LOCAL NOTICE TO MARINERS

District: 5 Week: 43/22

COASTAL WATERS FROM SHREWSBURY RIVER, NEW JERSEY TO LITTLE RIVER, SOUTH CAROLINA

The Local Notice to Mariners contains all information relevant to the waterways within the Fifth Coast Guard District and is updated each Tuesday on the U.S. Coast Guard Navigation Center website at https://www.navcen.uscg.gov/.

If you have questions about the Fifth Coast Guard District Local Notice to Mariners (LNM), please contact:

COMMANDER
FIFTH COAST GUARD DISTRICT (dpw)
431 Crawford Street
Portsmouth, Virginia 23704

or for correspondence and article requests:
gregory.c.goetz2@uscg.mil, (757) 398-6220 and CGD5Waterways@uscg.mil

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

AIDS TO NAVIGATION DISCREPANCY REPORTING
To report any Aids to Navigation discrepancies (missing, damaged, extinguished lights, off station), shoaling or hazards to navigation, discrepancies to bridge lighting, please contact the following 24 hour numbers:
1. For PA, NJ, DE waters, coastal and tributaries contact COGARD SECTOR DELAWARE BAY at (215) 271-4940.
2. For MD, DE in the Upper Chesapeake Bay and tributaries contact COGARD SECTOR MARYLAND - NATIONAL CAPITAL REGION at (410) 576-2525.
3. For VA in Lower Chesapeake Bay below Smith Point Light and tributaries and VA, MD Eastern Shore Bay and coastal contact COGARD SECTOR VIRGINIA at (757) 483-8567.
4. For NC waters, coastal and tributaries contact COGARD SECTOR NORTH CAROLINA at (910) 343-3882.

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
Al - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DAYBD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DAMGD - Damaged
ec - eclipse
EST - Established Aid
ev - every
EVAL - Evaluation
EXT - Extinguished
F - Fixed
fl - flash
Fl - Flashing
G - Green
GIWW - Gulf Intracoastal Waterway
HAZ - Hazard to Navigation
HBR - Harbor
HOR - Horizontal Clearance
HT - Height

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code
MRASS - Marine Radio Activated Sound Signal
MSLD - Misleading
N/C - Not Charted
NGA - National Geospatial-Intelligence Agency
NO/NUM - Number
NOS - National Ocean Service
NW - Notice Writer
OBSCU - Obscured
OBST - Obstruction
OBSTR - Obstruction
Oc - Occulting
ODAS - Anchored Oceanographic Data Buoy

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SND - Sound
SPM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
St M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

Additional Abbreviations Specific to this LNM Edition:

AIS - Automatic Identification System
AtoN - Aids to Navigation
LIB - Lighted Ice Buoy
LLNR - Light List Number
MD-NCR - Maryland-National Capital Region
OREI - Offshore Renewable Energy Installations

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

******NEW OR UPDATED INFORMATION IN THE LOCAL NOTICE TO MARINERS ******

New, updated or very important information in the Local Notice to Mariners (LNM) will be preceded and followed by four asterisks.

US - ATLANTIC SEACOAST - ENDANGERED NORTH ATLANTIC RIGHT WHALES WARNING

US- Atlantic Seacoast - Critically endangered right whales may be encountered in offshore and coastal waters. Right whales are slow moving and at risk of serious injury or death due to collisions with vessels. Collisions with whales are dangerous -passengers can be injured and vessels badly damaged. U.S. law (50 CFR 224.105) prohibits operating vessels 65 feet (19.8 m) or greater in excess of 10 knots in specific managed locations along the U.S. East Coast during times when right whales are likely to be present. See enclosed compliance guide for specific times, areas, and exceptions to this law. Approaching or remaining within 500 yards of right whales is prohibited and is a violation of U.S. law. A minimum distance of 500 yards must be maintained from a sighted whale unless hazardous to the vessel or its occupants. The National Oceanic and Atmospheric Administration (NOAA) recommends that operators assume that any whale sighted is a right whale unless confirmed otherwise. NOAA also recommends speeds of 10 knots or less in areas used by right whales and outside of seasonally managed areas when consistent with safety of navigation. In the northeast, please report all right whale sightings, collisions, or entanglements to 866-755-NOAA, or to the Coast Guard via channel 16. WHALESNORTH Mandatory Ship Reporting Area is active year-round. For more information, consult the U.S. Coast Pilot. MSR arrival reports can be sent to rightwhale.msr(at)noaa.gov.
NOAA Right Whale Slow Zones Campaign NOAA Fisheries uses the "Right Whale Slow Zones" campaign to reduce the risk of vessel strike to critically endangered North Atlantic right whales. Complementary to other NOAA vessel strike reduction efforts, the Slow Zones campaign brings together sighting information from NOAA's Dynamic Management Area program with acoustic detection information from underwater receivers to

establish voluntary speed reduction areas. Read more about the new campaign in the web story (link follows). Media Questions: Contact Allison Ferreira, Regional Office, 978-281-9103 Inquiries about the right whale Slow Zone program: Alicia Schuler, Protected Resources Division (978) 281-9235 Further Slow Zone details: https://www.fisheries.noaa.gov/feature-story/help-endangered-whales-slow-down-slow-zones Reducing Ship Strike: https://www.fisheries.noaa.gov/national/endangered-species-conservation/reducing-vessel-strikes-north-atlantic-right-whales

LNM: 39/22

NC – VA – MD – DE – NJ - ATLANTIC OCEAN - OFFSHORE STRUCTURE PATON MARKING GUIDANCE

For Private Aids to Navigation (PATON) applicants requesting Coast Guard permits to provide navigational markings on offshore structures in Fifth Coast Guard District waters, the following structure identification, lighting, sound signal, and Automated Identification System (AIS) capabilities are strongly recommended. Applicants should plan to apply for one Private Aid Permit per structure (to include all label, light(s), sound signals and AIS signals). Private AtoN Permit applications should submitted no sooner than 60 days prior to the need to activate a structure's final markings. Additional specific recommendations include:

Tower Identification:

- Uniquely lettered and numbered in an organized pattern as near to rows and columns as possible
- Letters and numbers labelled to as near to 3 meters high as possible
- Visible above any servicing platforms
- Visible throughout a 360-dgreee arc from the water's surface
- Visible at night through use of retro-reflective paint and lettering/numbering materials
- If feasible, also labelled below the servicing platform

Lighting:

- Located on all structures, preferably on the servicing platform, visible throughout a 360-dgreee arc from the water's surface
- Corner Towers/Significant Peripheral Structures (SPSs): Quick flashing yellow (QY) energized at a five nautical mile range
- Outer Boundary Towers: Yellow 2.5 sec (FL Y 2.5s) energized at three nautical mile range
- Interior Towers: Yellow 6 sec or yellow 10 sec (FL Y 6/FL Y 10) energized at a two nautical mile range
- All lights should be synchronized by their structure location within the field of structures

Note: All temporary base, tower and construction components preceding the final structure completion must be marked with Quick Yellow (QY) obstruction lights visible throughout 360 degrees at a distance of 5NM. These do not require permits, only Coast Guard notification for appropriate marine notices and broadcasts until the final structure marking is established.

Sound Signals:

- Should be located on all structures located at corners/SPSs
- Sound every 30 seconds (4s Blast, 26s off)
- Set to project at a range of 2NM
- Should not exceed 3NM spacing between perimeter structures
- Must be Mariner Radio Activated Sound Signal (MRASS) activated by keying VHF Radio frequency 83A five times within ten seconds
- Timed to energize for 45 minutes from last VHF activation

Automated Information System (AIS) Transponder Signals:

- Must be transmitted superimposed at all corner structures/SPSs
- Should be capable of transmitting signals to mark all locations of all structures throughout an established field
- Must be approved at the Coast Guard Headquarters level (CG-NAV) based on the Fifth Coast Guard District's recommendation

PATON Application can be requested through email to: CGD5Waterways@uscg.mil

Please forward questions or feedback in an e-mail to: Ryan.P.Doody2@uscg.mil

LNM: 36/20

NC - HAZARDS OF NORTH CAROLINA COASTAL INLETS

Hazardous inlets. To heighten public awareness about the hazards that exist, this information is provided for shoaling conditions that exist at the following North Carolina inlets:

Oregon Inlet	Hatteras Inlet
Ocracoke Inlet	Barden Inlet
Beaufort Inlet	Bogue Inlet
New River Inlet	Topsail Inlet
Masonboro Inlet	Carolina Beach Inlet
Lockwoods Folly Inlet	Shallotte Inlet

Shoaling conditions increase the potential for groundings. These inlets are subject to continual and sometimes rapid environmental changes. Mariners are highly encouraged to obtain the most recent U.S. Army Corps of Engineers Wilmington, North Carolina District hydrographic survey information, centerline waypoints and controlling depth at:

http://www.saw.usace.army.mil/Missions/Navigation/HydrographicSurveys.aspx

Mariners should use caution when navigating in these areas and passage through the inlets is not recommended without local knowledge of the area. The aids to navigation in these inlets may not be charted and may not be marking best water due to continually shifting shoals. Consult Local Notice to Mariners, 5th Coast Guard District for the latest positions and status of aids to navigation:

https://www.navcen.uscg.gov/?pageName=lnmDistrict&region=5

To report any aids to navigation discrepancies (missing, damaged, off station, extinguished lights), shoaling, hazards to navigation, or discrepancies on bridge lighting, please contact Sector North Carolina Command Center (910) 343-2200.

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION

The aids to navigation depicted on charts comprise a system of fixed and floating aids with varying degrees of reliability. Therefore, prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker, which secures the buoy to the seabed. The approximate position is used because of practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision's in position fixing methods, prevailing atmospheric and sea conditions, the slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying lengths of chain, and the fact that buoy body and/or sinker positions are not under continuous surveillance but are normally checked only during periodic maintenance visits which often occur more than a year apart. The position of the buoy body can be expected to shift inside and outside the charting symbol due to the forces of nature. The mariner is also cautioned that buoys are liable to be carried away, shifted, capsized, sunk, etc. Lighted buoys may be extinguished or sound signals may not function as the result of ice, running ice or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction the buoy marks.

INTERFERENCE WITH AIDS TO NAVIGATION

14 USC 543. It shall be unlawful for any person, or public body, or instrumentality, excluding the armed forces, to remove, change the location of, obstruct, willfully damage, make fast to, or interfere with any aid to navigation established, installed, operated, or maintained by the Coast Guard pursuant to section 541 of this title, or with any aid to navigation lawfully maintained under authority granted by the Coast Guard pursuant to section 542 of this title, or to anchor any vessel in any of the navigable waters of the United States so as to obstruct or interfere with range lights maintained therein. Whoever violates the provisions of this section shall be guilty of a misdemeanor and shall be fined not more than $1,500 for each offense. Each day during which such violation shall continue shall be considered as a new offense.

U.S. COAST GUARD AUXILIARY – PUBLIC EDUCATION CLASSES – FIND BY ZIPCODE

The National Public Education Calendar Database provides a single, unified national database that holds and displays all public education courses taught by our various flotillas nationwide. In addition, a Zip Code search permits members of the general public to enter a Zip Code of interest, and find all public education courses being taught within a selected distance from that Zip Code.
http://www.cgaux.org/boatinged/class_finder/index.php

WESTERN ATLANTIC AND U.S. COASTAL WATERS - NORTH CAROLINA – SUNKEN MILITARY CRAFT ACT (SMCA) –PROHIBITION ON DISTURBING, REMOVING ARTIFACTS OR DAMAGING SUNKEN CRAFT

Special protections are provided to sunken military craft by the "Sunken Military Craft Act" (SMCA) (Public Law 108-375). Along the U.S. East Coast, and particularly off North Carolina, there are many sunken U.S. and foreign military craft. Sunken military craft may be the final resting places of military personnel who died in service to their country and are also important historical resources. One very notable example is the wreck of the USS MONITOR, off the NC Coast, also protected by the National Marine Sanctuaries Act. Under international and U.S. law, sunken foreign military craft, including those located in U.S. waters, remain the property of their respective country's government. Sovereign immune vessels, such as military crafts, are afforded protections under U.S. and international law. Included among these vessels are at least three known sunken German submarines (U-boats) located in waters off the NC coast. These U-boats remain the property of the Federal Republic of Germany. In accordance with the SMCA, no person shall engage in or attempt to engage in any activity directed at a sunken military craft that disturbs, removes, or injures the sunken craft or the associated contents of the craft. This includes, but is not limited to, the equipment, cargo, contents of the vessel, and the remains and personal effects of the crew and passengers. Mariners are urged to exercise due care when operating in the vicinity of military wrecks, as they can be damaged by both purposeful or inadvertent activities including anchoring, fishing, diving, and other marine activities. Special dangers, such as unexploded ordnance, may also be associated with sunken military craft, and should be considered when operating in these areas. Violations of the SMCA may subject individuals to penalties of up to $100,000 and to liability for damages. Mariners who witness theft of material from, disturbance of, or damage to a sunken military craft are asked to report it to the nearest Coast Guard unit.

SAFETY NOTICE - NAVIGATIONAL RANGE STRUCTURES ON ELECTRONIC CHARTS

The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

SAFETY NOTICE - NAVIGATIONAL RANGE AND SECTOR LIGHTS ON ELECTRONIC CHARTS

The U.S. Coast Guard has become aware that the Range and Sector Light Characteristic labels are not displayed on Electronic Navigational Charts (ENCs) when used in an Electronic Chart Display and Information System (ECDIS) due to limitations of the S-52 ECDIS display specification. Mariners may query the ENC data directly within ECDIS or refer to the Light List for complete information on Range and Sector Light Characteristics.

LNM: 39/22

US COAST PILOT 2 – NEW ADDITION

PUBLICATION–National Oceanic Atmospheric Administration (NOAA) – U.S. Coast Pilot 2, Atlantic Coast: Cape Cod, MA to Sandy Hook, NJ, 52th Edition, 2023, has been issued and is ready for free download and weekly updates at www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html.

Only Print-on-Demand (POD) bound copies are available for purchase; visit www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot

The 2023 Edition cancels the preceding 2022 Edition, and incorporates all previous corrections.

LNM: 43/22

USCG NAVIGATIONAL INFORMATION SERVICE (NIS)/USCG NAVIGATION CENTER

The U.S. Coast Guard Navigational Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information on GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar (NANU). These notices can also be obtained via-e-mail subscription through the USCG Navigation Center website (https://www.navcen.uscg.gov/gps/status/default.htm). In addition, the NIS investigates all reports of degradation or loss of GPS and DGPS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: 703-313-5900, webmaster@navcen.uscg.mil or https://www.navcen.uscg.gov.

CANCELLATION OF NOAA PAPER AND RASTER NAUTICAL CHARTS

The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, Booklet Chart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six month notice of the intent to cancel a specific chart is provided in a "Last Edition" notice. The final cancellation of a chart is made in a "Canceled" notice. Both types of notices will appear in LNM Section IV, "Chart Correction." A comprehensive list of all canceled NOAA charts is available at: http://www.charts.noaa.gov/MCD/Dole.shtml.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA's electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA's program to sunset traditional paper charts is on the NOAA Coast Survey website at: https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html

An online NOAA Custom Chart application at: https://devgis.charttools.noaa.gov/pod is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

LNM: 09/21

BROADCAST NOTICES TO MARINERS

Broadcast Notices to Mariners (BNMs) that are still in effect at the date of this publication.

CCGD5 (D5) - BNM - 502, 503, 504, 505, 506, 510, 513, 514, 515, 517, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530-22.

Sector Delaware Bay (DB) - BNM - 207, 214, 215, 225, 226, 227-22.

Sector Maryland-National Capital Region (MD-NCR) - BNM - 344, 345, 349, 350, 352, 355, 357, 358, 359, 361-22.

Sector Virginia (VA) - BNM - 191-22.

Sector North Carolina (NC) - BNM - 402, 403, 404, 406, 407, 408, 409, 410, 411, 412, 413-22.

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

DISCREPANCIES (FEDERAL AIDS)

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only.
It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97

Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER
Main Panel 2245 NEW YORK HARBOR

Corrective Action	Object of Corrective Action	Position
(Temp) ADD	NATIONAL DOCK CHANNEL BUOY 3 Green can	CGD01 at 40-41-09.001N 074-02-48.001W

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true.
Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

SUMMARY OF ADVANCED APPROVED PROJECTS

Approved Project(s) **Project Date** **Ref. LNM**

None

Advance Notice(s)

MD-CHESAPEAKE CHANNEL – AID TO NAVIGATION CHANGE

On or about November 7, 2022 the Coast Guard will install a self-contained LED lantern providing a 7nm nominal range white light for Point Lookout Light (LLNR 7525). Additionally, new NW dayboards worded "Danger" will be installed.

Charts: 12230 12233 12280 12285 LNM: 41/22

MD - CRAIGHILL CHANNEL – AID TO NAVIGATION CHANGES

On or about December 1 the Coast Guard will not replace the existing lighted buoys with a lighted ice buoy; LIB, of reduced intensity unless when endangered by ice. This applies to all of the aids to navigation marking the Craighill Channel. Craighill Lighted Buoy 1C (LLNR 8005) to Craighill Lighted Buoy 26 (LLNR 8140). Additionally; remove the word "Channel" from the aid names and remove the word "Entrance" from Craighill Lighted Buoy 1C (LLNR 8005) and Craighill Lighted Buoy 2 (LL 8010).

Charts: 12273 12278 LNM: 41/22

MD - VA – UPPER POTOMAC RIVER – AID TO NAVIGATION CHANGE

On or about October 10, 2022 the Coast Guard will make the following changes to the aids to navigation marking the Upper Potomac River:
Remove: The word "Channel" from all Upper Potomac River aid names.
Establish: Lighted 14 in approximate position: 38 21 22.986N-77 13 25.379W, with a 4nm nominal range flashing 2.5-second red light and TR dayboards.
Relocate: Lighted Buoy 22 (LLNR 17910) to approximate position 38 24 02.466N-77 15 56.011W change the flash characteristic to 2.5-second red light, remove the seasonal status and rename to Upper Potomac River Lighted Buoy 18.
Relocate: Lighted Buoy 23 (LLNR 17950) to approximate position 38 24 54.956N-77 16 14.986W change the flash characteristic to quick flashing green light, remove the seasonal status and rename to Upper Potomac River Lighted Buoy 19.
Discontinue: Buoy 24 (LLNR 17955).
Establish: Light 15 in approximate position 38 21 59.200N-77 15 00.050W, with a 4nm nominal range flashing 2.5-second green light and SG dayboards.
Discontinue: Buoy 26 (LLNR 17960).
Establish: Light 17 in approximate position 38 23 29.749N-77 15 49.450W, with a 4nm nominal range flashing 4-second green light and SG dayboards.
Relocate: Lighted Buoy 27 (LLNR 18015) to approximate position: 38 25 50.841N-77 16 18.294W, change the flash characteristic to quick flashing green light, remove the seasonal status and rename to Upper Potomac River Lighted Buoy 21.
Discontinue: Buoy 28 (LLNR 18020).
Discontinue: Buoy 30 (LLNR 18025).
Discontinue: Clifton Beach Light (LLNR 18030).
Discontinue: Buoy 32 (LLNR 18035).
Relocate: Lighted Buoy 33 (LLNR 18040) to approximate position: 3830 40.955N-77 16 43.425W, remove the seasonal status and rename to Upper Potomac River Lighted Buoy 25.
Discontinue: Buoy 34 (LLNR 18045).
Establish: Lighted Buoy 22 in to approximate position: 38 27 36.553N-77 16 221.977W with a 4nm nominal range quick flashing red light.
Discontinue: Buoy 40 (LLNR 18050).
Establish: Light 23 in approximate position: 38 29 04.845N-77 16 55.122W, with a 4nm nominal range flashing 2.5-second green light and SG dayboards.
Discontinue: Buoy 41 (LLNR 18055).
Discontinue Buoy 43 (LLNR 18065).

Charts: 12285 12288 LNM: 34/22

MD – VA – UPPER POTOMAC RIVER – AIDS TO NAVIGATION CHANGE

On or about October 10, 2022 the Coast Guard will make the following changes to the aids to navigation marking the Alexandria Channel, Anacostia River and Georgetown Channel:
Change: Alexandria Channel Buoy 2 (LLNR 18610) to Alexandria Light 2A in approximate position: 38 48 01.850N-77 02 07.214W, with a 4nm nominal range flashing 2.5-second red light and TR dayboards on pile.
Discontinue: Alexandria Channel Buoy 4 (LLNR 18615).
Relocate: Alexandria Channel Lighted Buoy 6 (LLNR 18620) to approximate position 38 48 38.788N-77 02 00.279W, remove the seasonal status and rename to Alexandria Lighted Buoy 6.
Discontinue: Marbury Point Warning Daybeacon (LLNR 18655).
Discontinue: Alexandria Channel Buoy 7 (LLNR 18661).
Relocate: Alexandria Channel Lighted Buoy 7A (LLNR 18660) to approximate position 38 49 26.839N-77 01 54.680W, remove the seasonal status and rename to Alexandria Lighted Buoy 5.
Establish: Alexandria Light 7 in approximate position 38 50 03.531N-77 01 39.455W, with a 4nm nominal range flashing 4-second green light and SG dayboards on pile.

Change: Alexandria Channel Buoy 9 (LLNR 18695) to Alexandria Light 9 in approximate position: 38 50 41.702N-77 01 25.264W, with a 4nm nominal range flashing 2.5-second green light and SG dayboards on pile.
Discontinue: Alexandria Channel Buoy 11 (LLNR 18700).
Change: Hains Point Junction Lighted Buoy HP (LLNR 18705) to Hains Point Junction Light HP in approximate position 38 51 09.406N-77 01 19.040W with GR dayboards on pile. Discontinue: Hains Point Buoy 1 (LLNR 18710).
Change: Hains Point Buoy 2 (LLNR 18715) to Anacostia Light 2A in approximate position: 38 51 12.878N-77 01 11.481W, with a 4nm nominal range flashing 2.5-second red light and TR dayboards on pile.
Change: Washington Channel Junction Buoy WC (LLNR 18725) to Washington Channel Junction Light WC in approximate position 38 51 24.931N-77 01 10.054W with a 4nm nominal range flashing (2+1) 6-second red light and RG dayboards on pile.
Discontinue: Anacostia River Buoy 1 (LLNR 18725).
Establish: Anacostia Light 4 in approximate position 38 51 31.787N-77 00 58.181W, with a 4nm nominal range flashing 4-second red light and TR dayboards on pile.
Discontinue: Anacostia River Buoy 2 (LLNR 18730).
Relocate: Anacostia River Lighted Buoy 3 (LLNR 18375) to approximate position 38 51 47.704N-77 00 35.813W, remove the seasonal status and rename to Upper Anacostia Lighted Buoy 5.
Discontinue: Anacostia River Buoy 4 (LLNR 18740).
Discontinue: Georgetown Channel Buoy 1 (LLNR 18770).
Change: Georgetown Channel Buoy 2 (LLNR 18775) to Georgetown Light 2G in approximate position: 38 51 34.059N-77 01 33.666W, with a 4nm nominal range flashing 2.5-second red light and TR dayboards on pile.
Discontinue: Georgetown Channel Buoy 3 (LLNR 18780).
Change: Georgetown Channel Buoy 4 (LLNR 18785) to Georgetown Light 4 in approximate position: 38 52 06.178N-77 01 52.564W, with a 4nm nominal range flashing 4-second red light and TR dayboards on pile.
Discontinue: Georgetown Channel Buoy 6 (LLNR 18790).
Change: Upper Potomac River Channel (LLNR 18575) to Upper Potomac River Lighted Wreck Buoy WR 83 in approximate position:38 43 23.103N-77 02 06.049W, with a 4nm nominal range Quick flash green light and remove the seasonal status.

Charts: 12285 12289 LNM: 39/22

VA – CHESAPEAKE CHANNEL – AID TO NAVIGATION CHANGE

On or about October 31, 2022 the Coast Guard will discontinue the RACON on Chesapeake Channel Lighted Buoy 42 (LLNR 7275). AIS MMSI 993672385 will remain permanently.

Charts: 12225 12226 12235 12280 LNM: 41/22

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

All comments will be carefully considered and are requested prior to 29 Nov 2022 to be considered in the analysis. Refer to Project Number 05-23-002(D).

Chart 12304 LNM: 40/22

MD – ST. JEROME CREEK - AIDS TO NAVIGATION CHANGE PROPOSAL

Due the changing waterway conditions as a result of shoaling the Coast Guard; on September 26, 2022, made the following changes and is proposing to make the changes permanent.
St Jerome Creek:
Changed: Light 4 (LLNR 18810) to Light 3A with a 2.5 second flashing green light and SG dayboards on pile.
Changed: Buoy 5 (LLNR 18812) to Buoy 4 to approximate positions:38 07 13.772N-76 20 29.868W, removed when endangered by ice.
Relocate: Buoy 6 (LLNR 18815) to approximate position:38 07 09.842N-76 20 37.129W, removed when endangered by ice.
Established: Buoy 8 in approximate position: 38 07 10.480N-76 20 43.383W, removed when endangered by ice.
Additionally; Buoy 7 (LLNR 18817), Buoy 9 (LLNR 18820) and Buoy 11 (LLNR 18823) seasonal ice condition will also be changed to "Removed when endanger by ice."
Interested Mariners and other stakeholders are strongly encouraged to comment on the potential impacts this proposal would have on navigational safety. You may provide feedback using the U. S. Coast Guard Fifth District Waterway Data Sheet, available online at: D05_LNM_Special_Notice_Waterway_Proposal_Feedback_Form_Indefinite.pdf (uscg.gov)

SECTION VII - GENERAL

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

MA – RI – NY – NJ – DE – MD – VA – NC – OFF SHORE OCEAN RESEARCH EQUIPMENT – OCEAN SURVEY OPERATIONS

SAILDRONE, INC. is conducting oceanographic surveys in collaboration with the University of Rhode Island on the eastern seaboard between May 11th, 2022 and October 30th, 2022. The survey will be conducted by four (4) Unmanned Surface Vehicles (USVs), called saildrones, each 23ft in length, 16ft tall, orange in color with a white all-round light and marked "SAILDRONE". The saildrones will deploy from Newport, RI to conduct offshore surveys along the Gulf Stream to meet research objectives. All drones are uncrewed and wind and solar powered and will have limited maneuverability during survey operations. Mariners are requested to transit areas with caution and to remain greater than 500 meters away from the research equipment.
Enclosure (6) of this Local Notice to Mariners provides a photo and a description of the Saildrone,
Questions regarding saildrone operations should be directed to Saildrone Mission Control, missioncontrol@saildrone.com or (510) 722-6070.

