The barge will monitor VHF-FM Marine Channel 16 and will move if a 2-hour advance notice is provided. [16/25]	Lat: 41° 53' 15" Lon: -087° 37' 41"
LAKE MICHIGAN - Chicago Harbor/General/Bridges/Public Notice	Bridges	IL – LAKE MICHIGAN – Chicago Harbor – Proposed Bridge Construction An application has been received by Commander, Ninth Coast Guard District, from the Chicago Department of Transportation (CDOT, hereinafter referred to as the "Applicant") for a United States Coast Guard Bridge Permit. The Applicant proposes to replace the Chicago Avenue, across the North Branch of the Chicago River, Mile 2.40, in Chicago, Cook County, Illinois. The Applicant proposes to replace the existing structure with a tensioned tied-arch movable structure. The proposed replacement would provide 20.67-feet of minimum vertical navigation clearance in the closed position and 40.00-feet of minimum vertical clearance in the open position. The proposed replacement would provide a horizontal clearance of 147.30-feet face-to-face of proposed steel pile dolphins with the center 135.00-feet as the navigation channel. The Applicant has also submitted applications for authorizations from the United States Army Corps of Engineers (USACE) under Section 404 of the Clean Water Act (33 USC 1344) and 33 USC 408. Consequently, both the Coast Guard and USACE issued a Joint Public Notice (JPN), dated 27 June 2025, describing the project and both agencies' relevant permits and approvals. A copy of the JPN is attached. Interested parties may also access the JPN at the following websites: <a href="https://www.navcen.uscg.gov/public-notice-for-bridges-active-by-district?district=9&amp;subdistrict=n">https://www.navcen.uscg.gov/public-notice-for-bridges-active-by-district?district=9&amp;subdistrict=n</a> and <a href="https://usace.contentdm.oclc.org/utis/getfile/collection/p16021coll15/id/10051">https://usace.contentdm.oclc.org/utis/getfile/collection/p16021coll15/id/10051</a> . The JPN may also be obtained by calling the Coast Guard District Bridge Branch at 216-902-6087, by writing to Commander, Ninth Coast Guard District (dpb), 1240 E. 9th St., Cleveland, OH 44199, or by email request to <a href="mailto:michael.o.walker2@uscg.mil">michael.o.walker2@uscg.mil</a> . Interested parties are requested to express their views, in writing, on the proposed bridge project including its possible impacts to the environment and navigation. Comments will be received for the record at the address given in JPN 09-02-25 through 27 July 2025. Comments of an environmental nature will be forwarded to the Lead Federal Agency for action.	Lat: 41° 53' 47" Lon: -087° 38' 39"
LAKE MICHIGAN - Chicago Harbor/General/Bridges/Public Notice	Bridges	IL – LAKE MICHIGAN – Chicago Harbor – Proposed Bridge Construction An application has been received by Commander, Ninth Coast Guard District, from the Chicago Department of Transportation (CDOT, hereinafter referred to as the "Applicant") for a United States Coast Guard Bridge Permit. The Applicant proposes to replace the Division Street Bridge, across the North Branch of the Chicago River, Mile 3.30, in Chicago, Cook County, Illinois. The Applicant proposes to replace the existing structure with a tensioned tied-arch movable structure. The proposed replacement would provide 19.34-feet of vertical navigation clearance in the closed position and 40.00-feet of vertical clearance in the open position. The proposed replacement would provide a horizontal clearance of 154.75-feet face-to-face of existing piers with 100.00-feet between dolphins normal to the axis of the channel as the navigation channel. The Applicant has also submitted applications for authorizations from the United States Army Corps of Engineers (USACE) under Section 404 of the Clean Water Act (33 USC 1344) and 33 USC 408. Consequently, both the Coast Guard and USACE issued a Joint Public Notice (JPN) describing the project and both agencies' relevant permits and approvals. A copy of the JPN is attached. Lake Erie - Cleveland Harbor/General/Safety Zones/Temporary Regulated Navigation Zones	Safety Zones	General/Safety Zones/Temporary Regulated Navigation Zones From: 2024-11-27 To: 2025-01-31 Location: 41.49337° N / 81.70403° W 41.49319° N / 81.7036° W 41.49207° N / 81.7041° W 41.49054° N / 81.70414° W 41.49006° N / 81.70375° W 41.48882° N / 81.70219° W 41.48858° N / 81.70092° W 41.48794° N / 81.70088° W 41.48811° N / 81.70186° W 41.48913° N / 81.70403° W 41.49014° N / 81.70504° W 41.49133° N / 81.70508° W 41.49337° N / 81.70403° W The Ninth Coast Guard District is issuing this Marine Safety Information Bulletin to bring awareness to the Irishtown Bend stabilization and rehabilitation project on the Cuyahoga River. Construction is intended to shore-up and replace approximately 2,400 linear feet of corrugated steel bulkhead located on the western (left descending) bank of the Cuyahoga River between the Detroit-Superior Bridge and the Columbus Road Bridge. The Captain of the Port Sector Eastern Great Lakes (COTP) has determined that potential hazards associated with the equipment used to complete this project would be a safety concern for any craft intending to navigate near the project area during construction hours. Furthermore, additional safety measures are necessary to keep workers on the construction barges safe while completing the construction project. Construction hours are from 7 a.m. each Tuesday through 7 a.m. each Thursday; during that time no vessel or craft is to be within 10 feet of the construction barges unless permitted by the COTP or a designated representative. This Regulated Navigation Area is in effect until the waterside portion of the work is complete.

