San Pedro Bay - Anaheim Bay/General/Bridges/Rehabilitation	Bridges	SOUTHERN CALIFORNIA-ANAHEIM BAY- ADMIRALTY DRIVE BRIDGE: Rehabilitation work is continuing on the bridge. The use of scaffolding, and floating work platforms moored at piers, will reduce the vertical clearance by 4ft and limit the horizontal clearance to 37ft. Mariners are requested to transit the area with caution. For more information, contact the Coast Guard Bridge at 571-607-2206 or by email at D11Bridges@uscg.mil.	Lat: 33° 43' 18" Lon: -118° 04' 20"
San Pedro Bay - Anaheim Bay/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	The U.S Coast Guard has received a report of shoaling in the vicinity of Anaheim Bay Channel's East and West Jetty Lights. All vessels with a draft of 31 ft or greater are cautioned to remain in the center of the channel during tides of less than +1 FT tide. Risk of grounding exists on the sides of the channel during tides of -0 ft for drafts of 31 ft or greater. All mariners are advised to transit the area with caution. Direct all questions and concerns to d11-smb-sectorlalb-www@uscg.mil.

San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting Marine construction in the vicinity of Vallejo, California within the California State University Maritime Academy Boat Basin. The initiation of waterside operations for this project will entail the deployment of multiple crane barges secured by both anchors and spuds, along with a continuous rotation of material supply barges, tug tenders, "Linda T" workboat, and various small skiffs. Activities are scheduled to commence as early as September 12, 2025 to December 2027. Beginning with the mobilization of Crane Barge Kelso ("CB Kelso") and EM1106 ("Morty") barge fitted with appropriately sized crawler cranes. The designated vessels will be monitoring VHF-FM channels 9 & 16, with the working channels 68A or 80. All mariners are advised to use caution when transiting the area, for more information contact: Scott 707-333-5029	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations at the Valero Refinery dock. The clamshell dredge(s), "DB24" or "DB Beaver" or "DB Morty" will carry out dredging operations. The scow fleet will consist of (4) split hull scows, and capacities of the scows are as follows: (2) 3,000CY, and (2) 2,000CY. The tow tug "Lassen" or similar will serve as tow tug during disposal operations. The material from the Valero Refinery will be disposed of at Montezuma Wetland Restoration Project (MWRP). Support will also be supplied by the tender tug "Phyllis T" or similar. All equipment will monitor Channel 13, 14, and 80. The tow tug will use the call sign WDG2199. Dredging operations will commence on or about September 17, 2025 and end on or about November 30, 2025. During this time, they will be operating 24 hours / 7 days / week around the Valero Refinery (approximately Lat 38.042079 Long 122.131819) with dredging and transit to the disposal site operations. The superintendent will be Mr. Dennis Salyers. He can be reached at (415) 497-5289. Mariners are advised to use extreme caution while transiting the dredge area.	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will be conducting demolition operations for the CSUMA Wharf from October 15, 2025, to October 24, 2025. The scope of work involves the use of the vessels Little Cindy (Call Sign: Little Cindy) and Crane Barge 2 (Call Sign: CB2), which will monitor VHF-FM radio frequencies 13 and 14 when near deep-draft traffic, and frequency 16 when not near deep-draft traffic. The operation will take place at coordinates 38.065539, -122.230070. Mariners are advised to transit the area with caution. For further information, please contact Matt Bramlett at (925) 818-2324 or via email at Mbramlett@silveradocontractors.com.	

