Alameda Naval Air Station Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Francisco Oakland Bay Bridge West Crossing - Alameda Naval Air Station Channel/General/Miscellaneous	Miscellaneous	The U.S. Coast Guard is conducting a Waterways Analysis and Management System (WAMS) study of NAS Alameda. The study focuses on the area's aids to navigation system, waterborne commerce, marine casualty information, port/harbor resources, emergency response plans, routine and emergency communication capabilities, and future development projects. This study seeks to obtain data on the effectiveness of the system of Aids to Navigation, as well as other waterway safety concerns. Any interested company or individual wishing to provide comments or participate in a user survey may do so via link at: https://www.research.net/r/LTR8FBC or contact LTJG Robert Black at d11-smb-d11-lnm@uscg.mil or via phone at (571)-610-6866 by August 18, 2026.

San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting Marine construction in the vicinity of Vallejo, California within the California State University Maritime Academy Boat Basin. The initiation of waterside operations for this project will entail the deployment of multiple crane barges secured by both anchors and spuds, along with a continuous rotation of material supply barges, tug tenders, "Linda T" workboat, and various small skiffs. Activities are scheduled to commence as early as September 12, 2025 to December 2027. Beginning with the mobilization of Crane Barge Kelso ("CB Kelso") and EM1106 ("Morty") barge fitted with appropriately sized crawler cranes. The designated vessels will be monitoring VHF-FM channels 9 & 16, with the working channels 68A or 80. All mariners are advised to use caution when transiting the area, for more information contact: Scott 707-333-5029	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting wharf demolition operations at CSUMA in Vallejo, California. The scope of work includes removal and demolition of wharf structures using multiple vessels. Operations are scheduled to take place from April 27, 2026, through August 3, 2026. Vessels involved in the operation include: Little Cindy (Call Sign: Little Cindy) Crane Barge 2 (Call Sign: CB2) All vessels will monitor VHF-FM radio frequencies 13 and 14 when near deep-draft traffic, and channel 16 when not near deep-draft traffic. The area of operation is centered at approximately 38.06554° N, -122.23007° W. For additional information, please contact Matt Bramlett at (925) 818-2324 or Mbramlett@silveradocontractors.com. All mariners are advised to transit the area with caution.	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will conduct continuous, 24-hour dredging and disposal operations at the Cal Maritime Boat Basin in the Carquinez Strait from July 6, 2026, through approximately September 30, 2026. Dredging will be performed by the clamshell dredges "DB 24" and/or "DB Beaver," supported by a fleet of four split-hull scows, the tender tug "Becky T," and the tow tug "Sarah Reed" (Call Sign: KX7468) or a similar vessel. Maintenance sediment from the Legacy Dredge Area (LDA) will be transported for disposal at the SF-09 site, while sediment from the New Dredge Area (NDA) will be disposed of at the MWRP site. All working vessels will actively monitor VHF-FM channels 13, 14, and 80. Mariners are advised to exercise extreme caution, maintain a safe distance from all working equipment, and proceed at a safe speed when transiting the Carquinez Strait. For operational questions or passing arrangements, contact the dredge superintendent, Mr. Dennis Salyers, at (415) 497-5289, or the project office at (415) 218-6739.	

Channel Islands Harbor

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Submerged Land Act (SLA) - Channel Islands Harbor/General/Miscellaneous	Miscellaneous	Fathomwerx Proving Ground will be conducting unmanned vessel operations in the Santa Barbara Channel from August 3 to August 7, August 10 to August 14, August 17 to August 21, and August 24 to August 28, 2026, daily between 0700 and 1900 hours. Approximately 12 vessels will be involved, operating within a 5x5 nautical mile area bounded by positions 34.31478°N, -119.41681°W; 34.25559°N, -119.31968°W; 34.17480°N, -119.39084°W; and 34.23406°N, -119.48813°W. The FPG Support perimeter security vessel will monitor VHF channel 16 (hail "FPG Support Vessel Water Lead"). For more information, please contact Wes Boyle at 805-837-7468. All mariners are advised to maintain a safe distance and transit the area with caution.	

Dana Point

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Submerged Land Act (SLA) - Dana Point/General/Marine Events/Regatta (Race)	Marine Events	The Dana Outrigger Canoe Club will sponsor the Whitey Harrison Outrigger Canoe Race on August 8, 2026, from 8 a.m. to 4 p.m. This event will involve two separate heats (morning and afternoon), with 50 outrigger canoes and supporting vessels per heat, racing on a course starting near Doheny State Park at 33.45, -117.68, proceeding north to Laguna Beach at 33.49, -117.75, and returning to finish at Doheny State Park. Event persons-in-charge can be contacted by phone at (760) 994-9118 and (994) 533-2354 during the event. Mariners are requested to use caution when transiting in the vicinity of the event. For more details or comments, contact Susan Compton at (760) 994-9118. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Submerged Land Act (SLA) - Dana Point/General/Marine Events/Regatta (Race)	Marine Events	The Dana Outrigger Canoe Club will sponsor the Whitey Harrison Outrigger Canoe Race on August 8, 2026, from 8 a.m. to 4 p.m. This event will involve two separate heats (morning and afternoon), with approximately 110 total vessels on the water per heat: 50 outrigger canoes, 50 supporting vessels (one per canoe), and 10 safety vessels provided by the sponsor. Participants will race on a course starting near Doheny State Park at 33.45, -117.68, proceeding north to Laguna Beach at 33.49, -117.75, and returning to finish at Doheny State Park. Event persons-in-charge can be contacted by phone at (760) 994-9118 and (994) 533-2354 during the event. Mariners are requested to use caution when transiting in the vicinity of the event. For more details or comments, contact Susan Compton at (760) 994-9118. All mariners are advised to transit the area with caution.	

