Alameda Naval Air Station Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Francisco Oakland Bay Bridge West Crossing - Alameda Naval Air Station Channel/General/Miscellaneous	Miscellaneous	The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) study of NAS Alameda. The study focuses on the area's aids to navigation system, waterborne commerce, marine casualty information, port/harbor resources, emergency response plans, routine and emergency communication capabilities, and future development projects. This study seeks to obtain data on the effectiveness of the system of Aids to Navigation, as well as other waterway safety concerns. Any interested company or individual wishing to provide comments or participate in a user survey may do so via link at: https://www.research.net/r/LTR8FBC or contact LTJG Robert Black at d11-smb-d11-lnm@uscg.mil or via phone at (571)-610-6866 by August 18, 2026.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting Marine construction in the vicinity of Vallejo, California within the California State University Maritime Academy Boat Basin. The initiation of waterside operations for this project will entail the deployment of multiple crane barges secured by both anchors and spuds, along with a continuous rotation of material supply barges, tug tenders, "Linda T" workboat, and various small skiffs. Activities are scheduled to commence as early as September 12, 2025 to December 2027. Beginning with the mobilization of Crane Barge Kelso ("CB Kelso") and EM1106 ("Morty") barge fitted with appropriately sized crawler cranes. The designated vessels will be monitoring VHF-FM channels 9 & 16, with the working channels 68A or 80. All mariners are advised to use caution when transiting the area, for more information contact: Scott 707-333-5029	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Dutra will be conducting marine construction operations on the ASR Crockett Accelerated Dock Repairs project from 20 February 2026 thru 30 June 2026, located along the Carquinez Strait, East of the Carquinez Bridge. The emergency repairs include selective demolition of a deficient timber pile-supported wharf for the installation of a new replacement steel pile supported mooring dolphin installing pipe piles with both vibratory and impact hammers. The Crane Barge Kelso and/or TM-20 crane barge, barge-mounted 230-ton crawler crane, "Linda T" work boat, supporting tugboats, material supply barges, and miscellaneous work skiffs. All moorings, and maneuvering of marine assets and supporting material barges will primarily be geographically bounded by coordinates: 38° 3'31.36"N, 122°13'6.04"W 38° 3'31.10"N, 122°13'0.75"W 38° 3'27.21"N, 122°13'1.43"W 38° 3'27.41"N, 122°13'6.15"W Crane barges will be spudded in with flashers on all corners, along with all other marine equipment. The designated crane barge and work boat will monitor VHF-FM Chan. 9 & 16, working channel 78 or 80. Mariners are urged to transit at their slowest safe speed to minimize wakes. For more details or comments, contact Dutra at (707) 333-5029.	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting wharf demolition operations at CSUMA in Vallejo, California. The scope of work includes removal and demolition of wharf structures using multiple vessels. Operations are scheduled to take place from April 27, 2026, through July 3, 2026. Vessels involved in the operation include: Little Cindy (Call Sign: Little Cindy) Crane Barge 2 (Call Sign: CB2) All vessels will monitor VHF-FM radio frequencies 13 and 14 when near deep-draft traffic, and channel 16 when not near deep-draft traffic. The area of operation is centered at approximately 38.06554° N, -122.23007° W. For additional information, please contact Matt Bramlett at (925) 818-2324 or Mbramlett@silveradocontractors.com. All mariners are advised to transit the area with caution.	

Entrance To San Francisco Bay

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector San Francisco, Submerged Land Act (SLA) - Entrance To San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The U.S. Army Corps of Engineers will be conducting dredging operations in the Federally authorized Navigation Channel of San Francisco Bay from May 15 to June 15, 2026. The Government Hopper Dredge "Essayons" will perform annual maintenance dredging in the S.F. Main Ship (Bar) Channel, with disposal at the Ocean Beach Demonstration Site (OBDS) within the SF17 placement site, and SF-8 (San Francisco Bar Channel Disposal Site) as a backup. Near-shore disposal will occur approximately 1.5 miles off San Francisco's Ocean Beach to demonstrate the beneficial use of dredged material for beach nourishment. OBDS is bounded by positions 37.73363°N, -122.51289°W; 37.71617°N, -122.51299°W; 37.71625°N, -122.53308°W; and 37.73371°N, -122.53297°W. SF-8 is bounded by positions 37.74854°N, -122.62275°W; 37.76243°N, -122.57442°W; 37.73993°N, -122.61942°W; and 37.75410°N, -122.57053°W. VHF-FM Channels 13 and 16 will be continuously monitored. For more information, please contact the "Essayons" Master at (503) 808-5035 or (503) 808-4990, or on Channels 13 or 16, call sign 'AENO'. All mariners are advised to transit the area with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Los Angeles Main Channel - Los Angeles East Basin Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	JILK Heavy Construction will conduct timber pile installation that will be conducted as part of the Berths 187, 188, 189 & 190, located in Wilmington, CA from 23 March 2026 thru 26 October 2026. Jilk Heavy Construction's 60'x70' Flexi-Float mounted barge crane will be located at various points along berths 187 thru 190 and will be moored with the use of spuds. Alongside there will be several 18' work skiffs. The operations during this project will include the removal and reinstallation of timber piles, steel pile and concrete repairs. (general area bound by the following waypoints): 33.76401 -118.26001 This work will be conducted during daylight hours Monday through Friday. Crews will work various hours between 6:00 am and 6:00 pm on those days. All floating and water-based equipment will monitor VHF-FM channel 16 during working shifts. Mariners are advised to use caution when transiting the area. For further comments or details the General Superintendent Joe Salgado can be reached at (310) 505-0142 or Barge Forman Joe Carrico at (310) 505-7346 and will be available to address any questions or concerns regarding the on-site operations.	
