

Local Notice to Mariners for Southwest District 05/06/2026

Anaheim Bay

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Anaheim Bay/General/Bridges/Rehabilitation	Bridges	SOUTHERN CALIFORNIA-ANAHEIM BAY- ADMIRALTY DRIVE BRIDGE: Rehabilitation work is continuing on the bridge. The use of scaffolding, and floating work platforms moored at piers, will reduce the vertical clearance by 4ft and limit the horizontal clearance to 37ft. Mariners are requested to transit the area with caution. For more information, contact the Coast Guard Bridge at 571-607-2206 or by email at D11Bridges@uscg.mil.	Lat: 33° 43' 18" Lon: -118° 04' 20"
San Pedro Bay - Anaheim Bay/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	The U.S Coast Guard has received a report of shoaling in the vicinity of Anaheim Bay Channel's East and West Jetty Lights. All vessels with a draft of 31 ft or greater are cautioned to remain in the center of the channel during tides of less than +1 ft tide. Risk of grounding exists on the sides of the channel during tides of -0 ft. All mariners are advised to transit the area with caution. Direct all questions and concerns to d11-smb-sector1alb-wwm@uscg.mil.

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting Marine construction in the vicinity of Vallejo, California within the California State University Maritime Academy Boat Basin. The initiation of waterside operations for this project will entail the deployment of multiple crane barges secured by both anchors and spuds, along with a continuous rotation of material supply barges, tug tenders, "Linda T" workboat, and various small skiffs. Activities are scheduled to commence as early as September 12, 2025 to December 2027. Beginning with the mobilization of Crane Barge Kelso ("CB Kelso") and EM1106 ("Morty") barge fitted with appropriately sized crawler cranes. The designated vessels will be monitoring VHF-FM channels 9 & 16, with the working channels 68A or 80. All mariners are advised to use caution when transiting the area, for more information contact: Scott 707-333-5029	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Dutra will be conducting marine construction operations on the ASR Crockett Accelerated Dock Repairs project from 20 February 2026 thru 30 June 2026, located along the Carquinez Strait, East of the Carquinez Bridge. The emergency repairs include selective demolition of a deficient timber pile-supported wharf for the installation of a new replacement steel pile supported mooring dolphin installing pipe piles with both vibratory and impact hammers. The Crane Barge Kelso and/or TM-20 crane barge, barge-mounted 230-ton crawler crane, "Linda T" work boat, supporting tugboats, material supply barges, and miscellaneous work skiffs. All moorings, and maneuvering of marine assets and supporting material barges will primarily be geographically bounded by coordinates: 38° 3'31.36"N, 122°13'6.04"W 38° 3'31.10"N, 122°13'0.75"W 38° 3'27.21"N, 122°13'1.43"W 38° 3'27.41"N, 122°13'6.15"W Crane barges will be spudded in with flashers on all corners, along with all other marine equipment. The designated crane barge and work boat will monitor VHF-FM Chan. 9 & 16, working channel 78 or 80. Mariners are urged to transit at their slowest safe speed to minimize wakes. For more details or comments, contact Dutra at (707) 333-5029.	

San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting wharf demolition operations at CSUMA in Vallejo, California. The scope of work includes removal and demolition of wharf structures using multiple vessels. Operations are scheduled to take place from April 27, 2026, through July 3, 2026. Vessels involved in the operation include: Little Cindy (Call Sign: Little Cindy) Crane Barge 2 (Call Sign: CB2) All vessels will monitor VHF-FM radio frequencies 13 and 14 when near deep-draft traffic, and channel 16 when not near deep-draft traffic. The area of operation is centered at approximately 38.06554° N, -122.23007° W. For additional information, please contact Matt Bramlett at (925) 818-2324 or Mbramlett@silveradocontractors.com. All mariners are advised to transit the area with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Humboldt Bay, Submerged Land Act (SLA) - Humboldt Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Corps of Engineers will be conducting dredging operations from approximately 20 April 2026 through 22 May 2026 in the Federally authorized Navigation Channels. The Government Hopper Dredge "Essayons" will be performing annual maintenance dredging on the Bar & Entrance. The "Yaquina" will be working in Interior Channels, which include North Bay. Disposal will be at the designated Humboldt Open Ocean Disposal Site (HOODS) and Humboldt Nearshore Placement Study Area (HNPSA). Mariners are advised to use caution when transiting the area of operation. VHF-FM Channel 16 will be continuously monitored. For specific information, contact the "Yaquina's" Master at (503) 808-4458 or (503) 808-4929. Consult current version of chart # 18622; Contact the "Essayons" Master at (503) 808-5035 or (503) 808-4990. Consult current version of charts # 18650, 18655, and 18656.	