LNM: 20/22

FL – GA – SC – NC - OFF SHORE OCEAN RESEARCH EQUIPMENT – HURRICANE MONITORING OPERATIONS

SAILDRONE, INC. is conducting hurricane monitoring in collaboration with the NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION and UNIVERSITY OF WASHINGTON in the Atlantic Ocean along the Florida, Georgia, South Carolina, North Carolina coastline and offshore between July 5th 2022 and December 15th 2022. The survey will be conducted by two (2) Uncrewed Surface Vehicles (USVs), called "Saildrones", each 23 ft in length, 9.5 ft tall, orange in color with a white all-round light on the mast and marked "SAILDRONE". Two (2) Saildrones will be deployed from Jacksonville, FL on or about July 5th 2022. All vehicles are uncrewed and wind and solar powered and will have limited maneuverability during hurricane monitoring operations. Mariners are requested to transit areas with caution and to remain greater than 500 meters away from the research equipment. Enclosure (7) of this Local Notice to Mariners provides a photo and a description of the Saildrone. Questions regarding saildrone operations should be directed to Saildrone Mission Control, missioncontrol@saildrone.com or (510) 722-6070.

LNM: 26/22

VA - ATLANTIC OCEAN - WALLOPS ISLAND ROCKET LAUNCHES

Rocket launches are regularly scheduled in the vicinity of Wallops Island, VA, Danger Zone 334.130. Prior to these launches, visual signals will be displayed consisting of either a large orange-colored, "blimp-shaped" balloon by day or a rotating alternately red and white beacon by night. The balloon will be flown from a position at 37-50-38N, 75-28-47W and the beacon will be displayed approximately 200 feet above mean high water in position 37-50-16N, 75-29-07W. While the warning signal is displayed, all persons and vessels in the Danger Zone, except vessels entering or departing Chincoteague Inlet, shall leave the zone promptly by the shortest possible route and remain outside the zone until allowed by a patrol boat to enter or the danger signal has been discontinued. Vessels entering or departing Chincoteague Inlet must take the shortest route possible upon display of the danger signal. The Danger Zone is depicted on navigational charts 12210 and 12211 with corner points starting in the vicinity of Assawoman Inlet and proceeding southerly to position 37-43-20N, 075-29-41W; thence northeasterly to a point in the vicinity of Chincoteague Shoals; thence westerly back to Wallops Island shoreline.

******VA – CHESAPEAKE BAY – CAPE CHARLES TO NORFOLK HARBOR - JOINT EXPEDITIONARY BASE LITTLE CREEK FORT STORY – LIVE FIRING******

Live firing is conducted continuously off Joint Expeditionary Base Little Creek in Danger Zone 334.370, the area west of the south end of the Chesapeake Bay Bridge Tunnel, bounded by the following positions: 36-55-24N 76-08-43W, 36-55-50N 76-08-37W, 36-57-16N 76-08-14W, 36-57-16N 76-08-14W, 36-56-58.5N 76-07-11W, 36-57-07N 76-07-44W. Firing is conducted Monday through Friday from 7:00 am to 8:00 pm. For questions contact Range Operations and Training Area, Mr. Assaf or Ms. Lawrence at 757-422-7103/7101.

Charts: 12222 12254

VA - WILLOUGHBY BAY - THIMBLE SHOAL CHANNEL - HELICOPTER AIRBORNE MINE COUNTERMEASURES OPERATIONS

Helicopter Mine Countermeasures Squadron Fourteen (HM-14) routinely conducts airborne mine countermeasures (AMCM) operations utilizing the MH-53E helicopter at low altitudes over the following inland and coastal waterways:

- Willoughby Bay
- Thimble Shoal Channel from the Naval Station Norfolk piers to the Chesapeake Bay Bridge Tunnel.
- An area of the Chesapeake Bay, adjacent to the Thimble Shoal Channel from Thimble Shoal to the Chesapeake Bay bridge tunnel extending to the north four miles to form a four by seven mile rectangle.

During these operations, the aircraft will be operating at altitudes as low as seventy-five feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. The devices the helicopters tow range in size and appearance from a large orange and white sled approximately the size of a pick up truck to slightly submerged steel pipes thirty feet in length, both of which have submerged cable extending well beyond the visible portion of the towed device. The Aircraft Commanders have been directed to exercise every effort to conflict and avoid surface vessels.

All mariners are requested to remain well clear of the helicopters, the towed devices, and the area extending directly behind the aircraft for four hundred yards. Do not approach or cross the area directly behind the towed device as a submerged hazard exists regardless of whether the device is in motion or stationary.

These operations involve large naval helicopters at flight altitudes of 100 feet or less, towing surface and sub-surface devices at speeds up to 25 knots. Helicopters may be identified by a rotating amber position light on centerline of main hull flashing 90 times per minute. An area of hurricane-force winds exists within a 250-foot radius around these helicopters, sufficient to blow people and objects from exposed decks and capsize small craft. The towed devices may be completely invisible and include large cables on or just below the surface streaming up to 1200 feet behind the aircraft. AMCM helicopters will transit to and from the area described above in the following manner: Outboard from the seaplane ramp at the Norfolk Naval Air Station across Willoughby Bay to the main shipping channel, then easterly along the main channel to Buoy 21. From Buoy 21either East, SE or SSE to the operating area. The return flight will follow the same path as the outbound flight. To minimize the potential for mishap, vessels are requested to remain well clear of these danger zones when AMCM operations are encountered.

Charts: 12200 12221 12222 12245 12254

VA –YORK RIVER – U.S. NAVAL WEAPONS STATION - CHEATHAM ANNEX - SMALL ARMS LIVE FIRE DANGER ZONE

A Danger zone has been established within an area beginning at Mean High Water on the shore at the U.S. Naval Weapons Station, Cheatham Annex facility on the York River, located at 37° 17′ 33.10″N, 076° 36′ 19.06″ W; then northeast to a point on the York River at 37° 18′ 36.650″N, 076° 34′ 39.010"W, thence south, southeast to 37° 17′ 59.37″N, 076° 34′ 13.65″W; then southwest to a point on the shore located at 37° 17′ 26.750″N, 076° 36′ 14.890″W. Vessels may transit this area at anytime; however, no vessel shall anchor, fish or conduct any waterborne activities within the Danger Zone established in accordance with this regulation any time live firing exercises are being conducted. Any time live firing is being conducted a red flag will be displayed in a conspicuous location along the shore to signify the range is active. At night, red lights will be displayed.

Chart 12241 LNM: 37/20

VA – POTOMAC RIVER – NAVAL SURFACE WARFARE CENTER DAHLGREN – TEST RANGE/EXPLOSIVES EXPERIMENTAL AREA

The Naval Surface Warfare Center Dahlgren Division operates the Potomac River Test Range and the Explosive Experimental Area (Pumpkin Neck). These facilities are used by our military to conduct munitions testing and should be avoided while testing is in progress.

Daily range schedule can be found at: https://www.navsea.navy.mil/Home/Warfare-Centers/NSWC-Dahlgren/NSWCDD-Range-Schedule/ or by calling Range / Weapons Testing Hotline: 877-845-5656 (toll free) for daily updates on range operation and test schedules.

Noise Questions & Comments: Call NSF Dahlgren: 540-653-8153 to comment or ask a question about noise or vibrations you think are being caused by operations at Dahlgren.

For more information on NSWC Dahlgren's range schedule, contact the NSWCDD Public Affairs Office, (540) 653-8154.

Chart 12288 LNM: 20/22

VA - VIRGINIA CAPES OPERATING AREA (VCOA) - PERMANENT MINE WARFARE TRAINING FIELDS

The U.S. Navy has established four permanent mine warfare training fields within the Virginia Capes Operating Areas. The bounding coordinates for each field are as follow:

AREA A: 37-09.0N 075-31.0W, 37-09.0N 075-34.7W, 37-12.0N 075-31.0W, 37-12.ON 075-34.7W.
AREA B: 36-29.0N 075-31.8W, 36-29.0N 075-35.5W, 36-26.0N 075-35.5W, 36-26.0N 075-31.8W.
AREA C: 36-29.0N 075-20.8W, 36-29.0N 075-24.5W, 36-26.0N 075-24.5W, 36-29.0N 075-20.8W.
AREA D: 36-46.5N 075-47.8W, 36-46.5N 075-46.5W, 36-47.5N 075-46.5W, 36-47.5N 075-47.8W.

Each area contains inert bottom and moored training mines that pose a potential hazard to dredging operations and trawler nets. All moored mines are placed at a minimum of 40 feet depth (MLLW) to preclude them as hazards to navigation.

Chart 12200

VA - COASTAL - STATE MILITARY RESERVATION, CAMP PENDLETON, VIRGINIA BEACH - SMALL ARMS LIVE FIRE SCHEDULE

The Camp Pendleton State Military Reservation Live Fire Small Arms Range described as "all of the waters seaward of the mean high water shore line within a sector between radial lines extending 13,500 yards seaward and bearing 090 degrees true and 150 degrees true, respectively, from a point on shore at 36° 49′ 09″N, 075° 58′ 45″W". All vessel operators are reminded to review Navigation Regulations as described in paragraph 334.380 of Chapter 2, of U.S. Coast Pilot 4, Atlantic Coast: Cape Henry to Key West (42nd) Edition when operating south of the entrance to the Chesapeake Bay. Firing will take place only during daylight hours and red flags will be displayed at conspicuous locations on the beach at the facility. Vessels shall proceed through the area with caution and shall remain in the area no longer than necessary for transit.

Charts: 12207 12221

DREDGING AND MARINE CONSTRUCTION CAUTIONS

Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires

DREDGING AND MARINE CONSTRUCTION CAUTIONS

associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. . Dredging projects are usually conducted twenty-four (24) hours a day seven (7) days a week. All fishnets, crabpots and structures in the general area must be removed prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

NJ – SANDY HOOK TO LITTLE EGG HARBOR – LITTLE EGG HARBOR – HAZARD TO NAVIGATION

A cofferdam has been installed in Little Egg Harbor approximately one mile northwest of Ham Island. In approximate position, 39° 36′ 33.744″ N, 074° 14′ 24.179″ W. The structure extends approximately 10′ above the water line and is surrounded by yellow painted pilings. Six of these pilings have white lights placed on top of them. Mariners are advised to exercise caution when transiting the area.

Chart 12324 LNM: 14/21

NJ – LITTLE EGG INLET TO HEREFORD INLET – DREDGING & BEACH RE-NOURISHMENT

Great Lakes Dredge and Dock, LLC will begin Beach re-nourishment of Great Egg Harbor Inlet and Peck Beach including placement of approximately 1,810,000 cubic yards of beach fill starting from the groin at Seaview Road and ending between 14th and 15th Streets in Ocean City, New Jersey. The Cutter Suction Dredge (CSD) Texas will dredge beach fill quality material from the Great Egg Harbor Inlet Borrow Area, located approximately 5,000 feet offshore, north east of the project location, east of the Great Egg Harbor Inlet. The material will pump through one subline extending from the borrow area to the placement beach. GLDD has secured two waterside staging areas on the northeast side of Absecon Inlet in Atlantic City where rafted pipeline and equipment will be stored when not in use. The survey vessel Wolf River and crew transfer vessel (CTV) Cooper River will traverse between the work areas and Golden Nugget Marina in Atlantic City throughout the duration of the project.
For cautionary areas and dredging/work operations, mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.
Cutter Suction Dredge (CSD) Texas, Derrick GL64, Anchor Barge, GL116, Tug Evergreen State, Tug Caspian Dawn, Tug Mr. Connor, CTV Cooper River, and survey vessel Wolf River can be reached on VHF-FM 13 and 16. Operations will be conducted 24 hours per day, 7 days per week. Anticipated completion Date is April 9, 2022.

Chart 12318 LNM: 41/22

******NJ – NEW JERSEY INTRACOASTAL WATERWAY-LITTLE EGG HARBOR TO CAPE MAY-ATLANTIC CITY-BEACH THOROFARE******

Mariners are advised that New Jersey Department of Transportation who owns and operate the Route 30 (Absecon Boulevard) Bridge across the New Jersey Intracoastal Waterway (NJICW), Beach Thorofare, mile 67.2, at Atlantic City, NJ, has requested a temporary deviation for a bridge maintenance project. To facilitate work, the bridge will be maintained in the closed-to-navigation position from 8 a.m. on October 10, 2022, through 5 p.m. on May 25, 2023. A work platform will reduce the horizontal clearance of the navigation channel to approximately 50 feet and temporary shielding will reduce the vertical clearance of the entire bridge to approximately 19 feet above mean high water in the closed position. Vessels that can safely transit through the bridge in the closed position with the reduced clearances may do so, if at least thirty minutes notice is given, to allow for safe navigation. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.733(e). Mariners should use caution when transiting the area.

Chart 12316 LNM: 43/22

PA – SCHUYLKILL RIVER – CSX RAILROAD BRIDGE DEVIATION

Until further notice, vessels wishing to transit through the CSX Railroad Bridge on the Schuylkill River should only do so on the western navigational span of the bridge. Due to storm damage a temporary power cable has been placed across the eastern navigation span of the bridge rendering passage unsafe. Mariners are advised to proceed with caution through the western navigation span only, and heed visual indicators of the blocked eastern span.

Chart 12313 LNM: 42/21

******PA – NJ – UPPER DELAWARE RIVER – SUBMERGED OBJECTS – FLORENCE AND LANDRETH RANGES******

The Army Corps of Engineers in Philadelphia has located four submerged objects within the Florence and Landreth Ranges of the Delaware River. These objects are as follows:
Florence Range:
Object 1: Latitude: 40 7.31103 N, Longitude: 074 47.63858 W Depth at MLLW=35.2′
Object 2: Latitude: 40 7.62131 N, Longitude: 074 48.84641 W Depth at MLLW=35.5′
Landreth Range:
Object 1: Latitude: 40 6.2726 N, Longitude: 074 50.20712 W Depth at MLLW=35.1′
Object 2: Latitude: 40 6.28483 N, Longitude: 074 50.19097 W Depth at MLLW=38.3′
There is currently no timetable for removal of these objects.

Chart 12314 LNM: 43/22

******DE – NJ – DELAWARE BAY – DREDGE OPERATION – MIAH MAUL AND BRANDYWINE RANGE******

Great Lakes Dredge and Dock Company will dredge three portions of Delaware Bay. Area 1 will be between Delaware Bay Lighted Buoy 25 (LLNR 1590) and Lighted Buoy 27 (LLNR 1595). Area 2 will be between Delaware Bay Lighted Buoy 19 (LLNR 1580) and Lighted Buoy 25 (LLNR 1590). Area 3 will be between Delaware Bay Lighted Buoy 12 (LLNR 1550) and Lighted Buoy 14 (LLNR 1565). Dodge Island and Crew Boat St. Johns River will begin October 23, 2022, ending around December 31, 2022. Dredge ops will run 24 hours a day, 7 days a week. Disposal of material will be in the lower Delaware Bay, Site bounded by corner points: 38.94737, -75.08733, 38.94485, -75.08595, 38.94593 -75.08273, 38.94845, -75.08406.

Chart 12304 LNM: 43/22

DE -NJ – DELAWARE RIVER - SMYRNA RIVER TO WILMINGTON – DELAWARE RIVER (MAIN CHANNEL)

Mariners are advised that a construction company, on behalf of Delaware River and Bay Authority, will continue painting operations on the Delaware Memorial Bridge, at mile 68.9, across the Delaware River at New Castle, DE through July 2024. Work platforms have been installed, reducing the

DE -NJ – DELAWARE RIVER - SMYRNA RIVER TO WILMINGTON – DELAWARE RIVER (MAIN CHANNEL)

available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution when transiting the area.

Chart 12311 LNM: 38/22

DE - DELAWARE BAY - MISPILLION RIVER - EMERGENCY BRIDGE CLOSURE

Mariners are advised that the highway drawbridge – Route 1/Rehoboth Blvd. Bridge across Mispillion River, mile 11.0, at Milford, DE has sustained a causality and will not be capable of normal operations. The bridge will remain in the closed position until further notice. Vessels able to transit through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 5 feet above mean high water. The bridge will not be able to open for emergency vessels. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area.

Chart 12304 LNM: 10/22

MD – CHESAPEAKE BAY – SURVEY OPERATIONS

Commencing on or about Sept 6, 2022, and continuing through March 2023, the R/V Sea Innovator and R/V Oyster Bay II will be conducting hydrographic survey operations in the waters of Central Chesapeake Bay, MD. Survey operations will be bounded from approximately 38° 09.44'N to the north and 38°41.13N to the south and will include Herring Bay and Magothy River and Sillery Bay along the western shore and the Chester River to Buckingham Warf and Possum Point, Prospect Bay, Eastern Bay, Crab Alley Bay, Wye River, Miles River, and Poplar Island Narrows along the eastern shore.

The R/V Sea Innovator is a 135', aluminum hulled survey boat with a purple and grey hull and a grey deckhouse. The vessel is equipped with a keel mounted sonar transducer and will be towing a side scan sonar instrument approximately 5-15 meters off of the seafloor and 50 meters astern of the vessel. The vessel will be conducting 24-hour operations. In addition, the Sea Innovator will maintain watch on VHF channels 13 and 16.

The R/V Oyster Bay II is a 30', Aluminum hulled survey vessel. The vessel is equipped over the side sonar mounts and sonars. The vessel will primarily be conducting operations 0600-1800hrs. The R/V Oyster Bay II will maintain watch on VHF channels 13 and 16.

There may be occasional unmanned aerial aircraft (Drone) activities conducting photogrammetry within the survey area.

Leidos requests that all vessels give the R/V Sea Innovator and R/V Oyster Bay a wide berth to avoid becoming fouled in the towed equipment or otherwise interfering with surveying operations.

Chart 12263 LNM: 36/22

MD – CHESAPEAKE BAY – CHOPTANK RIVER – BILL BURTON FISHING PIERS – WARNING TO WATERCRAFT OPERATORS

Due to safety concerns at the Bill Burton Fishing Piers, located along the Choptank River at the Bill Burton Fishing Pier State Park in Talbot and Dorchester Counties, MD, the Maryland Department of Natural Resources is warning watercraft to maintain a minimum distance of 100 feet from the fishing piers at all times until further notice. Signage posted warns of a possible danger of falling debris should boating traffic allide with these structures. Interested mariners can contact the Duty Ranger at 443-477-0526.

Chart 12266 LNM: 46/21

MD – CHESAPEAKE BAY – CHOPTANK RIVER AND HERRING BAY; CAMBRIDGE

Mariners are advised that an engineering firm, on behalf of the Maryland State Highway Administration, will be performing inspections at the S342 (MD-795) (Market Street) Bridge across Cambridge Creek, at river mile 0.1, at Cambridge, MD. The inspection will be conducted from 8 a.m. to 4 p.m.; Monday – Friday; on September 28, 2022, through October 28, 2022. An inspection vessel will be operating under and in the vicinity of the bridge to provide access for inspection. Inspection personnel, equipment and the vessel will relocate from the moveable span and navigable channel, upon request. The inspection boat and bridge tender may be reached on VHF-FM channel 13. Mariners are requested to notify the bridge tender at least 10 minutes prior transiting the bridge and should use caution when navigating through the area.

Chart 12266 LNM: 40/22

MD – CHESAPEAKE BAY – SEVERN RIVER – SPA CREEK – ANNAPOLIS HARBOR – MARINE CONSTRUCTION OPERATIONS

The Annapolis Boat Shows, Inc. will conduct in-water operations in support of the annual United States Sailboat and United States Powerboat Shows in Annapolis Harbor at Annapolis, MD during October 6-17, 2022. Temporary pilings, floating docks and submerged electrical cables will be installed in the northwestern area of Annapolis Harbor. To support the Annapolis Harbor in-water operations, long tows will occur across the Severn River during the following dates in 2022: (a) August 29 – September 2; (b) October 2-5; (c) October 18-20; and (d) October 24-28. During these periods, mariners are urged to use extreme caution when transiting the area, and to operate vessels at a reduced speed that allows a safe course and minimizes wake near the towing operations. Information regarding special anchoring restrictions in Annapolis Harbor in the event of severe weather during this period should be directed to the Annapolis City Harbormaster's Office on marine band radio VHF-FM channel 71 or telephone (410) 263-7973.

Chart 12283 LNM: 33/22

MD – SEVERN RIVER – DREDGE OPERATIONS

Edwin A. and John O. Crandell, Inc. will be conduction mechanical dredging operations in the Headwaters of the Severn River on or about October 24, 2022 until February 15, 2023. Crandell will be using Tug "Big C Too", Crane dredge "Digger 1" and offload "Barge 610" along with various other mud scows and equipment in the rough vicinity Latitude 39° 04'52.82"N, Longitude -76°36'38.81"W. We may be offloading the material into trucks at the shoreline in the vicinity of the dredging or transporting the mud scows via tug to the Hawkins Point Dredge Disposal Site offload site in Baltimore at approximate position Latitude 39°12'47.99"N, Longitude - 76°32'54.26"W. The Severn River channel width will be restricted during the dredging activities. Mariners are urged to use caution when transiting the area and reduce to a no-wake speed in the vicinity of the equipment for worker safety. Edwin A. and John O. Crandell, Inc can be contacted via phone at 410-867-0200 or on cell 410-991-2376.

Chart 12311 LNM: 42/22

******MD-CHESAPEAKE BAY-EASTERN BAY-AND SOUTH RIVER-CHESAPEAKE BAY******

Mariners are advised that a construction firm, on behalf of Maryland Transportation Authority, will be performing a bridge inspection on the US 50/US 301 Bridge, across the Chesapeake Bay, mile 138.1, between Annapolis, Anne Arundel County, MD and Stevensville, Queen Anne's County, MD. The inspection which began in September 2022, will continue to be conducted from 9:30 a.m. to 1:30 p.m., Monday through Thursday, from October 24, 2022, through December 23, 2022. An under-bridge inspection (snooper) vehicle, a thirty-foot work barge, work boats, and divers will be located in and around the vicinity of the bridge.

During the work hours, the snooper vehicle, work barge, work boats, and divers will be in and around the Chesapeake (main) channel of the bridge

******MD-CHESAPEAKE BAY-EASTERN BAY-AND SOUTH RIVER-CHESAPEAKE BAY******

reducing the vertical clearance of the bridge to approximately 162 feet of vertical clearance above mean high water and 1,470 feet of horizontal clearance.

Vessels that can safely transit through the Chesapeake (main) channel of the bridge during periods with reduced vertical and horizontal clearances may do so at any time. Vessels that cannot safely transit through the Chesapeake (main) channel of the bridge during periods with the reduced vertical and horizontal clearances may transit through the bridge, if at least a one-hour prior notice is given to the project foreman. The project foreman will provide certification that the snooper vehicle is clear of the navigation span of the bridge as soon as possible following notice, but not less than 30 minutes prior to the vessel's reported transit of the bridge.

Inspection personnel, equipment, snooper vehicle, vessels, and divers will relocate from navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman can be reached on VHF-FM channel 13 and at (443) 564-5958 or (443) 878-4263. Mariners should use extreme caution navigating through the area.

Information regarding the inspections of the eastern channel and southern structure will be provided via separate local notice to mariners at a later date.

Chart 12270 LNM: 43/22

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – PATAPSCO RIVER – VESSEL MOVEMENT

Mariners are advised that the 186-foot historic sloop-of-war U.S.S. CONSTELLATION is scheduled to be towed on the Patapsco River on October 25, 2022, between 9 a.m. and 1 p.m. In the event of inclement weather, the tow will occur on October 26, 2022. The U.S.S. CONSTELLATION will be towed from its berth at Inner Harbor Pier 1 at Baltimore, MD to the Sparrows Point Shipyard Graving Dock in Baltimore County, MD. Mariners are urged to use caution when transiting the area. Interested mariners can contact the primary towing vessel HUNTING CREEK on marine band radio VHF-FM channel 16 or 13. For any questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

Charts: 12278 12281 LNM: 42/22

MD – UPPER CHESAPEAKE CHANNEL – DREDGE OPERATIONS

Corman Kokosing Construction Company will begin mechanical dredging operations on or about September 6, 2022 in the Federal Navigation Channel in the Chesapeake Bay and Elk River from Pooles Island to Old Town Point. Loaded scows will be towed from the work area to the Unloader barge located at the Pearce Creek Dredge Containment Facility for offloading. The unloader barge will be staged on the South of the channel and North of Wroth Point. An 18" submerged HDPE pipeline will be placed on the river bottom from the Unloading Barge into the placement facility. The Dredge KOKO VI and/or KOKO V will be dredging the area with the assistance of tender tug, towing tugs and scows. Vessels and crew will monitor VHF channel 13 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of March 31, 2023. For more information, contact Adam Donder, (443) 695-3788, adondero@kokos.com.