Channel Islands Harbor

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Carquinez Strait - Mare Island Strait/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Maintenance and rehabilitation work is being conducted outside the main navigation span (lift span) of the bridge, 7 am to 7 pm, 7-days a week, through November 30, 2026. This work will not impact the navigational clearances or the operation of the lift span. A 99' X 99' barge, a 33' X 13' supply barge, and a crane barge will be anchored at several locations on the north and south sides of the approach spans to conduct the work. After the normal workday, the barges will remain on-scene. A temporary platform is being installed below low steel in the approach spans, reducing vertical clearance of the bridge by no more than 4 feet. Divers will be deployed during the work. To determine the location of divers, mariners can contact 707-974-2789 or 707-974-0917. To determine conditions at the work site, mariners can contact 510-774-1204 or 925-382-3544. Vessels are requested to transit the work area with caution. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil.	Lat: 38° 06' 39" Lon: -122° 16' 29"
Carquinez Strait - Mare Island Strait/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Painting of the lift span is being proposed which will require a temporary change in the operating schedule of the span. Therefore, the lift span of the bridge will be secured in the closed-to-navigation position Monday through Thursdays, 7 am to 5 pm, and Fridays, 7 am to 11 am and from 12 noon to 5 pm, December 22, 2025 through late March 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will be secured in the closed-to-navigation position Monday through Fridays, 5 am to 1 pm, and 2 pm to 3 pm, late March through June 30, 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will resume normal operations for the following events; Bottle Rock; May 22, 23, and 24, 2026; Sausalito Yacht Club 7th Annual Cruise to NV Yacht Club; May 28, 29, 30 and 31, 2026. Temporary underdeck platforms will be installed below the lift span bridge deck, reducing the vertical clearance in the open and closed positions by 4 feet. In the event of an emergency, the lift span can open with 2-hours advance notice given to the bridge operator. If you wish to comment on this temporary operating schedule change, please do so by close of business, September 30, 2025. Comment will be received at D11Bridges@uscg.mil.	Lat: 38° 06' 39" Lon: -122° 16' 29"
Carquinez Strait - Mare Island Strait/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will conduct dredging operations at the Vallejo Ferry Terminal (Latitude 38.099847N, Longitude -122.263519W) from November 7, 2025, to November 12, 2025, operating 24 hours per day. The work will be carried out using clamshell dredges "DB 24," "DB Beaver," or "TM-9," supported by a scow fleet consisting of seven split-hull scows with capacities of three at 3,000 CY and four at 2,000 CY. The tow tugs "Heidi L Brusco," "Terri L Brusco," or similar will assist during disposal operations, with material being transported to MWRP disposal sites as directed by the Dredged Material Management Office (DMMO). Additional support will be provided by the tender tug "Becky T." All equipment will monitor VHF-FM Channels 13, 14, and 80, with the tow tug using the call sign KX7468. Mariners are advised to exercise extreme caution while transiting the dredge area. For operational inquiries, contact Superintendent Dennis Salyers at (415) 497-5289. For questions regarding this notice, contact (415) 218-6739.

San Francisco Oakland Bay Bridge West Crossing - Oakland Inner Harbor/General/Bridges/Lighting and Other Signals	Bridges	NORTHERN CALIFORNIA-OAKLAND INNER HARBOR-FRUITVALE AVE RAIL BRIDGE-The lift span of the rail bridge is kept in the partially opened position providing 80 feet of vertical clearance at mean high water. The lift span can be raised to its fully open position upon request to the drawtender at the Miller Sweeny (Fruitvale Ave) bridge. The following is the new navigation lighting configuration at the rail bridge. 1. When the bascule span of the highway bridge is in the closed-to-navigation position and the lift span of the railroad bridge is in the partially open position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show a red 180-degree center span light on the upstream and downstream lower edge of the span. 2. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the partially opened position, providing 80 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show one solid 360-degree green light and one flashing 360-green light on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. 3. When the bascule span of the highway bridge is in the fully opened position and the lift span of the railroad bridge is in the fully opened position, providing 135 feet of vertical clearance at mean high water, the lift span center channel navigation lights will show two solid 360-degree green lights on the upstream and downstream lower edge of the span, providing a range for the centerline of the channel between both highway and railroad bridges. San Pablo Bay - Petaluma River/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Dutra Group will conduct dredging operations in the Petaluma River Federal Channel, Reaches 1–9, from October 8, 2025, to December 31, 2025. Operations will take place 24 hours a day, 7 days a week, using the Derrick Barge (DB-24) or DB Beaver. The scow fleet will consist of four split-hull scows with capacities of two 2,000 CY scows and two 3,000 CY scows. The tow tug "Lassen," "Terri L.," or a similar vessel will be used during disposal operations, with dredged material disposed of at the Montezuma Wetlands Restoration Project and SF10. Additional support will be provided by the tender tug "Becky T." All equipment will monitor VHF Channels 13, 14, and 80. The dredging will occur between positions 38.05517° N, -122.42794° W and 38.23431° N, -122.63943° W, all mariners are advised to transit the area with caution. San Francisco Bay - Richmond Harbor Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Curtin