| San Pedro Bay - Anaheim Bay/General/Bridges/Rehabilitation | Bridges | ANAHEIM BAY- ADMIRALTY DRIVE BRIDGE: Rehabilitation work is continuing on the bridge. The use of scaffolding, and floating work platforms moored at piers, will reduce the vertical clearance by 4ft and limit the horizontal clearance to 37ft. Mariners are requested to transit the area with caution. For more information, contact the Coast Guard Bridge at 571-607-2206 or by email at D11Bridges@uscg.mil. | Lat: 33° 43' 18" Lon: -118° 04' 20" |
| San Pedro Bay - Anaheim Bay/General/Hazards To Navigation/Shoaling Reported | Hazards To Navigation | The U.S Coast Guard has received a report of shoaling in the vicinity of Anaheim Bay Channel's East and West Jetty Lights. All vessels with a draft of 31 ft or greater are cautioned to remain in the center of the channel during tides of less than +1 FT tide. Risk of grounding exists on the sides of the channel during tides of -0 ft for drafts of 31 ft or greater. All mariners are advised to transit the area with caution. Direct all questions and concerns to d11-smb-sectorialb-www@uscg.mil. | |

| Carquinez Strait - Mare Island Strait/General/Bridges/Rehabilitation | Bridges | NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Maintenance and rehabilitation work is being conducted outside the main navigation span (lift span) of the bridge, 7 am to 7 pm, 7-days a week, through November 30, 2026. This work will not impact the navigational clearances or the operation of the lift span. A 99' X 99' barge, a 33' X 13' supply barge, and a crane barge will be anchored at several locations on the north and south sides of the approach spans to conduct the work. After the normal workday, the barges will remain on-scene. A temporary platform is being installed below low steel in the approach spans, reducing vertical clearance of the bridge by no more than 4 feet. Divers will be deployed during the work. To determine the location of divers, mariners can contact 707-974-2789 or 707-974-0917. To determine conditions at the work site, mariners can contact 510-774-1204 or 925-382-3544. Vessels are requested to transit the work area with caution. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil. | Lat: 38° 06' 39" Lon: -122° 16' 29" |
| Carquinez Strait - Mare Island Strait/General/Bridges/Closure (Scheduled Or Emergency) | Bridges | NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Painting of the lift span is being proposed which will require a temporary change in the operating schedule of the span. Therefore, the lift span of the bridge will be secured in the closed-to-navigation position Monday through Thursdays, 7 am to 5 pm, and Fridays, 7 am to 11 am and from 12 noon to 5 pm, December 22, 2025 through late March 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will be secured in the closed-to-navigation position Monday through Fridays, 5 am to 1 pm, and 2 pm to 3 pm, late March through June 30, 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will resume normal operations for the following events; Bottle Rock; May 22, 23, and 24, 2026; Sausalito Yacht Club 7th Annual Cruise to NV Yacht Club; May 28, 29, 30 and 31, 2026. Temporary underdeck platforms will be installed below the lift span bridge deck, reducing the vertical clearance in the open and closed positions by 4 feet. In the event of an emergency, the lift span can open with 2-hours advance notice given to the bridge operator. If you wish to comment on this temporary operating schedule change, please do so by close of business, September 30, 2025. Comment will be received at D11Bridges@uscg.mil. | Lat: 38° 06' 39" Lon: -122° 16' 29" |

| San Francisco Oakland Bay Bridge West Crossing - Oakland Inner Harbor/General/Bridges/Lighting and Other Signals | Bridges | NORTHERN CALIFORNIA-OAKLAND INNER HARBOR-FRUITVALE AVE RAIL BRIDGE-The lift span of the rail bridge is kept in the partially opened position providing 80 feet of vertical clearance at mean high water. The lift span can be raised to its fully open position upon request to the drawtender at the Miller Sweeny (Fruitvale Ave) bridge. The following is the new navigation lighting configuration at the rail bridge. 1. When the bascule span of the highway bridge is in the closed-to-navigation position and the lift span of the railroad bridge is in the partially open position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show a red 180-degree center span light on the upstream and downstream lower edge of the span. 2. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the partially opened position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show one solid 360-degree green light and one flashing 360-green light on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. 3. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the fully opened position, providing 135 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show two solid 360-degree green lights on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. For further information email the Coast Guard Bridge Office at D11Bridges@uscg.mil. | Lat: 37° 46' 09" Lon: -122° 13' 50" |

| Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Construction | Bridges | SACRAMENTO RIVER-REPLACEMENT BUTTE CITY BRIDGE: Bridge construction continues Monday through Friday during daylight hours until September 25, 2026. The temporary trestle, along with falsework, is being removed from the bridge site. A temporary navigation span during construction is just west of the old bridge's pivot pier, 435 feet west of new bridge abutment, and is lighted at night with a green center channel light on the upriver and downriver sides of the old bridge. The temporary navigation span provides at least 32 feet horizontal clearance. Vertical clearance is 35 feet from low steel of the old bridge above MLLW. A barge with crane is on scene, and is lighted at night with red fixed lights at its corners. For further information contact the Coast Guard Bridge Office at 571-607-2206 or by email at D11Bridges@uscg.mil. | Lat: 39° 27' 26" Lon: -121° 59' 43" |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Temp Deviation | Bridges | SACRAMENTO RIVER-TOWER BRIDGE The lift span of the bridge will be secured in the closed-to-navigation position from 4 am to 11 pm on October 19, 2025, for a community event. In the closed-to-navigation position the bridge provides 29 feet of vertical clearance at mean high water. Vessels able to pass the bridge while in the closed position can do so at any time. In the event of an emergency, the span can open if a 1-hour notice is given to the bridge operator. If you wish to comment on this temporary schedule change, please do so by close of business on September 19, 2025. For further information or to submit comments contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or 571-607-5820. | Lat: 38° 34' 50" Lon: -121° 30' 30" |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Closure (Scheduled Or Emergency) | Bridges | NORTHERN CALIFORNIA-MINER SLOUGH-BRIDGE MINER SLOUGH BRIDGE-The swing span of the bridge will be secured in the closed-to-navigation position from 5 am to 7 pm on October 19, 2025 for the Ironman Triathlon event. Comment concerning this proposed closure will be received for the record at D11Bridges@uscg.mil through September 17, 2025. For further information contact the Coast Guard Bridge Office at 510-219-4366. | Lat: 38° 17' 31" Lon: -121° 37' 51" |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Construction | Bridges | NORTHERN CALIFORNIA-LOST SLOUGH-BRIDGE FRANKLIN BLVD-Construction of the replacement bridge is ongoing. Mariners are urged to use caution when transiting the area. | Sacramento River Deep Water Ship Channel - Sacramento River/General/Hazards To Navigation/Hazards | Hazards To Navigation | ATON/PATON Discrepancies From: 2025-05-08 To: 2025-11-04 Location: 38-35.146N 121-30.356W Discrepancy Information: A partially submerged white foam buoy has been reported in the Sacramento River 120' South of the I Street Bridge in the middle of the East channel. Mariners are advised to proceed with caution and report to the USCG any sightings of this buoy. | |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | The Dutra Group will be doing marine construction operations on the Sacramento River, between the Tower Bridge and Pioneer Bridge. Waterside work is scheduled from 18-August, 2025 to 30-November, 2025. A crane barge and tugboat will be utilized throughout construction; they will be transiting frequently from Dutra's Rio Vista Yard to the Sacramento River. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours; the barges will be spudded down with flashers on all corners. Both barges will monitor VHF-FM Channels 9 and 16; mariners are requested to transit the area with caution. For further questions contact: (707) 333-5029. | |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | The Dutra Group will be conducting marine operations, work will consist of furnishing all labor, materials, equipment, and all incidental related work to complete support. Waterside work is schedule from 18-Aug-25 to 30-Nov-25; The Crane Barge 12, along with a tugboat will be utilized on the project. The crane barge will be spudded down at various locations during construction within and between areas of construction. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM channel 9 & 16, working channel 68A. All mariners are requested to transit the area with caution, for further information contact 707-333-5029. | |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | CAL-NEVA Construction Services will start the installation of the Bio-Acoustic Fish Fence (BAFF). On the Sacramento River, in position 38.23944N, 121.51833W, from 1-30 October 2025. Operations will be conducted with derrick barge "DB Carquinez" along with a flat barge. The barges will be either spudded down or anchored using a four-point mooring system marked with 5ft crown buoys. The buoys will be lighted at night with flashing white strobes. All vessels, and equipment will be monitoring VHF-FM Channels 8, 13 and 14. Mariners are requested to transit the area with caution. For more details or comments contact Kevin Malone at 916-417-7777. | |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | The Dutra Group will be conduction quarry stone placement operations from 18-Aug-2025 to 30-Nov-2025. The Crane Barge TM20, a moored Crane Barge 1, along with a tugboat and a rotating flat deck barge will be utilized on the project. The crane barge TM20 will be spudded at various locations during construction within and between the construction area. The crane barges, as well as the tugboat will mobilize from Dutra's Rio Vista Yard to the Sacramento River levee. The Crane Barge 1 will be moored adjacent to the Miller Park Marina. The flat deck barge will be in-transit between the job site and San Rafael Rock Quarry and will be moored at pre-existing moorings along the Sacramento River during mobilization; one mooring being on Oak Hall Bend, and two being just south and north of Walnut Grove, respectively. This rotation will persist for most of the duration of the project. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM Chan. 9 & 16, working channel 68A, or can be reached by calling (707) 333-5029. Mariners are advised to use extreme caution while transiting the construction site. | |
| Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Dredging | Marine Construction (Excluding Bridges) | The Dutra Group will be conducting dredge operations, starting from the Sacramento Marina down to Miller Park Marina. Waterside work is scheduled to begin August 18th and will continue no later than September 30th, 2025. The Crane Barge TM20, along with the workboat Patty D will be utilized on the project. The crane barge TM20 will be spudded at various locations during construction within and between the construction area. The crane barge, as well as the tugboat will mobilize from Dutra's Rio Vista Yard to the Sacramento River levee. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Barges will monitor VHF-FM channel 9 & 16, working channel 68A, or can be reached by calling (707) 333-5029. Mariners are advised to transit the area with caution. | |

| Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation | Bridges | AMERICAN RIVER-CAPITAL CITY HWY (Route 51) BRIDGE: Caltrans is conducting rehabilitation of the bridge until 31 Mar, 2026. Work will be conducted during daylight hours, 7 am to 5:30 pm, Monday through Friday, and will include the use of barges, work boats, tugboats, turbidity curtains, and access piers. During the workday, barges can be moved for the safety of navigation with one hour notice to the contractor via VHF-FM CH 16 or by cell at 916-532-8208. Barges will be unmanned and moored at their work locations overnight. Each corner of each barge will be lighted at night with steady burning red lights. At least 25 feet of horizontal clearance for navigation will be available at all times. Mariners are requested to transit the area with caution. For further information, contact the Coast Guard Bridge Office at 507-607-2206 or to request a depiction of the temporary impacts to navigation at the bridge email D11Bridges@uscg.mil. | Lat: 38° 35' 15" Lon: -121° 26' 50" |
| Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Temp Deviation | Bridges | SACRAMENTO RIVER-RIO VISTA BRIDGE: Continuing rehabilitation of the bridge will require an advance notice from vessels for openings. Therefore, the lift span of the bridge will open on signal if at least 4-hour notice is given to the drawtender at 707-374-2134. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil. | Lat: 38° 09' 32" Lon: -121° 41' 03" |
| Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Closure (Scheduled Or Emergency) | Bridges | SACRAMENTO RIVER I STREET DRAWBRIDGE - Union Pacific Railroad is requesting to secure the swing span of the I Street bridge in the closed-to-navigation to perform repairs on the following dates: From 7am October 6 through 7pm on October 10, 2025, the bridge will be secured in the closed- to- navigation position. From October 10 through October 16, 2025, the bridge will open on signal from 7am to 10pm if a 45-minute notice is given to the bridge tender. At all other times, the bridge will operate in accordance with 33 CFR 117.189(a). When closed the bridge provides 30 feet of vertical clearance at mean high water. Vessels able to pass through the bridge while closed can continue to do so at any time. In the event of an emergency, the swing span can open if 4-hours' notice is given to the bridge tender. The Coast Guard is accepting comments concerning this work and its impacts on navigation through September 19, 2025. Comments can be submitted by email at D11Bridges@uscg.mil. | Lat: 38° 35' 11" Lon: -121° 30' 23" |
| Suisun Bay - Sacramento River Deep Water Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging | Marine Construction (Excluding Bridges) | The Dutra Group will be conducting dredging operations in the Sacramento Deep Water Shipping Channel. Dredging operations will commence on or about August 15, 2025, and end on or before October 22, 2025. During this time, they will be operating within the Federal Channel Reaches 1 – 10, 24 hours a day, 7 days a week with dredging and disposal operations. Locations for the start and end of dredging operations are listed below: Start - 38.081788N -121.75709W End- 38.51680N -121. 58450W The superintendent will be Mr. Dennis Salyers. He can be reached at (415) 497-5289. Mariners are advised to use extreme caution while transiting the dredge area. | |

Vessels DB POINT LOMA, DB WILLIAM F, DB PALOMAR, RES 180, SCOW HAROLD M, SCOW CLARENCE D, SCOW ROB P, SCOW MIKE J, P/B JEANIE R, C/B JOHN DRAKE, RES SURVEY BOAT, TUG CUYAMACA, and various barges (80', 110' and 120') will be performing dredging and construction operations and will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments contact R.E. Staite Engineering at 619-233-0175. | Lat: 32° 41' 15" Lon: -117° 08' 24" |
| Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | R.E. Staite Engineering, Inc. will be conducting marine construction from 1 April, 2024 until 31 October, 2025 at BAE Systems San Diego facility, Pier 1, Pier 3 and Building 13 Wharf at 32-41-24N 117-08-41W. Vessel Spud Crane Barge RES 150, P/B JEANIE R, support barges, and skiffs will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments contact R.E. Staite Engineering, Inc. at 619-538-2761 or restaite@restaite.net. | Lat: 32° 41' 24" Lon: -117° 08' 41" |
| Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Swim | Marine Events | The Honor Foundation will be sponsoring the Swim for Special Operations Forces (SOF) event on Saturday, September 13, 2025, from 7:30AM to 11:30 AM. This event will consist of approximately 110 participants swimming on a course starting in Glorietta Bay on Coronado Island, proceeding to Tidelands Park, moving north along the shoreline to Bayview Park, then crossing the channel to the USS MIDWAY. A special local regulation will be in effect, encompassing all navigable waters around the swim course. Mariners will be prohibited from transiting through the special local regulation area during this period. For more details or comments, contact Jason Goyanko at 571-428-5354. | |
| Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Swim | Marine Events | KOZ events will be sponsoring the San Diego Triathlon Classic at Spanish Landing in San Diego Bay on September 14, 2024 from 6 AM to 8 AM. The event will involve approximately 900 participants swimming on a 1500 meter swim. Mariners are advised to use due caution when transiting near the event area. For more details or comments, contact Tobias Panek at 858-255-9709. | |
| Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Other | Marine Events | The Gaylord Hotel will be sponsoring a grand opening ceremony on September 18, 2025, from 6:30 PM to 6:40 PM. The event will involve three safety observation vessels and a helicopter performing acrobatics. The helicopter acrobatics will occur in San Diego South Bay adjacent to the Gaylord Hotel on 1000 H St, Chula Vista, CA 91910. Mariners are advised to avoid transiting the event area unless directed by a safety vessel. For more details or comments, contact Stan Gray at 530-370-2748. | |
| Approaches To San Diego Bay - San Diego Bay/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration | Threatened And Endangered Species Advisory (TESS Advisory) | U.S. Fish and Wildlife services has installed a12-ft x 12-ft mesh and benthic barrier until 31 December, 2025 in the San Diego Bay National Wildlife Refuge for one year. The location of the barrier in San Diego Bay is near 32.62316N -117.127056W. Approximately 5-ft x 6-ft patch of Caulerpa prolifera in the San Diego Bay National Wildlife Refuge. The benthic barrier would consist of plastic tarp, rebar-reinforced stakes, and sandbags. In addition, rock salt would be applied at an estimated rate of 8.9 to 50 kg/m² in order to eradicate the Caulerpa prolifera infestation within the South San Diego Bay. The barriers would be installed for a period of up to one year. Mariners are requested to transit the area with caution. For more details or comments, contact Andrew Yuen at 760-535-7065. | |

| San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Public Notice | Bridges | NORTHERN CALIFORNIA-SAN FRANCISCO BAY The United States Coast Guard is soliciting public comments on a proposal by the California Department of Transportation (Caltrans) with plans for the modification of a highway bridge across a navigable waterway of the United States. A Coast Guard Bridge Permit application has not yet been submitted but would be required for this project. BRIDGE NAME, WATERWAY AND LOCATION: West span of the San Francisco-Oakland Bay Bridge across San Francisco Bay, mile 8.9, between the City and County of San Francisco and Yerba Buena Island, California. Public Notice (11-165-2025), dated June 27, 2025, is being published on the Coast Guard Navigation Website. The public notice contains a description of the proposed bridge project and includes location map and bridge drawings with navigational clearances. Interested parties can access Active Public Notices for Bridge Projects for the Eleventh Coast Guard District at the following website: https://go.usa.gov/xJ8yw . The public notice may also be obtained by calling the Eleventh Coast Guard District at (571) 607-2207, by writing to Commander (dpw), Eleventh Coast Guard District, Coast Guard Island, Bldg. 50-2, Alameda, CA 94501-5100; or by email at D11Bridges@uscg.mil. Interested parties are requested to express their views, in writing, on the proposed bridge's navigational clearances and the possible impacts to navigation. Comments will be received for the record at the address given in Public Notice (11-165-2025) through July 28, 2025. | Lat: 37° 47' 57" Lon: -122° 22' 36" |
| San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Rehabilitation | Bridges | NORTHERN CALIFORNIA-SAN FRANCISCO BAY-WEST SPAN SAN FRANCISCO/OAKLAND BAY BRIDGE-Caltrans is conducting expansion joint rehabilitation on the lower deck of the bridge. This work will require a temporary platform to be erected below low steel, reducing vertical clearance by approximately 2.8 feet. During the installation of the temporary platform, equipment use will temporarily reduce vertical clearance by 7 feet. The temporary platforms will not obstruct the operation of the Air Gap Sensor, the navigation lights, fog signal or RACONS. Work will be conducted Monday through Saturday morning 8 pm to 7 am, with occasional work on Saturday and Sunday nights, July 28, 2025 through June 1, 2026. The underdeck temporary platforms will be installed in phases as follows; Phase 1: From pier "F" (W7) to ~385 feet east of pier "D" (W5) from July 28, 2025 through October 30, 2025; Phase 2: From ~385 feet east of pier "D" (W5) to pier "B" (W3) from October 15, 2025 through January 15, 2026; Phase 3: From pier "B" (W3) to pier "A" (W2) from January 6, 2026 through June 10, 2026. For conditions at the bridge, mariners can contact the contractor at 925-202-5328. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or by telephone at 571-607-5820. | Lat: 37° 47' 57" Lon: -122° 22' 36" |
