Saginaw Bay Channel - Saginaw River/General/Bridges/Rehabilitation	Bridges	General/Bridges/Rehabilitation From: 2026-02-05 To: 2028-11-15 Location: 43-34-46.992N/083-53-58.992W Bridge Name: Lafayette Avenue Bridge *****REVISED***** MI - LAKE HURON – Saginaw River From December 1, 2024, through November 15, 2028, the Lafayette Street Bridge at Mile 6.78, over the Saginaw River will be secured to masted navigation. Vessels able to pass under the bridge without an opening may do so at any time. Additionally, six barges 80x190-foot or smaller will be working under the bridge, and they will move if a 3-hour advance notice is provided by calling 608-475-8851, or 608-610-9374, or 989-293-5892. Trestles will be installed extending outward from shore approximately 50-feet. Flashing yellow lights will warn mariners of the trestle's location. Heel girders will be installed on the four corners of the bridge to enable the new drawspan to be opened during construction. These girders will extend an additional 2-feet into the channel reducing the horizontal clearance to approximately 136-feet. During the winter, the ice will degrade due to the movement of barges and the ice under the bridge should be considered unsafe for pedestrians or vehicles. Sector Northern Great Lakes MSI/Lake Superior - ST MARYS RIVER TO AU SABLE POINT/General/MSIB	MSIB	Commander Coast Guard Sector Northern Great Lakes Commenced Operation Taconite. At the start of each voyage or transit, to enhance the coordination of ice breaking resources, COTP Norther Great Lakes directs all shipping companies to provide an estimated time of arrival for their vessels downbound to Whitefish Point, upbound to Detour Reef LT, Eastbound to Lansing Shoal LT, Westbound to Round Island, or arriving or departing from any of the Western Superior ports and terminals. Similarly, for vessels operating in Lake Michigan in the presence of ice, all shipping companies should provide an estimated time of arrival for vessels entering the Sturgeon Bay Ship Canal, Rock Island Passage or when arriving or departing Escanaba, Green Bay, Marinette or any other ports and terminals within Green Bay. Estimated time of arrivals must be received six hours prior to a vessels arrival to any of these points or once a day by 1000 (eastern). position reports may be filed with "Sault Traffic" either by landline (906.635.3299), fax (906.635.3238), or email (sootfc@uscg.mil). A vessels ETA must be updated whenever the arrival time changes by more than six hours. Mariners are asked to establish VHF radio contact with the servicing icebreaker on VHF-FM channel 16 approximately one hour before reaching the appropriate service area.
