LOCAL NOTICE TO MARINERS

District: 9

Week: 16/22

Issued by: Commander (dpw)
Ninth Coast Guard District
1240 East Ninth Street,
Cleveland, OH  44199-2060
Telephone: (216) 902-6069

Direct questions about this LNM to the above address.

All distances in this publication are STATUTE MILES unless otherwise noted.*

*District Nine Internet Address*  https://www.atlanticarea.uscg.mil/Our-Organization/District-9/

*District Nine Local Notice to Mariners email Address* D09-DG-District-D9-LocalNoticetoMariners@uscg.mil

** Navigation Information Service watchstander, 24 hours a day at (703) 313-5900 ** **Internet Address**  https://www.navcen.uscg.gov/

Coast Pilots, along with corrections are available at: https://nauticalcharts.noaa.gov/publications/coast-pilot/index.html

The Local Notice to Mariners is available on the Internet at https://www.navcen.uscg.gov/-pageName=lnmMain  You will also have links to other government agencies- web pages including the US Army Corps of Engineers and the National Ocean Service.

REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

The Ninth District and all Sector offices for their areas of responsibility issue a BROADCAST NOTICE TO MARINERS.

The following Broadcast Notice to Mariners have been incorporated into this week's Local Notice to Mariners:

- Sector Buffalo, NY - B018-22 through B024-22
- Ninth District - C042-22 through C050-22
- Sector Detroit, MI - D021-22 through D023-22
- Sector Lake Michigan, WI - M083-22 through M084-22
- Sector Sault Ste Marie, MI - S040-22 through S045-22

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: https://cgls.uscg.mil/mailman/listinfo/nanu. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mail to: webmaster@smtp.navcen.uscg.mil, or on the internet at: https://www.navcen.uscg.gov

ABBREVIATIONS

A through H
ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
Al - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DBYD - Dayboard
DEFAC - Defaced
DEST - Destroyed

I through O
I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LBH - Lightweight Horn Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LT - Light
LTM - Local Notice to Mariners
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy

P through Z
PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light
RELIGHTED - Aid Relit
RELOC - Relocated
RESET ON STATION - Aid Reset on Station
RFL - Range Front Light
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
This section contains information of special concern to the Mariner.

CAUTION TO BE USED IN RELIANCE UPON AIDS TO NAVIGATION

The aids to navigation depicted on charts comprise a system of fixed and floating aids to navigation with varying degrees of reliability. Prudent mariners will not rely solely on any single aid to navigation, particularly a floating aid to navigation. With respect to buoys, the buoy symbol is used to indicate the approximate position of the buoy body and the sinker which secures the buoy to the seabed. The approximate position is used because of the practical limitations in positioning and maintaining buoys and their sinkers in precise geographical locations. These limitations include, but are not limited to, inherent imprecision in position fixing methods, prevailing atmospheric and sea conditions, slope of and the material making up the seabed, the fact that buoys are moored to sinkers by varying length of chain, and the fact that the buoy body and/or sinker positions are not under continuous surveillance, but are normally checked only during periodic maintenance visits which often occur more than a year apart. Due to the forces of nature, the position of the buoy body can be expected to shift inside and outside the charted symbol. The mariner is also cautioned that buoys may be extinguished or sound signals may not function as the result of ice, running ice, or other natural causes, collisions, or other accidents. For the foregoing reasons, a prudent mariner must not rely completely upon the position or operation of floating aids to navigation, but will also utilize bearings from fixed objects and aids to navigation on shore. Further, a vessel attempting to pass close aboard always risks collision with a yawing buoy or with the obstruction that the buoy marks.

Cancellation of NOAA Paper and Raster Nautical Charts

The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, BookletChart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.

Six months notice of the intent to cancel a specific chart is provided in a "Last Edition" notice. The final cancellation of a chart is made in a "Canceled" notice. Both types of notices will appear in LNM Section IV, "Chart Correction." A comprehensive list of all canceled NOAA charts is available at: http://www.charts.noaa.gov/MCD/Dole.shtml.

Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA’s electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of charted detail available to mariners. More information about NOAA’s program to sunset traditional paper charts is on the NOAA Coast Survey website at: https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html.

An online NOAA Custom Chart application at: https://devgis.charttools.noaa.gov/pod is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not be issued for NOAA Custom Charts.

USACE NOTICE TO NAVIGATION INTERESTS

Current Federal Channel conditions, shoaling, and the most recent channel surveys are available at the following Army Corps of Engineers web sites:

    Buffalo: http://www.lrb.usace.army.mil/
    Detroit: http://www.lre.usace.army.mil/
    Chicago: http://www.lrc.usace.army.mil/
    Rock Island: http://www.mvr.usace.army.mil/

Additional Abbreviations Specific to this LNM Edition:

LIB - Lighted Ice Buoy

SI - Silent
SIG - Signal
SND - Sound
SM - Single Point Mooring Buoy
SS - Sound Signal
STA - Station
STRUCT - Structure
ST M - Statute Mile
TEMP - Temporary Aid Change
TMK - Topmark
TRLB - Temporarily Replaced by Lighted Buoy
TRLT - Temporarily Replaced by Light
TRUB - Temporarily Replaced by Unlighted Buoy
USACE - Army Corps of Engineers
W - White
Y - Yellow

LNM: 06/14

LNM: 04/20
Navigation Center Website Transition
The U.S. Coast Guard Navigation Center is going to transition the Navigation Center website to a new, enhanced version in the first quarter of 2022. As part of this transition, URLs will be updated across the site including URLs linked to PDFs. Therefore, once the transition is complete, legacy site URLs will no longer function, including bookmarked URLs and URLs used in automatic downloading of data and/or products. Outdated URLs will automatically redirect to the home page of the site, and from there you will be able to easily navigate to your preferred page.

