LOCAL NOTICE TO MARINERS

District: 5

Week: 13/22

COASTAL WATERS FROM SHREWSBURY RIVER, NEW JERSEY TO LITTLE RIVER, SOUTH CAROLINA

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at https://www.navcen.uscg.gov/.

If you have questions about the Fifth Coast Guard District Local Notice to Mariners (LNM), please contact:

COMMANDER
FIFTH COAST GUARD DISTRICT (dpw)
431 Crawford Street
Portsmouth, Virginia 23704

or for correspondence and article requests:
gregory.c.goetz2@uscg.mil, (757) 398-6220 and CGD5Waterways@uscg.mil

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

AIDS TO NAVIGATION DISCREPANCY REPORTING
To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:
1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR MARYLAND - NATIONAL CAPITAL REGION at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR VIRGINIA at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
AI - Alternating
B - Buoy
BKWR - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
Fl - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
H - Horizonal Clearance
HT - Height
I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Integrity
ISL - Islet
ISO - Isophase
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MISS/MSNG - Missing
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading
MSRC/MSRS - Marine Signal Radio

N through P

N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
ODAS - Anchored Oceanographic Data Buoy
OG - Orientation
OH - Obstruction
OHH - Obstruction
OL - Obstruction
OM - Orderly
ON - Obstruction
OP - Orderly
OPC - Operation
OF - Obstruction
OPN - Orderly
OSM - Orderly
OSS - Orderly
OSU - Orderly
OVAL - Obstruction
OT - Obstruction
OY - Orderly
PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
RBL - Radio Beacon
REBUILD - Aid Rebuilt
RECOVERY - Aid Recovered
RED - Red Buoy
REFL - Reflective
RFL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
SI - silent
SIG - Signal
SN - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRAIGHT - Straight Section
ST M - Statute Mile
TEMP - Temporary Aid Change
TM - Topmark
TR - Temporary
TRB - Temporarily Replaced by Lighted Buoy
TRBL - Temporarily Replaced by Lighted Buoy
TRBR - Temporarily Replaced by Lighted Buoy
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

AIS - Automatic Identification System
AtoN - Aids to Navigation
LIB - Lighted Ice Buoy
LLNLR - Light List Number
MD-NOR - Maryland-National Capital Region
OREI - Offshore Renewable Energy Installations

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

****NEW OR UPDATED INFORMATION IN THE LOCAL NOTICE TO MARINERS ****

New, updated or very important information in the Local Notice to Mariners (LNM) will be preceded and followed by four asterisks.

US - ATLANTIC SEACOAST - ENDANGERED NORTH ATLANTIC RIGHT WHALES WARNING

US- Atlantic Seacoast - Critically endangered right whales may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. East Coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. In the northeast, please report all right whale sightings, collisions, or entanglements to 866-755-NOAA, or to the Coast Guard via channel 16. WHALES NORTH Mandatory Ship Reporting Area is active year-round. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr(at)noaa.gov.

NOAA's updated Compliance guide for Right Whale Ship Strike Reduction Rules is located at:

Charts: 12200 12211 12214 13003 LNM: 45/21
NC – VA – MD – DE – NJ - ATLANTIC OCEAN - OFFSHORE STRUCTURE PATON MARKING GUIDANCE

For Private Aids to Navigation (PATON) applicants requesting Coast Guard permits to provide navigational markings on offshore structures in Fifth Coast Guard District waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all label, light(s), sound signals and AIS signals). Private AtoN Permit applications should submitted no sooner than 60 days prior to the need to activate a structure’s final markings. Additional specific recommendations include:

Tower Identification:
- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible
- Letters and numbers labelled to as near to 3 meters high as possible
- Visible above any servicing platforms
- Visible throughout a 360-degree arc from the water’s surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials
- If feasible, also labelled below the servicing platform

Lighting:
- Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water’s surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6/FL Y 10) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. These do not require permits, only Coast Guard notification for appropriate marine notices and broadcasts until the final structure marking is established.

Sound Signals:
- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a range of 2NM
- Should not exceed 3NM spacing between perimeter structures
- Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds
- Timed to energize for 45 minutes from last VHF activation

Automated Information System (AIS) Transponder Signals:
- Must be transmitted superimposed at all corner structures/SPSs
- Should be capable of transmitting signals to mark all locations of all structures throughout an established field
- Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the Fifth Coast Guard District’s recommendation

PATON Application can be requested through email to: CGD5Waterways@uscg.mil
Please forward questions or feedback in an e-mail to: Matthew.K.Creelman2@uscg.mil

NC - HAZARDS OF NORTH CAROLINA COASTAL INLETS

Hazardous inlets. To heighten public awareness about the hazards that exist, this information is provided for shoaling conditions that exist at the following North Carolina inlets:

Oregon Inlet
Ocracoke Inlet
Beaufort Inlet
New River Inlet
Masonboro Inlet
Lockwoods Folly Inlet
Shallotte Inlet
Hatteras Inlet
Barden Inlet
Bogue Inlet
Topsail Inlet
Carolina Beach Inlet
Shallotte Inlet

Shoaling conditions increase the potential for groundings. These inlets are subject to continual and sometimes rapid environmental changes. Mariners are highly encouraged to obtain the most recent U.S. Army Corps of Engineers Wilmington, North Carolina District hydrographic survey information, centerline waypoints and controlling depth at:

Mariners should use caution when navigating in these areas and passage through the inlets is not recommended without local knowledge of the area. The aids to navigation in these inlets may not be charted and may not be marking best water due to continually shifting shoals. Consult Local Notice to Mariners, 5th Coast Guard District for the latest positions and status of aids to navigation:
https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=5

To report any aids to navigation discrepancies (missing, damaged, off station, extinguished lights), shoaling, hazards to navigation, or discrepancies on bridge lighting, please contact Sector North Carolina Command Center (910) 343-2200.

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION
The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

INTERFERENCE WITH AIDS TO NAVIGATION
14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than $1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE
The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.
http://www.cgaux.org/boatinged/class_finder/index.php

WESTERN ATLANTIC AND U.S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA) –PROHIBITION ON DISTURBING, REMOVING ARTIFACTS OR DAMAGING SUNKEN CRAFT
Special protections are provided to sunken military craft by the “Sunken Military Craft Act” (SMCA) (Public Law 108-375). Along the U.S. East Coast, and particularly off North Carolina, there are many sunken U.S. and foreign military craft. Sunken military craft may be the final resting places of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U.S. law, sunken foreign military craft, including those located in U.S. waters, remain the property of their respective country’s government. Sovereign immune vessels, such as military crafts, are afforded protections under U.S. and international law. Included among these vessels are at least three known sunken German submarines (U-boats) located in waters off the NC coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both purposeful or inadvertent activities including anchoring, fishing, diving, and other marine activities. Special dangers, such as unexploded ordnance, may also be associated with sunken military craft, and should be considered when operating in these areas. Violations of the SMCA may subject individuals to penalties of up to $100,000 and to liability for damages. Mariners who witness theft of material from, disturbance of, or damage to a sunken military craft are asked to report it to the nearest Coast Guard unit.

SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS
The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

HAZARDOUS WEATHER OUTLOOK EXTENDED TO THE EASTERN PACIFIC OCEAN
In coordination with the National Weather Service (NWS) and the National Hurricane Center (NHC), the US Coast Guard is pleased to announce the addition of a new Hazardous Weather Outlook (HWO) service that covers the Eastern Pacific Ocean. This service is available to all those who could benefit from advanced warning of hazardous weather in both coastal regions and open waters. As with the currently available Western Atlantic Hazardous Weather Outlook, Seven Day HWO’s will be released every Wednesday with additional Situational HWO's issued as conditions require. The service will begin on April 6th of this year, however you can sign up in advance at any time.
In the recent past several maritime tragedies and “near misses” in the coastal waters of the United States have occurred due to hazardous weather, such as the sinking of the SS El Faro in 2015. Based on recommendations by the National Transportation Safety Board (NTSB), in cooperation with the NWS and the United States Coast Guard Navigation Center (NAVcen), developing improved methods of delivering Marine Safety Information remain a top priority.
The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, Booklet Chart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six month notice of the intent to cancel a specific chart is provided in a “Last Edition” notice. The final cancellation of a chart is made in a “Canceled” notice. Both types of notices will appear in LNM Section IV, “Chart Correction.” A comprehensive list of all canceled NOAA charts is available at: http://www.charts.noaa.gov/MCD/Dole.shtml.

Cancelling a chart is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA’s electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA’s program to sunset traditional paper charts is on the NOAA Coast Survey website at: https://www.nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html

An online NOAA Custom Chart application at: https://devgis.charttools.noaa.gov/pod is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

LNM: 09/21

U.S. COAST GUARD NAVIGATION CENTER – WEBSITE UPDATE

The U.S. Coast Guard Navigation Center is going to transition the Navigation Center website to a new, enhanced version in the first quarter of 2022. As part of this transition, URLs will be updated across the site including URLs linked to PDFs. Therefore, once the transition is complete, legacy site URLs will no longer function, including bookmarked URLs and URLs used in automatic downloading of data and/or products. Outdated URLs will automatically redirect to the home page of the site, and from there you will be able to easily navigate to your preferred page.

Below are a few of the “old”/new URL pairs listed for your convenience. Please note that the new URLs will not be active until we launch the new website. Of course, once it is launched, the new URLs will be available for re-bookmarking. As a reminder, these are top level URLs that may contain additional links that you use.

This notice will be updated when the final launch date is determined and another notice will be issued to notify you when the site goes live. Questions/concerns may be directed to the NAVCENWebTEAM@uscg.mil.

BROADCAST NOTICES TO MARINERS

Broadcast Notices to Mariners (BNMs) that are still in effect at the date of this publication.

CCGDS (DS) - BNM - 138 thru 140, 143, 144, 146, 148, 152, 155, 157, 160 thru 164-22.
Sector Delaware Bay (DB) - BNM - 063, 064, 065, 066, 067, 068-22.
SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections. This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Advance Notice(s)

**DE – NJ – DELAWARE RIVER – AID TO NAVIGATION CHANGE PROPOSAL**

On or about May 2022 the Coast Guard will be changing the buoy size of the following floating aids to navigation from 8X26 to 7X17 and increase the nominal range of the light on 1 DR to 5 nautical miles. With the exception of 1DR, no changes to the assigned positions, lighting equipment or flash characteristics are proposed. These changes could take over a year to implement and may be done a few at a time to take advantage of cutter schedules and buoy inventories.

- Delaware River Lighted Buoy 1DR (LLNR 2485), increase the nominal range to 5 nautical miles.
- Delaware River Lighted Buoy 3 (LLNR 2515)
- Delaware River Lighted Buoy 4 (LLNR 2520)
- Delaware River Lighted Bell Buoy 6 (LLNR 2575)
- Delaware River Lighted Buoy 8 (LLNR 2595)
- Delaware River Lighted Buoy 9 (LLNR 2620)
- Delaware River Lighted Buoy 11 (LLNR 2720)
- Chesapeake and Delaware Canal Junction Lighted Buoy CD (LLNR 2745)

Chart 12311

**LNM:** 11/22

****MD - CHESAPEAKE CHANNEL (SMITH PT TO COVE PT), HONGA RIVER, TANGIER AND POCOMOKE SOUNDS ATON WRECKAGE REMOVAL****

Starting on or about the May 16, 2022 the Coast Guard Fifth District will discontinue the following damaged and/or shoaled fixed aids to navigation. Mariners should maintain a safe distance from vessel(s) conducting wreackage removal/demolition operations. Mariners can monitor demolition operations via BNM.

- Discontinue: USN Aerial Gunnery Lighted Wreck Buoy WR3 (LL 7455) upon removal of wreckage.
- Discontinue: Holland Island Warning Daybeacon (LL 7550)
- Discontinue: Hunting Creek Lighted Wreck Buoy WR9 (LL 22285) upon removal of wreckage.
- Discontinue: Daugherty Creek Daybeacon 3 (LL 23365) upon removal of shoaled in pile.
- Discontinue: Daugherty Creek Lighted Wreck Buoy WR5 (LL 23370) upon removal of wreckage.
- Discontinue: Haines Point Obstruction Buoy (LL 23555) upon removal of wreckage.
- Discontinue: Fishing Bay Lighted Wreck Buoy WR4A (LL24416) upon removal of wreckage.
Discontinue: Honga River Warning Daybeacon A (LL 24550) upon removal of shoaled in pile.
Charts: 12225 12226 12228 12230 12231 12261 13/22

**MD – VA – UPPER POTOMAC RIVER – AIDS TO NAVIGATION CHANGE**

****Delayed to further notice**** During March 2022 the Coast Guard will make the following changes to the aids to navigation marking the Upper Potomac River:
Remove: The word “Channel” from all Upper Potomac River aid names.
Relocate: Lighted Buoy 2 (LLNR 17755) to approximate position: 38 24 08.618N-77 00 35.545W, change the flash characteristic to a 2.5-second red light and remove the seasonal status.
Change: Light 5 (LLNR 17815) the flash characteristic to a 4-second green light.
Change: Maryland Point Light (LLNR 17895) to Light 11, change the flash characteristic to 2.5-second green light with a 4nm nominal range and SG dayboards.
Charts: 12285 12288

**MD – SEAGIRT MARINE TERMINAL EAST CHANNEL – COLGATE CREEK - AID TO NAVIGATION CHANGE**

On or about March 28, 2022 the Coast Guard will relocate Colgate Creek Buoy 1C (LLNR 21070) to approximate position: 39 15 02.700N-76 32 21.480W.
Chart 12281

**VA – DC – UPPER POTOMAC RIVER – AIDS TO NAVIGATION CHANGE**

****Delayed to further notice**** On or about March 28, 2022 the Coast Guard will replace; the below listed, existing hulls with foam buoys.
Alexandria Channel:
Buoy 2 (LLNR 18610), Buoy 4 (LLNR 18615), Buoy 7 (LLNR 18661), Buoy 9 (LLNR 18695) and Buoy 11 (LLNR 18700).
Georgetown Channel:
Buoy 1 (LLNR 18770) and Buoy 2 (LLNR 18775).
Charts: 12285 12288

**NC – BEAUFORT INLET – BEAUFORT HARBOR CHANNEL – AID ESTABLISHMENT**

Near the end of March 2022, the Coast Guard will establish Beaufort Harbor Channel Warning Daybeacon B in approximate position 34-42-21 737N, 076-40-43 299W. This additional Warning Daybeacon is to assist in marking the jetty on the south end of Radio Island. All mariners in the area are reminded to not solely rely on any single aid to navigation, but to use the entire system of aids to navigation in addition to charts and electronic navigation equipment.
Chart 11545

****NC – BEAUFORT INLET – BEAUFORT HARBOR CHANNEL – AIDS TO NAVIGATION CHANGE****

On or about 24 May 2022 the Coast Guard will renumber Beaufort Harbor Channel aids to navigation to conform to standard numbering practice.
Over the years aids have been added and removed and the numbering sequence was not maintained.
Change Beaufort Harbor Channel LB 3 (LLNR 34815) to Beaufort Harbor Channel LB 1 (LLNR 34804).
Change Beaufort Harbor Channel B 2A (LLNR 34807) to Beaufort Harbor Channel B 4 (LLNR 34807).
Change Beaufort Harbor Channel 3A (LLNR 34820) to Beaufort Harbor Channel 3 (LLNR 34806).
Change Beaufort Harbor Channel DBN 3B (LLNR 34825) to Beaufort Harbor Channel DBN 5 (LLNR 34825).
Change Beaufort Harbor Channel DBN 4 (LLNR 34826) to Beaufort Harbor Channel DBN 6 (LLNR 34826).
Change Beaufort Harbor Channel DBN 6 (LLNR 34830) to Beaufort Harbor Channel DBN 8 (LLNR 34830).
Change Beaufort Harbor Channel DBN 8 (LLNR 34840) to Beaufort Harbor Channel DBN 10 (LLNR 34840).
Change Beaufort Harbor Channel DBN 10 (LLNR 34845) to Beaufort Harbor Channel DBN 12 (LLNR 34845).
Chart 11545

****NC – LOCKWOODS FOLLY INLET – REDUCTION OF NOMINAL RANGE OF LOCKWOODS FOLLY INLET BUOYS 1 AND 2****

The Coast Guard will reduce the nominal range of Lockwoods Folly Inlet Lighted Buoy 1 (LLNR 31010) and Lockwoods Folly Inlet Lighted Buoy 2 (LLNR 31015) from 6 NM to 5NM. This reduction is required to provide a more reliable light that will stand up to the rough conditions off Lockwoods Folly Inlet.
Chart 11534

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

COAST GUARD POLICY ON NOTIFICATION OF PROPOSED CHANGES

The Coast Guard is evaluating changes in aids to navigation as noted in the below articles. Users may provide feedback on the Fifth Coast Guard District Waterway Proposals Data/Feedback Form:
The Coast Guard is proposing the following changes to the aids to navigation marking the New Jersey Intracoastal Waterway (NJICW). This action is being taken to ensure the visibility of the navigation aids, increase their accuracy throughout the year in the narrow waterway and decrease the work load on servicing units. This is an updated list of aids that ran in a Proposal in May of 2021.

**NJ – INTRACOASTAL WATERWAY – AIDS TO NAVIGATION CHANGE PROPOSAL - BUOYS TO FIXED AIDS**

The Coast Guard is proposing the following changes to the aids to navigation marking the New Jersey Intracoastal Waterway (NJICW). This action is being taken due to the age and extensive deterioration of the steel piles, the necessity to prevent future hazards to navigation and the inaccessibility to the aids by Coast Guard assets. These aid stations will be considered for rebuilding when funds and operations permit.

Change NJICW Buoy 53 (LLNR 35196) to NJICW Daybeacon 53 (LLNR 35196) Green Square Dayboard with yellow square ICW mark.

Change NJICW Buoy 65 (LLNR 35245) to NJICW Daybeacon 65 (LLNR 35245) Green Square Dayboard with yellow square ICW mark.

Change NJICW Buoy 67 (LLNR 35250) to NJICW Daybeacon 67 (LLNR 35250) Green Square Dayboard with yellow square ICW mark.

Change NJICW Buoy 71 (LLNR 35275) to NJICW Daybeacon 71 (LLNR 35275) Green Square Dayboard with yellow square ICW mark.

Change NJICW Buoy 72 (LLNR 35280) to NJICW Daybeacon 72 (LLNR 35280) Triangle Red Dayboard with yellow triangle ICW mark.

Change NJICW Buoy 74 (LLNR 35285) to NJICW Daybeacon 74 (LLNR 35285) Triangle Red Dayboard with yellow triangle ICW mark.

Change NJICW Buoy 75 (LLNR 35290) to NJICW Daybeacon 75 (LLNR 35290) Green Square Dayboard with yellow square ICW mark.

Change NJICW Buoy 76 (LLNR 35295) to NJICW Daybeacon 76 (LLNR 35295) Triangle Red Dayboard with yellow triangle ICW mark.

Change NJICW Buoy 79 (LLNR 35305) to NJICW Daybeacon 79 (LLNR 35305) Green Square Dayboard with yellow square ICW mark.

Change NJICW Buoy 80 (LLNR 35310) to NJICW Daybeacon 80 (LLNR 35310) Triangle Red Dayboard with yellow triangle ICW mark.

Change NJICW Buoy 84 (LLNR 35330) to NJICW Daybeacon 84 (LLNR 35330) Triangle Red Dayboard with yellow triangle ICW mark.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.nvccn.uscg.gov/pdf/lmns/D05_LNM_2015_Special_Notice_Waterway_Proposal_Feedback_Form.pdf

**NJ – INTRACOASTAL WATERWAY – AIDS TO NAVIGATION CHANGE PROPOSAL – FIXED TO FLOATING****

The Coast Guard is proposing the following changes to the aids to navigation marking the New Jersey Intracoastal Waterway (NJICW). This action is being taken due to the age and extensive deterioration of the steel piles, the necessity to prevent future hazards to navigation and the inaccessibility to the aids by Coast Guard assets. These aid stations will be considered for rebuilding when funds and operations permit.

Change Cape May Harbor Light 8 (LLNR 36745) to Cape May Harbor Lighted Buoy 8 (LLNR 36745) Flashing Red 6 second, Red Nun with yellow triangle ICW mark.

Change NJICW Daybeacon 91 (LLNR 35355) to NJICW Buoy 91 (LLNR 35355) Green Can with yellow square ICW mark. Removed when endangered by Ice.

Change NJICW Light 92 (LLNR 35360) to NJICW Lighted Buoy 92 (35360) Flashing Red 4 second, Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.

Change NJICW Daybeacon 131 (LLNR 35540) to NJICW Buoy 131 (LLNR 35540) Green Can with yellow square ICW mark. Removed when endangered by Ice.

Change NJICW Daybeacon 131A (LLNR 35540.1) to NJICW Buoy 131A (LLNR 35540.1) Green Can with yellow square ICW mark. Removed when endangered by Ice.

Change NJICW Daybeacon 168 (LLNR 35680) to NJICW Buoy 168 (35680) Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.

Change NJICW Light 179 (LLNR 36730) to NJICW Lighted Buoy 179 (LLNR 36730) Flashing Quick Green Light, Green Can with yellow square ICW mark. Removed when endangered by Ice.

Change NJICW Light 182 (LLNR 35745) to NJICW Lighted Buoy 182 (LLNR 35745) Flashing Quick Red, Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.

Change NJICW Daybeacon 222 (LLNR 35870) to NJICW Buoy 222 (35870) Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.

Change NJICW Daybeacon 348 (LLNR 35300) to NJICW Buoy 348 (35300) Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.

- Change Cape May Harbor Light 8 (LLNR 36745) to Cape May Harbor Lighted Buoy 8 (LLNR 36745) Flashing Red 6 second, Red Nun with yellow triangle ICW mark.
- Change NJICW Daybeacon 91 (LLNR 35355) to NJICW Buoy 91 (LLNR 35355) Green Can with yellow square ICW mark. Removed when endangered by Ice.
- Change NJICW Light 92 (LLNR 35360) to NJICW Lighted Buoy 92 (LLNR 35360) Flashing Red 4 second, Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.
- Change NJICW Daybeacon 131 (LLNR 35540) to NJICW Buoy 131 (LLNR 35540) Green Can with yellow square ICW mark. Removed when endangered by Ice.
- Change NJICW Daybeacon 131A (LLNR 35540.1) to NJICW Buoy 131A (LLNR 35540.1) Green Can with yellow square ICW mark. Removed when endangered by Ice.
- Change NJICW Daybeacon 168 (LLNR 35680) to NJICW Buoy 168 (LLNR 35680) Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.
- Change NJICW Light 179 (LLNR 35800) to NJICW Lighted Buoy 179 (LLNR 35800) Flashing Quick Green Light, Green Can with yellow square ICW mark. Removed when endangered by Ice.
- Change NJICW Light 182 (LLNR 35745) to NJICW Lighted Buoy 182 (LLNR 35745) Flashing Quick Red, Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.
- Change NJICW Daybeacon 222 (LLNR 35870) to NJICW Buoy 222 (LLNR 35870) Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.
- Change NJICW Daybeacon 348 (LLNR 35300) to NJICW Buoy 348 (LLNR 35300) Red Nun with yellow triangle ICW mark. Removed when endangered by Ice.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf.

The Coast Guard is proposing rebuilding Pea Patch Island Dike Warning Light E (LLNR 2847) with a focal plane of 20 feet vice the previous 32 feet. This change is due to the recalulation of the required Geographic Range (the visibility of an object taking into account the height of the object and the height of the observer). The previous focal plane of 32 feet far exceeded the Nominal Range of the light, the Nominal Range of the Daymarks and the line of sight on the river.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf.

The Coast Guard is proposing renaming the following aids to navigation:
- Rename: Wicomico River Junction Buoy WR (LLNR 17250) to Potomac River Junction Buoy PW.
- Rename: Wicomico River Junction Buoy WR (LLNR 23675) to Wicomico River Junction Buoy WN.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf

All comments will be carefully considered and are requested prior to 04 April 2022 to be considered in the analysis. Refer to project number 05-22-020(D).

VA – JAMES RIVER – AID TO NAVIGATION – BUOY SIZE CHANGE PROPOSAL
The Coast Guard is proposing changing the buoy size of James River Lighted Buoy 7 (LLNR 11575) from 8X26 to 7X17. The existing hull is well past its relief date with no new hull available. The new, 7x17LR, hull will be consistent with the other lighted buoys in the area providing a daytime visibility of 2.3nm and a radar range of 2.7nm. Additionally, proposing to change the ICE condition form a seasonal replacement to a when endangered replacement.
Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at:
All comments will be carefully considered and are requested prior to May 9, 2022 to be considered in the analysis. Refer to project number 05-22-029(D).

VA – BEAUFORT INLET AND CORE SOUND – BARDEN INLET – AIDS TO NAVIGATION CHANGE PROPOSAL
Due to shoaling and water depth in Barden Inlet Daybeacon 20 (LLNR 29230) is not able to be serviced or rebuild by a Coast Guard Construction Tender. The Coast Guard is proposing changing the Daybeacon to a Buoy to provide a reliable aid to navigation, enable routine servicing and maintenance by a different type of vessel. Change Barden Inlet Daybeacon 20 (LLNR 29230) to Barden Inlet Buoy 20 (LLNR 29230). Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. SECTION VII - GENERAL
This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

SAILDRONE, INC. is conducting oceanographic surveys in collaboration with the University of Rhode Island on the eastern seaboard between Dec 5th, 2021 and June 30th, 2022. The survey will be conducted by three (3) Unmanned Surface Vehicles (USVs), called saildrones, each 23ft in length, 16ft tall, orange in color with a white all-round light and marked "SAILDRONE". The saildrones will deploy from Newport, RI to conduct offshore surveys along the Gulf Stream to meet research objectives. All drones are unmanned and wind and solar powered and will have limited maneuverability during survey operations. Mariners are requested to transit areas with caution and to remain greater than 500 meters away from the research equipment.