Maritime (CMC) will be conducting dredging activities commencing on or about October 5, 2025, and conclude on or about November 30, 2025. During this time, CMC will be operating 24 hours per day / 7 days per week (Monday through Sunday). Maintenance dredging within the Richmond Inner Channel will occur, and material will be loaded into scows. The scows will be towed out the Richmond Inner Harbor Channel to head north to pass under the the Richmond-San Rafael Bridge into the San Pablo Straight. From there they will continue into the Pinole Shoal Channel to then head up the Mare Island Straight to pass under the Mare Island Lift Bridge then the Hwy 37 Fixed Bridge until reaching their offloading area located just north of Dutchman Slough at 38.122572N, -122.282125W. Curtin Maritime will have an offloader barge using spuds at this location that the scows will be made up to. Curtin Maritime will also be utilizing a mooring for scows in the General Anchorage No. 5 at the coordinates 37.92124N, -122.430352W. All manned equipment will monitor at the minimum VHF-FM Channels 13, 14 and 16. Project Manager, Mr. Alexandro Rodriguez can be reached at 562-241-2350, along with Project Manager, Mr. Sean Gillam can be reached at 516-526-7098. Mariners are urged to proceed with caution after passing arrangements have been made.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Construction	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-REPLACEMENT BUTTE CITY BRIDGE: Bridge construction continues Monday through Friday during daylight hours until September 25, 2026. The temporary trestle, along with falsework, is being removed from the bridge site. A temporary navigation span during construction is just west of the old bridge's pivot pier, 435 feet west of new bridge abutment, and is lighted at night with a green center channel light on the upriver and downriver sides of the old bridge. The temporary navigation span provides at least 32 feet horizontal clearance. Vertical clearance is 35 feet from low steel of the old bridge above MLLW. A barge with crane is on scene, and is lighted at night with red fixed lights at its corners. For further information contact the Coast Guard Bridge Office at 571-607-2206 or by email at D11Bridges@uscg.mil.	Lat: 39° 27' 26" Lon: -121° 59' 43"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Temp Deviation	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-TOWER BRIDGE-The lift span of the bridge will be secured in the closed-to-navigation position from 4 am to 11 pm on October 19, 2025, for a community event. In the closed-to-navigation position the bridge provides 29 feet of vertical clearance at mean high water. Vessels able to pass the bridge while in the closed position can do so at any time. In the event of an emergency, the span can open if a 1-hour notice is given to the bridge operator. If you wish to comment on this temporary schedule change, please do so by close of business on September 19, 2025. For further information or to submit comments contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or 571-607-5820.	Lat: 38° 34' 50" Lon: -121° 30' 30"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-MINER SLOUGH-MINER SLOUGH BRIDGE-The swing span of the bridge will be secured in the closed-to-navigation position from 5 am to 7 pm on October 19, 2025 for the Ironman Triathlon event. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or 571-607-2206.	Lat: 38° 17' 31" Lon: -121° 37' 51"
Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Construction	Bridges	NORTHERN CALIFORNIA-LOST SLOUGH-FRANKLIN BLVD BRIDGE-Construction of the replacement bridge is ongoing. Sacramento River Deep Water Ship Channel - Sacramento River/General/Hazards To Navigation/Hazards	Hazards To Navigation	ATON/PATON Discrepancies From: 2025-05-08 To: 2025-11-04 Location: 38-35.146N 121-30.356W Discrepancy Information: A partially submerged white foam buoy has been reported in the Sacramento River 120' South of the I Street Bridge in the middle of the East channel. Mariners are advised to proceed with caution and report to the USCG any sightings of this buoy.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be doing marine construction operations on the Sacramento River, between the Tower Bridge and Pioneer Bridge. Waterside work is scheduled from 18-August, 2025 to 30-November, 2025. A crane barge and tugboat will be utilized throughout construction; they will be transiting frequently from Dutra's Rio Vista Yard to the Sacramento River. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours; the barges will be spudded down with flashers on all corners. Both barges will monitor VHF-FM Channels 9 and 16; mariners are requested to transit the area with caution. For further questions contact: (707) 333-5029.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting marine operations, work will consist of furnishing all labor, materials, equipment, and all incidental related work to complete support. Waterside work is schedule from 18-Aug-25 to 30-Nov-25; The Crane Barge 12, along with a tugboat will be utilized on the project. The crane barge will be spudded down at various locations during construction within and between areas of construction. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM channel 9 & 16, working channel 68A. All mariners are requested to transit the area with caution, for further information contact 707-333-5029.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CAL-NEVA Construction Services will start the installation of the Bio-Acoustic Fish Fence (BAFF). On the Sacramento River, in position 38.23944N, 121.51833W, from 1-30 October 2025. Operations will be conducted with derrick barge "DB Carquinez" along with a flat barge. The barges will be either spudded down or anchored using a four-point mooring system marked with 5ft crown buoys. The buoys will be lighted at night with flashing white strobes. All vessels, and equipment will be monitoring VHF-FM Channels 8, 13 and 14. Mariners are requested to transit the area with caution. For more details or comments contact Kevin Malone at 916-417-7777.	