Charts: 12272 12274 12280 LNM: 35/22

MD – HEAD OF CHESAPEAKE BAY – UPPER GUNPOWDER RIVER – DREDGING OPERATIONS

Dredge operations are expected to occur Mondays through Saturdays during daylight hours in Bird River, starting in approximate position 39°22'43.45" N, 076°22'11.13" W. Work will be conducted by utilizing two Mud Cat Dredges installing approximately 10,000 feet of 8 inch pipeline. The pipeline will be marked with danger buoys. The 25' workboat 'Viking' and supporting skiffs will be used to facilitate movement. When moored, all equipment is marked and lighted in accordance with USCG Regulations. Additionally, during nighttime hours equipment will be marked with blinking warning lights. Interested mariners may contact the on scene work vessels via marine band radio VHF-FM channels 16 and 10. Project is expected to be completed around March 15, 2023.

Chart 12274 LNM: 42/22

MD – HEAD OF CHESAPEAKE BAY – SUSQUEHANNA RIVER – SOILING BORING

Warren George Inc will begin Soil Boring on September 26, 2022 thru October 31, 2022.Boring will be conducted from a 30'X90' barge and will be operational 24 hours a day Monday to Saturday. Boring locations are in the vicinity of the Amtrak Susquehanna River Bridge in positions: 39 33'16.83"N 76 05'13.55"W, 39 33'18.12"N 76 05'08.88"W, 39 33'15.94"N 76 04'59.99"W, 39 33'16.92"N 76 04'59.99"W, 39 33'22.42"N 76 04'50.72"W, 39 33'23.00"N 76 04'48.48"W, 39 33'20.93"N 76 04'51.24"W, 39 33'21.48"N 76 04'49.18"W. Drilling team will monitor VHF-FM 13 and 16.

Chart 12274 LNM: 38/22

VA – MD – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – NICE / MIDDLETON BRIDGE CONSTRUCTION

Bridge replacement operations are scheduled to continue adjacent to the Federal Navigation Channel at the New Harry W. Nice / Thomas "Mac" Middleton (US 301) Bridge on the Potomac River in Newburg, MD through November 2024. A new 6-knot speed limit is now being enforced for 0.5 nautical miles north and south of the bridge. Wakes from speeding boats can create major hazards for construction operations and workers. Mariners are reminded to heed the speed limit markers established by the State of Maryland when transiting the area, so that wake does not affect the platforms and barges at the work site. For more information, visit www.nicemiddletonbridge.com or call 888-994-1415.

Charts: 12287 12288 LNM: 18/21

******MD - VA – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – BRIDGE DEMOLITION OPERATIONS******

Demolition of the old Harry W. Nice / Thomas "Mac" Middleton (US 301) Bridge on the Potomac River between Newburg, MD and Dahlgren VA, just south of the new bridge, is scheduled to continue into late 2024. Project vessels and barges will be working under and adjacent to the old bridge potentially 24 hours per day, 7 days per week.

Starting on or about December 1, 2022, through April 30, 2023, barges may be positioned in or adjacent to the federal navigation channel during daylight hours to support roadway deck removal and related activities. At least half of the 250-foot wide federal navigation channel will be open at all times for vessel passage for this operation. Large vessels in transit that require use of the full federal navigation channel during the work period described must provide at least 24 hours advanced notice to either Mr. Mike Baker at (443) 286-1780 or Mr. Daniel Francis at (757) 375-3960. Interested mariners in transit can also contact the vessels SEAWARD 23 or MISS STACY via marine band radio VHF-FM channels 13 and 16 when actively working on the river for information/coordination.

During February 2023 - May 2023, and October 2023 - December 2023, more extensive federal navigation channel restrictions and/or closures are being planned to allow for heavy demolition of the old bridge above and adjacent to the federal navigation channel.

When transiting this area, mariners are reminded to heed the 6-knot speed limit established by the State of Maryland so wake does not affect the crane barges and endanger workers at the work site.

******MD - VA – POTOMAC RIVER – LOWER CEDAR POINT TO MATTAWOMAN CREEK – BRIDGE DEMOLITION OPERATIONS******

Chart 12288 LNM: 43/22

DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – POTOMAC RIVER – UPPER POTOMAC RIVER – GEORGETOWN CHANNEL – GEOTECHNICAL BORING OPERATIONS

Test boring operations are scheduled to occur in on the Upper Potomac River at Washington, DC during September 12, 2022-December 31, 2022. Work will be conducted 7 days a week, from 7 a.m. to 7 p.m. and is located between the Long Railroad Bridge and the WMATA Yellow Line Metro Bridge, at position 38°52′29.14″N, 077°00′01.39″W. Marine equipment on site includes using two 90-foot long barges and two support vessels for each barge for the duration of the project. Outside the prescribed work hours, if weather allows, the barges will be spudded down close to the drilling locations, but clear of any navigation channels, and the support vessels will be moored at a local marina. All equipment will be clearly marked and lighted as required by U. S. Coast Guard regulations. To prevent damage to the gear, mariners operating nearby are requested to proceed at a reduced safe speed that minimizes wake at the work site. Interested mariners can contact the support tugs, while working, on marine band radio VHF-FM channel 16.

Chart 12289 LNM: 34/22

DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – ANACOSTIA RIVER

Construction of the new Frederick Douglass Memorial (South Capitol Street) Bridge and demolition of the old bridge across the Anacostia River in Washington, DC continues into 2023. The work is primarily being conducted Mondays through Saturdays, between 7 a.m. and 7 p.m., with intermittent night and Sunday work. The federal navigation channel east of the original center pier, approximately 150 feet wide, remains available for navigation. Exclusion buoys labelled "DANGER" mark the active and ongoing bridge work east and/or west of the Federal Channel. Floating turbidity curtain and buoys are positioned around the old piers being demolished and supported by lit temporary piles. To support active demolition construction operations, a vessel/barge may be intermittently positioned within the east navigable channel. During these periods, the federal navigation channel to the west of the original center pier, approximately 150 feet wide, will be available to navigation. Mariners intending to transit this area are urged to contact the vessels MS. BECKY or CLAIRE MARIE for passing arrangements. Marine equipment on site includes a crew boat, a push boat, and multiple deck barges. All equipment will be marked and lighted as required by U. S. Coast Guard regulations. Mariners are urged to use extreme caution when transiting the area, and to operate at minimum speed necessary to maintain safe course that minimizes wake near the work site. Interested mariners can contact the vessel MS. BECKY or vessel CLAIRE MARIE via VHF-FM channels 16 and 13 when actively working on the river.

Chart 12289 LNM: 39/22

DC – UPPER POTOMAC RIVER – ANACOSTIA RIVER – SOIL BORING

Washington Gas and Light Co (WGL) will be conducting monitoring and sampling activities in the surface water and sediments in the Anacostia River near the former Washington Gas East Station site located at 1334 Water St SE Washington DC from October 17- December 31, 2022, approximate position 38.873823N, -76.986567W. All work will be conducted from a 20'X90' barge, a 20'x40' barge, a 18' skiff, and push boat Producer. All work will be conducted during daylight hours only and outside the federal navigational channel.

Chart 12289 LNM: 42/22

DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – POTOMAC RIVER - GEORGETOWN CHANNEL- TEMPORARY NO WAKE ZONE

Due to ongoing construction on the Metro Rail Bridge across the Potomac River, at mile marker 109.8, for the WMATA Yellow Line Rehabilitation Project, the DC Harbor Master has established a temporary "NO WAKE" zone in effect through May 31, 2023. This zone will include the entire 14th Street Bridge complex.

Chart 12289 LNM: 35/22

******VA - ATLANTIC OCEAN - WALLOPS ISLAND – ROCKET LAUNCH******

****UPDATED POSITIONS****

Mariners are advised the launch director, National Aeronautics and Space Administration Wallops Flight Facility, Wallops Island, Virginia has advised that the area in the Atlantic Ocean within the existing danger zone off Wallops Island and Chincoteague Inlet (depicted in 33 CFR 334.130) as shown on Nautical Ocean Service chart 12210, will be hazardous to navigation because of a rocket launch during the periods and times stated below. The primary launch date is scheduled for Wallops Island, VA on; October 26, 2022 from 1:15 pm to 5:30 pm (Est), with the following back up dates and times:

October 27, 2022 to October 30, 2022 daily from 1:15 pm to 5:30 pm (Est) until launched.

The following 3 public ship avoidance areas will be in effect during these launch windows bound by: a 10 nautical mile hazard area approximately 8.7 nautical miles east of Wallops Island launch pad at center point of position 37□48.21N /75□18.6"W, 25 nautical mile hazard area approximately 29.7 nautical miles east of Wallops Island launch pad at center point of position 37□42.22N /74□53.12"W, and a 95 nautical mile hazard area approximately 144.1 nautical miles east of Wallops Island launch pad at center point position 37□8.6N /72□35.48"W. Mariners planning on operating in these areas are requested to contact "Wallops Plot" via VHF-FM Ch. 12 or Ch. 22 or via landline at (757) 824-1685. For any concerns contact surveillance coordinator Jordan West at (757) 824-2949 or launch director John Dickerson at (757) 894-2094. See ENC 8.

******VA - ATLANTIC OCEAN - WALLOPS ISLAND – ROCKET LAUNCH******

The following 2 public ship avoidance areas will be in effect during these launch windows bound by: a 64 nautical mile hazard area approximately 61.6 nautical miles east of Wallops Island launch pad at center point of position 37-13.2N /74-27.59W, 153 nautical mile hazard area approximately 186.9 nautical miles east of Wallops Island launch pad at center point of position 29-12.67N /64-36.17W. Mariners planning on operating in these areas are requested to contact "Wallops Plot" via VHF-FM Ch. 12 or Ch. 22 or via landline at (757) 824-1685. For any concerns contact surveillance coordinator Jordan West at (757) 824-2949 or launch director John Dickerson at (757) 894-2094. See ENC 9.

Chart 12210 LNM: 43/22

VA – THIMBLE SHOALS CHANNEL – DREDGE OPERATIONS

Great Lakes Dredge & Dock Company, LLC (GLDD) with the Tugs M/V Miss Gloria, Mechanical Bucket Dredge No. 55, and Scows GL 601/GL 604 will commence dredging operations in the Thimble Shoal Channel between coordinates point A, 36.9741369°N,-076.1185955°W, point B, 36.9775353°N,-076.1172310°W, point C, 36.9534965°N, -076.0243938°W, point D, 36.9500990°N,-076.0257621°W on October 13th 2022. Dredged material will be transported to DAM NECK OFFSHORE DISPOSAL SITE and bottom dumped in the contract designated area by Scows 601 and 604. Disposal will take place between Point I, 36.7744462°N,- 075.9049262°W, Point J, 36.8128988°N,-075.9049260°W, Point K, 36.8128974°N,-075.8878462°W, Point L, 36.7744449°N,-075.8878549°W. Operations occur 24 hours per day, 7 days per week and is anticipated to be completed by February 28, 2023.

Chart 12254 LNM: 41/22

VA – CHESAPEAKE BAY – BUCKROE BEACH RE-NOURISHMENT PROJECT****

Great Lakes Dredge & Dock Company, LLC (GLDD) with the Cutter Suction Dredge Texas will commence dredging operations in the borrow area between coordinates point A: 37.0422606° N, -076.2524318° W, point B: 37.0422083° N, -076.2496915° W, point C: 37.0389133° N, -076.2497895° W, point D: 37.0389656° N, -076.2525296° W on November 3, 2022. Dredged material will be transported and placed onto Buckroe Beach for beach placement activities, with disposal utilizing one pipeline for the entirety of the project. Operations occur 24 hours per day, 7 days per week.

Great Lakes Dredge & Dock Company, LLC (GLDD) will commence pipeline installation activities offshore of Buckroe beach on October 24, 2022. Installation activities will include towing attendant plant and pipeline sticks approx. 3,000 ft. in length from GLDD's Waterside Staging Areas #1 and #2 located next to Craney Island to the beach landing on Buckroe Beach (Seaward beginning of subline will be approximately at 37.0382955°N, -076.2534063° W, and the beach landing location approximately at 37.0424682° N, -076.2885514° W). The operations will involve Cutter Suction Dredge Texas, Tug Ranger, Tug Evergreen State, Tug Bering Dawn, Derrick 73, Anchor Barge 115, and other attendant plants being close to the shoreline, with lighted and marked pipeline being between the shoreline and the towing tugs. While the pipeline is installed, it will be submerged on the ocean floor (but visibly marked with lighted can buoys) until emerging on shore, with float hoses 2000 ft. in length, connected to the Cutter Suction Dredge Texas on the water side. Boaters are advised to avoid these areas during the installation process and proceed with caution around submerged pipeline areas. Project is expected to be completed by November 14, 2022.

Charts: 12222 12256 LNM: 43/22

VA – HAMPTON ROADS – HAMPTON ROADS BRIDGE TUNNEL (HRBT) – BRIDGE CONSTRUCTION/ISLAND EXPANSION

Mariners are advised that a construction firm, on behalf of Virginia Department of Transportation, will be constructing new approach bridges to replace the I-64/US 60 (Hampton Roads Beltway) North and South Approach Bridges, across Hampton Roads, at mile 0.0, between Norfolk, VA and Hampton, VA, commonly referred to as the Hampton Roads Bridge-Tunnel (HRBT). Construction activities will begin March 15, 2021, and are expected to continue through November, 2025. Marine construction activity will take place 24-hours per day, seven days a week.

The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00′ 24.12″ N, 76° 19′ 18.84″ W for the west span and at position 37° 00′ 24.48″ N, 76° 19′ 15.60″ W for the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58′ 15.24″ N, 76° 18′ 03.96″ W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new approach bridge spans or located within specific Mooring Areas or Safe Harbor locations.

Bridge Structures/Work Trestles & Islands – Mariners are advised to maintain a safe distance of 300 feet from all HRBT bridge structures/work trestles, HRBT North Island, and HRBT South Island. Construction managers may establish safe transit corridors through bridge structures/work trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines next to the existing trestles for the duration of the bridge construction to facilitate construction activity. Each pile will be lit by a flashing white light.

Hampton Flats Mooring Area – As charted. Changes pending. This area will contain six mooring buoys, lighted with flashing white lights, for the exclusive use of vessels involved in the HRBT Expansion project. The corners of the mooring area are marked with yellow buoys with flashing yellow lights. Mariners should use caution when transiting the area.

Phoebus Safe Harbor Area – As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. When utilized, mariners should keep clear of the area.

Willoughby Bay Mooring and Safe Harbor Area – As charted. This area contains a straight row of mooring pilings for the exclusive use of vessels involved in the HRBT Expansion project. The two end pilings are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-685-3392 or Kareem Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373- 4799 and/or email MarineOps@hrcpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org.

Charts: 12222 12245 LNM: 44/20

VA - HAMPTON ROADS-WILLOUGHBY BAY - BRIDGE MODIFICATION

Mariners are advised that a construction firm, on behalf of Virginia Department of Transportation, will be modifying the existing bridge I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge across Willoughby Bay, mile 1.5, at Norfolk, VA, commonly called the Willoughby Bay Bridge.

VA - HAMPTON ROADS-WILLOUGHBY BAY - BRIDGE MODIFICATION

Construction activities will begin on June 7, 2021, and are expected to continue through December, 2023. Marine construction activity will take place 24-hours per day, seven days a week.

The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.

Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

Bridge Structures/Work Trestles: Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending on out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area – As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536- 9863 and/or email MarineOps@hrcpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org.

Charts: 12222 12245 LNM: 23/21

******VA – CAPE HENRY TO THIMBLE SHOAL LIGHT – WILLOUGHBY BAY – NAVY EXERCISE******

On November 15th and 16th, 2022 from 1100-1600 (Weather back-up November 17, 2022), the Helicopter Sea Combat Wing Atlantic (HSCWL) will be conducting Fire Fighting Training in the Willoughby Bay. During these operations, the aircraft will be operating at altitudes as low as fifty feet and will produce localized winds in excess of 125 miles per hour. Rotor wash produced winds pose a considerable hazard to vessels, especially sailing vessels. Helicopters will carry large orange buckets suspended from the bottom of the aircraft. These buckets will be filled with water and then emptied from low altitude. The Aircraft Commanders have been directed to exercise every effort to de-conflict and avoid surface vessels. All mariners are requested to remain well clear of the helicopters and the area extending directly behind and below the aircraft. To minimize the potential for mishap, vessels are requested to remain well clear helicopters conducting Firefighting training. C/S DRAGON and military aircraft will monitor VHF CH 16. For more information contact LCDR ANDREW SEBASTIANO, HM-12 SEA DRAGONS, Cell: (845) 807-3678; Office: (757) 322-9395.

Chart 12245 LNM: 43/22

VA – NORFOLK HARBOR AND ELIZABETH RIVER - BRIDGE MAINTENANCE

Mariners are advised that an engineering firm on behalf of the city of Portsmouth is requesting to temporarily close the navigation channel to set girders for the new bridge at the US 17 (Churchland) Bridge across the Western Branch of the Elizabeth River, mile 1.72, at Portsmouth, VA. The main navigation channel will be closed from 6 a.m. to 6 p.m., daily, from August 29, 2022, to January 31, 2023. All personnel and equipment will move from the main navigation channel upon request with a two-hour advanced notice. The project officer can be reached via cell at (757) 708-2900, or on VHF/FM CH 13. All mariners should use caution when transiting the area.

Chart 12253 LNM: 42/22

VA – ATLANTIC INTRACOASTAL WATERWAY - ELIZABETH RIVER SOUTHERN BRANCH – BRIDGE MAINTENANCE

Mariners are advised that a construction company, on behalf of Norfolk Southern, will perform counterweights steel installation on the Norfolk Southern #7 Railroad Bridge across the Southern Branch of the Elizabeth River, mile 5.8, at Chesapeake, VA. To facilitate maintenance, the bridge will be maintained in the closed-to-navigation position from 6 p.m. to 6 a.m.; Monday – Saturday; from October 24, 2022, through November 22, 2022. During work hours, a crane on a 55ft barge will be partially or fully obstructing the channel. Vessels may not transit the bridge in the closed position. At all other times, the bridge will operate per 33 CFR 117.997(d). Mariners should adjust their transits accordingly and use extreme caution when transiting the area.

Chart 12253 LNM: 40/22

VA – JAMESTOWN ISLAND TO JORDAN POINT – JAMES RIVER – DREDGING OPERATIONS

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Richmond will be conducting dredging operations on the James River (Dancing Point – Swann Point Channels) between James River River Channel Lighted Buoy 57 (LLNR 12200) and James River Channel Lighted Buoy66 (LLNR 12250) from October 15, 2022 to December 31, 2022.

All mariners are requested to stay clear of the dredge, pipelines, barge, derricks and operating wires about the dredge. All operators should be aware that the dredge and pontoon lines are held in place by cables, which are attached to anchors some distance from the dredge and pontoons. Buoys are attached to the anchors so that they may be moved as the dredge moves. Submerged lines should be avoided. Mariners are requested to exercise extreme caution when approaching, passing, and leaving the dredging plant. The dredge Richmond monitors VHF channels 13. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week. A slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.

Chart 12251 LNM: 41/22

VA – CHESAPEAKE BAY - RAPPAHANNOCK RIVER ENTRANCE - MILFORD HAVEN INLET, HILLS BAY

Mariners are advised that the Virginia Department of Transportation has requested a temporary deviation to complete a major rehabilitation of the mechanical and electrical systems to prevent imminent failure of the opening mechanism on the State Route 223 (Gywnn's Island Bridge) across Milford Haven Inlet, Mile 0.1, at Hudgins, VA. The bridge will remain in the closed-to- navigation position from 2 a.m. on August 19, 2022, through 11 p.m. on March 15, 2023. During the closure period, the bridge will not be able to open for emergencies. Vessels able to pass through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 12 feet above mean high water. Mariners should adjust their transits accordingly and should use caution when transiting the area.

Chart 12235 LNM: 26/22

VA – POTOMAC RIVER – CABIN POINT CREEK – BREAKWATER CONSTRUCTION

Coastal Design & Construction, Inc. will begin construction on a Stone Breakwaters near Cabin Point Creek, starting on October 19, 2022 to approximately December 31, 2022. Five barges will be moored in the Potomac River near Cabin Point in positions: Rig Barge - 38° 8.830892'N, 76° 39.624579'W - Deck Barge - 38° 8.759851'N, 76° 39.591876'W - Deck Barge - 38° 8.688762'N, 76° 39.583552'W - Deck Barge - 38° 8.957397'N,

VA – POTOMAC RIVER – CABIN POINT CREEK – BREAKWATER CONSTRUCTION

76° 39.429406'W -Deck Barge - 38° 9.114493'N, 76° 39.457913'W. All barges will be marked with constant White Light per Coast Guard requirements and moorings with slow flashing white lights. Tug Capt. Dale and Push Boat Emelie B will be monitoring VHF Channel 13 & 16. For more information, contact, J Richard Mattingly – Superintendent (Marine), Cell: 301-643-4323.

Chart 12289 LNM: 42/22

NC – OREGON INLET - BRIDGE – TEMPORARY NAVIGATION SPAN

Mariners are advised that the Coast Guard has designated span 31, between bents 30 and 31, as a temporary navigation span for the Marc Basnight Bridge (NC-12) over Oregon Inlet, mile 0.5, between Rodanthe and Nags Head, Dare County, NC. Span 31 provides a vertical clearance of approximately 56 feet above mean high water and a horizontal clearance of approximately 120 feet between the 180-degree red channel margin bridge lights. The approaches to span 31 have been marked with short-range aids-to-navigation. Bridge lighting will be installed in span 31.
Spans 20-28 are currently designated as the primary navigation spans, however, severe shoaling has prevented use of these spans. Currently, Span 31 is the only permitted span for vessel traffic through the Basnight Bridge.
Vessels of 100 or greater gross tons should avoid transiting the bridge until further notice and shall not transit span 31 of the bridge. Mariners should transit span 31 of the bridge with extreme caution and due regard for the reduced navigational clearances, lack of a bridge fender system, and the prevailing conditions of the waterway associated with shoaling.

Chart 12204 LNM: 36/22

NC – OREGON INLET – DREDGING OPERATIONS

EJE Dredging Service will begin dredge operations in Oregon Inlet through the Ocean Bar east of the Marc Basnight Bridge and in an alternate channel on the west side of the Marc Basnight Bridge ("Bridge") for Oregon Inlet Channel. Hopper dredge, Miss Katie, is expected to begin dredging October 1, 2022, and will continue throughout the remainder of the year. Dredge operations will be performed 12 hours a day, seven (7) days a week. All dredge spoils will be transported to a disposal site located in deep sour holes near the Bridge on the south side of Oregon Inlet and/or a nearshore site located off Pea Island. All mariners are requested to use caution in the area, and as such, pass the dredge at no wake speeds. Miss Katie can be reached on VHF-FM CH 16 and 13. For more information, contact Jordan Hennessy at jhennessy@ejedredgng.com or (252) 597-5752.

Chart 12204 LNM: 40/22

NC – OREGON INLET CHANNEL – DREDGE OPERATIONS

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington will be conducting dredging operations within Manteo Interior Channels, North Carolina. The Lexington will start operations around December 20, 2022 and working till February 10, 2023. The Lexington will then work the interior channels, Range 17, Range 17 Extension and Range 16 between Oregon Inlet Channel Buoy 40 (LLNR 28139) and Roanoke Sound Channel Daybeacon 2 (LLNR 28370).
All mariners are requested to stay clear of the dredge, pipelines, barge, derricks and operating wires about the dredge. All operators should be aware that the dredge and pontoon lines are held in place by cables, which are attached to anchors some distance from the dredge and pontoons. Buoys are attached to the anchors so that they may be moved as the dredge moves. Submerged lines should be avoided. Mariners are requested to exercise extreme caution when approaching, passing, and leaving the dredging plant. The dredge Lexington monitors VHF channels 13. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week. A slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.

LNM: 42/22

NC – BIG FOOT SLOUGH CHANNEL – DREDGE OPERATIONS

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington will be conducting dredging operations within Big Foot Slough Channel, North Carolina. The Lexington will start operations around November 1, 2022 and working till December 20, 2022. The dredge Lexington will start dredging Big Foot Slough Channel first between Big Foot Slough Light 14BF (LLNR 29087) and Big Foot Slough Light 9 (LLNR 29055) discharging material onto Big Foot Slough Island.
All mariners are requested to stay clear of the dredge, pipelines, barge, derricks and operating wires about the dredge. All operators should be aware that the dredge and pontoon lines are held in place by cables, which are attached to anchors some distance from the dredge and pontoons. Buoys are attached to the anchors so that they may be moved as the dredge moves. Submerged lines should be avoided. Mariners are requested to exercise extreme caution when approaching, passing, and leaving the dredging plant. The dredge Lexington monitors VHF channels 13. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week. A slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.

Chart 11555 LNM: 42/22

******NC – Beaufort Inlet & Part of Core Sound – HARKERS ISLAND BRIDGE REPLACEMENT******

Mariners are advised that a construction firm, on behalf of the North Carolina Department of Transportation (NCDOT), is constructing a new bridge to replace the Harker's Island Bridge across The Straits, mile 0.9, near Harker's Island, NC. Commencing on or about October 3, 2022, four 50-foot long by 30-foot wide temporary work trestles will be positioned to the east of the navigation span for the new bridge, which is centered on position approximate 34° 42' 57.24" N, 76° 34' 40.88" W. Upon placement of the work trestles, the vicinity of the navigation span of the new bridge will not be open to navigation for approximately two weeks. Vessels may transit to the south of the work trestles during this time, with due regard for navigation safety and the prevailing depths of water. Commencing on or about October 17, 2022, the center two temporary work trestles will be removed to reopen the center of the navigation span of the new bridge, which will provide approximately 98 feet of horizontal clearance and unlimited vertical clearance above mean high water. On or about December 2, 2022, the remaining temporary work trestles in the vicinity of the navigation span for the new bridge will be removed.
Upon completion, the replacement bridge will be a fixed bridge with a horizontal clearance of 125 feet and a vertical clearance of 45 feet above mean high water centered on position approximate 34° 42' 57.24" N, 76° 34' 40.88" W.
Mariners should transit the vicinity of bridge construction using extreme caution and due regard for general safety and navigation safety.