Below are a few of the "old"/new URL pairs listed for your convenience. Please note that the new URLs will not be active until we launch the new website. Once it is launched, the new URLs will be available for re-bookmarking. As a reminder, these are top level URLs that may contain additional links that you use.

This notice will be updated when the final launch date is determined and another notice will be issued to notify you when the site goes live. Questions/concerns may be directed to the NAVCENWebTEAM@uscg.mil.

GREAT LAKES - Great Lakes Water Levels
See Enclosure 1

The current and four week expected water level table for the Great Lakes, Connecting Channels and the St. Lawrence River, will be published in Enclosure 1 following SECTION VIII - LIGHT LIST CORRECTIONS of the Local Notice to Mariner or by visiting the link below:

ANTICIPATED DELAY IN THE COMMISSIONING OF AIDS-TO NAVIGATION
Due to continued icebreaking operations. A delay is anticipated in the commissioning of Aids-to-Navigation in the throughout the Great Lakes, connecting waterways, and adjacent rivers and harbors. All mariners are requested to transit these areas with caution.

ST. MARYS RIVER SYSTEM - DE TOUR PASSAGE TO WHITEFISH BAY - Charts 14882,14883,14884
Due to unusually high water levels, SOO Traffic requests all mariners transiting the St. Marys River System to monitor their speed and corresponding wake to protect the shoreline.

ST. MARYS RIVER - LAKE NICOLET TO SAULT STE MARIE - CHART 14884
The U.S. Army Corps of Engineers has commissioned Little Rapids Cut Lighted Ice Buoy 98B (LLNR 14105). The buoy marks the upstream end of the ice boom in place on the eastern side of the St. Marys River. The available channel width for navigation is restricted to 385ft. Due to the channel restrictions, VTS St Marys River directs no meeting or overtaking in Little Rapids Cut from Light 98 (LLNR 14100) to Mission PT Obstruction LT C (LLNR 14145).

ST. MARYS RIVER - AMERICAN CANAL - CHART 14884
Northeast Pierhead Light (LLNR 14205) The U. S. Army Corps of Engineers will be relocating this light to the top of their new camera tower. As soon as the position and height of the light's new location is confirmed it will be advertised in Section VIII - Light List Corrections of the LNM.
LAKE ERIE - BUFFALO HARBOR - Chart 14833
North Entrance Light "7" (LLNR 2720) The light has been temporarily discontinued due to construction on the breakwater. A temporary light without day marks and lowered focal plane has been established in position 42-52°50.220"N / 078-53°45.474"W. The characteristic is FL G 2.5s. Another lantern was mounted on the Northwest end of the breakwater in position 42-53°04.590"N / 078-54°05.880"W. The characteristic of this light is QW.

LAKE MICHIGAN – New Buffalo Harbor - Chart 14905
Shoaling has been reported near the middle of the channel immediately inside the break wall in New Buffalo Harbor, MI. The actual water depth is currently significantly below the charted depth. Mariners are urged to use caution when transiting the area. For further details, contact Sector Lake Michigan at (414) 747-7182 or VHF channel 16.

LAKE MICHIGAN – WAUGOSHANCE POINT TO SEUL CHOIX POINT – CHART 14911
The abandoned Waugoshance Lighthouse located in approximate position 45-47-20N / 085-05-28W has become structurally unsafe. Landing and embarking on the light should not be attempted because of failing structural condition and it's in danger of collapsing. Mariners are advised to remain at least 300’ from the structure at all times.

LAKE SUPERIOR
The following NOAA Weather buoys have been commissioned for the season. Due to electronic positioning issues the buoys have been placed in their approximate position advertised in the light list.

A. NOAA LIGHTED WEATHER BUOY 45001 (LLNR 16880).
B. NOAA LIGHTED WEATHER BUOY 45004 (LLNR 16850).

SECTION II - DISCREPANCIES
This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections. This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Advance Notice(s)

LAKE ERIE - BUFFALO HARBOR/BLACK ROCK CANAL - CHART 14833
Black Rock Canal Light "4" (LLNR 2800) Permanently discontinue the aid.

Black Rock Canal Buoy "6" (LLNR 2810) change from an unlighted buoy to a lighted buoy. The characteristic of the buoy will be Q R with a nominal range of 4 statute miles.

