San Pedro Bay - Anaheim Bay/General/Hazards To Navigation/Shoaling Reported	Hazards To Navigation	The U.S Coast Guard has received a report of shoaling in the vicinity of Anaheim Bay Channel's East and West Jetty Lights. All vessels with a draft of 31 ft or greater are cautioned to remain in the center of the channel during tides of less than + 1 FT tide. Risk of grounding exists on the sides of the channel during tides of -0 ft for drafts of 31 ft or greater. All mariners are advised to transit the area with caution. Direct all questions and concerns to d11-smb-sector1alb-wwm@uscg.mil.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting Marine construction in the vicinity of Vallejo, California within the California State University Maritime Academy Boat Basin. The initiation of waterside operations for this project will entail the deployment of multiple crane barges secured by both anchors and spuds, along with a continuous rotation of material supply barges, tug tenders, "Linda T" workboat, and various small skiffs. Activities are scheduled to commence as early as September 12, 2025 to December 2027. Beginning with the mobilization of Crane Barge Kelso ("CB Kelso") and EM1106 ("Morty") barge fitted with appropriately sized crawler cranes. The designated vessels will be monitoring VHF-FM channels 9 & 16, with the working channels 68A or 80. All mariners are advised to use caution when transiting the area, for more information contact: Scott 707-333-5029	
San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will conduct dredging operations at the Amports Dock at the Port of Benicia from on or about November 11, 2025, to on or before December 31, 2025. The operations will take place 24/7 within the Port of Benicia, starting at approximately 38.04089° N, -122.13575° W and ending at 38.04331° N, -122.13131° W. The Derrick Barges (DB-24 or DB Beaver) will carry out the dredging, supported by a fleet of four split-hull scows with capacities of two scows at 2,000 cubic yards and two scows at 3,000 cubic yards. The tow tug "Lassen," "Terri L.," or a similar vessel will facilitate disposal operations, with material being disposed of at the Montezuma Wetlands Restoration Project and SF9. Additional support will be provided by the tender tug "Becky T." All equipment will monitor VHF Channels 13, 14, and 80. The dredge superintendent, Mr. Dennis Salyers, can be contacted at (415) 497-5289. Mariners are advised to exercise extreme caution while transiting the dredge area.	

San Pablo Bay - Carquinez Strait/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will conduct dredging operations at the Phillips 66 Marine Terminal in Rodeo from on or about November 15, 2025, to on or before December 31, 2025. The operations will take place 24/7 around the Phillips 66 Rodeo Marine Terminal at approximately 38.05620° N, -122.26378° W. The clamshell dredges "DB Beaver," "DB24," or "DB Morty" will carry out the dredging, supported by a fleet of five split-hull scows with capacities of 2,000 cubic yards and 3,000 cubic yards. The tow tug "Heidi L Brusco," "Lassen," or a similar vessel will facilitate disposal operations, with material being disposed of at the Montezuma Wetlands Restoration Project (MWRP). Additional support will be provided by the tender tugs "Becky T" or "Phyllis T." All equipment will monitor VHF Channels 13, 14, and 80. The dredge superintendent, Mr. Dennis Salyers, can be contacted at (415) 497-5289. Mariners are advised to exercise extreme caution while transiting the dredge area. For questions regarding this Notice to Mariners request, contact (415) 218-6739.

