San Pablo Bay - Carquinez Strait/General/Bridges/Inspection	Bridges	NORTHERN CALIFORNIA-CARQUINEZ STRAIT-INTERSTATE 80 BRIDGE-The maintenance traveler will be in use at the upstream 1958 bridge from 6 am to 1 pm, September 22-25, September 29 to October 2, and October 6-9, 2025. While in the navigation channel, the traveler will reduce vertical clearance by 6 feet. For the safety of navigation, the traveler can be moved outside the channel by calling the person in charge at 707-297-1320 at least 30 minutes prior to transiting the bridge. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil.	Lat: 38° 03' 40" Lon: -122° 13' 31"

San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting Marine construction in the vicinity of Vallejo, California within the California State University Maritime Academy Boat Basin. The initiation of waterside operations for this project will entail the deployment of multiple crane barges secured by both anchors and spuds, along with a continuous rotation of material supply barges, tug tenders, "Linda T" workboat, and various small skiffs. Activities are scheduled to commence as early as September 12, 2025 to December 2027. Beginning with the mobilization of Crane Barge Kelso ("CB Kelso") and EM1106 ("Morty") barge fitted with appropriately sized crawler cranes. The designated vessels will be monitoring VHF-FM channels 9 & 16, with the working channels 68A or 80. All mariners are advised to use caution when transiting the area, for more information contact: Scott 707-333-5029	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations at the Valero Refinery dock. The clamshell dredge(s), "DB24" or "DB Beaver" or "DB Morty" will carry out dredging operations. The scow fleet will consist of (4) split hull scows, and capacities of the scows are as follows: (2) 3,000CY, and (2) 2,000CY. The tow tug "Lassen" or similar will serve as tow tug during disposal operations. The material from the Valero Refinery will be disposed of at Montezuma Wetland Restoration Project (MWRP). Support will also be supplied by the tender tug "Phyllis T" or similar. All equipment will monitor Channel 13, 14, and 80. The tow tug will use the call sign WDG2199. Dredging operations will commence on or about September 17, 2025 and end on or about November 30, 2025. During this time, they will be operating 24 hours / 7 days / week around the Valero Refinery (approximately Lat 38.042079 Long 122.131819) with dredging and transit to the disposal site operations. The superintendent will be Mr. Dennis Salyers. He can be reached at (415) 497-5289. Mariners are advised to use extreme caution while transiting the dredge area.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Carquinez Strait - Mare Island Strait/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Maintenance and rehabilitation work is being conducted outside the main navigation span (lift span) of the bridge, 7 am to 7 pm, 7-days a week, through November 30, 2026. This work will not impact the navigational clearances or the operation of the lift span. A 99' X 99' barge, a 33' X 13' supply barge, and a crane barge will be anchored at several locations on the north and south sides of the approach spans to conduct the work. After the normal workday, the barges will remain on-scene. A temporary platform is being installed below low steel in the approach spans, reducing vertical clearance of the bridge by no more than 4 feet. Divers will be deployed during the work. To determine the location of divers, mariners can contact 707-974-2789 or 707-974-0917. To determine conditions at the work site, mariners can contact 510-774-1204 or 925-382-3544. Vessels are requested to transit the work area with caution. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil.	Lat: 38° 06' 39" Lon: -122° 16' 29"
Carquinez Strait - Mare Island Strait/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Painting of the lift span is being proposed which will require a temporary change in the operating schedule of the span. Therefore, the lift span of the bridge will be secured in the closed-to-navigation position Monday through Thursdays, 7 am to 5 pm, and Fridays, 7 am to 11 am and from 12 noon to 5 pm, December 22, 2025 through late March 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will be secured in the closed-to-navigation position Monday through Fridays, 5 am to 1 pm, and 2 pm to 3 pm, late March through June 30, 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will resume normal operations for the following events; Bottle Rock; May 22, 23, and 24, 2026; Sausalito Yacht Club 7th Annual Cruise to NV Yacht Club; May 28, 29, 30 and 31, 2026. Temporary underdeck platforms will be installed below the lift span bridge deck, reducing the vertical clearance in the open and closed positions by 4 feet. In the event of an emergency, the lift span can open with 2-hours advance notice given to the bridge operator. If you wish to comment on this temporary operating schedule change, please do so by close of business, September 30, 2025. Comment will be received at D11Bridges@uscg.mil. San Francisco Oakland Bay Bridge West Crossing - Oakland Inner Harbor/General/Bridges/Lighting and Other Signals	Bridges	NORTHERN CALIFORNIA-OAKLAND INNER HARBOR-FRUITVALE AVE RAIL BRIDGE-The lift span of the rail bridge is kept in the partially opened position providing 80 feet of vertical clearance at mean high water. The lift span can be raised to its fully open position upon request to the drawtender at the Miller Sweeny (Fruitvale Ave) bridge. The following is the new navigation lighting configuration at the rail bridge. 