DETROIT RIVER - TRENTON CHANNEL - CHART 14848
Permanently decommission the following buoys in the lower Trenton Channel:
Proposed Project(s)

None

Proposed Change Notice(s)

LAKE SUPERIOR – DULUTH SUPERIOR HARBOR - Chart 14975

Duluth Harbor Basin Traffic Lighted Buoy (LLNR 15870) Permanently discontinue the physical and continue the aid as a Virtual AIS MMSI 993672226.

For any comments or questions on these proposed changes please contact:
Mr. Doug Sharp of the Ninth District Aids to Navigation office at (216) 902-6070.

This section contains information of general concern to the Mariners. Mariners are advised to use caution while transiting these areas.

Waterways Analysis and Management System

The Ninth Coast Guard District will be reviewing the following waterways beginning in 2022. The study focuses primarily on aids to navigation in the waterway. Public comments are an important tool in this process so that we can provide the adequate markings and the right mix of signals to a waterway for safe navigation. Comments on the below listed waterways can be sent to william.d.sharp@uscg.mil or by calling (216) 902-6070. You may also complete the survey attached to the Local Notice to Mariner and either email it or mail it to: Commander (dpw), Ninth Coast Guard District, 1240 East Ninth St., Cleveland, Ohio 44199.

Sackets Harbor
(LLNR 1755-2024.9)

Buffalo Harbor/Black Rock Canal
(LLNR 2665-3360)

Dunkirk Harbor
(LLNR 3365-3492)

Erie Harbor
GREAT LAKES - Marine Events

Marine events such as races, parades, regattas, and fireworks displays are frequently held in the Great Lakes region. Advance information on specific events is contained in enclosure (2) of this publication. The public is reminded to listen to the local broadcast notice to mariners for the most up-to-date information on a marine event. Mariners are advised that some events may require temporary aids to navigation that are not displayed on a chart or in the Light List, and that they should exercise additional caution while operating in the vicinity of a scheduled marine event.

LAKE ERIE – OH - Ashtabula Harbor – Chart 14836

Construction of submerged breakwater in Ashtabula Harbor remains partial unfinished. Buoys are unlighted marking the hazard of the breakwater. Buoys may change position as seasonal weather changes. Current positions as follows:

Buoy "1" 41°55′07.841″N / 080°47′25.303″W
Buoy "2" 41°54′58.921″N / 080°47′16.850″W
Buoy "3" 41°54′58.281″N / 080°47′14.290″W
Buoy "4" 41°54′56.304″N / 080°47′14.726″W
Buoy "5" 41°54′56.307″N / 080°47′11.234″W
Buoy "6" 41°54′58.474″N / 080°47′02.054″W

Mariners are advised to remain at least 300' from the breakwater. All mariners are requested to transit the area with caution.
From 17 Jan 2022 to 01 May 2022 The Great Lakes Construction Co. will be installing sheetpile in the Cuyahoga River, Old River Bed, in the vicinity of the Cargill Dock. Marine assets in the river will include 2 each 60ft x 50ft barge units, 1 each 40ft x 90ft material barge, 1 each 60'x80' barge with crane and one push boat. Frequent transits are being made between the Ontario Stone dock in the Old River Bed to the Cargill Dock. Operations are ongoing and will conclude on or around 01MAY22. During work hours the on station tug will monitor VHF channel 16 from 0700-1800 HRS M-F. 24 hrs notice requested for movement and/or passing arrangements. All mariners are requested to transit the area with caution.

From 01 Apr 2022 to 30 Apr 2022 Ryba Marine Construction Co. will be conducting dredging in the Lorain Harbor 24 hours a day 7 days a week. Tug Kathy Lynn can be contacted on VHF channels 13 and 16. All mariners are requested to transit the area with caution.

From 01 Nov 2021 to 29 Apr 2022 Mark Schaffer Excavating and Trucking, INC will be conducting construction on the Cedar Point Causeway, Sandusky, OH Monday through Friday from dawn to dusk. For further information contact Ben Trafzer at 419-668-5990. All mariners are requested to remain at least 300’ from the breakwater and transit the area with caution.

The Coast Guard has received a report of a 4-foot tall boulder in the navigation channel of the Grosse Isle Parkway Bridge (Free) at Mile 5.60, over the Detroit River, Trenton Channel. Mariners should use caution and report any information about the boulder to the nearest Coast Guard unit.

E. C. Kozneffes Co. will be installing boardwalks and piers into Lake St. Clair at Blasot and Heath Park from 13 Sep. 21 to 1 July 22 from 0700 to 1900 Monday through Saturday. Tug Captain Dave and barge Comanche can be contacted on VHF channels 13 & 16. All mariners are requested to transit the area with caution.

From 1 April 2022 to 15 July 2022 Luedtke Engineering Co. will be conducting maintenance dredging near the mouth of the Saginaw River. Hours of operation are 24 hours a day 7 days a week. Tug Paul Luedtke can be contacted on VHF channels 10, 16, and 19. All mariners are requested to transit the area with caution.