Enclosure (7) of this Local Notice to Mariners provides a photo and a description of the Saildrone, Questions regarding saildrone operations should be directed to Saildrone Mission Control, missioncontrol@saildrone.com or (510) 722-6070. See ENC 7

VA – ATLANTIC OCEAN – WALLOPS ISLAND ROCKET LAUNCHES
Rocket launches are regularly scheduled in the vicinity of Wallops Island, VA, Danger Zone 334.130. Prior to these launches, visual signals will be displayed consisting of either a large orange-colored, "blimp-shaped" balloon by day or a rotating alternately red and white beacon by night. The balloon will be flown from a position at 37-50-38N, 75-28-47W and the beacon will be displayed approximately 200 feet above mean high water in position 37-50-16N, 75-29-07W. While the warning signal is displayed, all persons and vessels in the Danger Zone, except vessels entering or departing Chincoteague Inlet, shall leave the zone promptly by the shortest possible route and remain outside the zone until allowed by a patrol boat to enter or the danger signal has been discontinued. Vessels entering or departing Chincoteague Inlet must take the shortest route possible upon display of the danger signal. The Danger Zone is depicted on navigational charts 12210 and 12211 with corner points starting in the vicinity of Assawoman Inlet and proceeding southerly to position 37-43-20N, 075-29-41W; thence northeasterly to a point in the vicinity of Chincoteague Shoals; thence westerly back to Wallops Island shoreline.

****VA – CHESAPEAKE BAY – CAPE CHARLES TO NORFOLK HARBOR - JOINT EXPEDITIONARY BASE LITTLE CREEK FORT STORY – LIVE FIRING****
Live firing is conducted continuously off Joint Expeditionary Base Little Creek in Danger Zone 334.370, the area west of the south end of the Chesapeake Bay Bridge Tunnel, bounded by the following positions: 36-55-24N 76-08-43W, 36-55-50N 76-08-37W, 36-57-16N 76-08-14W, 36-57-16N 76-08-14W, 36-55-24N 76-08-43W, 36-57-16N 76-08-14W, 36-55-50N 76-08-37W, 36-57-16N 76-08-14W. Firing is conducted Monday through Friday from 7:00 am to 8:00 pm. For questions contact Range Operations and Training Area, Mr. Asaaf or Ms. Lawrence at 757-422-7103/7101.

Charts: 12222 12254

LNM: 45/21

VA – WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS
Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:
- Willoughby Bay
- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.
- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle.

During these operations, the aircraft will be operating at altitudes as low as seventeen-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels. All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary.

These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the aircraft. AMCM helicopters will transit to and from the area described above in the following manner: Outboard from the seaplane ramp at the Norfolk Naval Air Station across Willoughby Bay to the main shipping channel, then easterly along the main channel to Buoy 21. From Buoy 21 either East, SE or SSE to the operating area. The return flight will follow the same path as the outbound flight. To minimize the potential for mishap, vessels are requested to remain well clear of these danger zones when AMCM operations are encountered.

VA – YORK RIVER – U.S. NAVAL WEAPONS STATION – CHEATHAM ANNEX - SMALL ARMS LIVE FIRE DANGER ZONE
A Danger zone has been established within an area beginning at Mean High Water on the shore at the U.S. Naval Weapons Station, Cheatham Annex facility on the York River, located at 37° 17’ 33.10”N, 076° 36’ 19.06” W; then northeast to a point on the York River at 37° 18’ 36.650”N,
VA - YORK RIVER – U.S. NAVAL WEAPONS STATION - CHEATHAM ANNEX - SMALL ARMS LIVE FIRE DANGER ZONE
076° 34' 39.010" W, thence south, southeast to 37° 17' 59.37" N, 076° 34' 13.65" W; then southwest to a point on the shore located at 37° 17' 26.750" N, 076° 36' 14.890" W. Vessels may transit this area at anytime; however, no vessel shall anchor, fish or conduct any waterborne activities within the Dredge Zone established in accordance with this regulation any time live firing exercises are being conducted. Any time live firing is being conducted a red flag will be displayed in a conspicuous location along the shore to signify the range is active. At night, red lights will be displayed.
Chart 12241
LNM: 37/20

VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS
The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The bounding coordinates for each field are as follow:

AREA A: 37-09.0N 075-31.0W, 37-09.0N 075-34.7W, 37-12.0N 075-31.0W, 37-12.0N 075-34.7W.
AREA B: 36-29.0N 075-31.8W, 36-29.0N 075-35.5W, 36-26.0N 075-35.5W, 36-26.0N 075-31.8W.
AREA C: 36-29.0N 075-20.8W, 36-29.0N 075-24.5W, 36-26.0N 075-24.5W, 36-29.0N 075-20.8W.
AREA D: 36-46.5N 075-47.8W, 36-46.5N 075-45.5W, 36-47.5N 075-45.5W, 36-47.5N 075-47.8W.
Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines are placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation.
Chart 12200

VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDLETON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE
The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as "all of the waters seaward of the mean high water shore line within a sector between radial lines extending 13,500 yards seaward and bearing 090 degrees true and 150 degrees true, respectively, from a point on shore at 36° 49' 09"N, 075° 58' 45"W. All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (42nd) Edition when operating south of the entrance to the Chesapeake Bay. Firing will take place only during daylight hours and red flags will be displayed at conspicuous locations on the beach at the facility. Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.
Charts: 12205 12207 12221

DREDGING AND MARINE CONSTRUCTION CAUTIONS
Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

****NY - NJ – DE – RIGHT WHALE VOLUNTARY VESSEL SPEED RESTRICTION ZONE****
NOAA Fisheries announces a voluntary vessel speed restriction zone under the Right Whale Slow Zones Program is currently in effect in the following areas:

- The southeast of New York City, NY is bounded by: 40 degrees 35 minutes North, 072 degrees 47 minutes West, 073 degrees 40 minutes West through April 2, 2022.
- The southeast of Atlantic City Slow Zone Area is bounded by: 39 degrees 25 minutes North, 073 degrees 44 minutes West, 074 degrees 36 minutes West through April 8, 2022.
- The southeast of New York City, NY is bounded by: 40 degrees 35 minutes North, 072 degrees 47 minutes West, 073 degrees 40 minutes West through April 2, 2022.
- The southeast of Atlantic City Slow Zone Area is bounded by: 39 degrees 25 minutes North, 073 degrees 44 minutes West, 074 degrees 36 minutes West through April 8, 2022.
- The southeast of New York City, NY is bounded by: 40 degrees 35 minutes North, 072 degrees 47 minutes West, 073 degrees 40 minutes West through April 2, 2022.

****NJ – INTRACOASTAL WATERWAY – MANASQUAN RIVER – SANDY HOOK TO LITTLE EGG HARBOR****
Mariners are advised that an engineering firm, on behalf of the New Jersey Transit Corporation will be performing a dive inspection at the Brielle Point Pleasant Railroad Bridge, at mile 0.9, over the Manasquan River, in Point Pleasant, New Jersey. The inspection will be conducted between March 14, 2022 and April 14, 2022; from 7 a.m. to 3:30 p.m. The inspection will require a 17 foot dive boat to be in and around the navigable channel and divers to be working outside the navigable channel. The team lead can be reached at 914-261-0912, and may be reached on VHF-FM channels 13 and 16. The dive boat will be monitoring VHF-FM channels 13 and 16. Mariners should use caution when transiting the area.
Chart 12324
LNM: 10/22

NJ – SANDY HOOK TO LITTLE EGG HARBOR – LITTLE EGG HARBOR – HAZARD TO NAVIGATION
A cofferdam has been installed in Little Egg Harbor approximately one mile northwest of Ham Island. In approximate position, 39° 36' 33.744" N, 074° 14' 24.179" W. The structure extends approximately 10' above the water line and is surrounded by yellow painted pilings. Six of these pilings have white lights placed on top of them. Mariners are advised to exercise caution when transiting the area.

NJ – CAPE MAY CANAL – CAPE MAY FERRY TERMINAL – DREDGING OPERATIONS
All vessels please be advised that the Dredge MONTGOMERY of Barnegat Bay Dredging will be performing maintenance dredging of the Cape May
Coast Guard District

DE/NJ – CAPE MAY CANAL – CAPE MAY FERRY TERMINAL – DREDGING OPERATIONS
Ferry Terminal located in Cape May, NJ. Dredging will start at Ferry Slip number 1, then digging to the east number 2, 3, 4, 5, and 6. Work will commence on March 16, 2022 with a completion date of April 18, 2022. All vessels should proceed with extreme caution when passing dredging locations. Dredge MONTGOMERY will be monitoring VHF channels 11, 13 and 16. For further information contact Sector Delaware Bay Command Center at 215-271-4807.

Chart 12304  LNM: 11/22

****DE/NJ – CAPE MAY CANAL – CAPE MAY FERRY TERMINAL – DREDGING OPERATIONS****
Hydraulic Dredging at entrance of Cape May Ferries. Dredging will commence on or about March 28, 2022 and continue until May 2, 2022 in the New Jersey Intracoastal Waterway (NJICW). On May 9, 2022 the Dredge Fulleront will be set up at Cape May Harbor and dredge should commence on May 13, 2022 until June 4, 2022. Demobilization should take place from June 4th through the 10th. The Dredge Fulleront will monitor VHF radio Stations 11, 13 & 16. Mariners are advised to transit the area with extreme caution. For further information regarding this dredging project contact the Sector Delaware Bay Command Center at 215-271-4807.

Chart 12316  LNM: 12/22

PA – PHILADELPHIA AND CAMDEN WATERFRONT – SCHUYLKILL RIVER – BRIDGE MODIFICATION
Mariners are advised that a construction firm, on behalf of the City of Philadelphia, will be modifying the existing Grays Ferry Railroad Bridge, over Schuykill River, mile 5.5, at Philadelphia, PA. Modification activities which began June, 2018, will recommence on April 4, 2022, and are expected to finish on June 3, 2022. Work will be performed from 7 a.m. to 3:30 p.m.; M-F. During this bridge modification project, the eastern navigation span will be occupied; the western navigation span will be open for vessels to transit. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. The new bridge will have a vertical clearance of 26 feet above mean high water in the closed-to-navigation position, an unlimited vertical clearance in the open position, a horizontal clearance of 75 feet in the western navigation span, and 65 feet in the eastern navigation span. Detailed project information and information concerning the waterway closures will be provided via updated local notices to marine broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, and support vessels will be operating or stationed in the vicinity of the existing bridge. A.P. Construction Inc.’s vessels are monitoring VHF-FM channels 13 and 16 when working or vessels are operating. The City of Philadelphia construction manager may be contacted at 215-275-8066 and A.P. Construction, Inc.’s project foreman may be contacted at 215-651-6278 or 215-421-2880.

Chart 12313  LNM: 12/22

PA – SCHUYLKILL RIVER – CSX RAILROAD BRIDGE DEVIATION
Until further notice, vessels wishing to transit through the CSX Railroad Bridge on the Schuykill River should only do so on the western navigational span of the bridge. Due to storm damage a temporary power cable has been placed across the eastern navigation span of the bridge rendering passage unsafe. Mariners are advised to proceed with caution through the western navigation span only, and heed visual indicators of the blocked eastern span.

Chart 12313  LNM: 42/21

NJ – DELAWARE RIVER – BRIDGE MAINTENANCE
Mariners are advised that an engineering firm will be conducting maintenance to the tower piers on the Benjamin Franklin Bridge across the Delaware River, mile 100.2, at Philadelphia, PA, from March 27, 2022, to April 1, 2022, from 7 a.m. to 5:30 p.m. To facilitate maintenance, a 40ft x 30ft work barge will be positioned adjacent to both sides of the tower piers during work hours. The barge will be located outside the navigational channel at all times while not in transit. Mariners should use caution when transiting the area.

Chart 12313  LNM: 12/22

****DE/NJ – DELAWARE RIVER - SMYRNA RIVER TO Wilmington – DELAWARE RIVER (MAIN CHANNEL) – BRIDGE INSPECTION****
Mariners are advised that an engineering firm, on behalf of Delaware River Port Authority, will be performing an underwater bridge inspection on the Delaware Memorial Bridge, over Delaware River, mile 68.9, at New Castle, DE. The inspection will be conducted from 7 a.m. to 6 p.m.; Monday-Saturday, from April 4, 2022, through April 15, 2022. The inspection will require a 28 foot dive boat around the navigable channel and diver to be working outside the navigable channel. Work vessels may be reached on VHF-FM channel 13 and 16. Mariners should use caution navigating through the area.

Chart 12311  LNM: 13/22

DE/NJ – DELAWARE RIVER - SMYRNA RIVER TO Wilmington – DELAWARE RIVER (MAIN CHANNEL) - BRIDGE PAINTING
Mariners are advised that work is in progress to conduct painting operations at the Delaware Memorial Bridge, at mile 68.9, across the Delaware River at New Castle, DE through October 2022. Work platforms have been installed, reducing the available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution when transiting the area.

Chart 12311  LNM: 45/21

DE/NJ – WILMINGTON HARBOR – CHRISTINA RIVER – DELAWARE RIVER – DREDGING OPERATIONS
*****EXTENDED***** The Dredge ESSEX will commence dredging operations in the Cherry Island Range of the Delaware River on or about March 1, 2022. The project at Cherry Island Range will continue until approximately April 15, 2022. A submerged pipeline will run from the dredging area to the Pedricktown Disposal area on the New Jersey side of the river. A floating pipeline will connect the dredge to the submerged pipeline. The submerged pipeline will need to be moved occasionally as the dredge progresses. The Dredge Operator will standby on channels #13 and #16 VHF-FM. Traffic should call 30 minutes prior to expected time of passage. All mariners are requested to stay clear of the dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires about the dredge. Operators of vessels of all types should be aware that the dredge and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoy's are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipelines, barges, derricks, wires and related equipment. Owners and lessees of fishnets, crabpots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tenderboats and other attendant equipment will be navigating. Since the project will be conducted twenty-four (24) hours per day seven (7) days a week, all fishnets, crabpots and structures in the general area must be
DE/NJ – WILMINGTON HARBOR – CHRISTINA RIVER – DELAWARE RIVER – DREDGING OPERATIONS
removed prior to the commencement of the work.
Chart 12311 LNM: 12/22

DE - DELAWARE BAY - MISPILLION RIVER - EMERGENCY BRIDGE CLOSURE
Mariners are advised that the highway drawbridge – Route 1/Rehoboth Blvd. Bridge across Mispillon River, mile 11.0, at Milford, DE has sustained a
causality and will not be capable of normal operations. The bridge will remain in the closed position until further notice. Vessels able to transit
through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 5 feet
above mean high water. The bridge will not be able to open for emergency vessels. Mariners should adjust their transits accordingly and should use
extreme caution when transiting the area.
Chart 12304 LNM: 10/22

DE – CAPE HENLOPEN TO INDIAN RIVER INLET; BREAKWATER HARBOR
Mariners are advised that an engineering firm, on behalf of Delaware Department of Transportation, removed the Lewes Railroad Swing Bridge, mile
2.2, across Lewes and Rehoboth Canal, at Lewes, DE. A cofferdam was installed February 22, 2022, the fender piled and pier are anticipated to be
removed by April 1, 2022. Due to fisheries time of year restriction the cofferdam will be removed October 7, 2022. Horizontal clearance of the canal
will be constricted by approximately 5 feet until October 7, 2022. Mariners should use caution when transiting the area.
Chart 12216 LNM: 09/22

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - ISLE OF WIGHT BAY – HAZARD TO NAVIGATION
The Coast Guard received a report of a 12-14 inch diameter dredge pipe running through Isle of Wight Bay. It is marked by a danger obstruction
buoy in position 38-21.474N 075-05.701W. Mariners are urged to transit the area with caution. MD-NCR BNM 170-19
Chart 12211 LNM: 24/19

MD – TANGIER SOUND – NORTHERN PART – ARTIFICIAL REEF DEPLOYMENT
The Maryland Artificial Reef Initiative will be deploying concrete material at the Point No Point artificial reef site between March 25, 2022 and March
31 2022. The material will be deployed at or near 37-57.022′N, 075-54.947′W, approximately 3.4 miles SW of Crisfield.
On the day of deployment a tug boat and barges will be on site from 07:00 to 18:00. The Maryland DNR Artificial Reef Coordinator will be on site
monitoring the deployment, and can be reached at Michael.Malpezzi@maryland.gov for questions.
Chart 12231 LNM: 12/22

MD – CHESAPEAKE BAY – CHOPTANK RIVER – BILL BURTON FISHING PIERS – WARNING TO WATERCRAFT OPERATORS
Due to safety concerns at the Bill Burton Fishing Piers, located along the Choptank River at the Bill Burton Fishing Pier State Park in Talbot and
Dorchester Counties, MD, the Maryland Department of Natural Resources is warning watercraft to maintain a minimum distance of 100 feet from
the fishing piers at all times until further notice. Signage posted warns of a possible danger of falling debris should boating traffic allide with these
structures. Interested mariners can contact the Duty Ranger at 443-477-0526.
Chart 12266 LNM: 46/21

MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – CHESAPEAKE CHANNEL – BRIDGE CONSTRUCTION
Mariners are advised that bridge construction at the William P. Lane Jr. Memorial (US 50/301) Bridge will impact one of two installed northbound
foghorns through June 30, 2022. One southbound foghorn and one northbound foghorn will remain active during this time. Interested mariners can
contact the project administrator at telephone number 443-468-4545. Mariners are urged to use caution when transiting the area.
Chart 12263 LNM: 09/22

****MD - CHESAPEAKE BAY - SANDY POINT TO SUSQUEHANNA RIVER - CRAIGHILL CHANNEL - TEMPORARY SAFETY ZONE
The Coast Guard established a temporary safety zone upon certain waters of the Chesapeake Bay within a 500 yard radius of the container ship
EVER FORWARD through 9 p.m. on April 13, 2022. The vessel is currently aground approximately 800 yards south of Craighill Channel Lighted Buoy
16 (LNR 8085), in approximate position 39°06′39″ N, 076°23′30″ W.
The safety zone is necessary to provide for the safety of persons and the marine environment from the potential safety hazards associated with
damage assessments, dredge and salvage operations. No vessel or person will be permitted to enter the safety zone without obtaining permission
from the Captain of the Port (COTP) or a designated representative. The COTP is currently issuing a Broadcast Notice to Mariners (BNM) via VHF-
FM marine channel 16 that allows transit through the safety zone for one-way traffic at a reduced safe speed but is subject to change. Mariners
are requested to monitor the VHF channel 16 for the latest information. Those in the safety zone must comply with all lawful orders or directions
given to them by the COTP or the COTP’s designated representative. The U.S. Coast Guard may be assisted in the patrol and enforcement of the
safety zone by Federal, State, and local agencies.
Due to the nature and severity of the grounding, dredging operation will need to be conducted around the EVER FORWARD and commenced
on March 20, 2022 and take approximately 7-10 days to complete. Dredging will start outside the eastern edge of Craighill Channel and progress
eastward towards the starboard side of EVER FORWARD. Dredge assets include the bucket dredge DALE PYATT and the clamshell dredge OYSTER
BAY as well as six scows, various tugs and support vessels. All will be working on VHF channel 78 and monitoring channels 13 and 16. Dredged
material will be transported by scow to the Northern Access Channel Turning Basin at Poplar Island in Talbot County, MD for placement by the off-
loading barge KRAKEN. Mariners are to use extreme caution when transiting in the vicinity and abide by the Safety Zone and any allowances by the
COTP advertised in the BNM via VHF-FM marine channel 16.
For any comments or questions regarding the contents of this local notice to mariners article, contact U.S. Coast Guard Sector Maryland-National
Capital Region Waterways Management staff at (410) 576-2674, or the Sector Command Center at (410) 576-2693.
Charts: 12273 12280 LNM: 12/22

VA – MD – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – BRIDGE CONSTRUCTION
Pier protection/fenderconstruction and bridge deck construction operations are scheduled to continue adjacent to the Federal Navigation Channel
at the New Harry W. Nice / Thomas “Mac” Middleton (US 301) Bridge on the Potomac River in Newburg, MD through June 30, 2022. This work will
potentially occur 24 hours per day, 7 days per week. Federal navigation channel closures or restrictions will be required periodically. Such actions
will be minimized to the extent possible and will not be required every day, but could be needed any day, pending weather, equipment, and other
factors. When a federal navigation channel closure is required, in addition to establishing a temporary safety zone in the area, the Coast Guard
Captain of the Port Maryland-National Capital Region will issue a broadcast notice to mariners to announce its action to the affected segments of

Page 26 of 34

VA – MILITARY OPERATIONS – JOINT EXPEDITION BASE (JEB) LITTLE CREEK – ANZIO BEACH

Mariners are advised of the US military will occupy waters just east of Little Creek Harbor entrance channel to conduct multi-day military training beginning at 8:00 am on April 4th 2022 and ending at 6:00 pm on April 8th 2022. A barge will be submerged in 16 feet of water at approximate position 36 55 54N, 076 10 04W approximately 900 feet from Anzio Beach. In addition, units will be streaming a floating hose from JEB Little Creek Anzio Beach out to the barge. The barge will be marked with white lights when on the surface and marked with buoys with white lights when submerged. The floating pipe/line is red in color and will be lighted at night with steady white lights and marked with orange buoys during daylight or periods of reduced visibility. Mariners shall, maintain a safe distance of 300 feet from the operational training area during the dates/times listed above. Utility craft 22 and 27 will remain on scene to warn approaching mariners operating in the area. Concerned traffic can contact on-scene patrol craft on marine band channel 72/74 and will be monitoring VHF/FM channel 13/16.

Chart: 12221

VA – HAMPTON ROADS – HAMPTON ROADS BRIDGE TUNNEL – FORT WOOL BIRD HABITAT

On or around March 15, 2022, Coastal Management Group will be mooring 3 deck barges SSW of Fort Wool as a temporary habitat for nesting birds, during the Hampton Roads Bridge Tunnel Project. Barges will be moored in approximate position 36-59-07.96N, 076-18-05.96W. For more information contact Matt Anders (757) 298.0627, manders@cmgrouppva.com. Barges will remain until September 30, 2022.

Charts: 12222 12245
LNM: 10/22
**VA - HAMPTON ROADS - HAMPTON ROADS BRIDGE TUNNEL (HRBT) - BRIDGE CONSTRUCTION/ISLAND EXPANSION**

Hampton, VA, commonly referred to as the Hampton Roads Bridge-Tunnel (HRBT). Construction activities will begin March 15, 2021, and are expected to continue through November, 2025. Marine construction activity will take place 24-hours per day, seven days a week.

The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00' 24.12" N, 76° 19' 18.84" W for the west span and at position 37° 00' 24.48" N, 76° 19' 15.60" W for the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58' 15.24" N, 76° 18' 03.96" W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new approach bridge spans or located within specific Mooring Areas or Safe Harbor locations.

**Bridge Structures/Work Trestles & Islands** — Mariners are advised to maintain a safe distance of 300 feet from all HRBT bridge structures/work trestles, HRBT North Island, and HRBT South Island. Construction managers may establish safe transit corridors through bridge structures/work trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines next to the existing trestles for the duration of the bridge construction to facilitate construction activity. Each pile will be lit by a flashing white light.

**Hampton Flats Mooring Area** — As charted. Changes pending. This area will contain six mooring buoys, lighted with flashing white lights, for the exclusive use of vessels involved in the HRBT Expansion project. The corners of the mooring area are marked with yellow buoys with flashing yellow lights. Mariners should use caution when transiting the area.

**Phebus Safe Harbor Area** — As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the area.

**Willoughby Bay Mooring and Safe Harbor Area** — As charted. This area contains a straight row of mooring pilings for the exclusive use of vessels involved in the HRBT Expansion project. The two end pilings are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-685-3392 or Kareem Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373-4799 and/or email MarineOps@hrctpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtxpansion.org.

Charts: 12222 12245

**VA - HAMPTON ROADS-WILLOUGHBY BAY - BRIDGE MODIFICATION**

Mariners are advised that a construction firm, on behalf of Virginia Department of Transportation, will be modifying the existing bridge I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge across Willoughby Bay, mile 1.5, at Norfolk, VA, commonly called the Willoughby Bay Bridge. Construction activities will begin on June 7, 2021, and are expected to continue through December, 2023. Marine construction activity will take place 24-hours per day, seven days a week.

The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

**Bridge Structures/Work Trestles** — Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area — As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536-9863 and/or email MarineOps@hrctpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtxpansion.org.