Sacramento River Deep Water Ship Channel - Sacramento River/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conduction quarry stone placement operations from 18-Aug-2025 to 30-Nov-2025. The Crane Barge TM20, a moored Crane Barge 1, along with a tugboat and a rotating flat deck barge will be utilized on the project. The crane barge TM20 will be spudded at various locations during construction within and between the construction area. The crane barges, as well as the tugboat will mobilize from Dutra's Rio Vista Yard to the Sacramento River levee. The Crane Barge 1 will be moored adjacent to the Miller Park Marina. The flat deck barge will be in-transit between the job site and San Rafael Rock Quarry and will be moored at pre-existing moorings along the Sacramento River during mobilization; one mooring being on Oak Hall Bend, and two being just south and north of Walnut Grove, respectively. This rotation will persist for most of the duration of the project. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM Chan. 9 & 16, working channel 68A, or can be reached by calling (707) 333-5029. Mariners are advised to use extreme caution while transiting the construction site.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-AMERICAN RIVER-CAPITAL CITY FREEWAY (Route 51) BRIDGE- Rehabilitation continues on the bridge through March 31, 2026. Work will be conducted Monday through Friday, 7 am to 5:30 pm, and will include the use of barges, work boats, tugboats, turbidity curtains, and access piers. During the workday, barges can be moved for the safety of navigation with one hour notice to the contractor via VHF-FM CH 16 or at 916-532-8208. Barges will be unmanned and moored at their work locations overnight. Each corner of each barge will be lighted at night with steady burning red lights. Mariners are requested to transit through the main navigational span between piers 4-5, keeping as much as possible to the center of the channel to avoid the newly installed pier scour protection around the piers. For further information, contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or at 571-607-2206.	Lat: 38° 35' 15" Lon: -121° 26' 50"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Temp Deviation	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-RIO VISTA BRIDGE: Continuing rehabilitation of the bridge will require an advance notice from vessels for openings. Therefore, the lift span of the bridge will open on signal if at least 4-hour notice is given to the drawtender at 707-374-2134. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil.	Lat: 38° 09' 32" Lon: -121° 41' 03"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-I STREET DRAWBRIDGE - The swing span of the bridge will be secured in the closed to navigation position from 7am October 6 through 6 am on October 10, 2025. Then, from October 10 through October 16, 2025, the bridge will open on signal from 6 am to 10pm if a 45-minute notice is given to the bridge tender. At all other times, the bridge will operate in accordance with 33 CFR 117.189(a). When closed the bridge provides 30 feet of vertical clearance at mean high water. Vessels able to pass through the bridge while closed can continue to do so at any time. In the event of an emergency, the swing span can open if 4-hours' notice is given to the bridge tender. For further information contact the Coast Guard Bridge Office at 571-607-5820 or at D11Bridges@uscg.mil.	Lat: 38° 35' 11" Lon: -121° 30' 23"
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations in the Sacramento Deep Water Shipping Channel. Dredging operations will commence on or about August 15, 2025, and end on or before October 22, 2025. During this time, they will be operating within the Federal Channel Reaches 1 – 10, 24 hours a day, 7 days a week with dredging and disposal operations. Locations for the start and end of dredging operations are listed below: Start - 38.081788N -121.75709W End- 38.51680N -121.58450W The superintendent will be Mr. Dennis Salyers. He can be reached at (415) 497-5289. Mariners are advised to use extreme caution while transiting the dredge area.	
Suisun Bay - Sacramento River Deep Water Ship Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting debris removal operations along the easter side of Van Sickle Island in Solano County, California. The work consists of furnishing all labor, materials, equipment, and all incidental related work to complete the debris removal. We will be anchoring a crane barge via spuds along the perimeter of the island. Waterside work is scheduled to begin September 10th and will continue no later than October 31st, 2025. The Crane Barge Kelso, along with a tugboat and a material barge will be utilized on the project. The Crane Barge Kelso will be spudded at various locations during construction within and between the construction area. The crane barge, as well as the tugboat will mobilize from Dutra’s Rio Vista Yard to Van Sickle Island. Work will begin at the northeastern corner of the island, progressing south, and material barges will tow out of the construction area once full. Work will occur during daylight hours but maneuvering of barges outside of the construction area may continue at all hours. At the end of each shift, the barges will be spudded in with flashers on all corners along with all other marine equipment. Both barges will monitor VHF-FM channel 9 & 16, working channel 68A, or can be reached by calling (707) 333-5029. Mariners are advised to use extreme caution while transiting the construction site. Mariners are urged to transit at their slowest safe speed to minimize wakes.