From 15 Apr 2022 to 31 Dec 2022 Kokosing Industrial Durocher Marine Division will be conducting backfill operations to protect new American Transmission Company 138kv submarine power cables installed in 2021. Hours of operation are 24 hours a day 7 days a week. Tugs Valerie B, Nancy Anne, Champion, General, Barges Kokosing I, Kokosing III, Kokosing IV, D-2002, D-2006, crew boat Timmy V and 24’ work boat will be onscene and monitoring VHF channels 13 and 16. All vessels are requested to remain 1500’ (500-yard safety zone) away from construction vessels and transit the area with caution.

Kokosing-Alberici LLC will commence construction on the New Soo Lock Upstream Approach Walls April of 2021. Construction activities will be generally limited to the upstream north channel approach to the decommissioned Sabin and Davis Locks. Delivery by barge and boat of materials, equipment and crew will cross the upstream approach to the Soo Locks navigation channel throughout construction. Operations will commence from 25 Mar 21 to 15 Oct 23 Monday through Saturday 24 hours a day.

From 17 Jan 2022 to 01 May 2022 Kokosing Industrial Durocher Marine Division will conduct backfill operations to protect new American Transmission Company 138kv submarine power cables installed in 2021. Frequent transits are ongoing and will conclude on or around 01MAY22. During work hours the on station tug will monitor VHF channel 16 from 0700-1800 HRS M-F. 24 hrs notice requested for movement and/or passing arrangements. All mariners are requested to transit the area with caution.

From 1 April 2022 to 15 July 2022 Luedtke Engineering Co. will be conducting maintenance dredging near the mouth of the Saginaw River. Hours of operation are 24 hours a day 7 days a week. Tug Paul Luedtke can be contacted on VHF channels 10, 16, and 19. All mariners are requested to transit the area with caution.

From 25 Mar 21 to 15 Oct 23 Monday through Saturday 24 hours a day.

From 01 Nov 2021 to 29 Apr 2022 Mark Schaffer Excavating and Trucking, INC will be conducting construction on the Cedar Point Causeway, Sandusky, OH Monday through Friday from dawn to dusk. For further information contact Ben Trafzer at 419-668-5990. All mariners are requested to remain at least 300’ from the breakwater and transit the area with caution.

From 01 Apr 2022 to 30 Apr 2022 Ryba Marine Construction Co. will be conducting dredging in the Lorain Harbor 24 hours a day 7 days a week. Tug Kathy Lynn can be contacted on VHF channels 13 and 16. All mariners are requested to transit the area with caution.

From 15 Apr 2022 to 01 May 2022 The Great Lakes Construction Co. will be installing sheetpile in the Cuyahoga River, Old River Bed, in the vicinity of the Cargill Dock. Marine assets in the river will include 2 each 60ft x 50ft barge units, 1 each 40ft x 90ft material barge, 1 each 60'x80' barge with crane and one push boat. Frequent transits are being made between the Ontario Stone dock in the Old River Bed to the Cargill Dock. Operations are ongoing and will conclude on or around 01MAY22. During work hours the on station tug will monitor VHF channel 16 from 0700-1800 HRS M-F. 24 hrs notice requested for movement and/or passing arrangements. All mariners are requested to transit the area with caution.

From 1 April 2022 to 15 July 2022 Luedtke Engineering Co. will be conducting maintenance dredging near the mouth of the Saginaw River. Hours of operation are 24 hours a day 7 days a week. Tug Paul Luedtke can be contacted on VHF channels 10, 16, and 19. All mariners are requested to transit the area with caution.

# GREAT LAKES, CONNECTING CHANNELS AND ST. LAWRENCE RIVER

## WATER LEVELS AND DEPTHS

Expected water levels on the Great Lakes, Connecting Channels and the St. Lawrence River are given in inches above (+,0) or below (-,0) Low-Water Datum (LWD,0). LWD is a plane of reference on a navigation chart, also known as Chart Datum. LWD elevations shown below are given in International Great Lakes Datum, 1985 (IGLD 1985,0).

---

**AVAILABLE WATER DEPTH**

Available water depth is determined for a location by adding (+) or subtracting (-) the amount from the above table to the appropriate channel depth shown in the profile Connecting Channel Depths Graphic or to water depths shown on National Oceanic and Atmospheric Administration (NOAA) navigational charts.

**CAUTION**

Depths so determined are representative of a still water surface elevation, disturbed by neither wind nor other causes. Depths, however, may be reduced or increased as much as several feet for short periods due to these disturbances, or when sections of channels develop shoals. Vessel masters should refer to "Local Notice to Mariners" for extent of shoaling and scattered bedrock projections in all channels. Ice conditions can have a dramatic impact on actual channel depth and can lead to large short-term water level fluctuations. Ice information can be found at the National Ice Center's website.