Long Beach Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Submerged Land Act (SLA) - Long Beach Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Pacific Dredge & Construction will be performing dredging operations in the Port of Long Beach Harbor. The scope of operations includes dredging alongside Pier T, between Berths T132 to T140, with sediment placed onto a split hull scow with a 2,000 cubic yard capacity. Loaded barges will transit via tugboat to the Pier G Slip Fill area for offloading. Operations are scheduled to commence on or around January 19, 2026, and are anticipated to be completed and demobilized by May 15, 2026. Work may be conducted 24 hours a day, Monday through Sunday. Dredging activities will be conducted at approximately 33.75329° N, -118.23455° W at Pier T, with offloading at Pier G Slip Fill at approximately 33.74304° N, -118.19824° W. Please refer to chart 18022 for the area of operation. Equipment involved in the project includes: Dredge "PDC 180" (180' x 50') – VHF Channels 6 & 16 Ocean Tugboat "Bass" (64' x 26') – VHF Channels 6 & 16 Harbor Boat "Spence" (23' x 14') – VHF Channels 6 & 16 2002 Scow (200' x 42') Points of contact for this project are: Dan Contreras, Superintendent: 626-419-0812 Matt MacArthur, Project Manager: 951-541-6941 All mariners are advised to transit the area with caution.	

Los Angeles Approach Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Submerged Land Act (SLA) - Los Angeles Approach Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra group will conduct dredging operations for the MC-5 project at the Port of Long Beach, utilizing the crane barge "MORTY", disposal scows "PDC-2001" and "KS-10", towboat "LASSSEN", and anchor boat "Becky T". Operations will run 24 hours a day, 7 days a week, spanning a 25 to 30-calendar day period from May 2, 2026, to May 30, 2026. The equipment will be operating within Anchorage Bravo 11, located at approximately 33.7290° N, 118.2047° W, and referencing NOAA chart 18749. All involved equipment will monitor VHF Channels 13, 16, and working channel 78. For more information please contact Captain Craig Haufler at 925.953.3290 (chaufler@dutragroup.com), Project Manager Ryan Swink at 628.888.4304 (rswink@dutragroup.com), or Project Manager Joshua Cooper at 415.246.7322 (jcooper@dutragroup.com). All mariners are advised to transit the area with caution.	
Sector Los Angeles, Submerged Land Act (SLA) - Los Angeles Approach Channel/General/Marine Events/Regatta (Race)	Marine Events	Cabrillo Beach Yacht Club will be conducting the Around Catalina to Dana Point sailing vessel regatta from May 23 to May 24, 2026, between 11 a.m. and 1 p.m. Approximately 35 sailing vessels will depart Los Angeles Harbor, proceed across the San Pedro Channel to Catalina Island, and finish in Dana Point, California. Operations will begin at position 33.718°N, 118.23°W and end at position 33.449°N, 117.705°W. For more information, please contact Jonathan Mitsumori at (310) 570-7548. All mariners are advised to transit the area with caution	

Los Angeles East Basin Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Los Angeles Main Channel - Los Angeles East Basin Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	JILK Heavy Construction will conduct timber pile installation that will be conducted as part of the Berths 187, 188, 189 & 190, located in Wilmington, CA from 23 March 2026 thru 26 October 2026. Jilk Heavy Construction's 60'x70' Flexi-Float mounted barge crane will be located at various points along berths 187 thru 190 and will be moored with the use of spuds. Alongside there will be several 18' work skiffs. The operations during this project will include the removal and reinstallation of timber piles, steel pile and concrete repairs. (general area bound by the following waypoints): 33.76401 -118.26001 This work will be conducted during daylight hours Monday through Friday. Crews will work various hours between 6:00 am and 6:00 pm on those days. All floating and water-based equipment will monitor VHF-FM channel 16 during working shifts. Mariners are advised to use caution when transiting the area. For further comments or details the General Superintendent Joe Salgado can be reached at (310) 505-0142 or Barge Forman Joe Carrico at (310) 505-7346 and will be available to address any questions or concerns regarding the on-site operations.	

Los Angeles Main Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Los Angeles Approach Channel - Los Angeles Main Channel/General/Bridges/Rehabilitation	Bridges	SOUTHERN CALIFORNIA-LOS ANGELES/LONG BEACH HARBOR-VINCENT THOMAS BRIDGE The temporary protective shield platform reached the center 500-foot navigation span from the west side on April 29, 2026. Installation from the east side is anticipated to reach the center 500-foot navigation span during the week of May 4, 2026. The temporary shield reduces vertical clearance in the channel by no more than 2.5 feet and will be in place through February or March 2029. The bridge's air gap sensor will remain operational and the green center channel lights and the red channel margin lights will remain visible. The "VINCENT THOMAS SAFETY BOAT" will be on scene during shield installation and may be contacted via VHF Channels 16, 13, and 73. For further information, contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or phone at 571-607-2206.	Lat: 33° 44' 59" Lon: -118° 16' 17"

Los Angeles Outer Harbor

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Los Angeles Main Channel - Los Angeles Outer Harbor/General/Marine Events/Regatta (Race)	Marine Events	The Cabrillo Beach Yacht Club will be sponsoring the Wet Wednesday Regatta Series, taking place every Wednesday between April 1 – September 30, 2026, from 6 p.m. to 8 p.m. each day. 35 sailing vessels 20-40 feet in length will be racing on a course in Los Angeles Harbor, CA, between Angels Gate (33.712° N 118.256° W), Queens Gate, and Cabrillo Marina. For more details or comments, contact Jonathan Mitsumori at (310) 831-4757. All mariners are advised to transit with caution.	

