LOCAL NOTICE TO MARINERS

District: 5

Week: 20/22

COASTAL WATERS FROM SHREWSBURY RIVER, NEW JERSEY TO LITTLE RIVER, SOUTH CAROLINA

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at https://www.navcen.uscg.gov/.

If you have questions about the Fifth Coast Guard District Local Notice to Mariners (LNM), please contact:

COMMANDER
FIFTH COAST GUARD DISTRICT (dpw)
431 Crawford Street
Portsmouth, Virginia 23704

or for correspondence and article requests:
gregory.c.goetz2@uscg.mil, (757) 398-6220 and CGDSWaterways@uscg.mil

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

AIDS TO NAVIGATION DISCREPANCY REPORTING
To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:

1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR MARYLAND - NATIONAL CAPITAL REGION at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR VIRGINIA at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

HAZ - Hazard to Navigation  OBST - Obstruction  Y - Yellow
HBR - Harbor  OBSTR - Obstruction  Y - Yellow
HOR - Horizontal Clearance  Oc - Occulting
HT - Height  ODAS - Anchored Oceanographic Data Buoy

Additional Abbreviations Specific to this LNM Edition:
AIS - Automatic Identification System
AtoN - Aids to Navigation
LIB - Lighted Ice Buoy
LLNR - Light List Number
MD-NOR - Maryland-National Capital Region
OREI - Offshore Renewable Energy Installations

SECTION I - SPECIAL NOTICES
This section contains information of special concern to the Mariner.

****NEW OR UPDATED INFORMATION IN THE LOCAL NOTICE TO MARINERS ****

New, updated or very important information in the Local Notice to Mariners (LNM) will be preceded and followed by four asterisks.

US - ATLANTIC SEACOAST - ENDANGERED NORTH ATLANTIC RIGHT WHALES WARNING

US- Atlantic Seacoast - Critically endangered right whales may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. East Coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. East Coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. Approach or remain within 500 yards of a sighted whale unless hazardous to the vessel or its occupants. The National Oceanic and Atmospheric Administration (NOAA) recommends that operators assume that any whale sighted is a right whale unless confirmed otherwise. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. In the northeast, please report all right whale sightings, collisions, or entanglements to 866-755-NOAA, or to the Coast Guard via channel 16. WHALES NORTH Mandatory Ship Reporting Area is active year-round. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr(at)noaa.gov. NOAA's updated Compliance guide for Right Whale Ship Strike Reduction Rules is located at:

Charts: 12200  12211  12214  13003  LNM: 45/21
NC – VA – MD – DE – NJ - ATLANTIC OCEAN - OFFSHORE STRUCTURE PATON MARKING GUIDANCE

For Private Aids to Navigation (PATON) applicants requesting Coast Guard permits to provide navigational markings on offshore structures in Fifth Coast Guard District waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all label, light(s), sound signals and AIS signals). Private AtOn Permit applications should submitted no sooner than 60 days prior to the need to activate a structure’s final markings. Additional specific recommendations include:

Tower Identification:
• Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible
• Letters and numbers labelled to as near to 3 meters high as possible
• Visible above any servicing platforms
• Visible throughout a 360-degree arc from the water’s surface
• Visible at night through use of retro-reflective paint and lettering/numbering materials
• If feasible, also labelled below the servicing platform

Lighting:
• Located on all structures, preferably on the servicing platform, visible throughout a 360-degree arc from the water’s surface
• Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY) energized at a five nautical mile range
• Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s) energized at three nautical mile range
• Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6/FL Y 10) energized at a two nautical mile range
• All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. These do not require permits, only Coast Guard notification for appropriate marine notices and broadcasts until the final structure marking is established.

Sound Signals:
• Should be located on all structures located at corners/SPSs
• Sound every 30 seconds (4s Blast, 26s off)
• Set to project at a range of 2NM
• Should not exceed 3NM spacing between perimeter structures
• Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency
• S3A five times within ten seconds
• Timed to energize for 45 minutes from last VHF activation
• Automated Information System (AIS) Transponder Signals:
• Must be transmitted superimposed at all corner structures/SPSs
• Should be capable of transmitting signals to mark all locations of all structures throughout an established field
• Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the Fifth Coast Guard District’s recommendation

PATON Application can be requested through email to: CGD5Waterways@uscg.mil
Please forward questions or feedback in an e-mail to: Matthew.K.Creelman2@uscg.mil

Hazardous inlets. To heighten public awareness about the hazards that exist, this information is provided for shoaling conditions that exist at the following North Carolina inlets:

Oregon Inlet                                  Hatteras Inlet
Ocracoke Inlet                                 Barden Inlet
Beaufort Inlet                                 Bogue Inlet
New River Inlet                                Topsail Inlet
Masonboro Inlet                               Carolina Beach Inlet
Lockwoods Folly Inlet                         Shallotte Inlet

Shoaling conditions increase the potential for groundings. These inlets are subject to continual and sometimes rapid environmental changes. Mariners are highly encouraged to obtain the most recent U.S. Army Corps of Engineers Wilmington, North Carolina District hydrographic survey information, centerline waypoints and controlling depth at:
Mariners should use caution when navigating in these areas and passage through the inlets is not recommended without local knowledge of the area. The aids to navigation in these inlets may not be charted and may not be marking best water due to continually shifting shoals. Consult Local Notice to Mariners, 5th Coast Guard District for the latest positions and status of aids to navigation:
https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=5

To report any aids to navigation discrepancies (missing, damaged, off station, extinguished lights), shoaling, hazards to navigation, or discrepancies on bridge lighting, please contact Sector North Carolina Command Center (910) 343-2200.

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION
The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

INTERFERENCE WITH AIDS TO NAVIGATION
14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than $1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE
The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.
http://www.cgaux.org/boatinged/class_finder/index.php

WESTERN ATLANTIC AND U.S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA) –PROHIBITION ON DISTURBING, REMOVING ARTIFACTS OR DAMAGING SUNKEN CRAFT
Special protections are provided to sunken military craft by the “Sunken Military Craft Act” (SMCA) (Public Law 108-375). Along the U.S. East Coast, and particularly off North Carolina, there are many sunken U.S. and foreign military craft. Sunken military craft may be the final resting places of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U.S. law, sunken foreign military craft, including those located in U.S. waters, remain the property of their respective country’s government. Sovereign immune vessels, such as military crafts, are afforded protections under U.S. and international law. Included among these vessels are at least three known sunken German submarines (U-boats) located in waters off the NC coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both purposeful or inadvertent activities including anchoring, fishing, diving, and other marine activities. Special dangers, such as unexploded ordnance, may also be associated with sunken military craft, and should be considered when operating in these areas. Violations of the SMCA may subject individuals to penalties of up to $100,000 and to liability for damages. Mariners who witness theft of material from, disturbance of, or damage to a sunken military craft are asked to report it to the nearest Coast Guard unit.

SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS
The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

U.S. COAST GUARD NAVIGATION CENTER – WEBSITE UPDATE
The U.S. Coast Guard Navigation Center is going to transition the Navigation Center website to a new, enhanced version in the first quarter of 2022. As part of this transition, URLs will be updated across the site including URLs linked to PDFs. Therefore, once the transition is complete, legacy site URLs will no longer function, including bookmarked URLs and URLs used in automatic downloading of data and/or products. Outdated URLs will automatically redirect to the home page of the site, and from there you will be able to easily navigate to your preferred page. Below are a few of the “old”/new URL pairs listed for your convenience. Please note that the new URLs will not be active until we launch the new website. Of course, once it is launched, the new URLs will be available for re-bookmarking. As a reminder, these are top level URLs that may contain additional links that you use.
This notice will be updated when the final launch date is determined and another notice will be issued to notify you when the site goes live. Questions/concerns may be directed to the NAVCENWebTEAM@uscg.mil.

USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER
The U.S. Coast Guard Navigational Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information on GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNLM), and the latest Notice Advisory to Navstar (NANU). These notices can also be obtained via e-mail subscription through the USCG Navigation Center website (https://www.navcen.uscg.gov/gps/status/default.htm). In addition, the NIS investigates all reports of degradation or loss of GPS and DGPS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: 703-313-5900, webmaster@navcen.uscg.mil or https://www.navcen.uscg.gov.

CANCELLATION OF NOAA PAPER AND RASTER NAUTICAL CHARTS
The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, Booklet Chart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six month notice of the intent to cancel a specific chart is provided in a "Last Edition" notice. The final cancellation of a chart is made in a "Canceled" notice. Both types of notices will appear in LNM Section IV, "Chart Correction." A comprehensive list of all canceled NOAA charts is available at: http://www.charts.noaa.gov/MCD/Dole.shtml.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA's electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA's program to sunset traditional paper charts is on the NOAA Coast Survey website at: https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html

An online NOAA Custom Chart application at: https://devgis.charttools.noaa.gov/pod is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

LNM: 09/21

BROADCAST NOTICES TO MARINERS
Broadcast Notices to Mariners (BNMs) that are still in effect at the date of this publication.
Sector Virginia (VA) - BNM - 075, 076, 077, 078, 079-22.
Sector North Carolina (NC) - BNM - 143, 144, 0145, 0147, 0149, 0150, 0153, 0155, 0156, 0157, 0158-22.

SECTION II - DISCREPANCIES
This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

NGU – INTRACOASTAL WATERWAY – CHANGE BUOYS TO FIXED AIDS

On or about July 2022 the Coast Guard will make the following changes to the aids to navigation marking the New Jersey Intracoastal Waterway (NJICW). This action is being taken to ensure the visibility of the navigation aids, increase their accuracy throughout the year in the narrow waterway, reduce discrepancies due to ice and decrease the work load on servicing units.

Change NJICW Buoy 12 (LLNR 35015) to NJICW Daybeacon 14 (LLNR 35015) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Buoy 14 (LLNR 35025) to NJICW Daybeacon 14 (LLNR 35025) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Lighted Buoy 27 (LLNR 35070) to NJICW Light 27 (LLNR 35070) Flashing Green 4 second Light, Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 31 (LLNR 35085) to NJICW Daybeacon 31 (LLNR 35085) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 39 (LLNR 35090) to NJICW Daybeacon 39 (LLNR 35090) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 38 (LLNR 35115) to NJICW Daybeacon 38 (LLNR 35115) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Buoy 46 (LLNR 35167) to NJICW Daybeacon 46 (LLNR 35167) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Buoy 48 (LLNR 35175) to NJICW Daybeacon 48 (LLNR 35175) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Lighted Buoy 52 (LLNR 35195) to NJICW Light 52 (LLNR 35175) Flashing Red, 4 second Light, Red Triangle Dayboard with yellow triangle ICW mark.

Change NJICW Buoy 53 (LLNR 35196) to NJICW Daybeacon 53 (LLNR 35196) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 65 (LLNR 35245) to NJICW Daybeacon 65 (LLNR 35245) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 67 (LLNR 35250) to NJICW Daybeacon 67 (LLNR 35250) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 71 (LLNR 35275) to NJICW Daybeacon 71 (LLNR 35275) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 72 (LLNR 35280) to NJICW Daybeacon 72 (LLNR 35280) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Buoy 74 (LLNR 35285) to NJICW Daybeacon 74 (LLNR 35285) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Buoy 75 (LLNR 35290) to NJICW Daybeacon 75 (LLNR 35290) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 76 (LLNR 35295) to NJICW Daybeacon 76 (LLNR 35295) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Buoy 79 (LLNR 35305) to NJICW Daybeacon 79 (LLNR 35305) Green Square Dayboard with yellow square ICW mark.
Change NJICW Buoy 80 (LLNR 35310) to NJICW Daybeacon 80 (LLNR 35310) Triangle Red Dayboard with yellow triangle ICW mark.
Change NJICW Buoy 84 (LLNR 35330) to NJICW Daybeacon 84 (LLNR 35330) Triangle Red Dayboard with yellow triangle ICW mark.

Charts: 12316 12324

NJ – DE – DELAWARE RIVER – PEA PATCH ISLAND DIKE

On or about May 2022 the Coast Guard will rebuild Pea Patch Island Dike Warning Light E (LLNR 2847) with a focal plane of 20 feet vice the previous 32 feet. This change is due to the recalculation of the required Geographic Range (the visibility of an object taking into account the height of the object and the height of the observer). The previous focal plane of 32 feet far exceeded the Nominal Range of the light, the Nominal Range of the Daymarks and the line of sight on the river.

Charts: 12311

MD – CHESAPEAKE CHANNEL (SMITH PT TO COVE PT), HONGA RIVER, TANGIER AND POCOMOKE SOUNDS ATON WRECKAGE REMOVAL

Starting on May 12, 2022 the Coast Guard Fifth District will discontinue the following damaged and/or shoaled fixed aids to navigation. Mariners should maintain a safe distance from vessel(s) conducting wreckage removal/demolition operations. Mariners can monitor demolition operations via BNM.

Discontinue: USN Aerial Gunery Lighted Wreck Buoy WR3 (LL 7455) upon removal of wreckage.
Discontinue: Holland Island Warning Daybeacon (LL 7550)
Discontinue: Hunting Creek Lighted Wreck Buoy WR9 (LL 22825) upon removal of wreckage.
Change: Broad Creek Channel Daybeacon 13 (LL 22700) to Buoy 13 upon removal of damaged pile.
Rename: Big Thorofare West Wreck Light WR2 (LL 23205) to Big Thorofare West Light 2 upon removal of wreckage.
Discontinue: Daugherty Creek Lighted Wreck Buoy WR5 (LL 23370) upon removal of wreckage.
Discontinue: Haines Point Obstruction Buoy (LL 23555) upon removal of wreckage.
Discontinue: Fishing Bay Lighted Wreck Buoy WR4A (LL 24416) upon removal of wreckage.
Discontinue: Honga River Warning Daybeacon A (LL 24550) upon removal of shoaled in pile.

Charts: 12225 12226 12228 12230 12231 12261

****VA – MD – POTOMAC RIVER – UPPER MECHODOC CREEK DAHLGREN – AIDS TO NAVIGATION CHANGE****

On or about June 13, 2022 the Coast Guard will be making the following changed to the aids to navigation marking Upper Machodoc Creek Dahlgren
Channel:
Remove the words :Dahlgren Channel“ from the aid names.
Change: Buoy 2 (LLNR 17640) to Light 2UM in approximate position: 38 18 35.927N-76 59 56.020W with a 4nm nominal range flashing 2.5s red light, optic height of 15' and TR dayboards on pile.
Change: Buoy 4 (LLNR 17655) to Daybeacon 4 in approximate position: 38 18 42.308N-76 59 34.369W with TR dayboards on pile.
Change: Buoy 6 (LLNR 17660) to Daybeacon 6 in approximate position: 38 18 48.906N-77 01 11.536W with TR dayboards on pile.

Baber Point Channel:
Remove the word "Channel" from the aids names.
Change: Buoy 2 (LLNR 17680) to Daybeacon 2B in approximate position: 38 18 04.490N-77 00 39.921W with TR dayboards on pile.
Change: Buoy 4 (LLNR 17685) to Daybeacon 4 in approximate position: 38 18 27.804N-7701 09.761W with TR dayboards.

On or about May 16, 2022 the Coast Guard will relocate as listed below. Relocate: Lynnhaven Inlet Light 1L (LLNR 10130) to approximate position: 36 55 05.813N-76 05 22.957W, with a quick flashing green light and SG dayboards on pile.
Charts: 12222 12245

NC – BEAUFORT INLET AND CORE SOUND – BARDEN INLET – CHANGE DAYBEACON 20 TO BUOY 20
On or about 27 June 2022, due to shoaling and water depth in Barden Inlet, Barden Inlet Daybeacon 20 (LLNR 29230) will be converted to Barden Inlet Buoy 20 (LLNR 29230) to allow servicing and maintenance.
Chart: 11545

NC – LOCKWOODS FOLLY INLET – REDUCTION OF NOMINAL RANGE OF LOCKWOODS FOLLY INLET BUOYS 1 AND 2
On or about the last week in May the Coast Guard will reduce the nominal range of Lockwoods Folly Inlet Lighted Buoy 1 (LLNR 31010) and Lockwoods Folly Inlet Lighted Buoy 2 (LLNR 31015) from 6 NM to 5NM. This reduction is required to provide a more reliable light that will stand up to the rough conditions off Lockwoods Folly Inlet.
Chart: 11534

SECTION VI - PROPOSED CHANGES
Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

Proposed Change Notice(s)

COAST GUARD POLICY ON NOTIFICATION OF PROPOSED CHANGES
The Coast Guard is evaluating changes in aids to navigation as noted in the below articles. Users may provide feedback on the Fifth Coast Guard District Waterway Proposals Data/Feedback Form:
This section also includes Public Notices for proposed changes to the bridges within the Fifth Coast Guard District with a request for comments as indicated.

LNM: 04/20

****MD – SANDY POINT TO SUSQUEHANNA RIVER – CRAIGHILL CHANNEL – SEASONAL ICE CONDITION CHANGE****
The Coast Guard is proposing changing the seasonal ice condition from “Replaced by LIB of reduced intensity from Dec. 1 to Mar. 15.” To “Replaced by LIB of reduced intensity when endangered by ice.” For all of the aids to navigation marking the Craighill Channel. Craighill Channel Entrance Lighted Buoy 1C (LLNR 8005) to Craighill Channel Lighted Buoy 26 (LLNR 8140). Additionally; remove the word “Channel” from the aid names and remove the word “Entrance” from Craighill Lighted Buoy 1C (LLNR 8005) and Craighill Lighted Buoy 2 (LL 8101). Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at:
The Coast Guard is proposing renaming the following aids to navigation:

- Rename: Wicomico River Junction Buoy WR (LLNR 17250) to Potomac River Junction Buoy PW.
- Rename: Wicomico River Junction Buoy WR (LLNR 23675) to Wicomico River Junction Buoy WN.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf

All comments will be carefully considered and are requested prior to July 11, 2022 to be considered in the analysis. Refer to project number 05-22-033(D).

Send comments to CGDSWaterways@uscg.mil, or mail to:

VA – LYNNHAVEN INLET TURNING BASIN – BROAD BAY/LONG CREEK CHANNEL – AIDS TO NAVIGATION CHANGE PROPOSAL

Due to the deteriorating condition of the existing Lynnhaven Inlet Light 1L structure the Coast Guard is proposing to rebuild and relocate as listed below.

Relocate: Lynnhaven Inlet Light 1L (LLNR 10130) to approximate position: 36 55 05.813N-76 05 22.957W, with a quick flashing green light and SG dayboards on pile.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf

All comments will be carefully considered and are requested prior to May 23, 2022 to be considered in the analysis. Refer to project number 05-22-030(D).

Send comments to CGDSWaterways@uscg.mil, or mail to:
U.S. Coast Guard Fifth District
Waterways Management (dpw)
431 Crawford Street, Room 100
Portsmouth, VA 23704
Attn: Albert Grimes

Due to significant shoaling in the Lynnhaven Inlet Turning Basin and the Broad Bay/Long Creek Channels; least depth 2.6'MLW to 6.0'MLW, the Coast Guard on about April 13, 2022 made the below changes to the Long Creek Channel and is proposing to make the changes permanent.

Long Creek:
- Establish: Lighted Buoy 2LC in approximate position: 36 54 24.711N-76 05 27.897W with a quick flashing red light with a 4nm nominal range.
- Establish: Buoy 4 in approximate position: 36 54 23.316N-76 05 19.924W
- Establish: Buoy 6 in approximate position: 36 54 21.842N-76 05 15.777W
- Rename: Light 6 (LLNR 10170) to Light 6A.
- Change: Light 1LC (LLNR 10160) to Warning Light A, change flash characteristic to a flashing 4 second flashing white light with a 4nm nominal range and NW dayboards worded "Danger Shoal", until the aid can be removed.
- Rename: Warning Daybeacon A (LLNR 10165) to Warning Daybeacon B with NW dayboards worded "Danger Shoal", until the aid can be removed.
- Rename: Daybeacon 4 (LLNR 10168) to Warning Daybeacon C with NW dayboards worded "Danger Shoal", until the aid can be removed.

Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: https://www.navcen.uscg.gov/pdf/lnms/D05_Proposal_Feedback_Form.pdf

All comments will be carefully considered and are requested prior to June 13, 2022 to be considered in the analysis. Refer to project number 05-22-029(D).

SAILDRONE, INC. is conducting oceanographic surveys in collaboration with the University of Rhode Island on the eastern seaboard between May 11th, 2022 and October 30th, 2022. The survey will be conducted by four (4) Unmanned Surface Vehicles (USVs), called saildrones, each 23ft in length. These vessels will be color with a white all-round light and marked "SAILDRONE". The saildrones will deploy from Newport, RI to conduct offshore surveys along the Gulf Stream to meet research objectives. All drones are uncrowed and wind and solar powered and will have limited maneuverability during survey operations. Mariners are requested to transit areas with caution and to remain greater than 500 meters away from the research equipment.
Enclosure (7) of this Local Notice to Mariners provides a photo and a description of the Saildrone.

Questions regarding saildrone operations should be directed to Saildrone Mission Control, missioncontrol@saildrone.com or (510) 722-6070.

LNM: 20/22

VA - ATLANTIC OCEAN - WALLOPS ISLAND ROCKET LAUNCHES
Rocket launches are regularly scheduled in the vicinity of Wallops Island, VA, Danger Zone 334.130. Prior to these launches, visual signals will be displayed consisting of either a large orange-colored, "blimp-shaped" balloon by day or a rotating alternately red and white beacon by night. The balloon will be flown from a position at 37-50-38N, 75-28-47W and the beacon will be displayed approximately 200 feet above mean high water in position 37-50-16N, 75-29-07W. While the warning signal is displayed, all persons and vessels in the Danger Zone, except vessels entering or departing Chincoteague Inlet, shall leave the zone promptly by the shortest possible route and remain outside the zone until allowed by a patrol boat to enter or the danger signal has been discontinued. Vessels entering or departing Chincoteague Inlet must take the shortest route possible upon display of the danger signal. The Danger Zone is depicted on navigational charts 12210 and 12211 with corner points starting in the vicinity of Assawoman Inlet and proceeding southerly to position 37-43-20N, 075-29-41W; thence northeasterly to a point in the vicinity of Chincoteague Shoals; thence westerly back to Wallops Island shoreline.

Charts: 12210 12211

****VA – CHESAPEAKE BAY – CAPE CHARLES TO NORFOLK HARBOR - JOINT EXPEDITIONARY BASE LITTLE CREEK FORT STORY – LIVE FIRING****
Live firing is conducted continuously off Joint Expeditionary Base Little Creek in Danger Zone 334.370, the area west of the south end of the Chesapeake Bay Bridge Tunnel, bounded by the following positions: 36-55-24N 76-08-43W, 36-55-50N 76-08-37W, 36-57-16N 76-08-14W, 36-57-16N 76-08-14W, 36-56-58.5N 76-07-11W, 36-57-07N 76-07-44W. Firing is conducted Monday through Friday from 7:00 am to 8:00 pm. For questions contact Range Operations and Training Area, Mr. Assaf or Ms. Lawrence at 757-422-7103/7101.

Charts: 12222 12225

VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS
Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:
- Willoughby Bay
- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.
- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle.

During these operations, the aircraft will be operating at altitudes as low as seventy-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels.

All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary.