ACTIVE LOCAL NOTICE TO MARINERS (LNM)

GREAT LAKES REGION

GREAT LAKES, Advance Notice Prior to Passing Railroad Drawbridges, Chart 14500
Mariners are encouraged to provide a 30-minute advance notice of arrival to railroad bridges to prevent unreasonable delays in bridge openings. [26/05] [34/12] [16/21]

**GREAT LAKES, Drawbridge Delay Reports, Chart 14500**
Mariners are requested to submit Reports of Drawbridge Signal/Operations Delays directly to the Ninth Coast Guard District Bridge Branch using the attached form. Reports of signal or drawbridge delays have been processed by Coast Guard Marine Safety Offices in recent years, but will now be processed and traced by the Bridge Branch. Reports may be sent by mail, e-mail, or by fax. The mailing address and fax number are on the form. The updated form is printed and also attached on the last page of this list. [08/05] [34/12]

**GREAT LAKES, Drawbridge Advance Notice During High Winds, Chart 14500**
Mariners are encouraged to provide advance notice of arrival to drawbridges during periods of high winds. Depending on the orientation and type of bridge high winds may prevent some bridges from operating as required by regulation. [46/13]

**NY STATE CANAL SYSTEM**
(Everything West of St. Johnsville, NY)

**NEW YORK STATE CANAL SYSTEM – NY - Erie Canal – Chart 14786 – Bridge Maintenance**
From April 1 through **June 17, 2022**, between the hours of 0600 and 2000, 7 days a week, contractors will utilize snooper trucks and man lifts under the E-188, North Main Street Bridge at Mile 284.14 over the Erie Canal near Rochester, New York. Spotters will warn workers of approaching vessels and move the man lift to allow vessels to pass. [04/22]

**NEW YORK STATE CANAL SYSTEM – NY - Erie Canal – Chart 14786 – Bridge Maintenance**
from May 2 through **May 27, 2022** between the hours of 0700 and 11530 daily, contractors will utilize snooper trucks under the E217 South Carmen Road Bridge at Mile 309.59, the E240 Tonawanda Creek Road Bridge at Mile 327.34, the E237 Robinson Road Bridge at Mile 323.79, and the E238A Fiegle Road Bridge at Mile 325.09 all over the Erie Canal. Spotters will warn of approaching vessels and will move the man lift to allow vessels to pass under the bridges. Mariners should avoid passing directly under large amounts of falling water. [07/22]

**NEW YORK STATE CANAL SYSTEM – NY - Erie Canal – Chart 14786 – Bridge Maintenance**
From May 11 through **August 17, 2022** between the hours of 0700 and 1730, Monday through Saturday, a 50-foot by 20-foot barge will be working under the E-138, Main Street SR 96 at Mile 253.50 over the Erie Canal. The barge will monitor VHF-FM Marine Channel 16 and will move to accommodate vessels as needed. [11/22]

**NEW YORK STATE CANAL SYSTEM – NY – Erie Canal – Chart 14786 – Proposed Bridge Construction**
The U. S. Coast Guard is requesting mariner and public input regarding the proposed construction of the Brockport Loop Pedestrian Bridge over Mile 279.81 of the Erie Canal, City of Brockport, Monroe County, New York. The proposed bridge is a fixed pedestrian bridge which will be constructed immediately west of the Brockport Guard Gate, Guard Gate 12, in Brockport, Monroe County, New York. It will have a vertical clearance of 16.30-feet available at low steel with 18.48-feet available at the center. Two navigation channels, one on each side of the center pier, would each offer 55.00-feet of horizontal clearance, matching and maintaining the established horizontal clearance of the Brockport Gate. The complete public notice including a
map of the location, and plans for the proposed bridge can be viewed and printed from the U.S. Coast Guard Navigation Center’s web site https://www.navcen.uscg.gov/D9BN, or by calling, emailing or mailing a request to the Coast Guard project manager, Mr. Michael Walker, Commander (dpb), Ninth Coast Guard District, 1240 E. 9th St., Room 2047, Cleveland, OH 44199, (216) 902-6087, or michael.o.walker2@uscg.mil. Comments received will be made part of the case record until May 8, 2022.

[14/22]

NEW YORK CANAL – NY – Erie Canal – Chart 14791 – Proposed Bridge Construction
The U. S. Coast Guard is requesting mariner and public input regarding the proposed construction of the Black Diamond Trail Pedestrian Bridge over Mile 1.9 of the Cayuga Inlet, City of Ithaca, Tompkins County, New York. The proposed structure is a fixed pedestrian bridge which will have a vertical clearance of 8.70-feet at low steel with 9.70-feet available at the center and a horizontal clearance of 157.00-feet. The complete public notice including a map of the location, and plans for the proposed bridge can be viewed and printed from the U.S. Coast Guard Navigation Center’s web site https://www.navcen.uscg.gov/D9BN, or by calling, emailing or mailing a request to the Coast Guard project manager, Mr. Michael Walker, Commander (dpb), Ninth Coast Guard District, 1240 E. 9th St., Room 2047, Cleveland, OH 44199, (216) 902-6087, or michael.o.walker2@uscg.mil. Comments received will be made part of the case record until May 6, 2022.

[52/21]

LAKE ERIE – NY – Buffalo Harbor – Chart 14833 – Bridge Maintenance  
From **March 21 through August 30, 2022** between the hours of 0700 and 1600, Monday through Sunday, you are authorized to utilize two barges 40-foot by 10-foot at the Niagara Street Bridge at the mouth of Scajaquada Creek. A 20-foot navigation channel will be maintained for vessels to pass through the work area.  

