TITLE	SUBCATEGORY	DESCRIPTION	LOCATION

Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Rehabilitation	Bridges	SACRAMENTO RIVER-ISLETON BRIDGE: From November 18, 2024, through July 14, 2025, the double leaf bascule bridge will be operating a single leaf during rehabilitation work. One leaf of the bridge will open on signal if at least 4-hour notice is given to the drawtender at the Rio Vista bridge across the Sacramento River at mile 12.8. During single leaf operations, from the end of the closed leaf to the tip of the open leaf, the bridge provides approximately 88 feet of horizontal clearance. For further information contact the Coast Guard Bridge Office by telephone at 510-219-4366 or by email at D11Bridges@uscg.mil.	Lat: 38° 10' 19" Lon: -121° 35' 38"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Construction	Bridges	SACRAMENTO RIVER-REPLACEMENT BUTTE CITY BRIDGE: Bridge construction continues Monday through Friday during daylight hours until September 25, 2026. The temporary trestle, along with falsework, is being removed from the bridge site. A temporary navigation span during construction is just west of the old bridge's pivot pier, 435 feet west of new bridge abutment, and is lighted at night with a green center channel light on the upriver and downriver sides of the old bridge. The temporary navigation span provides at least 32 feet horizontal clearance. Vertical clearance is 35 feet from low steel of the old bridge above MLLW. A barge with crane is on scene, and is lighted at night with red fixed lights at its corners. For further information contact the Coast Guard Bridge Office at 571-607-2206 or by email at D11Bridges@uscg.mil.	Lat: 39° 27' 26" Lon: -121° 59' 43"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Rehabilitation	Bridges	SACRAMENTO RIVER-PAINTERSVILLE BRIDGE: Caltrans is conducting major mechanical and electrical rehabilitation on the bridge. During the rehabilitation project, the bridge will provide single leaf operations. Therefore, one leaf of the bridge will open on signal if at least a 4-hour notice is given to the drawtender of the Rio Vista bridge across the Sacramento River at mile 12.8. During rehabilitation, when one leaf is open and the other closed, the bridge provides ~81 feet of horizontal clearance from the tip of the opened leaf to the end of the closed leaf. It is now anticipated the work will be completed by August 1, 2025 due to a 3-week late start of the rehabilitation of the Isleton bridge, caused by commercial waterway users contract commitments. For further information contact the Coast Guard Bridge Office by email at D11Bridges@uscg.mil or by telephone at 510-219-4366.	Lat: 38° 19' 07" Lon: -121° 34' 40"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Temp Deviation	Bridges	SACRAMENTO RIVER-TOWER BRIDGE: The lift span of the bridge will be secured in the closed-to-navigation position from 7:30 AM to 12 Noon on June 21, 2025, for a community event. When closed the bridge provides 30' of vertical clearance at mean high water. Vessels able to transit the bridge while closed can continue to do so at any time. In the event of an emergency, the span can open on signal if at least one-hour notice is given to the drawtender. For further information contact the Coast Guard Bridge Office at 571-607-5820 or D11Bridges@uscg.mil.	Lat: 38° 34' 50" Lon: -121° 30' 30"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Hazards To Navigation/Hazards	Hazards To Navigation	ATON/PATON Discrepancies From: 2025-05-08 To: 2025-11-04 Location: 38-35.146N 121-30.356W Discrepancy Information: A partially submerged white foam buoy has been reported in the Sacramento River 120' South of the I Street Bridge in the middle of the East channel. Mariners are advised to proceed with caution and report to the USCG any sightings of this buoy.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CAL-NEVA Construction Services will be conducting marine construction and diving operations on the Sacramento River near 38° 14' 26" N, 121° 30' 59" W, from 2 June 2025 to 17 June 2025. Operations will be conducted with derrick barge "DB Carquinez" along with a flat barge. The barges will be either spudded down or anchored using a four-point mooring system marked with 5ft crown buoys. The buoys will be lighted at night with flashing white strobes. All vessels and equipment will be monitoring VHF-FM CH 8, CH 13 and CH 14. Mariners are requested to transit the area with caution. For more details or comments contact Kevin Malone at 916-417-7777

Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation	Bridges	AMERICAN RIVER-CAPITAL CITY HWY (Route 51) BRIDGE: Caltrans is conducting rehabilitation of the bridge until 31 Mar, 2026. Work will be conducted during daylight hours, 7 am to 5:30 pm, Monday through Friday, and will include the use of barges, work boats, tugboats, turbidity curtains, and access piers. During the workday, barges can be moved for the safety of navigation with one hour notice to the contractor via VHF-FM CH 16 or by cell at 916-532-8208. Barges will be unmanned and moored at their work locations overnight. Each corner of each barge will be lighted at night with steady burning red lights. At least 25 feet of horizontal clearance for navigation will be available at all times. Mariners are requested to transit the area with caution. For further information, contact the Coast Guard Bridge Office at 510-774-1204 or to request a depiction of the temporary impacts to navigation at the bridge email D11Bridges@uscg.mil.	Lat: 38° 35' 15" Lon: -121° 26' 50"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation	Bridges	SACRAMENTO RIVER-RIO VISTA BRIDGE-DECK REPLACEMENT Starting March 3, 2025, temporary platforms will be installed beneath the lift span in order to facilitate bridge deck replacement. During the project, vertical clearance of the bridge will be reduced by 4 feet. Once the platforms are in place, the bridge will temporarily provide 13.8 feet of vertical clearance in the closed position and 140.8 feet of vertical clearance in the fully open to navigation position at Mean High Water. The upstream and downstream lower edges of the temporary platform will be lighted at night with steady burning red lights. In order to replace the deck, the lift span will be secured in the closed to navigation position for 55 hours from 9 pm on Friday to 4 am on Monday during the following dates; March 28 through March 31; April 11 through April 14; April 25 through April 28; May 9 through May 12; June 6 through June 9; June 20 through June 23, 2025. This schedule is dependent on weather and 55-hour closures may last past June 23, 2025. To request an opening of the bridge, vessels are still required to provide a 4-hour advance notice. For further information contact the Coast Guard Bridge Office by email at D11Bridges@uscg.mil.	Lat: 38° 09' 32" Lon: -121° 41' 03"

Approaches To San Diego Bay - San Diego Bay/General/Bridges/Lighting and Other Signals	Bridges	SAN DIEGO BAY CORONADO BRIDGE-The red lights on piers 16, 17, and 21 are reported extinguished. Estimated time of repair is unknown. The east (span 18-19) and west (span 19-20) main navigation span's green center channel lights and red pier lights are operational. For further information contact the Coast Guard Bridge Office at 510-219-4366.	Lat: 32° 41' 16" Lon: -117° 09' 21"
Approaches To San Diego Bay - San Diego Bay/General/Bridges/Maintenance	Bridges	SAN DIEGO BAY-CORONADO BAY BRIDGE: Scaffolding installed between piers 11-12, 12-13, and 13-14, reduces vertical clearance by no more than 8'. The upstream and downstream lower edges of the scaffolding are lighted at night with red lights. For more details or comments contact the Coast Guard Bridge Office at 510-437-3461.	Lat: 32° 41' 16" Lon: -117° 09' 21"
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. will be conducting marine construction from 1 April, 2024 until 30 September, 2025 at the Drydock and adjacent area in San Diego Bay at the NASSCO waterfront facility 32-41-15N 117-08-24W. Vessels DB POINT LOMA, DB WILLIAM F, DB PALOMAR, RES 180, SCOW HAROLD M, SCOW CLARENCE D, SCOW ROB P, SCOW MIKE J, P/B JEANIE R, C/B JOHN DRAKE, RES SURVEY BOAT, TUG CUYAMACA, and various barges (80', 110' and 120') will be performing dredging and construction operations and will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments contact R.E. Staite Engineering at 619-233-0175.	Lat: 32° 41' 15" Lon: -117° 08' 24"
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. will be conducting marine construction from 1 April, 2024 until 31 July, 2025 at BAE Systems San Diego facility, Pier 1, Pier 3 and Building 13 Wharf at 32-41-24N 117-08-41W. Vessel Spud Crane Barge RES 150, P/B JEANIE R, support barges, and skiffs will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments contact R.E. Staite Engineering, Inc. at 619-538-2761 or restaite@restaite.net.	Lat: 32° 41' 24" Lon: -117° 08' 41"
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	R.E. Staite Engineering Inc. will be conducting marine construction for the repair and replacement of the existing Pier 302 at Naval Base Pt. Loma from 2 January, 2024 until 09 June, 2025 at 32-42-08N 117-14-09W. DB WILLIAM F, PB JEANIE R, PB JOHN DRAKE, RES 180 Barge, spud/crane barge and support barge RES 110 will be monitoring VHF-FM Chan. 16. Mariners are requested to transit at their slowest safe speed to minimize wake transit the area with caution. For more details or comments contact Tory Wagoner at 619-629-9733 or restaite@restaite.net.	Lat: 32° 42' 08" Lon: -117° 14' 09"