These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the aircraft. AMCM helicopters will transit to and from the area described above in the following manner: Outboard from the seaplane ramp at the Norfolk Naval Air Station across Willoughby Bay to the main shipping channel, then easterly along the main channel to Buoy 21. From Buoy 21 either East, SE or SSE to the operating area. The return flight will follow the same path as the outbound flight. To minimize the potential for mishap, vessels are requested to remain well clear of these danger zones when AMCM operations are encountered.

VA – YORK RIVER – U.S. NAVAL WEAPONS STATION - CHEATHAM ANNEX - SMALL ARMS LIVE FIRE DANGER ZONE
A Danger zone has been established within an area beginning at Mean High Water on the shore at the U.S. Naval Weapons Station, Cheatham Annex facility on the York River, located at 37° 17’ 33.10”N, 076° 36’ 19.06” W; then northeast to a point on the York River at 37° 18’ 36.650”N, 076° 34’ 39.010”W, thence south, southeast to 37° 17’ 59.37”N, 076° 34’ 13.65”W; then southwest to a point on the shore located at 37° 17’ 26.750”N, 076° 36’ 14.890”W. Vessels may transit this area at anytime; however, no vessel shall anchor, fish or conduct any waterborne activities within the Danger Zone established in accordance with this regulation any time live firing exercises are being conducted. Any time live firing is being conducted a red flag will be displayed in a conspicuous location along the shore to signify the range is active. At night, red lights will be displayed.

SECTION VII - GENERAL
This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.
****VA – POTOMAC RIVER – NAVAL SURFACE WARFARE CENTER DAHLGREN – TEST RANGE/EXPLOSIVES EXPERIMENTAL AREA****

The Naval Surface Warfare Center Dahlgren Division operates the Potomac River Test Range and the Explosive Experimental Area (Pumpkin Neck). These facilities are used by our military to conduct munitions testing and should be avoided while testing is in progress. Daily range schedule can be found at: https://www.navsea.navy.mil/Home/Warfare-Centers/NSWC-Dahlgren/NSWCDD-Range-Schedule/ or by calling Range / Weapons Testing Hotline: 877-845-5656 (toll free) for daily updates on range operation and test schedules.

Announced by NOAA Fisheries, the Right Whale Slow Zones (WSSZ) in district 5 was established to reduce the number of Right Whales struck by vessels. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr(at)noaa.gov.

*****CURRENTLY NO ACTIVE VOLUNTARY VESSEL SPEED RESTRICTION ZONES IN DISTRICT 5*****

For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr(at)noaa.gov.

VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS

The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The bounding coordinates for each field are as follow:

AREA A: 37-09.0N 075-31.0W, 37-09.0N 075-34.7W, 37-12.0N 075-31.0W, 37-12.0N 075-34.7W.

AREA B: 36-29.0N 075-31.8W, 36-29.0N 075-35.5W, 36-26.0N 075-35.5W, 36-26.0N 075-31.8W.

AREA C: 36-29.0N 075-20.8W, 36-29.0N 075-24.5W, 36-26.0N 075-24.5W, 36-29.0N 075-20.8W.

AREA D: 36-46.5N 075-47.8W, 36-46.5N 075-46.5W, 36-47.5N 075-46.5W, 36-47.5N 075-47.8W.

Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines are placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation.

VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDLETON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE

The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as "all of the waters seaward of the mean high water shore line within a sector between radial lines extending 13,500 yards seaward and bearing 090 degrees true and 150 degrees true, respectively, from a point on shore at 36° 49’ 09"N, 075° 58’ 45"W". All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (42nd) Edition when operating south of the entrance to the Chesapeake Bay.

DREDGING AND MARINE CONSTRUCTION CAUTIONS

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoy is attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week.

NOAA Fisheries announces a voluntary vessel speed restriction zone under the Right Whale Slow Zones (WSSZ) in district 5. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr(at)noaa.gov.

DREDGING AND MARINE CONSTRUCTION CAUTIONS

****NY - NJ – DE – MD - NC - RIGHT WHALE VOLUNTARY VESSEL SPEED RESTRICTION ZONE****

Mariners are advised that Burlington County will complete maintenance on the Burlington Highway Bridge (CR 542), across Wading River, mile 5.0, at Burlington County, NJ, from 7 a.m. to 3:30 p.m., Monday – Friday, from May 2, 2022, until November 30, 2022. To facilitate bridge work, the bridge will not be able to open for emergency vessels until repair of the counterweight struts is completed. Once the counterweight struts are repaired, the drawbridge will operate in accordance with the operating schedule set out in Title 33 Code of Federal Regulations Part 117.759. During work hours, the horizontal and vertical clearances of the bridge will be reduced to zero. Mariners should adjust their transits accordingly and use extreme caution when transiting the area.

NOAA announces a voluntary vessel speed restriction zone under the Right Whale Slow Zones (WSSZ) in district 5. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent via TELEX number 48156090 or email to rightwhale.msr(at)noaa.gov.

****VA – POTOMAC RIVER – NAVAL SURFACE WARFARE CENTER DAHLGREN – TEST RANGE/EXPLOSIVES EXPERIMENTAL AREA****

The Naval Surface Warfare Center Dahlgren Division operates the Potomac River Test Range and the Explosive Experimental Area (Pumpkin Neck). NJ – INTRACOASTAL WATERWAY–LITTLE EGG HARBOR TO CAPE MAY–ATLANTIC CITY-INSIDE THOROFARE – BRIDGE TEMPORARY DEVIATION

Mariners are advised that the highway drawbridge – US40-322 (N Alpine Ave) bridge, over New Jersey Intracoastal Waterway (NJICW), Inside
**NJ – INTRACOASTAL WATERWAY–LITTLE EGG HARBOR TO CAPE MAY–ATLANTIC CITY-INSIDE THOROFARE – BRIDGE TEMPORARY DEVIATION**

Thorofare, at mile 70.0, in Atlantic City, NJ, will be maintained in the closed-to-navigation position to facilitate the Rock N’ Roll Atlantic City 5K and Half Marathon. The bridge will remain in the closed position from 7 a.m. through 11 a.m. on Saturday, May 14, 2022, and from 7 a.m. through 1 p.m. on Sunday, May 15, 2022. The bridge will be able to open for emergencies, if at least 10 minutes prior notice is given. There is no immediate alternative route for vessels unable to pass through the bridge in the closed position. Vessels able to pass through the bridge in the closed position may do so at any time. At other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.733(h). Mariners should adjust their transits accordingly and should use caution when transiting the area.

Chart 12316  LNM: 18/22

****NJ & PA – PHILADELPHIA AND CAMDEN WATERFRONTS - DELAWARE RIVER – BIG TIMBER CREEK - PROPOSED BRIDGE****

All interested parties are notified that an application dated April 19, 2022, has been received from the New Jersey Department of Transportation by the Commander, Fifth Coast Guard District, for approval of the location and plans for construction of a new highway fixed bridge over a navigable waterway of the United States.

WATERWAY AND LOCATION: Big Timber Creek, mile 0.8, between Camden and Gloucester Counties, NJ.

CHARACTER OF WORK: The proposed project is to provide a modernized and improved Bridge along with drainage improvements that reduces the majority of road closures due to flooding. The existing 5-span bridge will be removed in its entirety and replaced with a 3-span continuous bridge with similar roadway and bridge profile.

The existing fixed bridge has a horizontal clearance of 58 feet and a vertical clearance of 14 feet above mean high water. The replacement bridge will have a fixed bridge with a horizontal clearance of 60 feet and a vertical clearance of 14.73 feet above mean high water.

A copy of Public Notice D05PN-04-2022, which describes the proposal in detail, can be obtained by calling (757) 398-6587 or by viewing at https://www.navcen.uscg.gov/?pageName=pnBridges. Comments on this proposal should be forwarded to the address in the notice no later than June 24, 2022.

Chart 12313  LNM: 20/22

**PA – SCHUYLKILL RIVER – CSX RAILROAD BRIDGE DEVIATION**

Until further notice, vessels wishing to transit through the CSX Railroad Bridge on the Schuylkill River should only do so on the western navigational span of the bridge. Due to storm damage a temporary power cable has been placed across the eastern navigation span of the bridge rendering passage unsafe. Mariners are advised to proceed with caution through the western navigation span only, and heed visual indicators of the blocked eastern span.

Chart 12313  LNM: 42/21

****NJ – DELAWARE BAY – DELAWARE RIVER – RANCOCAS CREEK - TEMPORARY DEVIATION****

Mariners are advised that a temporary deviation has been approved by the Coast Guard to test the seasonal operating regulation of the US Route 543 (Riverside-Delanco) Bridge across Rancocas Creek, mile 1.3, at Burlington County, NJ. The bridge will be maintained in the closed-to-navigation position from 7 a.m. to 3 p.m., and from 8 p.m. to 11 p.m., Monday through Friday, from 7 a.m. to 1 p.m., and from 8 p.m. to 11 p.m., Saturday and Sunday, and from 11 p.m. to 7 a.m., daily, from May 4, 2022, through October 15, 2022. The vertical clearance of the bridge in the closed-to-navigation position is 4 feet above mean high water. Vessels able to safely pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. This deviation will test whether a permanent change to the schedule is needed and to solicit comments from the public regarding these proposed changes.

Comments will be received for the record identified by the docket number USCG-2022-0221 using Federal Decision Making Portal at http://www.regulations.gov; and must be submitted on or before August 1, 2022. At all other times the bridge will operate per 33 CFR 117.745 (b).

Chart 12314  LNM: 20/22

**DE/NJ – DELAWARE RIVER - SMYRNA RIVER TO WILMINGTON – DELAWARE RIVER (MAIN CHANNEL) - BRIDGE PAINTING**

Mariners are advised that work is in progress to conduct painting operations at the Delaware Memorial Bridge, at mile 68.9, across the Delaware River at New Castle, DE through October 2022. Work platforms have been installed, reducing the available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution when transiting the area.

Chart 12311  LNM: 45/21

**DE - NJ – DELAWARE RIVER – NEW CASTLE RANGE - DREDGING OPERATIONS**

The Dredge CHARLESTON will commence dredging operations in the New Castle Range of the Delaware River on or about May 25, 2022. The project will continue until approximately July 10, 2022. A submerged pipeline will run from the dredging area to the Killchook Disposal area on the New Jersey side of the river. A floating pipeline will connect the dredge to the submerged pipeline. The submerged pipeline will need to be moved occasionally as the dredge progresses.

The Dredge Operator will standby on channels #13 and #16 VHF-FM. Traffic should call 30 minutes prior to expected time of passage.

The Captain of the Port (COTP), Delaware Bay, is notifying mariners that General Anchorage #5 located southeast of Pea Patch Island on the northeast side of the Channel along New Castle Range should not be used for anchoring in order to facilitate safe passage of vessels around the Dredge Charleston due to dredging operations in New Castle Range. This restriction will be in effect until the dredging in New Castle Range is complete on or about July 30, 2022. All mariners are requested to stay clear of the dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires about the dredge. Operators of vessels of all types should be aware that the dredge and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoy will be attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipelines, barges, derricks, wires and related equipment.

Owners and lessees of fishnets, crabpots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tenderboats and other attendant equipment will be navigating. Since the project will be conducted twenty-four (24) hours per day seven (7) days a week, all fishnets, crabpots and structures in the general area must be removed prior to the commencement of the work.

FOR FURTHER INFORMATION CONTACT: Norfolk Dredging Company, Post Office Box 1706, Chesapeake, Virginia 23327, TEL: 757-547-9391.

Chart 12311  LNM: 18/22

**DE - DELAWARE BAY - MISPILLION RIVER - EMERGENCY BRIDGE CLOSURE**
DE - DELAWARE BAY - MISPILLION RIVER - EMERGENCY BRIDGE CLOSURE
Mariners are advised that the highway drawbridge – Route 1/Rehoboth Blvd. Bridge across Mispillion River, mile 11.0, at Milford, DE has sustained a causality and will not be capable of normal operations. The bridge will remain in the closed position until further notice. Vessels able to transit through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 5 feet above mean high water. The bridge will not be able to open for emergency vessels. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area.
Chart 12304  LNM: 10/22

DE - CAPE HENLOPEN TO INDIAN RIVER INLET; BREAKWATER HARBOR
Mariners are advised that an engineering firm, on behalf of Delaware Department of Transportation, removed the Lewes Railroad Swing Bridge, mile 2.2, across Lewes and Rehoboth Canal, at Lewes, DE. A cofferdam was installed February 22, 2022, the fender piled and pier are anticipated to be removed by April 1, 2022. Due to fisheries time of year restriction the cofferdam will be removed October 7, 2022. Horizontal clearance of the canal will be constricted by approximately 5 feet until October 7, 2022. Mariners should use caution when transiting the area.
Chart 12216  LNM: 09/22

DE - MD – VA – SEACOAST – CAPE MAY TO CAPE HATTERAS
Mariners are advised that the Coast Guard and partner agencies will be conducting search and rescue training exercises on between sunrise and sunset on Tuesday May 17, 2022 and Thursday May 19, 2022 between Cape Henlopen, DE and Chincoteague Inlet, VA and areas offshore up to 10-20 Nautical Miles. Approximate exercise area is between: 38-44.616N 074-17.667W, 38-46.107N 074-47.272W, 38-04.156N 075-09.260W, and 37-58.814N 074-50.735W. Exercises will include recovery of in-water objects, low-flying aircraft, helicopter hoists, use of flares, and mass rescue operations. Mariners should use extreme caution when transiting the area during the proposed event dates. Participating safety vessels may be contacted on VHF-FM Channel 16.
Chart 12200  LNM: 17/22

****DE – MD - DELAWARE RIVER - CHESAPEAKE AND DELAWARE (C&D) CANAL - BRIDGE PAINTING OPERATIONS****
Mariners are advised that a firm on behalf of the Army Corps of Engineers will be painting the Reedy Point and Summit Bridges over the C&D Canal, at miles 1.0 and 9.7, in Reedy Point, New Castle County DE and in Chesapeake City MD, respectively. To facilitate painting operations, equipment has been installed reducing the available vertical clearance by two feet to approximately 133 feet, above mean high water. The northern half of the span's clearance will be reduced to 133 feet above mean high water from May 16, 2022, to June 17, 2022, and the southern half will be reduced from June 20, 2022, to July 21, 2022. Mariners should check for future notices on this project and should use extreme caution when transiting the area.
Charts: 12277 12311  LNM: 20/22

MD – CHESAPEAKE BAY – CHOPTANK RIVER – BILL BURTON FISHING PIERS – WARNING TO WATERCRAFT OPERATORS
Due to safety concerns at the Bill Burton Fishing Piers, located along the Choptank River at the Bill Burton Fishing Pier State Park in Talbot and Dorchester Counties, MD, the Maryland Department of Natural Resources is warning watercraft to maintain a minimum distance of 100 feet from the fishing piers at all times until further notice. Signage posted warns of a possible danger of falling debris should boating traffic allide with these structures. Interested mariners can contact the Duty Ranger at 443-477-0526.
Chart 12266  LNM: 46/21

MD – ANNAPOLIS HARBOR - BRIDGE INSPECTION
Mariners are advised that an engineering firm, on behalf of Maryland State Highway Administration, will be performing an inspection on the MD181 (6th Street) Bridge over Spa Creek, mile 0.4, in Annapolis, MD. The inspection will be on Friday, May 20, 2022, from 9 a.m. to 3 p.m. During this inspection, one work vessel and a snopper truck will be located in and around the navigation channel. Inspection personnel, equipment and the vessel will relocate from the navigable channel, if at least a 10 minute notice is given. Vessels able to safely pass through the bridge in the closed position may do so, after receiving confirmation from the bridge tender that it is safe to transit through the bridge. Work vessel and bridge tender may be reached on VHF-FM channel 13. The project manager may be reached at (410) 935-9280. Mariners should use caution navigating through the area.
Chart 12283  LNM: 19/22

MD – CHESAPEAKE BAY – SEVERN AND MAGOTHY RIVERS – SEVERN RIVER – ANNAPOLIS HARBOR – TEMPORARY ACCESS CHANNEL
In support of the annual U. S. Naval Academy Blue Angels Air Show practice and performance demonstrations over the Severn River at Annapolis, MD during May 24-25, 2022, a marked channel will be temporarily established in the Severn River near Horn Point. The floating markers will be set on or about noon on Monday, May 23, 2022 and removed immediately after the event on Wednesday, May 25, 2022. Located between Spa Creek Entrance Buoy 1SC (LLNR 19905) and Annapolis Harbor Channel LB 5 (LLNR 19730), this channel is intended to allow vessels to transit into and out of Annapolis Harbor during the air show event. Vessels operating in this area do so at their own discretion. The temporary access channel will include eight unlit red floating markers and seven unlit green floating markers, located in the following approximate positions: ****FOR MARKER LOCATIONS, SEE ENCLOSURE 8****
At no time while the regulated area is being enforced will event spectators be permitted to obstruct either the temporary access channel, or the federal navigation channel outside of the regulated area. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2674, or email D05-DG-SectorMD-NCR-MarineEvents@uscg.mil.
Charts: 12282 12283  LNM: 17/22

MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – CHESAPEAKE CHANNEL – BRIDGE CONSTRUCTION
Mariners are advised that bridge construction at the William P. Lane Jr. Memorial (US 50/301) Bridge will impact one of two installed northbound fghorners through June 30, 2022. One southbound fghorn and one northbound fghorn will remain active during this time. Interested mariners can contact the project administrator at telephone number 443-468-4545. Mariners are urged to use caution when transiting the area.
Chart 12263  LNM: 09/22

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR– PATAPSCO RIVER – TEST BORING OPERATIONS
Test boring operations are scheduled to occur in Baltimore Harbor from May 23, 2022 to on/about June 23, 2022, at Patapsco River between the south side of Cox Creek and White Rocks Light (LLNR 20370). Work will be conducted Monday—Friday, from 7 a.m. to 5 p.m., and may include weekends to make up weather days if needed. Marine equipment includes the spud barge “151” (85’ x 44’ x 5.5’) and the tugs “RISING SUN”,...
Coast Guard District

Mariners are advised that the I-95/I-495 (Woodrow Wilson Memorial Bridge) across the Potomac River, at mile 103.8 between Alexandria, VA, and the platforms and barges at the work site. For more information, visit www.nicemiddletonbridge.com or call 888-994-1415.

Wakes from speeding boats can create major hazards for construction operations and workers. Middleton (US 301) Bridge on the Potomac River in Newburg, MD through November 2024. A new 6-knot speed limit is now being enforced for 0.5 nautical miles north and south of the bridge. Marine equipment on-scene within the location described. Interested persons can contact U.S. Coast Guard Sector Maryland-NCR Waterways Management Division at telephone number 410-576-2674 or 410-576-2693.

To establish a temporary safety zone for certain navigable waters of the Potomac River from 7 a.m. on May 16, 2022 through 8 p.m. on June 18, 2022. The safety zone will cover all navigable waters of the Potomac River, encompassed by a line connecting the following points beginning at 38°21′50.96″ N, 76°59′22.04″ W, thence south to 38°21′43.08″ N, 76°59′20.55″ W, thence west to 38°21′41.00″ N, 76°59′34.90″ W, thence north to 38°21′48.90″ N, 76°59′36.80″ W, and east back to the beginning point, located between Charles County, MD and King George County, VA. These coordinates are based on datum NAD 83. At times during the period, from 7 a.m. on May 16, 2022 through 8 p.m. on June 18, 2022, the safety zone will be enforced when the large crane barge and its associated anchoring equipment are required to be positioned within the federal navigation channel. The critical heavy lift operations will impede vessels requiring the use of the channel in this area. The large crane barge and its equipment, however, are not expected to be within the federal navigation channel continuously from May 16, 2022 through June 18, 2022. The Coast Guard will issue a Broadcast Notice to mariners to announce its action to the affected segments of the public. Mariners can contact the on-scene work vessels via marine band radio VHF-FM channels 16 and 13.

Charts: 12287  12288

VA – DC - POTOMAC RIVER – MATTAWAN CREEK TO GEORGETOWN- WOODROW WILSON MEMORIAL

Mariners are advised that the I-95/I-495 (Woodrow Wilson Memorial Bridge) across the Potomac River, at mile 103.8 Between Alexandria, VA, and
Hampton Roads Bridge Tunnel (HRBT) – Bridge Construction/Island Expansion

Mariners are advised that a construction firm, on behalf of Virginia Department of Transportation, will be constructing new approach bridges to replace the I-64/US 60 (Hampton Roads Beltway) North and South Approach Bridges, across Hampton Roads, at mile 0.0, between Norfolk, VA and Hampton, VA, commonly referred to as the Hampton Roads Bridge-Tunnel (HRBT). Construction activities will begin March 15, 2021, and are expected to continue through November, 2025. The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00' 24.12” N, 76° 19' 15.60” W for the west span and at position 37° 00' 24.48” N, 76° 19' 18.84” W for the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58' 18.41” N, 76° 19' 22.14” W for the west span and at position 36° 58' 15.36” N, 76° 19' 24.12” W for the east span. The replacement south approach bridge will be marked with a solid yellow light and each interior piling is marked with a solid red light. Marinas will monitor VHF-FM Channel 16. For more information contact Matt Anders (757) 298.0627, manders@cmgroupva.com. Barges will remain until September 30, 2022.

Hampton Flats Mooring Area – As charted. This is a permanently mooring area for vessels involved in the HRBT Expansion project. The two end piles are marked with yellow buoys with flashing yellow lights. When utilizing, mariners should keep clear of the area.

Phoebus Safe Harbor Area – As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. When utilizing, mariners should keep clear of the area.

Willoughby Bay Mooring and Safe Harbor Area – As charted. This area contains a straight row of mooring pilings for the exclusive use of vessels involved in the HRBT Expansion project. The two end pilings are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-685-3392 or Kareem Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373-4799 and/or email MarineOps@hrcpva.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org.

17 May 2022
VA - HAMPTON ROADS-WILLOUGHBY BAY - BRIDGE MODIFICATION

24-hours per day, seven days a week. The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

Bridge Structures/Work Trestles: Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area – As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene commander, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536-9863 and/or email MarineOps@hrcppjy.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org.

****VA – NORFOLK HARBOR AND ELIZABETH RIVER – TEMPORARY BRIDGE DEVIATION****

Mariners are advised that an engineering firm, on behalf of Virginia Department of Transportation, started performing maintenance on the U.S. 460/S.R. 337 (Berkley) Bridge, across the Elizabeth River-Eastern Branch, mile 0.4, at Norfolk, VA. The maintenance will be performed from 7 a.m. to 7 p.m. Monday – Friday, until July 4, 2022. A work barge and tug will be located in and around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, if given at least a 30 minute notice. Work vessels may be reached on VHF-FM channel 13 and 16.

Mariners should use extreme caution navigating through the area.

Chart 12252

LNM: 20/22

VA – CHESAPEAKE BAY - RAPPAHANNOCK RIVER ENTRANCE - MILFORD HAVEN INLET, HILLS BAY – BRIDGE DEVIATION

Mariners are advised that the Virginia Department of Transportation has requested a temporary deviation of the operating schedule for the State Route 223 drawbridge across Milford Haven Inlet, mile 0.1, at Hudgins, VA. To maintain operational capability of the swing span prior to repairs being performed in 2022, the drawbridge will open on signal for vessel traffic at 2 a.m., 5 a.m., 8 a.m., 11 a.m., 7 p.m. and 10 p.m., daily, from February 3, 2022, through July 18, 2022. Vessels able to pass through the drawbridge in the closed position may do so at any time. The vertical clearance of the drawbridge in the closed-to-navigation position is 12 feet above mean high water. The drawbridge will be able to open for emergency vessels. Mariners should adjust their transits accordingly and use extreme caution when transiting the area.