1. When the bascule span of the highway bridge is in the closed-to-navigation position and the lift span of the railroad bridge is in the partially open position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show a red 180-degree center span light on the upstream and downstream lower edge of the span. 2. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the partially opened position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show one solid 360-degree green light and one flashing 360-green light on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. 3. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the fully opened position, providing 135 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show two solid 360-degree green lights on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. For further information email the Coast Guard Bridge Office at D11Bridges@uscg.mil.	Lat: 37° 46' 09" Lon: -122° 13' 50"

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Construction	Bridges	SACRAMENTO RIVER-REPLACEMENT BUTTE CITY BRIDGE: Bridge construction continues Monday through Friday during daylight hours until September 25, 2026. The temporary trestle, along with falsework, is being removed from the bridge site. A temporary navigation span during construction is just west of the old bridge’s pivot pier, 435 feet west of new bridge abutment, and is lighted at night with a green center channel light on the upriver and downriver sides of the old bridge. The temporary navigation span provides at least 32 feet horizontal clearance. Vertical clearance is 35 feet from low steel of the old bridge above MLLW. A barge with crane is on scene, and is lighted at night with red fixed lights at its corners. For further information contact the Coast Guard Bridge Office at 571-607-2206 or by email at D11Bridges@uscg.mil.	Lat: 39° 27' 26" Lon: -121° 59' 43"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Temp Deviation	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-TOWER BRIDGE-The lift span of the bridge will be secured in the closed-to-navigation position from 4 am to 11 pm on October 19, 2025, for a community event. In the closed-to-navigation position the bridge provides 29 feet of vertical clearance at mean high water. Vessels able to pass the bridge while in the closed position can do so at any time. In the event of an emergency, the span can open if a 1-hour notice is given to the bridge operator. If you wish to comment on this temporary schedule change, please do so by close of business on September 19, 2025. For further information or to submit comments contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or 571-607-5820.	Lat: 38° 34' 50" Lon: -121° 30' 30"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-MINER SLOUGH-MINER SLOUGH BRIDGE-The swing span of the bridge will be secured in the closed-to-navigation position from 5 am to 7 pm on October 19, 2025 for the Ironman Triathlon event. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or 571-607-2206.	Lat: 38° 17' 31" Lon: -121° 37' 51"

Sacramento River Deep Water Ship Channel - Sacramento River/General/Hazards To Navigation/Hazards	Hazards To Navigation	ATON/PATON Discrepancies From: 2025-05-08 To: 2025-11-04 Location: 38-35.146N 121-30.356W Discrepancy Information: A partially submerged white foam buoy has been reported in the Sacramento River 120' South of the I Street Bridge in the middle of the East channel. Mariners are advised to proceed with caution and report to the USCG any sightings of this buoy.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be doing marine construction operations on the Sacramento River, between the Tower Bridge and Pioneer Bridge. Waterside work is scheduled from 18-August, 2025 to 30-November, 2025. A crane barge and tugboat will be utilized throughout construction; they will be transiting frequently from Dutra's Rio Vista Yard to the Sacramento River. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours; the barges will be spudded down with flashers on all corners. Both barges will monitor VHF-FM Channels 9 and 16; mariners are requested to transit the area with caution. For further questions contact: (707) 333-5029.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting marine operations, work will consist of furnishing all labor, materials, equipment, and all incidental related work to complete support. Waterside work is schedule from 18-Aug-25 to 30-Nov-25; The Crane Barge 12, along with a tugboat will be utilized on the project. The crane barge will be spudded down at various locations during construction within and between areas of construction. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM channel 9 & 16, working channel 68A. All mariners are requested to transit the area with caution, for further information contact 707-333-5029.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CAL-NEVA Construction Services will start the installation of the Bio-Acoustic Fish Fence (BAFF). On the Sacramento River, in position 38.23944N, 121.51833W, from 1-30 October 2025. Operations will be conducted with derrick barge "DB Carquinez" along with a flat barge. The barges will be either spudded down or anchored using a four-point mooring system marked with 5ft crown buoys. The buoys will be lighted at night with flashing white strobes. All vessels, and equipment will be monitoring VHF-FM Channels 8, 13 and 14. Mariners are requested to transit the area with caution. For more details or comments contact Kevin Malone at 916-417-7777.