a.m. to 7 p.m. daily. The barges will move for transiting vessels upon request via VHF radio channels 13/16 and will be moored outside of the channel after working hours. From January 16 through **January 23, 2023**, there will be a full channel closure to allow the installation of submarine cables. A 100 yard Safety Zone will be in effect for the duration of the full channel closure. Vessels will not be able to pass through the bridge site during this period without permission from the Sector Boston COTP. Questions may be directed to William Schurman, SPS New England at 978-265-7263, Peter Tramontozzi, MassDOT Highway Division at 617-279-9022 or Brian Zilinsky MassDOT at 617-223-1596. Mariners are urged plan accordingly for the channel restrictions and to transit with caution.  
Chart 13275 LNM 52/22(CGD1)

**MASSACHUSETTS – SALEM AND LYNN HARBORS – GENERAL EDWARDS DRAWBRIDGE – Bridge Closure** - The General Edwards Drawbridge over the Saugus River between Revere and Lynn is closed to vessel traffic due to emergency structural repairs. Vessels able to pass under the bridge in the closed position may do so. Questions may be directed to Christopher Leahy or Elias Demissie, MassDOT Highway Division at 617-892-3643 or 781-570-6051. Mariners are urged to transit with caution.  
Chart 13275 LNM 52/22(CGD1)

**MASSACHUSETTS – DANVERS RIVER – KERNWOOD AVENUE BRIDGE – Bridge Repairs** – The Kernwood Bridge over the Danvers River is opening for marine traffic. Mariners can expect delays due in openings due to ongoing repairs following recent storm events. Mariners are requested to provide two hours advance notice for openings. The navigation lights are under repair and may not be operating properly. The point of contact is Elias Demissie, MassDOT at 781-570-6051 or 617-892-3643, or Mark Rousseau, SPS New England, at 978-992-2842. Mariners are advised to plan transits accordingly.  
Chart 13275 LNM 52/22 (CGD1)

**MASSACHUSETTS – ANNISQUAM RIVER – BLYNMAN CANAL – Bridge Repairs** – The Blynman (SR 127) bridge is opening for marine traffic. Mariners are advised that the bridge navigation lights are under repair due to storm damage and are not operating properly. The point of contact is Elias Demissie, MassDOT at 781-570-6051 or 617-892-3643, or Mark Rousseau, SPS New England, at 978-992-2842. Mariners are advised to plan transits accordingly.  
Chart 13281 LNM 52/22 (CGD1)

**Encl 4**

**MASSACHUSETTS – MERRIMACK RIVER – US1 BRIDGE – Bridge Repair - Notice of Deviation** – The Coast Guard has approved a temporary deviation from the regulations for the US1 (Gillis) Bridge over the Merrimack River, mile 3.4 in Newburyport, MA. From 7 a.m. on December 27, 2022 through 4 p.m. on **December 30, 2022**, the bridge will not open for the passage of vessels. Vessels that can pass underneath the bridge without an opening may do so at all times. The point of contact is Elias Demissie, MassDOT at 781-570-6051 or Mark Rousseau, SPS New England, at 978-992-2842. Mariners are advised to plan their transits accordingly.  
Chart 13282 LNM 52/22 (CGD1)

**CONNECTICUT – NEW LONDON HARBOR - Bridge Repairs** – From April 1, 2022 to **June 25, 2025**, between 7 a.m. and 5:30 p.m., the Connecticut Department of Transportation will conduct repairs on the Gold Star I-95 Northbound Bridge over the Thames River, mile 3.1. Work will be performed from hanging platforms on the bridge structure. The platforms will extend over the river approximately 420 feet from the shoreline on the New London side and 290 feet from the shoreline on the Groton side and will not be over federal channel. The reduction in vertical clearance caused by the platforms will not exceed 3 feet below the current bridge vertical clearances of 135 feet (MHW). A safety boat will be in the water and will monitor VHF Channel 16 when work is performed over the water. Questions may be addressed to Scott Thompson, Project Manager Aetna Bridge Company, at 401-663-6052 or Keith Schoppe, CT DOT, at 860-213-2360.  
Chart 13213 LNM 52/22 (CGD1)

**CONNECTICUT – NEW HAVEN HARBOR – QUINNIPIAC RIVER– Bridge Inspections** – From January 10, 2023 to **January 11, 2023** between 8:30 a.m. to 4:00p.m., a 21’ aluminum dive boat and dive team will be performing diving inspection at the US Route 1 across Quinnipiac River at mile 0.0, in New Haven, Connecticut. This bridge inspection will not affect the navigational channel. Mariners with any questions may contact the contractor via marine radio VHF-FM Ch 13/16 or call James Karalekas (413) 636-3775. Mariners are advised to exercise caution and reduce wake when transiting the area.  
Charts 12371 LNM 52/22 (CGD1)

**CONNECTICUT – CONNECTICUT RIVER LONG ISLAND SOUND TO DEEP RIVER– Under Bridge Inspections** – From October 17, 2022 to **December 30, 2022** between 9:00 a.m. to 3:00 p.m., a 75’ under bridge inspection unit (UBIU) will be at the Interstate 95 Bridge Northbound and Southbound across Connecticut River at mile 4.0, in Old Saybrook, CT.. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call Jack Casey (860) 930-9897. Mariners are advised to exercise caution and reduce wake when transiting the area.  
Chart 12375 LNM 52/22 (CGD1)

**CONNECTICUT – CONNECTICUT RIVER DEEP RIVER TO BODKIN ROCK – CONNECTICUT RIVER – Bridge Closure** – The East Haddam Swing Bridge at mile 16.8, across Connecticut River at East Haddam, Connecticut, is closed to vessel traffic due to electrical issues. Vessels able to pass under the bridge in the closed position may do so. Questions may be directed to Matt MacMurray (860) 213 – 2625. Mariners are urged to transit with caution.  
Chart 12377 LNM 52/22 (CGD1)

**CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND - HOUSATONIC RIVER AND MILFORD HARBOR – HOUSATONIC RIVER – Bridge Rehabilitation/ Temporary Final Rule** – Construction to the Washington Ave (Route 1) Bridge over Housatonic River at mile 3.5 will commence on January 4, 2022. Hours of operation are from Sunday to Saturday between 12:01 a.m. and 10 p.m. A barge and an underbridge inspection unit will be operated under one closed draw span. A minimum of 62.5 feet navigation channel will be free of obstruction at all times. A floating causeway will be installed from the vicinity of the west abutment to pier 3 (outside the navigation channel). This access will be in place for the majority of the project scope providing access to pier 3 and a docking point for the safety and work boats and platforms. This floating causeway will be secured using heavy dock lines and land anchors as needed fixed to the existing piers. Hinged ramps will be utilized to transition from the causeway to land and the pier. From November 30, 2022 to **June 30, 2023** the draw shall operate on single leaf operations. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16 or call DOT Resident Engineer Stacey Epps (203) 913-4489. This project is to be completed by **June 30, 2023**. Mariners are advised to exercise caution and reduce wake when transiting the area.  
Chart 12370 LNM 52/22 (CGD1)