Long Beach Channel - Los Angeles And Long Beach Harbors/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting construction operations at Wharf H, located at the Carnival Cruise Line facilities, just southeast of the Queen Mary in the Port of Long Beach. These operations are part of a project referenced on NOAA Chart Number 18751. Construction operations will begin on October 27, 2025, and are scheduled to conclude by December 31, 2025. Work will take place five days a week, from sunrise to sunset. The scope of work includes several work skiffs supporting crews working on and around the northernmost mooring dolphins of Wharf H. Divers will also be onsite installing piling sleeves, utilizing a diver support vessel. Dive flags will be prominently displayed during diving operations. Mariners are advised to exercise caution while transiting the Carnival Cruise Line area. It is crucial to remain observant of diving operations and crews working on suspended platforms close to the water's surface, as significant wakes can create hazardous conditions. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Lower Old River/General/Bridges/Maintenance	Bridges	NORTHERN CALIFORNIA-OLD RIVER-STATE ROUTE 4 BRIDGE-Caltrans is proposing to secure the swing span of the bridge in the closed-to-navigation position from January 11, 2026 through July 10, 2026 to conduct needed maintenance and repairs. During the project, the swing span will not open for vessels. Temporary platforms will be hung below low steel, reducing vertical clearance of the bridge by no more than 4 feet. A 30 foot channel, with no reduction in vertical clearance when the swing span is closed, will be provided for vessels either between piers 2 and 3 or piers 3 and 4. Comments concerning this proposed work will be accepted by the Coast Guard at D11Bridges@uscg.mil through December 26, 2025. For further information contact the Coast Guard Bridge Office at 510-219-4366.	Lat: 37° 53' 27" Lon: -121° 34' 12"

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Carquinez Strait - Mare Island Strait/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Maintenance and rehabilitation work is being conducted outside the main navigation span (lift span) of the bridge, 7 am to 7 pm, 7-days a week, through November 30, 2026. This work will not impact the navigational clearances or the operation of the lift span. A 99' X 99' barge, a 33' X 13' supply barge, and a crane barge will be anchored at several locations on the north and south sides of the approach spans to conduct the work. After the normal workday, the barges will remain on-scene. A temporary platform is being installed below low steel in the approach spans, reducing vertical clearance of the bridge by no more than 4 feet. Divers will be deployed during the work. To determine the location of divers, mariners can contact 707-974-2789 or 707-974-0917. To determine conditions at the work site, mariners can contact 510-774-1204 or 925-382-3544. Vessels are requested to transit the work area with caution. For further information contact the Coast Guard Bridge Office at 510-219-4366 or D11Bridges@uscg.mil.	Lat: 38° 06' 39" Lon: -122° 16' 29"