WEST END OF LAKE ERIE - Detroit River/General/Bridges/Construction	Bridges	General/Bridges/Construction From: 2022-11-01 To: 2025-12-01 Location: 42.28885° N / 83.09742° W Bridge Name: Gordie Howe International Bridge From November 1, 2022, through December 1, 2024, contractors will be constructing the Gordie Howe International Bridge at mile 16.7 over the Detroit River. No equipment will be placed in the water. Overhead work will have temporary steady burning yellow lights to mark new construction. A moving platform with quick flashing red lights and orange or red ball fenders on the bottom four corners with a safety net that hangs approximately 15-feet below low steel will be constructing the bridge. Mariners should avoid passing directly under the platform at any time. Snooper type vehicles will be utilized on the bridge throughout construction. Spotters will warn of approaching vessels and move the man lift to allow vessels to pass. When construction is completed and all equipment removed, the final vertical clearances for the bridge will be 152-feet for the center 100-feet of the navigation channel. No less than 137-feet of vertical clearance will be available at the channel limits. Vertical clearances are based on IGLD85. NOTE: Over the water construction is basically complete and extensions to construction have been issued to accommodate demobilization of equipment.	Lat: 42° 17' 20" Lon: -083° 05' 51"

RAINY LAKE INTERNATIONAL FALLS TO DRYWEED ISLAND

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
RAINY LAKE DRYWEED ISLAND TO BIG ISLAND - RAINY LAKE INTERNATIONAL FALLS TO DRYWEED ISLAND/General/Bridges/Public Notice	Bridges	MN – LAKE SUPERIOR – Rainy River – Proposed Bridge Construction An application has been received by Commander, Ninth Coast Guard District, from Wisconsin Central, Limited (WCL), (hereinafter referred to as the “Applicants”) for a United States Coast Guard Bridge Permit. WCL proposes to replace the movable span of the Canadian National Railroad Bridge, across the Rainy River, Mile 85.0, between Rainier, Koochiching County, Minnesota and Fort Frances, Ontario, Canada. The proposed replacement would shift the navigable channel at the project location by approximately 15.00-feet. It would provide 11.00-feet of minimum vertical navigation clearance in the closed position and 84.00-feet of vertical clearance across a 90.00-feet wide navigation channel in the open position. The proposed replacement would provide a horizontal clearance of 125.00-feet face-to-face of the piers in the closed position, and 90.00-feet of horizontal navigation clearance in the open position. It will not result in a change to vertical or horizontal navigational clearances. WCL proposes the use of temporary structures to be used in the removal of the existing movable span and construction of the proposed movable replacement. Final dimensions of those proposed temporary structures have not been determined. Public Notice 09-02-25 dated 27 June 2025 contains a detailed description of the proposed bridge project including location maps and bridge drawings with navigational clearances. Interested parties may access the notice at the following website: Public <a href="https://www.navcen.uscg.gov/public-notice-for-bridges-active-by-district?district=9&amp;subdistrict=n">https://www.navcen.uscg.gov/public-notice-for-bridges-active-by-district?district=9&amp;subdistrict=n</a> . The public notice may also be obtained by calling the Coast Guard District Bridge Branch at 216-902-6087, by writing to Commander, Ninth Coast Guard District (dpb), 1240 E.. 9th St., Cleveland, OH 44199, or by email request to michael.o.walker2@uscg.mil. Interested parties are requested to express their views, in writing, on the proposed bridge project including its possible impacts to the environment and navigation. Comments will be received for the record at the address given in Public Notice 09-02-25 through 28 July 2025.	Lat: 48° 36' 54" Lon: -093° 21' 10"
