| TITLE | SUBCATEGORY | DESCRIPTION | LOCATION |
|---|---|---|---|
| Sector Columbia River, Submerged Land Act (SLA) - Chetco River/General/Marine Construction (Excluding Bridges)/Dredging | Marine Construction (Excluding Bridges) | The M/V YAQUINA may be conducting dredging activities at the Chetco River Entrance and Turning Basin (RM 00-05 to RM 00+18) from 25 Jun – 09 Jul 2025. Disposal will be at BERM (NS). USACE requests mariners transit at their slowest safe speed to minimize wake when in the vicinity of a dredge and proceed with caution after passing arrangements have been made on VHF-FM channel 13. Vessel(s) and/or equipment may encroach into the channel. Mariners are advised that the start and ending dates for dredging activities may vary due to unforeseen on-site conditions, such as gill net fishing, weather and other factors. | Lat: 42° 02' 34" Lon: -124° 16' 20" |
| Sector Columbia River, Submerged Land Act (SLA) - Chetco River/General/Marine Events/Fireworks | Marine Events | 04 JUL 2025, 9:30p.m. - 11:00p.m. Fireworks display launched from land over the Chetco River, Harbor, OR. Observe a 450-yard radius safety zone around the launch site at position 42°2'39.77"N 124°16'13.27"W. | Lat: 42° 02' 40" Lon: -124° 16' 13" |

Columbia

Additional MSI Categories

| TITLE | SUBCATEGORY | DESCRIPTION | LOCATION |
|---|---|---|---|
| Sector Columbia River, Submerged Land Act (SLA) - Columbia/General/Bridges/Repairs, Painting, Or Fender Replacement | Bridges | WSDOT will be painting and making repairs on the I-82 Highway Bridge (LLNR 12752) across the Columbia River at river mile 290.5. Construction will occur from 25 Sep 23 to 31 Oct 25, with working hours 24 hours a day, 7 days a week, Monday through Sunday. A containment system will be attached to the bridge 24-hours a day, 7 days per week. The containment structure for painting the existing steel portion below the deck will be installed and will reduce the vertical clearance by 10 feet, however, only half the bridge span will have containment at any given time. The I-82 Highway Bridge provides 85.0 feet of clearance at midspan. The containment system will prevent any falling debris once it is constructed. The traveler support system repairs will be above the bridge deck and all paint work will be underneath the bridge deck. Mariners are advised to use caution while transiting the area. For additional information, please contact Alex Sanguino at (509) 222-2403, email sanguia@wsdot.wa.gov, or Andres Mendoza at (509) 222-2440, email mendoza@wsdot.wa.gov. | Lat: 45° 55' 54" Lon: -119° 19' 43" |
| Sector Columbia River, Submerged Land Act (SLA) - Columbia/General/Bridges/Lighting and Other Signals | Bridges | One of the pier lights on the SE end of the bridge is reported extinguished on the Paso-Kennnewick Highway Bridge (LLNR 13052.5) aka Blue Bridge. | Lat: 46° 13' 26" Lon: -119° 08' 10" |
| Sector Columbia River, Submerged Land Act (SLA) - Columbia/General/Bridges/Lighting and Other Signals | Bridges | The lower pier light is reported flashing (improper characteristics) on the Oregon Slough I-5 Highway Bridge. | Lat: 45° 36' 28" Lon: -122° 40' 53" |
| Sector Columbia River, Submerged Land Act (SLA) - Columbia/General/Marine Construction (Excluding Bridges)/Dredging | Marine Construction (Excluding Bridges) | HME Construction will be dredging in the vicinity of the USCG Tongue Point facility from 14 Jun – 01 Aug 2025. The dredge Sea Horse, tug Rachelle Brusco and other assist vessels will monitor VHF-FM channel 16 and operate on channel 67. Ocean disposal will take place in the MCR Deep Water Site. For more information, contact Evan Gross at (503) 250-1827. | Lat: 46° 12' 28" Lon: -123° 46' 12" |
| Sector Columbia River, Submerged Land Act (SLA) - Columbia/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | Advanced American Construction will be replacing the pile dikes located near Sand Island on the Columbia River RM 4 to 6.5 (Washington side of channel). The work includes pile driving, pile removal, and in water rock placement. The vessel Schweiger and Derrick Barge DB888 will be on station from approximately 16 Jun – 30 Nov 2025 working 0700 to 1730 Monday through Sunday. Onsite equipment will monitor VHF-FM channels 13 & 16 during working hours. During non-working hours, floating equipment will remain on station with steady white lights on all four corners. Mariners are requested to reduce speed and avoid work area. Please contact Travis Waggener at 541-912-9026 or email at travisw@callaac.com for additional information. | Lat: 46° 15' 28" Lon: -123° 58' 33" |
| Sector Columbia River, Submerged Land Act (SLA) - Columbia/General/Marine Construction (Excluding Bridges)/Dredging | Marine Construction (Excluding Bridges) | The Dredge Oregon will perform maintenance dredging on the Columbia River near Pillar Rock Upper Range, on the Washington side outside of the channel, between RM 27+35 and RM 28+52, from 01 – 16 July 2025. Placement will be on Pillar Rock Island. The Dredge Oregon, along with workboats Clackamas, Ivanhoff, and Williams monitor VHF 13 and 16. Mariners are requested to contact the dredge to make passing arrangements and proceed with minimum wake. Dredge personnel may also be reached by phone at (503) 369-1505 or (503) 789-7238. | Lat: 46° 15' 28" Lon: -123° 33' 46" |

| | | | |
|---|---------------|---|--|
| Sector Columbia River, Submerged Land Act (SLA) - Columbia River/General/Bridges/Repairs, Painting, Or Fender Replacement | Bridges | WSDOT and Garco Construction will be replacing the decking and repairing piers and crossbeams of the I-90 Highway Bridge across the Columbia River at RM 420 at Vantage WA. Work will start on 4 Mar 2024 and is anticipated to be complete in Nov of 2027. Typical work schedule will be Monday – Friday, 0700 – 1730 with occasional night work. A containment system will be installed on the east span reducing the vertical navigation clearance by 10ft. With all construction projects there is a hazard of falling debris, the containment system is designed to prevent any debris from falling into the water. However, mariners are advised to use caution while transiting the area. For the initial phase the main navigation channel will not have containment installed and provides 73.5 feet of vertical navigation clearance at High Pool Elevation of 571.5 feet. Subsequent phases will have containment installed over the main navigation channel, and updates will be posted in future editions of the LNM. For additional information, contact Justin Ludwig at (208) 704-0122 and email JustinL@garco.com. | Lat: 46° 56' 32" Lon: -119° 58' 23" |

Lake Washington

Additional MSI Categories

| TITLE | SUBCATEGORY | DESCRIPTION | LOCATION |
|---|---------------|--|-------------------------------------|
| Union Bay Reach - Lake Washington/General/Bridges/Maintenance | Bridges | WSDOT is a year into a multi-year project (ending late 2027) to maintain Pavement, Deck, Joints & Drainage Project on the Interstate 5 Highway Bridge (LLNR 18230) across the Lake Washington Ship Canal in Seattle, WA, at mile 4.2. The project has installed suspended scaffolding below the upper deck of the I-5 Highway Bridge. Mariners are advised that the scaffolding has reduced vertical navigation clearance by ~3 feet. Mariners are advised to use caution and pay attention to overhead work while transiting the area. For additional information, or to discuss the reduction of clearance, contact Mike Cummings at (206) 743-2140 or michael.cummings@atkn.com. | Lat: 47° 39' 11" Lon: -122° 19' 21" |
| Union Bay Reach - Lake Washington/General/Bridges/Construction | Bridges | Work on the I-405 Brickyard to 527 Improvement project will continue along the shore of the Sammamish River, directly east of the I-405/SR522 Interchange. Activities will include excavation near the water edge, pile removal, and large-scale bridge construction activities that will reduce overhead clearance in select areas. Work will continue the first new bridge beginning on March 17th, 2025, and will last through October 31st, 2025. Beginning in April 2025, overhead clearance will be temporarily reduced to 25', extending 7' from the North Bank of the Sammamish and 36' extending 7' from the South Bank of the Sammamish for a length of 85'. Beginning in May 2025, overhead clearance across the Sammamish will be permanently reduced to a minimum of 34.75' across the full width of the river. This work will be to set new precast girder elements across the Sammamish for the first of three new bridges. The typical work schedule is M-F, from 0700 to 1700. Work may occur on Saturdays, Sundays, and nights depending on the construction schedule. No work is to be performed in the water. For more information, contact The Construction Hotline at 425-354-3232 or email info@405Brickyard.com. | Lat: 47° 45' 24" Lon: -122° 11' 06" |
| Union Bay Reach - Lake Washington/General/Bridges/Construction | Bridges | The dates/times have changed for the construction project on the I-90 Highway Bridge (East Channel) (BRDG UID 31114) across Lake Washington. The revised work schedule will be from Sep 18 – Oct 5, 2025, and the work will be 24-hours per day seven days per week, but unforeseen delays could extend the completion date. Containment will be installed to protect for fall hazards to mariners, and the containment will not reduce the bridge's vertical clearance. For more information contact Nathan Walker at (253) 355-4403 or nathan@ceccantiinc.com. | Lat: 47° 34' 44" Lon: -122° 11' 59" |
| Union Bay Reach - Lake Washington/General/Bridges/Temp Deviation | Bridges | The Coast Guard intends to approve a temporary deviation from the normal operating schedule that governs the Montlake Street Bridge across the Lake Washington Ship Canal, mile 5.2. The Montlake Street Bridge need not open the draw for marine vessels during heavy road traffic for the 2025 University of Washington football games on the following dates and times: August 30, 2025 – from 1700 to 2030 and from 2300 to 0130 (Aug 31). September 6, 2025 – from 1700 to 2030 and from 2300 to 0130 (Sep 07). September 27, 2025 – TBD. October 10, 2025 – from 1500 to 1830 and from 2100 to 2330. October 25, 2025 – TBD. November 15, 2025 – TBD. November 29, 2025 – TBD. This deviation will allow the Montlake Bridge to remain in the closed-to-navigation position before and after each game. The Montlake Bridge in the closed-to-navigation position provides 30 feet of vertical clearance throughout the navigation channel, and 46 feet of vertical clearance throughout the center 60 feet of the bridge; vertical clearance references to the Mean Water Level of Lake Washington. Vessels which do not require a bridge opening may continue to transit beneath this bridge during the closure. The bridge will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. The Coast Guard will publish any updates or changes to this operating schedule in future LNM publications once game times are announced. For more information on these events contact Colleen Kelly at kellyc@wsdot.wa.gov. Please submit a comment if these closures cannot be supported by 21 Jun 2025 at d13-smb-d13-bridges@uscg.mil. | Lat: 47° 38' 50" Lon: -122° 18' 17" |

| Shilshole Bay - SalmonBay/General/Bridges/Temp Deviation | Bridges | The Coast Guard intends to approve a temporary deviation from the operating schedule that governs the Ballard Street Bridge (LLNR 18180) that crosses the Lake Washington Ship Canal in Seattle, WA, mile 1.1. The deviation is necessary to accommodate heavier than normal roadway traffic associated with fireworks display over Lake Union. The bridge will remain in the closed-to-navigation position prior to and after the fireworks display. To facilitate this event, the draw of the bridge need not open to marine vessels from 2130 on 04 Jul 2025 to 0130 on 05 Jul 2025. Vessels which do not require bridge draw openings may continue to transit beneath the bridge during the closure period. The lift spans will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the designated period. If this closure cannot be supported, please submit comments by 23 Jun 2025 at d13-smb-d13-bridges@uscg.mil. For additional information, contact Kit Loo at (206) 684-3669. | Lat: 47° 39' 35" Lon: -122° 22' 34" |

Sector Puget Sound, Submerged Land Act (SLA)

Additional MSI Categories

| TITLE | SUBCATEGORY | DESCRIPTION | LOCATION |
|---|---------------|---|--|
| Sector Puget Sound, Submerged Land Act (SLA)/General/Bridges/Construction | Bridges | The US-2 Priest River Bridge Replacement Project will conduct barge-mounted geotechnical drilling at Priest River mile 0.4. The work is scheduled from 01 Jul – 31 Aug 2025. Times of operation: daily, from 0600 to 1900 hours, Monday through Sunday. Drilling locations are within 100' upstream and downstream of the US-2 Priest River Bridge at river mile 0.4. Drilling will be conducted from a non-powered barge. The barge will be anchored in the vicinity of the bridge and will remain anchored within the navigational channel during non-working hours. A jet boat tender vessel supports barge activities and will be located within the navigational channel and adjacent to the barge during work operation hours. Support boat will be moored at the Bonner Park West dock or removed from the water when no drilling operations are taking place. The barge will be anchored at each of the four (4) corners and will be affixed with all-around white lights on all four corners. At night, the barge and associated lights will flash to alert mariners of its location. "No Wake" signs are currently posted at the bridge location. Mariners are advised to keep a minimum 50' distance from the barge and tender vessel and use caution in the area. The contractors performing this work are GeoEngineers and CRUX. The point of contact for the contractor is Alex Navarra, GeoEngineers; at (509) 951-4812, or anavarra@geoengineers.com . | Lat: 48° 10' 50" Lon: -116° 53' 38" |
| Sector Puget Sound, Submerged Land Act (SLA)/General/Miscellaneous | Miscellaneous | Olympic Coast National Marine Sanctuary will be conducting oceanographic research between Makah Bay and Cape Elizabeth from 05 May – 01 Oct 2025. The R/V Storm Petrel will have deployed 10 moorings with surface expressions and 2 subsurface moorings by 16 May at the locations listed below. For the 10 moorings with surface expressions, the gear consists of a 12-inch low-drag surface float (Polyform LD-2) with an 18-foot-long aluminum halibut pole with radar reflector and an 8-meter-long Amsteel line attached to sub-surface gear. Two subsurface moorings have been deployed as of 06May2025. OC-02 is an acoustic mooring deployed at a depth of 94 meters with a height off bottom of 6.2 meters. PPS is an environmental DNA collection mooring deployed at a depth of 42 meters with a height off bottom of 15 meters. | Sector Pudget Sound, Submerged Land Act (SLA) - StraitofJuanDeFuca/General/Naval Activity/Naval Testing (Surface/Underwater) | Naval Activity | The Naval Oceanographic Office (NAVO) will be testing an Autonomous Underwater Vehicle (AUV) in Discovery Bay aboard M/V Ocean Victory. Testing will be intermittent over 24 Jun – 01 Jul 2025, day or night as needed. The AUV will operate at depths of 250ft and up to 2 km away from the Ocean Victory. During AUV launch and recovery operations the vessel will have limited maneuverability. Mariners in the vicinity of this operation are requested to contact Ocean Victory for passing arrangements. For more information, contact Brandon McWilliams at (228) 689-8266. | Lat: 48° 05' 17" Lon: -122° 53' 57" |
| Sector Pudget Sound, Submerged Land Act (SLA) - StraitofJuanDeFuca/General/Naval Activity/Naval Gunnery Exercises | Naval Activity | The NAS Whidbey Island Small Arms Safety Range located off the western shore of Whidbey Island will be active on the following schedule: 30 JUN 25 0800 to 1500; 01 JUL 25 0800 to 2300; 07 JUL 25 0800 to 1500; 09 JUL 25 0800 to 1500; 10 JUL 25 0800 to 1500 11 JUL 25 0800 to 1500 Red flashing lights (at nighttime) mark the onshore Northern and southern firing boundaries out to 2000 yards from the shoreline during live fire operations. For more information contact the Safety Officer at 360-257-3825 or VHF-FM channel 82A (1082). | |
| Sector Pudget Sound, Submerged Land Act (SLA) - StraitofJuanDeFuca/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration | Threatened And Endangered Species Advisory (TESS Advisory) | As of 01 Jun 2025, the Enhancing Cetacean Habitat and Observation (ECHO) Program voluntary route alteration is in effect for all tugs transiting the Canadian inshore area of the Strait of Juan de Fuca. If it is safe and operationally feasible to do so, tugs are requested to move south of the known killer whale feeding area and navigate either through the outbound shipping lane or the inbound route alteration zone, while maintaining a buffer distance of 1,000 meters from the Traffic Separation Scheme. The inbound route alteration zone is 1,500 meters wide and occurs in the area between 123-52-21.192 W, 48-18-37.332 N and 124-31-33.378 W, 48-28-53.316 N. The ECHO Program voluntary route alteration initiative aims to reduce underwater noise in known southern resident killer whale feeding areas along the northern edge of the Strait of Juan de Fuca. This initiative will remain in effect 24 hours a day through 30 Nov 2025. For more detailed information related to the ECHO program, visit the following internet address: https://www.portvancouver.com/environment/healthy-ecosystem/echo . | |
| Sector Pudget Sound, Submerged Land Act (SLA) - StraitofJuanDeFuca/General/Threatened And Endangered Species Advisory (TESS Advisory)/Marine Wildlife Migration | Threatened And Endangered Species Advisory (TESS Advisory) | Effective 01 Jun 2025, the Enhancing Cetacean Habitat and Observation (ECHO) Program voluntary ship slowdown in the vicinity of Swiftsure Bank is in effect for all inbound and outbound commercial and government vessels. If it is safe and operationally feasible to do so, commercial and government vessels are requested to not exceed the following speeds through the water: 11 knots – Bulkers, tankers, general cargo vessels, and government vessels; and, 14.5 knots – Vehicle carriers, cruise ships, and container vessels. The voluntary ship slowdown includes an area beginning 5 NM prior to entering the Traffic Separation Scheme on the western and southwestern entrance, until the 124-40-00 W longitudinal line (radio call in point 1). Speed transition zones are in place about 5 nautical miles prior to entering the slowdown area. The ECHO Program ship slowdown at Swiftsure Bank aims to reduce underwater noise in known southern resident killer whale feeding areas. This initiative will remain in effect 24 hours per day until 2359 PDT on 31 Oct 2025. The voluntary slowdowns at Swiftsure Bank and in Haro Strait and Boundary Pass are led by the Vancouver Fraser Port Authority's ECHO (Enhancing Cetacean Habitat and Observation) program, in cooperation with government agencies, Indigenous communities, industry partners and environmental groups. For more detailed information related to this slowdown and the ECHO program, refer to the following internet address: https://www.portvancouver.com/environment/healthy-ecosystem/echo . | |

| Sector Columbia River, Submerged Land Act (SLA) - Tillamook Bay/ATON/Advanced Notice of Change | Advanced Notice of Change | The U.S. Coast Guard is changing the aids to navigation that mark the entrance into Tillamook Bay: Tillamook Bay Approach Lighted Whistle Buoy T (LLNR 680-9810) will be disestablished, and a virtual AIS signal will be broadcast in approximate position 45-34-08.600N 123-59-16.900W. Mariners are encouraged to share comments on this proposed change and the performance and operation of these aids to navigation. All comments should be sent to the email address D13-SMB-D13-LNM@uscg.mil. Any discrepancy for these or other Aids to Navigation should continue to be reported to US Coast Guard Sector Columbia River. | Lat: 45° 35' 35" Lon: -123° 58' 52" |
| Sector Columbia River, Submerged Land Act (SLA) - Tillamook Bay/General/Bridges/Repairs, Painting, Or Fender Replacement | Bridges | ODOT will be conducting needed repairs and construction on the OR-131 Tillamook River Bridge (BRIDG UID 36524) across the Tillamook River at mile 1.4. Construction will begin on 02 Jun 2025 and continue through 05 Sep 2025. The work schedule is in three stages and mariners may notice some non-work time. Containment will be installed below the subject bridge and the vertical clearance will be reduced from 15 feet to 9 feet above high water and the horizontal clearance will be reduced from 70 feet to 15/22 feet. The containment will be installed on half of the span, however, the navigation channel approaching the bridge is skew to the bridge leaving 15 feet of clearance transiting upriver and 22 feet of horizontal clearance transiting down river. For more information contact Matt Johnson at (503) 440-5572 or Matthew.R.Johnson@odot.oregon.gov. | Lat: 45° 27' 25" Lon: -123° 52' 36" |
| Sector Columbia River, Submerged Land Act (SLA) - Tillamook Bay/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | Trade West Construction is moving jetty material to a material offloading facility for use on the Tillamook Bay South Jetty repairs. Jetty stone will be transported from the Port of Garibaldi, approximate location 45-33-14 N, 123-54-54 W, to Kincheloe Point on the Bay Ocean Peninsula in approximate location 45-33-07 N, 123-56-09 W. The tugboat and support vessel involved in this operation will monitor VHF-FM channels 8 and 10. In addition, at various times stone material will be transported and placed on the jetty. Mariners are strongly advised to keep a safe distance from the tug and barge operations and the repair work on the jetty. This project is expected to continue into the Fall of 2025. For more information, contact Keyanee Faught at (435) 669-7976 or email keyaneef@gmail.com. | |

|---|-------------|---|--|
| Lake Union - Union Bay Reach/General/Bridges/Temp Deviation | Bridges | The Coast Guard has approved a temporary deviation from the operating schedule that governs the University Street Bridge, mile 4.3, across the Lake Washington Ship Canal at Seattle, Washington, and the Montlake Bridge, mile 5.2, across the Lake Washington Ship Canal at Seattle, Washington. The University Bridge need not open to mariners from 0830 to 1000 on 10 May 2025, and the Montlake bridge need not open to mariners from 0830 to 0930 on 10 May 2025. These deviations allow the draw spans to remain in the closed-to-navigation position for the Beat-the-Bridge foot race. Vessels which do not require bridge openings may continue to transit beneath the bridge during the closure period. The subject bridges will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the designated date/time. For information contact Kit Loo at (206) 684-3669 or kit.loo@seattle.gov. | Lat: 47° 38' 50" Lon: -122° 17' 60" |
| Lake Union - Union Bay Reach/General/Bridges/Temp Deviation | Bridges | The Coast Guard has approved a temporary deviation from the operating schedule that governs the University Bridge. The deviation accommodates heavier than normal roadway traffic associated with fireworks display over Lake Union. The bridge will remain in the closed-to-navigation position prior to and after the fireworks display. To facilitate this event, the draws of the bridge need not open to marine vessels from 2130 on 04 Jul 2025 to 0130 on 05 Jul 2025. Vessels which do not require bridge draw openings may continue to transit beneath the subject bridges during the closure period. The lift spans will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. In accordance with 33 CFR 117.35(e), the drawbridges must return to their regular operating schedule immediately at the end of the designated period. For additional information, contact Kit Loo at (206) 684-3669 | Lat: 47° 39' 11" Lon: -122° 19' 12" |
| Lake Union - Union Bay Reach/General/Bridges/Temp Deviation | Bridges | The Coast Guard has approved a temporary deviation for the operating schedule that governs the University Bridge, mile 4.3, crossing the Lake Washington Ship Canal in Seattle, WA. The deviation accommodates participants safety for the Lake Union 10K running event. The draw of the subject bridge need not open for marine vessels from 0730 to 1030 on 10 Aug 2025. Vessels that do not require a bridge opening may continue to transit beneath the bridge during the closure period. The draws will be required to open, if needed, for vessels engaged in emergency response operations during this closure period. | Columbia - Willamette/General/Marine Construction (Excluding Bridges)/Facilities, Barriers, Manmade Reefs, Riprap, Jetties/Dikes | Marine Construction (Excluding Bridges) | Ballard Marine will be completing work on a new outfall pipe in the Willamette River near the I-205 Abernethy Bridge from 01 Jul – 31 Aug 2025. The specific location is 45°-21'-55.1952"N, 122°-36'-9.2592" W, at approximate RM 25 near Jon Storm Park. The work includes dredging, dive operations, and crane operations for final pipe fitting and backfill material placement. for final pipe fitting. Work hours will be 0700 – 1600 Monday – Saturday. The DB Beaver, material barges, and dive vessels will be on scene at various times. Mariners are encouraged to contact the barge and vessel operators via VHF-FM Channel 16 and the working frequency 69. Barges and vessels will attempt to keep the navigational channels open at all times but may need mariners go provide a 300-foot exclusion zone during dive or crane operations. Additionally, Ballard Marine may set safety buoys to demarcate work zones and mariners should alter their course to remain out of active work zones. For more information, contact Patrick Baur at (360)838-3473 or Patrick.baur@ballardmc.com. | Lat: 45° 21' 55" Lon: -122° 36' 09" |
| Columbia - Willamette/General/Miscellaneous | Miscellaneous | The U.S. Army Corps of Engineers (USACE) has realigned the Lower Willamette River Federal Navigation Channel between River Miles 3.3 and 11.7 to serve the public interest. The realigned channel is generally 600 feet wide, with wider sections in specific areas to accommodate commercial navigational traffic, including turning vessels. The portion of the realignment occurring between the St. Johns Bridge and the BNSF Railroad Bridge at River Mile 5.1 shifts the channel into deeper water and does not require any dredging. All other realigned portions of the channel fall within the previously established channel boundaries (representing a narrowing in those areas). USACE National Channel Framework (NCF) geospatial dataset is available for viewing and download at: https://experience.arcgis.com/experience/b413139f18c046009ebcf62abea941dd . Select "View NCF Map". On left side, scroll down to DISTRICT = Portland. Zoom into Willamette River and select the red-colored channel reach area. On right, select "Download" to save as a zip file. The zip file contains a geodatabase (.gdb) of the channel area extents for all channels located within NAD83 Oregon North datum, including the Willamette River. Questions regarding this channel realignment should be directed to USACE Project Manager Jessica Stokke at (503) 808-4352 or Jessica.B.Stokke@usace.army.mil. | |
