LOCAL NOTICE TO MARINERS

District: 13 Week: 05/22

ISSUED BY: COMMANDER, THIRTEENTH COAST GUARD DISTRICT (dpw)
915 Second Avenue, 35th Floor, Rm 3510, Seattle, Washington 98174-1067
Telephone: (206) 220-7280
Email: D13-SMB-D13-LNM@uscg.mil
https://www.pacificarea.uscg.mil/Our-Organization/District-13/District-Staff/dpw/
https://www.navcen.uscg.gov/?pageName=LnmDistrict&region=13

Coast Pilots, along with corrections, are available at: www.nauticalcharts.noaa.gov/publications/coast-pilot/index.html. Print on Demand (POD) copies are available for purchase at: www.nauticalcharts.noaa.gov/publications/print-agents.html#coast-pilot.

UNITED STATES COAST GUARD NAVIGATION INFORMATION SERVICE (NIS)
The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts / Broadcast Notice to Mariners (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). LNMs and other navigation notices can be obtained via e-mail subscription through the USCG Navigation Center website: https://www.navcen.uscg.gov/?pageName=feeds
In addition, the NIS investigates all reports of degradation or loss of GPS service. Mariners are encouraged to report all degradation of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900 or Email: webmaster@navcen.uscg.mil, or on the World Wide Web: https://www.navcen.uscg.gov/?pageName=gpsUserInput

BROADCAST NOTICE TO MARINERS
Urgent marine navigational and weather information is broadcast over VHF channel 22A (157.1 MHZ). Broadcasts are first announced over the distress, safety and calling channel 16 before they are made. All ships in U.S. waters over 20 meters in length are required to monitor VHF channel 16, and must have radios capable of tuning to the VHF simplex channel 22A. Additionally, District 13 BNMs are now available online on a test basis. To view or download District 13 BNMs visit https://www.navcen.uscg.gov/bnmmessages/DistrictSearchV1.php?d=13&i=3

This section contains a range of all the significant Broadcast Notice to Mariners (BNM's) on the date of this edition.

ABBREVIATIONS

A through H
ADRIFT - Buoy Adrift
ADCW - Atlantic Intracoastal Waterway
Al - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District
C/O - Cut Off
CONT - Contour
CRK - Creek
CONST - Construction
DAYMK/Daymk - Daymark
DBN/Dbn - Daybeacon
DBD/DBYD - Dayboard
DEFAC - Defaced
DEST - Destroyed
DISCON - Discontinued
DMGD/DMGD - Damaged
ec - eclipse
EST - Established Aid

I through O
I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISO - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy
LBB - Lighted Bell Buoy
LHB - Lighted Horn Buoy
LGB - Lighted Gong Buoy
LONG - Longitude
LNM - Local Notice to Mariners
LT - Light
LT CONT - Light Continuous
LTR - Letter
LWB - Lighted Whistle Buoy
LWP - Left Watching Properly
MHz - Megahertz
MISS/MSNG - Missing
Mo - Morse Code

P through Z
PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RFL - Range Front Light
RIV - River
RRASS - Remote Radio Activated Sound Signal
s - seconds
SEC - Section
SHL - Shoaling
si - silent
SIG - Signal
SNB - Sound
SPM - Single Point Mooring Buoy
**SECTION I - SPECIAL NOTICES**

This section contains information of special concern to the Mariner.

**WASHINGTON – PUGET SOUND – SEATTLE TO BREMERTON – EAGLE HARBOR – Dive operations**

The US Environmental Protection Agency (EPA) will conduct diving operations in Eagle Harbor on Wednesday, 02 Mar 2022. Divers will inspect the sediment containment cap near the four anchor buoys in locations:

- Buoy 2: 47-37-23.998N, 122-30-01.998W
- Buoy 3: 47-37-02.999N, 122-30-15.000W
- Buoy 4: 47-37-02.999N, 122-30-25.998W

Operations will occur from 0900 to 1600 on 02 Mar 22. The EPA R/V Monitor will be onscene and monitoring VHF-FM channels 13, 16 and 22A. Additionally, the vessel may be reached via cellular phone at (206) 947-8638. Monitor will display Alpha and Diver down flags when any diving is in progress. Mariners are requested to minimize wake and stand off at least 200 yards from diving operations. For additional information, contact Brent Richmond at Richmond.brent@epa.gov or 360-871-8711.

**OREGON - WASHINGTON – IDAHO – 2022 Light List now available**

The 2022 edition of the Light List is now available on the USCG Navigation Center’s website at: http://www.navcen.uscg.gov/?pageName=lightLists. Coast Guard Light Lists are a means for communicating aids to navigation information to the maritime public. Local Notice to Mariners will continue to advise Light List corrections and NAVCEN will continue to publish a compilation of corrections. Complete versions of the 2022 Light Lists are updated weekly on the NAVCEN website and mariners should download applicable copies and updates as needed at: http://www.navcen.uscg.gov/?pageName=lightListWeekyUpdates. A summary of weekly 2022 Light List corrections are available at: https://www.navcen.uscg.gov/?pageName=lightListCorrections.

**OREGON - WILLAMETTE RIVER – PORT OF PORTLAND – Bridge notice**

The Coast Guard intends to approve a temporary deviation to the operating schedule that governs the Broadway Bridge (LLNR 14955.2), mile 11.7, and Hawthorne Bridge (LLNR 14955.6), mile 13.1, crossing the Willamette River at Portland, OR. This deviation is necessary to accommodate the Bridge to Brews event. This deviation allows the bridges to remain in the closed-to-navigation position to allow safe and timely movement of event participants from 0730 until 1100 on 10 Apr 22. The Broadway Bridge provides 69 feet and the Hawthorne Bridge provides 49 feet of vertical clearance in the closed-to-navigation position; all clearances are referenced to the vertical clearance above Columbia River Datum 0.0. Vessels which do not require a bridge opening may continue to transit beneath the bridge during this closure period. The bridges will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the effective period of this temporary deviation. If any mariner or marine business cannot support this closure period, please comment by 16 Feb 22 at d13-smb-d13-bridges@uscg.mil.