The location readings for the site are latitude 32° 39' 29.772" N, longitude -117° 7' 7.4274" W, NOAA Chart No. 18773. Dredging and construction operations will commence on or around August 21, 2025 and continue through November 30, 2025. Vessels DB Point Loma, DB William F, DB Palomar and RES 180 will be performing construction operations with push boat Jeanie R, crew boat John Drake and RES Survey Boat in conjunction with tugs Killeen and Cuyamaca. Additional vessels include various Deck Barges (80', 110' and 120'). All vessels will monitor radio Channel 16. Mariners are advised to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Power Engineering Construction Co. will be operating from 15 September 2025 through 22 April 2026 in the vicinity of Continental Maritime of San Diego. Work will conducted Monday through Friday 0600 to 1800 in the vicinity of Continental Maritime of San Diego at 32° 41' 42.2" N 117° 09' 00.3" W. Operations will be conducted with a 230T Crane on a 60' x 100' Flexi-float barge. The barge will be spudded down. All vessels and equipment on site will be monitoring VHF-FM CH. 69/71. Mariners are advised to use caution when transiting the area. For further comments or details contact Matthew Dill at (510) 610-4633.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Port of San Diego will be conducting construction work to install four (4) mooring bollards along the south edge of Navy Pier to safely accommodate the existing Midway Museum. The project is scheduled to begin on November 1, 2025, and is anticipated to conclude by January 31, 2026. All work will occur on the deck of Navy Pier, with potential use of scaffolding and small vessel support as needed. The project location is within San Diego Bay at Lat 32.714169° N / Long -117.175214° W. Vessel operators will monitor all standard radio frequencies during the project. Mariners are advised that the project is not expected to pose hazards to navigation; however, they are urged to transit at their slowest safe speed to minimize wake and proceed with caution after making passing arrangements. For further information, contact Timothy Barrett at the Port of San Diego at 619-686-6544. Refer to NOAA Nautical Chart US5CA72M, San Diego Bay, published April 30, 2025, for additional details.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Port of San Diego will be conducting a marine debris and sunken vessel retrieval and removal project within the Zuniga Shoals area, located southeast of Zuniga Jetty just outside San Diego Bay. The project is scheduled to begin in mid-November 2025 and is anticipated to last approximately four months, through March 2026, depending on environmental conditions. Work will involve the use of in-water divers with lift bags, two to three support vessels with crane assist, and a small barge to hold debris as it is removed. Once retrieved, debris will be transported off-site for recycling or disposal in compliance with federal and state laws and regulations. The project location is at Latitude 32.6746° N / Longitude -117.2234° W. Vessel operators will monitor all standard radio frequencies during the project. Mariners are advised that the project is not expected to pose hazards to navigation; however, they are urged to transit at their slowest safe speed to minimize wake and proceed with caution after making passing arrangements. For further information, contact Timothy Barrett at the Port of San Diego at 619-686-6544. Refer to NOAA Nautical Chart 18773 for additional details.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	The San Diego Yacht Club will be sponsoring the International Masters Regatta on October 17-19, 2025, from 11:00 AM to 5:30 PM. The event is a sailboat race with 12 participants. The exact course may be varied based on sea state and commercial traffic and oriented to the prevailing wind direction. Mariners are advised to use due caution when transiting near the event area. For more details or comments, contact Jeff Johnson at 619-758-6310.	
Approaches To San Diego Bay - San Diego Bay/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	U.S. Fish and Wildlife services has installed a 12-ft x 12-ft mesh and benthic barrier until 31 December, 2025 in the San Diego Bay National Wildlife Refuge for one year. The location of the barrier in San Diego Bay is near 32.62316N -117.127056W. Approximately 5-ft x 6-ft patch of Caulerpa prolifera in the San Diego Bay National Wildlife Refuge. The benthic barrier would consist of plastic tarp, rebar-reinforced stakes, and sandbags. In addition, rock salt would be applied at an estimated rate of 8.9 to 50 kg/m ² in order to eradicate the Caulerpa prolifera infestation within the South San Diego Bay. The barriers would be installed for a period of up to one year. Mariners are requested to transit the area with caution. For more details or comments, contact Andrew Yuen at 760-535-7065.