Charts: 12222 12245

**ELIZABETH RIVER – SEDIMENT SAMPLING**

Between March 29, 2022 and May 2, 2022, the Norfolk District of the U.S. Army Corps of Engineers (USACE) in partnership with EA Engineering, Science, and Technology, Inc. PBC (EA) will be conducting sediment sampling operations within the Elizabeth River between the Craney Island Dredged Material Management Area and the Craney Island Reach of the federal navigation channel. Sampling work will be performed outside of the channel limits between the Elizabeth River Lighted Buoy 14 (LLNR 9540) and Elizabeth River Lighted Buoy 18 (LLNR 9600). Work will be conducted during daylight operations aboard the M/V USACE Elizabeth, a 100 ft long, self-propelled barge (MMSI 366999274) owned and operated by the USACE, Norfolk District. The vessel will be moored using spuds and anchors during sampling. The USACE requests all vessels reduce speed to minimize wake when transiting through the area.

The replacement south approach bridge will be a fixed bridge with a clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58' 15.24" N, 76° 18' 03.96" W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

**Bridge Structures/Work Trestles** — Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area — As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536-9863 and/or email MarineOps@hrctpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtxpansion.org.

Charts: 12222 12245

**VA - SOUTHERN BRANCH OF ELIZABETH RIVER - MILITARY EXERCISE**

A harbor security exercise for Norfolk Naval Shipyard Harbor Patrol Unit utilizing blank ammunition fire will be conducted on the Elizabeth River near the Jordan Bridge in approximate position 36° 82' 29.0W 76° 29.29' W on April 5, 2022, during the hours of 12:00 pm to 3:00 pm. Vessels from Norfolk Naval Shipyard Harbor Patrol Unit will take part in the exercise. Non-involved vessels are urged to stay clear of the exercise area. VHF-FM channels 78 and 79 will be monitored on scene and you may contact Erik Wagner at 757-407-4528 for questions or concerns.

Chart: 12253
Mariners are advised that the U.S. 460/S.R. 337 (Berkley) Bridge, across the Elizabeth River-Eastern Branch, mile 0.4, at Norfolk, VA, will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge bascule spans. The bridge will remain in the closed position from 5 a.m. on Monday, April 25, 2022, to 5 a.m. on Saturday, April 30, 2022, with alternate closure dates from 5 a.m. on Monday, May 2, 2022, to 5 a.m. on Saturday, May 7, 2022. The horizontal clearance of the bridge will be reduced to 100 feet from 5 a.m. on Monday, April 25, 2022, to 8 a.m. on Wednesday, April 27, 2022, with alternate dates from 5 a.m. on May 2, 2022, to 8 a.m. on Wednesday, May 4, 2022. The drawbridge has two spans, each with double-leaf bascule draws, and both spans have a vertical clearance in the closed position of 48 feet above mean high water. Vessels able to pass through the bridge in the closed position or reduced horizontal clearance may do so, after notifying the bridge tender. The bridge spans will not be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. Mariners should use caution when transiting the area.

Chart 12253

Mariners are advised that an engineering firm, on behalf of Virginia Department of Transportation, will be performing maintenance on the Benjamin Harrison Lift Bridge over the James River, mile 65.0, near Hopewell, VA. The maintenance will be conducted from 7 a.m. to 6 p.m. daily, from March 21, 2022, through March 29, 2022. A work barge, crane and tug will be located in and around the vicinity of the bridge. Work vessels may be reached on VHF-FM channel 13 and 16. Mariners should use extreme caution navigating through the area.

Chart 12252

Mariners are advised that an engineering firm, on behalf of Virginia Department of Transportation, will be performing maintenance on the Benjamin Harrison Lift Bridge over the James River, mile 65.0, near Hopewell, VA. The maintenance will be conducted from 7 a.m. to 6 p.m. daily, from March 28, 2022, through April 5, 2022. A work barge, crane and tug will be located in and around the vicinity of the bridge. Work vessels may be reached on VHF-FM channel 13 and 16. Mariners should use extreme caution navigating through the area.

Chart 12252

Mariners are advised that Virginia Department of Transportation has requested a temporary deviation of the operating schedule for the State Route 223 drawbridge across Milford Haven Inlet, mile 0.1, at Hudgins, VA. To maintain operational capability of the swing span prior to repairs being performed in 2022, the drawbridge will open on signal for vessel traffic at 2 a.m., 5 a.m., 8 a.m., 11 a.m., 7 p.m. and 10 p.m., daily, from February 3, 2022, through July 18, 2022. Vessels able to pass through the drawbridge in the closed position may do so at any time. The vertical clearance of the drawbridge in the closed-to-navigation position is 12 feet above mean high water. The drawbridge will be able to open for emergency vessels. Mariners should adjust their transits accordingly and use extreme caution when transiting the area.

Chart 12235

Mariners are advised that the U.S. 460/S.R. 337 (Berkley) Bridge, across the Elizabeth River-Eastern Branch, mile 0.4, at Norfolk, VA, will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge bascule spans. The bridge will remain in the closed position from 5 a.m. on Monday, April 4, 2022, to 5 a.m. on Saturday, April 9, 2022, with alternate closure dates from 5 a.m. on Monday, April 11, 2022, to 5 a.m. on Saturday, April 16, 2022. The horizontal clearance of the bridge will be reduced to 100 feet from 5 a.m. on Monday, April 4, 2022, to 8 a.m. on Wednesday, April 6, 2022, with alternate dates from 5 a.m. on April 11, 2022, to 8 a.m. on Wednesday, April 13, 2022. The drawbridge has two spans, each with double-leaf bascule draws, and both spans have a vertical clearance in the closed position of 48 feet above mean high water. Vessels able to pass through the bridge in the closed position or reduced horizontal clearance may do so, after notifying the bridge tender. The bridge spans will not be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. Mariners should use caution when transiting the area.

VA – SEACOAST – RUDEE INLET – DREDGE OPERATIONS
for Resort Area Beach Placement. Floating pipeline will be placed, parallel along the south side of the channel and in the "Sand Trap" for Croatan Beach Placement. Any used submerged pipeline will be marked with buoys every 120’ with appropriate signs and lights placed at pipeline entry and exit points. The floating pipeline length is approximately 1500’ feet at its longest and will be anchored and tended by tender tug boats. The Dredge Operator will standby on channels #13, #16, and #5 VHF-FM. For any emergencies the dredge operator can be reached at 757-508-2326.
Mariners are requested to exercise extreme caution when approaching, passing and leaving the dredging plant and are requested to contact the dredge prior to passing.
Chart 12200

VA – INTRACOASTAL WATERWAY – NORTH LANDING BRIDGE – EMERGENCY BRIDGE OPERATING SCHEDULE
Mariners are advised that the highway drawbridge – S165 (North Landing Bridge), over North Landing River, mile 20.2, at Chesapeake, VA, will not be capable of normal operation until further notice. The north span of the bridge is fully operational and the south span of the bridge will have limited operational capabilities. The drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021, except for recreational vessels. Recreational vessels able to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a limited opening (north span). Recreational vessels unable to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a full opening (both spans). Public vessels of the United States, commercial vessels, government vessels, and emergency vessels may transit through the bridge unrestricted at any time in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. The bridge will be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area.

****NC – CAPE HENRY TO PAMLICO SOUND – PERQUIMANS RIVER****
Mariners are advised that deck placement for the new swing bridge at the US 17 Bridge, at mile 12.0, across Perquimans River at Hertford, Perquimans County, NC will commence on April 4, 2022. To facilitate the placement and curing of the concrete deck, the bridge will be maintained in the closed-to-navigation position from 10 a.m. on April 4, 2022, through 10 a.m. on April 13, 2022. The vertical clearance of the bridge in the closed-to-navigation position is approximately 13.5 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.835. Mariners should exercise caution when transiting the area.
Chart 12205

****NC – SEACOAST – JENNETTE’S PIER – NAGS HEAD – RESEARCH EQUIPMENT****
The Coastal Studies Institute (CSI) will test marine energy devices for the Water Power Technologies Office at the Department of Energy's "Waves to Water Prize DRINK stage" in permitted test areas adjacent to the north and south sides of Jennette’s Pier in Nags Head, NC, from April 1, 2022 to April 30, 2022. Deployment of test devices includes anchorage to the bottom with cabling and hose connecting devices to the pier. The four devices will be marked by a white light. Additional information on Waves to Water can be found online at: https://americanmadechallenges.org/wavestowater/. Vessels are requested to remain clear of the test areas and remain greater than 300 feet away from Jennette's Pier.
Chart 12200

****NC – OREGON INLET – BONNER BRIDGE – NAVIGATION SPAN – CONSTRUCTION****
Demolition crews are continuing working near Bonner Bridge in Oregon Inlet, NC. Workers and equipment will be present in, around bent 37, and between bents 24-25 of the Bonner Bridge demolition project. Oregon Inlet has significant shoaling in between Oregon Inlet Lighted Buoy 6 (LLNR 28003) and Oregon Inlet Buoy 7 (LLNR 28005). Mariners should follow the aids to navigation closely and stay clear of demolition Work areas. Mariner are requested to transit at no wake speeds and use extreme caution in this area during work hours. Crane barges will be secured in place with four anchors connected by anchor wires to the corners of the barge. The anchor locations will be marked with yellow crown buoys within an approximate 500-ft radius of the crane barge. Mariners should be aware that anchor wires may be at or just above/below the water surface between the barges and crown buoys; therefore vessels should stay on the outboard side of the crown buoys. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at http://www.nccdot.gov/projects/bonnerbridgereplacement/.

**NC – SOUTH FERRY CHANNEL – SHOALING – TEMPORARY DISCONTINUATION OF AIDS TO NAVIGATION**

Significant shoaling exists in South Ferry Terminal in Hatteras Inlet, to a depth of less than two feet at mean low water. Multiple aids to navigation in the channel are unreliable and not marking good water. The Coast Guard has temporarily discontinued South Ferry Terminal buoyos 4SF (LLNR 28703) thru 9SF (LLNR 28717) due to shoaling. Mariners are advised to use extreme caution while navigating this area.

**NC-NEUSE RIVER AND UPPER PART OF BAY RIVER-TRENT RIVER – TEMPORARY BRIDGE DEVIATION**

Mariners are advised that the highway drawbridge – U.S. 70 (East Front Street/Alfred C. Cunningham) Bridge across Trent River, at mile 0.0, at New Bern, NC, will be maintained in the closed-to-navigation position to facilitate the Neuse River Bridge Run. The bridge will remain in the closed position from 6:45 a.m. through 10:15 a.m. on Saturday, April 9, 2022. The bridge will be able to open for emergencies, if five minute prior notice is given and there is no immediate alternative route for vessels unable to pass through the bridge in the closed position. Vessels able to pass through the bridge in the closed position may do so at any time. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.843 (a). Mariners should adjust their transits accordingly and should use caution when transiting the area.

** ****NC – NEARSHORE/OFFSHORE WATERS – CAPE LOOKOUT – HYDROGRAPHIC SURVEY OPERATIONS****

Geodynamics, LLC will be obtaining high resolution geophysical (HRG) data running shore parallel track lines in the general area of 3 to 9 miles offshore along Onslow Bay, between Bear Island and Cape Lookout to support sand investigation studies on behalf of Carteret County, N.C. The survey work will be conducted from ~March 15, 2022 to May 15, 2022 (inclusive of weather/sea delays) via the R/V Chinook, a 34’ Armstrong Marine Catamaran Vessel at acquisition speeds of ~3 – 5 knots. The survey vessel will have limited maneuverability during operations and mariners are advised to use due caution when transiting in the area. R/V Chinook will monitor VHF 16 or can be contacted at 252-725-9247.

See ENC 8 for survey area.

**NC – HOLDEN BEACH – BEACH RENOURISHMENT PROJECT**

Starting approximately 13 December 2021, Weeks Marine Inc. will be mobilizing pipeline and equipment in the vicinity of Battery Island, near Southport, NC. The equipment (Tugs Cami, Dot G & Lady Joel, Barges 520, 594 & 595) and dredge pipeline will be anchored between the following approximate positions: 33°54'39.19"N, 078°0'56.21"W and 33°55'15.67"N, 077°59'53.30"W. Starting approximately 3 January 2022 and continuing until approximately 30 March 2022, the hopper dredge(s) R.N. Weeks and B.E. Lindholm will be operating 3 nautical miles offshore of Holden Beach, NC. Work limits for borrow areas will be bound by the following approximate positions: Borrow Area #1: 33°52'1.10"N, 78°10'8.36"W, - 33°53'9.37"N, 78° 9'51.29"W, - 33°53'15.13"N, 78°10'42.76"W, - 33°52'12.36"N, 78°10'55.93"W. Borrow Area #2: 33°52'51.88"N, 78°17'43.98"W, - 33°52'51.25"N, 78°16'39.48"W, - 33°51'43.10"N, 78°16'36.54"W, - 33°51'42.60"N, 78°17'41.55"W. Pipeline corridor will be bound by the following approximate positions: 33°54'23.71"N, 78°20'12.20"W, - 33°54'23.71"N, 78°20'12.20"W, - 33°54'23.71"N, 78°20'12.20"W, - 33°54'23.71"N, 78°20'12.20"W. Once underway, dredging operations will continue on a twenty-four (24) hours per day, seven days per week basis. Dredges and Tugs will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. The dredge(s), attendant plant, and pipelines will each have all required U.S. Coast Guard lighting for night operations. For more information, contact Project Manager(s) on-site: PM, Doug Nelson – (985) 237-9667, denelson@weeksmarine.com or PM, David McNeil – (985) 237-5069, dcmcneill@weeksmarine.com.

ENCLOSURES

1. Summary of Shoaling.
2. Summary of Bridge Regulations/Construction/Permits.
4. Summary of Marine Events.
6. Right Whale Slow Zone.
7. SAILDRONE - Offshore Ocean Survey.
8. Offshore NC Survey.
NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NEW JERSEY SHOALING
NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING
Shoaling has been located in the vicinity of New Jersey Intracoastal Waterway Light 262 (LLNR 36005). Shoaling has encroached into the channel, depths are currently 5 - 6 ft at MLW.
Chart 12316

NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING
The shoal adjacent to New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal Waterway Daybeacon 130A (LLNR 35537) has encroached approximately 25-50yds into the channel. Depths of 2-3’ at MLW. Shoaling to 2’ MLW has been observed on the red side of the channel between New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal Waterway Daybeacon 130A (LLNR 35537). SEC DB BNM 124-20
Chart 12316

NJ – BARNEGAT INLET - OYSTER CREEK CHANNEL – SHOALING
Hazard to navigation - There has been a report of shoaling in the NJICW in the vicinity of Oyster Creek Channel Buoy 39 (LLNR 1093), encroaching channel ward to an approximate water depth of two and a half feet. SEC DB BNM 226-21
Chart 12323

NJ – BARNEGAT INLET – SHOALING
Sector Delaware Bay is notifying mariners that there is shoaling reported at the entrance of Barnegat bay inlet. The shoaling is reported in the main navigation channel between Barnegat Inlet Buoy 3 (LLNR 915) and 4 (LLNR 925) and between Barnegat Inlet Lighted Buoy 9 (LLNR 950) and 11 (LLNR 995). Mariners are advised to use extreme caution when transiting Barnegat Bay Inlet as some depths at mean low low water could be hazardous to navigation, especially during extreme weather events. If you have any questions, regarding the content of this message, please contact the waterways Management staff at (215) 271-4814 or the command center at (215) 271-4807. See SEC DB BNM 107-21.
Chart 12323

NJ – INTRACOASTAL WATERWAY – MANASQUAN INLET TO CAPE MAY INLET – SHOALING
Shoaling has been reported in the New Jersey Intracoastal Waterway (NJICW) between Manasquan Inlet and Cape May Inlet. Mariners are advised to use extreme caution when transiting the NJICW due to shoaling. The following are some of the locations where the shoaling has been reported:
NJICW Light 4 (LLNR 34995),
NJICW Light 38 (LLNR 35115),
NJICW Light 45 (LLNR 35165) & Daybeacon 46 (LLNR 35167),
NJICW Light 49 (LLNR 35108),
NJICW Daybeacon 58 (LLNR 35215) to Buoy 75 (LLNR 35290),
NJICW Junction Light LB (LLNR 35420) to Light 109 (LLNR 35430),
North side of Taw Island at NJICW Daybeacon 129 (LLNR 35530),
NJICW Daybeacon 128 (LLNR 35525) to Light 132 (LLNR 35550),
NJICW Light 145 (LLNR 35590) to Light 163 (LLNR 35655) Black Point on the red side,
Between NJICW Daybeacon 206 (LLNR 35825) and Daybeacon 209 (LLNR 35835) IVO Bader Field.
IVO NJICW Daybeacon 221 (LLNR 35867),
Between NJICW Light 233 (LLNR 35905) and Buoy 246 (LLNR 35955) Broad Thoroughfare.
Between NJICW Light 260 (LLNR 36000) and Buoy 266 (LLNR 36020),
Between NJICW Daybeacon 272 (LLNR 36035) and Daybeacon 282 (LLNR 36070) in Peck Bay.
Between NJICW Daybeacon 344 (LLNR 36285) to Daybeacon 354 (LLNR 36320),
Between NJICW Light 393 (LLNR 36420) Daybeacon 399 (LLNR 36470),
Between NJICW Buoy 417 (LLNR 36517) and Buoy 424 (LLNR 36535) Great Channel.
Between NJICW Light 449 (LLNR 36625) and Daybeacon 457 (LLNR 36655) Grassy Sound. Ref LNM 24/17
NJICW Light 465 (LLNR 36675) to Buoy 473 (LLNR 36705).
Chart 12316, 12324

NJ – LITTLE EGG INLET – SHOALING
Shoaling has been observed between Little Egg Inlet Lighted Buoy 10 (LLNR 1131) and Little Egg Inlet Lighted Buoy 8 (LLNR 1129). Shoaling has encroached channel ward in between the aids. Little Egg Inlet Buoy 8 (1129) is no longer marking best water.
Chart 12318

NJ-NEW JERSEY INTRACOASTAL WATERWAY - LITTLE EGG HARBOR TO CAPE MAY – SHOALING
The shoaling running from New Jersey Intracoastal Waterway Daybeacon 439 (LLNR 36585) to New Jersey Intracoastal Waterway Light 431 (LLNR 36560) has encroached approx 50 to 100 yds into the channel. Depths of 1-2’ at MLW. Shoaling to less than 2’ MLW has been observed on the red side of the channel between New Jersey Intracoastal Waterway Light 436 (LLNR 36575) and New Jersey Intracoastal Waterway Daybeacon 434 (LLNR 36570).
Chart 12316
NJ – SALEM RIVER – SHOALING
Shoaling was reported in the Salem River, in Salem, NJ. The shoaling was reported between Salem River Entrance Channel Light 5 (LLNR 2670), Light 6 (LLNR 2675) and Light 7 (LLNR 2680), Light 8 (LLNR 2685) on the east side of the channel. The depth was reported at 10 feet shortly after high tide. Chart 12311

PENNSYLVANIA SHOALING
Shoaling has occurred in the Delaware River in approximate position 39-48.18791, 075-25.354427W, 50 feet off the green channel toe, in the vicinity of Marcus Hook Intake Light (LLNR 3170). Shallowest depth 38.5 feet. All mariners are requested to transit the area with caution. Ref LNM 09/18 Chart 12312

PA – NJ – CHESTER RANGE – SHOALING
The Coast Guard has received a report of shoaling 40ft within the PA side of the channel in approx position 39-49'33.80"N, 075-22'39.81"W. The rock mound has been reported to have a minimum depth of 39.1ft. Mariners are urged to use caution when transiting the area. Chart 12312

DELAWARE SHOALING
DE – DELAWARE BAY – MURDERKILL RIVER – SHOALING
Shoaling has been observed in Murderkill River throughout entire waterway, shoaling to 2-4 feet at mean low water. The following seasonal buoys in Murderkill River were unable to be established due to shoaling.
A. Murderkill River Buoy 2 (LLNR 2315).
B. Murderkill River Buoy 3 (LLNR 2320).
C. Murderkill River Buoy 4 (LLNR 2330).
D. Murderkill River Buoy 5 (LLNR 2335).
E. Murderkill River Buoy 6 (LLNR 2337).
Murderkill River Light 1 (LLNR 2300) has been changed to Murderkill River Warning Light A (LLNR 2300) NW Dayboards worded Danger Shoal and Murderkill Range Front Light 7 (LLNR 2305) has been changed to Murderkill Range Front Warning Light (LLNR 2305) NW Dayboards worded Danger Shoal due to shoaling. The front and rear range which remain operational. Sector DB BNM 078-21. Chart 12304

DE – INDIAN RIVER BAY – SHOALING
There has been a report of shoaling in Indian River Bay between Indian River Inlet Buoy 19 (LLNR 4435) and Middle Island West Channel Junction Lighted Buoy M1 (LLNR 4436). Depths of 0.0 ft at times, during low tide, are reported. Chart 12216

DE – DELAWARE BAY – REHOBOTH BAY – SHOALING
Shoaling reported by unit during seasonal establishment April 7 2021. Shoaling observed from entrance to Rehoboth-Lewis canal south to Rehoboth Bay Channel Buoy 3 (LLNR 2100), depths 2-4 feet at mean low water. Rehoboth Bay Channel Buoy 1 (LLNR 2095) was not able to be established. DB BNM 080-21 Chart 12304

DE – REHOBOTH BAY – INDIAN RIVER – BACKERS CHANNEL – SHOALING
Delaware Department of Natural Resources and Environmental Control (DNREC) reports shoaling in Baker’s Channel between Baker’s Channel Lighted Buoy 1A (LLNR 2136) and Baker’s Channel Lighted Buoy 1B (LLNR 2137) as well as Baker’s Channel Lighted Buoy 5 (LLNR 2137.04) and Baker’s Channel Lighted Buoy 6 (LLNR 2137.05). DNREC has established two warning buoys worded “DANGER SHOAL” to mark the shoaling. Ref LN M 26/17 Chart 12216

DE – INDIAN RIVER BAY – WHITE CREEK – SHOALING
Shoaling was observed in White Creek to 2 – 5 feet at MLW. Floating Aids to Navigation have been discontinue while fixed aids to navigation have been converted to Warning Daybeacons with “Danger Shoal” on them. SEC DB 055-20 Chart 12216

MARYLAND SHOALING
MD – FENWICK ISLAND TO CHINCOTEAGUE INLET - OCEAN CITY INLET – SHOALING
Hazard to navigation- a USACE survey conducted on March 08, 2022 has identified shoaling between Ocean City Inlet Lighted Buoy 8 (LLNR 4745) and Ocean City Inlet Lighted Buoy 10 (LLNR 4750) extending from the north to mid-channel to depths of less than 9.5 feet at mean low water. Shoaling has also been identified on the south side of the channel between Ocean City Inlet Lighted Buoy 11 (LLNR 4755) and Ocean City Inlet Lighted Buoy 12 (LLNR 4757) to depths of less than 9.5 feet at mean low water. Mariners are advised to use caution in the area. See SEC MD-NCR BNM 184-21. Chart 12211

MD – FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY SHOALING
There has been a report of shoaling in Sinepuxent Bay within the channel boundaries between Sinepuxent Bay Channel Buoy 6 (LLNR 5015) and Sinepuxent Bay Channel Buoy 7 (LLNR 5017), to a depth of 4.5 feet at mean low water. Shoaling has also been reported between Sinepuxent Bay Channel Buoy 33 (LLNR 5130) and Sinepuxent Bay Channel Daybeacon 35 (LLNR 5135) in the channel, to a depth of 3.0 feet at mean low water. Chart 12211
MD-CHESAPEAKE BAY-NANTICOKE SHOALING
Shoaling has been reported in the immediate vicinity of Nanticoke River Cut Light 4 (LLNR 23995) at the mouth of Nanticoke Harbor, extending approximately 30ft into the channel. Water depths have been found as low as 2ft at low water. MD-NCR BNM 147-20
Chart 12261

MD - CHESAPEAKE BAY - HONGA RIVER – SHOALING
There is shoaling in the Honga River extending out at 500yds radius from approximate position 38-18.38N 076-11.78W. Actual depth ranges from 5ft to 9ft at mean low water. SEC MD-NCR BNM 335-19
Chart 12261

MD - CHESAPEAKE BAY - COVE POINT TO SANDY POINT – FLAG HARBOUR – SHOALING
Shoaling has been reported in the Entrance Channel to Flag Harbor Yacht Haven in Calvert County, MD. The shoaling is located just outside Flag Harbor Light 1 (LLNR 7671) and Flag Harbor Entrance Light 2 (LLNR 7672). Depth of water is less than 5 Ft at MHW. BNM MD 376-19
Chart 12263

MD – POTOMAC RIVER – ST. GEORGE CREEK – SHOALING
The ACOE Survey of St. George Creek Channel dated April 2018, indicates shoaling across the entire channel. The shoaling is from 850 feet up the channel of St. George Creek West Channel Warning Light A (LL 16760) to 500 feet up the channel of St. George Creek West Channel Warning Light B (LL 16765), with a least depth of 3.1 feet MLLW.
Chart 12233

MD - POTOMAC RIVER - ST. PATRICK CREEK – SHOALING
Shoaling has been reported in St. Patrick Creek to depths of 2-4 feet at MLW near St. Patrick Creek Channel Buoy 3 (LLNR 17123) and extending to Buoy 7 (LLNR 17145). Shoaling of 1 foot at MLW has been observed within the channel limits in the vicinity of St. Patrick Creek Channel Buoy 4 (LLNR 17130).
Chart 12286