| San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Closure (Scheduled Or Emergency) | Bridges | SAN FRANCISCO BAY-CHINA BASIN THIRD STREET DRAWBRIDGE-The bridge is secured in the closed-to-navigation position, due to a malfunction. Estimated time of repair is unknown at this time. The bridge provides three feet of vertical clearance at mean high water when closed. Vessels able to transit the bridge while closed may continue to do so at any time. For further information contact the Coast Guard Bridge Office at 571-607-5820 or D11Bridges@uscg.mil. | Lat: 37° 46' 36" Lon: -122° 23' 25" |
| San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | The Dutra group will be conducting waterside Contruction in Berkley Marina beginning 30 June, 2025 to 12 December, 2025. The Kelso Crane Barge (dimensions 150'x54'x9.5'), equipped with a crawler crane, along with a workboat, two flat deck barges and work skiffs, will be utilized for this support. Work will occur during daylight hours, and the spud barge will likely maneuver around the marina during that time. If not moving into location and working, the crane barges will be spudded down on with flashers on all corners along with all other marine equipment. Mariners are advised to use cation when transiting the area. The Crane Barge crews will monitor VHF-FM channel 9 & 16, working channel 77, or can be reached by calling (707) 389-0505. | |
| San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging | Marine Construction (Excluding Bridges) | Marinship Development and Salt River Construction Corporation will be conducting dredging operations from 15 July 2025 until 30 November 2025 for the Larkspur Marina Homeowner's West of Hwy 101 Bridge. The self-contained dredged/dump barge DB2, SPRINGER, P CAY and tugboats will be monitoring VHF-FM Chan. 13, 14 & 77. Mariners are requested to transit the area with caution. For more details or comments, contact Rick Moseley at 415-435-1024. | |

| New York Slough - San Joaquin River/General/Bridges/Construction | Bridges | SAN JOAQUIN RIVER REPLACEMENT HILLS FERRY ROAD BRIDGE-Work has begun to replace the bridge. Work will take place during daylight hours, Monday through Friday, through January 2027. A temporary bridge will span the river during the project and will provide a lower vertical clearance than the existing bridge and the replacement bridge. For on-scene conditions mariners can contact Stanislaus County at 209-777-2885 or the contractor at 415-720-6577. For further information contact the Coast Guard Bridge Office at 510-219-4366. | Lat: 37° 20' 58" Lon: -120° 58' 32" |
| New York Slough - San Joaquin River/General/Bridges/Modification | Bridges | SAN JOAQUIN RIVER-EAST LAS PALMAS AVE BRIDGE – In-water work will be conducted on the bridge to install column casings and strengthen the existing bridge columns. Work will take place Monday through Friday, from 7 a.m. to 3:30 p.m., July 14, 2025, through October 31, 2025. Temporary crane mat platforms will be installed in all spans except span 4-5, which is marked by green center channel lights and red pier lights. A 28-foot aluminum boat will be used to install and remove the temporary platforms. The crane mats reduce the horizontal clearance in each span by 10 feet. Mariners are advised to use spans 4-5 during construction. Additionally, four amber lighted no-wake buoys will be installed upriver and downriver from the bridge. For further information, contact the Coast Guard Bridge Office at 571-607-5820 or to request a depiction of the temporary impacts to navigation at the bridge email D11Bridges@uscg.mil. | Lat: 37° 29' 38" Lon: -121° 04' 51" |
| New York Slough - San Joaquin River/General/Bridges/Closure (Scheduled Or Emergency) | Bridges | NORTHERN CALIFORNIA-BISHOP CUT-EIGHT MILE ROAD BRIDGE- The swing span of the bridge will be secured in the closed-to-navigation position from October 1, 2025 through January 30, 2026 for structural, mechanical and electrical rehabilitation. When closed, the bridge provides 6 feet of vertical clearance at Mean High Water. Vessels able to transit the bridge while closed can continue to do so at any time. There are alternate routes to reach either side of each bridge when closed. For additional information contact the Coast Guard at 510-219-4366. | Lat: 38° 03' 30" Lon: -121° 25' 06" |