Los Angeles Main Channel - Los Angeles East Basin Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Vortex Marine Construction will conduct dredging operations at Port of Los Angeles Berths 196-199 from June 8, 2026, through June 12, 2026. Material from the dredging operation will be loaded into scows and placed upland at Berths 243-245. The following vessels will be involved in this operation: dredge DB Ironbound; tugs Emma C, Sarah C, and Marley C; and scows Long Point and Arrow Point. Vessel communications will take place on VHF channels 11, 13, 16, and 87 (working channel). For more information, contact Project Superintendent Zach Stang at (650) 888-0211. All mariners are advised to transit the area with caution.	

Los Angeles Main Channel

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION

Los Angeles Approach Channel - Los Angeles Main Channel/General/Bridges/Rehabilitation	Bridges	SOUTHERN CALIFORNIA-LOS ANGELES/LONG BEACH HARBOR-VINCENT THOMAS BRIDGE The temporary protective shield platform reached the center 500-foot navigation span from the west side on April 29, 2026. Installation from the east side is anticipated to reach the center 500-foot navigation span during the week of May 4, 2026. The temporary shield reduces vertical clearance in the channel by no more than 2.5 feet and will be in place through February or March 2029. The bridge's air gap sensor will remain operational and the green center channel lights and the red channel margin lights will remain visible. The "VINCENT THOMAS SAFETY BOAT" will be on scene during shield installation and may be contacted via VHF Channels 16, 13, and 73. For further information, contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or phone at 571-607-2206.	Lat: 33° 44' 59" Lon: -118° 16' 17"
Los Angeles Approach Channel - Los Angeles Main Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Vortex Marine Construction will be conducting dredging operations in the Port of Los Angeles East Basin from Berth 196 through Berth 199, Wilmington, California, commencing on or about June 1, 2026, and concluding on or about June 15, 2026. Operations will occur during daylight hours, Monday through Saturday. The DB Ironbound dredge will perform mechanical dredging, with all material transported in split hull scows to the Confined Disposal Facility at Berths 243-245. The marine fleet will include the DB Ironbound dredge, Long Point and Arrow Point scows, and support tugs Emma C, Sarah C, and Marley C. All manned equipment will monitor VHF-FM Channels 11, 13, 16, and 87. For more information, please contact Equipment Manager Alexandro Rodriguez at 562-241-2350 or Brian Fettig at 510-715-0541. Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. will conduct dredging operations within Newport Bay Harbor, California. The scope of operations includes dredging activities with disposal occurring at the LA-3 Ocean Dredged Material Disposal Site and the Port of Long Beach Pier G facility. Pre-dredge surveying and diving operations began on October 23, 2025, and are ongoing. Equipment mobilization is scheduled to start on December 8, 2025, with dredging expected to commence on or about December 10, 2025. Equipment demobilization is anticipated to be completed by October 28, 2026. The center of the dredging area is located at coordinates 33.60898° N, -117.90689° W (degree decimal format) and is referenced on NOAA Chart No. 18754. A temporary mooring buoy will be placed on a rotating basis at one of three locations: 33.61126° N, -117.90715° W 33.60857° N, -117.91713° W 33.60733° N, -117.91232° W Vessels involved in the project include the DB Point Loma, Jeanie R push boat, John Drake work boat, RES Survey Boat, Tug Killeen, Tug Sagittarian, and disposal scows Rob P. and Mike J. All equipment will monitor VHF-FM Channel 16. Mariners are advised to stay at least 300 feet away from equipment, transit at their slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made. For additional information, please contact: Dalton Elzey, R.E. Staite Engineering, Inc.: 925-822-6775 Jose Rocha, U.S. Army Corps of Engineers: 909-253-9921	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The City of Newport Beach Harbor Department will temporarily close the public East Anchorage, bounded by the four indicator buoys in the Five Points area of Newport Harbor, to support the ongoing large-scale Army Corps of Engineers dredge operation. The closure will be effective from February 1, 2026, and will remain in place until dredge operations in the area are complete (approximately six months). The closed anchorage is located at approximately 33.60868° N, -117.90959° W. Large-scale dredge equipment will be operating and transiting the area and adjacent channels continually until the permitted project is complete. An alternative public anchorage is available in the West Turning Basin of Newport Harbor during this period of closure. The Harbor Department can be reached on VHF Channel 17 or via phone at 949-270-8159 before, during, and after the dredge operation. All mariners are requested to use the alternative anchorage and transit the area with caution.	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Orange County Sanitation District will be conducting construction activities for dual 24-inch wastewater force mains beneath Lower Newport Bay in Newport Beach, California, utilizing microtunneling from May 21 to June 30, 2026. Operations will occur at position 33.616228°N, -117.904675°W. No marine vessels will be involved, and no hazards to navigation are anticipated under normal conditions. For more information, please contact the 24-Hour Orange County Sanitation District Control Center at (714) 593-7025, Cindy Murra at (714) 293-6220, or Jenna Torres at (657) 537-3513. All mariners are advised to transit the area with caution.