MD - CHESAPEAKE BAY - CHESAPEAKE BAY TO PINES POINT - ST. JEROME CREEK - SHOALING
Shoaling has been reported in St. Jerome Creek to a depth of 3 feet at MLW between St Jerome Creek DBN 3 (18805) and St. Jerome Creek Light 4 (LLNR 18810) and extending to St. Jerome Creek Buoy 5 (LLNR 18812) and St. Jerome Creek Buoy 6 (LLNR 18815). The channel width in the area of Deep Point is reduced to approximately 20 feet.
Chart 12233

MD - VA - POCOMOKE RIVER - PINES POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING
Shoaling exists in St. Catherine Sound Lower Entrance (1) off the northeastern tip of St. Catherine Island extending channel ward between 38-14-17.586N, 076-47-15.562W and 38-14-32.841N, 076-47-14.761W, (2) IVO St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, Chart 12286

MD – CHESAPEAKE BAY – CHOPTANK RIVER AND HERRING BAY – CHESAPEAKE BEACH – SHOALING
A USACE survey conducted on 21 OCT 2020 has identified shoaling in the following locations: west of Chesapeake Beach Light 1 (LLNR 19285) spanning the entire width of the channel to a depth of less than 7ft MLW. Additional portions of channel shoaling exists west of Chesapeake beach light 2 (LLNR 19300) and Chesapeake Beach Light 3 (LLNR 19305) spanning the entire width of the channel to a depth of 3ft MLW to 6ft MLW. See Sec MD-NCR BNM 148-21
Chart 12226

MD - CHESAPEAKE BAY - POCOMOKE AND TANGIER SOUNDS - POCOMOKE RIVER – SHOALING
Shoaling has been reported in the Pocomoke River between Pocomoke River Channel Buoy 7 (LLNR 22540) and Pocomoke River Channel Buoy 8 (LLNR 22555), to reported depths less than 4.5 feet at MLW centerline, 2.3 feet on the red side of the channel, and 3.2 feet on the green side. MD-NCR BNM 299-21.
Chart 12228

MD - LITTLE CHOPTANK RIVER - SLAUGHTER CREEK – SHOALING
Shoaling in the western portion of Slaughter Creek IVO of Holland Point has encroached easterly in most of the channel. The shoal adjacent to Slaughter Creek Light 2SC (LLNR 24645) has encroached approx 50-100 yds easterly with observed depths of 3-4’ in between tide cycles. Shoaling to 5’ MLW has been observed on the red side of the channel between Slaughter Creek Buoy 6 (LLNR 24670) and Slaughter Creek Buoy 8 (LLNR 24683). Sec MD-NCR BNM 045-17,
Chart 12264, 12266

MD - CHESAPEAKE BAY - HONGA, NANTICOKE AND WICOMICO RIVERS – FISHING BAY – TAR BAY
A USACE survey conducted in Apr 2016 has identified shoaling to a depth of less than one foot at mean low water between Tar Bay Channel Warning Daybeacon E (LLNR 24595) and Tar Bay Channel Warning Daybeacon K (LLNR 24615). The channel width has been significantly reduced. Observed depths are between 2-4’ at high tide. Sec MD-NCR BNM 044-17
Chart 12261

MD – FISHING BAY – FARM CREEK – SHOALING
Shoaling reported from channel entrance to Farm Creek Channel Daybeacon 2 (LLNR 24430), least depth of 5 feet within the channel limits. From Farm Creek Channel Daybeacon 2 (LLNR 24430) to Farm Creek Channel Daybeacon 7 (LLNR 24445) least depth of 2.0 feet on the red side of channel, 3.9 Ft centerline of channel, and 2.8 feet on the green side of channel. Ref LNM 16/18.
MD – CHESTER RIVER – KENT ISLAND NARROWS NORTH APPROACH – SHOALING
Hazard to navigation – A USACE survey conducted on May 4, 2021 has identified shoaling to a depth of four feet in the Kent Island Narrows North Approach within the channel boundaries between Kent Island Narrows North Approach Light 2KN (LLNR 26415) and Kent Island Narrows North Approach Light 8 (LLNR 26435). Mariners are urged to use caution when transiting the area. SEC MD-NCR BNM 065-21.
Chart 12272

MD – CHESAPEAKE BAY - QUEENSTOWN CREEK
Hazard to navigation- A USACE survey conducted on July 12, 2021 has identified shoaling northwest of Queenstown Creek Buoy 3 (LLNR 26593) to south of Queenstown Creek Buoy 5 (LLNR 26595). Reported depths of less than four feet centerline and less than three feet closer to the channel boundaries. Least depths are located closer to the red side of the channel near Queenstown Creek Buoy 5 (LLNR 26595) to depths of less than two feet at mean low water.SEC MD-NCR BNM 182-21
Chart 12272

MD – APPROACHES TO BALTIMORE HARBOR – HARTS ISLAND CHANNEL
Corrected chart name and #. Shoaling has been reported by USCG ANT Baltimore via soundings in Harts Island Channel. Depths of 2.0-4.0 feet were observed extending into the channel in vicinity of Harts Island Channel Daybeacon 3 (LLNR 27010). Navigation of the area requires extreme caution. SEC MD-NCR BNM 263-21.
Chart 12278

MD – CHESAPEAKE BAY - HEAD OF CHESAPEAKE BAY - SASSAFRAS RIVER
Hazard to navigation. Shoaling has been reported in Sassafras River extending from Sassafras River Daybeacon 8 (LLNR 27495) to the southeast approximately 520 yards towards Sassafras River Light 10 (LLNR 27500) and into the channel approximately 50 yards to reported depths of seven feet at mean low water. SEC MD-NCR BNM 257-21.
Chart 12274

MD-NORTHEAST RIVER – SHOALING
There has been a report of shoaling in the Northeast River within the channel between Northeast Lighted Buoy 7 (LLNR 27855) and Northeast Lighted Buoy 8 (LLNR 27860). Depths as low as 4.2 feet were observed. Mariners are advised to transit the area with caution. MD-NCR BNM 035-21
Chart 12274

VA – MD – POTO MAC RIVER – BONUM CREEK – SHOALING
U. S. Army Corps of Engineers Survey of Bonum Creek indicates shoaling, to less than 4 feet MLLW, in the channel.
Chart 12286

VIRGINIA SHOALING
VA – CHINCOTEAGUE CHANNEL – SHOALING
Depth updated. Shoaling has been found in vicinity of Chincoteague Channel Lighted Buoy 26 (LLNR 5390) and Chincoteague Channel Lighted Buoy 28 (LLNR 5397) along center and east side of channel. Depths as low as 5.5’ reported at MLW. VA BNM 022-21.
Chart 12210, 12211

VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – QUINBY CHANNEL – SHOALING
Norfolk District Army Corp of Engineers Survey of Quinby Creek; dated 11 Feb 2020, indicated significant shoaling with least depth of 6.0’MLLW at Quinby Channel Buoy 13 (LLNR 6775) to 1.2’MLLW at Quinby Channel Light 19 (LLNR 6785). VA BNM 040-20
Chart 12210

VA – NANDUA CREEK
Shoaling has been reported at the entrance to Nandua Creek to 2 feet. HR BNM 311-13
Chart 12226

VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – VIRGINIA INSIDE PASSAGE - WALLOPS ISLAND – SHOALING
There has been a report of shoaling in the vicinity of Wallops Island Lighted Buoy 2 (LLNR 5520) to a depth of one foot. Chart 12210

VA – VIRGINIA INSIDE PASSAGE (VIP)
VIP Daybeacon 184 (LLNR 6220) to VIP Daybeacon 265 (LLNR 6580), Shoaling to less than 6ft MLW. HR BNM 106-16; VIP Daybeacon 244 (LLNR 6485), Shoaling to 1 foot. HR BNM 272-14, Sand Shoal Channel Light 1 (LLNR 6990) to Sand Shoal Light 10 (LLNR 6986) LNM 24-13.
Chart 12210, 12224

VA – LYNNHAVEN INLET – SHOALING
Army Corp of Engineer Survey has indicated shoaling between Lynnhaven Inlet Light 1L (LLNR 10130)and Lynnhaven Inlet Light 3 (LLNR 10136) on the east side of the channel extending into the channel with the Minimum depth of 5 feet. Additional shoaling has been located between Lynnhaven Inlet Light 4 (LLNR 10138) and Lynnhaven Inlet Light 26 (LLNR 10145) on the western side of the channel extending into the Channel with a minimum depth of 2 feet. Navigation in these areas requires extreme caution. SEC VA BNM 022-22
Chart 12222, 12221, 12254, 12205
VA – LYNNHAVEN INLET – LONG CREEK – SHOALING
ACOE Survey indicates shoaling in Lynnhaven Basin and connected tributaries, south of the Lesner Bridge. Depths of 3.1 - 5.2 feet extend into channel from Pleasure House Creek eastbound to Long Creek Light 6 (LLNR 10170), in Crab Creek, Lynnhaven Inlet and Long Creek. Depths of 1.4 - 5.0 feet observed in Long Creek side channel in the vicinity of Fish House Island. Navigation of the area requires extreme caution. SEC VA BNM 114-20 Chart 12234

VA – LITTLE CREEK HARBOR – SHOALING
Shoaling has encroached approximately 20ft in to the channel from the shoreline to approximate position 36-55.48N 076 10.58W. The location of the shoal is approximately 120yds north of Little Creek Harbor Light 7 (LLNR 10525). Visually the shoal can be observed. Depth at tip of shoal is approximately 2’ with a significant depth drop to approximately 18ft.

VA - GREAT BRIDGE TO ALBEMARLE SOUND - INTRACOASTAL WATERWAY - SHOALING
There has been a report of shoaling in the VA Intracoastal Waterway approximately 1.15 nm south of North Landing Bridge IVO positions 36-42.71N, 076-04.87W, and 36-42.75N, 076-05.00W, to a least depth of 0.5 feet.
Chart 12206

VA – CHESAPEAKE BAY – MATTAWOMAN CREEK – SHOALING
Shoaling has been reported to a depth of 2-3ft at mean low water in the channel of Mattawoman Creek between Mattawoman Creek Light 1MC (LLNR 21580) and Mattawoman Creek Light 2 (LLNR 21585). Mariners are advised to transit the area with caution.
Chart 12226

VA – HAMPTON ROADS – WILLOUGHBY BAY
The USACE has reported shoaling in Willoughby Channel to 2.6 feet MLW in the vicinity of Willoughby Channel Buoy 3 (LLNR 10583).
Chart 12245

VA – PAGEN RIVER – SHOALING
Shoaling has been located on the approach to Jones Creek outside of the Pagan River Channel between Pagan River Channel Light 13 (LLNR 11415) and Jones Creek Daybeacon 2 (LLNR 11420). Depths observed 4ft at approximately 3 hours before MLW. HR BNM 254-20. Significant shoaling has been identified in the Pagen River Channel between Pagan River Channel Daybeacons 15 (LLNR 11435) and Daybeacon 17 (LLNR 11445). Least depth of 3.3 FT. HR BNM 218-19
Chart 12248

VA – MOBJACK BAY AND YORK RIVER ENTRANCE – BACK RIVER
A recent NOAA survey identified shoaling to a depth of 8 ft at MLW in Back River between Back River Channel Daybeacon 6 (LLNR 12930) and Back River Channel Light 5 (LLNR 12925). The survey also identified shoaling around Back River Channel Light 4 (LLNR 12920) to a depth of 10ft at MLW. Chart 12222

VA – CHESAPEAKE BAY – MOBJACK BAY AND YORK RIVER ENTRANCE – DAVIS CREEK – SHOALING
Significant shoaling has been identified by USACOE survey dated 07 Sep 2016 in Davis Creek. Shoaling begins 100 yards south of Davis Creek Warning Daybeacon B (LLNR 14130) to a depth of 4.9 feet extending across the entire length and width of the channel to 150 yards north of Davis Creek Warning Daybeacon D (LLNR 14140) with a minimum identified depth of 1.2 feet. Ref LNM 12/17
Chart 12238

VA – CHESAPEAKE BAY – MOBJACK BAY AND YORK RIVER ENTRANCE - HORN HARBOR
Shoaling has been reported to 1-2 feet extending 50 yards channel ward from Horn Harbor Lighted Buoy 8 (LLNR 14487). HR BNM 182-15
Chart 12238

VA – CHESAPEAKE BAY – YORKTOWN TO WEST POINT - QUEEN CREEK
Shoaling to less the 3 feet has been reported in Queen Creek from Queen Creek Entrance Light 2QC (LLNR 13785) to Queen Creek Day beacon 10 (LLNR 13820); HR BNM 170-14
Chart 12243

VA – GREAT WICOMICO RIVER – SHOALING
Shoaling has been identified in the vicinity of Great Wicomico River Light 9 (LLNR 16300) extending 30 yards north and north northeast of structure to a depth of less than 2 feet.

VA – CHESAPEAKE BAY – RAPPAHANNOCK RIVER ENTRANCE - MILFORD HAVEN EAST
Shoaling to a depth of 2 Feet at low tide has been identified from 400 yards northeast of Milford Haven East Buoy 7 (LLNR 14593.5) extending to the south 600 yards. Shoaling extends to the west 250 yard and impedes the width of the channel both inbound and out bound.
Shoaling to a depth of 3 feet has been identified in various locations west of Buoy 7 (LLNR 14593.5) To Buoy 18 (LLNR 14625).
Chart 12235

VA – RAPPAHANNOCK RIVER – SHOALING
Rappahannock River mile 60 to 63, Devils Elbow. Shoaling has been reported to a depth of less than 4ft at mean low water along the eastern side of the channel from Horse Head Point to south of Tobys Point extending along the eastern side of Tobys Point to North Bend. HR BNM 051-17, LNM 08/17 Chart 12237
**VA - RAPPAHANNOCK RIVER - CORROТOMAN RIVER TO FREDERICKSBURG – GREENVALE CREEK SHOALING**

An ACOE Survey of Greenvale Creek Channel indicates shoaling, to a least depth of 1.7 feet MLW, across the channel from approximately 250 feet North-Northeast of Greenvale Creek Channel Warning Daybeacon A (LLNR 15305) continuing inbound for approximately 880 feet. Ref LNM 50/16
Charts 12237

**VA – EASTERN SHORE - CHESAPEAKE BAY – MATTAWOMAN CREEK – SHOALING**

Shoaling has been located in Mattawoman Creek VA. Lowest depth found 3’ at high tide from Mattawoman Creek Light 1MC (LLNR 21580) to west of Mattawoman Creek Light 3 (LLNR 21590). VA BNM 006-20
Chart 12225

**VA – CHESAPEAKE BAY - TANGIER SOUND – TANGIER ISLAND EAST CHANNEL – SHOALING**

There has been a report of shoaling in the Tanguier Island East Channel within the channel boundaries between Tanguier Island East Daybeacon 6 (LLNR 22765) and Tanguier Island East Channel Light 7 (LLNR 22770) to a depth of three feet.
Chart 12228

**VA - CHESAPEAKE BAY - POCOMOKE SOUND - DEEP CREEK – SHOALING**

U.S. Army Corps Survey on 19 Sep 19 indicated a least depth of 1.2 MLW within the channel limits. From Deep Creek Channel Daybeacon 12 (LLNR 22225) to Deep Creek Channel Daybeacon 14 (LLNR 22230) least depth of 6.3’ in center of channel, 5.8’ on green side of channel, and 4.5’ on red side of channel. From Deep Creek Channel Daybeacon 14 to Deep Creek Channel Light 15 (LLNR 22235) least depth of 5.0’ in center of channel, 3.0’ on green side of channel, 3.8’ on red side of Channel. From Deep Creek Channel Light 15 to Deep Creek Channel Daybeacon 16 (LLNR 22240) least depth of 4.4’ in center of channel, 3.2’ on green side of channel, and 4.1’ on red side of channel. From Deep Creek Channel Daybeacon 16 to Deep Creek Channel Daybeacon 17 (LLNR 22245) least depth of 3.6’ in center of Channel, 0.2’ on green side of channel, and 2.6’ on red side of channel.
Chart 12207

**VA - MD - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING**

Shoaling exists in St. Catherine Sound Lower Entrance at the following locations: (1) off the northeastern tip of St. Catherine Island extending channel ward between position 38-14-17.586N, 076-47-15.562W and position 38-14-32.841N, 076-47-14.761W, and (2) in the vicinity of St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, CCGD5 BNM 524-16
Chart 12286

**VA - POTOMAC RIVER - YEOCOMICO SOUND - SHOALING**

There has been a report of shoaling in the Yeocomico River within channel boundaries, located SE of South Yeocomico River Daybeacon 2 (LLNR 16830) to a depth of less than ten feet at mean low water. MD-NCR BNM 408-16, Ref LNM 50/16
Chart 12233

**VA - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - BONUM CREEK - SHOALING**

Soundings in Bonum Creek indicates shoaling in the channel between Bonum Creek Warning Daybeacon C (LLNR 16885), Bonum Creek Warning Daybeacon D (LLNR 16890), and Bonum Creek Warning Daybeacon E (LLNR 16895). Due to extensive shoaling off Sandy Point Neck, the channel width has been reduced to approx 20ft between Bonum Creek Warning Daybeacons C and D. Mariners are urged to use caution.
Chart 12286

**VA – UPPER POTOMAC RIVER – POTOMAC CREEK – SHOALING**

Severe shoaling has been reported within the channel boundaries of Potomac Creek. Shoaling extends 15 yards channel ward of Potomac Creek Buoy 3 (LLNR 17920) with depths of 3 to 4 feet at MLW. Additional shoaling further in has been observed to a depth less than 3 feet at MLW. Ref LNM 14/18
Chart 12288

**VA – RUDEE INLET – SHOALING**

Based on the survey dated; March 14, 2022 indicates shoaling from the ends of the North/South Jetties eastward approximately 350’ with a depth of 7.2’ MLLW and westward from the same point approximately 320’ with a depth of 6.2’ MLLW.

**NORTH CAROLINA SHOALING**

**NC – CAPE HENRY TO PAMLICO SOUND – WALTER SLOUGH – SHOALING**

Shoaling exists within Walter Slough Channel. Shoaling to 3-4 feet MLW was observed between Walter Slough Buoy 8 (LLNR 28335) and Walter Slough Lighted Buoy 9 (LLNR 28340). NC BNM 134-20
Chart 12205

**NC – OREGON INLET – SHOALING**

Significant shoaling exists in Oregon Inlet. Oregon Inlet Lighted Buos 1 through 7 are misleading. There is shoaling to a depth of less than 2 feet near Oregon Inlet Lighted Buoy 6 (LLNR 28003) and Oregon Inlet Lighted Buoy 7 (LLNR 28005) at mean low water. Mariners are advised to use caution.
Chart 12204

**NC – OREGON INLET – SHOALING**

Shoaling has been located in the vicinity of Oregon Inlet Buoy 17 (LLNR 28055) and Oregon Inlet Lighted Buoy 19 (LLNR 28065) encroaching from the south side of the channel. Water depths of 4 feet at MLW. SEC NC BNM 363-21.
Charts 12204
****NC – SOUTH FERRY CHANNEL – SHOALING – TEMPORARY DISCONTINUATION OF AIDS TO NAVIGATION****

Significant shoaling exists in South Ferry Terminal in Hatteras Inlet, to a depth of less than two feet at mean low water. Multiple aids to navigation in the channel are unreliable and not marking good water. The Coast Guard has temporarily discontinued South Ferry Terminal buoys 4SF (LLNR 28703) thru 9SF (LLNR 28717) due to shoaling. Mariners are advised to use extreme caution while navigating this area.

Chart 11555

NC - HATTERAS INLET - SHOALING

Shoaling exists in various locations throughout Hatteras Inlet Channel to a depth of 5 feet at mean low water. Shoaling continues to encroach the channel near Hatteras Inlet Channel Lighted Buoy 12A (LLNR28732.1), and Hatteras Inlet Channel Buoy 15 (LLNR 28736). Depths of less than 4 feet MLW have been reported between Hatteras Inlet Channel Buoy 18 (LLNR 28760) and Hatteras Channel Lighted Buoy 19 (LLNR 28760). Some aids to navigation in the inlet may be unreliable. NC BNM 029-22, 030-22.

Chart 11555

NC – BARNEY SLOUGH - SHOALING

Shoaling exists North East of Barney Slough Channel Buoy 3A (28721.6). Reported depths of 4 feet MLW in position 35-47-34.526N, 075-31-34.764W. Shoaling extends to middle of channel to a depth of 4 FT MLW. Shoaling has been found along north side of channel between Barney Slough Channel Buoy 4 (LLNR 28721.7) and Lighted Buoy 6 (LLNR 28722.3). Observed depths of 4 feet MLW. Shoaling is occurring in the vicinity of Barney Slough Channel Lighted Buoy 15 (LLNR 28723.7) and Barney Slough Channel Lighted Buoy 16 (LLNR 28723.9). NC BNM 204-20, 013-20, 027-22.

Chart 11555

NC – BIG FOOT SLOUGH – SHOALING

Mariners are advised there is shoaling in the vicinity of Buoy 10C (29070.2) in Big Foot Slough at approximate position 35-09-03.184 N 076-00-38.651W. Mariners are advised to use caution while navigating in this area.

Chart 11550

NC - OCRACOKE INLET - SHOALING

Shoaling exist in the vicinity of Ocracoke Inlet. Aids to Navigation may be unreliable in various locations between Ocracoke Inlet Buoy 1 (LLNR 28900) and Ocracoke Inlet Buoy 8 (LLNR 28927). Mariners are advised to use caution while navigating this area. NC BNM 207-20

NC – TEACHES HOLE CHANNEL – SHOALING

Shoaling exist in the vicinity between Teaches Hole Channel Lighted Buoy 19 (LLNR 28953) and Teaches Hole Channel Lighted Buoy 24 (LLNR 28962). Reported depths less than 4 feet MLW. NC BNM 028-22

NC – BEAUFORT INLET AND CORE SOUND – BARDEN INLET – BACK SOUND – SHOALING

Severe shoaling between Barden Inlet Buoy 24 (LLNR 29240) and Back Sound Lighted Buoy 1 (LLNR 29315) has rendered the waterway un-mark able. All floating aids were removed. Pending dredging operations or waterway improvements, Barden Inlet Channel no longer connects to Back Sound Channel. Mariners should navigate the area with caution, local knowledge is recommended. NC BNM 409-20

Chart 11545

NC – PAMLICO SOUND – CORE SOUND – WAINWRIGHT SLUE – SHOALING

Due to lack of navigable water all floating aids have been removed and all remaining fixed aids converted to non-lateral warning beacons up to Core Sound Light 11 (LLNR 34370) proceeding south from Pamlico Sound. The remaining fixed aids are scheduled for removal. Pending future dredging or waterway improvements, the Core Sound waterway is no longer accessible from Pamlico Sound. NC BNM 404-20

Chart 11548

NC – CORE SOUND – HARKERS ISLAND – THE STRAITS – SHOALING

Wilmington District USACE Survey of 12 Mar 2020 has identified significant shoaling IVO Harker’s Island in The Straights. Depths as low as 4ft MLW were found between Harkers Island Straits Light 14 (LLNR 29382) and Harkers Island Straits Light 15 (LLNR 29384). NC BNM 085-20

Chart 11545

NC – BOGUE INLET – SHOALING

Shoaling has been identified from Bogue Inlet Buoy 9 (LLNR 29600) and Bogue Inlet Buoy 12 (LLNR 29615). Depths of 3-4ft at MLW have been observed. Shoaling currently extends across entire width of the marked channel. SEC NC BNM 031-22.

Chart 11541

NC – NEW RIVER INLET – SHOALING

Significant shoaling exists in New River Inlet between New River Inlet Channel Buoy “1” (LLNR29655) and New River Inlet Channel Buoy “10” (LLNR29680), Multiple aids to navigation may be unreliable and not marking good water. Mariners are advised to use extreme caution while navigating this area.