Del Mar Boat Basin

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Oceanside - Del Mar Boat Basin/General/Miscellaneous	Miscellaneous	The U.S. Coast Guard has received a report of shoaling in the vicinity of the Oceanside Harbor entrance near Oceanside South Jetty Light 2, located at approximately 33.20583° N, -117.40138° W. Mariners are advised that vessels with a draft of 10 feet or greater should remain to the west side of the channel during tides of less than +1 foot, as there is a risk of grounding on the east side of the channel during negative tides for drafts of 10 feet or greater. All mariners are urged to transit the area with caution. The relevant chart numbers for this area are US5CA77M (Del Mar Boat Basin) and US4CA73M (Gulf of Santa Catalina, Del Mar Boat Basin-Camp Pendleton). Questions or concerns can be directed to marineeventssd@uscg.mil

Los Angeles East Basin Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Los Angeles Main Channel - Los Angeles East Basin Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	JILK Heavy Construction will conduct timber pile installation that will be conducted as part of the Berths 187, 188, 189 & 190, located in Wilmington, CA from 23 March 2026 thru 26 October 2026. Jilk Heavy Construction's 60'x70' Flexi-Float mounted barge crane will be located at various points along berths 187 thru 190 and will be moored with the use of spuds. Alongside there will be several 18' work skiffs. The operations during this project will include the removal and reinstallation of timber piles, steel pile and concrete repairs. (general area bound by the following waypoints): 33.76401 -118.26001 This work will be conducted during daylight hours Monday through Friday. Crews will work various hours between 6:00 am and 6:00 pm on those days. All floating and water-based equipment will monitor VHF-FM channel 16 during working shifts. Mariners are advised to use caution when transiting the area. For further comments or details the General Superintendent Joe Salgado can be reached at (310) 505-0142 or Barge Forman Joe Carrico at (310) 505-7346 and will be available to address any questions or concerns regarding the on-site operations.	

Los Angeles Main Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Los Angeles Approach Channel - Los Angeles Main Channel/General/Bridges/Rehabilitation	Bridges	SOUTHERN CALIFORNIA-LOS ANGELES/LONG BEACH HARBOR-VINCENT THOMAS BRIDGE The temporary protective shield platform reached the center 500-foot navigation span from the west side on April 29, 2026. Installation from the east side is anticipated to reach the center 500-foot navigation span during the week of May 4, 2026. The temporary shield reduces vertical clearance in the channel by no more than 2.5 feet and will be in place through February or March 2029. The bridge's air gap sensor will remain operational and the green center channel lights and the red channel margin lights will remain visible. The "VINCENT THOMAS SAFETY BOAT" will be on scene during shield installation and may be contacted via VHF Channels 16, 13, and 73. For further information, contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or phone at 571-607-2206.	Lat: 33° 44' 59" Lon: -118° 16' 17"

Sector San Francisco, Submerged Land Act (SLA) - Monterey/General/Miscellaneous	Miscellaneous	The Monterey Bay Aquarium Research Institute (MBARI) will be conducting autonomous, unmanned maritime vehicle operations using two Liquid Robotics, Inc. Wave Gliders in Monterey Bay. The scope of operations includes continuous scientific ocean data collection utilizing Wave Gliders remotely attended from MBARI. Operations are scheduled to take place 24 hours a day, seven days a week, from January 12, 2026, through December 31, 2026. Wave Glider vehicles will be deployed in the vicinity of Moss Landing and will operate continuously between latitudes 36.30000° N and 37.20000° N, extending shoreward from as far west as -122.97650° W. Each Wave Glider is approximately 8 feet by 2 feet (surfboard size), yellow/copper in color, with a contact plaque and a mast extending 1 meter above the water surface supporting a flag. The vehicles are wave-powered, carry no fuel, lubricants, or hydrocarbons, move at speeds of approximately 1 knot, and are designed to give way or part if encountered by a vessel. All mariners are advised to transit the area with caution. For further information, please contact MBARI at 831-775-1700 or waveglider@listserver.mbari.org, or Liquid Robotics 24/7 WGOE Operations at 888-574-4574 or +1 408-636-4205.

NAVAREA XII/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will conduct demolition operations of Pier 60 from August 3, 2026, through August 7, 2026, in the vicinity of coordinates 37.774411, -122.392852. The operations will involve the vessels Zaccor 1 (Call Sign: Zaccor 1) and Zaccor VII (Call Sign: Zaccor 7). Mariners are advised to exercise caution when transiting the area and maintain a safe distance from the demolition site and work vessels. Vessels on scene will monitor VHF-FM channels 13 and 14 when operating near deep-draft traffic, and Channel 16 when clear of deep-draft traffic. The project point of contact is Matt Bramlett, who can be reached at (925) 818-2324 or via email at Mbramlett@silveradocontractors.com.	
NAVAREA XII/General/Miscellaneous	Miscellaneous	Longitude 123, Inc. will conduct underwater and commercial diving operations in the Middle River, Latham Slough, and Empire Cut near Mildred Island, CA, centered near position 37.971000, -121.527000. Operations are scheduled to run from July 20, 2026, through August 31, 2026. All project vessels will monitor VHF-FM Channel 16 and will display Code Alpha and Diver Down flags whenever divers are in the water. Mariners are requested to transit the surrounding area with extreme caution; all vessels approaching the moored work vessels must receive direct radio permission from the diving supervisor before passing within 500 feet of any project vessel. For additional details or operational coordination, contact Mark Steffy at 805-223-0178.	
NAVAREA XII/General/Naval Activity/Military Operations	Naval Activity	Hazardous operations will be conducted within NAVAREA XII in the area bounded by the following coordinates: 33.36667, -122.16667; 34.16667, -123.16667; 35.30000, -122.65000; 35.23333, -121.43333; and 34.03333, -120.96667. Operations will occur during the following dates and times: July 27, 2026, from 1400Z to 2000Z (SR927723, primary); July 28, 2026, from 1400Z to 2000Z (SR927730, primary); and July 29, 2026, from 1400Z to 2000Z (SR927731, primary). Surface vessels are strongly advised to avoid these areas during the specified dates and times. PMSR aircraft and surface vessels may be on scene to clear non-participating vessels out of these areas. Within 24 hours of transiting PMSR, vessels are requested to submit a notification to PLEAD Control indicating vessel name, destination, and estimated time of entry into and departure from the PMSR in accordance with US Coast Guard Pilot 7, Chapter 4, Paragraph 439. Notifications should be faxed to (805) 989-0102 or emailed to PMSR_SURVEILLANCE@US.NAVY.MIL. Prior to entering the PMSR, please contact PLEAD Control at (805) 816-0792; if no answer, call the after-hours line at (805) 989-1470 to obtain current operations status, including stand-off areas which are identified on this recorded line and updated daily at 1700 PST. During operations, PLEAD Control will be managing hazardous area surface traffic on VHF Marine Band Channel 16 and Channel 11. Vessels in the vicinity of the PMSR should contact the Range Surveillance Center at (805) 989-7587/7211. For further information, contact Christian Whiting (Senior Operations Test Specialist) at 805-989-9651 / DSN 351-9651. All mariners are advised to transit the area with caution.

Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. will conduct dredging operations within Newport Bay Harbor, California. The scope of operations includes dredging activities with disposal occurring at the LA-3 Ocean Dredged Material Disposal Site and the Port of Long Beach Pier G facility. Pre-dredge surveying and diving operations began on October 23, 2025, and are ongoing. Equipment mobilization is scheduled to start on December 8, 2025, with dredging expected to commence on or about December 10, 2025. Equipment demobilization is anticipated to be completed by October 28, 2026. The center of the dredging area is located at coordinates 33.60898° N, -117.90689° W (degree decimal format) and is referenced on NOAA Chart No. 18754. A temporary mooring buoy will be placed on a rotating basis at one of three locations: 33.61126° N, -117.90715° W 33.60857° N, -117.91713° W 33.60733° N, -117.91232° W Vessels involved in the project include the DB Point Loma, Jeanie R push boat, John Drake work boat, RES Survey Boat, Tug Killeen, Tug Sagittarian, and disposal scows Rob P. and Mike J. All equipment will monitor VHF-FM Channel 16. Mariners are advised to stay at least 300 feet away from equipment, transit at their slowest safe speed to minimize wake, and proceed with caution after passing arrangements have been made. For additional information, please contact: Dalton Elzey, R.E. Staite Engineering, Inc.: 925-822-6775 Jose Rocha, U.S. Army Corps of Engineers: 909-253-9921	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The City of Newport Beach Harbor Department will temporarily close the public East Anchorage, bounded by the four indicator buoys in the Five Points area of Newport Harbor, to support the ongoing large-scale Army Corps of Engineers dredge operation. The closure will be effective from February 1, 2026, and will remain in place until dredge operations in the area are complete (approximately six months). The closed anchorage is located at approximately 33.60868° N, -117.90959° W. Large-scale dredge equipment will be operating and transiting the area and adjacent channels continually until the permitted project is complete. An alternative public anchorage is available in the West Turning Basin of Newport Harbor during this period of closure. The Harbor Department can be reached on VHF Channel 17 or via phone at 949-270-8159 before, during, and after the dredge operation. All mariners are requested to use the alternative anchorage and transit the area with caution.

Sacramento River/General/Bridges	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-FREEPORT BASCULE BRIDGE-The bridge will be secured in the closed to navigation position from November 1 through November 30, 2026 to conduct urgent repairs in order to maintain the reliable operation of the bridge. When closed the bridge provides 29' of vertical clearance at Mean High Water. Vessels able to transit the bridge while closed can continue to do so at any time. For further information contact the Coast Guard Bridge Office at 571-607-2207 or at D11Bridges@uscg.mil.	Lat: 38° 27' 20" Lon: -121° 30' 07"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Dutra Group will conduct material placement operations for the California Department of Fish & Wildlife at the Liberty Island Ecological Reserve in Sacramento County, CA, from May 1, 2026, to no later than August 31, 2026. Operations will involve anchoring Crane Barge 12 via spuds along the perimeter of Liberty Island, supported by a tugboat and material barge. The crane barge and tugboat will mobilize from Dutra's Rio Vista Yard, with work occurring at various locations within and around the construction area. Barges will be spudded in with steady burning lights at the end of each shift, and all marine equipment will monitor VHF-FM channels 9, 16, and working channel 68A. For more information, please contact (707) 333-5029. All mariners are advised to transit the area with caution and at their slowest safe speed to minimize wakes.	

Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Contractors for the U.S. Army Corps of Engineers will conduct marine operations for levee rehabilitation along the Sacramento River between River Miles 47.3 and 53.5 . Waterside work is scheduled to begin July 6, 2026, and will continue through approximately November 30, 2026. Operations will involve up to three crane barges (including Crane Barge #12, measuring approximately 140' x 50'), a tugboat, two workboats, and a rotation of flat deck barges. Work will occur during daylight hours; however, barge maneuvering outside the construction area may occur 24 hours a day. Flat deck barges will transit between the job site and the San Rafael Rock Quarry, utilizing pre-existing moorings along the Sacramento River, including locations at River Miles 26 and 27 near Walnut Grove, CA. At the end of each shift, barges will be spudded in place and marked with steady burning white lights on all corners. Mariners are advised to use extreme caution, transit at their slowest safe speed to minimize wake, and maintain a safe distance. Project vessels will monitor VHF-FM channels 9, 16, and 68A, and can be contacted directly at (707) 333-5029.

Staite Engineering, Inc., will be conducting the Pier 4 Replacement Project in San Diego Bay at the CMSD waterfront facility (1995 Bay Front St, San Diego, CA 92113) from July 16, 2026, through June 30, 2027. Operations will occur at position 32.693333°N, -117.150556°W and will involve crane barges RES 180 and RES 150, Derrick Barge DB Palomar, floating barges RES 110 and YC Barge, RES Heavy Lift, small skiffs, tug boat Killeen, and push boat Mighty Sue C. All vessels will monitor radio channel 16. For more information, please contact Trevor Jones at 619-520-4240 or Ryan Albin at 619-772-8410. All mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Port of San Diego will conduct maintenance dredging of approximately 34,000 cubic yards from the north and south berths of the B Street Cruise Ship Terminal to restore the authorized depth of -33 feet MLLW. Dredged material will be side-cast to designated placement areas to achieve the required elevations. Operations will take place at the Port of San Diego Cruise Ship Terminal, 1140 N Harbor Dr, San Diego, CA 92101, centered at 32.71746, -117.17499 (NAD 83), from August 3, 2026, to September 21, 2026. Vessels involved in the operation include PDC 180 (180' dredge vessel with 2 spuds) and Harbor Cadet (25' tug), both monitoring VHF Channel 16. Silt curtains will be located on the perimeter of the project area north and south of B Street Cruise Ship Terminal, presenting potential hazards to navigation. For more information, contact the Duty Wharfinger at 619-400-4744. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. All mariners are advised to transit the area with caution.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Pacific Dredge & Construction, under a permit with the U.S. Army Corps of Engineers, will conduct dredging operations around the B Street Pier Cruise Ship Terminal in the Port of San Diego. Mobilization and operations are expected to run from August 3, 2026, through September 22, 2026. The 180-foot crane barge "PDC180" will be mobilized around the work area by the 25-foot tugboat "Harbor Cadet," supported by work skiffs. Working hours are from 0700 to 1900 (12 hours/day), Monday through Friday, excluding holidays. The PDC180 and Harbor Cadet will actively monitor VHF-FM channels 6 and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. Point of Contact: Raul Madera, Project Superintendent, 24-hour cell phone: (619) 992-2894.	

Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	Cortez Racing Association will be conducting the Beer Can marine event from May 20 to July 29, 2026, every Wednesday between 17:00 and 20:00(local). The event will involve 110 sailing vessels racing on a course starting at the south end of Harbor Island, proceeding through San Diego Bay, and finishing near Harbor Island at position 32.725°N, -117.212°W. For more information, please contact Toralf Strand at 603-918-8060. All mariners are advised to transit the area with caution.

Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Manson Construction Co. will be conducting clamshell dredging operations for the Oakland Inner & Outer Harbor Channel FY25 Maintenance Dredging project (Contract No. W912P726CA006), sponsored by the US Army Corps of Engineers, San Francisco District. The scope of operations includes dredging the Oakland Inner Harbor Channel from station 0+00 to 244+00 and the Oakland Outer Harbor Channel from station 0+00 to 134+00, with upland sediment disposal at the Montezuma Wetlands via unloader. Dredging operations are scheduled to begin on or about January 12, 2026, and are expected to be completed by July 31, 2026. The dredging will occur within the Oakland Inner and Outer Harbor Channels, with placement at the Montezuma Unloader in Collinsville, CA. This project is referenced on NOAA ENC Chart Number US5CA13M. All mariners are advised to transit the area with caution. For additional information, please contact Manson Construction Co. at (510) 232-6319.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Marinship Development will commence dredging operations for the San Francisco Marina West Basin, City and County of San Francisco. The scope of operations includes dredging activities west of the marina entrance, centered at approximately 37.80889° N, -122.43998° W Operations are scheduled to begin on or about March 20, 2026, and will continue through November 30, 2026. Vessels involved in the project include the self-contained dredge/dump barges "DB2" and "Alaska," and tugboat "Harvey." All vessels will monitor VHF channels 13, 14, and 77. For more information regarding the operation, please contact: 415-601-1024. All mariners are advised to use extreme caution when transiting these areas.	
Golden Gate Bridge - San Francisco Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Severson Environmental Services and PGE will be conducting environmental dredging and installing steel piles from 19 May, 2026 - 30 November, 2026. Operation times will be five to six days per week, with hours of operations 5am to 7pm(local). This operation will include the use the following vessels and equipment: 40x80 PC650-01, 40x80 PC650-02, Crane Barge MICHEAL LIND, Staging barge STELLA LIND, Tug CASSIE LIND, Tug ARCHIE LIND, SEVENSON 01 and 02 work boats. The project location is centered at approximately at the San Francisco Pier 41 to Pier 43, in position: 37°48'35.20"N; 122°24'46.41"W. All vessels and equipment on site will monitor VHF-FM Channels 13, 14 and operating on 11. Severson will utilize two 40x80 barges with PC650 excavators on them to perform environmental dredging and capping via clam shell bucket and conventional buckets. Severson has hired Lind marine to subcontract out work including the transloading operations via E-Crane "Greta Jean Lind". The Michael Lind (Crane Barge) will be in the area for support, along with another spud barge "Stella Lind" for staging room. Steel pipe pile will be installed roughly up to 400 ft offshore to hold the turbidity curtain. During the project, we will also install 504 wooden piles for slope stability. The PC650 will load into 6x – 100CY (30' x 40') scows and pushed to the edge of the curtain. From there the E-Crane will take the material and transload into large Jumbo Hoppers. Lind Marine will use the Cassie Lind (1200 HP tug) to push the scows up to Birds Landing, CA to an offload facility. At the offload facility there will be an E-Crane to offload the material from the scows onto land. Lind Marine will use the Cassie Lind (1200 HP tug) to push the scows up to Birds Landing, CA to an offload facility. At the offload facility there will be an E-Crane to offload the material from the scows onto land. Lind Marine will also use the Cassie Lind to push scows to Redwood City, CA to an offload facility. All mariners are advised to use caution when transiting the area. For further comments or details, please contact SEVENSON ENVIROMENTAL project manager at (716) 807-1937. Alternate contacts: Jake Wood (607) 794-1654 and Terry Templeton (716) 476-6790.	
Golden Gate Bridge - San Francisco Bay/General/Miscellaneous	Miscellaneous	The Coast Guard has received a report that all of the moorings in San Francisco Anchorage 6 are off station and unlit. Mariners are requested to transit San Francisco Anchorage 6 with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Territorial Sea - San Nicolas Island/General/LAA/RNA/Temporary Regulated Navigation Zone	LAA/RNA	** NAVAL RESTRICTED AREA** The waters of the Pacific Ocean around San Nicholas Island, Calif., as described in 33 CFR 334.980 is a Naval Restricted Area. Boats must remain at least 300 yards from the shoreline of San Nicolas Island at all times. During closure periods, the Restricted Area will close to all vessels up to 3 miles from the shoreline as described in the CFR. No person, vessel or other craft shall enter the restricted area or designated section(s) during closure periods unless authorized to do so by the Commanding Officer, Naval Base Ventura County or the Officer in Charge, San Nicolas Island. Submarine cables within the restricted area post a risk to the equipment of vessels engaged in dredging, dragging, seining, anchoring and other bottom contact operations. Appropriate care must be taken to avoid damage. Notice that the restricted area or section(s) are closed to entry shall be given by radio broadcast Monday through Friday at 0900 and 1200 on 2638 kHz and 2738 kHz or by contacting "PLEAD CONTROL" on VHF-FM radio channel 11 or 16. Closure information may also be requested by telephone between 0600 and 1800 Monday through Friday at (805) 989-8841 or via recorded message at (805) 989-1470. The regulations in this section shall be enforced by personnel attached to Naval Base Ventura County, Point Mugu, Calif., and by such agencies as may be designated by the Commandant, 11th Naval District, San Diego, Calif. **NAVAL RESTRICTED AREA**	
Sector Los Angeles, Territorial Sea - San Nicolas Island/General/Miscellaneous	Miscellaneous	The Ventura County Commercial Fishermen's Association member vessels will be operating within a 35 mile radius of San Nicholas Island between May 01, 2026 and February 28, 2027. Vessels can be expected in this area anytime wind and sea state is at Beaufort scale of 4 or less. Gear will be marked with a flagged highflyer, radar reflector, lights and buoys. Vessels can be contacted on VHF Channel 16 and 11. For further information please contact 805 448 4455, all mariners are advised to transit the area with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Humboldt Bay, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Alcatel Submarine Networks will conduct marine route clearance operations for the RTI-Manchester subsea fiber optic cable installation offshore of Manchester, CA. Operations will occur from approximately July 13, 2026, through August 31, 2026. The 220-foot supply boat M/V Loren C will perform the clearance by dragging a grapnel along the cable route to clear debris. The alignment begins at coordinates 39.014520, -123.689753, transits through 39.027043, -123.965857, and ends at 39.018093, -124.222635, referencing the southern quarter of NOAA Navigational Chart 18620. Fishermen are strongly requested to remove all fishing gear and traps within one nautical mile of the entire cable alignment. The towed grapnel gear poses a severe collision and entanglement hazard; all mariners are requested to remain aware of the operations, maintain a minimum 1 nautical mile clearance from the M/V Loren C, and transit the area with extreme caution. The vessel will monitor VHF-FM channels 13 and 16. For further information or to make passing arrangements, contact Captain Brandon Cloud at +1-562-533-4861 or via email at LorenCCaptain@curtinmaritime.com.	
Sector Humboldt Bay, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The Coastal Data Information Program (CDIP) has deployed a moored wave buoy, CDIP ID 94 (Cape Mendocino, CA), NDBC WMO ID 46213, on June 3, 2026. The buoy is located at 40.291500, -124.747500, approximately 17.5 nautical miles southwest of Cape Mendocino, at a depth of 346.0 meters. The buoy is a Datawell Directional Waverider 4 model and measures waves, sea surface temperature, air temperature, and surface current speed and direction. The new position is within 500 yards of the previous position. The buoy is described as a 3-foot diameter sphere with an attached telemetry whip antenna and a nighttime yellow warning flashing light. The light sequence consists of 5 flashes at 1-second intervals, with a period of 20 seconds between each series, and a visual range of one kilometer. The buoy is painted yellow and marked "Wave Buoy," with the URL cdip.ucsd.edu and phone number 858-534-3032. All mariners are advised to transit the area with caution. TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Hazards To Navigation/Wrecks	Hazards To Navigation	The Coast Guard has received a report of a 21-foot sailing vessel sunk at position 33.73540, -118.11792, approximately 0.1 nautical miles east of the Alamitos Bay Harbor entrance. A white (5CFR) buoy with a quick flashing light has been set at position 33.73335, -118.11780 to mark the wrecked sailboat, with 3 feet of the vessel's mast visible above the waterline. Mariners are advised to maintain a sharp lookout and transit the area with caution.	Lat: 33° 44' 08" Lon: -118° 07' 05"
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/LAA/RNA/COTP Restriction	LAA/RNA	The Sector Los Angeles – Long Beach Captain of the Port (COTP) has established a Special Local Regulation (SLR) for the San Pedro Olympic Classes Regatta. The SLR will be in effect from 191900Z July 26 to 250200Z July 26 and from 031900Z August 26 to 090200Z August 26. The regulated area is defined by a simple, non-self-intersecting boundary, arranged in strict clockwise order, and bounded by the following coordinates: Latitude Longitude 33.72167 -118.20667 33.70500 -118.19833 33.67500 -118.28333 33.70000 -118.28333 33.71333 -118.26000 Vessels will be prohibited from entering, transiting through, loitering, or anchoring within the SLR without permission from the COTP or a designated representative. The Coast Guard can be reached via VHF Channel 16 or by phone at 310-521-3801. All mariners are advised to transit the area with caution.	