**COLUMBIA RIVER – BONNEVILLE TO THE DALLES – Dive operations at Bonneville Lock and Dam**

In preparation for the annual lock maintenance outage, diving operations will occur in both the upstream and downstream sills at the Bonneville Lock and Dam on 11 Feb 2022 from 0700 – 1600. Vessels may experience delays in lockage times during that time period.

**COLUMBIA RIVER – BONNEVILLE TO THE DALLES – Bridge demolition activities**

Advanced American Construction (AAC) will be conducting bridge pier demolition in the Columbia River at the mouth of Little White Salmon River / Drano Lake, at the Columbia River mile 162, at the BNSF Little White Salmon River Railroad Bridge. Onsite work is expected to occur from 31 Jan – 15 Apr 2022. AAC’s Derrick Barge AAC Millennium and work barges will be on station and monitoring VHF-FM channel 16 during the working hours of 0700 through 1700, Monday through Saturday. The floating equipment will remain on-station during non-working hours and will be illuminated at
night by fixed white lights on all corners. A navigation channel will be maintained at all times, but mariners are asked to transit the area with caution and minimize wake. Please contact Scott Miller at (503) 568-4313 or ScottM@CallAAC.com with questions.

Chart 18532 LNM: 04/22

COLUMBIA RIVER – BLALOCK ISLAND TO MCNARY DAM – Scheduled lock closure at McNary Lock and Dam
The navigation lock at McNary Lock and Dam, located at Columbia River Mile 292, will be out of service from 0900 – 1630 on 10 Feb 2022. During this time, divers will clear debris and sediment from the downstream sill to facilitate placement of stop logs in preparation for the upcoming annual maintenance closure. For additional information contact the McNary Chief Operator at 541-922-2231, Call Sign: WU341 or NWW Operations Division at (509) 527-7364.

Chart 18539 LNM: 04/22

SNAKE RIVER – LAKE BRYAN – Little Goose Lock floating guide wall repairs (Revised from LNM 50/21)
All repair work is now completed on the floating guide wall at the Little Goose Lock and Dam at Snake River Mile 70.3, and approaches to the navigation lock are clear of work barges. The Little Goose navigation lock is now returned to full service.

Chart 18547 LNM: 04/22

WASHINGTON – PUGET SOUND – HOOD CANAL – Small boat operations
Naval Base Kitsap will be conducting Force Protection exercises on 03 Feb 2022 from 0700-1500, on the waterfront adjacent to Naval Base Kitsap-Bangor in the Hood Canal, and will occur in an area bound by the following positions:

47-44-28 N / 122-45-51 W
47-44-20 N / 122-44-32 W
47-43-55 N / 122-45-16 W
47-43-47 N / 122-44-56 W

Mariners are requested to remain at least 500 yards away from the area outlined, as well as the grey-hull Navy Security vessels conducting the exercises. Navy Security vessels will be operating at high speeds and utilizing blank ammunition during firing exercises. The Navy Security vessels can be reached on VHF-FM channels 72, 88A, and 16. For more information on the exercise, please contact Aaron Rossiter, Antiterrorism Officer, Naval Base Kitsap at (360) 396-9275, or aaron.m.rossiter1@navy.mil.

Charts: 18458 18476 LNM: 04/22

WASHINGTON – PUGET SOUND – SEATTLE TO BREMERTON – SINCLAIR INLET – Small boat operations
Naval Base Kitsap will be conducting Force Protection exercises on 04 Feb 2022 from 0700 – 1500 on the waters of Sinclair Inlet along the southern side of U.S. Naval Base Bremerton, and will occur in an area bound by the following positions:

1) 47-32-56N / 122-39-00W
2) 47-33-06N / 122-38-20W
3) 47-33-04N / 122-39-00W
4) 47-33-04N / 122-39-00W

Mariners are requested to remain at least 500 yards away from the area outlined, as well as the grey-hull Navy Security vessels conducting the exercises. Navy Security vessels will be operating at high speeds and utilizing blank ammunition during firing exercises. The Navy Security vessels can be reached on VHF-FM channels 72, 12, and 16. For more information, on the exercise, please contact Aaron Rossiter, Antiterrorism Officer, Naval Base Kitsap at (360) 396-9275, or aaron.m.rossiter1@navy.mil.

Charts: 18449 18452 LNM: 04/22

WASHINGTON – LAKE WASHINGTON SHIP CANAL – SHILSHOLE BAY – Salmon Bay Railroad Bridge notice
The Coast Guard has approved a temporary deviation from the operating schedule of the BNSF Salmon Bay Railroad Bridge (Bridge 6.3) (LLNR 18169), mile 0.1, across the Lake Washington Ship Canal in Seattle, Washington. This deviation authorizes the subject bridge to remain in the closed-to-navigation position to allow safe rail maintenance from 0900 to 1600 on 7 – 10 Feb 22. Bridge 6.3 will be able to open for emergencies with a 30 minute notice by contacting the bridge at (206) 784-2976 or VHF Ch. 13, and there is no immediate alternate route for vessels to pass. Bridge 6.3 provides 43 feet above mean high water of vertical clearance in the closed-to-navigation position. Vessels which do not require a bridge opening may continue to transit beneath the bridge during this closure period. In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. For more information contact Jeff Swanson at (425) 304-6663.