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conduction quarry stone placement operations from 18-Aug-2025 to 30-Nov-2025. The Crane Barge TM20, a moored Crane Barge 1, along with a tugboat and a rotating flat deck barge will be utilized on the project. The crane barge TM20 will be spudded at various locations during construction within and between the construction area. The crane barges, as well as the tugboat will mobilize from Dutra's Rio Vista Yard to the Sacramento River levee. The Crane Barge 1 will be moored adjacent to the Miller Park Marina. The flat deck barge will be in-transit between the job site and San Rafael Rock Quarry and will be moored at pre-existing moorings along the Sacramento River during mobilization; one mooring being on Oak Hall Bend, and two being just south and north of Walnut Grove, respectively. This rotation will persist for most of the duration of the project. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM Chan. 9 & 16, working channel 68A, or can be reached by calling (707) 333-5029. Mariners are advised to use extreme caution while transiting the construction site.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-AMERICAN RIVER-CAPITAL CITY FREEWAY (Route 51) BRIDGE- Rehabilitation continues on the bridge through March 31, 2026. Work will be conducted Monday through Friday, 7 am to 5:30 pm, and will include the use of barges, work boats, tugboats, turbidity curtains, and access piers. During the workday, barges can be moved for the safety of navigation with one hour notice to the contractor via VHF-FM CH 16 or at 916-532-8208. Barges will be unmanned and moored at their work locations overnight. Each corner of each barge will be lighted at night with steady burning red lights. Mariners are requested to transit through the main navigational span between piers 4-5, keeping as much as possible to the center of the channel to avoid the newly installed pier scour protection around the piers. For further information, contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or at 571-607-2206.	Lat: 38° 35' 15" Lon: -121° 26' 50"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Temp Deviation	Bridges	SACRAMENTO RIVER-RIO VISTA BRIDGE: Continuing rehabilitation of the bridge will require an advance notice from vessels for openings. Therefore, the lift span of the bridge will open on signal if at least 4-hour notice is given to the drawtender at 707-374-2134. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil.	Lat: 38° 09' 32" Lon: -121° 41' 03"

Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-I STREET DRAWBRIDGE - The swing span of the bridge will be secured in the closed to navigation position from 7am October 6 through 6 am on October 10, 2025. Then, from October 10 through October 16, 2025, the bridge will open on signal from 6 am to 10pm if a 45-minute notice is given to the bridge tender. At all other times, the bridge will operate in accordance with 33 CFR 117.189(a). When closed the bridge provides 30 feet of vertical clearance at mean high water. Vessels able to pass through the bridge while closed can continue to do so at any time. In the event of an emergency, the swing span can open if 4-hours' notice is given to the bridge tender. For further information contact the Coast Guard Bridge Office at 571-607-5820 or at D11Bridges@uscg.mil.	Lat: 38° 35' 11" Lon: -121° 30' 23"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations in the Sacramento Deep Water Shipping Channel. Dredging operations will commence on or about August 15, 2025, and end on or before October 22, 2025. During this time, they will be operating within the Federal Channel Reaches 1 – 10, 24 hours a day, 7 days a week with dredging and disposal operations. Locations for the start and end of dredging operations are listed below: Start - 38.081788N -121.75709W End- 38.51680N -121. 58450W The superintendent will be Mr. Dennis Salyers. He can be reached at (415) 497-5289. Mariners are advised to use extreme caution while transiting the dredge area.	
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting debris removal operations along the easter side of Van Sickle Island in Solano County, California. The work consists of furnishing all labor, materials, equipment, and all incidental related work to complete the debris removal. We will be anchoring a crane barge via spuds along the perimeter of the island. Waterside work is scheduled to begin September 10th and will continue no later than October 31st, 2025. The Crane Barge Kelso, along with a tugboat and a material barge will be utilized on the project. The Crane Barge Kelso will be spudded at various locations during construction within and between the construction area. The crane barge, as well as the tugboat will mobilize from Dutra's Rio Vista Yard to Van Sickle Island. Work will begin at the northeastern corner of the island, progressing south, and material barges will tow out of the construction area once full. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM channel 9 & 16, working channel 68A, or can be reached by calling (707) 333-5029. Mariners are advised to use extreme caution while transiting the construction site. Mariners are urged to transit at their slowest safe speed to minimize wakes.