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Jilk Heavy Construction will be conducting timber pile installation operations as part of the Berths 148-149 Maintenance Project in San Pedro, California. The scope of work includes removal of timber and concrete piles and installation of steel piles, utilizing a 100' x 110' Flexi-Float mounted barge crane moored with spuds at various points along Berths 148 and 149. Several 18' work skiffs will operate alongside the barge. Operations are scheduled to begin on February 2, 2026, and will conclude on or about August 31, 2026. Work will be conducted during daylight and nighttime hours, Monday through Thursday, with crews starting at approximately 6:00 AM and working around the clock on those days. The project location is approximately 33.75592° N, -118.27372° W. All floating and land-based equipment will monitor VHF channel 16 at all times. For additional information or to address questions regarding on-site operations, please contact: Joe Salgado, General Superintendent: 310-505-0142, Joe Carrico, Barge Foreman: 310-505-7346. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Curtin Maritime (CMC) will conduct dredging operations for the West Breakwater Repair Project within Dana Point Harbor and adjacent waters near the West Breakwater and harbor entrance, Orange County, California, as depicted on NOAA Chart 18746. Operations are anticipated to commence on or about August 3, 2026, and continue through on or about September 02, 2026. Work will be conducted 12 hours per day, 6 days per week (Monday through Saturday). Mechanical dredging will be conducted by the DB Ironbound (150' x 50'), with dredged material transported via split-hull dump scows Long Point and Arrow Point (each with a 1,450 cubic yard capacity) to the approved nearshore placement site, centered at 33.45680, -117.68055. Support tugs for the operation include Kelly C, Sarah C, and Emma C. All manned equipment will monitor VHF-FM channels 11, 13, 16, and 87 or 01A (working channels). Mariners are requested to transit the area with caution, reduce wake, maintain a safe distance from the equipment, and comply with all instructions provided by on-site marine personnel. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. For more information, contact Alexandro Rodriguez, Project Manager, at (562) 241-2350. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Alcatel Submarine Networks will conduct marine route clearance operations for the RTI-PH4 subsea fiber optic cable installation within and offshore of Santa Monica Bay, CA. Operations will occur from July 13, 2026, through August 31, 2026. The 220-foot supply boat M/V Loren C will perform the clearance by dragging a grapnel along the cable route to clear debris. The alignment begins at coordinates 33.875498, -118.406897, transits through 33.598260, -118.204623, and ends at 33.690805, -120.370918, crossing NOAA Navigational Charts 18744, 18748, and 18740. Fishermen are strongly requested to remove all fishing gear and traps within one nautical mile of the entire cable alignment. The towed grapnel gear poses a severe collision and entanglement hazard; all mariners are requested to remain aware of the operations, maintain a minimum 1 nautical mile clearance from the M/V Loren C, and transit the area with extreme caution. The vessel will monitor VHF-FM channels 13 and 16. For further information or to make passing arrangements, contact Captain Brandon Cloud at +1-562-533-4861 or via email at LorenCCaptain@curtinmaritime.com.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	R/V Bold Horizon will be conducting underwater operations along the California coast from July 20, 2026, to August 19, 2026. Area 8 operations will occur from August 10 to August 13, 2026, within the area bounded by the following coordinates: 33.97510, -120.64660; 33.97510, -117.66430; 33.19120, -117.66430; and 33.19120, -120.64660. The vessel will monitor VHF Channel 16. Mariners are requested to use caution when transiting near Bold Horizon. For further comments or details, contact Kevin Stoddard at +1-949-796-0703. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	R/V Bold Horizon will be conducting underwater operations along the California coast from July 20, 2026, to August 19, 2026. Area 9 operations will occur from August 13 to August 19, 2026, within the area bounded by the following coordinates: 33.45290, -117.73170; 33.45290, -117.60650; 33.35520, -117.60650; and 33.35520, -117.73170. The vessel will monitor VHF Channel 16. Mariners are requested to use caution when transiting near Bold Horizon. For further comments or details, contact Kevin Stoddard at +1-949-796-0703. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Cabrillo Beach Yacht Club will be sponsoring the Foiling Regatta series on March 28, April 18, and August 22, 2026, from 1 p.m. to 5 p.m. each day. Approximately twenty 10-foot sailing vessels will be racing on a course offshore of Los Angeles Harbor, between Pt. Fermin and Cabrillo Beach. Mariners are requested to transit the event area with caution. For more details or comments, contact Jonathan Mitsumori at (310) 831-4757. LOCATION: 33.704° N, 118.286° W	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race)	Marine Events	The Friendship Paddle will be sponsoring the Keike Paddle event in the Santa Barbara Channel. The scope of operations includes approximately 100 participants aboard 25 vessels ranging from 20 to 35 feet in length, traveling between Goleta Point and Leadbetter Beach. The event is scheduled to take place on August 8, 2026, from 0800 to 1200 hours. Event activities will occur between Goleta Point (34.40833° N, -119.83333° W) and Leadbetter Beach (34.40000° N, -119.70000° W). All mariners are advised to transit the area with caution when in the vicinity of event participants. For more details or comments, please contact Alex Brodie at 805-443-9208.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Swim	Marine Events	Nite Moves will be conducting a swim event offshore of Santa Barbara, California, every Wednesday from May 20 to August 26, 2026, between 6:30 p.m. and 8 p.m. Approximately 50 participants will swim a 1000-meter course offshore of Leadbetter Beach at position 34.4°N, 119.698°W. For more information, please contact Jay Campbell at (805) 705-5676. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Swim	Marine Events	Reef & Run LLC will sponsor the Reef & Run swim event every Thursday evening from June 4 to August 27, 2026, between 6:30 p.m. and 7:30 p.m. Approximately 300 total swimmers will be racing on a series of courses within the swimming zone offshore of East Beach, Santa Barbara, CA, at location 34.414, -119.673. The final event on August 27, 2026, will involve approximately 140 participants starting from a vessel approximately 1,200 meters from the shore, swimming back to East Beach. Mariners are advised to use caution when transiting nearby. For more details or comments, contact Jane Cairns at (805) 886-8123. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Anduril Industries will be conducting manned Autonomous Surface Vessel (ASV) operations aboard the Blair C near Huntington Beach from May 10 to September 1, 2026, between 0800 and 1700 hours daily. Testing will occur within Area 1, bounded by positions: 33.5476°N, -118.1272°W; 33.5593°N, -117.8526°W; 33.4311°N, -117.8229°W; 33.3906°N, -118.0612°W. Blair C will be crewed at all times and will monitor channel 16. All vessels are requested to maintain greater than a 2.5 nautical mile separation for safety. For more information, please contact Adam Potwora at +1-949-841-6583. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	The US Army Corps of Engineers will conduct nearshore marine operations to place new mooring tackle in the former seasonal anchorage area off Santa Barbara, CA. Operations will be centered at approximately 34.410393, -119.683094 and will occur during daylight hours for no more than nineteen intermittent days between June 29 and August 31, 2026. For more information, contact the US Army Corps of Engineers at (805) 564-5537. All mariners are advised to transit the area with caution.	