Chart 18447 LNM: 04/22

OREGON – YAQUNA HEAD TO COLUMBIA RIVER – Undersea cable maintenance (Revised from LNM 02/22)
The vessel Tuna Time II, will be providing surface support for divers conducting undersea telecommunications cable work in approximate position 45-15-01 N, 123-58-39.2 W, approximately 1100 yards off the shore near Pacific City, Oregon. Operations were previously scheduled for the first week in November, but will be continued as soon as favorable weather conditions allow. The operation will take 2-3 days with dive operations running from 0700 – 1800 daily. Tuna Time II will have limited maneuverability (being anchored) while conducting operations. All vessels in the area are requested to maintain a minimum 1 NM CPA to ensure safety of divers and navigation. Tuna Time II will monitor VHF-FM channels 16 and 13. For more information, contact (904) 397-8996 or email operations@gaeaquatic.com

Chart 18520 LNM: 03/22

WASHINGTON – GRAYS HARBOR – ABERDEEN – Bridge Notice
WSDOT will be inspecting the Chehalis River Bridge (US-101) (LLNR 15897) at Chehalis River mile 0.1, at Aberdeen, WA. The inspection will take
place between 0800 and 1500 on 07 – 10 Mar 2022. The bridge will be inspected using an under-bridge inspection truck (UBIT) that occupies a portion of the roadway and extends a boom under the bridge. No impact to the navigational clearance will occur. The vertical clearance will temporarily be reduced with the UBIT bucket, but the UBIT will give way to tall marine vessels. Mariners are advised to use caution while transiting the area. UBIT bucket will display a flashing amber light on the bottom and a safety lookout will be on the bridge. Bridge openings will occur as usual. For additional information, contact Ryan Collins, P.E. at (564) 200-2085 or collinsr@wsdot.wa.gov

WASHINGTON – PUGET SOUND – ELLIOT BAY – DUWAMISH WATERWAY – Harbor Island dock demolition
Pacific Pile and Marine will begin a two week Pile Removal Pilot Program for King County starting Monday, 24 Jan through Friday, 04 Feb 2022. Pacific Pile will be performing marine construction demolition activities at the derelict dock site located at 3235 16th Ave. SW Seattle, WA, which is directly across the Duwamish Waterway from Terminal 5. Work will typically take place from 0700 to 1600, Monday thru Friday. Pacific Pile and Marine’s Aspiration spud barge will be loaded with an excavator and crane, and a material barge will be moored alongside and will remain on site, unless it is being transloaded upriver at the LaFarge Facility. All barges will have all corners marked with steady white lights. The crane and excavator will be lifting long timber piles from the water to the barge. Mariners are requested to keep at least a 200ft clear distance. The crane and tugs will monitor VHF-FM Channel 16. For additional information, please contact Matthew Miller at (206) 715-7466 or email at MatthewM@PacificPile.com
Chart 18545 LNM: 03/22

SNAKE RIVER – LAKE SACAJAWEA – Bridge notice
The Coast Guard intends to approve a request for a temporary deviation from the operating schedule that governs the East Pasco Railroad Bridge 3.08 (LLNR 13112) across the Snake River, mile 1.5, in Burbank, WA. The subject bridge provides 14 feet of vertical clearance above ordinary high water in the closed-to-navigation position. The deviation is necessary to accommodate electrical and mechanical upgrades. Bridge 3.08 is normally maintained in the open-to-navigation position. The requested closure was scheduled to align with the Columbia River and Snake River 2022 USACE navigation lock closure. The draw closure will be from 0800 on 21 Feb 2022 to 1800 on 07 Mar 2022. During this proposed closure period the draw will not be able to open to marine vessels engaged in emergency operations. Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. Please submit objections to D13-SMB-D13-Bridges@uscg.mil by 03 Feb 2022.
Chart 18446 LNM: 02/22

WASHINGTON – PUGET SOUND – APPLE COVE TO KEYPORT – Submersible Vehicle testing
The Naval Undersea Warfare Center (NUWC) at Keyport, WA will be continuing operations in the vicinity of NUWC between University Point, the Brownsville Marina and Keyport through 23 Dec 2022. Operations will normally be conducted Monday through Friday during daylight hours. Operations will involve semisubmersible and submersible vehicles escorted by a small naval craft with a flashing red light. The small craft will monitor VHF-FM channels 12 and 16. The call sign for the small craft will be “Keyport Range Control”. All craft transiting the area are requested to exercise caution and maintain a sharp lookout for possible semi-submerged vehicles while the range is in operation. Questions can be directed to Keyport Range Control on VHF-FM channels 12 and 16 or by contacting the Pacific Northwest Range Management and Ops Division, Range Control Branch, at (360) 396-2313.
Chart 18446 LNM: 02/22

WASHINGTON – PUGET SOUND – ELLIOT BAY – DUWAMISH WATERWAY – Terminal 5 pier construction
Orion Marine will be continuing the marine construction activities associated with the Terminal 5 Berth Modernization Project for the Port of Seattle on the Duwamish River west waterway. Phase 2 of the project includes pile installation and new pier construction for and will run through Aug 2023. Work will typically take place from 0700 to 1700, Monday thru Friday. The DB Rainier and DB St. Helens, will each have a material barge moored alongside and will always remain on site. Each floating plant will have all corners marked with steady burn white lights. The DBs will run on anchors at times so mariners are requested to keep at least a 200-foot distance. The crane and tugs will monitor VHF-FM channel 13. For additional information please contact Jesse Galligan at (253) 552-1140 or email at jgalligan@orionmarinegroup.com.
Chart 18443 LNM: 02/22