[06/22]

LAKE ERIE – OH – Cleveland Harbor – Chart 14839 – Bridge Maintenance  
On **May 16 and again on May 23, 2022** between the hours of 0600 and 1600 each day the Norfolk Southern Railroad Bridge at Mile 0.76 over the Cuyahoga River will be secured to masted navigation. Vessels able to pass under the bridge without an opening may do so at any time.  

[12/22]

LAKE ERIE – OH – Toledo Harbor – Chart 14847  
The Coast Guard has received a report that the traffic gates have not yet been replaced at the Martin Luthern King JR Bridge at Mile 4.30 over the Maumee River. The bridge requires a 2-hour advance notice to get personnel to the bridge to stop traffic before opening the bridge. Mariners should provide advance notice directly to the drawtender. ETR: April 30, 2022.

DETROIT RIVER - LAKE ST. CLAIR - ST. CLAIR RIVER – RIVER ROUGE  

*****REVISED*****

DETROIT RIVER – MI – Main Channel – Chart 14848 – Bridge Construction.  
From **November 1, 2022 through August 30, 2024**, contractors will be constructing the Gordie Howe International Bridge at mile 16.7 over the Detroit River. No equipment will be placed in the water. Overhead work will have temporary steady burning yellow lights to mark new construction. A moving platform with quick flashing red lights and orange or red ball fenders on the bottom four corners with a safety net that hangs approximately 15-feet below low steel will be constructing the bridge. Mariners should avoid passing directly under the platform at any time. Snooper type vehicles will be utilized on the bridge throughout construction. Spotters will warn of approaching vessels and move the man lift to allow vessels to pass. When construction is completed and all equipment removed, the final vertical clearances for the bridge will be 152-feet for the center 100-feet of the navigation channel. No less than 137-feet of vertical clearance will be available at the channel limits. Vertical clearances are based on IGLD85.  

[47/20] [07/22]

ST. CLAIR RIVER – MI – Black River – Chart 14853 – Bridge Inspection  
From May 16 through **May 20, 2022** between the hours of 0800 and 1600 daily, inspectors will use snooper vehicles under the I-94 Bridge at Mile 2.30 over the Black River. Spotters will warn of approaching vessels and move the man lift(s) to allow vessel to pass.

[11/22] [12/22]

LAKE MICHIGAN – WI – Sturgeon Bay Ship Canal – Chart 14919 – Bridge Maintenance
From May 4 through May 5, 2022, between the hours of 0700 and 1600, the Maple-Oregon Street Bridge at Mile 4.17 over the Sturgeon Bay Ship Canal, will be secured to masted navigation. Vessels able to pass under the bridge without an opening may do so at any time.

[11/22]

LAKE MICHIGAN – WI – Green Bay – Chart 14918 – Bridge Maintenance
On April 22, 2022 between the hours of 0300 and 1400, the Main Street Bridge at Mile 1.58 over the Fox River will require a 3-hour advance notice for openings. Mariners should provide advance notice directly to the drawtender.

[12/22]

LAKE MICHIGAN – WI – Fox River – Chart 14924 – Bridge Inspection
From April 19 through April 28, 2022 between the hours of 0800 and 1600, inspectors will utilize snooper trucks under the Tower Drive / Leo Frigo Bridge at Mile 0.41 over the Fox River. Spotter will warn of approaching vessels and will move the man lift to allow vessels to pass.

[12/22]

LAKE MICHIGAN – WI – Fox River – Chart 14916- Bridge Proposed Regulation
The Coast Guard proposes to modify the operating schedule that governs the Tayco Street Bridge, mile 37.52, the Main Street Bridge, mile 55.97, the Jackson Street Bridge, mile 56.22, the Wisconsin Street Bridge, mile 56.72, and the Congress Avenue Bridge, mile 58.01, all over the Fox River near Oshkosh, Wisconsin. This proposed rule will allow the bridges to operate remotely. We invite your comments on this proposed rulemaking. You may submit comments identified by docket number USCG-2021-0336 using Federal Decision Making Portal at https://www.regulations.gov. If you have questions on this proposed rule, call or e-mail Mr. Lee D. Soule, Bridge Management Specialist, Ninth Coast Guard District; telephone 216-902-6085, e-mail
LAKE SUPERIOR

LAKE SUPERIOR – MI – Keweenaw Waterway – Chart 14972- Bridge Maintenance
From April 19 through May 13, 2022, between the hours of midnight and 0400 daily, the US 41 Bridge at Mile 16 over the Keweenaw Waterway will be in the fully closed position and will require a 2-hour advance notice for openings. Mariners should provide advance notice directly to the drawtender.

PUBLIC NOTICE 09-02-22

All interested parties are herein notified that the Commander, Ninth Coast Guard District, has received application materials dated 01 December 2021 from the New York State Canal Corporation (NYSCC) for approval of location and plans for the construction of a bridge over a navigable waterway of the United States.