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Chevron will conduct diving operations using the D/B Ocean Provider (official number 569956; call sign "Ocean Provider") offshore Carpinteria, CA, within the area bounded by the following coordinates: 34.39248, -119.52746; 34.38423, -119.50036; 34.32921, -119.52504; and 34.33745, -119.55709. Operations will begin on or around June 18, 2026, and are expected to be completed on or around July 31, 2026. The vessel will be in a 6-point moor and diving operations will be conducted 24 hours per day throughout the 45-day project duration. The D/B Ocean Provider is a 270-foot vessel with a black hull, white superstructure, and a typical derrick barge configuration featuring a red deck-mounted crane. The vessel will monitor VHF Channel 16 and can be reached by cell phone at 951-238-8221. For more information, contact Chevron at (805) 448-0739. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Fathomwerx Proving Ground (FPG) will conduct unmanned vessel operations in the Santa Barbara Channel on the following dates: July 6–10, July 13–17, July 20–24, July 27–31, and August 3–7, 2026, daily between 0700 and 1900 hours. Approximately 12 vessels will be involved in the exercise. Operations will be confined to a 5x5 nautical mile box defined by the following coordinates: 34.31478, -119.41681; 34.25559, -119.31968; 34.17480, -119.39084; and 34.23406, -119.48813 (Chart: US3CA69M). Mariners are requested to maintain a safe distance from the testing area and the FPG Support perimeter security vessel. Communications can be made via VHF Channel 16 (hail "FPG Support Vessel Water Lead") or by phone at 805-837-7468. All mariners are advised to transit the area with caution.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Boeing will be conducting Autonomous Underwater Vehicle (AUV) operations from 14 January 2026 to 31 December 2026 within the following positions: Area 1: 33.694N -118.307W 33.648N -118.336W 33.687N -118.411W 33.73N -118.38W 33.717N -118.389W 33.730N -118.420W 33.724N -118.424W 33.712N -118.393W Area 2: 33.44267N -118.44865W 33.42597N -118.39972W 33.42657N -118.35533W 33.48736N -118.30997W 33.52635N -118.39197W 33.46963N -118.44865W Host vessel AMERICAN ISLANDER will be within 1,000 yards, the UUV will have a very low surface profile. Mariners are requested to transit the area with caution and to maintain 1 nautical mile range separation from the host vessel. AMERICAN ISLANDER will be monitoring VHF-FM Chan. 13, 14, & 16. For more details or comments, contact Joe Beauchesne at 714-642-3781.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Naval Activity/Military Operations	Naval Activity	Hazardous operations will be conducted within NAVAREA XII in the area bounded by the following coordinates: 33.55000, -120.36667; 33.53333, -119.46667; 32.76667, -119.50000; 32.50000, -119.83333; and 32.51667, -120.41667. Operations will occur during the following dates and times: July 28, 2026, from 1200Z to 2100Z (SR904458, primary), and July 29, 2026, from 1200Z to 2100Z (SR904456, backup). Surface vessels are strongly advised to avoid these areas during the specified dates and times. PMSR aircraft and surface vessels may be on scene to clear non-participating vessels out of these areas. Within 24 hours of transiting PMSR, vessels are requested to submit a notification to PLEAD Control indicating vessel name, destination, and estimated time of entry into and departure from the PMSR in accordance with US Coast Guard Pilot 7, Chapter 4, Paragraph 439. Notifications should be faxed to (805) 989-0102. Prior to entering the PMSR, please contact PLEAD Control at (805) 816-0792; if no answer, call the after-hours line at (805) 989-1470 to obtain current operations status, including stand-off areas which are identified on this recorded line and updated daily at 1700 PST. During operations, PLEAD Control will be managing hazardous area surface traffic on VHF Marine Band Channel 16 and Channel 11. Vessels in the vicinity of the PMSR should contact the Range Surveillance Center at (805) 989-7587/7211. For further information, contact Zach Gibson (Senior Operations Test Specialist) at 805-989-7432 / DSN 351-7432. All mariners are advised to transit the area with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector San Diego, Submerged Lands Act (SLA)/General/Bridges	Bridges	COLORADO RIVER-ARIZONA-AVAILABILITY OF COAST GUARD PUBLIC NOTICE-All interested parties are herein notified that the Commander, Coast Guard Southwest District, has received application materials dated June 10, 2026 from Lake Havasu City, Arizona for approval of location and plans for the construction of a bridge over a navigable waterway of the United States. BRIDGE, WATERWAY AND LOCATION: Lake Havasu Second Bridge, across the Colorado River (Bridgewater Channel), mile 209.3, at Lake Havasu City, Mohave County, Arizona. Public Notice (SW-167a-2026), dated July 23, 2026, is being published on the Coast Guard Navigation Website. The public notice contains a detailed description of the proposed new bridge project and includes location map and bridge drawings with navigational clearances. Interested parties may access the public notice at; Public Notices for Bridges - Southwest District at web site https://www.navcen.uscg.gov/public-notices-for-bridges-active-by-district?district=11&subdistrict=n . The public notice may also be obtained by calling the U.S. Coast Guard Southwest District Bridge Office at (571) 607-2207; by writing to Commander (dpw), U.S. Coast Guard Southwest District, Coast Guard Island, Bldg 50-2, Alameda, CA 94501-5100; or by email request at D11Bridges@uscg.mil. Mariners are requested to comment on the proposed new bridge project and navigational safety issues. Interested parties are requested to express their views, in writing, on the proposed bridge project including its possible environmental impacts, if any, giving sufficient detail to establish a clear understanding of the reasons for support of, or opposition to, the proposed work. Comments concerning Public Notice (SW-167a-2026) will be received for the record at the address noted in the header or via email at D11Bridges@uscg.mil through August 24, 2026.	Lat: 34° 28' 27" Lon: -114° 21' 08"
Sector San Diego, Submerged Lands Act (SLA)/General/Bridges	Bridges	ARIZONA-COLORADO RIVER-LOWER CIBOLA BRIDGE-The middle two spans of the bridge have collapsed and are hanging in the center of the river due to a brush fire. It is strongly recommended that vessels avoid transiting the bridge until further notice. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or 510-219-4366.	Lat: 33° 18' 12" Lon: -114° 40' 42"

Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Southern California Edison (SCE) will perform maintenance on the existing SONGS revetment (riprap) by restacking the existing rock and adding new rock fill material along 1,470 linear feet of shoreline to restore the riprap to its original, permitted design. Work activities will occur within the SONGS walkway area in San Diego County, at 33.3689, -117.5556, and rock placement and stacking will extend 27 feet out from the pedestrian walkway. The project will begin on 01 June 2026 and run through the end of December 2026. For more information, contact Southern California Edison. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	FUGRO USA Marine Inc. will conduct bathymetric and geophysical survey operations offshore San Diego, California, from July 1 to July 31, 2026. Operations will be performed by the vessel JulieAnn (CF 5942 SS) and will be carried out during daylight hours. The survey area is outlined by the following coordinates: 32.54277, -117.12520; 32.53372, -117.12493; 32.52867, -117.16003; and 32.53946, -117.16053. The vessel will have limited maneuverability during operations and will monitor VHF Channel 16. Mariners are advised to use caution when transiting the area. For more details or comments, contact Skylar Hurley at 805-212-0754. All mariners are advised to transit the area with caution.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Miscellaneous	Miscellaneous	Anduril Industries will be conducting Autonomous Underwater Vehicle (AUV) operations in the vicinity of Dana Point, California. The scope of operations includes deployment and recovery activities supported by the research vessel RV Zephyr (IMO 8992845, MMSI 338142000). Operations are scheduled to take place from January 23, 2026, through December 31, 2026. The operational area is defined by the following coordinates: Top Left: 32.79972° N, -117.56750° W Bottom Left: 32.75306° N, -117.55861° W Top Right: 32.80083° N, -117.29639° W Bottom Right: 32.76250° N, -117.28639° W This operation is referenced on NOAA Chart 18740. The RV Zephyr will be on scene and monitoring VHF Channel 16. All mariners are advised to transit the area with caution when near the RV Zephyr. For further information or details, please contact Josh Knaak at +1-949-512-1312 or +1-949-841-9239.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Miscellaneous	Miscellaneous	Marine Corps Base (MCB) Camp Pendleton will be conducting live fire operations for predator control along the coastal areas of Blue Beach and White Beach. The scope of operations includes wildlife management for the protection of federally-endangered bird species, utilizing small arms such as rifles, handguns, and shotguns by trained professionals. Operations are scheduled to commence on March 16, 2026, and will continue at intermittent and unpredictable times, concluding on September 15, 2026. Live fire will occur along the shoreline of MCB Camp Pendleton between approximately 33.22200° N, -117.40861° W and 33.28750° N, -117.46250° W. All mariners are advised to use extreme caution while transiting the area. Although fire will not be directed toward the ocean, vessels are recommended to remain at least 500 meters from the shoreline during operations. For additional information, please contact the MCB Camp Pendleton Range Control Watch Officer at (760) 725-4277 or Conservation Law Enforcement at (760) 725-3360.	
Sector San Diego, Territorial Sea - Sector San Diego, Submerged Lands Act (SLA)/General/Miscellaneous	Miscellaneous	The Marine Corps Tactical Systems Support Activity (MCTSSA) will conduct oceanographic surveillance operations to support training area safety at Camp Pendleton for the 3rd Amphibious Assault Battalion, 1st Recon Battalion, and Assault Craft Unit 5. Operations will involve the deployment and quarterly maintenance of in-water oceanographic data collection buoys at the following positions: Spotter 1 at 33.2965225, -117.4729195; Spotter 2 at 33.2900481, -117.4677166; and Spotter 3 at 33.2853513, -117.4626498. The operation will occur between May 6, 2026, and May 6, 2027, utilizing up to two boat teams and a maximum of eight personnel. For more information, please contact Capt Keo, Daniel at MCTSSA at 760-725-0533 or 404-509-7690. All mariners are advised to transit the area with caution.

Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Rock barrier construction will be conducted in the channels of Middle River, Old River, and Grant Line Canal, San Joaquin County. The scope of operations includes excavators from the levee dropping rock in the channels to build barriers across to the opposite levee. No barges will be used for the installation of the barriers. Operations are scheduled as follows: Construction: May 1, 2026, through the first week of June 2026 Barrier in place: First week of June 2026 through end of October 2026 Removal: November 1, 2026, through November 30, 2026 The channels will be blocked until approximately November 30, 2026. DWR will provide boat portage at Old River and Grant Line Canal, but not at Middle River, which is not navigable due to shallow depth. Locations of operation: Middle River near Victoria Canal: 37.8857° N, -121.4822° W Old River near Tracy: 37.8103° N, -121.5428° W Grant Line Canal near Tracy Boulevard Bridge: 37.8199° N, -121.4483° W No vessels are involved in the operation. This activity is referenced on Chart US4CA46M. For additional information, please contact the Area Control Center at (209) 833-2180 (24-hour phone). All mariners are advised to transit the area with caution and observe all navigation restrictions and portage instructions.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	R/V Bold Horizon will be conducting underwater operations along the California coast from July 20, 2026, to August 19, 2026. Area 5 operations will occur from July 31 to August 3, 2026, within the area bounded by the following coordinates: 38.37760, -123.22510; 38.37760, -123.13750; 38.28930, -123.13750; and 38.28930, -123.22510. The vessel will monitor VHF Channel 16. Mariners are requested to use caution when transiting near Bold Horizon. For further comments or details, contact Kevin Stoddard at +1-949-796-0703. All mariners are advised to transit the area with caution.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	R/V Bold Horizon will be conducting underwater operations along the California coast from July 20, 2026, to August 19, 2026. Area 7 operations will occur from August 7 to August 10, 2026, within the area bounded by the following coordinates: 36.33790, -122.05880; 36.33790, -120.58660; 33.91510, -120.58660; and 33.91510, -122.05880. The vessel will monitor VHF Channel 16. Mariners are requested to use caution when transiting near Bold Horizon. For further comments or details, contact Kevin Stoddard at +1-949-796-0703. All mariners are advised to transit the area with caution.	
Sector San Francisco, Territorial Sea - Sector San Francisco, Submerged Land Act (SLA)/General/Miscellaneous	Miscellaneous	Open Ocean Robotics will be operating uncrewed surface vehicles (USVs) within a 10 nautical mile radius centered on NOAA Buoy 46012 (37.35556° N, -122.88083° W), approximately 24 nautical miles south-southwest of San Francisco, CA. The scope of operations includes continuous remote operation of one USV at a time, with periodic battery swaps requiring brief overlap of two USVs in the area. Operations are scheduled to take place 24 hours a day, seven days a week, from January 20, 2026, through December 31, 2026. During battery swaps, one USV will hold station while the replacement USV transits from Half Moon Bay to the operational area. Once the replacement USV arrives, the original USV will return to Half Moon Bay for recharging. The USVs are broadcasting on AIS under the names "DATAEXPLORER013" (MMSI 316056469) and "DATAEXPLORER016" (MMSI 316058968), and are equipped with radar reflectors and small-craft navigation lights. Each vessel is approximately 12 feet long, 3 feet wide, and 4 feet high, colored red and white. All mariners are advised to transit the area with caution. For more information, please contact Madeleine Bouvier-Brown at 604-347-0036.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Carquinez Strait - Suisun Bay/General/Miscellaneous	Miscellaneous	Power Engineering Construction Co. will conduct marine operations aboard the barge TBC1 in the Carquinez Strait, just North of the shipping channel on the East and West sides of the Benicia-Martinez Bridge over the Trans Bay Cable, centered at coordinates 38.042250, -122.121222. The TBC1 barge will be secured on location with anchors marked by buoy balls and flashing lights, and it will remain crewed 24 hours a day. Daily construction and subsea diving operations will run from 0500 to 1700, beginning August 2, 2026, and continuing until project completion on August 8, 2026. The assisting tug Westar will be on-scene at all hours and will actively monitor VHF-FM channels 71 and 73. Due to active diving operations and underwater installations, mariners are requested to exercise extreme caution, minimize wake, and maintain a safe distance when transiting the area. For further details or operational comments, contact Wayne Stonecipher at 510-502-1510.