****NC – OREGON INLET – BONNER BRIDGE – NAVIGATION SPAN – CONSTRUCTION****

Demolition crews are continuing working near Bonner Bridge in Oregon Inlet, NC. Workers and equipment will be present in, around bent 37, and between bents 24-25 of the Bonner Bridge demolition project. Oregon Inlet has significant shoaling in between Oregon Inlet Lighted Buoy 6 (LLNR 28003) and Oregon Inlet Buoy 7 (LLNR 28005). Mariners should follow the aids to navigation closely and stay clear of demolition Work areas. Mariners are requested to transit at no wake speeds and use extreme caution in this area during work hours. Crane barges will be secured in place with four anchors connected by anchor wires to the corners of the barge. The anchor locations will be marked with yellow or orange buoys within an approximate 500-ft radius of the crane barge.

Mariners should be aware that anchor wires may be at or just above/below the water surface between the barges and crown buoys; therefore vessels should stay on the outboard side of the crown buoys. The NCDOT Resident Engineer may be contacted at (252) 473-3637 and PCL Civil Constructors may be contacted at (252) 423-3093. Project information may be found at http://www.ncdot.gov/projects/bonnerbridgereplace/.

****NC – OREGON INLET – BONNER BRIDGE – SAFETY ZONE****

33CFR165.705-1065 Safety Zone; Oregon Inlet, Dare County, NC. (a) Location. The following area is a safety zone: all navigable waters of Oregon Inlet, within 100 yards of active demolition work and demolition equipment, along the old Herbert C. Bonner Bridge, which follows a line beginning at approximate position 35°46’47”N, 75°32’41”W, then southeast to 35°46’37”N, 75°33’22”W, then southeast to 35°46’09”N, 75°31’59”W, then southeast to 35°46’03”N, 75°31’51”W, then southeast to 35°46’01”N, 74°14’40”W (NAD 1983) in Dare County, NC.

(b) Definitions. As used in this section- Designated representative means a Coast Guard Patrol Commander, including a Coast Guard commissioned, warrant, or petty officer designated by the Captain of the Port North Carolina (COTP) for the enforcement of the safety zone. Captain of the Port means the Commander, Sector North Carolina. Demolition crews means persons and vessels involved in support of demolition.

(c) Regulations. (1) The general regulations governing safety zones in §165.23 apply to the area described in paragraph (a) of this section.

(2) With the exception of demolition crews, entry into or remaining in this safety zone is prohibited.

(3) All vessels within this safety zone when this section becomes effective must depart the zone immediately.

(4) The Captain of the Port, North Carolina can be reached through the Coast Guard Sector North Carolina Command Duty Officer, Wilmington, North Carolina at telephone number 910-343-3882.

(5) The Coast Guard and designated security vessels enforcing the safety zone can be contacted on VHF-FM marine band radio channel 13 (165.65 MHz) and channel 16 (156.8 MHz).

(d) Enforcement. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies.

(e) Enforcement period. This regulation will be enforced from March 4, 2019, through March 30, 2022.

(f) Public notification. The Coast Guard will notify the public of the active enforcement times at least 48 hours in advance by transmitting Broadcast...

****NC – SEACOAST – BEACH NOURISHMENT DREDGE OPERATIONS – AVON AND BUXON NC****

Great Lakes Dredge and Dock has been contracted to perform placement of beach material in the Village of Avon and Buxton. The M/V ATB Douglas B. Mackie & Trailing Suction Hopper Dredge (TSHD) Ellis Island and TSHD Liberty Island will dredge material from the Avon Beach and Buxton Beach Borrow Areas and pump the material to Avon and Buxton Beaches. GLDD will utilize two subline setups to pump dredged material to the Avon Beach portion of the project and three subline setups to pump dredged material to the Buxton Beach. Waterside staging operations commenced 05/01/2022. Great Lakes Dredge and Dock is currently preparing equipment in Norfolk to mobilize the above referenced project. Pipeline rafts are being assembled within a temporary staging area situated next to Craney Island VA.

Attendant plant and pipeline rafts ~780ft in length by ~40ft in width will be towed from the Craney Island staging area to the project site, and are currently located within the Buxton Borrow Area. Equipment is anchored and lighted – boaters should avoid all staging areas. 35 15.216N, 075 28.775W; 35 15.342N, 075 28.628W; 35 15.432N, 075 28.574W; 35 15.521N, 075 28.532W; 35 15.627N, 075 28.494W.

Vessels M/V ATB Douglas B. Mackie, TSHD Ellis Island, and TSHD Liberty Island will monitor marine VHF channels 13 and 16.

NC – MOREHEAD CITY AND CAPE FEAR RIVER – SURVEY

Mariners are advised that the Naval Oceanographic Office will be conducting surveys of the Beaufort Inlet Channel, Morehead City Channel, and Cape Fear River. Survey equipment includes a small surface workboat and two REMUS 100 unmanned underwater vehicles (UUVs). Surveys for Beaufort Inlet and Morehead City will be conducted April 23rd-28th. Surveys for the Cape Fear River will be conducted May 1st-June 1st. There is no anticipated impact to vessel traffic within the channels, however, the Naval Oceanographic survey vessel will be monitoring channels 13 and 16 for any additional questions or concerns.

Chart 11520

LNM: 16/22

****NC - NEW RIVER - CAMLEJEUNE - FIRING EXERCISES****

Marine Corps Installations East-Marine Corps Base Camp Lejeune, North Carolina, Live firing and training:

Mariners traveling in Atlantic Intracoastal Waterway through this area can expect a delays of about one to four hours during the below times. Range Control Boats, from Camp Lejeune, NC monitor Channel 16 VHF-FM and the working Channel 82 VHF-FM. Range Control can be reached at 910-451-3064 or 4449.

The restricted areas in the Atlantic Ocean east of the New River Inlet as shown on National Ocean Service Chart 11543, will be closed to navigation up to 15 nm seaward because of firing exercises during the following periods:

1. The restricted areas in the new river, as shown on National Ocean Service chart 11542 that will be closed to navigation because of stone bay rifle range firing exercises during the following periods:

   Stone Creek Sector 12:01 a.m. to midnight daily
   Stone Bay Sector 12:01 a.m. to midnight daily
   West of the 77 (deg) 26 (min) Longitude line.

   The restricted areas that may be closed to navigation because of firing exercises during the following periods:

   Traps Bay Sector 12:01 a.m. to midnight daily
   Courthouse Bay Sector 12:01 a.m. to midnight daily
   Stone Bay Sector 12:01 a.m. to midnight daily
   East of the 77 (deg) 26 (min) longitude line.
   Grey Point sector 12:01 a.m. to midnight daily
   Farnell Bay sector sunrise to sunset daily
   Morgans Bay sector sunrise to sunset daily
   Jacksonville sector sunrise to sunset daily

   2. Ship operations consisting of landing craft, amphibious vehicles, and helicopters may be conducted in the Onslow Beach Operating area and all sectors of New River to include Dive Operations.

   3. Due to unexploded ordnance on Browns Island and in the adjacent waterways and marsh areas, Browns Island is off limits to all unauthorized personnel. Vessels may transit the surrounding waters, however no vessel shall bottom fish or anchor.

   4. Mariners traveling on the western side of the new river between Stone bay and Farnell Bay should be aware that there are numerous sign poles without working lights and are leaning or submerged as a result of Hurricane Florence and present hazards to navigation. These poles once had signs denoting areas of caution around the Stone bay rifle range and Verona Loop firing ranges.

   5. Range control boats, MCIE-MCB CAMLEJ North Carolina monitor channel 16 Vhf-fm (156.8 mhz) and the working channel 82 vhf-fm(161.725 mhz). Range Control can be reached by phone at 910-451-3064 or 4449.

Coast Guard District 5
17 May 2022
- Cape Fear River Channel Lighted Buoy S8 LLNR 30840 and Cape Fear River Channel Lighted Buoy S8A LLNR 30841 until approximately June 3, 2022. During operations, the tug COLONEL will be moving the dump scows between the dredge area and the New Wilmington ODMDS placement site approximately 9 NM from the mouth of the Cape Fear River. The equipment will operate 24 hours a day, 7 days a week until the assignment is complete. Mariners are urged to proceed with caution at a slow, safe speed when passing or overtaking the project vessels. The DB PAULA LEE will monitor VHF channels 13, 16, and 66A for communication purposes.

- Cape Fear River – Obstruction

There is an underwater obstruction in the Cape Fear River in Wilmington, NC. The object is on the east side of the navigable channel, north of the battleship, in approximate position 34°14'31.3"N 077°57'12.3"W. Mariners are advised to use caution while navigating in this area.

- APTIM Environmental & Infrastructure, LLC is conducting a high resolution geophysical operation off of Onslow Bay, North Carolina and Long Bay, South Carolina on board vessel James K Goodwin, starting May 16, 2022. Surveying will take place in an area from 3 to 20 nm offshore. Area of survey will be between the coordinates:

  N 34°49'53.65"N, 076°50'2.69"W, E 34°28'50.12"N, 073°30'32.02"N, 79° 7'45.79"W. Vessel will be operational during daylight hours during visibility and remain offshore at night with standard navigation lights as required and deck lights. During surveying, vessel will be operating as restricted in her ability to maneuver. R/V James K Goodwin will monitor VHF on Channel 16. Surveying is expected to be completed by June 10, 2022.

IN THE FIFTH COAST GUARD DISTRICT
ENCLOSURE (1)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NEW JERSEY SHOALING
NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING
Shoaling has been located in the vicinity of New Jersey Intracoastal Waterway Light 262 (LLNR 36005). Shoaling has encroached into the channel, depths are currently 5 - 6ft at MLW.
Chart 12316

NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING
The shoal adjacent to New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal Waterway Daybeacon 130A (LLNR 35537) has encroached approximately 25-50yds into the channel. Depths of 2-3’ at MLW. Shoaling to 2’ MLW has been observed on the red side of the channel between New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal Waterway Daybeacon 130A (LLNR 35537). SEC DB BNM 124-20
Chart 12316

NJ – BARNEGAT INLET - OYSTER CREEK CHANNEL – SHOALING
Hazard to navigation - There has been a report of shoaling in the NJICW in the vicinity of Oyster Creek Channel Buoy 39 (LLNR 1093), encroaching channel ward to an approximate water depth of two and a half feet. SEC DB BNM 226-21
Chart 12323

NJ – BARNEGAT INLET – SHOALING
Sector Delaware Bay is notifying mariners that there is shoaling reported at the entrance of Barnegat bay inlet. The shoaling is reported in the main navigation channel between Barnegat Inlet Buoys 3 (LLNR 915) and 4 (LLNR 925) and between Barnegat Inlet Lighted Buoys 9 (LLNR 950) and 11 (LLNR 995). Mariners are advised to use extreme caution when transiting Barnegat Bay inlet as some depths at mean low low water could be hazardous to navigation, especially during extreme weather events. If you have any questions, regarding the content of this message, please contact the waterways Management staff at (215) 271-4814 or the command center at (215) 271-4807. See SEC DB BNM 107-21.
Chart 12323

NJ – INTRACOASTAL WATERWAY – MANASQUAN INLET TO CAPE MAY INLET – SHOALING
Shoaling has been reported in the New Jersey Intracoastal Waterway (NJICW) between Manasquan Inlet and Cape May Inlet. Mariners are advised to use extreme caution when transiting the NJICW due to shoaling. The following are some of the locations where the shoaling has been reported:
NJICW Light 4 (LLNR 34995).
NJICW Light 38 (LLNR 35115).
NJICW Daybeacon 45 (LLNR 35165) & Daybeacon 46 (LLNR 35167).

MARYLAND SHOALING
MD - FENWICK ISLAND TO CHINCOTEAGUE INLET- OCEAN CITY INLET – SHOALING
Hazard to navigation- a USACE survey conducted on March 08, 2022 has identified shoaling between Ocean City Inlet Lighted Buoy 8 (LLNR 4745) and Ocean City Inlet Lighted Buoy 10 (LLNR 4750) extending from the north to mid-channel to depths of less than 9.5 feet at mean low water. Shoaling has also been identified on the south side of the channel between Ocean City Inlet Lighted Buoy 11 (LLNR 4755) and Ocean City Inlet Lighted Buoy 12 (LLNR 4757) to depths of less than 9.5 feet at mean low water. Mariners are advised to use caution in the area.
See SEC MD-NCR BNM 184-21.
Chart 12211

MD - FENWICK ISLAND TO CHINCOTEAGUE INLET - SINEPUXENT BAY SHOALING
There has been a report of shoaling in Sinepuxent Bay within the channel boundaries between Sinepuxent Bay Channel Buoy 6 (LLNR 5015) and Sinepuxent Bay Channel Buoy 7 (LLNR 5017), to a depth of 4.5 feet at mean low water. Shoaling has also been reported between Sinepuxent Bay Channel Buoy 33 (LLNR 5130) and Sinepuxent Bay Channel Daybeacon 35 (LLNR 5135) in the channel, to a depth of 3.0 feet at mean low water.
Chart 12211
MD-CHESAPEAKE BAY - NANTICOKE SHOALING
Shoaling has been reported in the immediate vicinity of Nanticoke River Cut Light 4 (LLNR 23995) at the mouth of Nanticoke Harbor, extending approximately 30ft into the channel. Water depths have been found as low as 2ft at low water. MD-NCR BNM 147-20
Chart 12261

MD - CHESAPEAKE BAY - HONGA RIVER - SHOALING
There is shoaling in the Honga River extending out at 500yds radius from approximate position 38-18.38N 076-11.78W. Actual depth ranges from 5ft to 9ft at mean low water. SEC MD-NCR BNM 335-19
Chart 12261

MD - CHESAPEAKE BAY - COVE POINT TO SANDY POINT - FLAG HARBOR - SHOALING
Shoaling has been reported in the Entrance Channel to Flag Harbor Yacht Haven in Calvert County, MD. The shoaling is located just outside Flag Harbor Light 1 (LLNR 7761) and Flag Harbor Entrance Light 2 (LLNR 7762). Depth of water is less than 5 Ft at MHW. BNM MD 376-19
Chart 12263

MD – POTOMAC RIVER – ST. GEORGE CREEK – SHOALING
The ACOE Survey of St. George Creek Channel dated April 2018, indicates shoaling across the entire channel. The shoaling is from 850 feet up the channel of St. George Creek West Channel Warning Daybeacon A (LL 16760) to 500 feet up the channel of St. George Creek West Channel Warning Daybeacon B (LL 16765), with a least depth of 3.1 feet MLLW.
Chart 12233

MD - POTOMAC RIVER - ST. PATRICK CREEK – SHOALING
Shoaling has been reported in St. Patrick Creek to depths of 2-4 feet at MLW near St. Patrick Creek Channel Buoy 3 (LLNR 17123) and extending to Buoy 7 (LLNR 17145). Shoaling of 1 foot at MLW has been observed within the channel limits in the vicinity of St. Patrick Creek Channel Buoy 4 (LLNR 17130).
Chart 12286

MD - CHESAPEAKE BAY - CHESAPEAKE BAY TO PINEY POINT - ST. JEROME CREEK - SHOALING
Shoaling has been reported in St. Jerome Creek to a depth of 3 feet at MLW between St Jerome Creek DBN 3 (18805) and St. Jerome Creek Light 4 (LLNR 18810) and extending to St. Jerome Creek Buoy 5 (LLNR 18812) and St. Jerome Creek Buoy 6 (LLNR 18815). The channel width in the area of Deep Point is reduced to approximately 20 feet.
Chart 12233

MD - VA - POTOMAC RIVER - PINEY POINT TO LOWER CAEDAR POINT - ST. CATHERINE SOUND LOWER ENTRANCE - SHOALING
Shoaling exists in St. Catherine Sound Lower Entrance (1) off the northeastern tip of St. Catherine Island extending channel ward between 38-14-17.586N, 076-47-15.562W and 38-14-32.841N, 076-47-14.761W, (2) IVO St. Catherine Sound Lower Entrance 4L (LLNR 17230). Ref LNM 44/16, Chart 12286

MD – CHESAPEAKE BAY – CHOPTANK RIVER AND HERRING BAY – CHESAPEAKE BEACH – SHOALING
A USACE survey conducted on 21 OCT 2020 has identified shoaling in the following locations: west of Chesapeake Beach Light 1 (LLNR 19285) spanning the entire width of the channel to a depth of less than 7ft MLW. Additional portions of channel shoaling exists west of Chesapeake beach light 2 (LLNR 19300) and Chesapeake Beach Light 3 (LLNR 19305) spanning the entire width of the channel to a depth of 3ft MLW to 6ft MLW. See Sec MD-NCR BNM 149-21

MD - CHESAPEAKE BAY - POCOMOKE AND TANGIER SOUNDS - POCOMOKE RIVER – SHOALING
Shoaling has been reported in the Pocomoke River between Pocomoke River Channel Buoy 7 (LLNR 22540) and Pocomoke River Channel Buoy 8 (LLNR 22555), to reported depths less than 4.5 feet at MLW centerline, 2.3 feet on the red side of the channel, and 3.2 feet on the green side. MD-NCR BNM 299-21.
Chart 12228

MD - LITTLE CHOPTANK RIVER - SLAUGHTER CREEK – SHOALING
Shoaling in the western portion of Slaughter Creek IVC of Holland Point has encroached easterly in most of the channel. The shoal adjacent to Slaughter Creek Light 2SC (LLNR 24645) has encroached approx 50-100 yds easterly with observed depths of 3-4’ in between tide cycles. Shoaling to 5’ MLW has been observed on the red side of the channel between Slaughter Creek Buoy 6 (LLNR 24670) and Slaughter Creek Buoy 8 (LLNR 24683). Sec MD-NCR BNM 045-17,
Chart 12264, 12266

MD - CHESAPEAKE BAY - HONGA, NANTICOKE AND WICOMICO RIVERS – FISHING BAY - TAR BAY
A USACE survey conducted in Apr 2016 has identified shoaling to a depth of less than one foot at mean low water between Tar Bay Channel Warning Daybeacon E (LLNR 24595) and Tar Bay Channel Warning Daybeacon K (LLNR 24615). The channel width has been significantly reduced. Observed depths are between 2-4’ at high tide. Sec MD-NCR BNM 044-17
Chart 12261

MD – FISHING BAY – FARM CREEK – SHOALING
Shoaling reported from channel entrance to Farm Creek Channel Daybeacon 2 (LLNR 24430), least depth of 5 feet within the channel limits. From Farm Creek Channel Daybeacon 2 (LLNR 24430) to Farm Creek Channel Daybeacon 7 (LLNR 24445) least depth of 2.0 feet on the red side of channel, 3.9 ft centerline of channel, and 2.8 feet on the green side of channel. Ref LNM 16/18.
MD – CHESTER RIVER – KENT ISLAND NARROWS NORTH APPROACH – SHOALING
Hazard to navigation - A USACE survey conducted on May 4, 2021 has identified shoaling to a depth of four feet in the Kent Island Narrows North Approach within the channel boundaries between Kent Island Narrows North Approach Light 2KN (LLNR 26415) and Kent Island Narrows North Approach Light 8 (LLNR 26435). Mariners are urged to use caution when transiting the area. SEC MD-NCR BNM 065-21.
Chart 12272

MD - CHESAPEAKE BAY - CHESTER RIVER - QUEENSTOWN CREEK
Hazard to navigation - A USACE survey conducted on July 12, 2021 has identified shoaling northwest of Queenstown Creek Buoy 3 (LLNR 26593) to south of Queenstown Creek Buoy 5 (LLNR 26595). Reported depths of less than four feet centerline and less than three feet closer to the channel boundaries. Least depths are located closer to the red side of the channel near Queenstown Creek Buoy 5 (LLNR 26595) to depths of less than two feet at mean low water. SEC MD-NCR BNM 182-21
Chart 12272

MD – APPROACHES TO BALTIMORE HARBOR – HARTS ISLAND CHANNEL
Corrected chart name and #. Shoaling has been reported by USCg ANT Baltimore via soundings in Harts Island Channel. Depths of 2.0-4.0 feet were observed extending into the channel in vicinity of Harts Island Channel Daybeacon 3 (LLNR 27010). Navigation of the area requires extreme caution. SEC MD-NCR BNM 263-21.
Chart 12278

**** MD - CHESAPEAKE BAY - SANDY POINT TO SUSQUEHANNA RIVER - UPPER CHESAPEAKE CHANNEL ****
Hazard to navigation - A USACE survey conducted on April 05, 2022 has identified shoaling to a depth of 33 feet at mean lower low water in the Upper Chesapeake Channel within the channel boundaries between Upper Chesapeake Channel Lighted Buoy 38A LLNR 8770. SEC MD-NCR BNM 165-22.
Chart 12273

MD - CHESAPEAKE BAY - HEAD OF CHESAPEAKE BAY - ASSAFAFRAS RIVER
Hazard to navigation. Shoaling has been reported in Sassafras River extending from Sassafras River Daybeacon 8 (LLNR 27495) to the southeast approximately 520 yards towards Sassafras River Light 10 (LLNR 27500) and into the channel approximately 50 yards to reported depths of seven feet at mean low water. SEC MD-NCR BNM 257-21.
Chart 12274

MD-NORTHEAST RIVER – SHOALING
There has been a report of shoaling in the Northeast River within the channel between Northeast Lighted Buoy 7 (LLNR 27855) and Northeast Lighted Buoy 8 (LLNR 27860). Depths as low as 4.2 feet were observed. Mariners are advised to transit the area with caution. MD-NCR BNM 035-21
Chart 12274

VA – MD – POTOMAC RIVER – BONUM CREEK – SHOALING
U. S. Army Corps of Engineers Survey of Bonum Creek indicates shoaling, to less than 4 feet MLLW, in the channel.
Chart 12286

VIRGINIA SHOALING
VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – QUINBY CHANNEL – SHOALING
Norfolk District Army Corp of Engineers Survey of Quinby Creek; dated 11 Feb 2020, indicated significant shoaling with least depth of 6.0’MLLW at Quinby Channel Buoy 13 (LLNR 6775) to 1.2’MLLW at Quinby Channel Light 19 (LLNR 6875). VA BNM 040-20
Chart 12210

VA – NANDUA CREEK
Shoaling has been reported at the entrance to Nandua Creek to 2 feet. HR BNM 311-13

VA – CHINCOTEAGUE INLET TO GREAT MACHIPONGO INLET – VIRGINIA INSIDE PASSAGE - WALLOPS ISLAND – SHOALING
There has been a report of shoaling in the vicinity of Wallops Island Lighted Buoy 2 (LLNR 5520) to a depth of one foot.
Chart 12210

VA – VIRGINIA INSIDE PASSAGE (VIP)
VIP Daybeacon 184 (LLNR 6220) to VIP Daybeacon 265 (LLNR 6580), Shoaling to less than 6ft MLW. HR BNM 106-16, VIP Daybeacon 244 (LLNR 6485), Shoaling to 1 foot. HR BNM 272-14, Sand Shoal Channel Light 1 (LLNR 6990) to Sand Shoal Light 10 (LLNR 6996) LNM 24-13.
Chart 12220, 12224

VA – LYNHAVEN INLET – SHOALING
Army Corp of Engineer Survey has indicated shoaling between Lynnhaven Inlet Light 1L (LLNR 10130)and Lynnhaven Inlet Light 3 (LLNR 10136) on the east side of the channel extending into the channel with the Minimum depth of 6.8 feet. Additional shoaling has been located between Lynnhaven Inlet Light 4 (LLNR 10138) and Lynnhaven Inlet Daybeacon 6 (LLNR 10145) on the western side of the channel extending into the Channel with a minimum depth of 2 feet. Navigation in these areas requires extreme caution. SEC VA BNM 022-22
Chart 12222, 12221, 12254, 12205
VA – LYNNHAVEN INLET – LONG CREEK – SHOALING
ACOE Survey indicates shoaling in Lynnhaven Basin and connected tributaries, south of the Lesner Bridge. Depths of 3.1 - 5.2 feet extend into channel from Pleasure House Creek eastbound to Long Creek Light 6A (LLNR 10170), in Crab Creek, Lynnhaven Inlet and Long Creek. Depths of 1.4 - 5.0 feet observed in Long Creek side channel in the vicinity of Fish House Island. Navigation of the area requires extreme caution. SEC VA BNM 114-20
Chart 12254

VA – LITTLE CREEK HARBOR – SHOALING
Shoaling has encroached approximately 20ft in to the channel from the shoreline to approximate position 36-55.48N 076 10.58W. The location of the shoal is approximately 120yds north of Little Creek Harbor Light 7 (LLNR 10525). Visually the shoal can be observed. Depth at tip of shoal is approximately 2' with a significant depth drop to approximately 18ft.