| New York Slough - San Joaquin River/General/Bridges/Closure (Scheduled Or Emergency) | Bridges | NORTHERN CALIFORNIA-HONKER CUT-EIGHT MILE ROAD BRIDGE- The swing span of the bridge will be secured in the closed-to-navigation position from October 1, 2025 through March 27, 2026 for structural, mechanical and electrical rehabilitation. When closed, the bridge provides 6 feet of vertical clearance at Mean High Water. Vessels able to transit the bridge while closed can continue to do so at any time. A temporary work platform will be installed under the eastside span and will reduce vertical clearance in that span by 4'. Mariners will be able to use the west navigation span during the work. There are alternate routes to reach either side of each bridge when closed. For additional information contact the Coast Guard at 510-219-4366. | Lat: 38° 03' 34" Lon: -121° 27' 34" |

| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Hazards To Navigation/Hazards | Hazards To Navigation | The Oxbow Bridge in the vicinity of Cibola, Arizona, caught on fire and collapsed. Leading to the river being blocked and debris drifting down stream. All mariners are requested to transit the area with caution. | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | CPS Coastal Permits, Inc. will be conducting marine construction from 16 November, 2024 until 30 December, 2025 near Long Beach at position 33.764379N 118.11991W. Removal of 21,360 square feet of existing floating docks and installation of approximately 21,151 square feet of new floating docks at approximately the same location and configuration as the existing structures. All existing gangways and pilings are to be reused. A 35 ft. work boat, (4) 24 ft. barges, (1) 16x2 barge, and (2) 14 ft. boats will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Greg Buchanan at 714-822-5214. | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging | Marine Construction (Excluding Bridges) | The Dutra Group will be conducting dredging operations at the Port of Long Beach Pier G from 15 July, 2025 until 1 June, 2026 at 33.74389N -118.19806W. Dredged material will be placed into our dump scow "KS-10" with the capacity of 3,000 CY, then taken for disposal within the confines of Pier G. The project will utilize one towing vessel, TERRI L BRUSCO similar as the support vessel on site and assisted by the tender tug PATTY D or similar. All equipment will be monitoring VHF-FM Chan. 13, 14, 16 & 80A. Mariners are requested to transit the area with caution. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution. For more details or comments, contact Andrew Hunt at 415-847-6640. | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | CPS Consulting will be removing and replacing a floating dock on 1-September-2025 to 15-October-2025 at 16355 Maruffa Circle Huntington Beach, California. The exact position of operation will be in 33.724260N -118.062020W. A small boat whaler will be conducting the operations and monitoring VHF FM Chan. 14; all mariners are requested to transit the area with caution. For more information contact 714-795-4251. | |

| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations | Marine Construction (Excluding Bridges) | Anduril Industries will be conducting underwater operations from 11-Aug-2025 to 19-Sep-2025, in the vicinity of Port Hueneme. The following position of operation is listed below: 34.14399N, -119.26329W 34.11203N, -119.19469W 34.07286N, -119.21922W 34.09103N, -119.27944W The M/V THEORY will be on scene monitoring CH. -16. Mariners are requested to use caution when transiting near M/V THEORY. Chart US5CA58M, US5CA65M. For more information contact: 949-796-0703. | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | Connolly-Pacific Derrick Barge Los Angeles will be performing marine construction operations at Pier G in the Port of Long Beach. Along with the derrick barge, flat barges, and a tug on-site. Work hours will be Monday – Saturday from 6am to 6pm. Operations are estimated to begin the last week of August and will continue through to the end of June 2026. The Tug Durango will be monitoring VHF-FM Channels 16, 79A, and 80; all mariners are requested to transit the area with caution. For more information regarding the project contact: Tobey Walker 562-577-0730 | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations | Marine Construction (Excluding Bridges) | Ventura Research Group will be conducting sonar survey operations, from 