******NC - NEW RIVER - CAMP LEJEUNE - FIRING EXERCISES******

Marine Corps Installations East-Marine Corps Base Camp Lejeune, North Carolina, Live firing and training:
Mariners traveling in Atlantic Intracoastal Waterway through this area can expect a delays of about one to four hours during the below times.
Range Control Boats, from Camp Lejeune, NC monitor Channel 16 VHF-FM and the working Channel 82 VHF-FM. Range Control can be reached at 910-451-3064 or 4449.
The restricted areas in the Atlantic Ocean east of the New River Inlet as shown on National Ocean Service Chart 11543, will be closed to navigation up to 15 nm seaward because of firing exercises during the following periods:
1. Restricted areas in the new river, as shown on National Ocean Service chart 11542 that will be closed to navigation because of stone bay rifle range firing exercises during the following periods:
Stone Creek Sector 12:01 a.m. to midnight daily
Stone Bay Sector 12:01 a.m. to midnight daily
West of the 77 (deg) 26 (min) Longitude line.
The restricted areas that may be closed to navigation because of firing exercises during the following periods:
Traps Bay Sector 12:01 a.m. to midnight daily
Courthouse Bay Sector 12:01 a.m. to midnight daily
Stone Bay Sector 12:01 a.m. to midnight daily
East of the 77 (deg) 26 (min) longitude line.
Grey Point sector 12:01 a.m. to midnight daily
Farnell Bay sector sunrise to sunset daily
Morgans Bay sector sunrise to sunset daily
Jacksonville sector sunrise to sunset daily
2. The target bombing area N1/BT-3 impact area in the Atlantic Ocean east of the new river inlet as shown on national ocean service chart 11543, may be closed to navigation because of firing exercises during the following periods:
3. Due to unexploded ordnance on Browns Island and in the adjacent waterways and marsh areas, Browns Island is off limits to all unauthorized personnel. Vessels may transit the surrounding waters, however no vessel shall bottom fish or anchor.
4. Mariners traveling on the western side of the new river between Stone bay and Farnell Bay should be aware that there are numerous sign poles without working lights and are leaning or submerged as a result of Hurricane Florence and present hazards to navigation. These poles once had signs denoting areas of caution around the Stone bay rifle range and Verona Loop firing ranges.
4A. Signs are located along the stone bay, grey point and Farnell Bay sectors of the New River. Marine Corps Base Camp Lejeune is working to replace these signs.
5. Range control boats, MCIE-MCB CAMLEJ North Carolina monitor channel 16 VHF-FM (156.8 mhz) and the working channel 82 VHF-FM (161.725 mhz). Range Control can be reached by phone at 910-451-3064 or 4449.

LNM: 10/22

NC – ATLANTIC INTRACOASTAL WATERWAY (AICW) – NORTH CAROLINA CUT

Mariners are advised that a construction firm, on behalf of U. S. Marine Corps Base Camp Lejeune, will be constructing a new bridge to replace the Onslow Beach Swing Bridge across the Atlantic Intracoastal Waterway, mile 240.7, at Camp Lejeune, NC. Construction activities will begin October 3, 2022, and are expected to finish February 2025. Work will be on-going from 7 a.m. through 7 p.m.; Monday through Friday, excluding Government holidays. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins.
Two barges, support vessel, and crew boat will be operating or stationed in the vicinity of the existing and new bridge. Temporary work platforms will be in place for the duration of construction of the new bridge and demolition of the existing bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway.
Barge and vessels may be reached on VHF-FM channel 13 and 16 when work is in progress or vessels are operating the area. Mariners should use caution when transiting the area.

NC – CAPE FEAR RIVER – GOLD BOND BUILDING PRODUCTS MARINE TERMINAL – DREDGING OPERATIONS

American Dredging and Environmental Services will begin hydraulic dredging starting October 22, 2022 to approximately February 15, 2023. Dredge area is located adjacent to Cape Fear River Lighted Buoy 59 (LLNR 30855) outside of the channel. Dredge spoils will be pumped via pipeline under channel to spoil area on west side of river. Pipeline will be submerged on bottom of channel at approximately 42ft MLLW. Dredging will occur 7 days a week from dawn to dusk. All vessels and pipeline will be mark in accordance with Coast Guard regulation. AMDES Pushboat, AMDES Plant #1 and AMDES Skiff will monitior VHF 13 and VHF 16. NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

SUMMARY OF SHOALING REPORTED
IN THE FIFTH COAST GUARD DISTRICT
ENCLOSURE (1)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NEW JERSEY SHOALING

NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING
Shoaling has been located in the vicinity of New Jersey Intracoastal Waterway Light 262 (LLNR 36005). Shoaling has encroached into the channel, depths are currently 5 - 6ft at MLW.
Chart 12316

NJ – INTRACOASTAL WATERWAY – LITTLE EGG HARBOR TO CAPE MAY INLET – SHOALING
The shoal adjacent to New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal Waterway Daybeacon 130A (LLNR 35537) has encroached approximately 25-50yds into the channel. Depths of 2-3' at MLW. Shoaling to 2' MLW has been observed on the red side of the channel between New Jersey Intracoastal Waterway Light 132 (LLNR 35550) and New Jersey Intracoastal
Waterway Daybeacon 130A (LLNR 35537). SEC DB BNM 124-20
Chart 12316

NJ – BARNEGAT INLET - OYSTER CREEK CHANNEL – SHOALING
Hazard to navigation - There has been a report of shoaling in the NJICW in the vicinity of Oyster Creek Channel Buoy 39 (LLNR 1093), encroaching channel ward to an approximate water depth of two and a half feet. SEC DB BNM 226-21
Chart 12323

NJ – BARNEGAT INLET – SHOALING
Sector Delaware Bay is notifying mariners that there is shoaling reported at the entrance of Barnegat bay inlet. The shoaling is reported in the main navigation channel between Barnegat Inlet Buoys 3 (LLNR 915) and 4 (LLNR 925) and between Barnegat Inlet Lighted Buoys 9 (LLNR 950) and 11 (LLNR 995). Mariners are advised to use extreme caution when transiting Barnegat Bay Inlet as some depths at mean low low water could be hazardous to navigation, especially during extreme weather events. If you have any questions, regarding the content of this message, please contact the waterways Management staff at (215) 271-4814 or the command center at (215) 271-4807.See SEC DB BNM 107-21 and SEC DB BNM 196-22
Chart 12323

NJ – INTRACOASTAL WATERWAY – MANASQUAN INLET TO CAPE MAY INLET – SHOALING
Shoaling has been reported in the New Jersey Intracoastal Waterway (NJICW) between Manasquan Inlet and Cape May Inlet. Mariners are advised to use extreme caution when transiting the NJICWW due to shoaling. The following are some of the locations where the shoaling has been reported:
NJICWW Light 4 (LLNR 34995).
NJICWW Light 38 (LLNR 35115).
NJICWW Daybeacon 45 (LLNR 35165) & Daybeacon 46 (LLNR 35167).
NJICWW Daybeacon 49 (LLNR 35108).
NJICWW Daybeacon 58 (LLNR 35215) to Buoy 75 (LLNR 35290).
NJICWW Junction Light LB (LLNR 35420) to Light 109 (LLNR 35430).
North side of Tow Island at NJICWW Daybeacon 129 (LLNR 35530).
NJICWW Daybeacon 128 (LLNR 35525) to Light 132 (LLNR 35550).
NJICWW Light 145 (LLNR 35590) to Light 163 (LLNR 35655) Black Point on the red side.
IVO NJICWW Light 170 (LLNR 35685).
Between NJICWW Daybeacon 206 (LLNR 35825) and Daybeacon 209 (LLNR 35835) IVO Bader Field.
IVO NJICWW Daybeacon 221 (LLNR 35867).
Between NJICWW Light 233 (LLNR 35905) and Buoy 246 (LLNR 35955) Broad Thoroughfare.
Between NJICWW Light 260 (LLNR 36000) and Buoy 266 (LLNR 36020).
Between NJICWW Daybeacon 272 (LLNR 36035) and Daybeacon 282 (LLNR 36070) in Peck Bay.

VA - POTOMAC RIVER - PINEY POINT TO LOWER CEDAR POINT - BONUM CREEK - SHOALING
Soundings in Bonum Creek indicates shoaling in the channel between Bonum Creek Warning Daybeacon C (LLNR 16885), Bonum Creek Warning Daybeacon D (LLNR 16890), and Bonum Creek Warning Daybeacon E (LLNR 16895). Due to extensive shoaling off Sandy Point Neck, the channel width has been reduced to approx 20ft between Bonum Creek Warning Daybeacons C and D. Mariners are urged to use caution.
Chart 12286

VA – UPPER POTOMAC RIVER – POTOMAC CREEK – SHOALING
Severe shoaling has been reported within the channel boundaries of Potomac Creek. Shoaling extends 15 yards channel ward of Potomac Creek Buoy 3 (LLNR 17920) with depths of 3 to 4 feet at MLW. Additional shoaling further in has been observed to a depth less than 3 feet at MLW. Ref LNM 14/18
Chart 12288

VA – RUDEE INLET – SHOALING
Based on the survey dated **October 11, 2022**, indicates shoaling from the ends of the North/South Jetties eastward approximately 125' with a depth of 7.8' MLLW across the entire channel.
Chart 12200

NORTH CAROLINA SHOALING

NC – CAPE HENRY TO PAMLICO SOUND – WALTER SLOUGH – SHOALING
Shoaling exists within Walter Slough Channel. Shoaling to 3-4 feet MLW was observed between Walter Slough Buoy 8 (LLNR 28335) and Walter Slough Lighted Buoy 9 (LLNR 28340). NC BNM 134-20
Chart 12205

NC – OREGON INLET – SHOALING
Mariners are advised that the Coast Guard has designated span 31, between bents 30 and 31, as a temporary navigation span for the Marc Basnight Bridge (NC-12) over Oregon Inlet, mile 0.5, between Rodanthe and Nags Head, Dare County, NC. Span 31 provides a vertical clearance of approximately 56 feet above mean high water and a horizontal clearance of approximately 120 feet between the 180-degree red channel margin bridge lights. The approaches to span 31 have been marked with short-range aids-to-navigation. Bridge lighting will be installed in span 31.
Spans 20-28 are currently designated as the primary navigation spans, however, severe shoaling has prevented use of these spans. Currently, Span 31 is the only permitted span for vessel traffic through the Basnight Bridge.
Vessels of 100 or greater gross tons should avoid transiting the bridge until further notice and shall not transit span 31 of the bridge. Mariners should transit span 31 of the bridge with extreme caution and due regard for the reduced navigational clearances, lack of a bridge fender system, and the prevailing conditions of the waterway associated with shoaling.
Shoaling has been reported between Oregon Inlet Lighted Buoy 11(LLNR 28027) and Oregon Inlet Lighted Buoy 12 (LLNR 28028), and Oregon Inlet Lighted Buoy 13 (LLNR 28045) with MLW of 4ft. See SEC NC BNM 412-22.
Shoaling has been reported between Oregon Inlet Lighted Buoy 12 (LLNR 28028) and Oregon Inlet Lighted Buoy 14 (LLNR 28050). See SEC NC BNM 401-22.
Shoaling exists in the vicinity of Oregon Inlet Buoy15 (LLNR 28055)35-46-28.505n, 075-32-23.512w. Depths reported of 5ft MLW in accordance with most recent USACE survey. See SEC NC BNM 350-22.
Charts 12204

NC - HATTERAS INLET - SHOALING
Shoaling exists in various locations throughout Hatteras Inlet Channel to a depth of 5 feet at mean low water. Shoaling continues to encroach the channel near Hatteras Inlet Channel Lighted Buoy 12A (LLNR28732.1), and Hatteras Inlet Channel Buoy 15 (LLNR 28736). Depths of less than 4 feet MLW have been reported between Hatteras Inlet Channel Buoy 18 (LLNR 28760) and Hatteras Channel Lighted Buoy 19 (LLNR 28760). Some aids to navigation in the inlet may be unreliable. NC BNM 029-22, 030-22.
Shoaling has been observed on ACOE survey in the vicinity of Hatteras Inlet Channel Lighted Buoy16 (LLNR 28750). Depths of 3 feet MLW reported in approximate position: 35-12-07.188N, 075-43-38.916W. NC BNM 268-22.
Chart 11555

NC – BARNEY SLOUGH - SHOALING
Shoaling exists North East of Barney Slough Channel Buoy 3A (28721.6). Reported depths of 4 feet MLW in position 35-47-34.526N, 075-31-34.764W. Shoaling extends to middle of channel to a depth of 4 FT MLW. Shoaling has been found along north side of channel between Barney Slough Channel Buoy 4 (LLNR 28721.7) and Lighted Buoy 6 (LLNR 28722.3). Observed depths of 4 feet MLW. Shoaling is occurring in the vicinity of Barney Slough Channel Lighted Buoy 15 (LLNR 28723.7) and Barney Slough Channel Lighted Buoy 16 (LLNR 28723.9). NC BNM 204-20, 013-20, 027-22.
Chart 11555

NC – BIG FOOT SLOUGH – SHOALING
Mariners are advised there is shoaling in the vicinity of Buoy 10C (29070.2) in Big Foot Slough at approximate position 35-09-03.184 N 076-00-38.651W. Mariners are advised to use caution while navigating in this area.
Chart 11550

NC - OCRACOKE INLET - SHOALING
Shoaling exist in the vicinity of Ocracoke Inlet. Aids to Navigation may be unreliable in various locations between Ocracoke Inlet Buoy 1 (LLNR 28900) and Ocracoke Inlet Buoy 8 (LLNR 28927). Mariners are advised to use caution while navigating this area. NC BNM 207-20

NC – TEACHES HOLE CHANNEL – SHOALING
Shoaling exist in the vicinity between Teaches Hole Channel Lighted Buoy 19 (LLNR 28953) and Teaches Hole Channel Lighted Buoy 24 (LLNR 28962). Reported depths less than 4 feet MLW. NC BNM 028-22
Chart 11550

NC – BEAUFORT INLET AND CORE SOUND – BARDEN INLET – BACK SOUND – SHOALING
Severe shoaling between Barden Inlet Buoy 24 (LLNR 29240) and Back Sound Lighted Buoy 1 (LLNR 29315) has rendered the waterway un-mark able. All floating aids were removed. Pending dredging operations or waterway improvements, Barden Inlet Channel no longer connects to Back Sound Channel. Mariners should navigate the area with caution, local knowledge is recommended. NC BNM 409-20
Chart 11545

NC – PAMLICO SOUND – CORE SOUND – WAINWRIGHT SLUE – SHOALING
Due to lack of navigable water all floating aids have been removed and all remaining fixed aids converted to non-lateral warning beacons up to Core Sound Light 11 (LLNR 34370) proceeding south from Pamlico Sound. The remaining fixed aids are scheduled for removal. Pending future dredging or waterway improvements, the Core Sound waterway is no longer accessible from Pamlico Sound. NC BNM 404-20
Chart 11548

NC – CORE SOUND – HARKERS ISLAND – THE STRAITS – SHOALING
Wilmington District USACE Survey of 12 Mar 2020 has identified significant shoaling IVO Harker's Island in The Straights. Depths as low as 4ft MLW were found between Harkers Island Straits Light 14 (LLNR 29382) and Harkers Island Straits Light 15 (LLNR 29384). NC BNM 085-20
Chart 11545

NC – BOGUE INLET – SHOALING
Shoaling has been found between Bogue Inlet Buoy 3A (LLNR 29570) and Bogue Inlet Lighted Buoy 5 (LLNR 29580) at a depth of 1 foot at MLW. Bogue Inlet Buoy 3B (LLNR 29573) has been established to help mark shoaling in approximate position 34-38-52.635N, 077-06-34.889W. Mariner should use caution in area as shoaling shifts frequently. SEC NC BNM 344-22.
Shoaling has been identified from Bogue Inlet Buoy 9 (LLNR 29600) and Bogue Inlet Buoy 12 (LLNR 29615). Depths of 3-4ft at MLW have been observed. Shoaling currently extends across entire width of the marked channel. SEC NC BNM 031-22.
Chart 11541

NC – BOGUE SOUND – NEW RIVER – SHOALING
Shoaling has been observed between Bogue Sound – New River Buoy 66B (LLNR 39243) and Bogue Sound – New River Light 66 (LLNR 39245), south of buoy 66B. Shoaling is reported of less than 4FT MLW and extends into the channel. See SEC NC BNM 0298-22.
Chart 11541

NC – NEW RIVER - NEW RIVER INLET – SHOALING
Significant shoaling has occurred in New River Inlet between New River Inlet Lighted Buoy 1 (LLNR 29655) and New River Inlet Lighted Buoy 2 (LLNR 29660) with depths of 3' - 4' MLW present. Significant shoaling has occurred between New River Inlet Buoy 9A (LLNR 29712) and New River Inlet Buoy 10 (LLNR 29720) with depths of 1' - 2' MLW. Buoys arepresenting misleading signal due to extreme shoaling. See SEC NC BNM 0295-22.
Chart 11542

NC – NEW RIVER – SHOALING
Shoaling exists in the vicinity of the channel to Jacksonville spanning the entire width of the channel between New River Channel Daybeacon 16 (LLNR 29750) and New River Channel Light 17 (LLNR 29760). Depths reported of 4ft MLW. SEC NC BNM 181-22.
Chart 11542

NC – BOGUE SOUND – SHOALING
Shoaling has been reported between Bogue Sound Daybeacon 10 (LLNR 38875) and Bogue Sound Daybeacon 14 (LLNR 38895). Survey indicates depths as low as 5FT MLW encountered in channel center and depths as low as 4FT have been reported. Depths close to channel markers may be less. Conditions may change rapidly and mariners are advised to transit the area with caution. The most recent ACOE survey can be found here: https://www.saw.usace.army.mil/missions/navigation/hydrographic-surveys/aiww
Chart 11541

NC – LENOXVILLE POINT – TAYLOR CREEK – SHOALING
Aids to Navigation in Lenoxville Point have been relocated to mark best available water. Shoaling still exists in the channel in vicinity of Lenoxville Point Buoy 1L (LLNR 34757) through Lenoxville Point Buoy 3 (LLNR 34760) and channel remains very narrow. Users of waterways should observe new route of channel and new locations of shoaling which can be viewed on US Army Corps of Engineers Hydrographic Survey – Taylor's Creek East. See SEC NC BNM 303-22.
Chart 11545

NC – WESTERN PART OF PAMLICO SOUND – PAMLICO RIVER – WRIGHT CREEK – SHOALING
Mariners are advised of shoaling in vicinity of Wright Creek Daybeacon 4 (LLNR 32870) off the Pungo River. NC BNM 141-18
Chart 11553

NC – INTRACOASTAL WATERWAY – NEUSE RIVER TO MYRTLE GROVE SOUND – CORE CREEK – SHOALING
Shoaling exists in the AICW north of Morehead City between Core Creek Light 29 (LLNR 38435) and Core Creek Daybeacon 31 (LLNR 38485), to a depth of less than 5ft at MLW. Mariners are advised to use extreme caution while navigating this area.
Chart 11541

NC – INTRACOASTAL WATERWAY =- NEUSE RIVER TO MYRTLE GROVE SOUND – CAUSEWAY CHANNEL – SHOALING
Shoaling has been reported IAW the most recent ACOE survey dated 26 OCT 2020 IVO Causeway Channel Buoy 5A (LLNR 38731) and Causeway Channel Buoy 6A (LLNR 38736). Reported depths of 4 feet MLW encroaching from east side of channel. NC BNM 415-20
Chart 11541

NC – OLD TOPSAIL CREEK – SHOALING
Significant shoaling has been observed in Old Topsail Creek between Old Topsail Creek Buoy 6 (LLNR 30036), Old Topsail Creek Buoy 7 (LLNR 30037) and Old Topsail Creek Buoy 8 (LLNR 30038) Spanning the width of the channel. Depths of less than 3' at MLW have been observed. Mariners are advised to transit the area with caution. SEC NC BNM 381-21.
Chart 11541

NC – BANKS SLOUGH CHANNEL – SHOALING
Significant shoaling has occurred in Banks Slough Channel between Banks Slough Channel Buoy 2BS (LLNR 30048) and Banks Slough Channel Buoy 3 (LLNR 30048.02) spanning the width of the channel. Depths of 2' MLW have been reported.
Chart 11541

NC - NEW TOPSAIL INLET – SHOALING
Significant shoaling has occurred in New Topsail Inlet between New Topsail Inlet Buoy 3 (LLNR 29995) and New Topsail Inlet Buoy 4 (LLNR 30000). Depths of 2' MLW have been reported. The buoys are presenting misleading signal due to extreme shoaling and mariners are advised to transit the area with extreme caution. See SEC NC BNM 0270-22.
Chart 11541

NC - CAROLINA BEACH INLET – SHOALING
Significant shoaling has been reported in Carolina Beach Inlet in the vicinity of Carolina Beach Inlet Buoy 3 (LLNR 30275) spanning the width of the channel. Depths of 4'-5' MLW have been reported. SEC NC BNM 368-21.
Chart 11534

NC – NEW RIVER – CAPE FEAR RIVER – SHOALING
The shoal that is adjacent to the red side of the channel between New River – Cape Fear River Daybeacon 170 (LLNR 39860) and New River - Cape Fear River Light 168 (LLNR 39857) has encroached to the edge of the channel. Depths of 4-5ft at MLW have been observed.
Chart 11537

NC – LOCKWOODS FOLLY INLET – SHOALING
Significant shoaling has occurred in Lockwoods Folly Inlet between Lockwoods Folly Inlet Lighted Buoy 2 (LLNR 31015) and Lockwoods Folly Inlet Buoy 5 (LLNR 31027) spanning the width of the channel depths of 4' MLW have been reported. BNM SEC NC 367-21.
Chart 11534

SUMMARY OF BRIDGE PERMITS, REGULATIONS AND CONSTRUCTION IN THE FIFTH COAST GUARD DISTRICT

Enclosure (2)

Updated September 27, 2022

(Yellow indicates new item)

CURRENT PROJECTS

Permits:

SECTOR DELAWARE BAY

- *Delaware*
  Christina River – Christina River Bridge – Permit (1-17-5) signed April 7, 2017, for a fixed bridge across the Christina River, mile 3.8, City of Wilmington, New Castle County, DE. The bridge will provide a minimum vertical clearance of 14 feet above mean high water and a horizontal clearance of 150 feet centered on the axis of the navigable channel. (KB)
  Broadkill River – Bridge 3-155 N&S (SR 1/SR 14/Coastal Highway) – Permit (2-21-5) signed October 14, 2021, for a fixed bridge across Broadkill River, mile 8.08, near Milton, Sussex County, DE with a horizontal clearance of 50 feet and a vertical clearance of 16.5 feet above mean high water. (MT)
- *New Jersey (Central & Southern)*
  Oldmans Creek – US Route 130 Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on March 15, 2018; vertical clearance of 5 feet above mean high water and a horizontal clearance of 75 feet. (HP)
  Raccoon Creek – US 130 (fixed) Bridge - new fixed bridge structure to replace (lift) bridge. Permit (2-15-5) signed December 9, 2015. (KB)

  Glimmer Glass - W9 (Brielle Road) Drawbridge – Fixed bridge replacement and drawbridge replacement Preliminary Navigation Clearance Determination (PNCD) issued on October 22, 2019. A fixed bridge replacement will provide a horizontal clearance of 31.9 feet and a vertical clearance of 60 feet above mean high water and a drawbridge replacement will provide a vertical clearance of 9 feet above mean high water in the closed position, unlimited vertical clearance in the open position and a horizontal clearance of 31.9 feet. (MS)

  Atlantic Intracoastal Waterway, Middle Thorofare - Ocean Drive Causeway Bridge - Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on December 10, 2019; vertical clearance of 80 feet above mean high water and a horizontal clearance of 80 feet. (MB)(HP)

  Big Timber Creek – All interested parties are notified that an application dated April 19, 2022, has been received from the New Jersey Department of Transportation by the Commander, Fifth Coast Guard District, for approval of the location and plans for construction of a new highway fixed bridge over a navigable waterway of the United States.
  WATERWAY AND LOCATION: Big Timber Creek, mile 0.8, between Camden and Gloucester Counties, NJ.
  CHARACTER OF WORK: The proposed project is to provide a modernized and improved Bridge along with drainage improvements that reduces the majority of road closures due to flooding. The existing 5-span bridge will be removed in its entirety and replaced with a 3-span continuous bridge with similar roadway and bridge profile. The existing fixed bridge has a horizontal clearance of 58 feet and a vertical clearance of 14 feet above mean high water. The replacement bridge will be a fixed bridge with a horizontal clearance of 60 feet and a vertical clearance of 14.73 feet above mean high water.
  A copy of **Public Notice D05PN-04-2022**, which describes the proposal in detail, can be obtained by calling (757) 398-6587 or by viewing at **https://www.navcen.uscg.gov/?pageName=pnBridges.** Comments on this proposal should be forwarded to the address in the notice no later than **June 24, 2022.** (MS)

- ***Pennsylvania***
  Schuylkill River – Grays Ferry Pedestrian Bridge – Permit (3-17-5) signed November 27, 2017, for a swing drawbridge replacement with a vertical clearance of 26 feet above mean high water (closed position), unlimited vertical clearance in the open position, and a horizontal clearance of 75 feet in the west navigation span and 65 feet in the east navigation span. (MT)
  Darby Creek – S.R. 420 (Wanamaker Avenue)
  All interested parties are notified that an application dated March 10, 2022, has been received from the Pennsylvania Department of Transportation by the Commander, Fifth Coast Guard District, for approval of the location and plans for replacement of existing highway fixed bridges over a navigable waterway of the United States.
  WATERWAY AND LOCATION: Darby Creek, mile 1.3, between Prospect Park Borough and Tinicum Township, Delaware County, PA.
  CHARACTER OF WORK: The proposed project is to replace the existing northbound and southbound bridges which carry S.R. 420 (Wanamaker Avenue) over Darby Creek between Tinicum Township and Prospect Park Borough, Delaware County, PA. The proposed work includes the replacement of the superstructure and substructure of the existing northbound and southbound bridges, which will be replaced with one bridge structure along similar alignments as the northbound and southbound bridges. The purpose of the project is to replace the structurally deficient and deteriorating northbound and southbound bridges.
  The existing northbound fixed bridge has a horizontal clearance of 58 feet and a vertical clearance of 7 feet above mean high water. The existing southbound fixed bridge has a horizontal clearance of 50 feet and a vertical clearance of 7 feet above mean high water. The replacement bridge will be a fixed bridge with a horizontal clearance of 78 feet and a vertical clearance of 11 feet above mean high water.
  A copy of **Public Notice D05PN-03-2022** which describes the proposal in detail, can be obtained by calling (757) 398-6557 or by viewing at **https://www.navcen.uscg.gov/?pageName=pnBridges.** Comments on this proposal should be forwarded to the address in the notice no later than September 26, 2022. (MT)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- *Maryland –*
  Potomac River – Governor Harry Nice Memorial Bridge – Permit (1a-20-5) signed June 25, 2020, for a fixed replacement bridge with a vertical clearance of 135 feet above mean high water and a horizontal clearance of 250 feet. The center of the main navigation span of the new bridge will be shifted approximately 115 feet to the west of the center of the current navigation span. (KB)

Neale Sound – MD-254 (Cobb Island Road) Bridge – Permit (1-18-5) signed May 2, 2018, for a fixed replacement bridge with a vertical clearance of 20 feet above mean high water and a horizontal clearance of 55 feet. (HP)

- ***Washington DC*** –
  Anacostia River – Frederick Douglass Memorial Bridge - Permit (2-17-5) signed December 4, 2017, for a fixed bridge replacement with a vertical clearance of 42 feet above mean high water and a horizontal clearance of 150 feet. (CT)
- ***Virginia (Northern)*** – None.