VA – GREAT BRIDGE TO ALBEMARLE SOUND - INTRACOASTAL WATERWAY – SHOALING
There has been a report of shoaling in the VA Intracoastal Waterway approximately 1.15 nm south of North Landing Bridge IVO positions 36-42.71N, 076-04.87W, and 36-42.75N, 076-05.00W, to a least depth of 0.5 feet.
Chart 12206

VA – CHESAPEAKE BAY - MATTAWOMAN CREEK – SHOALING
Shoaling has been reported to a depth of 2-3ft at mean low water in the channel of Mattawoman Creek between Mattawoman Creek Light 1MC (LLNR 21580) and Mattawoman Creek Light 2 (LLNR 21585). Mariners are advised to transit the area with caution.
Chart 12226

VA – HAMPTON ROADS - WILLOUGHBY BAY
The USACE has reported shoaling in Willoughby Channel to 2.6 feet MLLW in the vicinity of Willoughby Channel Buoy 3 (LLNR 10583).
Chart 12245

VA – PAGEN RIVER – SHOALING
Shoaling has been located on the approach to Jones Creek outside of the Pagan River Channel between Pagan River Channel Light 13 (LLNR 11415) and Jones Creek Daybeacon 2 (LLNR 11420). Depths observed 4ft at approximately 3 hours before MLW. HR BNM 254-20. Significant shoaling has been identified in the Pagen River Channel between Pagan River Channel Daybeacons 15 (LLNR 11435) and Daybeacon 17 (LLNR 11445). Least depth of 3.3 FT. HR BNM 218-19
Chart 12248

VA – MOBJACK BAY AND YORK RIVER ENTRANCE – BACK RIVER
A recent NOAA survey identified shoaling to a depth of 8 ft at MLW in Back River between Back River Channel Daybeacon 6 (LLNR 12930) and Back River Channel Light 5 (LLNR 12925). The survey also identified shoaling around Back River Channel Light 4 (LLNR 12920) to a depth of 10ft at MLW.
Chart 12222

VA – CHESAPEAKE BAY – MOBJACK BAY AND YORK RIVER ENTRANCE – DAVIS CREEK – SHOALING
Significant shoaling has been identified from USACOE survey dated 07 Sep 2016 in Davis Creek. Shoaling begins 100 yards south of Davis Creek Warning Daybeacon B (LLNR 14130) to a depth of 4.9 feet extending across the entire length and width of the channel to 150 yards north of Davis Creek Warning Daybeacon D (LLNR 14140) with a minimum identified depth of 1.2 feet. Shoaling exists in various locations throughout Hatteras Inlet Channel to a depth of 5 feet at mean low water. Shoaling continues to encroach the channel near Hatteras Inlet Lighted Buoy 12A (LLNR 28732.1), and Hatteras Inlet Channel Buoy 15 (LLNR 28736). Depths of less than 4 feet MLW have been reported between Hatteras Inlet Channel Buoy 18 (LLNR 28760) and Hatteras Channel Lighted Buoy 19 (LLNR 28760). Some aids to navigation in the inlet may be unreliable. NC BNM 029-22, 030-22.
Chart 11556
NC – BARNEY SLOUGH – SHOALING
Shoaling exists North East of Barney Slough Channel Buoy 3A (28721.6). Reported depths of 4 feet MLW in position 35-47.34.526N, 075-31.34.764W. Shoaling extends to middle of channel to a depth of 4 FT MLW. Shoaling has been found along north side of channel between Barney Slough Channel Buoy 4 (LLNR 28721.7) and Lighted Buoy 6 (LLNR 28722.3). Observed depths of 4 feet MLW. Shoaling is occurring in the vicinity of Barney Slough Channel Lighted Buoy 15 (LLNR 28723.7) and Barney Slough Channel Lighted Buoy 16 (LLNR 28723.9). NC BNM 204-20, 013-20, 027-22. Chart 11555

NC – BIG FOOT SLOUGH – SHOALING
Mariners are advised there is shoaling in the vicinity of Buoy 10C (29070.2) in Big Foot Slough at approximate position 35-09-03.184 N 076-00-38.651W. Mariners are advised to use caution while navigating in this area. Chart 11550

NC - OCRACOKE INLET - SHOALING
Shoaling exist in the vicinity of Ocracoke Inlet. Aids to Navigation may be unreliable in various locations between Ocracoke Inlet Buoy 1 (LLNR 28900) and Ocracoke Inlet Buoy 8 (LLNR 28927). Mariners are advised to use caution while navigating this area. NC BNM 207-20

NC – TEACHES HOLE CHANNEL – SHOALING
Shoaling exist in the vicinity between Teaches Hole Channel Lighted Buoy 19 (LLNR 28953) and Teaches Hole Channel Lighted Buoy 24 (LLNR 28962). Reported depths less than 4 feet MLW. NC BNM 028-22

NC – BEAUFORT INLET AND CORE SOUND – BARDEN INLET – BACK SOUND – SHOALING
Severe shoaling exists between Barden Inlet Buoy 24 (LLNR 29240) and Back Sound Lighted Buoy 1 (LLNR 29315) has rendered the waterway un-markable. All floating aids were removed. Pending dredging operations or waterway improvements, Barden Inlet Channel no longer connects to Back Sound Channel. Mariners should navigate the area with caution, local knowledge is recommended. NC BNM 409-20

NC – PAMLICO SOUND – CORE SOUND – WAINWRIGHT SLUE – SHOALING
Due to lack of navigable water all floating aids have been removed and all remaining fixed aids converted to non-lateral warning beacons to Core Sound Light 11 (LLNR 34370) proceeding south from Pamlico Sound. The remaining fixed aids are scheduled for removal. Pending future dredging or waterway improvements, the Core Sound waterway is no longer accessible from Pamlico Sound. NC BNM 404-20

NC – CORE SOUND – HARKERS ISLAND – THE STRAITS – SHOALING
Wilmington District USACE Survey of 12 Mar 2020 has identified significant shoaling IVO Harker’s Island in The Straights. Depths as low as 4ft MLW were found between Harkers Island Straits Light 14 (LLNR 29382) and Harkers Island Straits Light 15 (LLNR 29384). NC BNM 085-20

NC – BOGUE INLET – SHOALING
Mariners are advised that significant shoaling has been reported north of Tully Inlet Channel 1 (LLNR 29454). Shoaling encroaching the middle of the channel at the entrance of Tully Inlet. Observed depths as low as 2ft MLW have been identified. Shoaling extends approx 15 yards into the channel. SEC NC BNM 113-22.

NC – NEW RIVER INLET – SHOALING
Significant shoaling exists in New River Inlet between New River Inlet Channel Buoy “1” (LLNR29655) and New River Inlet Channel Buoy “10” (LLNR29680). Multiple aids to navigation may be unreliable and not marking good water. Mariners are advised to use extreme caution while navigating this area.

NC – BOGUE SOUND – SHOALING
Shoaling has been reported between Bogue Sound Daybeacon 10 (LLNR 38875) and Bogue Sound Daybeacon 14 (LLNR 38895). Survey indicates depths as low as 8FT MLW encountered in channel center and depths as low as 4FT have been reported. Depths close to channel markers may be less. Conditions may change rapidly and mariners are advised to transit the area with caution. The most recent ACOW survey can be found here: https://www.usace.army.mil/missions/navigation/hydrographic-surveys/aiww

NC – LENOXVILLE POINT – TAYLOR CREEK – SHOALING
Shoaling exists in the channel in vicinity of Lenoxville Point Buoy 1L (LLNR 34757) through Lenoxville Point Buoy 3 (LLNR 34760). NC BNM 294-18.

NC – WESTERN PART OF PAMLICO SOUND – PAMLICO RIVER – WRIGHT CREEK – SHOALING
Mariners are advised of shoaling in vicinity of Wright Creek Daybeacon 4 (LLNR 32870) off the Pungo River. NC BNM 141-18

Enclosure (1)
NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CORE CREEK – SHOALING
Shoaling exists in the AICW north of Morehead City between Core Creek Light 29 (LLNR 38435) and Core Creek Daybeacon 31 (LLNR 38485), to a depth of less than 5ft at MLW. Mariners are advised to use extreme caution while navigating this area.
Chart 11541

NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CAUSEWAY CHANNEL – SHOALING
Shoaling has been reported IAW the most recent ACOE survey dated 26 OCT 2020 IVO Causeway Channel Buoy 5A (LLNR 38731) and Causeway Channel Buoy 6A (LLNR 38736). Reported depths of 4 feet MLW encroaching from east side of channel. NC BNM 415-20
Chart 11541

NC – OLD TOPSAIL CREEK – SHOALING
Significant shoaling has been observed in Old Topsail Creek between Old Topsail Creek Buoy 6 (LLNR 30036), Old Topsail Creek Buoy 7 (LLNR 30037) and Old Topsail Creek Buoy 8 (LLNR 30038) Spanning the width of the channel. Depths of less than 3’ at MLW have been observed. Mariners are advised to transit the area with caution. SEC NC BNM 381-21.
Chart 11541

NC – BANKS SLOUGH CHANNEL – SHOALING
Significant shoaling has occurred in Banks Slough Channel between Banks Slough Channel Buoy 2BS (LLNR 30048) and Banks Slough Channel Buoy 3 (LLNR 30048.02) spanning the width of the channel. Depths of 2’ MLW have been reported.
Chart 11541

NC - CAROLINA BEACH INLET – SHOALING
Significant shoaling has been reported in Carolina Beach Inlet in the vicinity of Carolina Beach Inlet Buoy 3 (LLNR 30275) spanning the width of the channel. Depths of 4’-5’ MLW have been reported. SEC NC BNM 368-21.
Chart 11534

***NC – NEW RIVER – CAPE FEAR RIVER – SHOALING***
The shoal that is adjacent to the red side of the channel between New River – Cape Fear River Daybeacon 170 (LLNR 39860) and New River - Cape Fear River Light 168 (LLNR 39857) has encroached to the edge of the channel. Depths of 4-5ft at MLW have been observed.
Chart 11537

NC – LOCKWOODS FOLLY INLET – SHOALING
Significant shoaling has occurred in Lockwoods Folly Inlet between Lockwoods Folly Inlet Lighted Buoy 2 (LLNR 31015) and Lockwoods Folly Inlet Buoy 5 (LLNR 31027) spanning the width of the channel depths of 4’ MLW have been reported. BNM SEC NC 367-21.
Chart 11534
SUMMARY OF BRIDGE PERMITS, REGULATIONS AND CONSTRUCTION
IN THE FIFTH COAST GUARD DISTRICT

Enclosure (2)

Updated May 17, 2022

(Yellow indicates new item)

CURRENT PROJECTS

Permits:
SECTOR DELAWARE BAY

- Delaware
  Christina River – Christina River Bridge – Permit (1-17-5) signed April 7, 2017, for a fixed bridge across the Christina River, mile 3.8, City of Wilmington, New Castle County, DE. The bridge will provide a minimum vertical clearance of 14 feet above mean high water and a horizontal clearance of 150 feet centered on the axis of the navigable channel. (KB)
  Broadkill River – Bridge 3-155 N&S (SR 1/SR 14/Coastal Highway) – Permit (2-21-5) signed October 14, 2021, for a fixed bridge across Broadkill River, mile 8.08, near Milton, Sussex County, DE with a horizontal clearance of 50 feet and a vertical clearance of 16.5 feet above mean high water. (MT)
  New Jersey (Central & Southern)
  Oldmans Creek – US Route 130 Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 15, 2018; vertical clearance of 5 feet above mean high water and a horizontal clearance of 75 feet. (HP)
  Raccoon Creek – US 130 (fixed) Bridge - new fixed bridge structure to replace (lift) bridge. Permit (2-15-5) signed December 9, 2015. (KB)
  Glimmer Glass - W9 (Brielle Road) Drawbridge – Fixed bridge replacement and drawbridge replacement Preliminary Navigation Clearance Determination (PNCD) issued on October 22, 2019. A fixed bridge replacement will provide a horizontal clearance of 31.9 feet and a vertical clearance of 60 feet above mean high water and a drawbridge replacement will provide a vertical clearance of 9 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 31.9 feet. (MS)

- Maryland
  Atlantic Intracoastal Waterway, Middle Thorofare - Ocean Drive Causeway Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on December 10, 2019; vertical clearance of 80 feet above mean high water and a horizontal clearance of 80 feet. (MB)(HP)

- New Jersey (Northern)
  Oldmans Creek – US Route 130 Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 15, 2018; vertical clearance of 5 feet above mean high water and a horizontal clearance of 75 feet. (HP)
  Raccoon Creek – US 130 (fixed) Bridge - new fixed bridge structure to replace (lift) bridge. Permit (2-15-5) signed December 9, 2015. (KB)
  Glimmer Glass - W9 (Brielle Road) Drawbridge – Fixed bridge replacement and drawbridge replacement Preliminary Navigation Clearance Determination (PNCD) issued on October 22, 2019. A fixed bridge replacement will provide a horizontal clearance of 31.9 feet and a vertical clearance of 60 feet above mean high water and a drawbridge replacement will provide a vertical clearance of 9 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 31.9 feet. (MS)

- Virginia (Northern)
  Western Branch of the Elizabeth River – Churchland Bridge - Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement of the northbound structure of the bridge with a structure providing a vertical clearance of 36.63 feet above mean high water and a horizontal clearance of 80 feet. (MS)

All interested parties are notified that an application dated April 19, 2022, has been received from the New Jersey Department of Transportation by the Commander, Fifth Coast Guard District, for approval of the location and plans for construction of a new highway fixed bridge over a navigable waterway of the United States. WATERWAY AND LOCATION: Big Timber Creek, mile 0.8, between Camden and Gloucester Counties, NJ.

CHARACTER OF WORK: The proposed project is to provide a modernized and improved Bridge along with drainage improvements that reduces the majority of road closures due to flooding. The existing 5-span bridge will be removed in its entirety and replaced with a 3-span continuous bridge with similar roadway and bridge profile.

The existing fixed bridge has a horizontal clearance of 58 feet and a vertical clearance of 14 feet above mean high water. The replacement bridge will be a fixed bridge with a horizontal clearance of 60 feet and a vertical clearance of 14.73 feet above mean high water.

A copy of Public Notice D05PN-04-2022, which describes the proposal in detail, can be obtained by calling (757) 398-6587 or by viewing at https://www.navcen.uscg.gov/?pageName= pnBridges. Comments on this proposal should be forwarded to the address in the notice no later than June 24, 2022. (MS)

Pennsylvania

Schuylkill River – Grays Ferry Pedestrian Bridge – Permit (3-17-5) signed November 27, 2017, for a swing drawbridge replacement with a vertical clearance of 26 feet above mean high water (closed position), unlimited vertical clearance in the open position, and a horizontal clearance of 75 feet in the west navigation span and 65 feet in the east navigation span. (MT)

Darby Creek – S.R. 420 (Wanamaker Avenue) - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on December 13, 2018; vertical clearance of 11 feet above mean high water and a horizontal clearance of 78 feet. (MT)

Maryland –

Potomac River – Governor Harry Nice Memorial Bridge – Permit (1a-20-5) signed June 25, 2020, for a fixed replacement bridge with a vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the new bridge will be shifted approximately 115 feet to the west of the center of the current navigation span. (KB)

Neale Sound – MD-254 (Cobb Island Road) Bridge – Permit (1-18-5) signed May 2, 2018, for a fixed replacement bridge with a vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)

Washington DC –

Anacostia River – Frederick Douglass Memorial Bridge - Permit (2-17-5) signed December 4, 2017, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water and a horizontal clearance of 150 feet. (CT)

Virginia (Southern) – None.

SECTOR VIRGINIA

Virginia (Southern)

Western Branch of the Elizabeth River – Churchland Bridge - Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement of the northbound structure of the bridge with a structure providing a vertical clearance of 36.63 feet above mean high water and a horizontal clearance of 80 feet. (MS)
Hampton Roads – Permit (5-20-5) signed November 16, 2020, for a fixed bridge replacement of I-64/US 60 (Hampton Roads Beltway) north and south approach bridges for the Hampton Roads Bridge Tunnel (HRBT). North Approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 80 feet; south approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 100 feet. (MT)
Willoughby Bay – Permit (140b-68-5) signed December 22, 2020, for I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - fixed bridge modification; vertical clearance of 25 feet above mean high water, horizontal clearance of 50 feet, and width of 168.84 feet. (MT)
Blackwater River – Permit (4-20-5) signed July 29, 2020, for a fixed bridge replacement providing a vertical clearance of 35 feet above mean high water and a horizontal clearance of 60 feet. (MS)
Cat Creek – Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on May 11, 2021; vertical clearance of 12.8 feet above mean high water and a horizontal clearance of 60 feet. (MS)

SECTOR NORTH CAROLINA

• North Carolina
  Atlantic Intracoastal Waterway – NC 210/50 Bridge, Surf City, NC - new fixed bridge structure to replace (swing) bridge. Permit (2-16-5) signed September 27, 2016. (KB)
  The Straits – Harkers Island Bridge – Fixed replacement bridge - Permit (2-20-5) dated September 30, 2020, vertical clearance of 45 feet above mean high water and a horizontal clearance of 125 feet. (HP)
  Pamlico Sound – Bridge No. 71 (Rodanthe) Bridge – new fixed bridge carrying NC 12 on the mainland side of the outer bank along the northeastern shore of Pamlico Sound from a position approximately 1.8 miles north of the southern boundary of the Pea Island National Wildlife Refuge to a position north of the Chichamacomico Channel and the emergency ferry terminal in Rodanthe, Dare County, NC. Permit (1-19-5) signed on February 20, 2019. (HP)
  Perquimans River – Bridge No. 8 (US17 BUS/NC37) Bridge, Hertford, Perquimans County, NC - new drawbridge to replace existing drawbridge. Permit (6-19-5) signed December 31, 2019. (HP)
  Currituck Sound – Proposed new fixed bridge across mid-Currituck Sound, approximately 18 miles north of the Wright Memorial Bridge, between Aydlett (on the mainland) and Corolla (on the Outer Banks), at Currituck County, NC. Preliminary Navigation Clearance Determination (PNCD) issued on February 9, 2021; vertical clearance of 20 feet above mean high water and a horizontal clearance of 40 feet. (MS)

Regulations:
SECTOR DELAWARE BAY

• Delaware – None
• New Jersey (Central & Southern) –
  New Jersey Intracoastal Waterway (NJICW), Inside Thorofare - US40-322 (N Albany Ave) Bridge – Bridge will be maintained in the closed-to-navigation position to facilitate the Rock N’ Roll Atlantic City 5K and Half Marathon. The bridge will remain in the closed position from 7 a.m. through 11 a.m. on Saturday, May 14, 2022, and from 7 a.m. through 1 p.m. on Sunday, May 15, 2022. The bridge will be able to open for emergencies, if at least 10 minutes prior notice is given. There is no immediate alternative route for vessels unable to pass through the bridge in the closed position. Vessels able to pass through the bridge in the closed position may do so at any time. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.733(h). Mariners should adjust their transits accordingly and should use caution when transiting the area. (MT)
  Rancocas Creek - US Route 543 (Riverside-Delanco) Bridge Mariners are advised that a temporary deviation has been approved by the Coast Guard to test the seasonal operating regulation of the US Route 543 (Riverside-Delanco) Bridge across Rancocas Creek, mile 1.3, at Burlington County, NJ. The bridge will be maintained in the closed-to-navigation position from 7 a.m. to 3 p.m., and from 8 p.m. to 11 p.m., Monday through Friday, from 7 a.m. to 1 p.m., and from 8 p.m. to 11 p.m., Saturday and Sunday, and from 11 p.m. to 7 a.m., daily, from May 4, 2022, through October 15, 2022. The vertical clearance of the bridge in the closed-to-navigation position is 4 feet above mean high water. Vessels able to safely pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. This deviation will test whether a permanent change to the schedule is needed and to solicit comments from the public regarding these proposed changes. Comments will be received for the record identified by the docket number USCG-2022-0221 using Federal Decision Making Portal at http://www.regulations.gov; and must be submitted on or before August 1, 2022. At all other times the bridge will operate per 33 CFR 117.745 (b). (MS)
• Pennsylvania – None

SECTOR MARYLAND-NATIONAL CAPITAL REGION

• Washington, DC & Virginia (Northern) – None
• Maryland – None

SECTOR VIRGINIA

• Virginia (Southern) - None

SECTOR NORTH CAROLINA

• North Carolina – None.