Lower Old River

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Lower Old River/General/Bridges/Maintenance	Bridges	NORTHERN CALIFORNIA-OLD RIVER-STATE ROUTE 4 BRIDGE-The swing span of the bridge will be secured in the closed-to-navigation position from 7 am on January 25, 2026 through 7 am July 24, 2026 for maintenance and rehabilitation. Temporary scaffolding will be installed beneath the swing span, reducing vertical clearance by 4', to facilitate work. A 30' channel will be maintained at all times with no reduction in vertical clearance. A 110' X 40' crane barge will be anchored at the bridge during the work. A 18' X 6' work skiff will be used in various locations around the bridge. The lower edges of the upriver and downriver scaffolding will be lighted at night with steady burning red lights visible at 2,000 yards by approaching vessels. The 30' channel will provide 12' vertical clearance at mean high water when the swing span is in the closed position. For on-scene conditions, contact the contractor at 415-672-9350 or 408-605-2892. For further information, contact the Coast Guard Bridge Office at 571-607-2207.	Lat: 37° 53' 27" Lon: -121° 34' 12"

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector San Francisco, Submerged Land Act (SLA) - Monterey/General/Miscellaneous	Miscellaneous	The Monterey Bay Aquarium Research Institute (MBARI) will be conducting autonomous, unmanned maritime vehicle operations using two Liquid Robotics, Inc. Wave Gliders in Monterey Bay. The scope of operations includes continuous scientific ocean data collection utilizing Wave Gliders remotely attended from MBARI. Operations are scheduled to take place 24 hours a day, seven days a week, from January 12, 2026, through December 31, 2026. Wave Glider vehicles will be deployed in the vicinity of Moss Landing and will operate continuously between latitudes 36.30000° N and 37.20000° N, extending shoreward from as far west as -122.97650° W. Each Wave Glider is approximately 8 feet by 2 feet (surfboard size), yellow/copper in color, with a contact plaque and a mast extending 1 meter above the water surface supporting a flag. The vehicles are wave-powered, carry no fuel, lubricants, or hydrocarbons, move at speeds of approximately 1 knot, and are designed to give way or part if encountered by a vessel. All mariners are advised to transit the area with caution. For further information, please contact MBARI at 831-775-1700 or waveglider@listserver.mbari.org, or Liquid Robotics 24/7 WGOE Operations at 888-574-4574 or +1 408-636-4205.

Newport Bay.

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	R.E. Staitte Engineering, Inc. will conduct dredging operations within Newport Bay Harbor, California. The scope of operations includes dredging activities with disposal occurring at the LA-3 Ocean Dredged Material Disposal Site and the Port of Long Beach Pier G facility. Pre-dredge surveying and diving operations began on October 23, 2025, and are ongoing. Equipment mobilization is scheduled to start on December 8, 2025, with dredging expected to commence on or about December 10, 2025. Equipment demobilization is anticipated to be completed by October 28, 2026. The center of the dredging area is located at coordinates 33.60898° N, -117.90689° W (degree decimal format) and is referenced on NOAA Chart No. 18754. A temporary mooring buoy will be placed on a rotating basis at one of three locations: 33.61126° N, -117.90715° W 33.60857° N, -117.91713° W 33.60733° N, -117.91232° W Vessels involved in the project include the DB Point Loma, Jeanie R push boat, John Drake work boat, RES Survey Boat, Tug Killeen, Tug Sagittarian, and disposal scows Rob P. and Mike J. All equipment will monitor VHF-FM Channel 16. Mariners are advised to stay at least 300 feet away from equipment, transit at their slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made. For additional information, please contact: Dalton Elzey, R.E. Staitte Engineering, Inc.: 925-822-6775 Jose Rocha, U.S. Army Corps of Engineers: 909-253-9921	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The City of Newport Beach Harbor Department will temporarily close the public East Anchorage, bounded by the four indicator buoys in the Five Points area of Newport Harbor, to support the ongoing large-scale Army Corps of Engineers dredge operation. The closure will be effective from February 1, 2026, and will remain in place until dredge operations in the area are complete (approximately six months). The closed anchorage is located at approximately 33.60868° N, -117.90959° W. Large-scale dredge equipment will be operating and transiting the area and adjacent channels continually until the permitted project is complete. An alternative public anchorage is available in the West Turning Basin of Newport Harbor during this period of closure. The Harbor Department can be reached on VHF Channel 17 or via phone at 949-270-8159 before, during, and after the dredge operation. All mariners are requested to use the alternative anchorage and transit the area with caution.	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Orange County Sanitation District will be conducting construction activities for dual 24-inch wastewater force mains beneath Lower Newport Bay in Newport Beach, California, utilizing microtunneling from May 21 to June 30, 2026. Operations will occur at position 33.616228°N, -117.904675°W. No marine vessels will be involved, and no hazards to navigation are anticipated under normal conditions. For more information, please contact the 24-Hour Orange County Sanitation District Control Center at (714) 593-7025, Cindy Murra at (714) 293-6220, or Jenna Torres at (657) 537-3513. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Miscellaneous	Miscellaneous	The City of Newport Beach Harbor Department will temporarily relocate eight moorings from the western end of the F Mooring Field to the east end of the H Mooring Field to accommodate barge and scow traffic associated with the ongoing large-scale Army Corps of Engineers dredge operation. The temporary relocation will be effective from March 5, 2026, and will remain in place until dredge operations are complete, approximately May 31, 2026. The relocated moorings are positioned at approximately 33.60941° N, -117.91679° W, adjacent to a speed restriction regulatory buoy near the east end of the F Mooring Field. The buoy is equipped with a white light, emitting a constant signal from sunset to sunrise to highlight the temporary mooring can placements. Please refer to Chart 18754 for the area of operation. Large-scale dredge equipment will be operating and transiting the area and adjacent channels continually until the permitted project is complete. The Harbor Department can be reached on VHF Channel 17 or via phone at 949-270-8159 before, during, and after the dredge operation. All mariners are requested to keep a sharp lookout for these temporarily relocated moorings and transit the area with caution.