San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-SAN FRANCISCO BAY-WEST SPAN SAN FRANCISCO/OAKLAND BAY BRIDGE-Caltrans is conducting expansion joint rehabilitation on the lower deck of the bridge. This work will require a temporary platform to be erected below low steel, reducing vertical clearance by approximately 2.8 feet. During the installation of the temporary platform, equipment use will temporarily reduce vertical clearance by 7 feet. The temporary platforms will not obstruct the operation of the Air Gap Sensor, the navigation lights, fog signal or RACONS. Work will be conducted Monday through Saturday morning 8 pm to 7 am, with occasional work on Saturday and Sunday nights, July 28, 2025 through June 1, 2026. The underdeck temporary platforms will be installed in phases as follows; Phase 1: From pier "F" (W7) to ~385 feet east of pier "D" (W5) from July 28, 2025 through October 30, 2025; Phase 2: From ~385 feet east of pier "D" (W5) to pier "B" (W3) from October 15, 2025 through January 15, 2026; Phase 3: From pier "B" (W3) to pier "A" (W2) from January 6, 2026 through June 10, 2026. For conditions at the bridge, mariners can contact the contractor at 925-202-5328. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or by telephone at 571-607-5820.	Lat: 37° 47' 57" Lon: -122° 22' 36"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Maintenance	Bridges	NORTHERN CALIFORNIA-SAN FRANCISCO BAY-RICHMOND/SAN RAFAEL BRIDGE-Maintenance work on the bridge will begin in spring of 2026 and last 4 years. The east navigation span, piers 46 to 49, and west navigational span, piers 33-36, will be painted. Temporary containment will be installed in one span at a time leaving the other span clear. The temporary containment will reduce vertical clearance by no more than 10 feet. Other maintenance work will be conducted but will not impact the east or west navigation spans of the bridge. Comments concerning the temporary impacts to navigation will be received by the Coast Guard until the COB on October 28, 2025 at D11Bridges@uscg.mil or 571-607-2207.	Lat: 37° 56' 07" Lon: -122° 26' 48"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Manson Construction Co. will be conducting marine construction to the wharf at Alcatraz Island at 37-49-36N 122-25-15W. Construction will begin on 23 January, 2023 and be completed on 04 October, 2025. During construction DB HAGAR will be utilizing divers during low tide. Tug WESTAR will be assisting DB HAGAR and monitoring VHF-FM Chan. 13 and 16. Mariners are requested to transit the area with caution. For more details or comments contact Matt Lehmann at 510-529-1583.	Lat: 37° 49' 36" Lon: -122° 25' 15"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra group will be conducting waterside Contruction in Berkley Marina beginning 30 June, 2025 to 12 December, 2025. The Kelso Crane Barge (dimensions 150'x54'x9.5'), equipped with a crawler crane, along with a workboat, two flat deck barges and work skiffs, will be utilized for this support. Work will occur during daylight hours, and the spud barge will likely maneuver around the marina during that time. If not moving into location and working, the crane barges will be spudded down on with flashers on all corners along with all other marine equipment. Mariners are advised to use cation when transiting the area. The Crane Barge crews will monitor VHF-FM channel 9 & 16, working channel 77, or can be reached by calling (707) 389-0505.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Marinship Development and Salt River Construction Corporation will be conducting dredging operations from 15 July 2025 until 30 November 2025 for the Larkspur Marina Homeowner's West of Hwy 101 Bridge. The self-contained dredged/dump barge DB2, SPRINGER, P CAY and tugboats will be monitoring VHF-FM Chan. 13, 14 & 77. Mariners are requested to transit the area with caution. For more details or comments, contact Rick Moseley at 415-435-1024.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert Inc, will be conducting a hydrographic survey is scheduled to be conducted between the period of 08-September to November 30, 2025, in San Francisco Bay, CA. The survey personnel and equipment spread will consist of one commercial survey boat approximately 25 feet in length, with a marine surveyor/technician/environmental monitor, a vessel mounted 3D multi-beam sonar system, and commercial grade differential GPS with sub-meter accuracy or better; the survey vessel will be monitoring VHF-FM Chan. 16. A 200m safety zone will be observed for marine wildlife and pinnipeds. All mariners are advised to transit the area with caution, for more information contact: 425-358-0267.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc will be conducting pier demolition operations in the vicinity of San Francisco Bay North Channel. Operations will be conducted from 8-September-2025 to 3-October-2025. The vessels on scene will be: Little Cindy, Vessel Call Sign: Little Cindy; Vessel Name: Crane Barge 2, Vessel Call Sign: CB2. All will be monitoring VHF-FM Channels: 13 and 14, 16 will be monitored if there is not any deep-draft traffic. All mariners are requested to transit the area with caution, for more information contact: Matt 925-818-2324.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	dredging and underwater construction operations to be conducted at Mission Bay, San Francisco. The derrick barge "Victory", dredge CB-37, deck barge CB-60, and tugs Laguna and Lariat will be on site along the pipeline crossing axis. The barges will be moored with spuds, and will be supported by both tugs throughout the work. The project will commence on or around September 15 and complete approximately December 15. The work will include dredging of approximately 13,000 cubic yards of sediment, installation of an underwater concrete scour protection mattress, and installation of a sand cap. Divers will be used during the scour protection portion of the project. An alpha flag will be displayed when divers are in the water. Operations will continue 24/7 basis. Barges and tugs will be spudded outside of navigation lanes between working shifts. All floating plant will be monitoring channels 13 and 14 and 67 at all times. The call sign for the derrick Victory is WDL7495 and the call sign for the tug Laguna is WDL7500. The barges will be marked with white flashing lights on all corners. The Project Superintendent will be Zach Stang, who can be reached 24/7 at (650) 888-0211. Mariners are advised to use extreme caution while transiting the work area.