Carquinez Strait - Mare Island Strait/General/Bridges/Closure (Scheduled Or Emergency)	Bridges	NORTHERN CALIFORNIA-NAPA RIVER-MARE ISLAND CAUSEWAY LIFT BRIDGE-Painting of the lift span is being proposed which will require a temporary change in the operating schedule of the span. Therefore, the lift span of the bridge will be secured in the closed-to-navigation position Monday through Thursdays, 7 am to 5 pm, and Fridays, 7 am to 11 am and from 12 noon to 5 pm, December 22, 2025 through late March 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will be secured in the closed-to-navigation position Monday through Fridays, 5 am to 1 pm, and 2 pm to 3 pm, late March through June 30, 2026. The bridge will resume normal operations outside these time frames. The lift span of the bridge will resume normal operations for the following events; Bottle Rock; May 22, 23, and 24, 2026; Sausalito Yacht Club 7th Annual Cruise to NV Yacht Club; May 28, 29, 30 and 31, 2026. Temporary underdeck platforms will be installed below the lift span bridge deck, reducing the vertical clearance in the open and closed positions by 4 feet. In the event of an emergency, the lift span can open with 2-hours advance notice given to the bridge operator. If you wish to comment on this temporary operating schedule change, please do so by close of business, September 30, 2025. Comment will be received at D11Bridges@uscg.mil. Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CPS Consulting will conduct a project at 101 Bayside Place, Newport Beach, CA (Latitude: 33.598730, Longitude: -117.879510) to remove the existing 1,564-square-foot pier and replace it with a new 1,433.67-square-foot pier. The project includes removing and replacing the existing 60-square-foot gangway with a new 72-square-foot code-compliant gangway, as well as removing and replacing five existing concrete marina piles. Additionally, the existing pier will be relocated, and two concrete t-piles will be replaced with new t-piles. No additional pile work or changes in overwater coverage are authorized. Operations are scheduled from 17 November to 29 December 2025. Vessels involved include a 45' x 80' barge equipped with a 110-ton link belt 218 HSL full counterweight package and 95' of angle lattice boom, as well as two work boats: one steel (8' x 13', 60-HP Yamaha motor) and one aluminum (8' x 16', Yamaha high thrust motor). VHF-FM radio frequencies, if used, will be monitored on Channel 16; all mariners are advised to transit the area with caution. For further information, contact Chad Lucas at 707.430.3565. No hazards to navigation are anticipated.	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. is contracted to conduct maintenance dredging within Newport Bay Harbor, California, construction operations will commence on or around October 23, 2025, and will continue through September 26, 2026. Disposal will occur at the LA-3 Ocean Dredged Material Disposal Site and the Port of Long Beach Pier G facility. Divers will be in the area performing Caulerpa and eelgrass surveys prior to dredging. The project's approximate center coordinates are 33°36'30"N, -117°54'26"W, as referenced on NOAA Chart No. 18754. Vessels involved in this project include the DB Point Loma, Jeanie R push boat, John Drake work boat, RES Survey Boat, Tug Killeen, Tug Cuyamaca, Tug Terri L. Brusco, and disposal scows Rob P., Mike J., Harold M., and Clarence D. All equipment will monitor VHF-FM Channel 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made. This work is being performed by R.E. Staite Engineering, Inc. under contract with the U.S. Army Corps of Engineers. For further information, contact Dalton Elzey at (925) 822-6775 or Jose Rocha, R.E., at (909) 253-9921.	
Sector Los Angeles, Submerged Land Act (SLA) - Newport Bay/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	Pacific Dredge & Construction will conduct dredging operations at the Balboa Yacht Basin inside Newport Beach Harbor, with mobilization beginning on or around November 30, 2025, and dredging operations commencing on or around December 3, 2025. The operations are anticipated to be completed and demobilized by March 30, 2026. The dredge "Horton," equipped with a Liebherr Material Handler, will perform dredging at Balboa Yacht Basin. Two temporary mooring locations will be utilized during the operations: one adjacent to Balboa Yacht Basin at approximately 33.60941° N, -117.89590° W and another south of Harbor Island at approximately 33.60810° N, -117.91600° W. The tug "Contender" will transit with the scows "Thing 1" and "Thing 2" from these locations to the Pier G Slip fill location in Long Beach at approximately 33.74419° N, -118.19829° W, typically during evening hours. Operations may be conducted 24 hours a day, Monday through Sunday. The dredge will work at Balboa Yacht Basin at approximately 33.60968° N, -117.89562° W. Vessels involved in the operations will monitor VHF-FM Channels 6 and 16. Mariners are advised to refer to chart 18022 and transit the area with caution. For more information regarding the project, please contact Raul Madera: 619-992-2894.

San Francisco Bay South Channel - Redwood Creek/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will conduct dredging operations at the Redwood City Federal Channel Reaches 1-5 from on or about November 13, 2025, to on or before March 1, 2026. The operations will take place 24/7 within the Federal Channel, starting at approximately 37.54309° N, -122.19520° W and ending at 37.50543° N, -122.21545° W. The Derrick Barges (DB-24 or DB Beaver) will carry out the dredging, supported by a fleet of four split-hull scows with capacities of two scows at 2,000 cubic yards and two scows at 3,000 cubic yards. The tow tug "Lassen," "Terri L.," or a similar vessel will facilitate disposal operations, with material being disposed of at the Montezuma Wetlands Restoration Project, SFDODS, and SF11. Additional support will be provided by the tender tug "Becky T." All equipment will monitor VHF Channels 13, 14, and 80. The dredge superintendent, Mr. Dennis Salyers, can be contacted at (415) 497-5289. Mariners are advised to exercise extreme caution while transiting the dredge area.