Chart 11542

NC – BOGUE SOUND – SHOALING

Shoaling has been reported between Bogue Sound Daybeacon 10 (LLNR 38875) and Bogue Sound Daybeacon 14 (LLNR 38895). Survey indicates depths as low as 5FT MLW encountered in channel center and depths as low as 4FT have been reported. Depths close to channel markers may be less. Conditions may change rapidly and mariners are advised to transit the area with caution. The most recent ACOE survey can be found here: https://www.saw.usace.army.mil/missions/navigation/hydrographic-surveys/aiww

Chart 11541
NC – LENOXVILLE POINT – TAYLOR CREEK – SHOALING
Shoaling exists in the channel in vicinity of Lenoxville Point Buoy 1L (LLNR 34757) through Lenoxville Point Buoy 3 (LLNR 34760). NC BNM 294-18.
Chart 11545

NC – WESTERN PART OF PAMLICO SOUND – PAMLICO RIVER – WRIGHT CREEK – SHOALING
Mariners are advised of shoaling in vicinity of Wright Creek Daybeacon 4 (LLNR 32870) off the Pungo River. NC BNM 141-18
Chart 11553

NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CORE CREEK – SHOALING
Shoaling exists in the AICW north of Morehead City between Core Creek Light 29 (LLNR 38435) and Core Creek Daybeacon 31 (LLNR 38485), to a depth of less than 5ft at MLW. Mariners are advised to use extreme caution while navigating this area.
Chart 11541

NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CAUSEWAY CHANNEL – SHOALING
Shoaling has been reported IAW the most recent ACOE survey dated 26 OCT 2020 IVO Causeway Channel Buoy 5A (LLNR 38731) and Causeway Channel Buoy 6A (LLNR 38736). Reported depths of 4 feet MLW encroaching from east side of channel. NC BNM 415-20
Chart 11541

NC – INTRACOASTAL WATERWAY – BROWNS INLET – SHOALING
Shoaling exists in the Atlantic Intracoastal Waterway near Browns Inlet Crossing between Bogue Sound - New River Buoy 60 (LLNR 39217) and Bogue Sound – New River Buoy 61A (LLNR 39223), to less than one foot at MLW. Mariners are advised to use extreme caution. NC BNM 372-20 Charts 11541

NC – NEW RIVER – NEW RIVER INLET - SHOALING
Shoaling has occurred between New River Inlet Lighted Buoy 2 (LLNR 29660) and New River Inlet Buoy 4 (LLNR 29870), Depths of 4-5' MLW spanning the width of the channel. Additionally, shoaling has increased between New River Inlet Buoy 9 (LLNR 29710) and New River Inlet Buoy 10 (LLNR 29720) with depths of 1-2 MLW. Mariners are advised to exercise caution while transiting this area. See SEC NC BNM 238-21
Chart 11541

NC – NEUSE RIVER TO MYRTLE GROVE SOUND - NEW RIVER – NEW RIVER INLET CROSSING
Shoaling in New River Inlet Crossing near Bogue Sound - New River Buoy 72A (LLNR 39300) to a depth of 3 feet MLW. NC BNM 011-19
Chart 11542

NC – OLD TOPSAIL CREEK – SHOALING
Significant shoaling has been observed in Old Topsail Creek between Old Topsail Creek Buoy 6 (LLNR 30036), Old Topsail Creek Buoy 7 (LLNR 30037) and Old Topsail Creek Buoy 8 (LLNR 30038) Spanning the width of the channel. Depths of less than 3' at MLW have been observed. Mariners are advised to transit the area with caution. SEC NC BNM 381-21.
Chart 11541

NC NEW RIVER – CAPE FEAR RIVER – MASON INLET CROSSING – SHOALING
Mariners are advised that shoaling exists in the Intracoastal Waterway in the vicinity of Masons Inlet Crossing between New River – Cape Fear River Buoys 121 (LLNR 39597) and New River – Cape Fear River Buoys 122A (LLNR 39601), to a depth of less than two feet at mean low water. Mariners are advised to use extreme caution while navigating this area. NC BNM 026-21.
Chart 11541

NC – BANKS SLOUGH CHANNEL – SHOALING
Significant shoaling has occurred in Banks Slough Channel between Banks Slough Channel Buoy 2BS (LLNR 30048) and Banks Slough Channel Buoy 3 (LLNR 30048.02) spanning the width of the channel. Depths of 2’ MLW have been reported.
Chart 11541

NC - CAROLINA BEACH INLET – SHOALING
Significant shoaling has been reported in Carolina Beach Inlet in the vicinity of Carolina Beach Inlet Buoy 3 (LLNR 30275) spanning the width of the channel. Depths of 4’-5’ MLW have been reported. SEC NC BNM 368-21.
Chart 11534

NC - SNOWS CUT - SHOALING
Shoaling exists in Snows Cut to a depth of 3 feet at mean low water in various locations between New River – Cape Fear River Light 161 (LLNR 39755) and New River - Cape Fear River Lighted Buoy 163 (LLNR 39825). Mariners are advised to use caution while navigating this area.
Chart 11534

NC – NEW RIVER - CAPE FEAR RIVER – SHOALING
Shoaling found near New River - Cape Fear River Buoy 99 (LLNR 39547) and New River - Cape Fear River Buoy 99A (LLNR 39548). Depths as low as 4 feet at MLW were observed. SEC NC BNM 140-20
Chart 11541
NC – LOCKWOODS FOLLY INLET – SHOALING
Significant shoaling has occurred in Lockwoods Folly Inlet between Lockwoods Folly Inlet Lighted Buoy 2 (LLNR 31015) and Lockwoods Folly Inlet Buoy 5 (LLNR 31027) spanning the width of the channel depths of 4’ MLW have been reported. BNM SEC NC 367-21.
Chart 11534

NC – LOCKWOODS FOLLY INLET CROSSING – SHOALING
Significant shoaling has been reported in Lockwoods Folly Inlet Crossing between Cape Fear River – Little River Daybeacon 46 (LLNR 40220) and Cape Fear River – Little River Buoy 47 (LLNR 40225) spanning the width of the channel. Depths of 4’-5 MLW have been reported. SEC NC BNM 369-21
Chart 11534

NC – INTRACOASTAL WATERWAY – CAPE FEAR RIVER – LITTLE RIVER – SHALLOTTE INLET CROSSING – SHOALING
Shoaling has been observed between Cape Fear River – Little River Buoy 80A (LLNR 40337) and Cape Fear River – Little River Buoy 82 (LLNR 40345) to 4 feet MLW encroaching from the southeast edge of the channel extending into the Intracoastal Waterway. NC BNM 408-20. Chart 11534
SUMMARY OF BRIDGE PERMITS, REGULATIONS AND CONSTRUCTION
IN THE FIFTH COAST GUARD DISTRICT

Updated March 29, 2022

CURRENT PROJECTS

Permits:

SECTOR DELAWARE BAY

- Delaware
  - Christina River – Christina River Bridge – Permit (1-17-5) signed April 7, 2017, for a fixed bridge across the Christina River, mile 3.8, City of Wilmington, New Castle County, DE. The bridge will provide a minimum vertical clearance of 14 feet above mean high water and a horizontal clearance of 150 feet centered on the axis of the navigable channel. (KB)
  - Broadkill River – Bridge 3-155 N&S (SR 1/SR 14/Coastal Highway) – Permit (2-21-5) signed October 14, 2021, for a fixed bridge across Broadkill River, mile 6.08, near Milton, Sussex County, DE with a horizontal clearance of 50 feet and a vertical clearance of 16.5 feet above mean high water. (MT)
- New Jersey (Central & Southern)
  - Oldmans Creek – US Route 130 Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 15, 2018; vertical clearance of 5 feet above mean high water and a horizontal clearance of 75 feet. (HP)
  - Raccoon Creek – US 130 (fixed) Bridge - new fixed bridge structure to replace (lift) bridge. Permit (2-15-5) signed December 9, 2015. (KB)
  - Glimmer Glass - W9 (Brielle Road) Drawbridge – Fixed bridge replacement and drawbridge replacement Preliminary Navigation Clearance Determination (PNCD) issued on October 22, 2019. A fixed bridge replacement will provide a horizontal clearance of 31.9 feet and a vertical clearance of 60 feet above mean high water and a drawbridge replacement will provide a vertical clearance of 9 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 31.9 feet. (MS)

Atlantic Intracoastal Waterway, Middle Thorofare - Ocean Drive Causeway Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on December 10, 2019; vertical clearance of 80 feet above mean high water and a horizontal clearance of 80 feet. (MB)/(HP)

- Pennsylvania
  - Schuylkill River – Grays Ferry Pedestrian Bridge – Permit (3-17-5) signed November 27, 2017, for a swing drawbridge replacement with a vertical clearance of 26 feet above mean high water (closed position), unlimited vertical clearance in the open position, and a horizontal clearance of 75 feet in the west navigation span and 65 feet in the east navigation span. (MT)
  - Darby Creek – S.R. 420 (Wanamaker Avenue) - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on December 13, 2018; vertical clearance of 11 feet above mean high water and a horizontal clearance of 78 feet. (MT)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- Maryland –
  - Patomac River – Governor Harry Nice Memorial Bridge – Permit (1a-20-5) signed June 25, 2020, for a fixed replacement bridge with a vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the new bridge will be shifted approximately 115 feet to the west of the center of the current navigation span. (KB)
  - Neale Sound – MD-254 (Cobb Island Road) Bridge – Permit (1-18-5) signed May 2, 2018, for a fixed replacement bridge with a vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)
- Washington DC –
  - Anacostia River – Frederick Douglass Memorial Bridge - Permit (2-17-5) signed December 4, 2017, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water and a horizontal clearance of 150 feet. (CT)
  - Virginia (Northern) – None.

SECTOR VIRGINIA

- Virginia (Southern)
  - Western Branch of the Elizabeth River – Churchland Bridge - Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement of the northbound structure of the bridge with a structure providing a vertical clearance of 36.63 feet above mean high water and a horizontal clearance of 80 feet. (MS)
  - Hampton Roads – Permit (5-20-5) signed November 16, 2020, for a fixed bridge replacement of I-64/US 60 (Hampton Roads Beltway) north and south approach bridges for the Hampton Roads Bridge Tunnel (HRBT). North Approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 80 feet; south approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 100 feet. (MT)
  - Willoughby Bay – Permit (140b-68-5) signed December 22, 2020, for I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - fixed bridge modification; vertical clearance of 25 feet above mean high water, horizontal clearance of 50 feet, and width of 168.84 feet (MT)
  - Blackwater River – Permit (4-20-5) signed July 29, 2020, for a fixed bridge replacement providing a vertical clearance of 35 feet above mean high water and a horizontal clearance of 60 feet. (MS)
  - Cat Creek - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on May 11, 2021; vertical clearance of 12.8 feet above mean high water and a horizontal clearance of 60 feet. (MS)

SECTOR NORTH CAROLINA

- North Carolina
  - Atlantic Intracoastal Waterway – NC 210/50 Bridge, Surf City, NC - new fixed bridge structure to replace (swing) bridge. Permit (2-16-5) signed September 27, 2016. (KB)
Coast Guard District 5

The Straits – Harkers Island Bridge – Fixed replacement bridge - Permit (2-20-5) dated September 30, 2020, vertical clearance of 45 feet above mean high water and a horizontal clearance of 125 feet. (HP)

Pamlico Sound – Bridge No. 71 (Rodanthe) Bridge – new fixed bridge carrying NC 12 on the mainland side of the outer bank along the northeastern shore of Pamlico Sound from a position approximately 1.8 miles north of the southern boundary of the Pea Island National Wildlife Refuge to a position north of the Chicamacomico Channel and the emergency ferry terminal in Rodanthe, Dare County, NC. Permit (1-19-5) signed on February 20, 2019. (HP)

Perquimans River – Bridge No. 8 (US17 BUS/NC37) Bridge, Hertford, Perquimans County, NC - new drawbridge to replace existing drawbridge. Permit (6-19-5) signed December 31, 2019. (HP)

Currituck Sound – Proposed new fixed bridge across mid-Currituck Sound, approximately 18 miles north of the Wright Memorial Bridge, between Aydlett (on the mainland) and Corolla (on the Outer Banks), at Currituck County, NC. Preliminary Navigation Clearance Determination (PNCD) issued on February 9, 2021; vertical clearance of 20 feet above mean high water and a horizontal clearance of 40 feet. (MS)

Regulations:

SECTOR DELAWARE BAY

- Delaware – None
- New Jersey (Central & Southern) – None
- Pennsylvania – None

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- Washington, DC & Virginia (Northern) – None
- Maryland – None

SECTOR VIRGINIA

- Virginia (Southern) - None

SECTOR NORTH CAROLINA

- North Carolina

Trent River - U.S. 70 (East Front Street/Alfred C. Cunningham) Bridge - To facilitate the Neuse River Bridge Run, the bridge will remain in the closed position from 6:45 a.m. to 10:15 a.m. on Saturday, April 9, 2022. The bridge will be able to open for emergencies, if at least five minutes notice is given, and there is no immediate alternative route for vessels unable to pass through the bridge in the closed position. Vessels able to pass through the bridge in the closed position may do so at any time. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.843 (a). Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)

Construction, et al:

SECTOR DELAWARE BAY

- Delaware

Christina River - Bridge 1-159 (James Street) Bridge – Bridge maintenance will be performed from 7 a.m. to 5 p.m., from July 1, 2021, to March 31, 2022. To facilitate maintenance, a work skiff and a 70ft X 70ft work barge will be operating outside the navigable channel, secured to the bridge piers and will not impact navigation. Mariners are urged to use caution while transiting the area. (MS)

Broadkill River - Bridge 3-10S (SR 1/SR 14/Coastal Highway) Bridge – Modification activities, which began October 2021, are expected to be finished on May 30, 2022. Work is and will be on-going 24-hours per day, seven days a week. The project will involve replacement of the deck and steel superstructures of the fixed highway bridge; make minor modifications to the supporting concrete piers to support the new superstructures; replace the existing pile jackets at all piers; replace the existing riprap on the slopes to stabilize the embankments; complete minor approach highway work to tie the roadways into the new bridge decks; and bridge painting. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 16.5 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, support vessels and crew boats are and will be operating or stationed in and around the vicinity of the existing bridge during the duration of the project. During the modification period through April 1, 2022, the horizontal clearance of the bridge will be reduced to approximately 20 feet, at all other times the clearances of the bridge will be unrestricted. Vessels that can transit through the bridge during periods of reduced horizontal clearance due to the work barges, may safely transit through the bridge, if at least a one-hour prior notice is given to the project foreman. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. R.E. Pierson Construction Co., Inc.’s work vessels and barges are and will continue to monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The DelDOT Resident Engineer may be contacted at (302) 853-1349 or (302) 542-3590 and R.E. Pierson Construction Co., Inc.’s project foreman may be contacted at (609) 743-7167 or (609) 743-0092. (MT)

Lewes and Rehoboth Canal - Lewes Railroad Swing Bridge - A cofferdam was installed February 22, 2022, the fender piled and pier are anticipated to be removed by April 1, 2022. Due to fisheries time of year restriction the cofferdam will be removed October 7, 2022. Horizontal clearance of the canal will be constricted by approximately 5 feet until October 7, 2022. Mariners should use caution when transiting the area. (CT)

Delaware River - Delaware Memorial Bridge – Ongoing bridge painting through October 2022. Work platforms have been installed, reducing the available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution when transiting the area. (CT)

Mispillion River - Route 1/Rehoboth Blvd. Bridge – Bridge sustained a causality and will not be capable of normal operations. The bridge will remain in the closed position until further notice. Vessels able to transit through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 5 feet above mean high water. The bridge will not be able to open for emergency vessels. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area. (MT)

Delaware River - Delaware Memorial Bridge – Bridge underwater inspection will be conducted from 7 a.m. to 6 p.m.; Monday-Saturday; from April 4, 2022, through April 15, 2022. The inspection will require a 28-foot dive boat around the navigable channel and diver to be working
outside the navigable channel. Work vessels may be reached on VHF-FM channel 13 and 16. Mariners should use caution navigating through the area. (CT)

**New Jersey (Central & Southern)**

Delaware River – Commodore Barry (fixed) Bridge – Repainting of the main (cantilever) truss span, signal gantries, steel barriers along the entire bridge, and water tower will continue through 2023. Work platforms will be installed, reducing the available vertical clearance by 3 feet, reducing the clearance from 190 feet to 187 feet above mean high water. Mariners should exercise caution when transiting the area. (KB) Deerfield River – Ben Franklin Footbridge – Bridge maintenance will be performed from July 27, 2022, through December 23, 2023. For the duration of the project, the preferred navigation channel and bridge navigational lighting normally situated over the 410-foot Federal project channel, will be shifted to the east approximately 205 feet. The Federal Project channel will remain fully open to traffic, however the vertical clearance of the channel has temporarily decreased based on the planned scaffolding system (work platform) to be installed. The scaffolding system will be installed over the entire length of the bridge, as detailed below.

**Preferred Navigation Channel:** A 410-foot scaffolding (work platform) system, with five 82-foot independent work zones, will be installed extending below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet). When in use, any 82-foot work zone portion of the 410-foot scaffolding (work platform) system will be extended below the bridge approximately 18.5 inches (1.54 feet), thereby reducing the vertical clearance of the bridge within the work zone by approximately 18.5 inches (1.54 feet). The single 82-foot work zone portion of the 410-foot scaffolding (work platform) system in use will be extended below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet), if at least 48-hour notice is given to Eric.Dovak@Skanska.com. Outside the Preferred Navigation Channel: Scaffolding will extend below the bridge approximately two feet from the west bound of the Federal project channel to the center of the Federal project channel (west boundary of preferred navigation channel) and from the east boundary of the preferred navigation channel toward the east abutment approximately 385 feet. West of the west boundary of the Federal project and east of the position approximately 985 feet east of the east boundary of the preferred navigation channel, scaffolding will extend below the bridge approximately three feet. A safety boat will be in the vicinity of the bridge during bridge maintenance, which may be reached via VHF FM channel 13. Mr. Eric Dovak, contractor’s representative, may be reached at Eric.Dovak@Skanska.com or (347) 860-2399. Mariners are advised to exercise caution when transiting the area. (HP)

New Jersey Intracoastal Waterway (NJICW), Duck Thorofare - US 30 (Absecon Boulevard) Bridge – Bridge maintenance will be conducted from 6 a.m. to 5 p.m.; Monday–Friday; from October 8, 2021, through April 29, 2022. A 60-foot work barge, a 21-foot work boat and divers will be located in and around the vicinity of the bridge. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at 609-358-1727. Mariners should use caution navigating through the area. (MT)

New Jersey Intracoastal Waterway (NJICW), Barnegat Bay - SR 37 (J. Stanley Tunney) (fixed) Bridge – Bridge maintenance will be conducted from 7 a.m. to 3:30 p.m.; Monday–Friday; from October 25, 2021, through December 23, 2023. A 54-foot crane barge, a 40-foot material barge, a 24-foot work barge with push boat, float stages and divers will be located around the vicinity of the bridge. Vessels may safely transit through the navigational channel of the bridge unrestricted at all times. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (609) 941-6877 or (609) 331-2098. Mariners should use caution navigating through the area. (MT)

New Jersey Intracoastal Waterway (NJICW), Beach Thorofare - Route 30 (Absecon Boulevard) Bridge - To facilitate work, the bridge will be maintained in the closed-to-navigation position from 8 a.m. on November 1, 2020, through 5 p.m. on May 15, 2022. A work platform will reduce the horizontal clearance of the preferred navigation channel to approximately 30 feet and temporary shielding will reduce the vertical clearance of the entire bridge to approximately 19 feet above mean high water in the closed position. Vessels that can safely transit through the bridge in the closed position with the reduced clearances may do so, if at least thirty minutes notice is given, to allow for safe navigation. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.733(e). Mariners should use caution when transiting the area. (MT)

Oldmans Creek - I-295 Bridge – Bridge maintenance will be conducted from 6 a.m. to 5 p.m.; Monday–Friday; from March 21, 2022, through September 30, 2022. A 21 foot work vessel and three four-foot floats and a team of divers will be located in and around the vicinity of the bridge. During the work hours, the work vessel, floats and divers will be in the navigational channel which will reduce the horizontal clearance of the bridge approximately 25 feet. Vessels that can safely transit the reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may safely transit through the bridge, if at least a one-hour prior notice is given to the project foreman. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (609) 477-6290 or (856) 298-2353. Mariners should use extreme caution navigating through the area. (MT)

Delaware River - US 322 (Commodore Barry) Bridge – Bridge maintenance will be conducted from 6 a.m. to 2:30 p.m.; Monday–Friday; from March 14, 2022, through October 3, 2022. Several work boats and work platforms will be located around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (856) 472-5714 or (609) 707-7439. Mariners should notify the work foreman no less than thirty minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)

Pennsylvania –

Schuykill River - Grays Ferry Railroad Bridge – Modification activities, which began June, 2018, will recommence on April 4, 2022, and are expected to finish on June 3, 2022. Work will be performed from 7 a.m. to 3:30 p.m.; M–F. During this bridge modification project, the eastern navigation span will be occupied; the western navigation span will be open for vessels to transit. Mariners should navigate the wayward with extreme caution and due regard for prevailing conditions on the waterway. The new bridge will have a vertical clearance of 26 feet above mean high water in the closed-to-navigation position; an unlimited vertical clearance in the open position, a horizontal clearance of 75 feet in the western navigation span, and 65 feet in the eastern navigation span. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, and support vessels will be operating or stationed in the vicinity of the existing bridge. A.P. Construction Inc.’s vessels are monitoring VHF-FM channels 13 and 16 when working or vessels are operating. The City of Philadelphia construction manager may be contacted at 215-275-8066 and A.P. Construction, Inc.’s project foreman may be contacted at 215-651-6278 or 215-421-2880. (MT)

Delaware River - US 322 (Commodore Barry) Bridge - Bridge maintenance will be conducted from 6 a.m. to 2:30 p.m.; Monday–Friday; from March 14, 2022, through October 3, 2022. Several work boats and work platforms will be located around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel
13 and 16. The project foreman may be reached at (856) 472-5714 or (609) 707-7439. Mariners should notify the work foreman no less than thirty minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- **Maryland**
  - **Lower Potomac River** - Harry W. Nice/Thomas “Mac” Middleton (US 301) Bridge - Construction will commence in May 2020, with completion estimated in November 2024. Work is scheduled from 7:00 a.m. to 7:00 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, a barge loading facility will be constructed on the Maryland shore and work trestles will be located north of the existing bridge extending outward from the Virginia shore to approximately 320 feet and from the Maryland shore to approximately 200 feet. Dredging will occur from the end of the Virginia work trestle until the water depth reaches 6 feet at mean lower low water. A vertical clearance of 135 feet above mean high water and horizontal clearance of 250 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (KB)
  - **Lower Potomac River** - Harry W. Nice/Thomas “Mac” Middleton (US 301) Bridge – To facilitate the setting of structural steel across the federal navigation channel at the new bridge the Coast Guard will establish a temporary safety zone for certain navigable waters of the Potomac River, during January 21, 2022 – February 4, 2022. At all times during this period, a large crane barge is required to be positioned within the federal navigation channel. The critical heavy lift operations will impede vessels requiring the use of the channel in this area. The safety zone will cover all navigable waters of the Potomac River, encompassed by a line connecting the following points beginning at 38°21′50.0″ N, 076°59′36.80″ W, thence south to 38°21′48.90″ N, 076°59′36.80″ W, thence west to 38°21′41.00″ N, 076°59′34.30″ W, thence north to 38°21′46.90″ N, 076°59′36.80″ W, and east back to the beginning point, located between Charles County, MD and King George County, VA. These coordinates are based on datum NAD 83. The safety zone will be enforced continuously, from 7 a.m. on January 21, 2022, through 8 p.m. on February 4, 2022. Under the general safety zone regulations in subpart C of 33 CFR part 165, except for marine equipment operated by Skanska-Corman-McLean, Joint Venture, or its subcontractors, you may not enter the safety zone described unless authorized by the Captain of the Port Maryland-National Capital Region (COTP) or the COTP’s designated representative. To seek permission to enter, contact the COTP or the COTP’s representative by telephone number 410-576-2693 or on Marine Band Radio VHF-FM channel 16. Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP’s designated representative. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies. Vessel traffic not required to use this section of the federal navigation channel may be safely transit around the safety zone under the next bridge span to the east or the western federal navigation channel, but do so at their own discretion. A “bridge work—danger—stay AWAY” sign facing the northern and southern approaches of the navigation channel will be posted on the sides of the marine equipment on-scene within the location described. The Coast Guard will issue a Broadcast Notice to Mariners via VHF-FM marine band radio about the status of the safety zone. Interested persons can contact U.S. Coast Guard Sector Maryland-NCR Waterways Management Division at telephone number (410) 576-2674 or (410) 576-2693. (KB/RH)
  - **Susquehanna River** - I-95 (Millard E. Tydings Memorial/John F. Kennedy Memorial Highway) Bridge – Bridge maintenance will be conducted from 7 a.m. to 5 p.m.; Monday-Friday; from June 15, 2021, through April 6, 2022. A 60 x 60 foot crane barge, a 34 x 90 foot work barge, and a work vessel will be located in and around the vicinity of the bridge. During the work hours, the crane barge and work barge will be located in and around the main navigation span of the bridge, which will reduce the horizontal clearance of the main navigation span to approximately 390 feet of horizontal clearance, and/or, will be located in one of the adjacent alternative navigation spans of the bridge, reducing the horizontal clearance of the adjacent alternative navigation span to approximately 330 feet of horizontal clearance. Maintenance personnel, equipment and vessels will relocate from the main navigation span and/or adjacent alternative navigation spans, upon request. Vessels that can safely transit through the main navigation span and/or the adjacent navigation span of the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge main navigation span and/or adjacent alternative navigation span during periods with a reduced horizontal clearance may transit through the bridge spans may do so if at least a two-hour prior notice is given to the project foreman. During non-work hours the crane barge and work barge will be spudded or tied parallel to the pier. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (484) 798-3224. Mariners should use caution navigating through the area. (MT)
  - **Washington DC**
    - **Anacostia River** - Frederick Douglass Memorial (South Capitol Street) Bridge – Construction of the new Frederick Douglass Memorial (South Capitol Street) Bridge and demolition of the old bridge across the Anacostia River in Washington, DC continues into 2022. The work is primarily being conducted Mondays through Saturdays, between 7 a.m. and 7 p.m., with intermittent night and Sunday work. The federal navigation channel east of the original center pier, approximately 150 feet wide, remains available for navigation. Exclusion buoys labelled “DANGER” mark the active and ongoing bridge work east of the original center pier, approximately 200 feet wide. Dredging will occur from the end of the Virginia work trestle until the water depth reaches 6 feet at mean lower low water. A vertical clearance of 135 feet above mean high water and horizontal clearance of 250 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (KB)
    - **Anacostia River** - Frederick Douglass Memorial (South Capitol Street) Bridge – Construction of the new Frederick Douglass Memorial (South Capitol Street) Bridge and demolition of the old bridge across the Anacostia River in Washington, DC continues into 2022. The work is primarily being conducted Mondays through Saturdays, between 7 a.m. and 7 p.m., with intermittent night and Sunday work. The federal navigation channel east of the original center pier, approximately 150 feet wide, remains available for navigation. Exclusion buoys labelled “DANGER” mark the active and ongoing bridge work east of the Federal Channel. Floating turbidity curtain and buoys are positioned around the old piers being demolished and supported by lit temporary piles. To support active demolition construction operations, a vessel/barge may be intermittently positioned within the east navigable channel. During these periods, the federal navigation channel to the west of the original center pier, approximately 150 feet wide, will be available to navigation. Mariners intending to transit this area are urged to contact the vessels MS. BECKY or CLAIRE MARIE for passing arrangements. Marine equipment on site includes a crew boat, a push boat, and multiple deck barges. All equipment will be marked and lighted as required by U. S. Coast Guard regulations. Mariners are urged to use extreme caution when transiting the area, and to operate at minimum speed necessary to maintain safe course that minimizes wake near the work site. Interested mariners can contact the vessel MS. BECKY or vessel CLAIRE MARIE via VHF-FM channels 16 and 13 when actively working on the river. (CT)
  - **Virginia (Northern)** – None.