San Francisco Oakland Bay Bridge West Crossing - Oakland Inner Harbor/General/Bridges/Lighting and Other Signals	Bridges	NORTHERN CALIFORNIA-OAKLAND INNER HARBOR-FRUITVALE AVE RAIL BRIDGE-The lift span of the rail bridge is kept in the partially opened position providing 80 feet of vertical clearance at mean high water. The lift span can be raised to its fully open position upon request to the drawtender at the Miller Sweeny (Fruitvale Ave) bridge. The following is the new navigation lighting configuration at the rail bridge. 1. When the bascule span of the highway bridge is in the closed-to-navigation position and the lift span of the railroad bridge is in the partially open position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show a red 180-degree center span light on the upstream and downstream lower edge of the span. 2. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the partially opened position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show one solid 360-degree green light and one flashing 360-degree green light on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. 3. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the fully opened position, providing 135 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show two solid 360-degree green lights on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Boat Parade	Marine Events	Safe Harbor Sunroad Marina will create a temporary display of 125 to 175 vessels across aisles K, L, and M. The scope of operations includes the installation of temporary docks (10' x 20') made of high-grade aluminum, which will connect directly to the existing marina without the need for an anchoring system. Safety measures include a 30-foot fire lane and 14 operational fire pumps along the docks for emergency response. In-water fabrication and installation of the planned dock design will begin on June 8, 2026, and will be completed by June 17, 2026. The event dates for the vessel display are June 11–14, 2026. Immediately after the boat show ends, fire lanes will be reopened, docks will be removed, exhibitor boats will exit, and marina tenants will return. Docks will be transported back to the splash out location and removed in the same manner as installation. The operation will take place at Safe Harbor Sunroad Marina Docks K, L, & M, located at approximately 32.72644° N, -117.18881° W (degree decimal format). Multiple vessels will be docked on Docks K, L, & M within Safe Harbor Sunroad Marina. Vessels on scene will monitor VHF Channel 68. For additional information or 24-hour contact, please reach Bernard Kida at 323-252-0539. All mariners are advised to transit the area with caution.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	Cortez Racing Association will be conducting the Beer Can marine event from May 20 to July 29, 2026, every Wednesday between 17:00 and 20:00(local). The event will involve 110 sailing vessels racing on a course starting at the south end of Harbor Island, proceeding through San Diego Bay, and finishing near Harbor Island at position 32.725°N, -117.212°W. For more information, please contact Toralf Strand at 603-918-8060. All mariners are advised to transit the area with caution.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	The Silver Gate Yacht Club (SGYC) will be sponsoring the Annual Wheelchair Regatta on June 14, 2026, from 8 AM to 4 PM. The sailboat race will consist of 350 participants using motor vessels ranging from 25-55 feet hosting cruises in the San Diego Bay. The cruise ranges from Shelter Island to Coronado Bridge. Mariners are requested to transit the area with caution. For more details or comments, contact Stephanie Beachley at 619-222-1214	
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	San Diego Yacht Club (SDYC) will be sponsoring the Match Race Qualifier on June 13-14, 2026, from 8 AM to 7 PM. The sailboat race will consist of 8 sailboats racing in North San Diego Bay next to Harbor Island. Mariners are requested to transit the area with caution. For more details or comments, contact Jeff Johnson at 619-758-6310.

Operations are scheduled to take place from April 6, 2026, through June 15, 2026, Monday through Friday, from 0600 to 1800 hours. The project location is centered at approximately 37.80981° N, -122.41589° W. All vessels and equipment on site will monitor VHF-FM Channels 69 and 71. All mariners are advised to use caution when transiting the area. For further comments or details, please contact Bennett Clegg at (415) 559-0089.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Severson Environmental Services and PGE will be conducting environmental dredging and installing steel piles from 19 May, 2026 - 30 November, 2026. Operation times will be five to six days per week, with hours of operations 5am to 7pm(local). This operation will include the use of the following vessels and equipment: 40x80 PC650-01, 40x80 PC650-02, Crane Barge MICHEAL LIND, Staging barge STELLA LIND, Tug CASSIE LIND, Tug ARCHIE LIND, SEVENSON 01 and 02 work boats. The project location is centered at approximately at the San Francisco Pier 41 to Pier 43, in position: 37°48'35.20"N; 122°24'46.41"W. All vessels and equipment on site will monitor VHF-FM Channels 13, 14 and operating on 11. All mariners are advised to use caution when transiting the area. For further comments or details, please contact SEVENSON ENVIRONMENTAL project manager at (716) 807-1937. Alternate contacts: Jake Wood (607) 794-1654 and Terry Templeton (716) 476-6790.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Dutra Group will conduct dredging operations at the San Francisco West Marina Basin from approximately April 28, 2026, to June 30, 2026. Operations will take place at position 37.807253, -122.442903. The clamshell dredge DB 24 or Beaver will be used, supported by a scow fleet of three split hull disposal scows with capacities of 2,000 and 3,000 cubic yards. The tow tug Sarah Reed or similar will serve during disposal operations, with material disposed of at the San Rafael Rock Quarry. Additional support will be provided by the tender tug Becky T or Phyllis T. All equipment will monitor VHF-FM channels 13, 14, and 80A; the tow tug will use call sign KX7468. For more information, please contact Mr. Dennis Salyers at (415) 497-5289 or (415) 450-7426. All mariners are advised to transit the area with caution.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert, Inc. will be conducting a hydrographic survey near Yerba Buena Island, California, from May 27 to June 30, 2026. Operations will utilize a 24-foot commercial survey boat, Ekko (CF 7490 SD), equipped with a vessel-mounted 3D multi-beam sonar system and commercial grade differential GPS. A 200-meter safety zone will be observed for marine wildlife and pinnipeds. The survey vessel will monitor radio channel 16. For more information, please contact Danielle Halverson at 425-358-0267. All mariners are advised to transit the area with caution.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting Pier 60 Demolition operations from June 15 to June 19, 2026, at position 37.774411°N, 122.392853°W. The vessels Zaccor 1 and Zaccor VII will be involved in the operation, monitoring VHF-FM channels 13 and 14 near deep-draft traffic, and channel 16 otherwise. For more information, please contact Matt Bramlett at (925) 818-2324 or mbramlett@silveradocontractors.com. All mariners are advised to transit the area with caution.	