SECTORVIRGINIA

- ***Virginia (Southern)***
  Western Branch of the Elizabeth River – Churchland Bridge **-** Permit Amendment (53b-73-5) signed May 1, 2019, for a fixed bridge replacement of the northbound structure of the bridge with a structure providing a vertical clearance of 36.63 feet above mean high water and a horizontal clearance of 80 feet. (MS)
  Hampton Roads – Permit (5-20-5) signed November 16, 2020, for a fixed bridge replacement of I-64/US 60 (Hampton Roads Beltway) north and south approach bridges for the Hampton Roads Bridge Tunnel (HRBT). North Approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 80 feet; south approach bridge – vertical clearance of 16 feet above mean high water and horizontal clearance of 100 feet. (MT)
  Willoughby Bay – Permit (140b-68-5) signed December 22, 2020, for I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - fixed bridge modification; vertical clearance of 25 feet above mean high water, horizontal clearance of 50 feet, and width of 168.84 feet (MT)
  Blackwater River - Permit (4-20-5) signed July 29, 2020, for a fixed bridge replacement providing a vertical clearance of 35 feet above mean high water and a horizontal clearance of 60 feet. (MS)
  Cat Creek **-** Fixed replacement bridge Preliminary Navigation Clearance Determination (PNCD) issued on May 11, 2021; vertical clearance of 12.8 feet above mean high water and a horizontal clearance of 60 feet. (MS)

SECTOR NORTH CAROLINA

- ***North Carolina***
  Atlantic Intracoastal Waterway – NC 210/50 Bridge, Surf City, NC - new fixed bridge structure to replace (swing) bridge. Permit (2-16-5) signed September 27, 2016. (KB)

  The Straits – Harkers Island Bridge – Fixed replacement bridge - Permit (2-20-5) dated September 30, 2020, vertical clearance of 45 feet above mean high water and a horizontal clearance of 125 feet. (HP)

  Pamlico Sound – Bridge No. 71 (Rodanthe) Bridge – new fixed bridge carrying NC 12 on the mainland side of the outer bank along the northeastern shore of Pamlico Sound from a position approximately 1.8 miles north of the southern boundary of the Pea Island National Wildlife Refuge to a position north of the Chicamacomico Channel and the emergency ferry terminal in Rodanthe, Dare County, NC. Permit (1-19-5) signed on February 20, 2019. (HP)

  Perquimans River – Bridge No. 8 (US17 BUS/NC37) Bridge, Hertford, Perquimans County, NC - new drawbridge to replace existing drawbridge. Permit (6-19-5) signed December 31, 2019. (HP)

  Currituck Sound – Proposed new fixed bridge across mid-Currituck Sound, approximately 18 miles north of the Wright Memorial Bridge, between Aydlett (on the mainland) and Corolla (on the Outer Banks), at Currituck County, NC. Preliminary Navigation Clearance Determination (PNCD) issued on February 9, 2021; vertical clearance of 20 feet above mean high water and a horizontal clearance of 40 feet. (MS)
  Atlantic Intracoastal Waterway (AIWW), Newport River - All interested parties are notified that the Commander, Fifth Coast Guard District has received a proposal from the North Carolina Department of Transportation with plans for modification of an existing highway fixed bridge over a navigable waterway of the United States.
  WATERWAY AND LOCATION: Atlantic Intracoastal Waterway (AIWW), Newport River, mile 203.8, near Morehead City, Carteret County, NC.
  CHARACTER OF WORK: The proposed project is to replace Newport River Bridge carrying US 70 over the Newport River (Intracoastal Waterway) in Carteret County (STIP No. U-5876). The purpose of the project is to reduce congestion in the project area and improve the safety of the bridge by increasing the structural capacity and providing appropriate accommodations for multimodal traffic crossing the US 70/Arendell Street Bridge.
  The existing fixed bridge has a horizontal clearance of 80 feet and a vertical clearance of 65 feet above mean high water. The replacement bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 65 feet above mean high water.
  A copy of **Preliminary Public Notice D05PPN-06-2022**, which describes the proposal in detail, can be obtained by calling (757) 398-6557 or by viewing at **https://www.navcen.uscg.gov/?pageName=pnBridges.** Comments on this proposal should be forwarded to the address in the notice no later than **August 26, 2022**. (MT)

Regulations:

SECTOR DELAWARE BAY

- *Delaware* – None
- New Jersey (Central & Southern) –
  Rancocas Creek - US Route 543 (Riverside-Delanco) Bridge Mariners are advised that a temporary deviation has been approved by the Coast Guard to test the seasonal operating regulation of the US Route 543 (Riverside-Delanco) Bridge across Rancocas Creek, mile 1.3, at Burlington County, NJ. The bridge will be maintained in the closed-to-navigation position from 7 a.m. to 3 p.m., and from 8 p.m. to 11 p.m., Monday through Friday, from 7 a.m. to 1 p.m., and from 8 p.m. to 11 p.m., Saturday and Sunday, and from 11 p.m. to 7 a.m., daily, from May 4, 2022, through October 15, 2022. The vertical clearance of the bridge in the closed-to-navigation position is 4 feet above mean high water. Vessels able to safely pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. This deviation will test whether a permanent change to the schedule is needed and to solicit comments from the public regarding these proposed changes. Comments will be received for the record identified by the docket number USCG-2022-0221 using Federal Decision Making Portal at http://www.regulations.gov; and must be submitted on or before August 1, 2022. At all other times the bridge will operate per 33 CFR 117.745 (b). (MS)
  New Jersey Intracoastal Waterway, Inside Thorofare - US40-322 (Albany Avenue) Bridge – Bridge will be closed to vessels requiring an

opening from 6 a.m.to 1 p.m., on Saturday, September 10, 2022, to accommodate the 6th Annual Ironman. Vessels will not be able to pass through the bridge in the closed position. The bridge will be able to open for emergencies, if at least 15 minutes prior notice is given. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.733(f). Mariners should use extreme caution when transiting the area. (CT)

- *Pennsylvania* – None

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- *Washington, DC & Virginia (Northern)* – None
- *Maryland* – None

SECTOR VIRGINIA

- *Virginia (Southern)* - None

SECTOR NORTH CAROLINA

- *North Carolina*
  Trent River - U.S. 70/Alfred C. Cunningham Bridge - To facilitate the 2022 July 4th Firework Display , the bridge will be maintained in the closed-to-navigation position from 9:15 p.m. to 10:30 p.m. on Monday, July 4, 2022, or from 9:15 p.m. to 10:30 p.m. on Tuesday, July 5, 2022 (rain date). The bridge shall open on signal for emergencies, if at least 5 minutes notice is given. The vertical clearance of the bridge in the closed position is 14 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. At all other times, the drawbridge will operate in accordance with the regulations set out in Title 33 Code of Federal Regulations Part 117.843(a). Mariners should adjust their transits accordingly and should use caution when transiting the area. (KB/HP)

Construction, et al:

SECTOR DELAWARE BAY

- *Delaware*
  Christina River - Bridge 1-159 (James Street) Bridge – Bridge maintenance will be performed from 7 a.m. to 5 p.m., from July 1, 2021, to March 31, 2023. To facilitate maintenance, a work skiff and a 70ft X 70ft work barge will be operating outside the navigable channel, secured to the bridge piers and will not impact navigation. Mariners are urged to use caution while transiting the area. (MS)
  Broadkill River - Bridge 3-155 N&S (SR 1/SR 14/Coastal Highway) Bridge - Modification activities which began October 2021, are expected to be finished on September 30, 2022. Work is and will be on-going 24-hours per day, seven days a week. The project will involve replacement of the deck and steel superstructures of the fixed highway bridge; make minor modifications to the supporting concrete piers to support the new superstructures; replace the existing pile jackets at all piers; replace the existing riprap on the slopes to stabilize the embankments; complete minor approach highway work to tie the roadways into the new bridge decks; and bridge painting. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 16.5 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, support vessels and crew boats are and will be operating or stationed in and around the vicinity of the existing bridge during the duration of the project. Vessels can transit through the bridge unrestricted, at all times. Mariners should navigate the waterway with extreme caution on the waterway. R.E. Pierson Construction Co., Inc.'s work vessels and barges are and will continue to monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The DelDOT Resident Engineer may be contacted at (302) 853-1349 or (302) 542-3590 and R.E. Pierson Construction Co., Inc.'s project foreman may be contacted at (609) 743-7167 or (609) 743-0092. (MT)
  Lewes and Rehoboth Canal - Lewes Railroad Swing Bridge - A cofferdam was installed February 22, 2022, the fender piled and pier are anticipated to be removed by April 1, 2022. Due to fisheries time of year restriction the cofferdam will be removed October 7, 2022. Horizontal clearance of the canal will be constricted by approximately 5 feet until October 7, 2022. Mariners should use caution when transiting the area. (CT)
  Delaware River - Delaware Memorial Bridge – Ongoing bridge painting through July 2024. Work platforms have been installed, reducing the available vertical clearance by approximately five feet from 175 feet to 170 feet, above mean high water. Mariners should use extreme caution when transiting the area. (CT)
  Mispillion River - Route 1/Rehoboth Blvd. Bridge – Bridge sustained a causality and will not be capable of normal operations. The bridge will remain in the closed position until further notice. Vessels able to transit through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 5 feet above mean high water. The bridge will not be able to open for emergency vessels. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area. (MT)
  New Jersey (Central & Southern)
  Schuylkill River - Grays Ferry Railroad Bridge – Bridge modification/maintenance will recommence on September 19, 2022, and are expected to finish on October 28, 2022. Work will be performed from 7 a.m. to 3:30 p.m.; M-F. During this bridge modification/maintenance, the eastern navigation span will be occupied; the western navigation span will be available for vessels to transit. During work hours, a snooper vehicle will be located within the western navigation span of the Grays Ferry Avenue Bridge, which will reduce the western navigational span to approximately 45 feet of vertical clearance. Vessels that can safely transit through the western navigation span during periods with a reduced vertical clearance may do so at any time. Vessels that cannot safely transit through the western navigation span with a reduced vertical clearance may do so, if at least a fifteen-minute prior notice is given to the project foreman. Maintenance personnel, equipment and vehicle will relocate from the western navigation span, upon request. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. The new bridge will have a vertical clearance of 26 feet above mean high water in the closed-to-navigation position, an unlimited vertical clearance in the open position, a horizontal clearance of 75 feet in the western navigation span, and 65 feet in the eastern navigation span. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Crane barges, material barges, and support vessels and vehicle will be operating or stationed in the vicinity of the existing bridge. A.P. Construction Inc.'s vessels are monitoring VHF-FM channels 13 and 16 when working or vessels are operating. The City of Philadelphia construction manager may be contacted at 215-275-8066 and A.P. Construction, Inc.'s project foreman may be contacted at 215-421-2880 or 215-651-6278. (MT)
  Delaware River – Commodore Barry (fixed) Bridge **–** Repainting of the main (cantilever) truss span, signal gantries, steel barriers along the entire bridge, and water tower will continue through 2023. Work platforms will be installed, reducing the available vertical clearance by 3 feet, reducing the clearance from 190 feet to 187 feet above mean high water. Mariners should exercise caution when transiting the area. (KB)

Delaware River - Benjamin Franklin Bridge – Bridge maintenance will be performed from July 27, 2020, through December 31, 2024. For the duration of the project, the preferred navigation channel and bridge navigational lighting normally situated over the 410-foot Federal project channel will be shifted to the east approximately 205 feet. The Federal Project channel will remain fully open to traffic, however the vertical clearance of the channel has temporarily decreased based on the planned scaffolding system (work platform) to be installed. The scaffolding system will be installed over the entire length of the bridge, as detailed below.
Preferred Navigation Channel: A 410-foot scaffolding (work platform) system, with five 82-foot independent work zones, will be installed extending below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet). When in use, a single 82-foot work zone portion of the 410-foot scaffolding (work platform) system will be extended below the bridge approximately 18.5 inches (1.54 feet), thereby reducing the vertical clearance of the bridge within the work zone by approximately 18.5 inches (1.54 feet). The single 82-foot work zone portion of the 410-foot scaffolding (work platform) system in use will be lifted to extend below the bridge approximately 10 inches (.83 feet), thereby reducing the vertical clearance of the bridge within the preferred navigation channel by approximately 10 inches (.83 feet), if at least 48-hour notice is given to Eric.Dovak@Skanska.com.
Outside the Preferred Navigation Channel: Scaffolding will extend below the bridge approximately two feet from the west boundary of the Federal project channel to the center of the Federal project channel (west boundary of preferred navigation channel) and from the east boundary of the preferred navigation channel toward the east abutment approximately 385 feet. West of the west boundary of the Federal project and east of the position approximately 385 feet east of the east boundary of the preferred navigation channel, scaffolding will extend below the bridge approximately three feet.
A safety boat will be in the vicinity of the bridge during bridge maintenance, which may be reached via VHF FM channel 13. Mr. Eric Dovak, contractor's representative, may be reached at Eric.Dovak@Skanska.com or (347) 860-2399. Mariners are advised to exercise caution when transiting the area. (HP)
New Jersey Intracoastal Waterway (NJICW), Barnegat Bay - SR 37 (J. Stanley Tunney) (fixed) Bridge – Bridge maintenance will be conducted from 7 a.m. to 3:30 p.m.; Monday-Friday; from October 25, 2021, through December 23, 2023. A 54-foot crane barge, a 40-foot material barge, a 24-foot work barge with push boat, float stages and divers will be located around the vicinity of the bridge. Vessels may safely transit through the navigational channel of the bridge unrestricted at all times. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (609) 941-9677 or (609) 331-2096. Mariners should use caution navigating through the area. (MT)
Oldmans Creek - I-295 Bridge – Bridge maintenance will be conducted from 6 a.m. to 5 p.m.; Monday-Friday; from March 21, 2022, through September 30, 2022. A 21-foot work vessel and three four-foot floats and a team of divers will be located in and around the vicinity of the bridge. During the work hours, the work vessel, floats and divers will be in the navigational channel which will reduce the horizontal clearance of the bridge to approximately 25 feet. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance may safely transit through the bridge, if at least a one-hour prior notice is given to the project foreman. Maintenance personnel, equipment and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (609) 477-6290 or (856) 298-2353. Mariners should use extreme caution navigating through the area. (MT)
Delaware River - US 322 (Commodore Barry) Bridge – Bridge maintenance will be conducted from 6 a.m. to 2:30 p.m.; Monday-Friday; from March 14, 2022, through October 3, 2022. Several work boats and work platforms will be located around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (856) 472-5714 or (609) 707-7439. Mariners should notify the work foreman no less than thirty minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)
Wading River - Burlington Highway Bridge (CR 542) – Bridge maintenance will be performed from 7 a.m. to 3:30 p.m., Monday – Friday, from May 2, 2022, until November 30, 2022. To facilitate bridge work, the bridge will be maintained in the closed-to-navigation position from 7 a.m. on May 2, 2022, until repair of the counterweight struts is completed and from 7 a.m. to 3:30 p.m., Monday – Friday, until November 30, 2022. The bridge will not be able to open for emergency vessels until repair of the counterweight struts is completed. Once the counterweight struts are repaired, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.759. During work hours, the horizontal and vertical clearances of the bridge will be reduced to zero. Mariners should adjust their transits accordingly and use extreme caution when transiting the area. (CT)
Cape May Canal, New Jersey Intracoastal Waterway - SR 162 (CR 626/Seashore Road) Bridge – Bridge maintenance that began on June 20, 2022, will continue to be conducted from 7 a.m. to 3 p.m.; Monday-Friday; through December 31, 2022. The vertical clearance of the bridge will be reduced to approximately 50 feet above high mean water due to a temporary safe span platform. Vessels that can safely transit through the bridge with a reduced vertical clearance may do so at any time. The project foreman can be reached at (267) 935-2194. Mariners should use extreme caution navigating through the area and transit through the bridge at a safe speed. (CT)
Cape May Canal, New Jersey Intracoastal Waterway - SR 109 Bridge – Bridge painting will be conducted from 7 a.m. to 3 p.m.; Monday-Friday; from June 20, 2022, through December 31, 2022. There will be no equipment in the water, but a temporary shielding system will reduce the vertical clearance by 5 feet. Mariners should use extreme caution navigating through the area and transit through the bridge at a safe speed. (MS)
Rancocas Creek – I 295 Bridge - Bridge maintenance will be conducted from 7 a.m. to 3 p.m.; Monday-Friday; from June 20, 2022, through December 31, 2022. A work platform will be located under the bridge. During the maintenance period the work platform will located under the bridge reducing the vertical clearance of the bridge approximately 17 feet at mean high water. Vessels that can safely transit through the bridge during periods with a reduced vertical clearance may do so at any time. The project foreman may be reached on VHF-FM channel 13 and 16, and (267) 935-2194. Mariners should use extreme caution navigating through the area. (MT)
New Jersey Intracoastal Waterway (NJICW), Broad Thorofare - Route 152 Bridge (Longport Sommers Point Blvd Bridge) - Bridge maintenance which began in June 20, 2022, will continue to be conducted from 7 a.m. to 3 p.m.; Monday-Friday; through December 31, 2022. The vertical clearance will be reduced by 3 ft. The shielding system will remain in place for the duration of the project. Work vessels may be reached on VHF-FM channel 13. Mariners should use extreme caution navigating through the area. (KB)
New Jersey Intracoastal Waterway (NJICW), Beach Thorofare - Route 30 (Absecon Boulevard) Bridge - To facilitate repairs, a work platform will reduce the horizontal clearance of the navigation channel to approximately 50 feet and temporary shielding will reduce the vertical clearance of the entire bridge to approximately 19 feet above mean high water in the closed position. Mariners should use caution when transiting the area. (MS)

Pennsylvania –

Schuylkill River - Grays Ferry Railroad Bridge – Modification activities which began June, 2018, have been suspended until an unspecified date. During the suspension, the eastern navigation span of the bridge will be reduced to approximately 60 feet of horizontal clearance. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. The new bridge will have a vertical clearance of 26 feet above mean high water in the closed-to-navigation position, an unlimited vertical clearance in the open position, and a horizontal clearance of 75 feet in the western navigation span and 65 feet in the eastern navigation span. Detailed project information and

information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. The City of Philadelphia construction manager may be contacted at 215-275-8066 and A.P. Construction, Inc.'s project foreman may be contacted at 215-651-6278 or 215-421-2880. (MT)
Delaware River - US 322 (Commodore Barry) Bridge – Bridge maintenance will be conducted from 6 a.m. to 2:30 p.m.; Monday-Friday; from March 14, 2022, through October 3, 2022. Several work boats and work platforms will be located around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (856) 472-5714 or (609) 707-7439. Mariners should notify the work foreman no less than thirty minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)
New Jersey Intracoastal Waterway (NJICW), Inside Thorofare - US 40 (Albany Avenue), US 30 over Penrose Canal, and US 30 over Venice Lagoon at Atlantic City, NJ. Bridge maintenance will be conducted from 6 a.m. to 5 p.m.; Monday-Thursday; from August 1, 2022, through November 4, 2022. The horizontal clearance for the US 40 (Albany Avenue) will be reduced to approximately 25 feet during working hours. The US 30 bridges over Penrose Canal and Venice Lagoon will be reduce to half of the navigational channel for each bridge. Vessels that can safely transit through the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge during periods with a reduced horizontal clearance should notify the project foreman prior to transiting through the bridge. A work vessel with be in or in the vicinity of these bridges and may be reached on VHF-FM channel 13/16. The onsite project foreman may be reached at (267) 796-1303. Mariners should use caution when transiting the area. (CT)
Schuylkill River - Schuylkill River Park Trail - along the eastern bank of the Schuylkill River - Construction activities commenced in mid-February 2022, and are scheduled to conclude at the end of April 2025. Work will be performed from 6 a.m. to 6 p.m., Monday through Friday, with potential night and weekend work. A 70-foot by 120-foot crane barge, 30-foot by 100-foot material barges, work floats, and 24-foot work boats will be utilized during operations and stationed in the vicinity of construction. Vessels may be contacted via VHF-FM on channel 13 or 16. Construction firm representatives may be contacted at (215) 669-7883 and (484) 680-8550, 24-hours/day. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Mariners should navigate the vicinity of construction with due caution at minimum safe speed. (HP)

SECTOR MARYLAND-NATIONAL CAPITAL REGION

- *Maryland*
  Lower Potomac River - Harry W. Nice/Thomas "Mac" Middleton (US 301) Bridge - Construction will commence in May 2020, with completion estimated in November 2024. Work is scheduled from 7:00 a.m. to 7:00 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, a barge loading facility will be constructed on the Maryland shore and work trestles will be located north of the existing bridge extending outward from the Virginia shore to approximately 320 feet and from the Maryland shore to approximately 200 feet. Dredging will occur from the end of the Virginia work trestle until the water depth reaches 6 feet at mean lower low water. A vertical clearance of 135 feet above mean high water and horizontal clearance of 250 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (KB)
  Lower Potomac River - Harry W. Nice/Thomas "Mac" Middleton (US 301) Bridge – To facilitate the setting of structural steel across the federal navigation channel at the new bridge the Coast Guard will establish a temporary safety zone for certain navigable waters of the Potomac River, during **January 21, 2022 – February 4, 2022**. At all times during this period, a large crane barge is required to be positioned within the federal navigation channel. The critical heavy lift operations will impede vessels requiring the use of the channel in this area. The safety zone will cover all navigable waters of the Potomac River, encompassed by a line connecting the following points beginning at 38°21′50.96″ N, 076°59′22.04″ W, thence south to 38°21′43.08″ N, 076°59′20.55″ W, thence west to 38°21′41.00″ N, 076°59′34.90″ W, thence north to 38°21′48.90″ N, 076°59′36.80″ W, and east back to the beginning point, located between Charles County, MD and King George County, VA. These coordinates are based on datum NAD 83. The safety zone will be enforced continuously, from 7 a.m. on January 21, 2022, through 8 p.m. on February 4, 2022. Under the general safety zone regulations in subpart C of 33 CFR part 165, except for marine equipment operated by Skanska-Corman-McLean, Joint Venture, or its subcontractors, you may not enter the safety zone described unless authorized by the *Captain of the Port* Maryland-National Capital Region *(COTP)* or the COTP's designated representative. To seek permission to enter, contact the COTP or the COTP's representative by telephone number 410-576-2693 or on Marine Band Radio VHF-FM channel 16. Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP's designated representative. The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies. Vessel traffic not required to use this section of the federal navigation channel may be able to safely transit around the safety zone under the next bridge span to the east or the west of the federal navigation channel, but do so at their own discretion. A "bridge work—danger—stay AWAY" sign facing the northern and southern approaches of the navigation channel will be posted on the sides of the marine equipment on-scene within the location described. The Coast Guard will issue a Broadcast Notice to Mariners via VHF-FM marine band radio about the status of the safety zone. Interested persons can contact U.S. Coast Guard Sector Maryland-NCR Waterways Management Division at telephone number (410) 576-2674 or (410) 576-2693. (KB/RH)
  Susquehanna River - I-95 (Millard E. Tydings Memorial/John F. Kennedy Memorial Highway) Bridge – Bridge maintenance will be conducted from 7 a.m. to 5 p.m.; Monday-Friday; from June 15, 2021, through April 6, 2023. A 60 x 60 foot crane barge, a 34 x 90 foot work barge, and a work vessel will be located in and around the vicinity of the bridge. During the work hours, the crane barge and work barge will be located in and around the main navigation span of the bridge, which will reduce the horizontal clearance of the main navigation span to approximately 390 feet of horizontal clearance, and/or, will be located in one of the adjacent alternative navigation spans of the bridge, reducing the horizontal clearance of the adjacent alternative navigation span to approximately 330 feet of horizontal clearance. Maintenance personnel, equipment and vessels will relocate from the main navigation span and/or adjacent alternative navigation spans, upon request. Vessels that can safely transit through the main navigation span and/or the adjacent navigation span of the bridge during periods with a reduced horizontal clearance may do so at any time. Vessels that cannot safely transit through the bridge main navigation span and/or adjacent alternative navigation span during periods with a reduced horizontal clearance may transit through the bridge spans may do so if at least a two-hour prior notice is given to the project foreman. During non-work hours the crane barge and work barge will be spudded or tied parallel to the pier. Work vessels may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (484) 798-3224. Mariners should use caution navigating through the area. (MT)
- *Washington DC*
  Anacostia River - Frederick Douglass Memorial (South Capitol Street) Bridge –
  Construction of the new Frederick Douglass Memorial (South Capitol Street) Bridge and demolition of the old bridge across the Anacostia River in Washington, DC continues into 2023. The work is primarily being conducted Mondays through Saturdays, between 7 a.m. and 7 p.m., with intermittent night and Sunday work. The federal navigation channel east of the original center pier, approximately 150 feet wide, remains available for navigation. Exclusion buoys labelled "DANGER" mark the active and ongoing bridge work east and/or west of the Federal