SECTOR VIRGINIA

- **Virginia (Southern)**
  - **Lafayette River** - US 460 (Granby Street) Bridge – Bridge maintenance which began in September 2020, will continue to be conducted from 7 a.m. to 5:30 p.m.; 7 days a week; through October 8, 2022. A 20-foot safety vessel and work platform will be in and around the vicinity of the bridge. The work platform will be located underneath the bridge, positioned adjacent to the bridge pier behind the bridge fender system as to not impede the navigational channel. Maintenance vessels will relocate from the navigable channel, upon request. The work vessel may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (757) 930-6454 or (804) 229-1669. Mariners should use caution navigating through the area. (MT)
  - **Hampton Roads** - I-64/US 60 (Hampton Roads Beltway) North and South Approach Bridges - Construction activities commenced on March 15, 2021, and are expected to continue through November 2025. Marine construction activity will take place 24-hours per day, seven days a week. The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00′ 24.12″ N, 76° 19′ 18.84″ W for the west span and at position 37° 00′ 24.48″ N, 76° 19′ 15.60″ W for...
the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58′ 15.24″ N, 76° 18′ 03.96″ W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new approach bridge spans or located within specific Mooring Areas or Safe Harbor locations.

Bridge Structures/Work Trestles & Islands – Mariners are advised to maintain a safe distance of 300 feet from all HRBT bridge structures/work trestles, Extension Bridge, South Island, and HRBT South Island. Construction managers may establish safety clearances and through bridge trestles/structures/work trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines next to the existing trestles for the duration of the bridge construction to facilitate construction activity. Each pile will be lit by a flashing white light.

Hampton Flats Mooring Area – As charted. Changes pending. This area will contain six mooring buoys, lighted with flashing white lights, for the exclusive use of vessels involved in the HRBT Expansion project. The corners of the mooring area are marked with yellow buoys with flashing yellow lights. Mariners should use caution when transiting the area.

Phoebus Safe Harbor Area – As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. When utilized, mariners should keep clear of the area.

Willoughby Bay Mooring and Safe Harbor Area – As charted. This area contains a straight row of mooring pilings for the exclusive use of vessels involved in the HRBT Expansion project. The two end pilings are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-885-3392 or Kareem Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373-4799 and/or email MarineOps@hrccpv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org. (MT)

Willoughby Bay - 1-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - Construction activities began on June 7, 2021, and are expected to continue through December 2023. Marine construction activity will take place 24-hours per day, seven days a week.

The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

Bridge Structures/Work Trestles: Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending on out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area – As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536-9863 and/or email MarineOps@hrccpv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org. (MT)

Beach Canal - West Great Neck Road Bridge – Bridge maintenance will be conducted from 7 a.m. to 5:30 p.m.; Monday through Saturday, from November 15, 2021, through April 25, 2022. A 45-foot crane barge, snooper vehicle and work platforms will be located on and in and underneath the vicinity of the bridge. During the maintenance period from 7:30 a.m. through 5 p.m., Monday through Friday, the crane barge will be located in the navigational channel, adjacent to the fender system, which will reduce the horizontal clearance of the bridge to approximately 15 feet of horizontal clearance, and will be located outside of the navigation channel during non-work hours. During work hours, Monday through Saturday, the snooper vehicle will reduce the vertical clearance of the bridge to approximately 32 feet of vertical clearance. Vessels may transit safely through the bridge and horizontal and vertical clearances due to the crane barge and snooper vehicle may safely transit through the bridge at scheduled transit time of noon to 12:30 p.m., if at least a one-hour prior notice is given to the project foreman. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Marine personnel, crane barge and snooper vehicle will relocate from the navigable channel, upon request. The snooper vehicle may be reached on VHF-FM channels 13 and 16. The project foreman may be reached at (757) 705-6615 or (757) 435-2256. Mariners should use extreme caution while navigating through the area. (MT)

Long Creek - West Great Neck Road Bridge – Bridge maintenance will be conducted from 7 a.m. to 5:30 p.m.; Monday through Saturday, from November 15, 2021, through April 25, 2022. A snooper vehicle and work platforms will be located on and in the vicinity of the bridge. During the duration that the maintenance period, the work platforms will be attached underneath the bridge, adjacent to each bridge pier within the navigation channel, which will reduce the horizontal clearance of the bridge to approximately 20 feet. During work hours, the snooper vehicle will be located on and underneath the bridge, which reduce the vertical clearance of the bridge to approximately 17 feet of vertical clearance. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Vessels that can safely transit through the bridge during periods with a reduced vertical and horizontal clearances may do so at any time. Vessels that cannot transit through the bridge during periods of reduced vertical clearance due to the snooper vehicle, may transit through the bridge, if at least a 30-minute prior notice is given to the project foreman. Maintenance personnel, and the snooper vehicle will relocate from the navigable channel, upon request. You may also contact MarineOps@hrcpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org. (MT)

South Branch of the Elizabeth River - I-64 High Rise Bridge – Placement of structural steel over the navigation span of the bridge is scheduled from 6 a.m. to 6 p.m. on March 4, 2022. The waterway through the bridges (existing bascule drawbridge and fixed bridge under construction) will not be accessible during placement of the structural steel over the navigation span. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners, and marine safety information bulletin. Mariners are urged to use caution when transiting the area.

James River - Benjamin Harrison Lift Bridge – Bridge maintenance will be conducted from 7 a.m. to 6 p.m. daily, from March 28, 2022, through April 5, 2022. A work barge, crane and tug will be located in and around the vicinity of the bridge. Work vessels may be reached on VHF-FM
channel 13 and 16. Mariners should use extreme caution navigating through the area. (CT)

North Landing River - S165 (North Landing Bridge) – Bridge will not be capable of normal operation until further notice. The north span of the bridge is fully operational and the south span of the bridge will have limited operational capabilities. The drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021, except for recreational vessels. Recreational vessels able to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a limited opening (north span). Recreational vessels unable to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a full opening (both spans). Public vessels of the United States, commercial vessels, government vessels, and emergency vessels may transit through the bridge unrestricted at any time in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. The bridge will be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area. (MT)

Elizabeth River-Eastern Branch - U.S. 460/S.R. 337 (Berkeley) Bridge – Bridge will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge bascule spans. The bridge will remain in the closed position from 5 a.m. on Monday, April 9, 2022, to 5 a.m. on Saturday, April 11, 2022, with alternate closure dates from 5 a.m. on Monday, April 11, 2022, to 5 a.m. on Saturday, April 16, 2022. The horizontal clearance of the bridge will be reduced to 100 feet from 5 a.m. on Monday, April 11, 2022, to 8 a.m. on Wednesday, April 14, 2022, with alternate dates from 5 a.m. on April 11, 2022, to 8 a.m. on Wednesday, April 13, 2022. The drawbridge has two spans, each with double-leaf bascule draw, and both spans have a vertical clearance in the closed position of 48 feet above mean high water. Vessels able to pass through the bridge in the closed position or reduced horizontal clearance may do so, after notifying the bridge tender. The bridge spans will not be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. Mariners should use caution when transiting the area. (CT)

Elizabeth River-Eastern Branch - U.S. 460/S.R. 337 (Berkeley) Bridge – Bridge will be maintained in the closed-to-navigation position to facilitate bridge maintenance of the bridge bascule spans. The bridge will remain in the closed position from 5 a.m. on Monday, April 25, 2022, to 5 a.m. on Saturday, April 30, 2022, with alternate closure dates from 5 a.m. on Monday, May 2, 2022, to 5 a.m. on Saturday, May 7, 2022. The horizontal clearance of the bridge will be reduced to 100 feet from 5 a.m. on Monday, April 25, 2022, to 8 a.m. on Wednesday, April 27, 2022, with alternate dates from 5 a.m. on May 2, 2022, to 8 a.m. on Wednesday, May 4, 2022. The drawbridge has two spans, each with double-leaf bascule draw, and both spans have a vertical clearance in the closed position of 48 feet above mean high water. Vessels able to pass through the bridge in the closed position or reduced horizontal clearance may do so, after notifying the bridge tender. The bridge spans will not be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. Mariners should use caution when transiting the area. (CT)

SECTOR NORTH CAROLINA

- North Carolina
- Oregon inlet - Herbert C. Bonner Bridge – Demolition of the old bridge is anticipated to be completed by April 30, 2022. During demolition of the old bridge, the designation of navigation spans and placement of bridge lighting will be changed several times, as reflected below, and provided via updated local notice to mariners and broadcast notice to mariners. Phase 2 (Effective April 24, 2019): The navigation spans are between bridge bents 173 and 176 (old bridge, with no superstructure between bridge bents) and bridge bends 20 and 21 (span 21) on the new bridge. The approximate limiting navigation clearances are 70 feet above mean high water (new bridge, span 21) and 169 feet between bridge bents (old bridge, between bridge bents 173 and 176). Temporary bridge lighting has been placed between bridge bents 173 and 176 of the old bridge and between bridge bents 20 and 21 (span 21) of the new bridge. Phase 3 (to be announced): The navigation span will be between bridge bents 22 and 23 (span 23) of the new bridge. The adjacent spans of the old bridge will have been removed. The limiting navigation clearances (approximate) will be 70 feet above mean high water and 275 feet between bridge bents. Permanent bridge lighting will be placed between bridge bents 21 and 22 (span 22) of the new bridge. Mariner's are advised to use extreme caution when transiting through the bridge, follow the aids to navigation closely and remain at least 500 feet clear of all construction vessels and equipment. Submerged concrete pilings are just below the surface of the water near construction activities. (HP)

- The Straits - Harkers Island Bridge (SR 1332) - Bridge will remain in the closed-to-navigation position to facilitate bridge repairs due to damage caused by Hurricane Florence. The repairs require the bridge to remain in the closed-to-navigation position. The bridge is a swing bridge with a vertical clearance in the navigation span of 14 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open in case of an emergency and there is an alternate route for vessels to pass. Mariners should use caution when transiting the area. (MB)(HP)

- Atlantic Intracoastal Waterway (AIWW), Bogue Sound - SR 1184 (Atlantic Beach Bridge) – Bridge maintenance, which began September 2020, will continue to be conducted from 7 a.m. to 7 p.m.; 7 days a week; through March 15, 2022. The maintenance will be performed in two phases. The first phase, which began in September 2020, will continue through March 15, 2021. The second phase will be performed from September 13, 2021, through March 15, 2022. During these maintenance periods, two 20-foot work vessels, work floats, and a snooper truck will be located in and around the vicinity of the bridge. During work hours, the snoopers truck will be located in and around the navigational channel of the bridge. The snooper truck will extend below low steel of the bridge approximately ten feet, reducing the vertical clearance in the navigational span to approximately 55 feet above mean high water. Maintenance personnel, equipment and the vehicle will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (757) 287-9269 or (703) 598-1847. Mariners should notify the work foreman no less than 30 minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)

- Atlantic Intracoastal Waterway (AIWW), Bogue Sound - SR 58 (Emerald Drive) Bridge – Bridge maintenance, which began September 2020, will continue to be conducted from 7 a.m. to 7 p.m.; 7 days a week; through March 15, 2022. The maintenance will be performed in two phases. The first phase, which began in September 2020, will continue through March 15, 2021. The second phase will be performed from September 13, 2021, through March 15, 2022. During these maintenance periods, two 20-foot work vessels, work floats, and a snooper truck will be located in and around the vicinity of the bridge. During work hours, the snoopers truck will be located in and around the navigational channel of the bridge. The snooper truck will extend below low steel of the bridge approximately ten feet, reducing the vertical clearance in the navigational span to approximately 55 feet above mean high water. Maintenance personnel, equipment and the vehicle will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (757) 287-9269 or (703) 598-1847. Mariners should notify the work foreman no less than 30 minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)

- Atlantic Intracoastal Waterway (AIWW) - SR 904 Bridge – Bridge maintenance will be conducted from Sunday night to Friday morning; from June 1, 2021, through May 1, 2022. During these maintenance periods, two work vessels, work floats, and a snooper truck will be located in and around the navigation channel. During work hours, the snoopers truck will extend below low steel of the bridge approximately ten feet, reducing the vertical clearance in the navigation span to approximately 55 feet above mean high water. Maintenance personnel, equipment and
the vehicle will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (571) 287-9269 or (703) 598-1847. Mariners should notify the work foreman no less than 30 minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (CT) White Oak River - S882 Bridge (near Stella, NC) – Bridge construction will commence in October 2021, with completion estimated in January 2024. Work is scheduled from 6 a.m. to 6 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, temporary work trestle will be installed in the White Oak River between October 2021, and February 2022, and will remain in place until completion. Work trestles will be located immediately adjacent and upstream of the existing White Oak Railroad trestle. The temporary trestle vertical clearance of 10.5 feet above mean high water and horizontal clearance of 33 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (CT) Smith Creek - SR 2812 (S117-133/Castle Hayne Road - Bridge construction activities will begin on December 1, 2021, and are expected to finish on April 2, 2023. Work will be on-going from 7 a.m. through 6 p.m.; Monday through Saturday. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. A material barge, support vessel, and crew boat will be operating or stationed in the vicinity of the existing and new bridge. Temporary work trestles will also be constructed adjacent to the existing and new bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Civil Works Contracting barge and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The NCDOT Resident Engineer may be contacted at (910) 620-9829 and Civil Works Contracting may be contacted at (252) 240-9967 or (910) 279-4321. (MT) Atlantic Intracoastal Waterway - Onslow Beach Swing Bridge – Temporary work platforms will be installed on either side of the AICW, just north of the bridge. The platforms will be in place for the duration of construction of the new bridge and demolition of the existing bridge. Crane operators and the bridge tender may be reached on VHF-FM channel 13. Mariners should use caution when transiting the area. (CT) Banks Channel - South Bank Channel Bridge – Bridge maintenance will be performed from 6 a.m. to 7 p.m., 7 days a week, from January 3, 2022, through August 17, 2022. During the repair period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 4 feet above mean high water. Vessel traffic will need use an alternate route. Work vessels may be reached on VHF-FM channel 13 and 16. (CT) Perquimans River - US 17 Bridge - To facilitate the placement and curing of the concrete deck, the bridge will be maintained in the closed-navigation position from 10 a.m. on April 4, 2022, through 10 a.m. on April 13, 2022. The vertical clearance of the bridge in the closed-navigation position is approximately 13.5 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for vessels. At all other times, the drawbridge will operate in accordance with the drawbridge operating regulations set out in Title 33 Code of Federal Regulations Part 117.835. Mariners should exercise caution when transiting the area. (HP) Permits/Construction:

NJ – CAPE MAY CANAL – CAPE MAY FERRY TERMINAL – DREDGING OPERATIONS

All vessels, please be advised that the Dredge MONTGOMERY of Barneget Bay Dredging will be performing maintenance dredging of the Cape May Ferry Terminal located in Cape May, NJ. Dredging will start at Ferry Slip number 1, then digging to the east number 2, 3, 4, 5, and 6. Work will commence on March 16, 2022 with a completion date of April 18, 2022. All vessels should proceed with extreme caution when passing dredging locations. Dredge MONTGOMERY will be monitoring VHF channels 11, 13 and 16. For further information, contact Sector Delaware Bay Command Center at 215-271-4807.

Chart 12304.

NJ – WILMINGTON TO PHILADELPHIA – OLDMANS CREEK – DREDGING

Starting on August 9, 2021, R.E. Pierson Construction Co., Inc. will be conducting dredging to facilitate vessel travel and installation of steel sheet bulkhead along Oldman’s Creek. Project begins within an area of the Delaware River located at Latitude 39.78221, Longitude -75.442119, near River Mile Marker 75, in New Castle County, Delaware, and extends into Oldmans Creek to Latitude 39.785794, Longitude -75.407103, just west of the U.S. Route 130 Bridge, in Oldmans and Logan Townships, Salem and Gloucester Counties, New Jersey. Ellicot 370 floating dredge and “REP 9 #3406 tug boat will utilize 12” diameter HDPE fused dredge pipe supported by orange pipe floats to remove material. All vessels will be marked in accordance with CG regulations. REP 9 will monitor VHF-FM channel 10 and 11. Project completion will be around March 31, 2022. For more information, contact R.E. Pierson Construction Co. Inc. 856-769-8244.

Chart 12312.

Pennsylvania

PA- NJ – UPPER DELAWARE RIVER – DREDGING OPERATIONS

Corman Kokosing Construction Company on behalf of the Army Corps of Engineers (USACE), will commence on or about November 1, 2021 in the Federal Navigation Channel in the Delaware River from the Bridgesburg Range to the Beverly Range. Loaded scows will be towed from the work area to the Unloader barge located at the Money Island Dredge Containment Facility for offloading. The unloader barge will be staged on the West bank of the Delaware River outside the channel in the vicinity of the Roebeling and Kinkora Range. An 18” submerged HDPE pipeline will be placed on the river bottom from the Unloading Barge into the placement Facility.

The Dredge KOKO VI and/or KOKO V will be dredging the area with the assistance of a tender tug, towing tugs and scows. Vessels and crew will monitor VHF channel 13 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of March 30, 2022.

Chart 12314
PA – SCHUYLKILL RIVER – DREDGING AND CONSTRUCTION
Dredging and Construction work will begin 07 February 2022 and continue through May 2025 on the Schuylkill River in Philadelphia, PA. The company PKF MARK III will be installing concrete piers and bridge decks along the banks of the Schuylkill River between the 34th street Bridge and the Schuylkill Arsenal Railroad Bridge. There will be deck barges and crane barges in the vicinity of the bridges, so mariners are advised to transit the area with caution. For more information regarding this operation contact the POC Jim Doyle at 484-680-8550.

Chart 12313.

PA/NJ – DELAWARE RIVER – SAMUEL S. BAXTER WATER TREATMENT PLANT – DREDGING OPERATIONS
Mobile Dredging & Video Pipe, Inc. (MDVP) will begin installing approximately 3,000 to 4,000 feet of dredge pipeline across the Delaware River to pump from the Philadelphia Water Department Baxter Water Treatment Plant Residuals Lagoon to a confined disposal facility on the southern (New Jersey) side of the river. The dredging work is set to take place between July 2021 and December 2022. The pipeline will be sunk to the bottom of the Delaware River in the navigable channel with heavy marine chain. The pipe will be gradually released to the water surface outside of the navigable channel until it reaches the shorelines. The chain on the pipe will secure the pipeline during any major weather events. Dredging operations will generally operate Monday through Saturday during daylight hours. Approximate GPS positions: 40°25.68′N; 74°59′54.26″W to 40°1′31.74″N; 74°59′55.46″W. Mariners are advised to maintain a safe distance from all pipeline equipment. All marine equipment will be marked in accordance with U.S. Coast Guard regulations and requirements. Work boat WB33 and a second work boat will be utilized to stage and lay the pipeline at the beginning of the operation. Furthermore, the crew will be communicating on work channel 72 while also monitoring channel 13. 24 Hour contact: Frank Brangan – (856) 265-3558 (JPC Group, Inc.)

Chart 12313, 12314

Delaware

***EXTENDED*** The Dredge ESSEX will commence dredging operations in the Cherry Island Range of the Delaware River on or about March 1, 2022. The project at Cherry Island Range will continue until approximately April 15, 2022. A submerged pipeline will run from the dredging area to the Pedricktown Disposal area on the New Jersey side of the river. A floating pipeline will connect the dredge to the submerged pipeline. The submerged pipeline will need to be moved occasionally as the dredge progresses. The Dredge Operator will standby on channels #13 and #16 VHF-FM. Traffic should call 30 minutes prior to expected time of passage. All mariners are requested to stay clear of the dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires about the dredge. Owners of vessels of all types should be aware that the dredge and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoy’s are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipelines, barges, derricks, wires and related equipment. Owners and lessees of fishnets, crab pots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tender boats and other attendant equipment will be navigating. Since the project will be conducted twenty –four (24) hours per day seven (7) days a week, all fishnets, crab pots and structures in the general area must be removed prior to the commencement of the work.

MD – BALTIMORE HARBOR – SEAGIRT BERTH 3 – DREDGING OPERATIONS
Corman Kokosing Construction Company will begin dredging operations, on behalf of Ports America, will commence on or about March 15, 2021 at Seagirt Berth 3, in the vicinity of 39°14′10″ N, 76°32′40″ W. Loaded scows will be towed from this location to the Unloader “SN3” located at the Masonville Dredge Containment Facility (39°15′10″ N, 76°35′20″ W) for offloading on a daily basis. A 16” submerged HDPE pipeline will be placed on the sea bottom from the Unloading Barge into the placement Facility, located in the vicinity of 39°15′15″ N, 76°35′30″ W. The Dredge KOKO VI will be dredging the area with the assistance of a Tender Tug, Towing Tug, and three scows. Temporary emergency anchors will be placed near the Unloader #3, in the vicinity of 39°15′40″ N, 76°35′00″ W and near Seagirt in the vicinity of 39°15′00″ N, 76°33′00″ W to assist with operations. All vessels and crew will monitor VHF channels 13 and 5 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of June 1, 2022. For more information, contact Adam Donder, (443) 695-3788, adondero@kokos.com.

Chart 12281.
MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – BALTIMORE HARBOR – DREDGING OPERATIONS

Maintenance dredging operations are scheduled to occur within the Baltimore Harbor and Approaches federal navigation projects, from on or about March 2, 2022 until on or before July 20, 2022, 24 hours daily (Monday through Sunday). Cashman Dredging and Marine Contracting Co., LLC will perform the work in the Baltimore Harbor Channels, including Craighill Entrance Channel, Cutoff Angle, and Fort McHenry Channel. Bar dragging operations will be conducted in the Northwest Harbor East Channel. Marine equipment will be located throughout the dredging work areas during operations, utilizing the 180-foot long Clamshell Dredge DALE PYATT. Dredged material will be transported in the dump scows JOE VERROCHI, M.E.R.C. SHELVIN, KURT SCHULTE and WEEKS 118 to the Northern Access Channel Turning Basin at Poplar Island in Talbot County, MD for placement by the off-loader barge KRAKEN. Loaded scows from the Fort McHenry Channel will be transported to the Cox Creek Dredged Material Containment Facility in Baltimore Harbor for placement by the off-loader barge KRAKEN. Towing vessels involved include the CHARLES JAMES, MICHAEL DAIGLE, JOHN JOSEPH, BERING DAWN and MISS ILA. The marine equipment will be accompanied by the survey vessel CAPE ELIZABETH and support vessel BROOKS HOOKS. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. Mariners can contact the vessels on marine band radio VHF-FM channels 16, 13 and 67.

Charts 12278, 12281, 12270.

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – PATAPSCO RIVER – AERIAL TRANSMISSION LINE CONSTRUCTION

Marine construction operations in support of the installation of aerial electric power transmission lines will occur on the Patapsco River, between Hawkins Point and Solliers Point north and adjacent to the Francis Scott Key Memorial (I-695/Baltimore Beltway) Bridge until Oct 7, 2022. The work will occur 24 hours per day, 7 days per week, in approximate positions: (1) 39°12'46.8737" N, 076°32'14.0536 W; (2) 39°12'58.5610 N, 076°31'58.7405 W; (3) 39°13'13.7886 N, 076°31'38.7851 W; (4) 39°13'26.6084 N, 076°31'21.9825 W; and (5) 39°13'39.4271 N, 076°31'05.1787 W. McLean Contracting Company marine equipment spudded on site will include: (1) a sectional barge (120’x120’x7’); (2) the Whirley Crane Baltimore barge (140’x70’x12.5’); (3) the Whirley Crane Hampton Roads barge (108’x46’x8’); (4) a Whirley Crane Newport News barge (110’x43’x8’); and (5) a deck barge. Mariners are urged to use caution when transiting the area, and to operate at minimum wake speed necessary to maintain safe course near the work site. Interested mariners can contact the attending vessels on site, including "WB29", "MEGALADON", "RISING SUN", "CAPTAIN STEVE", crewboat and jackboats on marine band radio VHF-FM channels 16 and 13. Throughout the construction project, the Baltimore Gas and Electric Company will regularly provide updates at website: https://www.bge.com/SmartEnergy/InnovationTechnology/Pages/Construction-Updates.aspx.