Golden Gate Bridge - San Francisco Bay/General/Miscellaneous	Miscellaneous	The Coast Guard has received a report that all of the moorings in San Francisco Anchorage 6 are off station and unlit. Mariners are requested to transit San Francisco Anchorage 6 with caution.

Sector San Francisco, Submerged Land Act (SLA) - Santa Cruz/General/Bridges/Construction	Bridges	NORTHERN CALIFORNIA-SANTA CRUZ HARBOR-EATON/MURRAY STREET BRIDGE- Seismic retrofit work is being conducted Monday through Saturday, 7 am to 6 pm, through January 28, 2028. Cofferdams are in place around bents 6, 7, and 8, the north and south navigation spans. The cofferdams reduce horizontal clearance in each span by 6 feet. All bent work will be done via the bridge deck. When the north span is being worked on, it will be closed to navigation and the south span open. When the south span is being worked on, it will be closed to navigation and the north span open. All red pier lights will be operational. The green center channel lights will only be operational in the span that is open. All vertical clearance gauges have been removed and will be replaced once work is complete. A flag boat is on-scene during working hours to guide mariners to the open span and can be reached on marine radio VHF-FM CH 09, 69, 70, and 71. For on-scene conditions, mariners can contact the contractor at 415-265-1167 or 510-715-5555. Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	Gregg Drilling and Testing will be conducting drilling operations in the vicinity of Long Beach Outer Harbor Anchorage B. The scope of operations includes drill activities performed by the R/V QUIN DELTA. Operations are scheduled to take place from April 20, 2026, through July 10, 2026. Drilling activities will occur at approximately 33.72940° N, -118.21522° W, referenced on Charts 18751 and 18749. The R/V QUIN DELTA will be on scene and monitoring VHF-FM Channels 16, 13, and 74. All mariners are advised to use caution when transiting the area. For further comments or details, please contact Captain Tim O'Donnell at (949) 254-5190 or BEARatSEA@gmail.com.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Aqueos Corporation, operating the Motor Vessel Clean Ocean (official number 1077091, call sign WDE7605), will be conducting diving operations on the Orange County Sanitation District Outfall Structures off Huntington Beach starting on or about May 22, 2026. The operations will involve the vessel in a 4-point anchor set using divers to complete work, with the MV Mackenzie C acting as anchor assist and patrol. The project is expected to last 10-15 days and will be conducted during daylight hours, with the vessel remaining moored overnight. The location of operations is at the Orange County Sanitation District Outfall, approximate position 33°61.15781, 117°96.9012. The vessels will be monitoring VHF-FM channel 16 and can be reached by cell phone at 805-218-3023. The Motor Vessel Clean Ocean is described as a 150-foot LOA supply boat with a black hull, white and blue superstructure, and deck-mounted crane. For further information, contact Aqueos Corporation at (805) 205-3156. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Gahagan and Bryant Associates Inc. will conduct sub bottom, side scan sonar, and multibeam hydrographic surveys offshore of Huntington Beach, California, in the Pacific Ocean. Survey operations will occur between June 29 and July 10, 2026, for 2-4 days, with completion dependent on weather conditions. Operations will be conducted between sunrise and sunset, seven days a week, within the area defined by the following coordinates: 33.64286, -117.98382; 33.63949, -117.97861; 33.63800, -117.98830; and 33.63463, -117.98309 (NOAA ENC Chart US4CA60M). The survey vessel SV Yeti, a 36-foot aluminum hull pilot house vessel, grey in color and labeled "Research" on port and starboard sides, will be on scene. Survey equipment will be towed behind and side-mounted, restricting maneuverability, with some equipment towed subsurface at distances of approximately 50 meters astern depending on bottom depth. The vessel will monitor VHF channels 13 and 16. Mariners are advised to exercise caution when navigating near the survey vessel, maintain a safe distance, and proceed at reduced speed. For more information, contact vessel captain David Morse at (562) 619-6845 or Raselle Chetwynd at (949) 322-4810 or (310) 521-8127. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	S.T. Hudson Engineers, Inc. will conduct hydrographic and geophysical survey operations in the Pacific Ocean off Carpinteria, CA, approximately 0.22 nm South of Carpinteria State Beach / Tar Pit Park, within a 0.6 nm radius of the center point located at 34.383408, -119.513906 (NOAA ENC Chart US5CA65M). Operations will be conducted during daylight hours from sunrise to sunset between June 10, 2026, and June 13, 2026, subject to on-scene weather conditions, utilizing the 38-foot grey monohull R/V YETI (AIS Equipped, MMSI 338421904). Survey equipment will be towed behind and beneath the vessel, restricting its maneuverability, with some equipment towed subsurface at distances up to 250 feet astern; accordingly, mariners are advised to exercise caution, maintain a safe distance, and proceed at a reduced speed when navigating in the vicinity. The R/V YETI will monitor VHF-FM channels 13 and 16, and the vessel captain, Dave Morse, can be contacted at 562-619-6845 or hailed on VHF-FM Channel 16.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Cabrillo Beach Yacht Club will be sponsoring the Foiling Regatta series on March 28, April 18, and August 22, 2026, from 1 p.m. to 5 p.m. each day. Approximately twenty 10-foot sailing vessels will be racing on a course offshore of Los Angeles Harbor, between Pt. Fermin and Cabrillo Beach. Mariners are requested to transit the event area with caution. For more details or comments, contact Jonathan Mitsumori at (310) 831-4757. LOCATION: 33.704° N, 118.286° W