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations at the Port of San Francisco Pier 80. The clamshell dredge, "DB 24" or "DB Beaver" or "TM-9" will carry out dredging operations. Scow fleet will consist of (7) split hull scows, the tow tug "Heidi L Brusco" , "Terri L Brusco" and or similar will serve as tow tugs during disposal operations. All equipment will monitor Channel 13, 14, and 80. The tow tug will use the call sign KX7468. Dredging operations will commence on or about September 17, 2025 and end on or before October 30, 2025. During this time, they will be operating 24 hours / 7 days / week around the Port of San Francisco Pier 80C (approximately 37.750111N, -122.375731W) with dredging and operations. For more information contact Mr. Dennis Salyers: 415-497-5289; all mariners are advised to use caution while transiting the area.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CS Marine Constructors, Inc. will be conducting pipeline backfill operations at five locations over the pipeline corridor crossing between Brisbane and Oakland from 06 October 2025 through 30 November 2025. Backfill operations will be conducted by derrick barge "DB Carquinez", hopper barge "CSM 30" and flat barges "CSM 40" and "CSM 41". The spread will include a diving support vessel and marine survey vessel. The barges will be anchored using a four-point mooring system marked with 5ft crown buoys. The buoys will be lighted at night with flashing white strobe lights. All vessels and equipment will be monitoring VHF-FM CH8, CH 13 and CH 14. Mariners are requested to transit the area with caution all vessels approaching the moored work vessel must receive radio permission from the diving supervisor or the derrick barge before passing within 500 feet of the barge spread or diving support vessel. For questions or comments contact Jeff Thompson at 510-719-1246. Location #1 37.6965N, 122.2974W Location #2 37.7003N, 122.2818W Location #3 37.7006N, 122.2804W Location #4 37.7008N, 122.2792W Location #5 37.6883N, 122.3896W	

San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting demolition operations on Pier 50 pilings from October 1, 2025, to October 10, 2025. Any changes to these dates must be promptly reported to the Coast Guard. The operation will involve the vessels Little Cindy (Call Sign: Little Cindy) and Crane Barge 2 (Call Sign: CB2). VHF-FM radio frequencies monitored during the operation include Channels 13 and 14 if near deep-draft traffic and Channel 16 if not near deep-draft traffic. The work will occur at coordinates 37°46'23.89"N, 122°23'09.57"W. Mariners transiting the area are advised to exercise caution and maintain communication on the appropriate VHF-FM channels. For additional information, please contact Matt Bramlett at (925) 818-2324 or via email at Mbramlett@silveradocontractors.com.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting mooring and berthing improvement operations at Pier 80 from October 1, 2025, to October 10, 2025. The operation will involve the vessels Little Cindy (Call Sign: Little Cindy) and Crane Barge 2 (Call Sign: CB2). Vessels on scene will monitor VHF-FM Radio Frequencies 13 and 14 when near deep-draft traffic, and Channel 16 when not near deep-draft traffic. The operation will take place in the vicinity of coordinates 37.75237°N, -122.37552°W. Mariners are advised to reference the appropriate chart for the area. For more information contact: Matt Bramlett, who can be reached at (925) 818-2324. If there are any changes to the project schedule, the Coast Guard will be notified.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Events/Other	Marine Events	The Coast Guard will be enforcing the regulations in 33 CFR 100.1105 that establish regulated areas in the navigable waters of San Francisco Bay for the annual U.S. Navy and City of San Francisco sponsored Fleet Week Parade of Ships and Blue Angels Demonstrations to be held on 09 October 2025 through 13 October 2025. Both regulated areas Alpha and Bravo will include all navigable waters from the surface to the seafloor encompassed by the following positions: Regulated Area "Alpha": 37°48'40"N, 122°28'38"W 37°49'10"N, 122°28'41"W 37°49'31"N, 122°25'18"W 37°49'06"N, 122°24'08"W 37°47'53"N, 122°22'42"W 37°46'00"N, 122°22'00"W 37°46'00"N, 122°23'07"W Regulated Area "Bravo": 37° 48' 27.5" N, 122° 24' 04" W 37° 49' 31" N, 122° 24' 18" W 37° 49' 00" N, 122° 27' 52" W 37° 48' 19" N, 122° 27' 40" W 2025 Fleet Week Air Show Box Buoy positions: In position from 08OCT25 – 14OCT25 Center Pt: 37°49.008 N / 122°25.590 W SW Corner: 37°48.612 N / 122°26.786 W NW Corner: 37°49.113 N / 122°26.868 W NE Corner: 37°49.389 N / 122°24.354 W SE Corner: 37°48.888 N / 122°24.272 W Regulated Area "Alpha" for the Navy Parade of Ships will be enforced from 10 a.m. to 12 p.m. on 09 October 2025. Regulated Area "Bravo" for the U.S. Navy Blue Angles Activities will be enforced from 12 p.m. to 5 p.m. on 09-13 October, 2025; Under the provisions of 33 CFR 100.1105 a vessel may not enter the regulated area, unless it receives permission from the Captain of the Port. Additionally, no person or vessel may enter or remain within 500 yards ahead of the lead Navy parade vessel, within 200 yards astern of the last parade vessel, and within 200 yards on either side of all parade vessels. No person or vessel shall anchor, block, loiter in, or impede the transit of ship parade participants or official patrol vessels.