San Francisco Oakland Bay Bridge West Crossing - Oakland Inner Harbor/General/Bridges/Lighting and Other Signals	Bridges	NORTHERN CALIFORNIA-OAKLAND INNER HARBOR-FRUITVALE AVE RAIL BRIDGE-The lift span of the rail bridge is kept in the partially opened position providing 80 feet of vertical clearance at mean high water. The lift span can be raised to its fully open position upon request to the drawtender at the Miller Sweeny (Fruitvale Ave) bridge. The following is the new navigation lighting configuration at the rail bridge. 1. When the bascule span of the highway bridge is in the closed-to-navigation position and the lift span of the railroad bridge is in the partially open position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show a red 180-degree center span light on the upstream and downstream lower edge of the span. 2. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the partially opened position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show one solid 360-degree green light and one flashing 360-green light on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. 3. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the fully opened position, providing 135 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show two solid 360-degree green lights on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. is scheduled to be conducting marine construction to repair and replace the existing Pier 302 and the installation of a new jib crane at Naval Base Pt. Loma, San Diego. Operations will commence on or around April 1, 2026, and will continue through June 30, 2026. Project activities are centered at approximately 32°42'08" N, 117°14'09" W, referenced on NOAA Chart Number 18773, San Diego Bay. Vessels involved include DB Point Loma, DB William F, RES 180, Spud/Crane Barge, Support Barge Res 110, push boat Jeanie R, crew boat John Drake and skiff. All equipment will monitor VHF radio Channel 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For additional information, please contact: R.E. Staite at 619-233-0178	

Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Boat Parade	Marine Events	Safe Harbor Sunroad Marina will create a temporary display of 125 to 175 vessels across aisles K, L, and M. The scope of operations includes the installation of temporary docks (10' x 20') made of high-grade aluminum, which will connect directly to the existing marina without the need for an anchoring system. Safety measures include a 30-foot fire lane and 14 operational fire pumps along the docks for emergency response. In-water fabrication and installation of the planned dock design will begin on June 8, 2026, and will be completed by June 17, 2026. The event dates for the vessel display are June 11–14, 2026. Immediately after the boat show ends, fire lanes will be reopened, docks will be removed, exhibitor boats will exit, and marina tenants will return. Docks will be transported back to the splash out location and removed in the same manner as installation. The operation will take place at Safe Harbor Sunroad Marina Docks K, L, & M, located at approximately 32.72644° N, -117.18881° W (degree decimal format). Multiple vessels will be docked on Docks K, L, & M within Safe Harbor Sunroad Marina. Vessels on scene will monitor VHF Channel 68. For additional information or 24-hour contact, please reach Bernard Kida at 323-252-0539. All mariners are advised to transit the area with caution.
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	The Cortez Racing Association will be sponsoring the Opening Day Regatta marine event on May 9, 2026, from 11 a.m. to 5 p.m. The event will involve 50 sailing vessels racing on a course going through the San Diego Bay starting and ending in the vicinity of the ½ mile marker on Harbor Island. Mariners are advised to exercise caution while transiting the event areas. For more details or comments, contact Toralf Strand at 603-918-8060.
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	Cortez Racing Association will be conducting the Beer Can marine event from May 20 to July 29, 2026, every Wednesday between 17:00 and 20:00(local). The event will involve 110 sailing vessels racing on a course starting at the south end of Harbor Island, proceeding through San Diego Bay, and finishing near Harbor Island at position 32.725°N, -117.212°W. For more information, please contact Toralf Strand at 603-918-8060. All mariners are advised to transit the area with caution.
Approaches To San Diego Bay - San Diego Bay/General/Miscellaneous	Miscellaneous	Saildrone Inc. will be conducting operations with up to eight Uncrewed Surface Vehicles (USVs), known as "SAILDRONE VOYAGER," from March 1, 2026, through May 30, 2026. The scope of operations includes deployment of USVs predominantly offshore from Pt Arguello down through San Diego, with servicing possible in major ports and harbors as far north as Morro Bay and as far south as San Diego. Each SAILDRONE VOYAGER is 33 feet in length, 19 feet tall, gray in color, equipped with a tricolor light on the top wing, and marked "SAILDRONE." Mariners are requested to maintain a 500-meter closest point of approach (CPA) from the vehicle. For additional information, please contact Saildrone Mission Control at missioncontrol@saildrone.com or 510-722-6060. All mariners are advised to transit the area with caution.

Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Manson Construction Co. will be conducting clamshell dredging operations for the Oakland Inner & Outer Harbor Channel FY25 Maintenance Dredging project (Contract No. W912P726CA006), sponsored by the US Army Corps of Engineers, San Francisco District. The scope of operations includes dredging the Oakland Inner Harbor Channel from station 0+00 to 244+00 and the Oakland Outer Harbor Channel from station 0+00 to 134+00, with upland sediment disposal at the Montezuma Wetlands via unloader. Dredging operations are scheduled to begin on or about January 12, 2026, and are expected to be completed by July 31, 2026. The dredging will occur within the Oakland Inner and Outer Harbor Channels, with placement at the Montezuma Unloader in Collinsville, CA. This project is referenced on NOAA ENC Chart Number US5CA13M. All mariners are advised to transit the area with caution. For additional information, please contact Manson Construction Co. at (510) 232-6319.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Marinship Development will commence dredging operations for the San Francisco Marina West Basin, City and County of San Francisco. The scope of operations includes dredging activities west of the marina entrance, centered at approximately 37.80889° N, -122.43998° W Operations are scheduled to begin on or about March 20, 2026, and will continue through November 30, 2026. Vessels involved in the project include the self-contained dredge/dump barges "DB2" and "Alaska," and tugboat "Harvey." All vessels will monitor VHF channels 13, 14, and 77. For more information regarding the operation, please contact: 415-601-1024. All mariners are advised to use extreme caution when transiting these areas.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Power Engineering Construction Co. will be conducting construction operations in the vicinity of Pier 45 and Pier 43.5, San Francisco. The scope of operations includes work with derrick barge DB Pacific and miscellaneous material barges, which will be spudded down at the site. Operations are scheduled to take place from April 6, 2026, through June 15, 2026, Monday through Friday, from 0600 to 1800 hours. The project location is centered at approximately 37.80981° N, -122.41589° W. All vessels and equipment on site will monitor VHF-FM Channels 69 and 71. All mariners are advised to use caution when transiting the area. For further comments or details, please contact Bennett Clegg at (415) 559-0089.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Sevenson Environmental Services and PGE will be conducting environmental dredging and installing steel piles from 19 May, 2026 - 30 November, 2026. Operation times will be five to six days per week, with hours of operations 5am to 7pm(local). This operation will include the use the following vessels and equipment: 40x80 PC650-01, 40x80 PC650-02, Crane Barge MICHEAL LIND, Staging barge STELLA LIND, Tug CASSIE LIND, Tug ARCHIE LIND, SEVENSON 01 and 02 work boats. The project location is centered at approximately at the San Francisco Pier 41 to Pier 43, in position: 37°48'35.20"N; 122°24'46.41"W. All vessels and equipment on site will monitor VHF-FM Channels 13, 14 and operating on 11. All mariners are advised to use caution when transiting the area. For further comments or details, please contact SEVENSON ENVIROMENTAL project manager at (716) 807-1937. Alternate contacts: Jake Wood (607) 794-1654 and Terry Templeton (716) 476-6790.	

Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Dutra Group will conduct dredging operations at the San Francisco West Marina Basin from approximately April 28, 2026, to June 30, 2026. Operations will take place at position 37.807253, -122.442903. The clamshell dredge DB 24 or Beaver will be used, supported by a scow fleet of three split hull disposal scows with capacities of 2,000 and 3,000 cubic yards. The tow tug Sarah Reed or similar will serve during disposal operations, with material disposed of at the San Rafael Rock Quarry. Additional support will be provided by the tender tug Becky T or Phyllis T. All equipment will monitor VHF-FM channels 13, 14, and 80A; the tow tug will use call sign KX7468. For more information, please contact Mr. Dennis Salyers at (415) 497-5289 or (415) 450-7426. All mariners are advised to transit the area with caution.	
Golden Gate Bridge - San Francisco Bay/General/Miscellaneous	Miscellaneous	The Coast Guard has received a report that all of the moorings in San Francisco Anchorage 6 are off station and unlit. Mariners are requested to transit San Francisco Anchorage 6 with caution.