Channel. Floating turbidity curtain and buoys are positioned around the old piers being demolished and supported by lit temporary piles. To support active demolition construction operations, a vessel/barge may be intermittently positioned within the east navigable channel. During these periods, the federal navigation channel to the west of the original center pier, approximately 150 feet wide, will be available to navigation. Mariners intending to transit this area are urged to contact the vessels MS. BECKY or CLAIRE MARIE for passing arrangements. Marine equipment on site includes a crew boat, a push boat, and multiple deck barges. All equipment will be marked and lighted as required by U. S. Coast Guard regulations. Mariners are urged to use extreme caution when transiting the area, and to operate at minimum speed necessary to maintain safe course that minimizes wake near the work site. Interested mariners can contact the vessel MS. BECKY or vessel CLAIRE MARIE via VHF-FM channels 16 and 13 when actively working on the river. (CT)

- ***Virginia (Northern)*** *– None.*

SECTOR VIRGINIA

- *Virginia (Southern)*

Lafayette River - US 460 (Granby Street) Bridge – Bridge maintenance which began in September 2020, will continue to be conducted from 7 a.m. to 5:30 p.m.; 7 days a week; through October 8, 2022. A 20-foot safety vessel and work a platform will be in and around the vicinity of the bridge. The work platform will be located underneath the bridge, positioned adjacent to the bridge pier behind the bridge fender system as to not impede the navigational channel. Maintenance vessels will relocate from the navigable channel, upon request. The work vessel may be reached on VHF-FM channel 13 and 16. The project foreman may be reached at (757) 920-6454 or (804) 229-1669. Mariners should use caution navigating through the area. (MT)

Hampton Roads - I-64/US 60 (Hampton Roads Beltway) North and South Approach Bridges - . Construction activities commenced on March 15, 2021, and are expected to continue through November 2025. Marine construction activity will take place 24-hours per day, seven days a week. The replacement north approach bridge will be a fixed bridge with a horizontal clearance of 80 feet and a vertical clearance of 16 feet above mean high water at position 37° 00' 24.12" N, 76° 19' 18.84" W for the west span and at position 37° 00' 24.48" N, 76° 19' 15.60" W for the east span. The replacement south approach bridge will be a fixed bridge with a horizontal clearance of 100 feet and a vertical clearance of 16 feet above mean high water at position 36° 58' 15.24" N, 76° 18' 03.96" W. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new approach bridge spans or located within specific Mooring Areas or Safe Harbor locations.

Bridge Structures/Work Trestles & Islands – Mariners are advised to maintain a safe distance of 300 feet from all HRBT bridge structures/work trestles, HRBT North Island, and HRBT South Island. Construction managers may establish safe transit corridors through bridge structures/work trestles as construction activity permits. Work trestles will be constructed extending out from the North and South shorelines next to the existing trestles for the duration of the bridge construction to facilitate construction activity. Each pile will be lit by a flashing white light.

Hampton Flats Mooring Area – As charted. Changes pending. This area will contain six mooring buoys, lighted with flashing white lights, for the exclusive use of vessels involved in the HRBT Expansion project. The corners of the mooring area are marked with yellow buoys with flashing yellow lights. Mariners should use caution when transiting the area.

Phoebus Safe Harbor Area – As charted. Changes pending. This area will only be used by HRBT Expansion project vessels in advance of a severe weather event that requires the vessels to be securely anchored or spudded down in that location. The corners of the safe harbor area are marked with yellow buoys with flashing yellow lights. When utilized, mariners should keep clear of the area.

Willoughby Bay Mooring and Safe Harbor Area – As charted. This area contains a straight row of mooring pilings for the exclusive use of vessels involved in the HRBT Expansion project. The two end pilings are marked with a solid red light and each interior piling is marked with a solid yellow light. The perimeter of the mooring and safe harbor area is marked with yellow buoys with flashing yellow lights. Mariners are advised to keep clear of the mooring/safe harbor area.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Shannon Gresham 757-685-3392 or Kareem Myers 757-256-9715. You may also contact Hampton Roads Connector Partners at 757-373- 4799 and/or email MarineOps@hrcpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org. (MT)

Willoughby Bay - I-64/US 60 (Hampton Roads Beltway/Willoughby Bay) Bridge - Construction activities began on June 7, 2021, and are expected to continue through December 2023. Marine construction activity will take place 24-hours per day, seven days a week.

The project will involve widening the existing two-lane eastbound and westbound structures into two four-lane structures. This will be done by constructing an additional vehicular lane on each side of the existing eastbound structure and constructing an additional vehicular lane on each side of the existing westbound structure. The modified bridge will be a fixed bridge with a horizontal clearance of 50 feet and a vertical clearance of 25 feet above mean high water. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Tugs, crane barges, material barges, support vessels and crew boats will be operating or stationed in the vicinity of the existing and new bridge spans or located within the specific Mooring/Safe Harbor area.

Bridge Structures/Work Trestles: Mariners are advised to maintain a safe distance of 300 feet to the south and 50 feet to the north from the Willoughby Bay Bridge. Construction managers may establish safe transit corridors through bridge trestles as construction activity permits. Work trestles will be constructed extending on out from the North and South shorelines.

Willoughby Mooring and Safe Harbor Area – As charted. Mariners are advised to keep clear of the mooring/safe harbor area and are not permitted entry or mooring within the exclusion zone throughout the duration of the project.

Communications: Hampton Roads Connector Partners tugs and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the project area. To reach an on-scene manager, contact Eric Satterwaite 484-477-2108. You may also contact Hampton Roads Connector Partners at 757-536- 9863 and/or email MarineOps@hrcpjv.com. In case of emergency, please contact USCG Sector Virginia Command Center on VHF-FM Channel 16 or 757-483-8567. Project information may be found at https://hrbtexpansion.org. (MT)

South Branch of the Elizabeth River - I-64 High Rise Bridge – Placement of structural steel over the navigation span of the bridge is scheduled from 6 a.m. to 6 p.m. on March 4, 2022. The waterway through the bridges (existing bascule drawbridge and fixed bridge under construction) will not be accessible during placement of the structural steel over the navigation span. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners, and marine safety information bulletin. Mariners are urged to use caution when transiting the area. (KB)

North Landing River - S165 (North Landing Bridge) – Bridge will not be capable of normal operation until further notice. The north span of the bridge is fully operational and the south span of the bridge will have limited operational capabilities. The drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021, except for recreational vessels. Recreational vessels

able to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a limited opening (north span). Recreational vessels unable to safely transit through the north span of the bridge with a horizontal clearance of approximately 38 feet should request a full opening (both spans). Public vessels of the United States, commercial vessels, government vessels, and emergency vessels may transit through the bridge unrestricted at any time in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. The bridge will be able to open for emergencies. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations 117.1021. Mariners should adjust their transits accordingly and should use extreme caution when transiting the area. (MT)

Elizabeth River-Eastern Branch - U.S. 460/S.R. 337 (Berkley) Bridge – Bridge maintenance will be performed from 7 a.m. to 7 p.m., Monday – Friday, until July 4, 2022. A work barge and tug will be located in and around the vicinity of the bridge. Maintenance personnel and vessels will relocate from the navigable channel, if given at least a 30-minute notice. Work vessels may be reached on VHF-FM channel 13 and 16. Mariners should use extreme caution navigating through the area. (CT)

Elizabeth River-Eastern Branch - U.S. 460/S.R. 337 (Berkley) Bridges – Bridges will be maintained in the closed-to-navigation position to replace the electrical junction box for the south span from 7 a.m. on Wednesday, June 15, 2022, to 11:59 p.m., on Sunday, June 19, 2022. The drawbridge has two spans, each with double-leaf bascule draws, and both spans have a vertical clearance in the closed position of 48 feet above mean high water. Vessels able to pass through the bridges in the closed position may do so at anytime. The bridge spans will not be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. Mariners should use caution when transiting the area.

Milford Haven Inlet - State Route 223 (Gywnn's Island Bridge) - To complete a major rehabilitation of the mechanical and electrical systems to prevent imminent failure of the opening mechanism, the bridge will remain in the closed-to-navigation position from 2 a.m. on August 19, 2022, through 11 p.m. on March 15, 2023. During the closure period, the bridge will not be able to open for emergencies. Vessels able to pass through the bridge in the closed position may do so at any time. The vertical clearance of the bridge in the closed-to-navigation position is 12 feet above mean high water. At all other times, the drawbridge will operate in accordance with the operating regulations set out in Title 33 Code of Federal Regulations Part 117.5. Mariners should adjust their transits accordingly and should use caution when transiting the area. (CT)

Elizabeth River-Eastern Branch - U.S. 460/S.R. 337 (Berkley) Bridges – Bridge will be maintained in the closed-to-navigation position to replace electrical wiring for the span locks and navigation lights from 7 a.m. to 7 p.m., on Sunday, August 14, 2022, and alternative date for weather on Sunday, August 21, 2022. The drawbridge has two spans, each with double-leaf bascule draws, and both spans have a vertical clearance in the closed position of 48 feet above mean high water. Vessels able to pass through the bridges in the closed position may do so at anytime. The bridge spans will not be able to open in case of an emergency and there is no immediate alternate route for vessels to pass. Mariners should use caution when transiting the area. (MS)

SECTOR NORTH CAROLINA

- *North Carolina*

Oregon Inlet – Marc Basnight (Old Bonner) Bridge – The Coast Guard has designated span 32, between bents 31 and 32, as a temporary navigation span for the Marc Basnight Bridge (NC-12) over Oregon Inlet, mile 0.5, between Rodanthe and Nags Head, Dare County, NC. Span 32 provides a vertical clearance of approximately 49 feet above mean high water and a horizontal clearance of approximately 120 feet between the 180-degree red channel margin bridge lights. The approaches to span 32 have been marked with short-range aids-to-navigation. Bridge lighting will be installed in span 32 in July 2022. Vessels of 100 or greater gross tons should avoid transiting the bridge until further notice and shall not transit span 32 of the bridge. Mariners should transit span 32 of the bridge with extreme caution and due regard for the reduced navigational clearances, lack of a bridge fender system, and the prevailing conditions of the waterway associated with shoaling. (HP)

The Straits - Harkers Island Bridge (SR 1332) - Bridge will remain in the closed-to-navigation position to facilitate bridge repairs due to damage caused by Hurricane Florence. The repairs require the bridge to remain in the closed-to-navigation position. The bridge is a swing bridge with a vertical clearance in the closed-to-navigation position of 14 feet above mean high water. Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open in case of an emergency and there is an alternate route for vessels to pass. Mariners should use caution when transiting the area. (MB)(HP)

White Oak River - S882 Bridge (near Stella, NC) – Bridge construction will commence in October 2021, with completion estimated in January 2024. Work is scheduled from 6 a.m. to 6 p.m., Monday through Saturday, with limited work outside these hours for special operations. To facilitate bridge construction, temporary work trestle will be installed in the White Oak River between October 2021, and February 2022, and will remain in place until completion. Work trestles will be located immediately adjacent and upstream of the existing White Oak River railroad trestle. The temporary trestle vertical clearance of 10.5 feet above mean high water and horizontal clearance of 33 feet will be maintained throughout construction. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners and broadcast notice to mariners. Mariners are urged to use caution when transiting the area. (CT)

Smith Creek - SR 2812 (S117-133/Castle Hayne Road - Bridge construction activities will begin on December 1, 2021, and are expected to finish on April 2, 2023. Work will be on-going from 7 a.m. through 6 p.m.; Monday through Saturday. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. A material barge, support vessel, and crew boat will be operating or stationed in the vicinity of the existing and new bridge. Temporary work trestles will also be constructed adjacent to the existing and new bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Civil Works Contracting barge and vessels will monitor VHF-FM channels 13 and 16 when work is in progress or vessels are operating in the area. The NCDOT Resident Engineer may be contacted at (910) 620-9829 and Civil Works Contracting may be contacted at (252) 240-9967 or (910) 279-4321. (MT)

Atlantic Intracoastal Waterway - Onslow Beach Swing Bridge – Construction activities will begin October 3, 2022, and are expected to finish February 2025. Work will be on-going from 7 a.m. through 7 p.m.; Monday through Friday, excluding Government holidays. Detailed project information and information concerning waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Two barges, support vessel, and crew boat will be operating or stationed in the vicinity of the existing and new bridge. Temporary work platforms will be in place for the duration of construction of the new bridge and demolition of the existing bridge. Mariners should navigate the waterway with extreme caution and due regard for prevailing conditions on the waterway. Barge and vessels may be reached on VHF-FM channel 13 and 16 when work is in progress or vessels are operating the area. Mariners should use caution when transiting the area. (CT)

Banks Channel - South Bank Channel Bridge – Bridge maintenance will be performed from 6 a.m. to 7 p.m., 7 days a week, from January 3, 2022, through June 30, 2023. During the repair period, a work platform will be located underneath the bridge, which will reduce the vertical clearance of the bridge to approximately 4 feet above mean high water. Vessel traffic will need use an alternate route. Work vessels may be reached on VHF-FM channel 13 and 16. (CT)

Perquimans River - US 17 Bridge – New bridge is under construction until August 2022. Vessels able to pass through the bridge in the closed position may do so at any time. Mariners should exercise caution when transiting the area. (HP)

Atlantic Intracoastal Waterway (AIWW), Bogue Sound – Bridge maintenance, which began September 2020, will continue to be conducted from 9 a.m. through 3 p.m., and 6 p.m. through 7 a.m.; 7 days a week; through November 19, 2022. During these maintenance periods, two 20-foot work vessels, work floats, and a snooper truck will be located in and around the vicinity of the bridge. During work hours, from September 6, 2022, through November 19, 2022, the snooper truck will be located in and around the navigational channel and will extend below low steel of the bridge reducing the vertical clearance of the navigation span to approximately 55 feet above mean high water. Maintenance personnel, equipment and the vehicle will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (703) 865-1041 or (703) 231-8589. Mariners should notify the work foreman no less than 30 minutes prior to transiting through the bridge. Mariners should use caution navigating through the area. (MT)

Mariners are advised that an engineering firm, on behalf of North Carolina Department of Transportation, will continue to be performing maintenance on the SR 58 (Emerald Drive) Bridge, over the Atlantic Intracoastal Waterway (AIWW), Bogue Sound, at mile 226, at Emerald Isle, NC. The maintenance, which began September 2020, will continue to be conducted from 9 a.m. through 3 p.m., and 6 p.m. through 7 a.m.; 7 days a week; through May 20, 2023. During these maintenance periods, two 20-foot work vessels, work floats, and a snooper truck will be located in and around the vicinity of the bridge. During work hours, from November 1, 2022, through May 20, 2023, the snooper truck will be located in and around the navigational channel and will extend below low steel of the bridge reducing the vertical clearance of the navigation span to approximately 55 feet above mean high water. Maintenance personnel, equipment and the vehicle will relocate from the navigable channel, upon request. Work vessels may be reached on VHF-FM channel 13. The project foreman may be reached at (703) 865-1041 or (703) 231-8589. Mariners should notify the work foreman no less than 30 minutes prior to transiting through the bridge. Mariners should use caution navigating through the area.

- *Virginia (Southern)* – None

SECTOR NORTH CAROLINA

- Mid-Currituck Sound (fixed) Bridge – Proposed new fixed structure. (MS)
- Alligator River – US 64 (fixed) Bridge Proposed new fixed bridge structure to replace (swing) bridge in final review of the design and environmental package. (HP)
- Cape Fear River – Wilmington bypass south (fixed) Bridge Proposed new fixed bridge structure in review of the design and environmental package. (MT)

SUMMARY OF DREDGING/MARINE CONSTRUCTION PROJECTS CURRENTLY IN PROGRESS
Enclosure (3)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure are highlighted in yellow.

DREDGING AND MARINE CONSTRUCTION CAUTIONS
Mariners are cautioned to stay clear of dredge, booster, floating (pontoon) and submerged pipelines, barges, derricks and operating wires associated with dredging and marine construction operations. Operators of vessels of all types should be aware that dredges and floating pipelines are held in place by cables, attached to anchors some distance away from the equipment. Buoys are attached to the anchors so that the anchors may be moved as the dredge advances and the location of the submerged pipelines are marked by buoys on each side of the channel. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the dredge, booster, buoys, cables, pipeline, barges, derricks, wires and related equipment. Dredging projects are usually conducted 24 hours a day, 7 days a week. All fishnets, crab pots and structures in the general area must be removed, prior to commencement of any work. A NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

New Jersey

NJ – LITTLE EGG HARBOR - WESTCUNK CREEK AND PARKERS RUN MAINTENANCE DREDGING PROJECT
Mariners are advised that H&L Contracting will be conducting dredging operations in Westcunk Creek Channel (Approximate 39°37’01”N 74°16’10”W) and in Parkers Run Channel (Approximate 39°36’33”N 74°17’40”W) from **09/20/2022** to **12/31/2022** . Work hours are 24 hours a day, 7 days a week. Dredging will be performed hydraulically. The dredge pipe will run from the channel to a disposal area at the end of Dock Road in West Creek (Approximate 39°36’50”N 74°15’47”W). The dredge pipe will be submerged at a channel crossings and will be marked and lighted. Channels will remain open during dredging but channel width will be reduced. Informational signs will be posted locally to inform mariners of channel closings. All mariners are advised to reduce speed to minimum for making way while in the vicinity of dredging operations. All marine equipment operators will be monitoring VHF-FM Channel 63 and Channels 16 and 13. Dredge and work vessels will monitor Channel 13 and 16. Mariners are advised to proceed with caution when transiting the area.
CHART- 12324

NJ – TUCKERTON CHANNEL & BIG THOROFARE CHANNELS – DREDGE OPERATIONS
Hydraulic maintenance dredging of Tuckerton Federal Channel (complete) and Big Thorofare channels into the Story Island CDF. The dredge pipe is deployed outside and parallel of the navigational channel as dredging commences. It is marked with floating buoys and lights approximately every 150’. There is a floating booster pump inline as Well on a 40’x40’ Poseidon barge platform with the appropriate marker lighting.
Sumco contracting will be conducting maintenance dredging in little egg harbor in the vicinity of Big Thorofare and Tuckerton. The dredge will monitor marine vhf channels 13, and 16. Mariners are requested to use extreme caution near the dredging equipment and pipeline and transit the area at their slowest safe speed to create minimum wake. Project completion, **November 22, 2022**.
Chart 12316

NJ – LITTLE EGG INLET TO HEREFORD INLET – DREDGING
Do to dredging Mariners are advised that there is a 70'x80' barge sitting along side Gardner's Basin Seawall. On Thurs, 9/15, the barge will be broken down to three 30'x40' barges and will then be stored at the marina in the vicinity of Clam Creek and Gardner’s Basin. For the duration of the job, a 40'x40' area will be occupied by at least one barge for the duration of the job in front of the bulkhead located in Gardner’s Basin.
This project will run from **September 15, 2022** through **December 20, 2022**.
Mariners please use extreme caution when transiting the area and reduce speed for minimum wake while transiting the area.
Chart 12318

******NJ – LITTLE EGG INLET TO HEREFORD INLET – DREDGING & BEACH RE-NOURISHMENT******
Great Lakes Dredge and Dock, LLC will begin Beach re-nourishment of Great Egg Harbor Inlet and Peck Beach including placement of approximately 1,810,000 cubic yards of beach fill starting from the groin at Seaview Road and ending between 14th and 15th Streets in Ocean City, New Jersey. The Cutter Suction Dredge (CSD) Texas will dredge beach fill quality material from the Great Egg Harbor Inlet Borrow Area, located approximately 5,000 feet offshore, north east of the project location, east of the Great Egg Harbor Inlet. The material will pump through one subline extending from the borrow area to the placement beach. GLDD has secured two waterside staging areas on the northeast side of Absecon Inlet in Atlantic City where rafted pipeline and equipment will be stored when not in use. The survey vessel Wolf River and crew transfer vessel (CTV) Cooper River will traverse between the work areas and Golden Nugget Marina in Atlantic City throughout the duration of the project.
For cautionary areas and dredging/work operations, mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.
Cutter Suction Dredge (CSD) Texas, Derrick GL64, Anchor Barge, GL116, Tug Evergreen State, Tug Caspian Dawn, Tug Mr. Connor, CTV Cooper River, and survey vessel Wolf River can be reached on VHF-FM 13 and 16. Operations will be conducted 24 hours per day, 7 days per week.
Anticipated completion Date is **April 9, 2023**.
Chart 12318

NJ – DELAWARE RIVER – MIFFLIN RANGE – PAULSBORO MARINE TERMINAL
On behalf of the South Jersey Port Corporation, Jacobs will be installing 4 mooring dolphins as well as dredging approximately 141,000 CY from an 8.9-acre area to create a berth pocket for a Roll-on/Roll-off (RoRo) vessel and access channel to the berth. A subaqueous riprap revetment will also be installed at the nearshore side of the berth pocket for slope stabilization. The project is located immediately adjacent to the southwest end of the existing pile supported wharf at the Paulsboro Marine Terminal (PMT). **Work will begin in September 2022 and be completed before March 2023.** Dredging, dolphin construction, and revetment construction will occur concurrently. Dolphin construction will require a crane barge and two support barges. Dredging will be either mechanical or hydraulic. Equipment will include the floating plant associated with the dredging. Two support barges/scows are also anticipated. The project is located at the Paulsboro Marine Terminal in Paulsboro, NJ and is south of the Billingsport Range on the Delaware River. No work will occur in the Federal navigation channel.
Chart 12312

Pennsylvania

PA – PHILADELPHIA AND CAMDEN WATERFRONT – SCHUYLKILL RIVER
Mariners are advised that a construction firm, on behalf of the City of Philadelphia, will be constructing an extension of the Schuylkill River Park Trail along the eastern bank of the Schuylkill River, between mile 6.3 and 6.4, at Philadelphia, PA. Construction activities commenced in mid-February 2022, and are scheduled to conclude at the end of **April 2025**. Work will be performed from 6 a.m. to 6 p.m., Monday through Friday, with potential night and weekend work. A 70-foot by 120-foot crane barge, 30-foot by 100-foot material barges, work floats, and 24-foot work boats will be utilized during operations and stationed in the vicinity of construction. Vessels may be contacted via VHF-FM on channel 13 or 16. Construction firm representatives may be contacted at (215) 669-7883 and (484) 680-8550, 24-hours/day. Detailed project information and information concerning the waterway closures will be provided via updated local notice to mariners, broadcast notice to mariners and marine safety information bulletins. Mariners should navigate the vicinity of construction with due caution at minimum safe speed.
Chart 12313.

PA – SCHUYLKILL RIVER – DREDGING
Dredging operations will begin on the Schuylkill River, between Spring Garden Street Bridge and Vine St. Bridge on July 18, 2022 to **October 21, 2022**. Dredge Northstar Girls along with 2 spud Barges (NS85- 85'x26' and Weeks 231), and 3 hopper barges all 150' x 37' (Weeks 79, Weeks 81, Weeks 83) will be in the vicinity of the work area and will monitor VHF-FM 16. A third spud barge will be in position 39-53.560N, 075-11.918W. For more information, contact Eric Wells, Project Supervisor, (502) 593-4368.
Chart 12313.