Construction, et al:

SECTOR DELAWARE BAY

• Delaware
  Christina River - Bridge 1-159 (James Street) Bridge – Bridge maintenance will be performed from 7 a.m. to 5 p.m., from July 1, 2021, to March 31, 2023. To facilitate maintenance, a work skiff and a 70t X 70t work barge will be operating outside the navigable channel, secured to the bridge piers and will not impact navigation. Mariners are urged to use caution while transiting the area. (MS)
  Broadkill River - Bridge 3-155 N&S (SR 1/SR 14/Coastal Highway) Bridge – Modification activities, which began October 2021, are expected to be finished on May 30, 2022. Work is and will be on-going 24-hours per day, seven days a week. The project will involve replacement of the
deck and steel superstructures of the fixed highway bridge; make minor modifications to the supporting concrete piers to support the new superstructures; replace the existing pile jackets at all piers; replace the existing riprap on the slopes to stabilize the embankments; complete
minor approach highway work to tie the roadways into the new bridge decks; and bridge painting. The modified bridge will be a fixed bridge with a
horizontal clearance of 50 feet and a vertical clearance of 16.5 feet above mean high water. Detailed project information and information concerning
waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, support vessels and crew boats are and will be operating or stationed in and around the vicinity of the
existing bridge during the duration of the project. During the modification period through April 1, 2022, the horizontal clearance of the bridge will be
reduced to approximately 20 feet, at all other times the clearances of the bridge will be unrestricted. Vessels that can transit through the
bridge during periods of reduced horizontal clearance due to the work barges, may safely transit through the bridge, if at least a one-hour prior
notice is given to the project foreman. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on
the waterway. R.E. Pierson Construction Co., Inc.’s work vessels and barges are and will continue to monitor VHF-FM channels 13 and 16 when
work is in progress or vessels are operating in the area. The DelDOT Resident Engineer may be contacted at (302) 583-1349 or (302)
542-3590 and R.E. Pierson Construction Co., Inc.’s project foreman may be contacted at (609) 743-7167 or (609) 743-0092. (MT)

 localized to the center of the Federal project, the left side of the preferred navigation channel, and extending from 170 feet above mean high
water to 175 feet above mean high water. It is anticipated to be removed by April 1, 2022. Due to fisheries time of year restriction the cofferdam will be removed on October 7, 2022. Horizontal clearance of the canal will be constricted by approximately 5 feet until October 7, 2022. Mariners should use caution when transiting the area. (CT) 

Delaware River - Delaware Memorial Bridge – Ongoing bridge painting through October 2022. Work platforms have been installed, reducing the
available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution
when transiting the area. (CT) 

Mispillion River - Route 1/Rehoboth Blvd. Bridge – Bridge sustained a causality and will not be capable of normal operations. The bridge will
remain in the closed position until further notice. Vessels able to transit through the bridge in the closed position may do so at any time. The
vertical clearance of the bridge in the closed-to-navigation position is 5 feet above mean high water. The bridge will not be able to open for
emergency vessels. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area. (KB) 

Delaware River - Benjamin Franklin Bridge – Bridge maintenance will be performed from July 27, 2020, through December 31, 2024. For the
duration of the project, the preferred navigation channel and bridge navigational lighting normally situated over the 410-foot Federal project
channel will be shifted to the east approximately 205 feet. The Federal Project channel will remain fully open to traffic, however the vertical
clearance of the channel has temporarily decreased based on the planned scaffolding system (work platform) to be installed. The scaffolding
system will be installed over the entire length of the bridge, as detailed below.

Preferred Navigation Channel: A 410-foot scaffolding (work platform) system, with five 82-foot independent work zones, will be installed
extending below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred
navigation channel by approximately 10 inches (.83 feet). When in use, a single 82-foot work zone portion of the 410-foot scaffolding (work
platform) system will be extended below the bridge approximately 18.5 inches (1.54 feet), thereby reducing the vertical clearance of the bridge
within the work zone by approximately 18.5 inches (1.54 feet). The single 82-foot work zone portion of the 410-foot scaffolding (work platform)
system in use will be extended to below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge
within the preferred navigation channel by approximately 10 inches (.83 feet), if at least 48-hour notice is given to Eric.Dovak@Skanska.com.
Outside the Preferred Navigation Channel: Scaffolding will extend below the bridge approximately two feet from the west boundary of the
Federal project to the center of the Federal project, and extend from the boundary of the preferred navigation channel toward the east abutment approximately 385 feet. West of the east boundary of the Federal project and east of the position approximately 385 feet east of the east boundary of the preferred navigation channel, scaffolding will extend below the bridge approximately three feet.

A safety boat will be in the vicinity of the bridge during bridge maintenance, which may be reached via VHF FM channel 13. Mr. Eric Dovak,
contractor’s representative, may be reached at Eric.Dovak@Skanska.com or (347) 860-2399. Mariners are advised to exercise caution when transiting
the area. (HP) 

New Jersey Intracoastal Waterway (NJICW). Barneget Bay - SR 37 (J. Stanley Tunney) (fixed) Bridge – Bridge maintenance will be conducted
from 7 a.m. to 3:30 p.m.; Monday-Friday; from October 25, 2021, through December 23, 2023. A 54-foot crane barge, a 40-foot material barge,
a 24-foot work barge with pump, float boats, and divers will be located around the vicinity of the bridge. Vessels may safely transit through the
navigation channel of the bridge unrestricted at all times. Work vessels may be reached on VHF-FM channel 13 and 16. The project
foreman may be reached at (609) 941-9677 or (609) 331-2096. Mariners should use caution navigating through the area. (MT) 

New Jersey Intracoastal Waterway (NJICW), Beach Thorofare - Route 30 (Absecon Boulevard) Bridge - To facilitate work, the bridge will be
maintained in the closed-to-navigation position from 8 a.m. on November 1, 2020, through 5 p.m. on May 25, 2022. A work platform will reduce
the horizontal clearance of the navigation channel to approximately 30 feet and temporary shielding will reduce the vertical clearance of the
entire bridge to approximately 19 feet above mean high water in the closed position. Vessels that can safely transit through the bridge in the
closed position with the reduced clearances may do so, if at least thirty minutes notice is given, to allow for safe navigation. At all other
times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.733(e).

Mariners should use caution when transiting the area. (MS) 

Oldmans Creek - I-295 Bridge – Bridge maintenance will be conducted from 6 a.m. to 5 p.m.; Monday-Friday; from March 21, 2022, through
September 30, 2022. A 21-foot work vessel and three four-foot floats and a team of divers will be located in and around the vicinity of the
bridge. During the work hours, the work vessel, floats and divers will be in the navigational channel which will reduce the horizontal
clearance of the bridge to approximately 25 feet. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may safely transit through the bridge, if at least a one-hour prior notice is given to the project foreman. Maintenance personnel, equipment and vessels will
relocate from the navigable waterway, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be
reached at (609) 477-6290 or (856) 298-2353. Mariners should use extreme caution navigating through the area. (MT)
Delaware River - US 322 (Commodore Barry) Bridge – Bridge maintenance will be conducted from 6 a.m. to 2:30 p.m.; Monday-Friday; from March 14, 2022, through October 3, 2022. Several work boats and work platforms will be located around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (856) 472-5714 or (609) 707-7439. Mariners should notify the work foreman no less than thirty minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)

Wading River - Burlington Highway Bridge (CR 542) – Bridge maintenance will be performed from 7 a.m. to 3:30 p.m., Monday – Friday, from May 2, 2022, until November 30, 2022. To facilitate bridge work, the bridge will be maintained in the closed-to-navigation position from 7 a.m. on May 2, 2022, until repair of the counterweight struts is completed and from 7 a.m. to 3:30 p.m., Monday – Friday, until November 30, 2022. The bridge will not be able to open for emergency vessels until repair of the counterweight struts is completed. Once the counterweight struts are repaired, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.759. During work hours, the horizontal and vertical clearances of the bridge will be reduced to zero. Mariners should adjust their transits accordingly and use extreme caution when transiting the area. (CT)

Pennsylvania

Schuylkill River - Grays Ferry Railroad Bridge – Modification activities, which began June, 2018, will recommence on April 4, 2022, and are expected to finish on June 3, 2022. Work will be performed from 7 a.m. to 3:30 p.m.; M-F. During this bridge modification project, the eastern navigation span will be occupied; the western navigation span will be open for vessels to transit. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. The new bridge will have a vertical clearance of 26 feet above mean high water in the closed-to-navigation position, an unlimited vertical clearance in the open position, a horizontal clearance of 75 feet in the western navigation span, and 65 feet in the eastern navigation span. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, and support vessels will be operating or stationed in the vicinity of the existing bridge. A.P. Construction Inc.’s vessels are monitoring VHF-FM channels 13 and 16 when working or vessels are operating. The City of Philadelphia construction manager may be contacted at 215-275-8066 and A.P. Construction, Inc.’s project foreman may be contacted at 215-651-6278 or 215-421-2880. (MT)

Delaware River - US 322 (Commodore Barry) Bridge – Bridge maintenance will be conducted from 6 a.m. to 2:30 p.m.; Monday-Friday; from March 14, 2022, through October 3, 2022. Several work boats and work platforms will be located around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (856) 472-5714 or (609) 707-7439. Mariners should notify the work foreman no less than thirty minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

Maryland

Lower Potomac River - Harry W. Nice/Thomas “Mac” Middleton (US 301) Bridge - Construction will commence in May 2020, with completion estimated in November 2024. Work is scheduled from 7:00 a.m. to 7:00 p.m., Monday through Saturday, with limited work outside those hours for special operations. To facilitate bridge construction, a barge loading facility will be constructed on the Maryland shore and work vessels will be located north of the existing bridge extending outward from the Virginia shore to approximately 320 feet and from the Maryland shore to approximately 200 feet. Dredging will occur from the end of the Virginia work tide until the water depth reaches 6 feet at mean lower low water. A vertical clearance of 135 feet above mean water and horizontal clearance of 250 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (KB)

Lower Potomac River - Harry W. Nice/Thomas “Mac” Middleton (US 301) Bridge – To facilitate the setting of structural steel across the federal navigation channel at the new bridge the Coast Guard will establish a temporary safety zone for certain navigable waters of the Potomac River, during January 21, 2022 – February 4, 2022. At all times during this period, a large crane barge is required to be positioned within the federal navigation channel. The critical heavy lift operations will impede vessels requiring the use of the channel in this area. The safety zone will cover all navigable waters of the Potomac River, encompassed by a line connecting the following points beginning at 38°21′50.96″ N, 076°59′22.04″ W, thence south to 38°21′43.08″ N, 076°59′20.55″ W, thence west to 38°21′41.00″ N, 076°59′34.90″ W, thence north to 38°21′48.90″ N, 076°59′36.80″ W, and east back to the beginning point, located between Charles County, MD and King George County, VA. These coordinates are based on datum NAV 83. The safety zone will be enforced continuously, from 7 a.m. on January 21, 2022, through 8 p.m. on February 4, 2022. Under the general safety zone regulations in Part 165 (except for marine equipment operated by Skanska-Corman-McLean, Joint Venture, or its subcontractors, you may not enter the safety zone described unless authorized by the Captain of the Port Maryland-National Capital Region (COTP) or the COTP’s designated representative. To seek permission to enter, contact the COTP or the COTP’s representative by telephone number 410-576-2693 or on Marine Band Radio VHF-FM channel 16. Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or their designated representative. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies. Vessel traffic not required to use this section of the federal navigation channel may be safely transit around the safety zone under the next bridge span to the east or west of the federal navigation channel, but do so at their own discretion. A “bridge work—danger—stay AWAY” sign facing the northern and southern approaches of the navigation channel will be posted on the sides of the marine equipment on-scene within the location described. The Coast Guard will issue a Broadcast Notice to Mariners via VHF-FM marine band radio about the status of the safety zone. Interested persons can contact U.S. Coast Guard Sector Maryland-NCR Waterways Management Division at telephone number (410) 576-2674 or (410) 576-2693. (KB/RH)

Susquehanna River - I-95 (Millard E. Tydings Memorial/John F. Kennedy Memorial Highway) Bridge – Bridge maintenance will be conducted from 7 a.m. to 5 p.m., Monday-Friday; from June 15, 2023, through April 6, 2024. A 60 x 60 foot crane barge, a 34 x 90 foot work barge, and a work vessel will be located in and around the main navigation span of the bridge, while three adjacent alternative navigation spans of the bridge, reducing the horizontal clearance of the adjacent alternative navigation span to approximately 330 feet of horizontal clearance. Maintenance personnel, equipment and vessels will relocate from the main navigation span and/or adjacent alternative navigation spans, upon request. Vessels that can safely transit through the main navigation span and/or the adjacent navigation span of the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge main navigation span and/or adjacent alternative navigation span during periods with a reduced horizontal clearance may transit through the bridge spans may do so if at least a two-hour prior notice is given to the project foreman. During non-work hours the crane barge and work barge will be spudded or tied parallel to the pier. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (484) 798-3224. Mariners should use caution navigating through the area. (MT)

Spa Creek - MD181 (6th Street) Bridge – Bridge inspection will be performed on Friday, May 20, 2022, from 9 a.m. to 3 p.m. During this inspection, one work vessel and a snorecker will be located in and around the navigation channel. Inspection personnel, equipment and the vessel will...
relocate from the navigable channel, if at least a 10-minute notice is given. Vessels able to safely pass through the bridge in the closed position may do so, after receiving confirmation from the bridge tender that it is safe to transit through the bridge. Work vessel and bridge tender may be reached on VHF-FM channel 13. The project manager may be reached at (410) 935-9280. Mariners should use caution navigating through the area. (CT)

C&D Canal - Reedy Point Bridge and Summit Bridge - Reedy Point, New Castle County DE and in Chesapeake City MD, respectively. To facilitate painting operations, equipment, including the available vertical clearance by two feet to approximately 133 feet, above mean high water. The northern half of the span’s clearance will be reduced to 133 feet above mean high water from May 16, 2022, to June 17, 2022, and the southern half will be reduced from June 20, 2022, to July 21, 2022. Mariners should check for future notices on this project and should use extreme caution when transiting the area. (MS)

- Washington DC
  - Anacostia River - Frederick Douglass Memorial (South Capitol Street) Bridge – Construction of the new Frederick Douglass Memorial (South Capitol Street) Bridge and demolition of the old bridge across the Anacostia River in Washington, DC continues into 2022. The work is primarily being conducted Mondays through Saturdays, between 7 a.m. and 7 p.m., with intermittent night and Sunday work. The federal navigation channel east of the original center pier, approximately 150 feet wide, remains available for navigation. Exclusion buoys labelled “DANGER” mark the active and ongoing bridge work east and/or west of the Federal Channel. Floating turbidity curtain and buoys are positioned around the old piers being demolished and supported by litt temporary piles. To support active demolition construction operations, a vessel/barge may be intermittently positioned within the east navigable channel. During these periods, the federal navigation channel to the west of the original center pier, approximately 150 feet wide, will be available to navigation. Mariners intending to transit this area are urged to contact the vessels MS. BECKY or CLAIRE MARIE via VHF-FM channels 16 and 13 when actively working on the river. (CT)

- Virginia (Northern) – None.

SECTOR VIRGINIA

- Virginia (Southern)
  - Lafayette River - US 460 (Granby Street) Bridge – Bridge maintenance which began in September 2020, will continue to be conducted from 7 a.m. to 5:30 p.m.; 7 days a week, through October 8, 2022. A 20-foot safety vessel and work platform will be in and around the vicinity of the bridge. The work platform will be located underneath the bridge, positioned adjacent to the bridge pier behind the bridge tender system as to not impede the navigational channel. Maintenance vessels will relocate from the navigable channel, upon request. The work vessel may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (757) 920-6454 or (804) 229-1669. Mariners should use caution navigating through the area. (MT)

Hampton Roads - I-64/US 60 (Hampton Roads Beltway) North and South Approach Bridges - Construction activities commenced on March 15, 2021, and are expected to continue through November 2025. Marine construction activity will take place 24-hours per day, seven days a week. The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00’ 24.12” N, 76° 19’ 18.84” W for the west span and at position 37° 00’ 24.48” N, 76° 19’ 15.60” W for the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58’ 15.24” N, 76° 18’ 03.96” W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new approach bridge spans or located within specific Mooring Areas or Safe Harbor locations.

Bridge Structures/Work Trestles & Islands – Mariners are advised to maintain a safe distance of 300 feet from all HRBT bridge structures/work trestles, HRBT North Island, and HRBT South Island. Construction managers may establish safe transit corridors through bridge structures/work trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines next to the existing trestles for the duration of the bridge construction to facilitate construction activity. Each pile will be lit by a flashing white light.

Hampton Flats Mooring Area – As charted. Changes pending. This area will contain six mooring buoys, lighted with flashing white lights, for the exclusive use of vessels involved in the HRBT Expansion project. The corners of the mooring area are marked with yellow buoys with flashing yellow lights. Mariners should use caution when transiting the area.

Phoebus Safe Harbor Area – As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. Mariners should keep clear of the area.

WilloUGHBY Bay Mooring and Safe Harbor Area – As charted. This area contains a straight row of mooring piles for the exclusive use of vessels involved in the HRBT Expansion project. The two end piles are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-685-3392 or Karleen Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373-4799 and/or email MarineOps@hrmcp.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org. (MT)

WilloUGHBY Bay - I-64/US 60 (Hampton Roads Beltway/WilloUGHBY Bay) Bridge - Construction activities began on June 7, 2021, and are expected to continue through December 2023. Marine construction activity will take place 24-hours per day, seven days a week. The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.
Bridge Structures/Work Trestles: Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending on out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area – As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536-9863 and/or email MarineOps@hrcpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbexpansion.org. (MT)

South Branch of the Elizabeth River - I-64 High Rise Bridge – Placement of structural steel over the navigation span of the bridge is scheduled from 6 a.m. to 6 p.m. on March 4, 2022. The waterway through the bridge (existing bascule drawbridge and fixed bridge under construction) will not be accessible during placement of the structural steel over the navigation span. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners, and marine safety information bulletin. Mariners are urged to use caution when transiting the area. (KB)

North Landing River - S165 (North Landing Bridge) – Bridge will not be capable of normal operation until further notice. The north span of the bridge is fully operational and the south span of the bridge will have limited operational capabilities. The drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021, except for recreational vessels. Recreational vessels able to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a limited opening (north span). Recreational vessels unable to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a full opening (both spans). Public vessels of the United States, commercial vessels, government vessels, and emergency vessels may transit through the bridge unrestricted at any time in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. The bridge will be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area. (MT)

Elizabeth River-Eastern Branch - U.S. 460/S.R. 337 (Berkley) Bridge – Bridge maintenance will be performed from 7 a.m. to 7 p.m., Monday – Friday, until July 4, 2022. A work barge and tug will be located in and around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, if given at least a 30 minute notice. Work vessels may be reached on VHF-FM channel 13 and 16. (CT)

Mariners should use extreme caution navigating through the area. (CT)

SECTOR NORTH CAROLINA

North Carolina

Oregon inlet - Herbert C. Bonner Bridge – Demolition of the old bridge is anticipated to be completed by April 30, 2022. During demolition of the old bridge, the designation of navigation spans and placement of bridge lighting will be changed several times, as reflected below, and provided via updated local notice to mariners and broadcast notice to mariners. Phase 2 (Effective April 24, 2019): The navigation spans are between bridge bents 173 and 176 (old bridge, with no superstructure between bridge bents) and bridge bents 20 and 21 (span 21) on the new bridge. The approximate limiting navigation clearances are 70 feet above mean high water (new bridge, span 21) and 169 feet between bridge bents (old bridge, between bridge bents 173 and 176). Temporary bridge lighting has been placed between bridge bents 173 and 176 of the old bridge and between bridge bents 20 and 21 (span 21) of the new bridge. Phase 3 (to be announced): The navigation span will be between bridge bents 22 and 23 (span 23) of the new bridge. The adjacent spans of the old bridge will have been removed. The limiting navigation clearances (approximate) will be 70 feet above mean high water and 275 feet between bridge bents. Permanent bridge lighting will be placed between bridge bents 21 and 22 (span 22) of the new bridge. Mariners are advised to use extreme caution when transiting through the bridge, follow the aids to navigation closely and remain at least 500 feet clear of all construction vessels and equipment. Submerged concrete pilings are just below the surface of the water near construction activities. (HP)

The Straits - Harkers Island Bridge (SR 1332) - Bridge will remain in the closed-to-navigation position to facilitate bridge repairs due to damage caused by Hurricane Florence. The repairs require the bridge to remain in the closed-to-navigation position. The bridge is a swing bridge with a vertical clearance in the closed-to-navigation position of 14 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open in case of an emergency and there is an alternate route for vessels to use. Mariners should use caution when transiting the area. (MB/HP)

Atlantic Intracoastal Waterway (AIWW) - SR 904 Bridge – Bridge maintenance will be conducted from Sunday night to Friday morning; from June 1, 2021, through May 1, 2022. During these maintenance periods, two work vessels, work floats, and a snooper truck will be located in and around the navigation channel. During work hours, the snooper truck will extend below low steel of the bridge approximately ten feet, reducing the vertical clearance in the navigation span to approximately 55 feet above mean high water. Maintenance personnel, equipment and the vehicle will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (751) 287-9289 or (703) 598-1847. Mariners should notify the work foreman no less than 30 minutes prior to transiting through the bridge. (CT)

White Oak River - S882 Bridge (near Stella, NC) – Bridge construction will commence in October 2021, with completion estimated in January 2023. Work is scheduled from 6 a.m. to 6 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, temporary work trestle will be installed in the White Oak River between October 2021, and February 2022, and will remain in place until completion. Work trestles will be located immediately adjacent and upstream of the existing White Oak River railroad trestle. The temporary trestle vertical clearance of 10.5 feet above mean high water and horizontal clearance of 33 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (CT)

South Creek - S1282/S17-133/Castle Hayne Road (HP) - Bridge construction activities will begin on December 1, 2021, and are expected to finish on April 2, 2023. Work will be on-going from 7 a.m. through 6 p.m.; Monday through Saturday. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletin. A material barge, support vessel, and crew boat will be operating or stationed in the vicinity of the existing and new bridge. Temporary work trestles will also be constructed adjacent to the existing and new bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Civil Works Contracting barge and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The NCDOT Resident Engineer may be contacted at (910) 620-9829 and Civil Works Contracting may be contacted at (252) 240-9967 or via email MarineOps@hrcpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbexpansion.org. (CT)

Atlantic Intracoastal Waterway - Onslow Beach Swing Bridge – Temporary work platforms will be installed on either side of the AICW, just north of the bridge. The platforms will be in place for the duration of construction of the new bridge and demolition of the existing bridge. Crane operators and the bridge tender may be reached on VHF-FM channel 13. Mariners should use caution when transiting the area. (CT)
**Banks Channel - South Bank Channel Bridge** – Bridge maintenance will be performed from 6 a.m. to 7 p.m., 7 days a week, from January 3, 2022, through August 17, 2022. During the repair period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 4 feet above mean high water. Vessel traffic will need to use an alternate route. Work vessels may be reached on VHF-FM channel 13 and 16. (CT)

**Perquimans River - US 17 Bridge** – New bridge is under construction until August 2022. Vessels able to pass through the bridge in the closed position may do so at any time. Mariners should exercise caution when transiting the area. (HP)

Permits/Construction:

**SECTOR DELAWARE BAY**

- **Delaware** – None
- **New Jersey (Central & Southern)** - None
- **Pennsylvania** – None

**SECTOR MARYLAND-NATIONAL CAPITAL REGION**

- **Maryland Potomac River - Theodore Roosevelt (fixed) Bridge** - DDOT is conducting an investigation and assessment of the bridge. Will assess structural condition, needs for extended life cycle, and safety compliance improvements. Then will do a design analysis of alternatives with construction in the future (no date given).
- **Washington, DC – Anacostia River – 11th Street Bridge** Park – Proposed fixed pedestrian bridge park to be built on retained substructure of old 11th Street Bridge. (KB)
- **Virginia (Northern)** – None

**SECTOR VIRGINIA**

- **Virginia (Southern)** – None

**SECTOR NORTH CAROLINA**

- **Mid-Currituck Sound (fixed) Bridge** – Proposed new fixed structure. (MS)
- **Alligator River – US 64 (fixed) Bridge** Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package. (HP)
- **Cape Fear River – Wilmington bypass south (fixed) Bridge** Proposed new fixed bridge structure in review of the design and environmental package. (MT)
**SUMMARY OF DREDGING/MARINE CONSTRUCTION PROJECTS CURRENTLY IN PROGRESS**

Enclosure (3)

NEW OR UPDATED INFORMATION

New, updated or very important information in this enclosure are highlighted in yellow.