Sacramento River Deep Water Ship Channel - Sacramento River/General/Bridges/Construction	Bridges	NORTHERN CALIFORNIA-SACRAMENTO RIVER-REPLACEMENT BUTTE CITY BRIDGE: Bridge construction continues Monday through Friday during daylight hours until September 25, 2026. The temporary trestle, along with falsework, is being removed from the bridge site. A temporary navigation span during construction is just west of the old bridge's pivot pier, 435 feet west of new bridge abutment, and is lighted at night with a green center channel light on the upriver and downriver sides of the old bridge. The temporary navigation span provides at least 32 feet horizontal clearance. Vertical clearance is 35 feet from low steel of the old bridge above MLLW. A barge with crane is on scene, and is lighted at night with red fixed lights at its corners. For further information contact the Coast Guard Bridge Office at 571-607-2206 or by email at D11Bridges@uscg.mil.	Lat: 39° 27' 26" Lon: -121° 59' 43"

Suisun Bay - Sacramento River Deep Water Ship Channel/General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-AMERICAN RIVER-CAPITAL CITY FREEWAY (Route 51) BRIDGE- Rehabilitation continues on the bridge through March 31, 2026. Work will be conducted Monday through Friday, 7 am to 5:30 pm, and will include the use of barges, work boats, tugboats, turbidity curtains, and access piers. During the workday, barges can be moved for the safety of navigation with one hour notice to the contractor via VHF-FM CH 16 or at 916-532-8208. Barges will be unmanned and moored at their work locations overnight. Each corner of each barge will be lighted at night with steady burning red lights. Mariners are requested to transit through the main navigational span between piers 4-5, keeping as much as possible to the center of the channel to avoid the newly installed pier scour protection around the piers. For further information, contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or at 571-607-2206.	Lat: 38° 35' 15" Lon: -121° 26' 50"

Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	R.E. Staite Engineering, Inc. is contracted to conduct marine construction in association with the new installation of a floating dry dock at the Austal USA facility located in National City, California. The project location is within San Diego Bay along the eastern shoreline immediately near the southern boundary on Navy-lease lands of the U.S. Navy's Naval Base San Diego and within the Austal USA National City yard facility/leasehold, just north of the San Diego Unified Port District's National City Marine Terminal. The location readings for the site are latitude 32° 39' 29.772" N, longitude -117° 7' 7.4274" W, NOAA Chart No. 18773. Dredging and construction operations will commence on or around August 21, 2025 and continue through December 31, 2025. Vessels DB Point Loma, DB William F, DB Palomar and RES 180 will be performing construction operations with push boat Jeanie R, crew boat John Drake and RES Survey Boat in conjunction with tugs Killeen and Cuyamaca. Additional vessels include various Deck Barges (80', 110' and 120'). All vessels will monitor radio Channel 16. Mariners are advised to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Power Engineering Construction Co. will be operating from 15 September 2025 through 22 April 2026 in the vicinity of Continental Maritime of San Diego. Work will conducted Monday through Friday 0600 to 1800 in the vicinity of Continental Maritime of San Diego at 32° 41' 42.2" N 117° 09' 00.3" W. Operations will be conducted with a 230T Crane on a 60' x 100' Flexi-float barge. The barge will be spudded down. All vessels and equipment on site will be monitoring VHF-FM CH. 69/71. Mariners are advised to use caution when transiting the area. For further comments or details contact Matthew Dill at (510) 610-4633.	
Approaches To San Diego Bay - San Diego Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Port of San Diego will be conducting construction work to install four (4) mooring bollards along the south edge of Navy Pier to safely accommodate the existing Midway Museum. The project is scheduled to begin on November 1, 2025, and is anticipated to conclude by January 31, 2026. All work will occur on the deck of Navy Pier, with potential use of scaffolding and small vessel support as needed. The project location is within San Diego Bay at Lat 32.714169° N / Long -117.175214° W. Vessel operators will monitor all standard radio frequencies during the project. Mariners are advised that the project is not expected to pose hazards to navigation; however, they are urged to transit at their slowest safe speed to minimize wake and proceed with caution after making passing arrangements. For further information, contact Timothy Barrett at the Port of San Diego at 619-686-6544. Refer to NOAA Nautical Chart US5CA72M, San Diego Bay, published April 30, 2025, for additional details.	
General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Port of San Diego will be conducting a marine debris and sunken vessel retrieval and removal project within the Zuniga Shoals area, located southeast of Zuniga Jetty just outside San Diego Bay. The project is scheduled to begin in mid-November 2025 and is anticipated to last approximately four months, through March 2026, depending on environmental conditions. Work will involve the use of in-water divers with lift bags, two to three support vessels with crane assist, and a small barge to hold debris as it is removed. Once retrieved, debris will be transported off-site for recycling or disposal in compliance with federal and state laws and regulations. The project location is at Latitude 32.6746° N / Longitude -117.2234° W. Vessel operators will monitor all standard radio frequencies during the project. Mariners are advised that the project is not expected to pose hazards to navigation; however, they are urged to transit at their slowest safe speed to minimize wake and proceed with caution after making passing arrangements. For further information, contact Timothy Barrett at the Port of San Diego at 619-686-6544. Refer to NOAA Nautical Chart 18773 for additional details.