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Swim	Marine Events	Nite Moves will be conducting a swim event offshore of Santa Barbara, California, every Wednesday from May 20 to August 26, 2026, between 6:30 p.m. and 8 p.m. Approximately 50 participants will swim a 1000-meter course offshore of Leadbetter Beach at position 34.4°N, 119.698°W. For more information, please contact Jay Campbell at (805) 705-5676. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Other	Marine Events	The California Department of Fish and Wildlife - Office of Spill Prevention & Response (OSPR) will be conducting an exercise in Alamitos Bay on Thursday, May 21st from 0900-1100. During this time, the navigable portion of Los Alamitos Bay entrance may be obstructed and unpassable due to the deployment of oil spill boom for up to 45 minutes. CDFW-OSPR and contractors with SoCal Ship Services will be on scene to direct traffic; questions can be directed to Ms. Sonia Torres at 562-370-6794 or sonia.torres@wildlife.ca.gov.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Long Beach and Alamitos Bay Yacht Clubs will sponsor the Long Beach Race Week regatta from June 26 to June 28, 2026, between 4:30 p.m. and 9 p.m. each day. Approximately 20 to 30 vessels will be sailing on a series of courses in Long Beach Harbor, both inside and outside of the breakwater, at location 33.736, -118.149. Mariners are advised to use caution when transiting in the vicinity of the event. For more details or comments, contact Alex Romanguolo at (562) 598-9401. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Hokuloa Outrigger Canoe Club will sponsor the Ventura Outrigger Challenge on June 13, 2026, from 6 a.m. to 5 p.m. Approximately 45 outrigger canoes will be racing on a series of courses ranging from 5 to 12 miles in distance. Races will start offshore of Ventura Harbor, proceed north to Emma Woods State Beach, and return south to the main channel of Ventura Harbor, at location 34.246, -119.275. Mariners are requested to transit the area with caution. For more details or comments, contact Tatiana Szerwinski at (310) 422-4512. All mariners are advised to transit the area with caution.

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Swim	Marine Events	Reef & Run LLC will sponsor the Reef & Run swim event every Thursday evening from June 4 to August 27, 2026, between 6:30 p.m. and 7:30 p.m. Approximately 300 total swimmers will be racing on a series of courses within the swimming zone offshore of East Beach, Santa Barbara, CA, at location 34.414, -119.673. The final event on August 27, 2026, will involve approximately 140 participants starting from a vessel approximately 1,200 meters from the shore, swimming back to East Beach. Mariners are advised to use caution when transiting nearby. For more details or comments, contact Jane Cairns at (805) 886-8123. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Anduril Industries will be conducting manned Autonomous Surface Vessel (ASV) operations aboard the Blair C near Huntington Beach from May 10 to September 1, 2026, between 0800 and 1700 hours daily. Testing will occur within Area 1, bounded by positions: 33.5476°N, -118.1272°W; 33.5593°N, -117.8526°W; 33.4311°N, -117.8229°W; 33.3906°N, -118.0612°W. Blair C will be crewed at all times and will monitor channel 16. All vessels are requested to maintain greater than a 2.5 nautical mile separation for safety. For more information, please contact Adam Potwora at +1-949-841-6583. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Fathomwerx Proving Ground (FPG) will conduct unmanned vessel operations in the Santa Barbara Channel from June 1, 2026, to July 3, 2026. Exercises will take place daily between 0700 and 1900 hours on the following dates: June 1-5, June 8-12, June 15-19, June 22-26, and June 29-July 3. Operations will be confined to a 5x5 nautical mile area defined by the following corner positions: 34.31478, -119.41681; 34.25559, -119.31968; 34.17480, -119.39084; and 34.23406, -119.48813. Approximately 12 vessels will be involved, and mariners are requested to maintain a safe distance from the testing area and the FPG Support perimeter security vessel. All vessels will monitor VHF channel 16 (hail "FPG Support Vessel Water Lead") and can be reached at 805-837-7468. For more information, please contact Fathomwerx Proving Ground at 805-837-7468. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Low flying firefighting aircraft known as water scoopers will be operating within 3 nautical miles off Santa Rosa Island, California. The aircraft will be conducting water retrieval operations while combating the Santa Rosa Island fire. Mariners are advised to transit the surrounding waters of Santa Rosa Island with caution and maintain a sharp lookout for low flying aircraft.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Serco, in conjunction with American Marine Corp, will conduct autonomous ship testing with the autonomous vessel USX-1 Defiant in the area from Point Fermin to Point Vicente, north of the VTS lanes, roughly along the San Pedro Escarpment. Operations will take place from 0800 to 1700 on May 29, 2026, June 4, 2026, and June 11, 2026. Defiant Operations can be contacted directly on VHF Channel 16 or via support vessel Christy S. All mariners are advised to transit the area with caution and maintain a 1 nautical mile separation from the USX-1 Defiant. For more information, contact Serco at (858) 382-7119 or American Marine Corporation at (310) 832-3321. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The US Army Corps of Engineers will conduct nearshore marine operations to place new mooring tackle in the former seasonal anchorage area off Santa Barbara, CA. Operations will be centered at approximately 34.410393, -119.683094 and will occur during daylight hours for no more than nineteen intermittent days between June 29 and August 31, 2026. For more information, contact the US Army Corps of Engineers at (805) 564-5537. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Anduril Industries will conduct unattended Autonomous Underwater Vehicle (AUV) operations in the vicinity of San Clemente, Southern California, from June 8 to June 10, 2026. The R/V Bold Horizon will be on scene monitoring VHF Channel 16. Operations will take place within the area bounded by the following coordinates: 33.27580, -118.65587; 33.17584, -118.63538; 33.42811, -117.66905; and 33.20007, -117.47349. Mariners are requested to use caution when transiting near the Bold Horizon. For further comments or details, contact Kevin Stoddard at +1-949-796-0703. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Anduril Industries will be conducting unattended Autonomous Underwater Vehicle (AUV) operations from June 10, 2026, through June 11, 2026, in the vicinity of San Clemente. During normal operations, no support vessel will be on scene. The AUV will be identifiable by a quick-flashing all-round white light and reflective tape. All vessels are requested to maintain a 1 nautical mile separation to ensure safety while conducting AUV operations. Operations will take place within the area bounded by the following coordinates: 33.40670, -117.70195; 33.42068, -117.66524; 33.35207, -117.60766; and 33.35018, -117.65986. For further comments or details, contact Kevin Stoddard at +1-949-796-0703. All mariners are advised to transit the area with caution.
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Chevron will conduct diving operations using the D/B Ocean Provider (official number 569956; call sign "Ocean Provider") offshore Carpinteria, CA, within the area bounded by the following coordinates: 34.39248, -119.52746; 34.38423, -119.50036; 34.32921, -119.52504; and 34.33745, -119.55709. Operations will begin on or around June 18, 2026, and are expected to be completed on or around July 31, 2026. The vessel will be in a 6-point moor and diving operations will be conducted 24 hours per day throughout the 45-day project duration. The D/B Ocean Provider is a 270-foot vessel with a black hull, white superstructure, and a typical derrick barge configuration featuring a red deck-mounted crane. The vessel will monitor VHF Channel 16 and can be reached by cell phone at 951-238-8221. For more information, contact Chevron at (805) 448-0739. All mariners are advised to transit the area with caution.

Sector San Diego, Submerged Lands Act (SLA)/General/Bridges	Bridges	COLORADO RIVER-AVAILABILITY OF COAST GUARD PUBLIC NOTICE- PROPOSED NEW SECOND BRIDGE – LAKE HAVASU CITY, ARIZONA- All interested parties are notified that the U.S. Coast Guard, as the lead federal agency, announces the availability of a draft Environmental Assessment (EA) in accordance with the National Environmental Policy Act of 1969 (NEPA) and Section 106 of the National Historic Preservation Act (NHPA) for the proposed new Second Bridge, across the Colorado River (Bridgewater Channel), mile 209.3, at Lake Havasu City, Mohave County, Arizona. The project includes a new bridge and its approaches across the Colorado River (Bridgewater Channel) just upstream of the existing London Bridge. Public Notice (SW-167-2026), dated May 11, 2026, is being published on the Coast Guard Navigation Website. Interested parties may access the public notice at; Public Notices for Bridges - Southwest District at web site https://www.navcen.uscg.gov/public-notice-for-bridges-active-by-district?district=11&subdistrict=n . The draft EA can be directly accessed at the Coast Guard Office of Bridge Programs Projects website at https://www.dco.uscg.mil/Our-Organization/Assistant-Commandant-for-Prevention-Policy-CG-5P/Marine-Transportation-Systems-CG-5PW/Office-of-Bridge-Programs/PROJECTS/ by calling the U.S. Coast Guard Southwest District Bridge Office at (571) 607-2207; by writing to Commander (dpw), U.S. Coast Guard Southwest District, Coast Guard Island, Bldg. 50-2, Alameda, CA 94501-5100; or by email request at D11Bridges@uscg.mil. Interested parties are requested to express their views, in writing, on the proposed project’s possible environmental impacts. Comments will be received for the record at the contact information in the previous paragraph through June 10, 2026.	Lat: 34° 28' 24" Lon: -114° 21' 02"
Sector San Diego, Submerged Lands Act (SLA)/General/Bridges	Bridges	COLORADO RIVER-ARIZONA/CALIFORNIA-AVAILABILITY OF COAST GUARD PUBLIC NOTICE-All interested parties are herein notified that the Commander, Coast Guard Southwest District, has received application materials, dated November 12, 2025, from the California Department of Transportation for approval of location and plans for a replacement bridge over a navigable waterway of the United States. BRIDGE, WATERWAY AND LOCATION: Replacement Topock Highway (I-40) bridge, mile 233.9, across the Colorado River, between San Bernadino County, California and Topock, Mohave County, Arizona. Public Notice (SW-168-2026), dated May 18, 2026, is being published on the Coast Guard Navigation Website. The public notice contains a detailed description of the proposed bridge replacement project and includes location map and bridge drawings with navigational clearances. Interested parties may access the public notice at Public Notices for Bridges - Southwest District. The public notice may also be obtained by calling the U.S. Coast Guard Southwest District Bridge Office at (571) 607-5820; by writing to Commander (dpw), U.S. Coast Guard Southwest District, Coast Guard Island, Bldg 50-2, Alameda, CA 94501-5100; or by email request at D11Bridges@uscg.mil. Mariners are requested to comment on the proposed bridge replacement project and navigational safety issues. Interested parties are requested to express their views, in writing. Comments concerning Public Notice (SW-168-2026) will be received for the record at the address noted in the header or via email at D11Bridges@uscg.mil through June 17, 2026. Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Southern California Edison (SCE) will perform maintenance on the existing SONGS revetment (riprap) by restacking the existing rock and adding new rock fill material along 1,470 linear feet of shoreline to restore the riprap to its original, permitted design. Work activities will occur within the SONGS walkway area in San Diego County, at 33.3689, -117.5556, and rock placement and stacking will extend 27 feet out from the pedestrian walkway. The project will begin on 01 June 2026 and run through the end of December 2026. For more information, contact Southern California Edison. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The RPM Racing Enterprises will be sponsoring the Blue Water Resort and Casino Best of the West Series 2026 Western Nationals Rounds 5 and 6 event on June 12-14, 2026 from 6 AM to 6 PM. The event occurs directly in front of the BlueWater Resort and Casino and participants will race around a course consisting of red and yellow buoys. Mariners are advised to exercise caution when transiting near the event area. For further comments or details, contact Ross Wallach at 310-318-4012.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Events/Other	Marine Events	Parker Regional Chamber of Commerce and Tourism will be sponsoring the Annual Parker Tube Float event on June 13, 2026 from 7 AM to 5 PM. The event starts at Buckskin State Park and finishes at the La Paz County Park. Mariners are advised to exercise caution when transiting near the event area. For further comments or details, contact Erica Daniels at 928-669-2174.	

Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Miscellaneous	Miscellaneous	Anduril Industries will be conducting Autonomous Underwater Vehicle (AUV) operations in the vicinity of Dana Point, California. The scope of operations includes deployment and recovery activities supported by the research vessel RV Zephyr (IMO 8992845, MMSI 338142000). Operations are scheduled to take place from January 23, 2026, through December 31, 2026. The operational area is defined by the following coordinates: Top Left: 32.79972° N, -117.56750° W Bottom Left: 32.75306° N, -117.55861° W Top Right: 32.80083° N, -117.29639° W Bottom Right: 32.76250° N, -117.28639° W This operation is referenced on NOAA Chart 18740. The RV Zephyr will be on scene and monitoring VHF Channel 16. All mariners are advised to transit the area with caution when near the RV Zephyr. For further information or details, please contact Josh Knaak at +1-949-512-1312 or +1-949-841-9239.
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Miscellaneous	Miscellaneous	Marine Corps Base (MCB) Camp Pendleton will be conducting live fire operations for predator control along the coastal areas of Blue Beach and White Beach. The scope of operations includes wildlife management for the protection of federally-endangered bird species, utilizing small arms such as rifles, handguns, and shotguns by trained professionals. Operations are scheduled to commence on March 16, 2026, and will continue at intermittent and unpredictable times, concluding on September 15, 2026. Live fire will occur along the shoreline of MCB Camp Pendleton between approximately 33.22200° N, -117.40861° W and 33.28750° N, -117.46250° W. All mariners are advised to use extreme caution while transiting the area. Although fire will not be directed toward the ocean, vessels are recommended to remain at least 500 meters from the shoreline during operations. For additional information, please contact the MCB Camp Pendleton Range Control Watch Officer at (760) 725-4277 or Conservation Law Enforcement at (760) 725-3360.
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Miscellaneous	Miscellaneous	The Marine Corps Tactical Systems Support Activity (MCTSSA) will conduct oceanographic surveillance operations to support training area safety at Camp Pendleton for the 3rd Amphibious Assault Battalion, 1st Recon Battalion, and Assault Craft Unit 5. Operations will involve the deployment and quarterly maintenance of in-water oceanographic data collection buoys at the following positions: Spotter 1 at 33.2965225, -117.4729195; Spotter 2 at 33.2900481, -117.4677166; and Spotter 3 at 33.2853513, -117.4626498. The operation will occur between May 6, 2026, and May 6, 2027, utilizing up to two boat teams and a maximum of eight personnel. For more information, please contact Capt Keo, Daniel at MCTSSA at 760-725-0533 or 404-509-7690. All mariners are advised to transit the area with caution.

Mariners are strongly encouraged to exercise caution while transiting the area.	
Sector San Diego, Exclusive Economic Zone (EEZ) - Sector San Diego, Territorial Sea/General/Naval Activity/Military Operations	Naval Activity	The United States Navy will conduct hazardous operations from 0800 UTC on June 1, 2026, until 0800 UTC on July 1, 2026, in the area bounded by the following coordinates: 32.87833, -119.19944; 33.13444, -118.86722; 33.13444, -118.76722; 33.06444, -118.69667; 33.04222, -118.72583; 32.98139, -118.72528; 32.79444, -118.53917; 32.61528, -118.75000; 32.61528, -118.94917; and returning to point of origin. All mariners are advised to stay clear of these areas.	
Sector San Diego, Exclusive Economic Zone (EEZ) - Sector San Diego, Territorial Sea/General/Naval Activity/Military Operations	Naval Activity	The United States Navy will conduct hazardous operations from 0800 UTC on June 1, 2026, until 0800 UTC on July 1, 2026, in the area bounded by the following coordinates: 32.91667, -118.41667; 32.91667, -118.25000; 32.66667, -118.25000; 32.66667, -118.58333; 32.75000, -118.58333; and returning to point of origin. All mariners are advised to stay clear of these areas.	