**Encl 4**

**CONNECTICUT – NORTH SHORE OF LONG ISLAND SOUND - HOUSATONIC RIVER AND MILFORD HARBOR – HOUSATONIC RIVER – Bridge Rehabilitation** – Beginning April 1, 2021 until **December 2023** Connecticut Department of Transportation will be performing bridge rehabilitation work at the Bridge Street Bridge across Housatonic River at mile point 13.8. Any questions regarding construction can contact Ms. Heather Falzano at (203) 389-3126. Mariners are advised to exercise caution when transiting the area.  
Chart 12370 LNM 52/22 (CGD1)

**CONNECTICUT – LONG ISLAND SOUND – NORWALK RIVER – Bridge Repairs** – Starting December 7, 2018 ConnDOT will be performing repairs on the Yankee Doodle Bridge over Norwalk River at mile 0.7. A working platform will be installed beneath the bridge deck, which will reduce the navigational vertical clearance from 60 feet to 56 feet at MHW. There will be a 28'x10' aluminum workboat tied to the fender system during construction hours, Monday through Friday 6:30 a.m. to 2:30 p.m. This work is expected to be completed by **June 20, 2023**. Mariners requiring full horizontal clearance can call Kevin Dorynioski at 860-993-6491, Jerry Mals at 860-982-4294, John Jakobeit at 860-229-4853. Mariners are advised to exercise caution when transiting the area.  
Charts 12368 LNM 52/22 (CGD1)

**NEW YORK – NORTH SHORE OF LONG ISLAND SOUND GREENWICH POINT TO NEW ROCHELLE – MILL NECK CREEK – Temporary Final Rule** – The Nassau County Department of Public Works has been authorized to temporarily deviate from the operating schedule at the Bayville Highway Bridge at mile 0.1, across Mill Neck Creek, to perform bridge rehabilitation. Under this temporary deviation, the Bayville Highway Bridge may operate under single leaf operations during the following times:

- (1) The draw shall operate on single leaf operations from June 10, 2022 to **January 8, 2023** and April 9, 2023 to **June 16, 2023**.
- (2) The bridge shall stay in the closed position from January 9, 2023 to **April 8, 2023**.

Mariners are advised to exercise caution and reduce wake when transiting the area.  
Chart 12367 LNM 52/22 (CGD1)

**NEW YORK – EAST RIVER NEWTOWN CREEK – DUTCH KILLS – Bridge Closure** – The Borden Ave Bridge, mile 1.1, is closed due to vandalism. Vessels able to pass under the bridge in the closed position may do so. Mariners with questions may contact Keith Burrows at (212) 839-3741, NYCDOT Director of Bridge & Tunnel Operations. Mariners are advised to plan their transits accordingly.  
Chart 12338 LNM 52/22 (CGD1)

**NEW YORK – LONG ISLAND SOUND – HEMPSTEAD HARBOR TO TALLMAN ISLAND – WESTCHESTER CREEK – Bridge Replacement** – New York City Department of Transportation will be performing work on the fenders at Unionport Bridge across Westchester Creek at mile 1.7. Working hours are from 7 a.m. to 3 p.m. From September 1, 2022 to February 13, 2023 to the south span will be erected. From February 13, 2023 to **July 23, 2023** the north span will be erected. During this time the vertical clearance will be reduced by 14 feet. A minimum of 10ft horizontal clearance will be maintained at all times. Mariners requiring full horizontal clearance can contact Abdi Hedayati at (347) 885-8613 or Rocco Cerami (973) 715-7820 or via marine radio VHF CH 13/16 with one hour advance notice during working hours and six hour advance notice after work hours. Mariners are advised to exercise caution and reduce wake when transiting the area.  
Chart 12366 LNM 52/22 (CGD1)

**NEW YORK – LONG ISLAND SOUND AND EAST RIVER - HEMPSTEAD HARBOR TO TALLMAN ISLAND - HUTCHINSON RIVER – Bridge Repairs** – New York City Department of Transportation will be performing repairs at the Pelham Bay Parkway Bridge across Hutchinson River at mile 0.4 **Wednesday 1/4/2023 into Thursday 1/7/2023 11 PM to 5 AM or Friday night as rain day**.  
Mariners with any questions may contact Mohsin Rizvi at (212) 839-3946. Mariners are advised to exercise caution and reduce wake when transiting the area.  
Chart 12366 LNM 52/22 (CGD1)

**NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET- LONG CREEK - Notice of Temporary Deviation** - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Loop Parkway Bridge across Long Creek at mile point 0.7. The deviation is needed to perform bridge deck repairs. Under this temporary deviation, the Loop Parkway Bridge may operate under single leaf operations during the following dates:

- Phase 1A (9/15/22 to 1/30/23)

**Encl 4**

- Single leaf operations of West leaf/East leaf will be inoperable
- Phase 1B (1/30/23 to 5/15/23)
  - Single leaf operations of East leaf/West leaf will be inoperable
- Phase 2A (9/15/23 to 1/30/24)
  - Single leaf operations of West leaf/East leaf will be inoperable
- Phase 2B (1/30/24 to **5/15/24**)
  - Single leaf operations of East leaf/West leaf will be inoperable

Mariners are advised to exercise caution when transiting the area.

Chart 12352 LNM 52/22 (CGD1)

**NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET- SLOOP CHANNEL - Notice of Temporary Deviation**

- The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Meadowbrook Parkway Bridge across Sloop Channel at mile point 12.8. The deviation is needed to perform bridge deck repairs. Under this temporary deviation, the Meadowbrook Parkway Bridge may operate under single leaf operations during the following dates:

- Phase 1A (9/15/22 to 1/30/23)
  - Single leaf operations of North leaves/South leaves will be inoperable
- Phase 1B (1/30/23 to 5/15/23)
  - Single leaf operations of South leaves/North leaves will be inoperable
- Phase 2A (9/15/23 to 1/30/24)
  - Single leaf operations of North leaves/South leaves will be inoperable
- Phase 2B (1/30/24 to **5/15/24**)
  - Single leaf operations of South leaves/North leaves will be inoperable

Mariners are advised to exercise caution when transiting the area.

Chart 12352 LNM 52/22 (CGD1)

**NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY – Fender Replacement** – Repairs to the Beach Channel Bridge over Jamaica Bay at mile 6.0 will commence on or about April 18, 2022. One draw of a swing bridge maybe blocked by barge equipment; the other draw will be free and clear of any equipment for the passage of vessels. This work will not affect operation of the bridge. Mariners has questions can contact Shea Thorvaldsen at 646-773-9414. This project is to be completed by **December 31, 2022**. Mariners are advised to exercise caution when transiting the area.

Chart 12350 LNM 52/22 (CGD1)

**NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – JAMAICA BAY– Bridge Maintenance** – From June 1, 2021 to **December 31, 2022**, contractors will be performing bridge maintenance activities at the Cross Bay Bridge over Jamaica Bay at mile 10.0. A work platform will be installed at this bridge reducing the vertical clearance by 5 feet. That leaves a remaining 50 feet clearance during mean high water. Any questions or comments can be addressed to Jarrod Padilla at (917) 848-5324. Mariners are advised to exercise caution when transiting the area.

Chart 12350 LNM 52/22 (CGD1)

**NEW YORK – JAMAICA BAY AND ROCKAWAY INLET- JAMAICA BAY - Notice of Temporary Deviation** - The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Marine Parkway Bridge across Jamaica Bay at mile 3.0 to accommodate steel painting. Under this temporary deviation, the Marine Parkway Bridge may stay in the closed position beginning 7:00 a.m. December 1, 2022 through 5:00 p.m. **May 29, 2023**. Questions may be directed to the Marine Parkway Bridge Desk at (718) 692-5501, or Nicolae Popescu, at (917) 577-3734. Mariners that can pass without a bridge opening may do so and are advised to exercise caution when transiting the area.

**NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – RONDOUT CREEK - Bridge Rehabilitation** – Construction to the Wurts St. Bridge (Old 9W Bridge) Bridge across Rondout Creek at mile 1.3 is in progress. Temporary safe span platforms will be installed under the low steel across the entire span which will reduce vertical clearance by approximately 3 feet. Hot work will be performed at this location. For construction related questions, please contact Jordan Strack at 845-264-5716. This project is to be completed by **October 30, 2023**. Mariners are advised to exercise caution when transiting the area.

Chart 12347 LNM 52/22 (CGD1)

**Encl 4**

**NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – Bridge Rehabilitation** – Construction to the Castleton on Hudson Bridge across Hudson River at mile 135.7 is in progress. Hours of operation are from 7 a.m. and 5 p.m. Temporary safe span platforms will be installed under the tram rail steel (over navigation channel) which will reduce vertical clearance by approximately 6 feet. A minimum of 210 feet east side of navigation channel (between PP24 and PP31) will be cleared of obstruction at all times for safe passage of vessels. In addition, a 25 feet of buffer will be maintained each side of the channel marker. A safety boat will be operated IVO the bridge. Hot work will be performed during construction. Mariners requiring full horizontal clearance can contact the contractor/operator via marine radio VHF-FM CH 13 or call 518-320-6986. For all construction related questions, please contact Tim Mastro at 518-337-7231. This project is to be completed by **June 30, 2023**. Mariners are advised to exercise caution when transiting the area.

Chart 12347 LNM 52/22 (CGD1)

**NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – Emergency Bridge Support Tower Repairs** – Repairs to the CSX Castleton Bridge across Hudson River at mile 135.6 is in progress. A 16ft by 24ft float will be installed between towers 3 and 7 west of the bridge. A 120ft by 40ft crane barge, hopper barge and tug boat will be operated IVO pier 7. All work are done outside navigation channel. For all construction related questions, please contact Bill Bruno at 518-378-1349 or via marine radio VHF-FM CH 13/16. This project is to be completed by **December 30, 2022**. Mariners are advised to exercise caution when transiting the area.

Chart 12347 LNM 52/22 (CGD1)

**NEW YORK – HUDSON RIVER TO WAPPINGER CREEK – HUDSON RIVER – Deck Replacement** – Construction to the Newburg-Beacon Bridge (North Span), mile 62.0 across Hudson River is in progress. A temporary work platform will be installed under the entire length of the bridge. Temporary work platform will reduce the vertical clearance in the navigation channel by approximately 3ft. Welding (hot work) may be performed during working hours. The resident engineer or contractor will be equipped with a VHF-FM marine radio and will be monitoring Channel 13/16 during hours of operation. Please contact Mike Lloyd at 914-403-2653 for construction information. This project is to be completed by **June 30, 2023**. Mariners are advised to exercise caution when transiting the area.

**NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Bridge Interim Rehabilitation Priority Repairs** – Construction to the Outerbridge Crossing Bridge across the Arthur Kill, mile 2.0 will commence on June 1, 2022. A localized temporary work platform will be installed under the bridge and will not reduce vertical clearance in the navigation channel more than 3'-9". Welding (hot work) may be performed during working hours. The resident engineer or contractor will be equipped with a VHF-FM marine radio and will be monitoring Channel 13/16 during hours of operation. Mariners can contact Marc Helman at 212-435-6112 for construction details. This project is to be completed by **December 31, 2024**. Mariners are advised to exercise extreme caution when transiting the area.  
Chart 12327 LNM 52/22 (CGD1)

**NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY – Structural Steel Repairs** – Construction to the New Jersey Turnpike Newark Bay (I-78) Bridge, across Newark Bay at mile 4.0 is in progress. Safe span platforms will be installed under the main spans and will reduce vertical clearance by 5 feet. POC for this project is William Ritter and can be reached at 973-390-7221. This project is to be completed by **March 30, 2023**. Mariners are advised to exercise caution when transiting the area.  
Chart 12327 LNM 52/22 (CGD1)

**Encl 4**

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - Notice of Temporary Final Rule** – The Coast Guard is temporarily modifying the operating schedule that governs the PATH Bridge across Hackensack River at mile 3.0 for failure of control system. Under this temporary final rule from November 14, 2022 to **March 23, 2023**, the PATH Bridge shall open on signal provided a minimum of twenty-four (24) hours advance notice by calling US Coast Guard VTS at 718-354-4088 or Port Authority Trans-Hudson John Burkhard at 201-410-4260. The draw need not open for the passage of vessel traffic Monday through Friday from 6 a.m. and 10 a.m., and from 3 p.m. to 7:00 p.m. The vertical clearance in the closed position is approx. 40 feet at MHW. Vessels that can pass under the closed span without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly and exercise extreme caution when transiting the area.  
Chart 12337 LNM 52/22 (CGD1)