Approaches To San Diego Bay - San Diego Bay/General/Marine Events/Regatta (Race)	Marine Events	San Diego Yacht Club will be sponsoring the Hot Rum Regatta Series on November 8, November 22, and December 6, 2025, from 11 AM to 5 PM. The event will involve involving approximately 136 sailing vessels racing primarily inside San Diego Bay, between Ballast Point and Coronado Bridge. Mariners are advised to exercise caution while transiting the area. For more information or comments, contact Jeff Johnson at 619-758-6310.	

Approaches To San Diego Bay - San Diego Bay/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	U.S. Fish and Wildlife services has installed a 12-ft x 12-ft mesh and benthic barrier until 31 December, 2025 in the San Diego Bay National Wildlife Refuge for one year. The location of the barrier in San Diego Bay is near 32.62316N -117.127056W. Approximately 5-ft x 6-ft patch of Caulerpa prolifera in the San Diego Bay National Wildlife Refuge. The benthic barrier would consist of plastic tarp, rebar-reinforced stakes, and sandbags. In addition, rock salt would be applied at an estimated rate of 8.9 to 50 kg/m ² in order to eradicate the Caulerpa prolifera infestation within the South San Diego Bay. The barriers would be installed for a period of up to one year. Mariners are requested to transit the area with caution. For more details or comments, contact Andrew Yuen at 760-535-7065.