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Manson Construction Co. will be conducting marine construction involving a floating derrick crane (Manson DB VALKRIE, Call sign: WCZ5436) on the Mooring Wharf retrofit project, directly South of Mole Pier. Operation will begin on or about 19 May 2025 and will finish on or prior to 6 June 2025. Operations will run 8 hrs. a day 7:00 am – 3:30 pm local, Monday through Saturday. The DB VALKYRIE will use spuds for anchorage. DB VALKYRIE will be working alongside a diver team to install the underwater pile cap. Mariners are requested to use cation when transiting near the area. DB VALKYRIE can be contacted via radio VHF-FM Ch. 8, 13, and 16.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert Company will be conducting hydrographic surveys from June 3, 2025 - June 20, 2025 near San Diego, CA by Woolpert, Inc. The survey personnel and equipment spread will consist of one commercial survey boat approximately 25 feet in length, with a marine surveyor/technician/environmental monitor, a vessel mounted 3D multi-beam sonar system, and commercial grade differential GPS with sub-meter accuracy or better. A 200m safety zone will be observed for marine wildlife and pinnipeds. Survey Vessel name/number: Tikanni/AK 8598 AG. For questions or comments, contact 425-358-0267.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Boat Parade	Marine Events	Safe Harbor Sunroad will be hosting San Diego International Boat Show (SDIBS) from 19-22 June, 2025 at Safe Harbor Sunroad Marina Docks K, L & M at position 32.72639N -117.18861W. Vessels will be monitoring VHF-FM Chan. 68. Frequency of vessels coming in and out of the marina during set up and tear down may be higher than usual. Addition of temporary docks for build outs within the Marina/event space. Any added docks will have proper lighting for safety requirements. Mariners are requested to transit the area with caution. For more details or comments, contact Bernard Kida at 323-252-0539.	

Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	The Cortez Racing Association (CRA) will be sponsoring the Beer Can Series Regatta every Wednesday from May 21 – July 30, 2025, from 5 PM to 8 PM each day. The regatta will involve approximately 110 sailing vessels ranging in length from 16 – 70 feet, racing on a course in North San Diego Bay in the vicinity of Harbor Island. Mariners are requested to use due caution when transiting this area. For more details or comments, contact Toralf Strand at 603-918-8060.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	The Cortez Racing Association (CRA) is sponsoring the CRA Crown Cup regatta from 11 AM to 4 PM on June 7, 2025. The event will consist of 32 sailboats participating in a regatta in South San Diego Bay. The regatta will consist of three windward races with the starting area being in the vicinity of buoy SD30. Mariners are requested to use due caution when transiting this area. For more details or comments, contact Colleen Cooke-Salas at 619-852-5010.	
Approaches To San Diego Bay - San Diego Bay/General/Naval Activity/Military Operations	Naval Activity	US Navy will be conducting maritime operations from 02 June through 05 June and 09 June through 11 June 2025, in the vicinity of San Diego Bay. US Navy Safety Boats will be on scene monitoring VHF-FM CH.-16. Mariners are advised to use caution when transiting the area. For further comments or details contact Victor Mazutti at (619) 608-0362.	
Approaches To San Diego Bay - San Diego Bay/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	U.S. Fish and Wildlife services has installed a12-ft x 12-ft mesh and benthic barrier until 31 December, 2025 in the San Diego Bay National Wildlife Refuge for one year. The location of the barrier in San Diego Bay is near 32.62316N -117.127056W. Approximately 5-ft x 6-ft patch of Caulerpa prolifera in the San Diego Bay National Wildlife Refuge. The benthic barrier would consist of plastic tarp, rebar-reinforced stakes, and sandbags. In addition, rock salt would be applied at an estimated rate of 8.9 to 50 kg/m² in order to eradicate the Caulerpa prolifera infestation within the South San Diego Bay. The barriers would be installed for a period of up to one year. Mariners are requested to transit the area with caution. For more details or comments, contact Andrew Yuen at 760-535-7065.