San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-SAN FRANCISCO BAY-WEST SPAN SAN FRANCISCO/OAKLAND BAY BRIDGE-Caltrans is conducting expansion joint rehabilitation on the lower deck of the bridge. This work will require a temporary platform to be erected below low steel, reducing vertical clearance by approximately 2.8 feet. During the installation of the temporary platform, equipment use will temporarily reduce vertical clearance by 7 feet. The temporary platforms will not obstruct the operation of the Air Gap Sensor, the navigation lights, fog signal or RACONS. Work will be conducted Monday through Saturday morning 8 pm to 7 am, with occasional work on Saturday and Sunday nights, July 28, 2025 through June 1, 2026. The underdeck temporary platforms will be installed in phases as follows; Phase 1: From pier "F" (W7) to ~385 feet east of pier "D" (W5) from July 28, 2025 through October 30, 2025; Phase 2: From ~385 feet east of pier "D" (W5) to pier "B" (W3) from October 15, 2025 through January 15, 2026; Phase 3: From pier "B" (W3) to pier "A" (W2) from January 6, 2026 through June 10, 2026. For conditions at the bridge, mariners can contact the contractor at 925-202-5328. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or by telephone at 571-607-5820.	Lat: 37° 47' 57" Lon: -122° 22' 36"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Maintenance	Bridges	NORTHERN CALIFORNIA-SAN FRANCISCO BAY-RICHMOND/SAN RAFAEL BRIDGE-Maintenance work on the bridge will begin in spring of 2026 and last 4 years. The east navigation span, piers 46 to 49, and west navigational span, piers 33-36, will be painted. Temporary containment will be installed in one span at a time leaving the other span clear. The temporary containment will reduce vertical clearance by no more than 10 feet. Other maintenance work will be conducted but will not impact the east or west navigation spans of the bridge. Comments concerning the temporary impacts to navigation will be received by the Coast Guard until the COB on October 28, 2025 at D11Bridges@uscg.mil or 571-607-2207.	Lat: 37° 56' 07" Lon: -122° 26' 48"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra group will be conducting waterside Construction in Berkley Marina beginning 30 June, 2025 to 12 December, 2025. The Kelso Crane Barge (dimensions 150'x54'x9.5'), equipped with a crawler crane, along with a workboat, two flat deck barges and work skiffs, will be utilized for this support. Work will occur during daylight hours, and the spud barge will likely maneuver around the marina during that time. If not moving into location and working, the crane barges will be spudded down on with flashers on all corners along with all other marine equipment. Mariners are advised to use cation when transiting the area. The Crane Barge crews will monitor VHF-FM channel 9 & 16, working channel 77, or can be reached by calling (707) 389-0505.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Marinship Development and Salt River Construction Corporation will be conducting dredging operations from 15 July 2025 until 30 November 2025 for the Larkspur Marina Homeowner's West of Hwy 101 Bridge. The self-contained dredged/dump barge DB2, SPRINGER, P CAY and tugboats will be monitoring VHF-FM Chan. 13, 14 & 77. Mariners are requested to transit the area with caution. For more details or comments, contact Rick Moseley at 415-435-1024.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert Inc, will be conducting a hydrographic survey is scheduled to be conducted between the period of 08-September to November 30, 2025, in San Francisco Bay, CA. The survey personnel and equipment spread will consist of one commercial survey boat approximately 25 feet in length, with a marine surveyor/technician/environmental monitor, a vessel mounted 3D multi-beam sonar system, and commercial grade differential GPS with sub-meter accuracy or better; the survey vessel will be monitoring VHF-FM Chan. 16. A 200m safety zone will be observed for marine wildlife and pinnipeds. All mariners are advised to transit the area with caution, for more information contact: 425-358-0267.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	dredging and underwater construction operations to be conducted at Mission Bay, San Francisco. The derrick barge "Victory", dredge CB-37, deck barge CB-60, and tugs Laguna and Lariat will be on site along the pipeline crossing axis. The barges will be moored with spuds, and will be supported by both tugs throughout the work. The project will commence on or around September 15 and complete approximately December 15. The work will include dredging of approximately 13,000 cubic yards of sediment, installation of an underwater concrete scour protection mattress, and installation of a sand cap. Divers will be used during the scour protection portion of the project. An alpha flag will be displayed when divers are in the water. Operations will continue 24/7 basis. Barges and tugs will be spudded outside of navigation lanes between working shifts. All floating plant will be monitoring channels 13 and 14 and 67 at all times. The call sign for the derrick Victory is WDL7495 and the call sign for the tug Laguna is WDL7500. The barges will be marked with white flashing lights on all corners. The Project Superintendent will be Zach Stang, who can be reached 24/7 at (650) 888-0211. Mariners are advised to use extreme caution while transiting the work area.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations at the Port of San Francisco Pier 80. The clamshell dredge, "DB 24" or "DB Beaver" or "TM-9" will carry out dredging operations. Scow fleet will consist of (7) split hull scows, the tow tug "Heidi L Brusco" , "Terri L Brusco" and or similar will serve as tow tugs during disposal operations. All equipment will monitor Channel 13, 14, and 80. The tow tug will use the call sign KX7468. Dredging operations will commence on or about September 17, 2025 and end on or before October 30, 2025. During this time, they will be operating 24 hours / 7 days / week around the Port of San Francisco Pier 80C (approximately 37.750111N, -122.375731W) with dredging and operations. For more information contact Mr. Dennis Salyers: 415-497-5289; all mariners are advised to use caution while transiting the area.	