Chart 12281.

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – PATAPSCO RIVER– DIVING OPERATIONS

Diving operations are scheduled to occur in Bear Creek during July 19, 2021 - May 30, 2022. The BG&E transmission line tower foundation repair work will occur at five sites located just to the south of I-695 highway overpass in Baltimore, MD. The work will include the use two barges and two work vessels moored to these barges, positioned adjacent to the navigable channel. All work will take place outside of the navigation channel. Dive crews using surface-supplied air will be conducting dive operations from the two barges. Interested mariners can contact the on scene work vessels JILLIAN V and OLD BAY via marine band radio VHF-FM channels 08, 13 and 16, or the Marine Solutions, Inc. construction superintendent at telephone number 302-250-6073.

Chart: 12281.

MD – CURTIS BAY – FUEL PIER CONSTRUCTION

McLean Contracting Company will begin rehabilitation of Fuel Distribution Pier starting on January 3, 2022 to July 1, 2022. Work will be conducted 24 hours, 7 days per week and will require two barges to be moored in the vicinity of pier. Approximate location of project is 39°13'31"N, 076°34'03"W. For more information contact Mr. Ed Barrickman, Superintendent, 412-228-9715, or Mr. Mike Hodeen, Project Manager, 757-620-0854.

Chart 12281, 12278.

MD – PATAPSCO RIVER – NABBS CREEK – TIDAL WETLAND SHORELINE STABILIZATION PROJECT

Century Engineering Inc., on behalf of Baltimore Gas and Electric Company (BGE) will begin a wetland and shore stabilization project on Nabbs Creek behind the Chestnut Hill Cove residential community, beginning January 17, 2022 and continuing into Fall 2022. All work will be conducted from shore via an access road. For more information, contact Century Engineering at 443-589-2400.

Chart 12281.

MD – HEAD OF CHESAPEAKE BAY – BUSH RIVER – TOWER CONSTRUCTION

McLean Contracting Company will begin construction on a new foundation and power line tower, as well as removal of old structure, south of the Amtrak Railway Bascke Bridge over the Bush River in Harford County MD. Project position 39.26'08.98" N, 76.14'32.45" W. Project will begin August 30, 2021 to approximately April 1, 2022. McLean Contracting will utilize a 200’ x 50’ Material Deck barge and a250’ x 60’ Crane Barge. Both barges will be marked in accordance with Title 33 - Navigation and Navigable Waters, Chapter I - COAST GUARD, DEPARTMENT OF HOMELAND SECURITY, Subchapter E - INLAND NAVIGATION RULES, Part 88 - ANNEX V: PILOT RULES, Section 88.13 -Lights on moored barges. Barges will monitor VHF-10 and VHF-74. For more information contact: Mr. Joshua Schmitz, Site Superintendent, 410-371-5124, Mr. Adrian Hernandez, Safety Officer, 443-226-6236, Mr. James Woodward, Regional Safety Manager, 443-577-6807, Mr. Mike Hodeen, Project Manager, 443-995-3092.

Chart 12274.

MD – UPPER CHESAPEAKE CHANNEL – DREDGE OPERATIONS

Corman Kokosing Construction Company will begin mechanical dredging operations on or about January 24, 2022 in the Federal Navigation Channel in the Chesapeake Bay and Elk River from Worton Point to Old Town Point. Loaded scows will be towed from the work area to the Unloader barge located at the Pearl Creek Dredge Containment Facility for offloading. The unloader barge will be staged on the South of the channel and North of Wroth Point. An 18” submerged HDPE pipeline will be placed on the river bottom from the Unloading Barge into the placement Facility. The Dredge KOKO VI and/or KOKO V will be dredging the area with the assistance of tender tug, towing tugs and scows. Vessels and crew will monitor VHF channel 13 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of March 31, 2022. For more information, contact Adam Donder, (443) 695-3788, adondero@kokos.com

Charts 12273, 12274, 12280.
VA – POTOMAC RIVER – ALEXANDRIA CHANNEL – CONSTRUCTION
River Renew will begin building a turbidity curtain on October 25, 2021 in approximate position 38.8096919N, 77.038250912W. Once turbidity curtain is complete, a permeant seawall will be built, shore side of curtain. All work will be conducted from shore; however, seawall could extend 30ft into Oronoco Bay and the Potomac River. Project completion, anticipated to be August 2024.
Chart 12289.

DC
Virginia
VA – CHINCOTEAGUE INLET & CHANNEL – DREDGING OPERATIONS
USACE will conduct maintenance dredging on in Chincoteague Inlet between Chincoteague Inlet Lighted Buoy 8 (LLNR 5305) and Lighted Buoy 10 (LLNR 5315) and in Chincoteague Inlet Channel between Lighted Buoy 24 (LLNR 5375) and Lighted Buoy 26 (LLNR 5385). Dredge Murden will begin on March 15, 2022 to approximately March 21, 2022 and will operate 24 hours a day. Vessel traffic is requested to contact Murden on CH 16, 13 for passing arrangement during active dredge operations.
Chart 12211

VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE CHANNEL – DREDGING
The Dutra Group has been contracted to dredge the Chesapeake Channel from Chesapeake Channel Lighted Buoy 13 & 14 (LLNR 7105, 7110) to Chesapeake Channel Lighted Buoy 3 & 4 (LLNR 7045, 7050). Dredging will be performed by the hopper dredge “Stuyvesant”. All dredged material will be transported to Disposal Site Dam Neck Management Area Cell 1, centered at Lat. 36°50'40.67"N Long. 75°53'49.40"W, approximately 9 nm SE of Green Buoy 3 (end of dredge area).
Dredging is scheduled to start on or about December 14, 2021 and completed on or about April 15, 2022. Work will continue 24 hours a day, 7 days a week. The Stuyvesant will use and monitor VHF Channels 13 and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.
Chart 12211.

VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE BAY BRIDGE TUNNEL – MARINE OPERATIONS
Chesapeake Tunnel Joint Venture will continue Tug, Crane and Barge operations near the existing tunnel protection berms for Islands 1 and 2. Work will not impede the navigational channel. A crane barge may be held in place by way of spuds, a six point anchoring system or made fast to several steel mooring piles. Buoy will be attached to the anchors so that they may be moved as the crane barge advances. Buoy will be illuminated at night by one second flashing white lights and the barges will be illuminated by steady white lights on all corners. The steel piles will be illuminated at night by white lights. The steel piles and trestle will be positioned west of Island #1 approximately 125 feet and extending north of the fishing pier approximately 1000 feet. The ROBERT T and ANGELINA AUTUMN will be on VHF-FM 13 and 16. Charts 12222.

***VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGING***
Staring approximately April 10, 2022 to April 20, 2022, Weeks Marine Hopper Dredge “Lindholm” will be operating in conjunction with support equipment between Thimble Shoal Channel Thimble Shoal Lighted Buoy 19 (LLNR 9305) and Thimble Shoal Lighted Buoy 7 (LLNR 9235) stopping west of Chesapeake Bay Bridge-Tunnel. All dredged material will be transported to the approved Dam Neck Ocean Disposal Site – DNODS - Cells 5, 6, & 7.
Work limits for the Thimble Shoal Channel will be bound by the following approximate positions:
37° 1'35.24"N, 76°15'57.82"W
36°59'11.10"N, 76° 6'41.27"W
36°57'37.50"N, 76° 7'8.25"W
36°59'53.72"N, 76° 6'41.27"W

Limits of Dredged Material Placement Area will be bound by the following approximate positions:
36°51'45.15"N, 75°51'16.40"W
36°45'47.19"N, 75°50'54.07"W
36°45'45.72"N, 75°55'33.04"W

The dredge will monitor VHF-FM channels 13 and 16. For questions, contact Dave McNeill - (985) 237-5069 (mobile), dcmcneill@weeksmarine.com (email).
Chart 12256.

VA – LYNNHAVEN INLET – CRAB CREEK/LONG CREEK – DREDGING
On behalf of the city of Virginia Beach, Salmon Inc., will commence dredging operations on or about January 14, 2022 in the Crab Creek section and continue during daylight hours Monday through Friday until completion on or before February 28, 2022, and in the Long Creek area between March 1, 2022 and completed by March 27, 2022. A 40’ X 40’ dredge barge and two 30’ X 40’ barges for dredged material, as well pusher boat, Miss Naomi, official number MI02920216 will be conducting work. Mariner should use caution when transiting surrounding area. For more information contact Salmon Inc., at (757) 426-6824.
Chart 12254.

VA – LYNNHAVEN BAY – LINKHORN BAY – BRIDGE CONSTRUCTION
Allan Myers is conducting road widening and bridge replacement on Laskin Road in Virginia Beach, VA until Oct 2022. Bridge passes over Great Neck Creek. A cofferdam and turbidity curtains are installed at the site. For more information contact Pat Robinson at 610-960-3139.
Chart 12222.
VA – HAMPTON ROADS – ELIZABETH RIVER – NAVAL STATION NORFOLK – DREDGING

Curtin Maritime (CMC) will be conducting dredging activities commencing on or about February 7, 2022 and conclude on or about May 30, 2022 within Naval Station Norfolk. During this time, CMC will be operating 24 hours per day / 7 days per week (Monday through Sunday). Material will be dredged from within Pier 11, Pier 6 North and Pier 5 North into hopper barges that will transit the Elizabeth River to be offloaded into the Craney Island Dredge Management Material Area and return to NSN. Barges will also depart from Pier 11S and transit the James River to Shirley Plantation for offload then return to NSN. Equipment for this operation will consist of 1 Clamshell Dredge, 6 Hopper Scows, Support Tugs: Taurus, Merrimac, Bunny C, and 1 Offloader Spud Barge.

All manned equipment will monitor VHF-FM Channels 13, 14 and 01A. Mariners are urged to transit at their slowest safest speed to minimize wake and proceed with caution after passing arrangements have been made.

For more information, contact Mr. Mike Patria at (630-418-1190).

Chart 12245.

VA – NORFOLK HARBOR AND ELIZABETH RIVER – ELIZABETH RIVER – DREDGING

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington will be performing dredging operations at the Navy degrading station and in the Elizabeth River Channel. Work will begin south of Elizabeth River Channel Lighted Buoy 25 (LLNR 9710) and continue to Elizabeth River Channel Lighted Buoy 30 (LLNR 9735) and will be performed between February 10, 2022 and April 15, 2022. The dredge Lexington monitors VHF channels 13 and 6. Owners and lessees of fishnets, crab pots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tender boats and other attendant equipment will be navigating. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week Daybeacon 9 (LLNR 11870). Dredging operations will be conducted twenty-four (24) days a week from Skiffes Creek Channel Lighted Buoy 2 (LLNR 11825) and Skiffes Creek Daybeacon 9 (LLNR 11870). Dredging will be performed between April 4, 2022 and June 27, 2022. The dredge Lexington monitors VHF channels 13 and 6. Owners and lessees of fishnets, crab pots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tender boats and other attendant equipment will be navigating. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week, all fishnets, crab pots and structures in the general area must be removed prior to commencement of any work, a slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.

Chart 12225.

VA – ELIZABETH RIVER – WESTERN BRANCH – BRIDGE CONSTRUCTION

Until March 2023, McLean Contracting will be conducting bridge demolition, and replacement of the Churchland Bridge on the Western Branch of the Elizabeth River. Signs have been installed on both sides of the bridge worded “OVERHEAD BRIDGE CONSTRUCTION 500 FEET AHEAD”. A temporary pile crane trestle will be extending approximately 600ft from either shoreline on the North side of the bridge. Barges and tugs will be on scene throughout the project and may be contacted on VHF-FM Channels 03, 13 and 16. For information, contact Scott White at 757-641-2132. LNM 23/20 Chart 12253.

VA – ELIZABETH RIVER – EASTERN BRANCH – PIER CONSTRUCTION

Beginning approximately January 31, 2022, and continuing until approximately June 1, 2023, Crofton Construction Services Inc. will commence constructing two 200’ travel slip concrete piers and dredging down to 24’ at the Lyon Shipyard along the Eastern Branch of the Elizabeth River, approx. position 36-50-28’N, 076-16-04’W. Operations will include crane barge operations, material barges, tugboats, work floats, and smaller crafts consistent with general marine construction. Barge(s) & vessel(s), will be moored, on site with employees working over the side on small floats or crew boats. The construction equipment will be confined, to the barges with crew boats working in the vicinity. The entire channel, will not be closed, during any stage of construction, or will not restrict marine traffic. Vessels are requested to proceed in this area with caution and no wake within 500’ of the above coordinates. Crews will be monitoring the following radio frequencies: VHF channels 13 & 16.

Chart 12253.

VA – ELIZABETH RIVER – PORTSMOUTH WATERFRONT – NORTH STREET FERRY LANDING TO TIDWATER YACHT MARINA – SEAWALL CONSTRUCTION

Crofton Construction will be conducting repairs to the seawall located in the Elizabeth River at the following locations: 36° 50'20"N, 076°17'45"W, and 36° 50'25"N and 076°17'46"W. Beginning November 09, 2020 and continuing until Spring 2022 or until complete. Construction operations will include, barge and crane operations, in conjunction with general marine construction. Barges and vessels will be moored on site with employees working over the side on small floats at times along with crew boats. The construction equipment will be confined to the barges, with small crew boats, working in the vicinity. Vessels are requested to proceed in this area with caution and causing no wake. CREWS will be monitoring VHF-FM Channels 13 & 16. For more information or questions, contact Olga Mileyko at 757-397-1131.

Chart 12253.

VA – ICW – ELIZABETH RIVER SOUTHERN BRANCH – DREDGING

H & H Enterprises will be dredging Paradise Creek off the southern branch of the Elizabeth River. The start date of the project is August 23, 2021 and the estimated finish date is March 31, 2022. H & H Enterprises will be dredging the creek and placing deposits on deck barges. The barges will be in transit from Paradise Creek to Bainbridge Recycling, near Elizabeth River Southern Branch Daybeacon 31 (LLNR 37075), on the southern branch of the Elizabeth River. The “Miss Jennifer” will be monitoring VHF Channels 13 and 16, while in transit with dredge spoils. The point of contact for the project will be Scott Hodges, at 757-435-9667.

Chart 12206.

***VA – JAMES RIVER – SKIFFES CREEK CHANNEL – DREDGING***

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington will be performing dredging operations at Skiffes Creek Channel on the James River between Skiffes Creek Channel Lighted Buoy 2 (LLNR 11825) and Skiffes Creek Daybeacon 9 (LLNR 11870). Dredging will be performed between April 4, 2022 and June 27, 2022. The dredge Lexington monitors VHF channels 13 and 6. Owners and lessees of fishnets, crab pots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tender boats and other attendant equipment will be navigating. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week, all fishnets, crab pots and structures in the general area must be removed prior to commencement of any work, a slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.

VA – JAMES RIVER - NEWPORT NEW TO JAMESTOWN ISLAND – BREAKWATER CONSTRUCTION

VA – JAMES RIVER - NEWPORT NEWS TO JAMESTOWN ISLAND – BREAKWATER CONSTRUCTION

VA – VIRGINIA BEACH – PUNGO FERRY BRIDGE REHABILITATION PROJECT
Mariners are advised that an engineering firm, on behalf of City of Virginia Beach Public Works, will be performing maintenance on the Pungo Ferry Road Bridge over North Landing River at location [36.614663, -76.049530], at Virginia Beach, VA. The maintenance which began in March 2021, will continue to be conducted from 7 a.m. to 5 a.m.; 7 days a week; through March 31, 2022. During the maintenance period, a work platform will be located underneath the bridge and will be reducing the vertical clearance of the bridge to approximately 60 feet above mean high water. The project foreman can be reached at (727) 259-4064. Mariners should use caution navigating through the area. Chart 12206.

VA – SEACOAST – RUDEE INLET – DREDGE OPERATIONS
The Dredge CHARLESTON, along with support equipment, will commence dredging operations on or around May 4, 2022 for Rudee Inlet Maintenance Dredging. Operations will be conducted between Outer Sand Deposition area to Owl Creek, Lake Wesley, Lake Rudee Intersection. Material will be pumped to beach placement areas on Croatan Beach and Resort Area Beach. Although, the dredging operations will occur in and around the channel a floating pipeline will be placed, parallel along the north side of the channel for Resort Area Beach Placement. Floating pipeline will be placed, parallel along the south side of the channel and in the “Sand Trap” for Croatan Beach Placement. Any used submerged pipeline will be marked with buoys every 120’ with appropriate signs and lights placed at pipeline entry and exit points. The floating pipeline length is approximately 1500’ feet at its longest and will be anchored and tended by tender tug boats. The Dredge Operator will standby on channels #13, #16, and #5 VHF-FM. For emergencies, the dredge operator can be reached at 757-508-2326. Mariners are requested to exercise extreme caution when approaching, passing and leaving the dredging plant and are requested to contact the dredge prior to passing. Chart 12200.

North Carolina
NC – PAMLICO SOUND – OUTER BANKS – US 12 - BRIDGE CONSTRUCTION
Construction will take place on the new US-12 Bypass Bridge (also known as Jug Handle) from Jan 2019 through March 2022 on the Outer Banks of NC. This bridge extends approximately 2.5 from the southern end of the Pea Island National Wildlife Refuge over the Pamlico Sound into Rodanthe. The air draft along the new bridge during construction will be restricted to 14 feet. https://www.ncdot.gov/projects/nc-12-rodanthe/Pages/default.aspx Chart 12204.

NC – BARNEY SLOUTH CHANNEL – DREDGE OPERATIONS
Mclean Contracting will conduct dredge operations starting on January 30, 2022 to mid-April 2022 in Barney Slough Channel in Ocracoke, NC. Dredging will take place in Sloops 5-8 in vicinity of Barney Slough Channel Lighted Buoy 4 (LLNR 28721.7) and Barney Slough Channel Lighted Buoy 6 (LLNR 28722.8). Operations will occur 7 days a week with anticipated work times being 0600-1800 with a possibility of 24 hour operations. Dredge: KS-5540 Tugs; Little Nancy & Little Mary will monitor VHF Channels 13 & 16 if passing arrangements are needed. Mariners are advised to use caution when transiting this area. Chart 11555.

***NC – BEAUFORT INLET AND SOUTHERN CORE SOUND – LENOXVILLE POINT – DREDGING***
Starting on March 25, 2022, dredging will be conducted in Lenoxville Point on the east end of Taylors Creek. All mariners should use extreme caution while navigating this area as construction equipment will be moored throughout the length of Taylors Creek as they bring the spoils to the east side of Radio Island I/O Old Town Yacht Club. A dredge pipeline will be submerged and cross Bulkhead Channel to move the spoils to Radio Island. Dredging is expected to take 90 days. Chart 11545.
NC – SEACOAST – KURE BEACH & CAROLINA BEACH – BEACH NOURISHMENT

Great Lakes Dredge and Dock has been contracted by the Army Corp or Engineers to conduct beach nourishment. To mark borrow area and subline area, temporary buoys will be used. Buoys marking these locations should NOT be used for navigational purposes. Boaters should try to maintain a safe distance from these buoys. Great Lakes Dredge and Dock anticipates to commence mobilization activities on or around February 15, 2022. Waterside mobilization activities will include towing attendant plants and pipeline rafts. Assembly of submerged pipeline, temporary mooring of Derrick barge, Anchor Barge, pipeline and additional auxiliary equipment will be staged in Wrightsville Channel. The work under this contract consists of dredging beach quality sands from the permitted area of the Kure Beach Offshore Borrow Area B as well as, shaping, and grading the sand fill material along beach segments. Work will be performed with cutter suction dredge Texas. The hopper dredge will transport the material through a length of floating pipe to a series of pumps. The material will be conveyed from the pump out to the beach by hydraulic means through a submerged pipeline and deposited within the designated beach placement area. The dredge can be reached on marine VHF channels 13 & 16.

Kure Beach Landing 34.0228N 077.8943W
Carolina Beach Landing 34.0446N 077.8660W
Booster Pump # 1 34.0393N 077.8797W
Booster Pump # 2 34.0280N 077.8697W
Staging 34.1914N 077.8152W
Area 34.1939N 077.8130W

Dredging and Disposal Operations are often done at slow speeds with limited maneuverability. Mariners are urged to use extreme caution in the area of the dredge. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Project is anticipated to be complete by April 31, 2022.
Chart 11541.

NC – CAPE FEAR RIVER – DREDGING

Southern Dredging Co. be working in the Cape Fear River between the Horseshoe Shoal and Snows Marsh reaches of the Cape Fear River in vicinity of Cape Fear River Channel Lighted Buoy 27 (LLNR 30550) and Buoy 25 (LLNR 30530), commencing on or about February 21, 2022. Dredge Brunswick will operate on a 24 hour per day, 7 day per week basis until approximately March 21, 2022. Dredged material will be transported by pipeline to the Ferry Slip Island disposal site on the East side of the river. To ensure safe passage in the vicinity of the operation, boaters should establish contact with the dredge on VHF marine channels 13 and 16. The points of contact for this project are Neil Rodgers at 843-729-1269 or William Walters at 843-729-2105.

Chart 11537.

NC – CAPE FEAR RIVER – CAPE FEAR RIVER – DREDGING

The Dutra Group has been contracted by the US Army Corps of Engineers, to dredge the Cape Fear River reaches (Upper Lilliput Channel). The mechanical dredge, DB Paula Lee, will perform the dredging in the Cape Fear River with the dredged material to be disposed at the New Wilmington ODMDS. The project will use two towing tugs, the Tug "Colonel" and another that is yet to be determined. The tugs will be towing and handling two approximately 5,000 CY scows, the CK-7 and ES-15. The tugs will be transporting dredged material to the New Wilmington ODMDS placement site, which is approximately 9 NM south of the mouth of the Cape Fear River at N 33 deg 44 min 6.946 sec, W 078 deg 02 min 8.979 sec. Dredging is scheduled to commence on February 01, 2022 and should be completed by April 18, 2022. The crews and equipment will be operating 24 hours a day, 7 days a week during this period. Work will be performed in the Cape Fear River between Longitude North 34 degrees, 01 minutes and North 34 degrees, 11 minutes. The DB Paula Lee will continually monitor VHF channels 13, 16, and 81. Additionally, you can contact Project Manager, Danny Myers, at (415) 302-5369.

Chart 11537.

***NC – CAPE FEAR RIVER – CAPE FEAR RIVER – DREDGING***

Great Lakes Dredge & Dock Company, LLC will begin dredging in the Cape Fear River and placing dredge material in Offshore Dredge Material Site (ODMDS). The ODMDS site is south of Baldhead Island in position 33°42'44.3745", 078°01'22.6315", 33°42'44.7997", 078°02'14.7023", 33°41'55.3494", 078°02'15.2760", 33°41'54.9244", 078°01'23.2138". Dredges will consist of the Hopper Dredge Dodge Island and Hopper Dredge Padre Island, and Ellis Island. Dredge areas will be between Cape Fear River Entrance Channel Lighted Buoy 5 (LLNR 30325), and Cape Fear River Entrance Channel Lighted Buoy 10 (LLNR 30360), and between Cape Fear River Channel Lighted Buoy 13A (LLNR 30395), and Cape Fear River Channel Lighted Buoy 16 (LLNR 30450). The dredges are scheduled to arrive on April 15, 2022 and begin digging operations. Operations are expected to operate 24 hours per day, 7 days a week with a completion date of July 15, 2022.

Chart 11537.
NC – SEACOAST - OAK ISLAND BEACH RENOURISHMENT

Great Lakes Dredge and Dock has been contracted by the Town of Oak Island to conduct beach re-nourishment. To mark borrow area and subline area, temporary buoys will be used. Buoys marking these locations should NOT be used for navigational purposes. Boaters should try to maintain a safe distance from these buoys. Great Lakes Dredge and Dock anticipates to commence mobilization activities on or around February 8, 2022. Waterside mobilization activities will include towing attendant plants and pipeline rafts. Assembly of submerged pipeline, temporary mooring of Derrick barge, Anchor Barge, pipeline and additional auxiliary equipment will be staged in the staging area. The work under this contract consists of dredging beach quality sands from the permitted area of the Jay Bird Shoals and Central Reach Borrow Areas identified, shaping, and grading the sand to a material along beach segments within the Town of Oak Island. Work will be performed with hopper dredges Dodge Island and Padre Island. The hopper dredge will transport the material to a pump out buoy or series of pump out buoys, located in the areas. The material will be conveyed from the pump out buoys to the beach by hydraulic means through a submerged pipeline and deposited within the designated beach placement area. All dredges can be reached on marine VHF channels 13 & 16.

Dredging and Disposal Operations are often done at slow speeds with limited maneuverability. Mariners are urged to use extreme caution in the area of the dredge. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

| Submerged pipeline and vessels will be visibly lighted and marked pursuant to Coast Guard regulations. Submerged pipeline will be positioned parallel along beach segments within the Town of Oak Island. Work will be performed with hopper dredges Dodge Island and Padre Island. The hopper dredge will transport the material to a pump out buoy or series of pump out buoys, located in the areas. The material will be conveyed from the pump out buoys to the beach by hydraulic means through a submerged pipeline and deposited within the designated beach placement area. All dredges can be reached on marine VHF channels 13 & 16.