08-September to 01-October-2025. Operations will extend out from the East end of Catalina Island, the vessels on scene will be a 21ft Boston Whaler "Neoclinus", a 25ft Boston Whaler "Obscurus." Each vessel will be monitoring VHF-FM Chan. 16; all mariners are advised to transit the area with caution. For more information contact Johnathan Williams: 323-259-2891. | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations | Marine Construction (Excluding Bridges) | PATON deployment around Santa Monica Pier From: 2025-09-04 To: 2025-10-15 Location: 34.01277° N / 118.50331° W 34.00539° N / 118.49507° W 34.00247° N / 118.49837° W 34.01012° N / 118.50702° W 34.01277° N / 118.50331° W UCLA will be deploying 12 48" tall white with yellow striped buoys around the Santa Monica Pier to study the breakwater for approximately 30 days. Mariners are advised to transit the area with caution. For questions or concerns contact Timu Gallien at 310-825-7731 | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Boat Parade | Marine Events | The Irvine Company's marina division will be conducting a marine event that will temporarily impede the channel from 3:00pm on 19 September 2025 until 7:00pm on 20 September 2025 at 33.61569N -117.90502W. The impediment of anchors into Newport Bay will be marked by brightly colored buoys. Mariners are requested to transit the area with caution. For more details or comments, contact 949-721-0111. | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Other | Marine Events | The Ocean Institute will be sponsoring the Ocean Institute Maritime Festival on September 12 – 14, 2025, from 4 p.m. to 7 p.m. local time each day, offshore of Dana Point Harbor, CA. The event will involve approximately 10 wooden tall ships ranging in length from 50 – 100 feet, participating in a mock battle, engaging in close maneuvers and firing blank charges. A special local regulation will be enforced for the duration of the event, encompassing all navigable waters around the marine event location and bound by the following coordinates: 33.4475N -117.70555W 33.45888N -117.72416 33.45972N -117.70472W 33.46166N -117.70361W All mariners are requested to transit the area with caution, for more information contact Jack Parker: (949) 391-3706 | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Events/Regatta (Race) | Marine Events | The Long Beach Yacht Club will be sponsoring the Catalina Island Series – Fall Long Point sailboat regatta on September 13 – 14, 2025 from 10 a.m. to 4 p.m. each day. The event will involve approximately 27 sailing vessels racing on a course starting in the Long Beach Outer Harbor near Chaffee Island, through Queen’s Gate, across the San Pedro Channel to Long Point, Catalina. Participants will return to Long Beach, CA using the same course the following day. Mariners are advised to use caution while transiting in the vicinity of the regatta. For more details or comments, contact Craig Jarvis at 562-598-9401 x113. | |
| Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration | Threatened And Endangered Species Advisory (TESS Advisory) | The California State University Long Beach Shark Lab will be deploying two acoustic omni-directional receivers on temporary seafloor mooring in LA Harbor – Seaplane Lagoon with the North receiver at 33.74806N -118.24861W and South receiver at 33.74111N -118.24861W. Receivers will be deployed for 1 year and will be downloaded, maintained, and redeployed at the same location monthly. Acoustic receiver locations will be marked with small surface floats. A 17 ft. grey Boston Whaler or 22 ft. TwinVee will be monitoring VHF-FM Chan. 16 & 68. Mariners are requested to transit the area with caution. For more details or comments, contact Dr. Chris Lowe at 562-212-7104. | |

| Carquinez Strait - Suisun Bay/General/Bridges/Inspection | Bridges | NORTHERN CALIFORNIA-CARQUINEZ STRAIT-BRIDGE DOWNSTREAM BENICIA-MARTINEZ (I-680) FREEWAY BRIDGE-The maintenance traveler will be in use in the main span of the bridge, span 10, during daylight hours, September 10, 2025. When in use the traveler reduces vertical clearance of the bridge by 4 feet. For the safety of navigation, the traveler can be moved if a 30-minute notice is given at 925-499-1598. After the workday the traveler will be moved outside the channel. For further information contact the Coast Guard Bridge Office at 510-219-4366 or at D11Bridges@uscg.mil. | Lat: 38° 02' 31" Lon: -122° 07' 27" |