New York Slough - San Joaquin River/General/Bridges/Construction	Bridges	SAN JOAQUIN RIVER REPLACEMENT HILLS FERRY ROAD BRIDGE-Work has begun to replace the bridge. Work will take place during daylight hours, Monday through Friday, through January 2027. A temporary bridge will span the river during the project and will provide a lower vertical clearance than the existing bridge and the replacement bridge. For on-scene conditions mariners can contact Stanislaus County at 209-777-2885 or the contractor at 415-720-6577. For further information contact the Coast Guard Bridge Office at 510-219-4366.	Lat: 37° 20' 58" Lon: -120° 58' 32"
New York Slough - San Joaquin River/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-BISHOP CUT-EIGHT MILE ROAD BRIDGE- The swing span of the bridge will be secured in the closed-to-navigation position from October 1, 2025 through January 30, 2026 for structural, mechanical and electrical rehabilitation. When closed, the bridge provides 6 feet of vertical clearance at Mean High Water. Vessels able to transit the bridge while closed can continue to do so at any time. There are alternate routes to reach either side of each bridge when closed. For additional information contact the Coast Guard at D11Bridges@uscg.mil or 571-607-5820.	Lat: 38° 03' 30" Lon: -121° 25' 06"
New York Slough - San Joaquin River/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-HONKER CUT-EIGHT MILE ROAD BRIDGE- The swing span of the bridge will be secured in the closed-to-navigation position from October 1, 2025 through March 27, 2026 for structural, mechanical and electrical rehabilitation. When closed, the bridge provides 6 feet of vertical clearance at Mean High Water. Vessels able to transit the bridge while closed can continue to do so at any time. A temporary work platform will be installed under the eastside span and will reduce vertical clearance in that span by 4'. Mariners will be able to use the west navigation span during the work. There are alternate routes to reach either side of each bridge when closed. For additional information contact the Coast Guard at D11Bridges@uscg.mil or 571-607-5820.	Lat: 38° 03' 34" Lon: -121° 27' 34"

New York Slough - San Joaquin River/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Curtin Maritime (CMC) will be conducting dredging activities commencing on or about August 18, 2025, and conclude on or about October 18, 2025. During this time, CMC will be operating 24 hours per day / 7 days per week (Monday through Sunday).The extents of dredging activity will begin at 38° 1'18.98"N, 121°48'29.21"W and conclude at 37°57'8.40"N, 121°19'58.16"W.Maintenance dredging within the channel at designated reaches will occur, and material will be loaded into scows. The scows will be pushed by tug from the dredging area to Bradford Island Disposal Site located at 38° 4'8.79"N, 121° 40'30.78"W until on or around September 18, 2025. After September 18, 2025, through completion on or around October 18, 2025, Curtin Maritime will be utilizing Roberts Island II Disposal Site located at 37°59'39.61"N, 121°24'59.49"W. TALL manned equipment will monitor at the minimum VHF-FM Channels 13, 14 and 16. Project Manager, Mr. Tyler Maiers can be reached at 810-841-7552, along with Project Manager, Mr. Corey Durno can be reached at 352-219-8325. Mariners are requested to transit with caution after passing arrangements have been made.