**DREDGING AND MARINE CONSTRUCTION CAUTIONS**

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted 24 hours a day, 7 days a week. All fishnets, crab pots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

**New Jersey**

**NJ – WILMINGTON TO PHILADELPHIA – OLDMANS CREEK – DREDGING**

Starting on August 9, 2021, R.E. Pierson Construction Co., Inc. will be conducting dredging to facilitate vessel travel and installation of steel sheet bulkhead along Oldman’s Creek. Project begins within an area of the Delaware River located at Latitude 39.78221, Longitude -75.442119, near River Mile Marker 76, in New Castle County, Delaware, and extends into Oldmans Creek to Latitude 39.785794, Longitude -75.407103, just west the U.S. Route 130 Bridge, in Oldmans and Logan Townships, Salem and Gloucester Counties, New Jersey. Elliot 370 floating dredge and “REP 9” #3406 tug boat will utilize 12” diameter HDPE fused dredge pipe supported by orange pipe floats to remove material. All vessels will be marked in accordance with CG regulations. REP 9 will monitor VHF-FM channel 10 and 11. Project is on hold and may resume early Summer 2022. For more information, contact R.E. Pierson Construction Co. Inc. 856-769-8244.

Chart 12312.

**Pennsylvania**

**PA – SCHUYLKILL RIVER – DREDGING AND CONSTRUCTION**

Dredging and Construction work will begin 07 February 2022 and continue through May 2025 on the Schuylkill River in Philadelphia, PA. The company PKF MARK III will be installing concrete piers and bridge decks along the banks of the Schuylkill River between the 34th street Bridge and the Schuylkill Arsenal Railroad Bridge. There will be deck barges and crane barges in the vicinity of the bridges, so mariners are advised to transit the area with caution. For more information regarding this operation contact the POC Jim Doyle at 484-680-8550.

Chart 12313.

**PA/NJ – DELAWARE RIVER – SAMUEL S. BAXTER WATER TREATMENT PLANT – DREDGING OPERATIONS**

Mobile Dredging & Video Pipe, Inc. (MDVP) will begin installing approximately 3,000 to 4,000 feet of dredge pipeline across the Delaware River to pump from the Philadelphia Water Department Baxter Water Treatment Plant Residuals Lagoon to a confined disposal facility on the southern (New Jersey) side of the river. The dredging work is set to take place between July 2021 and December 2022. The pipeline will be sunk to the bottom of the Delaware River in the navigable channel with heavy marine chain. The pipe will be gradually released to the water surface outside of the navigable channel until it reaches the shorelines. The chain on the pipe will secure the pipeline during any major weather events. Dredging operations will generally operate Monday through Saturday during daylight hours. Approximate GPS positions: 40°26.68’N; 74°59.54.26”W to 40°11.74’N; 74°59.53.46”W. Mariners are advised to maintain a safe distance from all pipeline equipment. All marine equipment will be marked in accordance with U.S. Coast Guard regulations and requirements. Work boat WB33 and a second work boat will be utilized to stage and lay the pipeline at the beginning of the operation. Furthermore, the crew will be communicating on work channel 72 while also monitoring channel 13. 24 Hour contact: Conor Surgeoner – (610) 299-1252 (MDVP) 24 Hour contact: Frank Branagan – (856) 265-3558 (JPC Group, Inc.)

Chart 12313, 12314

**Delaware**

**DE - NJ – DELAWARE RIVER – DEEPWATER RANGE - DREDGING OPERATIONS 4.32**

The Dredge ESSEX will commence dredging operations in the Deepwater Range of the Delaware River on or about April 12, 2022. The project will continue until approximately June 1, 2022. A submerged pipeline will run from the dredging area to the Kilchook Disposal area on the New Jersey side of the river. A floating pipeline will connect the dredge to the submerged pipeline. The submerged pipeline will need to be moved occasionally as the dredge progresses.

The Dredge Operator will standbby on channels #13 and #16 VHF-FM. Traffic should call 30 minutes prior to expected time of passage. All mariners are requested to stay clear of the dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires about the dredge. Operators of vessels of all types should be aware that the dredge and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipelines, barges, derricks, wires and related equipment.

Owners and lessees of fishnets, crabpots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tenderboats and other attendant equipment will be navigating. Since the project will be conducted twenty–four (24) hours per day seven (7) days a week, all fishnets, crabpots and structures in the general area must be removed prior to the commencement of the work.

Chart 12311.
DE - NJ – DELAWARE RIVER – NEW CASTLE RANGE – DREDGING OPERATIONS
The Dredge CHARLESTON will commence dredging operations in the New Castle Range of the Delaware River on or about May 25, 2022. The project will continue until approximately July 10, 2022. A submerged pipeline will run from the dredging area to the Kilcohook Disposal area on the New Jersey side of the river. A floating pipeline will connect the dredge to the submerged pipeline. The submerged pipeline will need to be moved occasionally as the dredge progresses.

The Dredge Operator will standby on channels #13 and #16 VHF-FM. Traffic should call 30 minutes prior to expected time of passage. All mariners are requested to stay clear of the dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires about the dredge. Operators of vessels of all types should be aware that the dredge and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipelines, barges, derricks, wires and related equipment.

Owners and lessees of fishnets, crabpots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tenderboats and other attendant equipment will be navigating. Since the project will be conducted twenty-four (24) hours per day seven (7) days a week, all fishnets, crabpots and structures in the general area must be removed prior to the commencement of the work.

FOR FURTHER INFORMATION CONTACT: Norfolk Dredging Company, Post Office Box 1706, Chesapeake, Virginia 23327, TEL: 757-547-9391.

Maryland

MD – BALTIMORE HARBOR – SEA GIRT BERTH 3 – DREDGING OPERATIONS
Corman Kokosing Construction Company will begin dredging operations, on behalf of Ports America, will commence on or about March 15, 2021 at Sea Girt Berth 3, in the vicinity of 39°14’10” N, 76°32’40” W. Loaded scows will be towed from this location to the Unloader “SN3” located at the Masonville Dredge Containment Facility (39°15’10” N, 76°35’20” W) for offloading on a daily basis. A 16’ submerged HDPE pipeline will be placed on the sea bottom from the Unloading Barge into the placement Facility, located in the vicinity of 39°15’15” N, 76°35’30” W. The Dredge KOKO VI will be dredging the area with the assistance of a Tender Tug, Towing Tug, and three scows. Temporary emergency anchors will be placed near the Unloader #3, in the vicinity of 39°15’40” N, 76°35’00” W and near Sea Girt in the vicinity of 39°15’00” N, 76°33’00” W to assist with operations.

All vessels and crew will monitor VHF channels 13 and 5 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of June 1, 2022. For more information, contact Adam Donder, (443) 695-3788, sdondero@kokos.com.
Chart 12281.

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – BALTIMORE HARBOR – DREDGING OPERATIONS
Maintenance dredging operations are scheduled to occur within the Baltimore Harbor and Approaches federal navigation projects, from on or about March 2, 2022 until on or before July 20, 2022, 24 hours daily (Monday through Sunday). Cashman Dredging and Marine Contracting Co., LLC will perform the work in the Baltimore Harbor Channels, including Craighill Entrance Channel, Cutoff Angle, and Fort McHenry Channel. Bar dragging operations will be conducted in the Northwest Harbor East Channel. Marine equipment will be located throughout the dredging work areas during operations, utilizing the 180-foot long Clamshell Dredge DALE PYATT. Dredged material will be transported in the dump scows JOE VERROCHI, M.E.R.C. SHEVLIN, KURT SCHULTE and WEEKS 118 to the Northern Access Channel Turning Basin at Poplar Island in Talbot County, MD for placement by the off-loader barge KRAKEN. Loaded scows from the Fort McHenry Channel will be transported to the Cox Creek Dredged Material Containment Facility in Baltimore Harbor for placement by the off-loader barge KRAKEN. Towing vessels involved include the CHARLES JAMES, MICHAEL DAIGLE, JOHN JOSEPH, BERING DAWN and MISS ILA. The marine equipment will be accompanied by the survey vessel CAPE ELIZABETH and support vessel BROOKS HOOKS. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. Mariners can contact the vessels on marine band radio VHF-FM channels 16, 13 and 67. Charts 12278, 12281, 12270.

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – PATAPSCO RIVER – AERIAL TRANSMISSION LINE CONSTRUCTION
Marine construction operations in support of the installation of aerial electric power transmission lines will occur on the Patapsco River, between Hawkins Point and Sollers Point north and adjacent to the Francis Scott Key Memorial (I-695/Baltimore Beltway) Bridge until Oct 7, 2022. The work will occur 24 hours per day, 7 days per week, in approximate positions: (1) 39°12’46.8377” N, 76°32’14.0536” W; (2) 39°12’58.5610” N, 76°31’58.7405” W; (3) 39°13’13.7886” N, 76°31’38.7851” W; (4) 39°13’26.6084” N, 76°31’21.9825” W; and (5) 39°13’39.4271” N, 76°31’05.1787” W. McLean Contracting Company marine equipment spudded on site will include: (1) a sectional barge (120’x120’x7’) with Manitowoc Crane, (2) the Whirley Crane Baltimore barge (140’x70’x12.5’); (3) the Whirley Crane Hampton Roads barge (108’x46’x8’); (4) a Whirley Crane Newport News barge (110’x43’x8’); and (5) a deck barge.

Mariners are urged to use caution when transiting the area, and to operate at minimum wake speed necessary to maintain safe course near the work site. Interested mariners can contact the attending vessels on site, including “WB29”, “MEGALADON”, “RISING SUN”, “CAPTAIN STEVE”, crewboat and jackboats on marine band radio VHF-FM channels 16 and 13. Throughout the construction project, the Baltimore Gas and Electric Company will regularly provide updates at website: https://www.bge.com/SmartEnergy/InnovationTechnology/Pages/Construction-Updates.aspx.
Chart 12281.

MD – CURTIS BAY – FUEL PIER CONSTRUCTION
McLean Contracting Company will begin rehabilitation of Fuel Distribution Pier starting on January 3, 2022 to July 1, 2022. Work will be conducted 24 hours, 7 days per week and will require two barges to be moored in the vicinity of pier. Approximate location of project is 39°13’31” N, 76°34’03” W. For more information contact Mr. Ed Barrickman, Superintendent, 412-228-9715, or Mr. Mike Hodeen, Project Manager, 757-620-0854. Chart 12281, 12278.

MD – PATAPSCO RIVER – NABBS CREEK – TIDAL WETLAND SHORELINE STABILIZATION PROJECT
Century Engineering Inc., on behalf of Baltimore Gas and Electric Company (BGE) will begin a wetland and shore stabilization project on Nabbs Creek behind the Chestnut Hill Cove residential community, beginning January 17, 2022 and continuing into Fall 2022. All work will be conducted from shore via an access road. For more information, contact Century Engineering at 443-589-2400.
VA – POTOMAC RIVER – ALEXANDRIA CHANNEL – CONSTRUCTION
River Renew will begin building a turbidity curtain on October 25, 2021 in approximate position 38.8096919N, 77.038250912W. Once turbidity curtain is complete, a permeant seawall will be built, shore side of curtain. All work will be conducted from shore; however, seawall could extend 30ft into Oronoco Bay and the Potomac River. Project completion, anticipated to be August 2024.

Chart 12289.

VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE CHANNEL – DREDGING
The Dutra Group has been contracted to dredge the Chesapeake Channel from Chesapeake Channel Lighted Buoy 13 & 14 (LLNR 7105, 7110) to Chesapeake Channel Lighted Buoy 3 & 4 (LLNR 7045, 7050). Dredging will be performed by the hopper dredge “Stuyvesant”. All dredged material will be transported to Disposal Site Dam Neck Management Area Cell 1, centered at Lat. 36°50’40.67″N Long. 75°53’49.40″W, approximately 9 nm SE of Green Buoy 3 (end of dredge area). A Tug (John Parish) and barge will be operating in the area as well in support of the Stuyvesant.

Dredging is scheduled to start on or about December 14, 2021 and completed on or about May 30, 2022. Work will continue 24 hours a day, 7 days a week. The Stuyvesant will use and monitor VHF Channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed.

Limits for “hydraulic uploading area” and “pipeline corridor” will be bound by the following approximate positions:

- 36°55′12.31″N, 76°20′23.22″W
- 36°55′12.80″N, 76°21′18.47″W
- 36°58′19.19″N, 76°06′46.66″W
- 36°58′12.83″N, 76°06′24.32″W
- 36°58′31.05″N, 76°06′17.10″W
- 36°58′36.92″N, 76°06′38.73″W
- 36°54′37.60″N, 76°02′23.22″W
- 36°54′32.80″N, 76°02′18.47″W

VA – CHESAPEAKE BAY ENTRANCE – THIMBLE SHOAL CHANNEL – DREDGING
Great Lakes Dredge & Dock Company, LLC (GLDD) with the hopper dredge M/V ATB Douglas B. Mackie & Trailing Suction Hopper Dredge Ellis Island will commence dredging operations in the Thimble Shoal Channel between coordinates point A, 36.974136°N-076.118595°W, point B, 36.977535°N-076.117231°W, point C, 36.953496°N-076.024393°W, point D, 36.950099°N-076.025762°W on approximately April 18, 2022. Dredged material will be transported to DAM NECK OFFSHORE DISPOSAL SITE and bottom dumped in the contact designated area by the dredge.

VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE BAY BRIDGE TUNNEL – MARINE OPERATIONS
Chesapeake Tunnel Joint Venture will continue Tug, Crane and Barge operations near the existing tunnel protection berms for Islands 1 and 2. Work will not impede the navigational channel. A crane barge may be held in place by way of spuds, a six point anchoring system or made fast to several steel mooring piles. Buoys will be attached to the anchors so that they may be moved as the crane barge advances. Buoys will be illuminated at night by one second flashing white lights and the barges will be illuminated by steady white lights on all corners. The steel piles will be illuminated at night by white lights. The steel piles and trestle will be positioned west of Island #1 approximately 125 feet and extending north of the fishing pier approximately 1000 feet. The ROBERT T and ANGELINA AUTUMN will be on VHF-FM 13 and 16.

Charts 12222.

VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGING
Starting approximately April 20, 2022 and continuing until approximately June 25, 2022. Weeks Marine Inc. will be mobilizing equipment in the vicinity of Chesapeake Bay, City of Norfolk, Virginia. Starting approximately April 25, 2022 and continuing until approximately June 10, 2022. The Clamshell Dredge “Weeks 506”, Weeks “320 Unloader”, crew boats: “Timothy V.” “Swift runner”, Tugs: “Shannon Dann” “Liz Alma”, Scows (111 & 112) and tender tugs: “Stephen Dann”, “Virginia” will be operating in the vicinity of the Chesapeake Bay. All dredged material will be towed and pumped through a combination of floating and submerged line into the approved Craney Island Dredged Material Management Area (CIDMMA). The dredge and tugboats will monitor marine VHF Channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. Pipelines and equipment will each have all required U.S. Coast Guard lighting for night operations.

For questions, contact Dave McNeill - (985) 237-5069 (mobile), dcmcnell@weeksmarine.com (email).

Chart 12256.
VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGING

***Delayed*** Starting approximately (delayed – Estimated May/June). Weeks Marine Hopper Dredge “Lindholm” will be operating in conjunction with support equipment between Thimble Shoal Channel Thimble Shoal Lighted Buoy 19 (LLNR 9305) and Thimble Shoal Lighted Buoy 7 (LLNR 9235) stopping west of Chesapeake Bay Bridge-Tunnel. All dredged material will be transported to the approved Dam Neck Ocean Disposal Site – DNODS - Cells 5, 6, & 7.

Work limits for the Thimble Shoal Channel will be bound by the following approximate positions:

37° 15' 1.24'' N, 76° 15' 57.82'' W
36° 59' 11.10'' N, 76° 6' 41.27'' W
36° 57' 35.00'' N, 76° 7' 25.25'' W
36° 59' 53.72'' N, 76° 16' 36.67'' W

Limits of Dredged Material Placement Area will be bound by the following approximate positions:

36° 51' 0.07'' N, 75° 55' 41.74'' W
36° 51' 45.15'' N, 75° 51' 16.40'' W
36° 45' 47.19'' N, 75° 50' 54.07'' W
36° 45' 45.72'' N, 75° 55' 33.04'' W

The dredge will monitor VHF-FM channels 13 and 16. For questions, contact Dave McNeill - (985) 237-5069 (mobile), dcmcnell@weeksmarine.com (email).

Chart 12256.

VA – LYNNHAVEN BAY – LINKHORN BAY – BRIDGE CONSTRUCTION

Allan Myers is conducting road widening and bridge replacement on Laskin Road in Virginia Beach, VA until Oct 2022. Bridge passes over Great Neck Creek. A cofferdam and turbidity curtains are installed at the site. For more information contact Pat Robinson at 610-960-3139.

Chart 12222.

VA – HAMPTON ROADS – ELIZABETH RIVER – NAVAL STATION NORFOLK – DREDGING

Curtin Maritime (CMC) will be conducting dredging activities commencing on or about February 7, 2022 and conclude on or about May 30, 2022 within Naval Station Norfolk. During this time, CMC will be operating 24 hours per day / 7 days per week (Monday through Sunday). Material will be dredged from within Pier 11S, Pier 6 North and Pier 5 North into hopper barges that will transit the Elizabeth River to be offloaded into the Craney Island Dredge Management Material Area and return to NSN. Barges will also depart from Pier 11S and transit the James River to Shirley Plantation for offload then return to NSN. Equipment for this operation will consist of 1 Clamshell Dredge, 6 Hopper Scows, Support Tugs: Taurus, Merrimac, Bunny C, and 1 Offloader Spud Barge.

All manned equipment will monitor VHF-FM Channels 13, 14 and 01A. Mariners are urged to transit at their slowest safest speed to minimize wake and proceed with caution after passing arrangements have been made.

For more information, contact Mr. Mike Patria at (630-418-1190).

Chart 12245.

VA – ELIZABETH RIVER – WESTERN BRANCH – BRIDGE CONSTRUCTION

Until March 2023, McLean Contracting will be conducting bridge demolition, and replacement of the Churchland Bridge on the Western Branch of the Elizabeth River. Signs have been installed on both sides of the bridge worded “OVERHEAD BRIDGE CONSTRUCTION 500 FEET AHEAD”. A temporary pile crane trestle will be extending approximately 600ft from either shoreline on the North side of the bridge. Barges and tugs will be on scene throughout the project and may be contacted on VHF-FM Channels 03, 13 and 16. For information, contact Scott White at 757-641-2132. LNM 23/20 Chart 12253.

VA – ELIZABETH RIVER – EASTERN BRANCH – PIER CONSTRUCTION

Beginning approximately January 31, 2022, and continuing until approximately June 1, 2023, Crofton Construction Services Inc. will commence constructing two 200’ travel slip concrete piers and dredging down to 24’ at the Lyon Shipyards along the Eastern Branch of the Elizabeth River, approx. position 36-50-28’N, 076-16-04’W. Operations will include crane barge operations, material barges, tugboats, work floats, and smaller crafts consistent with general marine construction. Barge(s) & vessel(s), will be moored, on site with employees working over the side on small floats or crew boats. The construction equipment will be confined, to the barges with crew boats working in the vicinity. The entire channel, will not be closed, during any stage of construction, or will not restrict marine traffic. Vessels are requested to proceed in this area with caution and no wake within 500’ of the above coordinates. Crews will be monitoring the following radio frequencies: VHF Channels 13 & 16.

Chart 12253.

VA – ELIZABETH RIVER – PORTSMOUTH WATERFRONT – NORTH STREET FERRY LANDING TO TIDWATER YACHT MARINA – SEAWALL CONSTRUCTION

Crofton Construction will be conducting repairs to the seawall located in the Elizabeth River at the following locations: 36° 50’20”N, 076°17’45”W, and 36° 50’25”N and 076°17’46”W. Beginning November 09, 2020 and continuing until Spring 2022 or until complete. Construction operations will include, barge and crane operations, in conjunction with general marine construction. Barges and vessels will be moored on site with employees working over the side on small floats at times along with crew boats. The construction equipment will be confined to the barges, with small crew boats, working in the vicinity. Vessels are requested to proceed in this area with caution and causing no wake. Crews will be monitoring VHF-FM Channels 13 & 16. For more information or questions, contact Olga Mileyko at 757-397-1131.

Chart 12253.

VA – ICW – ELIZABETH RIVER SOUTHERN BRANCH – DREDGING

H & H Enterprises will be dredging Paradise Creek off the southern branch of the Elizabeth River. The start date of the project is August 23, 2021 and the estimated finish date is September 1, 2022. H & H Enterprises will be dredging the creek and placing deposits on deck barges. The barges will be in transit from Paradise Creek to Bainbridge Recycling, near Elizabeth River Southern Branch Daybeacon 31 (LLNR 37075), on the southern branch of the Elizabeth River. The “Miss Jennifer” will be monitoring VHF channels 13 and 16, while in transit with dredge spoils. The point of contact for the project will be Scott Hodges, at 757-435-9667.

Chart 12206.
VA – NEWPORT NEWS TO JAMESTOWN ISLAND – DREDGE OPERATIONS
Corman Kokosing Construction Company will begin mechanical dredging operations on or about April 14, 2022 at the Newport News Shipbuilding facility located on the James River. Loaded scows will be towed from the Shipyard to the Unloader barge located at the Craney Island Dredged Material Management Area. The unloader barge will be staged north of the Craney Island Rehandling Basin, on the West side of the Elizabeth River and outside the channel in the vicinity of the Craney Island Reach. A 16'-18' submerged HDPE pipeline will be placed on the river bottom from the Unloading Barge into the placement Facility.

The Dredge KOKO V will be dredging with the assistance of a tender tug, towing tugs and scows. Vessels and crew will monitor VHF channel 13 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of January 01, 2023. For more information, contact Adam Donder, (443) 695-3788, adondero@kokos.com
Charts 12273, 12274, 12280.

VA – JAMES RIVER – SKIFFES CREEK CHANNEL – DREDGING
Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington will be performing dredging operations at Skiffes Creek Channel on the James River between Skiffes Creek Channel Lighted Buoy 2 (LLNR 11825) and Skiffes Creek Daybeacon 9 (LLNR 11870). Dredging will be performed between April 4, 2022 and June 27, 2022. The dredge Lexington monitors VHF channels 13 and 6. Owners and lessees of fishnets, crab pots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tender boats and other attendant equipment will be navigating. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week, all fishnets, crab pots and structures in the general area must be removed prior to commencement of any work, a slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.

Chart 12248.

VA - JAMES RIVER - NEWPORT NEWS TO JAMESTOWN ISLAND – BREAKWATER CONSTRUCTION
Chart 12248.