San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Inspection	Bridges	SAN FRANCISCO BAY EAST & WEST SPANS OF THE SAN FRANCISCO-OAKLAND BAY BRIDGE-Caltrans will be conducting dive operations as follows: May 19-20, 2025, 10 am to 5 pm, Pier "India" (E3), East Span and May 20-22, 2025, 7 am to 5 pm, Pier "Alpha" (W2), West Span. This is a Surface Supplied Diving Operation. Diver and/or diver's breathing gas hose may be on or near the surface. Heavy equipment is on the vessel's deck. Excessive wake may cause injury to deck crew as well as the diver. Maximum Work Zone Dimension from Boat to Diver: 50-foot radius. Boat Description/Dimensions in the water: 10-foot x 33-foot aluminum landing craft "Official Business" or 8.5 foot x 20 foot work boat "Scow". All mariners are requested to contact the Caltrans vessel, "OFFICIAL BUSINESS", on VHF-FM CH 16 or by cell 805-748-6011, approximately 30 minutes before transiting the bridge dive site. All vessels are requested to use extreme caution while transiting the dive site. For further information contact the Coast Guard Bridge Office via email at D11Bridges@uscg.mil.	Lat: 37° 47' 57" Lon: -122° 22' 36"

San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Lighting and Other Signals	Bridges	SAN FRANCISCO BAY-RICHMOND/SAN RAFAEL BRIDGE-All north and south red lights on the east pier (pier 35) of the west navigation span are extinguished. The red aircraft warning light atop the east tower of the west navigation span is extinguished. For further information contact the Coast Guard Bridge Office via phone at 510-219-4366 or via email at D11Bridges@uscg.mil.	Lat: 37° 56' 07" Lon: -122° 26' 48"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Inspection	Bridges	SAN FRANCISCO BAY EAST AND WEST SPANS OF THE SAN FRANCISCO/OAKLAND BAY BRIDGE-Dive operations will be taking place 7 am to 5 pm, June 2 through June 6, 2025 on east span piers "G" (T1 Tower), "H" (E-2), "I" (E-3), and E-4, E-5 and E-6 and on all the piers on the west span. Mariners are requested to contact the dive boat "OFFICIAL BUSINESS" on VHF-FM Ch 16/14/9 or by telephone at 805-748-6011 at least 30 minutes to arriving at the bridge to ascertain the location of the divers and boat. Mariners are urged to transit the area with caution during dive operations. For further information contact the Coast Guard Bridge Office by telephone at 510-219-4366 or email at D11Bridges@uscg.mil.	Lat: 37° 47' 57" Lon: -122° 22' 36"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Manson Construction Co. will be conducting marine construction to the wharf at Alcatraz Island at 37-49-36N 122-25-15W. Construction will begin on 23 January, 2023 and be completed on 04 October, 2025. During construction DB HAGAR will be utilizing divers during low tide. Tug WESTAR will be assisting DB HAGAR and monitoring VHF-FM Chan. 13 and 16. Mariners are requested to transit the area with caution. For more details or comments contact Matt Lehmann at 510-529-1583.	Lat: 37° 49' 36" Lon: -122° 25' 15"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Power Engineering Construction Co. will be conducting pile driving operations from 24 March, 2025 until 28 May, 2025 near Pier 45, San Francisco Monday through Friday 6:00am until 6:00pm at 37.80972N 122.41583W. Derrick barges DB ALAMEDA and a flat material barge will be spudded down and monitoring VHF-FM Chan. 69 & 71. Mariners are requested to transit the area with caution. For more details or comments, contact Bennett Clegg at 415-559-0089.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	Gregg Drilling and Testing will be conducting Overwater Geotechnical Investigations from 02 June - 09 June 2025 from 7:00 a.m. to 7:00 p.m. (local) in the vicinity of the St Francis Yacht Club and Gashouse Cove. The R/V Quin Delta will be conducting the drill operations and monitoring channels VHF 16, 13 and 14. Mariners are advised to use caution when transiting the area. For further information, comments or details contact Captain Tim O'Donnell by phone at (949) 254-5190 or e-mail at BEARatSEA@gmail.com	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Corps of Engineers will be conducting dredging operations from 1 June 2025 through 24 June 2025 . The Government Hopper Dredge "Essayons" will be performing annual maintenance dredging in the S.F. Main Ship (Bar) Channel with disposal at OBDS (Ocean Beach Demonstration Site), and SF-8 (San Francisco Bar Channel Disposal Site) as a backup site, conducting near-shore