WASHINGTON – EVERETT HARBOR– SNOHOMISH RIVER– SR 529 Highway Bridge Notice
The Coast Guard intends to approve a temporary bridge deviation from the operating schedule that governs the SR 529 Highway Bridges across the Snohomish River and Steamboat Slough to support the Everett Half Marathon event from 0700 to 1100 on 27 Mar 2022. During this period, the swing spans of the SR 529 Highway Bridge (NB) (LLNR 18591.3) and the SR 529 Highway Bridge (SB) (LLNR 18591.2) across the Snohomish River, mile 3.6, at Everett, WA, and the lift spans of SR 529 Highway Bridge (NB) (LLNR 18594.11) and the SR 529 Highway Bridge (SB) (LLNR 18594.9) across Steamboat Slough, mile 1.1, at Marysville, WA, will be authorized to remain in the closed-to-navigation positions. If any mariner has any objection to the bridge span closures for the time period stated, please contact the Coast Guard District Thirteen Bridge Office by email D13-smb-D13-bridges@uscg.mil by 03 Feb 2022.
Chart 18502 LNM: 03/22

SECTION II - DISCREPANCIES
This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

**SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED**

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

**TEMPORARY CHANGES**

## SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

<table>
<thead>

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

No new editions of chart 18457 will be published. It will be canceled on 01-Jun-22. Comparable or larger scale Electronic Navigational Chart (ENC) coverage is available. See "Cancellation of NOAA Paper and Raster Nautical Charts" in Section I of this LNM for details. A list of all canceled NOAA charts is at https://www.charts.noaa.gov/MCD/Dole.shtml.

SUMMARY OF ADVANCED APPROVED PROJECTS

Approved Project(s) | Project Date | Ref. LNM
--- | --- | ---
None | | 

**Advance Notice(s)**

**OREGON – YAQUINA BAY AND ENTRANCE – Change to the characteristic of Yaquina Bay Entrance Range Front and Rear Lights and Yaquina Bay Channel Light 8**

The U.S. Coast Guard will be changing the characteristic of Yaquina Bay Entrance Range Front and Rear Lights (LLNRs 9580 and 9585) from a night time only light to a 24 hours a day light. The flash characteristics and night time intensity will remain the same. Yaquina Bay Channel Light 8 (LLNR 9615) will change in characteristic from a red light flashing every 4 seconds to a quick flashing red light.

Mariners are encouraged to share comments on the performance and operation of these aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector North Bend.

Charts: 18561 18580 18581

LNM: 36/21

**OREGON – YAQUINA BAY – Construction of fixed Aids to Navigation**

The U.S. Coast Guard is rebuilding the wooden and damaged aids to navigation in Yaquina Bay during the winter of 2021. The following aids to navigation are being rebuilt:

- Yaquina Inner Range Front Light (LLNR 9620), being rebuilt at 44-37-44.145N 124-02-49.311W (WG84)
- Yaquina Inner Range Rear Light (LLNR 9625), being rebuilt at 44-37-47.998N 124-02-54.661W (WG84)

A Broadcast Notice to Mariners will be issued for each structure upon rebuilding. Mariners are encouraged to share comments on this change and the performance and operation of these aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector North Bend.

Chart 18581

LNM: 48/21

**OREGON – TILLAMOOK BAY – Testing of a self-contained LED lantern on Tillamook Bay Entrance Lighted Bell Buoy 2**

Due to frequent failures of the current LED lantern on Tillamook Bay Entrance Lighted Bell Buoy 2 (LLNR 9817), The U.S. Coast Guard will be testing a different model lantern on the buoy to determine if improvements in performance and reliability may be obtained. This lantern will have the same characteristic as the previous one (Quick Flashing Red) but the intensity will be lowered from 4 NM to 3 NM during the evaluation period.

A Broadcast Notice to Mariners was issued to announce the change. Mariners are encouraged to share comments on this change and the performance and operation of this aid to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector North Bend.

Charts: 18520 18558

LNM: 42/21

**WASHINGTON – WILLAPA BAY – Construction of fixed Aids to Navigation**

The U.S. Coast Guard is rebuilding the wooden and damaged aids to navigation in Willapa Bay during the winter of 2021. The following aids to navigation are being rebuilt:

- Willapa Bay Entrance Light 11 (LLNR 15205), being rebuilt at 46-43-07.216N 124-02-25.872W (WG84)
- South Willapa Bay Light 3 (LLNR 15400), being rebuilt at 46-41-21.901N 124-00-58.860W (WG84) and changing to Willapa River Junction Light (LLNR 15210), showing a Red Light flashing twice then once every 6 seconds (Fl R (2+1) 6s) with a range of 4 NM and displaying red and green triangular dayboards.
- Stanley Point Junction Daybeacon (LLNR 15485), rebuilt at 46-27-40.341N 123-56-14.743W (WG84) and changing to Willapa Bay Entrance Range Front and Rear Lights and Yaquina Bay Channel Light 8

The U.S. Coast Guard will be changing the characteristic of Yaquina Bay Entrance Range Front and Rear Lights (LLNRs 9580 and 9585) from a night time only light to a 24 hours a day light. The flash characteristics and night time intensity will remain the same. Yaquina Bay Channel Light 8 (LLNR 9615) will change in characteristic from a red light flashing every 4 seconds to a quick flashing red light.

Stanley Point Junction Daybeacon (LLNR 15485), rebuilt at 46-27-40.341N 123-56-14.743W (WG84)

Stanley Point Junction Daybeacon (LLNR 15485), rebuilt at 46-27-40.341N 123-56-14.743W (WG84)

The following aids to navigation have been rebuilt:

- Willapa River Channel Light 59 (LLNR 15385) rebuilt at 46-40-45.530N 123-45-57.681W (WG84)
- South Willapa Bay Daybeacon 8 (LLNR 15415), rebuilt at 46-35-42.431N 123-58-53.484W (WG84)
- Nahcotta Channel Daybeacon 11 (LLNR 15425), rebuilt at 46-33-44.918N 123-57-39.321W (WG84)
- Nahcotta Channel Daybeacon 12 (LLNR 15430), rebuilt at 46-32-45.638N 123-59-09.751W (WG84)
- Long Island Junction Light (LLNR 15435), rebuilt at 46-32-09.564N 123-58-35.489W (WG84)
- Nahcotta Mooring Basin Light 2 (LLNR 15445), rebuilt at 46-30-05.844N 124-01-25.796W (WG84)
- Stanley Channel Daybeacon 2 (LLNR 15475), rebuilt at 46-31-11.371N 123-58-34.646W (WG84)
- Stanley Channel Light 4 (LLNR 15480), rebuilt at 46-29-01.814N 123-57-55.284W (WG84)
- Stanley Point Junction Daybeacon (LLNR 15485), rebuilt at 46-27-40.341N 123-56-14.743W (WG84)