NC – INTERCOASTAL WATERWAY – LOCKWOODS FOLLY INLET CROSSSING – DREDGING

Southwind Construction Corp will conduct dredge operations starting on February 25, 2022 to April 17, 2022 in Lockwood’s Folly Inlet Crossing & Widener, Brunswick County North Carolina. Dredging Atlantic Intracoastal Waterway, Channel Tangent 11 & widener with beach placement at Holden Beach Inlet. Operations will take place 24 hours a day, seven days a week. Dredge: Andi Rae, Workboat: Ann Kay & Miss Leanne will monitor Channel 13 & 16, and Working Channel 78. Submerged and floating pipeline associated with dredging operation; use extreme caution in the area. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. Pipeline and vessels will be visibly lighted and marked pursuant to Coast Guard regulations. Submerged pipeline will be positioned parallel along the left descending shoreline of the federal channel thence traversing easterly along Carolina Beach Inlet to Freeman Park. For more information, contact David Lynn (Superintendent) Cell: 812-455-1770, or Chris Barton (Night Shift Supt.) Cell: 812-454-7114.

NC – HOLDEN BEACH – BEACH RENOURISHMENT PROJECT

Starting approximately 13 December 2021, Weeks Marine Inc. will be mobilizing pipeline and equipment in the vicinity of Battery Island, near Southport, NC. The equipment (Tugs Cami, Dot G & Lady Joel, Barges 520, 594 & 595) and dredge pipeline will be anchored between the following approximate positions: 33°54.39.19"N, 78°05.62.1"W and 33°55.15.67"N, 77°59.53.30"W. Starting approximately 3 January 2022 and continuing until approximately 15 April 2022, the hopper dredge(s) R.N. Weeks and B.E. Lindholm will be operating 3 nautical miles offshore of Holden Beach, NC. Work limits for borrow areas will be bound by the following approximate positions:

Borrow Area #1:33°52’11.0”N, 78°10’36.5”W, - 33°53’9.37”N, 78° 9’51.29”W, - 33°55’15.13”N, 78°10’42.75”W, - 33°52’12.36”N, 78°10’55.93”W.

Borrow Area #2:
33°52’51.88”N, 78°17’43.98”W, - 33°52’51.25”N, 78°16’39.43”W, - 33°51’43.10”N, 78°16’36.54”W, - 33°51’42.60”N, 78°17’41.55”W.

Dredging operations will continue on a twenty-four (24) hours per day, seven days per week basis. Dredges and Tugs will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution to transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. The dredge(s), attendant plant, and pipelines will each have all required U.S. Coast Guard lighting for night operations. For more information, contact Project Manager(s) on-site: PM, Doug Nelson – (985) 237-9667, denelson@weeksmarine.com or PM, David McNeil – (985) 237-5069, dcmcnell@weeksmarine.com.

Chart 11534.
**NC – MYRTLE GROVE SOUND TO CASINO CREEK – SHALLotte INLET – DREDGING**

The Dredge CHARLESTON, along with support equipment, will commence dredging operations on or around **February 5, 2022**, until approximately **April 1, 2022** for Ocean Isle Beach - Coastal Storm Risk Management Project. Dredging operations will be conducted in Shallotte Inlet leading away from the Intracoastal Waterway Intersection. Material will be pumped to beach placement areas along Ocean Isle Beach, North Carolina. Dredging operations will occur in and around the Shallotte Inlet. The dredge will be connected to a floating pipeline within Shallotte Inlet channel. This floating pipeline will be connected to submerged pipeline. The submerged pipeline will come on shore west of the inlet. Any used submerged pipeline will be marked with white regulatory buoys with flashing amber lights along the pipeline with appropriate signs and lights placed at pipeline entry and exit points. The floating pipeline length is approximately 3000’ feet at its longest length. Floating pipeline will be anchored and tended by tender tugboats. Please use extreme caution navigating along the eastern end of Ocean Isle Beach regarding these submerged and floating pipelines. The Dredge Operator will standby on channels #13, #16, and #5 VHF-FM. For any emergencies the dredge operator can be reached at 757-508-2326. Chart 11534.

**NC – TUBBS INLET - SOUTH JINKS CREEK – DREDGING**

Coastal Dredging, LLC will be performing a hydraulic dredging project for the town of Sunset Beach, Brunswick County, North Carolina. Dredge equipment will be in the area of South Jinks Creek. The Dredge Everett Gene will be dredging approximately 49,300 CY from the navigation channel and placement in an approximate 2000 ft long by 200ft wide placement site 600ft off shore in the Atlantic Ocean. The near shore placement site is in 9ft – 13ft of water. The final grade of the near shore placement site shall not exceed 6ft. Project is anticipated to start **November 16, 2021** and last 120 days. Dredging operations will be conducted 12 hours a day, seven days a week. For more information, contact Coastal Dredging at 910-327-8831. Chart 11534.

IN THE FIFTH COAST GUARD DISTRICT
ENCLOSURE (4)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NJ – BRIGANTINE INTRACOASTAL – STOCKTON ROWING RACES – SPECIAL LOCAL REGULATION
The Stockton University Rowing Races will occur in the intracoastal waterways of Brigantine, NJ on Saturday April 2, 2022 from 5:00 p.m. to 7:00 p.m. and Sunday April 3, 2022 from 8:00 a.m. to 12:30 p.m. The event will involve 4 and 8 person racing shells on a 2000m course on the Bonita Tideway starting at the Brigantine Lighthouse and finishing at the Brigantine Yacht Club. A special local regulation will be in effect for the duration of racing limiting access to the waters within the following points:

39°24'33" N, 074°22'28" W
39°24'22" N, 074°24'49" W
39°23'49" N, 074°23'33" W
39°23'43" N, 074°23'33" W

Mariners are urged to maintain a safe distance, heed direction from official event patrol, and use caution when transiting near the area. Mariners may contact official patrol personnel on scene via marine band radio VHF-FM channel 16. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

Chart 12316

MD – CHESAPEAKE BAY – SEVERN RIVER - ROWING COMPETITION
An annual U.S. Naval Academy intercollegiate rowing competition is scheduled to occur on the Severn River at Annapolis, MD on Saturday, April 2, 2022, between 6:30 a.m. and 9:30 a.m. Up to 20 participating vessels will race in heats along a 2,000-meter marked rowing course located between Severn River Light 2A (LNM-19945) and the entrance to College Creek. Two alternate courses are located as follows: Secondary “A” course from Severn River Light 2 (LNM-19950), upriver to the entrance to Chase Creek, and Secondary “B” course from the Severn River (US-50) Bridge, upriver past the entrance to Saltworks Creek. The race course in use will be marked with inflatable buoys every 500 meters. Mariners are urged to use caution and remain alert for other watercraft when transiting the area, proceed at the minimum speed necessary to maintain a safe course that minimizes wake while operating near the race course. Official patrol vessels on scene can be contacted on marine band radio VHF-FM channel 16. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at telephone number (410) 576-2674 or (410) 576-2693.

Charts 12282, 12283

MD – CHESAPEAKE BAY – SEVERN RIVER - REGULATED AREA
An annual Safety-at-Sea Seminar is scheduled to occur on the Severn River adjacent to the U.S. Naval Academy on Saturday, April 2, 2022, from 12:30 p.m. to 1:30 p.m. The event includes on-water activities and rescue/survival demonstrations involving small boats and other vessels, a low-flying helicopter and pyrotechnics. As described in 33 CFR Section 100.501, a regulated area is established for all waters of the Severn River, from shoreline to shoreline, bounded to the northwest by the Naval Academy (SR-450) Bridge and bounded to the southeast by a line drawn from Triton Light (LNM-19780) at latitude 38°58'53.0" N, longitude 076°23'49.4" W thence easterly to Carr Point, MD at latitude 38°58'39.5" N, longitude 076°28'49" W thence westerly to the point of origin. The regulated area will be enforced from 5:00 p.m. to 7:00 p.m. from 8:00 a.m. to 12:30 p.m. on April 2, 2022. The Coast Guard Patrol Commander (PATCOM) or designated marine event patrol may forbid and control the movement of all vessels in the regulated area. The marine event patrol and PATCOM may be contacted on marine band radio VHF-FM channel 16. When hailed or signaled by an official patrol vessel, a vessel in the area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. Mariners are urged to schedule their transits on this waterway beyond the enforcement times. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

Charts 12282, 12283

MD – CHESAPEAKE BAY – SEVERN RIVER - REGULATED AREA
Mariners are advised that an intercollegiate rowing competition is scheduled to occur on the Severn River on Saturday, April 16, 2022 from 6:30 a.m. to 10 a.m. The 2,000-meter rowing course is located from the entrance to College Creek, upriver to Severn River Light 2 (LNM-19945), upriver to the entrance to Chase Creek, and Secondary “B” course from the Severn River (US-50) Bridge, upriver past the entrance to Saltworks Creek. As described in 33 CFR Sec. 100.501, a regulated area is established for all waters of the Severn River from shoreline to shoreline, bounded to the northwest by a line drawn from the south shoreline at latitude 39°00'58" N, longitude 076°31'32" W thence to the north shoreline at latitude 39°01'11" N, longitude 076°31'10" W. The regulated area is bounded to the southeast by a line drawn from the U.S. Naval Academy Light at latitude 38°58'39.5" N, longitude 076°28'49" W thence easterly to Carr Point, MD at latitude 38°58'58" N, longitude 076°27'41" W. The regulated area will be enforced from 6 a.m. through 10:30 a.m. on April 16, 2022. The effect will be to restrict vessel traffic on certain waters of the Severn River. The Coast Guard Patrol Commander or designated marine event patrol may forbid and control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel in the area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The marine event patrol and Patrol Commander may be contacted on marine band radio VHF-FM channel 16. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

Charts 12282, 12283
MD – CHESAPEAKE BAY – SEVERN RIVER - REGULATED AREA
Mariners are advised that an intercollegiate rowing competition is scheduled to occur on the Severn River on Saturday, April 23, 2022 from 6:30 a.m. to 10 a.m. The 2,000-meter rowing course is located from the entrance to College Creek, upriver to Severn River Light 2 (LLN-19945); Two alternate courses are located as follows: Secondary “A” course from Severn River Light 2 (LLN-19945), upriver to the entrance to Chase Creek, and Secondary “B” course from the Severn River (US-50) Bridge, upriver past the entrance to Saltworks Creek. As described in 33 CFR Sec. 100.501, a regulated area is established for all waters of the Severn River from shoreline to shoreline, bounded to the northwest by a line drawn from the south shoreline at latitude 39°00′58″ N, longitude 076°31′32″ W thence to the northeast shoreline at latitude 39°01′11″ N, longitude 076°31′10″ W. The regulated area is bounded to the southeast by a line drawn from the U.S. Naval Academy Light at latitude 38°58′39.5″ N, longitude 076°28′49″ W thence easterly to Carr Point, MD at latitude 38°58′58″ N, longitude 076°27′41″ W. The regulated area will be enforced from 6 a.m. through 10:30 a.m. on April 23, 2022. The effect will be to restrict vessel traffic on certain waters of the Severn River. The Coast Guard Patrol Commander or designated marine event patrol may forbid and control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel in the area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The marine event patrol and Patrol Commander may be contacted on marine band radio VHF-FM channel 16. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
Charts 12270, 12263, 12271, 12281.

***MD – CHESAPEKE BAY – COVE POINT TO SANDY POINT – SEVERN RIVER – SAILING REGATTA***
A sailing regatta is scheduled to occur in the Chesapeake Bay between Sandy Point, MD and Bloody Point, MD on April 23, 2022, between 9 a.m. and 4 p.m. Approximately 25 auxiliary sail boats (20-66 feet in length) of various classes will compete along designated race courses located between Chesapeake Channel Lighted Buoy 95 (LLNR 7970) and Chesapeake Channel Lighted Buoy 86 (LLNR 7755). Race starts will occur near the mouth of the Severn River at 10 a.m. Information on this “NASR Race to the Lighthouses” event is available at website http://nassregattas.com/. Interested mariners can contact the Naval Academy Sailing Squadron Race Committee via marine band radio VHF-FM channels 16 and 78. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Comments or questions should be directed to Coast Guard Sector Maryland -National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
Charts 12270, 12263.

DC - UPPER POTOMAC RIVER - WASHINGTON CHANNEL - FIREWORKS DISPLAY SAFETY ZONE
An annual aerial fireworks display is scheduled to occur in Washington Channel on April 2, 2022, at approximately 8 p.m. A temporary safety zone is established upon all navigable waters of the Washington Channel within 200 feet of the fireworks barge located within an area bounded on the south by latitude 38°52’30″ N, and bounded on the north by the southern extent of the Francis Case (I-95) Memorial Bridge, located at Washington, DC. This safety zone will be enforced from 7 p.m. to 9:00 p.m. on April 2, 2022. All persons are required to comply with the general regulations governing safety zones found in 33 CFR 165.23. Entry into or remaining in this safety zone is prohibited unless authorized by the Coast Guard Captain of the Port (COTP) Maryland-National Capital Region. All vessels underway within this safety zone at the time it is implemented are to depart the zone. Vessels may not enter, remain in, or transit on the safety zone unless authorized by the COTP Maryland-National Capital Region or designated representative. To request permission to transit the area, Coast Guard COTP can be contacted by telephone at (410) 576-2693 or on marine band radio VHF-FM channel 16. The Coast Guard vessels enforcing this section can be contacted on marine band radio VHF-FM channel 16. Other federal, state and local agencies may assist these personnel in the enforcement of the safety zone. Comments or questions should be directed to Coast Guard Sector Maryland-NCR, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693. Comments or questions should be directed to Coast Guard Sector Baltimore, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693. Chart 12289.

DC – POTOMAC RIVER - UPPER POTOMAC RIVER – ANACOSTIA RIVER – FIREWORKS DISPLAY SAFETY ZONE
Mariners are advised that the annual “National Cherry Blossom Festival” fireworks display is scheduled to occur in the Anacostia River on Saturday, April 16, 2022, at 8:30 p.m. A temporary safety zone is established within a 500-foot radius of the fireworks barge in approximate position latitude 38°52′15.39″ N, longitude 077°00′09.39″ W, located within the Anacostia River in Washington, DC. The zone will be enforced from 7:30 p.m. to 9:30 p.m. on April 16, 2022. The effect will be to restrict vessel traffic in the Anacostia River. The fireworks barge within the regulated area will have a diamond-shaped, 4 feet by 4 feet sign with orange retro-reflective border affixed to the port and starboard sides of the barge labeled “FIREWORKS—DANGER—STAY AWAY” with black block letters on a white background to provide on scene notice that the safety zone will be enforced. The Captain of the Port Baltimore can be contacted by telephone at (410) 576–2693 or by marine band radio on VHF–FM Channel 16. Official patrol vessels can be contacted on marine band radio VHF–FM Channel 16. Comments or questions should be directed to Coast Guard Sector Baltimore, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
Chart 12289.

***DC – UPPER POTOMAC RIVER – GEORGETOWN CHANNEL - ROWING REGATTA***
Mariners are advised that an annual inter-scholastic rowing competition is scheduled to occur in the Upper Potomac River on April 30, 2022, between 7 a.m. and 3 p.m. The event consists of 700 total participants competing in 8-person rowing shells along a designated marked course located between the Georgetown waterfront and the Theodore Roosevelt (I-66/US-50) Bridge in Washington, DC. Additional information on the Charlie Butts Regatta can be obtained from the website http://www.vasra.org. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693. Comments or questions should be directed to Coast Guard Sector Maryland-NCR, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

VA – VIRGINIA BEACH, VIRGINIA – OCEANFRONT
Mariners are advised the Event Wave Daze will be held at the Virginia Beach Oceanfront in the vicinity of 10th Street on April 7, 2022 and ending on April 10, 2022. Small personal water craft will be near the shoreline beginning at 8 a.m. until 7 p.m. Mariners are requested to use caution when transiting in the vicinity of the race area.
Chart: 12200
NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS

***Extended*** The M/V Fugro Enterprise, call sign WDD9388, will be conducting survey operations, using sensors towed approximately 150 meters behind the survey vessel. Operations will occur within two survey areas and will begin on October 9, 2021 and continue to approximately July 31, 2022.

Operating area #1:
The survey area is located about 9 to 20 miles off the New Jersey coast, between Barnegat Light and Atlantic City bounded by the following approximate positions:

- NE Corner: 39° 40' 22"N / 73° 56' 11"W
- SE Corner: 39° 15' 43"N / 73° 56' 34"W
- S Corner: 39° 08' 40"N / 74° 05' 50"W
- SW Corner: 39° 16' 31"N / 74° 14' 55"W
- NW Corner: 39° 35' 14"N / 74° 02' 59"W

Operating area #2:
The survey corridor is located about 2 to 20 miles off the New Jersey coast, between Sandy Hook and Brigantine bounded by the following approximate positions:

- NW extent: 40° 12' 27"N / 73° 59' 03"W
- NE extent: 40° 12' 38"N / 73° 59' 03"W
- NW midpoint: 40° 12' 27"N / 73° 59' 03"W
- NE midpoint: 40° 12' 38"N / 73° 59' 03"W
- SW midpoint: 39° 55' 34"N / 73° 55' 43"W
- SE midpoint: 39° 55' 34"N / 73° 55' 43"W
- SW extent: 39° 28' 38"N / 73° 55' 59"W
- SE extent: 39° 28' 38"N / 73° 54' 37"W

The M/V Fugro Enterprise will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 1 NM CPA.

The M/V Fugro Enterprise will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12323, 12318

NJ - OFFSHORE VICINITY OF GREAT HARBOR AND GREAT EGG HARBOR WIND FARM SURVEY ACTIVITY

Ocean Wind 01 and Ocean Wind 02 are offshore wind farms planned for federal waters off the coast of New Jersey. The Ocean Wind wind farms will consist of wind turbines, offshore substations, and a subsea transmission system to shore. Marine survey activities are currently ongoing and will continue through approximately the end of April 2022. Mariners transiting or fishing in the survey area are requested to provide a wide berth to survey vessels, as these survey vessels will be limited in their ability to maneuver, and may deploy various equipment while actively surveying. For more information, see the twice-weekly Skipjack Wind Farm Mariners Briefing at Offshore Wind Farm Information for Mariners | Ørsted (orsted.com) (click on "Mid-Atlantic"), or contact Edward LeBlanc, Orsted Head of Marine Affairs at 978-447-2737. See Figure 5-1 (Page 4 of ENC 5)

Charts 12318,12214

DE - MD– OFFSHORE VICINITY OF ENTRANCE TO DELAWARE BAY – SKIPJACK WIND FARM SURVEY ACTIVITY

The Skipjack Wind Farm is an offshore wind farm planned for federal waters off the coast of Delaware and Maryland. The Skipjack Wind Farm will consist of wind turbines, an offshore substation, and a subsea transmission system to shore. Marine survey activities are currently ongoing and will continue through approximately the end of April 2022. Mariners transiting or fishing in the survey area are requested to provide a wide berth to survey vessels, as these survey vessels will be limited in their ability to maneuver, and may deploy various equipment while actively surveying. For more information, see the twice-weekly Skipjack Wind Farm Mariners Briefing at Offshore Wind Farm Information for Mariners | Ørsted (orsted.com) (click on "Mid-Atlantic"), or contact Edward LeBlanc, Orsted Head of Marine Affairs at 978-447-2737

See Figure 5-2

Chart 12214.
**MD – DE SEACOAST – OFFSHORE MARINE SURVEYING OPERATIONS**

On behalf of US Wind, Inc., Fugro will be conducting high-resolution geo-physical survey operations in the North Atlantic Ocean near Ocean City, MD, beginning January 1, 2022. The Research Vessel **FUGRO BRASILIS** will be working with restricted maneuverability with equipment in tow up to 300 yards off the stern of the vessel. Mariners transiting or fishing in the area are requested to provide a wide berth to the survey vessel; request a 1/2 NM closest point of approach. The area of operations is located within the following approximate positions:

- 38°41.5' N 075°04.3' W
- 38°32.5' N 075°03.2' W
- 38°14.5' N 074°48.5' W
- 38°14.5' N 074°35.5' W
- 38°17.5' N 074°35.5' W
- 38°39.7' N 074°57.7' W

The R/V **FUGRO BRASILIS** (Call Sign: C6AP7) will conduct high-resolution geo-physical surveying in the planned area from approximately January 1, 2022, to March 31, 2022. The vessel will monitor VHF-FM channels 13 and 16 and can be contacted on these frequencies for safe passing arrangements. The vessel may be contacted via email at captain@fbr.Fugro.com.

The R/V **FUGRO BRASILIS** will host an offshore fisheries liaison onboard the vessel who will support communications with the fishing community and share updates on the survey activities. The offshore fisheries liaison can be contacted at: OFL2@Offshorewfs.com.

Further information can be found on the US Wind website: [https://uswindinc.com/mariners/](https://uswindinc.com/mariners/).

See Figure 5-3.

Charts: 12200, 12211

---

**MD – DE SEACOAST – OFFSHORE MARINE SURVEYING OPERATIONS**

The Research Vessel **WESTERLY** (Call Sign: WDF7918) will conduct high resolution geophysical survey operations from March 28, 2022 to approximately May 15, 2022. The survey area is bounded by the following approximate positions:

- 38°41.5' N 075°04.3' W
- 38°32.5' N 075°03.2' W
- 38°27.0' N 074°59.1' W
- 38°27.0' N 074°45.2' W
- 38°39.7' N 074°57.7' W

The R/V **WESTERLY** will be restricted in ability to maneuver, is requesting a 250 yard closest point of approach from passing vessels, will monitor VHF-FM channels 13 and 16, and can be contacted on these frequencies for safe passing arrangements. The vessel OCEAN CITY GIRL will operate in close proximity to the R/V **WESTERLY** and host trained Protected Species Observers aboard to support survey activities.

See Figure 5-3.

Charts: 12200, 12211
MD – DE SEACOAST – OFFSHORE MARINE SURVEYING OPERATIONS

The PSV REGULUS (Call Sign: WDG8927) will be conducting geotechnical survey operations within the US Wind Lease area, using mobilized marine drill rig and seabed frame, beginning on December 15, 2021 and continuing to approximately April 15, 2022. The survey area is bounded by the following approximate positions:

38°28.5' N 074°51.7' W
38°18.9' N 074°51.7' W
38°14.5' N 074°48.5' W
38°14.5' N 074°35.5' W
38°17.5' N 074°35.5' W
38°28.5' N 074°46.0' W

PSV REGULUS will be restricted in its ability to maneuver and is requesting mariners operating in or transiting the area to give a 1/2 NM closest point of approach. The vessel will be monitoring VHF channels 13 and 16 and can be contacted on these frequencies for safe passing arrangements. The vessel may also be contacted via email at Regulus_bridge@tdw.com.

Further information can be found on the US Wind website: https://uswindinc.com/mariners/.

NOT FOR NAVIGATION

Ocean Wind 1 & Ocean Wind 2
2021 Geophysical Surveys

Notes:
1) Turbine positions and inter array cable locations are not shown.
2) Options shown for export cable/route survey corridors are for survey purposes only.
3) Depth in Fathoms

Coordinate system: WGS84 UTM Zone 18N
Scale: 11 August 2021

NOT TO BE USED FOR NAVIGATION

Coast Guard District 5
29 March 2022
ATTENTION ALL BOATERS:
SLOW DOWN TO 10 KNOTS OR LESS FOR RIGHT WHALES

Red Areas = Annual Seasonal Management Area (SMA): 10 knots or less required for boats 65 feet and bigger. These speeds are also recommended for smaller boats.

Yellow Areas = where right whales have been sighted (* Dynamic Management Area) or heard. Recommended slow down zones for ALL vessels.

If a SLOW Zone overlaps with a SMA, mandatory speed reductions are required.

Not to be used for navigation.
RESEARCH EQUIPMENT IN WATER

North Atlantic – Gulf Stream
Dec 5th, 2021 to June 30th, 2022

SAILDRONE, INC. will operate three Unmanned Surface Vehicles called Saildrones, to study the Gulf Stream and its interactions with the atmosphere. The vehicles will be deployed from Newport, RI and transit out to the continental shelf between December 5th-20th 2021. They will operate continuously for the following six months.

More information on the project can be found online at:

VESSELS ARE REQUESTED TO TRANSIT THE AREA WITH CAUTION, AND REMAIN GREATER THAN 500 METERS AWAY FROM THE RESEARCH EQUIPMENT.

Saildrones are wind powered Unmanned Surface Vehicles that carry important oceanographic and fisheries acoustics research instrumentation and are controlled from shore through satellite communications.

****NC – NEARSHORE/OFFSHORE WATERS – CAPE LOOKOUT – HYDROGRAPHIC SURVEY OPERATIONS****

Geodynamics, LLC will be obtaining high resolution geophysical (HRG) data running shore parallel track lines in the general area of 3 to 9 miles offshore along Onslow Bay, between Bear Island and Cape Lookout to support sand investigation studies on behalf of Carteret County, N.C. The survey work will be conducted from ~March 15, 2022 to May 15, 2022 (inclusive of weather/sea delays) via the R/V Chinook, a 34’ Armstrong Marine Catamaran Vessel at acquisition speeds of ~3 – 5 knots. The survey vessel will have limited maneuverability during operations and mariners are advised to use due caution when transiting in the area. R/V Chinook will monitor VHF 16 or can be contacted at 252-725-9247.