disposal approximately 1-1/2 miles off San Francisco's Ocean Beach to demonstrate the beneficial use of dredged material for beach nourishment. OBDS is bounded by: NAD 83 Coordinates: 37° 44' 1.05" N, -122° 30' 46.41" W 37° 42' 58.21" N, -122° 30' 46.82" W 37° 42' 58.50" N, -122° 31' 59.07" W 37° 44' 1.35" N, -122° 31' 58.68" W SF-8 is bounded by: NAD 83 Coordinates: 37°44'54.75" N, 122°37'21.91" W 37°45'44.75" N, 122°34'27.91" W 37°44'23.75" N, 122°37'09.92" W 37°45'14.75" N, 122°34'15.91" W Occupying an area slight greater than 15,000 feet X 3,200 feet, or about 1033 acres. Mariners are advised to use caution when transiting the areas of operation. Recommend removal of any equipment in these areas to avoid damage to the equipment for the safe navigation of the dredge. VHF-FM Channels 13 and16 will be continuously monitored. For specific information, contact the "Essayon's" Master at (503) 808-5035 or (503) 808-4990 or on Channels 13 or 16, call sign 'AENO'.

New York Slough - San Joaquin River/General/Bridges/Construction	Bridges	SAN JOAQUIN RIVER REPLACEMENT HILLS FERRY ROAD BRIDGE-Work has begun to replace the bridge. Work will take place during daylight hours, Monday through Friday, through January 2027. A temporary bridge will span the river during the project and will provide a lower vertical clearance than the existing bridge and the replacement bridge. For on-scene conditions mariners can contact Stanislaus County at 209-777-2885 or the contractor at 415-720-6577. For further information contact the Coast Guard Bridge Office at 510-219-4366.	Lat: 37° 20' 58" Lon: -120° 58' 32"
New York Slough - San Joaquin River/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	HONKER CUT-8-MILE ROAD BRIDGE: San Joaquin County will secure the drawspan in the closed-to-navigation position from October 1, 2024 until June 27, 2025, to conduct repair/rehabilitation work. When closed the bridge provides 6' of vertical clearance at mean high water. Vessels that can transit the bridge while closed can continue to do so at any time. For further information, contact the Coast Guard Bridge Office at (571) 607-5820 or via email at D11Bridges@uscg.mil.	Lat: 38° 03' 34" Lon: -121° 27' 34"
New York Slough - San Joaquin River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dirt fill placement on Sherman Island along the San Joaquin River from 29 May 2025 to 6 June 2024. The Crane Barge TM20, along with a tugboat and a flat deck barge will be utilized and spudded at various locations during placement near and around the construction area coordinates of 38.029513, -121.755122. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor CHF-FM channels 9 & 16, working channel 68A, or can be reached by calling (707) 333-5029. Mariners are requested to use extreme caution while transiting the construction site and transit at slowest safe speed to minimize wakes.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Hazards To Navigation/Hazards	Hazards To Navigation	The Subcom LLC reported that cable is currently exposed (unburied) between the following coordinates: N33° 56.51483, W118° 28.47583 N33° 56.51884, W118° 28.71535 The exposed cable length between these coordinates is approximately 1,645 feet in water depths of 85 to 92 feet. This segment of exposed cable is anticipated to be buried in the coming week as cable installation operations continue to progress. All vessels are requested to maintain a 0.5 nm CPA from anchoring, bottom fishing, or any other bottom contact activities near this exposed cable.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CPS Coastal Permits, Inc. will be conducting marine construction from 16 November, 2024 until 30 December, 2025 near Long Beach at position 33.764379N 118.11991W. Removal of 21,360 square feet of existing floating docks and installation of approximately 21,151 square feet of new floating docks at approximately the same location and configuration as the existing structures. All existing gangways and pilings are to be reused. A 35 ft. work boat, (4) 24 ft. barges, (1) 16x2 barge, and (2) 14 ft. boats will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Greg Buchanan at 714-822-5214.