San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-SAN FRANCISCO BAY-WEST SPAN SAN FRANCISCO/OAKLAND BAY BRIDGE-Caltrans is conducting expansion joint rehabilitation on the lower deck of the bridge. This work will require a temporary platform to be erected below low steel, reducing vertical clearance by approximately 2.8 feet. During the installation of the temporary platform, equipment use will temporarily reduce vertical clearance by 15 feet. The temporary platforms will not obstruct the operation of the Air Gap Sensor, the navigation lights, fog signal or RACONS. Work will be conducted Monday through Saturday morning 8 pm to 7 am, with occasional work on Sunday nights, July 28, 2025 through June 1, 2026. The underdeck temporary platforms will be installed in phases as follows; Phase 1: From pier "F" (W7) to ~385 feet east of pier "D" (W5) from July 28, 2025 through November 20, 2025; Phase 2: From ~385 feet east of pier "D" (W5) to pier "B" (W3) from November 24, 2025 through February 25, 2026; Phase 3: From pier "B" (W3) to pier "A" (W2) from March 15, 2026 through June 30, 2026. During Phase 3 a 14-foot long temporary platform will be installed midspan at span C-D (W4-W5). This platform will block the signal from RACON Bravo and reduce the vertical clearance of that bridge span by no more than 4 feet. For conditions at the bridge, mariners can contact the contractor at 925-202-5328. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or by telephone at 571-607-5820.	Lat: 37° 47' 57" Lon: -122° 22' 36"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Power Engineering Construction Co. will conduct pile removal operations for the Blue & Gold Fleet at Pier 41, San Francisco, from May 4, 2026, through May 29, 2026. Work will occur Monday through Friday from 0600 to 1800 in the vicinity of Pier 41 at position 37.809694, -122.412583. Operations will utilize derrick barge DB Alameda and miscellaneous material barges, with the barge spudded down during work. All vessels and equipment on site will monitor VHF-FM channels 69 and 71. For more information, please contact Bennett Clegg at (415) 559-0089. All mariners are advised to transit the area with caution.

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	Gregg Drilling and Testing will be conducting drilling operations in the vicinity of Long Beach Outer Harbor Anchorage B. The scope of operations includes drill activities performed by the R/V QUIN DELTA. Operations are scheduled to take place from April 20, 2026, through July 10, 2026. Drilling activities will occur at approximately 33.72940° N, -118.21522° W, referenced on Charts 18751 and 18749. The R/V QUIN DELTA will be on scene and monitoring VHF-FM Channels 16, 13, and 74. All mariners are advised to use caution when transiting the area. For further comments or details, please contact Captain Tim O'Donnell at (949) 254-5190 or BEARatSEA@gmail.com.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Cabrillo Beach Yacht Club will be sponsoring the Foiling Regatta series on March 28, April 18, and August 22, 2026, from 1 p.m. to 5 p.m. each day. Approximately twenty 10-foot sailing vessels will be racing on a course offshore of Los Angeles Harbor, between Pt. Fermin and Cabrillo Beach. Mariners are requested to transit the event area with caution. For more details or comments, contact Jonathan Mitsumori at (310) 831-4757. LOCATION: 33.704° N, 118.286° W
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Santa Barbara Outrigger Canoe Club will be sponsoring the Santa Barbara Rig Run Race in the Santa Barbara Channel. The scope of operations includes approximately 210 six-man outrigger canoes racing in three separate events, with short (5-mile) and long (10-12 mile) courses. All races will begin and end in the vicinity of Leadbetter Beach, proceeding west along a triangular-shaped course. The event is scheduled to take place on May 16, 2026, from 8:00 a.m. to 3:00 p.m. Race activities will be centered at approximately 34.392° N, -119.692° W. All mariners are advised to transit the area with caution when in the vicinity of event participants. For more details or comments, please contact Serena Pfister at (805) 717-1345.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Swim	Marine Events	Nite Moves will be conducting a swim event offshore of Santa Barbara, California, every Wednesday from May 20 to August 26, 2026, between 6:30 p.m. and 8 p.m. Approximately 50 participants will swim a 1000-meter course offshore of Leadbetter Beach at position 34.4°N, 119.698°W. For more information, please contact Jay Campbell at (805) 705-5676. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Fathomwerx Proving Ground (FPG) will be conducting unmanned vessel operations in the Santa Barbara Channel. The scope of operations includes daily exercises involving approximately 12 vessels, supported by the FPG Support perimeter security vessel. Operations are scheduled to take place daily from: May 4 to May 8, 2026 May 11 to May 15, 2026 May 18 to May 22, 2026 May 26 to May 29, 2026 between 0700 and 1900 hours. The operating area will be confined to a 5x5 nautical mile box defined by the following corner coordinates: N1: 34.31478° N, -119.41681° W N2: 34.25559° N, -119.31968° W N3: 34.17480° N, -119.39084° W N4: 34.23406° N, -119.48813° W This operation is referenced on Chart US3CA69M. All vessels will monitor VHF Channel 16 (hail "FPG Support Vessel Water Lead"). For additional information, mariners may contact FPG at 805-837-7468. All mariners are advised to transit the area with caution and maintain a safe distance from the testing area and the FPG Support perimeter security vessel.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The Defense Advanced Research Projects Agency (DARPA) will be conducting unmanned surface vessel operations from 17-19 February 2026, in the vicinity of: 33.7500N -118.5000W 33.6667N -118.2500W All Mariners are advised to transit the area with caution. All concerned traffic can contact Melissa C. on VHS channels 16 or 13.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Aqueos Corporation will conduct ROV (Remotely Operated Vehicle) operations using the Motor Vessel JAB (official number 1229272; MMSI# 338219566) in live boat mode during daylight hours from approximately April 28, 2026, to May 4, 2026. Operations will take place at the Orange County Sanitation District Outfall at position 33.6115781, -117.969012. The vessel will monitor VHF-FM channel 16 and can be reached at (805) 746-4242. For more information, please contact (805) 205-3156. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Aqueos Corporation will conduct diving operations on the Orange County Sanitation District Outfall Structures off Huntington Beach beginning on or about May 5, 2026, for a duration of 14 to 21 days. Operations will occur at position 33.6115781, -117.969012. The Motor Vessel Danny C (official number 506332; call sign WBE 8593) will be in a 3-point anchor set using divers to complete work, with MV JAB acting as anchor assist and patrol. Operations will be conducted during daylight hours, with vessels either staying moored overnight or transiting into port daily. The vessels will monitor VHF-FM channel 16 and can be reached at (805) 895-9005. For more information, please contact (805) 895-9005. All mariners are advised to transit the area with caution.