PA - NJ – DELAWARE RIVER – SAMUEL S. BAXTER WATER TREATMENT PLANT – DREDGING OPERATIONS
Mobile Dredging & Video Pipe, Inc. (MDVP) will begin installing approximately 3,000 to 4,000 feet of dredge pipeline across the Delaware River to pump from the Philadelphia Water Department Baxter Water Treatment Plant Residuals Lagoon to a confined disposal facility on the southern (New Jersey) side of the river. The dredging work is set to take place between **July 2021** and **December 2022.** The pipeline will be sunk to the bottom of the Delaware River in the navigable channel with heavy marine chain. The pipe will be gradually released to the water surface outside of the navigable channel until it reaches the shorelines. The chain on the pipe will secure the pipeline during any major weather events. Dredging operations will generally operate Monday through Saturday during daylight hours. Approximate GPS positions: 40°2'5.68"N; 74°59'54.26"W to 40°1'31.74"N; 74°59'55.46"W. Mariners are advised to maintain a safe distance from all pipeline equipment. All marine equipment will be marked in accordance with U.S. Coast Guard regulations and requirements. Work boat WB33 and a second work boat will be utilized to stage and lay the pipeline at the beginning of the operation. Furthermore, the crew will be communicating on work channel 72 while also monitoring channel 13.
24 Hour contact: Conor Surgeoner – (610) 299-1252 (MDVP)
24 Hour contact: Frank Branagan – (856) 265-3558 (JPC Group, Inc.)
Chart 12313, 12314

Delaware

******DE – NJ – DELAWARE BAY – DREDGE OPERATION – MIAH MAUL AND BRANDYWINE RANGE******
Great Lakes Dredge and Dock Company will dredge three portions of Delaware Bay. Area 1 will be between Delaware Bay Lighted Buoy 25 (LLNR 1590) and Lighted Buoy 27 (LLNR 1595). Area 2 will be between Delaware Bay Lighted Buoy 19 (LLNR 1580) and Lighted Buoy 25 (LLNR 1590). Area 3 will be between Delaware Bay Lighted Buoy 12 (LLNR 1550) and Lighted Buoy 14 (LLNR 1565). Dodge Island and Crew Boat St. Johns River will begin October 23, 2022, ending around December 31, 2022. Dredge ops will run 24hours a day, 7 days a week. Disposal of material will be in the lower Delaware Bay, Site bounded by corner points: 38.94737, -75.08733, 38.94485, -75.08595, 38.94593 -75.08273, 38.94845, -75.08406.
Chart 12304

DE – DELAWARE RIVER – SUBMARINE CABLE REPLACEMENT
Caldwell Marine International LLC. will begin submarine power cable replacement utilizing Crane operations and Dive operations, center point in approximate position 39-27-33.6N, 075-35-7.4W. Barge will have 4 anchor moorings which will be marked with white painted buoys and illuminated with white lights. Project will begin October 1, 2022 and end **November 30, 2022**. Operations will be conducted 7 days per week and 24 hours per day. Cable Repair Barge 'Hughes #181', Crane Barge 'Hughes #655', Crew Transfer Vessel Alexis, and powered skiffs will monitor VHF CH16 / Working Channels VHF CH72 & CH77. Vessels are requested to proceed at slow speed and provide a wide berth when Crane and dive operations are in progress. Vessels should avoid passing between Cable Repair Barge 'Hughes #181' & illuminated, white mooring buoys.
Chart 12311.

Mariners are requested to exercise extreme caution when approaching, passing and leaving the dredging plant. Owners and lessees of fishnets, crab pots and other structures that may be in the vicinity and that may hinder the free navigation of attending vessels and equipment must remove these from the area where tugs, tender boats and other attendee equipment will be navigating. Dredging operations will be conducted 24/7 all fishnets, crab pots and structures in the general area must be removed prior to commencement of work, a slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.
Chart 12311.

Maryland

MD – SEVERN RIVER – DREDGE OPERATIONS

Edwin A. and John O. Crandell, Inc. will be conduction mechanical dredging operations in the Headwaters of the Severn River on or about October 24, 2022 until **February 15, 2023**. Crandell will be using Tug "Big C Too", Crane dredge "Digger 1" and offload "Barge 610" along with various other mud scows and equipment in the rough vicinity Latitude 39° 04'52.82"N, Longitude -76°36'38.81"W. We may be offloading the material into trucks at the shoreline in the vicinity of the dredging or transporting the mud scows via tug to the Hawkins Point Dredge Disposal Site offload site in Baltimore at approximate position Latitude 39°12'47.99"N, Longitude - 76°32'54.26"W. The Severn River channel width will be restricted during the dredging activities. Mariners are urged to use caution when transiting the area and reduce to a no-wake speed in the vicinity of the equipment for worker safety. Edwin A. and John O. Crandell, Inc can be contacted via phone at 410-867-0200 or on cell 410-991-2376.
Chart 12311.

MD – PATAPSCO RIVER – NABBS CREEK – TIDAL WETLAND SHORELINE STABILIZATION PROJECT

Century Engineering Inc., on behalf of Baltimore Gas and Electric Company (BGE) will begin a wetland and shore stabilization project on Nabbs Creek behind the Chestnut Hill Cove residential community, beginning January 17, 2022 and continuing into **Fall 2022**. All work will be conducted from shore via an access road. For more information, contact Century Engineering at 443-589-2400.
Chart 12281.

MD – UPPER CHESAPEAKE CHANNEL – DREDGE OPERATIONS

Corman Kokosing Construction Company will begin mechanical dredging operations on or about September 6, 2022 in the Federal Navigation Channel in the Chesapeake Bay and Elk River from Pooles Island to Old Town Point. Loaded scows will be towed from the work area to the Unloader barge located at the Pearce Creek Dredge Containment Facility for offloading. The unloader barge will be staged on the South of the channel and North of Wroth Point. An 18" submerged HDPE pipeline will be placed on the river bottom from the Unloading Barge into the placement facility.
The Dredge KOKO VI and/or KOKO V will be dredging the area with the assistance of tender tug, towing tugs and scows. Vessels and crew will monitor VHF channel 13 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of **March 31**, **2023**. For more information, contact Adam Donder, (443) 695-3788, adondero@kokos.com
Charts 12273, 12274, 12280.

MD – HEAD OF CHESAPEAKE BAY – UPPER GUNPOWDER RIVER – DREDGING OPERATIONS

Dredge operations are expected to occur Mondays through Saturdays during daylight hours in Bird River, starting in approximate position 39°22'43.45" N, 076°22'11.13" W. Work will be conducted by utilizing two Mud Cat Dredges installing approximately 10,000 feet of 8 inch pipeline. The pipeline will be marked with danger buoys. The 25' workboat 'Viking' and supporting skiffs will be used to facilitate movement. When moored, all equipment is marked and lighted in accordance with USCG Regulations. Additionally, during nighttime hours equipment will be marked with blinking warning lights. Interested mariners may contact the on scene work vessels via marine band radio VHF-FM channels 16 and 10. Project is expected to be completed around **March 15, 2023**.
Chart 12274.

MD – POTOMAC RIVER – ST. CATHERINE ISLAND – BREAKWATER CONSTRUCTION

Coastal Design & Construction, Inc. will begin construction on a Stone Breakwaters and beach re-nourishment near St. Catherine Island, starting on **June 27, 2022** to approximately **October 28, 2022**. Four barges will be moored near the Potomac River near St. Catherine Island in positions: Deck Barge - 38° 13.659'N, 76° 47.811'W, Deck Barge - 38° 13.567'N, 76° 47.671'W, Deck Barge - 38° 14.667'N, 76° 47.515'W, Deck Barge - 38° 14.726'N, 76° 47.538'W. All barges will be marked with constant White Light per Coast Guard requirements and moorings with slow flashing white lights. Push Boat Emelie B will be monitoring VHF Channel 13 & 16. For more information, contact, J Richard Mattingly – Superintendent (Marine), Cell: 301-643-4323.
Chart 12286.

VA – POTOMAC RIVER – ALEXANDRIA CHANNEL – CONSTRUCTION

River Renew will begin building a turbidity curtain on October 25, 2021 in approximate position 38.8096919N, 77.038250912W. Once turbidity curtain is complete, a permeant seawall will be built, shore side of curtain. All work will be conducted from shore; however, seawall could extend 30ft into Oronoco Bay and the Potomac River. Project completion, anticipated to be **August 2024**.
Chart 12289.

DC

DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – NATIONAL HARBOR CHANNEL – DREDGING OPERATIONS

Maintenance dredging operations are scheduled to occur within the National Harbor Channel at Oxon Hill, MD, from on or about **October 17, 2022 until on or before December 31, 2022.** The work is expected to occur Mondays through Fridays during daylight hours. The dredging operations will be conducted between approximate positions latitude 38°46'96" N, longitude 077°01'29" W and latitude 38°47'09" N, longitude 077°01'22" W. Marine equipment will be located throughout the dredging work areas during operations, utilizing a 120 x 30 foot dredge barge "N32" with excavator and tugboat "Constructor." Dredged material will be loaded upon the dredge barge and then transported via tug to adjacent boat ramp for transfer to watertight dump trucks. The dredge barge will not be in the channel after daylight hours. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. Mariners can contact the tug on marine band radio VHF-FM channel 13.

Virginia

VA – THIMBLE SHOALS CHANNEL – DREDGE OPERATIONS

Great Lakes Dredge & Dock Company, LLC (GLDD) with the Tugs M/V Miss Gloria, Mechanical Bucket Dredge No. 55, and Scows GL 601/GL 604 will commence dredging operations in the Thimble Shoal Channel between coordinates point A, 36.9741369°N,-076.1185955°W, point B, 36.9775353°N,-076.1172310°W, point C, 36.9534965°N, -076.0243938°W, point D, 36.9500990°N,-076.0257621°W on October 13th 2022. Dredged material will be transported to DAM NECK OFFSHORE DISPOSAL SITE and bottom dumped in the contract designated area by Scows 601 and 604. Disposal will take place between Point I, 36.7744462°N,- 075.9049262°W, Point J, 36.8128988°N,-075.9049260°W, Point K, 36.8128974°N,-075.8878462°W, Point L, 36.7744449°N,-075.8878549°W. Location of Mooring buoy 36 56.393425°N, 076 22.482066°W, for mooring empty scows. The mooring buoy consists of a yellow can buoy with light and 150ft blue mooring line marked with crab pot buoys. Operations occur 24 hours per day, 7 days per week and is anticipated to be completed by **February 28, 2023**.
Chart 12254

VA – CHESAPEAKE BAY ENTRANCE – CHESAPEAKE BAY BRIDGE TUNNEL – MARINE OPERATIONS

Chesapeake Tunnel Joint Venture will continue Tug, Crane and Barge operations near the existing tunnel protection berms for Islands 1 and 2. Work will not impede the navigational channel. A crane barge may be held in place by way of spuds, a six point anchoring system or made fast to several steel mooring piles. Buoys will be attached to the anchors so that they may be moved as the crane barge advances. Buoys will be illuminated at night by one second flashing white lights and the barges will be illuminated by steady white lights on all corners. The steel piles will be illuminated at night by white lights. The steel piles and trestle will be positioned west of Island #1 approximately 125 feet and extending north of the fishing pier approximately 1000 feet. The ROBERT T and ANGELINA AUTUMN will be on VHF-FM 13 and 16.
Charts 12222.

VA – CHESAPEAKE BAY – THIMBLE SHOAL CHANNEL – DREDGING

Continuing until approximately **October 31, 2022** Weeks Marine will be conducting Water Injection Dredging (W.I.D.) for the CBBT Project. Tug "Jack K" paired with W.I.D. "Weeks 773" will monitor marine VHF channels 13 and 16. Dive operations to take place off Weeks clamshell dredge "506" which will also be monitoring marine VHF channels 13 and 16.
Continuing until approximately **October 31, 2022**, Weeks' "2223 Crane Barge", Tug "Robert B." "291, 293 and 297" Deck Barges and ICM Tug "Defender" along with support crew boat "Swiftrunner" will be conducting Rock Placement Work for the CBBT Project (work limits provided below).
Anchor Mooring Location: 36°57.998'N, 076°10.791'W.
Additional Anchor Mooring Location: 36°58.000'N, 076°11.000'W.
Work limits for dredging operations/rock placement work at CBBT will be bound by the following Approximate positions:

36°58'36.92"N, 76° 6'38.73"W	36°58'12.83"N, 76° 6'24.32"W
36°58'31.05"N, 76° 6'17.10"W	36°58'19.19"N, 76° 6'46.66"W

Continuing until 31 October 2022, Weeks Marine Tug "Virginia" will be intermittently pushing Weeks Drag Barge #4 within Thimble Shoal Channel between Thimble Shoals Lighted Buoy 19 (LLNR 9305) and Thimble Shoals Lighted Buoy 7 (LLNR9235) stopping west of Chesapeake Bay Bridge-Tunnel. Continuing until approximately October 31, 2022, Clamshell Dredge "Weeks 506", crew boat "Capt. Pete", Tugs "Stephen Dann" and "Liz Alma", along with split hull scows (257 & 264) will be operating in conjunction with Hopper Dredge Magdalen in the TSCW. All dredged material will be transported to the approved Dam Neck Ocean Disposal Site – DNODS - Cells 5,6 & 7.
Work limits for the Thimble Shoal Channel will be bound by the following approximate positions:

37° 1'35.24"N, 76°15'57.82"W	36°57'37.50"N, 76° 7'8.25"W
36°59'11.10"N, 76° 6'41.27"W	36°59'53.72"N, 76°16'36.67"W

Limits of Dredged Material Placement Area will be bound by the following approximate positions:

36°51'41.07"N, 75°55'41.74"W	36°45'47.19"N, 75°50'54.07"W
36°51'45.15"N, 75°51'16.40"W	36°45'45.72"N, 75°55'33.04"W

Dredging operations will continue on a twenty-four (24) hours per day, seven days per week basis. The bucket dredge and tugboats will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. Pipeline and equipment will each have all required U.S. Coast Guard lighting for night operations. For questions, contact **Dave McNeill - (985) 237-5069 (mobile), dcmcneill@weeksmarine.com (email).**
Chart 12256.

******VA – CHESAPEAKE BAY – BUCKROE BEACH RE-NOURISHMENT PROJECT******

Great Lakes Dredge & Dock Company, LLC (GLDD) with the Cutter Suction Dredge Texas will commence dredging operations in the borrow area between coordinates point A: 37.0422606° N, -076.2524318° W, point B: 37.0422083° N, -076.2496915° W, point C: 37.0389133° N, -076.2497895° W, point D: 37.0389656° N, -076.2525296° W on **November 3, 2022**. Dredged material will be transported and placed onto Buckroe Beach for beach placement activities, with disposal utilizing one pipeline for the entirety of the project. Operations occur 24 hours per day, 7 days per week.
Great Lakes Dredge & Dock Company, LLC (GLDD) will commence pipeline installation activities offshore of Buckroe beach on October 24, 2022. Installation activities will include towing attendant plant and pipeline sticks approx. 3,000 ft. in length from GLDD's Waterside Staging Areas #1 and #2 located next to Craney Island to the beach landing on Buckroe Beach (Seaward beginning of subline will be approximately at 37.0382955°N, -076.2534063° W, and the beach landing location approximately at 37.0424682° N, -076.2885514° W). The operations will involve Cutter Suction Dredge Texas, Tug Ranger, Tug Evergreen State, Tug Bering Dawn, Derrick 73, Anchor Barge 115, and other attendant plants being close to the shoreline, with lighted and marked pipeline being between the shoreline and the towing tugs. While the pipeline is installed, it will be submerged on the ocean floor (but visibly marked with lighted can buoys) until emerging on shore, with float hoses 2000 ft. in length, connected to the Cutter Suction Dredge Texas on the water side. Boaters are advised to avoid these areas during the installation process and proceed with caution around submerged pipeline areas. Project is expected to be completed by November 14, 2022.
Chart 12222, 12256

VA – NORFOLK HARBOR – ELIZABETH RIVER – CABLE LAYING OPERATIONS

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Crofton Industries will be performing cable laying operations at the Norfolk Naval Deperming Station. Work will be on the Red side of the Elizabeth River Channel at Lambert Bend and take place from August 22, 2022 to **December 1, 2022**.

Temporary H-Pile structures will be erected on the Red side of the channel at the Deperming Station. The structure will be placed approximately 175 feet inside the channel, leaving approximately 500 feet open for navigation. All temporary structures will be properly lit for navigation. Crofton Industries' Mani3 Barge will also be working in this location on the Red side of the channel West of Elizabeth River Channel Lighted Buoy 29 (LLNR 9715).

All mariners are requested to stay clear of the barge, structures, and other support equipment. Mariners are requested to exercise extreme caution when approaching, passing, and leaving the area of work and maintain a safe minimum speed. The Mani3 Barge monitors VHF channels 13 and 16. Mariners are cautioned to strictly comply with the Inland Rules of the Road when approaching, passing and leaving the area of operations, and remain a safe distance away from the Barge and all support equipment. Operations will be conducted during daylight hours Monday through Friday, a slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the barge prior to passing.

Chart 12253

VA – ELIZABETH RIVER – EASTERN BRANCH – PIER CONSTRUCTION

Beginning approximately January 31, 2022, and continuing until approximately **June 1, 2023**, Crofton Construction Services Inc. will commence constructing two 200' travel slip concrete piers and dredging down to 24' at the Lyon Shipyard along the Eastern Branch of the Elizabeth River, approx. position 36-50-28”N, 076-16-04”W. Operations will include crane barge operations, material barges, tugboats, work floats, and smaller crafts consistent with general marine construction. Barge(s) & vessel(s), will be moored, on site with employees working over the side on small floats or crew boats. The construction equipment will be confined, to the barges with crew boats working in the vicinity. The entire channel, will not be closed, during any stage of construction, or will not restrict marine traffic. Vessels are requested to proceed in this area with caution and no wake within 500' of the above coordinates. Crews will be monitoring the following radio frequencies: VHF channels 13 & 16.

Chart 12253.

VA – NEWPORT NEWS TO JAMESTOWN ISLAND – DREDGE OPERATIONS

Corman Kokosing Construction Company will begin mechanical dredging operations on or about April 14, 2022 at the Newport News Shipbuilding facility located on the James River. Loaded scows will be towed from the Shipyard to the Unloader barge located at the Craney Island Dredged Material Management Area. The unloader barge will be staged north of the Craney Island Rehandling Basin, on the West side of the Elizabeth River and outside the channel in the vicinity of the Craney Island Reach. A 16”-18” submerged HDPE pipeline will be placed on the river bottom from the Unloading Barge into the placement Facility.

The Dredge KOKO V will be dredging with the assistance of a tender tug, towing tugs and scows. Vessels and crew will monitor VHF channel 13 during the project execution. Dredging and unloading operations will continue daily until the estimated completion date of **January 01, 2023**. For more information, contact Adam Donder, (443) 695-3788, adondero@kokos.com

Charts 12273, 12274, 12280.

VA – JAMESTOWN ISLAND TO JORDAN POINT – JAMES RIVER – DREDGING OPERATIONS

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge *Richmond* will be conducting dredging operations on the James River (Dancing Point – Swann Point Channels) between James River River Channel Lighted Buoy 57 (LLNR 12200) and James River Channel Lighted Buoy66 (LLNR 12250) from October 15, 2022 to **December 31, 2022**.

All mariners are requested to stay clear of the dredge, pipelines, barge, derricks and operating wires about the dredge. All operators should be aware that the dredge and pontoon lines are held in place by cables, which are attached to anchors some distance from the dredge and pontoons. Buoys are attached to the anchors so that they may be moved as the dredge moves. Submerged lines should be avoided. Mariners are requested to exercise extreme caution when approaching, passing, and leaving the dredging plant. The dredge *Richmond* monitors VHF channels 13. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week. A slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.

Chart 12251.

VA – POTOMAC RIVER – CABIN POINT CREEK – BREAKWATER CONSTRUCTION

Coastal Design & Construction, Inc. will begin construction on a Stone Breakwaters near Cabin Point Creek, starting on **October 19, 2022** to approximately **December 31, 2022**. Five barges will be moored in the Potomac River near Cabin Point in positions: Rig Barge - 38° 8.830892’N, 76° 39.624579’W - Deck Barge - 38° 8.759851’N, 76° 39.591876’W - Deck Barge - 38° 8.688762’N, 76° 39.583552’W - Deck Barge - 38° 8.957397’N, 76° 39.429406’W -Deck Barge - 38° 9.114493’N, 76° 39.457913’W. All barges will be marked with constant White Light per Coast Guard requirements and moorings with slow flashing white lights. Tug Capt. Dale and Push Boat Emelie B will be monitoring VHF Channel 13 & 16. For more information, contact, J Richard Mattingly – Superintendent (Marine), Cell: 301-643-4323.

Chart 12286.

North Carolina

NC – SEACOAST – BEACH NOURISHMENT DREDGING OPERATION

Continuing until approximately **1 December 2022**, Hopper Dredge B.E. Lindholm will be operating in the offshore borrow area located just southwest of Kill Devil Hills shoreline. Work limits will be bound by the following approximate positions:

36° 3'17.94"N, 75°33'35.75"W	36° 3'21.95"N, 75°32'31.25"W	36° 0'14.33"N, 75°32'34.10"W	36° 0'12.77"N, 75°33'46.62"W

Starting approximately 5 September 2022 the hopper dredge "Magdalen" will be operating in conjunction with the B.E. Lindholm.
The staging area will be bound by the following approximate positions:

35°46'38.88"N, 75°31'40.99"W	35°46'9.05"N, 75°31'58.85"W	35°46'3.09"N, 75°31'43.53"W	35°46'30.64"N, 75°31'30.15"W

Secondary staging area will be bound by the following approximate positions:

35°45'56.73"N, 75°31'35.70"W	35°45'57.58"N, 75°31'29.77"W	35°45'49.78"N, 75°31'21.84"W
35°45'40.41"N, 75°31'21.89"W	35°45'41.43"N, 75°31'28.67"W	

Dredged material will be transported by the hopper dredge(s) to a pump-out station, to be pumped to the beach placement site(s) through a combination of floating and submerged pipeline. Pipeline corridor at Kill Devil Hills, Kitty Hawk and Southern Shores will be bound by the following approximate positions:

36°01'17.83"N, 75°39'44.63"W	36°01'41.19"N, 75°38'44.13"W	36°09'30.30"N, 75°43'17.85"W	36°09'06.504"N, 75°44'26.54"W

Pipeline corridor at Duck Beach will be bound by the following approximate positions:

36°12'29.51"N, 75°45'45.54"W	36°11'10.93"N, 75°45'10.44"W	36°11'29.12"N, 75°43'59.50"W	36°12'50.00"N, 75°44'35.02"W

Starting approximately 10 June 2022 and continuing until approximately **December 31, 2022**, Hopper Dredge(s) B.E. Lindholm and R.N. Weeks will be operating in the offshore borrow area located just southwest of Kill Devil Hills shoreline. Work limits will be bound by the following approximate positions:

36° 3'17.94"N, 75°33'35.75"W	36° 3'21.95"N, 75°32'31.25"W	36° 0'14.33"N, 75°32'34.10"W	36° 0'12.77"N, 75°33'46.62"W

Once underway, dredging operations will continue on a twenty-four (24) hours per day, seven days per week basis. Hopper dredges and tugs will monitor marine VHF channels 13 and 16. Mariners are urged to use extreme caution and transit the area at their slowest safe speed to create minimum wake after passing arrangements have been made. Hopper dredge(s), pipeline and equipment will each have all required U.S. Coast Guard lighting for night operations. please contact Project Manager(s) on-site: James Ferguson - (985) 273-1286, jcferguson@weeksmarine.com.
Chart 12200.

NC – OREGON INLET – DREDGING OPERATIONS

EJE Dredging Service will begin dredge operations in Oregon Inlet through the Ocean Bar east of the Marc Basnight Bridge and in an alternate channel on the west side of the Marc Basnight Bridge ("Bridge") for Oregon Inlet Channel. Hopper dredge, Miss Katie, is expected to begin dredging **October 1, 2022**, and will continue throughout the remainder of the year. Dredge operations will be performed 12 hours a day, seven (7) days a week. All dredge spoils will be transported to a disposal site located in deep sour holes near the Bridge on the south side of Oregon Inlet and/or a nearshore site located off Pea Island. All mariners are requested to use caution in the area, and as such, pass the dredge at no wake speeds. Miss Katie can be reached on VHF-FM CH 16 and 13. For more information, contact Jordan Hennessy at jhennessy@ejedredgng.com or (252) 597-5752.
Chart 12204

NC – CAPE HATTERAS – PAMLICO SOUND – OYSTER REEF CONSTRUCTION

SJ Hamill Construction, LLC will begin construction of about 50 oyster reefs comprised of stone in the Pamlico Sound. Center point of project is approximate position 35-23-12.95N, 075-58-14.27W. Storage of our materials and equipment will be Engelhard, NC, in the Engelhard Marine Industrial Park. Three small tugboats, a crew boat, and two rock barges will be frequently be used to tow material from storage site to project sites.
Chart 11555

NC – BIG FOOT SLOUGH CHANNEL – DREDGE OPERATIONS

Cottrell Contracting Corporation of Chesapeake, Virginia advises that the Dredge Lexington will be conducting dredging operations within Big Foot Slough Channel, North Carolina. The Lexington will start operations around November 1, 2022 and working till December 20, 2022. The dredge Lexington will start dredging Big Foot Slough Channel first between Big Foot Slough Light 14BF (LLNR 29087) and Big Foot Slough Light 9 (LLNR 29055) discharging material onto Big Foot Slough Island.
All mariners are requested to stay clear of the dredge, pipelines, barge, derricks and operating wires about the dredge. All operators should be aware that the dredge and pontoon lines are held in place by cables, which are attached to anchors some distance from the dredge and pontoons. Buoys are attached to the anchors so that they may be moved as the dredge moves. Submerged lines should be avoided. Mariners are requested to exercise extreme caution when approaching, passing, and leaving the dredging plant. The dredge *Lexington* monitors VHF channels 13. Dredging operations will be conducted twenty-four (24) hours a day seven (7) days a week. A slow NO WAKE speed is requested of transiting vessels. All vessels are requested to contact the dredge prior to passing.
Chart 11550

NC – SEACOAST – ONSLOW BAY - GEOLOGICAL CORE COLLECTION

APTIM Environmental & Infrastructure, LLC will be conducting Geological Core Collection Offshore Onslow Bay, NC aboard R/V Rachel K Goodwin from September 29, 2022 through **October 29, 2022** in Onslow Bay from 3 to 20 nautical miles offshore.
Chart 11520

NC – CAPE FEAR RIVER – GOLD BOND BUILDING PRODUCTS MARINE TERMINAL – DREDGING OPERATIONS

American Dredging and Environmental Services will begin hydraulic dredging starting October 22, 2022 to approximately **February 15, 2023**. Dredge area is located adjacent to Cape Fear River Lighted Buoy 59 (LLNR 30855) outside of the channel. Dredge spoils will be pumped via pipeline under channel to spoil area on west side of river. Pipeline will be submerged on bottom of channel at approximately 42ft MLLW. Dredging will occur 7 days a week from dawn to dusk. All vessels and pipeline will be mark in accordance with Coast Guard regulation. AMDES Pushboat, AMDES Plant #1 and AMDES Skiff will monitor VHF 13 and VHF 16. NO WAKE transit is requested of all vessels passing the dredge and if necessary to clarify a SAFE PASSAGE contact the dredge on the appropriate VHF-FM channels.