WATERWAY AND LOCATION: Brockport Loop Pedestrian Bridge, Mile 279.81 on the Erie Canal, Brockport, Monroe County, New York.

CHARACTER OF WORK: The proposed structure would be new construction at this location. NYSCC proposes to construct a fixed pedestrian bridge immediately west of Guard Gate 12, also known as the Brockport Guard Gate, at the waterway and location specified above. The proposed structure will connect the Empire State Trail to the north with Commissary Park to the south. Construction is tentatively scheduled to begin summer of 2022. Any in-water work performed during the navigation season would be coordinated with the Coast Guard. This project will be solely funded by the New York Power Authority.

MINIMUM NAVIGATIONAL CLEARANCES:

The proposed new bridge will have clearances as described in the table below. These clearances do not change current clearances over this section of the waterway at or near this mile.

<table>
<thead>
<tr>
<th>Proposed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vertical</td>
</tr>
<tr>
<td>16.30-feet at low steel with 18.48-feet available at the center.</td>
</tr>
<tr>
<td>Horizontal</td>
</tr>
<tr>
<td>55.00-feet on each side of center pier of bridge.</td>
</tr>
</tbody>
</table>

(All Elevations are referenced to Barge Canal Datum or BCD)

ENVIRONMENTAL CONSIDERATIONS:

The Coast Guard, as the lead Federal agency, has tentatively determined that the bridge construction warrants a categorical exclusion for the purposes of the National Environmental Policy Act (NEPA) because it satisfies criteria for such actions listed in the Coast Guard’s NEPA Implementing Instructions. Documents are available for review at the above address, Monday through Friday, 8:00 a.m. to 2:00 p.m. or by contacting the Coast Guard point of contact below.

A water quality certification in accordance with Section 401 of the Clean Water Act, as amended is pending (Section 401 WQC). On 16 December 2021, NYSCC submitted a joint application to both the New York Department of Environmental Conservation (NYSDEC) for a Section 401 WQC, the U.S. Army Corps of Engineers (USACE) for a determination under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act, the New York State Office of General Services for a determination regarding work on state-owned lands under water, and the New York State Department of State (NYS DOS) for general consistency concurrence.
NYSCC’s application indicates that the proposed bridge will not adversely affect any known wetland. The Coast Guard defers to USACE regarding wetlands impact determinations. Any questions or comments regarding the USACE’s permits or determinations may be directed to the following:

Mr. Joseph M. Rowley  
USACE-Buffalo District  
Regulatory Branch  
1776 Niagara St.  
Buffalo, NY 14207  
Joseph.m.rowley@usace.army.mil

A determination by NYSDOS pends as to whether the project is located in an area covered by New York’s federally-approved Coastal Zone Management Plan (CZMP).

The bridge is located in a base floodplain. The 100-year flood elevation is 513.39-feet. The low-member member of the navigation span is at an elevation of 529.69-feet (BCD). Approximately 500 cubic yards of temporary fill will be used as a berm to assist construction during the winter navigation season, and about 66 cubic yards of fill material will be placed permanently in the waterway to facilitate construction of the center pier and outlet structures.

On April 29, 2021 and September 20, 2021, the United States Fish and Wildlife Service (USFWS) New York Ecological Services Office indicated that no threatened, endangered, or candidate species would likely be affected by the project as proposed.

On May 4, 2021, the New York Power Authority conducted a New York State threatened and endangered species check for the project area. This identified the potential presence of NYS imperiled mussels in the Erie Canal. A mussel survey is pending.

In a letter dated 13 December 2021, the New York State Historic Preservation Office (SHPO) stated that while the project is adjacent to Guard Gate 12 – a designated National Historic Landmark – the proposed bridge would have No Adverse Effect on historic or archaeological resources as described in Section 106 of the National Historic Preservation Act of 1966.

**SOLICITATION OF COMMENTS:**

Mariners are requested to comment on the proposed navigation clearances, placement of a bridge protective system and other navigational safety issues, including need for clearance gauges and extent of nighttime navigation to determine the need for bridge lighting.

Interested parties are requested to express their views, in writing, on the proposed bridge project including any potential impacts to navigation, the environment, or minority and/or low income populations, giving sufficient detail to establish a clear understanding of the reasons for support of, or opposition to, the proposed work. Comments will be received for the record at the address noted in the header or via email to michael.o.walker2@uscg.mil through 08 May 2022.

Map of the location and plans are attached.

CONCEPTUAL PLANS UTILIZED TO OBTAIN A COAST GUARD PERMIT

TITLE OF PROJECT

LOCATION OF PROJECT

TITLE OF DRAWING

STRUCTURAL GENERAL ELEVATION

SHET 4 OF 4
PUBLIC NOTICE 09-01-22

All interested parties are herein notified that the Commander, Ninth Coast Guard District, has received application materials dated 6 August 2021 from the City of Ithaca, New York for approval of location and plans for the construction of a bridge over a navigable waterway of the United States.

WATERWAY AND LOCATION: Black Diamond Trail Pedestrian Bridge, Mile 1.9 on the Cayuga Inlet, City of Ithaca, Tompkins County, New York.