Sector San Francisco, Submerged Land Act (SLA) - Santa Cruz/General/Bridges/Construction	Bridges	NORTHERN CALIFORNIA-SANTA CRUZ HARBOR-EATON/MURRAY STREET BRIDGE- Seismic retrofit work is being conducted Monday through Saturday, 7 am to 6 pm, through January 28, 2028. Cofferdams are in place around bents 6, 7, and 8, the north and south navigation spans. The cofferdams reduce horizontal clearance in each span by 6 feet. All bent work will be done via the bridge deck. When the north span is being worked on, it will be closed to navigation and the south span open. When the south span is being worked on, it will be closed to navigation and the north span open. All red pier lights will be operational. The green center channel lights will only be operational in the span that is open. All vertical clearance gauges have been removed and will be replaced once work is complete. A flag boat is on-scene during working hours to guide mariners to the open span and can be reached on marine radio VHF-FM CH 09, 69, 70, and 71. For on-scene conditions, mariners can contact the contractor at 415-265-1167 or 510-715-5555. Sector Los Angeles, Territorial Sea/General/Bridges/Construction	Bridges	SOUTHERN CALIFORNIA-SAN JOSE CREEK-GOLETA SLOUGH-BRIDGE STATE ROUTE 217 HIGHWAY BRIDGE- Caltrans has resumed in-water construction for the bridge replacement project, scheduled to be completed by 31 October, 2025. Nets have been installed in the slough to prevent fish from the area. An open navigable passage in the middle of the slough under the bridge is available for mariners. Mariners are requested to transit the area with caution. For more information, contact the Coast Guard Bridge Office at 571-607-2206 or by e-mail at D11Bridges@uscg.mil.	Lat: 34° 25' 15" Lon: -119° 49' 47"
Sector Los Angeles, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Golden State Wind LLC will be deploying two temporary Metocean buoys in the BOEM Lease Area (OCS-0564), approximately 30 miles from shore at the closest point and 53 miles northwest of Morro Bay at 35.60333N 121.86028W and 35.53389N 121.81333W. The buoys will be lit with yellow flashing lights (FI (5) Y 20s for the northern buoy and FI (4) Y 20s for the southern buoy), radar reflectors, and retroreflective coatings. The northern LiDAR buoy is equipped with AIS. The vessel MICHAEL UHL (Official Number 544092) will be towing the buoys to the site and deploying them in the above locations as weather allows by 31 December, 2025. The Michael Uhl will be broadcasting AIS while on these deployment operations and will be monitoring VHF-FM Chan.13 & 16. Mariners are requested to transit the area with caution and are urged to transit at their slowest safe speed, to minimize wake, and proceed with caution after passing arrangements have been made. For more details or comments contact Rachel Mahler at 805-680-8138 or Rachel.Mahler@oceanwinds.com.	
Sector Los Angeles, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	the Motor Vessel Danny C; official number 506332; call sign WBE 8593; will perform underwater pipeline inspection work from 7-October-2025 to 14-October-2025, within this location: 33.58549N, -118.12862W. The operations will include the vessel using an underwater remote operated vehicle (ROV) “flying” the pipeline to complete the inspections indicated below. The vessel will be working in a “live boat mode” not anchored. The vessel will be following the pipelines path and operations will be conducted on a 12 hour per day basis, generally during daylight hours. The vessel will be monitoring channel 16 and cell phone (562)-519-0542. The vessel’s general description is the following: 100’ LOA; black hull and white superstructure; typical Utility Boat configuration. All mariners are advised to transit the area with caution, for more information contact: 805-676-4330.	
Sector Los Angeles, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Anduril Industries will be conducting unmanned underwater operations from 02-03 October, 2025 in the vicinity of Port Hueneme and Dana Point. The following position of operation is listed below: 33° 25.35' N, 117° 40.83' W 33° 22.07' N, 117° 44.84' W 33° 20.36' N, 117° 42.53' W 33° 23.65' N, 117° 38.81' W The M/V FLORENCE will be on scene monitoring CH. -16. Mariners are requested to use caution when transiting near M/V FLORENCE. For more information contact Joe Pope: 949-820-1758.	

Point Dume To Purisima Point/General/Other	Miscellaneous	Ocean Rainforest will be establishing an Aquafarm, starting on 30 March, 2023 until Decmeber, 2025 located located 4.3 NM South of Santa Barbara. The site is bound within four yellow boundary marker buoys with a flashing yellow light every 2 seconds (FI Y2s) in the following positions: 34-19-58.53N 119-42-45.72W 34-20-10.12N 119-42-45.72W 34-20-11.23N 119-42-07.24W 34-19-59.64N 119-42-07.92W In line with the outer boundary buoys are small unlit floats that are marking the anchors associated with the Aquaculture area, the total buoys marking the anchors are 12 on the long axis of each side and 2 between the corner buoys on the short axis. Within the boundary markers will be 188 buoys/floats, see Enclosure AQUACULTURE ESTABLISHMENT.pdf enclosure below. The interior buoys of the aquaculture are in the shape of a rectangle with the outer edge marked with yellow buoys, every other buoy has a flashing yellow light flashing every 2 seconds (FI Y2s). Within the rectangle are 135 small unlit floats marking the cultivation lines. Mariners are advised to remain clear of this area as entanglement with associated equipment may occur. Vessel DANNY C will be conducting the deployment and monitoring VHF-FM Chan. 7 and 16. For more details or comments contact Ocean Rainforest Inc at 805-722-9601 or eliza@oceanrainforest.com.	