Sector Los Angeles, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	EGS Group will be conducting 24/7 cable route survey operations for a proposed undersea telecommunications cable in US Pacific coastal and marine waters. The scope of operations includes stern deployment of a sonar towfish tethered with steel cable at varying water depths to collect geophysical and bathymetric mapping data. The towfish towing wire layback will be three times the water depth behind the vessel stern, with a maximum tow operation depth of 1,200 meters. The sonar sensor will be towed approximately 20–40 meters from the seafloor within a 250-meter-wide survey corridor centered on the survey centerline. Survey operations are scheduled to take place from April 10, 2026, through May 10, 2026. Survey activities will occur between approximately 33.72460° N, -118.49966° W and 33.29490° N, -117.90611° W. The R/V Bold Explorer will monitor VHF Channels 16 and 13 throughout the operation. For additional information or 24-hour contact, please reach the Survey Party Chief/Bridge at +1-929-481-5774. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Systems and Technology Research will deploy an underwater sensor to record oceanographic data at position 33.375000, -117.683333 from May 31, 2026, to June 14, 2026. The sensor will be moored to the bottom, with the shallowest part located 100 feet below the surface and no part of the system reaching the surface. For more information, please contact: 703-718-4254. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea/General/Miscellaneous	Miscellaneous	American Marine, Corp. will be conducting autonomous, unmanned surface vessel operations with USX-1 Defiant. The scope of operations includes autonomy testing of USX-1 during daylight hours, seven days a week, from April 1, 2026, through May 20, 2026. USX-1 and the American Marine, Corp. chase vessel will depart Long Beach Harbor and operate west of Long Beach and north of Santa Catalina Island. Operations will be centered along a 30 nautical mile line from 33.50000° N, -118.33333° W to 33.66667° N, -119.00000° W (degree decimal format). USX-1 is approximately 180 feet in length, gray in color, and will be operating at speeds between 2 and 14 knots. USX-1 is designed to conform to COLREGS when encountering other maritime traffic. Mariners may contact American Marine, Corp. on VHF Channel 16 or Channel 14 for additional information or concerns. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea/General/Miscellaneous	Miscellaneous	SAILDRONE, INC. is deploying the Uncrewed Surface Vehicle (USV) Saildrone SD-3001, a Surveyor class vehicle, on or after 17 APR. SAILDRONE Surveyors are 65 ft in length, 49 ft tall, gray in color, and equipped with a marine Radar, camera, AIS, navigation lights, dayshapes, VHF, and horn. The USV may operate for 24 hours offshore San Francisco Bay before making a continuous transit south toward southern California, remaining west of the Channel Islands, with a final destination in Ensenada, MX. Mariners are requested to remain greater than 500 meters away from the vehicle. Questions regarding this notice can be directed to Saildrone Mission Control at missioncontrol@saildrone.com or via phone at +1-510-722-6070."
Sector Los Angeles, Territorial Sea/General/Miscellaneous	Miscellaneous	TGS will be conducting recovery operations for two yellow 4m x 4m lighted research buoys (FI Y 4s), named TGS Lighted Research Buoy (LLNR 250) and TGS Lighted Research Buoy North (LLNR 250.5). The buoys are located approximately 28 nautical miles west and 22 nautical miles west-northwest of Point Piedras Blancas at the following coordinates: 35.429° N, -121.7746° W 35.528° N, -121.6937° W Operations are scheduled to take place from May 8, 2026, through June 5, 2026. The Offshore Support Vessel (OSV) CLEAN OCEAN will be conducting the recovery and will monitor VHF-FM Channels 13 and 16 during operations. All mariners are requested to transit the area with caution during recovery activities. For concerns or additional information, please contact Scott Eichelberger at 206-331-5558.
Sector Los Angeles, Territorial Sea/General/Naval Activity/Military Operations	Naval Activity	The US Navy will conduct submerged gear operations with Motor Vessel Independence off the coast of California from May 6, 2026, to May 8, 2026. Operations will occur within 0.25 nautical miles of the following positions: 33.8191, -119.6205; 33.8416, -119.0833; and 33.6967, -119.0748, between approximately 0630 and 2030 local Pacific time. M/V Independence will monitor VHF-FM channels 16 and 13 during these operations. For more information, please contact LT Pete Schmillen at (805) 982-1185. All mariners are advised to transit the area with caution.