Mariners are advised to use caution while transiting these areas.
WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA AND PUGET SOUND – Removal of RACONs on aids to navigation

Nemah River Channel Entrance Daybeacon 1 (LLNR 15490), rebuilt at 46-34-44.738N 123-57-06.465W (WGS84)
Bay Center Channel Light 11 (LLNR 15515), rebuilt at 46-38-53.664N 123-57-05.526W (WGS84)
Palix River Channel Light 15 (LLNR 15525) rebuilt at 46-37-53.926N 123-56-36.602W (WGS84)

Mariners are encouraged to share comments on the performance and operation of these aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River.

Chart 18504 LNM: 05/22

WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA AND PUGET SOUND – Removal of RACONs on aids to navigation

The U.S. Coast Guard will be removing the RACONs from selected aids to navigation in the Strait of Juan de Fuca, Rosario Strait and Puget Sound due to the consistent failure of the signals and that they are no longer considered necessary for safe navigation of the waterways. While there is no specific timeline for the removal of this equipment, it will be coordinated with servicing and discrepancy responses. The removal of the RACONs will be announced by Broadcast Notice to Mariners and published in the Local Notice to Mariners as Chart and Light List corrections. These aids to navigation are:

Hein Bank Lighted Buoy 1 (LLNR 16362)
Rosario Strait Traffic Separation Lane Lighted Buoy "RA" (LLNR 16370)
Puget Sound Traffic Separation Lane Lighted Buoy "SA" (LLNR 16405)
Puget Sound Traffic Separation Lane Lighted Buoy "SG" (LLNR 16815)
Rosario Strait Traffic Separation Lane Lighted Buoy "C" (LLNR 19520)
Rosario Strait Traffic Separation Lane Lighted Buoy "CA" (LLNR 19535)

Mariners are requested to respond in writing to the Coast Guard District office with any comments on this change at D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Puget Sound.

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

PROPOSED WATERWAY PROJECTS OPEN FOR PUBLIC COMMENT

Proposed Change Notice(s)

COLUMBIA RIVER - WILLAPA BAY - GRAYS HARBOR - PUGET SOUND – Replacement of incandescent Lights with LED lanterns

The U.S. Coast Guard is proposing to replace the following incandescent lantern with LED lanterns at sites on the Columbia River, Willapa Bay, Grays Harbor, Bellingham Channel and Eagle Harbor. These current incandescent lanterns have a single or dual beam of high intensity, with an all-around light of reduced intensity. The change to a LED lantern will remove the high intensity beams, but significantly increase the intensity of the all-around light. The proposed sites are:

Svensen Island Light 12 (LLNR 14775) the high intensity beam will be removed and the intensity of the light will be increased.
Willapa River Light 39 (LLNR 15340) the high intensity beams will be removed and the intensity of the light will be increased.
South Willapa Bay Light 7 (LLNR 15410) the high intensity beam will be removed and the intensity of the light will be increased.
Long Island Junction Light (LLNR 15435) the high intensity beam will be removed and the intensity of the light will be increased.
Aberdeen Harbor Light 3 (LLNR 15900) the high intensity beam will be removed and the intensity of the light will be increased.
Johns River Entrance Light 8 (LLNR 15955) the high intensity beams will be removed and the intensity of the light will be increased.
Eagle Harbor Light 4 (LLNR 18010) the high intensity beam will be removed and the intensity of the light will be increased.
Bellingham Channel Light 5 (LLNR 19175) the high intensity beams will be removed and the intensity of the light will be increased.

Mariners are encouraged to share comments on the performance and operation of these lights as aids to navigation. All comments should be sent to the email address D13-PF-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River and US Coast Guard Sector Puget Sound.

COLUMBIA AND SNAKE RIVERS – Winter seasonal recreational vessel lockage

The USACE Portland and Walla Walla Districts will implement the winter seasonal lockage schedule, beginning in September until 15 May 2022, for the passage of recreational craft through the Columbia and Snake River navigation locks. The Portland District will begin the winter lockage schedule on 30 Sep, while the Walla Walla District will commence the winter schedule on 18 Sep. Winter lockage will be made during daylight hours only, on request at each lock – vessels should contact the lock operator via VHF-FM channel 14 or telephone, and should make their request at

WASHINGTON – LAKE WASHINGTON – SAMMAMISH RIVER – West Sammamish River Bridge Notice (Revised from LNM 13/20)

Construction on the West Sammamish River Bridge at Sammamish River mile 0.5 near Kenmore, Washington is ongoing and will continue through October 2023. The western bridge will be removed and a new bridge constructed. Mariners may transit through the construction zone, but are advised that temporary work piers will be constructed on the west side of the bridge, and will reduce the horizontal span to 40 feet of clearance. Containment will be installed under the bridge reducing the vertical clearance from 11.5 feet to 10.5 feet measured at OHW. Working hours will normally be from 0600 to 1800 six days per week, however, during the in water work window of 01 Jul to 31 Aug, operations will be 24 hours per day. If construction falls behind schedule, the work hours may shift to 24 hours/seven days per week. For more information regarding construction, contact Jake Brockmoller at (253) 888-2514, or Mick Cannon at (253) 377-1041.