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	AQUEOS will be conducting Pipeline surveying between the period of 19 May, 2025 to 31 May, 2025 in the vicinity of Platform Elly to Shoreline. The Motor Vessel Surveyor; official number 537794; call sign WDK 8802; will perform underwater pipeline inspection work. The operations will include the vessel using an underwater remote operated vehicle (ROV) “flying” the pipeline to complete the inspections indicated below. The vessel will be working in a “live boat mode” not anchored. The vessel will be following the pipeline’s path and operations will be conducted on a 12 hour per day basis, generally during daylight hours. The vessel will be monitoring channel 16 and cell phone (805) 901-2671. The vessel’s general description is the following: 100’ LOA; black hull and white/red superstructure; typical Utility Boat configuration with deck-mounted crane.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	SubCom LLC will be conducting cable installation between the period of 19 May, 2025 to 07 July, 2025 in the vicinity of Coastal and Marine waters offshore of Dockweiler State Beach, Los Angeles continuing offshore south of Santa Cruz Island and Santa Rosa Island. M/V RESOLUTE (Call sign V7FF3), M/V SWIFT RESPONDER (Call sign WDN7364), M/V GLORIA MARIE (Call sign WU2569), M/V Pt VICENTE (Call sign WDL8035), and M/V Pt FERMIN (Call sign WDL8036) will be monitoring VHF channels 13 and 16. Working vessels are requesting passing arrangements and 01 nautical mile CPA. For questions or concerns, contact (347) 751-7015.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Rincon Consultants Inc. IDE will be conducting dive operations on the Charles E. Meyer Desalination Plant (Plant) submerged infrastructure components as part of the Plant’s operations and maintenance program. Offshore work is anticipated for up to 8 days beginning 21–28 May, 2025, during daylight hours. Diving operations will involve commercial divers using hand tools and small pneumatic tools to perform cleaning and an inspection of the intake pump structures. The inspection and maintenance dives will require a team of four divers to be supported by the M/V Pacific Harvester that is homeported in Santa Barbara Harbor and is 74 feet in length. The vessel will anchor at a depth of approximately 35 feet just east of Stearns Wharf and will be monitoring VHF Channel 16. Mariners are urged to transit with caution throughout the area.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Pacific Dredge & Construction will be performing barge operations in the immediate vicinity of Platform Holly approximately 10 miles West of Santa Barbara Harbor with operations commencing on or around May 28th, 2025. Operations are expected to be completed on or before June 6th, 2025. The Crane Barge “PDC 180” will be working at various points around Platform Holly performing vibro-core samples. The barge will be maintaining position around Platform Holly using a four-anchor spread. Anchor locations will be marked by crown cans. Mariners are cautioned to avoid transiting or anchoring in the vicinity. Operations may be conducted 24 hrs. a day. The Barge will be working directly adjacent and near Platform Holly Coordinates are approximately 34° 23’22.9” N, 119° 54’26.1” W. Please refer to chart US4CA68M (NOAA ENC). Dredge Barge “PDC 180”, Assist Tug “Captain Cale” and Crew Boat “Mako” can be contacted via VHF-FM Channels 6 and 16.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) study of Point Conception to Point Sur, Estero Bay, Morro Bay Channel, and Port San Luis. The study focuses on the area’s aids to navigation system, waterborne commerce, marine casualty information, port/harbor resources, emergency response plans, routine and emergency communication capabilities, and future development projects. This study seeks to obtain data on the effectiveness of the system of Aids to Navigation, as well as other waterway safety concerns. Any interested company or individual wishing to provide comments or participate in a user survey may do so via link at: <a href="https://www.research.net/r/DVXSR7B">https://www.research.net/r/DVXSR7B</a> or contact LT Rubymar Sebastian at <a href="mailto:smb-d11alameda-dpw@uscg.mil">smb-d11alameda-dpw@uscg.mil</a> or via phone at (571)-613-2930 by August 16, 2025.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	US Navy will be conducting diving operations on 10 June 2025 around Oil Platform Gina, located 4.5 miles offshore from Port Hueneme, California. US Navy Safety Boats will have dive flags up and yellow lights flashing and will be on scene monitoring VHF-FM CH.-16. Mariners are advised to use caution when transiting the area. For further comments or details contact Cory Goguen at (360) 742-6188.	