Sector San Diego, Exclusive Economic Zone (EEZ) - Sector San Diego, Territorial Sea/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	The US Navy will be conducting autonomous Unmanned Surface Vessel (USV) testing operations in the vicinity of Point Loma, San Diego, on June 17, 2026. Testing activities will occur within the area bounded by the following coordinates: 32.74517, -117.36417; 32.74517, -117.31417; 32.69483, -117.31417; and 32.69483, -117.36417. The USV will be escorted by two chase craft coming from San Diego en route to the Point Loma coordinates. Vessels involved in the operation will monitor VHF-FM Channel 16. For additional information, please contact COMLCSRON SDO at 619-322-1799 (24-hour phone) or Jacob Gilinsky at 202-368-8375. All mariners are advised to transit the area with caution.	
Sector San Diego, Exclusive Economic Zone (EEZ) - Sector San Diego, Territorial Sea/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	The Naval Information Warfare Systems Center (NIWC) Pacific will conduct 24/7 autonomous surface operations of one Liquid Robotics, Inc. Wave Glider off the coast of La Jolla, California, from June 24, 2026, to July 1, 2026. Operations will occur within the area bounded by the following coordinates: 32.79251, -117.36599; 32.83350, -117.36599; 32.83350, -117.50900; and 32.79251, -117.50900. Navy Safe Boat NSB44 will be on-scene monitoring VHF-FM channels 16 and 81A during launch and recovery. Operations consist of scientific ocean data collection. The Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from Naval Base Point Loma, moves at speeds of approximately 1 knot, and is designed to give way or part if encountered by a vessel. The Wave Glider is approximately 8.5 feet by 2.5 feet (surfboard size), dark green in color, with a contact plaque and a mast extending 3 feet above the water surface supporting a flag. Mariners are requested to transit the area with caution. For more details or comments, contact Michael Koppi at michael.r.koppi.civ@us.navy.mil or 619-341-2497. All mariners are advised to transit the area with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Rock barrier construction will be conducted in the channels of Middle River, Old River, and Grant Line Canal, San Joaquin County. The scope of operations includes excavators from the levee dropping rock in the channels to build barriers across to the opposite levee. No barges will be used for the installation of the barriers. Operations are scheduled as follows: Construction: May 1, 2026, through the first week of June 2026 Barrier in place: First week of June 2026 through end of October 2026 Removal: November 1, 2026, through November 30, 2026 The channels will be blocked until approximately November 30, 2026. DWR will provide boat portage at Old River and Grant Line Canal, but not at Middle River, which is not navigable due to shallow depth. Locations of operation: Middle River near Victoria Canal: 37.8857° N, -121.4822° W Old River near Tracy: 37.8103° N, -121.5428° W Grant Line Canal near Tracy Boulevard Bridge: 37.8199° N, -121.4483° W No vessels are involved in the operation. This activity is referenced on Chart US4CA46M. For additional information, please contact the Area Control Center at (209) 833-2180 (24-hour phone). All mariners are advised to transit the area with caution and observe all navigation restrictions and portage instructions.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Open Ocean Robotics will be operating uncrewed surface vehicles (USVs) within a 10 nautical mile radius centered on NOAA Buoy 46012 (37.35556° N, -122.88083° W), approximately 24 nautical miles south-southwest of San Francisco, CA. The scope of operations includes continuous remote operation of one USV at a time, with periodic battery swaps requiring brief overlap of two USVs in the area. Operations are scheduled to take place 24 hours a day, seven days a week, from January 20, 2026, through December 31, 2026. During battery swaps, one USV will hold station while the replacement USV transits from Half Moon Bay to the operational area. Once the replacement USV arrives, the original USV will return to Half Moon Bay for recharging. The USVs are broadcasting on AIS under the names "DATAEXPLORER013" (MMSI 316056469) and "DATAEXPLORER016" (MMSI 316058968), and are equipped with radar reflectors and small-craft navigation lights. Each vessel is approximately 12 feet long, 3 feet wide, and 4 feet high, colored red and white. All mariners are advised to transit the area with caution. For more information, please contact Madeleine Bouvier-Brown at 604-347-0036.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Sofar Ocean Technologies will conduct autonomous/uncrewed surface vessel testing and survey operations within a constrained test area approximately 4.4 miles southwest of the Princeton Harbor entrance. The bounding box for the operating area is defined by the following coordinates: NW: 37.44582, -122.53571; NE: 37.44605, -122.52030; SE: 37.43560, -122.52059; SW: 37.43593, -122.53535. Operations will take place from June 4, 2026, to August 4, 2026. Vessels involved include the ASV/USV Online Oceans Scout (8 ft long, blue hull, CF 7447 TR, marked "RESEARCH") and the support vessel, a 19-foot C-Dory (CF 3571 SX). The ASV will display a white 360-degree navigation light at 1 meter height. The on-scene operator and support vessel will monitor VHF-FM Channel 16. For more information, contact Cameron Dunning at Sofar Ocean Technologies, 415-912-6858. The ASV will operate within the defined bounding box at speeds up to 3 knots, monitored 24 hours remotely with a GPS geofence and occasionally manually with a camera. Mariners are requested to transit with caution and maintain a safe distance. All mariners are advised to transit the area with caution.