ENCLOSURE (4)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

******MD – CHESAPEAKE BAY – PATUXENT RIVER - SOLOMONS ISLAND – SWIM EVENT******
An open water swim event is scheduled to occur in the Patuxent River on **October 28, 2022** from 7:30 a.m. to 11:30 a.m. Up to 10 swimmers will be escorted various powerboats (30 feet in length) and will compete on a designated swim course starting at Naval Air Station Patuxent River Marina at Patuxent River, MD and proceed north to finish at Chesapeake Biological Laboratory Pier at Solomon's, MD. Participants will be accompanied and supported by sponsor-provided watercraft. Official patrol vessels on scene can be contacted via marine band radio VHF-FM Channel 16. For any comments or questions, contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
Chart 12284.

MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT – SEVERN RIVER – SAILING REGATTAS
Annual sailing regattas sponsored by the Annapolis Yacht Club (AYC) are scheduled to occur on the Severn River and the Chesapeake Bay near the mouth of the Severn River, during **2022**. Unless otherwise indicated, the events will occur between 10 a.m. and 4 p.m. Twenty five individual AYC events are scheduled on the following dates: (1) April 27-August 31 (*Wednesday Night Races* - 90 participants, 22-50 feet in length, from 6 p.m. to 7:30 p.m.); (2) July 31 (Two Bridge Fiasco- 75 participants, 22-60 feet in length, from 10 a.m. to 5 p.m.); (12) August 27-28 *(Corinthian Cup* – 4 participants, 22 feet in length; (13) September 9-11 *(Harbor 20 North Americans* – 20 participants, 20 feet in length); (14) September 23-25 (*Annapolis YC 3-2-1 Invitational* - 12 participants, 20-30 feet in length); (15) September 24 (*Fall Race to Solomons* - 45 participants, 30-50 feet in length); (16) October 1-2 (*Fall Series 1* - 30 participants, 22-34 feet in length); (17) October 1-2 (*Doublehanded Distance Race* - 20 participants, 29-50 feet in length, overnight from 12 p.m. to 12 p.m. the following day); (18) October 3-5 (*Warrior Sailing Project* - 8 participants, 22 feet in length); (19) October 8 (*Fall Series River Course* - 25 participants, 20-28 feet in length); (20) October 8-9 (Fall Series-2- 30 participants, 30-50 feet in length); (21) October 15-16 (*Eschells - Lippincott* - 30 participants, 23 & 30 feet in length); (22) October 21-23 *(J/35 North Americans* – 10 participants, 35 feet in length); (23) October 22-23 (*J/105 East Coasts* - 25 participants, 35 feet in length); (24) October 29-30 (*Halloween Howl* - 50 participants, 8 feet in length); and (25) November 6-December 11 (*Frostbite Series - 1st Half* - 80 participants, 22-45 feet in length, from 12 p.m. to 4 p.m.). Additional information on these events can be obtained at website https://www.annapolisyc.com/. The AYC Race Committee can be contacted via marine band radio VHF-FM channels 09, 13, 16, 68, 69, 70, 71 and 72. For any comments or questions, contact Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
Charts 12270, 12282, 12283.

MD – CHESAPEAKE BAY – COVE POINT TO SANDY POINT AND SEVERN RIVER – SAILING REGATTA
An annual sailing regatta is scheduled to occur in the Chesapeake Bay near Annapolis, MD during **October 29-30, 2022**, between 10 a.m. and 4 p.m. Up to 20 auxiliary sailing vessels (24 feet in length) will compete along two drop-mark race courses located near the mouth of the Severn River. On Saturday, the first race of the day will start after 11 a.m., and on Sunday, the first race of the day will start after 10 a.m. A maximum of eight races are scheduled over both days. Race Committee officials can be contacted on board the Signal Boat via marine band radio VHF-FM channels 16, 13, 09 and 73. More information on this Eastport Yacht Club event can be obtained at https://www.eastportyc.org/fall-brawl. For any comments or questions, contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
Charts 12270, 12283.

MD – CHESAPEAKE BAY – SEVERN RIVER – SPA CREEK – REGULATED AREA
The annual "The Maritime Republic of Eastport Tug of War" is scheduled to occur across Spa Creek on **November 5, 2022**, from 11 a.m. until 2 p.m. The annual charity event includes a 1,200-foot rope stretched across Spa Creek, between the Annapolis City Dock and Second Street in Eastport. As described in 33 CFR Section 100.501, a regulated area is established for all waters of Spa Creek, from shoreline to shoreline, extending 400 feet from either side of a rope spanning Spa Creek from a position at latitude 38°58'36" N, longitude 076°29'04.7" W at Annapolis City Dock, thence to a position at latitude 38°58'25" N, longitude 076°28'52.4" W, at Eastport, MD shoreline, near the foot of 2nd Street. The regulated area will be enforced from 11 a.m. through 2 p.m. on November 5, 2022. All coordinates reference Datum NAD 1983. The Captain of the Port (COTP) may assign one or more official patrol vessels, as described in 33 CFR § 100.40. The patrol vessels and Event Patrol Commander (PATCOM) can be contacted on Marine Band Radio, VHF-FM Channel 16. The Event PATCOM may terminate the event, or the operation of any vessel participating in the marine event, at any time if deemed necessary for the protection of life or property. The Event PATCOM or Official Patrol may forbid and control the movement of all vessels and persons in the regulated area. When hailed or signaled by an Official Patrol vessel, the person or vessel being hailed must immediately comply with all directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The operator of a vessel in the regulated area must stop the vessel immediately when directed to do so by an Official Patrol and then proceed only as directed. A person or vessel must comply with all instructions of the Event PATCOM or Official Patrol. A vessel operator may request permission to enter and transit through the regulated area by contacting the Event PATCOM or Official Patrol on VHF-FM Channel 16.
Additionally, four orange inflatable marker buoys will be established between 10:30 a.m. and 2:30 p.m., to assist mariners, operating outside the limits of the regulated area, in identifying the boundaries of the regulated area. These marker buoys will be located in the following approximate positions:

Buoy	Latitude	Longitude
1	38°58'25" N	076°28'59" W
2	38°58'34" N	076°29'06" W
3	38°58'36" N	076°28'58" W
4	38°58'32" N	076°28'53" W

Mariners are urged to schedule their transits on this waterway beyond the enforcement period. For any comments or questions, contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
Charts 12282, 12283

MD – CHESAPEAKE BAY – APPROACHES TO BALTIMORE HARBOR – PATAPSCO RIVER – SAILING REGATTA WEEKLY SERIES
An annual weekly sail boat racing series is scheduled to occur on the Patapsco River each Sunday during **October 30, 2022** - **November 20, 2022**, between 12 p.m. and 7 p.m. Up to 20 sail boats (20 to 40 feet in length) will compete in a single race along a designated course located between the Fort McHenry National Monument and Historic Shrine and the Francis Scott Key Memorial (I-695) Bridge, at Baltimore, MD. More information on the "Baltimore City Yacht Association Fall Racing Series" can be obtained at website https://www.bcya.com. Interested mariners may contact the race committee on marine band radio VHF-FM channel 72. For any comments or questions contact U.S. Coast Guard Sector Maryland-NCR, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.
Chart 12281.

******MD – VA – POTOMAC RIVER - MATTAWOMAN CREEK TO GEORGETOWN - NATIONAL HARBOR ACCESS CHANNEL – WEEKLY FIREWORKS DISPLAYS******
A series of six weekly short-duration, aerial fireworks displays are scheduled to occur along the Potomac River, every Saturday **during November 12, 2022 - December 17, 2022**, between 5:30 p.m. and 6 p.m. The fireworks will be launched from the commercial pier at National Harbor, MD, in approximate position latitude 38°47'14" N, longitude 077°01'04" W. Mariners are urged to use caution when transiting the area, and heed the directions of patrolling law enforcement and public safety officials. Absent specific guidance, mariners should remain 400 feet from the fireworks discharge site. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, at telephone number (410) 576-2674 or (410) 576-2693.
Chart 12289.

DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – GEORGETOWN CHANNEL - ROWING EVENT
An annual rowing race is scheduled to occur on the Upper Potomac River on **October 29, 2022**, from 9 a.m. to 11 a.m. Up to 75 participants will operate outrigger canoes (9-24 feet in length) along a marked course and compete along a designated course that extends for 1,500 meters upriver from the Francis Scott Key (US-29) Memorial Bridge. Event participants will be supported by sponsor-provided safety vessels. Mariners are urged to use caution when transiting the area and remain alert for participants and their support craft. More information on the "Frank Havens 10k Race" can be found on the website https://www.washingtoncanoeclub.org. For any comments or questions contact U. S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Branch, at telephone number (410) 576-2674 or (410) 576-2693.
Chart 12289

DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – GEORGETOWN CHANNEL - ROWING EVENT
A rowing race event is scheduled to occur on the Upper Potomac River on **November 5, 2022**, from 7 a.m. to 12 p.m. Up to 100 participants will operate rowing shells (25-60 feet in length) along a marked 2 -kilometer (total) course along the Georgetown Channel, starting at Three Sisters and finishing at Thompsons Boat House, in Washington, DC. The races will occur on the Virginia side of the channel going downstream. Event participants will be supported by sponsor-provided safety vessels. Mariners are urged to use caution when transiting the area and remain alert for participants and their support craft. For any comments or questions contact U. S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Branch, at telephone number (410) 576-2674 or (410) 576-2693.
Chart 12289.

DC – POTOMAC RIVER – MATTAWOMAN CREEK TO GEORGETOWN – ANACOSTIA RIVER - SAILING REGATTA
Sailing regattas sponsored by DC Sail are scheduled to occur on the Anacostia River between Anacostia Lighted Buoy 3 (LLNR 18735) and the 11th Street Bridge. Unless otherwise indicated, the events will occur between 9 a.m. and 5 p.m. Four individual DC Sail regattas are scheduled on the following dates (1) **October 16** (DC High School Regatta - 100 participants, 12 feet in length); (2) **October 22** (DC High School Regatta - 100 participants, 12 feet in length); (3) **October 23** (DC High School Regatta - 100 participants, 12 feet in length); (4) **October 29** (DC Halloween Regatta - 50 participants, 12 feet in length). Participants will be supported by sponsor-provided motor launches. Interested mariners can contact the DC Sail on marine band radio VHF-FM channel 13, 16 or 69. More information on the DC Sail Regatta events is available at website www.dcsail.org/. For any comments or questions contact U.S. Coast Guard Sector Maryland-National Capital Region, Waterways Management Division, at telephone number (410) 576-2674 or (410) 576-2693.

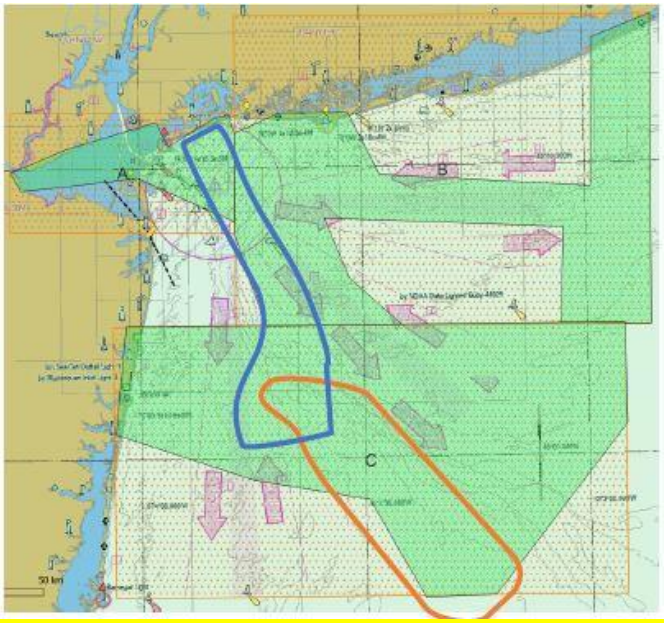
SUMMARY OF OFFSHORE RENEWABLE ENERGY INSTALLATIONS (OREI) AND OPERATIONS IN SUPPORT OF OREI IN THE FIFTH COAST GUARD DISTRICT
ENCLOSURE (5)

NEW OR UPDATED INFORMATION
New, updated or very important information in this enclosure will be highlighted in yellow.

NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS
XOCEAN will begin ocean surveying with remotely piloted Uncrewed Surface equipment (USVs) out of Point Pleasant / Sandy Hook Bay / Point Lookout during October 2022. The survey equipment will be engaged in survey activities associated with the investigation of a site for development of an offshore wind farm in the Atlantic Ocean approximately 40 nautical miles off the New Jersey coast. Survey operations will begin **October 11, 2022** and last up to 5 weeks.
A support vessel will escort the USVs from the launch port to clear water. While operating in Traffic schemes, a Guard vessel will be in attendance, and although the equipment is un-crewed, it is crewed throughout the 24 hour operation, piloted remotely using 360 degree cameras and other navigational aids.
The USV is equipped with the following to make it conspicuous to other marine traffic:
- AIS
- Flashing Yellow light & Sound Signal
- Active Radar Reflector
- Retroreflective Marking
- Superstructure Painted Yellow

The operational area is divided into 3 zones, A, B and C. XOCEAN expects operations to follow the below schedule:
1. 1 USV Zone C – from October 26th, for 4 days, from Point Pleasant
2. 1 USC Zone A, B, & C – from October 26th, for 3-4 days, from Point Pleasant
3. Next Areas TBC



This week's mission will be conducted in zone C with one USV and all zones with another USV. One will operate with a guard vessel inside 12nm near or in the TSS. The other USV will operate offshore of the TSS and outside 12nm without a guard vessel. The USVs and guard vessel will then port call in Point Pleasant after four days to replenish the guard vessel. The expected area of operation is shown above in the orange and blue outlines.
Seafarers are asked to avoid contact with the equipment and be aware of the operational areas during this period. XOCEAN points of contact include: Michael Huskilson (Country Manager) (647) 518-3879 michael.huskilson@xocean.com, and Tom Davenport (Sr. Operations Manager) (UK Based) +44 775-923-7524 tom.davenport@xocean.com.
Chart 13003, 12326

NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS
The *M/V Fugro Enterprise*, call sign WDD9388, will be conducting survey operations, using sensors towed approximately 150 meters behind the survey vessel. Operations will occur within Lease 0541 area and will begin on **September 1, 2022** and continue to approximately **June 1, 2023**. Operating area Lease 0541 corridor is located about 46 miles off the New Jersey coast, between Sandy Hook and Brigantine bounded by the following approximate positions:
NW extent: 39° 30' 14"N / 73° 40' 10"W
NE extent: 39° 30' 05"N / 73° 25' 46"W
SW extent: 39° 10' 30"N / 73° 40' 35"W
SE extent: 39° 10' 19"N / 73° 26' 11"W
The *M/V Fugro Enterprise* will be restricted in her ability to maneuver and is requesting mariners operating in or transiting the area to give a 1 NM CPA.
The *M/V Fugro Enterprise* will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.
Chart 12326, 12323

NJ – SEACOAST – OFFSHORE SURVEY OPERATIONS

The *OSS HOS Browning*, call sign XCBK8, will be conducting geotechnical survey operations, using Seabed CPT Unit (Fugro Seacalf) and Geotechnical Drilling Rig (Fugro C30). Operations will occur within Lease 0541 area and will begin on September 3, 2022, and continue to approximately **February, 2023**.

Operating area Lease 0541:

The work area is located about 46 miles off the New Jersey coast, between Sandy Hook and Brigantine bounded by the following approximate positions:

NW extent: 39° 30’ 14”N / 73° 40’ 10”W
NE extent: 39° 30' 05"N / 73° 25' 46"W
SW extent: 39° 10' 30"N / 73° 40' 35"W
SE extent: 39° 10' 19"N / 73° 26' 11"W

The *OSS HOS Browning* will be restricted in her ability to maneuver for extended periods (up to 72 hours) and is requesting mariners operating in or transiting the area to give a 1 NM CPA. The *OSS HOS Browning* will be monitoring VHF channel 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12323, 12318

NJ – SEACOAST – GEOPHYSICAL SURVEY OPERATIONS

Mariners be advised that TDI-Brooks International vessel RV Emma McCall (Radio Call Sign: WDG 8742) and RV Brooks McCall (Radio Call Sign: WDZ 7811) will be conducting geophysical operations offshore Atlantic City, New Jersey from approximately October 17th, 2022 to **January 31st, 2023**, weather permitting. Vessel will have restricted maneuverability during survey operations.

Both Vessels will monitor VHF 16 & 13 during the survey. Mariners please transit the area with extreme caution.

Chart 12318

DE – SEACOAST – SURVEY OPERATIONS

The L/B Voyager, CALL SIGN WDM2304, will be conducting geotechnical survey operations beginning on September 10th, 2022 and continuing until approximately **November 1st, 2022**. The survey area is located offshore in Delaware state waters from 3rs Beach (Southern) to Towers Road (Northern). The operations will be accompanied by the support vessel Interceptor, CALL SIGN WDL5574.

Survey operations is separated into two survey areas. The bounding points for each are provided below:

Tower Road (Northern)

Point	LAT	LONG
1	38.68993595°N	75.06895189°W
2	38.68994753°N	75.00934637°W
3	38.65243618°N	75.00929580°W
4	38.65243333°N	75.06891721°W

3Rs Beach (Southern)

Point	LAT	LONG
1	38.59485452°N	75.06111839°W
2	38.56786916°N	75.06106327°W
3	38.56788503°N	75.00967924° W
4	38.59498675° N	75.00967584° W

The L/B Voyager will have restricted maneuverability during transit and will have no maneuverability when vessel during sampling operations and is requesting mariners working in or transiting through the area to give a 1.0 NM CPA. The L/B Voyager will be monitoring VHF channels 16 and can be contacted on these frequencies for safe passing arrangements.

Chart 12214, 12211

******MD – DE SEACOAST AND INLAND BAYS – MARINE SURVEYING OPERATIONS******

US Wind will be conducting 24-hour geotechnical survey operations in fixed locations along the near shore Atlantic Ocean in the vicinity of Indian River Inlet, from **September 10, 2022** to approximately **December 30, 2022**. Mariners are advised to use caution when transiting near the survey vessel and support vessel and are requested to give a wide berth and slow bell. The vessels will monitor channels 13 and 16 VHF-FM for passing arrangements.

The Survey Vessel NORTHSTAR VOYAGER with support vessel NORTHSTAR INTERCEPTOR will operate in the following areas:

38°41’01.1”N	75°04’12.3”W		38°35’41.5”N	75°03’38.9”W
38°40’04.4”N	75°04’02.3”W	And	38°35’40.0”N	75°01’37.9”W
38°39’18.5”N	74°59’50.6”W		38°33’49.2”N	75°00’44.2”W
38°40’56.4”N	75°00’59.1”W		38°35’16.8”N	75°03’33.9”W

Further information can be found on the US Wind website: https://uswindinc.com/mariners/.

Charts: 12214, 12216

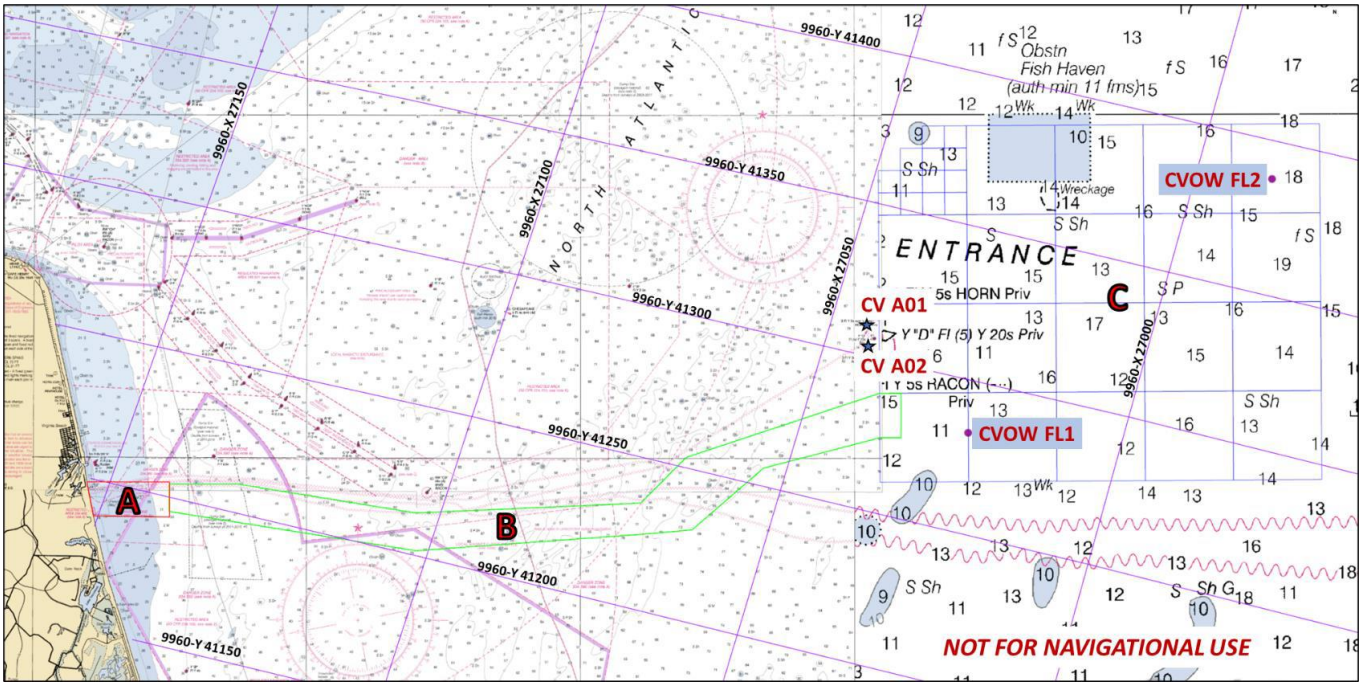
VA – NC – SEACOAST - UNEXPLODED ORDNANCE SURVEY

Dominion Energy's UXO Survey within the offshore cable corridor (Area B) and the Coastal Virginia Offshore Wind (CVOW) lease (Area C) are expected to continue through 2022. The vessels being deployed and the areas to be surveyed are identified below. We remain committed to maintaining communications with fishing communities and other mariners in the area via these periodic updates, dock visits, informational speaking engagements and the additional information posted on the CVOW Website – (www.coastalvawind.com). Mariners are also encouraged to contact Dominion Energy's Fisheries Liaisons with any specific questions about CVOW project activities in relation to fisheries.

Mariners transiting or fishing in the survey area are requested to give a wide berth to survey vessels which may be limited in their ability to maneuver and towing gear up to 1,000' behind the vessel. Mariners should operate in a manner that will not endanger themselves, the survey vessel or its equipment, a 0.5 NM clearance is requested

Minerya Uno – 24/7 operations in Zone B and Zone C.

Shearwater – 24/7 operations in Zone B and Zone C.



Additional project information is available on the Coastal Virginia Offshore Wind project web page (www.coastalvawind.com)

RESEARCH EQUIPMENT IN WATER

North Atlantic – Gulf Stream
May 11th, 2022 to October 30th, 2022

SAILDRONE, INC. will operate four Unmanned Surface Vehicles called Saildrones, to study the Gulf Stream and its interactions with the atmosphere. Two vehicles have already been deployed from Newport, RI, and two more vehicles will be deployed from Oregon Inlet, NC and transit out to the continental shelf between **May 11th - 20th 2022**. They will operate continuously for the following six months.

More information on the project can be found online at:
https://www.saildrone.com/news/google-org-funds-gulf-stream-heat-carbon-mission

VESSELS ARE REQUESTED TO TRANSIT THE AREA WITH CAUTION, AND REMAIN GREATER THAN 500 METERS AWAY FROM THE RESEARCH EQUIPMENT.

Saildrones are wind powered Unmanned Surface Vehicles that carry important oceanographic and fisheries acoustics research instrumentation and are controlled from shore through satellite communications.

OCEAN RESEARCH EQUIPMENT IN WATER

Southeast U.S. Coast
July 5th to December 15th, 2022

SAILDRONE, INC. will operate two Uncrewed Surface Vehicles called "saildrones" to study ocean-atmosphere conditions, potentially within tropical cyclones, in the waters between Jacksonville, FL and Morehead City, NC. They will be launched from Jacksonville, Florida and sail northbound approximately **July 5th-9th, 2022**.

Further historical information on this multi-year research project can be found online at:
https://www.pmel.noaa.gov/saildrone-hurricane2021/

VESSELS ARE REQUESTED TO TRANSIT THE AREA WITH CAUTION, AND REMAIN GREATER THAN 500 METERS AWAY FROM THE RESEARCH EQUIPMENT.