North Carolina
NC – SEACOAST – BEACH NOURISHMENT DREDGING OPERATION
Starting approximately May 15, 2022, equipment and pipeline will be mobilized to a staging area located in the vicinity of Oregon Inlet, Dare County, NC. The staging area will be bound by the following approximate positions: 35°46‘38.88”N, 75°31‘40.99”W - 35°46‘45.90”N, 75°31‘58.85”W - 35°46‘30.09”N, 75°31‘43.53”W - 35°46‘30.64”N, 75°31‘30.15”W.
Dredged material will be transported by the hopper dredge(s) to a pump-out station, to be pumped to the beach placement site(s) through a combination of floating and submerged pipeline. Pipeline corridor at Kill Devil Hills, Kitty Hawk and Southern Shores will be bound by the following approximate positions: 36°01‘17.83”N, 75°39‘44.63”W - 36°01‘41.19”N, 75°38‘44.13”W - 36°09‘30.30”N, 75°43‘17.85”W - 36°09‘06.50”N, 75°44‘26.54”W.
Pipeline corridor at Duck Beach will be bound by the following approximate positions: 36°12‘23.51”N, 75°45‘45.54”W - 36°11‘10.93”N, 75°45‘10.44”W - 36°11‘29.12”N, 75°43‘59.50”W - 36°12‘50.00”N, 75°44‘35.02”W.
Starting approximately 1 June 2022 and continuing until approximately November 22, 2022, Hopper Dredge(s) B.E. Lindholme and R.N. Weeks is working in the offshore borrow area located just southwest of Kill Devil Hills shoreline. Work limits will be bound by the following approximate positions: 36° 01‘37.94”N, 75°33‘35.75”W - 36° 32‘19.95”N, 75°32‘31.25”W - 36° 01‘43.33”N, 75°32‘34.10”W - 36° 01‘12.77”N, 75°33‘46.62”W.
Once underway, dewatering operations will continue on a twenty-four (24) hours per day, seven days per week basis. Hopper dredges and tugs will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. Hopper dredge(s), pipeline and equipment will each have all required U.S. Coast Guard lighting for night operations. please contact Project Manager(s) on-site: James Ferguson - (985) 273-1286, jcferguson@weeksmarine.com.
Chart 12200.

NC – PAMOLCO SOUND – OUTER BANKS – US 12 - BRIDGE CONSTRUCTION
Construction will take place on the new US-12 Bypass Bridge (also known as Jug Handle) from Jan 2019 through March 2022 on the Outer Banks of NC. This bridge extends approximately 2.5 from the southern end of the Pea Island National Wildlife Refuge over the Pamlico Sound into Rodanthe. The air draft along the new bridge during construction will be restricted to 14 feet. https://www.ncdot.gov/projects/nc-12-rodanthe/Pages/default.aspx
Chart 12204.
***NC – SEACOAST – BEACH NOURISHMENT DREDGE OPERATIONS – AVON AND BUXTON NC***

Great Lakes Dredge and Dock has been contracted to perform placement of beach material in the Village of Avon and Buxton.

The M/V ATB Douglas B. Mackie & Trailing Suction Hopper Dredge (TSHD) Ellis Island and TSHD Liberty Island will dredge material from the Avon Beach and Buxton Beach Borrow Areas and pump the material to Avon and Buxton Beaches. GLDD will utilize two subline setups to pump dredged material to the Avon Beach portion of the project and three subline setups to pump dredged material to the Buxton Beach. Waterside staging operations commenced 05/01/2022. Great Lakes Dredge and Dock is currently preparing equipment in Norfolk to mobilize the above referenced project. Pipeline rafts are being assembled within a temporary staging area situated next to Craney Island VA.

Attendant plant and pipeline rafts ~780ft in length by ~40ft in width will be towed from the Craney Island staging area to the project site, and are currently located within the Buxton Borrow Area. Equipment is anchored and lighted – boaters should avoid all staging areas. 35°15.216N, 075°28.775W, 35°15.342N, 075°28.628W, 35°15.432N, 075°28.574W, 35°15.521N, 075°28.532W, 35°15.627N, 075°28.494W.

Vessels M/V ATB Douglas B. Mackie, TSHD Ellis Island, and TSHD Liberty Island will monitor marine VHF channels 13 and 16. Chart 12200.

**NC – SEACOAST – KURE BEACH & CAROLINA BEACH – BEACH NOURISHMENT**

Great Lakes Dredge and Dock has been contracted by the Army Corp or Engineers to conduct beach nourishment. To mark borrow area and subline area, temporary buoys will be used. Buoys marking these locations should NOT be used for navigational purposes. Boaters should try to maintain a safe distance from these buoys. Great Lakes Dredge and Dock anticipates to commence mobilization activities on or around February 15, 2022. Waterside mobilization activities will include towing attendant plants and pipeline rafts. Assembly of submerged pipeline, temporary mooring of Derrick barge, Anchor Barge, pipeline and additional auxiliary equipment will be staged in Wrightsville Channel. The work under this contract consists of dredging beach quality sands from the permitted area of the Kure Beach Offshore Borrow Area B as well as, shaping, and grading the sand fill material along beach segments. Work will be performed with cutter suction dredge Texas. The hopper dredge will transport the material through a length of floating pipe to a series of pumps. The material will be conveyed from the pump out to the beach by hydraulic means through a submerged pipeline and deposited within the designated beach placement area. The dredge can be reached on marine VHF channels 13 & 16.

Dredging and Disposal Operations are often done at slow speeds with limited maneuverability. Mariners are urged to use extreme caution in the area of the dredge. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.

Project anticipated to be complete by JUNE 6, 2022 and be demobilized by the end of June. Chart 11541.

**NC – CAPE FEAR RIVER – CAPE FEAR RIVER DREDGING**

Great Lakes Dredge & Dock Company, LLC will begin dredging in the Cape Fear River and placing dredge material in Offshore Dredge Material Site (ODMDS). The ODMDS site is south of Baldhead Island in position 33°42'44.3745", 078°01'22.6315", 33°42'44.7997", 078°02'14.7023", 33°41'55.3494", 078°02'15.2760", 33°41'54.9244", 078°01'23.2138". Dredges will consist of the Hopper Dredge Dodge Island and Hopper Dredge Padre Island, and Ellis Island. Dredge areas will be between Cape Fear River Entrance Channel Lighted Buoy 5 (LLNR 33025), and Cape Fear River Entrance Channel Lighted Buoy 10 (LLNR 33060), and between Cape Fear River Channel Lighted Buoy 13A (LLNR 33095), and Cape Fear River Channel Lighted Buoy 16 (LLNR 30450). The dredges are scheduled to arrive on April 15, 2022 and begin digging operations. Operations are expected to operate 24 hours per day, 7 days a week with a completion date of July 15, 2022. Chart 11537.

*****NC – CAPE FEAR RIVER – BRUNSWICK CHANNEL – DREDGING***

The Dutra Clamshell Dredge DB PAULA LEE, Tug COLONEL, Dump Scow ES-15, Dump Scow CK-7, and Work Boat TROJAN will be operating in the Cape Fear River at the junction of the Upper and Lower Brunswick Channel. The DB PAULA LEE will be dredging the red side of the channel between Cape Fear River Channel Lighted Buoy 58 LLNR 30840 and Cape Fear River Channel Lighted Buoy 58A LLNR 30841 until approximately June 3, 2022.

During operations, the tug COLONEL will be moving the dump scows between the dredge area and the New Wilmington ODMDS placement site approximately 9 NM from the mouth of the Cape Fear River. The equipment will operate 24 hours a day, 7 days a week until the assignment is complete. Mariners are urged to proceed with caution at a slow, safe speed when passing or overtaking the project vessels. The DB PAULA LEE will monitor VHF channels 13, 16, and 66A for communication purposes.

Chart 11537.

**NC – HOLDEN BEACH – BEACH RENOURISHMENT PROJECT**

Dredging operations have been completed for the Holden Beach nourishment project. Demobilization will occur until approximately 23 May 2022. Pipeline and equipment will be anchored in the vicinity of Battery Island, near Southport, NC. The staging area is located between the approximate positions: 33°54'39.19"N, 78°05'6.21"W and 33°55'15.67"N, 77°59'53.30"W.

Demobilization will continue on a twenty-four (24) hours per day, seven days per week basis. Tugs will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. Pipeline and equipment will each have all required U.S. Coast Guard lighting for night operations. For more information, contact Project Manager(s) on-site PM, Doug Nelson – (985) 237-9667, denelson@weeksmarine.com or PM, David McNeil – (985) 237-5069, dcmcneill@weeksmarine.com, Chart 11534.
SUMMARY OF MARINE EVENTS AND FIREWORKS DISPLAYS IN THE FIFTH COAST GUARD DISTRICT

ENCLOSURE (4)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NJ – MANASQUAN INLET TO ATLANTIC OCEAN – POINT PLEASANT BEACH – POINT PLEASANT OFFSHORE GRAND PRIX - REGULATED AREA
The Point Pleasant Offshore Grand Prix powerboat races will occur on the waters of the Atlantic Ocean near Point Pleasant Beach, NJ on June 12, 2022, from 10:30 a.m. to 5 p.m. A special local regulation for the boat races will be enforced for the duration of the event restricting access to the area. As described in 33 CFR 100.501 – Special Local Regulations: Marine Events Within the Fifth Coast Guard District, the regulated enforcement area includes the following:

- All navigable waters of the Atlantic Ocean in the vicinity of Point Pleasant Beach, NJ bounded by a line connecting the following points: Latitude 40°06′50″ N, longitude 074°01′51″ W, thence east to latitude 40°05′56″ N, longitude 074°01′16″ W, thence southwest to latitude 40°03′34″ N, longitude 074°01′53″ W, thence west to latitude 40°03′39″ N, longitude 74°02′37″ W, thence north parallel to the shoreline to the point of origin.

Sponsor provided safety boats, personal watercraft, and paddleboards will be supporting the event. Mariners are urged to heed direction of event patrol, use caution when transiting the area, reduce speed and wake in vicinity of event participants. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

NJ – GREAT EGG HARBOR BAY – BEESLEY’S POINT – SWIM EVENT****
The Middle Atlantic Open Water 5K & 2.5K is scheduled for June 11, 2022, from 7:00 a.m. to 11:00 a.m. on Great Egg Harbor Bay at Beesley’s Point Sea Doo Beach, Marmora, NJ. The swim event will involve approximately 100 participants on either a 5K mile or 2.5K mile course box. Sponsor provided safety boats, personal watercraft, and paddleboards will be supporting the event. Mariners are urged to use caution, heed direction of event patrol, and minimize wake while operating in the vicinity. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

NJ – ATLANTIC OCEAN & ICW – ABSECON ISLAND – PADDLE EVENT****
The Annual Dean Randazzo Cancer Foundation Paddle for Cause is scheduled to occur on the Atlantic Ocean and ICWs surrounding Absecon Island in Atlantic County, NJ on June 11, 2022, from 8:00 a.m. to 5:00 p.m. Approximately 150 participants in a variety of paddle-craft will paddle a course around Absecon Island beginning and finishing at Ski Beach, Ventnor City. Mariners are urged to used caution when transiting the area, reduce speed and wake in vicinity of event participants. Event support patrol can be contacted on marine band radio VHF-FM channel 16. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.

NJ – WILDWOOD CREST INTRACOASTAL – SUNSET LAKE – SWIM EVENT
The Crest Best Swim Fest is scheduled for May 28, 2022, from 7:30 a.m. to 10:00 a.m. on Sunset Lake in Wildwood Crest, NJ. The swim event will involve approximately 500 swimmers on either a 1 mile or ¼ mile course beginning at the Lakeview Docks continuing within Sunset Lake and finishing on the southern end of Sunset Lake Park. Sponsor provided safety boats, personal watercraft, and paddleboards will be supporting the event. Mariners are urged to use caution and remain alert when transiting the surrounding areas, proceed at the minimum speed necessary to maintain a safe course that minimizes wake while operating near the race courses. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814.
NJ – DELAWARE BAY – LOWER TOWNSHIP – SWIM EVENT – REGULATED AREA

The Annual Escape the Cape Triathlon and Open Water Classic is scheduled to occur on the Delaware Bay near Villas and North Cape May, NJ on June 12, 2022. Approximately 2000 participants will swim one of the following courses: a .35-mile sprint, a 1-mile Olympic swim, or a 3-mile open water swim. All courses will begin from a Cape May-Lewes Ferry off-shore within the Delaware Bay, proceed adjacent to the shoreline, and finish on the beach north of the Cape May Canal West End Jetty. A regulated area has been established on the above date from 7:30 a.m. to 11:00 a.m. for the following location:

All navigable waters of the Delaware Bay in Lower Township, NJ bounded by a line drawn from: Latitude 39°0’57″ N, longitude 074°58’56″ W in Villas, NJ, thence west to latitude 39°00’59″ N, longitude 074°57’15″ W; thence south to latitude 38°58’08″ N, longitude 074°58’11″ W; thence east to latitude 38°58’04″ N, longitude 074°57’52″ W in North Cape May, NJ, thence north along the shoreline to the point of origin.

The COTP Delaware Bay or a designated representative may forbid and control movement of all vessels and persons, including event participants, in the regulated area. When hailed or signaled by an official patrol, a vessel or person in the regulated area shall immediately comply with the directions given by the patrol. The designated representative and official patrol vessels enforcing this regulated area can be contacted on marine band radio VHF-FM channel 16. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814. Chart 12304

PA/NJ – DELAWARE RIVER – PHILADELPHIA – DELAWARE RIVER WATERFRONT CORPORATION FIREWORKS - SAFETY ZONE

An aerial fireworks display is scheduled to occur on the Delaware River adjacent to Penn’s Landing in Philadelphia, PA, on May 28, 2022, between approximately 8:30 p.m. and 9:00 p.m. A safety zone will be in effect for the duration of the display to include all navigable waters with a 500 yard radius of the fireworks barge located at approximate position latitude 39°56’52″ N, longitude 75°08’9″ W. Vessels may not enter, remain in, or transit through the safety zone during the enforcement period unless authorized by the Captain of the Port or official on-scene patrol. Mariners may contact official patrol on-scene via marine band radio VHF-FM channel 16. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814. Chart 12312

***PA/NJ – DELAWARE RIVER – PHILADELPHIA – RIVERS CASINO FIREWORKS - SAFETY ZONE***

An aerial fireworks display is scheduled to occur on the Delaware River adjacent to Rivers Casino in Philadelphia, PA, on May 29, 2022, between approximately 9:00 p.m. and 10:00 p.m. A safety zone will be in effect for the duration of the display to include all navigable waters with a 500 yard radius of the fireworks barge located at approximate position latitude 39°57’39.44″ N, longitude 75°07’45.38″ W. Vessels may not enter, remain in, or transit through the safety zone during the enforcement period unless authorized by the Captain of the Port or official on-scene patrol. Mariners may contact official patrol on-scene via marine band radio VHF-FM channel 16. For any comments or questions contact Coast Guard Sector Delaware Bay, Waterways Management Division, at (215) 271-4814. Chart 12312

MD – CHESAPEAKE BAY - CHOPTANK RIVER – REGULATED AREA

Mariners are advised that the annual “Cambridge Classic Power Boat Regatta” is scheduled to occur in the Choptank River during May 21-22, 2022, from 9:30 a.m. to 5:30 p.m. on both days. As described in 33 CFR 100.501, the Coast Guard will establish a regulated enforcement area for all waters within of Hambrooks Bay and Choptank River bounded by a line connecting the following coordinates: Commencing at the shoreline at Long Wharf Park, Cambridge, MD, at position latitude 38°34’30″ N, longitude 76°04’16″ W; thence east to latitude 38°34’20″ N, longitude 76°03’46″ W; thence northeast across the Choptank River along the Senator Frederick C. Malkus, Jr. (US 50) Memorial Bridge, at mile 15.5, to latitude 38°35’31″ N, longitude 76°04’57″ W; thence west along the Hambrooks Bay breakwall to latitude 38°35’33″ N, longitude 76°05’17″ W; thence south and east along the shoreline to and terminating at the point of origin. Within the regulated area are the following described areas. Race area: Located within the navigable waters of Hambrooks Bay and Choptank River, between Hambrooks Bar and Great Marsh Point, MD. Buffer area: All navigable waters within Hambrooks Bay and Choptank River (with the exception of the Race Area designated by the marine event sponsor) bounded to the north by the breakwall and continuing along a line drawn from the east end of breakwall located at latitude 38°35’27.6″ N, longitude 76°04’50.1″ W; thence W. southeast to latitude 38°35’17.7″ N longitude 76°04’29” W; thence south to latitude 38°35’01″ N longitude 76°04’29″ W, thence west to the shoreline at latitude 38°35’01″ N longitude 76°04’41.3″ W. Spectator area: All navigable waters of the Choptank River outside of Hambrooks Bay breakwall, thence by a line that commences at latitude 38°35’28″ N, longitude 76°04’50″ W; thence northeast to latitude 38°35’30″ N, longitude 76°04’47” W; thence southeast to latitude 38°35’23″ N, longitude 76°04’29″ W; thence southwest to latitude 38°35’19″ N, longitude 76°04’31” W; thence northwest to and terminating at the point of origin. The regulated area will be enforced from 9 a.m. through 6 p.m. both days on May 21, 2022 and May 22, 2022. The Coast Guard Patrol Commander (PATCOM) or designated marine event patrol may forbid and control movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel in this area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The operator of any vessel in the regulated area shall (i) stop the vessel immediately when directed to do so by any Official Patrol and then proceed only as directed, (ii) all persons and vessels shall comply with the instructions of the Official Patrol, and (iii) when authorized to transit the regulated area, all vessels shall proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the race course. The marine event patrol and PATCOM may be contacted on VHF-FM Channel 16. The Coast Guard PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. Only designated marine event participants and their vessels and official patrol vessels are authorized to enter the race area. Spectators are only allowed inside the regulated area if they remain within a designated spectator area. Spectators may contact the Coast Guard PATCOM to request permission to either enter the Spectator Area or pass through the regulated area. If permission is granted, spectators may enter the Spectator Area or must pass directly through the regulated area as instructed by PATCOM at safe speed and without loitering. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, at (410) 576-2674 or (410) 576-2693. Charts 12266, 12268.
MD – CHESAPEAKE BAY – EASTERN BAY AND SOUTH RIVER – RHODE RIVER – SAIL AND PADDLE RACES
A series of three sail and human-powered watercraft racing events are scheduled to occur in portions of the Rhode River, Chesapeake Bay, and Rockhold Creek on May 28, 2022, between 8 a.m. and 5 p.m. Up to 62 total vessels and standup paddleboard watercraft (8-25 feet in length) will participate. The races will take place as follows: Race 1 - A long distance open water 20-mile course in the Chesapeake Bay, along the western shore of the Chesapeake Bay, between Rhode River (Edgewater, MD) and Rockhold Creek (Deale, MD), and return, from 9 a.m. to 5 p.m.; Race 2 - An intermediate-level 3-mile course in the Rhode River, up to Rhode River Light 7 (LLNR 15459), and return, from 8 a.m. to 10 a.m.; Race 3 - An advanced-intermediate level 6-mile course in the Rhode River, up to the entrances of Selman Creek and Muddy Creek, and return, from 8 a.m. to 10 a.m. All races will start and finish in the same area off Camp Wabanna. Orange tetrahedron course markers will be established for the races. Sponsor-supplied safety boats will be located at the start and along the 3-mile and 6-mile race courses. More information on the "Big Little Boat Festival" can be obtained at website https://www.clcboats.com/boatbuilding_classes/741.html. The Chesapeake Light Craft event coordinator can be contacted via VHF-FM marine band radio channels 16 and 78. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
Chart 12270.

MD – CHESAPEAKE BAY – SEVERN AND MAGOTHY RIVERS – SEVERN RIVER – REGULATED AREA
The U.S. Naval Academy will host its Blue Angels Air Show over the Severn River at Annapolis, MD on Wednesday, May 25, 2022 at 2 p.m. High-speed, low-flying fixed-wing aircraft will operate between the Severn River (US-50) Bridge and Greenbury Point, MD. The event also includes a circle and arrival at 11 a.m. and a practice demonstration at 2 p.m. on Tuesday, May 24, 2022. As described in 33 Code of Federal Regulations (CFR) § 100.501, a regulated area is established for all waters of the Severn River, from shoreline to shoreline, bounded to the northeast by a line drawn along the Severn River (US-50/301 highway) Bridge. The regulated area is bounded to the southeast by a line drawn from the U.S. Naval Academy Light at 38°58′39.5″ N, 076°28′49.0″ W, thence southeast to a point 1500 yards east of Chinks Point, MD at 38°57′41″ N, 076°27′36″ W, thence northeast to Greenbury Point at 38°58′52.7″ N, 076°27′16.4″ W. The effect will be to restrict vessel traffic on the Severn River and College Creek. All coordinates reference Datum NAD 1988. The regulated area will be enforced from 9:30 a.m. to 5 p.m. on May 24, 2022, and from 9:30 a.m. to 5 p.m. on May 25, 2022. Mariners are urged to schedule their transit beyond the enforcement times on both days. The Captain of the Port may assign one or more official patrol vessels, as described in 33 CFR § 100.40. The patrol vessels and Event PATCOM can be contacted on Marine Band Radio, VHF-FM Channel 16. The Event PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. The Event PATCOM or Official Patrol may forbid and control the movement of all vessels and persons in the regulated area. When hailed or signaled by an Official Patrol vessel, the person or vessel being hailed must immediately comply with all directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The operator of a vessel in the regulated area must stop the vessel immediately when directed to do so by an Official Patrol and then proceed only as directed. A person or vessel must comply with all instructions of the Event PATCOM or Official Patrol. A vessel operator may request permission to enter and transit through the regulated area by contacting the Event PATCOM or Official Patrol on VHF-FM Channel 16. When authorized to transit through the regulated area, the vessel must proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the event area. A temporary access channel (marked with red buoys and green buoys) will be established near Horn Point, to allow vessels to transit into and out of Annapolis Harbor during the event; vessels operating in this area will do so at their own discretion. At no time will spectators be permitted to obstruct either the temporary access channel or the federal navigation channel outside the regulated area. A "Commercial Vessel Spectator Zone" (marked with yellow buoys) is located immediately adjacent to the temporary access channel, bounded by a line commencing at 38°58′38.2″ N, 076°27′56.9″ W, thence southeast to 38°58′24.9″ N, 076°27′27″ W, thence west to 38°58′22.3″ N, 076°27′54.5″ W, thence west to 38°58′23.3″ N, 076°28′11″ W, thence east to point of origin. This designated spectator area lies generally in the center portion of Middle Ground Anchorage, Severn River, MD, and is restricted to commercial small passenger vessels pre-approved by the Captain of the Port Maryland-National Capital Region for spectator area access, as described in Paragraph (h)(1) of 33 CFR § 100.501. Mariners should expect the presence of a single U.S. Navy Yard Patrol craft positioned in the middle of the Severn River during May 24-25, 2022, used to mark the centerline of the air show aerobatics box. In addition, on May 24, 2022 and on May 25, 2022, orange inflatable floating markers will be placed along the northern and southern boundaries of the air show aerobatics box. All persons and vessels shall remain outside the designated air show aerobatics box. The Coast Guard will issue a marine information broadcast on VHF-FM marine band radio announcing specific event date and times. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2674 or (410) 576-2693. During the events, the Coast Guard Station Annapolis Officer-of-the-Day can be contacted at (410) 267-8108. For any comments or questions regarding this article, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674, or email D05-DG-SectorMD-NCR-MarineEvents@uscg.mil.