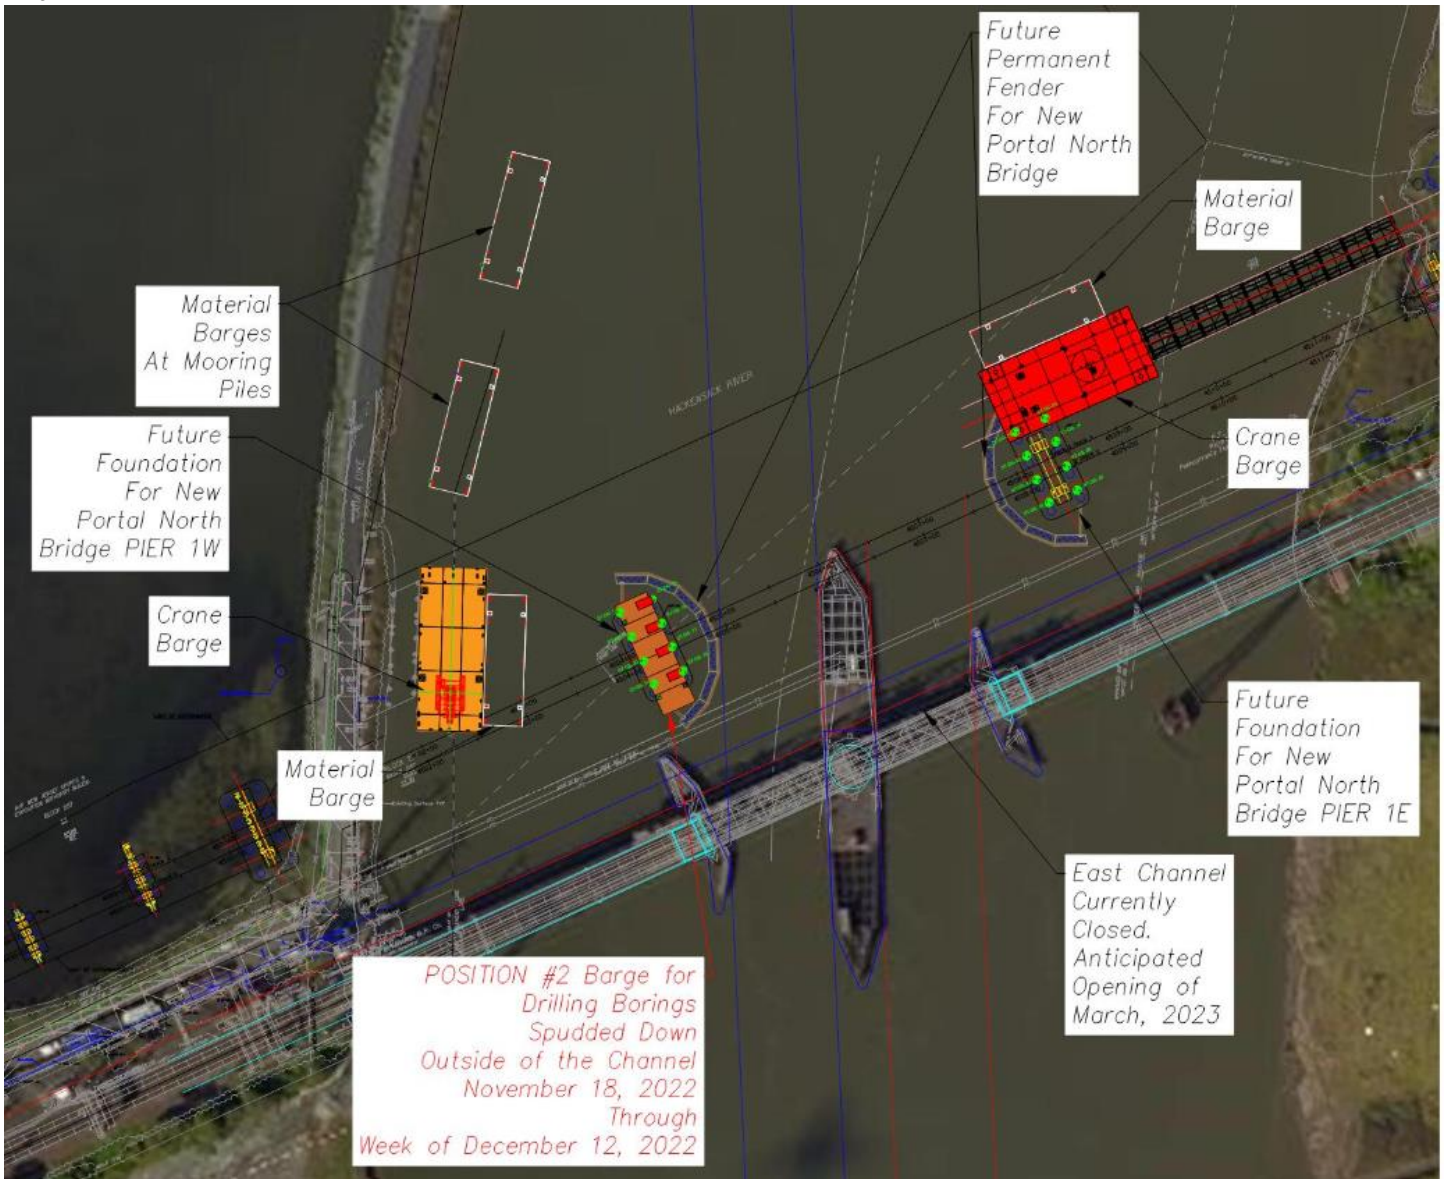

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER - New Bridge Construction** – Replacement of the new Witt Penn (Route 7) Bridge across the Hackensack River at mile 3.1 is in progress. Contractors are working on the punch list. There is no barge equipment in the navigation channel. All equipments are placed behind the fender system. Mariners can contact the personnel below regarding the project:  
Alexander Garcia 646-431-2185  
Vicken Bedian 347-680-5191  
Jerry Yang 201-985-6937  
Evan Raab 201-359-0906  
This project is to be completed by **February 28, 2023**. Mariners are advised to exercise extreme caution when transiting the area.  
Chart 12337 LNM 52/22 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Emergency Repairs** – The Amtrak Portal Bridge at mile 5.0 across the Hackensack River between Kearny and Secaucus, New Jersey is undergoing emergency repairs. While under the repair, the north channel will remain closed to marine traffic. There will be debris scow barge, work boat and push boat blocking the north channel. The south channel is open to marine traffic. Repairs to the north span of the bridge will be on-going until **March 31, 2023**. Mariners are advised to use south channel when transiting the area and exercise extreme caution. Questions concerning the repairs and closure may be directed to Thomas Bruno at 215-983-9941.  
Chart 12337 LNM 52/22 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – HACKENSACK RIVER – Bridge Replacement** – Installation of temporary trestle and cofferdam, and testing borings to the Portal Bridge North, across Hackensack River at mile 5.04 is in progress. Hours of operations are from 6:30 a.m. to 4:30 p.m. daily. There will be barge equipments operating outside the navigation channel. Mariners can contact one of the three (3) provided telephone numbers/emails or via marine radio VHF-FM CH 13/16 advising of travel through the channel (including possible return trips):  
1. Ernest Hamilton – Main Span Superintendent – (904) 451-2979, ehamilton@traylor.com  
2. Martir Ortez – Main Span Project Manager – (562) 307-4916, mortez@traylor.com  
3. Jim Hummel – Main Span Area Lead - (917) 417-4885, [Jim.Hummel@skanska.com](mailto:Jim.Hummel@skanska.com)

Skanska Traylor PNB JV has been awarded the construction of the New Portal North Bridge Project (NJT Contract No. 20-083X, WBS No. GC.02) with a Notice to Proceed of April 7, 2022. Specific to the Hackensack River work, mile 5.0, the project consists of constructing two bridge piers, demolition of the existing center pier north fender, erecting three tied-arch spans of approximately 400 LF (1,200 LF overall), and demolition of the existing bridge once railroad traffic is switched to the new bridge. Starting October 28, 2022, a Drilling Barge will be located outside of the active channel on the West to perform borings for the permanent foundation. The barge will be in place as shown below.

Trestle construction will continue on the East side. This project will be completed by **October 22, 2027**. Mariners are advised to exercise caution when transiting the area.  
 Chart 12337 LNM 52/22 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – PASSAIC RIVER – Bridge Replacement** – Installation of temporary trestle, test borings and partial fender removal to the Point No Point Bridge, across Passaic River at mile 2.6 is in progress. Hours of operations are from 6:30 a.m. to 4:30 p.m. daily. Construction equipment will be blocking one channel and the other channel will be open for vessel traffic.

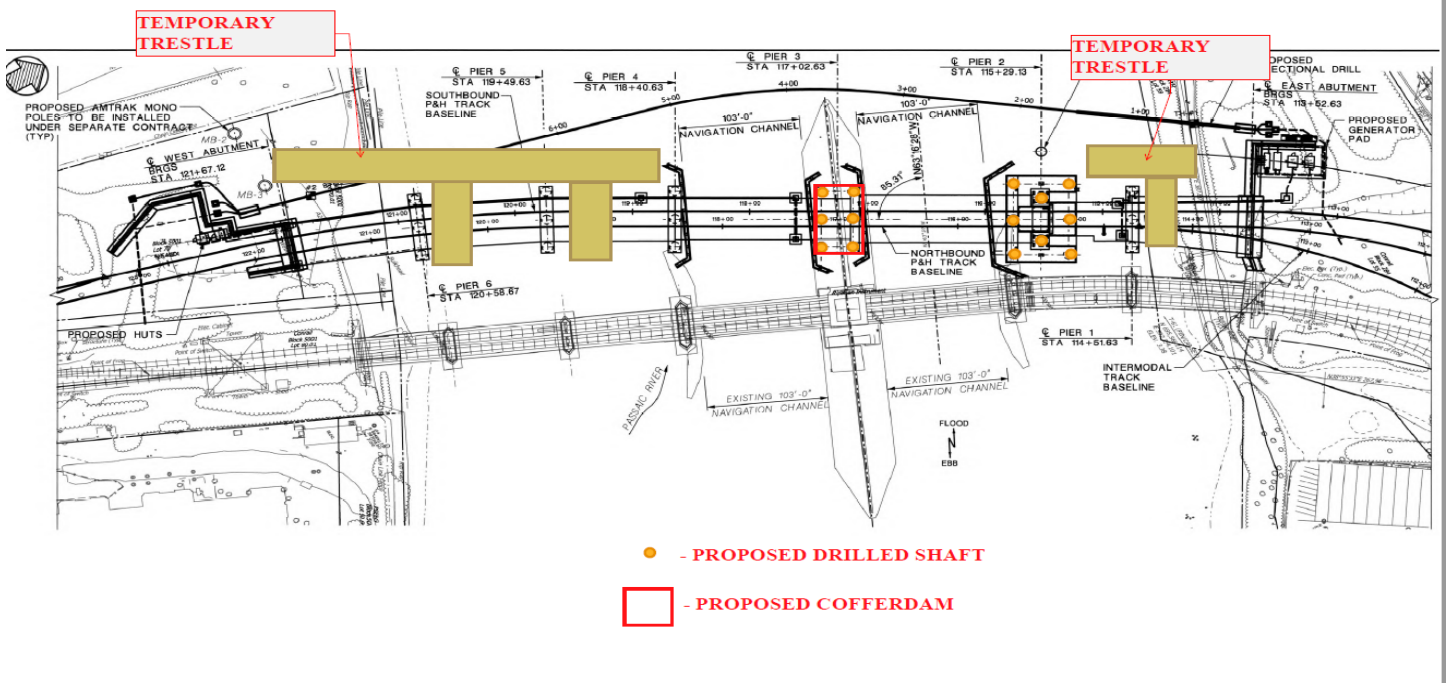

On or about **12/7/22** we will be starting the installation of drilled shafts at Pier 2 (8 EA) & Pier 3 (6 EA) of the new bridge. These piers are located adjacent to the existing swing pier and in the center of the navigation channel. Please refer to the attached. Our barges will be positioned in the channel and blocking one side of the existing channel. Signage will be posted showing which side of the channel is open/closed. While we are installing the shafts, there will be intermittent periods (2-3 days for each shaft) in which

**Encl 4**

drilling will be performed and we will not be able to accommodate a bridge opening. Our equipment will be in the swing path of the bridge; therefore, the bridge cannot open. One side of the existing channel will still be open for travel, but it will be with a Height Restriction. We anticipate the drilled shaft work taking **approximately 14 weeks** to complete, but there will be several days between each shaft installation when the bridge can open. During this time, we request that any known bridge opening needs be communicated with us well in advance so that we can coordinate our drilling operations and relocate our barges as needed. If possible, we'd appreciate at least 7 days notice so we can make the appropriate schedule adjustments. If you do not require a bridge opening, we ask that you please exercise extreme caution while proceeding through our work area. Anticipated Completion of Drilled Shaft Work is on or about **3/6/23**.

Upon completion of the drilled shaft installation, we will be looking to begin the construction of the Pier #3 Pier Cap. This will require the installation of a cofferdam system. During certain phases of the cofferdam construction the bridge will be unable to open. Our anticipated installation start date is **3/13/23**. We anticipate a period of **approximately 8-10 weeks** in which there can be no bridge openings. One side of the existing channel opening will remain in open for travel, but with limited height restriction during this period. Once the cofferdam is in place bridge openings can resume as normal with advanced notice. Anticipated completion of cofferdam installation is on or about **5/15/23**.

RFT554RT4RZ

For barge placement details please contact Dan Post at 732-751-209. This project will be completed by **August 13, 2025**. Mariners are advised to exercise caution when transiting the area and plan accordingly. Chart 12337 LNM 52/22 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – PASSAIC RIVER – Notice of Temporary Deviation** - The Coast Guard is temporarily modifying the operating schedule that governs the existing Point No Point Bridge, mile 2.6, across Passaic River. Under this temporary deviation, the Point No Point Bridge will operate as follows:

From December 7, 2022 to March 8, 2023 the bridge shall open on signal provided a minimum of seven days advance notice by calling Conrail Movement Desk 856-231-2282 or George Harms Construction at 732-751-2091.

From March 13, 2023 to **May 19, 2023** the bridge need not open for the passage of vessel traffic.

Mariners may contact VTS New York at (718) 354-4088 to obtain current information regarding the bridge's operating schedule. The vertical clearance in the closed position is approx. 16 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.

Chart 12337 LNM 52/22 (CGD1)

**Encl 4**

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – PASSAIC RIVER – Emergency Bridge Closure** – Dock Bridge, mile 5.0, across Passaic River was not able to open for marine traffic due to mechanical issues. Amtrak is working diligently to repair the bridge. The bridge will be unable to open to marine traffic until repairs are completed. The vertical clearance in the closed position is approx. 24 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.  
Chart 12337 LNM 52/22 (CGD1)

**NEW JERSEY – PASSAIC RIVER AND HACKENSACK RIVER – PASSAIC RIVER – Priority Repairs** – Repairs to the Clay Street Bridge, mile 6.0, Bridge Street Bridge, mile 5.6 and Jackson Street Bridge, mile 4.6, all across Passaic River between Essex and Hudson Counties, New Jersey will commence on July 1, 2022. Hours of operation are Monday to Friday, between 7 a.m. and 3:30 p.m. A 14ft by 40ft barge and 21ft push boat will be blocking one channel and the other channel will be open for vessel traffic. For barge placement details please contact Brian Fagersten at 973-390-6872 or via marine radio VHF-FM CH 13/16. This project is to be completed by **September 30, 2023**. Mariners are advised to exercise caution when transiting the area.  
Chart 12337 LNM 52/22 (CGD1)

**NEW JERSEY – KILL VAN KULL AND NORTHERN PART OF ARTHUR KILL – RAHWAY RIVER – Bridge Repairs and Resurfacing** – Construction to the New Jersey Turnpike Bridge over Rahway River at mile 2.0 will commence on June 30, 2022. There will be sectional safe span platforms approx. 6ft 3in wide installed under the span. The safe span platforms will not reduce vertical clearance more than five feet. No equipment in the navigation channel. Any questions regarding this project can contact resident engineer Mike Lettieri at 732-306-9850. This project is to be completed by **January 13, 2023**. Mariners are advised to exercise caution when transiting the area.  
Chart 12333 LNM 52/22 (CGD1)

**NEW JERSEY – RARITAN RIVER TO NEW BRUNSWICK - RARITAN RIVER – Notice of Temporary Deviation** – The Coast Guard is temporarily modifying the operating schedule that governs the existing New Jersey Transit RR Bridge, mile 0.5, across Raritan River due to damaged gear system. Under this temporary deviation through **January 20, 2023**, the New Jersey Transit RR Bridge will open on Mondays and Fridays at 10:45 a.m. (Please call Stacy Hood or Joe McChesney to confirm the scheduled bridge openings). All other times, a minimum of 48 hours advance notice is required for bridge openings by calling Stacy Hood at 201-407-3418 or Joe McChesney at 201-241-1721. Mariners may also contact VTS New York at (718) 354-4088 to request openings or obtain current information regarding the bridge's operating schedule. The vertical clearance in the closed position is approx. 8 feet at MHW. Vessels that can transit under the closed span may do so at any time. Mariners are advised to plan accordingly and exercise extreme caution when transiting the area.  
Chart 12332 LNM 52/22 (CGD1)

**NEW JERSEY – RARITAN RIVER TO NEW BRUNSWICK - RARITAN RIVER – Deck and Structural Replacement** – Deck and structural replacement at the New Jersey Turnpike (Basilone) Bridge across Raritan River at mile 10.2 will commence on May 26, 2022. A safe span will be installed under the bridge across the entire span which will reduce the vertical clearance by approximate 5ft. Please contact Daniel Weissman of D'Annunzio Group or Mike Norris of WSP via marine radio VHF-FM CH 13/16 or call 732-877-3894/732-934-7535 for bridge construction. This project will be completed by **May 26, 2025**. Mariners are advised to exercise caution when transiting the area.  
Chart 12332 LNM 52/22 (CGD1)

**NEW JERSEY – SANDY HOOK TO LITTLE EGG HARBOR – SHREWBURY RIVER – Bridge Replacement** – Installation of temporary trestle to the S-32 (Rumson Road) Bridge over Shrewsbury River at mile 4.0 is in progress. There will be barge equipments operating IVO the bridge. From October 10, 2022 to October 7, 2023, navigation channel will be reduced from 75ft to 65ft due to two temporary cofferdams installation. For barge placement details, please contact Mike Rudolph at 908-814-8927 or via marine radio VHF-FM CH 13/16. This project will be completed by **March 17, 2025**. Mariners are advised to exercise caution when transiting the area.  
Chart 12324 LNM 52/22 (CGD1)

**MARINE EVENTS**

**MARINE EVENTS WEEK OF Dec 28-Jan 4**

**(North to South)**

**SECTOR NORTHERN NEW ENGLAND**

**BURLINGTON NEW YEAR'S FIREWORKS DISPLAY- WATERFRONT PARK –  
BURLINGTON – VT**

Mariners are advised that the New Year's Eve Burlington Highlight Fireworks display is scheduled to be held in the waters of Burlington Harbor in the vicinity of Waterfront Park, Burlington, VT on December 31, 2022 from 8:00 p.m. to 8:30 p.m. Mariners are advised to use caution when transiting near the launch location at approximate position 44° 28'46" N, 073° 13'18"W. Chart number: 14785. For event information contact: Dianna Montague, (802) 229-9690.

**NH – HAMPTON BEACH – HAMPTON – NH – Fireworks**

Mariners are advised that the Hampton Beach Fireworks display is scheduled to be held in the vicinity of Hampton Beach in Hampton, NH. The fireworks display will take place on December 31, 2022, from 9:30 p.m. to 10:30 p.m. All mariners transiting the area should exercise caution. Chart number: 13278. For event information contact: Warren Pearce, (978) 375-9780.

**SECTOR BOSTON**

**BOSTON INNER HARBOR – MASSACHUSETTS – FRIENDS OF CHRISTOPHER  
COLUMBUS NEW YEAR'S EVE FIREWORKS**

Atlas PyroVision is hosting a fireworks display in Boston Inner Harbor right off of Christopher Columbus Park from **December 31, 2022, 11:55 PM to January 1, 2023, 12:15 AM**. The event will consist of 2 barges and a tug, and fireworks display of approximately 30 minutes. A 300-yard Safety Zone is in place around the barge off Long Wharf North. The person responsible for on scene safety can be reached at 603-494-2318. For more information, please contact Tara Hughgill at 603-532-8324.

**SECTOR SOUTHEAST NEW ENGLAND**

**No Events to Report**

**SECTOR LONG ISLAND SOUND**

**No Events to Report**

## **SECTOR NEW YORK**

### **NEW YORK, NY – LIBERTY ISLAND – SAFETY ZONE - FIREWORKS**

Mariners are advised that a safety zone will be enforced for a fireworks display, scheduled to be held east of Liberty Island in Federal Anchorage 20-C, **December 31, 2022, 11:59 p.m. until January 1, 12:10 a.m.** The firework barge will be in approximate position 40°41'45"N, 074°02'23"W (NAD 83) and the Safety Zone radius encompass all waters within a 360-yard radius from the barge. Vessels may not enter, remain in, or transit through the Safety Zone during the enforcement period unless authorized by the Coast Guard Captain of the Port. Other Federal, State and local agencies may assist these personnel in the enforcement of the Safety Zone.

Chart 12327. LNM 49/22 (CGD01)

Additional contacts at Sector New York: MST1 Stevenson, [Stacy.d.stevenson@uscg.mil](mailto:Stacy.d.stevenson@uscg.mil) (713) 354-4197, or MST1 Hughes, [Melanie.a.hughes1@uscg.mil](mailto:Melanie.a.hughes1@uscg.mil) (718) 354-4352

**REPORTED UNEXPLODED ORDNANCE (UXO)**

**Updated 12/28/2022**

**New information highlighted in Yellow**

The Coast Guard advertises this information through local, Sector Broadcast Notice to Mariners (BNMs) and through the weekly, First Coast Guard District LNM. BNMs are additionally available directly to mariners by email sign-up at the CG Navigation Center Web Site ([Subscribe to Our RSS Feeds | Navigation Center \(uscg.gov\)](https://www.uscg.gov)). Once identified NOAA will then chart the UXO location so they are available on electronic navigation chart updates. Information on proper reporting and safety procedures for UXOs can be found at the following link: [Home - DENIX \(osd.mil\)](https://www.osd.mil)

**RI- NARRAGANSETT BAY - WEST PASSAGE – UNEXPLODED ORDNANCE- UPDATE 9/2/2022**

Sixteen (16) unexploded ordnances have been located via survey in Narragansett Bay – West Passage in positions:

- (1.) 41-27-7.68N 071-24-35.64W; (2.) 41-27-25.74N 071-24-38.94W; (3.) 41-27-33.60N 071-24-38.34W
- (4.) 41-24-49.80N 071-22-58.14W (5.) 41-26-40.32N 071-24-42.54W (6.) 41-26-34.44N 071-24-8.22W;
- (7.) 41-26-00.18N 071-24-30.48W; (8.) 41-28-00.96N 071-24-28.68W; (9.) 41-24-43.74N 071-214.44W;
- (10.) 41-24-56.52N 071-21-59.64W; (11.) 41-24-52.62N 071-23-43.62W; (12.) 41-27-38.880N 071-24-6.978W;
- (13.) 41-26-4.324N 071-24-30.591W; (14.) 41-27-36.236N 071-24-37.026N;
- (15.) 41-26-44.709N 071-24-38.974W; (16.) 41-24-45.927N 071-21-39.508W. Mariners are urged to avoid the ordnances and transit the area with caution.

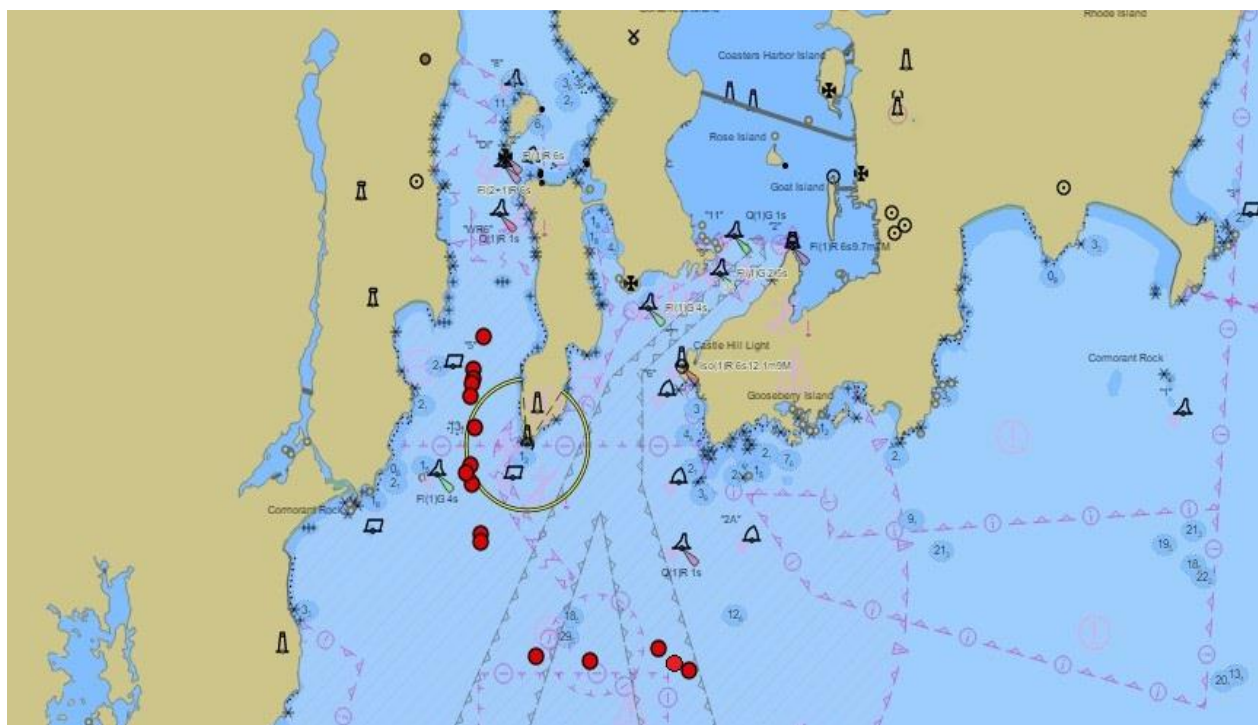

Chart 13223 LNM 27/22

### ATLANTIC OCEAN- 22 MILES SOUTHEAST OF BLOCK ISLAND – UNEXPLODED ORDNANCE

An unexploded ordnance has been located via survey in 22 miles southeast of Block Island in position, 41-58-32.182N 071-11-13.534W, in approximately depth of 54 meters (see chartlet). Mariners are urged to avoid the ordnance and transit the area with caution.

Chart 13223 LNM 36/22

### ATLANTIC OCEAN-SOUTH OF MARTHA’S VINEYARD

One unexploded ordnance has been located approximately 18NM south of Martha’s Vineyard in position 41-04.044N, 070-26.470W in approximately, 41 meters of water. Mariners are urged to avoid the ordnance and transit the area with caution.

Chart 13006 LNM 27/22

# Maritime Industry

**During maritime operations (e.g., fishing, clamming or dredging), nets, bottom tending gear, and dredges may catch or dredge munitions from the ocean. Munitions pose a potential, but real danger to vessels and crews as well as to commercial and recreational divers.**

Vessel crews often tell tales about catching suspicious items in a net or dredging gear. Lucky crews live to spin their own tales, while others become the subject of a tragic tale.

In July 1965, such a tragedy took place aboard the fishing vessel (FV) *Snoopy*. The FV *Snoopy* was trawling for scallops off the coast of North Carolina when it caught a large cylinder in her net. A witness said he could clearly see a long round object swaying in the net amidsthips, over the deck.

What happened next is unclear, but an explosion caused the loss of the FV *Snoopy* and eight of her crew.

What went wrong? Was it preventable? Could something have been done to save the FV *Snoopy* and her crew?

While all these questions were asked, no one but the FV *Snoopy*'s crew actually knows what happened. However, this tale is meaningful if others learn from it.

If you encounter or suspect you have encountered a munition at sea, follow the 3Rs of explosives safety (Recognize, Retreat, Report).

*Unexploded ordnance recovered during dredging*

*A new torpedo (top) and a heavily corroded torpedo on the sea floor (bottom).*

# Recognize

The military has conducted live-fire training and combat operations at sea for centuries. Prior to 1970, the U.S. military and the militaries of other nations sea-disposed excess, obsolete and unserviceable munitions either en route to port or as part of a planned disposal. In 1970, militaries of the United States and other countries stopped the practice, now allowing it only during an emergency. Mariners should be prepared for an encounter with munitions during commercial operations, such as fishing, clamming or dredging. By following the 3Rs and using common sense, mariners will know what to do if they inadvertently recover a munition.

Munitions may be encountered anywhere, not just in charted hazard areas. Munitions that may be encountered include mines, torpedoes, depth charges, artillery shells, bombs and missiles. Munitions may contain explosives or chemical agents, both potentially posing serious dangers to a vessel and her crew.

*Various recovered projectiles*

- All munitions, including those that have been in the sea or fresh water for many years, should be considered extremely dangerous.
- In some cases, munitions that have been in water for a long time have become more sensitive.
- Whether encountered at sea or on land, munitions might explode when moved, disturbed, or handled.
- Munitions submerged in sea or fresh water for any length of time may:
  - Look new and be easy to identify;
  - Be heavily rusted or encrusted with sea growth and be difficult to identify.

*Projectile and cartridge case on sea floor*

## **MUNITIONS ARE DESIGNED TO BE DANGEROUS**

In support of its mission, the Department of Defense (DoD) designs military munitions to kill or seriously injure people, or destroy equipment (e.g., vessels). To protect yourself from the potential hazards associated with munitions, avoid

known disposal areas by heeding warnings on nautical charts and following the 3Rs of explosives safety (Recognize, Retreat, Report). (Note: This guide includes drawings and photos of some munitions to help crews recognize suspect munitions.)

## CHEMICAL MUNITIONS AND CHEMICAL AGENTS

In the early 1900s, the Department of War, now DoD, developed chemical munitions to kill, seriously injure, or incapacitate an enemy. In the past, the United States and other countries sea-disposed chemical munitions and chemical agents in bulk containers, such as 55-gallon drums. As a result, some munitions or containers recovered from the sea may contain chemical agents.

Vessel crews should be alert for following signs that a chemical munition or chemical agents are present:

- Unusual odor from equipment or fish;
- Stinging sensations in the eyes;
- Burning or irritated skin;
- Presence of an oily liquid;
- Corroded containers or suspicious clay-like lumps.