General/Bridges/Rehabilitation	Bridges	NORTHERN CALIFORNIA-SAN FRANCISCO BAY-WEST SPAN SAN FRANCISCO/OAKLAND BAY BRIDGE-Caltrans is conducting expansion joint rehabilitation on the lower deck of the bridge. This work will require a temporary platform to be erected below low steel, reducing vertical clearance by approximately 2.8 feet. During the installation of the temporary platform, equipment use will temporarily reduce vertical clearance by 15 feet. The temporary platforms will not obstruct the operation of the Air Gap Sensor, the navigation lights, fog signal or RACONS. Work will be conducted Monday through Saturday morning 8 pm to 7 am, with occasional work on Sunday nights, July 28, 2025 through June 1, 2026. The underdeck temporary platforms will be installed in phases as follows; Phase 1: From pier "F" (W7) to ~385 feet east of pier "D" (W5) from July 28, 2025 through November 20, 2025; Phase 2: From ~385 feet east of pier "D" (W5) to pier "B" (W3) from November 24, 2025 through February 25, 2026; Phase 3: From pier "B" (W3) to pier "A" (W2) from March 1, 2026 through June 10, 2026. See attached diagram. For conditions at the bridge, mariners can contact the contractor at 925-202-5328. For further information contact the Coast Guard Bridge Office at D11Bridges@uscg.mil or by telephone at 571-607-5820.	Lat: 37° 47' 57" Lon: -122° 22' 36"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Bridges/Maintenance	Bridges	NORTHERN CALIFORNIA-SAN FRANCISCO BAY-RICHMOND/SAN RAFAEL BRIDGE-Maintenance work on the bridge will begin in spring of 2026 and last 4 years. The east navigation span, piers 46 to 49, and west navigational span, piers 33-36, will be painted. Temporary containment will be installed in one span at a time leaving the other span clear. The temporary containment will reduce vertical clearance by no more than 10 feet. Other maintenance work will be conducted but will not impact the east or west navigation spans of the bridge. Comments concerning the temporary impacts to navigation will be received by the Coast Guard until the COB on October 28, 2025 at D11Bridges@uscg.mil or 571-607-2207.	Lat: 37° 56' 07" Lon: -122° 26' 48"
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	The Dutra group will be conducting waterside Construction in Berkley Marina beginning 30 June, 2025 to 12 December, 2025. The Kelso Crane Barge (dimensions 150'x54'x9.5'), equipped with a crawler crane, along with a workboat, two flat deck barges and work skiffs, will be utilized for this support. Work will occur during daylight hours, and the spud barge will likely maneuver around the marina during that time. If not moving into location and working, the crane barges will be spudded down on with flashers on all corners along with all other marine equipment. Mariners are advised to use cation when transiting the area. The Crane Barge crews will monitor VHF-FM channel 9 & 16, working channel 77, or can be reached by calling (707) 389-0505.	
San Francisco Oakland Bay Bridge West Crossing - San Francisco Bay North Channel/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	dredging and underwater construction operations to be conducted at Mission Bay, San Francisco. The derrick barge "Victory", dredge CB-37, deck barge CB-60, and tugs Laguna and Lariat will be on site along the pipeline crossing axis. The barges will be moored with spuds, and will be supported by both tugs throughout the work. The project will commence on or around September 15 and complete approximately December 15. The work will include dredging of approximately 13,000 cubic yards of sediment, installartion of an underwater concrete scour protection mattress, and installation of a sand cap. Divers will be used during the scour protection portion of the project. An alpha flag will be displayed when divers are in the water. Operations will continue 24/7 basis. Barges and tugs will be spudded outside of navigation lanes between working shifts. All floating plant will be monitoring channels 13 and 14 and 67 at all times. The call sign for the derrick Victory is WDL7495 and the call sign for the tug Laguna is WDL7500.The barges will be marked with white flashing lights on all corners. The Project Superintendent will be Zach Stang, who can be reached 24/7 at (650) 888-0211. Mariners are advised to use extreme caution while transiting the work area.	
General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Silverado Contractors, Inc. will conduct Pier 90 Wharf Demolition operations from November 10, 2025, to January 9, 2026. The operations will take place at approximately 37.74716° N, -122.38363° W. Vessels involved in the operation include "Little Cindy" (Call Sign: Little Cindy) and "Crane Barge 2" (Call Sign: CB2). Vessels on scene will monitor VHF-FM Channels 13 and 14 when near deep-draft traffic and Channel 16 when not near deep-draft traffic. The point of contact for the project is Matt Bramlett, who can be reached at (925) 818-2324 or via email at Mbramlett@silveradocontractors.com. All mariners are advised to transit the area with caution.	Lat: 37° 44' 50" Lon: -122° 23' 01"

Sector San Francisco, Submerged Land Act (SLA) - Santa Cruz/General/Bridges/Construction	Bridges	NORTHERN CALIFORNIA-SANTA CRUZ HARBOR-EATON/MURRAY STREET BRIDGE- Seismic retrofit work is being conducted Monday through Saturday, 7 am to 6 pm, through January 28, 2028. Cofferdams are in place around bents 6, 7, and 8, the north and south navigation spans. The cofferdams reduce horizontal clearance in each span by 6 feet. All bent work will be done via the bridge deck. When the north span is being worked on, it will be closed to navigation and the south span open. When the south span is being worked on, it will be closed to navigation and the north span open. All red pier lights will be operational. The green center channel lights will only be operational in the span that is open. All vertical clearance gauges have been removed and will be replaced once work is complete. A flag boat is on-scene during working hours to guide mariners to the open span and can be reached on marine radio VHF-FM CH 09, 69, 70, and 71. For on-scene conditions, mariners can contact the contractor at 415-265-1167 or 510-715-5555. For further information contact the Coast Guard Bridge Office by telephone at 510-219-4366 or by email at D11Bridges@uscg.mil.	Lat: 36° 58' 05" Lon: -122° 00' 10"