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	The California State University Long Beach Shark Lab will be deploying two acoustic omni-directional receivers on temporary seafloor mooring in LA Harbor – Seaplane Lagoon with the North receiver at 33.74806N -118.24861W and South receiver at 33.74111N -118.24861W. Receivers will be deployed for 1 year and will be downloaded, maintained, and redeployed at the same location monthly. Acoustic receiver locations will be marked with small surface floats. A 17 ft. grey Boston Whaler or 22 ft. TwinVee will be monitoring VHF-FM Chan. 16 & 68. Mariners are requested to transit the area with caution. For more details or comments, contact Dr. Chris Lowe at 562-212-7104.

Sector Los Angeles, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Golden State Wind LLC will be deploying two temporary Metocean buoys in the BOEM Lease Area (OCS-0564), approximately 30 miles from shore at the closest point and 53 miles northwest of Morro Bay at 35.60333N 121.86028W and 35.53389N 121.81333W. The buoys will be lit with yellow flashing lights (FI (5) Y 20s for the northern buoy and FI (4) Y 20s for the southern buoy), radar reflectors, and retroreflective coatings. The northern LiDAR buoy is equipped with AIS. The vessel MICHAEL UHL (Official Number 544092) will be towing the buoys to the site and deploying them in the above locations as weather allows by 31 December, 2025. The Michael Uhl will be broadcasting AIS while on these deployment operations and will be monitoring VHF-FM Chan.13 & 16. Mariners are requested to transit the area with caution and are urged to transit at their slowest safe speed, to minimize wake, and proceed with caution after passing arrangements have been made. For more details or comments contact Rachel Mahler at 805-680-8138 or Rachel.Mahler@oceanwinds.com.	
Point Dume To Purisima Point/General/Other	Miscellaneous	Ocean Rainforest will be establishing an Aquafarm, starting on 30 March, 2023 until Decmeber, 2025 located located 4.3 NM South of Santa Barbara. The site is bound within four yellow boundary marker buoys with a flashing yellow light every 2 seconds (FI Y2s) in the following positions: 34-19-58.53N 119-42-45.72W 34-20-10.12N 119-42-45.72W 34-20-11.23N 119-42-07.24W 34-19-59.64N 119-42-07.92W In line with the outer boundary buoys are small unlit floats that are marking the anchors associated with the Aquaculture area, the total buoys marking the anchors are 12 on the long axis of each side and 2 between the corner buoys on the short axis. Within the boundary markers will be 188 buoys/floats, see Enclosure AQUACULTURE ESTABLISHMENT.pdf enclosure below. The interior buoys of the aquaculture are in the shape of a rectangle with the outer edge marked with yellow buoys, every other buoy has a flashing yellow light flashing every 2 seconds (FI Y2s). Within the rectangle are 135 small unlit floats marking the cultivation lines. Mariners are advised to remain clear of this area as entanglement with associated equipment may occur. Vessel DANNY C will be conducting the deployment and monitoring VHF-FM Chan. 7 and 16. For more details or comments contact Ocean Rainforest Inc at 805-722-9601 or eliza@oceanrainforest.com.	
Sector Los Angeles, Territorial Sea/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	US Navy will be conducting diving operations from 04 June 2025 through 05 June 2025 in the vicinity of San Pedro Bay close to Oil Platform Edith. US Navy Safety Boats will have dive flags up and yellow lights flashing and will be on scene monitoring VHF-FM CH.-16. Mariners are advised to use caution when transiting the area. For further comments or details contact Cory Goguen at (360) 742-6188.	
Sector Los Angeles, Territorial Sea/General/Naval Activity/Military Operations	Naval Activity	The US Navy will be conducting autonomous unmanned vessel operations during daylight hours from 4 June to 6 June, 2025 within the following 3x5nm box: 34° 18.313' N 119° 28.749'W, 34° 16.664'N 119° 31.764'W, 34° 12.545'N 119° 28.382'W, 34° 14.150'N 119° 25.386'W approximately 5nm south of Rincon Island. There will be approximately 20 vessels engaged in the exercise. US Navy can be reached via VHF CH16 by hailing for "US Navy Support Water Lead" or by phone at 805-644-2762. All mariners are requested to maintain a safe distance from the autonomous testing and Navy Support perimeter security vessels.	
Sector Los Angeles, Territorial Sea/General/Naval Activity/Military Operations	Naval Activity	The US Navy will be conducting 24/7 autonomous unmanned vessel operations from 23 June 2025 to 26 June 2025 within the following 11x11nm box: N33 54.210 W119 20.375, N33 54.210 W119 07.173, N33 43.190 W119 07.173, N33 43.190 W119 20.375 approximately 13nm Southeast of Anacapa Island within the US Navy Point Mugu Sea Test Range. There will be approximately 75 vessels engaged in the exercise. US Navy can be reached via VHF CH16 by hailing for "US Navy Support Water Lead" or by phone at 805-644-2762. All mariners are requested to maintain a safe distance from the autonomous testing and Navy Support perimeter security vessels

The Government Hopper Dredge "Essayons" will be performing annual maintenance dredging in the S.F. Main Ship (Bar) Channel with disposal at OBDS (Ocean Beach Demonstration Site), and SF-8 (San Francisco Bar Channel Disposal Site) as a backup site, conducting near-shore disposal approximately 1- 1/2 miles off San Francisco's Ocean Beach to demonstrate the beneficial use of dredged material for beach nourishment. OBDS is bounded by: NAD 83 Coordinates: 37° 44' 1.05" N, -122° 30' 46.41" W 37° 42' 58.21" N, -122° 30' 46.82" W 37° 42' 58.50" N, -122° 31' 59.07" W 37° 44' 1.35" N, -122° 31' 58.68" W SF-8 is bounded by: NAD 83 Coordinates: 37°44'54.75" N, 122°37'21.91" W 37°45'44.75" N, 122°34'27.91" W 37°44'23.75" N, 122°37'09.92" W 37°45'14.75" N, 122°34'15.91" W Occupying an area slight greater than 15,000 feet X 3,200 feet, or about 1033 acres. Mariners are advised to use caution when transiting the areas of operation. Recommend removal of any equipment in these areas to avoid damage to the equipment for the safe navigation of the dredge. VHF-FM Channels 13 and16 will be continuously monitored. For specific information, contact the "Essayon's" Master at (503) 808-5035 or (503) 808-4990 or on Channels 13 or 16, call sign 'AENO'.

Sector San Francisco, Territorial Sea/General/Hazards To Navigation/Wrecks	Hazards To Navigation	U.S. Coast Guard Sector San Francisco has deemed the M/V CHALEUR to be a threat to public health, welfare, and the environment. M/V CHALEUR is currently partially sunk in Little Potato Slough off Empire Tract Road in San Joaquin County at 38.057778N -121.50056W. As such, U.S. Coast Guard Sector San Francisco is intending to obtain authorization from U.S. Coast Guard leadership to destroy the vessel. Any potential owner/interested party please contact U.S. Coast Guard Sector San Francisco at 510-928-9939 immediately upon receipt of this notice. Mariners are requested to transit the area with caution.	
Sector San Francisco, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	The Monterey Bay Aquarium Research Institute (MBARI) will be conducting 24/7 autonomous, unmanned maritime vehicle operations of two Liquid Robotics, Inc. Wave Gliders (www.liquidr.com), from 8 January, 2025 until 31 December, 2025. Deployment of the vehicles will be in the vicinity of Moss Landing, they will operate continuously between 36.3N -122.98306W and 37.21667N -122.98306W. Operations consist of scientific ocean data collection. Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from MBARI, moving at speeds of 1kt, and designed to give way or part if encountered by a vessel. It is approximately 8' x 2' (surfboard size), copper in color, with a contact plaque and mast extending 1 meter above the water surface supporting a flag. Mariners are requested to transit the area with caution. For more details or comments, contact MBARI at 831-775-1700, waveglider@listserver.mbari.org , or Liquid Robotics 24/7 WGOc Operations at 888-574-4574 or 1-408-636-4205.	
Sector San Francisco, Territorial Sea/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CAL-NEVA Construction services will start the in-channel construction of the barriers at Grant Line Canal in position 37-49-12N, 121-26-54W, from 14 May 2025 to 4 June 2025. Operations will be conducted with derrick barge "DB Steadfast" along with a flat barge. The barges will be either spudded down or anchored using a four-point mooring system marked with 5ft crown buoys. The buoys will be lighted at night with flashing white strobes. All vessels and equipment will be monitoring VHF-FM CH 8, CH 13 and CH 14. Mariners are requested to transit the area with caution. For more details or comments contact Kevin Malone at 916-417-7777.