Sector Los Angeles, Territorial Sea/General/Miscellaneous	Miscellaneous	NAVFAC Engineering & Expeditionary Warfare Center will be conducting underwater tow operations from 9-September-2025 to 10-October-2025, about a mile offshore from Santa Cruz Island. The vessels involved in the operation are: Pacific Tug J.M. Hidalgo, Barge PTS-1, and the tug Katherine. They can be reached on VHF-FM Channels 16, 13, and 64A. All mariners are requested to transit the area with caution, for more information contact: Kevin 626-456-0265.	
Sector Los Angeles, Territorial Sea/General/Naval Activity/Naval Testing (Surface/Underwater)	Naval Activity	The United States Navy will be conducting submerged gear operations off the coast of California from 23 September to 03 October 2025. Submerged gear operations will be conducted within 2,000 feet of Motor Vessel Independence. Motor Vessel Independence will be operating within 2 nautical miles of the three locations below. The selection among the three locations will vary depending on weather and sea state. • N 33.81°, W 119.35° • N 33.69°, W 119.16° • N 33.879°, W 119.108° Mariners are advised to use caution when transiting the area due to submerged gear. The M/V Independence will be monitoring VHF FM channels 16 and 13 during these operations. For more information contact LT Pete Schmillen at (805) 982-3829.

The aid is fully operational and displaying its designated characteristics.	Lat: 36° 35' 03" Lon: -121° 59' 07"
Sector San Francisco, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	The Monterey Bay Aquarium Research Institute (MBARI) will be conducting 24/7 autonomous, unmanned maritime vehicle operations of two Liquid Robotics, Inc. Wave Gliders (www.liquidr.com), from 8 January, 2025 until 31 December, 2025. Deployment of the vehicles will be in the vicinity of Moss Landing, they will operate continuously between 36.3N -122.98306W and 37.21667N -122.98306W. Operations consist of scientific ocean data collection. Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from MBARI, moving at speeds of 1kt, and designed to give way or part if encountered by a vessel. It is approximately 8' x 2' (surfboard size), copper in color, with a contact plaque and mast extending 1 meter above the water surface supporting a flag. Mariners are requested to transit the area with caution. For more details or comments, contact MBARI at 831-775-1700, waveglider@listserver.mbari.org , or Liquid Robotics 24/7 WGOC Operations at 888-574-4574 or 1-408-636-4205.	
Sector San Francisco, Territorial Sea/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert, Inc will be conducting a hydrographic survey is between the period of September 15, 2025 - October 20, 2025 near Half Moon Bay. The survey personnel and equipment spread will consist of one commercial survey boat approximately 30 feet in length, with a marine surveyor/technician/environmental monitor, a vessel mounted 3D multi-beam sonar system, and commercial grade differential GPS with sub-meter accuracy or better. A 200m safety zone will be observed for marine wildlife and pinnipeds. Survey Vessel name/number: Taku/CF 3078 UK Radio channel to be monitored by vessel: Channel 16. All mariners are advised to transit the area with caution, for more information contact: 425-358-0267.	
Sector San Francisco, Territorial Sea/General/Miscellaneous	Miscellaneous	NOAA will be conducting a mooring replacement operation at Cordell Bank aboard the R/V Fulmar on one day between October 8th and October 10th, 2025, depending on weather conditions. The operation will involve the recovery and deployment of a hypoxia mooring at the location 38.045720N, 123.456130W, and is expected to occur between 9:00 AM and 2:00 PM. The R/V Fulmar will be monitoring VHF-FM Channel 16 throughout the operation. Mariners are advised to exercise caution in the vicinity of the operation. For additional information, please contact Sophia Lyon at (510) 342-9012.	
Sector San Francisco, Territorial Sea/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	NMFS has taken inseason action in the recreational salmon fisheries south of Cape Falcon. Starting September 29, 2025, at 12:01 a.m., the recreational ocean salmon fishery between Point Reyes and Pigeon Point will be closed. This closure affects the previously scheduled dates of September 29-30, October 1-5, and October 27-31.