Sector San Diego, Exclusive Economic Zone (EEZ)/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	The National Marine Fisheries Service (NMFS) has implemented inseason actions affecting commercial and recreational salmon fisheries south of Cape Falcon within the California Exclusive Economic Zone (EEZ). The scope of operations includes both commercial and recreational fishing activities, with all permitted salmon vessels involved. Duration and Area of Operations: Effective 12:01 a.m., April 13, 2026: The ocean salmon recreational fishery between Pigeon Point, CA and the U.S./Mexico border (Monterey management area) is subject to an area-specific harvest guideline of 21,800 Chinook salmon. Effective 12:01 a.m., May 1, 2026: The ocean salmon commercial troll fishery from the Oregon/California border to latitude 40.16667° N (California Klamath Management Zone) is closed. Effective 12:01 a.m., May 7–8, 2026, and May 14–15, 2026: The ocean salmon commercial troll fishery from Point Arena, CA to Pigeon Point, CA (San Francisco management area) and from Pigeon Point, CA to the U.S./Mexico border (Monterey Management Area) is closed. For open dates and areas south of Point Arena, the harvest limit is 83,000 Chinook. Landing limit of 160 Chinook per vessel per open period, applied across the combined management areas south of Point Arena. Possession limit of 160 Chinook. All salmon caught in this area must be landed south of 40.16667° N within 24 hours of any closure of the fishery. Effective 12:01 a.m., May 1–15, 2026: The commercial troll fishery in the area from Humbug Mountain to the Oregon/California border (Oregon Klamath Management Zone) is closed. Vessels and Communication: All permitted commercial and recreational salmon vessels are involved in these operations and will monitor VHF-FM Channel 16. Point of Contact: For further information, please contact Shannon Penna, NMFS, at 562-980-4239 (24-hour phone). All mariners are advised to transit the area with caution and comply with all fishery closures and limits as specified.

Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Rock barrier construction will be conducted in the channels of Middle River, Old River, and Grant Line Canal, San Joaquin County. The scope of operations includes excavators from the levee dropping rock in the channels to build barriers across to the opposite levee. No barges will be used for the installation of the barriers. Operations are scheduled as follows: Construction: May 1, 2026, through the first week of June 2026 Barrier in place: First week of June 2026 through end of October 2026 Removal: November 1, 2026, through November 30, 2026 The channels will be blocked until approximately November 30, 2026. DWR will provide boat portage at Old River and Grant Line Canal, but not at Middle River, which is not navigable due to shallow depth. Locations of operation: Middle River near Victoria Canal: 37.8857° N, -121.4822° W Old River near Tracy: 37.8103° N, -121.5428° W Grant Line Canal near Tracy Boulevard Bridge: 37.8199° N, -121.4483° W No vessels are involved in the operation. This activity is referenced on Chart US4CA46M. For additional information, please contact the Area Control Center at (209) 833-2180 (24-hour phone). All mariners are advised to transit the area with caution and observe all navigation restrictions and portage instructions.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Open Ocean Robotics will be operating uncrewed surface vehicles (USVs) within a 10 nautical mile radius centered on NOAA Buoy 46012 (37.35556° N, -122.88083° W), approximately 24 nautical miles south-southwest of San Francisco, CA. The scope of operations includes continuous remote operation of one USV at a time, with periodic battery swaps requiring brief overlap of two USVs in the area. Operations are scheduled to take place 24 hours a day, seven days a week, from January 20, 2026, through December 31, 2026. During battery swaps, one USV will hold station while the replacement USV transits from Half Moon Bay to the operational area. Once the replacement USV arrives, the original USV will return to Half Moon Bay for recharging. The USVs are broadcasting on AIS under the names "DATAEXPLORER013" (MMSI 316056469) and "DATAEXPLORER016" (MMSI 316058968), and are equipped with radar reflectors and small-craft navigation lights. Each vessel is approximately 12 feet long, 3 feet wide, and 4 feet high, colored red and white. All mariners are advised to transit the area with caution. For more information, please contact Madeleine Bouvier-Brown at 604-347-0036.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Joaquin River - Stockton Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Dutra Group will conduct levee rehabilitation operations on Smith Tract along the San Joaquin River near the Stockton Golf & Country Club from April 29, 2026, to no later than May 31, 2026. Operations will involve anchoring Crane Barge TM20, measuring approximately 140 feet in length and 50 feet in width, supported by a tugboat and a rotation of flat deck barges. The crane barge and tugboat will mobilize from Dutra's Rio Vista Yard, with flat deck barges transiting between the job site and either Decker Island or the San Rafael Rock Quarry, and moored at pre-existing moorings along the river during mobilization. Barges will be spudded in with steady burning white lights at the end of each shift, and all marine equipment will monitor VHF-FM channels 9, 16, and working channel 68A. For more information, please contact (707) 333-5029. All mariners are advised to transit the area with caution and at their slowest safe speed to minimize wakes.