San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CS Marine Constructors, Inc. will be conducting pipeline backfill operations at five locations over the pipeline corridor crossing between Brisbane and Oakland from 06 October 2025 through 30 November 2025. Backfill operations will be conducted by derrick barge “DB Carquinez”, hopper barge “CSM 30” and flat barges “CSM 40” and “CSM 41”. The spread will include a diving support vessel and marine survey vessel. The barges will be anchored using a four-point mooring system marked with 5ft crown buoys. The buoys will be lighted at night with flashing white strobe lights. All vessels and equipment will be monitoring VHF-FM CH8, CH 13 and CH 14. Mariners are requested to transit the area with caution all vessels approaching the moored work vessel must receive radio permission from the diving supervisor or the derrick barge before passing within 500 feet of the barge spread or diving support vessel. For questions or comments contact Jeff Thompson at 510-719-1246. TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Sector Los Angeles, Submerged Land Act (SLA) - Santa Barbara Harbor/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Fugro will be conducting a bathymetric survey from the M/V Julie Ann in the area outlined on the attached map. A 2-day survey will be carried out between October 10 – October 31, 2025 (Daylight operations). The survey area is outlined by the following coordinates. 34.405167N, -119.680461W 34.413444N, -119.684489W 34.414592N, -119.681516W 34.406831N, -119.676309W The vessel will be monitoring VHF-FM Channel 16 and will have limited maneuverability during operations. Mariners are advised to exercise caution when transiting the area. For further information or inquiries, please contact Cindy Pratt at 805-650-7000.	
Sector Los Angeles, Submerged Land Act (SLA) - Santa Barbara Harbor/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Pacific Maritime Group will be conducting offshore intake structure repair operations for the Charles Myers Desalination Facility from October 21, 2025, to November 30, 2025. The project involves removing and replacing two intake screens from separate intake structures, removing sand and pea gravel from beneath each structure, filling the voids with concrete, placing riprap around the base of both structures, and reinstalling the screens. Commercial diving and construction activities will be the primary operations. The offshore operations will occur seaward of East Beach and southeast of the terminus of Stearns Wharf in the City of Santa Barbara. The coordinates for Intake A are 34.40787° N, -119.67977° W, and for Intake B are 34.40770° N, -119.67962° W. The barge Ocean Provider (270 feet long, 1,888 tons) and the tugboat A.N. Tillet (69.2 feet, twin screw) will be utilized for the project. The Ocean Provider will be on a four-point anchor moor, with all anchor pennant buoys illuminated. Vessels on scene will monitor VHF-FM radio frequencies on Channels 16 and 7. For further information, please contact Ed Adair, Barge Master, at (951) 238-8221, or Mike Dant, Project Manager, at (503) 936-4141. All mariners are advised to transit the area with caution.

Sector San Francisco, Submerged Land Act (SLA) - Santa Cruz/General/Bridges/Construction	Bridges	NORTHERN CALIFORNIA-SANTA CRUZ HARBOR-EATON/MURRAY STREET BRIDGE- Seismic retrofit work is being conducted Monday through Saturday, 7 am to 6 pm, through January 28, 2028. Cofferdams are in place around bents 6, 7, and 8, the north and south navigation spans. The cofferdams reduce horizontal clearance in each span by 6 feet. All bent work will be done via the bridge deck. When the north span is being worked on, it will be closed to navigation and the south span open. When the south span is being worked on, it will be closed to navigation and the north span open. All red pier lights will be operational. The green center channel lights will only be operational in the span that is open. All vertical clearance gauges have been removed and will be replaced once work is complete. A flag boat is on-scene during working hours to guide mariners to the open span and can be reached on marine radio VHF-FM CH 09, 69, 70, and 71. For on-scene conditions, mariners can contact the contractor at 415-265-1167 or 510-715-5555. For further information contact the Coast Guard Bridge Office by telephone at 510-219-4366 or by email at D11Bridges@uscg.mil.	Lat: 36° 58' 05" Lon: -122° 00' 10"

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CPS Coastal Permits, Inc. will be conducting marine construction from 16 November, 2024 until 30 December, 2025 near Long Beach at position 33.764379N 118.11991W. Removal of 21,360 square feet of existing floating docks and installation of approximately 21,151 square feet of new floating docks at approximately the same location and configuration as the existing structures. All existing gangways and pilings are to be reused. A 35 ft. work boat, (4) 24 ft. barges, (1) 16x2 barge, and (2) 14 ft. boats will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Greg Buchanan at 714-822-5214.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations at the Port of Long Beach Pier G from 15 July, 2025 until 1 June, 2026 at 33.74389N -118.19806W. Dredged material will be placed into our dump scow "KS-10" with the capacity of 3,000 CY, then taken for disposal within the confines of Pier G. The project will utilize one towing vessel, TERRI L BRUSCO similar as the support vessel on site and assisted by the tender tug PATTY D or similar. All equipment will be monitoring VHF-FM Chan. 13, 14, 16 & 80A. Mariners are requested to transit the area with caution. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution. For more details or comments, contact Andrew Hunt at 415-847-6640.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CPS Consulting will be removing and replacing a floating dock on 1-September-2025 to 15-October-2025 at 16355 Maruffa Circle Huntington Beach, California. The exact position of operation will be in 33.724260N -118.062020W. A small boat whaler will be conducting the operations and monitoring VHF FM Chan. 14; all mariners are requested to transit the area with caution. For more information contact 714-795-4251.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Connolly-Pacific Derrick Barge Los Angeles will be performing marine construction operations at Pier G in the Port of Long Beach. Along with the derrick barge, flat barges, and a tug on-site. Work hours will be Monday – Saturday from 6am to 6pm. Operations are estimated to begin the last week of August and will continue through to the end of June 2026. The Tug Durango will be monitoring VHF-FM Channels 16, 79A, and 80; all mariners are requested to transit the area with caution. For more information regarding the project contact: Tobey Walker 562-577-0730	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Fugro USA Marine Inc. will be conducting a multibeam and side scan sonar survey aboard the M/V Julie Ann within the area depicted on the attached chart. The survey will take place over two days between October 22 and November 28, 2025, during daylight hours. The M/V Julie Ann will be monitoring VHF-FM Channel 16 throughout the operation. The survey area is defined by the following coordinates: 33.91581N, -118.461275W 33.915868N, -118.445765W 33.900426N, -118.445733W 33.900327N, -118.46114W Mariners are advised to exercise caution when transiting the area, as the vessel will have limited maneuverability during survey operations. For additional information or inquiries, please contact Cindy Pratt at 805-289-3807.	