*Recovered chemical munition*

*Chemical munition recovered from clambed*

## IF YOU SUSPECT A CHEMICAL MUNITION OR AGENT IS PRESENT, ACT IMMEDIATELY TO PROTECT THE CREW AND VESSEL.

- Move all crew members upwind;
- Steam into the wind to carry any contaminants away from the crew;
- Close all doors and hatches;
- Shut down all ventilation systems;
- Flush the area thoroughly with water to wash suspect chemical agent overboard;
- Contact the U.S. Coast Guard (USCG) for immediate assistance;
- Do not steam into port, unless the USCG advises you to do so.

*An aerial bomb prepared for shipping (above). An aerial bomb on the sea floor (below).*

## IF YOU SUSPECT CONTAMINATION BY CHEMICAL AGENTS

If you suspect a crew member has come in contact with a chemical agent, immediately:

- Remove any contaminated or potentially contaminated clothing and place it in a plastic bag (double bag, if possible) and seal it or just throw the clothing overboard. (Similar actions should be taken with contaminated or potentially contaminated tools.)
- Rinse the crew and the immediate area with large amounts of water. (If possible, use warm soapy water.)

*Munitions on the sea floor*

Every effort should be made to prevent the spread of chemical contamination. Chemical agent-contaminated clothing and tools may expose other crew members to chemical agent and spread the contamination to other areas on the vessel. Crew members should not work in areas known or suspected to be contaminated by chemical agent. Vessels that may have come in contact with chemical agents should not bring their catch ashore until the state's department of environmental health has determined it is safe to do so.

## **Retreat**

Because munitions present a potential explosive or chemical agent hazard, they should not be moved, disturbed or handled. However at sea, and depending on the circumstances, specific action may be required to protect the vessel and her crew.

- Avoid bringing munitions (or suspect munitions) onboard, whenever possible.
- If a munition is ensnared or fouled in gear, retreat by carefully returning the munition to the water or by cutting away the gear.
- If the munition cannot be carefully returned to the water, secure it onboard, and move the crew upwind and as far away from the munition as possible.
- Limit the number of crew members securing the munition, and avoid bumping or dropping the munition. Remember that each action carries some risk!

A new 5-inch 38 caliber projectile (above). Recovered 5-inch 38 caliber projectiles (below).

## Munitions Recovered, but Not Yet Onboard

- Immediately stop all operations;
- Do not bring the munition or gear containing it onboard, if possible;
- Do not allow the munition to come or remain alongside the vessel where wave action could cause the munition to contact the hull;
- If a munition is caught in the gear, but has not been brought onboard, try to lower it safely back into the water, note the position and report it to the USCG. In:
  - Shallow water (less than 130 feet), lower the munition to the bottom, buoy off the net or dredge recovery lines and remain in the area while awaiting assistance.
  - Deep water, stream the munition as far aft as possible, maintain steerageway, as necessary and remain in the immediate area while awaiting assistance.

## Munitions Recovered and Brought Onboard

If gear is brought over the deck with a munition or suspected munition, but it remains suspended and it can be safely secured in place or nearby, immediately:

- Secure the munition with guy lines to prevent movement;
- Keep the crew upwind and away from the area.

If a suspect munition is brought onboard:

- Keep crew members upwind and as far away as possible.
- Minimize handling, and decide whether it is safest to:
  - Carefully return it to the water, or
  - Retain it onboard.

If returned to the water, note and report position to USCG.

If retained onboard:

- Keep the crew upwind and away from the munition.
- Minimize handling, and avoid disturbing (hitting, dropping or bending) any part of the munition;
- Secure the munition on deck with lines and/or by chocking it to prevent movement, but do this as far away as possible from heat sources, vibrations and the crew;
- Cover the munition with a tarp or wet cloth to reduce the potential for:
  - Deterioration of metal parts and release of its fill;
  - Explosives to dry out and become sensitive to shock.
- Request assistance (Channel 16 - 156.800 MHz).

A new rifle grenade (above). A recovered grenade (below). Item is about four inches long.

**NEVER BRING A MUNITION INTO PORT, UNLESS DIRECTED TO DO SO**

# Report

Careful observation and accurate reporting of the situation is necessary, so that proper instructions and assistance can be provided. However, never attempt to clean or open a munition to get a better description or tamper with a munition in any way. Information you provide may be combined with other reports to produce a Notice to Mariners and/or update nautical charts.

When a munition or suspect munition is encountered, the vessel's captain should notify the USCG (Channel 16 - 156.800 MHz) and provide the below information, as soon as possible. (Note: If a munition is encountered while in port, call 911.) Report:

Floating mine washed ashore

- The vessel's position (use World Geodetic System 1984 [WGS-84] for reporting). If the exact position is unknown, give approximate coordinates, or a range and bearing from a charted feature.
- The activity (e.g., fishing, clamming, dredging) being conducted when the munition was encountered.
- A general description of the munition's key features (i.e., size, shape, fins, markings) and overall condition, if observed or known.
- Any unusual odors.
- The action taken (e.g., secured munition on deck, munition carefully returned to water, washed off deck where munition was placed) to protect the crew.
- If the munition was returned to the water, provide:
  - The position where it was returned to the water: the water depth, buoys or markings used, if any; and whether the location is near or within a charted disposal area;
  - A description, if appropriate, of any entanglement (e.g., net, dredge);
  - A description of surface or sub-surface structures within 1,000 yards.

**THE US COAST GUARD WILL NOTIFY AN EXPLOSIVE ORDNANCE DISPOSAL UNIT TO ARRANGE FOR SUPPORT.**

---

## DEPTH CHARGES

Length 28" / Diameter 18" to 25"

---

## DEPTH BOMB

Length 50" to 59" / Diameter 15" to 18"

---

## PRACTICE DEPTH CHARGES

---

# PROJECTED ANTI-SUBMARINE-WARFARE WEAPONS

---

# REPRESENTATIVE TORPEDOES

---

## MISCELLANEOUS MINE FLOATS

Length 10" to 24"

Diameter 12" to 18"

---

## PROJECTILES

Lengths 20 mm to 16"

3" to 5" in Diameter (Typically)

---

## AERIAL BOMBS

Bomb Body Lengths 39" to 97"

Diameter 7" to 19"

---

## MARKERS AND SIGNALS

Lengths 10" to 18" (Approximately)

Diameter 2" to 5" (Approximately)

# Don't Forget

- Munitions are dangerous and may not be easily recognizable!
- Avoid operational and former military ranges, and disposal areas!
- Do not bring munitions on-board!
- Never bring a munition into port, unless directed to do so by USCG!

## Follow the 3Rs

### Recognize

When you may have encountered a munition and that munitions are dangerous.

### Retreat

If you know or suspect you have encountered a munition, carefully return it to the water or secure it and keep the crew away from the immediate area.

### Report

Immediately notify the USCG of the vessel's or munition's location and provide a description of the munition.

#### Emergency contacts:

- In port: Call 911
- At sea: Use Channel 16 (156.800 MHz)

(Insert contact information here)

For additional information call  
U.S. Army Technical Center for Explosives Safety  
at (918) 420-8919

# ATTENTION ALL BOATERS: SLOW DOWN TO 10 KNOTS OR LESS FOR RIGHT WHALES

Red Areas = Annual Seasonal Management Area (SMA): 10 knots or less required for boats 65 feet and bigger. These speeds are also recommended for smaller boats.

Yellow Areas = where right whales have been sighted (\* Dynamic Management Area) or heard. Recommended slow down zones for ALL vessels.

If a Slow Zone overlaps with a SMA, mandatory speed reductions are required.