Chart 18447

LNM: 05/21

OREGON – CAPE BLANCO TO YAQUINA HEAD – Scientific equipment installation

Oregon State University (OSU) has installed four, 1-mile long, 10-inch diameter, steel conduits under the seafloor running out from Driftwood Beach State Recreation Site near Seal Rock, Oregon, as part of the construction of the PacWave South Wave Energy Test Site. In mid-2023, subsea cables will be installed in the conduits to carry power and data from the test site to shore. Until the cables are installed, the seaward end of the conduits may protrude up to 3 feet vertically and 10 feet horizontally from the seafloor depending on sand movement. Once the cables are installed, the final placement of the conduits will be below the seafloor. The conduit punch outs are located approximately 1500 yards offshore from Driftwood Beach, which is between Seal Rocks and Waldport.

Until the subsea cables are installed, mariners are requested to avoid anchoring or setting fishing gear in a 1,000 x 1,500-foot Conduit Punch Out Area around the conduit exit locations due to risk of snagging on any exposed conduit. The location of the Conduit Punch Out Area was shown in the graphic attached as Enclosure (4) to LNM 52/21. If crab pots, or other equipment, becomes snagged in this area, mariners are asked to contact OSU prior to attempting to recover the snagged items. For more information contact Brett Hembrough at (541) 737-9023 and brett.hembrough@oregonstate.edu, or Dan Hellin at (541) 745-8337 and dan.hellin@oregonstate.edu.

OREGON – APPROACHES TO YAQUINA AND DEPOE BAY – Bridge construction notice (Revised from LNM 04/21)

ODOT is conducting bridge concrete repairs to the Yaquina Bay Highway 101 Bridge (LLNR 9627) in Newport, OR, at Yaquina Bay mile 0.7. A low level access walkway system will be constructed across the 4 concrete arch spans from the south bank heading north. While erected, the vertical navigation clearance will be reduced to a minimum of 16 feet at MHHW. The low level walkway system will span from the south bank to the North approx. 880 feet. This system will be built in April 2021 and will be functional until approximately the summer of 2022. The main navigational channel will not be impeded by the project as that section is made of steel. Mariners are requested not to loiter under the construction area due to fall hazards. For more information, contact Dan Lutze, the project superintendent, at (503) 519-5408.

COLUMBIA RIVER – BONNEVILLE TO THE DALLES – Marine construction/demolition at Drano Lake

Advanced American Construction (AAC) will be conducting existing pier removal in the Columbia River at the mouth of Little White Salmon River / Drano Lake near RM 116. Operations include wire saw, concrete demolition and pile removal. Onsite work is expected to occur from 06 Jul 2021 to 28 Feb 2022. AAC’s Derrick Barge DB 4100 and tug Lindy Marie, and work barges will be on station and monitoring VHF-FM channel 16 during the working hours of 0700 through 1800, Monday through Saturday. The floating equipment will remain on-station during non-working hours and will be illuminated at night by fixed white lights on all corners. Mariners are asked to transit the area with extreme caution and minimize wake. Please contact Shad Huber (360) 953-4833 Shadh@callAAC.com or Scott Miller at (503) 568-4313 scottm@callAAC.com with questions.

COLUMBIA RIVER – BONNEVILLE TO THE DALLES – Bridge notice

ODOT is conducting a bridge deck replacement project on the SR 197 Highway Bridge (LLNR 12133) at Columbia RM 191.6 near The Dalles, OR and Dallesport WA. A work access and containment platform will be suspended beneath the bridge starting in mid-August and will be in place continuously until 27 May 2022. While in place, the vertical navigation clearance will be reduced by approximately 3 feet to a minimum clearance of 97 feet Columbia River datum OHW. If a vessel needs the full 100 feet of vertical clearance for passage through the subject bridge, contact the ODOT Resident Engineer with no less than 12 hours of notice. For more information, or to make a request, contact ODOT Resident Engineer Brad DeHart at (541) 296-2800 or bradley.k.dehart@odot.state.or.us.

Commercial vessels continue to have lockage precedence over recreational vessels. At the discretion of the lock operator, recreational vessels may be allowed to lock through with commercial vessels. The Portland District requests that recreational vessels contact the lock at least 30 minutes prior to arrival using VHF-FM channel 14 or via telephone. All vessel owner/operators lock through at their own risk. All persons in the vessel must be wearing a personal flotation device (PFD) during lockage. Follow the directions of the lock operator when using locks or operating in the vicinity of the locks. The lock operator has final authority on the suitability of a craft for lockage. Please refer to USACE Safe Lockage Policy for Recreational Craft on the Columbia and Snake Rivers, published separately, for safety requirements. For safety and additional information on Portland District navigation lock operations and schedules visit http://www.nwp.usace.army.mil/Missions/Navigation.aspx and for Walla Walla District lock operations visit http://www.nww.usace.army.mil/Missions/Navigation.aspx or call the USACE Walla Walla Operations Division at (509) 527-7112.

COLUMBIA RIVER – SNAKE RIVER – 2022 Annual Lock closures for maintenance

The USACE Portland and Walla Walla Districts have scheduled the annual navigation lock maintenance closure for February and March 2022. During this time, the Locks and Dams on the Columbia and Snake Rivers have scheduled inspections, maintenance, and repair work. Non-routine work includes gate cleaning, structural inspections, and equipment/machinery repair and replacement. All eight (8) of the navigation locks will close beginning in February in accordance with the following schedule:

Columbia River navigation lock maintenance closures are:
- Bonneville (RM 146.1) – 0600 on 13 Feb to 2359 on 12 Mar 2022
- The Dalles (RM 191.5) – 0600 on 13 Feb to 2359 on 19 Mar 2022
- John Day (RM 215.6) – 0600 on 13 Feb to 2359 on 05 Mar 2022
- McNary (RM 292) – 0600 on 13 Feb to 2359 on 13 Mar 2022

Snake River navigation lock maintenance closures are:
- Ice Harbor (RM 9.7) – 0600 on 13 Feb to 2359 on 12 Mar 2022
- Lower Monumental (RM 41.6) – 0600 on 19 Feb to 2359 on 19 Mar 2022
- Little Goose (RM 70.3) – 0600 on 14 Feb to 2359 on 12 Mar 2022
- Lower Granite (RM 107.5) – 0600 on 25 Feb to 19 Mar 2022

For additional information regarding Bonneville, The Dalles and John Day lock maintenance closures, contact Portland District, Operations Division at (503) 808-5419. For additional information regarding McNary, Ice Harbor, Lower Monumental, Little Goose and Lower Granite lock maintenance closures, contact Walla Walla District, Operations Division, at (509) 527-7364.

SNAKE RIVER – LAKE SACAJAWEA AND LAKE HERBERT G. WEST – Upstream floating guidewall restrictions (Revised from LNM 10/21)

Repairs at the Ice Harbor Lock and Dam and the Little Goose Lock and Dam upstream floating guide walls are now completed, so all restrictions regarding the use of the floating guide wall are now lifted. However, restrictions still apply at the following project:
- Lower Monumental Lock and Dam, Snake River Mile 41.6, vessels may not tie up to or rub against the floating guide wall when approaching or leaving the lock, nor should they use the guidewall as a pivot point for entering the lock. These restrictions will remain in place until more substantial repairs can be made to the locks’ floating guidewall cables. For additional information on this work, contact the NWW Operations Division at (509) 527-7364.

COLUMBIA RIVER SYSTEM AND WASHINGTON - Testing of prototype plastic buoys

The U.S. Coast Guard is testing various prototype plastic buoys to observe their station keeping ability and visual and radar detection capabilities. Buoys are being placed at the following locations for evaluation:

On the Columbia, Snake and Willamette Rivers:
- Columbia River Entrance Lighted Buoy 3 (LLNR 9911), set on 1/13/2022
- Desesmona Sands Lighted Buoy 22 (LLNR 9990), set on 1/13/2022
- Hood River Lighted Buoy 36 (LLNR 11932), set on 12/14/2021
- Bonneville Pool Lighted Buoy 69 (LLNR 12130)
- Lake Cello Buoy 45 (LLNR 12360), set on 9/28/2021
- Lake Wallula Lighted Buoy 2 (LLNR 12815), set on 10/04/2021
- Snake River Buoy 14 (LLNR 13195), set on 9/30/2021
- Snake River Buoy 18 (LLNR 13210)
- Elk Rock Buoy 10 (LLNR 15005), reset on 1/06/2022
- Elk Rock Buoy 12 (LLNR 15010)

In Grays Harbor and Admiralty Inlet Washington:
- Point Chehalis Lighted Buoy 4 (LLNR 15990)
- Point Wilson Lighted Buoy 6 (LLNR 16470), set on 12/16/2021

While the buoys performance is being studied, the US Coast Guard is soliciting comments from the maritime community transiting this waterway. Mariners are requested to respond in writing to the Coast Guard District Office with any comments on this change at D13-SMB-D13-LNM@uscg.mil.
COLUMBIA RIVER SYSTEM AND WASHINGTON - Testing of prototype plastic buoys
Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River and US Coast Guard Sector Puget Sound.

COLUMBIA RIVER – SAINT HELENS TO VANCOUVER – WILLOW – Marine outfall pipe construction
Advanced American Construction (AAC) will be conducting installation of a new 48 inch outfall pipe in the Columbia River near mile 96. The pipe will extend from the Washington riverbank out into the Columbia River approximately 700 feet. Operations include dredging, pipe installation, pile driving, diving and demolition of the existing submerged outfall pipe. Onsite work is expected to occur from 01 Oct 2021 to 28 Feb 2022. AAC’s Derrick Barge DB 4100 and tug Lindy Marie, and work barges will be on station and monitoring VHF-FM channel 16 during the working hours of 0700 through 1800, Monday through Saturday. The floating equipment will remain on-station during non-working hours and will be illuminated at night by fixed white lights on all corners. Mariners are asked to transit the area with extreme caution and minimize wake. For additional information, contact Shad Huber (360) 953-4833 Shadh@callAAC.com.
Chart 18525

COLUMBIA RIVER – ST. HELENS TO VANCOUVER – WILLOW – Safety Zone for the Columbia River Outfall Project
A safety zone will be in effect from 0001 on 01 Oct 2021 through 2359 on 15 Mar 2022 for a marine construction project that includes dredging operations, on the Columbia River near RM 95.8 – 96.1, on the Washington side of the navigable channel. The safety zone would cover all navigable waters of the Columbia River, surface to bottom, encompassed by a line connecting the following points:
beginning at the shoreline at 45-43-57.0 N, 122-45-21.0 W,
then west to 45-43-58.0 N, 122-45-33.0 W,
then south to 45-43-39.0 N, 122-45-35.0 W,
then east to 45-43-39.0 N, 122-45-21.0 W, and along the shoreline back to the beginning point.
No vessel or person will be allowed to enter the safety zone without obtaining permission from the Captain of the Port Sector Columbia River, or a designated representative, via VHF-FM Channel 16, or by calling (503) 209-2468.
Chart 18525
LNM: 37/21

COLUMBIA RIVER – ST. HELENS TO VANCOUVER – WILLOW – Safety Zone for the CBWTP Outfall Diffuser Improvements Project
A safety zone will be in effect from 0001 on 01 Oct 2021 through 2359 on 28 Feb 2022 for a marine construction project that includes dredging and dive operations at Columbia River Mile 105.6. The safety zone covers all navigable waters, from surface to bottom, approximately 300 yards to the east and west side of the Burlington Northern Railroad Bridge Vancouver Railroad Bridge (LLNR 11250) on the Oregon side of the Columbia River from shoreline to the outside of the navigable channel. No vessel or person will be allowed to enter the safety zone without obtaining permission from the Captain of the Port Sector Columbia River, or a designated representative, via VHF-FM Channel 16, or by calling (503) 209-2468.

IDAHO – LAKE COEUR D’ALENE – LAKE PEND OREILLE – BNSF Railroad Bridge construction update
BNSF Railway Company (BNSF) is continuing construction on the new BNSF Railroad Bridge 3.9 (LLNR 20087) located over Lake Pend Oreille (LPO) Mile 2.7, located approximately at 48-16-20 N, 116-32-39 W, in Sandpoint, ID from the start of the project vicinity on RM 280. Hours of construction activities will generally be 0730 to 1600, Monday to Saturday. An Ames-owned tugboat, Audrey B, will position barges and provide other on-water support within the BNSF 200’ ROW west of the existing BNSF Bridge 3.9. The Audrey B can be hailed on VHF-FM channels 13 and 16.
One of the two published navigation channels at the existing BNSF Bridge 3.9 spans 67 and 68 and half of the existing spans 2 and 3; 14 through 17; 27 through 30; 40 through 43; 53 through 56; 84; and 95 through 97 will remain unobstructed during all work activities. Vertical clearance of the existing bridge will be unchanged. The temporary work trestles and work barges will have navigation lights and work zone buoys in accordance with the Navigation Rules (COLREGS-Inland). Enclosure (4) of LNM 02/22 displayed the project vicinity, locations of high and low-water work areas, for this phase of the work activities. Changes to the work locations and activities will be updated by a subsequent LNM in the Spring of 2022. During all phases and locations, the noted navigational buoy-safety lighting for the work areas will be in place. The point of contact for the bridge contractor, Ames Construction, Inc. is Mike Pamperin at (512) 741-6535; Mike.Pamperin@amesco.com. For additional information contact the BNSF Project Manager, Ryan Koper at (913) 284-3476; Ryan.Koper@BNSF.com.

WASHINGTON – STRAIT OF JUAN DE FUCA TO STRAIT OF GEORGIA – POINT ROBERTS – Acoustic research buoy
SMRU Consulting will be testing an acoustic buoy in a location off the western side of Point Roberts, from 07 Dec 2021 until 18 Mar 2022. A buoy 2 foot in diameter will be located in approximate position 48-59-08.9 N, 123-06-07.8 W, which is approximately 1400 yards offshore and 1700 yards south of the US-Canada border. The buoy will be monitoring underwater acoustic noise, will be in operation (unmanned) 24 hours a day, and marked with a FL Y 6s (flashing yellow six second) light. No VHF-FM channels will be used. Mariners are requested to keep a safe distance from the buoy. For additional information, contact Jason Wood at (360) 298-0166 or jw@smruconsulting.com.

LNM: 44/21

OREGON – IDAHO – GPS testing
US Strategic Command has proposed GPS testing encompassing a large portion of eastern Oregon and southwestern Idaho, during the first week of February. The center point of the test will be near Mountain Home AFB, Idaho, at position 42-44-46.6 N, 115-37-02.1 W, with a radius of 194 NM. The GPS navigation signal may be unreliable due to testing on GPS frequencies used by shipboard navigation and handheld systems. Systems that rely on GPS, such as e-911, AIS and DSC, may be affected. The testing frequencies will be GPS L1 and L2. Testing dates and times are as listed below, using Universal Time Coordinated (UTC) or Zulu time:
31 JAN 22 / 1500Z - 2359Z
01 FEB 22 / 2100Z - 2259Z
02 FEB 22 / 2100Z - 2259Z
03 FEB 22 / 2100Z - 2259Z
04 FEB 22 / 1500Z - 2259Z
05 FEB 22 / 0000Z - 2359Z
06 FEB 22 / 0000Z - 2359Z
07 FEB 22 / 0000Z - 0500Z
For additional information or to express concerns, contact the Coast Guard Navigation Center at (703) 313-5900 or at https://www.navcen.uscg.gov/?pageName=dgpsSiteInfo&currentOutages.
LNM: 52/21

OREGON – WASHINGTON – IDAHO – NOAA’s planned cancellation of Paper and Raster charts (Revised from LNM 09/21)
The National Oceanic and Atmospheric Administration (NOAA) is undertaking a multi-year program to end production and maintenance of its suite of over 1,000 traditional paper nautical charts and all associated raster chart products and services, including: Print-on-Demand (POD) paper nautical charts, Full-size chart PDF files, BookletChart™ PDF files, NOAA raster navigational charts (NOAA RNC®), the NOAA RNC tile service, and the online RNC viewer.
Six months prior to cancelation, a notice of the intent to cancel a specific chart will be provided via a “Last Edition” notice. The final cancelation of a chart will be made via a “Canceled” notice. Both types of notices will appear in LNM Section IV, “Chart Correction.” A comprehensive list of all cancelled NOAA charts is available at: http://www.charts.noaa.gov/MCD/Dole.shtml.
Traditional paper nautical chart production is ending to enable the creation and maintenance of larger scale, more up-to-date, higher quality coverage of NOAA’s electronic navigational chart (NOAA ENC®) product. This will significantly enhance the amount of chart detail available to mariners. More information about NOAA’s program to sunset traditional paper charts is on the NOAA Coast Survey website at: https://nauticalcharts.noaa.gov/charts/farewell-to-traditional-nautical-charts.html. An online NOAA Custom Chart application at: https://devgis.charttools.noaa.gov/pod is available to create chart images from ENC data, which may then be printed. Notices to Mariners will not
## SECTION VIII - LIGHT LIST CORRECTIONS

Mariners are advised that the start and ending dates for dredging activities may vary due to unforeseen on-site conditions, such as gill net fishing, weather and other factors.

USACE dredges request mariners transit at their slowest safe speed to minimize wake when in the vicinity of a dredge and proceed with caution after making passing arrangements. Vessel(s) and/or equipment may encroach into the channel.