Along with the derrick barge, flat barges, and a tug on-site. Work hours will be Monday – Saturday from 6am to 6pm. Operations are estimated to begin the last week of August and will continue through to the end of June 2026. The Tug Durango will be monitoring VHF-FM Channels 16, 79A, and 80; all mariners are requested to transit the area with caution. For more information regarding the project contact: Tobey Walker 562-577-0730	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert, Inc. will conduct a hydrographic survey near Huntington Beach, CA, between October 30, 2025, and December 26, 2025. The operation will involve a commercial survey vessel, the Taku (CF 3078 UK), approximately 30 feet in length, equipped with a vessel-mounted 3D multi-beam sonar system and commercial-grade differential GPS with sub-meter accuracy or better. The survey team will include a marine surveyor/technician/environmental monitor, and a 200-meter safety zone will be observed for marine wildlife and pinnipeds. The vessel will monitor VHF Radio Channel 16 throughout the operation. All mariners are advised to use caution when transiting the area; for more information contact: 425-358-0267.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	CPS Coastal Permits, Inc. will be conducting marine construction from 16 November, 2024 until 30 December, 2025 near Long Beach at position 33.764379N 118.11991W. Removal of 21,360 square feet of existing floating docks and installation of approximately 21,151 square feet of new floating docks at approximately the same location and configuration as the existing structures. All existing gangways and pilings are to be reused. A 35 ft. work boat, (4) 24 ft. barges, (1) 16x2 barge, and (2) 14 ft. boats will be monitoring VHF-FM Chan. 16. Mariners are requested to transit the area with caution. For more details or comments, contact Greg Buchanan at 714-822-5214.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Dredging	Marine Construction (Excluding Bridges)	The Dutra Group will be conducting dredging operations at the Port of Long Beach Pier G from 1 December 2025 until 1 June, 2026 at 33.74389N -118.19806W. Dredged material will be placed into our dump scow "KS-10" with the capacity of 3,000 CY, then taken for disposal within the confines of Pier G. The project will utilize one towing vessel, TERRI L BRUSCO similar as the support vessel on site and assisted by the tender tug PATTY D or similar. All equipment will be monitoring VHF-FM Chan. 13, 14, 16 & 80A. Mariners are requested to transit the area with caution. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution. For more details or comments, contact Andrew Hunt at 415-847-6640.	
Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Connolly-Pacific Derrick Barge Los Angeles will be performing marine construction operations at Pier G in the Port of Long Beach. Along with the derrick barge, flat barges, and a tug on-site. Work hours will be Monday – Saturday from 6am to 6pm. Operations are estimated to begin the last week of August and will continue through to the end of June 2026. The Tug Durango will be monitoring VHF-FM Channels 16, 79A, and 80; all mariners are requested to transit the area with caution. For more information regarding the project contact: Tobey Walker 562-577-0730	

Sector Los Angeles, Territorial Sea - Sector Los Angeles, Submerged Land Act (SLA)/General/Marine Construction (Excluding Bridges)/Survey Operations	Marine Construction (Excluding Bridges)	Woolpert, Inc. will conduct a hydrographic survey near Huntington Beach, CA, between October 30, 2025, and December 26, 2025. TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
General/Marine Events/Fireworks	Marine Events	The Ventura Port District will be sponsoring the Ventura Harbor Parade of Lights and Fireworks on 12 -13 December, 2025, from 6:30 p.m. to 8:30 p.m(local time). The event will involve approximately 45 vessels decorated with holiday décor, parading on a looped course starting from the entry of Ventura Keys to the basin of Ventura Harbor Village. A Special Local Regulation will be enforced for the duration of the event. Non-participants will be prohibited from entering, transiting through, or loitering within the parade course while it is in effect. For more details or comments, contact Jennifer Talt Lundin at (804) 477-0470.