MD – CHESAPEAKE BAY – SEVERN RIVER – SAILING REGATTA (WEEKLY SERIES)
An annual sailboat racing weekly series is scheduled to occur in the Severn River each Thursday evening during May 5, 2022-August 25, 2022, between 6 p.m. and 9 p.m. Up to 80 participants (small keel sailboats, 19-24 feet in length) will race in heats within two courses located between the mouth of the Severn River and the Severn River Middle Ground Anchorage. Mariners are urged to use caution and remain alert for other watercraft when transiting the area, proceed at the minimum speed necessary to maintain a safe course that minimizes wake while operating near the race courses. Race committee support vessels will be on scene. Event information is available at website http://jworldannapolis.com/annapolis-sailing-courses/racing/thursday-night-racing/. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region at (410) 576-2674 or (410) 576-2693.
Charts 12282, 12283.

MD – CHESAPEAKE BAY – SEVERN AND MAGOTHY RIVERS – SEVERN RIVER – SAILING REGATTA SERIES
An annual sail racing series is scheduled to occur in the Severn River each Friday evening during May 20, 2022 – August 13, 2022, between 5 p.m. and 8:30 p.m. Excluded dates include May 27th, July 1st, and August 5th. Up to 40 auxiliary sail boats (20 to 45 feet in length) of various classes will compete in sail races along a designated course located in the Severn River, between the mouth of the Severn River and the entrance to Spa Creek at Annapolis, MD. First race start will occur at approximately 6:15 p.m. Additional information can be obtained at the website: https://www.eastportyyc.org/beer-cans. Interested mariners can contact the Eastport Yacht Club Race Committee on "EYC Friday Night Signal Boat" via marine band radio VHF-FM channel 09, 13, 16 or 73. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
Charts 12282, 12283.
MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – CHESAPEAKE CHANNEL – WILLIAM P. LANE, JR. MEMORIAL BRIDGES – REGULATED AREA

The Great Chesapeake Bay Swim is scheduled to occur on June 12, 2022. The 4.4-mile distance swim across the Chesapeake Bay will start at 1:30 p.m. and finish at 5:30 p.m. As described in Table 2 to Paragraph (ii)(2) in Title 33 CFR § 100.501, a regulated area is established for all navigable waters of the Chesapeake Bay between and adjacent to the spars of the William P. Lane Jr. Memorial Bridges from shoreline to shoreline, bounded to the north by a line drawn parallel and 500 yards north of the north bridge span that originates from the western shoreline at latitude 39°00’36.8″ N, longitude 076°23’55″ W, thence west to latitude 38°59’36.6″ N, longitude 076°20’23″ W, thence north to latitude 38°58’39.2″ N, longitude 076°20’08.8″ W. The regulated area will be enforced from 12:30 p.m. to 6:30 p.m. on June 12, 2022. All coordinates reference Datum NAD 1983. The Captain of the Port may assign one or more official patrol vessels, as described in 33 CFR § 100.40. The patrol vessels and Event PATCOM can be contacted on Marine Band Radio, VHF-FM Channel 16. The Event PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. The Event PATCOM or Official Patrol may forbid and control the movement of all vessels and persons in the regulated area. A vessel operator may request permission to enter and transit through the regulated area by contacting the Event PATCOM or Official Patrol. A vessel operator may request permission to enter and transit through the regulated area by contacting the Event PATCOM or Official Patrol on VHF-FM Channel 16. When authorized to transit through the regulated area, the vessel must proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the event area. The Coast Guard will issue a marine information broadcast on VHF-FM marine band radio announcing specific event date and times. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

***MD – CHESAPEAKE BAY – CHESTER RIVER – REGULATED AREA***

The annual reenactment portion of the “Chestertown Tea Party Festival” is scheduled to occur along the Chester River on Saturday, May 28, 2022, at 2 p.m. The key component of the event includes the movements and anchorage of the Schooner SULTANA and its support vessels off Chestertown, MD. As described in 33 CFR Section 100.501, special local regulations establish a regulated area on all navigable waters of the Chester River, within a line connecting the following positions: Commencing at latitude 39°12’27″ N, longitude 076°03’43″ W, thence south to latitude 39°12’19″ N, longitude 076°03’33″ W, thence east to latitude 39°12’16″ N, longitude 076°03’48″ W, thence north to latitude 39°12’25″ N, longitude 076°03’41″ W, thence west to the point of origin at latitude 39°12’27″ N, longitude 076°03’46″ W, located at Chestertown, MD. The regulated area will be enforced from 1 p.m. to 4 p.m. on May 28, 2022. All coordinates reference Datum NAD 1983. The Captain of the Port may assign one or more official patrol vessels, as described in 33 CFR § 100.40. The patrol vessels and Event PATCOM can be contacted on Marine Band Radio, VHF-FM Channel 16. The Event PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. The Event PATCOM or Official Patrol may forbid and control the movement of all vessels and persons in the regulated area. When hailed or signaled by an Official Patrol vessel, the person or vessel being hailed must immediately comply with all directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The operator of a vessel in the regulated area must stop the vessel immediately when directed to do so by an Official Patrol and then proceed only as directed. A person or vessel must comply with all instructions of the Event PATCOM or Official Patrol. A vessel operator may request permission to enter and transit through the regulated area by contacting the Event PATCOM or Official Patrol on VHF-FM Channel 16. When authorized to transit through the regulated area, the vessel must proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the event area. The Coast Guard will issue a marine information broadcast on VHF-FM...
An annual sailing regatta is scheduled to occur on the Chesapeake Bay on June 4, 2022, between 9:30 a.m. and 5 p.m. Up to 75 auxiliary sailboats (13 to 50 feet in length) total of various classes will compete in three fleets along three designated race areas as follows: (1) Rock Creek fleet, a single race on the Patapsco River and Chesapeake Bay, located between Seven Foot Knoll and Annapolis Harbor. (2) Annapolis fleet, multiple races located on the Severn River and on the Chesapeake Bay near mouth of the Severn River, and (3) Herring Bay fleet, a single race located between HHSA Buoy A in approx., position 38°44.647' N, 076°31.993' W and Annapolis Harbor. More information on the “Maryland Leukemia Cup Regatta” can be obtained at the website https://www.eastportyc.org/leukemia-cup. Interested mariners can contact the Eastport Yacht Club race committee on board the respective fleet’s signal boat via marine band radio VHF-FM channels 16 and 73.

The swim segments of an annual triathlon event are scheduled to occur in Mattawoman Creek on May 21, 2022, between 8 a.m. and 11 a.m. Up to 500 participants (in organized groups) will compete in designated 1.5K/1500-meter (2 laps) and 750-meter (1 lap) swim races along a marked, 750-meter rectangular course located at the General Smallwood State Park at Marbury, MD. The swim races begin with an in water start off the marina's main dock, and end with an out water exit at the nearby boat ramp. Swimmers will be supported by sponsor-provided kayaks and stand-up paddleboards. The swim course will have yellow floating markers located at turns and orange floating markers located approximately every 75 meters along swim legs. Swim course set-up will occur the previous day. Safety patrol vessels on scene can be contacted on marine band radio VHF-FM channel 16 and 78A. Additional information on the “General Smallwood Triathlons” can be obtained at website www.kineticsports.com. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

Chart 12289.

The Occoquan River Maritime Association’s annual “Blessing of the Fleet” is scheduled to occur in the Occoquan River on May 21, 2022 (rain date May 22, 2022), from 11 a.m. to 1 p.m. Approximately 160 recreational vessels of various types and sizes will pass alongside the fuel dock at Belmont Bay Harbor Marina at their leisure to receive a blessing from the blessing boat. Participating Fire Boats and First Responder Boats will follow a designated route from Belmont Bay Harbor Marina, up river to Occoquan Wharf, and back down river to the fuel dock. Mariners are urged to use caution when transiting the area, and reduce vessel speed to that necessary to maintain safe course while operating near participating vessels. Official patrol personnel on scene can be contacted on marine band radio VHF-FM channel 16. For any comments or questions contact Coast Guard Sector Maryland-national Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

Chart 12289.

A short-duration aerial fireworks display is scheduled to occur on the Patomac River at National Harbor, MD on May 21, 2022 at 9 p.m. The fireworks will be launched from a barge located approximately 250 feet from the grounds of the Gaylord National Resort & Conference Center, in approximate position latitude 38° 46' 54.22" N, longitude 077° 01' 14.75" W. Mariners are urged to use caution when transiting the area, and heed the directions of patrolling law enforcement and public safety officials. Absent specific guidance, mariners should remain 150 feet from the fireworks barge. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

Chart 12289.
DC – UPPER POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – GEORGETOWN CHANNEL - REGULATED AREA

Mariners are advised that the 2022 DC Dragon Boat Festival is scheduled to occur in the Upper Potomac River on May 21, 2022, from 8:30 a.m. to 5:30 p.m. The rowing regatta consists of six boats (40 feet in length) racing per heat, along marked designated 200-meter and 500-meter courses located between the Kennedy Center and Thompson’s Boat Center. Regatta course set up is scheduled to occur between 6 a.m. and 7 a.m. As described in 33 CFR Sec. 100.501, a regulated area is established for all waters of Upper Potomac River, Washington, DC, from shoreline to shoreline, bounded upstream by the Francis Scott Key (US-29) Bridge and downstream by the Theodore Roosevelt (I-66/US-50) Bridge, located at Georgetown, Washington, DC. The regulated area will be enforced from 8 a.m. to 6 p.m. on May 21, 2022. The Coast Guard Patrol Commander (PATCOM) or designee may issue event patrol may forbid and control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol, a vessel in the regulated area shall immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The operator of any vessel in the regulated area shall: (i) stop the vessel immediately when directed to do so by any Official Patrol and then proceed only as directed; (ii) all persons and vessels shall comply with the instructions of the Official Patrol; (iii) vessel operators may request permission to enter and transit through a regulated area by contacting the PATCOM on VHF-FM channel 16. When authorized to transit through the regulated area, vessels shall proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the race course or marine event area. The marine event patrol and PATCOM may be contacted on VHF-FM Channel 16. The PATCOM may terminate the event, or the operation of any vessel in the marine event area, at any time if deemed necessary for the protection of life or property. Only designated marine event participants and their vessels and official patrol vessels are authorized to enter the regulated area. The COTP Maryland-National Capital Region can be contacted at telephone number 410-576-2525, or on marine band radio VHF-FM channel 16. The Coast Guard will issue a marine information broadcast on VHF-FM marine band radio announcing specific event date and times. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

Chart 12289.

***VA – MD – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN - REGULATED AREA***

The “Washington Crossing 2022,” an annual open water swim event, is scheduled to occur across the Potomac River on Sunday, June 5, 2022, between 8 a.m. and 10 a.m. Up to 150 swimmers will compete along a 1.3-mile course located south of and 500 meters within the Woodrow Wilson Memorial (I-95/I-495) Bridge. The race begins from National Harbor to Jones Point, and back to National Harbor. Both a two-way crossing swim and a mid-point and back swim are scheduled. A portion of the designated swim course crosses the Potomac River navigation channel and the National Harbor Access Channel. Participants will be supported by sponsor-provided watercraft. As described in 33 CFR Section 100.501, special local regulations establish a regulated area on all navigable waters of the Potomac River, encompassed by a line connecting the following points, beginning at Jones Point Park, VA, shoreline at latitude 38°47′23″ N, longitude 077°03′03″ W, thence east along the northern extent of the Woodrow Wilson Memorial (I-95/I-95) Bridge, at mile 103.8, to the Rosalie Island shoreline at latitude 38°47′36″ N, longitude 077°01′32″ W, thence south along the Maryland shoreline to latitude 38°46′52″ N, longitude 077°01′13″ W, at National Harbor, MD, thence west across the Potomac River to the George Washington Memorial Parkway highway overpass and Cameron Run shoreline at latitude 38°47′23″ N, longitude 077°03′03″ W, thence north along the Virginia shoreline to the point of origin. The regulated area will be enforced from 7 a.m. through 11 a.m. on June 5, 2022. All coordinates reference Datum NAD 1983. The Captain of the Port may assign one or more official patrol vessels, as described in 33 CFR 6.100-40. The patrol vessels and Event PATCOM can be contacted on Marine Band Radio, VHF-FM Channel 16. The Event PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. The Event PATCOM or Official Patrol may forbid and control the movement of all vessels in the regulated area. When hailed or signaled by an Official Patrol vessel, the person or vessel must immediately comply with all instructions of the Event PATCOM or Official Patrol. A vessel operator may request permission to enter and transit through the regulated area by contacting the Event PATCOM or Official Patrol on VHF-FM Channel 16. When authorized to transit through the regulated area, the vessel must proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the event area. The Coast Guard will issue a marine information broadcast on VHF-FM marine band radio announcing specific event date and times. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

Chart 12289.

DC – POTOMAC RIVER - MATTAWOMAN CREEK TO GEORGETOWN – ANACOSTIA RIVER - ROWING REGATTA

A rowing regatta is scheduled to occur in the Anacostia River on June 5, 2022, between 5 a.m. and 6 p.m. The event consists of 200 total participants competing in rowing shells on a 1.5-mile course, with a start near the 11th Street Bridge, proceeding upstream in the Anacostia River, and a finish just above the John Philip Sousa (Pennsylvania Ave) Bridge. Information on this “Stonestawll Regatta” event is available at website http://www.stonestawllregatta.org. For any comments or questions contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.

Chart 12289.

***DC – POTOMAC RIVER - UPPER POTOMAC AND ANACOSTIA RIVERS - ROWING REGATTA***

An annual outrigger canoe regatta is scheduled to occur in the Upper Potomac River and Anacostia River on June 11, 2022, from 8 a.m. to 4 p.m. Up to 150 total participants will compete in 40-foot boats along designated long distance courses located between the John Philip Sousa (Pennsylvania Ave) Bridge on the Anacostia River and Theodore Roosevelt Island on the Upper Potomac River, in Washington, DC. Sponsor-provided safety patrol personnel will be on scene. Additional information on the “Washington Monumental” Outrigger Canoe Races can be obtained at website https://www.ncawpa.org/dc.html. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Branch, at (410) 576-2674 or 2693.

Chart 12289.

VA – MD – DC - POTOMAC RIVER - MATTAWOMAN CREEK TO GEORGETOWN - UPPER POTOMAC RIVER – ELECTRICALLY PROPELLED WATERCRAFT COMPETITION

A watercraft competition is scheduled to occur in Pohick Bay on May 26, 2022, between 9 a.m. and 1 p.m. Up to 17 electrically-propelled watercraft (5 to 14 feet in length) will operate along a designated course approximately 1/2-mile in length, located between approximate position latitude 38°40′56.89″ N, longitude 077°05′35.61″ W, and approximate position latitude 38°40′56.05″ N, longitude 077°10′27.62″ W. A sponsor-provided safety boat will be located on the course. Mariners are urged to use caution when transiting the area, remain alert for participants and their support craft, and to operate vessels at a safe speed that minimizes wake while operating near the event area. More information on the “Promoting Electric Propulsion (PEP) Competition” can be obtained at website https://www.navalengineers.org/Education/Promoting-Electric-Propulsion-PEP. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at (410) 576-2674 or (410) 576-2693.
The Broad Bay Sailing Association is sponsoring the Cape Henry Cup Regatta Sailboat Race in the Lower Chesapeake Bay, VA on May 21, 2022. The sailboat races will begin at 9:00 a.m. and end at 6:00 p.m. and begins about a mile off the coast of Buckroe Beach, Hampton. Then head out to the middle grounds (out the north CBHT and back in the south) and ends near Point comfort, Hampton. Alternate course begins and ends at the same places but doesn’t cross over any tunnels they just loop around off the coast of Hampton. Mariners are requested to use caution and bare steerage when transiting the area.

Chart 12207

NC – NEWPORT RIVER – CHIMNEY ISLAND SLOUGH - BEAUFORT
Mariners are advised that U.S. Coast Guard will enforce a safety zone for the Crystal Coast Triathlon on May 14, 2022 from 7 AM to 10 AM on the waters of Gallants Channel in Beaufort, NC. This event will include approximately 400 swimmers. All waters between the Route 70 Bridge in Beaufort, NC north-west to Russel Slough Channel Day-Beacon 10 will be restricted to vessel traffic. No vessel traffic will be allowed to transit without prior authorization. Mariners are advised to plan their voyage accordingly.

Chart 11545
SUMMARY OF OFFSHORE RENEWABLE ENERGY INSTALLATIONS (OREI) AND OPERATIONS IN SUPPORT OF OREI IN THE FIFTH COAST GUARD DISTRICT ENCLOSURE (5)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS
The M/V Fugro Enterprise, call sign WDD9388, will be conducting survey operations, using sensors towed approximately 150 meters behind the survey vessel. Operations will occur within two survey areas and will begin on October 9, 2021 and continue to approximately July 31, 2022.

Operating area #1:
The survey area is located about 9 to 20 miles off the New Jersey coast, between Barneget Light and Atlantic City bounded by the following approximate positions:
- NE Corner: 39° 40' 22"N / 73° 56' 11"W
- SE Corner: 39° 15' 43"N / 73° 56' 34"W
- S Corner: 39° 08' 40"N / 74° 05' 50"W
- SW Corner: 39° 16' 31"N / 74° 14' 55"W
The M/V Fugro Enterprise will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 1 NM CPA.

The survey vessel will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Operating area #2:
The survey corridor is located about 2 to 20 miles off the New Jersey coast, between Sandy Hook and Brigantine bounded by the following approximate positions:
- NW extent: 40° 12' 00"N / 74° 05' 50"W
- NE extent: 40° 12' 30"N / 73° 56' 34"W
- SW extent: 39° 55' 34"N / 73° 55' 59"W
- SE extent: 39° 55' 34"N / 73° 52' 49"W

NJ - OFFSHORE VICINITY OF GREAT HARBOR AND GREAT EGG HARBOR WIND FARM SURVEY ACTIVITY
Ocean Wind 01 and Ocean Wind 02 are offshore wind farms planned for federal waters off the coast of New Jersey. The Ocean Wind wind farms will consist of wind turbines, offshore substations, and a subsea transmission system to shore. Marine survey activities are currently ongoing and will continue through approximately the end of July 2022. Mariners transiting or fishing in the survey area are requested to provide a wide berth to survey vessels, as these survey vessels will be limited in their ability to maneuver, and may deploy various equipment while actively surveying. For more information, see the twice-weekly Skipjack Wind Farm Mariners Briefing at Offshore Wind Farm Information for Mariners | Ørsted (orsted.com) (click on "Mid-Atlantic"), or contact Edward LeBlanc, Orsted Head of Marine Affairs at 978-447-2737.

DE - MD – OFFSHORE VICINITY OF ENTRANCE TO DELAWARE BAY – SKIPJACK WIND FARM SURVEY ACTIVITY
The Skipjack Wind Farm is an offshore wind farm planned for federal waters off the coast of Delaware and Maryland. The Skipjack Wind Farm will consist of wind turbines, an offshore substation, and a subsea transmission system to shore. Marine survey activities are currently ongoing and will continue through approximately the end of May 2022. Mariners transiting or fishing in the survey area are requested to provide a wide berth to survey vessels, as these survey vessels will be limited in their ability to maneuver, and may deploy various equipment while actively surveying. For more information, see the twice-weekly Skipjack Wind Farm Mariners Briefing at Offshore Wind Farm Information for Mariners | Ørsted (orsted.com) (click on "Mid-Atlantic"), or contact Edward LeBlanc, Orsted Head of Marine Affairs at 978-447-2737.
THE Research Vessel WESTERLY (Call Sign: WDF7918) will conduct high resolution geophysical survey operations in the near shore environment off the Atlantic coast of Delaware in daylight hours only from March 28, 2022 to approximately May 23, 2022. The survey area is bounded by the following approximate positions:

38°41.0' N  75°04.2' W
38°32.4' N  75°03.3' W
38°32.4' N  74°59.4' W
38°41.0' N  75°00.3' W

The R/V WESTERLY is requesting a 250 yard closest point of approach from passing vessels, will monitor VHF-FM channels 13 and 16, and can be contacted on these frequencies for safe passing arrangements. The vessel OCEAN CITY GIRL will operate in close proximity to the R/V WESTERLY and host trained Protected Species Observers and an Offshore Fisheries Liaison aboard to support survey activities. The Offshore Fisheries Liaison can be reached at OFL6@Offshorewfs.com. Further information can be found on the US Wind website: https://uswindinc.com/mariners.

Charts: 12200, 12211

THE Research Vessels YETI, ALMAR, and WAM-V will conduct geophysical survey operations in Indian River Bay, Delaware, during daylight hours only, from May 9, 2022 to June 20, 2022. The vessels may tow survey equipment up to 100 feet behind the vessels. Mariners are advised to use caution when transiting near the survey vessels and are requested to give a wide berth and slow bell. The vessel captains will monitor channels 13 and 16 VHF-FM for passing arrangements. The survey area is bounded by the following approximate positions:

38°36'14.5"N  75°06'21.0"W
38°35'41.7"N  75°03'58.1"W
38°34'07.5"N  75°11'34.3"W
38°35'28.1"N  75°14'29.2"W

Further information can be found on the US Wind website: https://uswindinc.com/mariners.
Chart: 12216
ATTENTION ALL BOATERS:
SLOW DOWN TO 10 KNOTS OR LESS FOR RIGHT WHALES

Not to be used for navigation.

Red Areas = Annual Seasonal Management Area (SMA): 10 knots or less required for boats 65 feet and bigger. These speeds are also recommended for smaller boats.

Yellow Areas = where right whales have been sighted (* Dynamic Management Area) or heard. Recommended slow down zones for ALL vessels.

If a SLOW Zone overlaps with a SMA, mandatory speed reductions are required.
RESEARCH EQUIPMENT IN WATER

North Atlantic – Gulf Stream
May 11th, 2022 to October 30th, 2022

SAILDRONE, INC. will operate four Unmanned Surface Vehicles called Saildrones, to study the Gulf Stream and its interactions with the atmosphere. Two vehicles have already been deployed from Newport, RI, and two more vehicles will be deployed from Oregon Inlet, NC and transit out to the continental shelf between May 11th - 20th 2022. They will operate continuously for the following six months.

More information on the project can be found online at:

VESSELS ARE REQUESTED TO TRANSIT THE AREA WITH CAUTION, AND REMAIN GREATER THAN 500 METERS AWAY FROM THE RESEARCH EQUIPMENT.

Saildrones are wind powered Unmanned Surface Vehicles that carry important oceanographic and fisheries acoustics research instrumentation and are controlled from shore through satellite communications.

SCIENCE CONTACTS
**ANNAPOlis HARBOR - U. S. NAVAL ACADEMY BLUE ANGELS AIR SHOW**

**Enclosure 9**

****MD – CHESAPEAKE BAY – SEVERN AND MAGOTHY RIVERS– SEVERN RIVER – ANNAPOlis HARBOR – TEMPORARY ACCESS CHANNEL****

In support of the annual U. S. Naval Academy Blue Angels Air Show practice and performance demonstrations over the Severn River at Annapolis, MD during May 24-25, 2022, a marked channel will be temporarily established in the Severn River near Horn Point. The floating markers will be set on or about noon on Monday, May 23, 2022 and removed immediately after the event on Wednesday, May 25, 2022. Located between Spa Creek Entrance Buoy 1SC (LLNR 19905) and Annapolis Harbor Channel LB 5 (LLNR 19730), this channel is intended to allow vessels to transit into and out of Annapolis Harbor during the air show event. Vessels operating in this area do so at their own discretion. The temporary access channel will include eight unlit red floating markers and seven unlit green floating markers, located in the following approximate positions:
