

Local Notice to Mariners for Northwest District 05/27/2026

Aberdeen

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Grays Harbor - Aberdeen/General/Bridges/Temp Deviation	Bridges	The U.S. Coast Guard intends to approve a temporary deviation for the operating schedule that governs the Heron Street Bridge (LLNR 16072.2), mile 0.2, across the Wishkah River, in Aberdeen, WA. The deviation will accommodate maintenance and restoration of the steel grid roadway. The Heron Street Bridge provides 8 feet of vertical clearance in the closed-to-navigation position above high water. To facilitate this event, the draw of the subject bridge will be maintained in the closed-to-navigation position from 0600 on 15 Aug 2026 to 1800 on 11 Feb 2027. Vessels that do not require bridge openings may continue to transit beneath these bridges during the closure periods. The draw will not be able to open for vessels engaged in emergency response operations during this closure period. Please submit comments or objections before 13 Feb 2026 at d13-smb-d13-bridges@uscg.mil. For more information contact Stefani Hardy at (360) 591-4269 or stefani.hardy@wsdot.wa.gov.	Lat: 46° 58' 34" Lon: -123° 48' 42"

General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Advanced American Construction will be constructing a new railroad bridge on the Washington side of the Columbia River near RM 168.2 at the confluence of the White Salmon River & Columbia River. Work includes heavy marine assets, critical lifts, and pile driving operations. The Derrick Barge AAC Millennium will be on station from 10 Nov 25 through 31 Dec 26. Working days are planned for Monday through Friday, 0700 to 1700. Onsite equipment will monitor VHF-FM channels 13 & 16 during working hours. Mariners are requested to reduce speed and avoid the work area. During non-working hours, the derrick barge will remain on station with steady white lights on all four corners. Please call Kristian Hellberg at (703) 409-1614 or email at kristianh@callaac.com for more information.	Lat: 45° 43' 42" Lon: -121° 31' 21"

Boundary Pass

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Boundary Pass/General/Marine Events/Regatta (Race)	Marine Events	20 JUN 2026, 0900-1800. Annual sailing regatta which circumnavigates Orcas Island via Harney Channel, Rosario Strait, President Channel and West Sound.	
Boundary Pass/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	Effective 01 Jun (exact date TBC by ECHO team based on SRKW presence) to 30 Nov 2026, the Enhancing Cetacean Habitat and Observation (ECHO) Program voluntary ship slowdown through Haro Strait and Boundary Pass is in effect for all inbound and outbound commercial and government vessels to reduce underwater noise for at-risk whales. If it is safe and operationally feasible to do so, commercial and government vessels are requested to not exceed the following speeds through the water: 11 knots – Bulkers, tankers, general cargo vessels, and government vessels; and, 14.5 knots – Vehicle carriers, cruise ships, and container vessels. This voluntary slowdown takes place between 48°24'22.78"N, 123°12'15.26"W, and 48°46'39.28"N 123°1'36.84"W. Speed transition zones are in place within the established traffic system at both approaches to the slowdown area. The north transition zone are those waters between north of Boat Pass, Saturna Island and Rosenfeld Rock and the south transition zone are those waters between buoy VH at the Victoria pilot station, and Sea Bird Point at the southeast corner of Discovery Island. There are also two optional slow down areas, one rounding turn point and the other between Turn point, Saturna Island and Alden Point, Patos Island. This initiative will remain in effect 24 hours per day until 23:59 PDT on 30 Nov 2026, depending on southern resident killer whale presence in the fall. The ECHO Program is led by the Vancouver Fraser Port Authority in collaboration with government agencies, Indigenous communities, industry partners and environmental groups. For more detailed information, refer to the following internet web address: https://www.portvancouver.com/echo/

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION

Sector Columbia River, Submerged Land Act (SLA) - Depoe Bay/General/Bridges/Rehabilitation	Bridges	Oregon Department of Transportation (ODOT) and Carter Construction will be completing a cathodic protection project on the US-101 Bridge (BRDG UID 29514) (LLNR 9627) across the entrance to Depoe Bay, OR. The planned start time/date is 0600 on 5 Jan 2026 through 1800 on 18 Dec 2026. The start and end dates may change due to weather conditions. The work requires the use of containment via scaffolding, that will reduce the vertical navigation clearance of the subject bridge from 46 feet to 41 feet at high tide for the center horizontal 38ft above the main navigation channel. There will also be scaffolding that will hang about 19' below the bottom of the bridge on the north and south side of the bridge arch of the main navigation channel and will remain in place until maintenance is completed until November / December. The containment will be marked with amber caution lighting and will not obstruct any navigational aids. For more information contact Markus Schaaf at Markus.Schaaf@odot.oregon.gov.	Lat: 44° 48' 35" Lon: -124° 03' 42"

District 13, Oceanic boundary to EEZ

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
NAVAREA XII - District 13, Oceanic boundary to EEZ/General/Miscellaneous	Miscellaneous	Liquid Robotics (www.liquid-robotics.com) will conduct continuous autonomous, uncrewed maritime vehicle operations from 23 Apr – 01 Jul 2026 off the Oregon and Washington coasts, between 10 – 80 nautical miles offshore. Operations consist of scientific ocean data collection. Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from our Wave Glider Operations Center (WGOC), moving at speeds of typically 1 kt, and designed to give way if encountered by a vessel. It is surfboard size, copper in color, with a contact plaque and mast extending 1 meter above the surface supporting a flag and a solid white light for use at night. Mariners are urged to transit the area with caution. For up-to-date information, mariners can contact Liquid Robotics Operations Center at 703-376-9300, or by email at support@liquid-robotics.com.	

Duwamish Waterway East

Additional MSI Categories

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Elliott Bay - Duwamish Waterway East/General/Bridges/Temp Deviation	Bridges	The Coast Guard has approved a temporary deviation that governs the operating schedule for the 1st Avenue South Highway Twin Bridge (LLNR 16887) across the Duwamish Waterway, mile 2.5, in Seattle, WA. The proposed temporary rule change would read as follows. The draws of each bridge across the Duwamish Waterway shall open on signal, except as follows: From Monday through Friday, except all Federal holidays but Columbus Day, the draws of the First Avenue South Bridges, mile 2.5, need not be opened for the passage of vessels from 6 a.m. to 9 a.m. and from 3 p.m. to 6 p.m., except: The draws shall open at any time for a vessel of 5000 gross tons and over, a vessel towing a vessel of 5000 gross tons and over, and a vessel proceeding to pick up for towing a vessel of 5000 gross tons and over. In addition, the subject bridge will operate temporarily as follows from 6 a.m. April 1, 2026, to 11:59 p.m. June 30, 2026. Monday through Friday, except all Federal holidays, from 6 p.m. to 6 a.m., all vessels requiring the draws of the bridges to open shall give 24 hours advance notice and confirm their arrival time 2 hours before their scheduled arrival at the bridge. Saturday through Sunday, during all hours of operation, all vessels requiring the draws of the bridges to open shall give 24 hours advance notice and confirm their arrival time 2 hours before their scheduled arrival at the bridge. Upon the vessels arrival and signal to open the draw shall open promptly. The draw shall open a single leaf unless a double leaf opening is requested given at least 24 hour's advance notice. (The horizontal navigation clearance with a double leaf opening is 120ft at the tips of the lifted bascule span and 145 ft at the water line. The horizontal navigation clearance with a single leaf opening is 60 ft at the tip of the lifted bascule span and 72.5 ft at the water line). Throughout the duration of this deviation, the subject bridge must open the full draw for emergency vessel responding to a call "if" safely able to do so. The bridge shall operate in accordance with 33 CFR §117.1041 at all other times. For more information contact the 1st Ave South Bridge Tender at 206-764-4160 or VHF CH. #13	Lat: 47° 32' 33" Lon: -122° 20' 07"
Elliott Bay - Duwamish Waterway East/General/Bridges/Temp Deviation	Bridges	The Coast Guard has approved a temporary deviation that governs the operating schedule for the 1st Avenue Bridge (LLNR 16887) across the Duwamish Waterway, mile 2.5, in Seattle, WA. This deviation authorizes the draws to not open to mariners during evening maintenance. The temporary draw closure will be from 1800 to 0600 from 7 July 2026 to 8 January 2027. The subject bridges provide 32 feet for 100 feet center span and 22 feet side spans of vertical clearance in the closed-to-navigation position above high water. No alternate route is available on the Duwamish Waterway. The bridges shall operate in accordance with 33 CFR §117.1041 at all other times. For more information on this event contact Garrett Hutton at (206) 440-4626 or garrett.hutton@wsdot.wa.gov.	Lat: 47° 32' 31" Lon: -122° 20' 03"

This bulletin highlights Vessel Anchoring Standards of Care that identify best practices to mitigate potential hazards and/or risks posed to commercial vessels anchoring in the region. Maritime stakeholders are reminded to exercise increased vigilance and to implement appropriate measures to ensure the safety of vessels while anchored or conducting anchoring operations. The following are actions recommended in varying conditions as excerpted from the Anchoring Standards of Care from Puget Sound Harbor Safety Committee's Safety Plan, which can be found at https://marexps.com/membership/puget-sound-harbor-safety-committee/#documents . 1. All Weather/Visibility Measures • Maintain a 24-hour bridge watch by an English-speaking individual. • Confirm vessel position and under keel clearance at a minimum of once per hour. • Provide VTS notifications as required by the VTS User Manual. • Ensure a second anchor is made ready for letting go. • During the months of October through March, a VHF-FM radio weather channel shall be monitored. 2. Restricted Visibility Measures • The bridge watch must be maintained by a licensed deck officer. • Increased assessment of radar contacts. 3. Gale Warnings Measures • Maintain a listening watch on the VTS working frequency. • Put the propulsion plant on standby and be ready to provide immediate propulsion and maneuvering. 4. Storm Warnings Measures • Consider increasing scope of anchor chain as appropriate. • Determine the availability and location of potential standby tugs to assist the vessel in holding position. • Assess the need for a pilot and get one onboard if necessary. For more information, please contact Coast Guard Waterways Management at SectorPugetSoundWWM@uscg.mil.	Lat: 48° 12' 35" Lon: -122° 53' 29"
Sector Puget Sound, Submerged Land Act (SLA) - Strait of Juan De Fuca/General/MSIB	MSIB	The Captain of the Port of Puget Sound has published MSIB 003-26 providing Safety Guidance for Small Vessels Navigating the Puget Sound Traffic Lanes. A summary of the guidance is captured below, but for the entire Bulletin, go to this address https://www.pacificarea.uscg.mil/Our-Organization/Northwest-District/District-Staff/dp/dpw/notices/ and look for the Navigation Rule 10 link. Rule 10 of the Navigational Rules of the Road mandates specific conduct while within Traffic Separation Schemes (TSS) to promote safe navigation of vessels and reduce the possibility of collisions, especially in areas of high vessel traffic. If using a TSS, you must: Proceed in the appropriate traffic lane in the general direction of traffic flow for that lane; Keep clear of a separation zone or separation line, unless you must cross it; Normally join or leave a traffic lane at the termination of the lane, but when joining or leaving from the side, do so at as small an angle to the general direction of traffic flow as practicable. Vessels of less than 20 meters in length or sailing vessels shall not impede the safe passage of a power-driven vessel following a traffic lane. Fishing Vessels are permitted to fish within the separation zone, as to not impede the safe passage of any vessel following a traffic lane. A vessel shall not use a traffic separation scheme when it can safely use an adjacent route. A vessel other than a crossing vessel or a vessel joining or leaving a lane shall not normally enter a separation zone or cross a separation line except in cases of emergency to avoid immediate danger. For Additional Information, Contact VTS on VHF channel 5A in the Strait and North of Everett, channel 14 south of Everett, or by phone at (206) 217-6152 for information on vessel movements. Contact USCG Sector Puget Sound Command Center at (206) 217-6002 to report unsafe operations or conditions within the port.	Lat: 48° 11' 06" Lon: -122° 47' 10"
Sector Puget Sound, Submerged Land Act (SLA) - Strait of Juan De Fuca/General/Naval Activity/Naval Gunnery Exercises	Naval Activity	The NAS Whidbey Island Small Arms Safety Range located off the western shore of Whidbey Island will be active on the following schedule: // 20 MAY 26 from 0800 to 1500 / 21 MAY 26 from 0800 to 2300 / 26 MAY 26 from 0800 to 2330 / 27 MAY 26 from 0800 to 1500 / 28 MAY 26 from 0800 to 2330 // Red flashing lights (at nighttime) mark the onshore Northern and southern firing boundaries out to 2000 yards from the shoreline during live fire operations. For more information contact the Safety Officer at 360-257-3825 or VHF-FM channel 82A (1082).	
Sector Puget Sound, Submerged Land Act (SLA) - Strait of Juan De Fuca/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	Effective 01 Jun to 31 Oct 2026, the ECHO Program voluntary inshore route alteration is active for all tugs transiting the Canadian inshore area of the Strait of Juan de Fuca to reduce underwater noise for at-risk whales. If it is safe and operationally feasible to do so, tugs are requested to navigate either through the outbound shipping lane or the inshore route alteration zone, while maintaining a buffer distance of 1,000 meters from the traffic separation scheme (TSS). The inshore route alteration zone is 1,500 meters wide and occurs in the area between 123-52-21.192 W, 48-18-37.332 N and 124-31-33.378 W, 48-28-53.316 N, covering a distance of approximately 28 NM. For more detailed information, visit the following web address: https://www.portvancouver.com/echo	
Sector Puget Sound, Submerged Land Act (SLA) - Strait of Juan De Fuca/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration	Threatened And Endangered Species Advisory (TESS Advisory)	Effective 01 Jun to 31 Oct 2026, the Enhancing Cetacean Habitat and Observation (ECHO) Program voluntary ship slowdown in the vicinity of Swiftsure Bank is in effect for all inbound and outbound commercial and government vessels to reduce underwater noise for at-risk whales. If it is safe and operationally feasible to do so, commercial and government vessels are requested to not exceed the following speeds through the water: 11 knots – Bulklers, tankers, general cargo vessels, and government vessels; and, 14.5 knots – Vehicle carriers, cruise ships, and container vessels. The voluntary ship slowdown takes place at Swiftsure Bank between 125° 17' W or 48° 19' N on the western or southern sides, and 124° 40' W on the eastern side. All vessels transiting inbound or outbound are asked to slowdown when it is safe and operationally feasible to do so. Speed transition zones are in place about 2 nautical miles prior to entering the slowdown area. The ECHO Program is led by the Vancouver Fraser Port Authority in collaboration with government agencies, Indigenous communities, industry partners and environmental groups. For more detailed information, refer to the following internet web address: https://www.portvancouver.com/echo/

Sector Columbia River, Submerged Land Act (SLA) - Tillamook Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Trade West Construction is moving jetty material to a material offloading facility for use on the Tillamook Bay South Jetty repairs. Jetty stone will be transported from the Port of Garibaldi, approximate location 45-33-14 N, 123-54-54 W, to a Material Offload Facility on Kincheloe Point on the Bay Ocean Peninsula in approximate location 45-33-07 N, 123-56-09 W. The tugboat and support vessel involved in this operation will monitor VHF-FM channels 8 and 10. Mariners are asked to maintain at least 100 feet from all tug and barge operations. Please keep crab pots clear of the navigational channel leading into Crab Harbor. Pots obstructing barge movement will be respectfully relocated. Additionally, stone material will be transported and placed on the jetty. Mariners are strongly advised to keep a safe distance from the repair work on the jetty. This project is expected to continue into the Fall of 2026. For more information, contact Keyanee Faught at (435) 669-7976 or email keyaneeef@gmail.com.

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Lake Union - Union Bay Reach/General/Bridges/Temp Deviation	Bridges	The Coast Guard has approve a temporary deviation from the operating schedule that governs the Montlake Street Bridge (LLNR 18240) across the Lake Washington Ship Canal, mile 5.2, at Seattle, WA. This deviation is necessary to accommodate the University of Washington graduation ceremony. The draw of the Montlake Bridge need not open for marine vessels from 1030 to 1430 and from 1630 to 1830 on 13 June 2026. The Montlake Bridge in the closed-to-navigation position provides 30 feet of vertical clearance throughout the navigation channel, and 46 feet of vertical clearance throughout the center 60 feet of the bridge; vertical clearance references to the Mean Water Level of Lake Washington. Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. The normal operating schedule for the Montlake Bridge operates in accordance with 33 CFR § 117.1051(e). For more information on these bridge closures contact Colleen Kelly at kellyc@wsdot.wa.gov	Lat: 47° 38' 50" Lon: -122° 18' 17"
Lake Union - Union Bay Reach/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes	Marine Construction (Excluding Bridges)	Redside Construction, Inc. will be conducting marine demolition and float system installation at Foster Island, WA for the WA Park Arboretum Waterfront Trail Renovation, in approximate location 47-38.78' N 122-17.551W, from 16 May 2026 through 01 Nov 2026. A 40' x 90' barge and support vessels will be staged off the pier face and will be monitoring VHF-FM channels 13 and 16. White flashing lights will be used to demarcate the barge. Mariners are requested to use caution and reduce wake when transiting the area. For additional information, contact Jeremy Helser at (360) 250-4328 or Sam Berry at (206) 940-0564. TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Columbia River - Vancouver To Bonneville/General/Bridges/Temp Deviation	Bridges	The Coast Guard intends to approve a temporary deviation from the normal operating schedule that governs the Interstate I-5 Bridge (BRDG UID 39772) (LLNR 11258) across the Columbia River, RM 106.5. The subject bridge need not open the draw to marine vessels during the following dates and times: from 1100 to 1400 on 07 Aug 2026. This draw closure supports the Hands Across the Bridge event. The Interstate I-5 Bridge draw operates in accordance with 33 CFR 117.869 (a). When the draw is in the closed-to-navigation position, the bridge provides 16 feet of vertical clearance above Columbia River Datum 0.0. An alternate fixed span provides 34 feet above Columbia River Datum 0.0. This part of the Columbia River does not have an immediate alternate route for vessels to pass. Vessels able to pass through the I-5 Bridge with the draw in the closed position may do so at any time. If any mariner cannot support this deviation requests, please submit comments by 31 May 2026 at d13-smb-d13-bridges@uscg.mil. For more information on the closure of the Interstate I-5 Bridge contact Chris Bush at chris.a.bush@odot.oregon.gov or (971) 673-5892.	Lat: 45° 37' 07" Lon: -122° 40' 32"

TITLE	SUBCATEGORY	DESCRIPTION	LOCATION
Columbia River - Willamette River/General/Bridges/Temp Deviation	Bridges	The Coast Guard has approved a temporary deviation to the operating schedule that governs the Morrison Highway Bridge (LLNR 14955.5), mile 12.8, across the Willamette River at Portland, Oregon. This deviation is necessary to accommodate bridge deck repairs. This deviation allows the double bascule draw to operate in single leaf mode (one half of the draw) during extended weekends during May, June and July. The approved operating schedule is from 2200 on Friday to 0500 on Tuesday on the following dates: 01 – 05 May; 15 – 19 May; 12 – 16 June; 19 – 23 June; 10 – 14 July; 24 – 28 July. If a tug is required for assistance, contact the Hawthorne Bridge operator via VHF Channel 13 or phone (503) 988-3452 four (4) hours prior to arriving at the Morrison Bridge. The vertical clearance for the Morrison Bridge in the closed-to-navigation position is 69 feet above high water referenced to the vertical clearance above Columbia River Datum 0.0. Vessels that do not require a bridge opening may continue to transit beneath the bridge during this closure period. The subject bridge will be able to open one half of the draw for emergencies, and there is no immediate alternate route for vessels to pass. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the effective period of this temporary deviation. For additional information contact Matt Studer at matt.studer@multco.us, 503-708-0740	Lat: 45° 31' 04" Lon: -122° 40' 11"

Columbia River - Willamette River/General/Bridges/Temp Deviation	Bridges	The Coast Guard has approved a temporary deviation to the operating schedule that governs the Burnside Bridge (LLNR 14955.4) (BRDG UID 38553), across the Willamette River, mile 12.4, in Portland, OR. This deviation is necessary to accommodate the Burnside Bridge Centennial Event. This deviation allows the subject bridge to remain in the closed-to-navigation position from 0700 until 1900 on 30 May 2026. The Burnside Bridge provides a vertical clearance 64 feet above OHW in the closed-to-navigation position (clearance is referenced to the Columbia River Datum 0.0.). Vessels which do not require a bridge opening may continue to transit beneath the bridge during this closure period. The bridge will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. In accordance with 33 CFR 117.35(e), the drawbridge must return to their regular operating schedule immediately at the end of the effective period of this temporary deviation.