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Coastal Permit Specialist Consulting will remove and replace the existing L-shaped 369 SF floating dock with a new 574 SF U-shaped dock at 83 Linda Isle, Newport Beach, California (Latitude: 33.614220, Longitude: -117.903860). The three existing 14" square concrete marina guide pilings will remain in their current positions, and one new 14" square concrete marina guide pile will be installed at the tip of the proposed finger. The operation is scheduled to take place from 3 November 2025 to 26 November 2025 and will utilize a small 17' Boston Whaler with a 50-horsepower outboard. VHF-FM Channel 16 will be used if necessary. There are no potential hazards to navigation, and the chart number for the area of operation is 18754. All mariners are advised to transit the area with caution, for further information, contact Max Jackson at 714.732.6127.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert, Inc. will conduct a hydrographic survey near Huntington Beach, CA, between October 30, 2025, and December 26, 2025. The operation will involve a commercial survey vessel, the Taku (CF 3078 UK), approximately 30 feet in length, equipped with a vessel-mounted 3D multi-beam sonar system and commercial-grade differential GPS with sub-meter accuracy or better. The survey team will include a marine surveyor/technician/environmental monitor, and a 200-meter safety zone will be observed for marine wildlife and pinnipeds. The vessel will monitor VHF Radio Channel 16 throughout the operation. All mariners are advised to use caution when transiting the area; for more information contact: 425-358-0267.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	The California State University Long Beach Shark Lab will be deploying two acoustic omni-directional receivers on temporary seafloor mooring in LA Harbor – Seaplane Lagoon with the North receiver at 33.74806N -118.24861W and South receiver at 33.74111N -118.24861W. Receivers will be deployed for 1 year and will be downloaded, maintained, and redeployed at the same location monthly. Acoustic receiver locations will be marked with small surface floats. A 17 ft. grey Boston Whaler or 22 ft. TwinVee will be monitoring VHF-FM Chan. 16 & 68. Mariners are requested to transit the area with caution. Stockton Channel

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Joaquin River - Stockton Channel/General/Marine Construction (Excluding Bridges)/Boring and Core Samples	Marine Construction (Excluding Bridges)	Terracon Inc, will be conducting geotechnical drilling operations for the South Delta Gates Project. Operations will be in the Vicinity of Middle River West: 37.885527N -121.482627W, drilling will begin 25-Aug-2025 and end 31-Oct-25. Two vessels will be on scene: CSM39 barge and Baby T push boat, both will monitor VHF-FM Chan.13. Mariners are advised to transit the area with caution, for more information contact: 925-383-0487.	
San Joaquin River - Stockton Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Department of Water Resources (DWR) will conduct rock barrier removal operations in San Joaquin County from October 27 to November 21, 2025. This effort involves the use of excavators positioned on levees to remove rock from the blocked channels of Middle River, Old River, and Grant Line Canal, which have been obstructed since May 2025. The removal locations include Middle River near Victoria Canal (Latitude: 37.8857, Longitude: -121.4822), Old River near the city of Tracy (Latitude: 37.8103, Longitude: -121.5428), and Grant Line Canal near the Tracy Boulevard Bridge (Latitude: 37.8199, Longitude: -121.4483). While DWR provides boat portage services at Old River and Grant Line Canal, no portage is available at Middle River due to its shallow depth, which renders it non-navigable. No barges will be used for the rock removal process. Mariners are advised to exercise caution in these areas during the operation period; for more information contact the area control center: 209-833-2180.