CHARACTER OF WORK: The proposed structure would be a new construction at this location. The City of Ithaca proposes to construct a fixed pedestrian bridge at the waterway and location specified above. The proposed bridge would be 198.25-feet long face-to-face of abutments, have an out-to-out width of 13.67 feet, and clearances as noted below. The proposed project aims to facilitate the connection of the Waterfront Trail and Black Diamond Trail as part of an overall effort to create over 120 miles of continuous pedestrian and biking trails as the Cayuga Lake Blueway Trail. Anticipated in-water work includes the installation of cofferdams and their dewatering to construct new abutments. Any in-water work performed during the navigation season would be coordinated with the Coast Guard. This project will be funded with approximately 80% federal funds and 20% local funds.

MINIMUM NAVIGATIONAL CLEARANCES:

The proposed new bridge will have clearances as described in the table below.

<table>
<thead>
<tr>
<th>Vertical</th>
<th>Proposed</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>8.70-feet at low steel with 9.70-feet available at the center</td>
</tr>
<tr>
<td>Horizontal</td>
<td>157.00-feet</td>
</tr>
</tbody>
</table>

Datum: All Elevations are referenced to Low Water Datum, Lake Erie, Elevation 380.84, International Great Lakes Datum of 1985 (IGLD 85).

ENVIRONMENTAL CONSIDERATIONS:

The Federal Highway Administration (FHWA) is the lead Federal agency for satisfying the requirements of the National Environmental Policy Act (NEPA). The FHWA is acting on behalf of the U.S. Coast Guard for all environmental control laws. A Categorical Exclusion was issued by FHWA on 21 March 2021, pursuant to NEPA, as amended. The U.S. Guard has tentatively determined that the proposed action will not have a significant impact for the purposes of NEPA.
A water quality certification in accordance with Section 401 of the Clean Water Act as amended is pending (Section 401 WQC). The City of Ithaca submitted a Joint Permit Application to the New York State Department of Environmental Conservation (NYSDEC) for a Section 401 WQC and the U.S. Army Corps of Engineers (USACE) for a determination under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act.

The City of Ithaca’s permit application indicates that the proposed bridge will not adversely affect any known wetland. The Coast Guard defers to USACE regarding wetlands impact determinations.

The proposed bridge will be located in a base floodplain. The 100-year flood elevation is 387.84 feet and the Low Water Datum is 382.84-feet. Elevation of the low member of the navigation span is 391.54 feet. Elevations are referenced to IGLD 85 datum. Approximately 450 cubic yards of fill material will be placed in the waterway to facilitate construction of the proposed abutments and bridge approaches.

The decision as to whether to grant approval of the location and plans for the proposed action rests primarily upon the effect it has on navigation.

SOLICITATION OF COMMENTS:

Mariners are requested to comment on the proposed navigation clearances, placement of a bridge protective system and other navigational safety issues, including need for clearance gauges and extent of nighttime navigation to determine the need for bridge lighting. Interested parties are requested to express their views, in writing, on the proposed bridge project including its possible impacts to navigation.

We will forward comments of an environmental nature such as those regarding wildlife refuges, public parks, historic sites, wetlands, floodplain issues, air, water quality, environmental justice, etc. to FHWA. Comments will be received for the record at the address noted in the header or via email to michael.o.walker2@uscg.mil through 06 May 2022.

Map of location and plans attached.

Cleveland, Ohio 44199
Hazardous Weather Outlook Extended to the Eastern Pacific Ocean

In coordination with the National Weather Service (NWS) and the National Hurricane Center (NHC), the US Coast Guard is pleased to announce the addition of a new Hazardous Weather Outlook (HWO) service that covers the Eastern Pacific Ocean. This service is available to all those who could benefit from advanced warning of hazardous weather in both coastal regions and open waters. As with the currently available Western Atlantic Hazardous Weather Outlook, Seven Day HWO’s will be released every Wednesday with additional Situational HWO’s issued as conditions require. The service will begin on April 6th of this year, however you can sign up in advance at any time.

In the recent past several maritime tragedies and “near misses” in the coastal waters of the United States have occurred due to hazardous weather, such as the sinking of the SS El Faro in 2015. Based on recommendations by the National Transportation Safety Board (NTSB), in cooperation with the NWS and the United States Coast Guard Navigation Center (NAVCEN), developing improved methods of delivering Marine Safety Information remain a top priority.

The NWS Ocean Prediction Center (OPC) and the NHC’s Tropical and Analysis Forecast Branch (TAFB) will be providing weekly and situational reports to the USCG, who will then be making this information available to the public. Through the free online subscription service, GovDelivery, which currently offers subscribers a wide array of Marine Safety Information such as Broadcast Notice to Mariners (BNMs) and Local Notice to Mariners (LNMs) provided through USCG NAVCEN, users will be able to register to receive Hazardous Weather Outlook reports giving forewarning of major weather events.

For subscribing to Eastern Pacific Hazardous Weather Outlook reports by E-mail:

For subscribing to Eastern Pacific Hazardous Weather Outlook reports by RSS Feed:
